DEFENCES HAVE BEEN THROWN UP ON ALL SIDES AGAINST GERMANY

To Stretch in Almost Any Direction, the Reich Would Have to Penetrate Border Defences which Have Sprung Up with Increasing Vigilance Since the War—On All Sides Nations Show Fear of Approaching Dangers.

London, October 19.—A chain of steel almost completely encircles Germany today—backing the terms of treaties which bind her within her rambling borders.

To stretch in almost any direction, the Reich would have to penetrate border defences thrown up with increasing vigilance since the war.

And only last month, still unsatisfied despite heavy reinforcements all along the line, Austria got the approval of France and Great Britain to raise its army limit of 8,000 men for special duty.

These, it was explained, were to be assigned to the specific duty against "terrorist elements" within Austria and on the German border.

But Austria's big-scale preparations for defence along the Austro-German line are more than matched by those of which Belgium and France now boast.

While Belgium for a time hesitated to vote more funds for frontier defences, she went ahead with appropriations to complete them even before Germany's explosive withdrawal from the League and the Arms Conference.

Meantime, France urged on by veterans of her wars with Germany, and a people that never can forget the last one, has forged a powerful chain, including a trench and casemate system. For three years workers in the Metz region have welded this strong chain along a 125-mile front.

While men have been digging and marching along the fronts of Belgium, Austria and France, an ultimatum has come out from Prague, Czechoslovakia: "Any revision of the war treaties so far as Czechoslovakia's boundaries are concerned can be carried out only with military force."

Poland, meanwhile, long ago had let it be known that vigorous opposition would greet any German efforts to revise Germany's eastern boundaries.

Poland never will surrender the province of Pomerania—the so-called Polish corridor—without a war, a speaker declared to the accompaniment of cheers in parliament at Warsaw.

Added to these movements, Prime Minister Stanning declared at Copenhagen only Tuesday, referring to a discussion of reinforcements for the southern Danish frontier, that it would be "defended to the limit."

Little Switzerland was heard from in connection with the arms and armaments yesterday. Reports have reached international circles at Geneva that the Swiss military leaders were to ask extraordinary credit of 85,000,000 gold francs, \$28,800,000, to increase armaments.

JUDGE TO HOLD INVESTIGATION INTO LYNCHING

Negro Accused of Having Attacked White Woman Was Dragged from Jail and Hanged from a Tree.

Princess Anne, Md., Oct. 19.—Responsibility for the lynching of George Armwood, negro who was dragged from the jail here last night and hanged from a tree near the town limits, was placed today by Governor Albert C. Ritchie squarely on the shoulders of Judge Robert F. Duer and state attorney John B. Robins, of Princess Anne.

Governor Ritchie directed Judge Duer, a member of the bench of the first judicial district, and State's Attorney Robins to take immediate action to set in motion the necessary legal machinery for the apprehension of those who were responsible for or who participated in the lynching.

Armwood, brought back here from Baltimore less than seventeen hours earlier to face accusations of attacking an aged white woman was wrenched from the protection of twenty-five state policemen last night and his body was finally left in a gasoline-soaked pyre on the main business corner.

The mob of more than one thousand men, women and youths, stopped temporarily by a tear gas attack from the state police, stormed the jail, battered down the heavy steel doors and after ripping most of the clothes from his body and fastening a rope around his neck, dragged the negro out into the street.

Eight defenders of the jail fell during the attack, cut by flying stones and bricks.

Armwood was captured Monday night near Pocomoke City as the negro who earlier in the day grabbed Mrs. Mary Denston, eighty-one year old wife of a Somerset farmer, as she was walking home after spending the night with her daughter.

Three brush fires in the Los Angeles region and two fires raging through redwood timber in the vicinity of Santa Cruz were attributed by officials to the heat.

Two cases of heat prostration, neither fatal, were reported in Los Angeles yesterday as the mercury rose to ninety-two degrees, three degrees below the previous day's maximum.

CALIFORNIA BRUSH FIRES PROVE INCREASING MENACE

San Francisco, Oct. 19.—Fires in long-dry timber and brush became an increasing menace in California today as an October heat wave clung on.

Three brush fires in the Los Angeles region and two fires raging through redwood timber in the vicinity of Santa Cruz were attributed by officials to the heat.

Two cases of heat prostration, neither fatal, were reported in Los Angeles yesterday as the mercury rose to ninety-two degrees, three degrees below the previous day's maximum.

FRENCH GOVERNMENT IN DANGER OF BEING OVERTHROWN

Paris, Oct. 19.—The Cabinet today suddenly confronted serious opposition in the Chamber of Deputies over balancing the budget and officials frankly said there was danger of an overthrow.

The government was notified by the finance committee of the Chamber that it was impossible to push through the budget measures within the week fixed by Premier Edouard Daladier in a speech before Parliament this week.

M. Daladier has said that the budget must be balanced completely or the country must find a new government. Commission debates indicated dissatisfaction with a number of measures.

BUILDING PERMITS VALUE INCREASED IN SEPTEMBER

Ottawa, Oct. 19.—An increase of nearly five per cent. in the value of building permits in sixty-one cities of Canada is indicated in the monthly report for August and September issued today by the Dominion Bureau of Statistics.

September's value stood at \$2,032,839 as against \$1,938,082 in August. Usually, in the last thirteen years, September values have been lower than those of August.

Provinces to record increases were Prince Edward Island, New Brunswick, Quebec, Manitoba and British Columbia. The remaining provinces recorded declines.

WASHINGTON STUDIES SCHEME TO PROVIDE UNEMPLOYED WITH COAL

Retailers, Railroads and Coal Operators Will Be Asked to Co-operate in Nation-Wide Endeavor to Aid Needy Families During Winter Months—A Thousand Carloads of Apples Will Be Purchased Immediately.

Washington, Oct. 19.—Plans for distributing thousands of tons of hard and soft coal to the needy of the United States during the coming winter were being worked out today by the relief administration of the federal government.

One suggestion under consideration called for distribution directly from retail dealers. Persons needing and unable to buy coal would obtain orders from local relief agencies. The retailers, railroads and coal operators would be asked to reduce their charges on relief coal.

No estimate of the amount of coal that will be needed has as yet been made.

A census of those on public relief rolls throughout the country was underway today to "provide a broader factual basis" for dealing with unemployment problems. The information will be taken from the records of local relief organizations. It will include the number of children under one year of age on the rolls, the number of school age, the number of persons of employable age, potential wage-earners and the number eligible for old-age pensions.

Meanwhile, the relief administration pushed ahead with its programme of purchases. It was announced one thousand carloads of grade "C" apples would be purchased immediately. That \$300,000 had been set aside for apple purchases and that between \$50,000 and \$100,000 would be spent on low-grade range cattle to be processed.

The Surplus Relief Corporation already has brought 100,000,000 pounds of pork, egg purchases are under consideration and a survey is being made to determine how many families of cotton will be necessary.

A decline in the number of persons demanding relief by three per cent. and in expenditures of public funds by seven per cent. from August to September was disclosed by the relief agency on the basis of a survey from 135 principal cities and urban counties.

Officials said some of the decline in the number receiving relief and expenditures was "due, in part at least, to improvements in the general business situation."

Commercial food distributing services throughout the country have pledged co-operation on a non-profit basis in the distribution of foodstuffs.

EVERYDAY TRADE IN U.S. NOW UNDER N.R.A. CONTROL

Washington, Oct. 19.—A drastic application of the industrial control principle to everyday trade is now under way, with cotton textiles the trying ground of the experiment.

From now on no man may start a new cotton mill without approval of Hugh S. Johnson after a committee of cotton men elected to supervise operation of the industry's code have made recommendations. Not only that, but no mill owner may increase his productive machinery without the same approval, recorded in a certificate bearing the administrator's signature.

Johnson approved regulations to this effect yesterday while President Roosevelt and his recovery aides worked hours over price policies for retail stores. The President's decision on the retail issue was not expected before tomorrow.

The only thing yet done that compared with the sweeping mystery of the new act is the production allocation established by the Federal Government over the oil industry, which, as an exploiter of natural resources, is regarded as invested with a semi-public character.

NEW YORK, Oct. 19.—British and gold standard currencies were barely steady at the opening of the foreign exchange markets today. Sterling held unchanged at \$4.50, the French franc eased 0.3 of a cent to 5.50, while the Canadian dollar lost one-sixteenth at 96 1/2 cents.

STAPLES AND OTHER TAYLORVILLE PROGRESSIVES HAD BEEN "STRIKING" FOR UNION RECOGNITION FOR MORE THAN A YEAR. At the time of the shooting several thousand miners were pouring into Springfield for a protest demonstration.

Highway and Springfield police guarded the doors to the state house and delegation after delegation of miners and their wives was turned away.

FRANCE IS DETERMINED TO KEEP SHARP WATCH ON HER ARMAMENTS

Heated Debate Promised in Chamber of Deputies, with Socialists Demanding State Monopoly of Arms—In Meantime Conversations Are Being Held with Britain and United States in Effort to Obtain Completion of a Disarmament Convention at Geneva.

Paris, Oct. 19.—France is showing a determination to watch her armaments more closely than ever in the face of Chancellor Hitler's activities in Germany. Premier Edouard Daladier favors the control of the sale and manufacture of armaments, but the Chamber of Deputies committee on finance has sought to go even further.

It insisted on complete nationalization of the industry by a vote of twenty to sixteen on an amendment presented by the Socialist leader, Leon Blum.

However, the Premier so vigorously opposed the declared cost and was so insistent that a change was impossible at the present time that the committee reversed the vote and returned to the control idea.

The issue, far from closed, was deemed likely to produce a heated debate in the Chamber, as the Socialists strongly favor a state monopoly.

Meantime, with this domestic question occupying considerable attention, the Government is continuing its efforts to obtain completion of a disarmament convention at Geneva.

To this end, diplomatic conversations are being held with Sir John Simon, of Great Britain, and with Norman T. Davis, of the United States.

Officials have frequently expressed the fear that arms building will develop unless a treaty is signed at once by the great powers.

Such a treaty, it is insisted in official circles here, ought to be nearly completed before the German elections on November 12.

FORMER BANK HEAD ADMITS LAW EVASION

Securities Unit Formed to Do Business Denied by Bank, Albert H. Wiggin Testifies Before United States Senate Committee.

Washington, Oct. 19.—Through the highways of high finance, Ferdinand Pecora, counsel, yesterday traced for the United States Senate banking committee a trail of millions piled up in stock issues by the Chase Securities Corporation and then set aside to meet losses.

Albert H. Wiggin, former head of the Rockafeller-controlled Chase National Bank, conceded the securities unit was created to engage in a business denied the bank by law.

To the closely-following committee members, Pecora then presented a table to show that the Securities Corporation had taken \$120,000,000, or seventy-seven per cent. of its capital and earnings, for reserves and losses and revaluation downward of its holdings.

Early in the hearing, Pecora developed that the Securities Corporation, through subsidiary bought, sold and traded in 1930, 1931 and 1932, the stock of the Chase National Bank and other banks it acquired through mergers. He emphasized the law prohibited the bank from dealing in its own stocks.

Previously he had brought out that under United States banking laws the Chase National was prohibited from underwriting securities issues, but formed the Chase Securities Corporation in 1917 to conduct this business, in which it was up from time to time subsidiary security companies.

Efforts of Pecora to go into "rescue loans" by the Chase National to aid business companies in distress were halted by the committee with the announcement by Chairman Fletcher, Florida Democrat, that it "would only involve the use of names that might do more harm than good."

After bringing before the committee the record of increased capital stock issues by the Securities Corporation since 1917, Pecora told member its capital and earnings to last June 30 aggregated \$156,453,000.

Dividends totalling \$21,907,000 were paid out to 1931, when they were discontinued, Pecora developed, while reserves totalling \$120,138,000 were provided to cover losses and mark down the value of portfolio holdings.

ILLINOIS MINER SHOT AS COMRADES STAGE PROTEST

Assailant Escaped After Firing Shot which Claimed Life of Thirty-One Year Old Taylorville Man.

Springfield, Ill., Oct. 19.—A progressive miner from Taylorville was shot and killed today as thousands of his comrades flocked into Springfield on a protest march while an announcement was awaited on the state's decision about the Illinois union conflict.

Melville Staples, aged thirty-one, of Taylorville, was fatally shot through the chest a half block from the headquarters of the Progressive Union. The assailant escaped.

Staples and other Taylorville progressives had been "striking" for union recognition for more than a year. At the time of the shooting several thousand miners were pouring into Springfield for a protest demonstration.

Highway and Springfield police guarded the doors to the state house and delegation after delegation of miners and their wives was turned away.

PREDICTS IT IS GOING TO BE A GREEN WINTER.

Suttons Bay, Mich., Oct. 19.—It is going to be a "green" winter.

Jake Chippeway, descendant of old Chief Wa-Son-Ning, of the Chippewas Indians, bases his forecast on the low houses built by the muskrats, indicating little ice; the small quantity of nuts stored by squirrels; light moss on the trees; a yellow hunting moon and the dullness of deer's hooves.

Confidentially, Jake adds that he has to predict an open winter each year so his wife won't insist that he cut up more firewood.

BUSY TIME SCHEDULED FOR PREMIER IN REGINA TODAY

Regina, Oct. 19.—Welcomed by leaders of the Conservative party in Saskatchewan, Premier R. B. Bennett arrived in Regina this morning prepared for a busy day.

During the day Mr. Bennett is scheduled to meet representatives of the Prairie Provinces governments in a conference on certain relief problems, including medical services and hospitalization. He will meet Alberta and Saskatchewan representatives of the wheat pools, if present plans are followed, and various local delegations.

At noon, the Prime Minister will address a luncheon in his honor, and in the evening will leave for Winnipeg. Mr. Bennett will stop a day in the Manitoba capital, and expects to be back in Ottawa by Monday morning.

COAL MERCHANTS ASSESSED EXTRA DOLLAR A TON TO BUILD RESERVE

L. A. Forsyth, President of Scotch Anthracite Coal Company, Explained Object of System Was to Afford Dealers a "Reasonable Margin of Profit and Establish a Reserve for Bad Debts"—Crown May Not Rest Its Case Until Next Week.

Quebec, Oct. 19.—With Alfred Rogers, of Toronto, president of the Elias Rogers Coal Company, scheduled to offer evidence, the eighth day of the trial of six coal companies charged with maintaining the price of coal in the Province of Quebec by illegal combine opened here today before Mr. Justice Wilfrid Lacombe in the Court of King's Bench.

Indication the Crown would not rest its case until sometime next week was given by Louis St. Laurent, K.C., Crown counsel, when he stated Senator Lorne C. Webster, president of Canadian Import Company, would probably be recalled to the witness stand tomorrow.

Seven witnesses testified at yesterday's session as proceedings continued at a rapid pace. In questioning L. G. Mickel, president of the F. P. Weaver Coal Company, Mr. St. Laurent suggested that "In 1929, Hart and Adair, Weaver, Scotch Anthracite and Canadian Import had practical control of anthracite imports in Montreal." Mr. Mickles replied "I think Mongeau and Robert were importing too."

To build up a reserve for dealers, purchasers were charged an extra \$1 a ton, L. A. Forsyth, K.C., president of the Scotch Anthracite Coal Company, testified. He explained the object of the system was to afford the dealers a "reasonable margin of profit and establish a reserve for bad debts, for a large number of apartment houses were in a bad position." When Mr. St. Laurent pointed out that charging them more would make it easier for them to pay, Mr. Mickles replied "no, but it safeguarded the trade."

Members of the Quebec Association of coal merchants did not adhere to the prices established by the Association, Jean Edouard Beaugemin, president and secretary of the Association, stated. The prices were figured on the wholesale price with allowances being made for transportation and profit, he said.

Flying of documents relating to affairs of the various companies continued and defence counsel took a part in the proceedings in contrast to preceding days when Mr. St. Laurent questioned witnesses almost exclusively. Even a note of humor was injected into severe legal procedure when Mr. Forsyth stated that despite his interest in the coal business his own Montreal home was heated with oil. The heating system was installed when he had moved into the house, Mr. Forsyth explained, and he had not bothered to have it changed.

Retail dealers in Montreal suggested the idea of a referee to inquire into under-selling in the market, Mr. Forsyth declared. Asked by Aime Geoffroy, K.C., of Montreal, defending counsel for several houses, how he came to be appointed referee to investigate into price cuttings, Mr. Forsyth replied: "At that time a very serious situation existed in the coal trade in Montreal, and several representative retailers called a meeting held in a Montreal hotel which I was invited to attend."

"It was brought out at this meeting credit in the coal trade was very bad and the dealers were not able to secure business except by quoting low prices. It was also revealed at the meeting that if this situation

MIQUELON DISTURBANCES TO BE PROBED

St. Pierre, Min., Oct. 19.—Inspector of Colonies Merat has arrived from France to investigate conditions on the island and to prepare a report for the French Government on the disturbances of last August.

THE WEATHER

LOCAL SHOWERS.

Pressure is high over the eastern portion of the continent, and from Dakota northward to Alaska, with a deep depression over the Davis Straits and a trough of low extending southwestward across Hudson Bay and the Great Lakes to the southwest states. The weather has been cool over the greater part of the Dominion with light snow and rain in some southern sections of Saskatchewan and Alberta, and light showers in Ontario and Quebec.

Forecast: Increasing cloudiness, followed by occasional rain late tonight and Friday.

Temperature yesterday: Maximum 52, minimum 35.

Same day last year: Maximum 62, minimum 43.

NEW HOPE AWAKENED THAT RUSSIA MAY BE INDUCED TO JOIN LEAGUE

International Circles at Geneva Encouraged by Reports United States Is Studying Question of Recognition of Soviet Russia—Statesmen Impressed with Address of Arthur Henderson Before International Peace Associations.

Geneva, October 19.—Reports that the United States is studying the question of recognition of Russia awakened new hopes in international circles here today that the Soviets may be induced to join the League of Nations.

There have been clear indications, it was recalled, that the League is flirting with Russia, and Russia with the League.

Statesmen were impressed with the address of Arthur Henderson, chairman of the Disarmament Conference, before the International Peace Associations several days ago in which he linked the United States with Russia in his praise.

He called them "partners in that great adventure of organization of peace."

They were struck also by Henderson's noticeable tribute to the Soviet Union for its weighty contributions to peace efforts in adhering to the Kellogg pact and in its non-aggression and conciliation treaties.

With her eastern neighbor, Japan, resigned from the League, and her western neighbor, Germany, potentially abandoning the Geneva Conference, international circles are wondering whether the world will not see a big evolution in international politics, with Moscow marching definitely toward Geneva.

It is believed that France will urge such a step.

For years it has been said at Geneva that if the life of the League ever was imperilled the United States would help save it.

In some quarters, it is pointed out, that Norman H. Davis, of the United States, in his declaration at the Disarmament Conference on May 22nd, announced that if the nations achieved substantial reduction in armaments the United States was "prepared to contribute in other ways to the organization of peace."

KILL A BANDIT AND WIN A NEW HAT

Long Beach, Calif., Oct. 19.—Joe McClelland, acting office today as chief of police, had this to say to his officers about dangerous characters:

"I will buy a new hat for every officer who kills a bandit. Should any fellow draw a gun on you, kill him. It is the only language he can understand. From experience, officers of this department know what to expect from gangsters holding the advantage, so don't let them get the advantage."

NORTH DAKOTA RAILWAYS DEFY WHEAT EMBARGO

National Guardsmen May Be Mobilized to Enforce Governor's Order and Prevent Carriers from Shipping Wheat from State.

Bismarck, N.D., Oct. 19.—Railroads in North Dakota today defied Governor William Langer's wheat embargo order, while the adjutant general's office made plans to use National Guardsmen to halt the carriers from shipping wheat from the State.

In the absence of Adjutant General Earle Scales, Assistant Adjutant General Herman A. Brocopp said that National Guardsmen would be mobilized to enforce the governor's orders.

Reports that the railroads were accepting wheat for shipment from the state and that grain was crossing state lines brought from Brocopp the comment that as soon as official word was available the embargo order had been violated. National Guard companies would be despatched. He said, however, it was possible no action would be taken until Scales' arrival later today.

GRAFF ZEPPELIN LEAVES FOR CHICAGO.

Rio de Janeiro, Brazil, Oct. 19.—A half hour after its arrival here early today, the Graf Zeppelin departed for Chicago with seventeen passengers, most of whom were bound for the Century of Progress Exposition.

continued it would have a serious effect on the coal situation in the Metropolis.

"It was the retail dealers themselves who asked that some system be devised to curb this under-selling and not the importers. However, as some of the importers were also dealing in the retail business, such as Mongeau and Robert, it would have been an impossible situation if the retailers were forced to sell at set prices, while the importer himself was free to secure the business at whatever price he desired, so far this reason, their co-operation was sought in the matter."

"A large portion of the small coal business in Montreal at that time was being done with apartment houses, which were not all at that time in a very sound position, so that it was necessary for the dealers to have a reasonable margin of profit to carry on business."

Asked whether the serious situation in the coal business arose suddenly in 1932 or whether it had existed for some time, Mr. Forsyth replied that it had existed for some time, adding "but it became evident in 1932 that people were selling coal at prices at which they were bound to lose money."

LIQUOR WILL BE USED AS LEVER FOR U.S. TRADE

President Roosevelt Intends to Get Something in Return for Big United States Liquor Purchases.

Washington, Oct. 19.—A prospective shipment of 500,000 cases of Canadian whiskey to the United States for medicinal purposes was thwarted by a presidential embargo, according to reports circulated here today.

President Roosevelt has in mind the possibility of using the vast American market for liquor as a lever in effecting trade agreements with other countries, Canada included, it was said.

An immediate embargo on imported medicinal liquors was ordered yesterday by President Roosevelt on evidence that such importations had increased sharply in the last ten days in anticipation of prohibition repeal. The President also rejected a proposal to permit importation of beverage liquors in bond pending the date when they may be sold legally. This is expected to be December 5th.

The President's position was explained in part by his unwillingness to give away what he considered a good trading advantage in his international economic negotiations. This theory was strengthened by the presence of the State Department, as well as the Treasury, in the deliberations on the administration decision.

Mr. Roosevelt is known to have made such a suggestion for the benefit of France, which has been eyeing the new American liquor market. He had also in mind the Canadian market, which is circumscribed by the Ottawa agreement.

Dotting with these considerations was a desire to prevent giving foreign products a strong foothold in the American market while the reviving domestic producing industry was regaining its feet.

The President's embargo on medicinal liquors was aimed at a rapidly-growing volume of whiskey imported ostensibly for medicinal purposes under present regulations, but held actual demand for beverage whiskey immediately after repeal. Such importations quadrupled, according to federal records, from the time Congress modified the medicinal law until early this month. In the last ten days there has been a phenomenal increase.

The orders to halt this flow were telegraphed to all administrative officials by James M. Doran, Commissioner of Industrial Alcohol. Importations already authorized will be allowed to continue until the authorizations cease at noon. Under the prohibition law it has been necessary to receive federal permission for such importations before the shipments could clear abroad.

The White House had sanctioned an importation of five hundred cases of French brandy for medicinal use, whereas Commissioner Doran had recommended 2,000 cases and 500,000 cases of Canadian whiskey. The lid was clamped down tight on Canadian liquor and raised only slightly on French. Officials estimate that there is now a medicinal supply sufficient for two or three months, and that domestic distillers have been forehand enough to be able to market whiskey at \$1.50 to \$2 a quart in December. The country has been consuming medicinal liquor at the rate of about 250,000 gallons a month.

FAR-REACHING RESULTS SEEN IN TEST CASE

Charge of Unlawful Establishment and Operation of Radio Set Dismissed in Ontario Courts.

Windsor, Ont., October 19.—Archbishop F. Gignac, Sandwich West township solicitor, was acquitted for the second time on a charge of unlawful establishment and operation of a radio set in his home. The case was regarded as a test of Dominion Government legislation imposing a tax on radio receiving sets.

Magistrate W. A. Smith found there was no evidence that Mr. Gignac had ever "worked" his set and no evidence, except by inference, that he had unlawfully established a "radio station."

It was the second time within a year Mr. Gignac had faced court proceedings. In December last R. G. Gooding, Department of Marine radio inspector, laid a charge against him alleging he had not secured a 1932 licence to operate the set. Magistrate Smith dismissed the charge and on appeal by the Government County Judge F. W. Wilson upheld the magistrate's decision.

The charge against Mr. Gignac in the first court case was "unlawfully establishing a radio telegraph station or apparatus without payment of the regular fee."

The contention of the defense was that Mr. Gignac, though the owner of the home in which the radio was installed, did not operate it. It was further held that under the terms of the act each person who did operate a radio, whether an owner or not, must have a licence. It was contended it was a personal licence and not one for the set.

The intention of the act, said the counsel, Anase Seguin said, "was to control radio at its infancy, when there were no receiving sets except in broadcasting stations."

In dismissing the case Magistrate Smith pointed out there could be no presumption under the terms of the act and that there must be proof of operation by the defendant. He held that such proof had not been given in evidence. Further, he stated, there was no proof that the action had been authorized specifically by the Minister of Marine as provided for in the act.

The act was obsolete, he said, and clarification was long overdue. Last month Mr. Gooding instituted a new action against Mr. Gignac but this time two separate charges were laid — one of establishing a radio telegraph station and the other of working the station.

Evidence presented was similar to that at the previous trial and the defence was the same. This time the prosecution presented the necessary documents showing the charges were laid by authority of the minister.

Mr. and Mrs. D. A. Collins, of Montreal, were guests at Mr. and Mrs. A. J. Rowe's.

Mr. P. H. Young is visiting Mr. and Mrs. F. L. Young at Phillipsburg.

St. George's Church Guild held its annual chicken pie supper in the Memorial Hall. The attendance was considerably better than usual, there being a large number from surrounding districts and as far as Hartford, Conn., Montreal, Phillipsburg, Lacolle, Sherbrooke and Noyan. The hall was prettily decorated for the occasion. Mrs. Adcock and Mr. Rowland furnished music for the evening. A quilt had been made and donated to the organ fund by Mrs. Provencil was sold. The amount realized was \$34.

Mr. Robert Hawley has gone to Hartford, Conn., for a time.

Mrs. Tuttle Derick entertained at the tea hour in honor of her mother, Mrs. Frank Beerworth, who celebrated her eightieth birthday on October 13. Mrs. Beerworth takes a keen interest in the sisters of the day and has spent practically all her life in this district.

GIRL'S MOTHER TO BE CHARGED WITH CRUELTY

Little Tot Who Told Detectives She Had Been Chained to Her Bed and Constantly Beaten Taken to St. Jerome Today.

Montreal, Oct. 19.—A frail twelve year old girl, who told chief of Quebec detectives she had been chained to her bed every night and constantly beaten, was today being taken to St. Jerome, Que., near her home, where it was expected a charge would be made against her mother.

A harrowing tale of beatings was told to provincial detectives, they said, and scars shown which the girl will carry throughout her life.

Police learned of the ill-treatment through brothers and sisters. All members of the family were brought here following the disclosures, but were today taken back to St. Jerome.

Detectives took with them a number of heavy chains which they said they found under the child's bed.

BENNETT WILL ANNOUNCE WAGE DISPUTE ACCORD

Announcement of Settlement Will Possibly Be Made by Prime Minister Upon His Return from Western Tour.

Montreal, Oct. 19.—Announcement of the settlement of the wage dispute between the Canadian Pacific and the Canadian National Railways and the railway running trades appeared imminent today. While nothing definite was stated, it was learned from authoritative sources the settlement would probably be made by Prime Minister R. B. Bennett, possibly on his return from his recent speaking tour in the west.

Unconfirmed rumors for the past few days have reported the dispute has been settled and it was understood officials of the railways and the brotherhoods have been discussing final details. The dispute concerned the men's refusal to accept the second ten per cent. reduction in basic wage rates.

STOCK PRICES RESUMED SLUMP THIS MORNING

Influenced by Drop in Security Prices on Wall Street, Prices on Montreal Market Continued Downward Trend Today.

Montreal, Oct. 19.—Influenced by the drop in security prices in Wall Street, prices on the Montreal Stock Exchange today continued the slump started on Monday and continued throughout the week with the exception of a slight recovery on Tuesday, and all of the leaders were holding heavy losses at midday.

Opening prices were generally the tops for the day, although shortly before noon there was a spasmodic attempt to recover early losses which failed to produce any marked effect. Trading volume expanded with the increase in selling pressure and the market was holding a substantial gain over the volume for the same period of yesterday.

International Nickel dropped to its lowest level since early in the spring of this year, touching \$17.40 before recovering to \$17.70 where it was holding at midday. It had lost from last night's closing level. Consolidated Smelters dropped bottomward quickly and obtained practically no support from traders, who by noon had assumed a more comfortable position among the non-participants on the sidelines. It held a loss of six full points at 114, completing a loss in little over a week of twenty points. Canadian Industrial Alcohol "A" declined 1 1/2 at 14 1/2 and the "B" shares 2 1/2 at 12 1/2, while Montreal Power and National Breweries lost 1/2, the former at 32 1/2 and the latter at 33 1/2.

Among the remaining issues, Brazilian lost 1/2, Bruck Silk 1 1/2, Canadian Celanese a full point, Canadian Car 3/4, Dominion Glass two points, Hollinger thirty cents and Dryden 1/2. Fractional losses were also disclosed by McGill Frontenac, Dominion Bridge and others.

Always Lying Down—Took Lydia E. Pinkham's Vegetable Compound—Getting Stronger Every Day

"I suffered from backache, general rundown condition and female weakness. I had to lie down nearly every day. My druggist recommended Lydia E. Pinkham's Vegetable Compound. I have taken several bottles and believe it to be the best medicine I ever used. I sleep well, my nerves are better, my appetite is improved and I am getting stronger all the time."—Mrs. A. E. Blythe, Box 801, Drumheller, Alberta

BACKACHE

Backache is the most persistent symptom of kidney trouble. Dr. Chase's Kidney Pills entirely rid the system of the poisons which cause backache, lumbago and other painful and dangerous diseases. Used once or twice a week they ensure the healthful action of the liver, kidneys and bowels.

BRINGING UP FATHER

GREAT HEAVENS! I LEFT SOME CORNED BEEF AND CABBAGE IN THE ICE-BOX. I'LL HAVE TO GO BACK HOME BEFORE MY HUSBAND FINDS IT. HE MUST NOT KNOW I'VE BEEN EATING IT.

BY GOLLY—I FEEL HUNGRY. I WONDER IF THERE'S ANYTHING IN THE ICE-BOX?

CORNED BEEF AND CABBAGE!

OH-HELLO-MAGGIE! I SEE YOU'RE BACK. DID YOU FORGET SOMETHING?

I'M TOO LATE. I CAN TELL BY HIS TONE OF VOICE.

Mr. CAN'T WORK

He begins to wish for quitting time about ten o'clock every morning. He has headaches, indigestion, twinges of rheumatism and general listlessness of mind and body.

Mr. Can't-Work has been constipated for a long time, although he may not suspect it. Poisons from clogged intestines are in his blood. His condition is nature's danger signal. Eno's "Fruit Salt" was just made for men like him.

Mr. CAN WORK

Mr. Can-Work is a self-starter and a go-getter! He actually enjoys the business day, because he has learned how to keep fit. Every morning he takes a dash of Eno's "Fruit Salt" in a glass of water. This pleasant-tasting, effervescent drink keeps him normal!—healthy!—fit! Eno neutralizes acids, sweetens the stomach, regulates painlessly, energizes both brain and body, and forms no habit! The one safe, alkaline corrective of constipation.

Eno is always prominently displayed and recommended in the better stores. Sold in two sizes: Household (large) 8 oz. and Handy (medium) 4 oz.

What did Pharaoh get by increasing the task of the Israelites? He lengthened their hours of labour, increased their tasks and taxes, and harshly refused to abolish the imposition on sugar and foods. Pharaoh reaped ruin. Time wreaked its vengeance on his people. Egypt is best known in the world by its Mummies.

LIBRARY AND READING ROOM APPEAL FOR HELP.

In 1890 the Sherbrooke Library faced a crisis in its affairs which ultimately led to the loss of the commodious building in which art treasures were preserved, and which display added much to the cultural facilities of the citizens of forty years ago.

There can be no jealousy in the bosom of any friend of free education in the upbuilding of a Library now in its modest quarters. Yet the Library and Free Reading Room has fallen into stress, chiefly owing to a diminishing civic grant, which has gradually been reduced from \$1,500 to \$300. This latter sum does not begin to pay the extra cost of the free reading room with the subscriptions for newspapers, magazines and other publications, both English and French.

Membership fees have been reduced from the former \$6 a year to \$3.

It was a philanthropic landlord who erected the old building by the Dufferin bridge, and he set aside ample room for the then activities of the Library and Art Union.

This is a Community Service such as is enjoyed to the utmost by smaller towns like North Hatley and Knowlton, and surely we in Sherbrooke, who can avail ourselves of its privileges, should help to aid the institution of its constant financial worry.

Since 1880, and for fifty-three years, the Public Library has given to the citizens the choice of a fine collection of books.

President John Leonard, and his colleagues on the Board of Directors, advance a direct appeal to all citizens to help in their emergency with at least the cost of a yearly membership at \$3.

WEAKNESS OF THE LEAGUE OF NATIONS IN PERSONNEL.

The League of Nations and its Disarmament Conference is again in the dumps for lack of dominating heads. The Austro-German top sergeant, Hitler, failed to see at the Conference any of the responsible heads of government, and he promptly smote it one in the forehead.

A few years ago we pointed out that the League of Nations would never be a force for Peace, if the Nations continued to send office boys as representatives. Since that time there has been a betterment in the calibre of the statesmen sent from Canada. Yet the League lacks a real Leader.

Perhaps the most sterile and senile group ever sent to any international conference was the party sent by the United States to the International Economic Conference at London. President Roosevelt was so little impressed by its personnel that after its departure, he went a' yachting and a' fishing.

In the good old days of Treaty-making Britain would send her responsible Prime Minister. Conceive the folly of sending a fallen Labour leader, like Arthur Henderson, to try and dictate to the tricky Hitler. Yet Britain sent the dew-lapped men, possibly being obsessed with the same glad enthusiasm which was slobbered on Snowden when he learned to say "No!" and resisted the further dispersal of British funds taken from their taxpayers.

The League of Nations will be as effective as a Dutch Treat so long as the conferring Nations send third string substitutes where they should send "A Number One Good Man" who can always be had, and he must be forceful to the point of arrogance.

KEEP YOUR FEET DOWN ON THE CONCRETE.

Standing in the shadow, behind which confidence still lurks in the United States, is the threat to issue three billions of dollars of government currency. This is inflation. Money so issued becomes but a further burden, for money borrowed must be redeemed or be redeemable. It becomes a debt. As well may we in Canada laugh at the seven billions of dollars which we have piled up in our debt and then gleefully borrow from the people a few more billions. It is as though a farmer owed \$4,000 on a mortgage he was unable to pay, and went out and borrowed \$6,000 to repay the mortgage. Thus adding to his burden an additional fifty per cent., and cheering his own sagacity. The right policy is to spend only what we save, and save much that we would foolishly spend.

The Tower of Babel and the leaning tower of Pisa were built in early days to please the vanity of

men who were reaching high to prove how big they felt in their day and generation.

Yet that which lasts through the ages must be laid on the solid foundation of dignity and usefulness.

We are none of us impressed by the fat and ugly structures which reach up to the sky, and pictures of the skyline of New York only make us look behind to see the lurking eagle ready to dart out and snatch its passing prey.

AN OCTOGENARIAN ADMIRER; AND HIS WISDOM.

From D. T. McDonald, Gould, who cheerfully admits that he is eighty years young, the Editor acknowledges this bouquet:

"Although the Record does not increase in size it is increasing in value to the country. The editorial columns are worth the price to the Province and to the Dominion.

"Eighty years old, and since the time of Confederation I do not recall the country being in such a state as it is now.

"Touching on politics, it seems to me that parties are studying partisan gains more than they are the needs of the country.

"When a candidate is in the field he is forced to sign allegiance to one of the political parties; thus the country is governed by one man. I believe that the time will come when each candidate will be asked to sign a promise of resignation by his constituents before the nomination is ratified, thus preserving their own independence in the interests of their constituents."

Mr. McDonald, who might be termed one of the "Wise Men from the East," emphasizes an idea which has been enforced in other places than Canada. But who would or could enforce the promise? There could be "the recall," and yet this has not proven itself.

EDITOR'S NOTE BOOK.

Flirting with the Labour party, the thought occurs whether the Labour organizations would be so simple as to endorse a political cast-off who has declared in the most spiteful phraseology that his new policy is one of vengeance against those who ousted him from his post in favour of a sound and sane leader, and who resisted the selection of a strange leader chiefly because of the Houdini shadow which they thought was peering from behind.

That wheat should become a basic product for other things than foodstuffs has been suggested, and scientists, chemists, and other inventive geni are studying the problem. If one could make fine writing papers out of the wheat kernel it would effect two things: deforestation and the surplus of wheat grown. There was a time when the distillers made white wheat whiskey, but few of us would advocate drinking wheat.

The exchange value of the Canadian dollar on the New York markets has advanced because there lurks in the background the power given to President Roosevelt for the inflation of United States currency to the billions billions—some \$3,000,000,000 in fact. Should this inflation be put into play the U.S. dollar will be at a heavy discount in all the markets of the world.

Talking of political economy, of trade winds and the channels of trade, it was Willie's dad who inspired him to define trade winds to his pals, as "What the politicians do." Mackenzie King in the first, and Richard Bennett following, have been doing that in the Far West, both being accompanied by a large and vociferous crew of newspaper staff correspondents.

What! eh, what! Are we going to find another Senator in the woodpile, whom we will have to shove down the coal hole? Senators, like the clergy, must live a life in the open, and be above reproach, and as far above suspicion as a Caesarian wife. Nor can any Senator be allowed to prey when he is not praying.

Press Comment

IN BUT A FEW YEARS.

Toronto Star.

From time to time since police troubles began in Toronto one of the morning papers has been able to reproduce editorials from the Sherbrooke Daily Record strongly supporting Chief Draper and censuring all criticism of him. In fact this Quebec newspaper has been the most fiery champion of the police methods he has used in this city. No doubt this is not unrelated to the fact that Chief Draper used to live in that quarter of the neighboring province, while Mr. Alf Wood, editor of that paper, lived at one time in Toronto. It may be that the Toronto police chief is one of Alf Wood's old subscribers and if he went back on one old subscriber what would his other old subscriber think of him?

In its latest article the Sherbrooke paper blames the critics of Chief Draper for the fact that in a few years this city has lost the name of "Toronto the Good" and is being called by the province press "Toronto the Riot Centre." We have not noticed the press of Ontario calling Toronto by this name, but if so how comes it so? Before Chief Draper arrived there were no disturbances in the parks. There were, in fact, no meetings there, or if at long intervals meetings did take place nobody knew anything about it except the few who were present. The police did not interfere; the newspapers did not report such meetings if they did occur. It was the coming of a new breed of action by the police which caused park meetings. Any person or body of people who wanted to make any kind of speeches of which Chief Draper did not approve found themselves driven out of halls, unable to rent halls from owners who were afraid of having their licenses cancelled. This it was that caused radical speakers to go into the public parks and the police with horse, foot and artillery drove out of the parks the crowds which gathered there in prospect of seeing some kind of battle royal. All this has occurred in the last few years and since Chief Draper came here with his militaristic conception of police duty.

As against the view of the Sherbrooke Record we would cite that of the St. Thomas Times-Journal which trusts that the newly constituted Toronto Police Commission "will not allow Chief Draper to run away with the idea that he may exercise a free hand in the same manner as he has done in recent years, thereby drawing upon the police force of Toronto and upon the city itself more or less reproach." As to this we may say that the Chief Constable has been given definite and detailed instructions for his guidance and is required to end the long drawn out period of needless row-making.

FINDING THE CLOVEN HOOF IN EGOTIST'S AMBITION.

The Cobourg World.

The Cobourg World, by Frank W. Lapp, is a remarkable well-edited newspaper, and is studiously independent in expression, though with Liberal leanings. This paper denounces the Hon. Vincent Massey as an "arch separatist" in the current issue.

Vincent Massey has apparently embarked wholeheartedly on a campaign of trying to loosen the links which bind Canada and Great Britain together.

Fresh from his nefarious, misleading and mysterious Empire Relations Conference, attended by English and Canadian apostles of disunity, Mr. Massey recently addressed the Canadian Club of Toronto. In the course of his address he dwelt eagerly upon the necessity for separate Canadian diplomatic representation overseas.

There is absolutely no reason for any such thing. Nor is there any money available for the perpetuation of this sort of nonsense.

When he makes such a suggestion Mr. Massey is evidently trying to find places for worn-out political hacks like Herbert Mearns, minister to Japan, and Dr. Philippe Roy, minister to France. They by the way are both Liberals. However the Conservatives went their opponents almost one better by giving the Prime Minister's brother-in-law a soft job in Washington.

If our government is going to drum up foreign trade for the Canadian subsidiaries of American corporations, trade commissioners will adequately fill the bill. If it is felt that the status of these commissioners needs elevating let them be attached to British Embassies or Legations. They will certainly have a higher social and diplomatic standing as members of the entourage of a British Ambassador or Minister than as part of a Canadian legation whose very existence is a matter for ironic comment.

It will not suit the present temper of the people of Canada for Mr. Massey, or any of our other separatists, to try to weaken the strength of the Great British Empire by having His Majesty the King, speak through different mouthpieces in the capitals of the world.

GAELS IN THE HOUSE.

Glace Bay Gazette.

The Sherbrooke Record is under the impression that in the last of D. B. McLeod in Victoria there are no Highlanders left in the Nova Scotia legislature. If by Highlander is meant a man of Highland descent there are several in the new house; four members at least of the cabinet are of that stock, one of them, Premier MacDonald, speaks Gaelic. It will be recalled that his first speech delivered in Glace Bay as leader of the Liberal party was partly in the old tongue. "Full many a pang and many a throe," says the Sherbrooke Record, "will the Nova Scotia parliament know since Donald's Gaelic tongue has gone." On the contrary there are probably enough Gaelic-speaking members in the new house to carry on a debate in that language.

INSTRUCTIVE SESSION HELD AT COOKSHIRE

St. Francis District Association Meetings Attended by Clergy and Lay Representatives of Four Deaneries, Coaticook, Cookshire, Richmond and Sherbrooke.

Cookshire, Oct. 19.—Clergy and lay representatives of the four deaneries, Coaticook, Cookshire, Richmond and Sherbrooke, attended meetings of the St. Francis District Association in St. Peter's Anglican Church here last week. Interesting and profitable discussion of diocesan problems, conducted by Venerable Archdeacon Wright, occupied the business meeting in the parish hall after the usual routine had been transacted. Prayers were said at the missionary service by Rev. S. Wood, of Danville, and Rev. Canon Eardley-Wilmot, of Compton, while the

lessons were read by Rev. W. C. Dunn, of Kingsey, and Rev. J. Atkinson, of Magog. The special preacher was Rev. Edgar Jones, Ph.D., of Christ Church, Plymouth, Mass., who delivered a very eloquent sermon on the duty of the church supporting missionary work.

Rev. Jones based his address on the connection and distinctions of "Mine and Thine" in the Jewish Talmud. In the course of his remarks, the speaker described how policies and lives were built on the principles of "Mine and Thine" and in the application of life today showed that the only satisfying principles were based on "What is Christ's mine" and "What is mine is Christ's." Following the service, Mr. Archie Buckland presented to the congregation of St. Peter's Church an enlarged portrait of his father, the late Rev. A. W. Buckland. This portrait will be placed in the parish hall alongside those of past pastors of St. Peter's Church.

The Lord Bishop of the diocese, assisted by the archdeacon and the rector, was the celebrant at the Holy Communion service, while morning prayers were conducted by Rev. E. H. Humphries, of the Church of the Advent, Sherbrooke. The adjourned business meeting was continued in Victoria Hall when two very interesting papers were submitted. Hon. Senator Ru-

fus Pope submitted a thesis on the "Benefits of Church-going," while the second paper concerned the Oxford Group Movement and was read by the Very Reverend Dean of Quebec. Both articles evoked considerable discussion.

Midday prayers, followed by a devotional address, were held in the church, conducted by the Lord Bishop of Quebec. The St. Peter's Ladies' Guild provided an excellent lunch at which the Bishop proposed a hearty vote of thanks to the hosts and the discussion on the two papers presented earlier was continued.

At the closing session, expressions of gratitude were voiced to the Masons for the use of their

hall and to the people of Cookshire for their generous hospitality.

DUCKER CASE IS ADJOURNED FOR ARGUMENT

Dump on Brompton Road Constitutes Serious Menace to Health of City, It Is Claimed—Flies and Rats Carry Disease.

The case of Edwin Ducker against the City of Sherbrooke, in which the plaintiff is suing for \$4,900 and seeking a perpetual injunction to prevent the operation of the incinerator and asphalt plant and the use of the garbage dump on the Brompton road, was adjourned yesterday afternoon by Mr. Justice Charles D. White for argument. Ducker's request for \$4,900 is for damage alleged to have been caused by property by fumes and loathsome odors from the dump and the operation of the incinerator.

This garbage dump, infested with flies and rats, constitutes a serious menace to the health of the city, Mr. Ducker claims in his action. Dr. E. Barrette, of the Provincial Bureau of Hygiene for Sherbrooke, Stanstead, Compton and Frontenac Counties, testified during the case that rats and flies are dangerous disease-carriers. He said that he had visited the dump in 1932, and that at that time there had been a nauseating smell. Discarded garbage had not been covered over as the law demanded, he said, but he realized that the city was given a certain time in which to do this and that that time might not have elapsed.

According to law, Dr. Barrette continued, a garbage dump must be located 1,200 feet from the nearest dwelling. Edward Cote, of Lennoxville, testified that the dump was situated only seventy-five feet from one of Mr. Ducker's houses occupied by tenants.

A number of witnesses for the plaintiff testified that the dump emitted terrible odors. Walter Scott Armitage said that he had gone to visit the dump accompanied by Mr. Ducker, but the smell arising from the discarded rubbish was so strong that they could not remain near the place.

J. T. Martel, municipal road superintendent, explained the operation of the incinerator, and said that all rubbish that could not be burned was discarded in the dump. However, this dump, he claimed, was a new one built when the incinerator was constructed, and not the one of which Mr. Ducker complained.

Stanley Lobly, one of Mr. Ducker's employees, told a rather amusing story about the flies. One afternoon, this witness testified, he was sitting on the veranda of the plaintiff's house eating his lunch. Mr. Ducker was sitting near him. Suddenly his employer said: "Look at the flies on your pants leg."

Lobly looked. He brought his hand down upon his pants leg. "Count the flies," his companion suggested.

Lobly did. He had killed eighteen with one blow.

FIVE TYPES OF MOTHERS—IN-LAW TO BE WARY OF

Sociologist Sifted Through 6,000 Questionnaires in Effort to Determine How People May Be Happy Though Married.

Chicago, Oct. 19.—Dr. E. W. Burgess, University of Chicago sociologist, sifted through six thousand questionnaires today in effort to determine how people may be happy though married and said there were five types of mothers-in-law to be wary of.

He listed them as mothers-in-laws, who:

1.—Keep their children close to them after marriage.

2.—Make the newly-married couple dependent upon them financially.

3.—Insist on living with newly-married couples.

4.—Try to insert themselves in the newlyweds' social affairs and try to act as the ages of the youngsters.

5.—Take the part of the new mates against their children in domestic arguments.

TRAGIC MISHAP CAUSED DEATH OF YOUNG MAN

Paul Boissonnault, of Montreal, Instantly Killed at Waterville Yesterday Afternoon when Head Was Crushed Under Three-Ton Load of Dirt and Stone.

Waterville, Oct. 19.—Paul Boissonnault, twenty-year-old son of Mr. and Mrs. Antoine Boissonnault, 2270 Golin Boulevard, Montreal, met a tragic death yesterday afternoon when his head was crushed beneath a three-ton load of wet dirt and stone. The young man, who was a foreman on the government road construction contract here, was instantly killed when he went to investigate some trouble in the hydraulic dump truck he was operating.

Employed by the H. Marchessault and Sons, Limited, Company, of Montreal, young Boissonnault had replaced the regular truck driver yesterday, and was about to complete his task when the fatal accident occurred shortly after four o'clock. After loading his truck from a steam shovel, Boissonnault drove the vehicle to be dumped. However, some default in the mechanism was discovered. The hydraulic dump failed to respond to efforts to raise it, and when it was finally lifted Boissonnault crawled between the upraised load and the truck's undercarriage.

Without warning the heavy load suddenly dropped and the unfortunate victim's skull was caught. Boissonnault's lone companion, Rosario Lemieux, of Coaticook, at once tried to raise the load off the victim, but the aid of several other employees was necessary before the body was finally extricated. Dr. Philip Colquhoun was summoned after the body had been removed to the home of Robert Johnson nearby, and pronounced the death of Boissonnault from multiple fractures of the skull.

At the coroner's inquest, which was presided over by Leonidas Bachand, of Sherbrooke, a verdict of accidental death was returned by a jury under C. O. Swanson. Dr. Colquhoun's report was submitted, while circumstances surrounding the fatality were described by two witnesses, Rosario Lemieux, of Coaticook, and Bert Dixon, engineer on the steam shovel, of Montreal.

Accompanied by the victim's brother, Henri Boissonnault, who was also working on the construction job, and Henri Marchessault, his uncle, the remains were sent to Montreal this morning for burial. Boissonnault leaves his parents, nine brothers and two sisters. During his two months' stay here young Boissonnault boarded at the home of J. H. Martin.

LAKE STEAMSHIP TRAFFIC AFFECTED BY LOW WATER

Craft Drawing More than Thirteen Feet Three Inches Cannot Be Handled in Canal System Between Montreal and St. Lawrence River at and Above Prescott.

Montreal, Oct. 19.—Craft drawing more than thirteen feet three inches cannot be handled in the canal system between Montreal and the St. Lawrence River at and above Prescott, stated an announcement issued here today by the Department of Marine.

The ruling clipped three inches from the permitted draft of vessels in the St. Lawrence canals and follows the recent steady drop of levels throughout the St. Lawrence watershed. From September 15th to today craft of a depth of thirteen feet six inches were allowed in the system. The normal draft during the period of adequate water is fourteen feet, the present circumstances restricting loading of lake vessels to a considerable extent.

Lake steamship traffic will be seriously affected as shipowners are understood to depend to a large extent on cargoes obtained during the last two months of the navigation season to provide a large proportion of their year's revenue, but are unable to load their ships fully.

DECLARES TOO MUCH PERJURY IS COMMITTED

"It is a Deplorable Fact that Many People Come to Court and Perjure Themselves," Stated Judge Lemay in Dismissing Charges Against Four Lingwick Men.

"It is a deplorable fact that many people come to Court and perjure themselves. How can a court be expected to administer justice in a case where perjury is so evident as in this case over which I am presiding?" declared Judge J. H. Lemay in the Magistrate's Court yesterday afternoon as he bitterly denounced the fact that perjury is continually committed before the tribunal. The judge made this statement as he dismissed the case against four Lingwick men charged with having killed deer out of season.

Judge Lemay dismissed the case against the four men because he felt positive that perjury had been committed by either the prosecution or the defence, and he could not be sure which. "I am obliged to give the benefit of the doubt to the accused," he said, rendering judgment. "The four accused and three witnesses have testified here today. Who told the truth I do not know. It is evident that perjury has been committed by either the prosecution or the defence. Those who have perjured themselves have to settle the matter with themselves—with their own consciences and with their God."

The four Lingwick men, who stood accused of shooting deer out of season were Joseph Turcotte, Joseph Rousseau, Andre Bolduc and Alfred Bancourt. It was alleged that on an evening toward the end of the month of June, these four men had gone out in the vicinity of Lingwick and shot four deer.

Oram Gagne, a farmer of Lingwick, testified at the morning session that he had seen the four men, who had gone out on the lake in a row-boat, return with four deer.

However, when the accused took the witness stand yesterday afternoon they all denied that they had gone hunting or that they had killed deer.

Gagne's evidence, corroborated by two other witnesses, stood in direct contradiction to that of the four accused.

"The difficulties that game wardens face in the Eastern Townships while pursuing their duties is indeed regrettable," stated Judge Lemay, after he had dismissed the case. "The Government, he continued, is spending vast sums to protect the province's game, to restock the lakes and streams, and all the time there are people who insist on breaking the law. These hunters who jack deer, who kill more than their allotted share, who are guilty of infractions of the fish and game laws, are not true sportsmen."

"It is regrettable that people do not appreciate the fact that the laws are drawn up, not to interfere with their activities, but to protect the Province's fish and game," said Judge Lemay.

PRICE COMPANY PURCHASE PLAN BEING STUDIED

Hon. Gordon Scott Has Details of Reorganization Plan Proposed by English Firm Under Consideration.

Montreal, Oct. 19.—Hon. Gordon Scott, Trustee in Bankruptcy of Price Brothers and Company, newspaper manufacturers, today had under consideration details of the reorganization plan proposed by Bowater's Paper Mills, of London, England. The details of the plan as they affect creditors and common and preferred shareholders were announced here yesterday. The Bowater plan has already been accepted by the bondholders' protective committee of the Company and, if accepted by Mr. Scott, will be presented to the bondholders and shareholders for ratification.

Payment in full will be made to privileged creditors with claims totalling approximately \$3,500,000. Cash to the amount of \$250,000 will be right to apply the whole or any part of the amount in purchasing preferred stock at \$1.25 per share in the new company will be offered to unsecured creditors whose claims, apart from other large contingent claims, total more than \$1,000,000, according to the plan. These preferred shares, indicated to depend to a large extent on cargoes obtained during the last two months of the navigation season to provide a large proportion of their year's revenue, but are unable to load their ships fully.

The new company to be created by the Bowater interests has a proposed initial capital set-up of \$12,388,992 bonds; 200,000 non-cumulative preferred shares of no-par value; \$5,000,000 six per cent debentures of \$10 par value and 500,000 shares of common stock. According to the Bowater proposals, the new company will purchase the business of Price Brothers, subject to bond mortgages and assuming

BISHOPTON MAN FRACTURED ARM TODAY

William Bonetti, sixty years old, of Bishopton, was admitted to the Sherbrooke Hospital at noon today suffering from a severe fracture of the right arm, an injury sustained this morning while he was at work at Bishopton.

Mr. Bonetti was in a wagon, loading some lumber, when the horses suddenly darted away. He endeavored to stop them, but was thrown out of the wagon, and one of the wheels passed over his right arm.

CLAIMED \$300 AS RESULT OF ACCIDENT

Mr. Justice Hector Verret this morning inaugurated hearing in the case of Amedee Robert vs. Allen Blue et al., both of this city, in which the plaintiff claims the sum of \$322.22 for damages sustained in an automobile accident which occurred at the corner of Belvidere and Frontenac streets on March 17th, 1932.

The plaintiff was driving a motor truck along Belvidere street, it is alleged, when his vehicle came in collision with one of Allen Blue's trucks.

HARVEST HOME SUPPER PROVIDED DELIGHTFUL SOCIAL EVENT

The "Horn of Plenty," which so beautifully symbolizes a bountiful harvest, was lavishly interpreted in a very tangible manner last evening at the Church of the Advent Hall, when the Women's Guild, assisted by St. Agnes' Guild, held their annual Harvest Home supper. The cheery welcome extended to the many guests as they entered the attractive and home-like hall by the president of the Women's Guild, Mrs. J. H. Bryant, and Mrs. E. H. Humphries, the Rector's wife, created an atmosphere of goodwill and fellowship and happiness which permeated the delightful social gathering.

The long supper tables, covered with snowy white linen, looked most inviting with their artistic and appropriate decorations of brilliant orange pumpkin baskets, overflowing with purple grapes, and red apples, while the bowls of autumn flowers carried out the season's lovely color scheme. The bountiful supper, so daintily served, with salads in "cabbage" bowls, delicious cold meats, hot escalloped potatoes, luscious home-made pie, cake and coffee, was truly a credit to the "chefs" and all those who were responsible for the well planned menu.

There were five long tables, the first being in charge of Mrs. E. H. Humphries, assisted by the Misses Doris Price, Olive Eckles, Thelma Price, Nan Humphries and Jean Smith; the second was looked after by Miss Ruby Price, assisted by Mrs. H. Price, the Misses F. Pearson, L. Ross, B. Woodgate and E. Kinder; the third by Miss R. O'Neill, assisted by Mrs. Clifford Bryant, Mrs. H. Bilton and Mrs. E. Bryant; the fourth by Mrs. George Mitchell, assisted by Miss A. Gray, Mrs. W. Budell, Miss M. Peak and Mrs. H. Page; and the fifth by Mrs. James Wark, assisted by Mrs. G. Prewer, Mrs. R. Badger, Mrs. W. Willard and Miss Doris Robinson. Those in charge in the kitchen included Mrs. A. Hawker, Mrs. H. Wilcox, Mrs. R. Downes, Mrs. A. Farr, Mrs. J. Sims, Mrs. S. H. Bachelier, Mrs. F. Byham, the Misses M. A. Bachelier, M. Moe, and B. Sargent.

The invaluable assistance given by Mrs. William Wright, and the splendid co-operation of members of St. Agnes' Guild and the men of the congregation, who one and all contributed so generously of their time and energy, is deeply appreciated by the members of the Women's Guild.

Rev. Murray Simmons is in Brantford, Ont., attending the Baptist convention of Ontario and Quebec.

Congratulations are being extended to Mr. William Wright, who is today celebrating his birthday.

A very enjoyable card party took place last evening after a meeting of the Past Noble Grands' Club of the Princess Rebekah Lodge, held in the I.O.O.F. hall under the presidency of Mrs. William Brown. At the conclusion of business, bridge prizes being won by Mrs. Fannie Wark and Mrs. Henry Pierce. Later the hostesses, Mrs. John McLean and Mrs. Jack Halladay, served delicious refreshments.

Mrs. Ralph Sanders was hostess yesterday afternoon at a most delightful tea given at her home on King street west in aid of the Ladies' Aid of the Baptist Church. The tea table was attractively arranged with a silver basket of pale yellow marigolds and matching candles in silver holders. Tea was poured by Mrs. E. Sanders and Mrs. H. Saunders. The small tables, which were placed about the living room, were centered with small vases of marigolds. Assisting in the tea room were Mrs. S. Saunders, Mrs. M. Johnson, Mrs. Hubert Sanders and Mrs. L. Liddle. Members of the Ladies' Aid greatly appreciated the kind hospitality extended on their behalf by Mrs. Sanders.

DON'T think your skin is hopeless! Don't envy the loveliness of others! End your complexion worries—save money, too—with this low-cost scientific formula that quickly brings real skin beauty by correcting skin faults!

Already over 6,000,000 grateful women have gained clearer, smoother, lovelier skin through Noxzema. That's what's in store for you! Noxzema is utterly different—far more effective than expensively perfumed creams and lotions. It's *graceless*, medicated! Noxzema penetrates deep, gets rid of hidden poisons that cause blemishes—its rare medicines soothe and soften—its ice-like astringents shrink the coarsened pores to exquisite fineness.

For a skin as radiantly clear and free from blemishes as science can make it—follow this simple beauty plan for 15 days: Massage in Noxzema at night after removing make-up. (If skin is dry or flaky, apply several times, as much as can be absorbed.) In the morning wash off with warm water followed by cold. Then apply a new light layer of Noxzema as a foundation for your powder. In this way Noxzema works all day and all night, too. Continue using Noxzema until every beauty-marring skin flaw has disappeared!

EARLY ADVANCE PREDICTED FOR WHEAT PRICES

Hon. H. H. Stevens Declares Government Deserves Praise for Its Determined Efforts to Secure Better Markets.

Wadena, Sask., Oct. 19.—Improvement in wheat prices in the near future was predicted here by Hon. H. H. Stevens, Minister of Trade and Commerce, as he made his first address in the Mackenzie constituency on behalf of the Conservative candidate, S. H. Edgar, now appealing for support at the bye-election to be held in this riding next Monday.

Defeating many of the actions of the Government, Mr. Stevens said it was deserving of support for steps taken to support the wheat price level which, otherwise, might have fallen to disastrous depths. For three years, he said, the Government had assisted the wheat grower and in sustaining the market had done a great service to the producers. The outlook in this connection was now much brighter and he thought the big surplus of the three other great grain producing nations were soon likely to be absorbed with consequent benefits to Canada.

Mr. Stevens did not speak at length regarding the policies of the Liberal or Co-Operative Commonwealth Federation parties, but took the occasion to remark that the C.C.F. programme was repugnant to all Canadians who would never permit their land and homes to be taken over by the state.

The trade agreement made with Great Britain last summer had already resulted in expanded exports to the Mother Country to the extent of \$40,000,000 with trade in lumber, apples, bacon, copper and lead doubled and trebled, he said.

The Government had lost no opportunity to obtain markets for Canada, and the minister believed the Conservative administration at Ottawa was entitled to the support of western Canada.

FAIL IN EFFORT TO STAMP OUT NAZI CAMPAIGN

Widespread Movement in Austria Came to Light as Government Investigation Continued into Alleged Nazi Plots Throughout Nation.

Vienna, Oct. 19.—A nation-wide Nazi military organization has been developed in Austria, it was disclosed today, despite the handicap of the party's dissolution in this country.

The widespread movement came to light as government investigations continued into alleged Nazi plots at the Linz garrison and elsewhere to seize arms for use in "further action."

Details of the investigations were only slowly forthcoming, but enough has been revealed to show a small corner of the Nazi organization. Outstanding in the disclosures is the fact that Nazi storm troops no longer are being organized by civilians, but are in the hands of Austrian army officers—either active or recently retired.

Higher officers, it appeared, either are not involved or as a matter of policy are being shielded from compromising themselves. Lieutenants and captains make up the active membership.

A second fact is that these Nazi storm troops are officered by army men and drill regularly. Kuernberger forest, near Linz, for example, has been the scene of such Nazi manoeuvres.

The third fact uncovered in the investigations, it was said, is that the under-cover military organization—enlisting civilians but organized from within the army and allegedly preserving contact with Germany—is divided into brigades.

Lieutenant Franz Fritsch, of Alpine Regiment Seven, arrested in connection with the Linz garrison plot, was acting commander of the upper Austrian brigade of Nazis.

The Austrian political police also enter into the investigation of the Nazi organization. The difficult position of the police if they ever should be called upon to arrest army men is apparent, but the situation is complicated further by the fact that federal police are not one hundred per cent. free from Nazi sympathizers.

In official circles, various opinions prevail. One view is that it is true there are many Nazis in the Austrian army, but they gradually will be weeded out—especially if harsher methods are employed. Another view is that the "suppressive measures are only helping the Nazis both in and out of the army."

Nazis were busy throughout the night denouncing Vienna's streets with swastikas in preparation for the arrival of Foreign Minister Edouard Benes, of Czechoslovakia, who was met at the railroad station by Chancellor Engelbert Dollfuss and ministers of the little entente.

Extraordinary precautions were taken to guard against any untoward happenings at the station. Both uniformed and plain-clothes police were on guard.

There was great speculation concerning possible results of the Benes visit. Officially, it was said, "economic matters" chiefly were up for discussion.

NEWSPAPER ADVERTISING IDEAL

Managing Director of Life Savers and Beach Nut Reports Business Progress of Hamilton Concern.

Merle Banker Bates, recently appointed vice-president and general manager of Life Savers and Beach-Nut Sales Co., Ltd., of Hamilton, Ontario, who has served for many years as advertising and sales manager in the United States, and who is well known to the trade in Canada having been actively engaged in sales promotion work in this country for several years reports increased business for his firm.

The Life Savers company, which bought the Beech-Nut company, occupies the old Beech-Nut plant at Hamilton, and has recently added to the previous lines of confections, Life Savers Chewing Gum.

"A 5c unit purchase business, like ours, has a real place particularly in these times of less-than-good business. Our management feels that in the increases in the last few months, there is real evidence of strength in newspaper advertising, as well as evidence of the approval by the public of our policy of maintaining, despite increasing costs, the highest standards of excellence in our products."

No doubt when Mr. Bates refers to the "increasing costs" he is but one more manufacturer upon whom the \$40-a-ton tax on sugar, bears heavily.

MANY ATTENDED FESTIVAL HELD AT DANVILLE

Annual Harvest Event Held in St. Augustine's Church—Dean A. H. Crowfoot, of Quebec, Delivered Appropriate Sermon to Congregation and Visitors.

Danville, Oct. 19.—The annual harvest festival of St. Augustine's Church was held on Wednesday evening, October 11th. The church was beautifully decorated for the occasion with a profusion of fall flowers, autumn leaves, fruit and vegetables. The service was conducted by the Rev. Sidney Wood, assisted by Rev. Dunn, of Kingston. The speaker for the occasion was Rev. A. H. Crowfoot, Dean of Quebec, Quebec City. He presented a very inspiring and appropriate sermon on the text, "Consider the lilies how they grow."

Harvest hymns were sung by the choir. There was a very large attendance of members as well as many visitors from the other churches.

INITIATION CEREMONY CONDUCTED BY O.E.S.

At the regular meeting of Confederation Chapter No. 27, O.E.S., the initiation ceremony was conducted by Worthy Master Emma Thurber and Worthy Patron Fred Atwood. Miss Marion Crandall, of Thetford Mines, was initiated into the secret rites of the order.

There were a number from out-of-town who attended, among whom were Mrs. McLeod, of Montreal, while from Connaught Chapter, No. 4, Richmond, were Miss Mina J. Findlay, Mrs. Lorne Robinson, Mrs. George Dyson, Mr. C. A. Watt, Mr. Arthur Hutton, Mrs. Fred McEwen, Mrs. George Galbraith and Miss Kathleen Armstrong. Following the ceremony lunch was served by some of the members.

GOOD ATTENDANCE AT W.A. MEETING

OFFICERS WERE NOMINATED TO LIBRARY BOARD

Annual Meeting of Hatley Library Association Elected J. S. Webster President—Thirty-Five Books Received During Past Year Brings Present Total to 1,524.

Hatley, Quebec, October 19.—The annual meeting of the Hatley Library Association was held in the library with seven members present. The librarian's report showed an increase of thirty-five books, fourteen of which were donated, making a total of 1,524. A donation of old books from the North Hatley library was gratefully received, making it easier to carry on through the summer. 2,100 loans were recorded.

It was decided that the collecting of fines, which has been somewhat neglected the past two years, should be strictly carried out.

The financial statement showed a deficit of \$5.69, which sum was deducted from the honorarium of the librarian to balance books.

J. S. Webster was elected to fill the office of president in place of J. H. Haines, who resigned. Mrs. J. S. Webster, vice-president, and Mrs. F. O. Webster, librarian and secretary-treasurer, were re-elected. The retiring trustee, A. E. Gage, was also re-elected.

Notice of motion having been given last year, Article Nine of the constitution was amended to read, "Five active members shall constitute a quorum," instead of twelve as formerly.

Some plans were made for raising money for the coming year. The following committee was appointed on ways and means, Mrs. Leslie McClary, convener; Mrs. J. S. Webster, Mrs. O. H. Glidden, Mrs. C. Leavitt, Mrs. R. E. Howe, Mrs. F. W. Pope and the librarian. The financial statement submitted was:

October 1, 1932, cash on hand \$30.00
Subscriptions for year 28.50
Fines .76
Proceeds from card party 9.75
Total \$68.91

Expenditures: 14.70

Total \$63.32

U.S. GOVERNMENT PLANS TO AUCTION BOOTLEG LIQUOR

130,000 Cases Seized from Run-runners During Past Year Will Be Sold if Prohibition Is Repealed.

New York, Oct. 19.—It was reported today the United States Government is planning to auction more than 130,000 cases of liquor seized from run-runners during the past year when and if prohibition is repealed.

The liquor, all of foreign origin, has been accumulating at the United States army base in Brooklyn, reportedly because the Government failed to appropriate the funds necessary to have it destroyed.

Some legal manoeuvring will be required before the liquor can be auctioned because as it stands now the stock has been condemned and ordered destroyed by the federal courts. An order amending the decree of destruction, directing that the liquor be sold instead of destroyed, would be necessary.

MEXICAN MINISTER OF WAR SAYS QUIETNESS PREVAILS

Despite Rumors of Impending Political Troubles, Absolute Calm Said to Prevail Throughout Nation.

Mexico, D.C., Oct. 19.—Despite rumors of impending political troubles, Minister of War Pablo Quiroga declared today that "absolute calm prevails throughout Mexico."

Three battalions of troops were dispatched to the presidential palace yesterday and all federal district police were ordered to their headquarters.

But, it was explained officially, these moves merely marked precautions against possible disorders in a scheduled demonstration of striking National University students.

Meanwhile, the Chamber of Deputies passed and sent to the Senate a bill which would make the university completely autonomous. The measure would grant the university 10,000,000 pesos, currently about \$2,890,000 Canadian funds, over the next four years, after which the government subsidy of 4,000,000 pesos would be withdrawn.

This was seen as a challenge to the students to end disorders which have kept the institution in a tumult for days.

SCHOOL LEAGUE TIGHTENED BY STANSTEAD WIN

Defeated Bishop's College School Yesterday Afternoon by Fourteen to Nine to Create Three-cornered Deadlock for Circuit Leadership.

Stanstead, Oct. 19. — The race for the Eastern Townships School League title is a wide open affair today as a result of the fourteen to nine defeat Stanstead College inflicted on Bishop's College School here yesterday afternoon. The outcome placed the defending champions, Sherbrooke High School, and the two other contenders, Stanstead College and Bishop's College School, on even footing with a victory and a loss apiece to date.

Twelve of the twenty-three points scored in yesterday's closely-fought fixture were registered in the first quarter, the home team setting away to a start which enabled them to withstand the rally staged by the visitors in the closing chapters. With Earle "Swede" Farley running wild, Bishop's devoted their first quarter to formations to stop the brilliant backfield, and at the same time time developed a threat in Dan Doherty, who reeled off several long gains to keep his team in the running until the final whistle.

Two touchdowns, one of which was converted, was the extent of Stanstead's scoring in the initial session, while the Purple and White brigade chalked up a single point on a rouge. Bob Kneeland started the Stanstead machine on the right track when he recovered a B.C.S. fumble in midfield. Three consecutive first downs were made by the home team, Farley carrying the pigskin five times in a row to cross the Bishop's line. On a drop kick, Farley added the extra point on the convert. Duncan hoisted across the Stanstead line to Eddie Hurn, who was roused after the home team had raised a short punt which their opponents recovered deep in enemy territory. Jerry Whitehead blocked a Bishop's kick and Stanstead was again in possession at midfield when Bruce Vipond fell on the loose oval. Farley and Rolland Leavitt completed first downs as the way was paved for the latter to notch Stanstead's second major try. The convert was missed and the quarter ended with Errol Amaron's boys leading by eleven to one.

The Stanstead substitute line started the second quarter, but gave way to the regulars after Doherty had run back a spiral and Duncan had booted to Hurn for a

rouge. Doherty continued his spectacular broken field running and dashed fifty yards on an end run to give Kenny the opportunity to catch the Stanstead line for five points. Duncan converted, and Stanstead's lead was whittled to three points. Bishop's held the upper hand during this canto and appeared well on the way to victory when Stanstead tightened as the third quarter got under way.

The forward pass was extensive, ly used during the second half and produced Stanstead's last three points. Tommie Johnson accepted a thirty-yard heave from quarter-back Tom Bready, and Farley dropped a kick through the uprights to send Stanstead's total up to fourteen. Bishop's aerial attack brought the play to their opponents' twenty-five yard stripe, and when two plays failed to make the necessary distance, Duncan kicked to the deadline for his team's ninth point.

Five minutes before the final whistle, the Bishop's lads marched to Stanstead's three-yard marker, and the touchdown which would deadlock the count and lead to victory if the convert was accomplished seemed a possibility. Stanstead, however, held firm and the visitors lost the ball on downs. A few moments later the game ended with Bishop's in possession at midfield.

F. T. Brown, of Stanstead, and H. Hawkins, of Bishop's College School, handled the game.

The line-ups were:

Stanstead	B.C.S.
Marquette	Lord
Farley	Duncan
Leavitt	Kenny
Hurn	Doherty
Wilsen	Wilson
Ready	MacKinnon
Austin	snaps
Whitehead	inside
Channell	inside

Kneeland	middle
Johnson	outside
Vipond	outside
Stanstead subs: Greer, Campbell, Blise, Leavitt and Luker.	
B.C.S. subs: Bennett, B. Colditz, Page, Bell and Maunsell.	

LEAGUE STANDING

The Eastern Townships School League standing as a result of Stanstead's victory yesterday is as follows:

	W	L	T	P
B.C.S.	1	1	2	2
Stanstead	1	1	2	2
Sherbrooke	1	1	2	2

LARGE INCREASE IN EXPORTS TO EMPIRE COUNTRIES

Ottawa, Oct. 19.—Domestic exports to British Empire countries during September totalled in value \$26,834,016, compared with \$18,540,712 in August and \$22,828,254 in September, 1932, which was an increase over last year of \$4,005,762 or over seventeen per cent. There was an increase in exports to almost all of the British countries.

FROM THE HOCKEY TRAINING CAMPS

Bill Beveridge, youthful puck-stopper who jumped into a regular job in the middle of last season when the veteran Alex Connell was forced by illness to take a rest, has the Ottawa nets to himself this season. Connell, however, will be "on call" in case of emergency.

As the Senator squad rounded into shape at Ottawa and fans wondered why Connell had not put in an appearance, the Senator management announced yesterday that the goaltender had proposed an arrangement whereby he would not take part in any games this season, but would be "glad to step into the breach" should the Senator regular goalie be unable to play.

The arrangement was satisfactory on both sides. With the exception of the 1931-32 season, when Ottawa was not represented in the National Hockey League, Connell's professional career started and ended in a Senator uniform. He played with Detroit in 1931-32. Under Coach George Boucher, Ottawa candidates were put through two stiff workouts yesterday. Cooney Weiland, brilliant little centre player, was the star at both sessions. He was teamed with Frank Finnigan and Bill Touhey on what may become the Senators' first forward line.

One of the most promising youngsters developed in Winnipeg in recent years, lanky Norman Yel-lowies, it on his way to Quebec to join the Boston Bruins. Yellowies played with the Elmwood Millionaires when they won the Memorial Cup in 1931 and with the Winnipeg Monarchs team that was beaten in the 1932 junior finals by the Sudbury Wolves.

Art Ross hopes to be able to find a brand new front line from his newcomers that includes Yellowies, a centre, Bob Gracie and Johnny Sheppard. The Boston coach has not found anyone yet to fill the shoes of defenceman George Owen, the Harvard nine-letter man who has retired. Owen, one of the first United States-bred hockeyists to make the grade in the National Hockey League, played in the last two Bruin campaigns under a contract that called for him to perform in home games only.

However, the Bruins needed him badly and he was a mainstay in the gruelling five-game league title series last spring against the Toronto Maple Leafs.

Dave Trotter and Teddy Graham were the only Maroons absent from the Montreal team's first workout yesterday. It will be Saturday before a sheet of ice is ready at the Forum, and both Trotter and Graham are expected to arrive before then.

SPORTING NOTES

CUDE SIGNED BY MONTREAL CANADIENS

Montreal, Oct. 19.—Will Cude, former utility goalkeeper for the National Hockey League and for a season goalie with the Philadelphia Quakers, has been acquired by the Montreal Canadiens, Leo Dandurand, managing director of the National League club, announced here today.

Cude will be loaned to Syracuse of the International Hockey League for the coming season, subject to recall should any accident occur to Lorne Chabot, Canadiens' regular goal custodian. Last year Cude starred with the Philadelphia Arrows of the Canadian-American League.

Contracts for the season have been signed by Howie Morenz, George and Sylvio Mantha, Pete Lepine, Johnny Gagnon, Lorne Chabot and Paul Marcel Raymond, in addition to Albert Leduc, whose contract was a season to run. Aurel Joliat's contract is expected to be signed "thirty seconds after I see him," Dandurand added, stating he was going to Kingston, where the team is training, during the week-end.

IRISH ALUMNI SOCIETY ENJOYED BOXING MATCHES

Phil Mathias brought several of his boxing class to St. Patrick's Academy last evening and presented five bouts for the benefit of the Old Boys' Association. Among the boxers taking part were Vernon Murphy, Harry Grey, Paul Donahue, John and Harry Daniel, Johnny Hamilton, Bruce Campbell, Jackie Metcalfe and Doug McIntyre.

At the short business session, over which President Austin Workman presided, a minute's silence was observed in memory of the late George Povey, while the secretary was requested to send letters of condolence to Mrs. Povey and to Edward Moriarty, a former pupil who recently suffered the loss of his mother.

Owing to unavoidable circumstances, Dr. A. R. Walters was prevented from giving his lecture on hypnotism.

THINKS RUTH WOULD MAKE SENSATIONAL MANAGER

New York, Oct. 19.—Babe Ruth may be the next manager of the New York Yankees, but he would have to wait at least two years for the job, Col. Jacob Ruppert, owner of the club, said today. The contract of Joe McCarthy still has two years to run and there isn't likely to be a change even when it expires unless he runs into difficulties piloting the Yanks in the next two seasons.

"I think Ruth will make a sensational manager," Ruppert said. "He has settled down and is very serious about his future. He has talked

STANBRIDGE E. SOCIETY WAS ENTERTAINED

Willing Workers Met at Home of Mrs. G. G. Bullard—Interesting Personal Items from Stanbridge East and District.

Stanbridge East, Oct. 19. — The regular meeting of the Willing Workers was held at the home of Mrs. G. G. Bullard with a good attendance of members and visitors and the president, Mrs. Westover, presiding. The meeting was opened with prayer, followed by the regular routine of business. Plans were made for the chicken pie supper and a very pleasant afternoon was spent. At the tea hour, the hostess served tea, assisted by her daughter, Miss Alice Bullard.

The regular meeting of the Ladies' Aid was held at the home of Mrs. Arthur Gage, with twenty-one ladies in attendance and the president, Mrs. Frank Corey, presiding. Plans were made for an entertainment to be given in the near future. The ladies were pleased to welcome Mrs. Bertram Boonhour as a new member. At the close of a very pleasant afternoon, the hostess served lunch, assisted by her mother, Mrs. Edgar Beck, and Mrs. Nettie Gage.

Mrs. G. G. Stanton spent a day at the home of Mr. and Mrs. H. A. Baker in Puddledock.

A very well attended meeting of the Women's Institute was held at the home of Mrs. J. J. Moore with the president, Miss Corey, presiding.

ed about managing a team. I would like to keep Ruth with the Yankees, but will not interfere if he gets a chance to better himself."

Ruppert added that he had not given any consideration yet to the Babe's contract for next year, and as for his becoming manager, "who can tell what will happen in the next two years?"

SANSTOL AWARDED VERDICT

Montreal, Oct. 19.—The question of superiority between Pete Sanstol, Norwegian bantamweight, and Bobby Leitham, Verda, Que., holder of the Canadian 114-pound weight championship, today had been settled—or had not—depending upon how last night's decision in favor of Sanstol was received.

One judge and the referee voted in favor of Sanstol after twelve torrid rounds between the little fellows. The other judge called Leitham a "bun" and newspaper comment was also divided.

It was the third meeting of the two men and the third decision in favor of Sanstol.

FARM PRODUCT EXPORTS SHOW SHARP UPTURN

September Exports to United States Totalled in Value \$1,526,529. Compared with \$841,597 in August and \$220,232 in September, 1932.

Ottawa, Oct. 19. — The export of products of the Canadian farm to the United States in September totalled in value \$1,526,529 compared with \$841,597 in August and \$220,232 in September, 1932, or almost seven times that of a year ago. During the three months ending September this export totalled \$3,272,262 compared with \$865,249 in the same period last year. In the same three months of 1929, the year before the Smoot-Hawley tariff became operative, the export was \$14,316,400 and in 1920 it was \$24,042,269.

The largest gain last month was in the export of the which totalled 1,096,082 bushels of the value of \$630,048 as against nil a year ago. Potatoes were 27,530 bushels at \$23,374 whereas there was none in September last year. There were 213 horses valued at \$22,429 compared with 202 at \$5,695; fresh berries increased from \$50,771 to \$53,003; bran and shorts increased from \$1,692 to \$237,603; maple sugar increased in volume from 50,684 to 64,691 pounds but decreased in value from \$5,693 to \$5,132; wool increased from \$9,967 to \$413,953. There were decreases in meats, milk products and cattle.

GETS AS MUCH WHISKEY AS HE WANTS BEFORE HANGING

Dallas Eagan, Los Angeles Murderer, Can "Think of Nothing Better than to Drop Through the Gallows."

Sacramento, Calif., Oct. 19. — Governor James Rolph instructed Dr. Stanley, acting warden of San Quentin prison, today to give Dallas Eagan "all the whiskey he can safely stand up under" before he is hanged tomorrow for the execution of a Los Angeles murder. These instructions followed the Governor's receipt of a letter from Stanley quoting Eagan as inquiring "what brand of whiskey" might be served him.

"You're a medical man," Governor Rolph told Dr. Stanley by telephone, "I suggest you give him all the whiskey he can safely stand up under. What brand of whiskey have you?"

The physician named a brand of bourbon. "Well, take care of him," the Governor said, "and say good-bye for me too."

Eagan declined the Governor's offer of a clemency hearing, saying that he "could think of nothing better than to drop through the gallows."

NEW YORK'S FAMOUS EAST SIDE MAY UNDERGO CHANGE

Lawns, Trees and Modern Apartment Buildings Will Replace Congested Tenements, Gas House and Pool Rooms, if Present Plans Are Carried Out.

New York, Oct. 19. — A plan to root out the squalid East Side tenement section of New York and plant in its stead a garden spot of lawns, trees and modern apartment buildings, was announced today. The plan, disclosed by Manhattan Borough President Samuel Levy, calls for a thorough architectural face lifting of the island's map. Narrow, dark streets would be replaced by wide, symmetrical thoroughfares bordered by trees. What is now an ugly water front would be transformed into an "East River Drive." The housewives would not be permitted to toss their refuse nonchalantly out of windows.

It will be tough on the "Gas House" gang, and the "Mulberry Street" pool room Johnnies if the plan is carried out because there will not be any gas house, and the pool rooms might give way to tea rooms.

ENGINEER VISIONS MOTOR CARS WITH THREE WHEELS

Claims Motor Car of Future Will Have Two Wheels in Front and One in Rear, with Engine Also at Rear.

Toronto, Oct. 19. — The motor car of the future will have three wheels, two at the front and one at the rear. The motor will also be at the rear, Frank S. Spring, of Detroit, declared today in discussing transportation of the future before the Canadian section of the Society of Automobile Engineers here.

It was not possible to design a perfectly streamlined car with four wheels, he said. Another revolution in design would be the placing of the two front wheels outside the body proper. Cutting down wind resistance depended upon reducing the frontal area of a car and this could not be done if the wheels had to be included in the front width of the body design.

He predicted engineers would soon have a car that could take off and fly.
