Quebec Gazette.

A POLITICAL, COMMERCIAL, AND ADVERTISING JOURNAL.

No. 8322.] MONDAY MORNING, SEPTEMBER 1ST, 1856. [VOL. 94.]

PLUMBERS' MATERIALS

To be sold Cheap,

UNTIL THE WHOLE OF HIS PRESENT STOCK IS DISPOSED OF,

CONSISTING OF

STRONG LEAD PIPE, ½, ⅝, ¾—4, 5, and 6 lbs. Milled Lead; WASH-HAND BASINS of different quality; a large assortment of

SINKS, PUMPS, COCKS, BATHS, WATER-CLOSETS, HOT WATER APPARATUS,

adapted for any Stove; also, GAS FITTINGS in Brass and pure Block Tin Tube, 3-16, 1-4, 5-16, 3-8, 7-16, 1-2, 5-8, and 3-4; Plain and Fancy Brackets, &c., too numerous to detail.

☞ 52 TONS LEAD PIPE AND SHEET LEAD,

Expected by first arrivals, direct from factory, with a large assortment of Bath Mountings in Porcelain and Granite Slabs, plain and figured—they are a new article, well got up in England, and VERY CHEAP. Plated, Fancy and Enamelled Mountings; also, Victoria, Grecian and Crystal Fountain Wash-hand Basins, Green, Blue, Pink, Maroon, and White figured; also, common Wash-hand Basins and Fittings in great variety, from 3s. to 7s. 6d.

PATENT PAN WATER-CLOSETS,

To act with or without Cisterns—also, a large assortment of Ridgway's Water Closets. The undersigned speaks from experience and would recommend them to the Trade and the Public as being a very cheap and excellent article.

☞ 100 DOZ. PATENT VALVE COCKS FOR HOSE, &c.

Also Patent Cistern Ball Cocks, warranted to be noiseless from the action of the water; Iron and Block Tin Tubing, and many other articles in the above line too numerous to detail.

Now on hand and well worthy the attention of town and country householders wanting good COOKING and HOT WATER APPARATUS, some of C. C. TOLMAN'S FURNACE RANGE STOVES, and will be ready about the 15th April, a NEW MODEL STOVE not larger than the ordinary Cooking Stove, to boil eight pots, 20 inch roasting grate, large baking oven, and will boil 400 gallons of water per day—it is also very economical for fuel.

P S—The above Lead Pipe is not American Composition, the very thickest of which being easy burst by water pressure, but is pure malleable Mead direct from the British factory.

JOHN PYE.

Quebec, March 20th 1856.

Paints, Oils, Varnishes.

☞ 86 CASKS BOILED LINSEED OIL, manufactured by BLUNDELL, SPENCE & Co. The names of the manufacturers are mentioned as a guarantee to the purchaser, as there is a Spurious Article selling in this market—a drug manufactured in the United States, from ROSIN, held in solution by *Naptha*, and not from the LINSEED.

The Subscriber also offers for Sale:

WHITING,

14 Tons WHITING in Packages from 2 to 7 cwt.

PAINTS GROUND IN OIL, put up in packages to suit purchasers.

VARNISHES,

Coach-Body, Carriage, Cabinet, Mastic, and Demar Varnishes.

PATENT NOTTING—an article of great importance to the HOUSE and SHIP-PAINTER, as it is a sure preventive of Rosin bleeding from knots, and a decided improvement on the old system of killing them with common Glue.

DRY COLOURS—A select assortment in convenient quantities to suit purchasers.

GOLD LEAF, Silver Leaf; Gold, Silver and Copper Bronzes; and Dutch Metal.

STAINED GLASS, Ruby, Green, Orange, Blue, Amber and Purple—Ground and Muslin Glass for Hall and Staircase Windows.

WINDOW GLASS—Smethwick and German Sheet, in boxes and half boxes assorted.

☞ The Subscriber having a practical knowledge of all the articles he offers for Sale, and having selected them himself, can guarantee them to purchasers.

Quebec, May 17, 1856.

CARD.

GEORGE PEACOCK

BEGS to inform his friends and the public, that he has opened a spacious HOTEL in ST. LEWIS STREET, opposite the Court House in the premises lately occupied by the Provincial Government, known as JONES' BUILDINGS.

☞ MR. PEACOCK returns his sincere thanks for the very liberal patronage he has received in his late capacity as a RESTAURATEUR, and hopes by strict attention to merit a continuance of the same.

Having leased his stables to that well-known Livery Stable-keeper, Mr. F. DRISCOLL, he begs to inform the public that Horses, Carriages, &c., can be obtained at the Hotel. Horses at livery will be attended to with strict attention.

Quebec, May 27th, 1856.

O'NEILL S HOTEL,

LATE

SWORDS,

ST. LEWIS STREET, UPPER TOWN,

QUEBEC.

THE proprietor begs to return thanks to the public for the kind patronage which has been liberally bestowed on him, and informs them that he has in many ways improved with regard to elegance and comfort, this old and well known Establishment. His DINNING HALL has been refitted according to the PARISIAN STYLE, and he flatters himself that his Table will be second to none in the Country. As to the situation of the Hotel, it is in one of the most central and healthiest parts of the City. It is also contiguous to the Court House, Olympic Theatre, Governor's Garden, Citadel, Durham Terrace, and other places of public resort.

Quebec, May 17th, 1856.

Hinchey's Restaurant.

THE undersigned begs to intimate that he has removed his establishment to the House adjoining the Post Office, lately occupied by Mr. THOMAS CARY, where he has always on hand a choice assortment of Liquors and cigars, and where dinners and lunches, put up in the best style, can be obtained at the shortest notice. The situation is central and convenient; the house thoroughly renovated. And the undersigned trusts by strict attention to business to merit a share of the public patronage.

P. HINCHEY.

13th May, 1856.

THE QUEBEC GAZETTE.

QUEBEC, SEPT. 1st, 1856.

WHO IS TO BE RECORDER ?

There is about to be, in the City of Quebec, a Recorder's Court for recovering debts, fines, and penalties, &c. The powers of this Court, the presiding officer of which is to be named by the government and paid by the city, are extensive. The Recorder's Court is to have like powers and like jurisdiction, as to crimes and misdemeanours as the Court of Weekly Sessions, as well as in all those matters of civil concern, not belonging to the ordinary jurisdiction of a court of justice ; and it is to be the court at which all suits brought by the City Corporation may be recovred. There is, in a word, not an individual in the city, be he rich or poor, wise or foolish, who may not be introduced to the Recorder. That the Recorder should be a person of some considerable standing in society is thus imperative. Indeed, the act provides that he shall be one learned in the law. He is to be a barrister of not less than five years standing, and to receive not less than three hundred pounds a year and not more than £500. He must have five years experience, and five years knowledge ; but a member of the Quebec Bar of five years standing may not have had five cases to defend or to follow up in the whole of that time, and may have a very slight acquaintance with law. He may be a man of no mind, indifferently educated, and who reads cult indeed, to name individuals, who are advocates, attornies, barristers, &c., of not less than five years standing, who never have pleaded any cause and are quite incapable of doing so. It would not surely be wise to confer upon such an individual so important an office as that of Recorder, nd office once held by Chancellor Kent, and which is besides in England, an office of the highest respectabiliy. If Quebec is to have a Recorder and a Recorder's Court, the Recorder should be a gentleman, generally admitted to be possessed of good legal attainments, and of a good moral character. No one could acquiesce in the appointment to such an office of a man of totally bad character, or of indifferent character, or whose habits and mode of life have rendered him despicable in the eyes of people of respectability. Nothing could be more dangerous to society than the appointment of a man of indifferent character to so responsible an office. He might spitefully abuse it or he might degrade both himself and it. On the ordinary magistrate the public have some hold ; but on the Recorder, except through the press, the public apparently have no hold. He may fine and imprison, as he pleases, the most innocent among us, at will. A complaint only has to be lodged by any bumbailiff or subconstable to be disposed of in any manner by the Recorder. Any loose, idle, or disorderly person, or *other* offender may be arrested and sentenced by the Recorder, at his discretion, to pick oakum in the common gaol ; any person whose taxes have not been paid on the first summons of the tax gatherer may have his household furniture conveyed to the public market place and summarily sold, with the exception of one stove, bedding and dresses, one cord of firewood, one pig, one cow, and tradesmen's tools. This is a wonderful power for one man to possess, and it is surely necessary that the one man power should be admitted to be a man of good standing in society, and one sensible of his responsibility. We certainly hope that the government in naming a lawyer of five year's standing to be the Recorder of Quebec will carefully look into the antecedents of the nominee. If he may have been a briefless barrister, deficient in good sense, a demagogue, a man of indifferent moral character, and deficient in education, these bad qualities should not be his chief recommendation. There are many very able men, now practising at the Quebec Bar, who could fill this new office well. We should not be sorry to see Mr. Solicitor General Ross, if he would accept, appointed thereto, nor Mr. Charles Alleyn, nor Mr. Thos. Pope, nor Mr. Young, nor Mr. Vanovous, nor several others whom we could name ; but we should very much regret to find a man appointed to so important anoffice ignorant of law as of good breeding.

It will be seen by an advertisement in another column that the steamer "Saguenay," will make one more trip this season to Ha! Ha! Bay—leaving here Wednesday, 3rd inst. and that the change in the day of departure for Riviere du Loup will not take place till the following week.

The sympathies of our citizens have been aroused by the announcement of the benefit at the Music Hall this evening for the sufferers by the late inundation at Lyons, and there will be a very large audience. Mr. Hannington's exhibitions merit success by their intrinsic excellence every care being bestowed upon their production, and hence their great popularity. We have always remarked with pleasure the readiness of the proprietor to shew his appreciation of the liberal patronage he has received here and his anxiety to deserve well of the public. His generous offering to-night is another instance of what we have advanced, and we wish him every success.

It is stated in the *Mercury* that the small cannon of the steamer *Saguenay* exploded when fired opposite Cape Eternité, without having injured any person on board. The only thing in human shape injured was the vessel's figure-head. According to the *Mercury*, more damage would have been done had not Gen. Sir Wm. Eye been on board :—"*nihil times, Cæsarem vehis.*"

Propeller Sunk.—The Toronto *Leader* of Friday last says :—Yesterday morning the Propeller Protection was run into by the steamer Boston, at Fiddler's Elbow, about six miles below Gananoque. The Protection sunk immediately and will, it is feared, prove a total wreck. She was principally freighted with European and other goods for merchants in this city. At the time of the collision, the Boston was on her way to Montreal, loaded with flour. No lives were lost.

Captain De Belveze makes the following comparison of the races, who inhabit the two sections of Canada :—

The activity, the spirit of enterprize, natural to the Anglo Saxon race, coupled with the ardour, and the every tendency, and the restleness of this materialistic people, exercise a considerable influence on the inhabitants of Upper Canada. By their manners, habits, ideas of the future and their aspirations, by their enterprize in the town and in the country they present a stronger resemblance to the people of the United States than to the other colonies of Great Britain.

The Lower Canadian, on the contrary, is the very antipodes of the United States. The people are Catholic, sedentary, full of fun, and indifferent to speculation. The French language which has nearly disappeared in the cities is yet maintained in the country parts. The farm of the grand-father is that of the grand-children. They are unable amidst all the diversities of family life even to dream of distant establishments or of any thing new.

To Butchers and Carvers and Gilders.—The meat market at Ghent is now completely free from flies. The simple remedy consists in the inner walls having been painted with laurel oil (*olium lauri nobilis*) the smell of which the flies cannot support. Even gilt frames can be thus preserved unsoiled. The smell of the laurel oil is not unpleasant, and one easily gets accustomed to it.

Fatal Accident on the Lachine Railroad.—On Wednesday evening, while the train of cars was in motion, and near the Stathird class, an Indian of Caughnawaga, jumped from the cars and fell under one of the wheels, which passed over one of his legs. He was immediately picked up and sent by special train to Montreal, thence taken to the General Hospital, but the accident proved fatal. He died the following morning. He was very much intoxicated at the time he leaped from the cars.

The *Monarchist* says that the Governor General will visit Ottawa in September, coming through the Rideau Canal, and proceeding upwards to the Joachim Rapids, returning to the Provincial Show at Kingston on the 23rd.

Water-tight bulkheads are a "great institution." A letter from Callao, dated July 4th, says the steamer Santiago, while running down the coast, struck a rock, which knocked her whole bow in. Had it not been for her water-tight bulkheads she would have gone down with all hands. As it was, she returned safely to Callao.

A prize fight between a bear and a buffalo came off in Chicago, on Friday. The buffalo got the worst of it. After receiving the first stroke, he turned tail, burst through the enclosure, and ran about two miles, before he was caught. On being brought back, the bear choked him to death, and immediately commenced eating him ! The fight took place in presence of 2,000 spectators. We were not aware before that there was so much brutality in Chicago.

CONSPIRACY TO ESCAPE FROM PRISON.

A conspiracy to effect the escape of a prisoner from the city gaol has just come to light. The facts, as far as we have learned, are as follow : A man named John Wilson Fleming was committed a few months since to take his trial at the ensuing assizes, on a charge of horse stealing. Whilst in gaol, he formed an acquaintance with John Clyde, a witness in the "Sewel murder case," and who was detained in custody to prosecute the party accused of committing the foul deed. The nature of their friendship may be guessed at when it is stated that Wilson's father attended at the Police Court, on Saturday, and consented to become responsible in the sum of £20 for Clyde's appearance at the Assizes. The magistrate, knowing him to be a farmer in the County of Peel, and a solvent person, unhesitatingly accepted him as bail. Clyde accordingly was set at liberty ; and immediately afterwards, as it would appear, he was furnished with money by the elder Wilson, to purchase saws and other implements known to burglars to aid the escape of young Wilson. In the evening, he was noticed lurking about the gaol. One of the turnkeys, thinking it strange that, "like the hunted hare, he should return to his old quarters," apprised the governor, Mr. George L. Allen, of the fact, and that gentleman, with his well-known sagacity, immediately placed a watch on Clyde's actions, and caught him introducing, through a window, the implements mentioned. When Clyde was detected, he at once revealed the design. He implicated the elder Wilson, who, with the aid of the police, was captured the same evening. Clyde alleges he was to have a grant of one hundred acres of land, from Wilson, if the accused horse-stealer made good his escape. It is needless to say that the greatly overcrowded state of the prison affords prisoners facilities for devising means of escape, and it requires all the watchful care of the governor to frustrate their attempts. Clyde and Wilson will both be brought up at the Police Court to day.—(*Toronto Globe.*)

(*To the Editor of the Quebec Gazette.*)

Sir,—Some years ago a few philanthropic gentlemen collected a considerable sum of money for the purpose of founding an Hospital in this city, and obtained from the Legislature a charter—since which nothing further has been heard of this humane enterprise. Can you inform the public if the project has been abandoned altogether, and if so, what has become of the money collected ?

I remain, your obedient servant,
"Enquirer."

Quebec, 30th Aug. 1856.

(*To the Editor of the Quebec Gazette.*)

Sir,—On my arrival at Quebec, 24th July, seven of my crew deserted. I searched the house where the men boarded twice ; the first time I failed in taking any of them. The next day the boarding master brought the men before me on the race course, and dared me to touch one of them. For a week I met and saw them walking the street or sitting before the door, which so annoyed me that I made a second attempt to capture them, and succeeded in taking two and put them in jail till the ship was ready for sea, the 22nd August, when the police took them on board. I left the ship in a river boat to post some letters before getting underway, and during my absence, at 4 p. m. ten men came on board armed and forcibly took the men out of the ship, the boarding master at their head.

Edward Johns,
Master Barque "Honor."

RUSSIA.

(From the Times.)

Russia, though with a new Emperor and fresh opportunities, seems far from disposed to enter the path of reform. The obstinate and sullen spirit still lives—humiliations are, it would appear, almost already forgotten, and both Czar and people are as ready as ever to play the old game of pride, violence, and cunning, which was successful for more than 150 years. But we cannot think that at the present time such a display will be successful. Common prudence would advise a more gradual and less demonstrative return to the assumptions and menaces for former days. It is but a few months since Russia accepted the terms of peace proposed through Austrian mediation. At that time we were told daily by the Russian press in Europe of the sincerity and moderation of the Czar. To believe certain prints and certain politicians, Russia was a land of good faith, and her unambitious people were lost in astonishment at the designs imputed to them by the misguided cabinets of the West. About last February, when the representatives of Europe were to meet in Paris, the tone of every Russian organ was most magniloquent and high-minded. Peace, goodwill to all men, popular instruction, railways, canals, improved agriculture, free trade, were in the heart of every Russian. A smile of good-humoured pity was the answer to those who hinted that Muscovite policy might still remain unchanged, and that it would be as well to take guarantees while we were still strong, united, and in earnest. All this lasted until peace was made, and Russia obtained conditions with which she had no reason to be dissatisfied. Now, however, all is changed. Cronstadt is no longer threatened—Poland is for ever abandoned by the West, and will be fully Russianized before war again visits Europe—Bessarabia, with the exception of a narrow slip, is preserved—the Caucasus still remains a Russian possession. The Gour, and all Europe is nodding to the sight. Russia is again taking her stand as a great power, and is no longer a vast prison, with a sovereign, nobility, and people placed under the ban of the world. Hence the old inveterate obstinacy revives ; the old cunning is once more to be tried to discover if it can, as of yore, command success. There can be no doubt of the unwillingness of Russia to cede quietly and honourably what has become by treaty the property of the Ottoman State.

We shall, perhaps, have it explained with many details that the difficulties we complain of were unavoidable ; that the destruction of Kars and the Danubian forts was strictly legal, and that the occupation of Serpents' Island was only some transaction connected with the lighthouse. But facts still remain on record. It is certain that the conduct of the Russians has induced England again to occupy the Black Sea. The Hannibal has been sent to Serpents' Island, and sufficient intimation has been given that in the opinion of the Allies something like a breach of faith has taken place. Compare the conduct of France and England with that of their late enemy. The Allies had more than 250,000 men in the East. They had prepared, far from their own country, immense stores of food, clothing, and warlike material, in expectation of long hostilities. Every man and horse and gun had to be brought away by sea at a time when transport was scarce and dear. Yet in four months, two-thirds of the time allowed, not only the Crimea, but Turkey itself has been cleared of the allied troops. We learn from Constantinople to-day that after the departure of a flotilla then about to sail, scarcely a thousand Frenchmen would be left in Turkey. Our own naval and military establishments have been broken up, and soon Scutari will retain no traces of us except the graves of the dead and the monument which commemorates them. This promptness, so honourable to both nations, has not been imitated by Russia. Although Kars is but some 30 miles from her own frontier, and held but by a few thousand men, she is there still, destroying works, cutting down forests, refusing English officers the right of visiting the spot, and, during her little term of power, playing the despot after the fashion of Warsaw or Tiflis. The same is the case at the mouth of the Danube. Russian troops are still there, and will remain until the latest day allowed by treaty, with perhaps the desperate hope that something will happen to enable them to refuse the cession altogether.

The part of Bessarabia which is to be added to the Principalities is still in Russian hands, and the Czar raises doubts on the topography, and would, as far as may be judged from appearances, gladly evade the condition which for the first time causes his frontier to recede. We do not certainly think that any practical result will follow from these litigious and undignified displays. The other Powers are far too much in earnest to allow any trifling in matters of such importance. It will be observed that Austria, who perhaps knows her neighbour better than we do, has not yet evacuated the Principalities, although she ought to have done so some time since. She is, no doubt, waiting until Russia shall have performed her part of the engagement. That when the end of the six months comes we shall see the Russians unwillingly depart is certain enough. We may in future times have to watch their designs for the recovery of their former territory, but that they will acquiesce for the present, we know, because we have the power to enforce it. But the spirit of the Court of St. Petersburg is not the less apparent. It can hardly be to impose on civilised nations that the Russian sovereign makes this display of impotent obstinacy. Indeed, the impression it must leave on Europeans is rather that Russia is weaker and more sorely wounded than was thought. To see her lingering at the spots she must leave, and performing acts of paltry tyranny to the last, cannot raise her in the eyes of German or Italian. But it may be that on some ignorant and confiding races the spectacle of her armed occupation after the Allies have left the East may have an influence. If she hold Kars after France and England have withdrawn their armies from Constantinople, the fact may be explained consistently with Russian interests among nations to whom Russia alone speaks. Nevertheless, in the end such subterfuges can be of little avail, and the conduct of Russia, by destroying any nascent feeling of confidence among the western nations, will bring on her evils far overbalancing any advantages which a dilatory evacuation can procure.

RUSSIAN NAVAL REVIEW AT CRONSTADT.

The special correspondent of the Morning Post at St Petersburg, under date of Aug. 4, gives details of the naval review at Cronstadt :—

This morning the thunders of artillery awoke all St. Petersburgh, and the sea-coast towns within many miles, to witness a grand review of the Russian mortar-boats off Cronstadt.

The whole of Cronstadt was alert at daybreak on the 4th, and we passed through the whole line of steam-mortar-boats. These were 75 in number, extending along a diagonal front of 15 versts (or ten miles English) *within* Cronstadt, and from that place to the shore of Peterhoff. Every one of these boats was furnished with the screw propeller. More than two-thirds of them carried three mortars each—one in the stern, one amidships, and one in the bows ; the rest carried only two pieces. They were very large. The crew of each boat numbered from forty to fifty. The boats were hastily got up ; they are very light in motion, and of very shallow draught. They offer scarcely any mark, and are considerably lower in the water than the French boats of ours or similar construction.

This was the great naval review, not only of the Russian Baltic fleet which has lived through the war, but of the new fleet of Russian mortar-boats which may be said to have been born of it. To this review Sir C. Napier, inasmuch as he was on a visit to Russia and in the neighbourhood, received a special invitation from the High Admiral of the Empire, the Grand Duke Constantine. I will mention one or two incidents of Sir Charles's visit and sojourn, because they are characteristic of other persons as well as of that well-known officer.

The very first direct intimaiion conveyed to him after his presence in St. Petersburg had been notified to the higher powers, was couched in phrases which would have made many a man wince. He was told that orders had been given at Cronstadt and elsewhere to receive him, should he desire to see those places, and he was politely assured that he would not now experience any difficulty in entering the various fortresses. At the same time the Grand Duke Constantine ordered a steamer to be stationed in the river, just under the windows of Sir Charles's room, on the English quay, and a Russian officer informed the visitor that this vessel was for his special behoof and accommodation ; but, first, he was begged to repair at once to the Grand Duke's residence, the Marble Palace. Sir Charles forthwith donned his Russian cross of St. George (received long ago for the St. Jean d'Acre hit,) and waited on the Grand Duke.

At the quay in St. Petersburgh a crowd of people were collected to see the gallant admiral disembark. When he went to Peterhoff he proceeded in his off-hand way to the Emperor's palace, and demanded of a servant in the grounds whether his Majesty was there. The man could not speak any language that Sir Charles spoke (or rather vice versa), but an English gentleman translated the question and then translated the answer, which was that Alexander II. was not there, but at his farm, a little distance off. No appearance of him in any of the warlike establishments.

Age.—But few men die of age. Almost all die of disappointment, passional, mental, or bodily toil, or accident. The passions kill men, sometimes even suddenly. The common expression, chocked with passion, has little exaggeration in it ; for even though not suddenly fatal, strong passion shortens life. Strong-bodied men often die young—weak men live longer than the strong, for the strong use their strength, and the weak have none to use. They take care of themselves ; the former do not. As it is with the body so it is with the mind and temper. The strong are apt to break, or, like the candle, to run ; the weak burn out. The inferior animals, which live, in general, regular and temperate lives, have generally their prescribed term of years. The horse lives twenty-five years ; the ox fifteen or twenty ; the lion about twenty ; the dog ten to twelve ; the rabbit eight ; the guinea-pig six or seven years. These numbers all bear a similar proportion to the time the animal takes to grow to its full size. But man, of all the animals, is the one that seldom comes up to his average. He ought to live a hundred years, according to this physiological law, for five times twenty are one hundred ; but instead of that he scarcely reaches, or the average, four times his growing period ; the cat six times ; and the rabbit even eight times the standard of measurement. The reason is obvious—man is not only the most irregular and the most intemperate, but the most laborious and hardworked of all animals ; and there is reason to believe, thought we cannot tell what an animal secretly feels, that more than any other animal, man cherishes wrath to keep it warm, and consumes himself with the fire of his own secret reflections.—*Blackwood.*

COMMERCIAL.

I. BICKELL.

Quebec, 29th Aug., 1856.

SPECIAL NOTICES.

HOLLOWAY'S OINTMENT & PILLS have again cured a case of Sore Legs of twelve years' standing.—Miss Emma Hartley, of Hamilton, Canada, was one of the most deplorable of objects, and the most unfortunate of sufferers with bad legs from a child, and frequently bitterly deplored her fate ; she had undergone many operations, and spent a little fortune in obtaining medical advice, but she was not benefitted. Her friends persuaded her not to impoverish her purse any further, and her medical man candidly told her she could never be cured ; her own good sense, however, made her have recourse to Holloway's Pills and Ointment, and by persevering with these remedies at a mere nominal expense for two months, her leg was completely cured ; she now walks better than she ever did before in her life, and enjoys the best of health.

CHOLERA now is not confined to any particular locality, but spreads his dread wings over all countries and people. Let all be prepared by possessing a bottle of the Balm of Zanthorea made by H. S. Humphrey, Ogdensburgh.

It is a sure remedy. See the numerous certificates which are wrapped around each bottle, all of which attest its efficacy.

For Sale by Wm. BENNING, No. 14, Buade Street, opposite the French Cathedral and druggists generally.

Vegetable Pulmonary Balsam, for Coughs, Colds and Consumption.—An expression of opinion of Albert Guild, M.D., Boston, Mass. : "Having prescribed the Balsam in many lung complaints, with *uniform* success, I can with confidence recommend its use for all those complaints for which it is offered as a remedy." Reed, Cutler & Co., Druggists, Boston, proprietors. *Be careful to get the genuine, as there are many imitations.* Price 50 cents and $1.

Sold in Quebec by J. Musson & Co ; Joseph Bowles ; G. G. Ardouin, and others.

PERSONS OF SEDENTARY HABITS, who are generally affected with Vertigo, Languor and Exhaustion, Nausea and Headache, have in Bœrhave's Holland Bitters a grateful remedy. It gives strength and energy to the system, stimulates the digestive organs, and corrects acidity of the stomach.

We would caution the public against purchasing any of the many imitations of this delightful Aroma. To prevent imposition, be careful to ask for Bœrhave's Holland Bitters.—See advertisement.

(From the Rev. Dr. Bethune, Dean of Montreal.)

Montreal, 7th Oct. 1854.

Messrs. S. J. Lyman & Co.,

I have used Elliott's Dentifrice for the last four months, and have found it very efficacious in cleansing the teeth and strengthening the gums, as well as agreeable to the taste.

Your obed't serv't,
John Bethune, Dean of Montreal.

Quebec, Aug. 27th, 1856.

Bureau of Agriculture and Statistics, Toronto, 14th August, 1856.

PRIZE ESSAYS.

£40 £25 £15

THE above Premiums will be paid for the three best Essays respectively on the origin, nature, and habits, and the history of the progress, from time to time, and the cause of the visit of the weevil, Hessian Fly, Midge, and such other insects as have made ravages of the wheat crops in Canada, and on such diseases as the wheat crops have been subject to, and on the best means of evading or guarding against them.

The Essay to be furnished to the bureau by the 15th day of January next, and to be designated by a motto, a copy of which shall also be forwarded in a sealed note with the name and address of the author. The Prizes will be awarded according to the decision of a committee to be named by the Board of Agriculture for Upper and Lower Canada, or in default of any such decision, by the Bureau, and the Essays selected to become the property of the Bureau. A premium will only be awarded in case an Essay of sufficient merit is produced.

It is feared that the farmer, in his eagerness to produce wheat, is not paying sufficient attention to the danger of over-cropping, and it is hoped the warning, and the information and advice which may be obtained through the Essay sought for will aid in arresting the great scourges of the wheat.

P. M. VANKOUGHNET,

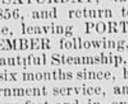
FIRST SCREW STEAMSHIP
FROM
LIVERPOOL
FOR
PORTLAND, U. S.

Calling at St. John's Newfoundland, and Halifax, Nova Scotia, out and home, to land and receive passengers and goods. The stay at these places will be short, as the facilities for discharging will be great.



THE New and Powerful first class Screw Steamship "CHERSONESE," A 1 a Lloyd's, 2300 tons burthen, Captain CHARLES POWELL, will sail from Liverpool for the above Ports on SATURDAY, the 23rd day of AUGUST, 1856, and return to Liverpool by the same route, leaving PORTLAND on the 23rd of SEPTEMBER following.

This beautiful Steamship, since she was launched, some six months since, has been employed in the Government service, and has proven herself to be a very fast and in every way a superior vessel. She has five watertight compartments, and is built of extra strength, suitable for the North American trade, and has been refitted with comfortable accommodations for a limited number of FIRST CLASS and STEERAGE PASSENGERS. Provisions provided in the usual style on board of Atlantic steamers at the rates of Passage named below.

	1st Class.	Steerage
Passage Money from Liverpool to St. John's Nfld.	15 Guineas.	5 Gs.
From Liverpool to Halifax & Portland	16 "	6 "
From Portland and Halifax to Liverpool, G. B.	60 dollars.	30 dol.
From St. John's Nfld. to Liverpool	55 "	25 "
From Portland to Halifax and vice versa	12 "	6 "
From Portland to St. John's Nfld	24 "	10 "
From Halifax to St. John's Nfld	16 "	8 "

Steward's fees and provisions included, except wines and other liquors, which can be had on board.

Freights from Liverpool to St John's (Nfld,) 45s. sterling, and 5 per cent. primage.
" from Liverpool to Halifax N.S., and Portland, 50s and 5 per cent.
" from Portland to Halifax, and vice versa, $3 per ton, 30 cts per barrel.
" from Portland to St John's, Nfld, $6 per ton, 50 cts per bbl.
" from Halifax to St John's, Nfld, $4 per ton, 40 cts per bbl.

Heavy Goods as per arrangement, and parcels on moderate terms. For further particulars apply to

WIER, COCHRAN & CO.,
General Office: Weaver Buildings, Brunswick St,
or to

—ALSO,—

A large and choice assortment of Meerschaum Pipes.

☞ALL AT MODERATE PRICES.☜

Quebec, 11th Aug., 1856.

GREAT REDUCTION PHOTOGRAPHIC PICTURES.

ELLISON & CO., 28 St. John Street, having met with such extraordinary success in taking cheap Daguerreotypes, now propose making a trial of cheap Photographs. They therefore inform the Public that they will (from this date until the end of September) take Photographic pictures for the low price of $3 for a single copy; ten copies for $10, and coloured in Oil or Water Colors, $1 less than any other house in this city, by our superior artist Mr. S. HAWKSETT, who has never colored for any other artist in this city, and whose experience and abilities for coloring Photographs and keeping the likeness, far exceeds any artist in this city.

E. & Co., feel perfectly satisfied that they can produce by far the FINEST PLAIN PHOTOGRAPHS IN CANADA, their Sky-Light being the best adapted to produce a perfect picture and their instruments being much larger and superior, their practice and experience much greater.

With all those advantages combined over other artists, they cannot fail to produce more satisfactory results. They only ask you to call and look at their Gallery of plain and colored SPECIMENS, and if you do not at once pronounce their Pictures superior to any you have seen in the Province, they will not ask your patronage.

N. B.—On hand, a LARGE ASSORTMENT of GOLD LOCKETS, Brooches, Fancy Cases, in great variety, for Miniatures. Gilt and plain frames, and every description of Goods in their line, for sale.

ELLISON & CO.,
28, St. John Street.

Quebec, 13th Aug., 1856.

Quebec, 25th July, 1856.

CROWN LANDS DEPARTMENT,
TORONTO, 24th July, 1856.

THE undermentioned lots, which form a part of the Northern and Southern portions of the Island of St. Joseph, Lake Huron, will be offered at Public Auction, at the office of the Commissioner of Crown Lands, in the City of Toronto, on MONDAY, the FIFTEENTH SEPTEMBER next, at the hour of NOON.—Upset price two shillings and six pence per acre; one-fifth to be paid down at the time of Sale, the remainder by four yearly Instalments, with interest on each as it becomes due, or the Patents may issue so soon as the purchase money shall be paid up in full.

The map of the Island may be inspected during the business hours, up to the day of Sale.

A considerable portion of the Island of St. Joseph is of good quality, well timbered, and the soil is adapted for Agricultural purposes, and the waters around it abound with excellent fisheries.

The mining regions will afford a favorable market for the surplus Agricultural produce raised upon the Island, which lies on the course of, and possesses stopping places for the American and Canadian Steamers proceeding to Sault Ste. Marie.

Quebec, 26th Jany., 1856.

BOERHAVE'S

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

CAUTION:

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

☞ Sold at $1.00 per bottle, or six bottles for $5.00, by the sole proprietors,

BENJAMIN PAGE, JR. & CO.,
Manufacturing Pharmaceutists & Chemists,
Pittsburgh, Pa.

Barnes & Park, New York, and by Druggists and Merchants generally throughout the United States and Canadas.

JOHN MUSSON & CO., Quebec.

ECONOMY.

IT has long been considered that ELLIOT'S DENTIFRICE was the Best Powder in use for Cleansing, Whitening and Preserving the Teeth and Gums, but few think of the ECONOMY of its employment.

It is by far the cheapest Powder or Preparation for the Teeth offered to the Public.

Each Box contains four times the usual quantity of powder in 1s boxes, at the same time the universal testimony of all who have tried it, including the Dignitaries of the Church, the Judicial Bench, as well as Editors, Professional men, and indeed all classes is,

That Elliot's Dentifrice is one of the Safest, most agreeable and Effectual Dentifrices ever employed.

It prevents the decay of the Teeth, sweetens the breath, renders the gums healthy, and by its constant use Toothache is avoided.

Its Sale has already reached over

10,000 BOXES.

With still increasing demand.

TORONTO, July 21st, 1856.

Gentlemen,—Having used Elliott's Dentifrice for some time, I can confidently recommend it as well calculated to cleanse and preserve the teeth, and to impart health and consistency to the gums.

I am, dear Sir,
Faithfully yours,
W. AGAR ADAMSON, D. C. L.

Messrs S. J. Lyman & Co.,

Montreal, 3 Nov. 1856.

Cette excellente poudre m'est connue par mon experience personelle depuis plusieurs annees. Je la trouve eminemment propre a produire l'effet desire, sans faire craindre pour les dents ou pour les gencives, les inconvenients causes par ces poudres, ou il entre des ingredients corrosifs. Dans l'occasion je me ferai un plaisir de la recommander.—Avec consideration, Messieurs, votre reconnaissant serviteur,

† JOSEPH, EVEQUE DE CYDONIA.

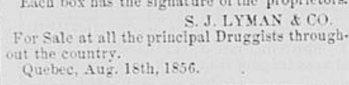
A S. J. Lyman & Cie.,
Place d'Armes, Montreal.

Each box has the signature of the proprietors.

S. J. LYMAN & CO.

For Sale at all the principal Druggists throughout the country.

Quebec, Aug. 18th, 1856.



TO THE MEDICAL PROFESSION

AND the Public. The attention of the Medical Profession and Public is invited to the following preparation:

TARRANT'S EFFERVESCENT SELTZER APERIENT prepared on an entirely new principle, from a late and accurate analysis of the celebrated

SELTZER SPRING, IN GERMANY,

combining efficacy, economy, and portability, with such additions and improvements as will be found materially to increase its efficacy.

This much esteemed and highly valuable preparation will not fail to effectually remove Dyspepsia or Indigestion, Bilious Affections, Headache, Heartburn, Acidity of the Stomach, Costiveness, Gout, Rheumatism, Loss of Appetite, Gravel, Nervous Debility, Nausea of Vomiting, Affections of the Liver, &c., &c.

TARRANT'S COMPOUND EXTRACT OF CUBEBS AND COPABIA.

Sanctioned by popular opinion and the high authority of the most distinguished of the medical faculty; it offers to the afflicted a remedy, whose success has in every instance supported its deserved reputation. Being convenient and agreeable in its use, experience has proved that it retains in every climate its desirable and truly valuable character. It is in the form of a paste, is tasteless, and does not impair the digestion. It is prepared with the greatest possible care, upon well tested principles. To persons following the sea, or going long voyages, this preparation possesses qualities far surpassing any other—neat and portable in its form, speedy and efficacious in its operation, successful both in the earliest and worst stages of the severest diseases, whilst the usual and nauseous taste and unpleasant odor of copabia is wholly avoided in this preparation.

Prepared and sold, Wholesale and Retail, by JOHN A. TARRANT successor to James Tarrant, 278 Greenwich, corner of Warren street, New York; and for sale by the principal Druggists in the United States, British Provinces, West Indies and South America.

THORN'S COMPOUND EXTRACT OF COPABIA AND SARSAPARILLA possesses a few advantages not enjoyed by any other medicine for the cure of sexual diseases; and which must with an enlightened public, render it assuredly highly popular, and a disideratum long sought for in the medical world. It needs no confinement or change of diet. In its approved form, that of a paste, it is entirely tasteless, and causes no unpleasant sensation to the patient.

It has acquired the utmost fame in almost every part of Europe, it has been examined, approved of, and sanctioned by the faculty of medicine, and recommended by the most eminent of the profession, prepared by J. B. Thorn, Chemist, London, and for sale wholesale and retail, by J. A. TARRANT, sole agent for the United States, 278 Greenwich street, New York.

The serious attention of the afflicted is respectfully invited to a trial of

DR. GROVER COE'S STANDARD FAMILY REMEDIES.

Dr. Coe's Liquid Harmattan is guaranteed to be the most efficient external application extant, for the certain cure of Ulcers or Fever, Sores, Abscesses, including Psoas and Lumbar, Felons, Biles, Carbuncles, Fistula, Piles, Wounds, Ulcerated and Syphillitic, Sore-throat, Chancres, Buboes, Ague in the breast, and every variety of external inflammation.

WARRANTED TO ARREST MORTIFICATION, when arising from Burns, Wounds, and other external conditions, and to prevent it when used in time.

Also warranted to check Felons and prevent suppuration when applied before matter has commenced forming. Used early in cases of punctured wounds from nails, pitchforks, &c., it prevents all symptoms of Tetanus or Locked-jaw and removes them when arising from want of its timely application.

DR. COE'S ANTI-MERCURIAL ALTERATIVE SYRUP.

A pleasant, safe and efficient remedy for the radical cure of Rheumatism, Erysipelas, Leucorrhœa, Scrofula, Gonnorrhœa, Syphillis, Mercurial affections, Ulceration of the Kidneys and Bowles, and all diseases arising from a vitiated condition of the blood and fluids.

DR. COE'S FAMILY VEGETABLE PILLS.

The best and safest Cathartic Pills for popular use ever offered to the public.

For the cure of Sick Head-ache, Dyspepsia, Constipation, functional derangements of the Liver, Spleen and other viscera, they stand unrivalled. These are not crude and untried remedies, experimentally placed before the public, but they have stood the test of years. The proprietor is a practising Physician, and they are the same remedies he relies upon to sustain his wide-spread reputation as a competent and successful guardian of the public health. The Harmattan has stood the test of 50 years, the original formula having been obtained from the Indians by an ancestor of the present proprietor, who has improved and brought it to its present degree of perfection.

The Syrup and Pills originated with himself, and during 12 years' extensive practice, thousands have had cause to feel grateful for their efficacy.

For wounds and sores on horses, the world is challenged to produce anything equal to the Harmattan.

For full directions and explanations, see pamphlets accompanying the medicines.

JOHN A. TARRANT, Sole Agent,
278 Greenwich St., cor. Warren,
NEW YORK.

Quebec, 29th January, 1856.

DOCTOR JOHN BULL.

THE GREAT

KENTUCKY REMEDY!

DR. JOHN BULL'S

SARSAPARILLA.

This medicine, when used according to directions, will cure, without fail:—

Scrofula, or King's Evil, Cancers, Eruptions of the Skin, Erysipelas, Tumors, Chronic Sore Eyes, Ringworm or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Diseases of the Kidneys, Diseases arising from the use of Mercury, Loss of Appetite, Pain in the Side and Shoulders, General Debility, Lumbago, Coughs, Colds, Dropsy, Jaundice, Costiveness, Bronchitis, Weakness of the Chest, Sore Throat, Pulmonary Affections, and all other Diseases tending to produce Consumption, Liver Complaints, Female Irregularities and Complaints, Low Spirits, Sick and Nervous Headache, Night Sweats, Exposures, or Imprudence in Life, Chronic Constitutional Diseases, and as a Spring and Summer Drink, and General Tonic for the System, and a gentle and pleasant purgative. It is superior to Blue Lick and Congress Water, Salts, or Seidlitz Powders.

It is a remarkable fact, that among the hundreds of eminent physicians who have examined the recipe by which Bull's Sarsaparilla is prepared, not one has condemned it, but all approved it, and commend it in the highest terms. Many physicians express themselves strongly in the belief that it is decidedly the best preparation of Sarsaparilla that has ever been placed before the public. Although there are many physicians who feel a reluctance to having their names appended to the recommendation of any particular remedy, notwithstanding they may approve of it in the highest degree, there are others who frankly yield their support in favor of a remedy which they know is capable of doing so much good in an afflicted community. As an evidence, read the following from old and respectable physicians, of high standing in the community in which they live:

TESTIMONY.

☞ Testimony like the following renders superfluous all comments on the efficacy of Bull's Sarsaparilla. From Dr. L. P. Yandell, Professor of Chemistry in the Louisville Medical College: I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDELL, M. D.

Louisville, June 6, 1848.

What Dr. Pyles, physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla:

LOUISVILLE, March 20, 1848.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla now in use.

M. PYLES, M. D.,
Resident Physician Louisville Marine Hospital.

LOUDON, KY., April 25th, 1850.

SIR—Permit me to address to you a few lines, and do me the honor to reply to a request that I will make in the conclusion of this letter, etc.

I am a graduate of Transylvania Medical University; I have practiced medicine in this wilderness country, about five years, but owing to exposure to bitter cold weather, I have been indisposed with Acute Rheumatism about six months. After having exhausted my skill in the treatment of my case, and deriving no benefit, I was induced to give your FLUID EXTRACT OF SARSAPARILLA a fair trial, and accordingly purchased a bottle of your medicine from your agent, Mr. George P. Brown, about two weeks ago, and I must confess that one bottle has entirely cured me.

It is my opinion, that your preparation of Sarsaparilla is decidedly superior to any other preparation now in use, and I will take great pleasure in recommending it to the afflicted as being a remedial agent, and I will advise the physicians to use it in their practice, etc.

Respectfully yours, B. B. ALLEN, M. D.

LOUISVILLE, July 13th, 1849.

I have examined the list of articles that compose John Bull's Extract of Sarsaparilla, and I have no hesitation in saying that it is a safe and valuable compound. I would prefer it to any article now in use, for the diseases arising from an impure state of the blood or taint of the system. I confidently recommend it to my friends as being a powerful Extract, and one that I believe will cure all classes of diseases, for which it is recommended, if used according to directions. I believe it to be a valuable succedaneum to Mercury—Nay, I have my doubts whether in the most violent and protracted cases of Syphilis, accompanied with Nodes Trophe, in caries of the bones, whether it ought not to succeed every other remedy.

S. B. McCONACHIE, M. D.
Honorary member of the Medical Society, Philadelphia.

☞ Hear, what Dr. Stapp, a physician who stands at the top of his profession, says of John Bull's Sarsaparilla:

I have been using John Bull's Sarsaparilla, in a great variety of chronic diseases, with the most happy effects, and I have no hesitation in recommending it to the public for the cure of scrofula, syphilis, and all cutaneous and glandular diseases. Yours, most fervently, WM. STAPP, M. D.

Lewisport, Ky., April 6, 1849.

Rev. E. W. SEHON.—Rev. E. STEVENSON.

CONCLUSIVE.—Rev. E. W. Sehon is widely and generally known as an eloquent and accomplished pastor of the M. E. church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.

LOUISVILLE, May 20th, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used, with entire satisfaction; and we have no hesitation in stating our belief, that it is a safe and valuable medical compound, and calculated to produce much good and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

We earnestly invite all persons who are suffering with any of "the ills that flesh is heir to," to call on Dr. John Bull's agent, and get a copy of Bull's Family Journal GRATIS; and for the sake of humanity, we hope that a single individual will not be found unwilling to give Bull's Sarsaparilla a TRIAL, after reading, and recollecting, at the same time, that it is impossible for the Doctor to publish the tenth part of the number of certificates of astounding cures performed by his Sarsaparilla. The amount of testimony voluntarily showered on Dr. Bull's Sarsaparilla, from well known and distinguished individuals, both in public and private life, has been perfectly overwhelming.

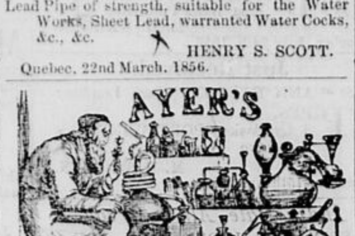
HENRY S. SCOTT.

Quebec, 22nd March, 1856.



CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give *Directions* for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of *Costiveness*, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *heartburn*, *bodyburn*, and *soulburn* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a FOUL STOMACH, or *Morbid Inaction of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

FOR NERVOUSNESS, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back, or Side*, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

FOR SCROFULA, ERYSIPELAS, *and all Diseases of the Skin*, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

TO PURIFY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhœa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Fevers* are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA & LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Dysentery	Jaundice	Stone and Gravel
Bilious Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Doloureux
Bowel Complaints	Fever of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of the Bowels	Gout	Retention of Urine	Venereal affection
Consumption	Head ache	Scrofula, or King's Evil	Worms of all kinds
Debility	Indigestion		Weakness, from whatever causes &c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar,) London, and 80, Maiden Lane, New York; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, and all over the Canadas, at the following prices:—1s. 3d.; 3s 3d.; and 5s.

☞ There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients is every disorder are affixed to each Box.

Dec. 27th, 1855.

THE SECRET INFIRMITIES OF YOUTH AND MATURITY.

Just Published, price One Shilling Stg.

NERVOUS DEBILITY, its Causes, Symptoms, and Cure: an Essay on Seminal Weakness, with Practical Observations on a safe, speedy, and successful mode of treatment of the Disease of the Generative System, by detecting the real cause and effect of every variety of Complaint, whether arising from solitary habits, excesses, accident, or climate. To which are added, Commentaries on the Physiology of Marriage, with precautionary hints on the evils emanating from Empirical practice, and the dangerous remedies advocated by various writers on these important disorders.

BY SAMUEL LA'MERT, M. D.,
37, *Bedford Square, London.*
Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries Hall, London, &c., &c.

The essential object of this treatise is to point out the fearful consequences resulting from certain habits, irregularities, and excesses, which have produced more misery in Youth, degradation in Manhood, and premature decay at all stages of Life, than, perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness, and privileges to which every human being is entitled.

SECTION I.—Anatomy and Physiology of the Generative Organs.

SECTION II.—PUBERTY—MANHOOD—The Morale of Generative Physiology, and True and False Morality.

SECTION III.—THE PHYSIOLOGY OF MARRIAGE—Aptitude and inaptitude for Wedded Happiness, Physiological Facts on Generative Capacity.

SECTION IV.—SPERMATORRHŒA, or Seminal Debility—Its History and Causes. The Miseries of Imprudence. The Vices of Schools.

SECTION V.—SYMPTOMS OF SPERMATORRHŒA and Impotence, Nocturnal Discharges, &c., Influence of Spermatorrhœa on the Mental Faculties.

SECTION IV.—CAUSES AND EFFECTS OF SEMINAL DEBILITY, Connection between the Mental and Generative Organs, Seminal Weakness, Impotence, and Sterility.

SECTION VII.—DETECTION OF SEMINAL WEAKNESS by Urinary or Microscopic Examination, Indications for Detection and Dangers of Mistakes, Importance of Examination, Medical Errors, Means of Cure.

SECTION VIII.—TREATMENT OF SEMINAL WEAKNESS AND IMPOTENCE, Urinary Indications, Hazardous and Empirical Specifics, the Author's Mode of Treatment, Cases and Illustrations.

It is absolutely necessary that all men should know that there are principles of personal management which cannot be violated without incurring grievous penalties, and when wisdom and regret succeed the heyday of inconsiderate self-indulgence, how these penalties may be mitigated, how the sting of their bitterness may be removed, and how the evil and its consequences may be avoided, and, above all, that there is scarcely any degree of physical infirmity or functional derangement to which the timely aid of science cannot apply a cure.

☞ Patients residing out of England can be successfully treated by correspondence only, in any Languages, and medicines can be forwarded with secrecy, safety, and despatch, to all parts of the world. All letters must be accompanied by the fee of £1, or will not be replied to.

NERVOUS DEBILITY may be had of Mr. HOUSE, Bookseller, Cobourg, Canada West; at the "Prototype" Office, London and in Quebec at the "Gazette" Office.

EAGLE LIFE INSURANCE COMPANY.

CAPITAL

ONE AND ONE HALF MILLION STERLING.

CANADA AGENCY ESTABLISHED 1826.

WITH all the advantages, and none of the risks or uncertainties of a *Mutual* Insurance Office, the Eagle affords the further security of a large Capital, secured by Act of Parliament, 58 George III.

The rates of premiums are very moderate, and as EIGHTY per cent of all the profits are every FIVE YEARS divided among the whole life assured, it is evident that these rates are the VERY LOWEST that any Life Insurance Company can demand, CONSISTENT WITH ITS OWN SAFETY, and the consequent SECURITY OF THE ASSURED.

The available assets of the Company, exclusive of subscribed Capital, exceed £768,000 sterling—with an annual income over £137,000 Sterling—and surplus fund nearly £200,000—out of which above £120,000 was either added to the sums insured by whole life insurers, or an equivalent given in cash, or by a reduction of premium, in June 1852.

From the establishment of the Company in 1807 a sum equivalent to the whole Capital has been *paid to assurers* in satisfaction of claims—and the liberality of the Eagle's settlements is well known.

Policies are insured either *with* or *without* participation in Profits; or Half Credit if required, for One Year, Seven Years, Whole Life, Joint Lives, or payable on attaining the age of 60—all payable quarterly, half yearly or annually.

Extract from whole life Yearly Rates of Premium.

LIFE ASSURANCE.

IT is impossible to enumerate all the advantages which are derivable from the assurance of life, in an advertisement. Protection for the widow, the orphan, then aged and infirm, security that mortgaged property shall not be wrested from the family of the mortgagor at his decease—provision for the education of children, and for the commencemet of young men in business are among the most important of the advantages which it secures; and while there are few individuals to whom it would not be beneficial in some way or other, there are very few who could not avail themselves of it, without any serious inconvenience to themselves, if they felt so disposed.

Moderate in expenditure, the facility with which money may be invested at high rates of interest, and the certainty that it may be invested in this country for many years to come, at remunerative rates of interest, have enabled the

CANADA LIFE ASSURANCE COMPANY is to render life assurance, in all its ramifications, a less costly undertaking than it formerly was, while its local management enables the Board to undertake at equitable rates, the assurance of any contingency in which the value of one or more lives enters, however complicated or unusual it may seem.

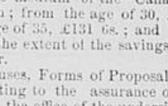
The ages at which the "Canada" will grant assurances, range from 15 to 60, and they will assure as high as £2000, or as low as £25 on a single life.

Life assurance offers the best and safest investment for small savings, thus two pence a day saved from the age of 25, may be made to yield through the medium of the 'Canada' £180 4s. 2d. at death; from the age of 30, £151 16s.; or from the age of 35, £131 6s.; and so on in proportion to the extent of the savings, and the age of the saver.

Prospectuses, Forms of Proposal, and all particulars relating to the assurance of life, may be obtained at the office of the undersigned.

H. W. WELCH,
Agent.

Agency Canada Life Assurance Co.,
Quebec, 17th Nov. 1855.



THE ORIGINAL AND ONLY GENUINE

SIR ASTLEY COOPER'S MILD APERIENT ANTI-BILIOUS PILLS,

FOR THE CURE OF

Bilious Disorders, Liver Complaint, Indigestion or Dyspepsia, Habitual Costiveness, Sick Headache, Giddiness, Heartburn, Flatulency, Loss of Appetite, Irritability, Nervousness, Languor, Lethargy, Low Spirits.

THE distinguished patronage with which these sterling PILLS have long been honored, the beneficial effects which have constantly resulted from their use, the purity of the ingredients which enter into their composition, their careful and peculiar mode of preparation, and the great and increasing demand for them from every quarter of the globe, prove at once their superiority over all similar preparations in Europe or America. Prepared from the original recipe of the distinguished Physician and Surgeon, the late SIR ASTLEY COOPER.

IMPORTANT CAUTION

In consequence of the great demand for these most excellent Pills, they have been extensively counterfeited by several unprincipled persons both in Canada and the United States, and in order to secure the public for the future from all danger or risk of counterfeits, the proprietors have caused to be engraved, at great expense, a highly finished label, which is placed on the outside of the wrapper, and also on the top of each box, and on which is engraved the likeness of the late Sir Astley Cooper, from the celebrated painting by Lawrence, with the words, "SIR ASTLEY COOPER'S APERIENT ANTI-BILIOUS PILLS."

And in order to afford the public a still further protection, the proprietors have placed the facsimile of their signature on the outside wrapper, and also on the directions which accompany each box; without these marks of authenticity, they are spurious and an imposition

MACPHAIL & CO. Sole Proprietors,
London and New York.

Sold at 25 cents, 50 cents, and $1 00 per Box, with full directions for use, by A. B. & D. Sands, 100 Fulton-St., N. Y.; Schiefflin, Bros & Co, 170 William-Street; Boyd & Paul, 149 Chambers Street; C. V. Clickener & Co., 81 Barclay-St.; Elcott, McKesson & Robbins, 127 Maiden-Lane; Rushton, Clark & Co., 165 Broadway; C. H. Ring, 192 Broadway, and by all respectable Druggists and dealers in Medicine throughout the civilized world; and wholesale and retail at the depots, 150 Oxford-Street, London, and 141 William-Street, New York.
