## Order Arrest Of Suspects In Palawan Massacre

### What To Do About A-Bomb's Control

By J. M. ROBERTS, JR.  
Associated Press Foreign  
Affairs Analyst

Scientists who developed the atomic bomb are reported largely in favor of placing controls around it through international action. There is discussion of whether it should be given to Russia. The military, of course, wants to retain it in deepest secrecy.

The diplomatic aspects of the discovery seem to overshadow, for the moment, its ultimate social and material role.

It is an occasion when the general public cannot be fully informed, either on the international political problems or the immediate possibilities of the new power itself, and so is forced to rely on governmental leaders to decide. There is no general knowledge of how many atomic bombs have been made, what the production rate is or may be, how close scientists throughout the world may be to the secret, or what new discoveries may be in the offing. There is nothing definite as to the political line-up of nations tomorrow, much less in a year or two, when new airplanes already being developed and new radio-controlled rocket-like weapons of tremendous range will have created great changes in military thinking.

There are those who think that the English-speaking peoples have demonstrated such an active interest in world community that, for as long as possible, the atom secret would be safest with them. Others feel that equality of responsibility and mutual trust in the United Nations organization must be the foundation of all peace, and that the mere attempt of one nation or group of nations to retain a private hodgepodge will be disruptive.

Extremists on both sides—those who would try to keep the secret and use the power to coerce everyone else into our way of thinking, and those who despair of either control or peace, urging only development of the bomb and preparation of defenses—seem to be making little headway.

The mere fact that the leaders who will have to decide are moving cautiously to learn what should be done, without public display of preconceived opinions from which it might be hard to retreat, indicates that headway has been made by proponents of a middle ground.

Some of these, at least, have been working for a flexible policy which would not, in the long run, defeat itself by forestalling adjustment to new developments. Under it, the use of atomic weapons might be placed under the control of the United Nations, with its secret and its production remaining, at least for the time being, in English-speaking hands. Then, when it is determined what share the various nations are to play in backing United Nations edicts with armed power, allocation of atomic production to other powers might be considered.

They follow up with the contention that Britain and the United States always will have the right, and even the obligation to themselves, to maintain an edge in future developments through continuation of the intensive research which originally proved fruitful.

This would seem to answer at least the major contention of those who are afraid of giving away such a military and diplomatic asset. It is, however, assured that the United Nations organization actually can keep peace.

### World News In Brief

Quebec, Sept. 28.—(P)—Twelve persons were rescued by firemen from a three-alarm fire which today gutted a three-story building on Mountain Hill Street.

The fire originated in the lower part of the building in the Louis Frechette printing establishment and spread rapidly, threatening the occupants of the house.

Mrs. Charles Madore, who lived on the second floor, was helped down a fire ladder with her three children by firemen, while the family of Arthur Poulin and a number of roomers on the third floor left the house by sliding down a rope attached to a window. An elderly couple on the third floor reached safety by jumping into a fire net.

Jerusalem, Sept. 28.—(Reuters)—An appeal to the British Government and the "civilized world" to annul the British White Paper on Palestine and to "throw open the gates of Palestine to large scale Jewish immigration" was made in a statement issued at the conclusion of a conference held here yesterday of leading Zionists and members of the principal institutions of Palestine Jewry.

"Palestine Jewry declares that it will oppose the White Paper with all its might, and will never submit to its decrees," the statement said. "Jewish immigration will stream to Palestine by all means."

London, Sept. 28.—(P)—The Moscow radio reported today that President Chiang Kai-Shek and Communist leader Mao Tse-tung, who have been conferring at Chungking in an effort to settle China's internal political differences, had reached an agreement to reform the National Government.

The broadcast said the agreement provided for wide political representation in the Central Government and for the holding of general elections at an early date.

The pact also was said to provide for demobilization of the Communist armed forces.

Quebec, Sept. 28.—(P)—Sincere newspapermen should at all times do "everything in their power" to promote the idea of a united Canada, Adolphe Godbout, Liberal leader of the Quebec Opposition, informed members of the Canadian Daily Newspapers Association at a dinner given by local publishers.

He said the citizens of the nine provinces had their provincial governments and had to get along well together, but "a common effort" was required to "make this country grow and occupy its rightful place in the world."

New York, Sept. 28.—(P)—New York's costly elevator strikes moved towards possible arbitration today as representatives of the striking lift operators and their employers agreed to meet with the State Mediation Board.

Pending the meeting, the union promised that no further buildings would be affected by

## Meat Rationing To Be Discussed Anew At Ottawa Meeting

Delegation Will Go to Ottawa Monday to Recommend Rationing Be Suspended for Three Months and Voluntary Rationing System Tried Out—Alberta Miners Walk Off Jobs in Protest at Amount of Meat Allowed Under Present System.

Ottawa, Sept. 28.—(P)—End of a four-day strike of Montreal meat dealers today shifted Canada's troubled meat rationing picture to Ottawa where Prices Board officials disclosed a new meeting had been set for Wednesday with a committee representing meat dealers across Canada.

No comment was available immediately from Prices Board officials on the end of the Montreal strike which closed many shops and resulted in violence. Neither was there any comment on the decision of Montreal strikers to send a delegation to Ottawa Monday to seek a meeting of the Cabinet and recommend that meat rationing be suspended for three months and a voluntary rationing system be tried out.

The Montreal meat strikers decision to visit the capital was made despite a declaration by Prime Minister Mackenzie King in the Commons yesterday that he could see no purpose in such a conference at this time. He added, however, the government would carefully consider any representation from the Montreal men.

## JAPS TRIED TO CONCEAL FATE OF U.S. FLIERS

Jap Military Guard Gives Eyewitness Account of Execution of Three American Airmen on Tramped-Up Charges.

By RICHARD CUSHING  
Shanghai, Sept. 28.—(P)—The convincing Japanese military deliberately tried to cover up the disposition of the bodies of three United States fliers, executed by firing squads on trumped-up charges October 15, 1942.

Wooden boxes, containing the cremated bodies, were turned over secretly to a civilian mortuary. They should have been turned over to the International Red Cross. Falsified records listed the three as having "died" on different dates—September 2, September 8 and October 2, 1942. All three were shot while tied to crude crosses in a Chinese cemetery, October 15, 1942.

False names were given. The box of "H. E. Grande, age 23," in reality contained the ashes of Lieut. William Grover Farrow, 23, of Darlington, S.C.

The box of "J. Smith, age 27," was that of Lieut. Dean Edward Hallmark, Dallas, Tex.

The box of "E. L. Bristar, age 22," was that of Sgt. Harold A. Spatz, Lebo, Kas.

The boxes were discovered yesterday. An official list, just recovered, established the correct identities.

A bespectacled Japanese military

## 34 Japs To Be Rounded Up By Allies

Buckets of Gasoline Were Poured Over Allied Prisoners Herded Into Air Raid Shelter and Lighted Torches Tossed Upon Them.

By RUSSELL BRINES  
Tokyo, Sept. 28.—(P)—Gen. MacArthur today ordered the seizure of thirty-four Japanese officers and men suspected of complicity in the massacre of Allied prisoners of war at Palawan in the Philippines, December 11th, 1944.

More than 100 prisoners were herded into a large air raid shelter. Buckets of gasoline and lighted torches were tossed in upon them. A few escaped, only to be mowed down by machine guns or hand grenades, or bayoneted by their captors.

The Japanese ordered arrested range in rank from sergeant to Lt.-Col. Oie Satoshi, presumably in command of the "murder detail."

Supreme Allied Headquarters today rejected Japan's plea for 260,000 tons of her own shipping to return disarmed Japanese soldiers from outside the Empire.

Japan's merchant marine is in rickety shape at best, Headquarters explained, and Gen. MacArthur decided that such a great tonnage could not be spared from more vital tasks connected with maintenance of health and minimum living standards of the civilian population. Shipping is urgently needed if foodstuffs are to be imported from the Asiatic mainland to avert threatening winter famine.

Gen. MacArthur earlier today forbade reopening of the Japanese Stock Exchange, but permitted reopening of factories to manufacture some goods in limited quantities.

Workers' leaders meanwhile met to form a new Socialist Party, and the reported re-organization of several war-defunct labor unions further marked acceleration of Japan's new liberal movement—which thus far has been markedly socialist. No group, thus far, champions a capitalistic democracy.

One Allied directive gave the Imperial Government permission to produce textiles, certain metals, leather goods and trucks, and to process raw rubber under specific restrictions laid down previously.

On the agricultural front, the newspaper Mainichi reported that

## Fresh Dispute May Result In 500,000 Idle

Number of American Workers Idle Because of Strikes and Shutdowns Over Labor Disputes May Soar Past Two Million Mark.

Chicago, Sept. 28.—(P)—New storm warnings were hoisted along the United States labor front today as a fresh major dispute threatened to force more than 500,000 workers off their jobs.

The newest controversy centered around the walkout of 6,000 textile workers in the Paterson, N.J., area, which closed 70 plants. A C.I.O. union official said the walkout would mean that within 24 hours 65,000 additional workers would be forced from their jobs in 214 plants in nine eastern and southern states. He further predicted the shutdowns would affect approximately 500,000 garment workers.

In event of this development, the number of American workers idle because of strikes and shutdowns over labor disputes would soar past the 2,000,000 mark, including 1,500,000 affected indirectly by the New York City building service strike.

Meanwhile, the threatened country-wide strike of 250,000 C.I.O. oil workers was delayed. After meeting three days in Chicago, principals in the conciliation conference moved to Washington to resume their efforts tomorrow to effect a settlement in the dispute over wage demands and of the 13-day-old strike of some 35,000 workers in eight states.

Japanese—MacArthur orders seizure of 34 Japanese believed partly responsible for massacre of Allied war prisoners at Palawan.

Continued on page 2, col. 1.

## Photos Prove Jap Brutality

Jap methods of target practice are revealed in the photos brought to light after Japan's surrender. Sikh fighting men of India, top, kneel blindfolded with bullet-markers pinned out their hearts. Japs take aim at targets, center. Bayonet thrusts make sure of death, below, covering any errors of marksmanship.

## FIRST REGULAR GLOBAL FLIGHT IS INAUGURATED

Forty-Passenger U.S. Army Transport Command Plane Thunders Over Atlantic to Open Regular Round-the-World Schedule.

By PAUL MILLER  
Washington, Sept. 28.—(P)—A giant transport plane thunders eastward over the Atlantic late today, opening the first regular 'round-the-world' schedule. It will carry seven men and a woman who will be guinea pigs as well as observers on the 23,147-mile flight. Taking off at 5 p.m. E.D.T. (6 p.m. A.D.T.) from Washington National Airport, the 40-passenger Douglas Sky-master of the United States Army Transport Command heads first for Bermuda.

Then, after a one-hour stop, it flies on to the Azores, to North Africa, to Egypt, to India, to China and back to the United States again—in 151 hours—by way of the Philippines, Honolulu and other tiny Pacific island bases.

Planes of the A.T.C. have circled the world many times, but this schedule, "The Globester," will be the first continuous "round-the-world service."

Throughout the flight, tests of many kinds will be made among the three A.T.C. headquarters officers, an A.T.C. public relations officer, a photographer and three reporters who of the more than 20 persons aboard the "Globester" at the start, will be the only ones to go the entire route.

All were given thorough physical examinations. They will undergo further examinations upon their return.

## Hemming's Falls Explosion Resulted In Woman's Death

Drummondville, Sept. 28.—An explosion in a staff house of the Southern Canada Power Company station at Hemming's Falls, two and a half miles from here, last night, resulted in the death of Mrs. Douglas Wootton, whose husband is a floorman at the plant, and the destruction by fire of the lower floor, including the hallway leading to the upstairs in the house.

The explosion occurred at approximately eight-thirty, when Mr. and Mrs. Wootton were in the kitchen of the house, the former cleaning a typewriter with naptha, while the two were smoking. Flames immediately swept the lower floor of the house.

The Company fire department was able to control the blaze before the Drummondville fire detachment arrived.

In the house with Mr. and Mrs. Wootton at the time of the explosion were their two-year-old son and Mrs. Wootton's mother, Mrs. Kalder. The latter, who was on the lower floor, rushed upstairs, awakened the young boy, who was sleeping in a bedroom, and was able to proceed down the stairs and out of the house to safety.

Mr. and Mrs. Douglas Wootton were taken to the Drummondville Hospital in a car by Alfred King, Southern Canada operator of Sherbrooke, where they were treated for serious burns by Dr. Guy D'Argenti. Both were conscious, with Mr. Wootton suffering burns to the arms and face.

Mrs. Wootton was removed by ambulance to the Western Division of the Montreal General Hospital, arriving at four a.m., where she died fifteen minutes after admittance.

The victim was the former Jane Kalder, of Regina, Sask.

Mr. Wootton was recently discharged from the Royal Canadian Air Force after five years' service, a part of which he served overseas.

## Reparations Claim Against Italy Presented By Greece

By FLORA LEWIS  
London, Sept. 28.—(P)—Despite Russian insistence that France and China be excluded from discussion of Balkan peace treaties, informed observers here said today the question might revert to the full conference of Foreign Ministers unless a procedural deadlock, between Russia on one side and Britain and France on the other, could be broken.

The Foreign Ministers of the Big Three powers, Secretary of State Byrnes, Foreign Commissar Molotov and Foreign Secretary Ernest Bevin, have been conferring on the procedure for drafting treaties with Romania, Hungary and Bulgaria in an attempt to reach some measure of agreement before the Council is adjourned.

At the 25th formal session of the Council was about to be convened, some officials acknowledged that the procedural impasse arose when the Russians felt they were fighting a four-to-one battle for Balkan influence, and wanted to reduce the number of adversaries.

London press comment on the Conference switched from bitter

criticism of Russia's attitude to exhortations to the public to remain patient in its hopes for permanent peace. But the New Statesman lashed out against Italy, which it said "had" and accused Russia and the United States of "grabbing all they can in exclusive concern with their own strategic interests."

The Greek Government added a complication last night by announcing reparations claims of \$2,577,000,000 against Italy, which it said would be pressed at the Peace Conference. The British and American attitude has been that reparations claims against Italy should be waived.

There was some progress on lesser issues at the Conference. For example, the Russians agreed to French demands that goods stolen by the Nazis should be returned to previous owners before German stocks are combed for reparations.

There were some reports that the Conference might end tomorrow, but delegates said only continuous work and good luck would enable the conferees to finish the job by Sunday night.

Fresh Dispute Continued from page 1

The move to Washington was suggested by Labor Secretary Schwelbach. The union is asking for a 30 per cent wage rate increase...

Charles Vermorel, President of the Dyers and Finishers Employees Association, said the union had made no formal demands for any wage increases.

Other front-rank labor disturbances continued. The strike total in Pennsylvania hit a new high of 77,000 workers...

Strikes and layoffs in the Detroit area kept 80,000 idle and the oil strike brought further curtailment of production.

New York City's paralyzing strike of 15,000 A.F.L. building service employees continued, but there was a possibility of arbitration as the strike dragged on.

THE NEW PREMIER

ONLY TWO DAYS LEFT TO SEE THIS GRAND DOUBLE BILL! TWO SMASH HITS PRESENTED FOR THE FIRST TIME IN THIS CITY!

THE FUNNIEST "ROAD" SHOW OF THE YEAR! A Harem-Scream Riot of Song and Laughter!

Leaders and their employers agreed to meet with the New York State Mediation Board. The strike, costing an estimated millions of dollars in trade and wages daily, spread to 100 additional buildings yesterday...

May Urge Sharing Atom Bomb Secret

Washington, Sept. 28.—(AP)—President Truman may tell the Cabinet today what he thinks the United States should do about the atomic bomb.

Mr. Truman has notified Congressional leaders he will send them a message soon recommending policies on future development, control and use of nuclear energy.

They have no doubt he will urge that peacetime development of atomic power be kept under Government control, so that its benefits may go to everyone.

The President had said he alone must make the final decision on his recommendation to Congress.

The Cabinet is said to be split on giving away, or keeping the secret.

Meat Rationing Continued from page 1

United States might lift the meat ration entirely, but Finance Minister Hisey has already told the Commons that an agreement existed between the two countries that neither would abolish meat rationing without first consulting the other.

It was believed there that a statement would be forthcoming from Washington shortly confirming that meat rationing will be continued in the United States in view of the tight world food supply picture.

Hemming's Falls Continued from page 1

in aircrew. His parents, Mr. and Mrs. A. Wootton, live at 40 Moore Street, Sherbrooke.

Mr. Wootton is being admitted to the Sherbrooke Hospital this afternoon.

Funeral arrangements for the late Mrs. Wootton have not yet been completed.

World News Continued from page 1

the stoppage. Mayor F. H. La Guardia, in a radio address appealed to the strikers to return to work, and declared "you have already caused millions of dollars of losses... to your own fellow workers."

Locals 32-B and 164 of the A.F.L. Building Service Employees International Union called the strike last Monday in protest against a War Labor Board directive which increased hourly wage rates of elevator operators and building service workers but reduced the number of hours in the work week.

London, Sept. 28.—(AP)—New Delhi radio said today Field Marshal Count Juichi Terachi, commander of Japan's southern armies, had been arrested by British troops at Saigon "because it was suspected the Japanese had a hand in the latest Indo-China disorders."

Leaders and their employers agreed to meet with the New York State Mediation Board. The strike, costing an estimated millions of dollars in trade and wages daily, spread to 100 additional buildings yesterday, but the union promised no further structures would be struck.

Mayor F. H. Le Guardia appealed to the strikers to return to work, telling them, in a radio address, the dispute had caused "millions of dollars of losses," and had "disrupted" several important city industries.

Brightest spot on the troubled labor scene was the settlement of a shipyard strike at the New York Shipbuilding Corporation in Camden, N.J., enabling about 20,000 workers to go back to their jobs Monday, after a week's idleness.

34 Japs To Continued from page 1

Allied Headquarters had approved the use of idle airfields for farming to help alleviate food shortages. It said the Japanese Government requested the conversion of fields not being used by the occupation forces into plots for sweet potatoes and other commodities.

Gen. MacArthur told the Imperial Government that any request for reopening the stock exchange or any similar institution must be submitted to him with detailed plans—in line with his programme of controlling Japan's finances to put the country on a firm economic footing.

Domei News Agency reported the Government was considering a wholesale re-organization of the bank of Japan, which had kept the war machine and supporting industries operating. A few days ago, a Tokyo newspaper reported that the bank's notes had increased 13,000,000 yen since the August 15 truce.

Domei reported today that the war pared Japan's total shipping bottoms from 6,300,000 to 1,500,000 gross tons. It is estimated that only 300 vessels with an aggregate 580,000 gross tons now are available.

The newspaper Asahi reported that 31,000 Japanese merchant seamen were killed, missing or wounded in the Pacific war and said this "conservative" preliminary figure was "bound to increase."

Domei said a preparatory committee met today to begin organization of a new and as yet unnamed Socialist Party—the third new political organization announced within the past week.

When the Chamber of Commerce was brought to attention by representatives of your City Government it was with the inference that if the Chamber of Commerce did not have sufficient funds to put out a booklet which would be a credit to the City of Sherbrooke that they would be prepared to help us in this matter.

"Back in the early part of October 1944 we got our information ready and then followed meetings with representatives of your City Government in which we were advised that we started on this work way back in March, 1944, and were prepared with a definite programme by the first of October, 1944.

"Instead of living up to their implied agreement of many months previous, they took the matter entirely out of our hands, even after they had given us a half-way commitment that we would be allowed to go ahead with the programme— they formed a committee of their own and in January 1945 placed an order for such a booklet without even having a satisfactory example of what the finished booklet would look like.

"During the intervening months we have had many requests for information regarding Sherbrooke. During the month of September alone, we have received requests from: Manitoba, Coaticook, Que., Liberty Magazine, Massachusetts, and Washington, D.C.

"The Chamber of Commerce has been allowed by the City Government, with their assistance, to comment on this project, which would have the publicity ready by the first of January of this year.

"I am sorry to tell you gentlemen that your directors feel that the City Government has bungled a very important publicity job.

Mr. Carr referred to the Sheer Silk Hosiery Company-City Government controversy, which has been settled now to the satisfaction of the company. He declared that the Chamber is always prepared "to do everything we can to help the City Government as long as their efforts are in the best interests of Sherbrooke as a whole and not for the selfish interests of any individual or groups of individuals."

The President concluded with a summary of recent activities of the Chamber: Directors' meetings, regional convention, Juniors' visit to Vermont to study ways and means employed to control floods, and organization of a committee to obtain clothing for UNRRA.

Speaking as a member of the Chamber of Commerce and as a City Councillor, Alderman Alphonse Trudeau replied to the criticisms of the City Government voiced by Mr. Carr. He said he was sorry Mr. Carr had given the city such unfavorable publicity in the presence of outsiders.

He recalled that the matter of the publicity pamphlet was taken out of the hands of the Chamber because of the intention of the Chamber to have the booklet printed in Montreal. He stated that there were plants in Sherbrooke that could print such a pamphlet.

Answering the statement of Mr. Carr that nothing was being done about a filtration plant, Ald. Trudeau said that the last fall when the matter was before the City Council, he was one of the three Aldermen who were in favor of the project but that the majority of the Council rejected it.

He recalled that the matter of the publicity pamphlet was taken out of the hands of the Chamber because of the intention of the Chamber to have the booklet printed in Montreal. He stated that there were plants in Sherbrooke that could print such a pamphlet.

George Carr Continued from Page 3

to settle here. If we feel that it is not in the best interests of Sherbrooke, or in the best interests of the industry to come to Sherbrooke, we should be honest and tell them so. In so doing Sherbrooke will build up a reputation of honest fair dealing.

"This has been the policy which has been adopted by your Chamber of Commerce in dealing with possible industries and it is still our considered opinion that this policy should prevail. Should any other policy be adopted at the present moment it may lead to industrial suicide in Sherbrooke.

His report indicates that Sherbrooke does not need very much industrial expansion at the present time to take care of the unemployment, there are many types of industry not now represented in Sherbrooke manufacturing which could be brought to advantage to both the manufacturer and the community. What we want is a planned industrial expansion.

"About two years ago representatives of the City Government asked your Chamber of Commerce to help them obtain water filtration for Sherbrooke. We did not do this far the total result has been nil and the only apparent result has been various arguments on this subject among members of the City Government.

Quite some time ago responsible representatives of the City Government asked the Chamber of Commerce to work with them in putting out a satisfactory booklet to publicize Sherbrooke. We formed a Committee, investigated things carefully and produced what, to us, seemed to be a very appropriate and satisfactory form of publicity.

When the Chamber of Commerce was brought to attention by representatives of your City Government it was with the inference that if the Chamber of Commerce did not have sufficient funds to put out a booklet which would be a credit to the City of Sherbrooke that they would be prepared to help us in this matter.

"Back in the early part of October 1944 we got our information ready and then followed meetings with representatives of your City Government in which we were advised that we started on this work way back in March, 1944, and were prepared with a definite programme by the first of October, 1944.

Immediate Easing Continued from page 3

manding officers of military units were now empowered to grant releases to members of the Armed Forces applying directly to them, it was still advisable for employers to support such applications made by the employees themselves by making application to the nearest Industrial Selection and Release Committee.

It was recalled that the Association was on record as holding that when the war was over, employers should have restored to them the right to engage and discharge employees as they saw fit, subject to the obligation on the part of employers to register with the Employment Service both their requirements and their layoffs. It was noted with approval that a number of the wartime controls have already been removed and considered that the remaining controls should be removed with a minimum of delay.

It was reported that Canada, following the lead of the United States and Great Britain, had organized a technical mission to examine German production methods and technology. As of today, three-quarters of the Canadian party of approximately thirty are on the continent and it is expected that by the end of September the majority will be returning to Canada.

Another indication, reported by the Secretary, of the growing interest in export trade, has been the number of overseas visitors from Empire and foreign countries who have called at Association offices during the past few months. Every possible assistance was given them to enable them to make contacts with Canadian manufacturers. While few supplies are available at the present time, the visits provide firms abroad with an excellent knowledge of Canadian industries and their products, which should be of value when more settled trading conditions prevail.

Among other subject matters discussed at the meeting included Provincial Syndicates Act of the Province of Quebec; Bill No. 44—An Act to afford Aid to Education and Public Health; Ordinance No. 1 of the Minimum Wage Commission; maintenance men engaged in industrial establishments in the Province of Quebec and Quebec labor legislation in general.

Forecast: Cloudy with occasional showers. Saturday, fresh northerly winds clearing and cooler with scattered showers. Sunday fair and quite cool with frost Sunday morning.

BIRTHS

BROWN.—At the Sherbrooke Hospital on Thursday, September 27th, 1945, to the Rev. and Mrs. Russel F. Brown, a son.

JOHNSTON.—At the C. J. M. Hospital, Asbestos, September 26th, 1945, to Mr. and Mrs. Charles Johnston (nee Doris Gilchrist), a son, Frederick William.

DEATHS

BIRCH.—Entered into rest on Sept. 27th, 1945, at his home, Hillhurst, Que., in his 83rd year, William S. Birch, beloved husband of Jane Nish. Prayers at the house at 2 p.m. on Monday, October 1st. Service at 2:30 at St. James' Anglican Church, Hatley. Interment in Mt. Forest Cemetery, Coaticook.

ROSS.—Entered into rest in this city on Sept. 28th, 1945, Louise Jane Perry, wife of Mr. William S. Ross, 37 Walton Avenue, in her 92nd year. Services will be conducted Sunday afternoon by the Rev. Mr. Kerr, at 2:30 p.m., at Blake's Funeral Home, 86 Queen Street. Interment in Elmwood Cemetery.

CARD OF THANKS We wish to express our sincere thanks to all those who helped in any way in the death and burial of our dear husband and father, Mr. William S. Birch, to those who loaned cars, also the bearers, those who sent flowers, messages of sympathy, those who made personal calls and Rev. Mr. King. Our thanks one and all to Mrs. W. B. BIRCH AND FAMILY.

CARD OF THANKS My sincere thanks and deep appreciation to those who remembered me with cards, letters, flowers, various other gifts and personal visits during my stay in the Royal Victoria Hospital, Montreal, and since my return home. Many thanks to you all. MRS. JOHN N. MacKENZIE, Scotstown, Que.

# Sherbrooke Daily Record

Eastern Townships' Only English Daily  
The Oldest Daily in the District.

Established Ninth Day of February, 1897, with which is incorporated the Sherbrooke Gazette, established 1837, and Sherbrooke Examiner, established 1878.

The Record is printed and published every week-day by the Sherbrooke Record Company, Limited, of which Edna A. Beerworth is Secretary-Treasurer, at the office, 69 Wellington Street North, in the City of Sherbrooke, incorporating the news service of The Canadian Press, The Associated Press, and Reuters.

The Record is a member of the Audit Bureau of Circulations, its circulation being regularly audited and guaranteed.

Subscription rates: 18c a week, delivered at any home in the city and suburbs. Post Office delivery to any place in Canada, Great Britain or the United States, \$5 per year; six months, \$2.75; three months, \$1.50; one month, 75c. Single copies, 3c.

### HOMES BEFORE THE SEAWAY

The renewed agitation for the construction of the St. Lawrence deep waterways as an employment-giving measure—a proposal that has the strong support of President Truman—is viewed with alarm by the Brandon, Man., Daily Sun, a newspaper published in the very area of this Dominion where the seaways project is supposed to bring the greatest benefits. While admitting there is an employment crisis, the Sun advises against the Canadian people being allowed to stampede themselves into false moves. Taking the waterways as an example, the Sun refuses to argue at this point the respective merits or demerits of the scheme but continues that it would absorb exactly the sort of labor and materials which are required to build houses.

There is much in this argument. Canada today faces a grave housing shortage and if we are to build all the houses which the Canadian people need there is going to be no lack of employment for the sort of workers who are needed for construction, nor any surplus of materials for construction.

To take this labor and materials at the moment to build great public works of any sort, and particularly one like the St. Lawrence Waterway, would be the greatest possible mistake. The same carpenters cannot work on the St. Lawrence Waterway and on houses. The same lumber and cement cannot go into the St. Lawrence seaway and into houses.

Canada is pitifully short of construction workers and construction materials, and it needs them for housing if the Canadian people are to be given proper shelter. Why, in such circumstances, must the country proceed with any other construction project unless it is very badly needed?

The basic tasks of reconstruction are bound to provide ample opportunities for employment in the months immediately ahead — both in catching up with the civilian demand at home and in the rebuilding of the devastated areas of the belligerent countries. With this tremendous amount of work available, no effective reason can be advanced for the undertaking of huge projects of doubtful value for the mere purpose of providing employment. It would be far better if action on these projects were delayed until consumer supply has overtaken consumer demand. Then there might be some justification for spending a degree of public money on schemes whose economic value may be subject to dispute.

### HIROHITO VISITS MacARTHUR

Aside from any political implications such an action may have—such as paving the way for the abdication of the Emperor—this visit of Hirohito to General MacArthur at the United States embassy in Tokyo is highly significant in one respect. To the people of Japan the Emperor has been the all highest. He has been superior to all other people and the rulers of foreign powers have been given no official recognition. If any other monarch or president wished to make his views known to the Son of Heaven, the foreign representative must visit the Imperial Palace in Tokyo. Never, under any condition, would the Emperor return the visit.

But now the Emperor has been forced to break this old tradition and has been compelled to call upon a mere mortal, a general of the army and not even the head of a state, to discuss with him and receive from him the conditions of Japan's future survival. This is a major factor when one considers that the greatest thing there is in the Oriental mind is the preservation or the regaining of "face." The importance placed upon "face" was largely responsible for the almost fantastic restrictions placed about the movements of the Emperor. The leaders of Japan have long known that only by surrounding the leader of the country with an aura of mysticism could the reverence of the people be retained. To have him come down and mix with ordinary mortals would be to reveal him as a rather insignificant individual with most of the failings and few of the strong points of the ordinary individual.

Thus, the visit of Hirohito to General MacArthur

means that the Jap emperor has been revealed to his people as someone decidedly below the levels of diety. And this is a point the occupation authorities seem anxious to impress upon the people of that country.

Just how this indignity inflicted upon Hirohito will affect the future administration of Japan is as yet uncertain, but it would appear on the surface that when the extent of his fall has been duly appreciated by the disillusioned people of the Oriental Empire, the way should be cleared for his removal from office—probably by the abdication method—and his replacement by some system of government more in keeping with the Allied ideals.

### U. S. FINANCIAL AID TO BRITAIN

In view of the current negotiations in Washington for United States financial assistance in the rehabilitation of Great Britain's peacetime economic system, much interest is experienced in the recent article by Samuel Grafton, a columnist sponsored by the New York Sun, who severely criticized the United States critics of Great Britain. In a recent article he made the somewhat startling statement that the only country the United States seems to have a friendly feeling towards is China and then proceeds: "The testiness we have shown toward Britain is astonishing. Here is a country from which we bought \$118,000,000 of goods in 1938, the last year which made sense, and to which we sold \$521,000,000 worth of goods in the same twelvemonth; a customer to be loved and cherished. This is the kind of customer who, in home terms, would be hugged fiercely on all appropriate occasions, and taken out, and wine and dined, and given a courtesy card at the country club, and put on the mailing list to receive tall bottles, and all those other tokens of respect and admiration which go down in the corporation books as promotional and missionary expenses."

There is talk of interest as the rate of 2.38 per cent on any funds that Britain might need to get back into business again, and that, Mr. Grafton says, would be regarded by any salesman as a low rate for procuring business. If the United States was to lose several hundred million dollars worth of business, the result would be an accretion of the unemployment figures.

It is strange how many Americans are appalled at the idea of carrying a good customer along as if it were something new and not done at home every day.

### FACING STERN REALITIES

Stern realities rather than beautiful theories are now confronting the Socialist groups which have managed to obtain power in many countries. And even the recently installed Labor Government of Great Britain is finding itself faced with the task of implementing, or of offering reasons why it cannot implement, many of its policies. In this connection the "Letter-Week," a British publication makes the following comment:

"Prime Minister Chifley, of Australia, a good Socialist, addressing a trade union meeting said: 'Claims by the miners that production would be increased if the government took over the mines, were refuted by results, both at the government-controlled Coalcliff mine and the state-owned mine at Lithgow.' Mr. E. Shinwell, who faces the problem of getting more coal raised in Britain, is already pointing out to the miners that the whole success of British reconstruction depends on their being willing to work harder than they have been working.

"Hard times in the United Kingdom are being quoted as the reason why the Labor Government cannot put Socialism into effect. This is very extraordinary. We have always been told that Socialism is the cure for hard times. Can it be that Messrs. Atlee and Bevin now realize that Socialism is only good as long as it is applied in good times, and consists of robbing the rich to pay the poor?"

Another sidelight on Socialism is given by Sir Keith Murdoch, an Australian newspaper owner, who, pointing to thirteen major failures in public ownership, says in answer to the question, Why have these socialist ventures failed in Australia:

"Australians alas are so very human that, when government have gone into industry, those concerned have used their union and their pressure politics, their votes and their influence to get personal advantages."

And again, after observing that managers and executives were capable, he says: "They have been powerless against constant political interference, leading to over development, over capitalization and faulty finance."

And finally: "Australia is, in fact, stripped of her socialist enterprises except such major concerns as railways, some water services, some electric undertakings, and her recent ventures into banking and broadcasting.

"All the others faced the competition with private enterprise and — although private enterprise paid heavy taxes while they paid none and private enterprise had no government favoritism and they had much—they fell by the wayside.

"They proved wanting in a world which demanded efficiency and which is demanding it now."

### BIBLE THOUGHT FOR TODAY

If a man love me, he will keep my words: and my father will love him, and we will come unto him, and make our abode with him.—John 14:23.

To love is to believe, to hope, to know.—Edmund Waller.

## AND WHERE IT STOPS NOBODY KNOWS

### HAVE A SMILE

"Carter is the most absent-minded chap I ever met," remarked a clubman to a fellow-member. "When he has been doing now?" inquired the other. "Why this morning, he thought he'd left his watch at home, and then he took it out to see if he had time to go back and get it."

"That isn't as bad," said the second man reminiscently, "as the time when he left his office and put out a card saying he'd be back at 3 o'clock. Finding he'd forgotten something, he went back to the office, read the notice on the door, and sat down on the stairs to wait until 3 o'clock."

The bus was full, and the conductor was about to ring the bell when the usual last man, puffing and blowing, jumped on board and started to climb to the upper deck. "Here, you!" said the conductor curtly. "You can't go up there!"

"Why not?" queried the passenger. "Isn't the top going?"

After a long ramble in the country, Macpherson guided his fair companion into a pub.

"What'll ye like?" he asked fully expecting a request for a modest lemonade.

"Well," said the lady happily, "I'll have a large port."

"A large port?" he gasped. "Losh, woman, come on out, and I'll buy ye a picture postcard of Liverpool!"

"Mr. E. Shinwell, who faces the problem of getting more coal raised in Britain, is already pointing out to the miners that the whole success of British reconstruction depends on their being willing to work harder than they have been working.

"Hard times in the United Kingdom are being quoted as the reason why the Labor Government cannot put Socialism into effect. This is very extraordinary. We have always been told that Socialism is the cure for hard times. Can it be that Messrs. Atlee and Bevin now realize that Socialism is only good as long as it is applied in good times, and consists of robbing the rich to pay the poor?"

Another sidelight on Socialism is given by Sir Keith Murdoch, an Australian newspaper owner, who, pointing to thirteen major failures in public ownership, says in answer to the question, Why have these socialist ventures failed in Australia:

"Australians alas are so very human that, when government have gone into industry, those concerned have used their union and their pressure politics, their votes and their influence to get personal advantages."

And again, after observing that managers and executives were capable, he says: "They have been powerless against constant political interference, leading to over development, over capitalization and faulty finance."

And finally: "Australia is, in fact, stripped of her socialist enterprises except such major concerns as railways, some water services, some electric undertakings, and her recent ventures into banking and broadcasting.

### PRESS COMMENTS

#### LIKE SULLEN SHEEP

Citizens who shuffled in block-long queues, four-deep outside the liquor store on Saturday had plenty of time to ask why they suffer themselves to be dragged in such a manner. Those who saw the sullen masses of people, waiting like sheep to be fleeced, might wonder how long they will permit such a system to continue.

#### THE SAME DIFFERENCE

We claim no unique distinction when we confess that women's attitude toward styles mystifies us. So far as we can figure it out, they all want what we wear the same thing, but each one must be different.

No woman would be "found dead" in a hat or a dress that was out of style. Yet, no greater calamity can befall one of them than to discover that one of her sisters has something identical with what she is wearing. It is easy to see why fashion designers make fortunes by being able to accomplish this miracle of design.

#### PEACE, IT'S WONDERFUL

A Hollywood director who had been brooding over the disturbing habit of friends greeting him with a "Hello. How are you?" and walking away without waiting for a reply, has finally come up with a neat solution. He has memorized the final paragraph of a Father Divine speech.

Now whenever anybody inquires as to his health, he grasps that person firmly by the coat and answers: "I am happy, joyous, healthy, contented, comfortable, successful, truthful, friendly, poetical, vigorous and generous in every atom, molecule, cell, fibre, tissue, muscle, bone, sinew and organ of my body!"

#### THE FIRST RAILWAY

St. Thomas Times-Journal Sixty years ago on September 15 St. Thomas became internationally known through a railway accident that killed Jumbo, Barnum's big elephant, but 125 years ago railroad history of another kind was made when the first train was killed in an accident at the opening of the Liverpool and Manchester railway.

On September 15, 1825, William Huskisson, M. P., and a notable British statesman, was the victim.

Half-way between Liverpool and Manchester the train stopped to take in water. In one carriage was the Prime Minister, the Duke of Wellington, and other members of his cabinet, and although Huskisson had split with his leader and left the ministry, he was also a guest in the Duke's carriage. The party got out to inspect the train. The adjacent track was very close, and quite unexpectedly (as in the case of Jumbo) a locomotive came down the other track. The guests clung to the side of their car, but Huskisson lost his grip and fell backward. He was knocked down by the locomotive, and the wheels ran over one leg which was completely crushed. He died that night.

### McKENNEY ON BRIDGE

By Wm. E. McKenney, America's Card Authority

### SYLVIA FALLS INTO LUCKY LEAD AGAIN

To get the benefit of today's "Sylvia" hand, you should look only at the West hand and the bidding. Note that, during the course of the bidding, East bids clubs. I dare say the natural thing for West to do would be to cash the king and queen of diamonds and then shift to a club. But then the declarer would make his contract.

Sylvia probably forgot her partner had bid clubs. After cashing the king and queen of diamonds, she did not know what to do next, so she just led another diamond.

Now look at all four hands and see what happened. There was no way to prevent East from making two heart tricks. Of course, declarer could trump with dummy's king of hearts, and in that case East must be smart enough not to trump

### TIMELY COMMENTS

## From The Record Files

### THIRTY YEARS AGO TODAY

The French are continuing their advance on the Champagne front and the Germans have suffered casualties totalling 100,000 in the fighting of the past three days. The French are creeping up on Metz and announce their intention of continuing the drive until they have reached the Rhine. Favorable reports are still being received of the fighting on the Eastern Front.

The following officers were elected by the Young People's Society of St. Andrew's Church: Fraser Armstrong, Miss Jean Stewart, W. B. McCaw, Miss Catherine MacLeod, Miss M. Milford, Miss C. Bell, Miss A. Irwin, Rev. A. Bright, Miss M. Reynolds, Miss A. MacSwiggan, Miss M. Dick and Mrs. J. Sawyer.

The Militia Department is studying the possibilities of billeting troops in the rural districts, especially for the winter months, in an effort to speed up recruiting from these districts.

The Eastern Townships Associated Boards of Trade are demanding a relaxation of the border crossing regulations in an effort to increase the flow of United States tourists.

Several protests were considered against the local valuation roll last evening but the Council rejected all but one of the complaints.

### TWENTY YEARS AGO

All hopes have been abandoned for rescuing any of the members of the crew of the U. S. submarine S-51, sunk off New London, Conn. Divers reached the sunken craft and removed one body.

A desperate battle is reported being waged for control of the British Labor party with the official leaders, comprising the moderate element, seeking to resist the inroads of the Communists. They would bar all Communists from membership.

Col. William Mitchell, former Assistant Army Air Chief, has been called before a special commission to explain his recent attacks on the administration of the U. S. army and navy air forces.

German insistence upon the discussion of war guilt may considerably hamper the efforts to reach some agreement on a security pact for Western Europe.

Rain is checking the movement of French troops in Morocco and the time is being used to bring up food, ammunition and material to the front line forces.

Registrars are busy as prospective electors are making the last-minute rush to have their names enrolled on the Dominion voters' list.

### TEN YEARS AGO

Although Great Britain is planning a substantial expansion of its naval strength in the near future, the Government has denied reports that it intends to abrogate the Washington naval treaty. The fleet will be kept within the limits of the 1922 agreement.

Great Britain and France are considering a mutual assistance agreement which would provide for joint action in certain specific cases, such as a German attack on Austria. In the meantime, Italy has expressed its willingness to observe a short, unofficial truce with Ethiopia pending the League of Nations report on the critical situation.

The Prussian Protestant Synod has turned down the latest Nazi offer for reforming the church government. The bishops claim that the compromise still leaves too much power over religious matters in the hands of the state.

The Dominion Government has announced a scheme for the removal of the huge butter surplus from the Canadian market without unduly disturbing the domestic price.

An agreement has been reached in the United States soft coal industry and miners in all but four states will return to work on Tuesday.

### FIVE YEARS AGO

Japan has signed a military pact with Germany and Italy designed to establish a new order in Europe and Asia. Individual relationship between any of the contracting parties and Russia is not affected. Rome says the treaty is designed to forestall the entry of the United States into the war.

Fifty German planes have been shot down in a widespread series of raids over Great Britain. Although German planes are keeping up their attack, general feeling in London is that the danger of invasion is over, the growing British raids on Berlin serving to undermine German aggressiveness.

Port officials at Montreal report there is a strong movement among "certain elements" to induce foreign seamen to abandon their ships. The most effective sabotage is reportedly being carried out among Greek sailors.

Forty-six persons from the torpedoed City of Benares, carrying evacuees to Canada, were rescued by Coastal Command planes after eight days in a storm-buffed lifeboat.

A collection of puzzles including a crossword puzzle, a word search, and a logic puzzle. The crossword puzzle is titled 'U. S. Senator' and has a grid with some letters filled in. The word search is titled 'Answer to Previous Puzzle' and has a grid with words hidden. The logic puzzle is titled 'Do You Know?' and has a grid with numbers and letters.

DOROTHY DIX

Boy, 17, Too Young To Wed

Youth Too Fickle To Take Life Mate Too Early

DEAR MISS DIX: Will you please give me the reasons why a boy of 17 should not get married? My teacher who has been a very good friend to me, advises me to wait until I am in my twenties and in the meantime continue my education, which has been retarded and I am far from graduation. Besides, I do not like to study. I have earned my own living for a number of years by working part-time. I live with relatives who are not particularly interested in me, and I would like to have a home of my own and someone to cook for me.

ANSWER: Well, Bill, there are a thousand and one good and valid reasons why a boy of 17 should not think of getting married. One of them is that at that age he is at the formative time of life when his tastes and desires and needs are changing every day, and he has no idea of what sort of a woman he will want for a wife when he has settled, so to speak.

Try to figure the situation out for yourself. Remember the things that you were crazy for a year or two ago and that you wouldn't have on a bet now? Remember how you used to dote on gooey sodas and all-day suckers and how you couldn't get enough pie, and now you have lost your appetite for them completely?

Well, it is just the same way with people. If at 17 you got married, the chances are that you would pick out some girl who would bore you to tears after you grew up. That is why boy-and-girl marriages so often end in divorce. They suited well enough when they were kids and both were silly and immature, but when they got to be adult, sensible human beings, one had outgrown the other and they had nothing in common.

Another reason, Bill, for not marrying at 17 is that you are not ready to take on the heavy responsibility of marriage. You would be desperately poor if you tried to support a family in what a young boy can earn. And you would never have a chance to better yourself because, if you had a wife and children to feed and clothe, you couldn't afford to grow up a poor job to hunt for a better one. There are no men so pitiful as the ones who have wrecked their lives by marrying too young.

Don't kid yourself into thinking that you are certain to get a good cook by marriage. You wouldn't. Few 16 and 17-year-old girls know how to cook. They have gone from the school room into an office or factory and they may know how to run a typewriter or make airplanes, but they don't know how to manipulate a gas stove or make bread.

DEAR MISS DIX: My daughter has a lovely baby girl, not quite two years old, whom she has left for me to take care of while she follows her soldier husband all over the country. I am not young and as I have no help, nursing the baby has simply wrecked me and made an old woman of me.

Now my daughter offers to hire a young girl to take care of her child while she gets a job. I have talked to her and told her that the most important work in the world is the building up of the character and the training of a child, but she thinks that building up a bank account is more important. What do you think?

ANSWER: I quite agree with you. When a woman brings a child into the world she assumes a responsibility which she has no right to delegate to any other human being. She owes a duty to the child that only she can perform, and it is because so many mothers fail to live up to their obligations that gives us the juvenile delinquency problem. No young girl can develop a child's character. It takes a mother's hand to do that. Every mother is going to have to answer at the Judgment Bar for what she did with the plastic material that was put in her hands when her child was born.

DEAR DOROTHY DIX: Will you settle this argument? A pal of mine is engaged to a girl who belongs to a very large family. He says he is not marrying her family. I tell him he is, and how. Which of us is right?

ANSWER: You are. When a boy marries a girl who belongs to a big family, he never lacks for company. Some member of it will always be camping in the guest room and be under foot.

The Record will be pleased to receive any letters to this Dorothy Dix column. These will be forwarded to Miss Dix who will answer them as quickly as possible.

WOMEN'S CLUBS

ALDERSHOT CHAPTER I.O.E.F.

The regular monthly meeting of the Aldershot Chapter, I.O.E.F., was held at the MacKinnon Memorial on Thursday, September 20, with the Regent, Miss Elsie Welsh, in the chair, and Miss Irene Cathcart acting as Secretary in the absence of Mrs. David Reid.

The meeting opened with the raising of the standard and the prayer of the Order, after which Miss Cathcart gave the Secretary's report and read an application for membership from Mrs. Ora Foreman, who was accepted as a member of the Chapter.

Mrs. Alan Wark read the Treasurer's statement in the absence of Miss Sue Reid and it was moved that all outstanding bills be paid. The War Services Convener, Miss Helen Ross, reported that there would be no further necessity of raising any more articles for the armed forces. However, it was suggested that material be purchased to make flannelette nighties which was decided upon.

It was decided to give all rummage on hand to the UNRRA clothing drive which will start in October. Members were requested to attend the semi-annual provincial banquet to be held on October 10, and to attend the meetings if possible.

Plans were made for a Halloween bridge to be held at the Chateau Frontenac on October 30 at 8 p.m.

There being no further business the meeting adjourned.

Y.W.C.A. BOARD MEETING

The September meeting of the Y.W.C.A. Board of Directors was held at the MacKinnon Memorial Building, with Mrs. G. H. Carr presiding, and Mrs. L. W. Glanville conducting the opening devotional period.

A moment of silence was observed in memory of Mrs. W. A. Clearhue, a former member of the Board. The President reminded Board members that this meeting was auspicious in that it was the first Board meeting in the post-war period. Mrs. Carr stated that, although the activities of the Association had increased during war time, the Y.W.C.A. is primarily a peace-time organization, and that an alert attitude must be maintained to foresee the needs of the young people in the community and to try to fill those needs.

Following the reading of the minutes, Miss Doris Banfill and Miss Mary Milford were appointed, on motion, to the Convention Committee, which will convene this fall to study the recommendations adopted at the Convention Sessions.

A vote of thanks to Mrs. Donald Elliott and Mrs. Earl Fidler for their work in looking after the MacKinnon Memorial building during Mr. Spanwick's vacation, was unanimously adopted.

The President introduced Mrs. Donald Elliott as the Treasurer, appointed by the Finance Committee early in the summer. Mrs. Elliott then presented the Financial Report covering the MacKinnon Memorial Building for June, July and August.

The Finance Committee Chairman, Mrs. Gordon Armitage, reported that during the summer months a great many calls had been received at the Residence regarding a Rooms Registry Service and, as the Government has given the Y.W.C.A. in Canada responsibility for this work, Miss Ida Murphy and Miss Ruperta Wiggitt had spent much time and effort looking after local requirements. A motion was adopted providing that this service shall continue as long as the emergency lasts.

The Corresponding Secretary, Mrs. W. W. Davey, read an announcement of the marriage of the Girls Work Secretary, Miss Ruth Oliver, to Capt. Lloyd W. Glanville.

Mrs. Carr introduced Miss Evelyn Tindale, the new Health Education Secretary, and welcomed her to the Sherbrooke Association. Miss Tindale then outlined the winter programme of the Physical Education Department, which included, as well as the regular items, a new class in Recreational Gymnastics, and a class for advanced swimmers, in which the

Social and Personal

Mr. and Mrs. A. S. Cleary, Dufferin Court, were recent guests of Mrs. R. E. Wark at her country home at Leeds.

Major and Mrs. Norman Welsh and Captain and Mrs. John R. Lunderville, have left to spend a short holiday in New York.

Mr. and Mrs. Howard McGenty, Larocque Street, have just received a cable from their daughter, Cpt. Rheta McGenty, informing them of her safe arrival in England.

W/O Prescott R. Carr, who graduated on Wednesday from the Radio School, U. S. Wartime Service, Hoffman Island, N.Y., arrived by plane in Montreal yesterday, and immediately enroute for Sherbrooke, reaching here last evening, to spend his two weeks leave at home with his parents, Mr. and Mrs. George H. Carr, 42 Prospect Street.

Mr. and Mrs. Alfred Laflamme, of Sutton, who are arriving in Sherbrooke tomorrow to attend the marriage of their daughter, Miss Gertrude Laflamme, to Mr. Galen Carr, which is taking place quietly at four o'clock in the afternoon in St. Patrick's Church, presbytery, will be guests during their stay of Mr. and Mrs. John Callaghan, at their home on Markill Street.

The marriage of Alice Mabel, daughter of Mr. and Mrs. G. Hepburn, New Westminster, B.C., to Sgt. Graydon Johns, son of Mr. and Mrs. John and the late Mr. R. O. Johns, Westmont, formerly of Sherbrooke, took place in Holy Trinity Cathedral, New Westminster, B.C., at half past seven o'clock on Monday evening, September 24th. Sgt. and Mrs. Graydon Johns will take up residence at Three Rivers, Que.

Director plans to include instruction in ornamental swimming and diving. Mrs. Glanville gave details of another new feature, which is to run for several weeks this fall—a Fun Nite, which will include not only gymnastics and swimming, but also other activities, possibly dramatics. This programme is based on the idea that some girls prefer to partake in several activities the same night, rather than go in for physical education or club activities only.

Miss Mary Milford, Chairman of the War Services Committee, read several recommendations resulting from War Services work, which had been passed at the National Convention at Niagara Falls.

Mrs. Carr asked for the co-operation of members in the drive for clothing for the National Clothing collection and asked that all contributions be taken to the Memorial Building some time between the 1st and 20th of October.

Mrs. Glanville told of visits made by Mrs. Carr and herself to Mr. Ewing, President of the Sherbrooke Protestant School Board, to Mrs. Horton, former Principal of the Mitchell School, and Mr. Tompkins, present Principal, with the suggestion that, because of the lack of physical training facilities in the Sherbrooke schools, and the desirability of such training, the Y.W.C.A. physical director be allowed to give classes to the students of the public schools in the City. This idea received an enthusiastic reception although further consideration made it appear impracticable as yet for students of any but the Mitchell School, because of the distances involved. A motion was adopted that all girls students of Grades 5, 6 and 7, of Mitchell School shall have one half hour period of gymnastics each week, at the MacKinnon Memorial Building, free of charge, is now before the School Board, for final approval.

As October is membership month in the Y.W.C.A., it was decided that the October meeting of the Board be open to the public, and that all interested citizens be cordially invited to attend. The meeting is to take place on the afternoon of Tuesday, October 9, and Miss Zerada Slack of the National Council of the Y.W.C.A. will be guest speaker.

Major A. Gordon Sangster is spending a few days in Ottawa, a guest at the Lord Elkin Hotel.

Mr. and Mrs. Peter Jespersen, of Sawyerville, Que., announce the engagement of their oldest daughter, Ellen Margrethe to Elmore Clarence, only son of Mr. and Mrs. Clarence B. Butler, of Bury, Que. The marriage will take place in the near future.

Mrs. S. R. Fuller, Queen Street, accompanied by her daughter, Mrs. Hamilton Rider, of St. Hyacinthe, left by motor this morning for New York, where Mrs. Rider will be a guest of her parents, Mr. and Mrs. Fuller, for a short time prior to returning to her home.

Mr. and Mrs. William Lavallee, of Sherbrooke, announce the engagement of their eldest daughter, Velma Deborah, to LAC, Arthur E. Wright, of Dartmouth, N. S., son of Mr. and Mrs. Charles Wright, of Sherbrooke. The wedding to take place quietly on October 13th.

That the annual bridge party and jam supper for the benefit of the Sherbrooke Hospital will be held at the Nurses' Residence on Friday afternoon, November 9th, was decided at the opening fall meeting of the Ladies' Auxiliary held at the MacKinnon Memorial. Mrs. Colin Campbell, President, was in the chair and reports revealed that both the "Cheerful Dance" in June, and the "Cheerful Room" at the Sherbrooke Exhibition, had proved successful undertakings. Mrs. J. Fraser Armstrong and Mrs. Frank Thompson kindly consented to convene the annual bridge party, which is ever one of autumn's outstanding social events.

Among those who have already subscribed to the closing bridge and tea, to be held at the Sherbrooke Country Club tomorrow afternoon, Sept. 28th, are Mrs. G. Carr, Mrs. A. W. Kerridge, Mrs. E. N. Fidler, Mrs. R. N. Ogilvy, Mrs. L. Wilson, Mrs. A. Allard, Mrs. C. Campbell, Mrs. B. Chapman, Mrs. W. Hopkins, Mrs. Demerrett, Miss L. Hawkes, Miss B. Ames, Mrs. L. O. Carriere, Mrs. C. Clark, Mrs. P. McKenna, Mrs. S. Knox, Mrs. J. T. Hawkins, Miss T. Edwards, Mrs. F. Conway, Mrs. R. Keeler, Mrs. A. Schiller, Mrs. G. Marchessault, Mrs. S. Howcroft, Mrs. W. S. Sutherland, Mrs. A. Munster, Miss E. Malloy, Miss B. Haight and Mrs. B. Howard.

Mrs. George Phelps, Miss Minnie Heath and Mrs. O. Nelson, acting jointly as hostesses, entertained the members of the Women's Auxiliary of Trinity United Church at the former's home on Bowen Avenue South, Mrs. E. Cathart was in the chair and Mrs. J. Hazle conducted the devotional period. Members of the visiting committee reported calling on shut-ins. The gracious invitation sent by Mrs. J. Blake to hold their next meeting at her home, 31 Russell Street, was gratefully accepted. Afternoon tea and dainty refreshments were served by the hostess during the pleasant social hour which followed adjournment. Assisting were Mrs. C. Wright, Mrs. N. Phelps, Mrs. Warren and Mrs. O. Williams.

Miss Evelyn Wheeler, an October bride-to-be, was the guest of honor last evening at a largely-attended kitchen shower, given by the Baptist Ladies' Aid at the home of Mrs. W. Hopkins, Wolfe Street. The presents, which were very numerous, were attractively arranged in a large basket decorated in pink and white, and placed in front of a simulated lattice screen cleverly fashioned of crepe paper continuing the same color scheme, while a huge pink bow marked a special chair reserved for the bride-elect. Mrs. Ralph Sanders, President, who made the presentation on behalf of the Ladies' Aid, gracefully extended the kindest wishes for future happiness, and spoke in a most appreciative manner of Miss Wheeler's invaluable and devoted services to the Baptist Church. Later refreshments were served, the hostess being assisted in her pleasant hospitable duties by Mrs. Clifford Wright and Miss Jessie Hopkins.

MARRIAGES

WILLIAMS-MANSON

Mansville, Sept. 28. — A very pretty wedding took place in St. Paul's Church, Mansville, on Saturday afternoon at three o'clock, September 8, when Doris Christina, daughter of Mr. and Mrs. N. Vernon Manson, became the bride of Mr. George Williams, son of Mr. and Mrs. I. O. Williams, of Frost Village, Rev. Sidney Wood, of St. Luke's Church, Waterloo, performed the double ring ceremony, and the wedding music was played by Mrs. Arthur Willard.

The church was prettily decorated with quantities of gladioli, each pair being marked with a different color.

The bride, who was given in marriage by her father, wore a floor-length gown of white satin with net yoke, cut entrain and long sleeves ending with points over the hands. Her veil was finger-tip length. She carried a shower bouquet of white roses and baby's breath.

The bride's sister, Mrs. Edmond Fletcher, of Shrewsbury, Mass., was matron-of-honor, and wore pink sheer with lace inserts over satin and carried a pink nosegay of assorted flowers.

The little flower girl, Sherry Diane Talbot, wore a floor-length dress of yellow organza and carried a basket of yellow flowers.

Mr. Alvin Williams, brother of the groom, acted as best man, and the ushers were Messrs. Thorpe Manson, brother of the bride, and Fred Quirk.

The bride's mother wore a gown of olive green with brown accessories and a corsage of pink and white asters and gladioli.

The groom's mother wore a gown of black with white accessories and a corsage of white asters and gladioli.

The reception was held in the Church Hall, where places were laid for some eighty people. The bride's table was centered with a wedding cake topped with a miniature bride and groom on either side of which were white candles in silver candlesticks. Gladioli and white candles formed the decoration on all the tables.

The bride's gift to the matron-of-honor was Staffordshire china earrings, to the organist, a Staffordshire china brooch, and to the flower girl, a sterling silver bracelet.

The groom's gift to the best man was a lighter, and to the ushers he gave billfolds.

Later the happy couple left for a short wedding trip to Lake Champlain, St. Albans, Vt., and Montreal, P. Q. For going away the bride wore

GLORIFY YOURSELF... SUCCESSFUL TEEN-AGER FINDS POISE COMES WITH DEVELOPING A TALENT

MARILYN DAY: Young, poised.

A teen-ager can slide gracefully through the clumsiness of adolescence if she gives her ego the boost it needs to bolster self-confidence. Marilyn Day, an 18-year-old who has plenty of self-confidence, says it comes from learning to do one thing well. She learned to sing—well enough to star on radio's "Dunninger Show."

You may not care a hoot about singing. "But what about dancing?" Marilyn asks, reminding you that it builds self-confidence on two counts. It makes you a sought-after dancing partner, and at the same time it develops grace. So will swimming, skating, tennis, ping-pong or skiing, says this wise teen-ager.

Her tip—and good advice this is too—is to take lessons with a group. "You will be, as I was," she says. "stimulated by other girls who work toward the same goal, whose triumphs prod you to do better, and whose discouragements will make you realize that you're not alone in yours."

MIND YOUR MANNERS

The Situation: You receive a package or special delivery letter at your front door. Wrong Way: Accept the letter or package without thanks. Right Way: Say "Thank you," pleasantly. Such small courtesies are as important in business as in social functions.

by OREN ARNOLD

## ESCAPE TO ARIZONA CHAPTER XIII

Carolyn was at a telephone. "Hello! Hello, Ken? Listen, Ken, I've got to talk to somebody. I—I want you to be my guest at lunch. . . No, I'll pay or I won't go! I asked you first, and I'm famished."

They met in Grosso's, a favored side street spot, and as she herself had warned him, Carolyn was full of conversation. She talked between salad bites.

"Ken, don't ever tell a soul," she admonished, "but our little trick worked to a T! My hunch was right. Somebody did try to get that shipment. Robbed the freight train and stole the dummy box!"

He was excited. "I saw the papers this morning. Tried to call you. Gosh!"

"Yes. It's a good thing we substituted rocks. Bob is so grateful he was in tears. The—stuff—the chemicals I mean, were rather valuable to him. Ken, will you take pay for that? A reward?"

His lips tightened. She hastened on.

"I know you won't. I don't mean to hurt you, Ken."

"Carolyn, I'd do anything for you. Always!"

She dropped her eyes, and answered that in a low tone. "I know it. Now I think I'd better tell you something. Something important."

"Surely."

"Ken, I love Bob Hale. I'm—off the deep end!"

Her eyes filled with tears then and he saw it when she lifted her head. Ken didn't say anything for a long while, but his face was a study. He had stopped eating. Finally he nodded ever so slowly. "All right," he whispered. "I'm glad you told me, Carolyn. These things—have to be!"

They understood each other; they didn't need to talk. Both knew Ken loved her and hadn't ever said so in words.

"Ken, you're the nicest somebody in the world."

He nodded again. "I understand. I won't forget. In fact, Carolyn, I already knew."

"You know?"

"Yep. A man isn't blind. You let little things slip. And no woman would do what you have been doing for him unless—unless—Well, power to him! And Carolyn, I'll always be around. Always!"

She wanted to cry then.

"Eat your lunch," he commanded, practically. "I think you need it. You're jittery."

"I do need it. But I'm going away. She suddenly squeezed his hand. "A million thanks, my friend. And goodbye!"

She got up abruptly and left him, paying both checks at the desk. He thought he understood why; her eyes had gone misty again. He didn't try to follow her.

She went immediately to find Dr. Hale at state police headquarters, but both he and Miss Sorni had gone. In a taxi again, then, she raced back out to the laboratory.

She had no idea what to expect next but she knew she had to continue her rather desperate, audacious action. Bob, of course, had told Leana Sorni about Carolyn's outwitting the train robbers.

"She'll know I'm wise to her even if Bob isn't!" Carolyn half-whispered, to herself. "At least she'll suspect plenty and be scared. And—she'll fight back somehow!"

The indefiniteness of that reasoning was itself enough to cause alarm. She couldn't quite decide what to do next. The pilot's mine, she told herself once, she was imagining all this; maybe Leana was honest and not involved in treachery at all. But something deep in Carolyn rebelled at that idea.

She kept her taxi waiting while she located Bob in his office. "Caro-

lyn! I was wondering where you—" "Get your hat at once!" she ordered. "And coat. Have you any money?"

He looked at her with fresh surprise, but he stood in awe of Carolyn Tyler now. He didn't question her at all. He had a few hundred dollars in a small office safe, and got that. They departed in her taxi without speaking to anyone.

Presently, he sat back and smiled at her. His old, beloved tone of teasing suddenly re-appeared, the first hint of personal feeling toward her he had shown in days. Carolyn's heart leaped. "If it wouldn't be presumptuous, miss, I'd like to know what brew you are brewing now."

"You will," she flashed back.

She led him meekly from the taxi to the plane when they reached the airport. Her hired pilot came out, saluted genially. She motioned him to his seat and in a moment he had the motor roaring.

"What's all this?" Bob wanted to know. But he saw that she was still eager and smiling. "Am I supposed to take a sky ride?"

"Look in there," she pointed. "In that box, Bob, is your precious substance. I have had it transferred out here."

He was abruptly serious again. He went inside to touch the box. "But, Carolyn—"

They had to shout above the motor's roar. Somebody had closed the cabin door, and Bob saw her signal to the pilot. The roaring multiplied. The ship quivered, began to roll.

Bob's chin dropped. He was standing stooped over in the low-ceilinged cabin there, and he gripped the back of a seat.

Carolyn smiled again reassuringly. "Sorry, Bob, but just take it easy. The pilot's mine, I hired him and he is doing only what I ordered!"

"But—"

"Sit down!" she shouted, happily this time. "It just had to be this way. We are going to Arizona!"

To Be Continued

## The Doctor Says

### SCIENCE CONTINUES SEARCH FOR TUBERCULOSIS DRUG CURE

By William A. O'Brien, M.D.

Tuberculosis patients are eager to receive any experimental drug which may shorten their long sanatorium stay, as rest is still the only effective way of treating the disease. When a new drug is announced, the hopes of the tuberculosis patient skyrocket only to drop when he learns that the treatment is still in the experimental stage. What is the present status of drug treatment in tuberculosis? H. Corwin Tinskaw, M.D., and William H. Feldman, M.D., summarize it for us in an editorial in *Minnesota Medicine*, August, 1945.

Some of the sulfa drugs have a slight effect on the tuberculosis germ, but not enough to be of value in the treatment of the disease. The sulfone drugs (promin and diason) combat experimental tuberculosis in guinea pigs, but they are toxic when used internally in man; they are therefore used only as applications on tuberculosis of the surface. Promin is being tried as a spray for tuberculous infections of the trachea and gland at the root of the lungs. Promizole, another sulfone drug, is also being investigated as it is less toxic than the others.

Penicillin is not of value in the treatment of tuberculosis. Streptomycin, the newest drug, is made from cultures of a fungus which grows in the soil. It is effective in the treatment of experimental guinea pig tuberculosis, but as investigators have been disappointed before, they are not making extravagant claims for this drug until it has been tried in many cases. Streptomycin is difficult to manufacture and its extreme scarcity is holding up investigation.

All drugs tried on tuberculosis in man are first used on experimental tuberculosis in guinea pigs. These trials give us clues as to the value of the drug in man, but the same effect in man may not be the same. Inflammation produced by the tuberculosis germ is a dense reaction which drugs find difficult to penetrate. In spite of these handicaps, progress is being made.

Tuberculosis patients are still being healed by rest cures in good sanatoria. Whenever possible surgical operations are done to further rest the diseased lung. No patient should postpone these reliable methods of treatment with the hope that the discovery of a new drug will take care of his disease later.

Tuberculosis claims more lives than wars and leaves many cripples in its wake. It selects its victims from the young during the most productive period of their lives. Continued research for a drug to cure this disease in a shorter time than by rest treatments is of greater importance but it has not yet been discovered.

## BOUNDARY CLUB FAIR WORKERS ENTERTAINED

Rock Island, Sept. 28. — Some fifty guests attended the regular meeting of the Rotary Club of the Boundary Monday evening at the Del Monty Hotel, the club being hosts to the helpers whose work played such a large part in making last week's Rotary Fair such a grand success. The Chairman of the Fair, Claude Willard, in announcing the results, gave a well-deserved tribute to these non-members. It would have been impossible for a club of 30 men to have carried on as large an event as the Fair without this outside aid, and the booth chairmen brought in many of their friends to help them.

In announcing the total receipts of the Fair the net profits could not be given, as the complete details of the amount of stock returned and cost of stock used are not yet available. The sum of \$2,215.61 was taken in during the three nights, and the sum of \$432.62 was realized from the advance sale of raffle tickets, making total receipts of the fair, \$2,648.23. There were also a number of donations from interested individuals who for one reason or another were not able to be present in person. The chairman announced that the net proceeds should be around \$1,500, based on his incomplete figures. As rapidly as possible, a balance sheet of the Fair is being drawn up, and the complete figures should be available in time for the meeting next Monday night.

Besides the reports on the Fair, those at the meeting were entertained by a technicolor movie "Amazing America," which featured a bus tour of some of the interesting and beautiful spots in the United States.

As next week is National Newspaper Week, the club is particularly pleased to have as speaker Gordon Beerworth of the Sherbrooke Record, who will tell some of the interesting aspects of newspaper work. It was also announced that F. Ray Adams, of Springfield, Vt., District Governor of this Rotary District, would be present at the meeting October 8.

The club was pleased to have five visiting Rotarians from Newport pressing at the meeting Monday evening, Jay Carr, Charles Coan, Frank Jenne, Ernest Martin and Art Roe.

Besides the mean temperature, there is at that other menace, the polio, \$2,648.23. There were also a number of donations from interested individuals who for one reason or another were not able to be present in person. The chairman announced that the net proceeds should be around \$1,500, based on his incomplete figures. As rapidly as possible, a balance sheet of the Fair is being drawn up, and the complete figures should be available in time for the meeting next Monday night.

## RANDBORO

Mrs. Clara Adams, of Franklin Centre, was a guest of her nephew, Mr. E. Tannahill, and Mrs. Tannahill.

Mr. and Mrs. Ernest Middlemiss accompanied by Mr. Herbert Bowker, of Sawyerville, visited relatives in Brompton.

Mr. and Mrs. Howard Thomsen, of Sherbrooke, were guests of Mr. and Mrs. Verne Montgomery.

Mr. Henry Riddell and Miss Ruth Riddell, of Sawyerville, and Mrs. Gretchen Elliott, of Shawinigan Falls, were guests of Mr. and Mrs. R. H. Riddell.

The sympathy of the community is extended to the bereaved family of Mr. Kenneth Waldron, of Sawyerville.

Mr. Ludger Thivierge has left for Mansonville, where he has a position for the winter.

Mr. Robert Parker is at home from Toronto, Ont., for an indefinite time.

## BISHOPTON

Mr. and Mrs. Gordon Clark, Mr. and Mrs. H. F. Vintinner were evening callers at the home of Mr. and Mrs. John H. Semple, in Lennoxville.

The many friends of Mr. George Hart regret to hear that he is a patient in a hospital. All wish him a speedy recovery.

Miss F. Roberge is spending a

## three weeks' holiday in the Laurentians.

Miss Alice Parker, of St. Catharines, Ont., was a guest of Mrs. Webb and Mrs. Gilles.

Mr. and Mrs. Harvey Reynolds, of Howick, were week-end guests of the latter's uncle, Mr. Orrin Beattie, and family while here at the Brome Fair.

Mr. and Mrs. F. Barrette kindly opened their home for a reception for Mr. and Mrs. Wellington Grubb, who were recently married.

Major John Ward, recently returned from overseas, substituted at the High School for several days for Principal Currie-Mills, who was ill.

Mr. and Mrs. Eugene Mayer, of New York, were guests of the former's sister, Mrs. I. Jones, and family.

Mr. and Mrs. Harry Redmie have returned from a two weeks' holiday at Niagara, Ont.

Mr. and Mrs. Murray Mason, of Fordyce, spent an evening with Mr.

Their very **LIVES** depend on you!

WHAT CAN YOU SPARE THAT THEY CAN WEAR?

The very lives of millions in war-torn countries depend on you supplying their desperate need for clothing. All of us can spare some serviceable used clothing. In the clothes closets and attics of Canada's homes there is enough usable discarded clothing, blankets, footwear, to help countless thousands of needy men, women and children. Let's get it ready to send off—NOW!

# Friday's Topics Of Agricultural Interest To E.T. Farmers

## Excellent Export Market Exists For Clovers And Alfalfa Seeding

There is at present an excellent export market for clovers and alfalfa seedling, the outside demand for these being practically illimitable. In order to supply this demand, the Federal Government will again this year offer the following advantages:

Any farmer may request any authorized dealer to whom he sells clover and alfalfa seedling, to give him a certificate ascertaining his participation. This certificate will give the farmer the right to 3c per pound for red clover and 5c per pound on alfalfa clover, alfalfa and mixture of white clover and alfalfa. These certificates will be reimbursed by the Federal Government when the Special Products Bureau will have completed its exportations and have received payment.

Participation certificates from any authorized buyer recognized as a seedsman (whether a dealer or a co-operative) by the Special Products Bureau of Lindsay, Ont.

However, no returns on these certificates will be available before shipments and exportations are made and this in all probability will not take place before next fall. Therefore, farmers possessing participation certificates are not required to take any other course except to await their dividend cheques which will be sent them directly from the Treasury Department of Ottawa.

## MONTREAL LIVE STOCK MARKET

Montreal, Sept. 28.—There were 2,560 cattle, 7,419 sheep and lambs, 5,732 hogs and 3,935 calves for sale on the two Montreal markets during the week ending September 27, 1945. In addition 571 cattle, 175 sheep and lambs, 294 hogs and 263 calves were received on direct consignment to local pens and 50 cattle, 189 sheep and 56 calves were handled on through billing to Canadian points.

By Monday noon, rumors were going around the yards that retail butchers had to close their doors, all local butchers stopped buying livestock, with the result that several carloads of calves were carried over from day to day and up to the close of the week. Trading was very slow and prices estimated to be 25 cents lower on cattle, calves were \$1 or more lower and lambs about steady. Hogs unchanged. About 1,000 lambs and 100 grass calves still unsold and no bids on calves whatever, reasons no sufficient storage space.

One load of top steers brought 12.25 on Monday. Good quality steers were mostly 11.10-11.75, medium 10-10.75 and common light ones down to 7.25. Heifers ranged from

## FRUIT SUPPLY DECREASES AT LOCAL MARKET

The quantity of fruit diminished and the quantity of eggs increased, with the rest of the Lansdowne Market remaining firm in quantity, quality and price this week.

Today bananas at the regular price of fourteen cents a pound were in abundance and the balance of prices on the fruit scene remained unchanged on the whole.

Pullet eggs at 35-38 cents for A-grade and 25-30 cents for peewees were in great supply.

The dairy and meat divisions remained firm.

Corn and celery were the only vegetables that took a jump in price this week, both rising from 20 to 25 cents a dozen and each, respectively.

Current prices on the local market follow:

PROVISION MARKET

## SIDE GLANCES

By Galbraith

"Thank heavens you found the nail, for I can assure you there are none as big as that where I drive the car!"

## PROGRAMME FOR YOUNG FARMERS BEING DRAWN UP

The agronomists working on the extension programme for the Young Farmers' Clubs will meet in Quebec on September 25, 26 and 27 next in the Private Bills Committee Room, Parliament Building, so as to trace the general programme which will be carried out in future by these clubs.

The meeting will be held under the patronage of Hon. Laurent Burre and is being organized by the Agricultural Education Service directed by Jean-Charles Magnan.

Apart from the extension men and the agronomists, representatives of all groups of rural youth will take part in these meetings.

The activities and functioning of Young Farmers' Clubs will be the object of study in connection with Agricultural Schools, 4-H Clubs, Nature Study Clubs, the J.A.C., Young Breeders, I.U.C.C., Women's Institutes and the Youths' Aid Movement.

Officials of the Department of Agriculture will meet conventionally on the afternoon of the 27th.

The Young Farmers' programme will be readapted to the present and future conditions, in view of adequately preparing the ground-work for turning out good future farmers.

## LOCAL FARM FORUMS RALLY AT LENNOXVILLE

Farm Forum groups in this district will hold their first big rally this year on Monday, October 8th, at the Gertrude Scott Hall in Lennoxville.

Ralph Staples, (above), National Secretary of the Farm Radio Forum, will be the principal speaker at the meeting which will include films and a sing song. Mr. Staples has also had experience as a director of the United Farmers Co-operative Co., and as field secretary of the Ontario Federation of Agriculture.

Addresses will also be given by the Provincial Farm Forum Secretary, R. Alex Sim, and Joseph Galway, the newly appointed assistant secretary, who has been with the United Farmers Co-operative Co. in Toronto until his present appointment.

W. G. Macdougall, Agronomist, will also speak at the meeting, which will be under the chairmanship of Mrs. Donald McElrea. The rally will start at 8:30 Monday evening.

## QUEBEC POTATO HARVEST GOOD

The potato harvest is now underway in the Province of Quebec and, according to preliminary reports sent in to the Department of Agriculture, the officials are now able to give an idea of the quality and quantity of potatoes that will be available this year.

The general quality of the potato is good, although certain localities have been affected by mildew. There will be fewer than last year. Only 16,250,000 bushels will be harvested from the 164,000 acres planted. As compared to last year, this is a decrease of 35 per cent. In 1944, 25,053,000 bushels were harvested from 163,000 acres.

Growers should therefore act cautiously and not be over-anxious to sell. Heavy markets at harvest time always cause a decrease in price and it would be better to space out shipments throughout the winter and spring months. Producers who have good storage facilities and who keep their potatoes in good condition will find it to their advantage to store a part of their crop for disposal when prices are at their peak.

## CASSVILLE

Mrs. R. Hyatt and daughter, of Sherbrooke, spent a week-end with Mrs. John Byers.

Miss Mildred Carter, Miss Phyllis Sutor and Mrs. Muriel Sutor, of Sherbrooke, were guests of Mr. and Mrs. Harold Carter.

## No. 20 Compound COUGH SYRUP

Get Rid of Your Cough

If you cough, with impaired breathing, or if you have a mild cold with a dry cough, don't wait for a serious cold to settle in the chest or bronchial tubes.

Miss Margaret Beaudoin, of Quimby's Averil, was at her home for a short visit.

Mr. and Mrs. William Rollins and Mrs. Roland Lunderville, of North Stratford, were guests of Mr. and Mrs. Frances Dezan.

Mrs. Eva Young spent an evening with her daughter, Mrs. Austin Grady and family, in Dixville.

Sympathy is extended to the Devost family in the loss of their father, Mr. Theophile Devost, who passed away September 24 at the home of his daughter, Rose, in Sherbrooke.

## COWANSVILLE

H. J. McConnell, Optometrist of Sherbrooke, will be in his office at the New Ottawa Hotel, Cowansville, on Wednesday afternoon, October 3rd next, for examination of eyes and fitting of glasses.

The largest turnout of the season is expected next Saturday night at the Pinnacle Lodge dance. Come over to Selby Lake for the gayest dance of the year.

Teacher: "What makes you so late this morning?"  
Pupil: "You see, sir, there are 8 in our family."  
Teacher: "Well?"  
Pupil: "And the alarm was set for 7."

## REPLACEMENT OF C.P.R. SHIPS LOST IN WAR

Montreal, Sept. 28. — Canadian Pacific Steamships' two ocean fleet, which suffered the greatest loss of any individual company in this war, will be re-established when construction costs justify ordering new tonnage, D. C. Coleman, Chairman and President of the C.P.R., said today in an interview following his return from a month and a half in the Old Country.

(Official Admiralty figures reveal that 11 Canadian Pacific ships of 153,000 tons were sunk by the enemy, ranging from the 42,500 ton Empress of Britain to the 5,875 ton Princess Marguerite.)

New tonnage so far ordered was coming from British yards, Mr. Coleman explained, because it was in replacement of ships operated under British registry. It is doubtful that the C.P. would be disposed to build another Empress of Britain, he said.

Speaking of the English people's impression of Canada's war effort, Mr. Coleman said, "It was felt that we had handled our wartime financial, price and labor controls with good judgment and great efficiency."

Throughout his journey of the British Isles, Mr. Coleman was accompanied by L. W. Brockington and by officers of the company including William Baird, special representative, and John Johnson, architectural consultant. Returning to Canada with him was J. C. Pattison, European manager of the Canadian Pacific.

## AUTHORITIES TO USE D.D.T. AT LOCAL MART

A wartime discovery, D. D. T. insecticide, up to the present on priority to the armed forces only, will shortly be employed against flies and other insects at the Lansdowne Market.

Inspector Joseph Masse, of the city's Department of Health, stated in an interview this morning that he intended to recommend the use of D.D.T. to the municipal authorities.

He expressed enthusiasm over the possibilities of the most powerful insecticide the world has ever known, which was developed during the war. Until recently, the use of D.D.T. has been restricted by the needs of the Allied armies both overseas and at home. However, it is now available in small quantities for civilian use.

## WYATT ROAD

Miss Dora Berwick, of Bishopston, was a guest at the home of her parents, Mr. and Mrs. Charles Berwick, Mrs. Eugene Anderson was a tea guest at the same home.

Mrs. George Jude called on Mrs. Earl Lasamba.

# Immensely Popular KING COLE TEA

Chosen for its Richness and Flavor

### CLARENCEVILLE

The parishioners of St. George's Church, at Clarenceville, and of St. Thomas' Church, at Noyan, deeply regret the prolonged illness that necessitated the resignation of Rev. J. J. S. Seaman, who with Mrs. Seaman and her sister, Miss May Aiken, will leave soon to take up residence in Granby. The wardens of the two parishes presented Rev. Seaman with a substantial purse and a gift was also given to Miss Aiken, who has been a tireless worker in the community during her residence here. The very best wishes of all who knew them will accompany them to their new home.

Mr. and Mrs. F. Nunnis, of Cowansville, invited a number of relatives and friends to their summer cottage on Missisquoi Bay to a six o'clock supper party on Sunday, September 23, in compliment to her parents, Mr. and Mrs. D. A. Collins, of Montreal, who celebrated their fifty-fifth wedding anniversary. A delightful evening was enjoyed. The

## BORDER TOWNS LEASE CENTRE FOR CHILDREN

Rock Island, Sept. 26.—What is to be known as the Frontier Community Centre has been formed in the four villages of Beebe, Stanstead, Derby Line and Rock Island. This organization will be for the benefit of every member of the Community Centre and it is hoped that all will take advantage of it. The Community Centre has leased from the Village of Stanstead the property known as the race track which is situated on the edge of a very pretty ravine at the end of Convent Avenue. Work is already being started on this part so that an open air hockey cushion with its surrounding ice surface will be ready for this winter's use. Also the park is being prepared for baseball next spring and summer.

The Village of Stanstead has very kindly and generously offered to install water and sewage services to this property. Next summer it is hoped that a satisfactory dam will be put across the ravine just below the park to make a small lake available for swimming and other recreational purposes. It is felt that the children will very much enjoy these facilities.

Memberships in the Frontier Community Centre will be available at \$5 which will at least help in part to defray the many expenses which will be involved. It is hoped that all families will be anxious to join this organization, even though it will not be necessary to own a membership to take part in the activities. This membership merely is a means of the public being able to give their financial support and the purchase of one of these memberships gives that person the privilege of voting at the annual meeting which will take place in February of every year.

The community appreciates the generosity of manufacturers, individuals, banking institutions and merchants who, by their substantial donations have made the organization of this project possible.

### WEST BOLTON

Guests of Mr. and Mrs. J. N. Snodgrass were her brother, Mr. Edward Rutter, of Peterborough, Ont., and his daughter-in-law, Mrs. Homer Rutter, and little son and Mrs. E. Goyette, of Cowansville, Mr. and Mrs. N. Boright and two children and Mrs. Mabel Snodgrass, of Granby.

Mr. and Mrs. J. N. Snodgrass and son, Irving, who will give up possession of their property here the middle of October, have purchased the W. Taylor residence in West Sheffield. All regret their departure, but West Bolton's loss will be West Sheffield's gain.

Mr. and Mrs. Cecil Marsh have rented their farm to Messrs. Herman and Irving Paige, and have moved to South Stukely due to Mrs. Marsh's continued ill health, much to the regret of her friends here.

Mrs. H. Taylor, of Huntingville, and Mrs. J. Campbell and son, of Draper's Corner, were guests of their granddaughter and sister, Mrs. Lawrence Marsh, and Mr. Marsh.

Supper guests of Mrs. C. B. Marsh were members of her family, Mr. and Mrs. Earl Marsh, of West Bromo, Mr. and Mrs. M. J. Johnson, of Call's Mills, and Mr. and Mrs. F. C. Marsh, who are moving to South Stukely.

Mrs. C. B. Marsh is going to Boston, Mass., to visit her sister, Rev. M. Chadsey, and to Manchester, N.H., to visit her brother-in-law, Mr. Fred Marsh, and relatives.

Mr. and Mrs. Clinton McLaughlin spent a day in Granby, and their aunt, Miss Hazel Butler, returned with them and is a guest of her sister, Mrs. C. B. McLaughlin, and members of the McLaughlin family for a few days, prior to leaving for Ontario, where she has a position as nurse.

The ice cream social in the Creek Church was not as largely attended as anticipated, yet the officers and members felt repaid for their endeavor.

Callers at "Hillside Farm" were Mr. and Mrs. James Symington, Mr. A. Shepherd and Richard Lent, of Dunham, and Miss Gladys Symington, of Montreal.

Mr. and Mrs. G. B. Mizener and Mr. and Mrs. B. R. Mizener attended an auction sale in North Hatley. Mr. H. H. Turner was a guest of his daughter, Mrs. A. W. Harvey, and Mr. Harvey.

Dr. and Mrs. Winfield Durrell and Master Roderick were guests of Mr. L. P. Durrell, prior to settling in Ste. Anne de Bellevue, where Dr. Durrell is a lecturer on Pathology. AC. Kevan Durrell, of the R.C.A.F., recently returned from Overseas with his wife and little daughter, are also guests at the same home. Miss Thora Durrell, of Knowlton High School, was a guest for the week-end.

All regret that Mr. A. L. Chamberlain, who has been in poor health for some time, has entered a Montreal hospital for treatment.

Valley, enjoyed a visit from her son and wife, Mr. and Mrs. Levi Johnson, of Hartford, Conn.

Mr. Bruce Bullock spent two days in Montreal attending the ball games.

Mrs. Roland Derick, of Bedford, visited at the home of Mr. and Mrs. G. M. Young.

Miss Betty Ohannel, of Northampton, Mass., visited at the home of Mr. and Mrs. K. McCullough and accompanied their daughter, Miss Goldie McCullough, to Montreal, where she is attending the Westmount High School.

### FOSTER

Mrs. Fred Burke, of Meredith, N. H., Mr. James Nealey and Miss Velma Nealey, of St. Albans, Vt., were guests of Mrs. J. N. Code and Mr. W. C. Young.

Mr. and Mrs. T. J. Bell, of Fitchburg, and Mr. and Mrs. Fletcher Allen, of Bethel, Vt., were guests of Mr. and Mrs. R. F. Allen and family.

Among those from this place and vicinity exhibiting at Brome Fair were Mr. and Mrs. Alfred Harvey, Mr. Frank Perkins, Mr. and Mrs. B. R. Mizener, Mr. W. R. Mizener, Mrs. J. M. Sweet, Mr. and Mrs. Lionel Allen, Mrs. G. C. Whitcher, Mr. and Mrs. J. N. Snodgrass, Mrs. Bert Phelps, Mr. and Mrs. W. G. Knowlton, Mrs. A. M. Hunter, Mrs. Wesley Leavitt, Mr. Leslie Durrell, Miss Thora Durrell, Mrs. C. A. Wade, Mr. Georges Lamoque, Mr. W. Eino Ashton, Mr. A. R. MacLaren, Mr. and Mrs. Miles Richard, Master Gilbert Richard, Mrs. A. L. Chamberlain, Mrs. A. B. Young and Mrs. M. B. Williams.

LAC. Kevan Durrell recently returned from overseas, Mrs. Durrell and little Miss Dianne Durrell of Saint John, N.B., are guests of Mr. and Mrs. L. P. Durrell, and Miss Thora Durrell. Friends here are pleased to welcome LAC. Durrell home, after being overseas a year.

Master Barry Heatherington was a guest of his aunt, Mrs. Orval Quilham, in Waterloo, during the absence of his mother and grandmother, Mrs. John Heatherington and Mrs. H. H. Spencer, who were visiting LAC Jackson Spencer, in the Military Hospital, Ste. Anne de Bellevue.

Mr. and Mrs. Morris Mills and Mr. and Mrs. Ernest Becker, of Chelsea, Mass., were guests of Mr. Mills' sister, Mrs. C. D. Johnson, Mr. Johnson and Mr. and Mrs. F. G. Johnson, for a week.

LAC. Lydon Arnold, R.C.A.F., of

Sydney, N.S., was the guest of his parents, Mr. and Mrs. William Arnold, at "Blighty Cottage."

Friends will be sorry to learn of the illness of Mrs. G. G. Breece at her home here. Mrs. Wallace Scott, of Montreal, spent several days with her mother.

Mrs. H. P. Mont entertained a meeting of the...

Parsonage with a good attendance of members. Mrs. Fred Lac will entertain the next regular meeting.

Mrs. A. L. Young spent several days in Point-Aux-Trembles, with her daughter, Mrs. Jack Blackall, Mr. Blackall and with her son, Mr. Wendall Young, Mrs. Young and family.

Mrs. A. Sidoruk of Montreal was

a week-end guest her home here. Mr. and Mrs. Raymond Durrell accompanied their older son, Master Larry Durrell, to Montreal, to visit a throat specialist.

Master Larry expects to enter the Royal Victoria Hospital shortly for an operation. Mr. and Mrs. Fred Benjamin and Miss Julia Ann Lavale, of Montreal, were guests of Mr. and Mrs.

F. G. Johnson and Mr. and Mrs. C. D. Johnson.

Mr. and Mrs. Wilfred Allen, of Montreal, were among those attending the Allen - Lapalme wedding, in Waterloo.

### TERRY—COUNTING THE HOUSE

# LOWER CANADA COLLEGE MEETS S.H.S. HERE TOMORROW

## Exhibition Tilt At Parade Grounds To Be Part Of Home And Home Series

Football fans can look forward to a good match tomorrow afternoon, when the S.H.S. squad meets the powerful Lower Canada College outfit in an exhibition game at the Parade Grounds. The contest will be played as part of a home and home series.

The L.C.C. team will arrive on the noon train and will be entertained at luncheon at the Sherbrooke High School.

S.H.S. has already played one exhibition game of their schedule. This was last week's tilt against the Athletics which S.H.S. won 5-3. Although a light team the S.H.S. squad showed itself a hard working group

of boys.

It is expected that L.C.C. will field a heavy team. Coach Dave Kerr has been noted for his well-balanced teams and this year's squad should be no exception. Tomorrow will be the first time in many years that S.H.S. has played L.C.C.

Coach Bascom of S.H.S. will most likely use the same line-up as last week with the exception of Paulette. Boduch will replace him in the back field. The High School students are in good condition and should put up a stiff battle against their opponents. The game will get underway at 2:30 p.m.

## 30 HORSES WILL COMPETE HERE NEXT SUNDAY

Headed by Rip Harvester and Dominator, the two horses that finished in a neck and neck tie and broke the existing track record at Blue Bonnets raceway in Montreal last Sunday, a field of 30 of Quebec's best harness racers will compete here on Sunday afternoon in a race card presented by the Sherbrooke Racing Association.

"Race fans will really have an opportunity to see big time racing next Sunday," said Eddie Blouin, well known horseman, who is promoting the event.

Blue Bonnets Raceway is one of Canada's outstanding tracks, and we are indeed fortunate that we have been able to bring practically the same field to Sherbrooke that participated in the history-making harness card in Montreal last week-end," he added.

Three will be held here Sunday, and in order to permit the full programme to be run off the first race will be called at 1:30 p.m. Three classified events will be staged, and the feature event will be a free-for-all. Purse will set a new high record, too, with a total of \$1,200 being offered on Sunday's card.

Entries already received include the following horses, all of which have competed on various Townships race cards, as well as at all the Fall Fairs, and the Sherbrooke and Quebec Exhibitions during the past season:

## Canadian Sport Snapshots

By ALAN HARVEY  
Canadian Press Staff Writer  
Toronto, Sept. 28.—(C)—Ever since football promoters in Ottawa and Winnipeg reached into the open market to import United States players like Wally Masters and Fritz Hanson, traffic in gridiron ivory has been confined to a one-way street across the international boundary.

There were plenty of imports, but few "exports."

The trend seems to be changing now. Before long, if present indications mean anything, trade will be practically on a reciprocal basis. Les Lear, for a year a star in Western Canada, made the grade with Cleveland Rams; Joe Krol is playing for Detroit Lions; Doug Smylie of Toronto Argonauts is pondering a football excursion to some New York State university, probably Cornell, and Ross McKelvey, 21-year-old Toronto Indians backfielder, attracted favorable attention last season at Alabama University.

Around Montreal it's the same story. D'Arcy Quinn and Ralph Webber of Montreal, little known outside Quebec, left last week for North Carolina State University with four-year scholarships in their travelling bags. Dutch Davey, of Stratford, Ont., kicking half on the

Montreal. St. Hyacinthe navy team which won the Grey Cup last year, is heading in the same direction.

Football scouts from the United States are becoming almost as commonplace in Canada as their baseball counterparts. Dr. Lewis L. Walter of Atlantic City, fingerman for Holy Cross University, was in Montreal this week looking over high-school prospects. The boy who caught his eye was Pete Finlay, West Hill High product.

Dr. Walter wrote Sam (Montreal Herald) Maltin that it probably will be 1946 before quarterback Pete can enter Holy Cross, where football already has started this season. "But they want the boy! I've also submitted his name to the University of Pennsylvania and Columbia, due to his brilliant school credits."

Father Athol Murray, founder of the famed Notre Dame Boys' College at Wilcox, Sask., believes the Government has a great opportunity to help youngsters on the Prairies—and probably anywhere else in Canada—by promoting "sporting war memorials."

Father Murray suggests hangars at air schools throughout the Dominion could be converted into hockey rinks in memory of men who died on active service.

## DETROIT TIGERS, CUBS SURE TO BE IN WORLD SERIES

By JOE REICHLER  
Associated Press Sport Writer

Only complete collapse on the part of Chicago Cubs or Detroit Tigers will prevent them from meeting in the World Series.

The Cubs today enjoy a three-game lead over St. Louis Cardinals in the National League pennant race as a result of yesterday's double triumph over Cincinnati, 3-1 and 7-4 while the Cards were bowing to Pittsburgh, 5-2.

Even if the Cubs were to lose all

three of their remaining games and the Cards were to win their three, Cholly Grimm's Jolly Bruins, like the Tigers in the American League, can get no worse than a tie for the flag.

The Cubs rest today preparing for their three-game clash with the Pirates starting with a doubleheader Saturday, needing only one victory to clinch the flag. The Cards, meanwhile, engage the Reds in three games, two of them tomorrow.

Steve O'Neill's cocksure Bengals, idle yesterday, also remain inactive until tomorrow when they come to grips with St. Louis Browns, defending World Series champions, in the first of a two-game week-end meeting. Like the Cubs, the Tigers need only one victory to edge out Washington for the junior loop championship.

The Senators, who ended their current campaign last Sunday, switched from praying to playing yesterday by edging out Boston Red Sox 2-1 in an exhibition.

In the event a "miracle" occurs the Cubs and Tigers blow all their remaining games while the Cards win theirs, the Cubs and Cardinals would meet in a playoff game Monday as would the Tigers and Senators. Otherwise the Tigers will attempt to even their World Series competition against the Cubs to whom they lost in 1907 and '08 and defeated in 1935.

Yesterday's twin victory gave the Cubs a mark of 21 triumphs against one loss for the year's campaigning against the Rhinelanders. Only the 1909 Cubs against Boston Braves, the 1927 New York Yankees against the Browns and the 1937 Pirates against the Redlegs, accomplished that feat.

In the only other Big League contest, the Yankees clung to their slight chance to finish third in the American League standing, with a 3-1 conquest of Philadelphia Athletics. Red Ruffing won his seventh victory since his discharge from the United States Army by combining a home run with six-hit pitching.

LENNOXVILLE MEMBERS WIND UP SEASON  
The members of the Lennoxville Golf Club will wind up a successful season with a mixed four-ball competition on Saturday afternoon, September 29. Should the weather be unfavorable, this match will be held on Sunday, September 30.

The defeat marked the A's 98th loss of the season and the Club's 15th cellar finish.

The Cleveland Indians-Browns contest was washed out by rain.

## Newark Bears Are Two-Up In Series With Royals For Governor's Trophy

Montreal, Sept. 28.—(C)—With the Bears two-up in the series, Montreal Royals and Newark travelled southwards today to pick up the third game of the Governor's Cup series in the International League park at Newark Saturday.

Newark trailed the Royals 3-1 going into the ninth last night then ganged up on Honest John Gabbard to send home three runs and take the contest 4-3.

Lanky Carl Drews hurled the Newark team until the top half of the seventh and was replaced by Frank Makosky, who was awarded the win, who in turn gave up his spot to Jack Farmer in the ninth.

Jean Pierre Roy was also relieved in the seventh by Gabbard who pitched well until the ninth when Bears staged their scoring spree.

First baseman Phil Weintraub and Fielder Jerry Crosby were the main cogs in the toppling Royals. Weintraub rifled a long single with bases loaded scoring two men and tying things up. Jerry Crosby followed with his double to rightfield sending home the winning run.

Probable pitchers Saturday will be Ray Hathaway for Montreal, who pitched the disastrous first game, and Johnny Moore for Newark.

## TRENHOLMVILLE

Upwards of twenty-five relatives and friends gathered at the home of Mr. and Mrs. Fred Wintle to celebrate the twenty-fifth anniversary of their wedding on September 22. Although taken by surprise they gave the guests a hearty welcome.

Cards were played for two hours and refreshments were served, which included a beautiful three-tiered wedding cake made and decorated by Mrs. Henry Armstrong and Mrs. Harold Stevens and cut by the bride. The bride and groom were presented with an electric toaster and a beautiful silver dish from their family. Other gifts of silver and a purse of silver were presented to them by Mr. Walter Coles, of Richmond, from their relatives and friends. The party then

broke up, all wishing the bride and groom of twenty-five years many more happy anniversaries.

Mr. and Mrs. Fred Wintle, Messrs. Lloyd Wintle and Russell Stevens and Miss Isabel Stevens spent a day in North Hatley and Sherbrooke.

Mr. and Mrs. Fred Wintle, Mr. Lloyd Wintle, Mr. and Mrs. Henry Armstrong and Miss M. Healy spent a day in Plattsville and Victoriaville.

Mr. and Mrs. William Gilchrist and Miss Marjorie Gilchrist, of Richmond, were guests of Mr. and Mrs. Henry Armstrong, then accompanied by Mr. and Mrs. Roy Johnston, of Asbestos, were guests of Mr. and Mrs. Harold Stevens.

Mr. and Mrs. R. F. Woodburn, of Kirkdale, were guests of Mr. and Mrs. M. A. Gee.

## Where's Joe?

On the Way to his Old Job

Yes, Joe is going back to his old job, just as thousands of other Canadian service men are at this time.

They will be greeting old friends, and making many new ones. Be a leader in extending a hearty hand of welcome to the men who took time off to look after the business of free people all over the world.

Tell them that it was a job well done, and show them they have a new job well worth doing.
