AGAIN JAMAICA IS SHOCKED.

Two More Heavy Shocks Are Felt — Great Britain Regrets Governor's Blunder — Messages Exchanged With U. S. Government.

London, Jan. 22.—Nothing in recent years has so galled British pride and self-respect as Governor Swettenham's letter to Rear-Admiral Davis. It is not too much to say that there is a universal feeling of humiliation and shame throughout the country at the knowledge that a British official could be guilty of such an exhibition of caddishness and ingratitude. Public sentiment finds sufficient expression in the press of all parties, but the printed comments are mild compared with the private denunciation of the Governor heard on all sides. There is some natural criticism of the American admiral on account of the bad taste of some features of his letter, but nobody attempts to justify the deplorable gaucherie of Governor Swettenham's reply. It is assumed on all sides that the British Government will probably offer an apology to Washington and rebuke or summarily remove the offending governor.

The despatch to Mr. Haldane, secretary of state for war, to Secretary of State Root, is regarded as the first direct indication that this assumption will be realized. There is little danger of the incident seriously affecting the relations between Great Britain and the United States, unless American public opinion should be unduly inflamed by the insult. That there is little probability of this happening is shown by all the cable despatches in reference to the incident received here. Nothing could more enhance British respect for the American people at this juncture than the calm, dignified bearing which they are reported to be showing under great provocation. England asks that the behavior of her representative in Jamaica shall not be regarded in any sense as representative of her, and if the American people are willing to be charitable to this extent British gratitude, if not effusive, will be deep and lasting.

The incident will have one important political effect. As already pointed out, it is greatly intensifying public sentiment against the Government's policy of naval reduction and retrenchment, which was already sufficiently strong, owing to the non-arrival of any British warship at the stricken colony.

The best excuse offered for Governor Swettenham's offence is that he is smarting under this disability of his Government. His exasperation is fully shared by the British public, almost without regard to party, and were Parliament in session this feeling would find expression in stronger language than is often heard in the House of Commons. But, above all, at this moment, Englishmen look hopefully, not to say confidently, for such a display of American magnanimity, as will cement, as perhaps nothing else can do, the bonds of true friendship between the two countries.

No reply has yet been received from Governor Swettenham in response to the message from the Colonial Office, asking him for an explanation. Consequently, it is unable to give any information and declines to discuss the matter. The Foreign Office is equally reticent.

WILL REBUILD CITY.

Kingston, Jamaica, Jan. 22.— The assistant colonial secretary takes a hopeful view of the situation as regards the future, and entertains the hope that the city will be rebuilt. The relief committee is receiving large gifts of provisions, and there is no fear of famine, as many private families are sending provisions to the city, and they are being sold at normal prices. The committee prefers gifts in the form of money, as the Jamaican crops are abundant for actual necessities. The ultimate problem will be rebuilding, for which purpose money contributions are earnestly required. Hopes are entertained by some persons that the insurance companies, of which there are 35 doing business here, will pay their losses, although many of the policies have clauses absolving the companies from loss in case of fire, when fire is due to earthquake. It is claimed in some quarters that unless the companies pay, general ruin will result. The estimated loss to house property alone is estimated at $5,000,000. Open air services were held yesterday by the various religious denominations. There was a shock yesterday morning and another yesterday afternoon.

A large meeting was held in the committee rooms of Mr. C. F. Olivier, at the corner of King and Gillespie streets, last night to receive the election of their candidate, Mr. Olivier. The matter was thoroughly talked over, after which speeches were delivered. Mr. Olivier spoke, thanking those who had worked so hard in his interests and stated that he hoped he would make a satisfactory councillor in all respects.

Mr. Denault spoke a few words, as did also several others, after which the meeting quietly dispersed.

THE ELECTION.

The poet has got to work on the South Ward election and contributes the following:

The South blew a breeze
Which made us all sneeze.
And portended a lively election,
Which we admit we have had,
But it is really too bad
That the whoopers were off in selection.

Without doubt they did plan
To bring forward a man
Who in session would make matters hum,
But alas and alack
They were up against Mac
So that L. C. has had to succumb.

So now, my dear boys,
The next time you make noise,
Be certain that you are in line,
For if you are scattered
You'll surely be battered
By Joe and his little combine.

SUPERIOR COURT JUDGMENTS GIVEN.

Several Decisions by Judge Hutchinson.

DAMAGES GRANTED PERSONS INJURED AT LAKE MEGANTIC—HEREFORD LAND CASE.

Mr. Justice Hutchinson rendered judgment in a number of Superior Court cases yesterday forenoon in the Practice Court Room.

LOUIS COTE VS HENRI VINCENT.

This was a case where the plaintiff had filed an inscription in law in regard to certain statements that had been made by the defendant in answer to the plaintiff's declaration. The action proper is for damages arising out of certain statements which the defendant, who is a bailiff, at La Patrie, is alleged to have made when serving subpoenas. The defendant stated that the defendant had interested himself in the suppression of the illicit sale of intoxicating liquor at La Patrie, and that that the plaintiff blames the defendant for the position taken in this respect, and claims that the action is vexatious and taken to annoy the defendant. The Court held that the above allegation did not bear on the case and maintained the inscription in law, and rejected the part of the said paragraph complained of.

DAME ADA EVELYN O'CONNOR VS. THE CANADIAN PACIFIC RAILWAY CO.

This was an action for damages and expenses incurred in connection with an action which the plaintiff alleged she sustained through a defective sidewalk of the defendant at Lake Megantic. The amount claimed is $600, as damages, and $40.00 for medical attendance. On the 25th of May, 1906, the plaintiff went to meet the Halifax express at the station of Lake Megantic between one and two o'clock in the morning, to meet her daughter who was coming from Montreal on that train. When they were proceeding along the sidewalk from the station of the company defendant to the sidewalk leading to the principal street in the village of Megantic. While she was proceeding along the sidewalk belonging to the company, her left foot caught in a hole and she fell forward with great violence, and twisted the joints and muscles and tendons of her left leg. Her injuries were so that she was confined to the house for a long time, and was still suffering from the effects of the injuries. The defendant company denied any responsibility. The Court held that the sidewalk in question was the property of the company defendant and formed the shortest and most direct road from the station and was the sidewalk invariably used by the public going to or coming from the station. The evidence showed that the sidewalk was worn out, had holes in it and was in a dangerous condition. From the evidence adduced it was shown that the plaintiff was still suffering from the injuries, and the conclusion of the Court is that the company defendant are responsible for whatever damages the plaintiff may have suffered. The plaintiff was not earning any money, and was dependent to a large extent upon her daughter for support. Considering all the circumstances and the evidence adduced, the Court, sitting as a jury, fixes the amount of the damages that the plaintiff is entitled to recover from the company defendant, independent of the said medical attendance at the sum of $340. The Court, therefore, condemned the company to pay that amount with costs of suit.

HENRY BLUME VS. THE CANADIAN PACIFIC RAILWAY CO.

This is an action of a similar nature, and is for $610. The plaintiff and his wife arrived at Lake Megantic on the 13th August, 1906, to look over some property which they had there. They arrived by the Halifax express at between one and two o'clock in the morning, and when going over the sidewalk leading from the station to the hotel the plaintiff's wife fell by reason of a hole in the sidewalk, violently striking her head against the sidewalk and injuring her arm, leg and particularly her head, the left partoido gland having been broken by the shock. By reason of the said accident the plaintiff's wife was confined to her room at Lake Megantic for three weeks, and the plaintiff himself lost considerable time by reason of having to attend to his wife. The plaintiff's wife is still suffering from the shock and injury. The Court held that the company defendant was responsible for any damages which were caused by the defective sidewalk as it was on their property. After reviewing the evidence the Court assessed the damages at $293, including damages, and the amount paid out for medical attendance.

LESLIE P. HOVEY ET AL VS. GODFREY LEFEBVRE.

This was an action for $137.61. It appeared from the proof of record that

BROME COUNTY.

A Progressive Agricultural Community Where the Scarcity of Labor is Keenly Felt—Valuation and Population Statistics.

Brome county holds a place among the finest agricultural counties of the province. Its eastern boundary is Lake Memphremagog. To the north is Shefford county, and to the west the county of Missisquoi. To the south is the international boundary and the State of Vermont. In common with the other sections of the Eastern Townships, the first settlers arrived over a century ago, cleared away the forests and did the first work in developing the splendid farms which abound in the county to-day.

The valuation figures for the various municipalities of the county are as follows:

Township of Brome	$950,090
Municipality of East Bolton .	362,323
Municipality of West Bolton .	273,485
Township of East Farnham .	663,229
Township of Sutton	893,470
Township of Potton	562,200
Village of Knowlton	298,950
Village of Sutton	234,927
Village of Eastman	99,945

The total population of Brome county is 13,397, divided as follows:

Bolton, E.	1509
Bolton, W.	770
Brome	2200
Farnham, E.	1788
Potton	1978
St. Alphonse	94
Sutton	2422
Brome Village	555
Eastman Village	630
Knowlton Village	730
Sutton Village	691

The county buildings are at Knowlton, a very attractive village on Brome Lake, and one of the most popular summer resorts in the townships. The rate of taxation in Knowlton village is 6½ mills for municipal purposes, and 7½ mills for school purposes, the revenue for each being about $3,500. The Village Council is composed of Frederick England (Mayor), Ernest Fleury, L. L. Ledoux, A. W. Pettes, Robert McElroy, Frank P. Williams and C. S. Rhicard.

Sutton village, ten miles from Knowlton, is a very pretty village of about the same size. A number of manufacturers have located here. Among them may be mentioned Clark Bros., butter tubs; Olmstead & Boright, steam saw mill and cheese boxes; E. T. Maple Sugar Exchange, Greeley Bros. & Thompson, lumber; George Godue, coffins and caskets; Garland's handle factory; Wyatt's can works; Cutter & Co., evaporators; Brown's Drops Medicine Co., etc.

The other village municipality is Eastman, in the northeast corner of the county. A large saw mill is the chief industry.

There are several other very pretty villages in the county not incorporated as separate municipalities.

The county contains six townships, all good agricultural communities. In Brome County the annual county fair is held, and is considered the leading county agricultural show in the province.

The rate of taxation for Brome township is 11½ mills for municipal purposes, including roads, and four mills for school purposes. The municipal revenue is about $5,663.11. In Sutton Township adjoining Brome, the rate of taxation is 10½ mills, eight of which is for roads done by statute labor. The municipal revenue is about $2,236.17. The township of East Farnham, which formerly formed a part of Shefford county has a municipal revenue of about $2990.25, and a school revenue of $1005. East Bolton Township has a revenue for municipal purposes of $1149, and for school purposes of about $2173. In the township of Potton is located the village of Mansonville, also the Potton mineral springs. The township of West Bolton adjoins.

Brome county is a progressive agricultural territory. For some time past farmers have been introducing more and more scientific and up-to-date methods. Some of the finest dairy herds of Canada are to be found in the county. The scarcity of labor, however, is keenly felt. It is to-day the great problem. No section of the Eastern Townships is more interested in the immigration campaign than the county of Brome.

VIEWS OF BROME COUNTY FARMERS.

The Record in a recent article gave the views of a number of Brome County farmers on the farm labor situation. The following additional interviews in this connection have been forwarded by correspondents:

Mr. John C. Draper thinks most of better class of farm help have gone west instead of stopping here. He has had several British immigrants, and kept one boy seven and one-half years and the young man served two years in the Boer war with honor to all concerned and now has a railroad position in the Eastern Townships. He thinks the Government could well use more agents for E. T. immigration work, perhaps have one for each county to keep things in line. What we want is the same class of help that has gone into Ontario, and N.B. Mr. Draper has sold one farm on account of the shortage of help, but he still is doing an extensive farm business.

Mr. Henry C. Hawley says: "A good idea. It not only benefits the farmer but the incoming worker. I know of several that have done well. I might mention Mr. Sidney Tryhorn, who came here from England a few years ago, commenced working for the late Sherman Boright, also worked for others, now owns his farm and is counted as one of the contented farmers of the Eastern Townships. Could name others. By all means let the good men come, and both farmers and the willing workers will be mutually benefitted."

Mr. Edward Niblock says: "We need the men. Have had some, but some were none too good. We are bothered to death to get help. It is a grand

$4,574,000 FROM LAND SALE.

INDIANS REAP RICH HARVEST IN OKLAHOMA.

Washington, Jan. 22.—By the sale, under sealed bids, of the pasture lands of the Kiowa Comanche and Apache Indian reservation in Southern Oklahoma, a greater sum has been realized than any sale of public lands before ever brought. About 300,000 sealed bids, covering 375,000 acres, were received. The average price received for the land, according to figures already compiled, is $12.19 an acre. Thus, the Indians will realize from the sale $4,574,000, or an average of about $12 for each Indian interested. A surplus of 130,000 acres remains yet to be disposed of. It probably will be two or three weeks before a complete list of the successful bidders is made by the Land Office.

OBSTINATE FACE SORES.

REFUSED TO CLOSE FOR 4 YEARS

ZAM-BUK HEALED THEM INSIDE TWO WEEKS.

Have you some eruption, or sore, or ulcer, or wound, on any part of your body which has hitherto refused to close, no matter how treated? If so, that is a case for Zam-Buk, the great herbal balm. The herbal saps and essences in this balm are so powerful that they can heal the worst cases of chronic sores, ulcers, blood poison and skin diseases. Here are proofs of this:

Mrs. W. H. Taylor, of North Bay, Ont., says: "I had a scaly spot as big as a ten cent piece on my face. I had it for four years, and hardly a night during that time went by but what I applied cold cream or some ointment or other, but it would always be there. I recently applied Zam-Buk, and in about a week's time the spot had disappeared completely. I cannot thank you enough for your remedy, and I tell everyone to be sure and keep Zam-Buk in their house."

Mrs. S. J. Holden, of 343 West Hannah St., Hamilton, says: "My little girl had a running sore on her leg which defied all treatment. I applied Zam-Buk, and in about a week's time the wound was closed. I have found Zam-Buk just as good for other skin troubles and injuries."

Mr. J. H. Hamilton, of Thornbury, says: "The first Zam-Buk I obtained was for a friend who had an obstinate sore on her temple. It had been treated once or twice by a doctor, and would heal up for a short time, but would break out again. Zam-Buk healed it permanently, and it shows no sign whatever of returning."

Similar grateful testimony is to hand from men and women in all parts of Canada. Zam-Buk is a sure cure for all skin diseases and injuries, such as cuts, burns, bruises, eczema, psoriasis, ulcers, scalp sores, cold sores, chapped hands, itch, rashes, tetter, face sores, etc. It is also an unequalled embrocation, and rubbed well on to the parts affected cures rheumatism, sciatica, neuralgia, colds on chest, etc. All druggists sell at 50c. a box or may be obtained post free from Zam-Buk Co., Toronto, upon receipt of price. 6 boxes for $2.50.

CONSPICUOUS IN A BALLROOM

Flakes of Dandruff on the Collar and Shoulders of a Gentleman in Full Dress.

This is the thing you quite frequently see in a ball-room—a man's black dress coat literally covered with dandruff.

It must be annoying to the wearer, and certainly not a pleasant thing to observe, but dandruff can be eradicated. It is a germ disease that will some day cause baldness.

Newbro's Herpicide kills the hair destroying germ, and stimulates the hair to a rich abundant growth; it does more—keeps the hair soft and pliant.

Furthermore, Herpicide is a most pleasant toilet accessory; of pleasing odor, and cooling to the scalp.

enterprise if only we can get the right kind of help."

Cyrus E. Wilkinson says: "Send men willing to work. Some are too independent and are not willing to learn, but good, willing men will be appreciated by us farmers. Good boys lacking a full education would find helping friends among the farmers here on the give and take principle of fair play."

Wm. H. Courser says in regard to the immigrant question: "I think it is a great thing to bring in and scatter through the Townships. The greatest drawback we farmers have is to get help, and I am much pleased to see the Record taking up this question in the business-like way it is doing. At

certain seasons of the year I find it very difficult to obtain help at all."

Mr. Omer A. Brock: "In regard to the immigration question, we surely need a better class of men than we have been getting. We want men that will get up in the morning at reasonable hours, and that will try to do their work well, and such help will find good usage from us farmers, and at fair wages."

Mr. Eugene Eastman: "The right kind of men and women can do well here in the Eastern Townships." Mr. Eastman formerly lived on a farm in Stanstead. He cites one case among others of a young English boy coming to Stanstead, and making a grand success, and after a few years he was able to bring his mother and several other children to the Townships, where they made their way much more comfortably than they were able to do in the old country."

Mr. Lewis Hurlburt says: "The campaign of the Record in trying to relieve the stringency in the labor market is a good one, and I wish it success. We surely need the help to enable us to run our farms properly."

Mr. F. F. Fyles has placed each year for several years past from 25 to 30 and some years more boys, young men and women of various ages mostly in this section of the Eastern Townships, i. e., in Brome county. He has been supplied by several good men of England, among others Rev. Winters, of Liverpool; Rev. R. O. Greep, of Ainsdale, Eng., and Rev. Thos. W. Fyles, of Levis, Que. He has already written Mr. McColl, superintendent of an agricultural school in Tiffield, England, that he can place 50 the present year. Mr. Fyles mentions having unexpectedly received at one time nine youths, bag and baggage. After feeding them he hitched up a double span and took all hands (nine of them) aboard, and that night he returned home with the satisfaction of knowing he had found good positions among the farmers for all of them. He cites the case of one of the earlier arrived English immigrants of Mr. Alfred Robinson, who is now the chief butter maker in the Daisy butter factory of Sutton at a large salary, and many others who are doing well. Mr. Fyles says the mid-

dle class make the more desirable help and nearly all of that class turn out well. Mr. Fyles has already done yeoman's work in the good cause. It should also be mentioned that Mr. Fyles established an immigration school on his farm known as Hillhurst Grange, said farm containing 160 acres, delightfully situated near Abercorn, on the line of the Canadian Pacific Railway, where he had men to learn the newly arrived English farm hand the way to work after Canadian fashion, one of the special features being to learn the men to milk the cows, which Mr. Fyles emphasizes as being one of the newly arrived man's most needed lessons to gain him success.

sional help by the day, because I could find no one to hire. I offered one of the English immigrants that had been here some months and had gained considerable experience $200 for ten months, commencing Nov. 15th last, but he refused, saying he could do better." Mr. Smith has 300 acres on the main road between Sutton, Que., and Richford, Vt. He now has sixty-three head of cattle, fifty-four hogs and three horses, has running water in his barn, cement floors and everything up to date to make doing chores easy. He says: "I hope we will get more help, don't know what we can do if we don't."

Mr. Thomas E. Hextall says: "We consider the Eastern Townships ahead of the Northwestern Provinces of Canada for various reasons. Some of our friends who have gone west congratulate us for stopping here, where good water abounds. Tell the English boys or men to learn to milk, that is of most pressing importance if coming to Canada." Mr. Hextall came from Leicester, Eng., and his wife from Hampshire, England. Mr. Hextall and his wife are doing well here, and are first-class citizens.

The Onlooker.

The Result in the South Ward.

The most that can be said of the South Ward election result yesterday, is that it was all that could be expected. On the one side there was little or no organization; on the other side there was a strong organization, that might fairly be styled permanent, and in elections quite as much as anywhere else organization counts heavily. Mr. Olivier possessed the further advantage of being fresh from the office of Chief Executive, and he, also, cut the supports from under his opponent to a certain extent by declaring publicly on the last day but one before the election that he was in favor of reforming the salary tax and would use his influence in the Council to have it reformed. It remains now for the result to be accepted with becoming grace in the South Ward for of such is the abiding texture of popular government. With this single election over and decided the path is cleared now for the new Council to take up office and apportion committees for the ensuing year. It promises to be a busy twelve-month for the city's governing body and it is to be fervently hoped that much constructive work will be the outcome. Much is waiting at hand to be done and petty dissensions should not be allowed to continue an obstacle.

Secretary Root at Ottawa.

While professedly without political significance Secretary Root's visit to Ottawa may be said to possess an incidental political side. It must be taken for granted that into the conversation of Mr. Root and Earl Grey there will enter a tentative discussion of outstanding questions between the Dominion and the Republic, which may at any time become subjects of controversy. There will be no immediate or direct results from it for the visit is admittedly social and not diplomatic in character. Mr. Root, however, is the leading member of President Roosevelt's cabinet and in full knowledge for a certainty of his government's views touching the subjects in question while, on the other hand, it is no less certain that the Governor-General understands perfectly the Ottawa government's attitude on the same subjects. It is common knowledge that both countries are anxious to have all outstanding questions satisfactorily disposed of and the present visit of the American Secretary of State to the Governor-General of the Dominion presents the opportunity for discovering the common ground on which the two countries could most likely meet. Undoubtedly, both Earl Grey and Mr. Root will communicate what they learn to their respective governments, and it would not be at all surprising if a conference, between representatives of the two countries should follow before long. Coming so soon after the Pan American Conference at which Canada was not represented it is hard to divest Mr. Root's visit of all intentional political import, even in the face of official statements that the object is purely social. And, should Mr. Root be elected President a year from next November, which is more than a possibility, the present visit would acquire an importance greatly in excess of what it owns now, or would own, if the mission were frankly a diplomatic one.

THE SPHNIX

Even the stone face of the Sphinx shows the result of exposure to wind and storms, is there any reason why the exposure to wind and extreme cold will not ruin the complexion of a human being, much more that of a woman, whose skin is naturally soft and tender? But the most important question is, what will protect the skin from becoming rough and chapped from exposure?

The Rev. F. V. Charest, Agricultural Missionary, who has just returned from a lecturing tour in the County of Wolfe and part of Richmond, visited the following villages: Dudswell, St. Fortunat, Wolfstown, North Ham, St. Adrien de Ham, South Ham, Ste. Camille, Wotton, and St. George de Windsor. These places are not on the railway line, and long drives were necessary, in order to reach them. Fr. Charest made an address every day, on the two Sundays in the churches after mass, when all the Roman Catholic population assembled, and on other days in the public halls. The attendance was invariably good, ranging from sixty and seventy in the smaller villages to one hundred and over in the larger, and great interest was taken in the lectures, which were plain, direct and forcible. Father Charest preached the gospel of cleanliness, and again, cleanliness in everything connected with the dairy industry, in stables, the animals and the vessels used, and dwelt upon the necessity of ventilation for the stables, and plenty of pure water, pointing out the fact that an unhealthy cow cannot produce healthy milk, and that health is not possible without these two requisites. The next subject taken up was that of fruit culture, as one of the most profitable industries of the country, and directions were given for the care of the trees both in winter and summer, the variety best suited to the climate, and the preservation and packing of the fruit. From the reports of the secretaries of the Farmers' Clubs, which were handed to him, the lecturer found that great improvement had taken place, not only in methods of farming generally, labor-saving implements used, etc., but in the production of butter and cheese. In seven parishes the aggregate value of the dairy products for the year 1906 was $267,000, one parish alone producing butter and cheese in the last year to the value of $67,000, another $50,000, and so on, in proportion to the number of farmers. The prospects for the future of the Townships was most encouraging.

On the 5th of February the marriage will take place of Miss Anna B. Gosselin, of Levis, sister of Mrs. J.A. Dugie, to Mr. Arthur Boislard, of the Cash-Receipt Market.

HARMONY BAND CONCERT.

The second of a series of concerts given by the Harmony Band was held in the Clement Theatre last night before a very large and appreciative audience.

When the curtain rose for the first number, a very admirable sight met the eyes of the audience, the Harmony Band in full uniform numbering about forty musicians, and at their best. It is needless to say that every number by the Band was received with much pleasure and heartily encored. In fact the whole programme from beginning to end was received in a like manner. The dance by the Duquette Bros. was certainly deserving of much credit and provoked much laughter from the audience. In response to encores they were obliged to return twice. Miss J. M. Bean, who sang "For all Eternity" was heartily encored and favored the audience with a catchy little song referring to the art of fishing practiced by the female sex. Following this, came a selection from "The Habitant" by Mr. H. H. Morency. Mr. Morency, in his usual entertaining way, held the audience in continual laughter for several minutes by both word and action. The greatest regret in this number and perhaps throughout the whole programme was that Mr. Morency did not give an encore although the cheering and clapping was deafening. Mrs. A. R. Moore rendered in her usual creditable manner a whistling solo. She reappeared in response to a fierce encore. In a song and dance, Mr. J. A. Duquette, of the Duquette Bros., imitated to perfection the 53rd Regiment.

These concerts are becoming very popular among the Sherbrooke people, who appreciate real good music as the audience and the impression of the event they take away with them would indicate.

The programme was as follows: Fort-des-Moines and Zumpa, Band; Le Secret, J. Marsot; Dance, Duquette Bros.; Solo, "For all Eternity," Miss L. M. Bean; Monologue, H. H. Morency; "Old Folks at Home," Band; Whistling Solo, Mrs. A. R. Moore; Song and Dance, J. A. Duquette; "Don't you see I'm lonely," Band; "Sliding Jim," by three slide trombone players. God Save the King.

Happiness in a Grain of Wheat

It Contains Every Food Element Necessary for Man's Sustenance.

All authorities agree that fourteen elements are needed in the human body to sustain perfect health and that these must be supplied in the food taken into the system. Nature has provided us with one single article of food containing all of these fourteen elements in the exact proportions necessary to supply our bodies with vitality, strength and heat. This food, so wonderful in its composition, is wheat, and intelligent men and women are coming to realize more and more that in the whole of the wheat is found the secret of health and happiness. Rich in the nitrates, or muscle-making elements, the carbonates, or heat-producing elements, and the phosphates, or brain and nerve-making elements, the whole grain of wheat supplies every necessity for man's body and mind.

This is how Malta-Vita came to be known as "The Perfect Food," for Malta-Vita is simply the whole of the wheat and a little salt, thoroughly steamed and cooked in absolute cleanliness, then mixed with pure barley malt extract, which converts the starch of the wheat into maltose, or malt sugar, an active digestive agent and very nutritious as well.

All grocers sell Malta-Vita. Large package, now 10 cents.

MARRIAGE ANNULLED BY THE COURT.

MARRIAGE 15 YEARS AGO BY PROTESTANT MINISTER DECLARED VOID BY JUDGE TASCHEREAU.

Montreal, Jan. 22.—A marriage was annulled at the Superior Court yesterday, by Judge Taschereau, who, besides declaring the union void with regards to civil obligations, intimated that it had no validity from a religious standpoint.

Charles Rousseau and Rosa Anna Vallee, Roman Catholics, were married fifteen years ago by Rev. P. Duclos, a French Presbyterian minister, of Montreal. Eighteen days after the ceremony, the wife left her husband, because the latter refused to have their union confirmed by a priest of their own religion. They have lived apart ever since, and some time ago Mrs. Rousseau obtained leave from the court to sue her husband in separation. An action to this effect followed, and yesterday Judge Taschereau, upon the defendant's failure to contest, rendered judgment, not only declaring the contracting parties separate, but annulling the marriage altogether.

In his memorial, Judge Taschereau noted that there was no civil act to evidence the marriage, and that the parties, being both Roman Catholics, could not be legally united by the religious or sacramental ceremony that had been followed. He, however, reserved for each, the right to have the union declared void by the competent religious authority; the whole without costs:

According to the plaintiff's own declaration, the marriage was effected under unusual circumstances. Miss Vallee was then only thirteen years of age, and she testified that she was forced into the union by her mother, without the knowledge and consent of her father, who was then absent.

LITTLE GIRL MEETS DEATH BY FIRE.

Spark From Stove Set Fire to Her Clothing.

FATHER WAS ATTRACTED BY SCREAMS BUT COULD NOT SAVE CHILD—DIED ABOUT TWO HOURS LATER.

East Farnham, Jan. 22.—(Special.)—Miss Edith La Rose, daughter of Mr. William La Rose, of this village, was burned to death on Saturday morning. The child, who was helpless and simple, was sitting in her chair, while her step-mother had gone to work and her father, hearing her scream from the yard, ran into the house, and the sad spectacle that met his eyes was that of his child all on fire. He tore off her clothing and rushed for help. The neighbors did everything to alleviate her sufferings until Dr. Rogers, who was quickly summoned, reached there. All that could be done was to administer anaesthetics until life passed away a couple of hours later. Her body was burned almost to a crisp, being unable to help herself in any way. It is supposed a spark from the stove caught her clothing. It was heart-rending to witness her sufferings. Great sympathy is felt for the family.

COURT NEWS FROM SWEETSBURG

SEVERAL CASES ARE DISPOSED OF BY JUDGE MULVENA.

Judge Mulvena was in Sweetsburg yesterday and disposed of a number of cases.

Amade Laflamme, of Sutton, who had been committed for trial on a charge of stealing a bottle of high wines, and who had asked for a speedy trial, was acquitted.

Edmond Laflamme, of Sutton, charged with attempting to steal some chickens, was also acquitted.

The same Edmond Laflamme, who had been previously committed on a charge of stealing four bushels of butter nuts and a bag of oats at Sutton in 1905, asked for a speedy trial, and was found guilty and sentenced to 30 days in jail. It appears that the accused stole the butternuts and went and sold them to the same party the next day. When High Constable Boisvert went to arrest him he made an excuse that he had to put a horse that was standing in the yard into the stable. The Constable gave him permission to do so, but instead of putting the horse into the stable he mounted on its back and made for across the line. He remained in Uncle Sam's domains until last Christmas when he returned to partake of the Christmas cheer with his friends in Canada. The High Constable got on his trail and landed him in jail, with the above result.

Charles Macdonald, carter, Granby, who had been committed on a charge of stealing a case of brandy in May last, asked for a speedy trial and pleaded guilty. A largely signed petition by the leading citizens of Granby, stating that the accused had always borne a good character, and that this escapade was the result of a spree, was presented on his behalf. It was also stated that restitution of the stolen property had been made. He was allowed to go on suspended sentence.

AGAIN JAMAICA IS SHOCKED.

(Continued from page 1.)

morning what purports to be a letter from the Government of Jamaica. Can only say that on material before me, I entertain, as responsible for troops in the island, a feeling of deep gratitude to the American admiral for generous assistance tendered at most critical time.

"HALDANE,
"Secretary of State for War."

To this the following reply was sent:

"Haldane, Secretary of State for War, London:

"The President greatly appreciates your cordial telegram, and is glad if the proximity of this country has made it possible to be of the slightest assistance to the stricken people of Jamaica in this crisis. If, because of this proximity, and pending the arrival of your own warships and transports, we can render any further aid whatever, the President earnestly hopes you will call on him without hesitation. We know how cheerfully you would render such aid to us were the circumstances reversed.

"BACON,
"Acting Secretary of State."

LETTER FROM EARL GREY.

Washington, January 22.—Mr. Esme Howard, charge d'affairs at the British Embassy, called on acting United States Secretary of State Bacon last night, and presented a letter from Earl Grey, principal secretary of state for Great Britain, regarding the Davis-Swettenham incident. In his message, Earl Grey says that he is causing an official inquiry to be made to determine the authenticity of the letter purporting to have been written by Governor Swettenham to Rear-Admiral Davis.

DELIGHT IN GERMANY.

Berlin, January 22.—The newspapers give great prominence to the Swettenham-Davis incident, which is causing gratified chuckling in many quarters. The Berliner Post indulges its delight in the following words: "Perhaps the mistress of the seas considered it humiliating that a British city had to rely on foreign succor. Perhaps she also was not entirely convinced of the unselfishness of the Yankee benevolence. There is no doubt that it was a too seductive opportunity for Brother Jonathan to make a moral conquest at England's expense, and for once to let the Monroe doctrine shine in the light of Christian charity."

The Post further warns Germany not to contribute relief for the people of Kingston because rich England has money enough to help her own colony.

Where serious comment appears, it is generally of the opinion that Governor Swettenham was influenced by President Roosevelt's repulse of foreign help for San Francisco, but the cases are not held to be parallel, because the character of the emergency and the offered aid to Jamaica were wholly different from money offerings. Governor Swettenham is held to be guilty of bad taste, and his conduct ascribed to overwrought nerves and an exaggerated sense of national susceptibility.

ABYSSINIAN RULER IS A MERE BOY

EMPRESS DENIES THAT SHE IS OPPOSED TO EUROPEANS ENTERING THE COUNTRY.

Cairo, Jan. 22.—Dr. Folmer Hansen, who has been spending a few days here after an eighteen months' stay in Abyssinia, says that the son of Pas Michael, who has been nominated heir to the throne is still a boy and lives at the palace at Adis Abeka, where he is receiving the best possible education. Young as he is he has made many friends among the Europeans. On state occasions he can be seen at the Emperor's side in Abyssinian dress carrying a long spear and wearing on his head that prominent mark of European civilization, the English top hat. "I had an interview with the Emperor Menelik," said the doctor. "His Majesty expressed his great desire to see the country developed on European lines, and he is impatient to see the railway reach Adis Aboba." The Empress also asked the doctor to deny the European reports to the effect that she has used her influence with Menelik against foreigners coming into the country.

MODERN ROBIN HOOD IS EXECUTED IN RUSSIA.

ALL ATTEMPTS TO SAVE THE "GOOD ROBBER" AS HE WAS KNOWN, PROVED FRUITLESS.

St. Petersburg, Jan. 22.—The field-marshal has penetrated even the peaceful district of Sotchi—the Caucasian Riviera—where three natives have just been executed. The sentences have produced a most painful impression on the many strangers who visit the beautiful spot, as well as upon the natives, especially in the case of one man named George Erquania, who was particularly popular. He was exiled to Siberia for robberies committed 11 years ago, but escaping thence had lived in the mountains where he had played the part of a Robin Hood. He was known as the "Good Robber," the people declaring that he only robbed the rich in order to give the spoils to the poor. Every effort was made to save the unfortunate man and several ladies personally visited the Governor-General to beg for the adjournment of the execution for a day, hoping in the meantime to petition the Emperor for a telegram of reprieve, but the officials were obdurate and the sentences were ruthlessly carried into effect.

THE SHERBROOKE 'RECORD' IMMIGRATION CAMPAIGN.

(Richmond Guardian.)

Our Sherbrooke confrere and associates are prosecuting this important movement with very commendable vigor. Everybody is watching it with great interest as it is a project of much importance to the Eastern Townships. Mr. Brewster, the government immigration agent who has the campaign in charge, left for England last week, and has reason to expect great results, as the correspondence already had with English people who have become interested in the movement justifies the belief that quite a stream of immigrants will be diverted to the Townships; without any special organization between six and seven hundred came out and settled in the townships last year.

SUPERIOR COURT

JUDGMENTS GIVEN.

[Continued from page 1.]

the plaintiffs had purchased from the defendant on the 27th April, 1901, a certain portion of land in the Township of Hereford with a sawmill and other buildings attached. It was stipulated in the deed that the plaintiffs would have all the right of flowage on said property. When the plaintiffs proceeded to exercise the said rights, one Pierre Lambert made a claim for damages in connection with flowage, the defendant having previously sold said lots without reserving the rights of flowage sold to plaintiffs.

The plaintiffs were sued at various times for damages, and it was these amounts which made up the amount claimed.

The defendant contended that when the said agreement was entered into that it was understood that the plaintiffs would pay for the exercising of the said rights of flowage. The season that the said rights of flowage was put in the deed was the fact that it was supposed that they could not be exercised, even if damages were paid, unless it were inserted in the deed. The defendant also complained that the plaintiffs had made no complaint when they were sued in regard to damages. The Court held that verbal evidence cannot be admitted to vary or contradict the said written deed of sale except admissions made by the opposite party, and although the plaintiff Hovey had been examined, no admission was made by him. Of the amount sued for $6055 is made up of costs for which the defendant cannot be held responsible, neither can the amount of $12.06 for interest except from the date when the defendant was put in default. The amount, therefore, that the defendant is liable to amounts to $85. The Court gave judgment for that amount with the costs of an action for the said sum of $85.

OTHER CASES.

ALFRED BEAUDRY VS. J. FONTAINE, JR., AND JOS FONTAINE, SR. TIERS-SAISI.—This was an action to set aside a deed of sale passed between the defendant and Tiers-saisi, the latter being the defendant's father. The Court maintained the contestation of the contestant.

G. N. LAMOUREUX VS. J. FONTAINE, JR., defendant and Jos. Fontaine, sr., tiers-saisi.—This was an action of a similar nature and the same judgment was rendered.

BRODEUR VS. FRECHETTE.—The plaintiff Theophile Brodeur alleges that he went to work for the defendant, who keeps the Grand Union Hotel in Sherbrooke, on the 23rd of May, 1906, and worked up until the 10th of September. When he entered into the service of the defendant plaintiff says that no agreement was passed as to the remuneration he was to receive, as it was understood that that would be fixed later. He estimates his service as being worth $1.50 per day with board, but reduces the amount to $1 per day. He therefore sues for $108.50 as arrears of wages also for two weeks notice. The plaintiff says that he was engaged to have a general supervision of the hotel during the absence of the defendant, and to wash the waiting rooms windows and see to the people that entered and left the hotel. The defendant said that at the time the plaintiff entered his services he was staying at the hotel and that he owed him for board. It was agreed that the defendant would give him a room and his board for any light work that he might do around the hotel, but that there was no understanding that a fixed sum would be agreed upon later. The defendant also states that the plaintiff was dismissed on account of his doubtful conduct.

The Court held that the evidence was very contradictory, and that although the burden of proof was upon the plaintiff he had failed to establish to the satisfaction of the Court that the services which he rendered were worth more than the board and lodging furnished by the defendant. Plaintiff's action was dismissed with costs.

HOCKEY

JUVENILES PLAY EXCITING MATCH AT COOKSHIRE.

Cookshire, Jan. 22. — (Special)— An interesting game of hockey was played at Cookshire on Saturday last at the Star Rink. The little "Star," vs. the little "Shamrocks," when the former team defeated the "Shamrocks" by two goals, the score being 7 to 5 at the finish. Some good hockey was played by the little fellows. The star players in the game were W. Leonard for the "Stars," and M. Rescoe for the "Shamrocks."

The line up was as follows:

Little Shamrocks.		Little Stars.
C. H. Dale ..... (Capt.)	goal	G. Haseltine
M. Rescoe	point	H. Kerr
J. Robinson	c. point	H. Leonard
S. Planche	rover	W. Leonard
W. Worren	centre	E. Weston (Capt.)
C. Statton	r. wing	G. Sawyer
W. DesRochers ...	l. wing	V. Lusk

R. Weston proved a satisfactory referee to both teams.

The return match will be played on Feb. 2nd.

WATERVILLE 14—RICHMOND 4.

Waterville beat Richmond by a score of 14 to 4, on Saturday night, at Waterville.

Owing to two of the Richmond team missing the Scoot and mail train being late, they were only able to play five men aside.

STANSTEAD COLLEGE H. (10) — NORTH HATLEY (5)

Stanstead, Jan. 22.—(Special.)—Saturday morning Stanstead won from North Hatley by 10 goals to 5. The game was clean and though at first fairly fast, lagged towards the end. Hawes was the North Hatley star, and for the college goaler Robinson did star work. There was some nice combination on both sides, but no special features marked the game. The line-up was as follows:

Stanstead (10)		North Hatley (5)
Robinson	Goal	Edgar
Campbell	Point	Johnson
Thompson	C. Point	Call
Leduc	Centre	Bassett
Fuller	Rover	Hawes
Owens	Wing	Church
Bebee	Wing	Gagne

Referee, Fee.

SHERBROOKE IN QUEBEC.

Referring to the match, Sherbrooke vs. St. Patrick's in Quebec, Saturday night, the Quebec Chronicle says in part:

The match was clean, there being but few penalties, while most of these were for minor infractions of the rules. The Sherbrooke septette are a pretty husky lot, and they played a fast game all the way. The St. Patrick's team fell down principally on their poor shooting and lack of generalship about their opponents' goals. They had a good share of the play in mid ice, but once they came down on the opposing defence they did not appear to be able to do anything effective. Neither team made any startling attempt at combination, depending largely upon individual efforts for their attempts to score. A remarkable feature of the game was the number of long shots with which the Sherbrookes tallied, and in the shooting of which F. Povey, the point man of the Sherbrooke team, proved an adept. These shots came in at such unexpected junctures that they kept Dave Power guessing, and the defence men in front of him appeared to be all at sea with them. The Sherbrooke men checked very effectively, while St. Patrick was lax in this department. Sherbrooke annexed the final tally with another long shot the score standing 9 to 4 in favor of Sherbrooke at the close.

The Quebec Telegraph refers to the game in part as follows:

The match was of the individual style of hockey, and as Sherbrooke's players are physically stronger and more rugged they outdid the local team. Any team work that was played at all was by St. Patrick's, but it was very feeble and easily broken up by the visitors, especially when St. Pats went near the opposing defence. Sherbrooke's men were all individual players, and the weakness of St. Patrick's permitted their style of being very effective, even the defence men of the visitors scoring several goals from long range shots. The only player on the St. Patrick's team to show class was Rooney, his work improving as the match wore on. St. Patrick's, since their first match, had failed, apparently, to remedy their mistake of playing offside repeatedly, and as a consequence they were called back many times.

POST OFFICE VS. RECORD.

The match between the Post Office and Daily Record teams was played, last night, at the Stadium under protest—the Record team objecting to three "Ringers" playing for the Post Office.

While not in the Ottawa-Wanderer class, both teams played a remarkable game. The referee was lenient and penalized but one man.

The oyster supper was put up by the Record team after the match.

The following were the teams:

Daily Record—2.		Post Office—3.
Pearson	goal	Nutt
Watson	point	Powers
Metcalf	c. point	Couture
Bernstein	forwards	White
Planche	"	Dufour
Blais	"	Smith
Lebourveau	"	Camirand

KENORA WINS; CUP GOES WEST.

WANDERERS, AFTER EVENING THE SCORE, WERE BEATEN IN THE LAST NINETY SECONDS.

Montreal, Jan. 22, (Special)..Kenora Thistles won last night, the score was eight goals to six, and the much coveted, much battered trophy that Lord Stanley of Preston left as a legacy of trouble to the hockey clubs of Canada, after a five year sojourn in the East, will once more today start on its long journey to the far West. By last night's victory they stand in the lead by the two matches with a total of twelve goals to Wanderers' eight.

Three minutes remained of the hour when Wanderers tied the score. Thistles, after a bad spell of rattles, began to pull together and each goal was alternately threatened and delivered. Then came the deciding point in the struggle. "Hod" Stuart was benched for tripping Phillips. Phillips went down in a desperate effort to get by the big cover-point, and the referee said it was a foul. Then McGimsie was similarly called for tripping Russell and this happened before the Thistles could push their advantage of one man. The two already in the box were immediately joined by Patrick, who was sent off for tripping Griffis.

Again Kenora had the advantage and again the Western chaps were unable to make use of it. And so with less than two minutes to go the teams were down to even numbers, but in their make-up was this important difference, that Wanderers were left stripped of their defence players, the goal-keeper, of course, being excepted.

Glass had the chance of a lifetime, but failed, his shot bounding off Giroux.

Then big Silas Griffis carried the disc clean through the Wanderer's scattered ranks. He shot twice, and Hearn blocked. The puck came out to him on the side, and he slapped it over to Beaudro, standing uncovered on the far side of the net. Beaudro jabbed it into the goals, and the game was won, and with it the cup, when the watches showed but one minute and a half to go of the hour's playing time.

Hooper, to make matters doubly sure, went through Wanderers', discouraged and disorganized, and in 30 seconds added one more to the Thistle lead.
