

STILL HOPE TO AVERT OUTBREAK AT LIMERICK Decide On Auto Tax--Dominion Parliament Opened Today

LARGE FORCES OF REGULAR IRISH REPUBLICAN ARMY TROOPS ARRIVE AT LIMERICK--CITY QUIET TODAY

Regular Republican Troops Are Occupying Five Barracks and Have Also Taken Over the Limerick Jail--British Troops Are Still Occupying the New Barracks and the Ordnance Building--Ordinary Police Duties Being Performed by Irish Republican Army Regulars--Pending the Outcome of Negotiations It Has Been Agreed That Neither Side Should Interfere with the Other.

(Associated Press Despatch)

LIMERICK, March 8.—Large forces of regular Irish Republican Army troops are now in Limerick occupying the Williams Street barracks and five of the other barracks located here. They have, also, taken over the local jail. British troops are still occupying the new barracks and the ordnance building. The ordinary police duties are being performed by Irish Republican army regulars.

The city was quiet this morning and the population in general appeared more composed than at any time since last Sunday's invasion by insurgent Irish Republican army forces, who commandeered the principal hotels and are still occupying them as billets.

Substantial reinforcements for the Republican regulars came in last night, five hundred men arriving from East Clare and East Limerick. They were accompanied by an armored car.

Nearly coincident with the coming of the reinforcements was the arrival of Richard Mulcahy, the Dail Minister of Defence, and other Provisional Government representatives, who began negotiations with the insurgent Republican troops. Strong hopes were expressed that an understanding would be reached making it unnecessary to use force in bringing about the withdrawal of the invaders, and pending the outcome of the negotiations it was agreed that neither side should interfere with the other.

FOUR KILLED IN DISORDERS AT BELFAST, YESTERDAY

BELFAST, March 8.—Four deaths resulted yesterday continuation of disorders which have been in progress since last week.

JOURNAL DISCUSSES THE LIMERICK SITUATION

(Associated Press Despatch.)
DUBLIN, March 8.—Freeman's Journal discussing the Limerick situation today dealt with what it described as "Eamon de Valera's silence," and said editorially:

"De Valera, so far as is known, has taken no step to correct the actions of hot-headed persons who, pretending to be his followers, have invaded Limerick and quartered themselves in that city as its inhabitants. Thanks to the self-control of the rank and file of the Irish Republican army, actual violence so far have been avoided. The situation, however, in the city is impossible and full of danger. Conflict at the present moment would be an outrage on the Irish nation, and its name throughout the world. It behooves de Valera to speak and let the world know where he stands."

CLAIMS OF THE CREDITORS ON FOREIGN FIRMS

Test Case to Be Taken to Determine Rights of the Canadian Creditors.

(Associated Press Despatch.)
TORONTO, March 8.—The question of the rights of Canadian creditors to first claim on the Canadian credits of a defunct foreign firm is very prominent just now in view of the wave of brokerage failures in New York.

The belief is current, says the Telegram, that legal action will sustain the ground taken by creditors of such concern that no Canadian credits can be sent abroad unless Canadian debts are satisfied. The matter is to be tested in the case of the suspension of the firm of E. H. Clarke and Company, New York brokers, who had an office here, for yesterday assignment was made to the Trusts and Guarantee Company which concern is taking immediate steps to tie up all balances and securities held by the firm in Canada until a decision is reached.

LONDON, March 8.—Viscount Grey underwent an operation for ulcer last night and his condition is serious. He is also suffering from kidney disease.

THE WEATHER

FAIR AND COLD

The disturbance centred south of James Bay yesterday is now centred over the Gulf of St. Lawrence. A fairly heavy rainfall is reported from Quebec and the western districts of the Maritime Provinces. The weather has been fair with moderate temperature in the West and is now fair and colder in Ontario. Forecast: Decreasing winds, fair and cold tonight. Thursday, fair and rather cold at first, then moderating.

LLOYD GEORGE AT A CABINET MEETING TODAY

Few Informed Persons Took the View Today that the Political Crisis Had Been Solved.

(Associated Press Despatch)

LONDON, March 8.—Premier Lloyd George, who has been suffering from an attack of bronchial catarrh, had sufficiently recovered this morning to be able to preside at a meeting of the Cabinet. Sir Arthur Balfour, Lord President of the Council, was present.

It is understood the principal question considered was a proposed loan of \$350,000 to the Russian Government famine relief.

Sir Arthur Balfour's plea for a continuance of the coalition in a speech at the City Carlton Club yesterday afternoon did nothing to improve the position of the coalition and left matters as they were, with the resignation of Premier Lloyd George hanging in the air, according to the almost unanimously agreed opinion of political correspondents and editorial writers today.

The London Times says, editorially: "Sir Arthur's speech was a philosophical effort, the worth of which will be more readily judged when its inevitable failure has been apparent."

Few informed persons took the view today that the crisis had been solved, although a majority declined to predict any immediate development, implying a belief that the situation would remain in a state of suspense during the Premier's holiday.

The two conspicuous exceptions to this viewpoint were the Westminster Gazette, which declared that the storm was working up again and the political atmosphere was charged with electricity, while the Daily Sketch referred somewhat indefinitely to "possibly startling events before the Premier goes tomorrow to Criccieth on his holiday," and added that the Premier's resignation was probably as imminent as ever.

IMPORT DUTIES SUSPENDED

WARSAW, March 8.—All import duties on food, clothing and shoes have been suspended for six weeks by a decree designed to lower the cost of living.

Senator Lodge Warns U. S. Senate That Defeat By "Four Power Treaty" Will Mean Failure Of Washington Arms Conference

The Anglo-Japanese Agreement, Senator Lodge Told the Senate, Was Regarded as "The Most Dangerous Element" in the United States Government's Relations with the Far East—Sounds Warning to House.

(Associated Press Despatch.)
WASHINGTON, March 8.—Termination of the Anglo-Japanese Alliance and substitution of a political system actuated by peace in the Pacific was described in the Senate today by Senator Lodge, of Massachusetts, the Republican leader and a member of the United States arms delegation, as the "main purpose" of the "Four Power Pacific Treaty."

The Anglo-Japanese arrangement, Senator Lodge declared, was regarded by the delegation as "the most dangerous element" in the United States Government's relations with the Far East. He asserted that if the four power pact, with its clause abrogating the alliance failed, the naval limitation agreement, also, would be endangered, resulting in "failure of the conference."

No entangling commitments are contained in the treaty, he asserted, and no provisions contrary to United States traditions. Declaring he desired to "tell the Senate with entire frankness," the motives which actuated the United States delegation, Mr. Lodge said:

"The delegation members were united in the desire to secure results from the conference which would promote the peace of the world, reduce in some measure the burdens of taxation imposed by the existence of armies and fleets and the competition of armaments, and protect the future peace and safety of the United States. We were of one mind in agreeing that if we were to have any measure of success, we must think in terms of peace and not in terms of war."

HAD THREE GREAT OBJECTIVES.

"Actuated by these beliefs and by this spirit, we were clearly of the opinion that there lay before us three great objectives, three dominant purposes to be attained. One was the termination of the Anglo-Japanese alliance. The next was an agreement with the five principal Allied and associated powers seated at the table for a reduction of naval armaments. The third was to accomplish all that was possible to aid China in such ways as to help her in the establishment of a free and independent government, and par-

A VIRTUAL BLOCKADE THROWN AROUND FIUME.

LONDON, Mar. 8.—A virtual blockade was thrown around Fiume yesterday, orders being issued forbidding the entrance into the city of any but Fiume citizens, and ordering the disarming of all suspected persons.

Giovanni Giuriati, deputy from Venice, has been proclaimed head of the Fiume government which will replace the overthrown Zanella government, says a Central News Despatch from Rome today.

Deputy Giuriati was formally D'Annunzio's chief of cabinet at Fiume.

MANITOBA LEGISLATURE IN FAVOR OF RECIPROCITY

WINNIPEG, March 8.—Trade reciprocity between the Dominion and the United States was favored by the Manitoba Legislature, yesterday afternoon. A resolution, proposed by George Palmer, Labor member for Dauphin, asking the Canadian Government to enter negotiations for a reciprocity pact, was carried unanimously.

Decided To Fix Tax On Passenger Motor Cars At Ninety Cents Per Horsepower--An Interesting Debate On The David Bill

David Bill Was Given Third Reading—Measure Provides for an Annual Grant of \$10,000 to Each Classical College in the Province and an Annual Grant of \$40,000 to the Protestant Committee of Public Instruction.

(Special to The Record)
QUEBEC, QUE., March 8.—The big question at the Provincial Liberal caucus held here yesterday, concerned the motor vehicle law, when it was decided to fix at ninety cents the tax to be charged per horsepower of passenger cars. The election date question was deferred.

DAVID BILL GIVEN FINAL READING.

(Special to The Record)
QUEBEC, QUE., March 8.—An interesting debate was heard in the Legislature, yesterday afternoon, when the David Bill providing for grants to classical colleges came up for study in committee of the House. After the debate the measure was given final reading.

Explaining the bill, Hon. Mr. Perreault, leader of the Council, said that the measure provided for an annual grant of \$10,000 to each classical college in the Province, and an annual grant of \$40,000 to the Protestant Committee of Public Instruction. These, he said, were made unconditionally. The only thing that was exacted from the colleges was that they send to the Provincial Secretary every year a list of their professors holding superior normal school diplomas. The Government felt that the money thus granted would be suitably employed. Hon. Mr. Perreault praised the classical colleges of the Province of Quebec, and spoke of all the good they accomplished.

Hon. Dr. Choquette strongly supported the measure. He said that in face of all the bills embodying reforms aiming at the stimulation of intellectual advancement in the Province of Quebec, he could not refrain from paying a tribute to the industry and the patriotic foresight of the Hon. Mr. David. He was happy that the Government was making the grant unconditionally. It was a case where the joy of giving would be greater than the joy of receiving.

TASCHEREAU BILL BEFORE HOUSE.

(Special to The Record)
QUEBEC, QUE., March 8.—Second reading was given in the House, yesterday, to Hon. A. Taschereau's bill legalizing marriages, baptisms and rites of burial in the cases of non-British clergymen. The law is sweeping as to what has occurred, reading as follows: "Notwithstanding any law to the contrary, or the provisions of any special act, any register of civil status shall be deemed to have been kept by one entitled by law to do so, when it has been kept by a priest, missionary or minister of any religious denomination, within the purview of Article 7251 of the Revised Statutes, 1909, who, duly authorized by the competent ecclesiastical authority thereof to celebrate marriages, administer baptism or perform the rites of burial, was doing duty as such priest, missionary or minister in any church, congregation or religious community of such denomination in this province, and all marriages, baptisms and acts of burial hitherto so performed by him shall be deemed valid and legal as if they had been performed by one legally competent to perform the same."

FIRST BRITISH ORDER OF PAPER FROM CANADA

Price Brothers Company Receive an Order for 13,500 Tons of Newsprint.

(Associated Press Despatch.)

QUEBEC, March 8.—J. L. Appelle, general manager for Price Bros. Company, Limited, stated here last night that the first shipment of an order of 13,500 tons of newsprint which his company has contracted to supply to the London Daily Express, will be made this month. The first shipment will consist of one thousand tons and will be made through the Cunard-Donaldson line. It was explained by Mr. Appelle that this was a deferred shipment which it had been planned in conjunction with the Quebec Harbor Commission to ship from this port shipment all separate shipments will be made by the port of Quebec, and will be distributed over a period of nine months.

The total value of the shipment is approximately \$900,000.

THE FEASIBILITY OF ADOPTING DAYLIGHT SAVING ONCE AGAIN BEING CONSIDERED LOCALLY

Difference of Opinion—Majority in Favor of Adopting the System—Question Likely to Be Considered Soon by the City Council—Manufacturers Practically Unanimous in Approving Same—Much Depends on Railways and on the Local City Fathers.

THE possibility of adopting the daylight saving system will again be up for discussion before the City Council in the very near future. This question has developed into a yearly controversy and it is now an acknowledged fact that the urban centres are strongly in favor of the advance in hours while the rural districts are just as strongly opposed.

A brief review of the opinions of some of the more important manufacturing concerns, business houses and prominent citizens, would appear to suggest that insofar as the City of Sherbrooke is concerned, the tendency is to favor the daylight saving system.

A few opinions are expressed below:

His Worship Mayor Wm. Morris, K. C.—"I certainly approve of the idea but to be presented in an ideal form the scheme should be adopted universally. The railways are the big factors in the matter and provided they change to the proposed system, many others would follow."

Alderman A. C. Skinner—"It will be a very good thing for the community in general and I hope that the matter will receive the serious consideration of the Council."

Mr. Gordon Edwards, Edwards Furniture Company—"I am strongly in favor of the system and am inclined to believe that the majority of the other merchants in town are equally in favor. It enables the staffs to finish up an hour earlier and makes it possible to enjoy an outing after tea."

Manufacturers Largely in Favor.
Mr. A. A. Munster, of the Julius Kayser Co.—"As far as the Company is concerned we have no decided preference, in fact it is absolutely immaterial to us whether the daylight system is adopted or not. I am inclined to think that our employees are against the system."

Mr. Andrew Sangster, of the Canadian Ingersoll Rand Co.—"I would like to see the daylight saving system adopted both from a personal and a business viewpoint."

Mr. J. H. Christie, of the Canadian Connecticut Cotton Mills—"Personally I think it is a splendid idea, it gives us an hour extra out in the sunshine and fresh air."

Mr. Karl Barrett, of the E. T. Fairbanks and Company Ltd.—"We have always got along very nicely with the daylight saving system up here and we think it is a splendid idea. I am inclined to believe that the employees along look upon it that way as they appreciate an extra hour in the evening."

Mr. Walter Allatt, Bakery—"We bakers work day and night so that it does not affect us. We have no objection to it."

G. P. Thompson, Superheater Company—"I am personally very much in favor of the daylight saving system and I think the men in general."

Mr. James Duncan, of Duncan's Limited, says—"You may quote me as being in favor of daylight saving. It is a thing which is beneficial to all."

W. P. McVie, General Secretary of the Young Men's Christian Association, says—"I am absolutely in favor of the scheme. It is an excellent thing for the community in general."

Mr. Robert Newton, of the Canadian Ingersoll Rand Company, says—"Both as an alderman and as a manufacturer, I am strongly in favor of daylight saving. I think that it is an excellent thing for the working man."

Mr. Fred Dakin, of the Newton-Dakin Construction Company, says—"You must decide for me as being emphatically in favor of daylight saving system and I think the men in general."

Session Of Parliament Opens To-morrow Notice Given Of Three Government Bills

For First Time in Many Years, Parliament Will Not Begin Its Session with the Order Paper Practically Barren.

(Associated Press Despatch.)
OTTAWA, March 8.—For the first time in many years parliament will not begin its session with the order paper practically barren of notice of intended legislation, for notice of three government bills reached the hands of House officials, for insertion in the orders of the first day.

Notice is given by the Minister of Militia of the introduction of "an act respecting the Department of National Defence." This will provide for the amalgamation of the militia, naval, air force and mounted police under the one minister of defence. The act in question was forecast by the Premier some time ago.

Notice has been given also of an act to amend the Penitentiaries Act and an act to amend the salaries and House of Commons Act. In each case, it is understood that the amendments to the two latter acts are not particularly outstanding.

L. H. Martell, M.P., for Hants, N. S., has given notice he will ask for returns showing the amount collected during the fiscal year 1920-21 as income tax on the amount expended in the collection of the tax.

Between sixty and seventy of the new members of parliament had been sworn in by last evening, including the lady member, Miss Agnes MacPhail.

HOUSE WILL NOT RISE ON FIFTIETH DAY

(Associated Press Despatch.)
OTTAWA, March 8.—Because of

a peculiar oversight in the legislation which provides for the payment of indemnities to the members of the Commons and Senate, members who are now here are firm in their resolve that the House will sit either more or less than fifty days, but that it will not rise on the fiftieth day of the session.

Despite the fact that the legislation was supposed to have been reviewed in both House before it became law, it was found toward the end of last session that there was no provision for the payment of any indemnity to the members or senators should parliament prorogue on the fiftieth day after meeting.

The Act provides that if the House sits for less than fifty days there shall be a deduction from the indemnities of four thousand dollars each, and should the House sit "for more than fifty days" there will be payment of the full indemnity. There is not, however, any provision for payment should the House rise on the fiftieth day and therefore it is unlikely that the members would allow such a thing to happen.

Last year one of the accountants discovered the error in the bill, and almost created trouble when, for a time, he refused to issue monthly cheques to the Senate on the ground that if the House rose on the fiftieth day, there would be nothing due to the members. The payments were eventually made, and this session it is expected that the legislation will be amended to overcome the difficulty.

Would not be Without Zutoo Tablets At Any Cost

Mr. A. O. Norton, the millionaire Jack Manufacturer, of Boston, who recently died, was a great "booster" for Zutoo Tablets.

He suffered from headaches from childhood and when he found Zutoo Tablets stopped these headaches in a few minutes and left no bad effect, he began recommending them to his family and friends. In an unsolicited letter, Mr. Norton says in closing:

"My family use them when ever needed with equally good results. I have frequently given them to friends who were suffering from Headache and they never failed to give quick relief. I always carry Zutoo Tablets in my grip on the road and WOULD NOT BE WITHOUT THEM AT ANY COST."

We eat too much meat which clogs kidneys, then the Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys, and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Salts Fine for Aching Kidneys

We eat too much meat which clogs kidneys, then the Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys, and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

president, Miss E. V. Greenlay occupied the chair. After the opening hymn, Mrs. (Rev.) B. Watson, read the first selection of scripture, and led in prayer. Others taking part were Mrs. J. W. Bate, Mrs. G. G. Sykes, Mrs. L. Dunlop, Mrs. W. Gardner, Mrs. A. Robinson, Miss Knapp, Miss L. Bate and Miss Greenlay. Rev. E. J. Rattie, B. A., was present and assisted with the programme. Mrs. Bate was organist. This is the third time that the Auxiliaries have united in the annual Day of Prayer, and proves the good fellowship and harmony that prevails, inspiring them to go forward with renewed courage for the coming year. Dainty refreshments were served at the close of the meeting, as many of the ladies had come from a distance.

"Saved My Little Girl!"

Mother tells how her little Ethel's life was saved.

That is what one woman wrote us recently, and then she goes on to say:—"Ethel, who is just past eight, caught a bad cold last August. The child is of a highly strung, nervous temperament and could not be kept quiet in bed. We tried everything we could think of to cure her cough. But, the cough became worse and from a dry, healthy, sturdy girl she became pale and thin. Nothing we did seemed to stop the cough and by this time regular spasms of coughing had developed. These coughing spells left the child weak and completely tired out. I believe that in a short time the cough would have reached the child's lungs. After trying everything I could think of, I saw an advertisement for Carnol, and that this preparation would build one up. I got a bottle from the druggist and before it was half finished my little girl had almost completely shaken off her cough. Her cheeks began to get back their old color. She started to put on flesh again and would run and play all day without being tired. Today, after having taken two bottles of Carnol, she is looking and feeling better than she has ever felt in her life."

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle and he will refund your money.

MAGNESIA FINE FOR ACID STOMACH

Quickly Neutralises Acidity. Stops Fermentation. Sweetens the Stomach.

Nine people in ten, when food upsets the stomach causing distress, think they have indigestion. In reality they are suffering from "acid stomach." An excess of acid in the stomach causes gas, heartburn, bloating and sourness.

To have a strong healthy stomach capable of easily and normally digesting three hearty meals a day you simply must keep the stomach acids neutralized and the stomach contents sweet. No artificial digestants are necessary. Just get a few ounces of Blue Label Magnesia from any good drug store and take a teaspoonful of the powder or two tablets in a half glass of water after eating or whenever the slightest pain is felt. The result is amazing and you will be delighted with the almost instant relief it brings. This famous stomach sweetener combines Magnesia and Bismuth in desirable proportions and is not only splendidly effective but perfectly harmless. Its regular use keeps the stomach sweet, strong and healthy all the time.

Disputed Magnesia is well known to druggists everywhere and is used annually by more than a half million people who now eat as they please, in reason, with no more fear of indigestion.

FINAL MEETING OF SNOWSHOE
CLUB TONIGHT.

The Sherbrooke Snowshoe Club
will hold its final meeting of the
season tonight, when sugar-on-snow
will be the chief item on the pro-
gramme. It is expected that there
will be a large rally of members for
the final gathering of the season.

STOKE LADY DIED AT AGE OF
NINETY-EIGHT.

The death occurred yesterday
morning of Mrs. Eudore Lemieux,
nee Sophie Barrette, of Stoke. The
deceased, who passed away at the
ripe age of ninety-eight years, was
the mother of Rev. J. E. Lemieux,
parish curate of Stoke.

GATHERING OF METHODIST
LADIES' CIRCLE LAST
EVENING.

The Methodist Ladies' Circle met
last evening at the home of Mrs. S.
E. Pitts, on Stanley Avenue. Owing
to the unpleasant weather, very few
members were present. However,
those who were there had a very en-
joyable evening. Light refreshments
were served by the hostesses, Mrs.
Pitts and Mrs. Earl.

NEWTON VALUATION SCHEME
BEING DISCUSSED.

A committee of the City Council,
to which was referred the Newton
plan for an improved system of prop-
erty valuation, has been holding
frequent meetings to discuss the
proposed system. Representatives of
the Citizens' Association have been
called in for consultation in this
connection. A meeting of the com-
mittee was held last evening in the
City Hall.

ST. ANDREW'S YOUNG LADIES'
AID.

The Young Ladies' Aid of St. An-
drew's Church met last evening at
the home of Miss Mary Milford on
King Street. Quite a large number
of young people were present, in
spite of the unfavorable weather,
and spent a very pleasant evening.
It was decided that the Young Lad-
ies' Aid would hold a Japanese ev-
ening towards the end of March.
Refreshments were served by the
Misses Milford towards the end of
the evening.

SHERBROOKE POULTRY ASSO-
CIATION MEETING WAS
PUT OFF.

The meeting of the Sherbrooke
Poultry Association which was to
have been held last evening in the
office of the Eastern Townships
Agricultural Society was postponed
on account of the inclement weather.
This meeting was to have been an
"Exhibit Meeting," and it was
felt that members would not care
to bring along their exhibits on a
night such as last night. The meet-
ing will be held, however, in the
E. T. A. A. officers, two weeks from
last night.

ST. PATRICK'S MISSION CIRCLE

The first of the Lenten meetings
of St. Patrick's Church Mission Circle
was held on Monday evening in
the Church Hall, and a considerable
amount of business was attended to.
Authorization was given for the pur-
chase of sheets, pillow slips and
towels for China Mission College.

the necessary information as to di-
mensions, etc., having been received
from Father Fraser since the previ-
ous meeting. Several members vol-
unteered to make up the bed linen

A short mission story was read,
and also the opening chapter of a
pamphlet, "For Christ's Kingdom,"
by Rev. Herman J. Fischer, S.V.D.,
in which the keynote of mission
work was especially stressed in a
quotation from Archbishop Ireland:
"The preaching of the Gospel to all
nations, to every creature, is the so-
lemn mandate of the Divine Founder
of the Church. The mandate is gen-
eral to the whole Church, special and
particular to every member of the
Church. All Catholics are bound, in
one way or another, to assist in hav-
ing Christ's Church at the doorway
of every child of God. Some will do
this by immediate and personal work
in the missions; others by gifts of
material means needed in the main-
tenance of these missions. You have
not the sublime vocation of Apostles;
yet you cannot go to carry the light
of the Gospel into these regions of
darkness; but you can help the her-
oic Apostles of today. You can help
by your prayers and sympathy, and
maintain by your offerings those
soldiers of the cross who are pen-
etrating the fastnesses of heathenism
where Satan reigns, fighting God's
battle with a courage and self-sac-
rifice unparalleled on battlefields."
The next meeting will be held on
March 20, in the Church Hall.

MEETING OF CHILD'S WEL-
FARE CLINIC.

The regular monthly meeting of
the Child's Welfare Clinic commit-
tee was held at four o'clock yester-
day afternoon in the Red Cross
room. The president, Mrs. W. S.
Allen, presided. The minutes of the
last meeting and the treasurer's re-
port were given, and it was shown
that since the clinic has opened,
three hundred and fifty-seven chil-
dren have been treated, but it was
pointed out that the usefulness of
the clinic this winter has been much
curtailed by the fact that the Pro-
testant School Board has not this
year sufficient funds to continue
the medical school inspection. This
has greatly handicapped the activi-
ties of the clinic, as the follow-up
work of this inspection was one of
the principal opportunities of get-
ting into touch with children who
needed medical treatment and ad-
vice.

LAST OF EVANGELISTIC SER-
VICES HELD LAST NIGHT.

The last of these special services
was held in the Art Hall. In spite
of wind and rain over one hundred
people gathered to hear Mr. Linton's
sermon on "The Unpardonable Sin."
The text was Luke 12:10 and the
sermon one of the most power-
ful of the series. This sin was said
to be that state of mind and heart
which leads a man finally to say
"No," to the invitation of Christ.
There was a line in this life that a
man could cross when the Spirit of
God would bear him. God had said
"My Spirit shall not always strive
with man." Men can lose every de-
sire to be a Christian. He gave a
graphic and terrible picture of the
man or woman living thirty or forty
years forsaken by God. Men and
women became so married to their
sins that God says, "He said to
Ephraim, 'He is married to his
idols, let him alone.' If any man
had the least desire to become a
Christian, that was an evidence that
he had not committed that sin.

In response to the earnest in-
vitation of the Evangelist, the largest
number at any of the services ac-
cepted Christ as their Saviour and
had a personal interview with Mr.
Linton and the Pastor.
Much regret was expressed at the
closing of the services. Many have
been greatly helped. Mr. Linton
had to return to his own church to
prepare for special services there
next week. He left this morning
on the nine o'clock Halifax. The
services will be continued in the
church tonight and Thursday.

VICTORIAN ORDER OF NURSES
HELD MONTHLY MEETING.

The regular monthly meeting of
the Victorian Order of Nurses was
held in the Red Cross rooms yester-
day afternoon. In the absence of
the president, Mrs. B. C. Howard,
presided. There were a large num-
ber of people present. The minutes
of the last meeting were read and
approved and the report of the treas-
urer was read. The nurses' report
showed that a great deal of work
had been accomplished during the
last month, when thirty-six patients
had been nursed. The difficulty of
supporting this work in Sherbrooke
was the chief subject of discussion,
and the Rev. Mr. Bigg suggested
that the work should be given more
publicity, as he felt sure that the
people of Sherbrooke did not real-
ize the value of the assistance given
to the poor and sick. Mr. Bigg
stated that he constantly met the
Victorian Order nurse in the homes
where there was sickness and dis-
tress, and he could speak with thor-
ough appreciation of the necessity
of the work. Mr. Bigg thought that
the industries and business men of
Sherbrooke would respond if they
understood that last year's work re-
quired \$3,415 for maintenance, and
that the results accomplished by the
work more than justified this ex-
penditure.

It was suggested by one of the
members of the Order that everyone
present at the meeting should make
an effort to obtain at least ten new
members before the next monthly
meeting.
Reference was made to the fact
that next Sunday was to be observ-
ed in the churches of Sherbrooke
and Lennoxville as Victorian Order
Sunday, and hope was expressed
that people would take this opportu-
nity of contributing to a work
which is so highly commended by
the clergy of the city.

ASSURANCE MEN HELD AN-
NUAL MEETING.

At the annual meeting of the As-
surance Association of Sherbrooke,
the following officers were elected:
Hon. President, T. J. Parkes, Sun
Life; President, H. St. C. Clayton,
Mutual Life; Vice-President, Jos.

HEAVY RAINFALL FLOODS STREETS LAST EVENING

Street Railway Held Up and
Many Streets Flooded.

Pedestrians were forced to be wary
last evening in picking their steps
along the slippery streets. Many
minor accidents were recorded in the
course of the evening, although so
far as can be ascertained, there were
no bones broken. One young lady
while on her way across Strathcona
Square found herself launched sud-
denly into space, to descend directly
into the middle of a pool of water.
However, judging by the peals of
laughter from the victim and her two
friends, no serious damage was done.
The Street Railway Company met
with many obstacles at various
points on their lines, notably at the
foot of Frontenac street, where
quantities of large stones, washed
down the street by the torrents of
water, were piled across the rails.
One car was derailed at the foot of
Strathcona Square, and the workmen
were forced to work in four inches of
water to put it back on the rails.
Sewers all over the city were throw-
ing the water back into the streets.
One beneficial effect which the
storm will have will be the increase
in power to be obtained from the
rivers. Many manufacturers have
been of late forced to operate at in-
tervals and in shifts, owing to the
difficulty of providing enough power
for all factories at the same time.
The increase in water power will
come, therefore, as a boon to the in-
dustrial men.
Reports from the Experimental
Farm show that three-quarters of an
inch of rain fell during the evening,
which did much to hasten the melt-
ing of the winter's snow. However,
this morning the mercury dropped a
bit and the progress of spring is
arrested temporarily.

LENNOXVILLE

Town Council Meets

The regular monthly meeting of
the Town Council was held on Mon-
day evening in the usual place.
Mayor William Clarke presided, and
Aldermen Arguin, Bennett, Bellam,
Downs, Harrison and Winder were
present, constituting a full board.
Routine business occupied the great-
er part of the meeting, the discus-
sion following bringing out the fact
that the financial affairs of the town
were in good order. Several matters
were brought up, final settlement of
which will take place at a later
meeting.

General Notes

The annual meeting for the elec-
tion of officers, etc., of the Women's
Institute will be held on Thursday
afternoon at 2.30.

Mrs. William Woodward, of Phi-
ladelphia, formerly of Lennoxville,
was in town recently, and called on
many of her former friends.

Mr. and Mrs. S. J. Forbes left this
morning for a week's stay in their
former home at Inverness.

Crows have made their appear-
ance during the last few days in suf-
ficient numbers to warrant belief in
the approach of spring.

The postponed anniversary ser-
vices of the Methodist Church are
to take place next Sunday and Mon-
day. Rev. H. Mick, of Stanstead,
will be the speaker on Sunday, and
will also address the platform meet-
ing on Monday. Rev. B. B. Brown,
of Sherbrooke, will also be present,
as well as Rev. Mr. Moody, of Bir-
chton. Special music will be given at
all the meetings.

BOSTON ENGLISH OPERA CO. HERE SAT. MARCH 11

The seat sale for the Boston English Opera Co., in the world's most popular opera Il Trovatore which comes to His Majesty's Theatre on Saturday, March 11 opened with a rush and from all indications every seat in the house will be sold before the day of the performance. Patrons are therefore urged to make their reservations as soon as possible and avoid disappointment.

Boy Scout News

On Thursday next, March 9th, a re-organization meeting of the 2nd Sherbrooke Troop Band will be held at 7.30 o'clock in Scout Headquarters over the Great War Veterans Rooms, Dufferin Avenue. The troop has been very fortunate in securing the services of an expert drummer in the person of Mr. Saunders, who has very kindly consented to instruct the Scouts in drumming. The buglers will be instructed by P. L. Lynn Trussler, a veteran Scout, and very efficient in bugle and cornet playing. All Scouts wishing to resume their work with the band, or any that feel interested in any way, should make a point of being present at this important meeting.

The 2nd Troop hockey team travelled to Coaticook on Saturday last, March 4th, and played a tie game with the Coaticook Scout team. The score was 1 all. H. Goldman scored the point for the 2nd Sherbrooke team. The ice was very bad, but both teams played well. The players of the 2nd Troop were as follows: Stoyles Goal; Goldman Defence; Flanders Defence; Pearson Wing; Strew Centre; Spafford Wing.

The 2nd Sherbrooke Troop has played three games so far this season: 2nd Troop vs 4th Troop, 2nd defeated, 2 to 1. 2nd Troop vs Tigers, 2nd defeated, 1 to 0. 2nd Troop vs Coaticook Troop, draw, 1 to 1.

The 4th Sherbrooke (Methodist) Troop has been successful in obtaining a new Scoutmaster, Mr. Fenwick Parker, who began his duties on Friday evening last. The Troop is very glad to have a leader once again, as they have been working without an officer in charge for some time; the boys all acknowledge themselves very fortunate in having a commander like "Pink" Parker.

The Board of Examiners for proficiency badges will meet after the regular meetings next Friday evening, March 10th, at Scout Headquarters, Dufferin Avenue. The new system inaugurated for the paying of proficiency badges by boys who come before the board is as follows: Before the examination, each boy must deposit ten cents for each badge, and if successful in passing same, nothing more is required. If the boy fails, five cents is refunded to the candidate and five cents is given to his troop funds.

The challenge issued by Troop Leader Banks of the 4th Troop has been accepted by Scout Howard Flanders, of the 2nd Troop. These two boys will wrestle for the welter-weight championship in the course of a month or so.

Lillian turned slowly; she was white as death; there was something piteous in her beautiful face. "I'm going to Rorie, mother. It's no use objecting; it's no use asking questions. I'm going at once. You can please yourself as to whether you come or not."

"But, Lillian, think of the scandal—you must be mad." Lillian made no answer. She passed her mother without a word. Mrs. Fane looked about her helplessly. She saw the open check book on the desk; she read the counterfoil on which the ink was hardly yet dry; then she gave a loud scream. But she was a business woman before everything. She tore out the counterfoil, rang up Lillian's bank on the telephone and told them to stop the check. Then she hurried upstairs and put on her hat. She firmly believed that Lillian was mad, but, at any rate, she meant to see the extraordinary affair through to a finish.

An hour later they were rolling through the country lanes on their way to Four Winds. Lillian lay back in the corner, with closed eyes and lips fast shut; she resolutely declined to speak in spite of all Mrs. Fane's attempts to induce her to do so. Her face in the shadow of her big hat was pale, with a curiously pinched look about the nose and mouth. The thought struck Mrs. Fane that she seemed to have aged all at once; she was consumed with curiosity to know what the man in the shabby coat had said to her. It seemed a lifetime till they reached Four Winds.

Rorie was out; Blunt said he was expected back at any moment. He took the two ladies into the drawing room and served wine and biscuits. Bانشell looked in after a moment—he had not known they were there. He made one or two inane remarks and sat uncomfortably on a chair edge, wishing to goodness Rorie would come. He could not understand why his friend had taken Mrs. Myers' death so much to heart; he shrewdly decided that there was more behind it than even he could guess at.

He gave a great sigh of relief when he saw Rorie coming up the drive. "Here he comes," he said, cheerfully. He rose to his feet, but Lillian stopped him. "Let me go, please." She left the room without waiting for an answer; she was at the open door when Rorie came up the steps. He was walking with downcast head; his eyes, when he looked up and saw her, made her shudder. He looked like a man who has received a terrible shock. "Rorie!" She held her hands to him.

CONDITIONS IN EXPORT TRADE ARE DISCUSSED

A. D. Cole, of Ottawa, Spoke at Rotary Club.

There was a splendid turnout at last night's meeting of the Rotary Club, the speaker of the evening being Mr. A. D. Cole, of the Trade and Commerce Department, at Ottawa.

Mr. Cole is spending a couple of days in Sherbrooke visiting the different manufacturing plants with a view to encouraging if possible, the export trade.

During the course of his remarks, Mr. Cole observed that the department at Ottawa was encouraging a study of trade conditions, particularly from an expert point of view, and that after a certain period, during which experience of local manufacturers was gained, the young men in the department were sent to some foreign country for about three years after which they return to Canada and place the experience gained in the hands of the manufacturers interested.

Mr. Cole pointed out that one hundred and six young men took part in the preliminary examinations, after which thirty-six took an extra examination and twelve of them took still another test which was followed by an oral exam.

A vote of thanks was extended to the speaker by President George MacKinnon, who took the opportunity of advising the members that next week, an address would be given on the "Conservation of Eyesight."

Dr. J. McConnell briefly outlined details relative to the Los Angeles convention to be held this summer while Rotarian Walsh observed that the Montreal Rotary Club had already reserved space on two cars and expressed the hope that other members of the Sherbrooke Club would advise of their intention to join the party.

Rotarian Bert King reviewed the programme being arranged for Tuesday, March 21st, which has been set aside as ladies night. This will be the first occasion on which Rotarians and their wives will have assembled at such a meeting. A splendid programme is being arranged.

Miss Mary Coffey and Miss E. McDonald have returned to Granby after a few weeks spent with relatives and friends here.

Miss McKinnon and Miss McCut-

cheon were in Waterloo on Saturday. Miss Dora Maguire and Miss Maud Maguire returned from Montreal last week.

Mr. J. P. Cleary attended the motor show in Montreal last week and

reports a very good exhibit but very few patrons. Miss Myrtle Gaw, of Waterloo, is visiting Mr. and Mrs. Carl Fossey. Mr. Harold Fossey was in Waterloo over the week-end.

INSURANCE RATES TOO HIGH.

The City of Sherbrooke does not neglect its fire fighting equipment. It has always been kept up to date and as a consequence fire losses are exceptionally low.

The Council has just authorized the purchase of a motor truck fire apparatus. This will cost a lot of money and still further improve the equipment.

Insurance rates, however, have for a long time seemed to be out of proportion to the risk in Sherbrooke city. It would appear that Sherbrooke premiums are going to pay losses in less protected communities.

The City Council should now take the initiative in urging that a new rating be established for Sherbrooke.

THE QUESTION OF BONUSES.

The trend of events appears to be leading the cities and towns of Quebec back to the system of industrial bonuses. This retroactive movement is being brought about by the action of Ontario cities which are offering bonuses in competition with Quebec cities which are forbidden by law to grant bonuses.

This development is most unfortunate. A bonus granting rate between Canadian cities would not bring more industries to this country but it would pile up the debts of competing communities.

Canadian cities, Sherbrooke included, are in a position to offer very great advantages to foreign concerns seeking establishment in Canada. Favorable power and labor conditions are of paramount importance.

The fear of Ontario competition may not be justified for it is well known that Quebec Province in the matter of industry has decided advantages over the sister province.

The Sherbrooke City Council, the authorities of other communities and the Provincial Government itself should not permit themselves to be stampeded into a reactionary move by a situation that may be more fancied than real.

The industry worth while is not seeking substantial bonus. Other considerations are of greater importance. For such, Sherbrooke and other Quebec centers will still have attractions.

PROSPERITY RETURNING.

Reference was made in the Record, yesterday, to the rather extensive building programme in prospect for Sherbrooke during the year. If carried out the beneficial effect cannot but be felt in all lines of business.

This, of course, is only a local sign of business improvement. Throughout the country, and, indeed, throughout the world evidences are being sought of business revival. Here in Canada, depression generally comes some months after it is felt in the United States. Likewise, prosperity may be a little slower in arrival here.

It is interesting, therefore, to note the views of editors and public men of various publications in the States with regard to business revival.

Herbert Hoover, of the United States, for example, says: "As soon as the period of inventory and tax adjustments has passed, there will be renewed activity. Another condition of fundamental importance for business recovery is the fact that prices have remained relatively stable for the past six months. The buying public is gradually coming to realize that the big vertical drop in prices is over. There will probably be further gradual recessions as business is done on a more economical basis and margins are reduced, but on most commodities it is expected that these movements will be spread over a relatively longer period of time."

Thomas W. Lamont, of the banking house of J. P. Morgan, is quoted in the Literary Digest as saying: "Money is loosening up and there will be a notable quickening of trade by spring. By autumn we should be well on the way to that normal prosperity which is the natural heritage of America."

The Nebraska Farmer, a well known agricultural journal of the American West, remarks: "It is significant to hear business men, when asked nowadays for opinions upon the future trade prospects, almost invariably point out the recent increase in the price of corn, wheat and live stock to the farmer and give that as the chief reason for an improvement in the business outlook. . . . It is quite true that farm prices have been on the up-grade in recent weeks, and this is of material benefit to farmers and presents a hopeful aspect for agriculture in the coming year."

The American Banker (New York) couples with its optimism a warning when it says: "Business has reached the bottom of depression and signs are increasing that it is picking up, though very slowly. However, it is idle for people to look forward as many seem to do to a great 'boom' in a few months or so. When another real boom will come to this country is anybody's guess, but as yet there is nothing in sight to start it."

Other editors believe that permanent prosperity cannot return until more stabilized conditions prevail in the old world. The Memphis Commercial Appeal voices this when it says: "Business in the United States will not be permanently on the up-grade or up to the average until the world is so stabilized in its business and in its finance that there will be a demand and a market for American surplus goods. The way to better business is to work out a plan adjusting the debts at the Genoa Conference."

Here in Canada there is optimism. A young country, with a brief past and faith in a great future, is like a young man at the beginning of his business life. And there seems no doubt whatever that the Dominion of Canada is in a more favorable position than most countries to experience an early revival of general prosperity. As one surveys conditions throughout the world, the appreciation of our own advantages as Canadians becomes greater.

Prosperity is returning to all lines of business. Slowly, perhaps, but none the less surely it is coming.

TODAY'S A HOLIDAY.

March 8, 1922.

The Hopis of New Mexico.

One of the strangest Indian tribes of the United States, the Hopis of New Mexico, are engaged now in one of the two annual gatherings which have been characteristic of the race since long before the white man came among them. This is the deer celebration, and in it is intermixed in curious fashion the sun worship of ancient days and a sort of Christian worship gathered from the influence of Catholic missionaries three hun-

dred years ago.

This is the time for putting the tiny chairs of the gods in the adobe temples, for lighting the sacred fires and for suspending the cross upon the votive pole. Visitors to the Hopi rites have been puzzled quite frequently to see real traces of Christian worship. The Indians, when first the devout missionaries visited them, accepted the new religion of the Great Spirit—but they accepted it according to their lights.

In the dances about the fires, the monotonous chanting and the casting of the seed corn into the flames there is nothing but the primitive. Today's a holiday in the pueblos of the Hopis, and every brave appears to be a chief, in his paint and feathers, his devotion to the dance and his excitement and strutting as the merriment grows faster with the day. The Hopis will celebrate for the rest of the week, and then will go back to their homes upon the reservation, awaiting the great corn festival of the autumn, when saints and sun, God and the Great Spirit will again be curiously and reverently confused in worship.

PRESS COMMENT

THE MAN TO LET IN.

(Vancouver Sun.)
Not the man with some money; but the man who, having no money, wants to go to work and make some money, at wages the farmer can afford to pay, is the man to let into Canada. The man with a hoe!

WHERE LIES THE NEW WORLD.

(Churchman.)
There are still people in France and America who believe in the old method of keeping peace. They believe in preparedness, armaments, navies, and shrewd diplomacy. They do not trust intelligence and moral suasion. Many of them are experts, military and diplomatic. The question for the plain citizens of every country to decide is whether they are willing to continue to pay the bills in blood and money for these gentlemen's idea of statesmanship and patriotism. How long are we going to furnish the capital, moral and material, for such men to squander? If the slogan went up from millions of throats in every country in Europe and in America: "We will fight no more wars," our experts would use their brains and conscience to better advantage at the council board. That grim decision, we hope, will not be needed. The Washington Conference is a good beginning. It has discovered to the diplomatic world that there are some implements more powerful than armies. In the path of that discovery lies the new world.

MOTOR LAW CHANGES.

(Quebec Telegraph.)
The important delegation of motor owners which interviewed the ministers of the local Government yesterday upon the subject of the proposed amendments to the law labored under the disadvantage of not having before them the printed copy of the changes proposed by the Government, which proposals may perhaps, as a matter of fact, be somewhat modified as a result of yesterday's interview. The real big point at issue is that after the many millions of dollars that have been spent by the province, and well spent, too, upon the construction of good roads, the motor traffic, and especially that of heavy trucks, is so wearing upon the roadways that large sums of money are now absolutely required for putting them and keeping them in good order. It is not possible to obtain much of this from the local municipalities through which the roads pass, for their ratepayers are not as a rule owners of cars, and in some of these rural places there may not in fact be half a dozen cars.

THE BOOKLEGGING FRATERNITY.

(Chicago News.)
"Booklegging," as a growing practice among book-sellers, begins to draw comment even from that conservative organ, the Publishers' Weekly. By booklegging is meant the trade in forbidden books, or others upon which the book censor has set the seal of his disapproval.

A sale in this city traffic is accomplished by all the secrecy of a deal in boot. The customer watches for a time when the shop is empty and then, edging up to a clerk, winks at him and names a title in a hoarse whisper. The clerk winks back, holds up his finger warningly, reaches under a counter, and wraps up something by George Moore, James Joyce or James Branch Cabell. Prices run accordingly to the supposed kick and the artistic standing of the distillation.

This booklegging is not such a moral menace as one might suspect. Since most of the bootleg writers whose works are in demand are really artists, their books seldom prove as bad as they have been cracked down to be.

SAWYERVILLE, March 8. — About forty of the relatives and friends of Mr. and Mrs. Arthur Bailey went to their home on Thursday evening and gave them a surprise, it being the occasion of the twenty-fourth anniversary of their wedding day. The evening was very pleasantly spent in games, music and social intercourse, after which Rev. R. Dick, on behalf of their friends, presented the guests with a honor with a purse of money in the course of his remarks conveyed to them the hearty good wishes for many more happy anniversaries from their many friends. Mr. and Mrs. Bailey were completely taken by surprise and heartily thanked their friends for their kind remembrances. Dainty refreshments were then served by the ladies, after singing "For They Are Jolly Good Fellows," all dispersed to their homes.

The Baptists held a public dinner on Friday, the proceeds amounting to about \$24, after which the annual yearly meeting of the church was held. WITH the meatless days comes your opportunity to prove—the enormous food value of macaroni in proportion to its cost!

Compare it with meat—a loin of beef, say. The dish we have always believed most nutritious of all. Trim off all the waste from a pound of steak, and you will get only 950 units of energy as against 1625 from a pound of CATELLI'S macaroni. In actual cost, is there any comparison?

Experts in nutrition say that most of us eat too much meat. They will also tell you that macaroni, made from the best Canadian wheat, has the highest food value of any appetizing dish—that it is a better balanced food than meat, or bread, or potatoes. And there is absolutely no waste.

Housewives who serve CATELLI'S macaroni (or spaghetti), not merely as a tasty side dish, but as a substantial full meal, are constantly finding new ways of preparing it.

Try it to-day—the CATELLI way.

Page of General Interest to Women

The Woman Who Sees

Flunked.
"I really feel for that boy's parents," remarked a teacher friend of the woman's shortly before examination week. "He may possibly pull through at some subjects but his Astronomy is hopeless."

The young man referred to was a tremendous favorite with teachers and students alike. He took very little seriously and, sorry as the woman's friend might be for the parents doomed to certain disappointment, the boy was not in the least sorry for himself. The coming week held no hidden horrors for him and he approached the Astronomy examination in the same state of good natured indifference that had characterized his attitude throughout the week.

The woman felt a particular interest in the boy whose parents she had known intimately for many years. She decided to follow up the result of the Astronomy test and with that end in view, she called upon the teacher late one evening following the examination week. The young woman she found practically buried beneath a stack of uncorrected examination papers.

"Do tell me how George Hill came out in the Astronomy examination," she asked.

The teacher plucked a single sheet from one pile, saying: "My dear, read for yourself. He sauntered in, gazed blankly at the list of questions, wrote a few words and departed before the rest had begun."

The woman looked at the paper and, with real emotion read: "Sun, moon and stars forgot, upward I fly."

Sweet Lady.

The train made its two minute stop at a suburban station the commuter was aroused from her study of the morning paper by a commotion in the car. Some one had found a very fat purse in the seat behind her, and was wildly searching for the late occupant. "It belongs to the old lady," was called from across the aisle, and the finder hurried to thrust it into the trembling hand of a very frail old lady who had just reached the door. As she turned to smile her thanks the door was framed a charming picture of bewilderment, then she was gone!

"Poor old lady, it must have meant a lot to her," was the sympathetic murmur that went through the car just as an excited girl dashed into the other door, calling, "Yes, this was the car, this was the seat, I left my purse!"

"We gave it to the old lady!" and a very crestfallen benefactor pointed to the crowd on the platform. The girl turned and fled, the train pulled out and the passengers are still wondering.

Sensible Answers.

The woman is very much interested in the work of a young girl who is doing "mental testing" in the schools. "Yes," she said, "it is fascinating, sometimes so funny! Of course, the one who is giving the test should never by her manner let the child know how it is progressing, or—oh, for by the way—though a child tested to-day was a darling little girl, dirty and ragged, but as bright as a button. She was really far advanced mentally for her years."

Uncle Sam Plays

Cupid

to His Employees

UNCLE SAM wants his married employees to be happy at home so they can be efficient in their work, and to accomplish this result, in one of his San Francisco offices has decided to take the role of peace-maker and help patch up domestic trouble.

The new rule, said to be the most remarkable of its kind ever put into effect in any Federal office in the United States, was announced recently to the 400 married men and women employees of the office of the San Francisco Collector of Customs by W. B. Hamilton, who recently became head of the office.

Portions of Mr. Hamilton's talk follow:

"A married man or a married woman must be happy while he is at work or he will not do his work well."

"A married man cannot reach his full efficiency in his work if he comes to the office after a fight with his wife."

"A married woman—a woman being more temperamental than a man—left any good all day long if she quarreled with her husband at breakfast."

It is not alone a humanitarian duty, it is a service to the Government if, by patching up troubles at home, I can make the 400 married folks in the United States customs service all happy. They will work more efficiently."

Before Mr. Hamilton made his talk he held an hour's conference with one of his male employees and the employee's wife, who had been in trouble at home. A doctor and a minister of the gospel were present at the conference. Following the interview the married man went whistling back to his work and the wife went home smiling. The doctor, Mr. Hamilton said, was on hand to note pathological symptoms and the minister was invited to help in the peace-making.

His little mouth opens and shuts in keeping with his trills and whistles, and his little head turns and twists, seeming to focus his beady eye first this way, then that. His song, too, is remarkably attractive.

Wicker window boxes, or ferneries, whichever you prefer, are really an addition to any winter living room. One at each of the dining room windows, too, would be charming. The best of them is that you can use them in the summer on the veranda, where they will provide a delightful bit of furniture.

For Any Need That May Arise at Any Hour of the Day There Is a Bonnet Beautiful to Top Our "Crowning Glory"

Upper—Oriental, ornate and altogether dazzling are the new dancing caps, of which the above is a very fair example. Jet beads, long and round, glisten on a net background. Lower—Dainty, demure, the "Sainte Catherine" is the latest in boudoir chapeaux.

There is not a need that one of the hours of the twenty-four may give rise to that Fashion has not foreseen and fulfilled in ways most satisfying to her followers.

Black and white—the combination was a favorite so long that we came to think nothing could take its place in our affections. But now come the chapeaux of spring, and so varied are their shades, so colorful their trimmings, that we do not miss the absence of black and white at all. Indeed, we have to stop and think about it before we realize that it really is not among those present—at least, to any noticeable extent.

Color, it is the predominant note in the whole sartorial sympathy. Few and far between are the hats that do not

boast a touch of brilliancy, and some of them appear to find it necessary to requisition the spectrum entire before they are through with it. The way in which tone is given to the hat depends entirely on whether its designer likes best flowers, feathers, fruits or ribbon.

For instance, a drooping mushroom might safely rely only upon a wreath of silken flowers about its picturesque brim, while a bigger, "brimmer" affair might choose to have fuchsias, shades woven into a fluted ribbon trimming, and then, just for luck and effect, commandeer a huge blossom as a finishing touch.

Velvet flowers give promise of becoming more popular as the weather increases in warmth, a rather inconsistent

determination to be sure, but then, who in the wide world ever expects consistency of fashion?

The draped turban, beloved of all the fair. Sometimes it is blossoms, as a garden; again it is draped with exquisite lace, and just as often it is trimmed with nothing more than a single jeweled pin or a fluffy feather tip or a make-believe quill; perhaps the latter made by the simple expedient of winding around a metal spine sufficient georgette crepe to cover.

Pompons are to be the rage, too, and the ribbon is not doomed to absence, and the Paisley design still flourishes, even going to such extreme as allowing itself to be worked into hair cloth.

The one-sided effect still persists, and the tan is in consequence omnipresent, and to aid in achieving the unfair advantage, pompoms of huge ribbon bows, tassels, flower clusters, glittering jeweled ornaments, one of these clings precariously to the side of the best of hats.

and cannot be compared with her kind of a previous age.

"We are tempted to think of her as living in a spirit of martyrdom as readily and completely can she assume different and difficult roles of accomplishment."

She tantalizes us by the simplicity of her attire, and yet unobtrusively we find her light hearted, which is the privilege of youth. She believes with Stevenson that "to have missed the joy is to have missed it all." We find her harboring secrets and imbedded emotions which are her hidden treasure in the mysterious discovery of herself as a private individual. If we do not understand these symptoms we call it temperament and try to dispose of the girl as difficult or as "needing discipline."

Glimpses of Women in Many Fields

Only 25 per cent. of the number of girls reported missing each year in the United States come from the slums.

Of the cast number of women wage-earners in the United States 43 per cent. belong to the colored race.

Miss Jane Martin, a \$10,000 a year advertising writer in New York city, began her business career as a stenographer.

Women workers in Vienna earn from 1,000 to 1,500 crowns a week, which in American money amounts to a little over 20 cents.

Miss Bonnie McLeary, of San Antonio, Texas, daughter of a former Attorney-General of that State, is already a sculptor of note and is said to be the youngest woman to have gained entrance for her work at the National Academy in New York.

Miss Frances B. Johnston of Kentucky, is probably the only woman artistic gardener in the United States.

Miss Josephine G. Adams is assistant superintendent of documents in the Government Printing Office in Washington.

Despite her home duties, Mrs. Richard Edwards, head of the League of Women Voters in the United States, leads the activities of more than 2,000 of her sex, all members of the league.

In years gone by parents in Persia were glad to be rid of little girls and sold them for a few dollars, but now there is a strong desire to educate them, and industrial and other schools for the purpose have been established in that country.

The split sheet in the hands of the less thrifty woman means merely another couple of ironing board covers, a purpose which could be served far more economically by unleached muslin.

Economy Devices to Save Laundry

THE laundry problem has been better solved in this country than almost anywhere else on the surface of the globe. That much we can say without danger of seeming boastful for our small houses have well fitted laundries. Electric washing devices are in more general use here, and there is less delay and usually less cost for outside laundry work here than, let us say, in Paris or any other large city in France. To be sure, the French laundresses are more skilled. Their ironing is beyond reproach.

The woman whose home is equipped with adequate laundry facilities seldom has any idea of how expensive the problem is to those who travel or live in hotels in large cities. Especially distressing is the problem when there are children to be considered. Every mother seems to think that her own children have peculiar facilities in getting clean clothes soiled, and every generation of mothers thinks that children nowadays are more troublesome in this regard than children of times gone by, but undoubtedly the normal way for little girls or boys to exercise their muscles and investigate their surroundings is to creep and climb, regardless of dust and dirt.

How About Dark Clothes?

One rather distressing thought of dark clothes that do not show the soil. We hold our hands in horror at the thought of black aprons and smocks that French school children wear over their frocks and suits in school hours. Our idea would be that it would be better to let them wear clothes that showed the soil, even if they were not going to be frequently washed, for then we could at least know when they were getting too grimy.

However, there is really nothing injurious about the dust and chalk and grime of a school room. If the child's clothes are clean beneath there can be

little harm from such economy devices. Dark sateen is really of great value in making clothes for children when laundry is a problem. We borrowed the idea from the French, who discovered that the surface of this material actually does shed the dirt. A sateen frock or romper actually remains clean longer than one of ratine or other rough surfaced material.

Cuffs the Weakest Link.

In making or selecting children's clothes that are to do the best service when laundry is difficult, collars and cuffs should be points of especial consideration. If they are of white or light material they should be detachable. It is a simple proposition to have these small pieces washed separately and, if the collars and cuffs are in a child's suit are surely the weakest link.

One very good way of solving the cuff problem is to select suits and frocks with short sleeves. It is not always easy to find this type of garment in the winter, but it is a simple enough matter to shorten sleeves that are too long. Except for a delicate child, there would be no danger of cold from short sleeved frocks and suits, providing mittens or gloves with long, snug wrists were worn outdoors.

It is of course necessary to buy flannel shirts with short sleeves, or the regulation long sleeved sort can be shortened and neatly bound off.

Details That Count in Smart Wardrobe

FRONS for ladies' maids are so bewitchingly pretty these days that one wishes one might act as lady's maid to somebody. There are some made of very heavy but good quality cotton net, with the hems double, and the straps likewise double. With them go scalloped collar and cuffs sets, also made of the double net. And sometimes a little cap also of the double thickness of net. The mesh is big.

Hats of velvet show flowers of the same material, applied with gold threads to an irregular sort of one-two-three stitch.

DEATHS REPORTED

MR. TORRANCE, KINGSBURY.
KINGSBURY, Que., March 8—The oldest inhabitant of Kingsbury, passed away on March 3rd, 1922, when Thomas Torrance departed this life in his eighty-sixth year. He was one of the first residents of Kingsbury, and built and occupied one of its first homes. In his early days he owned and operated a carding mill, which at one time ran night and day. He was a member of the council of Melbourne and Brompton Gore for ten years, and served for a time as mayor.

He was afterwards the first mayor of New Rockland, and occupied this post for eight and a half years, serving part of this time also as school commissioner. He rose to be manager of the New Rockland Sale Quarry in its palmy days, and occupied this position for a number of years.

It was mainly through his influence and exertions that the Presbyterians of Kingsbury secured their church. He canvassed the people for money to start it, engaged men to do the work, and undertook the superintending of them. He slated the roof and built the belfry with his own hands, and after it was opened for worship he acted as caretaker without charge for fifteen years. He was one of the original trustees and managers, and later became one of its elders.

He always took a genuine interest in the progress of true religion. He was a man of tireless activity, ten-

Sporting News

A GRUELLING
CONTEST WON
BY WATERVILLEAfter Forty-five Minutes Over-
time St. Patricks Lost, Two to
One—A Battle Royal.

Battling forty-five minutes' over-
time, Waterville finally won a gruel-
ling contest from the St. Patricks of
Sherbrooke by a score of 2 to 1 at the
Minto Rink last night. It was a
heartbreaking game to lose and was
typical of what was to be expected
from the two most prominent clubs
in the Eastern Townships.

The St. Patrick's management
made frequent changes on the for-
ward line, holding a complete line
continually in reserve, whereas the
Waterville team only used one sub-
stitute.

As a result of last night's victory,
Waterville won the "Bisnet Cup" trophy
of the Eastern Townships Cham-
pionship and incidentally earned
the right to go to Quebec tomor-
row to play St. Valier in Provincial
Intermediate Semi-final.

A torrential downpour in the early
evening had a disastrous effect on
the attendance, although three hun-
dred enthusiastic fans braved the
elements and were amply repaid for
their confidence. The band helped to
wile away the monotony during the
intervals when the scrapers were
busy.

The first serious attack came from
Waterville and Edgcombe missed
only by inches. Wolfe retaliated,
finishing a nice run with a shot which
Rex Moore turned deftly aside. Ray
Hawkins got away nicely but his
final shot was wide and Johnston's
attempt was neatly blocked. Dan
Towne transferred the play to the
other end where Workman made a
splendid save. Leonard O'Donnell
and Ray Hawkins combined nicely
with Hawkins' shot going wide. The
St. Patrick's goal came in for a few
very narrow escapes towards the
end of the period but Workman was
in fine fettle. The period ended
without any score.

WATERVILLE SCORE
Langis made his appearance at the
opening of the second period, and
broke through only to have Rex
Moore handle his shot with ease.
Maskery was given three minutes
for razzing Wolfe and shortly after
Johnston was put off. Swanson got
away on the right and passed back
to Edgcombe who missed a great
opportunity. The play centred around
the St. Patrick's net until Johnston
inaugurated an attack on the Water-
ville defence. A mix-up occurred in
front of the Waterville goal and St.
Pats were unfortunate in not con-
trolling. Breaking away on the right
wing, Swanson passed across to
Edgcombe who had little difficulty
in slipping the puck past Workman.
It was claimed on certain sides that
Swanson had kicked the puck along.
The period closed with Waterville
leading one to nothing.

ST. PATS EQUALIZE
The final period opened up at a
fast clip with the St. Pats making
desperate efforts to equalize. Frank
Mitton picked up a nice pass and
beat Rex Moore but the point was
disallowed for off-side. Shortly af-
terwards Mickey Hawkins shot from
the right wing and the puck, drop-
ping into a pool of water, rolled over
Rex Moore's skate. This equalizing
goal seemed to inspire the St. Pats
to greater efforts and when Sid
Skales was sent off for tripping
Langis it looked as though the Sher-
brooke lads would come through.
Mickey Hawkins shot from the right
and the puck hit the post and rolled
off to the left. It was a close thing.
The end of the period arrived with
the score tied at one all.

It was decided to play ten minutes
overtime, five minutes each way. In
the first five minutes both goals
and several narrow escapes. Ray
Hawkins and Dan Towne nearly get-
ting through for their respective
sides. During the second five min-
utes, Dan Towne worked his way
through but Workman effected a nice
save and a few minutes later Keith

Johnston saved an awkward situa-
tion.

At the close of the overtime play,
it was decided to continue until the
first goal had been scored. Mickey
Hawkins was put off and Johnston
came within an ace of scoring. Dan
Towne sent across a nice shot from
the right which was well handled by
Workman and at the other end Wolfe
made a nice run. The Waterville
goal had several narrow escapes and
Leonard O'Donnell rained in several
shots in rapid succession. Langis
got through but missed on open goal
with only Rex Moore to beat.

**MASKERY SCORED WINNING
POINT**

Waterville transferred the play to
the other end and Dan Towne made
his presence felt. Workman pulled
off a splendid save going full length
of the ice for a perfect dive after
the puck.

Johnston was put off for bumping
Sid Skales and while he was in the
cooler, Maskery broke through along
the right wing and tallied the win-
ning point.

The Waterville victory was the
signal for great applause and it was
with difficulty that the players
reached the dressing room. For the
winners, D. Towne was the outstand-
ing man while there was little to
choose between the other members
of the team, each one turning in the
very best he had to offer. Moore put
up a good game in the nets.

For St. Pats, Workman was the
most conspicuous player some of his
saves being little short of sensation-
al. Hugh O'Donnell turned in one
of the best games of the season and
Leonard, on the left, was always
dangerous. Langis had an off night.

Mickey and Ray worked hard but
frequently overshot the puck while
Frank Mitton kept things moving
out on his wing. The forwards ex-
perienced considerable difficulty in
controlling their shots and this was
due largely to the condition of the
ice. Johnston turned in a good game
on the defence and it is a pity he
did not stay on the ice. Wolfe work-
ed hard but found the going difficult
and has frequently been seen to bet-
ter advantage. The St. Pats for-
wards failed to follow up on the
shots and many splendid opportuni-
ties were allowed to go begging.

The game was handled by Messrs.
T. Molyneux and G. Wiggert who
kept complete control at all times.
"BISNET CUP" PRESENTED
Subsequent to the game, the Bis-
net Cup offered by Mr. A. J. Bis-
sonet, M.L.A., for Stanstead County,
was presented to the winners by Mr.
A. W. Reid, President of the League.
Unfortunately Mr. Bissonet was un-
able to be present, the session at
Quebec requiring his attendance.

The teams lined-up as follows:

THE MONTREAL
CATTLE MARKET
QUOTATIONSThe Prices Paid for Cattle at the
Montreal Stockyards—Other
Details.

(Associated Press Despatch.)
MONTREAL, March 8.—There
were 75 cattle, 15 sheep and lambs,
600 hogs and 300 calves for sale on
the cattle market this morning.
Trading in most lines continued
slow but with the exception of calves
there was no change in prices.
The cattle offered were common
dairy cows, heifers and bulls and the
few head sold up to eleven a.m. were
weighed up at from three dollars to
four seventy-five for the better
ones and around two dollars for can-
ners.

The calf market was considered
to be a little firmer and there was a
fair demand for good veals, especial-
ly in small lots. A few lots of the
better ones brought eight dollars,
while one small lot of choice veals
brought nine dollars. The common to
medium kinds brought around seven
dollars and the bulk moved at
from seven to seven-fifty.

With part of yesterday's hogs still
unsold, the market was weak. An odd
small lot brought fourteen dollars,
buyers offering \$13.50.

**BEEBE CLUB MEETS THIS
WEEK-END**
A special meeting of the Beebe
Football Club is called for two
o'clock in the Beebe Town Hall on
March 12th. The business includes
the election of officers and other ar-
rangements for the coming season.
All interested in the club's welfare
are requested to attend.

**SHERBROOKE CLUB MEETS ON
FRIDAY**

Friday evening at 8.30 p.m. there
will be a special meeting of the
members of the Sherbrooke Football
Club. The officers have an impor-
tant and interesting proposition to
place before the members and it is
urgent that each and every member
put in an appearance. The meet-
ing will be held in the Y.M.C.A.

TENNIS

**INDOOR TENNIS BECOMING
POPULAR**
With the arrival of the months of
March and April, barren months
from a sporting point of view, tennis
enthusiasts will be glad to know
that they can enjoy indoor practices
at the 53rd Armoury where Mr. P.
Grant has arranged a nice court.

CURLING

GAMES FOR TOMORROW
Provided the anticipated cold spell
materializes, curlers will be out
again tomorrow evening when it is
expected that the finals of the dou-
bles and the semi-finals of the rink
matches will be played.
In the doubles, J. E. McCrea and
Alex Fraser play against J. P. L.
Stewart and H. H. McKee and the
winners of this game play against
J. P. Watson and F. McClung.

FOURTEENTH
PARLIAMENT
IN SESSIONRt. Hon. Arthur Meighen Will Be
the Leader of the Opposition
in the House of Commons.

(Associated Press Despatch.)
OTTAWA, March 8.—The prelimi-
naries to the formal opening of the
first session of the fourteenth par-
liament took place this morning
with the formal welcoming of mem-
bers of the Common Chamber for the
purpose of being sworn in and
signing the roll. The oath was ad-
ministered by the four commissioners
to those members who had not
already taken it, and after the
swearing in was completed this
morning the members were dis-
missed until three o'clock, when
they were summoned to the Senate
and afterwards returned to their
own chamber for the election of the
speaker, Hon. Rodolphe Lemieux.

Some seventy members, including
all of the cabinet ministers who
were in Ottawa, had already been
sworn in and had signed the roll
yesterday or Monday.

At eleven o'clock this morning
the chief electoral officer delivered
to the clerk of the House, W. B.
Northrup, a roll containing the
names of the elected members. Com-
missioners for the administration of
the oath were the clerk, the as-
sistant clerk, Arthur Beauchamp, the
sergeant-at-arms, Colonel Bowie,
and the parliamentary counsel, F.
H. Gisborne.

When the House met at three
o'clock, the clerk read a message
from the Governor-General's sec-
retary, informing the House that His
Excellency's deputy would attend
at the Senate Chamber at three
o'clock to open the session, and fol-
lowing the reading of this message
the members were summoned to the
Senate chamber by the gentleman
usher of the Black Rod, Colonel E.
J. Chambers, who announced his ar-
rival with the three knocks on the
door of the Commons, and was re-
ceived with the usual formalities
and obeisance by the sergeant-at-
arms.

On arrival at the red chamber the
members found St. Louis Davies, re-
presenting His Excellency the Gov-
ernor-General, and the following
message was read to the Commons
by the Speaker of the Senate:
Honorable Gentlemen of the Sen-
ate:
Gentlemen of the House of Com-
mons:
"I have it in command to let you
know that His Excellency does
not feel it to declare the causes of his
summoning the present parliament
of Canada until the speaker of the
House of Commons shall have been
chosen according to law; but to-
morrow, at the hour of three o'clock
in the afternoon, His Excellency
will declare the causes of calling
this parliament."

**HON. LEMIEUX APPOINTED
SPEAKER.**

The members of the Commons
then returned to their own
Chamber, where the election of
Hon. Rodolphe Lemieux as Speaker
was proceeded with. Tributes
were presented by the newly-elected
speaker from the leaders of the party followed this
after which the House adjourned to
meet again tomorrow for the formal
opening with the speech from the
throne.

Tomorrow afternoon, before
crowded galleries, the speech from
the throne will be delivered, and
after returning to their own cham-
ber the Commons will then adjourn,
it is expected, until Monday, when
the speeches of the mover and secon-
der of the address will start the
debate.

**RT. HON. MR. MEIGHEN LEAD-
ER OF OPPOSITION.**

OTTAWA, March 8.—Rt. Hon. Ar-
thur Meighen will be the leader of
the Opposition in the Commons. A
decision not to accept the official
opposition was reached by the Pro-
gressives at noon today.

Seating arrangements on the Op-
position side of the Chamber had
been held up pending the reaching
of a decision by the Progressives.
A tentative plan for the meeting of
the Conservatives as the opposition
had been drawn up by W. A. Boys,
chief Conservative whip, but this
had to be held in abeyance until the
Progressives made their decision
known.

That there had been some op-
position to the proposal of allowing
the honor and salary to go to Hon.
Mr. Meighen instead of to Hon. Mr.
Crair was intimated by some of
the Progressive members on leaving
the caucus.

**RESOLUTIONS ADOPTED BY
CONSERVATIVES.**

OTTAWA, March 8.—Among the
resolutions unanimously adopted
by the convention of the Liberal-
Conservative party yesterday were:
1—The holding of a federal party
convention.

2—That the organization, date
and place of holding the convention
be left to a permanent convention
committee.

3—That this committee be com-
posed of the leader of the party of
one from each province, with the
additional members each from
Quebec and Ontario.

4—That the members of the Sen-
ate and the members of the House
of Commons from each province be
charged with the duty of having the
Senators, members and defeated
candidates from each province, ap-
point the members of this conven-
tion committee from their several
provinces.

5—That the convention commit-
tee be appointed before the end of
the present session of parliament.

Other leaders were quiet.

NEW SETBACKS IN THE
WHEAT PRICES RECORDED

(Associated Press Despatch.)
CHICAGO, Mar. 8.—New setbacks
in the price of wheat had resulted
early today from fresh declines in
quotations at Liverpool.

Announcement that an order from
Greece for 2,000,000 bushels of Can-
adian wheat had been filled was
without any apparent influence as a
counter-balance. Uncertainty con-
tinued as to whether the government
report on farm reserve stocks of
wheat would prove bullish or bearish.

The opening which varied from 1/4
to 1 1/2 cents lower, with May \$1.40
to \$1.41 1/2 and July \$1.18 1/2, to \$1.19
was followed by slight additional de-
clines.

Corn and oats declined in sym-
pathy with wheat. After opening
1/4 to 3/4 cent lower, with May at 63
to 63 1/4 cents, the corn market re-
ceded a little more.

Oats started unchanged at quarter
cent lower with May at 41 1/2 to 41 3/4
cents and then underwent an addi-
tional sag.
Provisions as well as grain were
depressed by a drop in quotations
at Liverpool.

cago district.

Utilities reflected pressure, Twin
City Rapid Transit losing 1 1/2 and

PREMIER DRURY REFUSES
TO DISCUSS CHARGES

Stated that Two "Parties" Were
Held on Last Night of 1921 in
Ontario Parliament Building.

(Associated Press Despatch.)
TORONTO, March 8.—Premier Drury declined after the adjournment of the House yesterday to discuss the "party" issue which was raised in the chamber yesterday following a notice of motion in the Toronto City Council calling for an enquiry into alleged disorderly conduct in the Parliament Buildings on the last night of the 1921 session. It is understood from other sources, however, that the Government does not intend to let the matter drop now that public attention has been called to the rumors.

The latest version is that two "parties" were held in the small hours of the morning, and Liberal and U. F. O. private members have been mentioned as involved.

The jollifications are said to have taken place in a minister's office without his knowledge and in a committee, and that women were present at the parties. The chief issue raised is that the O.T.A. was violated.

HON. MR. BENNETT'S APPEAL
HEARD
(Associated Press Despatch.)
CALGARY, March 8.—Judgment was considered yesterday in the appeal of Hon. R. B. Bennett against the election of J. T. Shaw, Progressive, for West Calgary. It was intimated that at least ten days would elapse before judgment.

UNITED STATES PLAN IS MEETING WITH APPROVAL

Members of Commission Apparently Willing to Accept Plan for Disposition of German Cables.

(Associated Press Despatch.)
WASHINGTON, Mar. 8.—Acceptance by the powers represented in the International Cable Commission of the plan submitted at the commission's meeting yesterday by United States acting secretary Fletcher for the disposition of the former German cables is now understood to depend largely upon the attitude of France.

The United States plan, it was said today, appeared at yesterday's meeting to be generally acceptable to most members of the commission, and the decision to refer it to the home governments was regarded as probably nothing more than a formality.

The plan is understood to contemplate the division of the cables into five equal parts on the basis of their present commercial value. Where an exact division is not practicable, provision is made for the compensation of the power holding a deficient allotment at the monetary expenses of the others holding plus allotment. Also full authority is conferred for trading among the parties to the agreement, the basis for which is afforded by the large number of short and unimportant cables calling for disposition, for the possession of which none of the powers appear to be keen.

REMOVAL OF THE EMBARGO WOULD AID BREEDERS

Further Expressions of Opinion in Favor of Removal of the Embargo Against Canadian Cattle.

(Associated Press Despatch.)
LONDON, Mar. 8.—Further expression of opinion in favor of the removal of the embargo against Canadian store cattle were registered at Newcastle yesterday. At the annual meeting of the National Federation of Meat Traders' Associations there, President Dickinson said he believed the removal of the embargo would cheapen meat to the British consumer.

Earl Grey, Lord Armstrong, Lord Joicey and Sir Francis Blake were among others who sent messages favoring the lifting of the embargo to the meeting of breeders, meat producers and consumers at Newcastle. The Duke of Northumberland presided and said that as an owner of a short herd he had come to the conclusion that far from being detrimental to the interests of the breeders, the lifting of the embargo would be in their favor.

A resolution was passed urging the removal of the embargo.

SENATOR LODGE WARNS SENATE

(Continued from page 1.)
Kansas, planned to follow Senator Lodge in an address favoring his two proposed reservations to the treaty, and it appeared likely that a general discussion would develop, terminating the preliminary lull which has marked the debate thus far.

That opponents are organizing to press their fight on the treaty was assured today by the knowledge that a definite plan of action had been agreed upon after consultation by Senator Borah and some of the friends of Former President Wilson. Just how far the sentiments of Mr. Wilson himself may be reflected in the understanding thus effected by the "irreconcilable" leader, or how far-reaching the understanding may be, has not been revealed.

BLEW OPEN SAFE, BUT
ONLY FOUND TWO DOLLARS

Force of Explosion Aroused Many Citizens in Vicinity.

(Associated Press Despatch.)
MONTREAL, March 8.—Using some powerful explosive, daring thieves early this morning blew open a safe at 42 Dorchester Street, the property of John Mustakis, but only found the sum of two dollars in the cash drawer, which, however, they did not seem to take. The force of the explosion aroused many citizens in the vicinity, who, fearing some tragedy, immediately notified the police. With the exception of the two dollars there was absolutely nothing of value in the safe.

STILLMAN DIVORCE CASE
HEARING IS POSTPONED

Postponement Pending Decision on Appeal of John Stillman Against Appointment of Canadian Commission.

(Associated Press Despatch.)
POUGHKEEPSIE, N. Y., March 8.—It was learned here yesterday that the Canadian hearing on the Stillman divorce case, scheduled to be held at Montreal on March 18th, has been postponed pending the decision of the appellate division on the appeal made by John A. Stillman's attorney against the appointment of the Commissioner.

PROF. MORIN IS HELD FOR TRIAL BY THE COURT

Charged with Attempting to Murder Dr. Herman Walter and His Family.

(Associated Press Despatch.)
MONTREAL, March 8.—A true bill was returned yesterday against Prof. J. L. Morin, last year assistant professor languages at McGill University, charged with the attempted murder of Dr. Herman Walter and family by poisoning water of a well at the latter's country residence at Montmagny. Dr. Walter is professor of languages at McGill. Professor Morin pleaded not guilty.

Duke of Rutland Discusses Question of Admission of Peersesses to House of Lords.

(Associated Press Despatch.)
LONDON, Mar. 8.—The Duke of Rutland, in an interview published by the Evening News yesterday on the admission of peersesses to the House of Lords, said he knew three or four who would be entitled to sit in the Upper House, "and if any sit near me I shall feel inclined to laugh like anything, because I would be able to guess their feelings and also those of many peers."

"If I were a woman and wanted to annoy peers," continued the Duke, "I would take my seat in the House of Lords and see what happened. I may provide the privileged peersesses with some amusement, and it will certainly give them an entry into a very comfortable club, I don't think the admittance of women added any charm, dignity or usefulness to the House of Commons. On the general question of admittance of the female sex to parliament, I don't think the country cares one jot."

He said he believed Lady Rhonda, who was recently admitted as the first woman member of the Lords was an excellent business woman and was active and clever.

He said that when the vote was taken in the House of Lords on the recommendation of the committee on privileges to admit peersesses he would refrain from voting.

MANY WORKERS JOIN STRIKE IN SOUTH AFRICA

Many Shops in Business Section Closed, The Proprietors Fearing Violence.

(Associated Press Despatch.)
LONDON, March 8.—South African workers have rallied in a fairly wide response to the call for a general strike issued by executive committees of the Industrial Federation and Trades unions in sympathy with striking miners, says an exchange telegraph company despatch from Johannesburg. Many shops in the business section have been closed, their proprietors fearing violence. Waiters and waitresses have been forcibly taken from their jobs in the few restaurants that are open. All public vehicles have stopped and delivery wagons have been forbidden to do business. Slaughter house workers have ceased work and mechanics at Bramfontein and Germiston, important railroad centres, have gone on strike. Workers affiliated with other unions have been removed from the jobs.

FEASIBILITY OF OF ADOPTING

ing. In my opinion it is an exceptionally good thing for the laborer." Mr. Malcolm Mitchell, of J. S. Mitchell and Company said:—"Daylight saving in the past has always worked out very well for me and for this business. I sincerely hope that the Council will take immediate action in this respect for the coming year."

E. J. Page, of the Page Printing Company:—"It is the nearest to getting something for nothing that I know of. It is certainly advantageous for people in the city as it gives a little extra sunshine and daylight to people working indoors."

REQUEST FOR A REVISION OF SEVRES TREATY

Emphasize Necessity of Guaranteeing the Neutrality of the Dardanelles in Note.

(Associated Press Despatch.)
DELHI, Mar. 8.—After consultation with all the provincial administration the government in India has sent the following telegram to Right Hon. Edwin S. Montagu, Secretary of State for India.

On the eve of the Greek-Turk conference, we feel that it is our duty again to lay before Your Majesty's Government the intensity of feeling in India regarding the necessity for a revision of the Sevres Treaty between Turkey and the Allies.

"The Government in India is fully conscious of the complexity of this problem, but India's record in the war in which Indian Moslem soldiers participated in such great numbers and the support which the Indian Moslem cause has received in the entire nation, entitle her claim to the complete fulfillment and justify her reasonable aspirations."

"The Government in India particularly emphasizes the necessity of guaranteeing the neutrality of the Dardanelles and security of its non-Moslem peoples. It also urges evacuation of Constantinople, severance of the holy places, restoration of the Turk in Thrace, also in Adrianople and Smyrna. The government urges that these points are of supreme importance to India."

Dear Sirs,

The Semi-ready Company have always believed in the advertising adage that after you produce a good thing you should tell all the people about it. The hen is the quickest advertiser on record.

Not in thirty years have I encountered other than that which would enhance my faith in the efficacy of efficient newspaper publicity.

If some bright Editor could coin a new word which would expressly define "newspaper advertising" it might shake off the many barnacles which attach to themselves the name of "advertising." Many advertising managers would save their employers a lot of money if the counterfeits they buy were rejected.

"Advertising" means newspaper publicity. Newspapers give the only legitimate and profitable means of publicity. There may be some follow-ups that are worthy, but not one in fifty of the methods which usurp the name can qualify as worthy to be called "advertising."

Much money is wasted in advertising, but nearly every failure can be traced to lack of thought by the advertiser. Perhaps he has sought the royal road to wealth by hiring some man to do his thinking for him. We can cheer and elect even an able man to office, but when it comes to spending or saving other people's money that clever man often acts like an ordinary wastrel.

It is just as easy to analyze the causes of failure by some who have tried advertising as it is to relate the reasons for success of many millionaires through advertising. I don't include the politicians who have grown wealthy through dead-head advertising. They have a cinch.

Yours truly,

Semi-Ready, Limited.

Mr. Wood uncovers the reason for much waste in business when he says many advertising managers could save their employers a lot of money if they rejected the barnacles of publicity. The first and only great advertising medium is the Daily Newspaper.
