## MEMPHREMAGOG HOUSE BURNED.

### Well Known Hotel at Newport, Vt., Destroyed.

FIRE THREATENED OTHER BUILDINGS—PORTION OF SHERBROOKE BRIGADE CALLED.

The Memphremagog House at Newport, Vt., was entirely destroyed by fire yesterday afternoon, including the main block and Opera House. This, however, was saved.

The fire was discovered about ten minutes past four and spread very rapidly through the old wooden structure. From the first there was no prospect of saving the hotel.

## CONSPIRACY AGAINST LIFE OF THE CZAR.

### Soldier of the Czar's Seminary Breaks Down Confessions.

PAID TO MURDER EMPEROR—FURNISHERS OF BLOOD MONEY NOT YET DISCOVERED.

St. Petersburg, May 16.—A Terrorist conspiracy, directed against the life of Emperor Nicholas, the existence of which has been suspected for some time past, has been revealed by the arrest at Tsarko-Selo of a soldier of the Guards' Regiment. Yesterday the man confessed to the acceptance of a large money bribe to assist in the murder of His Majesty.

According to the details of the plot, the existence of which has been confirmed by one of the highest officials of the court, suspicion was directed to the soldier by the fact that he was seen to have in his possession considerable sums of money. He was at once placed under observation. When he noticed that he was being shadowed he became panic-stricken and sought the authorities. He then broke down and voluntarily made his confession, after which he begged for protection.

All the threads of this conspiracy, which is radically different from former attempts of this nature, are not yet in the hands of the secret service men. A few underlings have been apprehended, but the real instigators of the crime and the men who furnished the blood money have not yet been identified.

It is thought that the money used is part of the proceeds of several political robberies committed during last fall and winter. Many of the participants in these so-called "expropriations" have been arrested and executed, but the loot was never located.

The police officials maintain a mysterious silence when questioned regarding this conspiracy. They refuse to either affirm or deny the story, and limit themselves to stating that there is indication that the men arrested last week in this city were connected with this conspiracy.

This statement coincides with information obtained in revolutionary circles, where it is declared that the men apprehended last week were connected with the reorganization of the fighting hands of the revolutionists, which the police succeeded last year in breaking up, and that the authors of the present conspiracy must be sought outside of St. Petersburg.

That Bond Story.  
MR. WINSTON CHURCHILL DECLARES IT A BASE AND IMPUDENT FABRICATION.

London, May 16.—Replying to a question yesterday in reference to a statement in the Daily Mail that Sir Robert Bond had declared at the Imperial Conference that a gross humiliation had been inflicted upon him and other representatives of the colonies, Mr. Winston Churchill, Under Secretary of State, said that as he had learned fully to the contrary had become necessary for him to state that from the beginning to end, the statement was a baseless and impudent fabrication.

There was nothing in the Daily Mail's statement that would bear the slightest resemblance or form to what took place at the Conference.

BOND PRINCIPALLY CONFIRMS BOND REPORT.

## CANADA WANTS NEXT CONFERENCE.

### An Invitation to Hold it at Ottawa.

PROPOSED STEAMER SERVICE CAUSES MUCH TALK AMONG COMMERCIAL MEN AT PRINCIPAL PORTS.

London, May 16.—Lord Wardlaw and Mr. Cromer, M.P., representing the British group, received from the Canadian speaker an invitation to hold the next inter-parliamentary conference at Ottawa. Laurier expressed his cordial approval.

Sir W. Laurier, Sir F. Borden, Mr. Brodeur and Madame Brodeur attended a reception given by the Japanese ambassador, The Duke of Connaught had an animated conversation with Sir W. Laurier.

Mr. F. Borden attended the annual meeting of the Y.M.C.A., and said the truest way to consolidate the Empire was by bringing the people of its component parts into closer touch with the news.

The problem of the establishment of an Empire-linking mail and passenger service caused great interest among commercial men at the principal ports. The president of the Southampton Chamber of Commerce, though disappointed that Liverpool was named as the home port, welcomed the proposal and said the day might come when it would be feasible to run a second line of subsidized steamers from Southampton to Canada.

Bristol, which Sir Wilfrid Laurier visited yesterday, advocates its claims as a terminal port, while Liverpool hopes that if the subsidies are to be given for a line between Liverpool and Canada, existing mail lines will be favored, and that no new line be brought into existence, as competition is already keen enough.

Thomas Bent, premier of Victoria, says that whenever he went in England he heard nothing but the cry of "Canada." The newspapers scarcely spoke of Australia, which was a glorious country, and more loyal to the King than even the people at home.

CAPTURED DESPERADO.  
BOB COOK, WANTED IN DUFFERIN COUNTY, ARRESTED.

Winnipeg, May 16.—Word has been received here from Estevan of the arrest of Bob Cook, an outlaw from Dufferin county, Ontario, who is wanted in the east for breaking jail at Grand Valley and for threatening to shoot High Constable Marshall, of Orangeville last March.

A reward of a hundred dollars was offered for him dead or alive, and when he settled on a farm near here the Mounted Police promptly took a hand in the game. Sergeant Lett rounded him up and arrested him single-handed, although Cook is credited with having beaten a hundred dollars worth of men in a fight on the streets of Orangeville when they attempted to lock him up. He had a brace of revolvers, a rifle and shotgun, all loaded, in his possession when Sergeant Lett called. Cook is now in jail in Regina, and will be sent east.

CZAR'S MOTHER MELANCHOLY.  
Copenhagen, May 16.—The famous Danish actress, Betty Nansen, was received in audience by the Dowager Empress at Gatchina. Her Majesty complained of being much misunderstood by the Russian people, whom she declared the Czar and Imperial family loved. Her whole life had met with ungraciousness, and she was, therefore, sorry she could not pass her life in Denmark. When the actress was departing, the Dowager Empress spread out her arms, and with tears running down her cheeks, exclaimed: "Remember me to my native country. I don't know if I shall ever see it again."

## ABRAHAM RUEF PLEADS GUILTY.

### To Save Lives of Those Nearest to Him.

BLAMES IT ALL ON SCHMITZ—SENTENCE WILL BE PRONOUNCED ON HIM IN TWO WEEKS.

San Francisco, May 16.—Abraham Ruef, acknowledged adviser of Mayor Schmitz, and once the recognized dictator of municipal affairs in San Francisco, pleaded guilty yesterday to the charge of extortion in Judge Dunne's department of the Superior Court. Sentence will be pronounced on him two weeks hence.

After a conference with his four attorneys in Judge Dunne's private chambers yesterday afternoon, and after they had withdrawn from his case because of his resolve to change his plea and avoid a trial, Ruef, to the utter astonishment of the prosecution, arose in court and announced in a great emotion and after long and earnest consideration he had determined to withdraw his plea of not guilty and to enter a plea of guilty. He then asked that the jury be dismissed and the trial abandoned.

Ruef read his statement from a manuscript, which he had prepared in the presence of his attorneys. A few moments before Judge Dunne's chambers opened. He showed by his voice, by his expression, by his gestureless attitude, and by the tears that again and again flowed from his cheeks, the great emotion and utter humiliation that he suffered.

Though Ruef has formally declared himself to be guilty on the charge on which he was to be tried, he nevertheless proclaims his innocence. He confesses that he is guilty of having conspired at corruption in municipal affairs, but declares that his motive was to save the lives of those who are nearest to him, his sister, aged father and mother, his maiden sister and niece.

## GRANBY CITIZENS GIVE RECEPTION.

### Mr. and Mrs. S. H. C. Miner Guests of Honor at Banquet.

"HONOR TO WHOM HONOR IS DUE"—SEVERAL ADDRESSES GIVEN—VERY SUCCESSFUL EVENT.

Granby, May 16.—(Special)—The citizens' reception to Mr. and Mrs. S. H. C. Miner, which was held in the Town Hall on Tuesday evening, was one of the most successful social events of the season.

The Council room, where the reception was held, was decorated with flags and bunting, Mr. and Mrs. S. H. C. Miner receiving under a canopy of flags. The reception committee was Dr. and Mrs. Cowley, Dr. and Mrs. Mathew, W. D. and Mrs. Bradford and Hector and Mrs. Pare.

After the presentation of the guests Mr. G. F. Payne requested an adjournment to the hall, where a sumptuous banquet was given. The main walls of the hall were decorated with colored bunting and flags, the stage with evergreens and flags, and a motto arch over with the appropriate words, "Honor to whom honor is due." The tables were arranged through the hall and beautifully decorated with carnations and bouquets.

The Bickmore Orchestra gave several choice selections during refreshments. Mr. J. L. Dozois read regrets from Rev. E. Munson Hill, Montreal; J. M. Gaylor, Dunham, and Rev. J. D. Ellis, all of whom were unable to be present.

## DAILY NEWS SPECIALS FROM ALL PARTS OF THE EASTERN TOWNSHIPS

### LIVE STOCK SHIPMENT FROM SUTTON.

Sutton, May 16.—(Special)—The live stock shipment on Tuesday night to Montreal consisted of 97 fine hogs and a few calves and lambs. Hogs went at 6 1/2¢, calves from \$2 to \$3. One fine sheep and lamb, \$10.

NEW MANUFACTORY AT STANBRIDGE EAST, MAY 16.—(Special)—Messrs. W. A. Odell and C. S. Moore have started a new industry in this village, which promises to be eventually of considerable benefit to the place.

They will manufacture drain tiles, brick and other such commodities from Portland cement.

THE MOST REMARKABLE HEN, YET.  
Pearce, May 16.—(Special)—Mr. Chas. Jones has a hen which laid an egg one morning last week, measuring 8 1/2 in. in circumference and weighing 6 1/2 oz., which equals the weight of three large eggs.

On the same day the same hen laid another egg, which weighed one-half ounce.

BEARS OR DOGS?  
Baldwin's Mills, May 16.—(Special)—On Monday morning four lambs belonging to Mr. Ed. Corliss were seen running to the house and upon investigating it was found that five sheep and two lambs were lying dead in his field and were still quite warm.

Although three dogs were seen going out of the field it is hard to credit them with the killing as the bones in the heads of the sheep were crushed, and their bodies terribly mangled.

It is more easily believed to be bears, as dogs rarely treat their victims as in the above case. Mr. Corliss lost his entire flock, excepting the four lambs.

HOLD UP AT WOTTON.  
Danville, May 16.—(Special)—A very bold attempt at highway robbery happened at Wotton on Saturday last between 9 and 10 o'clock in the evening, when Mr. Albini Gosselin, who was on his way home with a load of provisions, was held up by two men, who got hold of the horses and threatened to shoot him if he did not stop.

Fortunately Mr. Gosselin had a friend with him, and, although without weapons, they were apparently too much for the "bandits," who got away as quickly as they could without telling the real purpose of their attempt.

BRIDGE BURNED ON C. P. R. NEAR ABERCORN.  
Sutton, May 16.—(Special)—A bridge on the C. P. R. between Abercorn and Richford, Vt., was burned on Wednesday detaining all passenger trains for several hours.

Passengers on the morning mail train and also on the early express from Boston had to be transferred past the break, the C. P. R. running down an extra train to bring forward the passengers and mails.

The trestle work which was nearly 50 feet in length had been repaired Wednesday afternoon so the regular evening trains were able to get through without delay.

THE M. STEELE & CO. AUCTION AT RICHMOND.  
Richmond, May 16.—(Special)—

On Monday the stock in trade and book debts of the late firm of M. Steele & Co., was sold by public auction. Prices realized were good, better than was expected. The stock was sold in detail and as there was a large number of farmers present, wholesale, and in many cases retail prices, were realized. It is reported that the total assets of the estate will amount to about \$2,000; from this will have to be deducted the legal expenses and privilege claims before a dividend can be declared. The liabilities are said to be over \$10,000, it is evident a large dividend cannot be expected.

BRIDGE IS CONDEMNED.  
Rock Island, May 16.—(Special)—The bridge over the canal near Greenleaf's grist mill has recently been declared unsafe and signs have been put up at each end to that effect.

Some of the Rock Island Council thought that the bridge should be closed entirely and that estimates be obtained on the cost of putting it in a safe condition again. Others thought that the corporation should only pay for having a foot bridge, and they had the wild bridge that the expense should be equally divided between the corporation, grist mill and the Rock Island Hardware Co., who use this bridge to drive over.

It was finally decided to repair the bridge after obtaining the closest estimates for so doing.

BULLET EXPLODED IN HIS PIPE.  
Baldwin's Mills, May 16.—(Special)—A slight accident occurred here one evening recently which might be considered a joke except by those participating.

Messrs. Chas. W. Pond and Edgar O. Sullivan were enjoying a quiet smoke one evening this week, when suddenly the silence was interrupted by a loud report as if some person had fired a shot through the window.

Mr. Sullivan jumped to his feet in surprise only to find that an explosion had occurred in the bowl of Mr. Pond's pipe.

It appears that in some unknown manner a 22-calibre bullet had found its way into the tobacco with which Mr. Pond filled his pipe and eventually as the cartridge reached a certain temperature, it exploded.

ANNUAL MEETING OF MONTREAL AND VERMONT RAILWAY COMPANY.  
Stanbridge East, May 16.—(Special)—The annual general meeting of the shareholders of the Montreal and Vermont Junction Railroad Company was held at the office of the company at Stanbridge Station, May 8th, 1907.

Mr. W. H. Chaffee, of St. Albans, Vt., was appointed chairman, and A. L. East, of St. Albans, Vt., secretary. After the transaction of routine business, the following gentlemen were elected directors for the ensuing year: Chas. M. Hays, G. C. Jones, E. H. Fitzgugh, C. C. Smith, Lt.-Col. A. H. Gilmore, C. W. Wilton, and W. H. Chaffee.

At a subsequent meeting of the directors the following gentlemen were duly elected officers of the company to serve during the ensuing year: Chas. M. Hays, President; E. H. Fitzgugh, Vice-President; W. G. Crabbe, Auditor; Lt.-Col. A. H. Gilmore, Secretary; W. H. Chaffee, Assistant Secretary-Treasurer; Chas. M. Hays, E. H. Fitzgugh and G. C. Jones, Managing Directors.

SAW WIFE AND CHILDREN DROWN.  
Went Through Ice on a Saskatchewan Lake.

MAN WAS AHEAD ON SNOWSHOES AND TURNED JUST IN TIME TO SEE FAMILY GO DOWN.

Duck Lake, Sask., May 16.—(Special)—Word has been brought here by a trader from far north of a terrible drowning accident in which wife and three children of G. Cardinal, another independent trader, perished.

Cardinal and his family were crossing Cool Lake, on the ice, the former being ahead on snow shoes.

Hearing a scream, he turned, only to see the entire family perishing in the water. His desperate attempts to save them were without avail.

HELD FOR MANSLAUGHTER.  
REPUTED WEALTHY AMERICAN GIRL KILLED A MAN WHILE AUTOMOBILING.

London, May 16.—Miss Elsie Fox, who is reputed to be a wealthy American, although I am unable to locate what she is, was arrested yesterday as a result of a coroner's jury in holding her on a charge of manslaughter for causing the death of a nurseryman while driving her automobile home from the Newmarket race on May 11. Her friends here express the opinion that the verdict against her is unjustifiable.

Baroness de Langsdorf, sister of Miss Fox, said yesterday: "The collision which resulted in the death of the nurseryman was not the fault of my sister, although she was driving the automobile. The car was going at moderate speed, when the nurseryman in a covered wagon, drove directly in our path from a road at a right angle to ours. My sister, although a competent driver, was unable to avoid the collision."

**The Church and the Auto.**

A few years ago the popularity of the bicycle inspired to a considerable extent with church attendance in summer time. This condition passed away with the passing of the bicycle craze. Now clergymen are beginning to urge the same complaint against the automobile, and the popularity of motor-ing is not likely to wane so quickly. After some hesitation, clergymen formerly invited adherents to come to church in their cars. Especially in cities, many worse things might be done.

**A National Series of Text Books.**

There is a movement on foot, emanating in Ontario, and cordially endorsed in several of the other provinces including Quebec, to bring out a Dominion series of school text books. The subject is of national importance, and a convention of leading Canadian educators is to be held shortly in London, Ont. Much may be said in favor of such a proposal, but the leading points of advantage are especially clear. First of all, there would be no need of the costly and bulky books in large quantities, and an arrangement could be made with the publishers by which parents would profit by this saving. There would, presumably be a board of leading educationalists, representing the different provinces, to edit the contents of all new text books, and in this manner the standard would undoubtedly be raised to a higher level, quite possibly to the highest possible level. Given text books of distinct merit, there would be less cause for the frequent changes that are made in this province at any rate, each adding its quota to the burden which the education of children means to many parents. In following out the proposed plan it would be possible to make all new text books broadly Canadian in spirit, placing the most important points of view when considering the innumerable impressions which school life leaves on the mind of childhood and youth. Lively interest will wait on the development of the proposal for it touches the deep springs of Canadian national life.

**Something New in Corporation Attitude.**

In refreshing contrast to the familiar sight of corporations wanting everything from municipalities and promising as little as possible in return, should be noted, the attitude of the Brompton Pulp & Paper Co., towards the village of Brompton, in the mills owned by the Royal Paper Mills Co., as will be recalled, have been standing idle for upwards of a year and it is reasonable to think that the municipality, gratified at the prospect of the plant starting up, would have acceded to almost any reasonable request which might have been like asking. Under these circumstances the proposition which the Company made to the village looks very reasonable. It was that the Company should pay \$800 taxes yearly, exclusive of school tax, for a period of two years; that it employ 200 hands to be employed the year around, and at wages \$100,000 to be paid each year in wages. The bridge spanning the St. Francis in the village will need to be raised, on account of raising the dam and the Company undertakes to do this at its own expense, also to maintain the bridge approaches. Finally, the Company offered to bind itself that the mills would not be closed down on account of repairs or any other cause, for a longer period than one month, continuously. This proposition, if framed into a by-law, read a first, second and third time and passed all at the same meeting. The amount of taxes to be paid annually is merely nominal, considering the valuation of the Company's plant, but aside from this single feature, which was evidently quite acceptable, however, to the village Council, the Company's proposal was noteworthy for its liberality.

**A Preparation That Will Destroy the Dandruff Germ Discovered.**

Finally a scientific student has discovered a certain remedy for dandruff. When it first became known the dandruff is the result of a germ or parasite that digs into the scalp and eats the vitality of hair at the root, causing falling hair and baldness. Biologists set to work to discover some preparation that will kill the germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newber's Hairdressing. It prevents baldness, stops falling hair and speedily eradicates dandruff. "Destroy the cause you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### CORRESPONDENCE.

**BUTCHERS BUYING AT-MARKET.**  
Editor Record:—  
Sir,—As a citizen and a patron of the market on Saturdays I would like to ask if there is not some law that prevents butchers and grocers from purchasing goods offered at the market before a certain hour Saturday forenoon? I have gone to the market at 7 a.m., and found the best had been sold and learned that the butchers had picked up all the choice meat offered.

A little investigation or care on the part of the authorities should put a stop to this, in the interest of all consumers. C. W. Sherbrooke, May 15, 1907.

**CHURCH, LABOR AND CAPITAL.**

**BISHOP POTTER FAVORS RELIGIOUS CIVIC FEDERATION.**  
New York, May 16.—Dr. A. S. Daniel, a dispensary woman physician, whose work is confined to the tenement districts, told the Church Association for the Advancement of Labor at its fifth annual meeting Monday that sweat shops still flourished in New York, and that rents of apartments were still going up, with no corresponding increase in wages of the workers. The convention was held in Synod Hall of the Cathedral of St. John the Divine, and Bishop Potter presided. About thirty delegates were present.

"One cannot help noting the increase of shelter given without corresponding increase of earnings on part of those sheltered," said Dr. Daniel. "As early as I can find out, there is no law of increase of rental on the part of the landlord. He just advances it from fifty cents to \$1. Then, too, the improvements demanded by law help to make necessary the increase."

Dr. Daniel said the sweatshop in its worst form still lingers in the crowded sections and particularly in the quarters of the city most frequented by the Jewish and Italian element.

Bishop Potter said that he was chairman of a joint commission on the subject of the relations of capital and labor, and that he was going to the next general convention in October with the intention of causing the whole episcopate to take up the prosecution of the work with more vigor than had heretofore been exhibited. He seemed to favor something like a religious civic federation.

"Down in Richmond," said the bishop, "we shall probably devote a good deal of time to settling disputes, and to the passing of some annual resolutions directed to the curbing of some frisky bishops, and the prodding of some lazy clergymen. What matters it if there are only one or two frisky bishops and a few lazy ministers? Better that there should be one thousand such than that the interests of labor should suffer."

"But," the bishop added, "there must be some hustling priests who would forget the dignity which some clergymen seemed to think must of necessity surround them, and who would get out and work faithfully in the interests of labor. This is a time, when the bishop, when all over the world, especially the church world, is interested in the condition of all classes. Those who work to aid labor must work in labor's ranks. Effort directed toward the higher interests of labor is especially needed by the church."

The secretary-organizer, Miss Harriet A. Keyser, and the secretary and treasurer, Rev. Dr. John P. Peters, submitted their annual reports, and resolutions on child labor were adopted. Rev. F. J. Moran, reporting for the religious and sweatshop committees, said there were sweatshops in New York that hadn't been inspected in years.

The convention re-elected Bishop Potter as president, Rev. Thomas J. Hill as vice-president, and Miss Harriet A. Keyser as secretary and organizer. At last night's session Rev. Frank J. Maloney of Sharon, Pa., painted a gloomy picture of immigrant life in Pennsylvania mining and steel towns and urged that the Episcopal body do something in the way of a campaign to terminate a deplorable state of affairs in the minds of the incoming hosts. James P. Archibald, speaker of the Church and trades unions.

It was the intention of the Canadian Government to give subsidies to enable such a scheme to be carried out.

**A Magistrate Investigates Zam-Buk**

**Says is a Wonderful Healer and Does More Than is Claimed For It.**  
Probably no household remedy in existence has won such glowing tributes from people in high places as has Zam-Buk. Mr. Roger F. Perry, Justice of the Peace for British Columbia, recently tested this famous balm, and this is what he says of it.

"The Pavilion, Goldfields, B. C."  
"To the Zam-Buk Co. I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in their house. It truly does even more than you claim for it. For my own part I would not now be without it in the house."  
Yours very truly,  
(Signed) "Roger F. Perry."

"Justice of the Peace for B. C."  
Zam-Buk differs from ordinary salves and embrocations, for while these mostly contain animal oils and fat, Zam-Buk is purely herbal. It closes and heals cuts, scratches, sores, eruptions, boils, eczema, chaff, scabs, etc. It cures, and hold it is the handiest possible remedy for burns, scalds, children's injuries. It instantly cleanses any wound to which it is applied, prevents festering, inflammation or blood poisoning. It cures piles, varicose ulcers, and fistula. All drug-gists and stores sell at 50 cents a box or from the Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50.

**Fused Joints are Air-tight**

Fused Joints are used only in "Hecla" Furnaces. They are made by bringing the iron and steel of the radiating chamber to a white heat and fusing the metals into one piece—making a joint so permanent and so tight, that it prevents for all time the escape of smoke, gas and dust into the house.

**"Hecla" Furnace**

joints are just as tight, after ten years service, as when first installed.

"HECLA" FUSED JOINTS are covered by patents and are used exclusively in "Hecla" Furnaces. The cemented and bolted joints in other furnaces are soon impaired by the unequal expansion of the steel and iron. The cement drops out; the bolts work loose; soon leaving openings through which gas and dust escape. FUSED JOINTS make "Hecla" heating ample, economical, sanitary and healthful.

**BRITAIN SAVES RUSSIAN DUMA**  
Prevented Czar From Signing Dissolution Decree.  
THREATENED TO REFUSE TO THE ANGLORUSSIAN COMPACT.

Paris, May 17.—An interesting episode behind the scenes of the Russo-British alliance is given in the usually accurate Journal de Geneve, a French paper which is to a certain extent the place of the defunct Le Nord. The article is signed by M. de la Motte-Macqum, of the Continental collection.

It will be remembered that about a month ago the days of the Russian Duma were numbered. The Russian Duma appears to have already numbered, and the majority of the reports which came from Petersburg on one moment were drawn up, and that it was only the Imperial signature, according to the authority mentioned, which prevented the Duma from being dissolved. At the instant of the dissolution, the Russian Duma was witheld.

In Russia the advantages, both moral and financial, of a good understanding with England are thoroughly appreciated. Russia's ally, England's friend, and British capital is willing to be invested in the industrial development of a country which has been warned not to expect any financial assistance from its continental ally. Good progress has been made toward a satisfactory political arrangement between the Lion and the Bear, and Count Benckendorff, Russian ambassador in London, is expected to be able to bring the negotiations to a close within a few days.

At this juncture the trouble of the Duma began, and Premier Stolypin's decree of reaction was issued. The Duma was intimidated to the point of dissolving the British foreign secret would be obliged to resign the much desired Anglo-Russian compact. No British Cabinet exists, and the British Government of parliaments could afford to sign a treaty with a Government which, almost immediately after accepting the principle of parliamentary representation, should give the lie to its professions and openly flout a treaty to which it had not given its assent.

There are said to have been many reasons which had an influence in determining the fate of the Duma. King Edward's desire for an Anglo-Russian rapprochement is well known. It is by no means unlikely that King Edward's personal influence to support Emperor Nicholas to turn a deaf ear to those of his counsellors who were urging him to dissolve the Duma.

**HARRIMAN INVESTIGATION.**  
RAILROAD COMPETITION SUPPRESSED OVER A LARGE AREA—SOME ILLEGAL CONTRACTS.

New York, May 17.—A portion of the recommendations of Attorneys R. Kellogg and Chas. Severance to the Interstate Commerce Commission, concerning the Harriman railroad investigation has been published here. It views the testimony and holds that railroad competition has been suppressed in an area equal to one-third of the United States, that the contracts between the Union Pacific and the Harriman for the control of the Alton, Ill. way, as well as the contracts between the Union Pacific and the Southern Railway, and the steps taken for the control of the Illinois Central and the St. Louis & North Western, are all in violation of the Sherman Anti-Trust Act. It recommends that the Attorney-General institute proceedings to annul these contracts. It also recommends that the Interstate Commerce Commission should be new and effective laws should be enacted to prevent the suppression of the profits of the great railroads of the Far West are to be used to buy stocks and control lines in the East, instead of building new roads for the development of the West as they should be.
