KERBY HOUSE,

BRANTFORD, C. W.

JAMES KERBY, Proprietor, | M. H. WOOSTER, Superintendent.

THE people of Canada are respectfully informed that the above Hotel is open for the reception of Visitors. The house is large and commodious, being capable of accommodating five hundred guests. It is built on the most approved principle, every attention having been paid to its proper ventilation, heating, &c. The BEDROOMS are large and airy, and the PARLORS, HALLS and Passages constructed with a view to the comfort and convenience of travellers. The House is furnished throughout in the best modern style, the upholstery and furniture being of the most splendid and *recherché* description. While the Kerby House possesses all the attributes of a first class Hotel, it will be found also to combine the more genial comforts of a home. Within the Hotel is a splendid BILLIARD ROOM, containing two Billiard Tables of the best description.

There is also in connection with the House a magnificent

CONCERT HALL AND BALL-ROOM,

100 by 40 feet, to which the attention of Proprietors and Managers of Exhibitions is respectfully directed. The Hall is well lighted with gas, and can be converted into a Theatre at the shortest notice.

The LARDER and WINE CELLAR of the Kerby House are not inferior to those of any Hotel on the Continent, while the terms are as reasonable.

It is needless to state that BRANTFORD is a large and growing town, containing at present a population approximating to EIGHT THOUSAND. It is the County Town of the County of Brant, without exception the finest agricultural county of Upper Canada. The Grand River flows through the town, affording to the SPORTSMAN and TOURIST ample means of gratifying their respective tastes, for the scenery on this noble stream is grand and beautiful, while fish of all kinds are found in its waters, and its banks abound with game.

The BUFFALO AND LAKE HURON RAILWAY, which has its principal Depot in Brantford, connects the Town with BUFFALO during the season while WATER NAVIGATION TO LAKE ERIE is direct, thus affording superior facilities of access from all parts of the United States and Canada at all seasons of the year.

The Proprietor would also state that the ANNUAL EXHIBITION OF THE PROVINCIAL AGRICULTURAL ASSOCIATION FOR UPPER CANADA is to be held in Brantford during the autumn of 1857, when he will be prepared to accommodate upwards of **TWO THOUSAND VISITORS**, arrangements being now in progress for that purpose.

TERM DAYS FOR 1857-58.

Summer Term	August 3rd.	Winter Term	January 4th.
Autumn Term	October 19th.	Spring Term	March 22nd.

The Classes in the Commercial Department, Book-Keeping, Arithmetic, &c., are taught exclusively, according to the Decimal System of Currency, thus giving Pupils an opportunity of being thoroughly initiated in that mode of reckoning, previous to its universal adoption in the Province. With the same view, Mr. Moffat, Teacher of the Commercial Branches in the Academy, and a Practical Book Keeper, has opened an Evening Class for the benefit of young men engaged during the day.

Parents wishing private tuition in the evening, or young men desirous of improving themselves in the various branches of knowledge, can be accommodated by applying to the Principal, or Masters. On the opening of the Medical Classes of Queen's College, MR. MAY will be prepared to give instruction in the Classical knowledge necessary for that Department.

For the accomodation of Pupils from a distance, the Principal, first English and French Masters will receive a few Boarders, to whose improvement, in all respects, the utmost attention will be paid. Terms, $3.50 for every week of actual residence, including bed, board, and superintendence of Studies in the evening.

HAVING resolved to stand unrivalled in every Department of HIS business, has agreed with the Proprietors and Agents of all the Genuine Popular Patent Medicines throughout the United States, to keep him constantly supplied with a fresh and ample Assortment, at Rates FAR below the usual Market Prices.

By this arrangement Mr. H. is enabled to offer for the inspection of purchasers, THE MOST EXTENSIVE Assortment which can be found in this or any other city.

Having had many years experience in the sale and purchase of Patent Medicines, Mr. H. has acquired facilities for conducting this particular department, on the most liberal scale, and is now prepared to supply the Trade at Prices SO EXCEEDINGLY LOW, that the purchaser cannot fail to realise a handsome per centage on his investment.

At Wholesale at his Establishment may be found a full Assortment of

ALL GENUINE PATENT MEDICINES, ESSENTIAL OILS,

GROCER'S DRUGS, &C.

PRINTER'S INK OF ALL COLOURS, ALWAYS ON HAND.

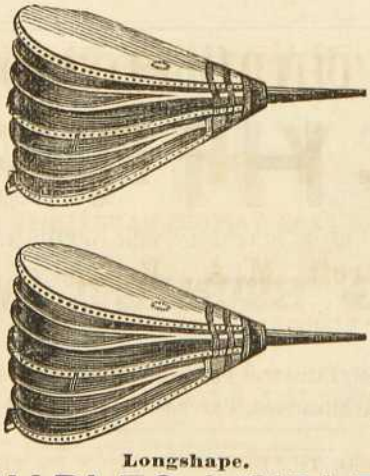
Circular Patent Double Blast.



Longshape.

Portable Forge.

CHARLES LINDLEY,

FIRST-PRIZE CIRCULAR PATENT, LONGSHAPE, AND PORTABLE FORGE BELLOWS MANUFACTURER,

ESTABLISHED IN 1844,

From the celebrated firm of Thomas Lindley & Sons, Sheffield, England,

BEGS leave to offer his most sincere thanks to his numerous friends and customers in general for the liberal encouragement that they have given him ever since he commenced business in this City; and he hopes by his strict attention and punctuality to business, to receive a share of public patronage.

Circular Patent Bellows possess the following highly important advantages:—They stand in half the room that Long Bellows do. They effect a positive saving of full twenty per cent. in fuel. Every stroke of the lever produces a double quantity and force of blast. They support a discharging pipe of double capacity. Iron or Steel is brought into a state of fusion in two thirds of the usual time. They are fitted up complete, ready for work, with flexible pipe and portable lever, as per drawing.

Portable Forges, under especial patronage, for Engineers, Boiler Makers, Machinists, Railway Companies, Dock-Yards, Steamships, &c., possess the following highly important advantages:—They stand in half the room that Portable Forges usually do, and are not more than half their weight. They surpass all others in compactness and portability, and ease with which they are worked. They combine simplicity in construction, and therefor enot liable to be out of repair. They are made solely of wrought-iron, which prevents their being damaged either by carriage or use.

The above, with a regular supply of the Longshape Bellows, superior to any imported, are kept constantly on hand, or made to order, at the manufactory, No. 14 BUSBY LANE, at the Entrance of St. Antoine Street. Warranted superior quality.

PLANING, GROOVING AND TONGUEING

All to which its known merits so justly entitle it. Having been FOURTEEN YEARS a manufacturer of them, paying the strictest regard to the quality of Gun Metal, Steel and Iron employed on every part of the Machine, and personally working and superintending every piece of work that comes from his Foundry, he confidently asserts that at no Establishment in the United States or the Canadas can so complete and perfect an article be obtained. His Machine obtained the Medal at the Universal Exhibition of 1855.

He is also prepared to furnish IRON and BRASS CASTINGS of every description.

In testimony of the superiority over those of any other manufacturer he would refer to the following gentlemen, who have them in active use; several of whom have made trials of other kinds:—

CANADA FUR

AND HAT  STORE,

305 *AND* 307 *ST. PAUL STREET.*

GREENE & SONS,

PRINCIPAL FUR CAP AND HAT MANUFACTURERS,

WOULD respectfully inform their numerous wholesale customers and others, throughout the Canadas and elsewhere, that they will have manufactured for the Fall Trade, the most varied and extensive assortment of Fur Goods and Hats ever before offered to the public. G. & S. are constantly dressing, coloring, and manufacturing throughout the year, under their own immediate inspection, Mink, Otter, Martin, Fisher, Beaver, Muskrat, &c.—and have constantly on hand a general assortment of Fur Caps, Gloves, Gauntlets, Muffs, Boas, Victorines, Jenny Linds, &c., &c., &c., in the Fur line; and in Hats of the latests fashions and qualities, ranging from 45s. and upwards per dozen.

G. & S. have within the past year added another branch of manufactures to their already extensive Fur and Hat Manufacturing Department, viz: the Buck Skin Mitt and Glove Goods, also, Buck Skin Moccasins; which is the only extensive manufacturing establishment of the kind in Canada.

Owing to the increased demand Messrs. G. & S. have made improvements in all their manufacturing departments, so that they are enabled to supply their numerous customers at lower rates than heretofore, and on terms most liberal. Intending purchasers are requested to call and examine the superior style and finish of our goods, before purchasing elsewhere, which we feel confident will give entire satisfaction.

N.B.—Cash and the highest prices paid for Shipping Furs.

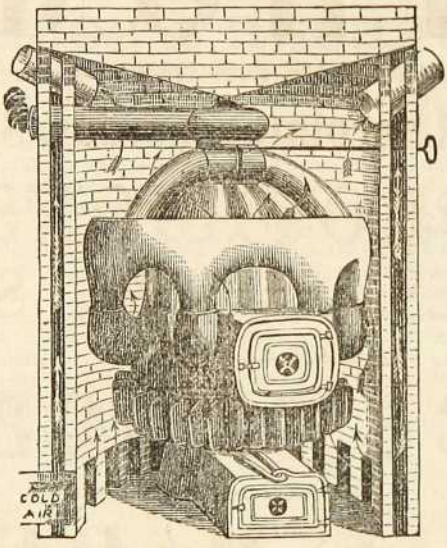
HEAT AND VENTILATION.

Upon Judicious Means of Warming and Ventilating very Important Consequences Depend, not only including the Ordinary Comfort, but Safety, Economy and Health of Human Beings.

WHITE'S FURNACES



FOR WOOD OR COAL.

GEO. W. WHITE, successful and practical FURNACE BUILDER, begs to inform ARCHITECTS, BUILDERS, Public Institutions, and the Public generally of this City and vicinity, that he is now prepared to CONTRACT for and GUARANTEE the perfect Warming and Ventilating of Public Institutions, Private Dwellings, &c. &c., by the above Celebrated Furnace. This Furnace is different in many essential particulars from anything ever before offered to the Public; it presents a larger amount of effective Radiating Surface, all of which is in more direct contact with the Fire than any other Heater now in the Market. It is simply and scientifically adapted to Bituminous or Anthracite Coal or Wood; the construction of its Self-Clearing Radiator is an important consideration, as it effectually obviates the necessity of Cleaning. The entire structure, when set, is much less in height than any other of equal capacity in present use, a very desirable item in Low Cellars and for a desired elevation for the Hot Air Pipes.

With these advantages, and long practical experience, he can guarantee to Parties, about to WARM their HOUSES with HOT AIR, to give perfect and entire satisfaction. Mr. WHITE'S system in the erection of Furnaces is substantially safe, and the liability of Fire avoided, and will give a larger amount of Heat with a given quantity of Fuel, circulating the same more rapidly and equally throughout a Building than any other practised in this country; and it only requires to be known to be universally adopted.

He therefore feels confident in having the best improvement in the erection of Hot Air Furnaces ever invented, and believes no one will put up a Furnace on any other plan after an examination of his improvement. Parties who are about erecting or remodelling their Buildings should carefully examine WHITE'S new invention, a Combination of Hot Water and Hot Air, which entirely changes the character of Hot Air Furnaces, developing another and a new principle, and obviating all former objections to their use; this plan is simple in itself, embracing strength, durability and perfect safety to health where Ventilation is practicable. By this plan he will engage to Warm Buildings so as to be as healthy and genial as a summer day.

Mr. WHITE is now prepared to engage to superintend Ventilation on moderate terms. Ventilation will add much to health, economy and safety of Families, and every room can be Ventilated at a trifling cost during their erection.

All CONTRACTS will be strictly attended to and executed with the best possible workmanship.

From Mr. WHITE'S long practical experience and unrivalled success, he can guarantee to give better satisfaction than any other man on this Continent.

WHITE'S and EMERSON'S VENTILATORS for Smoky Chimneys, &c.

PORTABLE FURNACES, HOT AIR STOVES, KITCHEN RANGES, &c., furnished and set.

REGISTERS and VENTILATORS of the best designs and quality at moderate prices.

ORDERS given to, or addressed, GEO. W. WHITE, Montreal, will meet with prompt attention.

ADVANTAGES OF THIS INSTITUTION.

HALF-CREDIT RATES OF PREMIUM.

Persons assured according to these rates are allowed credit for half the amount of the **first seven annual premiums,** paying interest thereon at the rate of only five per cent. per annum, with the option of paying off the arrears of premiums, at any time, or having the amount deducted from the sum assured when the Policy becomes a claim.

FOR SECURING LOANS AND DEBTS.

A table adopted especially for the securing of Loans and Debts by which the fullest security is obtained on very low, but gradually increasing terms.

Tables 4 and 11, are particularly recommended to the attention of the public. No. 4 is a table of decreasing rates of Premium, on a novel and remarkable plan; the policy holder having the privilege of discontinuing the payment of all further premiums after twenty, fifteen, ten and even five years; and the policy still remaining in force,—in the 1st case, for the full amount originally assured, and in either of the three other cases, for a portion of the same according to a fixed and equitable scale endorsed upon the policy; as mentioned in the Prospectus.

No. II. Circumstances will frequently arise whereby a person having assured his own life for the benefit of a surviving family, or the protection of a creditor, may attain his object by other means, and consequently be desirous of securing for himself the benefit of assurance. To meet such cases this table has been computed, showing the rates required to secure a sum payable at the death of the assured, if he dies before attaining 60 years of age, but also payable to the assured himself if he survives that age; by this means a provision for old age is combined with an assurance upon life.

EXTRACTS FROM THE HALF-CREDIT RATES OF PREMIUM.

DIVISION OF PROFITS.

The first Division of the Company's Profits took place as at 25th May, 1854, when a Bonus at the rate of £2 per cent. per annum on all Policies effected in the Participation Scheme of the Company was declared, as shown in the following Table the examples being Policies of £1000, Sterling:—

" 1853	1000	40	1040
" 1854	1000	20	1020

The additions to Policies of larger or smaller amount are in the same proportion.

Those who do not wish to add the amount of the Bonus to the sum assured, are permitted to take the value of the addition in a present sum.

THE NEXT INVESTIGATION AND DIVISION OF PROFITS WILL BE MADE IN 1859, AND QUINQUENNIALLY THEREAFTER.

From the wide basis on which the Company has been established, from the extensive field of business which it is cultivating, and from the success which has attended its operations, the Directors look forward to large future Profits available to their Policy-holders; and they do not think they over-estimate the advantages of the Company, in stating that no Office has extended its business to the Colonies of Great Britain, affording so many facilities, and at the same time holding out the prospect of so much advantage to Assurers.

This Company does not seek to call attention by the EXTREME lowness of its Premiums, a course much followed by many offices at the present day—though they are as low as is consistent with safety, but would desire to commend itself to those wishing to secure an undoubted family provision by its known respectability and security, a matter frequently lost sight of. They would also point to the large **BONUS,** or addition to the original sum assured, which accrues to Policy-holders—this, at last investigation, amounted to £2 per cent. per annum—thus a Policy taken out in 1847 for £1000, had, in 1854, increased in value to £1160, since which large profits have accumulated.

Amount of Assurances effected since the Establishment of the Company in 1846,.....£2,500,000, Stg.

The Company also grants Assurances on the following plan:—Half of the Annual Premium will be received for the first seven years, the remaining Half, with interest, being chargeable as a debt on the Policy, (without security), to be paid off when convenient, or at the option of the assured, to be deducted at settlement of claim.

Assured are at liberty to pass from any part of North America to Europe, **WITHOUT EXTRA CHARGE.** And the Regulations, as to passing from one part of the World to another, generally, will be found particularly advantageous to persons whom business or pleasure leads to travel, as the premiums are at once decreased on a party leaving a less for that of a more healthy class.

The Rates of this Company will be found to be exceedingly moderate.

The Premium is in each instance fixed in strict accordance with the merits of the risk under consideration, determined only by a most careful investigation.

The engagements of the **EQUITABLE** are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a **MUTUAL INSURANCE SOCIETY**, and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good without deduction or discount, and are adjusted and paid in Montreal, without reference to London.

THE LOCAL DIRECTORS MEET WEEKLY.

Montreal, October, 1857.

GREAT BRITAIN

Mutual Life Assurance SOCIETY.

14 Waterloo Place, Pall Mall, London.

The Chisholm, Chairman.

A. R. IRVINE, ESQ., MANAGING DIRECTOR.

THIS Society is established on the tried and approved principle of **MUTUAL ASSURANCE.** The Funds are accumulated for the exclusive benefit of the Policy holders, under their own immediate superintendance and control. The profits are divided annually, and applied in the reduction of the current premiums. Policyholders participate in the profits, after payment of five annual premiums.

The Annual Meeting was held on 28th May last, when an elaborate report of the affairs was presented to the meeting. After a rigid investigation, it satisfactorily ascertained that the state of the Funds was such, that the Policyholders' Allowances might be safely increased during the present year from 31½ to 32½ per cent. While it was clearly shown that, from the extreme care and caution observed in avoiding any undue appropriation of the surplus, such allowance would hereafter, from time to time, be considerably increased.

THE FOLLOWING TABLE EXEMPLIFIES THE EFFECT OF THE PRESENT REDUCTION.

THE Montreal Directors sign Policies under special power of Attorney from the Court of Directors in London.

Applicants are not charged for Medical Examination. The Medical Officers attend at the Office daily at 3 o'clock, P. M.

Risks are accepted and Losses paid by the Montreal Local Board without first referring to the London Office.

Special attention is requested to new Tables for the Assurance of Life without Profits, the rates of which are much lower than those formerly in use; and to a Table for the Endowment of Children on highly advantageous terms. Also to a New Table called "Endowment Assurances," by which the assured on attaining the age of 50, 55, 60 or 65, will receive the amount insured himself, or in case of death it will be immediately paid to his representatives.

The Agency of this Institution differs widely from an *Agency* as commonly conferred by parent Institutions abroad. The General Agent, together with the Local Board, by Power of Attorney executed by the London Court, are fully authorized to act on behalf of the Society, so that for all *practical* purposes this Agency is essentially a *Colonial* Company, strengthened by a large *bona-fide* capital safely invested in London.

Prospectuses and Blanks may be had at the Office in Montreal, or at the Agencies throughout the Province.

Solicitors, Messrs. TORRANCE & MORRIS.

THIS Association, founded in 1838, has twice received the approval and sanction of the Government—when Incorporated by Royal Charter and afterwards when further empowered by a special Act of Parliament. For some years the average number of new entrants has exceeded **ONE THOUSAND** per annum, being a rate of increase which has been rarely attained by any Life Office. During last year, ending April, 1857, **1158** persons joined the institution, assuring their lives for **£582,000,** Sterling.

The Policyholders are entirely free from the risks of partnership, and the Sums Assured are guaranteed. In addition to the large accumulated and constantly increasing Funds, and the Annual Income of **£125,000,** Sterling, there is a Guarantee Fund or Capital of **£400,000,** Sterling, the Subscribers to which bear the whole responsibility.

The **ASSOCIATION** was constituted with the view of reducing the expense of Life Assurance to the lowest scale consistent with security, and has been eminently successful in attaining that object—principally by the simple, safe and equitable system of dividing the surplus or profits. A share of the profit is annually allocated to each Policyholder of five years' standing, and is handed to him **in money** on the payment of his next Annual Premium. A large reduction of the Premium is thereby effected. Accordingly, Policyholders of the first series, in consequence of their participating in profits, are at present required to pay only **13s. per £1** of their premiums. The Association have allocated profits in every year since 1845.

FIRE DEPARTMENT.

The growing importance of the Fire business cannot fail to prove gratifying to the Proprietors as well as to Friends of the Company. Last year, the premiums reached £186,271 16s. 11d., indicating, pretty clearly, the estimation in which the Company is held; but this year they have attained the much greater sum of £222,279 10s. 6d. Any augmentation of liability, however, the Proprietors will be glad to know, does not arise from an indiscriminate increase in the amount taken on individual buildings, but is caused by a multiplication in the number of such insurances, which adds materially and obviously to the security of the result. The losses amount to £108,306 15s. 10d.; and, in illustration of the last remark, but without wishing it to be understood that a more serious casualty cannot occur, it may be mentioned, that £6,000 will cover the largest loss by one fire.

LIFE DEPARTMENT.

The new business of the past year has again surpassed that of its predecessor. The number of Policies issued is 534, insuring £418,866, on which the premium is £12,770 14s. 11d. The total Income from Premiums is £72,781 15s. 10d.; and, in addition to that sum, £17,338 10s. 10d. have been sunk with the Company in the purchase of Annuities. The claims under Life Policies, have amounted to £28,855 4s.; and the annuities paid to £11,993 2s. 2d. Of the recipients, nine have died, to whom £209 12s. 9d. were annually payable. The balance at the credit of the account is £339,450 5s. 10d.

It may be convenient to the Proprietors to have presented to them in one view the additions which have been made to the various funds, and thus see the extent of advance actually made in the year:—

1856.			1857.		
The Capital	£170,858 0 0	increased by	£ 4,150 0 0	is now	£175,008 0 0
The Reserved Fund	169,150 0 0	" "	11,112 10 0	"	180,262 10 0
The Life Fund	293,557 4 5	" "	45,893 1 5	"	339,450 5 10
The Fire Re-Insurance Fund	82,526 17 5	" "	43,126 9 0	"	125,653 6 5
	£716,092 1 10		104,282 0 5		820,374 2 3

The Board in Montreal being invested with full powers to accept all proposals, renders any delay, in communicating with the Head Office, unnecessary. This arrangement gives to the Canada Branch, all the facilities of a local company, at the same time embracing the advantage of a large guaranteed Home Capital.

Insurances accepted at the lowest remunerative Rates.

NO CHARGE MADE FOR POLICIES.

AWARDED

AT THE EXHIBITION

OF ALL NATIONS.

THE proprietor of this establishment avails himself of this opportunity to thank the PRINTERS OF CANADA for the liberal support which they have accorded him, and begs most respectfully to solicit a continuance of their patronage.

The Prices of **TYPES AND PRINTERS' MATERIALS** are the same as charged by the TYPE FOUNDERS of the United States, and being in connection with the principal MANUFACTURERS there, he can afford the CANADIAN PRINTER very great facility in the selection and receipt of such articles as are not manufactured here, including the

NEWEST STYLES OF FANCY LETTERS

AND THE LATEST IMPROVED

FAST PRINTING PRESSES.

The PROPRIETOR thanks the PRINTERS of Canada for the praise they have, on so many occasions, bestowed on his Manufactures, and congratulates himself on the success of his efforts in the high reputation of his TYPE for DURABILITY and JUSTIFICATION.

The PRIZE MEDAL of the Exhibition of all Nations awarded to C. T. Palsgrave, and the CANADA DIRECTORY, printed from Type Manufactured at the MONTREAL TYPE FOUNDRY, are sufficient recommendations to the Printers of Canada.

No. 74 GREAT ST. JAMES STREET,

MONTREAL, C. E.

2nd Door from the Ottawa Hotel,

TAKES this opportunity of returning thanks to his Customers and the public generally for their liberal patronage during the last six years, and would solicit their continued support. Now being able to compete with any other establishment in the City as regards PRICE, QUALITY OF GOODS, FITTING, WORKMANSHIP, &c., &c., having just opened a superior assortment of GOODS suitable for the present and coming seasons; selected in the LONDON and PARIS MARKETS. Comprising the following:—

Best West of England Black and Coloured Broad Cloths; Fancy Mixed Angolas, suitable for business and sporting coats; Superfine Black and Coloured Beavers; Black and Coloured Whitneys; Blue and Black Pilots; Best Reversable and Milton Beavers; Black Cassimere and Doeskins; Fancy Tweeds and Doeskins, all shrunk expressly for Pantaloons. A superior assortment of Silk and Woollen Vestings. A quantity of Ready-made Clothing and Waterproof Coats, constantly on hand. Also, Gentlemen's Haberdashery, consisting of Dress and Coloured Shirts, Under Shirts, Gloves, Hose, Ties, Suspenders, and many other articles too numerous to mention.

J. C. guarantees to give a good article, a neat fitting and fashionable garment. In all cases the Establishment is conducted by himself, with the assistance of Mr. GEO. HOGGARD, an able and efficient foreman, of which there is none superior, who attends to the business in his absence.

P.S.—J. C. would remind his customers and others residing in the Upper Province, that all orders sent by letter, stating the Style of Garment, Material, Colour and Price, will be promptly attended to as usual. It would be necessary for parties who have not heretofore had their orders executed in this Establishment, when on their tour through Montreal, to call and have their measure taken, after which there will be no difficulty whatever in making as neat a fit as if they were residents of the city.

C. DION & Co.,

PHOTOGRAPHIC ARTISTS.

THE Subscribers have entered into Co-partnership under the above title, for the purpose of producing PHOTOGRAPHIC PORTRAITS, Coloured and Plain, on Paper, Glass, Iron, Silk, &c.

They have just received from the hands of "ROSS," of London, a CAMERA capable of taking Portraits of the largest size. This magnificent instrument was made expressly for C. D. & Co., and is the finest on this Continent. With its aid they are enabled to produce Portraits of the highest style of beauty, and which for Clearness, Precision, Distinctness and Beauty of Perspective, can nowhere be surpassed.

The Department of COLOURED PHOTOGRAPHS includes every degree of colouring, from merely tinted pictures, up to the highest degree of finish of Ivory Miniatures. This Department also includes

The Hallotype Process.

The Secret of which, (known only to a few,) C. D. & Co., have secured. This wonderful discovery, the greatest since Daguerre, leaves nothing to be desired in colouring. Not only does it copy the hues of nature, but it preserves the exact texture of the flesh, and the most delicate shadows, and half-tints and contour of the features, which by ordinary Colorists are seriously injured, are hereby retained with the most exquisite fidelity.

☞**Copies made from Daguerreotypes, and highly finished.**

Mr. Parker will still continue to Paint Miniatures on Ivory for those who may desire them.

The Public are respectfully invited to call and examine.

THE Proprietors of this Establishment being PRACTICAL SAW MAKERS, each process in the manufacture is under their personal inspection. Our MILL GANG and CIRCULAR SAWS have been used for the past two years in nearly all parts of the UPPER and LOWER PROVINCES, and are universally acknowledged to be superior to any others before introduced into CANADA.

OUR MACHINE GROUND CIRCULAR SAWS! Warranted to run easier, saw smoother, require less set, and less liable to heat. In fact will saw more lumber with less trouble than any other saws made.

OUR IMPROVED MULAY SINGLE GATE and GANG SAWS! Particularly adapted to the Swedged or Upset Tooth. We have in our possession written statements from some of the largest consumers in Canada, substantiating beyond doubt their good quality. Annexed we name a few for reference, among whom are—

CONSULTING ENGINEER, WALTER SHANLEY, ESQ.

THIS Company is established for the purpose of affording those facilities to the Shipping and general Commerce at the Port of QUEBEC, which the completion of the Grand Trunk Railway, the establishment of Ocean Steamers, and the important and increasing Lake and River Steam traffic must inevitably locate at Quebec, as the great Anglo-Canadian Sea Port.

The Company will provide deep water Wharves for Ocean Ships and Lake and River Craft, with suitable Storeage for Flour, Grain, Ashes, Timber, Iron, Coals, Salt, &c. &c., &c., in immediate communication with the Grand Trunk Railway, on the valuable property already secured by them, situated between the Passengers and Goods Depôts of that Railway, and which will be so laid out as to afford all the security of enclosed Docks and Warehouses.

The acquisition of this property enables the Company to erect at once deep water Wharves, having upwards of *one thousand feet River frontage*, where Vessels of any class can moor in safety out of the influence of the strong tides, and sheltered from the effects of those periodical gales, which so frequently cause damage to shipping on the North side of the St. Lawrence.

Railway turntables and siding to be placed on the Company's property, will enable Goods and Produce to be transferred direct from the Railway Cars and Shipping and *vice versâ*. Steam Elevators, Cranes, &c., &c., will also be provided for the safe, expeditious, and economical loading and unloading of the same.

The site is so advantageous, as to leave no reasonable doubt that the Undertaking will yield a high remunerative return.

Application for Shares will be received at the Offices of the Company, where a plan of the property, with the projected Works and estimates, may be obtained.

DENTISTRY.

MORTIMER D. FRENCH, M.D., D.D.S.,

DENTIST,

DR. FRENCH has the honor of publishing the following recommendations, and also of referring to the following gentlemen:

To the Citizens of Toronto:—I take great pleasure in introducing to the public my friend, M. D. French, M. D., and graduate of the Baltimore College of Dental Surgery. I have been acquainted with Dr. French about five years, a considerable portion of which time he has assisted me in practice. He is a gentleman of irrepro chable moral character, a thoroughly educated Dentist, and practically skilled in every department of his profession. I therefore recommend him with entire confidence, to all who may require the services of a Dentist.

CHAPIN A. HARRIS, A.M., M.D., D.D.S.,
Prof. of the Baltimore College of Dental Surgery.

BALTIMORE REFERENCES:

PHILIP H. AUSTIN, A.M., M.D., D.D.S.,
WASHINGTON, R. HANDY, M.D.,
Professors of Baltimore College of Dental Surgery.

TORONTO, 18th October, 1856.

The best recommendation that I can give of Dr. M. D. French, Surgeon Dentist, is, that he has been employed in this family, and given much satisfaction.

JOHN TORONTO.

GOVERNMENT HOUSE, Toronto, 15th January, 1857.

Dr. M. D. French, Surgeon Dentist, has both extracted and stopped teeth for me, with perfect success, and with less pain to myself than I thought possible.

MESSRS. S. & N., having established an Agency for the sale of LAW BOOKS in Canada, respectfully request a continuance of the patronage of the Legal profession, and beg to draw their attention to the following important LEGAL WORKS, copies of which may be obtained at J. C. GEIKIE'S, at the prices annexed:

Daniell's Chancery Practice—New Edition. By Headlam,

The Practice of the Court of Chancery. Third Edition with considerable alterations, incorporating the Statutes, Cases and Orders to the present time. By T. E. HEADLAM, ESQ., M.P., one of Her Majesty's Counsel. In 2 vols. 8vo. 1857. 62s. 6d.

*** **A Volume of Forms to the above, by RICHARD S. TRIPP, Esq., is in the Press.**

"....the work before us is undoubtedly recognised as a standard authority in regard to Chancery Practice."—LAW MAGAZINE AND LAW REVIEW, May, 1857.

"The practice of the Court of Chancery being thus revolutionised, of course all the old books on the subject have been rendered worthless. Hence the necessity of a Third Edition of Daniell's Practice, which has been one of the great authorities. The task has been performed by Mr. Headlam, but, as might be supposed, he has been obliged to do more than the duties of an editor. He has re-written the greater portion of it. In fact, he is its author.

"This Practice must be so well known to the Profession that it is unnecessary to detail the arrangement of its contents. This one has already passed through the ordeal of examination by those most competent to form an opinion—the practitioners who have used it for the purposes of practice. They have so approved it that they have exhausted two editions; and of this third one we can only say that we endorse their approval. It is creditable alike to the knowledge and to the industry of the author-editor."—*Law Times*, March 7, 1857.

Coleman's Chancery Costs—Second Edition, 10s.

Bills of Costs in Chancery of Plaintiff and Defendant, under the Old and New Systems of Taxation: also, Costs on Administration Summons at Chambers, Special Case, Claim, Petitions, (as well ordinary and special as under the Lands Clauses Consolidation Act,) Receivers' Accounts, Conveyancing, and other Proceedings, with an Appendix containing the Order of 30th January, 1857. By E. COLEMAN. Second Edition, in royal 12mo, 1857.

SMITH'S COMPENDIUM OF THE LAW OF REAL AND PERSONAL PROPERTY. 1856.

Connected with Conveyancing, for the use of Students and Practitioners. By JOSIAH WILLIAM SMITH, B.C.L., of Lincoln's Inn, Esq., Barrister-at-Law. 41s. 3d.

PALEY ON THE LAW AND PRACTICE OF SUMMARY CONVICTIONS BY JUSTICES OF THE PEACE. 1856.

Including

Proceedings preliminary and subsequent to Convictions, and under the 18 and 19 Vict. c. 126, relating to Larceny, &c. With Practical Forms and Precedents of Convictions. Fourth Edition. By H. T. J. MACNAMARA, Esq., of Lincoln's Inn, Barrister-at-Law. 32s. 6d.

GREENWOOD'S MANUAL OF CONVEYANCING. 1856.

To which are added,

A Manual of the Practice of Conveyancing, showing the present Practice relating to the Daily Routine of Conveyancing in Solicitors' Offices. Concise Common Forms in Conveyancing Conditions of Sales; Conveyances, and all other Assurances in constant use. 13s. 9d.

SMITH'S MANUAL OF EQUITY JURISPRUDENCE. 1856.

A Manual of Equity Jurisprudence, founded on "Story's Commentaries" and "Spence's Equitable Jurisdiction." Fifth Edition. "A Manual especially adapted to the exigencies of a solicitor's practice."—*Jurist*, No. 465. 16s. 3d.

BURTON ON REAL PROPERTY. 1856.

An Elementary Compendium of the Law of Real Property. By W. H. BURTON, Esq. With Notes showing the Alterations in the Law to the present time; to which is now prefixed an INTRODUCTORY CHAPTER giving a concise historical outline of such parts of the Law as have been the subject of statutory alteration. By EDWARD PRIESTLY COOPER, Esq., of the Middle Temple, Barrister-at-law. 36s. 3d.

ARCHBOLD'S (J. F.) PRACTICE OF THE COURT OF QUEEN'S BENCH IN PERSONAL ACTIONS AND EJECTMENT. 1856.

Including

The Practice of the Courts of Common Pleas and Exchequer. By THOMAS CHITTY, Esq. The Ninth Edition. By SAMUEL PRENTICE, Esq., Barrister-at-law. £3 15s.

FORMS OF PRACTICAL PROCEEDINGS IN THE COURTS OF QUEEN'S BENCH, COMMON PLEAS, AND EXCHEQUER OF PLEAS. 1856.

With Notes and Observations thereon. By THOMAS CHITTY, Esq., of the Inner Temple. The Seventh Edition. £2.

STARKIE'S LAW OF EVIDENCE.—NEW EDITION.

A Practical Treatise of the Law of Evidence. By THOMAS STARKIE, Esq. Fourth Edition, with very considerable Alterations and Additions; incorporating the Statutes and Reported Cases to the time of Publication. By G. M. DOWDESWELL and J. G. Malcolm, Esqs., Barristers-at-law. In 1 vol. royal 8vo. 1853. 50s.

SPENCE ON THE EQUITABLE JURISDICTION OF THE COURT OF CHANCERY.

2 vols. royal 8vo. 1846–49. £5 7s. 3d.

FINLASON'S COMMON LAW ACTS.

The Common Law Procedure Acts of 1852 and 1854, with Notes, containing all the cases either already expressly decided on or tending to elucidate them. 12mo. 1855. 22s. 6d.

PETGRAVE'S PRINCIPAL AND AGENT. 1857.

A Manual of the Law of Principal and Agent. By E. C. PETGRAVE. In 12mo. "The author has evidently passed the limit of legal juvenility. He writes, as the preface informs us, for the benefit of persons engaged in actual practice, and aspires to hit the happy medium between the diffuseness of Story and the brevity of Addison or Smith. Mr. PETGRAVE has been tolerably successful in his task; and has grouped his cases round his principles with considerable digestive skill and ingenuity of illustration."—*Jurist*, 9th May, 1857.

"Mr. PETGRAVE has accomplished his design with much ability, placing in the hands of students and practitioners, in a small volume, the essence of the principles of this important branch of the law, very clearly stated so as to be readily understood and remembered."—*Law Times*, 23rd May, 1857.

PRIDEAUX'S PRECEDENTS IN CONVEYANCING;

With dissertations on its Law and Practice. The THIRD EDITION, considerably enlarged and improved.

FIRST PRIZE. BEVERLY'S FIRST PRIZE.

ROTARY SHINGLE CUTTER.

Patented 6th May, 1857.

THIS SHINGLE CUTTER having taken the FIRST PRIZE at the Provincial Exhibition, held at Brantford in 1857, surpasses all Machines in use for cutting a Smooth, Uniform and Sound Shingle; and it is admitted by all who inspect the Shingles that they are equal to Shingles made by hand, while its speed of operation challenges competition, cutting from seven to ten thousand Shingles per hour.

Its mechanical construction is remarkable for simplicity, and its durability is far beyond any thing hitherto discovered.

The Inventor solicits a careful inspection of its merits, believing it will meet with universal favor.
