

A STRICKEN HOUSEHOLD.

PITIFUL CONDITION OF THE RUSSIAN IMPERIAL FAMILY.

CZARINA AND GRAND DUKE GEORGE IN A SERIOUS CONDITION.

The Czar Continues to Fight Against His Malady at Livadia.

The Situation Creating Intense Interest the World Over.

St. Petersburg, Oct. 21.—The death of news from Livadia occasioned the wildest rumors to circulate yesterday to the effect that the Czar was actually dead, but that the effect was concealed because the Czar-witch had renounced the succession to the throne, and that the Grand Duke George, the Czar's second son, had also died from the lung trouble from which he had long been a sufferer. These rumors were effectually silenced by the issuance of a bulletin to-night, stating in substance that the Czar had been out of his bed during the day, but that his general condition was unchanged. Today, however, the rumors have been revived in an intensified form, and that the Czar is again in a serious condition, and the gathering of unusually large congregations attracted by the special prayers for the Czar, assisting in the growth of idle rumor and speculations.

It is everywhere recognized that the doctors in attendance upon the Czar have no hope of his recovery, and that they are only devoting their efforts to prolong His Majesty's life till the arrival of Princess Alix at Yalta so that her marriage to the Czar-witch may be celebrated before his death. It is asserted that the physicians have now been compelled to turn their attention to the Czarina, whose mind is said to have been seriously affected by the strain of nursing her husband, and by anxiety concerning Grand Duke George.

Last night the theatres were full as usual, and the cafes were crowded and the city bears its usual aspect. Only the eager and excited discussion in all the resorts indicates the gravity of impending events. Special services in all the churches this morning were well attended. The reverence displayed and the sincerity of the prayers offered showed the deep interest of the public mind in the matter. In the theatres both here and at Moscow during the past few days there have been numerous instances during the intervals between the acts of the audience calling upon the orchestras to play the National Anthem, "God Save the Czar," to which the people would listen with a certain amount of suspicion. After this bulletin nothing was received until nine o'clock this evening, when another private despatch reported a continued slight improvement in his condition, adding that he had a better appetite. This was confirmed at eleven o'clock by the issuing of the following:

"Livadia, 8.50 p.m.—During the past twenty-four hours the Emperor has had rather more sleep. His Majesty arose today as usual, and his appetite is rather better. The patient is more composed; otherwise there is no change. The bulletin is signed by five physicians in attendance upon His Majesty. The crowds that long and patiently awaited the issue of the bulletin, read and discussed it with evident relief, and then dispersed. Attention to special prayers cannot be expected from a medical authority who is at Livadia, the Czar, during the last forty-eight hours, has been seized with a series of convulsive attacks, accompanied by temporary unconsciousness. It is added that these attacks were due to the passage into the blood of matters which the patient cannot any longer carry off. The Czar was also described as suffering from great weakness of the heart and also, lately, of attacks of congestion of the lungs, which often follows. This blood poisoning, it is also stated, is now recurring with alarming frequency. Temporary rallies may be expected, but it is concluded, death cannot long be delayed.

DIFFICULTY OF GETTING NEWS.

London, Oct. 22.—A despatch to the Times from St. Petersburg, which is said to be the best observation obtainable, there will be a betrothal and exchange of rings between the Czar-witch and Princess Alix at Livadia on Wednesday or, perhaps, sooner, according to circumstances. This presupposes the performance of the ceremony of reconciliation to the Orthodox Church, which in the usual course must take place first. The marriage of a foreign non-Orthodox person to a Russian heir-apparent requires three ceremonies, reconciliation to the Orthodox Church, betrothal and marriage. Private news from Livadia is in no way reassuring. An official step has just been taken in regard to the appearance of bulletins in the press, which is curious, to say the least. All the Russian newspapers have been requested to print special copies of their respective journals for subscribers in Livadia, omitting the bulletin altogether, it is now being done. The wildest rumors are circulating in St. Petersburg and an extra special censor has been appointed to control all the press telegrams concerning the condition of the Czar and the doings generally of the Imperial family. All despatches have, therefore, to be passed on by the ordinary censor and to be inspected by the special censor and they are mostly altered a great deal before they reach the telegraph operators. Another curious instance of suppression of news may be mentioned. Judging by the telegraphic inquiries received here from abroad, there must be far more visible spontaneous concern in the foreign capitals than is noticeable on the surface in St. Petersburg, where the press is not yet allowed to utter a single word of the sorrow at the bedside of the sick monarch. Even the ministers and high officers of State, who themselves are astonished at the mysterious and tardy way the little official news vouchsafed is sent from the Crimea, have to telephone all day long and half through the night to the office of the Official Gazette, begging for information. In the remotest parts of the Empire, there are probably whole populations who have hardly yet heard that the Czar is seriously ill.

THE FEELING IN GERMANY.

Berlin, Oct. 20.—The impending death of the Czar is the subject of the greatest concern in political and Court circles. It overshadows, like a cloud, the future political attitude of Russia in affairs which closely concern Germany. While the Czar held the political reins, Russia's policy could more or less be foreseen by statesmen here, and his personality was recognized, in a great measure, as a guarantee of peace. But

THEIR HEADS CHOPPED OFF.

WHARFINGER CORBELL NOTIFIED—THE OFFICE WILL BE ABOLISHED.

HE SAYS THE STEP WILL RUIN THE CONSERVATIVES IN QUEBEC.

Timekeeper Fallarge Dismissed Without Warning After 20 Years' Service.

Francois Corbell, who has been wharfinger for 16 years, was notified Saturday by the Dominion Government that the office will be abolished in the spring. Natural Mr. Corbell was indignant. He was not conscious of having done wrong, and thought there would be as much need of the office next year as ever there was. If the office is abolished he will not be the only sufferer. There are twelve others, he says, who will also be out of a job. Speaking to the Herald last night Mr. Corbell said: "It is not right that my poor men should suffer for the expense Curran Bridge. My position will not be cancelled until next spring, and my board must be paid by the Government all winter at all events. If Mr. Oulmet permits the abolition of the office he will ruin the Conservative party's prospects in Quebec. Even now there is a deputation in my house, composed of prominent Liberals and Conservatives from Point St. Charles, Ste. Genevieve and St. Henry, asking me to run against Mr. Lachapelle in Hochelaga County. I have not accepted it. If I were to accept it would be as an independent candidate. "I visited the suburbs mentioned, Saturday, and the French-Canadians are willing to support me. I don't care for the Government. Let them cut off some of the high-salaried officials. I think that Mr. Haggart has seen that the Curran bridge cost too much and he wants to bring down expenses by dismissing blameless men. Dismissals are reported along all the canals. "The desire evidently, is to have on this canal now an engineer with two clerks in his office, and then a superintendent. Only Friday night Mr. Bailarge, a timekeeper on the canal, was dismissed without a moment's notice. He has held his position 20 years. Why must this be what I want to know? And know I will, for I shall see Mr. Oulmet and ask him Monday, if possible, if in my fault that the Curran Bridge cost too much? Wouldn't it be the fault of the dozen men on the canal that will be dismissed if this cancellation of office holds good? No, put Scribner out; put anyone out but the poor men. "I know that if the position of wharfinger should be abolished I should be placed in some other position, possibly that of timekeeper. "This I do not want, for I would rather resign at once."

MUCH INTEREST MANIFESTED.

London, Oct. 20.—To-day there has been that extreme nervous tension known to the life of nations only in their vital moments. The progress of the issue at Yalta has been the mainspring of all thought. That the Czar cannot recover is recently accepted now by everyone. The bitter criticism reached was especially telegraphed from the Crimea, where, according to a Warsaw telegram, the court officials notified the authorities in St. Petersburg that His Majesty's condition was hopeless and ordered the commencement of such preparations as are inevitable upon a Czar's death.

To this order is largely traceable the anxious moments now lived by the people of St. Petersburg. They have been so much upon that the officials began to-day to adopt measures calculated to soothe them. At the opening of the St. Petersburg Stock Exchange, the president urged all brokers to act so that the people already gripped with grief should not be further excited by the proceedings on the Bourse. A similar request was made at the Moscow Exchange. The scene pictured at Yalta in to-day's telegrams could hardly be more sad. The tortured Czar has been forbidden by his doctors to see his wife and he can no longer seek some quiet place from pain in aimlessly pacing his room. Now, in his hour of agony, his devoted wife is no longer able to soothe and encourage his every moment. She, herself, it is semi-officially stated, is seriously ill from general debility and extreme nervous depression. To fill the cup of bitterness, the same dispatches assert that the Czar's second son, Grand Duke George, who has long been a sufferer with lung trouble is dying, it being a question whether the father or son shall be first claimed by death. In the meanwhile, the world is bowed in prayer for the recovery of the Czar. Despite the Russian Judechaise in every synagogue throughout France, and in England and Germany, prayers were said to-day for the same end. In every Russian-Greek Church on the globe tomorrow there will be a repetition of the petitions.

To the bedside of His Majesty his relatives are hurrying hoping to see him once more alive. Grand Duke Alex left Vienna, the same day, and Constantine and Grand Duke Elizabeth yesterday and Princess Alix and Grand Duke and Duchess Sergius, Warsaw, this evening, all en route to Livadia. Accepting the approaching death of the Czar as a fact, it is no wonder that the eyes of many are turned to the Czar-witch, the coming Czar. Semi-official despatches from St. Petersburg announce that shortly before the Czar's illness entered its final critical stage, His Majesty had a long and serious talk with the Czar-witch, wherein the father intimating to his son the line of his policy and his high duties which he wished pursued in the event of his death. He expressed his earnest wish that the marriage of the Czar-witch to Princess Alix should take place without delay, that he might, at least, give the couple his blessing before he died. Some ground for this hope is found in the following bulletin issued at nine o'clock this evening: "In the course of the past 24 hours the Emperor obtained a little sleep. His Majesty left his bed during the day. The general condition of the patient, his strength and the action of his heart are unchanged. The Emperor's health is increasing." This bulletin is signed by the five doctors in attendance upon His Majesty.

The chorus of praise of the Czar's high qualities increases hourly. Among the notable remarks to-day are those of the Vienna Fremdenblatt, which draws attention to the leading traits of His Majesty's character, his strict devotion to duty, his rectitude and his loyalty. "The Czar," it adds, "has always been united to our Emperor by the closest relations, which have never been disturbed, even in those serious times, created in the course of political events. Emperor Alexander, through his unwavering love of peace has rendered a great and imperishable service to the whole of Europe."

AN ARREST MADE. THE SECOND NAVAL BATTLE.

IN CONNECTION WITH THE MURDER NEAR LISTOWEL.

SUSPECTED MAN TAKEN INTO CUSTODY AT ARTHUR.

The Inquest Opened and Adjourned to Await Developments—The Girl's Clothes Found in the Swamp.

Listowel, Ont., Oct. 20.—The excitement here over the brutal murder of Miss Jessie Keith, yesterday, is intense. In spite of the fact that search parties are out in every direction, no trace of the tramp who is suspected of being the perpetrator of the awful deed has been found. It is hardly likely, however, that it will be many hours before he is run down. Listowel, Oct. 21.—The Coroner's jury to investigate the murder of Miss Keith, having viewed the body on Saturday night as found in the swamp, and taken a survey of the surroundings, which showed evidences of a desperate struggle, the jurymen adjourned to the residence of Mr. Keith, whither the remains were carried. Evidence was then given by the section-men, the father and mother of deceased and others. Nothing was elicited, however, throwing any light or giving any information as to the perpetrator. This most brutal crime. Listowel Hall was appointed a place to meet on Friday, the 26th October, for the purpose of awaiting developments and obtaining further information as to the perpetrator of the murder. Reports from one of the searching parties returned from the vicinity of Arthur would seem to indicate that the guilty party had travelled in that direction. The people of this town and vicinity are very much excited and increased against the perpetrator of the foul act, and searching parties are still scouring the country with the view of obtaining some direct clue. Nothing definite is obtainable at present except that a tramp was seen at 12 o'clock about a half mile distant from the spot and again further north at about 2 o'clock having apparently come from the swamp where the body was found and where indications were also found that the perpetrator had washed his hands in a pool of water in the ditch. It has just been learned that the party traced to the vicinity of Arthur is now in custody, having just been arrested. Later—the clothes of the deceased girl have just been found in another part of the swamp referred to, covered over with leaves.

THE AMER'S THRONE.

St. Petersburg, Oct. 20.—It is stated that in the event of the death of the Amer of Afghanistan that Lelek Kalin, the Amer's cousin, who is now residing at Samaria, will claim the throne. It is added that his claim will be supported by Russia, which has been paying to him a large annual pension for some years.

THE CONDUCTOR'S ENA.

Toronto, October 21.—Landscape Thomas Rendell, of the Street Railway Company, on Saturday evening got into an altercation with a negro named Andrew Robinson while on a King Street, west car. The altercation ended by the negro jumping on the conductor and literally lifting off an ear. The passengers on the car were so incensed that it was with difficulty the police were able to save the negro from violent handling.

Shipwrecked Crew on Board.

London, Oct. 20.—The British steamer Durham City, Captain Thompson, from Boston, October 6, for London, passed the wreck of the American schooner Alice I. Boardman, the Alice I. Boardman, waterlogged and abandoned, was picked by the fishing schooner Hattie M. Graham, on October 6, seventy-five miles east by south of Highland Light, and was towed into Gloucester, Mass. A letter was found on board stating that the crew had been taken off by the steamer Durham City.

Suicided on His Mother's Grave.

Toronto, Oct. 20.—Ward H. Howell, a clerk in the Bon Marche received word to-day that his brother Curson Howell, committed suicide on his mother's grave at Jerseyville, Brant Co., by blowing out his brains.

ACCIDENTAL DEATH.

In the Case of the Shooting of Viscount Drumaire.

London, Oct. 20.—The inquest in the case of Viscount Drumaire, the eldest son of the Marquis of Queensberry, who accidentally shot and killed himself on Thursday, while shooting over the covers of Quatock Lodge, Bridgewater, Somersetshire, the residence of Mr. E. J. Stanley, a member of the House of Commons, was held to-day. The Coroner on summing up said that the circumstances under which the deceased got over the fence were rather curious, but it was open to suggestion that while he was looking for a bird he saw a carriage on the main road, and supposing it to contain ladies from the lodge, crossed the field to accost them, finding that he had made a mistake he returned and seeing the other members of the shooting party passing along, he attempted to scale the hedge alongside of which he was found, instead of going through a trap in it. His gun might thus have accidentally discharged. After some deliberation the jury returned a verdict of accidental death.

WRECKED AND STARVED.

Unpleasant Experience of the Crew of the Maritima.

Halifax, Oct. 21.—The steamer Harlow, which arrived Saturday night from the west coast of Newfoundland, brought from Bay of Islands Capt. J. H. MacDonald and 14 men, who composed the crew of the Gloucester schooner Maritima C, which driven ashore on that coast on September 28th and totally wrecked. The schooner had been on a trading voyage to Labrador and was on her way home with a cargo of pickled fish valued at about \$5,000. When disaster overtook her, she was at anchor in a place called Bean Cove or Bear Head. The force of the gale drove her from her anchors on to the rocks. She soon commenced to leak and the crew after a fruitless search for trouble and narrow escapes from drowning managed to reach the shore which they found uninhabited and barren. They constructed a hut from the wreckage which came ashore, and lived in it for thirteen days, being on the verge of starvation most of the time, their only food being a little flour, which had become soaked with salt water, and some salt fish, which drifted ashore from the wreck. They managed to secure some fresh water, however, and this helped to relieve their suffering to some extent. They thought some vessel would eventually pass and take them off, but after waiting six days and none showing up, two of the men, Acker and McDonald, started out to try and reach a settlement, and after a fifteen mile tramp, during which time they suffered considerably from weakness, they got to Bay of Islands, secured the services of a tug, and just seven days from the time they left their ship-mates arrived back at the scene of the wreck. Captain McDonald and the other men who had remained at the hut had by this time become so weak from lack of proper nourishment that they could hardly row off to the tug which was obliged to lay some distance off from the shore. The lost vessel was 76 tons register, owned by Murphy and Co. of Gloucester and was 18 years old. When the men got to Bay of Islands they were kindly cared for by the United States Consular agent and after waiting a week took passage on the Harlow.

ANOTHER TRAIN ROBBERY.

The Cook Gang Bold up the Kansas City Express.

Wagner, L.T., Oct. 21.—The Kansas City and Memphis express which left here at 9.30 last night, was wrecked and robbed by the Cook gang of desperadoes at Corolla Siding, five miles south of here. The robbers threw open the switch for the siding and ran the train into a string of box cars. The gang, who numbered twelve, then went through the train collecting money and valuables from the passengers. The express car was ransacked, and about \$500 obtained from the local safe. The through safe they could not open. While the plundering was going on a freight train came up, and the robbers, in a hasty retreat, firing a parting shot point blank at the train as they rode off. Several of the passengers were wounded, one, Jack Mahara, advance agent of the Mahara Minstrels, fatally. The gang are still at large.

REVISING THE BIBLE.

An Undertaking to Improve the Present Version.

London, Oct. 21.—A people's version of the new testament is being prepared by a company of ladies and gentlemen who think they will improve the Scriptures by excluding words and idioms not in common use. The Manchester Guardian prints this sample of supposed improvement: "And why do you trouble about clothes? Notice the wild ideas how they are growing. They do not toll nor do they spin, yet I tell you that even Solomon in all his grandeur did not dress as well as one of these. Now if God clothes in this way even the wild plants which to-day are living and to-morrow are to be made fuel for the oven; will he not make their clothes you, you men of little faith? Do not then trouble yourselves with such questions as what are we to eat, what are we to drink, what are we to wear. For all these things are what the heathen nations make their aim. For your heavenly father knows that you need all these things."

SATOLLI IN A ROW.

AN ANGRY COMMITTEE SEE HIM AT PATERSON, N.J.

SAID TO HAVE "BROKEN HIS PROMISE AND DISHONORED HIS WORD."

An Exciting Scene at Father Smith's House where the Papal Delegate was a Guest.

Pateron, N. J., Oct. 21.—Mgr. Satolli was the centre figure in a distressing and dramatic scene in the residence of the Rev. Sebastian Smith, of St. Joseph's Parish, in Pateron, yesterday morning. The Papal delegate was excitedly told by a parishioner, that he had "broken his promise and dishonored his word" by reason of his action, or rather his lack of action, in the matter of the charges preferred against Father Smith by members of his parish. A faction of St. Joseph's Parish have disapproved of Father Smith for some time, and in July last a committee of the dissatisfied ones went to Washington and laid before the delegate formal charges against their priest. Mgr. Satolli promised to come to Pateron to investigate the case. Last night a meeting of parishioners was held and a committee was appointed to wait on Mgr. Satolli to-day and induce him to remove from Father Smith's house. At Father Smith's residence the committee was met by Miss Smith, the clergyman's sister. In response to their enquiries, Miss Smith told them that Mgr. Satolli would see none of them. Miss Smith then closed the door in the committee's face. Before it was made fast, however, the angry members of the Committee forcibly pushed it open, and despite Miss Smith's protests, rushed through the door, through the hall-way, and into the parlor of the house. When they were in the parlor, they explained in angry tones that they would see Mgr. Satolli, and that they would not leave until they did see him. Father Papi, Mgr. Satolli's secretary, then entered and told the members of the Committee that Monsignor would positively see no one. He furthermore said Mgr. Satolli had closed the Smith case, and did not care to hear any further argument on it. This did not satisfy the Committee. Committeeman Gibson, acting as spokesman said that Mgr. Satolli must see them before they left the house. Father Papi thereupon called Mgr. Satolli, who informed the committee that he had fully investigated all the charges against Father Smith and had found nothing to warrant his removal. "The case is closed gentlemen," said he "I have decided as apostolic delegate.

SAID TO HAVE "BROKEN HIS PROMISE AND DISHONORED HIS WORD."

An Exciting Scene at Father Smith's House where the Papal Delegate was a Guest.

Pateron, N. J., Oct. 21.—Mgr. Satolli was the centre figure in a distressing and dramatic scene in the residence of the Rev. Sebastian Smith, of St. Joseph's Parish, in Pateron, yesterday morning. The Papal delegate was excitedly told by a parishioner, that he had "broken his promise and dishonored his word" by reason of his action, or rather his lack of action, in the matter of the charges preferred against Father Smith by members of his parish. A faction of St. Joseph's Parish have disapproved of Father Smith for some time, and in July last a committee of the dissatisfied ones went to Washington and laid before the delegate formal charges against their priest. Mgr. Satolli promised to come to Pateron to investigate the case. Last night a meeting of parishioners was held and a committee was appointed to wait on Mgr. Satolli to-day and induce him to remove from Father Smith's house. At Father Smith's residence the committee was met by Miss Smith, the clergyman's sister. In response to their enquiries, Miss Smith told them that Mgr. Satolli would see none of them. Miss Smith then closed the door in the committee's face. Before it was made fast, however, the angry members of the Committee forcibly pushed it open, and despite Miss Smith's protests, rushed through the door, through the hall-way, and into the parlor of the house. When they were in the parlor, they explained in angry tones that they would see Mgr. Satolli, and that they would not leave until they did see him. Father Papi, Mgr. Satolli's secretary, then entered and told the members of the Committee that Monsignor would positively see no one. He furthermore said Mgr. Satolli had closed the Smith case, and did not care to hear any further argument on it. This did not satisfy the Committee. Committeeman Gibson, acting as spokesman said that Mgr. Satolli must see them before they left the house. Father Papi thereupon called Mgr. Satolli, who informed the committee that he had fully investigated all the charges against Father Smith and had found nothing to warrant his removal. "The case is closed gentlemen," said he "I have decided as apostolic delegate.

CHURCHILL IN JAPAN.

London, Oct. 21.—A despatch from Yokohama reports the arrival there of Lord Randolph Churchill and his wife.

A MURDERER CAUGHT.

Albion, N. Y., Oct. 21.—William Lake, the murderer of Emma Hunt, was found this afternoon hiding in a barn. Lake confessed the crime.

KILLED BY A LOG.

Burkshaw, of this town, was killed this morning by a log rolling over him and crushing his spine.

KILLED WHILE HUNTING.

Braconbridge, Oct. 20.—Jesse Coleman, an undertaker of Akron, N. Y., when hunting in the Little Lake, N. Y., Muskoka, was killed to-day by the accidental discharge of his gun.

MOVEMENTS OF OCEAN STEAMSHIPS.

OBITUARY.

Toronto, Oct. 20.—Carlton D. Richardson, agent in the Canada for the London Guarantee Insurance Company, died at his residence this afternoon, of typhoid fever.

NO SNAP FOR MONTREAL.

BRITANNIAS BEATEN ONLY AFTER A HARD STRUGGLE.

A MAGNIFICENT GAME OF RUGBY AT THE M.A.A.A. GROUNDS.

Ottawa College Defeats McGill-Montreal 11, 7. The game was a hard struggle...

Ever so many years ago there used to be in general circulation among nurseries a picture book of great excellence...

This lyric never became famous, but the expression on the old party's face as the crickety-crickety danced in his head...

It was just such an expression as that which was observed upon the face of the Montreal Football Club's admirers...

Straight from the kick off there were blue bonnets—or rather shirts, over the border and Barclay kicking across Wand had to touch down for safety or Whitham would have had a try.

"Wow!" howled the Brit contingent on the grand stand. It wasn't much to get excited about, a measly 2 points to 25 but it showed that there would be no white wash.

Whitham added a touch in goal, which brought the score up to 5, by making Savage rouge.

So far the half had been all the Brits, and their supporters were wild with delight, but Montreal stepped up a bit, and McDougall, O'Brien, again assumed the offensive.

It was a direct hearing on the result of the match. It was an enthusiastic crowd. A far larger proportion was composed of ladies than even may be seen at lacrosse matches, and these were not the least excited among the onlookers.

From this little could be seen of the game owing to the rapid descent of darkness, but before the whistle blew Montreal twice touched down for a try, and the Brits got a touch in goal, leaving the score 31 to 11.

The result of the match and that of the McGill-Ottawa College game would seem to give the Montrealers a pretty good title for the Dominion championship, and if the western teams are as weak as rumor says they are, the Dominion championship will come here just as sure as eggs are eggs.

The College Beats McGill. [Special to the Herald.] Ottawa, Oct. 21.—Defeat brought no discredit to the stalwarts who represented "Old McGill" here on Saturday. At one time during the mighty struggle which prevailed for the possession of the pigskin it seemed as if McGill would triumph over the College. They were in the lead until reaching the stretch, when the College went into the battle with dogged determination, and snatched a victory which must have been a big surprise to themselves.

It was a surprise of no small proportions to McGill however, who had the best of the game in the second half, played far superior to the College, but went to pieces in the last few minutes. To many it looked like a lack of condition, and undoubtedly was, as the entire team collapsed, and allowed the College to score a touch-down (four points) which made difference between the respective scores of 22 to 18 at the finish.

The playing of both teams was brilliant throughout, but McGill excelled. Tees, Sparrow, Dunsford and Bennett all distinguished themselves well. The College was laboring under a serious disadvantage owing to the absence of Shea, Codd and Belanger, a trio which they cannot lose without if they expect to be in the race for premier honors with the Montrealers.

The way the McGill division was arranged, and particularly their many fumbles behind the line, was enough to discourage an army of forwards. The latter never flinched, however, and stuck nobly to their duty with the satisfaction of having a majority of points in their favor at the close.

An unusually large crowd was present, and they were of an enthusiastic kind. Cheers for both teams rent the air during both halves, and all that was brilliant and good in the play was applauded without partiality being shown to either rival team. The game was a hard fought, and easily goes on record as a fine one.

ALL ALONE, both in the way it acts, and in the way it's sold, is Dr. Pierce's Golden Medical Discovery.

Long procession of disease start from a torpid liver and impure blood. Take it, as you ought, when you feel the first symptoms (Anger, loss of appetite, dullness, depression, etc.) as a purgative, restorative, tonic, to repel disease, and build up the needed flesh and strength, there's nothing so good as this.

It restores health and vigor, every organ into healthful action, purifies and enriches the blood, braces up the whole system, and restores health and vigor.

THE GAME. Montreal 1, Brits 0. The game, though nearly all in Brits' favor, was a hard struggle.

McIntyre scored the ball and passed it up where it played dangerously near the goal, but soon, from a shot of Gould's, the ball was cleverly stopped by McKenna. He didn't do it a second time, however, as P. Murphy came in with a close pursuit and succeeded in scoring one for his team. Time six minutes.

Fouls were the predominant feature of game three and much interest was shown in the embrace of O'Meara and Egan (playing for Smith) which took place directly in front of the stand and took the entire efforts of six men to unloose. White secured the ball and made a wild shot. Being brought back by Power who ran around O'Shaunrock men with surprising agility, it was passed to Murphy who made one of his determined rushes, but was stopped. A scrimmage close to Shamrock goal resulted in the most rapid feature of the game, and Siders rescued the ball. A Star Kenna made a long shot, but was stopped. The ball was again prettily stopped by P. and E. Murphy distinguished themselves by some of the best playing on the field. The ball went east, but was quickly returned by Sullivan. Murphy made the second score for Stars in nine minutes.

The fourth game lasted just 14 minutes and the most rapid combinations of the whole were shown. At first the Star goal was closely approached, but it immediately went opposite and E. Murphy put it through.

Combination work on the Shamrock side was completely vitiated by the Star game, and the majority of the men played poorly. On the other hand, the Stars, eager to hold their advantage, played furiously. The play became rough and loose, with here and there a scrimmage. Some shots were well stopped, but this did not prevent Murphy persisting in running down and shooting bravely for the stakes. O'Meara, Abbott and Brophy played well, but the Murphys, Power and Shea did better. McKenna made several long shots away from his goal, but they were either always caught back. A scrimmage in front of the grand stand concluded with a suspicion of bad blood between Abbott and Power, and a moment after they opened threatened each other. The ball had passed to the other side as the whistle was blown, not soon enough, however, to prevent a collision between Gilmore and Egan, and a first-class scrum ensued, which drew a crowd to the spot. They were parted after a little fighting, and were not ruled off, as the game had stopped. When continued the spectators had mostly all left, owing to the cold, and after a few minutes' play Smith scored for the Stars. Time, 24 minutes.

The 6th game was not played, as only ten minutes' time remained. The result was a score of 4 to 1 in favor of the Stars.

cord as the fastest witnessed on a Rugby field in Ottawa for years.

McGill was six points behind when play was resumed in the second half. College made a sensational start after the kick off, but were soon held in check. Back after rush by McGill's stonewall line brought them to a halt, and for twenty minutes the College played on the defensive. Struggle as they might, McGill could not be stopped, her backs ran and punted over the line surprisingly well.

College made the contest between McGill and the Stars a game for life or death. The College increased the lead from 6 to 11 and went no further until McGill piled up a total of 17 and led them by 3 points, then it was that both teams put forth every effort. Such a battle for supremacy was a rare one indeed. Scrimmage after scrimmage, with now and then a high punt, was in order, and the leather oval moved up and down field and scores went big ones till both teams reached 18, a tie. The excitement then reached its highest point, to pick the winner was impossible. The contest between McGill and the Stars was a game for life or death.

McGill showed first with a clever run and pass to Hagar. Fry was as usual on hand, and he got well over the line, but being immediately run upon by a big blue mass was held in goal. Montreal's score went up by four points.

The unlucky thirteen points were shortly after changed to nineteen. Hagar making a pass to Wand, who dodged two Brits and passed to Fry. Up went the red line like a prairie fire as Fry turned the ball over to McDougall. The Brits could not stand the rush and Baird got a try. Fry kicked the goal.

Montreal 19, Brits 0. Vis. Duchesneau distinguished himself with a strong run, but got off side. In an endeavor to tackle Baird, Acer turned a double somersault backwards. The Brits threatened once with some neat work by Barclay and McKibie, but Savage was equal to the occasion and returned. Baird made a short pass to James, but the latter assisted by O'Brien got the ball through. The ball division came up and James getting his try Fry again kicked a goal.

Montreal 25, Brits 0. There was no more scoring until half time and the prospects of the Brits was hardly promising. It was openly stated that the Montrealers intended to prevent their opponents scoring at all and indeed there seemed little reason to believe that the Brits could do much to alter this fate. But as every one knows the Brits are game to the last and the way they opened up the second half was sufficient to win them hosts of friends.

Straight from the kick off there were blue bonnets—or rather shirts, over the border and Barclay kicking across Wand had to touch down for safety or Whitham would have had a try.

"Wow!" howled the Brit contingent on the grand stand. It wasn't much to get excited about, a measly 2 points to 25 but it showed that there would be no white wash.

Another Victory for Montreal. [Special to the Herald.] Lennoxville, Oct. 21.—Montreal's second triumph over the College fifteen on the College walk-over for Montreal, after winning Lennoxville was pretty sure of winning, and Montreal were rather dubious, the team being short of Henderson on the part of Montreal wings, got the ball on the touch line and secured a touch. The ball was kicked out from the College's 25 yard line, but was returned, and a series of scrimmages took place near the College's goal. From one of these, with some good work by the forwards, the ball was kicked into the College territory, and Montreal rushed it down and secured a rouge. The ball was kicked out from the College's 25 yard line, but was returned, and a series of scrimmages took place near the College's goal.

From one of these, with some good work by the forwards, the ball was kicked into the College territory, and Montreal rushed it down and secured a rouge. The ball was kicked out from the College's 25 yard line, but was returned, and a series of scrimmages took place near the College's goal.

suburban train in the afternoon. It was scarcely a class exhibition of the game, yet the contest was watched with marked interest from start to finish.

Princeton Easily Beats Cornell. New York, Oct. 20.—The annual football match between Princeton and Cornell University teams was played here today, resulting in a victory for Princeton by a score of 12 to 4. The other was beautiful and about five thousand persons saw the game.

The teams lined up as follows: PRINCETON. POSITION. CORNELL. Brown, Left end..... Beacham; Wheeler, Left tackle..... Warner; Riggs, Centre..... Fennell; Taylor, Right tackle..... Rodgers; Lea, Right end..... McLoughlin; Trenchard, Right end..... Tausig; Morse, Left end..... Brown; Mason, Left half back..... Mason; McCormick, Half back..... Starbuck; Bart, Full back..... O'Brien; Referee—Leo, Harvard, Umpire, P. F. Dashiell, Lineman, S. H. Newell.

The game was opened by Cornell kicking off and sending the ball to the Princeton's goal line. Princeton returned to the twenty-yard line and soon after Ohi had a chance to kick for a goal, but he missed. Princeton kicked off from the twenty-five-yard line. A series of scrimmages and short runs followed, ending in Barrett being pushed across Cornell's line for a touch down which Trenchard converted into a goal. Score—Princeton, 6; Cornell, 0.

From the kick off Cornell got the ball and Ohi, with a rush, scored a touch down, which he failed to convert. Score—Princeton, 6; Cornell, 4.

In the second half but one touch down was secured and that was by Princeton, a goal resulting. Score—Princeton, 12; Cornell, 4.

No Game on Thanksgiving Day. New York, Oct. 20.—The Princeton-Pennsylvania football game will not be played in New York. Representatives of the football associations of the two universities met last night, and agreed to play at Trenton on Nov. 14, if the ground is not in condition. If the grounds are not in condition by that date, the game will be played at Philadelphia, Nov. 10.

Williams Defeated by Harvard. Cambridge, Mass., October 20.—The Williams eleven went down before the crimson team this afternoon to the tune of 32 to nothing. The contest was hotly contested until the last five minutes, when the Williams men could make no headway against their opponents.

Another Victory for Montreal. [Special to the Herald.] Lennoxville, Oct. 21.—Montreal's second triumph over the College fifteen on the College walk-over for Montreal, after winning Lennoxville was pretty sure of winning, and Montreal were rather dubious, the team being short of Henderson on the part of Montreal wings, got the ball on the touch line and secured a touch. together, and with a determination to win. The result was they played the best ball, and won first goal, but Galt also scored, leaving the match a draw.

The Scots Meet on Wednesday. The Scottish Athletic Football Club will meet at St. James Hotel on Wednesday evening next, at 8 o'clock.

The Rovers Defeat the Shamrocks. The Rovers defeated the Shamrocks 2 to 0 in the final game of the Second Division Junior League, thereby winning the championship. The clubs stand as follows:

Table with 4 columns: Wons, Lost, Drawn, Pts. Rows include Shamrocks, Rovers, etc.

ATHLETICS. Sergt.-Major Morgans Ties With Sergt.-Inst. Hawker. The assault-arms at the Victoria Rink on Saturday drew a large crowd. The principal features were the contest between Sergt.-Major Morgans and Sergt.-Inst. Hawker and the big gun shifts of the M. G. A., each company entering a team.

The music was supplied by the band of the 6th Fusiliers. The programme was not followed as closely as it should have been, giving more time to the contest between Sergt.-Major Morgans and Sergt.-Inst. Hawker, but this was no doubt caused by the competitors not being ready in time.

Lieut. Panet, B battery, acted as judge; Sergt.-Inst. Roberts, as master of ceremonies; Capt. Clark as time keeper; Sergt.-Boutellier acted as second for Sergt.-Major Morgans; Sergt. Fauteux acted in the same capacity for Sergt.-Inst. Hawker.

The first event consisted of sword fights by Sergt.-Major Morgans. The club swinging by Ernest Morgans, son of Sergt.-Major Morgans, was one of the best exhibitions of club swinging ever seen in the city. In the final bayonet vs. bayonet bout between Pte. Burns, P.W.R. and Pte. Lawrence, Pte. Burns 3, making Pte. Lawrence the winner of the tournament.

Following came the big gun shift by a team of No. 2 Co. M.G.A. This team dismantled the gun over the front, slewed the gun round to the left and the left and mounted it over the left side of the carriage by means of long skids and parbuckle rope. Time, 3:44.

The next event was the Foil vs. Foil. This was a very pretty piece of foil play, the advantage being slightly with Sergt.-Inst. Hawker, both men showing themselves well up in the science of fencing. The winner was Sergt.-Inst. Hawker, 5; Sergt. Morgans, 3.

The company drill by No. 6 Co. P.W.R., Capt. Porteus, followed. The company was in excellent order, and the drill was very well executed.

The final event was the M.G.A. drill. The company was in excellent order, and the drill was very well executed.

The final event was the M.G.A. drill. The company was in excellent order, and the drill was very well executed.

The final event was the M.G.A. drill. The company was in excellent order, and the drill was very well executed.

McIntyre scored the ball and passed it up where it played dangerously near the goal, but soon, from a shot of Gould's, the ball was cleverly stopped by McKenna. He didn't do it a second time, however, as P. Murphy came in with a close pursuit and succeeded in scoring one for his team. Time six minutes.

Fouls were the predominant feature of game three and much interest was shown in the embrace of O'Meara and Egan (playing for Smith) which took place directly in front of the stand and took the entire efforts of six men to unloose. White secured the ball and made a wild shot. Being brought back by Power who ran around O'Shaunrock men with surprising agility, it was passed to Murphy who made one of his determined rushes, but was stopped. A scrimmage close to Shamrock goal resulted in the most rapid feature of the game, and Siders rescued the ball. A Star Kenna made a long shot, but was stopped. The ball was again prettily stopped by P. and E. Murphy distinguished themselves by some of the best playing on the field. The ball went east, but was quickly returned by Sullivan. Murphy made the second score for Stars in nine minutes.

The fourth game lasted just 14 minutes and the most rapid combinations of the whole were shown. At first the Star goal was closely approached, but it immediately went opposite and E. Murphy put it through.

Combination work on the Shamrock side was completely vitiated by the Star game, and the majority of the men played poorly. On the other hand, the Stars, eager to hold their advantage, played furiously. The play became rough and loose, with here and there a scrimmage. Some shots were well stopped, but this did not prevent Murphy persisting in running down and shooting bravely for the stakes. O'Meara, Abbott and Brophy played well, but the Murphys, Power and Shea did better. McKenna made several long shots away from his goal, but they were either always caught back. A scrimmage in front of the grand stand concluded with a suspicion of bad blood between Abbott and Power, and a moment after they opened threatened each other. The ball had passed to the other side as the whistle was blown, not soon enough, however, to prevent a collision between Gilmore and Egan, and a first-class scrum ensued, which drew a crowd to the spot. They were parted after a little fighting, and were not ruled off, as the game had stopped. When continued the spectators had mostly all left, owing to the cold, and after a few minutes' play Smith scored for the Stars. Time, 24 minutes.

The 6th game was not played, as only ten minutes' time remained. The result was a score of 4 to 1 in favor of the Stars.

Quebec Play Young Shamrocks Next Thursday. The tie now existing between the Quebecs and Young Shamrocks for the Eastern League championship was played off on Thursday afternoon at three o'clock on the M.A.A.A. grounds. The clubs arranged the matter without interference of the N.A.L.A. The Young Shamrocks are the holders of the pennant, and judging from the views of some of the executive they intend to make the boys in blue even in order to have them in a condition to play the game of their lives and to continue in the possession of the championship.

The Ottawa Championship. [Special to the Herald.] Ottawa, Oct. 21.—The city junior lacrosse championship was decided yesterday when the Hollyhocks and Pastimes played on Capital's grounds. The Pastimes won by 4 to 2. The match was a rough one.

Standards are Champions. The Standards and Garnets played their fifth match for the championship of the Junior Independent League, on Saturday. The Standards won three straight in 25 minutes.

THE MONTREAL HERALD CO.

MONTREAL, OCTOBER 22.

BRITAIN'S IRON INDUSTRY NOT DEGRADING.

The Gazette reproduces from the London Times an article on the decay of the iron industry. It is a peculiarity of our professional loyalists that they eagerly jump at everything that would indicate that the old mother land is going to the dogs, if only to have an excuse for waving the old flag and for claiming that they are the saviours of their country.

The inference which the Gazette naturally expects its readers to draw from the article quoted is that no country can be prosperous under free trade. Looking first at the facts, the first thought that will strike any reasonable man is that the iron industry of Great Britain cannot be expected to grow by leaps and bounds for ever.

The United States on the contrary are continually opening up new territory; their population is swelled yearly by hundreds of thousands of immigrants, and the volume of their industrial production must forcibly increase.

How will the two nations compare on this question of iron industry? One has taxed itself to death to stimulate the growth of its manufactures; the other has for years depended solely upon the genius of its business men. Yet this is the record.

Table with 3 columns: Year, Great Britain, United States. Rows for 1870, 1871, 1872, 1873, 1874.

That is a proof that the demand for iron has been less during the last three years than it had been for some time previous, and it explains why the exports of Great Britain have been decreasing.

The New England States should furnish a fair comparison with England. Well the production of pig iron in those States has actually decreased since 1870. The number of hands employed in the manufacture of iron and steel in those States has also decreased from 8,654 in 1880, to 6,645 in 1880, while the value of the products in the same length of time barely increased from \$14,553,000 to \$15,105,441.

It is only where new territory has been opened that the production of the United States has increased to any extent. Had England the territory to exploit, her progress would not be less remarkable. At the present time she is exporting annually 4,000,000 tons of iron, and keep her furnaces and mills running, she is sending back to other nations the raw materials manufactured from them. Her iron ore has received from 1,174,000 tons of iron ore increase.

The importation of 4,472,000 in 1880, iron has also increased, the manufactures of iron have increased, the manufactures of iron have increased, the manufactures of iron have increased.

It takes moral courage to admit wrong-doing; but Dalton McCarthy possesses this particularly. Since he broke away from his One was he has made three notable admissions. scoundrel that the germ of 1882 was Conservatively unjust, and another that 1878 not because took up the protection cry in early, but because they believed in it particularly. His third one they saw it would be Walkerton last week, confession was made at he said that he was anxious, in an address

sign manufactures is taking away part of Great Britain's trade, could anything better demonstrate the folly of the protective system than its application in this case.

If the British manufacturer and workman, with full liberty to buy their food and materials in the cheapest market, are unable to produce as cheaply as their rivals, what could they do if the cost of living and of production were artificially enhanced by taxation?

Protection would limit the field of the British manufacturer to the home market, as it has the American manufacturer; the merchant marine, the pride and strength of the Empire, would be ruined like that of the United States has been; British artisans would be compelled to emigrate to the countries from which they now draw their food and to which they sell the produce of their industry, and perchance England, instead of supporting a population of 27,000,000 on an area of 50,000 square miles, would find the same difficulty that Canada has to maintain 20 inhabitants to the square mile.

PROTECTION AND TRADE.

Protection does not increase foreign trade. Analysis of reports of the foreign trade of France during the past few years indicates that there has been no substantial increase in the volume of French exports since the protective policy was adopted in 1861, and that there has been an actual decrease since the more stringent legislation of 1891. It is not contended that the latter fact is due entirely to the aggravation of the protective evil, for a falling off in exports is shown for the same period in the case of Great Britain. The striking fact about the French figures is that they have never returned to the high totals which prevailed under the policy of comparative liberality from 1872 to 1875, and that they are to-day lower than twenty years ago.

Not since the Dutch captured Holland has there been such a victory as that which the Conservatives have just won in Compton County.

MR. HAYCOCK TALKS.

Claims Some of His Recent Remarks Have Been Misconstrued.

[Special to the Herald.]

Kingston, Oct. 21.—Recently J. L. Haycock, M.P., leader of the Patrons of Ontario, addressed meetings in Glengarry County. His utterances were misconstrued for party purposes, and a desire to make himself right was the result of an interview. He said: "The Montreal Star reporter says 'He urged the farmers to look to Washington instead of Ottawa for relief.' The report is very incorrect. Speaking in reference to the ninth plank of the Patrons' platform, which is reciprocal trade on air and equitable terms with the world, I said that when one advocates reciprocal trade they were usually met with the statement that the Hon. Mr. Blake, in a letter published immediately after the Federal elections of March, 1891, and that reciprocity would lead to annexation by bringing the people to look to Washington instead of Ottawa for legislation. Continuing I said, 'where are we looking now? Is it not true that Canadian farmers, during the past year, have been waiting for legislation from Washington regarding the Wilson Bill more closely than they have the legislation at Ottawa? And is it not equally true that they have received greater benefits from that bill, which lowers the duty on their hay, horses, barley, eggs, etc., than they have from any legislation that has been enacted at Ottawa during the same period?'"

"What about the statement that the Patrons demand that four farmers be placed in the Cabinet at Toronto?" "It is about as correct as the other. What I really said was that the farmers were told that the Mowat Government had conferred a great boon on them by placing a farmer in the Cabinet. We acknowledge that favor but it is no more than justice. It is generally claimed and admitted that there should be at least one Roman Catholic in the Cabinet to represent one seventh of the population of Ontario, and are thus entitled to one member in the Government in accordance with the principle of representation by population. We say that if this principle is correct then on the same principle the agricultural community are entitled to four representatives in the Cabinet, and if asked what particular department a farmer would be qualified to preside over, we would suggest that from their training and experience they should be better fitted to fill the position of Minister of Agriculture, Crown Lands and Public Works, than lawyers, and that so far as honesty was concerned we were well qualified to take care of the monies of the Province and act as provincial treasurer. But let it be distinctly understood that we are not asking or demanding any preferment place or position in the gift of the Government. All we ask and demand is a 'fair field and no favor' and that the business of the country shall be conducted on business principles.

Not since the Dutch captured Holland has there been such a victory as that which the Conservatives have just won in Compton County.

CORRESPONDENCE.

To the Editor of the Herald. Sir,—With reference to the ultimatum of the Medical Alliance in your edition of this morning under the title "Doctors' Black List," it appears the Alliance intends to publish a "black book" in which the "names of all bad doctors" will be registered. "All bad doctors" is very indefinite; it might be supposed to comprise the names of the doctors who don't pay their debts, as well as the names of people who don't pay their doctors.

With regard to recommendation No. 1, I would say that pharmacists will heartily concur in it, as it has been a tax, hitherto, for pharmacists to supply blanks, and it has been a matter of surprise that doctors would consent to circulate a pharmacist's business card. In cases where there is collusion between physician and pharmacist, one can understand the name on the top of the prescription.

Recommendation No. 2: Pharmacists will offer no opposition whatever to it, but I suspect the public will. If I go to a specialist and ask for a prescription for my chronic catarrh, and pay a good round sum for it, I rather fancy it belongs to me, although I may for convenience sake allow my pharmacist to obtain it to save me the inconvenience of carrying it about. By drawing the lines too tightly around the public, physicians will defeat their own object. If the Alliance had recommended that no prescription containing opium, morphia, chloral, etc., should be repeated without their patients referring to them for another prescription there would not be so much to object to. However, it would take too long to discuss this question in full in your valuable space.

Recommendation No. 3 is evidently an outlet for a little professional jealousy; as a matter of fact, pharmacists do not give prescriptions, but if a man calls for a gargle or a purge surely custom has established the right of the pharmacist to supply it and only doctors of very limited practice would object to carrying it out before.

With reference to licensed physicians having the right to open pharmacies, it is the remark that the Pharmacy Act gives them the right providing they take the precaution to register their names and pay the annual license fee as do all other pharmacists.

In conclusion I would remark that the Alliance is a poor representation of the leading physicians of the Atlantic, which by the names attached to the ultimatum.

"PHARMACIST."

To the Editor of the Herald: Sir,—I regret to see that the establishment of an Irish regiment in this city, proposed some twelve months ago by certain prominent Irishmen, seems to have lost all consideration.

I don't see why the Irish of this city cannot have a regiment of their own as easily as the Scotch or any other nationality. I hope that this proposal will receive due attention and that the Irishmen of this city will put their heads together and soon establish a regiment which will be a credit to the city and a benefit to the country.

H. P. McGOVERN.

Winnipeg, Oct. 21.—Hon. Mr. Laurier spent Sunday in Winnipeg and with Madame Laurier attended mass at St. Mary's Church. Monday night Mr. Laurier speaks at Selkirk and Tuesday at Emerson. He will return to Winnipeg Wednesday and will be banqueted by Winnipeg Liberals Thursday night. He leaves for home Friday, returning by the Soo line via St. Paul.

A WINNIPEG DEPUTATION.

Winnipeg, October 21.—A deputation of leading Conservatives, including Messrs. N. Boyd, M.P.; MacDonald, M.P.; of Assiniboia; Robert Rogers, President Provincial Conservative Association; Colin Campbell, defeated Conservative candidate at the last Winnipeg election, and Hugh Sutherland left to-day for Ottawa. What the object of their mission is cannot be ascertained, but the idea is general that something of great importance is in the wind.

IN BRITISH COLUMBIA.

Vernon, B.C., 21.—The Governor-General's party arrived here yesterday, and were received at the station by the Mayor and aldermen. The streets were gaily decorated with evergreens and bunting and several arches with appropriate mottoes spanned them at principal points. After driving through the town the Vice-Regal party were entertained at luncheon. Their Excellencies will spend several days at Cold Stream Ranch before proceeding to the coast.

CANADA'S HIGH-GRADE PIANOS & ORGANS

Over 875,000 Instruments in Use. Patented by all leading artists, by royalty, and by the best instructed citizens of Canada.

CALL OR WRITE TO WILLIS & CO., 1824 Notre Dame St., Montreal

A COLLIERY HORROR.

Serious Loss of Life in a Hungarian Mine. Buda Pest, Oct. 20.—A terrible explosion of fire damp occurred to-day in the Anita colliery. Fifteen dead and twenty wounded miners have already been brought to the mouth of the pit and it is feared that there are still other dead and wounded in the mine.

SERIOUS DEFEAT

For the Goodridge Government in the Twillington Election. St. John's, Nfld., Oct. 21.—The poll was declared in the bye-election at Twillington to-day where Mr. Knight, Surveyor-General of the Goodridge Government, was seeking re-election upon the acceptance of office. Mr. Knight was defeated by 576 votes by Mr. Foote, the Whiteaway candidate, on a total vote of 3,000. The results are a complete surprise to the whole country. It is a defeat for the Goodridge Government which is now holding office by a slight tenure of power and hoping to obtain a majority of the seats rendered vacant by the unseating of Whiteaways for bribery. The district, formerly represented by two Whiteaways, has an election to-day and the Government hopes to win. It is believed that whichever party wins will win the country.

Attempt to Wreck a C.P.R. Train.

Mount Forest, Ont., Oct. 21.—An attempt was made, about two miles east of here, to wreck the C.P.R. passenger train (run here at 9.30). A tie was thrown across the track, but no serious results occurred, excepting slightly damaging the engine. There is no clue to the perpetrator.

North Grey Reformers.

Owen Sound, Ont., Oct. 21.—The Liberals of the North riding of Grey met in the Town Hall here Saturday afternoon to select a candidate for the next general election for the House of Commons. Mr. John Clarke, Reeve of Keppel, and ex-Warden, was nominated unanimously.

Changed the Conductors' Trips.

Toronto, October 21.—G.T.R. conductors are much exercised at the course now adopted towards them by the authorities. To-day a new scheme was put in operation. Heretofore the conductors generally had the same run all the time, now they are being changed about so that they will have a different run every trip. So far as can be ascertained this new state of affairs is designed to offset the methods said to be employed by some conductors who are possessed of the desire to increase their income.

New Gold Mining Company.

Ottawa, Oct. 21.—The Dominion Gold Dredging and Placer Mining Company have applied for incorporation. The operations of the Company are to be carried on in British Columbia and the Northwest Territories. The amount of the capital stock is placed at \$40,000, divided into four hundred shares of \$100 each. Toronto will be the place of business of the new company.

Dominion Trade Returns.

Ottawa, Oct. 20.—The trade figures show that for the last three months the imports were \$30,938,398, compared with \$34,291,725 for the same period last year. The duty collected during the past quarter amounts to \$4,609,516, as compared with \$5,738,545. The exports for the three months are valued at \$34,555,471, as against \$38,035,551, or a decrease of \$4,480,080.

Action Against Mr. Worthington.

Toronto, Oct. 20.—Mr. Jas. Worthington, ex-President of the insolvent Ontario Forge and Bolt Co., is being sued by the Bank of British North America for \$32,500. While President of the Company Mr. Worthington is said to have endorsed notes aggregating that sum.

AN ABSOLUTE CURE ADAM'S PEPSIN TONIC FRUIT FOR INDIGESTION.

PROVINCE OF QUEBEC, DISTRICT OF MONTREAL. Patrick Boyle, plaintiff, versus P. L. Duvernay, defendant. On the 31st day of October, at the domicile of the said defendant, No. 1913 Notre Dame Street, in the city of Montreal, the said defendant, P. L. Duvernay, was summoned to appear before the court, to answer to the said plaintiff, Patrick Boyle, in the above entitled cause, consisting of household furniture, etc. Terms cash. J. C. Cote, B.S.C. Montreal, October 29th, 1884.

PROVINCE OF QUEBEC, DISTRICT OF MONTREAL. John P. Saucier, plaintiff, versus Pierre Perrin, defendant. On the 31st day of October, at the domicile of the said defendant, No. 1095 Ontario Street, in the City of Montreal, the said defendant, Pierre Perrin, was summoned to appear before the court, to answer to the said plaintiff, John P. Saucier, in the above entitled cause, consisting of show case, hardware, etc. Terms cash. J. C. Cote, B.S.C. Montreal, October 29th, 1884.

PROVINCE OF QUEBEC, DISTRICT OF MONTREAL. Old Man's Terrible Death. Paris, Oct. 20.—About two o'clock this afternoon, Mr. John White, about eighty years of age, an old resident, met a shocking death. It appears the deceased was crossing the G.T.R. yard on the way to his residence when a freight train struck him forcing him to the ground and a number of cars passed over his body, mauling it terribly. Mr. White was an old servant of the G.T.R. for forty years. He resigned his position some years ago and was up at the present time of his death living a retired life. He was very deaf, which probably accounted for the accident.

AMUSEMENTS.

QUEEN'S THEATRE.

THIS WEEK—Monday, Tuesday, Wednesday evening and Wednesday Matinee. THE BURGLAR A domestic Comedy-Drama. The great success of the Madison Square Theatre, N.Y. A play that appeals to every class in children and adults.

THE CABINET CRISIS.

It Has Broken Out Again as Bad as Ever.

Quebec, Oct. 21.—The grave disclosures of the Herald in connection with Hon. Mr. Tallon's backdown on the Paris loan created a tremendous sensation in political circles here and notwithstanding the Premier's denial, intimate friends of the Ministers admit that misunderstandings of the most serious character have arisen in the Cabinet, and that there is something true in the Herald's statement. A number of the Government spoken to last night declined to give a positive reply. The Ministers had another meeting yesterday afternoon which lasted till late in the evening. Nothing has transpired as to what took place, except that it had no practical result. It is again asserted to-night that Mr. Chapais, whose influence in the Cabinet has been secretly undermined by the Provincial Secretary, has intimated his intention of resigning.

Death of Mrs. Cochenhalter.

After an illness of many months, Mrs. John Cochenhalter died at her residence on Osborne Street at 6 o'clock on Saturday morning. The deceased lady was in her seventy-second year and had been a resident of Montreal for half a century. She was well-known among the poor of the city and on many occasions could be found ministering to the helpless and desolate. Three daughters and five sons live to mourn her loss, among them being Mr. Moses Cochenhalter, the well-known jeweller. The funeral took place yesterday afternoon, and it is not often that such a large number of leading citizens has been seen at the graveside of a Montreal lady. Rev. Ross officiated and after a very touching ceremony the remains were laid to rest in the Jewish Cemetery adjoining Mount Royal.

MINISTERIAL CRISIS.

TAILLON AND HIS PARIS LOAN IN TROUBLE.

He Withdraws it in Preference to Losing English Support.

(Special to the Herald.)

Quebec, October 20.—The dead calm which followed the recent Ministerial crisis was only apparent. The fire was smouldering under the ashes, and discord has again broken out among the ministers.

At the Cabinet meeting this afternoon, according to the rumor current in political circles, Hon. Mr. Tallon announced his withdrawal from his famous Paris loan notwithstanding the strong pressure exerted upon him by certain of his colleagues, preferring to try to save the situation by no longer estranging the refractory English element of his party.

The decision of the Prime Minister aroused a big storm in the Cabinet. The ministers favoring the abandoned loan loudly contended that it was a "drawback on his part which would be the Government at the mercy of its English followers, and they declared they would never approve of such a step.

Mr. Tallon persisted in his decision, and it is stated that he even threatened to resign.

There is no doubt about serious difficulties having arisen between Mr. Tallon and his colleagues yesterday's Cabinet meeting. Moreover it is asserted there is misunderstanding between Lieut.-Governor Chaplais and his Prime Minister. This morning Messrs. Casgrain and Chapais had a lengthy private conference with leading Conservatives.

The political friends of the Minister are very reticent on the subject.

There is no doubt about serious difficulties having arisen between Mr. Tallon and his colleagues yesterday's Cabinet meeting. Casgrain and Chapais had a lengthy private conference with leading Conservatives.

The political friends of the Minister are very reticent on the subject.

TAMMANY IN TROUBLE.

Strass, Their Candidate for Mayor, Refuses to Run.

New York, Oct. 20.—The withdrawal of Mr. Nathan Strass from the mayoralty contest in this city has been a severe blow to Tammany's hopes. He was their candidate and with the tide running against them generally they had selected him as the strongest man whom they could place in the field. And now he has refused to run and Tammany is angry and considerably frightened. Right in the middle of the campaign their leader throws up the fight and retires to his tent like a sulking Achilles. Perhaps it is a case where discretion is the better part of valor.

Mr. Strass's sole reason for refusing to stand as a candidate is that he objected to Senator Hill's decision to allow the Democratic State ticket to go upon the State Democracy's local ticket which contains the name of William L. Strong for Mayor.

At the conference held on Tuesday with members of the State Committee Mr.

AMUSEMENTS.

The Queen's presents the domestic comedy, "The Burglar."

Monday, Tuesday and Wednesday evenings and at Wednesday matinee this week, of which an exchange says: Nothing cleverer or better acted has been put upon the boards of the opera house than Thomas' "The Burglar" last evening and a large share of the honor must be given to the youngest member of the fine company which Manager Scammon has combined to give the piece effective presentation.

Little Gertie Carlisle is what the bills announce as the six-year-old child who takes the part of Edith, and it does not say a word too much to call her "wonderful." The little one is a born actress, and deserved the approval so freely bestowed upon her acting and singing; her rendition of "Ta-ra-ra-boom-de-ay" literally brought down the house.

Thursday and Friday evenings and at a Saturday matinee, Miss Marie Louise Bailey will give three grand concerts. This lady holds the proud title of Court Pianiste to the King of Saxony, and the qualifications which she brings with her are all the essentials for the present century. Technique and surety, a remarkable strength and endurance; besides this, her beautiful tone quality, and lastly, her fire, musical conception, poetry, and ladylike deportment, free from all mannerisms.

Beautiful Camille D'Arville, at the head of the original comic opera company on the road, this season, will make her first appearance in her new comic opera success, "Madelaine, or the Magic Kiss," at the Queen's Theatre Monday night, Oct. 22, and the music lovers of Montreal will have an opportunity among the first to see this opera, which had such a phenomenal success in London, and has been creating so much praise all over the country. In her company are such favorites as Aubrey Boucault, William McLaughlin, George C. Boniface, Clinton Elder, Henry Stanley, Marie Dressler, Maud and Hilda Hollins and many more.

A FINE MANSION.

The Bank of Montreal's Home for its General Manager.

The house which the Bank of Montreal is building, for its general manager, Mr. E. S. Clouston, is nearing its completion, and this fair to be one of the finest residences of the city.

It is situated on Upper Peel Street, not far from Pine Avenue, and it commands a view of the harbor, city and mountains.

The exterior is very imposing, the basement being built in red Valley sandstone, the super-structure in a red Scotch sandstone, with buff stone trimmings.

The main entrance is an artistic design and elaborately carved, just above the doorway is an ornate window.

The hall being of elegant proportions, is finished in oak, with inlaid floor. There is also an ornate staircase, the ceiling with its heavy oak beams, the huge stone mantel extending to it, the whole lighted by a stained glass window, in most picturesque effect, and suggesting an Old English hall.

The drawing room faces Peel Street, and is done in white mahogany. It contains a carved window seat and a mantel beautiful in its design. This room connects with the dining room by sliding doors; this latter room is in Elizabethan style, finished in mahogany, with high wainscoting, and a large bow window overlooks the city.

Here one finds another richly carved mantel and recessed sideboard.

The billiard room is also on this floor, being about sixteen by eighteen feet, and contains an alcove which is slightly raised above the floor level, and partially screened from the room by three Moorish arches done in fret-work.

There are numerous sleeping apartments with dressing rooms adjoining.

Much of the furniture is being designed by the architect. Electricity is to be used throughout for lighting purposes, the electrolights having been made in England.

A glance at the mills from the outside will fully indicate the spirit of thoroughness and the foresight of the promoters of the enterprise, who have always been looking to the future.

The main building, which is not less than 600 feet in length by 90 in width, and five stories in height, is a solid stone structure of very tasty appearance. The quarters of the administration are finished and fitted in a manner which would be an honor to a metropolitan bank. The bleachers and other buildings are equally substantial and splendidly adapted to the objects for which they are erected.

The motive power is supplied by one of the finest water falls in the world, which has been created by the Federal Government damming one of the tributaries of the St. Lawrence River to supply water to the Beauharnois canal. Steam is also used for purposes of heating, etc., while all the buildings are

finished and fitted in a manner which would be an honor to a metropolitan bank. The bleachers and other buildings are equally substantial and splendidly adapted to the objects for which they are erected.

The motive power is supplied by one of the finest water falls in the world, which has been created by the Federal Government damming one of the tributaries of the St. Lawrence River to supply water to the Beauharnois canal. Steam is also used for purposes of heating, etc., while all the buildings are

finished and fitted in a manner which would be an honor to a metropolitan bank. The bleachers and other buildings are equally substantial and splendidly adapted to the objects for which they are erected.

AMUSEMENTS.

The Queen's presents the domestic comedy, "The Burglar."

Monday, Tuesday and Wednesday evenings and at Wednesday matinee this week, of which an exchange says: Nothing cleverer or better acted has been put upon the boards of the opera house than Thomas' "The Burglar" last evening and a large share of the honor must be given to the youngest member of the fine company which Manager Scammon has combined to give the piece effective presentation.

Little Gertie Carlisle is what the bills announce as the six-year-old child who takes the part of Edith, and it does not say a word too much to call her "wonderful." The little one is a born actress, and deserved the approval so freely bestowed upon her acting and singing; her rendition of "Ta-ra-ra-boom-de-ay" literally brought down the house.

Thursday and Friday evenings and at a Saturday matinee, Miss Marie Louise Bailey will give three grand concerts. This lady holds the proud title of Court Pianiste to the King of Saxony, and the qualifications which she brings with her are all the essentials for the present century. Technique and surety, a remarkable strength and endurance; besides this, her beautiful tone quality, and lastly, her fire, musical conception, poetry, and ladylike deportment, free from all mannerisms.

Beautiful Camille D'Arville, at the head of the original comic opera company on the road, this season, will make her first appearance in her new comic opera success, "Madelaine, or the Magic Kiss," at the Queen's Theatre Monday night, Oct. 22, and the music lovers of Montreal will have an opportunity among the first to see this opera, which had such a phenomenal success in London, and has been creating so much praise all over the country. In her company are such favorites as Aubrey Boucault, William McLaughlin, George C. Boniface, Clinton Elder, Henry Stanley, Marie Dressler, Maud and Hilda Hollins and many more.
