

THE VOLUNTEER REVIEW.

Windsor, July 9.

The review of the volunteer forces by the Queen is now almost completed, and has proved to be an exceptionally brilliant and magnificent spectacle. The weather is magnificent. The regiments, with but very few exceptions, are full. The march past now going on shows evidence of careful training and good discipline. From an early hour last evening and up to the time of the beginning this morning, the trains from London and those connecting with the Great Eastern, and arriving at this point, were loaded down with passengers coming to witness the review. The Queen, who was accompanied by Princess Beatrice and the ladies of her court, seemed to be in excellent health and spirits. The spectacle of 140 regiments of volunteers of all arms was one never before witnessed in England, and brought forward prominently the real strength and usefulness of this branch of Her Majesty's service in case of an invasion of the Kingdom.

There was an enormous number of spectators. The review was an experiment to test the rapid concentration of volunteer troops, of whom there are about 200,000 in Great Britain. Such a spectacle has never before been witnessed in England. All the members of the Royal Family and the Crown Prince and Princess of Prussia were present. Not a single accident is reported. Business in the metropolis was suspended.

DEATH OF MR. CREIGHTON

Ever since Thursday night it has been known to the medical men of the hospital that Mr. Creighton would not recover. Accordingly his friends were all sent for and arrived before his death. His father and brother have been in the city for some time and his mother and sister arrived from Halifax this morning. Mr. Creighton lapsed into unconsciousness yesterday afternoon but up to that time was in full possession of his faculties and aware of his approaching end. Last night the attendants observed that he was sinking rapidly, and his death was momentarily expected. He lingered until half-past ten this morning, when he died. The deceased was attended throughout his illness by the Rev. Edmund Wood, Rector of St. John the Evangelist's, at whose hands he received the last rites of religion, according to the usage of the Church of England.

Coroner Jones was immediately notified to hold an inquest, but owing to his absence it had to be postponed until late this afternoon. The sad termination of the affair places Mr. Goldstone in a very painful position. Although criminal proceedings against him were temporarily dropped a short time ago, it is probable that they will be resumed immediately, and that he will be charged this time with manslaughter.—*Saturday's Witness.*

THE HIGHLAND REGIMENTS.—The Standard says the War Office Committee has decided that the following will be the regiments which will wear the kilt, viz:—The present 42nd and 73rd (to be called the Royal Highlanders, Black Watch)—tartan as at present worn by the 42nd; the 72nd and 78th (Seaforth Highlanders)—tartan, the Mackenzie; the 75th and 82nd (Gordon Highlanders)—tartan, the Gordon; the 79th (Queen's Own Cameron Highlanders)—tartan, as now worn by the regiment; and the 91st and 93rd (Sutherland and Argyll Highlanders)—tartan as now worn by the 93rd. The following regiments are to wear the trows:—The present 1st Foot (now becoming the Lothian Regiment the Royal Scots), the 21st (Royal Scots Fusiliers), the 26th and 90th (the Scotch Rifles), and the 71st and 74th (the Highland Light Infantry). The latter Regiment will wear the tartan now worn by the 71st; the others will wear one of special pattern—black, blue, and green. The 25th regiment (King's Own Borderers), having been finally told off to York, will not wear the trows, as was proposed, but will retain its present uniform.

There were two hundred deaths in New York on the 7th. The issue price of the new Italian loan is 90.

DEATH OF THE HON. J. S. DALY.

Hon. J. S. Daly, immigration agent-general at Demerara, died on the 31st ult. The deceased gentleman was the brother of Mr. M. B. Daly, M.P. for Halifax, and the son of Sir Dominick Daly, who was appointed secretary to the Province of Lower Canada in 1827, and was made governor and commander-in-chief of Australia in 1861. Mr. Daly having received his education at Oscott Catholic College in England, was appointed his father's private secretary, and followed him in that capacity to several colonial appointments. Meanwhile he had studied law and been called to the Canadian bar. He was appointed a district and stipendiary magistrate of Mauritius in 1871, afterwards a poor law commissioner, and in 1878 protector of immigrants. In these several capacities Mr. Daly endeared himself to all classes, and when he received the appointment of Immigration Agent-General for British Guiana, the inhabitants of Mauritius viewed his departure with unfeigned regret and expressed heartfelt wishes for his success. Although his tenure of office here was something under six months, he had already given ample evidence of administrative ability in the details of his department, and of much force of character and political foresight in his place as a member of the Court of Policy. He was eloquent without offensiveness even where loss of temper for the moment have been excused.

DESTRUCTIVE FIRE IN EAST BUFFALO.

450 Cattle Burnt to Death—388 Saved.

Buffalo, July 8. An alarm of fire sounded about 10 o'clock this evening. The fire proved to be at the cattle sheds located on Fillmore avenue and Broadway, East Buffalo, owned by Dr. J. Firminich. Each was 200 feet long, 50 feet wide, and 25 feet high, constructed of wood. They were arranged side by side fronting on Fillmore avenue, separated from each other by a 10 foot alley. Each shed accommodated about 250 cattle. They were used for fattening cattle for the market upon refuse from the grape sugar works and feed. At 12 15 a farmer unloading hay into shed No. 3 observed flames shooting up immediately through the roof over the hay lott. With lightning rapidity they took the shed in their embrace, and immediately leaping to the adjoining sheds, which were soon ablaze.

A firealarm box at the corner of Coit and Lovejoy streets was pulled at 1.40 p.m., and after the lapse of half an hour the fire department, under the direction of Fred Hornung, was on hand. A stream was immediately thrown upon the building. The flames shot high in the air, and attracted a large crowd. Many of the people at once set to work to release the poor beasts in the sheds, but owing to the intense heat no one was able to get near No. 3, and the cattle in it were consumed amid pitiable dying groans. The fire department managed to save shed No. 1, the boiler house, and the machinery used in cutting up the feed. In an hour after the alarm was sounded the building was burned to the ground. Altogether there were 450 cattle burned; 388 were taken out alive and removed to the stock-yard. The fire department had hard work to subdue the flames. The origin of the fire is as yet a mystery, as there was no fire near when the flames were first discovered. The loss is estimated at \$18,000 on sheds and \$25,000 on cattle; covered by insurance.

MARRIED TO A NEGRO.

St. Catharines, July 8.

The community has been shocked by the wayward conduct of a daughter of one of our respectable citizens named Tobin, who, on Saturday evening last, left her house, taking the street cars to Merriton, where she was joined by a negro named C. Pinckney. They proceeded in company to Niagara Falls, where they were married. Pinckney, it is said, was at one time a waiter at the Welland House in this city, but how he became acquainted with the girl is unknown, or what blandishments he used to secure her affection.

ARREST OF LEFROY, THE RAILWAY MURDERER.

London, July 9.

Lefroy has finally been caught, greatly to the relief of persons throughout the country who bear a resemblance to the published portraits of the culprit. Not a day has passed but news comes to hand of the arrest in one part of the country or another of a dozen or more Lefroys—of course to be discharged immediately. Yesterday the coroner's inquest into the death of Mr. Gold concluded with a verdict of wilful murder against Lefroy (or Mapleton), and a reward of £200 was offered for his apprehension. This douceur had, strange to say, the effect of sharpening the wits of the police and the public generally. During the day information was conveyed to the police which induced Inspectors Jarvis and Swainson to visit a house in Stepney, where a person resembling Lefroy had been lodging during the past week. The inspectors visited the house between seven and eight o'clock, and immediately recognized the suspected murderer. As soon as the officers entered the room Lefroy said, "I expected you." Swainson informed him that he was charged with the murder of Mr. Gold. Lefroy replied "I am not compelled to give an answer, am I?" He then added, "I am not guilty." He was taken to Scotland Yard, thence to the King street police station, Westminster, where he was formally charged with the murder of Mr. Gold. No money was found upon him. He is supposed to have been living at Stepney ever since he was missed after having left his sister's room in the Islington fever hospital. He had no bandage on his head, and his wounds which were dressed on the day of the murder at Brighton, had almost disappeared. His appearance gives the impression that he has been suffering from want of food. The only attempt at disguise noticeable is that he had shaved off his moustache and whiskers. He is to be taken to Balcombe for examination to-morrow. The likenesses published are said to be very good. Lefroy was arraigned on Saturday; he denied his guilt and was remanded.

The New York Chamber of Commerce met on Friday afternoon to take action on the attempted assassination of Garfield. Speeches were made appropriate to the resolutions adopted. Forty thousand dollars toward a fund for the family of the President, were raised in less than five minutes. It is intended to raise \$250,000 which will be invested in United States bonds, the income to be paid Mrs. Garfield during her life, and at her death the principal to be equally divided among her children.

Ayer's Sarsaparilla, For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stilliglia and Mandrake, with the Iodide of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the lurking humors in the system, that undermine the health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organ, whose action they derange and whose substance they destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blisters, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Femle Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

Low Prices Invariably Signify Poor Quality.

Families using beverages such as ALES, PORTER and LAGER BEER, should see that the article is actually made from HOPS AND MALT. From letters in the Quebec press lately, chemists say Cheap Ales are made from Glucose, which, they claim, is injurious to the system and productive of Bright's disease, diabetes, &c. PURE MALT AND FINEST HOPS are used in the manufacture of MOLSON'S XXX PORTER and INDIA PALE ALE.

But I cannot afford to sell these beverages of First Quality for less than XXX Porter, quarts, \$1.20; pints, 75c. India Pale Ale " \$1.10; " 70c. 30 cents per gallon in wood. The difference in price from an inferior article is made up in quality.

NEW ADVERTISEMENTS.

The Montreal Telegraph Co.

MONDAY EVENING, JULY 11, 1881.

It is stated that a petition is to be forwarded to Rome requesting the elevation of Montreal into an Archdiocesan See.

Mr. Justice Gill leaves to-day for Europe, with Mr. Sénéchal. He is replaced by Judge Bourgeois, of Three Rivers.

A Cabinet Council was held at Montreal, at which all the Ministers but Mr. Chapleau were present, to give effect to recent legislation in regard to the Railway. Mr. Loranger presided.

The English Board of Trade returns for the month of June show that the value of imports decreased £6,500,000, and the exports increased £342,000, as compared with the same month last year.

President Garfield's relatives in Ohio say that, with the exception of an attack of fever and ague years ago when a boy, and occasional touches of dyspepsia in late years, he has never been ill. His habit has always been to live on plain, substantial food, and he has never indulged in late suppers.

The volunteer review at Windsor, in consequence of which business in London was suspended, is an important event, especially under such a peace loving Ministry as the present. That it is a hint to somebody is obvious. But there is no sign at present of any rising complication in Europe which need put England in fighting trim. It is, however, satisfactory to see that there is sufficient of the spirit of patriotism still alive to have made such a display as that at Windsor on Saturday last, possible even under Mr. Gladstone's premiership.

The export trade in hay from the Province of Quebec is a much more valuable one than is generally supposed. Between the 1st September, 1880, and the first July, 1881, one hundred thousand tons were exported, the value being \$1,280,000. The largest quantity, twenty thousand tons, went from Three Rivers, and the next largest, ten thousand tons, from St. Johns. The smallest quantity, one thousand tons, was shipped from Grande Ligne.

The Democratic Club in England is opening branches in all the large towns in the North. The principal reforms asked for outside of land reform are the simplification of the laws, the redistribution of seats according to the population of counties, and Imperial federation. It is said that the Government will introduce a Bill next season to remove the disabilities of Scotch and Irish peers.

The death is announced of Mme. Cornemuse, the wife of the General of that name who was believed to have been murdered in the garden of the Elysée for having refused to take part in the coup d'état of December, 1852. Mme. Cornemuse was a Coligny by birth, and a granddaughter of the Marchioness de Minute, who was so celebrated for her beauty, and of whom Louis XV. said: "Cette femme est sans seconde."

MOONLIGHT EXCURSION.—To-morrow (Tuesday), weather permitting, the steamer Maid of Orleans will make a moonlight trip to the Island, leaving Quebec at 6 45 p.m., and the Island at 10 p.m. sharp. Also on Wednesday night, leaving Quebec at 6 45 p.m. and proceeding to the Island, and afterwards down the river. A band of music will be in attendance. Return to Quebec at 11 p.m.

CAVALRY INSTRUCTOR.—A new drill instructor and riding master, from Canterbury, is on his way out here to be attached to "A" Battery. His duties will probably combine instructing the various volunteer Cavalry corps.

Washington, July 11—8 a.m. The President passed a comfortable night. His condition shows an improvement over that of yesterday. Pulse 98, temperature 99.2, respiration 22.

FIRE AT JOLIETTE. Joliette, Que., July 11. A fire occurred about 1 o'clock this morning, consuming 35 buildings. The damage is estimated at over \$50,000.

VICEREGAL.—The Governor General returned from Halifax by special train about eight o'clock last night. The party accompanying His Excellency consists of Col. de Winton, military secretary; Captains Chater, Bagot and Percival, aides-de-camp; Dr. McGregor, Messrs C Austin, Sidney P. Hall and Mr and Mrs. Russell Stevenson.

New WINTER PORT.—There is a movement on foot to establish a winter harbour at St. Catherine's Bay, mouth of the River Saguenay. It will form part of the scheme of the new Quebec, Montmorency and Charlevoix Railway Company, and we see no reason why the route should not open a large winter traffic for the St. Lawrence, introductory to the sailing of steamers from here also.

ENQUIRY.—On motion of Councillors Vallee and Samson the Finance Committee are requested to inquire on what authority the site of the morgue was sold; what price the ground cost the corporation, and for how much it was sold, and report at the next meeting of the Council. It certainly seems strange public property should be disposed of and the City Council be ignorant of the transaction.

EDUCATIONAL.—At the Rimouski College, affiliated to Laval University, eighteen students have obtained the degree of Bachelor, seven in the philosophy class, and eleven in the rhetoric class. The Prince of Wales prize was won this year by a student of the Rimouski College, in the philosophy class, and by an American student in the College St. Laurent, in the rhetoric class.

BANKING ENTERPRISE.—We understand that the Quebec Bank are about dispatching an official to Winnipeg with a view of ascertaining the facilities and prospects for opening a branch of the institution there.

FRENCH FRIGATES COMING.—The Allan line steamship Manitoban, which arrived yesterday, reports having passed a French corvette off Cape Norman, on Friday.

PULP MANUFACTURE.—A Company with \$5,000 capital has been formed at Fraserville for the manufacture of pulp for making paper.

KILLED BY WHISKEY.—A young seven year old girl, residing on the Bedard property, St. Sauveur, died yesterday from the effects of two gills of whiskey, which she drank.

TYPOGRAPHICAL RECORD.—Since the introduction of printing at Quebec and Montreal there were published in the two cities 344 newspapers and reviews—175 at Quebec and 169 at Montreal.

VISITORS.—A pilgrimage of about 1,500 persons from Arthabaska County took place to-day to Ste. Anne's.

APPOINTMENTS.—The Local Government has appointed, Messrs C. D. Desaulniers, M.P., and Didace Tassé, Inspectors of public Departments.

COLONIZATION.—Rev. Father Lacasse intends to establish a new parish in Daquam Town in South Bellechasse.

The Inman line as City of Brussels sailed on the 7th inst., from New York for Liverpool via Queenstown, with 106 cabin passengers. The following were among the passengers:—Lord Masserene, Hon J A Chapleau, Hon G Wendell Phillips, Hon B Wood, Hon A B Tappan, Rev J Chipchase, Rev L O A Clark, D D, Roy J T Houston, M Robert G Leckie, Mr H Boisseau, Dr C H Payne, L L D, Col C H Way, Dr J E Whitehead.

CHEAP WHITE PAINT.—Here is a receipt for brightening up an old building:—"Put two bushels of unslacked lime into a barrel, add one peck of salt; slake the lime with boiling water; then add four pounds of lamp black previously dissolved in vinegar. Apply to the building very hot. The result will be very satisfactory, and protect the wood from decay and fire.

A correspondent at Schull, County Cork, southwest coast of Ireland, reports that on the 7th inst. the officer in charge of the Schull coast guard received forty letters bound by an elastic band, brought by a man from Long Island. It is supposed the man picked up the letters enclosed in a chest or case, as the bundle was quite dry. The sender states that he swam for them. The first letter is signed by Captain Murray, of the steamship Arizona. The others were letters to his wife and several telegrams. Waifs are coming ashore. The coast guard has been requested to report what the waifs consist of. The Guion line steamer Arizona, from Liverpool for New York, sailed from Queenstown on July 3rd.

The well-known family medicines of Dr. J. C. Ayer & Co. have been before the public forty years, and time strengthens the favorable impression with which they were at first received. We have been in the habit of using them ourselves, and recommending them to our acquaintances. Ayer's Pills are a perfect regulator of the system; Ayer's Extract of Sarsaparilla is the best known purifier of the blood; Ayer's Cherry Pectoral is a safe and sure remedy in complaints of the throat and lungs; and Ayer's Eye Cure is an effectual cure in cases of Fever and Ague and other malarial fevers. These medicines are compounded with skill and accurate medical knowledge, and they are in no sense to be classed with the cheap nostrums of the day. The formulae from which they are prepared are not secret, but are furnished to all physicians, and are published for the benefit of all interested.—St. John's, P.Q., News.

Why Ignore Torture? By disregarding cleanliness of the teeth, and thus encouraging their decay, when SOZODONT, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not yet used this popular article, can form an adequate idea of how much improvement & relief to be susceptible. SOZODONT is infinitely to be preferred to abrading tooth powders. It preserves, not destroys, the enamel.

SIX O'CLOCK EDITION

The Quebec Mercury.

MONDAY EVENING, JULY 11, 1881

The rumoured death of Cardinal McClosky is unfounded.

Col. (Strange) has done much toward elevating the scientific instruction of the artillery arm of our militia service, and it is to be hoped that his return to England will not be final.

It is understood that a contract has been entered into with a syndicate of New York financiers for the construction of the Manitoba and South-Western railway.

Mr. Lewis Potter, of whom so much was heard when the city of Glasgow Bank failed in 1878, he being one of the bank Directors, died a fortnight ago in Edinburgh, in his seventy-fifth year.

GARFIELD'S WOUND.—Similar Cases on Record.—General Henry A. Barnum suffers to this day from a gunshot wound not unlike that of the President, received nineteen years ago at the battle of Antietam.

TORPEDO LOST IN THE THAMES.—What is known as a fish torpedo was lost in the Thames, off the Arsenal, at Woolwich, a few weeks ago, and diligent search has not been rewarded with the finding of it.

GUITEAU.—Evidence is now being adduced to show that the assassin Guiteau may possibly have the taint of hereditary insanity in his veins.

BLINDNESS CURED!—Mr. James L. Armstrong, formerly President of the American Life Insurance Company, of Baltimore, has been afflicted with total blindness, but two years since had the sight of his right eye restored by an operation, and a few years since his left eye successfully operated upon.

NEW MILITIA LIST.—A new Militia list has just been issued. Heretofore this work has generally been brought out by private enterprise, but heretofore it is understood the Militia Department will issue the list annually by authority.

CUSTOM HOUSE RECEIPTS.—Duties collected at the Custom House to-day amounted to \$7847.77.

The steamer Britannic was successfully floated on Friday.

BY CABLE THIS EVENING.

Muscat, Arabia, July 11. The whole of Oman country is disturbed by inter-tribal wars. In a recent fight 150 persons were killed.

THIS EVENING'S TELEGRAMS.

Official Bulletin.

Washington, July 11.—1 p.m. The favorable progress of the President's case continues. Pulse, 106; temperature, 99.8; respiration, 24.

The President's physical strength keeps up wonderfully, and his mind is entirely clear and active, without showing excitement. His physicians do not count him beyond danger, but the general confidence in his recovery is strengthened every hour.

Albany, July 11. First ballot—Conkling 28, Lapham 60, Potter 47, Fish 1, Connell 1. It is necessary to have the choice of 70 Second ballot—Kernan 48, Miller 61, Wheeler 18, Adams 2, Everts 1, Chapman 2, Roger Starin 1, Fish 2.

RECORDER'S COURT TO-DAY.—A pretty young girl, once before sent to the Reformatory, and a young boy were found lying behind the Esplanade in the trench at two o'clock this morning, and were sent to goal for two months each.

POLICE COURT TO-DAY.—(Before Judge Chauveau.)—A sailor named A. Popelo was tried for going on board the vessel called the Abbotsford without permission or consent of the master, he was discharged as it was proved that the master had seen him on board and had neither objected or given him in charge.

Hospital Sunday, which is devoted in London to the collection at churches of contributions towards the support of the charitable hospitals, is an institution which might well be imitated in Canada.

Out of a batch of recruits for the Northwest Mounted Police which left Ontario some time since, no less than twenty three deserted while passing through American territory.

NEW FRENCH ARMY LAW.—By the latest law, French soldiers must serve three years in the regular army, two years in the available, dans la disponabilite, and four years in the reserves.

TEMPERATURE.—The following is the state of the temperature during each day, by Negretti and Zambra thermometer, in the shade, at the "Mercury" Buildings, Bussard street, 150 feet above spring tide level:

Table with columns: 1881, Min., Max., Wind, Aspect. Lists temperature data for July 1st to 11th.

THE BEAR AND PORTER MANUFACTURED IN CANADA.—The pain of Honor has been awarded to Labatt's celebrated India Pale Ale and Porter at the following international exhibitions.

The reduction in the public debt of the United States for June was \$1,223,315,953. Total reduction for the fiscal year \$10,157,348,336.

LATEST FROM RIVER PORTS.

Martin River, July 11. Clear; good breeze of NW wind. One bark and one brigantine outward at 8 a.m.; the Hurworth inward at 10.45 a.m.; the Tadoussac inward at 12.35 p.m.

Clear, strong NW wind. One ship outward this a.m. Yesterday's shipping—Bark Privateer, outward bound, left here at 8 a.m.; the mail boat passed outward at 10 a.m.; the Valotta inward at 11.30 a.m.

Clear, strong NW wind. One ship outward this a.m. Yesterday's shipping—Bark Privateer, outward bound, left here at 8 a.m.; the mail boat passed outward at 10 a.m.; the Valotta inward at 11.30 a.m.

The United States District Attorney thinks he has two cases against Guiteau, because the assassin fired two shots at the President. According to this theory, Guiteau will receive eight years for the first shot and an additional fifteen years for the second.

John G. Saxe, son of the poet, is dead.

DR. J. COLLIS BROWNE'S CHLORODYNE THE ORIGINAL AND ONLY GENUINE

ADVICE TO INVALIDS. If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of the prostrated disease, invigorate the nervous media, and regulate the circulating systems of the body you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE, Member of the College of Physicians, London, to which he gave the name of CHLORODYNE.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma, CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague. CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From LORD FRANCIS CONINGHAM, Mount Charles, Dougal, 11th December, 1868. "Lord Francis Coningham, who this time last year bought some of Dr. J. Collis Browne's Chlorodyne from Mr. Davenport, and has found it a most wonderful medicine, will be glad to have half a dozen bottles sent at once to the above address."

"Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Consulate at Manila, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE."—See Lancet, 1st December, 1864.

CAUTION:—Beware of Piracy and Imitations.

CAUTION.—Vice-Chancellor SIR W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the Defendant, FREEMAN, was deliberately untrue, which, he regretted to say, had been sworn to.—See Times, 10th July, 1864.

Sold in Bottles at 1s. 1/4d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the Words "DR. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

J. H. LINDSAY, THOMPSON & CO., No. 16 Cote du Passage Street, Upper Town, LEVIS. May 6 1881. Harper's Young People, 1881. AN ILLUSTRATED WEEKLY—16 PAGES. Suited to Boys and Girls of from six to sixteen years of age. Volume II commences Nov. 2, 1880. Now is the time to Subscribe. Within a year of its first appearance, HARPER'S YOUNG PEOPLE has secured a leading place among the periodicals designed for juvenile readers. The object of those who have the paper in charge is to provide for boys and girls from the age of six to sixteen a weekly treat in the way of entertaining stories, poems, historical sketches, and other attractive reading matter, with profuse and beautiful illustrations, and at the same time to make its spirit and influence harmonize with the moral atmosphere which pervades every cultivated Christian household. This important design they endeavor to carry out by combining the best literary and artistic talent so that fiction shall appear in bright and innocent colors, sober facts assume such a holiday dress as to be no longer dry or dull, and mental exercise, in the solutions of puzzles, problems, and other devices, become a delight.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, and restores the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. It is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bot. 32 doses, 4s. 6d., 1/2 net (1/2, 1/2). The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid Emblication, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain between the shoulders, brads, he, drowsiness, no appetite, furred tongue, disagreeable taste in the evening, stidiness, disturbance of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. Pepper, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by chemists. A most valuable and essential medicine for the Colonies generally.

LOCKYER'S SULPHUR HAIR RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Keenly recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR RESTORER.—Sulphur being highly prized for its stimulant, cleansing, healthful action on the hair glands, Lockyer's Restorer is strongly recommended. It is most agreeable in use. Large bottles 1s. 6d. Sold by Chemists, Hairdressers, and Perfumers in London, and throughout the world. Lockyer's is equal to any of the high-priced preparations.

Prepared by James King, London. Specially valuable Pills for residents abroad and travellers.

"SULPHOLINE LOTION,"—A NEW EXCELLENT MEANS OF CURING SKIN DISEASES.

There is scarcely any eruption that will yield to "Sulpholine" in a few days, and continue to fade away, even if it seems fast cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these mischievous, irritable, painful affections, and always produces a clear, healthy, natural complexion of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER & CO, London, England. June 17, 1881. F670-37
