MORE EVEN DISTRIBUTION OF NATURAL RESOURCES NEEDED, SPEAKER AVERS

Father W. X. Bryan, of Loyola College, Addresses Regular Weekly Meeting of Westmount Rotary Club — Believes Wealth in Hands of Too Few — But Socialism is Not Answer, He Says

More equitable distribution of Canada's natural resources to the people of the land was held a paramount need by Father W. X. Bryan, professor of sociology and economics at Loyola College, in an address before the regular weekly luncheon meeting of the Westmount Rotary Club in Victoria Hall on Wednesday.

The speaker, however, did not believe in the feasibility of a socialistic state, as he had never yet heard of a government enterprise that did not show a deficit. Private ownership, he believed, was the only practical economic system.

He maintained, however, that too great a percentage of the wealth of the country was falling into the control of minorities. The average worker, he contended, must receive a greater share of the fruits of industry and must feel that he himself had the opportunity of gaining ownership of his own business.

He also played the manner in which the natural resources of the land had been exploited in the past. The buffalo and the carrier pigeon have practically disappeared and huge lumber areas have been ruined, he said.

Attacks Colonist System

Father Bryan also criticized government methods of colonization. It was useless, he said, to expect to develop farms in areas unsuited to agriculture. It would be far better, he felt, to make full use of more easily accessible lands.

Furthermore natural resources, such as power lines, were being developed in sparsely populated areas where they were of little use.

In speaking of the social angle in the development of Canada, Father Bryan declared that the workingman must be given more security and more compensation for his labors. He compared capital, labor and resources to a three legged stool. Without one the other two would fall.

Current economic conditions, he averred, forced men to work for low wages and gave them little security. Many could not afford to marry until middle age.

The cure, he held, lay in a wider distribution of wealth by the establishment of more privately owned firms. There must be more owners and less workers, he said.

The speaker was introduced by Dr. Carver and thanked by Bert Cuthbert. John Colton, the president, was in the chair.

EXAMINER IN FIFTH YEAR OF PUBLICATION

Has Established Itself Firmly in the Life of the Community

With this issue the Westmount Examiner passes another milestone and enters its fifth year of publication.

Launched early in February, 1935, it has, in the brief span of four years, established itself firmly in the life of the community. Today its news columns are widely read by residents of Westmount and it is the principal advertising medium of a great number of local firms.

Steering clear of political entanglements, the Examiner has kept to the course originally outlined by its publishers, that of supplying Westmount news accurately and in detail.

News of general interest, church, clubs, and social activities, fill its pages each week as it serves the "Garden Suburb of Canada's Metropolis".

The editorial columns of the Examiner have, moreover, far outstepped the scope of a purely "community" newspaper, and include a great many features that have won for it wide recognition. Among them are authoritative articles on the world of entertainment, news of interest to women, and carefully selected news photos of world events.

With four years of progress behind it the Examiner enters its fifth year of publication with optimism for the future. There can now be little doubt that it has filled a long-felt need in the community in the past and no effort will be spared to increase its usefulness in the future.

It has helped civic bodies to flourish.

Calvary Church Had Busy Year, Annual Report Shows

The 62nd annual meeting of Calvary Church was held in the Church Hall, recently, the minister, the Rev. T. W. Jones presiding. The report of the work of the Church for the year 1938 was presented by the church secretary, Dr. H. V. Driver, showing a very busy and encouraging year. Reports of all departments were summarized in a report presented by the secretary, showing a Sunday School enrolment of 422, with a morning Sunday School of 74 supplementary to this. The Women's Missionary Society and affiliated groups reported a very successful year with a total of \$54 raised for missionary work through the W.M.S.

The Women's Association reported a very good year with many activities in which the members participated, a total of \$1025, being raised through these efforts. The Young People's Society showed a year of good attendance at regular meetings, and excellent work being accomplished. Other activities such as the Bowling League, Badminton Club,

Men's Brotherhood, as well as the Missionary activities of the church all testified to a year both of great need and of splendid opportunities. The organized groups of young people in the Square Circles and Arrow Club have been particularly well maintained.

The report of the Missionary, Educational and benevolent Funds treasurer, Mr. Albert Modler, was given showing \$2,332, raised in this department. The Church treasurer's report by T. Haugland stated that a total of \$11,638, had been received during the year for current expenses for the support of the regular work of the congregation. The total amount raised for all purposes, including Sunday School and Missionary contributions amounted to \$15,075.

The report on the Membership of the church showed that 70 new members had been received during the year, 42 of whom were received on confession of faith, 14 having come directly from the Membership Training Classes of the

Hazel Franklin To Star In Rotary Ice Carnival

Hazel Franklin, the fourteen-year old English miss whom Coach Howard Nicholson considers already the equal of Sonja Henie and, potentially, an even greater skater, is coming to Montreal.

Word has leaked out that Hazel, who recently "stood them in the aisles" at the North American Winter Sports Show in Madison Square Gardens, is to be the shining star of the 9th annual Rotary Ice Carnival at the Forum on March 3 and 4. This year's carnival is being staged by the Westmount Rotary Club in co-operation with the Montreal Fancy Skating Club.

Howard Nicholson, who coached both Sonja Henie and Hazel, has plenty to say about this young lady of eighty pounds who has shot up to international stardom in a little over three years. Hazel has much more natural ability than Sonja," says Nicholson. "She has learned in three years and a half everything it took me eight years to teach Sonja. She spins faster and executes longer and more difficult jumps already. She's potentially a far better skater."

At the age of fourteen, Hazel Franklin is performing with perfect ease and grace and with delightful childish abandon all of the most difficult skating routines. She has mastered some forty-one "school" figures, all of the most difficult "free" figures; in addition she enjoys the added distinction of being one of only three skaters in the world who can do the sensational Double Salchow (jump).

Despite the popular acclaim that has been showered upon her, and the demand of two Hollywood studios for screen tests, Hazel remains completely unspoiled. Her mother travels with her everywhere, sees to it that she gets her fourteen hours of sleep every day and spends the equivalent of a high school session daily with her books.

Hazel Franklin will be in Montreal a few days before the show in order to tune up for the opening night on March 3. Other stars of international repute will from both sides of the border, will also appear with Hazel.

As usual, the entire net proceeds from this carnival will be handed over by the Westmount Rotary Club to the Montreal Children's Hospital, one of the club's major philanthropies.

SPRING IN AIR AS GARDENERS PLAN MEETING

Spring is coming! Brightly hued seed catalogues have announced it, as they have arrived almost daily during the past few weeks. Members of the West End Horticultural Society will realize it as they gather at their annual meeting on Wednesday and view pictures of some of the wonderful gardens of England, together with other scenes of England and Scotland.

Miss Mildred Douglas will present the scenes in a series of films which she took recently during a visit to these countries. Mrs. Elizabeth Smardon, will sing several well known old time songs during this programme.

Election of officers for 1939 will take place and financial report for 1938 will be presented at this meeting. Four door prizes, each consisting of five good gladiolus bulbs, will be presented. The meeting will commence at 8:00 p.m., and tickets for the door prizes will be given only up to that time. All who are interested in gardening are invited to the meeting.

The West End Horticultural Society is commencing its seventh year's activities, each succeeding year having seen real progress. Started in 1933 by a few garden enthusiasts, it has become a vital force in the Community. The garden contests have proved very popular and have been increased by adding fresh territory during succeeding years.

It is anticipated that the number of contests will be again increased this year. A marked improvement of home surroundings in the district has accompanied the growth of this energetic and progressive Society.

LAST TRIBUTE PAID TO LATE MRS. D. MCSWEYN

Final tribute was paid on Tuesday afternoon at 4:30 p.m. in St. Andrew's Church to the late Mrs. D. J. Mrs. McSweyn died at the Western division of the Montreal General Hospital on Monday following a brief illness. She was the wife of D. J. McSweyn, of Henry Morgan and Co., Ltd.

Mrs. McSweyn, the former Vina McGugan, had been a particularly active member of St. Andrew's Church for the past 20 years and was for some time president of the Women's Association. For the past two years she has been president of the organization.

She was also representative at St. Columba House and was a former secretary of the Guy Drummond Chapter I.O.D.E.

COLORFUL EVENT PLANNED BY CITY TAKING PLACE AT ATHLETIC GROUNDS

Thousands Expected to Participate in Masquerade — Entire Program Under Sponsorship of Municipality — Scene Will be Gaily Decorated — Prizes Offered For Best Costumes

A gala masquerade ice carnival, expected to attract several thousand of the younger members of the community, will be staged at the Westmount Athletic Grounds next Friday evening. Rinks will open at 7 p.m. and skating continues until 11 p.m.

The entire program is under the sponsorship of the City of Westmount and is open to the general public. There is little doubt that it will prove one of the highlights of the winter season locally.

The scene will be a colorful one indeed. Designs will be painted on the ice surface and the rinks are to be decorated with colored lights. The ice surface is to be considerably enlarged in order to accommodate the anticipated turnout.

The skating distances around the edge of the rink will be about a quarter of a mile, the boards on the two hockey rinks being removed and the surface in between flooded over. As each of the rinks is of the regulation size this will greatly increase the surface area.

The program, final arrangements of which will be announced next week, includes races, exhibition figure skating by members of the grounds, broom hockey, a costume parade, a bonfire and a fireworks display.

A feature of the evening will be the awarding of prizes for the most original and attractive costumes.

In the event of unfavourable weather, the carnival will be postponed until the following night.

M.R.T. MAKES PROGRESS IN THEATRE PLAN

Council Approves of 20-Year Lease—By-Law Yet To Be Adopted

This week the Montreal Repertory Theatre won its first major step in its endeavor to construct a theatre in Westmount with approval by the City Council of a lease that will rent it land for a twenty year period at the reported nominal charge of one dollar a year. Once the lease is ratified by the adoption of a by-law, the M.R.T. will be empowered to construct and operate a theatre and school of the drama on property between Olivier and Greene avenues, north of Western avenue.

While no definite announcement has been made regarding the building, it is understood that it will have a seating capacity of about 800 people and be equipped with the latest apparatus for the presentation of amateur plays and concerts.

The M.R.T. has for some time now been keenly interested in erecting a headquarters of its own in Westmount, where it is estimated that almost half of its 3,100 members reside. For the past two years, many of the organizations' most successful plays have been presented in Victoria Hall.

Actually, the arrangements so far concluded between the City Council and the M.R.T. have been unofficial in nature and no formal announcement is expected to be forthcoming until the lease has been executed and the new by-law adopted.

REV. F. W. KERR TO LEAD SERIES

Supper Hour Studies in Religion Continue at District Y.M.C.A. Branch

The supper hour studies in religion, conducted each Thursday evening at the Westmount Y.M.C.A., will be led this month by the Rev. F. W. Kerr, of St. Andrew's United Church and will deal with "Religious Living."

The course, which commenced last October, has proven highly successful and those attending the lectures have heard such outstanding ministers as Rev. J. Lavell Smith, Rev. J. A. Johnston, Rev. and Gilbert Oliver. The sessions are open to both men and women.

The Rev. F. W. Kerr's topics this month will be as follows: Feb. 9, Obstacles to Religious Living; Feb. 16, Beginnings in Religious Living; Feb. 23, Growth in Power.

LIBRARY SUPPLIES ANSWERS TO VARIED QUESTIONS DAILY

While its primary function is, of course, the loaning of books to residents of the municipality, the Westmount Public Library carries on a comparatively little-known service that is valued highly and much used by scholars, writers, business and professional men, students of world affairs and the humble seeker-after-facts.

It serves these people through its excellent reference facilities which, under Miss S. B. Wilson, supply the answers to approximately one hundred questions a month on practically every subject imaginable, and a good many that are not.

Among the subjects on which it supplied data last year, for instance, included "seeing eye dogs," the number of houses in Canada having a value of \$10,000 and over; the number of persons who voted in the last Federal elections; the wording of the inscription on the Unknown Soldiers tomb at London and Paris, etc; the vessel "Queen Mary," the accomplishments of the League of Nations; manufacture of Cellophane; and the design of fireplaces and mantels.

No effort is ever spared to locate the information requested and when necessary other libraries and bureaus of information are consulted.

The library, of course, does not guarantee to supply answers to all questions put to it and Miss Kathleen M. Jenkins, head librarian, admits that in a fair percentage of cases the desired information cannot be supplied.

On the whole, however, the Westmount Library, is considered an excellent source for reference material and is being used more and more every year for this purpose.

A recent grant authorized by the City Council is making it possible for the library to greatly augment its non-fiction and reference material and its scope in this sphere is being considerably increased.

New technical works are being added to the shelves each week, as are large dictionaries, encyclopedias, maps, and general non-fiction material.

WESTMOUNT, FRIDAY, FEBRUARY 3, 1939

NAZI PROPAGANDA IN WEST

Western Canada is being flooded with Nazi propaganda. Well organized groups are seeing to it that German-speaking people of the prairies are being impressed with the wonders of the Nazi regime.

German agents have been going through the West for many months. They have been educating the people to the thought that anything that Germany asks should be granted without question. The idea is that German-speaking Canadians will try to influence the Canadian Government to bring pressure to bear on London to give in to the Nazis.

Fascist propaganda of that sort is just as damaging to Canadians as Communist propaganda. It is common knowledge that the Communists have been spreading their pernicious teachings in Canada. But real Canadians will spurn both Communism and Fascism.

HOME HINTS FOR HUSBANDS

Judge H. S. Mott of the juvenile court, Toronto, is admittedly one of the best authorities in Canada on problems relating to delinquency in homes, and family quarrels. Because of this reputation, there are those who accept without question whatever he has to say.

There is, however, a limit to this trust in his wisdom. For example, speaking in London, Ontario, the judge advises wives "when your husband comes home tired from the office, give him a small job that he likes to do. He'll love it."

There are a couple of hitches to this reasoning.

It is not so easy to see how tired husbands are going to have their humor improved by having tasks thrust upon them that will make them even more tired. To many husbands it hardly makes sense.

Then again, wives are supposed to pick

on "a small job that he likes to do." What, for instance? Household jobs that tired husbands like doing are few and far between, and it would indeed tax the ingenuity of the most astute woman to find them.

We can think of many household tasks, washing dishes; sifting the ashes; hanging curtains or pictures; sweeping up the floor; putting out the garbage; emptying the ash trays, etc. Tired husbands may do some of these things, but how many do them because they like it? They are just trying to please the little woman by giving a helping hand, and they are not doing it just out of sheer pleasure. His Honor, Judge Mott, notwithstanding.

PLAY THE GAME BOYS

The things in life that are appreciated most are those that cost the most. "Easy come easy go" is a common saying but very true. Boys of to-day are having a lot done for them. They find everything supplied by father and mother. They do not want and are given the very best chance in life to make good. It can be said that nearly every parent is trying to give their children a better start in life than they had. They aim to start them out in life with an education, a position and enough of this world's goods that will enable them to enjoy life to the fullest. In order to do this many of the parents find it necessary to make sacrifices. They do without in order that schooling may be had. They make old clothing do in order that the child will have as good as the other with whom they associate. Many is the hour that has been spent by parents to plan for the welfare of the child. This is well known as it occurs in every class of life. Yet does the child fully appreciate what is being done? As you read the story of crime committed by the young people, as you note the attitudes of children to parents, as you see how some children do not respect their parents and how they treat them, you question if the youth is playing the game with mother and father. Boys and girls, stop and think, just what your parents expect from you. Is it fair to bring trouble into the home? Is it playing the game when you disobey your parents? Is it playing the game when you are unkind and disappoint your parents? Then let this be one of your resolutions, "I will endeavour to so live and act that my parents will never regret what they have sacrificed for me". Youth will be the better for such a pledge and parents will be well repaid when they realize that what they have done is fully appreciated by the children.

THE FORUM

In Which Subjects of General Interest Are Discussed

Conducted by HOWARD S. ROSS, K.C.

NOTE:—The opinions expressed in these columns are not necessarily those of this newspaper and it does not accept responsibility for them. They are published for their general interest, variety and originality of treatment.

Since the newspaper reports of my address "Some Suggestions for a Community Centre" appeared I have received a number of requests for the approximate cost of excavating under Mount Royal of Fletcher's Field not far from Pine Avenue. I quote from a letter to me from my friend, M. G. Henniger C.E., a native of Nova Scotia, who lived for some years at Sydney, N.S., and later lived at Smiths Falls where he died a year ago. He excavated some of the largest tunnels and cuts on the National Transcontinental and had the latest in the way of equipment for such work. His letter reads in part: "To excavate rooms in Mount Royal would cost about \$5 per cubic yard. A room 50 x 30 x 20 feet high would cost about \$5000. To concrete the walls, floor and ceiling would cost another \$5000, giving you a room 50 x 30 for about \$10,000." If the rooms were ten times the space mentioned the cost of excavating and the concrete work would only be \$100,000 and if twenty times as much space

Local engineers and architects tell me the estimate of Mr. Henniger is correct and that according to these figures the suggested community centre with ample parking space (having a number of entrances and exits) which they consider a very important feature of the proposal, could be completed for little more than what it would cost the city to acquire the land if the city decided (with Provincial and Federal aid) to proceed with such a project within the next few years.

One well-known engineer told me the city before spending money on a community centre should put down new sewers so that there would not be so many damage claims because of defective sewers. I agree as to the need of new sewers (even though it means fewer Court actions) but claimed that such a project (the community centre) should pay the city a profit.

The refugees from Germany are not all Jewish. One third are Christians.

Miss Jeanette Rankin first woman elected to the U.S. Congress and renowned for her vote in 1917 against America's entrance into the World War recently stated: "War is a habit, and habit is something you use in an emergency. Selfishness is at the bottom of the war habit and selfishness is the fear that there will not be enough to go around. But there is enough to go around in the world today if the privileged will just peg their own standard of living at the point at which there will be enough for all."

Czechoslovakia contains 54,877 square miles of territory as compared with 407,282 square miles in the province of Ontario.

Let's get down to rock bottom. The thing that has happened in the world is more than a depression. It is the end of a political and economic epoch. That is the plain historic truth. The epoch, in all the major states of the globe, covered the latter half of the 19th century and roughly the first twenty-nine years of the present one. The world's productive capacities were puffed up until they burst. The period of that agricultural and industrial over expansion was characterized everywhere by a selfishness, greed and a wholesale exploitation of peoples, lands and resources that would have left the ancient Egyptians agast.—Richard Merrifield, managing editor, in Free America.

There are 86 communities in the U.S.A. which have no local taxes to pay by reason of the surplus earnings of their municipally owned utilities.

Mayor Morrison of Hamilton told the members of a Toronto service club the confiscation of homes for taxes creates great discontent in the community. The home should be the most protected investment but it is now the most abused, he said and added: "Taxation on real estate should be only for services to real estate. Education, hospitalization, health and all other forms of social services should be a federal matter, not a civic one."

V. C. Wansborough To Address Group

V. C. Wansborough, M.A., head master of Lower Canada College and Mrs. A. Stalker, M.A., member of the Quebec Protestant Education Survey, will address the members of the Roslyn Avenue Home and School Association on Monday evening at eight o'clock. Both speakers will tell of the work done by the Survey Committee.

Miss Catherine I. Mackenzie, principal of the Montreal High School for Girls, who was to have been the speaker at this meeting, has kindly postponed her talk. She will, however, attend this session.

On Monday morning parents and other residents interested in school work are invited to attend the school, and see the work that is being done in the various departments of education.

CHURCH PLANS SERVICE FOR NEW OFFICERS

Dedication Service Will be Led by Rev. T. W. Jones in Calvary Church

On Sunday morning in Calvary Church, a responsive service of dedication will be shared by all who have been appointed to the leadership of the church and its organizations for the year 1939. The service will be led by the Minister, the Rev. T. W. Jones, with the entire congregation participating. The sermon to be delivered by Dr. Jones will be a Bible Study interpretation of a great crisis hour in human affairs, wherein God displayed His wondrous power on behalf of those who trusted in Him. The message will be one of inspiration and challenge for all Christian workers as they undertake the service of their Lord and Master.

The preaching service will be followed by the Communion of the Lord's Supper with reception of new members into the church.

Regular sessions of the Church School will be held at 11 a.m. and 3 p.m. A Training Class for Sunday School teachers will be held in the church vestry from 3 to 4 o'clock. The course of study will be arranged for beginners as well as for those who have had experience in teaching.

The Pastor's Training Classes for Church membership for young people 14 years of age and over will open on Sunday at 2:15 p.m. in the Church House, 4210 Dorchester street. All who desire instruction regarding the important matter of Church Membership are invited to attend these classes or get in touch with the minister as early as possible. These classes are in preparation for the Easter Communion.

The evening service on Sunday will be conducted by Dr. Jones, who will preach on the theme "The Challenge of Life's Great Hours". The sermon will be based on the text found in Jeremiah, chapter 12, verse 5, "If thou lovest thy faith in a land of peace, how wilt thou do in the Jungles of Jordan?"

HOLLYWOOD GOSSIP

Jackie Cooper In Coveted Role With Deanna Durbin

Young Mr. Cooper is getting to the age where he'd rather you wouldn't call him Jackie.

Jackie - pardon us - Jack weighs 145 pounds, runs a fast 220 yards, swims like a fish, tinkers expertly with a flivver, bangs a mean set of drums and is beginning to run around with the girls.

He offers that evidence in support of the contention that he's well out of the shirt-pants stage. Further proof is offered in the fact he's playing almost-grown-up roles in his new pictures. Right now he's seen as Deanna Durbin's boy friend in her latest Universal production, "That Certain Age," now playing at The Snowdon United Theatre until Saturday.

Jack started his movie career as a result of his mother's alertness. She was secretary to a Hollywood producer when she noticed that the firm was testing hundreds of boys for a role in "Fox Movietone Follies." Two hundred kids were called, but none were chosen.

"What's so tough about that job?" she wondered. Not seeing any reason why her own 4-year-old could not do the part, she slipped his name on the list of youngsters to be tested the following day.

OPERATIC SOCIETY TO GIVE 'PRINCESS IDA'

Montreal music-lovers will be interested to hear that the Lyric Operatic Society has this year chosen for its annual performance, Gilbert and Sullivan's "Princess Ida." Three performances will be given, on March 9th, 10th and 11th, in the Victoria Hall.

What promises to be the merriest and most unusual comedy to reach the screen since "The Ghost Goes West" now playing at the Westmount United Theatre until Wednesday "Storm in a Teacup" the new Alexander Korda film.

Lovely Vivien Leigh, whom you saw in "Fire Over England" and "Dark Journey," is starred opposite Rex Harrison, the jovial reporter of "Men Are Not Gods," in this gay tale of a young man's love for his girl friend, an old woman's love for her mongrel dog and a pompous politician's love for himself.

The play was originally written by Bruno Frank in protest against the exorbitant dog tax which existed in Germany some years ago. It enjoyed an enormous success in Europe and was eventually adapted to the English stage by James Bridie and scored a big hit as produced on Broadway last season by the New York Theatre Guild.

The story tells in charming fashion how a young reporter in a little Scottish town roused a whole nation against an overhearing politician because of his unfair treatment of a delightful old Irish woman who couldn't afford a license for her beloved mongrel, Patsy.

KIDDIES IN NEW REVUE SATURDAY

Memories of the Dumbells, that famous wartime and post-war entertainment unit, and their first Canadian revue, will be recalled this week-end when Montreal kiddies will present "Biff, Bing, Bang Revue" at the Rialto Theatre.

It is Mr. Plunkett, former star of the Dumbells, but more recently known for his presentations of the United Theatres Talent Quest, who has the revue in rehearsal, and he promises that many surprises are in store as Montreal kiddies, among whom are numbered many from this district, march in parade.

Young Walter Aspell, winner of the recent Talent Quest, will be master of ceremonies for the occasion - a job which he very capably handled recently at other theatres.

It is estimated that between eight and ten thousand Montreal children spend all or part of the summer vacation at camp. These children require leadership and it is to adequately prepare young men and women for their challenging work as counselors in the sixty-odd summer camps in this province that the Winter Camping School has been instituted.

With 18 years of experience in this district, Madame Joel, 4888 Sherbrooke street west, offers the modern woman, the very latest in foundation garments to be worn with the ever popular silhouettes of today. These garments, fitted by experienced corsetiers and surgical fitters, can be altered on the premises to suit the individual measurements. Many of the foundation garments carried by Madame Joel are available in half sizes, a complete line is also stocked to suit the larger woman. While many women may think that the only necessary thing is to have such a garment, its proper fitting is much more important to preservation of a neat figure and to complete comfort of the wearer.

A properly fitted corset, particularly with the mode of dress that is being worn now is an all important factor. A. M. Crawley To Give Illustrated Lecture

On Sunday evening in St. Andrew's church after the service of worship, a film picture will be shown, entitled, "From Abraham to Allenby," Mr. A. M. Crawley, an eminent British traveller and lecturer has been commissioned by the National Council of Education to show this picture in large centres across the Dominion. It has been described as the most notable religious film yet produced, and is highly recommended by the Archbishop of Canterbury.

Mr. Crawley is a graduate of Trinity College, Oxford, where he represented his college in cricket and tennis and rode successfully in steeple chases. After graduation, he spent six years in journalism on the London Dailies, was despatched to the United States to write up the New Deal, was special correspondent in India, Malay and China. Then he conceived the idea of visiting Egypt and Palestine, and preparing pictures that would surpass anything yet attempted. His cameraman was a Canadian, George Rutherford.

With a party of five, they travelled 11,000 miles over mountain and desert, lived with Bedouin tribes, and made moving pictures of the Easter ceremonies at the church of the Holy Sepulchre. All of these will be shown on Sunday evening. Mr. Crawley is going today, what Lovell Thomas did a dozen years ago, to bring to the Eastern lands home to the minds of the West. This film will give new significance to many passages in the Bible, and will make more precious to every Christian, the land whose hills and people were loved by the Master.

The National Council of Education extends an invitation to the citizens of Westmount to see this film of Sunday.

Gay Peasant Smocks Replace Windbreakers

Paris is turning to winter sport holiday togs. Authentic embroidered fete day peasant smocks are replacing jackets and windbreakers. Modern wool linings make them comfortable for the coldest days. Sweaters taken after a medieval page's bicolored doublet, their sleeves being in contrasting colors. A sensational skating costume has a multi-colored hand-knit Harlequin mailot in place of stocking tights, and a sweater trimmed with a tiny black hand-knit ruff; even the black mittens have ruffed cuffs. A brief black

Add Gay Accessories To Plain Black Gowns

Your cocktail dresses can be simple black with only your hat and gloves to distinguish you from a group, or they can be in one of the new colors, so rich with furs. Gold is good, as are beige and gray, and consider raspberry and heliotrope and the light blues.

These frocks for afternoon look more animated and youthful when the skirt is full. And you can find a nice selection of such dresses, especially in those slim-looking but full, allover pleated crepes. Smocking is a not-too-ornate detail for bodices and shoulders, and flat, tailored-looking pleats are cleverly used to broaden shoulders inconspicuously. This treatment is found in crepes and woollens.

Nearly 9,500,000 bunches of bananas were shipped from Guatemala last season.

Resident Writes Poem in Tribute To Edna Watson

Few modern women have been called upon to demonstrate their courage and give their assistance in time of peril, as has Edna Watson. Mrs. Watson, it will be recalled was one of the heroines of the recent plane crash, whose cheerful disposition helped to preserve the moral of the survivors. She is also credited with having saved the life of the Captain of the plane, F. L. Lewis, of Westmount, has written the following poem in her honor:

EDNA WATSON
Give praise to Edna Watson,
A lady void of fear
Who showed astounding courage
At the wreck of the Cavalier.

This cheerful brave Canadian girl
Looking black death, in the face
Had nerve to sing and laugh and cheer
Her shipmates with such grace.

'Twould seem the good Lord up above
The skies from whence they came
Sent aid and rescue to them,
He found them tried and game.

We one and all are proud of her
Throughout our wide domain
Her deed courageous is inscribed,
In Canada's Hall of Fame.

The following Sunday evening Mr. Johnston will speak on "How and When are Souls to be purified and made fit for Heaven?" These addresses are designed, not to attack

BRIGADE HOCKEY TEAM DOWNS STANLEY CHURCH SQUAD 4-3 IN GAME AT MURRAY PARK

Match at Murray Park Featured Wide Open Playing of Goalers on Both Teams — Boyd Kettererson Scored All Goals Chalked up by the Losers — Brigade Missed Playing of Dunc. Patterson

The Melville Co. of the Boy's Brigade defeated the Stanley church team by the score of 4-3 in a return match at Murray Park Saturday night.

The game was featured by wide open play and by great play by both goalers. The individual star for Stanley was Boyd Kettererson who notched all his teams counters, but it was evident that Stanley missed Bob Fullerton.

APPOINTMENTS ANNOUNCED BY BRIGADE UNIT

James Wilson and James Wrigglesworth Made Secretaries of Divisions

Increased activities of the First Westmount Company of the Boys Brigade have resulted in the appointment of James Wilson as secretary of the swimming and life saving classes and James Wrigglesworth as secretary of the photography class.

Phil Falls, former Trail Ranger, mentor of Dominic Douglas Church has been appointed Lieutenant of the Company and will also be in charge of Swimming and Life Saving. Boys who are good swimmers can qualify for the Royal Life-Saving Society awards as well as The Boys' Brigade Badge.

Last Friday, James Wilson was awarded his membership badge, completing the necessary requirements, and was fully enrolled into the First Westmount Company.

All members of the unit will shortly be equipped with uniforms. About one third of the boys now have their new Navy blue shirts and Brigade ties, the uniform adopted by the Boys Life Brigade in 1893.

The Company's monthly contest on "How The Boys Brigade has helped me" will close on Friday, February 10th, so that the winning papers may be sent to London in time to compete for National award in the annual Almanach contest.

The attack of the Brigade was also badly hampered by the absence of Dunc. Patterson, star centre.

Shortly after the start of the game Kettererson picked up a puck from in front of the nets, as it was cleared from a scramble and whipped it past Bolduc, who was up from the juniors to replace the injured Phillip Lamb.

The Brigade continued to press hard however and at the fifteen minute mark Cliff Blair drove the puck past the almost airtight guard of Grant to even the score. Two minutes later Way put the Brigade into the lead as he snapped in the puck on a pass from Baxter.

The play remained fast and even until the half-hour mark when Kettererson again pierced the Westmount defence to drive the disc past Bolduc. With fifteen minutes playing time left Kettererson again marked up another counter to put Stanley back in the lead.

From that time on the Brigade team put on a power play with Jim Patterson providing the spark with his dangerous rushes, and with eight minutes to play Bill Mulligan whipped the puck into the top right hand corner from fifteen feet out. The payoff marker came with but three minutes left when Tom Mulligan shot the puck from behind the net, and hitting Kettererson's stick bounced past Grant into the Stanley net. Stanley pressed desperately but the good blocking of Leach and B. Blair on the Brigade defence, along with the lack of time left them little chance.

Veteran Line Formed By Wings

Jack Adams, shrewd pilot of the Detroit Red Wings in the National Hockey League, has built up two Cup-winning teams, both of which centred about the brilliant forward-line formation of Marty Barry, Larry Aurie and Herbie Lewis.

Now manager Adams thinks that the Conacher, Lewis and Trotter line might become another Aurie-Lewis-Barry combination. Playing together for the first time at Chicago recently, they gave many hints of greatness as a trio. They looked especially effective in face of the fact that Trotter, former left wing star of Maroons, was playing his first game of the season, and yet scored a goal. Conacher still was recovering from two early-season injuries and Lewis, injured before the season started, still was not his physical self.

Trotter who with Maroons always paced the left flank, realizes something of an ambition in being shifted to centre-ice for this new-found Detroit formation. He always wanted to be a centreman, but in his day with Maroons the

DEFENCE FORWARD TO DEFENCE WITHOUT LOSS OF SCORING PUNCH

Aubrey "Dit" Clapper

From defence, to forward, back to defence, and starring in all three shifts probably stamps Aubrey "Dit" Clapper of the triumphant Boston Bruins as one of the most versatile players the National Hockey League ever has known.

When Clapper joined the Bruin organization in 1926-27, he was a defence player. With Boston Tigers he was schooled as a right-winger, with the result that when he joined the Bruins in 1928-29, he was a full-fledged forward.

A few years ago, Clapper was reverted back to his old post on the defence, and dropped into the position as a hand drops into an old glove. This season, as 1938 closed out, he was leading the defence players of the League in actual scoring.

club was so well fortified in that patrol that he never got the opportunity.

If the line continues to click, it probably will be termed the National League's Veteran Line. Lewis is in his eleventh year in the National League, all with Detroit. Trotter, fresh from Olympic triumphs, joined the Maroons in 1928 and has been with them since, until they disbanded. Charlie Conacher, rated one of the most terrific shots in hockey, and who blasts them from right wing, joined Toronto Maple Leafs in 1929, fresh from amateur ranks. Therefore all three are Ten Year Men in the major league.

SUPERSTITIOUS GOALERS
All athletes are superstitious but goalies of the National Hockey League are tops. Frank Brimsek, Boston netminder, refuses to wear anything but red pants. He thinks red is his lucky color. Tiny Thompson never shows anger off the ice because he thinks he gets paid back on the ice. Walter Turk Broda who is going in great form for Toronto Leafs, always make two or three useless telephone calls before he starts for a rink.

She swept into the drawing-room like a tide of froth.—L.C. These returning men, the tele-

Cubs Forget About Cardinal Slugger

Win or lose, the Chicago Cubs have decided to defend their National League championship without a new first baseman. Clarence Rowland, of the Cub business office, announced officially and formally the club had given up hope of obtaining slugging Johnny Mize from the St. Louis Cardinals.

Manager Gabby Hartnett announced a month ago that if the Cubs did not land a slugger for the spot, Phil Cavarretta would take over the job from Rip Collins, Cub first baseman last season.

Rowland said "we did all we could to get Mize and there's no sense in trying further."

of hospitalization, medical attention, clothing, proper nourishment, artificial limbs, teeth and eyes, shelter, jobs and all that might contribute to some measure of temporary rehabilitation. More than 300 are wounded, some maimed for life, and others dangerously close to death.

Already 184 Canadian members of the Brigade have returned home, most of them to the places from which they originated. Some have been placed in positions, others have been receiving care from various organizations, and still others are engaged in arranging for every facility which might alleviate the plight of their companions who arrive in February. Of this group over 30 are Montreal French-Canadians and several others volunteered from Quebec City.

ST. LEO' HOCKEY SQUAD DOWNS CATHOLIC HIGH 2-0 IN SENIOR LEAGUE FIXTURE

Andy McGillis' Team Defeated Heavier Opponents at Home Grounds on Friday — Will Meet D'Arcy McGee Next Friday — Junior Squad Tied With Catholic High in Game on Saturday

In a senior inter-scholastic hockey game played at their home grounds on Friday St. Leo's defeated the vaunted Catholic High quintet by the score of 2-0. The game justified Coach Andy McGillis' prediction that the "giant killer's" role was a part specially chosen for his fledgling squad. Catholic High have definite city championship aspirations and led a team this year which promised more than average success.

St. Leo's, however, seem to have evolved a plan born in the versatile brain of their hockey-minded coach, of stopping smooth machines, and with a persistence that was amazing, they fore-checked and back-checked their heavier and speedier opponents into submission.

They accomplished this so successfully, that having scored two well-deserved goals, they offset all attempts of Catholic High to dent their twine even once. When it is considered that in the last 20 minutes of the game Aunis, in St. Leo's nets had but four shots to handle it is readily understandable how decisively their opponent's efforts were nullified.

Millette and Keating compiled the homesters' scores, the former on a relay from Nantel, half way through the opening period and the latter on a pass from Desrosiers late in the same quarter.

To single out individual stars would be superfluous. The entire team carried out its chores so effectively that it was more the result of well-executed co-operation than individual opportunism.

Their next scheduled league opponent is D'Arcy McGee whom they meet on Friday, February 10th, at the school rink.

St. Leo's Juniors have, in the interim, less spectacularly, been nibbling on the pasture of success. They defeated Loyola Juniors recently by the score of 1 to

BUCKO PREPARED
When Bucko McDonald joined the Toronto Maple Leafs recently after being sold by Red Wings in the biggest National Hockey League deal of the season, he came prepared. He had his own sticks, and a pair of perfectly-equipped skates.
"He's the first player who ever came into the Leafs' camp fully equipped to go to work," said manager Comby Smythe. "Usually they arrive with one broken-down pair of skates, and maybe needing a new hat or shirt or something. And the bringing of good sticks into camp has never been heard of."

MARCH LOSES TOOTH
Dashing little Mush March, right wing of the Chicago Black Hawks of the National Hockey League has broken a tooth and he never was so mad in his life. The hockey player who has not lost a tooth following his profession is like the sailor who never was tattooed. But this was not in hockey. At a duck dinner given to the Black Hawks by Joe Farrell, club publicity director, March lost his tooth biting into a shot embedded in his portion.

0, and followed this up by a scoreless draw against Catholic High Juniors on the following Saturday. Weak shooting, a fault of theirs, deprived them of a win against Catholic High.

With a home-bred collection of players, unassisted by any outside importations, St. Leo's seems to be achieving, at least, a fair amount of success.
