

FOUR THOUSAND ALLIES FIGHTING AT TIEN TSIN.

They Were Expecting Reinforcements—The Chinese Have Many Guns—Anarchy in the Interior—A Tragedy Reported at Peking—Boxers Fill the Streets Day and Night.

London, June 23. — A special despatch from Shanghai, dated Thursday, says: A prominent resident of Peking arrived at Tien Tsin on June 15, reports that the soldiers were troublesome in Peking, that a night attack on the legations was feared, and that the advent of the relief force would be the signal for a general riot in Peking.

LEAVING SHANGHAI.
The Chinese are deserting Shanghai in large numbers and going into the interior. Reports from native sources continue to reach Shanghai of anarchy in Peking. According to these statements the streets are filled day and night with Boxers, who are wholly beyond the control of the Chinese troops, and who are working themselves up to a frenzy and clamoring for the death of all foreigners.

TRAGEDY AT PEKIN.
The British consulate at Shanghai is said to have received from influential natives reports of a tragedy in the Palace at Peking, though precisely what is not defined.

The Consulate thinks that Admiral Seymour was misled by information from Peking, and consequently underestimated the difficulties in his way, and the Chinese power of resistance with Maxim guns and Mausers.

THINK MISSIONARIES SAFE.
The Consols at Shanghai still believe the foreign missions at Peking safe, although Japanese reports received at Shanghai allege that up to June 15 one hundred foreigners had been killed in Peking.

BRITISH MARINES.
It is reported that the British Government will immediately send 1200 marines to China, and possibly, according to some of the morning papers, 10,000 of the regulars now with Lord Roberts.

APPREHENSION AT SHANGHAI.
Shanghai, June 23.—Owing to the absence of warships at Kiu Kiang Fu, some apprehension is felt there of an uprising. The Merchant Steamer Company, therefore, have arranged to always keep one steamer in readiness. The British twin screw sloop Daphne has arrived here with ammunition. There are no signs of a disturbance.

RUSSIA'S POSITION.
St. Petersburg, June 22.—The view expressed by both the press and politicians here is that Russia should make common cause with the other powers in meeting the common danger in China. It is pointed out, however, that when once the time arrives to settle the Chinese question, Russia must regulate her true interest, which differ greatly from those of the other powers, and prevent her more particularly from definitely embarking in hostilities against the vast Chinese Empire, her neighbor. This is also understood to be the Government's view of the situation.

ATTACKS REPULSED.
London, June 23. — In the House of Commons today, Mr. Wm. St. John Broderick, the Under Secretary of State for Foreign Affairs, said the Foreign Office had no news from Peking or Vice Admiral Seymour. He added that news by runner June 18, from Tien Tsin, arriving at Taku, June 21, announced that several attacks had been made and repulsed. Continuing Mr. Broderick said that on June 17 the Chinese shelled the foreign settlement and the Chinese military college was attacked by a mixed force of 175 Russians, British, Germans and Italians. They destroyed the guns and burned the college, which contained a considerable store of ammunition, and killed its defenders. The Russians, with their four heavy field guns did excellent service. The British lost was one man killed and five men wounded; the Germans had one man killed; the Italians had five men wounded, and the Russians had seven men killed and five wounded. During the night of June 17 the Chinese tried to seize the bridge of boats but were repulsed with

SIR CHARLES TUPPER IS HAPPY

BECAUSE AN EFFORT IS BEING MADE TO CLOSE THE SESSION — MINISTERIAL CHANGES — THE PREMIER MAKES SOME STATEMENTS REGARDING THEM — CHARGES AGAINST MR. SIFTON — RAILWAY BILL DEFEATED.

(From our Special Correspondent.)
Ottawa, June 22. — Sir Wilfrid Laurier moved that on Monday next and thereafter, morning sessions be held. Sir Charles Tupper was pleased to see the Government at last taking steps to bring the protracted session to a close. He would like to know when the rest of the estimates would come down and when the Railway Subsidy Bill would appear, and what other bills might be expected. Mr. Fielding said he hoped to bring down the Supplementary estimates on Monday and other measures during next week. He hoped for the end of the session week after next.

ST. HYACINTHE ELECTION.
The Speaker announced that the seat for St. Hyacinthe was vacant through Mr. Bernier's acceptance of office. The writ had been issued for a new election. Nominations on July 4th, polling on the 11th.

McINNES' REMOVAL.
The Premier has announced that the Governor-General, for reasons to be given in another way, had seen fit to remove Mr. McInnes from the position of Lieutenant-Governor of British Columbia. His Excellency had also seen fit to appoint Sir Henri Joly de Lotbiniere to the position thus vacated. Also he had called to the Dominion Cabinet Mr. Bernier, of St. Hyacinthe, who had accepted the office of Minister of Inland Revenue. (Loud cheers on the Government side.)

CHARGE AGAINST MR. SIFTON.
Sir Wilfrid Laurier then referred to certain charges against Mr. Sifton, which appeared in certain letters and statements by Frank Burnett, setting forth that Mr. Sifton was understood to be connected with certain mining concessions on which Phelps and other friends of the Minister were concerned.

The Premier said that in 1898 a friend of his (understood to be Mr. Richardson, M.P.), had forwarded him a report of an interview prepared for publication. Burnett, in this interview, made some charges against Mr. Sifton. Sir Wilfrid Laurier said he took this interview to Mr. Sifton, who handed him two letters, one from Phelps to Mr. Sifton, and the other from Burnett to Mr. Phelps, enclosed by the latter. Burnett complained to Phelps that the concessions obtained from the Department were of no particular value, as anybody could get them. Mr. Sifton said that he wrote Phelps that he could give no more concessions to his friends than to other people, and that the Minister's friendship would be of no use in mining matters.

EMERGENCY RATIONS.
Mr. McNeil suggested to the Government that as it had now been shown that the ration sent to South Africa had not been concentrated food, the Minister should cable that fact to South Africa lest the food should be used as a condensed article.

IN THE SENATE.
The Senate Railway Committee this morning threw out the Canada National Transportation bill by 14 to 9, and the Senate sustained this action by 24 to 18. Messrs. Wood, McMillen, Campbell and other Government Ministers were fathering the project.

BODIES RECOVERED.
Cedar Hall, June 22 — The bodies of two more victims of Wednesday's drowning catastrophe were found today, being those of Joseph St. Pierre and Jos. Fournier. Mrs. Nolin's body was recovered yesterday. This leaves two yet to be found, young Nolin and Alfred Deschamps.

SOME HOT FIGHTING EXPECTED

CONNECTION BETWEEN ORANGE RIVER AND THE TRANSVAALERS SEVERED — GENERAL BADEN-POWELL'S RIDE TO PRETORIA — GENERAL BULLER PRAISES STRATHCONA'S HORSE — KRUGER'S SONS ON THEIR FARM.

London, June 23, 3.45 a.m.—General Steyn's forces in the Orange River Colony are for the time drawing most of the attention of Lord Roberts, rather to the neglect of Commandant-General Louis Botha and President Kruger. The severance between the Transvaal and the Orange River Colony was completed yesterday, as Lord Roberts said it would be, by the arrival of General Buller's advance, under Lord Dundonald, at Stardenton. The wide net around the 6,000 or 8,000 men under Steyn will now contract.

THE TUG-OF-WAR.
Adroit manoeuvring and brisk fighting are likely to take place, because until resistance south of the Vaal is at an end the British line of communication will not be safe.

President Kruger's sons, who surrendered to General Baden-Powell, are back on their farms working peacefully.

BADEN-POWELL'S RIDE.
General Baden-Powell rode with only 300 men from Mafeking and he made the last section of the ride to Pretoria with only 35. Lord Roberts met him in the outskirts of the town and escorted him to the Presidency.

General De Wet's farm houses have been burned by the British.

CANADIANS PRAISED.
General Buller has issued a special order eulogizing the services of Strathcona's Horse.

Captain Jones and the brigade from H. M. S. Forte have been ordered back to the ship at the Admiral's request.

KRUGER'S TERMS.
Lorenzo Marquez, June 22.—President Kruger's principal condition for immediate peace is that he be allowed to stay in the country.

There are 5,000 British sick and wounded at Pretoria.

Mrs. Reitz, wife of the Transvaal State Secretary, and family, who arrived here en route for Europe, had so little money that the Dutch Consul purchased second-class steamship tickets for them.

RAILWAY MEN EXPELLED.
Amsterdam, June 22 — The Netherlands Railroad Company, of South Africa, has received official notification of the expulsion from the Transvaal, of 1400 of its employees with their families.

The Dutch Consul, at Lorenzo Marquez, telegraphs that a proclamation has been issued to the effect that the company's officials who refuse to do British military transport work, will be sent to Europe, via East London, Cape Colony.

STARDENTON OCCUPIED.
Kootstosch, June 22 — General Dundonald, with the Third Cavalry Brigade, occupied Stardenton today without opposition. The Burgers left yesterday, after having blown up the railroad bridge and doing other damage. The infantry marched 23 miles today, and camped at Kootstosch Spruit to-night.

OFFICIAL DESPATCH.
London, June 22. — The following despatch has been received from Lord Roberts:

"Pretoria, June 22.—Jan Hamilton's column reached the Springs yesterday en route to Heidelberg, where they will join hands with Buller's troops, who reached Paardekop yesterday, and will be at Stardenton to-morrow, thus opening up communication between Pretoria and Natal and preventing any joint action between the Transvaalers and the people of the Orange River Colony. "Baden-Powell reports from Rustenburg that he found the leading Boers very pacific and cordial on his return journey hence. Commandant Steyn and two actively hostile field cornets have been captured during his absence. "Lord Edward Cecil, the administrator of the Rustenburg district, has to date collected 3000 rifles. "The commissioner at Kroonstad reports that 341 rifles have also been handed in at Wolmarstad."

A BIG FAILURE.
New York, June 22 — The schedules in the assignments of Price, McCormick & Co. bankers and brokers were filed to-day in the Supreme Court. They show liabilities, \$12,698,591; nominal assets, \$24,180,065; actual assets, \$12,469,921.

CANADIAN HORSES

For the Army in South Africa — A Number to be Shipped.
Toronto, Ont., June 22.—The final shipment of horses from Canada, for the South African campaign will leave Toronto on Tuesday next by special train for Montreal, where the steamer Racheim is waiting to receive them. The shipment numbers 600, and when they are aboard the ship Major Bent's work in Canada ends. He has bought 1,500 horses in the Toronto and Western districts of Ontario and 1,000 in Montreal and Ottawa districts. In Toronto he inspected 2,000 and rejected 500 of them, chiefly on the ground of unsuitability for military work. The horses will arrive at Cape Town to provide the cavalry with remounts at the close of hostilities in August.

WANTS AN INJUNCTION

Against an American Actress — She Altered the Business.
London, June 22. — Mr. W. S. Gilbert, the celebrated dramatist, applied in the Chancery Court to-day for an injunction to restrain Janetie Steer, the American actress, from continuing the production of the Comedy Theatre of the former's play of Pygmalion and Galatea, on the ground that she had materially altered the business as arranged by him, and as it had been played under his direction by other actresses. The hearing of the case was not completed and was adjourned for a week.

JAMAICA' BANANA TRADE.

Kingston, Jamaica, June 22 — Official statistics published to-day, show a drop in the value of bananas exported to the United States in the last quarter, of nearly half a million dollars, as compared with the value of the fruit exported during the same period last year.

The Union Jack.

Replying to a correspondent, who requests to be informed as to the significance of the Union Jack, and how it should be composed, I am pleased to be able to give the following information: The composition of the Union Jack was fixed by royal proclamation of Jan. 1st, 1801. In heraldic language it is described as follows:

"The Union Flag shall be azure, the crosses saltires of St. Andrew and St. Patrick, quarterly per saltire, counter-changed argent and gules, the latter fimbriated of the second surmounted by the cross of St. George of the thirteenth fimbriated as the saltire."

The Jack has gone through different stages before attaining its present form. First there was the English flag, the Red Cross of St. George on a white ground. Then when James I. ascended the throne, he being a Scotch King, brought with him the banner of St. Andrew, a white cross on a blue field. By the Act of Union of 1801 the Irish Parliament was joined to that of Great Britain, when the red diagonal cross of St. Patrick was added.

The word "jack" is from "jacque," or surcoat, charged with a red cross, worn in ancient times by the English soldiers.

A militia order issued on the 12th instant notifies district officers commanding that thereafter camp equipment will not be issued for purposes other than military and directs such officers not to forward applications for the issue of camp equipment on loan to Boys' Brigades or others.

Although it is believed that owing to influence being exerted at Toronto and elsewhere the Government will not put this order into operation until next year, it will nevertheless act as a damper on the enthusiasm of the thousands of youngsters throughout the Dominion who have been eagerly and anxiously

tention of these representatives of the "thin red line" in our midst.

A Good Story.

A story is told of a very popular officer. He was being tried for drunkenness and among other witnesses was his Irish orderly. The court, anxious to give the officer every chance, put several questions to this witness, with a view of eliciting any facts that might be in his master's favor. When the orderly said that his master, on going to bed, had expressed a wish to be called early, the members of the court-martial were distinctly pleased.

A man who gave special instructions to be called early could not, surely, they argued to themselves, have been drunk. Hoping to get favorable particulars, the judge advocate put further questions.

"And why did the Major wish to be called early?" they asked.

"Faith! an' he tould me it was because he was to be queen of May," came the answer.

That settled it.

The scarcity of wood in Natal has been severely felt by the British troops. Almost all of the firewood that does not come from the boxes in which the canteen goods are packed, forms a part of the commissariat stores, and is issued in small quantities to the troops. One pound of wood a day to a man is the specified quantity. The remark of a sergeant is apropos. He said: "They give me three little sticks for my regiment and expect me to cook three meals with them."

From Washington comes the news that the Russian Government has shipped to the United States from Russia every bit of ordnance that will be required to arm the cruiser now being finished for it at the yards at Philadelphia, Pa.

8th Royal Rifles.

The Eighth Regiment, Royal Rifles, have been putting in some practical work since their inspection, the attendance being very good, considering that all the parades, except that of Tuesday night last, were voluntary ones. This speaks volumes for the enthusiasm of the men. It is quite evident that the Eighth are determined to spare neither time nor trouble to be practical soldiers of the Queen. It was unfortunate that the attendance at the Tuesday night's parade, which was a regimental one, called by order of the Commanding Officer, was somewhat interfered with by a misleading item which appeared in the columns of an evening contemporary, erroneously styling the parade as a voluntary one.

The men thus far enlisted are fine specimens of manhood—intelligent, and taken altogether are of a superior class. Their bright and attractive uniforms should in itself be a recruiting feature. Things do not, however, work that way, as it is not only a fact that recruiting is proceeding very slowly, but it is also true that many desertions are taking place. Within a comparatively short period nine men have deserted, two of whom were brought back and for the offense received minor punishment.

Why men should desert when they are, or ought to be, so well off, it is hard to understand. There must be some reason. The subject is of sufficient importance to receive immediate attention from the proper authorities, as all Quebecers are deeply interested in the maintenance of the corps up to its full strength in our city, and any cause for its disbandment or removal elsewhere should be avoided and every effort put forth to encourage the re-

turned, in order that allowances, to which their wives may be entitled during their services in South Africa, may be adjusted.

Medical Inspection.

The Director-General of Medical Services will hereafter visit camps of instruction as follows:—

June 22nd to 25th—No. 1 Divisional Camp.

June 26th to 27th—No. 4 Divisional Camp—La Prairie.

June 28th to 29th, July 3rd to 6th—9th Brigade, Levis.

On 30th June the Director-General proceeds to Halifax on inspection and will return to Levis, leaving Halifax on 2nd July.

Second Lieut. J. A. Ewing, 2nd Regiment Canadian Artillery, has been attached, for a special course, from the 15th instant, to the Artillery School, Quebec.

Lieut.-Col. Wadmore, Commanding No. 3 Regimental Depot, inspects the Cadets of the 53rd Sherbrooke Regiment and Bishop's College Company, at Sherbrooke, to-day.

There will be a grand mobilization of the Pacific Coast forces at Victoria, B.C., on the 1st and 2nd July next, for the purpose of manning the fortresses and giving the men a practical lesson in defensive warfare. It is expected that nearly 1,000 men will participate.

Victoria, B.C., is the latest city to take in hand the erection of a South African memorial. The suggestion thrown out in this column last week to open a subscription list at the Levis camp for the one to be erected in this city will doubtless be acted upon.

It is quite possible that a mounted infantry corps will be formed shortly in Halifax.

Rifle Clubs.

The Rifle Club formed in this city a short time ago has not made any further progress, owing to the delay of the Government in replying to the communication sent by the Club. A feeling prevails that some energetic action should be taken to obtain an answer, which will define the Government's policy in this matter. As the attention of the representatives of Quebec in the Federal Parliament has been drawn to this matter and to the Government's delay in the premises, it is to be hoped that, in the interest of Quebec, they will take the matter up, both as representatives of this district and citizens, and urge upon the Government the necessity of some definite and immediate action in the matter.

An effort is being made to arrange an annual international rifle match between representatives of the United States and Canada. Some of the leading riflemen of both countries have the matter in hand, and in all probability more will be heard regarding it later on in the season. The idea is a good one, and if carried into effect will do much to promote rifle shooting.—The Canadian Military Gazette.

The innovation of straw hats and flannel or satin shirts, at the annual training camps, seems to have been

just what the men required for comfort. Those corps which wore them are loud in their praise, and the indications are that next year the whole force will be supplied with them. At a recent military celebration, held in London, Ont., in honor of the fall of Pretoria, several regiments wore these straw hats, and cut quite a nice figure.

Camp Canteens.

The Canadian Military Gazette is not in favor of the order prohibiting the sale of beer in camp canteens, alleging, as a reason, that it tends to promote drunkenness, and so as to be consistent, it contends, the order should be extended to messes also. As matters now stand, officers can get all the liquor they want, while the men are prohibited from obtaining any. It adds that while the order may be carried out, the men cannot be prevented from drinking in the towns and bringing liquor into the camps.

Ammunition Factory.

There is now talk of building another Government Ammunition Factory to supplement the one here, as it is pointed out that in the event of the force, the Quebec Factory would not be available. It is to be hoped that this agitation is not the beginning of a movement to do away with the Cartridge Factory here. The reason given seems to be a very plausible one at first sight, but it is well to remark that when the Government Cartridge Factory in Quebec, by reason of the investment of this city, becomes unavailable, it will be a sad look out for the remaining cartridge factories built elsewhere throughout the Dominion.

Visit of the 65th.

The sixty-fifth Regiment will arrive in our city to-night, and although the corps during its stay, will be the guests of the 9th Regiment Voltigeurs de Quebec, the welcome extended will be from the citizens of Quebec generally. It is to be hoped that their stay will be a pleasant one, and judging by the extensive preparations and elaborate arrangements made for the reception and comfort of the Montreal boys no doubt can be entertained that they will have a grand time during their visit.

The last British officer actually to leave the Transvaal after the campaign of 1881 was probably among the first to enter Pretoria. The distinction referred to, belongs to Capt. Hugh Davidson, of the Canadian Mounted Police, who was at the time adjutant of the Comaught Rangers, and is now serving with the second Canadian Mounted Rifles, under General Hamilton. Capt. Davidson joined the North-West Mounted Police in 1862.

The Ottawa Field Battery, commanded by Capt. E. C. Arnoldi, are encamped at Deseronto. The corps mustered 95 men—five under strength. In consequence of "D" Battery, now in South Africa, taking their helmets, the men are wearing Forage caps. This headgear is no use for protection, and it is thought that many of the men are likely to suffer severely from

the sun, unless provided with either straw hats or some other wide brimmed headgear.

The guns of "A" Battery will be used while in camp.

The Cadets of the 8th Royal Rifles were notified that the immediate return of all clothing and arms would be required from all not in attendance at last night's parade. This had a salutary effect, as the muster was all that could be desired, and work accomplished at the parade was very satisfactory.

It has not yet been decided whether the Cadets will go over to the Levis Camp for one or three days. Indeed the order prohibiting the issue of tents may prevent them from going under canvas at all.

A Coincidence.

By a very singular coincidence a letter addressed by his sister to H. Lyndon of the R.C.A., now with the first Contingent, was picked up among the Boers by Sergt. Alfred Lyndon, his brother, who left here with the second Contingent and is now with the Mounted Rifles. The letter was unopened—the envelope of which is now in possession of Warrant Officer Lyndon, R.C.A.

A Brave Officer.

When Major Turner, of the Q.O.C.H., left for South Africa, every one looked forward to some daring act of bravery by him, and the despatches show that the general opinion formed was correct. In company with Lieut. Borden, Major Turner has added new lustre to Canada, and spread a greater halo of glory over its fighting men. Under a heavy fire these heroic officers with five men swam over a treacherous river and completely routed forty Boers. It was a forlorn hope, but the deed was required and it was accomplished. Well done, Major Turner.

The annual gun practice of the Garrison Artillery for this district will be carried out as follows:

R. C. A.—Garrison Division, Orleans Island, Q., after annual course.

2nd Montreal Regiment, 23rd and 24th August.

6th Quebec and Levis Regiment, 20th and 21st August.

The allowance for cost of targets, moorings, etc., at the Island of Orleans will be \$5 per section firing, 16 sections, \$80.

The 8th Regiment R. R. held a voluntary parade last night and was well attended. Some good work was done.

Lyddite Shells.

A large number of boxes of 5 inch lyddite shells have arrived and will be placed in the Militia Stores here. That's business!

Fenian Raid Medals.

It is my duty to announce the arrival at the Brigade Office, of the long expected Fenian Raid Medals. A number have already been distributed to their owners, who are members of the 9th Regiment, to enable them to wear them at the reception of the 65th Regiment this evening. The general distribution will be made at the Levis Camp, on 2nd July.

Sgt. Genest, caretaker of the Drill Hall, has received his medal, with two bars for service in 1866-1870. He is supremely happy now.

No. 5 Bearer Company put in another good drill last night. The men turned up in force and went at their work with a will. Although only the fourth drill, the company showed a marked improvement and the careful instruction of Sgt. Maj. Adair, A. M. S., is bearing good results already.

In order not to interfere with St. Jean-Baptiste festivities, the 8th Reg. Cadets will not meet for drill until Wednesday next.

New Militia Orders.

Ottawa, June 22.—The following militia changes are announced:— 6th Quebec and Levis Regiment—Capt. G. P. Roy has resigned his commission, and reverts to the retired list of Majors. To be Captain, Lieut. E. F. Joncas, vice Roy retired; to be 2nd Lieut., (provisionally) J. A. Demers, vice J. Bourassa, retired; L. G. A. Charlebois, vice A. Vaillancourt, retired; to be Captain, 2nd Lieut. E. Gelly; to be 2nd Lieut., (provisionally) Sgt. A. C. Doran N. Belleau; to be 2nd Lieut., Supernumary Sergt. J. E. Roy.

17th Levis Regiment—Provisional—2nd Lieut. A. Martel having failed to qualify his name is removed from the list of officers. To be Lieut., J. L. Cloutier.

81st Portneuf Regiment—Lieut. J. A. Hamel resigns his commission; to be 2nd Lieut., (provisionally) Sergeant L. Duchaine, vice Hamel, retired. Surgeon Major E. Beaudry resigns his commission, retaining rank of Surgeon Major on retirement; to be Surgeon-Lieut., Paymaster and Honorary Captain, L. G. Gilbert.

85th Regiment—Surgeon-Major T. A. Brisson resigns his commission, retaining rank of Surgeon-Major on retirement.

86th Three Rivers Regiment—To be Lieut., J. Cossette.

87th Quebec Regiment—Lieut.-Col. De L. Laurin's term of appointment as Commanding Officer, of this Regiment, is extended, until the 1st September next.

8th Regiment Royal Rifles—Authorized to go into Divisional Camp, Levis, on the 30th instant, for the purpose of obtaining instructions in camp duties and field work, remaining until the evening of Monday, 2nd proximo. Regulation allowances in lieu of rations and forage for two days is authorized.

Queen's Own Canadian Hussars—Participate in tactical exercises of the Divisional Camp, Levis, on the 2nd proximo.

The following officers (on probation) of A. M. S. will be attached to the Infantry Division, Levis, 28th instant to 5th proximo, for course of training:—Surgeon-Major H. H. Ross, 8th Regiment; Surgeon-Major A. Watters, 9th Regiment; Capt. G. Farke and 2nd Lieut. G. Turcot, A. M. S.

FOUR THOUSAND ALLIES
FIGHTING AT TIEN TSIN.

(Continued From First Page).
and has instructed General MacArthur
in such fashion as to warrant the be-
lief here that the troops will be on
their way to China not later than to-
morrow evening, thus saving one or
two days on the original calculations.
There also is good reason to believe
that the authorities will dispatch at
least one other regiment from Manila
to China, with the least possible delay,
in order that the United States may
be in a better position to assist the
allied forces in protecting the lives and
property of foreigners.

THE DESTROYED CONSULATE.
The United States Consulate at Tien
Tsin, which late news advices reports
to have been destroyed, is situated far
up the Meadows road, which runs up
from the Pei Ho directly through the
centre of the town. It is far removed
from any of the other Consulates and
practically isolated from all other for-
eign buildings. This fact might ex-
plain the report of its destruction be-
fore the rest of the foreign Consulates
were molested. The Japanese and the
Russian Consulates are close together
on the Meadows road nearer the river.
Away off by themselves, farther up
the Pei Ho, stand the British and
French buildings, in close proximity to
each other. The American Consulate
is, or was, (as the case may be), one
of the most imposing and substantial
buildings in the town.

POPULATION OF TIEN TSIN.
A recent census of Tien Tsin shows
the foreign population to be about
1,000 persons, including 110 Americans.
Thus the report from Japanese sources
that 1,500 foreigners at Tien Tsin had
been massacred would seem to be un-
true or grossly exaggerated in point of
number. Every foreigner within Tien
Tsin boundary would have to be killed
to bring the total up to anywhere that
number.

The Stomach
That Fails

May Not Be To Blame.—What is the
Condition of the Liver and Kid-
neys?—You May Need Dr.
Chase's Kidney-Liver Pills

When digestion is imperfect and pro-
per nourishment is not derived from
the food, it seems natural to blame
the stomach.
But is it just?
Several cases are on record where
people lives and digested food without
stomachs. As a matter of fact the
most difficult and by far the greater
part of the digestion takes place in
the intestines.

Nothing so quickly interferes with
the digestion as a sluggish, torpid ac-
tion of the liver, kidneys and bowels.
Be reasonable and put the blame
where it is deserved. Acquit the much
abused stomach and get away down to
the foundation of the trouble by
setting the kidneys, liver and bowels
right.

Sometimes people wonder why Dr.
Chase's Kidney-Liver Pills are so re-
markably efficient as a cure for dys-
pepsia, indigestion and stomach trou-
bles. They forget that these ailments
are caused by derangements of the
filtering and excretory organs.
Except in cases of mere temporary
indigestion, stomach medicines are ta-
blets are of little or no benefit. Chronic
indigestion and dyspepsia of long
standing are positively and perman-
ently cured by Dr. Chase's Kidney-Liver
Pills.

To illustrate we refer to the case of
Mr. Henry Moore, of Pickering, Ont.,
who writes as follows:—
"In the fall of 1895 I used three or
four boxes of Dr. Chase's Kidney-Liver
Pills for Constipation and stomach
troubles and never found anything to
compare with them. I had suffered
from these complaints for many years
and taken many kinds of medicines,
but it remained for Dr. Chase's Kid-
ney-Liver Pills to cure me. Am now
well and strong, but continue to take
one or two pills a week to counteract
the uric acid condition in the blood
and keep the bowels perfectly regular."

By acting directly on the kidney,
liver and bowels, Dr. Chase's Kidney-
Liver Pills promptly make these organs
regular and active and permanently
cure constipation, dyspepsia, indigestion
and all stomach troubles. One
pill a dose, 25 cents a box, at all
dealers or Edmondson, Bates & Co.,
Toronto.

FOOTBALL.

This afternoon the Y.M.C.A. Associ-
ation football team meet the Citadel
Club on the Q.A.A.A. grounds. The
game will be a warm one and the at-
tendance will no doubt be good. The
Y.M.C.A. team is as follows:
Goal.....F. Seifert.
Back-Right.....Chas. Tofield
Left.....A. Melville
Half-Backs—
Right.....A. Hay
Centre.....Geo. Henderson
Left.....C. Ross
Forwards—
Right Wing.....C. Stanley
Centre.....F. Stocking
Left Wing.....A. C. Morrison
.....W. Taylor
.....D. Watson

Neither the Citadel nor the Y.M.C.A.
expect to lose this match.

as follows:
Club.....Won.Lst.D'n
Y.M.C.A.....1000
Laval.....1100
Citadel.....0110
Montmagny.....0011

The odds are in favor of the Y.M.C.A.,
but football is full of surprises, and
in this case the unexpected may
happen. Let there be a good crowd
on the stands. Game called at 3.30
sharp.

BASEBALL.**EASTERN LEAGUE GAMES.**

Providence, June 22.—Providence
won two great games to-day, making
12 straight. The first was an eleven
innings battle, and the last went into
the last of the ninth inning with two
out before a run was scored, and Pro-
vidence got that run. Both teams
played great ball and there were many
brilliant plays.

GOLF.

A friendly match of golf was played
on the Quebec links yesterday be-
tween gentlemen and ladies, twelve a
side, the former allowing one stroke
per hole to the latter. The score stood
gentlemen 25, ladies 16. Majority for
the former 9.

LACROSSE.

Montreal, June 22nd.—The Senior
Lacrosse League met to-night, and de-
cided that the Montreal-Shamrock
match of last Saturday stand as de-
cided on the field, in favor of Montreal.
The protest of the Shamrocks against
Downie was maintained, and the pro-
test of Montreal against Robinson
was also upheld.

THE TURF.

Chicago, June 22.—There are appar-
ently only seven sure starters for the
American Derby, worth about \$15,000.
Three or four others are mentioned as
possible starters, but apparently the
list will be confined to the following:
Lieut. Gibson, 129 (Boland), Sam
Phillips, 127 (Burns), Advance Guard,
122 (Taral), James, 122 (Mitchell),
Silver Garter, 122 (Bullman), Barrack
122 (McDermott), Norfolk, 122 (Encs)
W. Oliver's colt, All Gold, may start.
If so he will carry 122 pounds and is
ridden by Caywood. Yellow Tail, it
is said, will not start, but there are
those who think he will go to the
post. Sydney Lucas, 122, is also
carded as a starter, and he has many
followers. Yet it is given on good
authority to-night that he will not go
to the post. Knight Errant is also
carded, but there is a chance that he
will not start.

A NATIONAL CALAMITY

Is the Bad State of the Crops in the
U. S. Northwest.

Chicago, June 22.—The Times-Her-
ald to-morrow will publish a crop re-
port prepared by Snow, the crop expert
who has just completed a two weeks' trip
through the States of Minnesota and
North and South Dakota. He de-
clares the situation is a national cal-
amity, and declares the wheat failure
the worst ever known. He estimates
the Dakotas as promising only 20,000,
000 bushels each, and Minnesota 35-
000,000 bushels, a total of 75,000,000
bushels, against 200,000,000 bushels last
year and 250,000,000 in 1898.

The Quebec Chronicle

The Only Morning Paper in Quebec
CHRONICLE TELEPHONE, No. 45.

QUEBEC, JUNE 23, 1900.

The Chronicle is delivered at
all the seaside resorts of the St.
Lawrence on the day of publica-
tion. No other paper of equal date
reaches the resorts on the North
Shore within 24 hours of the
Chronicle during the season of na-
vigation. No other paper is in the
hands of readers at the South
Shore resorts beyond those in the
immediate vicinity of Quebec on
the day of publication. This
is why the Chronicle is the
first Canadian paper at the sea-
side, an immense advantage to
both readers and advertisers.

RECONSTRUCTING THE CABINET.

It is evident that Sir Wilfrid Lau-
rier proposes to reconstruct the Que-
bec end of his Cabinet before the gen-
eral election. Mr. Tarte, for political
as well as physical reasons, is no
longer a power in the province. His
early retirement is now promised by
the organ of the Liberal party. Sir
Henri Joly is no longer in the Cab-
inet. Le Soleil last night foreshadowed
the following changes at the end
of the session:

Mr. Tarte to retire, and Mr. Bernier
to become Minister of Public Works.

Mr. Brodeur or Mr. Carroll to be-
come Minister of Inland Revenue.

Mr. Fitzpatrick to be appointed to
the Imperial Privy Council and Mr.
Rodolphe Lemieux, or Mr. Horace Ar-
chambault to become Solicitor-General.

These plans are liable to change, but
the fact that they have been mapped
out shows that Cabinet reconstruction
is on the carpet. It is an opportu-
nity for young men to come to the
front, and take a hand in the politics
of the country. Walk up, gentlemen,
and ask for what you want. Friends
and foes will hope that Sir Wilfrid
will make the best possible selections.

A WILD CAT MINING SCHEME.

The Klondike and Columbian Gold
Fields Co., Limited, a British Colum-
bian mining scheme, has recently gone
into liquidation, and a receiver has been
appointed in London. He has reported
that there is a deficiency to the pub-
lic of \$28,085, for which there are no
assets, and of \$229,280 as regards the
contributaries. In other words the
scheme has absorbed a quarter of a
million dollars, and legitimate Cana-
dian projects are likely to suffer from
the loss of credit this will entail.

Speaking of the affair the financial
critic of the London Morning Leader
says: "It must not be forgotten that
the company was floated with a Cana-
dian board consisting of the Hon. J.
H. Turner, Premier of British Colum-
bia; the Hon. C. E. Pooley, Q. C.,
President of the Executive Council,
British Columbia; and Mr. Joseph Bos-
cowitz, said to be a well known Brit-
ish Columbian commercial man. These
gentlemen bought no shares, but drew
their fees, and with the exception of
Mr. Boscowitz, who was appointed man-
aging director in Canada, do not ap-
pear, the Official Receiver says, to
have assisted the company. For some
time past Colonial notabilities have
been far too free with the loan of
their names for the ornamentation of
English prospectuses. Let us hope
that the present lesson will be taken
to heart in Canada." There may be
some force in the criticism of the free-
dom with which Canadian public men
have associated their names with min-
ing projects of doubtful utility, but
with very rare exceptions, indeed, Cana-
dians who have gone into such ven-
tures have invested their own money.

The case which is now before the Brit-
ish public is, we trust, an unusual one
and, if the truth were known, the
wrong committed would be traceable
largely to the promoter, who is notori-
ous in England, Mr. Morris Cotton.

It is impossible to condemn too strong-
ly the practice of floating wild cat
projects on the strength of prominent
names hired for the purpose. Recent
exposures in England will, we trust,
prevent its application here.

CO-OPERATION VS. COMBINATION.

On this continent the capitalist is
rapidly getting the better of the con-
sumer through the organization of
trusts, which threaten to control every
industry and to monopolize all the
necessaries of life. In Great Britain,
on the other hand, the consumer is gradu-
ally getting the upper hand of the cap-
italist, through the co-operation move-
ment. Recent statistics show that one
person out of every five in Great Brit-
ain is connected with the co-operation
business, and that one in every thir-
teen is employed by co-operative soci-
eties. Altogether 78,096 persons are
given employment, the membership of
the societies reaches 1,729,976, an in-
crease of 83,808 for the year, and the
share capital represents \$110,900,000.
This is the result of steady and care-
ful growth in numerous lines of busi-
ness. The only industry to which the
principle of co-operation does not ap-
pear to adopt itself is that of farming.
Almost every other trade is success-

fully operated. One hundred and fifty-
three productive societies have made re-
turns, comprising the following divi-
sions of trades: Cotton, linen, silk,
and wool, 17; farming and dairying,
11; boots and shoes and leather, 28;
metal and hardware, 18; woodworkers,
7; building and quarrying, 19; print-
ing and bookbinding, 14; corn milling,
8; baking, 17; various, 14. It is
rather remarkable that co-operation
should be a success in Great Britain
whereas it is almost invariably a fail-
ure in America. This is partly due to
the fact that our population is more
scattered, and that where a man pos-
sesses business ability he is more dis-
posed to make an independent venture
than to associate himself with others.
Had the co-operative principle been
successful in the United States it
would doubtless have been a useful
check upon the combinations of capital
which are becoming so burdensome to
the public.

WOMAN'S COSY CORNER.

The daisy droops upon its stem,
A glow is on the grass,
I cannot touch his healing hem,
And yet I feel her pass.

Still, like a summer wind that streams
Over the fields unknown,
Sowing the golden dust of dreams,
She passes and is gone.

With stately joy each herb receives
The influence which is hers;
The poplar shakes a thousand leaves,
The water-lily stirs.

The bending willow whispers low,
Till wave and whisper meet,
The very river seems to flow
In song beneath her feet.

And yet, and yet, I am so blind
I only feel her wings,
And, deep within my troubled mind,
The tranquil heart of things.

HOW TO WEAR A SHIRT-WAIST.

To look trim in her shirt-waist seems to be an impossibility to the average summer girl. Apparently she goes on the principle that because the waist is loose it requires no attention beyond putting on and buttoning. Nothing could be further from the fact. Careful adjustment is necessary to give the good fitting, well put together appearance.

Large safety pins, or white headed pins three inches long should be regarded as complementary of every shirt waist. Use three, or perhaps four, of these, preferably the white headed ones. Having put on and buttoned a shirt waist, first pin the back down to the corsets below the waist line.

Pull the shirt well down before adjusting the pin. This improves the fit and reveals the curve of the back, one of the prettiest of feminine lines. Next see that the fronts of the waist from the under arm down to the gathings are smooth on the figure, then pin each side securely down to the corset on the line with the back. This done, the dress skirt may be put on and that fastened in the back to the shirt with the fourth pin. About the waist then goes the belt and the arrangement is complete.

Shirts are sometimes made with a gathering string which pulls from the back of the waist, tying in front and these are worn by a number of deluded women, who fancy that because they tie a string about the waist they are getting a trig effect. On the contrary of all shirt waists this style is most "sloppy." The gathings spread unbecomingly, pull up out of place, and after an hour's wearing the whole waist has the appearance of trying to wrest itself from its owner.

Some women have eyes sewed on the backs of their skirts, with corresponding hooks on the dress skirt. This, as far as it goes, is recommended for trigness, but is disastrous to the shirt, for the weight of the skirt is often too great a strain; moreover, the eyes frequently tear the fabric in the wash and never fail to rust, leaving two bad stains.

Shirt waists wrinkled in front and back, pulling up the belt, and generally askew, are more commonly seen than is necessary. There is no reason why they should not fit as well as the body of a tailor gown. But it does not all lie with the shirtmaker. The woman must do her part. He will fit the thing well, but is defrauded of bones to guarantee its perfect shape. So the woman, if she be trig, shapes it herself. And this she does by pulling it in close all around to her figure and firmly fastening it to her corsets with three long white headed pins.

A FOE TO FEMINE BEAUTY.

Though traitorous to health and defiant to beauty, woman is ever submissive to fashion. The high heel, the tight corset, the germ collecting train, have been frequently preached about; but the stiff high collar seems to be an unrelieved foe to feminine beauty and health.

A stiff high band about the neck tends to strain the muscles and cords of the neck and shoulders, causing an awkward poise of the head. It impedes the circulation more or less, which results in headache and nervousness. It irritates the skin and leaves a disgusting dark mark around the throat. If very tight, as stylish collars generally are, it affects the vocal cords and causes a contraction of fatty tissue, thus ruining the charming contour of the throat. Also, the high collar mercilessly rubs and wears the hair at the nape of the neck into an unbecoming fringe of ragged ends. Too frequently it is the collar which is responsible for the much deplored double chin. And there have been cases where serious enlargements of the submaxillary glands have been the result of the ungraceful high neck-gear which reigns over popular fancy. The exquisite curves natural to the shoulders and neck of a woman are rapidly giving way to lines and angles. The perpendicular side lines of the neck meet the almost horizontal lines of the shoulders, forming an angle of about ninety degrees. The graceful flowing curves of the throat, shoulders and bust will gradually become entirely lost unless some powerful influence is brought to bear to curtail the use of the beauty destroyer, unnatural neckwear at present so fashionable.

CHIT-CHAT.

The little white embroidered handkerchief stocks are pretty and serviceable, and a girl can make for herself any number of them. They have the handkerchief effect, but they can be made of Hamburg of a suitable design—simple little straight pieces to go around the neck and fasten at the back. More of the Hamburg can be sewed into a square, bunched together into a bow and sewed in a place with a few stitches. It is easily laundered at home, and it is no trouble to rip the bow to pieces and put it in shape again.

For the women with short necks who wear no stocks there are soft, straight pieces of silk, caught together once at the back, with a little shirring again on each side, and brought around the neck of the gown and fastened with a

Facts and Fancies Compiled for the Fair Sex.

little clasp, pin, or bow, the ends hanging half way to the waist, and finished in one of many popular ways, with lace or fringe or hemstitching. There are innumerable ways of dressing the neck. There can only be an individual style when one is adopted and made her own by some woman.

The fashion of using linen, instead of satin, silk or plush for cushion covers, bureau scarfs and many other household decorations, is a sensible and economical one. They are extremely dainty in appearance, the material is cheap and durable, and looks as well after it is laundered as when it was new. Linen of every quality is used, from the common crash and butcher's linen to the finest, shirrest pieces that can be found, the quality chosen depending upon the purpose for which it is used.

Many little girl's suits are made with Eton jackets and skirts like those of their elders. They are made chiefly in the heavy wash materials, the linens, ducks, and piques, and have plain little straight waists of any heavy white wash materials.

Fencing is popular among society women because it tends to correct many of the faults brought into prominence by golf.

Another grace-developing fad is indulged in by young girls. They make a study of the various poses shown by world-famous pieces of statuary, and try to put themselves in as many of the positions as possible. Until one has tried she can form no idea of the immense amount of grace to be developed by these exercises.

After a day's work at anything that requires long standing, bathe the feet in warm water, and then sponge them with alcohol. That tired feeling will leave at once.

CONCERNING WOMEN.

Here is an extract from a letter from a San Francisco girl in London, describing her amusing experiences with the street omnibuses: "Several times," she says, "I have seen them stop for an old lady, but never for a young woman, unless it is one of their stopping places or a number want to get on or off. You want your hand and the conductor signals you to come on. He rings, the driver slows down a little and then you run. If you succeed in getting near enough the conductor greets you with a 'good-bye' that sends you flying half way up the spiral stairway that takes you up on top. Then you climb up and perhaps have to walk along the top clinging to heads and shoulders or any-

Consumption's Victims

CAN OBTAIN NEW HEALTH IF PROMPTLY TREATED.

It was thought Miss Lizzie Smith, of Waterford, was in Consumption. But Her Health Has Been Restored. Advice to Similar Sufferers.

From the Star, Waterford, Ont.

Throughout Canada there are thousands of girls who owe the bloom of health shown in their cheeks, the brightness of eye, and elasticity of step, to Dr. Williams' Pink Pills for Pale People. There are few girls in their first years of womanhood who do not suffer more or less from anaemia. We see them everywhere, and they are easily recognized by the sallowness of complexion, or perhaps extreme pallor, they are subject to headaches, dizziness, palpitation of the heart, and feel tired and worn out on the least exertion. To those who suffer in this manner Dr. Williams' Pink Pills offer speedy and certain relief. Proof of this may be had in our own town. Miss Lizzie Smith, daughter of Mr. Wm. Smith, is to-day the embodiment of health and activity, yet not long ago her friends feared that consumption had fastened its fangs upon her. A representative of the Star recently interviewed Mrs. Smith as to the means employed to restore her daughter's health. Mrs. Smith's unhesitating reply was that Dr. Williams' Pink Pills were entitled to the credit. Mrs. Smith said: "My daughter is nineteen years of age. For some years she has not been very strong, and was subject to sick headaches. Last summer she went to work in an establishment in Paris, and had not been there long when her health grew much worse. She consulted a doctor there who said that her blood was in such a bad state that the trouble was likely to develop into consumption, and on hearing this Lizzie at once returned home. When we saw her we feared she was in decline. She suffered very much from headaches, was as white as chalk, with dark circles under her eyes and the eyes shrunken. Her appetite was very fickle and she ate very little. She was very despondent, and at times said she did not care whether she lived or not. I decided to give Dr. Williams' Pink Pills which I heard were so highly recommended in case like hers, a trial. She had only taken the pills for a couple of weeks when we could see an improvement. By the time she had used a couple of boxes her appetite was much improved, her headaches less frequent, and the spirit of depression passed away. Four boxes more fully restored her health, and to-day she is as well and as active as though she had never had a day's illness. I really think Dr. Williams' Pink Pills saved her life, and believe they are worth their weight in gold to girls suffering as she did."

Dr. Williams' Pink Pills makes rich, red blood, strengthens the nerves, brings the glow of health to pale and sorrow cheeks, and makes the feeble and despondent feel that life is once more worth living. The genuine are sold only in boxes, the wrapper bearing the full name, "Dr. Williams' Pink Pills for Pale People." May be had from all dealers or by mail at 50c a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

thing handy until you get a seat. By that time you are a long way on your journey. My skirts are long, I need both hands and I have yet to find a way of fastening my hat to my head so that it will stay on in these winds. I usually make several attempts before I finally succeed in getting on to an omnibus. I run a little distance and then give it up. I never can tell what bus I want until it is past, for they are all in a flaming mass of advertisements, with the destination of the bus in small letters somewhere. At night it is almost impossible to tell where they go, for they carry no lights and the streets are dark."

Mme. Durand, who edits the *Frontier* in Paris, is really in a bad way, but she is not only a woman of great resource, but also of great energy in all her undertakings. Recently a decision was given against her in the Paris law courts where she was charged under the law of 1892 with illegally working women printers at late hours. This is now a matter of history, but the indomitable editor has again come to the front, and has pointed out that in spite of the law of 1892, the most prominent customers were allowed to employ workgirls at night, especially when any big society function was coming off, such as the horse show and the races at Chantilly. Longchamps and Auteuil. Moreover, she emphasizes the fact that women are allowed to work until the early hours of the morning in printing offices, folding and despatching papers, and these poor creatures earn only 30 to 35 cents a day. There are also, with certain exceptions, permitted to assist in mining operations. But unfortunately for Mme. Durand, there was no provision in the law of '92 permitting the employment of women compositors and it is to be hoped that her strenuous efforts for the alteration of this law will be of some avail for the work of compositors is well remunerated and, moreover, it is not arduous. It was an original idea of Mme. Durand to run a woman's paper entirely by women. There is really no conceivable reason why she would not be allowed to continue with her paper on these lines, and for the benefit of her sex. It is rather hard that these women, who earn roughly \$2 by working about six hours, beginning at 7.30 in the evening, should be debarred from this means of livelihood.

TEMPERANCE IN THE ARMY.

WHAT THE TEMPERANCE ASSOCIATION IS DOING FOR THE MEN — GENERAL ROBERTS' MESSAGE — SPEECH BY GENERAL WHITE.

Few people realize the extent to which the temperance movement has taken hold among the British army, or the importance it occupies in the minds of the great military leaders of today. A few days ago the Royal Canadian branch of the Army Temperance Association held a meeting in this city at the Citadel under the presidency of Lt.-Col. Farley. This organization is a branch of the great Army Temperance Association, the annual report of which has just come to hand. No less a soldier than General Sir George White, the hero of Ladysmith, occupied the chair on that occasion, and associated with him were some of the leading ladies and gentlemen of British Society. Among those who sent letters of sympathy with the movement were Lord Lansdowne, Lord Wolseley, Lord Roberts, General Harrison and General Buller.

It was announced that the Council of the Association had telegraphed to Lord Roberts asking whether he would accept the "Award of Merit" given to officers and men who took part in temperance work, and had received the following reply: "Delighted—Roberts." (Cheers.)

The following letter from Field Marshal Lord Roberts, V.C., was read: Bloemfontein, 19th April, 1900.

Dear Dillon,
Many thanks for your letter of March 10th, and for the hearty greeting you sent from the Council of the A.T.A. in England.

I suppose there never was a more "temperate" army than that which marched under my command from the Modder River to Bloemfontein, and it may interest you to read the enclosed cutting, which is an extract from the local Bloemfontein paper, describing a meeting which was held here a short time ago.

I earnestly hope that the Association may continue to flourish, and I believe that nothing but good can result from so many soldiers from all parts of the Empire being brought together in an arduous campaign, when they see how splendidly our temperance men have borne up against the many difficulties and dangers which they have had to face.

Believe me, yours very truly,
(Signed) ROBERTS.
GENERAL WHITE'S SPEECH.

Naturally a great deal of interest attached to the utterances of Sir George White, who was received with great applause. The distinguished leader said in part:

There can be no doubt that the soldier in the early part of his service is most plastic material upon which an association of this sort can work. The young soldier may in this sense be considered the father of the old soldier. It used to be said, "old soldier, old blackguard." I am an old soldier, (laughter)—having worn the red coat for fifty years. I think that if our soldiers are trained up in the way we have heard of this evening, that saying will no longer obtain. (Applause.)

There is one thing that I was very pleased to hear, and that is the accord in which Commanding Officers are with the work of this Association. A temperance association started in the Army is a sort of "imperium in imperio"—perhaps in some instances going almost counter to the wishes of the Commanding Officer—would be doomed to failure, but I think that the officers of this Association have shown the greatest tact in the way they have them, not only Commanding Officers, but all officers. (Applause.) It is not always so. When the A. T. A. first started, I know myself that it had to overcome a great deal of opposition from Commanding Officers, men, I would say, not always of the widest mental range. I have heard eloquent words to-day about the system of "treating." This might almost be described as the pressure put by comrades upon other members of society to drink, and I know full well what this pressure in the Army is. The Army Temperance room enables men to escape that sort of pressure. It is, in fact, a harbour of refuge—(applause)—from what is sometimes very rough weather outside.

We have also had reference to-day to the war in South Africa. I know from experience, not of that war alone, but of many wars, that the tendency of war is to deplete an association like this. We have had references to men thirsting, and covered with dust, naturally wanting a drink, and they have in some cases fallen, and small blame to them. But allusion has also been made a system of enforced temperance that was conducted at a place called Ladysmith. (Laughter.) Well, ladies and gentlemen, there was another sort of enforced temperance, and that was with regard to food supplies, and perhaps that rarrison may be congratulated on the absence of liquor. (Applause.) I may tell you from personal experience that the crime which I had to deal with most often was sleeping whilst on sentry. Now every man and every lady here will understand the danger of sleeping on sentry when there are a number of Boers around. It becomes a very incautious proceeding, even for the sentry himself. (Laughter.) The conditions of service in Ladysmith were very conducive to drunkenness. We did not like to stand up on certain occasions; it was pleasant to lie prone. (Laughter.) After a day with only a black tarpaulin as shelter from the blazing sun, men naturally feel sleepy and heavy, and after working very hard at entrenchments on small rations, they are done at night. Knowing that it was physical inability more than indulgence in drink, I took upon myself to remit a very large proportion of the punishment, which younger and less experienced officers were inclined to inflict for what was undoubtedly, and always will be, a grave military crime. (Applause.)

Reference has been made again to the work in India. I think the work of this Association is of the greatest benefit in India. The conditions of life there are very different to those in this country. There are not the temptations to absence without leave, and other kindred offences that there are here. When I was in India I had figures compiled dealing with crime and

CITY OF QUEBEC.

PROCLAMATION.

CITY HALL.

Quebec, June 20th, 1900.

THE QUEBEC BRANCH.

In Quebec the work of the Army Temperance Association has sixty-one members in good standing, and of these twenty-nine are in active service in India and elsewhere.

The Association has a room on St. John street, furnished with a first-class billiard table and with a small reading-room in the rear, where members can drop in of an evening and pass a quiet hour or two. The billiard table was subscribed for by certain gentlemen who take a real interest in the moral and physical welfare of our soldiers. The rent of the room is paid by Captain Price, of the 8th Royal Rifles.

The officers for the ensuing year are: President—Lt.-Col. Farley, R.C.A. Vice-Presidents—Rev. F. G. Scott, Captain Thacker, R.C.A. Secy.-Treasurer—Sgt. Englefield. Committee—Gunner Prescott, Sergeant Godfrey, Lance Corporal Martin.

Medals were distributed last year to the following:—Gunner Prescott, award of merit. Br. Huxley, 2 years bar. Br. Hallet, 2 years bar.

Sgt. Jordan, W., 2 years bar. Cpl. J. Adair, 12 months medal. Rev. F. G. Scott, 12 months medal. Sgt. F. L. Englefield, 2 years bar; 3 years medal.

Sgt. White, 6 months medal. Gr. Ross, 2 years bar. (Absent on service.)

Sgt. Marks, 2 years bar. (Absent on command.)

Sgt. Weatherbie, 2 years bar. (Absent on command.) The Army Temperance Association has the support of leading men in the army, and its members now number about forty thousand. It will be well if our citizens will lay to heart the lessons which the Association desires to instill into the minds of our men, and at this time of renewed interest in things military, it might be advisable if some form of temperance work were begun among the ranks of our local volunteers. The members of the A. T. A. would give such a movement their hearty co-operation.

Industry is a good estate and diligence is a fair fortune.

CHLORODYNE
CHLORODYNE

It is admitted by the profession to be the most wonderful and valuable remedy ever discovered. It is the best remedy known for Coughs, Consumption, Bronchitis, Asthma, effectively checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague, acts like a charm in Diarrhoea and is the only specific in Cholera and Dysentery. Effectually cures short all attacks of Epilepsy, Hysteria, Palpitation and Sympa. Is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Menstritis, &c.

From W. Vesalius Pettigrew, M.D., formerly Lecturer at St. George's Hospital, London—"I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhoea, and other diseases; and am perfectly satisfied with the results."

"Earl Russell communicated to the College of Physicians that he received a dispatch from Her Majesty's Consul at Manila to the effect that cholera has been raging fearfully, and that the only remedy of any service was CHLORODYNE."—See Lancet, 1st December, 1864.

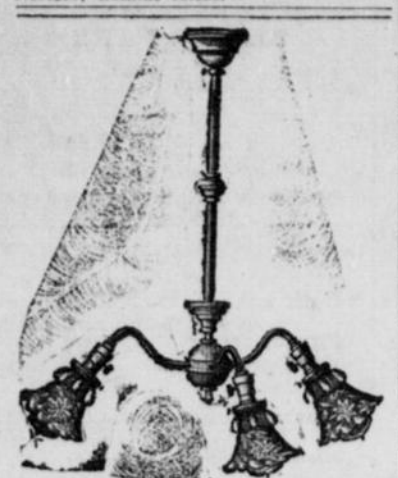

Caution—Beware of Piracy and Imitations.

CARTON.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE, that the story of the defendant Freeman was deliberately untrue; which, he regretted to say, had been sworn to.—See Times, 12th July, 1869. Sold in bottles at 2s. 1d., 2s. 6d., 4s. 6d., and 11s. each. None is genuine without the words "DR. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming Medical Testimony accompanies each bottle. SOLE MANUFACTURERS—J. T. DAVENPORT, 83, Great Russell-street, Bloomsbury, London.

A SPLENDID SUMMER RESORT

Mr. Fort. Ouellet, Grand River, County of Montmorency, has opened a first class Boarding House, for the summer season, where all comforts, such as first class table and rooms are guaranteed. There is no better or more convenient place for tourists as trains run there daily. The scenery is unsurpassable, while a number of falls and lakes abound in that district. It is about 3 miles below St. Anne de Beaupre.

"Lord Roberts still finds time to both to the Boers. Roberts is all right. Both is out in De Wet—so to speak."

REV. PRINCIPAL GRANT, D. D.
We would call the attention to the fact that Principal Grant will preach in St. Andrew's Church to-morrow, at 11 a.m., and in Chalmers Church, at 7 p.m. Chalmers Church will be closed in the morning and St. Andrew's in the evening.

PRESENTATION.

Mr. Oliver McCutcheon, Professor of the Boys' High School is about to leave the city to take a position in the Presbyterian College, Montreal. In consequence of this, a number of Mr. McCutcheon's friends connected with Chalmers Church presented him, last evening, with a most complimentary address and a purse containing some \$70. Mr. McCutcheon has been most active in Church work, and he will be sadly missed from Chalmers.

Y. M. C. A. NOTES.

The Sunday services for men only at the Association building will be as follows: Prayer and praise service at 9.45 a.m. Bible study class at 3 p.m. Open to all young men.

The ladies' committee in charge of the recent reception desire to thank all the friends who in any way contributed to the success of the same.

The Y.M.C.A. will have a tent at the Laprairie Military Camp. Gen. Secretary Distin will be in charge.

THE UNKNOWN SUICIDE.

Inquest on the Remains Yesterday Morning.

Dr. Belieu, the Coroner, held an inquest yesterday morning on the remains of the unknown man found on the Louise Embankment a few days ago. No one was able to identify the body. All that is known of him is that for a few days he was boarding at Henchey's Hotel, but he gave no name and even took the trouble to remove the marks from his clothing before he left the house for the last time. The Coroner's jury returned a verdict of suicide by hanging.

CITY SIDEWALKS.

Le Semaine Commerciale publishes this week a letter signed "Victor" which is very timely. In referring to the state of the sidewalks in the city the writer says:

"The little stairway which leads from Cote d'Abraham to St. Valier street is simply a veritable mass of decay. It is a disgrace to the neighborhood. I am assured that if this stairway has never been repaired it is because the proprietors of the adjacent property have never asked for the repairs."

Victor also draws the attention of the City Fathers to the bad condition of the sidewalk on the western side of Crown street, from the foot of the hill to St. Charles Hospital.

The Round Trip from Quebec to Roberval and Chicoutimi by rail, through the lovely lake and mountain scenery of the Canadian Adirondacks, down the Saguenay and back to Quebec by steamer, touching at all the beautiful seaside resorts of the Lower St. Lawrence, is without doubt one of the most varied and delightful tours on this continent. A daylight trip both ways. No tourist should fail to take it. Excellent accommodation at Hotel Roberval. Round trip tickets only Ten Dollars each.

AN ANTICOSTI EVICTION.

Mr. Stubbert, one of the Fox Bay settlers, who did not come up with the others in the Wanderer, arrived in town yesterday, and left for Ottawa by the C. P. R. train last night. Mr. Stubbert is not in exactly the same position as the rest of the settlers as the land he occupied on Anticosti was purchased by him years ago. Unfortunately he has not the title deeds and hence is at a disadvantage in fighting the claims of Menier. Mr. Stubbert reports that after the Wanderer left Fox Bay, some of Menier's men came down and attempted to put him off the Island. Stubbert showed fight and repulsed the invader, horse, foot and artillery. He will consult with Mr. Laurier regarding his rights on Anticosti.

KIND WORDS FOR QUEBEC.

How the Western Journalists Appreciated Their Visit to Quebec.

Mr. L. J. Demers, the President of the Associated Press of Quebec, has received the following from Mr. J. C. Cromie, Chairman of the Western Canada Journalists who recently visited this city:

Le J. Demers, Quebec.

My Dear Demers,—Our party arrived in Winnipeg on schedule time Friday morning last, after having one of our most delightful trips ever experienced on an editorial party. It is a little hard for us to buckle down to work again, but even in our busiest moments, when engrossed with business cares and the routine of the business day, there springs up in our minds a fond remembrance of old Quebec, her hospitable people and the only Demers. Our trip to the historical old town was one of the brightest spots in our itinerary, and every member of the party feels that to have omitted Quebec would have been to destroy the climax of our pilgrimage. We all thank you from the bottom of our hearts for your kindness. Knowing that you sacrificed your own interests for the enjoyment of the brethren and sisters of the Wild and Woolly West, we people from the land of number one hard and grass-fed steer realize, now that we are at home and have had a moment to think, that our trip was one of the most educational, instructive and valuable experiences of our lives. We come back with different ideas of our fellow French citizens. While we may not all agree in regard to many features of domestic economy, yet we know that Quebec contains a population of true Canadians and loyal Britishers. Again thanking you for your kindness on behalf of the entire party and personally for your many courtesies and kindnesses, which we will never forget, I remain, yours very truly,
J. C. CROMIE, Chairman.

THE 65TH REGIMENT

Will Arrive in Quebec This Evening—Their Reception.

The 65th Regiment, Montreal's crack French-Canadian corps, will arrive tonight by C. P. R. The regiment will come down in full strength under the command of Lt.-Col. Labelle. We have several days ago published the programme drawn up for the reception, of which the following is the official text: The 65th will arrive at 10 p.m., and escorted by the 9th Regiment will march from the Depot to the end of St. Joseph street, returning by the same way, remaining in the cars overnight. On Sunday morning at nine o'clock a solemn mass will be celebrated at the Basilica. The 9th Regiment will furnish a guard of honor composed of 50 men, in charge of Capt. Chabot, Matte and Belieu. Mr. Moise Raymond and Miss Laford, of Levis, will sing. The collection will be taken up by Misses Alma Larue, Juliette Larue, Fabiola Poulin and Marie Adele Dionne accompanied by two officers of the 9th Regiment. In addition to the guards of honor, the members of the 9th Regiment are invited to accompany the Montreal boys from the Victoria Hotel where they will breakfast, to the Church. The route returning from Church to d'Auteuil streets to the Victoria Hotel, where diners will be the order of the hour. At one o'clock the officers will lunch with their brother officers of the 9th Regiment at the Garrison Club. After lunch, by the courtesy of Mr. Evans, Manager of the Q. R. L. & P. Co., the visiting officers will be given a ride over the entire electric system of the city and district. The n. c. officers of the 9th Regiment will meet their conferees of the 65th at Montcalm market at one o'clock, and leaving by train at 2 o'clock for Montmorency Falls, a spread will be tendered them at Bureau's.

In the evening at 8 o'clock there will be a grand concert given by the fine band of the visiting regiment and the State band. This will be followed by a grand display of fireworks after which both regiments will line up at the Champlain Monument and with private citizens joining in will form a grand torch-light procession to escort the visitors to the train, giving them a genuine Quebec send-off. Lt.-Col. Evanturel, A.D.C., commanding officer of the 9th Regiment, has written to Mayor Parent, informing him officially of the intended visit of the 65th and of the programme mapped out for the reception of the visitors in order to be in a position to comply with municipal regulations, and for the purpose of requesting the assistance of the police force to keep the line of march. It is needless to state that our worthy First Magistrate will do all in his power to make the demonstration the grand success it should be.

Wrinkles Come

To many a face which should still be smooth and fair, worry doesn't bring them. There are no cares and anxieties to furrow the face. They are the signs of physical suffering, graven by the hand of Pain. It is the saddest result of the diseases which affect the womanly organs that they write plainly the sad record of suffering on the face and form. The skin becomes sallow, the cheeks are sunken, the eyes look dull, the body falls away. No woman who values her health or good looks should neglect to use Dr. Pierce's Favorite Prescription for diseases of the womanly organs. It cures irregularity, inflammation, ulceration and female weakness. It lights up the eye, brightens the complexion, and rounds out the sunken curves of the body.

Dr. Pierce's Medical Adviser, 1008 pages, sent free on receipt of stamps to pay cost of customs and mailing only. Send 31 one-cent stamps for paper covered book, or 50 stamps for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

A SLOW, BUT STEADY RISE

THE MONUMENT FUND NEAR THE \$700 MARK — 2,786 QUARTERS IN ALL — A GOOD PULL WILL SOON SEND IT UP TO \$1,000.

Another good list of subscriptions for the Monument Fund arrived yesterday and the total is now within \$3.50 of the goal of \$700. The time is getting short. The war will soon be over and our brave soldier lads will be on their way home. Let the quarters roll in.

Mainly About Persons.

Mr. and Mrs. J. M. Hurcomb, of Ottawa, were passengers on yesterday morning's boat for the Saguenay.

Mr. W. H. Olive, travelling agent of the Intercolonial Railway, was in town yesterday.

Mr. Jas. Hardwell, Assistant General Freight Agent of the Intercolonial Railway, was in town yesterday.

Mr. R. Audette, president, and Mr. N. Rioux, director of the Banque Nationale, with Mr. Eugene M. Talbot, architect, and Mr. St. Hilaire, contractor, were in Chicoutimi this week arranging for a new building for the branch of the bank in that town.

Mr. J. T. Molson, of Montreal, arrived here yesterday afternoon on board his yacht, en route to Little Metis, for the season.

Hon. Judges Bosse and Blanchet left for Montreal yesterday to render judgments in the Court of Appeals to-day.

Mrs. Angers, wife of the ex-Lieutenant-Governor of this province, is a guest of Mr. and Mrs. P. B. Dumoulin at the Island of Orleans.

Hon. C. Langelet left by boat for Montreal last evening.

Hon. Mr. Duffy and Mayor Prefontaine of Montreal were guests at the Chateau yesterday.

Mr. W. C. Meredith, Toronto, is registered at the Chateau.

Mr. K. P. McCaskill, of Montreal, arrived in town yesterday, and is stopping at the Chateau.

ST. LOUIS WARD.

Election of Mr. B. Leonard as Alderman for Seat No. 1.

Yesterday was polling day in St. Louis ward for the election of an Alderman to replace ex-Alderman Turcot, who resigned some time ago. There were two candidates in the field, ex-Ald. B. Leonard and Mr. P. Campbell, and the friends of both candidates worked like Trojans to secure the election of their candidate. As the returns from the polls were received at the City Hall, there was great enthusiasm, and Mr. Leonard, who defeated his opponent by 39 votes, was highly complimented on his victory. Ald. Leonard, who has already represented this ward to the entire satisfaction of the electors, is one of Quebec's most prominent business men, and his reelection to the City Council is an acquisition to that body.

The result of the election was as follows:
Poll No. 1—
Leonard..... 42 Campbell 18
Poll No. 2—
Leonard..... 38 Campbell 23
Total..... 80

ST. JEAN-BAPTISTE.

How the Day will be Celebrated in Quebec.

To-morrow is the national feast of the French-Canadians, but Monday will be the day upon which the celebration will be kept up in this city by the City of Quebec and St. Sauveur Societies, who have joined hands for this occasion. In the morning the processions will leave the Esplanade at 8.15, and after passing through several streets of the Upper Town, St. Roch's and St. Sauveur, will attend Mass at St. Malo Church. Addresses will be presented to the Lieut.-Governor at the Parliament Buildings, to Mgr. Begin, at the Archbishop's Palace, and to Mayor Parent, at the City Hall. A special musical service will be rendered at the Church, when a Nine's Mass will be sung.

For the afternoon a fine programme of horse and foot races on the Quebec Exhibition Grounds, has been prepared by the Committee, where valuable prizes will be given. In the evening bands will play on the Terrace, in Boulevard Langelier and Victoria Park, and in the latter place a fine display of fireworks will be set off.

AT ST. JOHN'S CHURCH.

A Treat in Store for Musicians at the Service To-morrow.

There is a treat in store for lovers of good musical St. Jean Baptiste Church to-morrow. On this occasion a choir and orchestra from Montreal composed of 50 members, under the leadership of Prof. Goulet, will render a musical service at High Mass. At the evening service, the parishioners of St. Jean Baptiste will have the advantage of hearing Miss Rosemary Gloss, a celebrated singer, of New York, on a trip to this city. Although quite young, Miss Gloss possesses a very powerful and well cultivated voice, and the American press predicts a very brilliant future for her. Mr. Hebert, the organist, is to be congratulated on securing such an artist.

FINANCIAL DIFFICULTIES.

Messrs. Lacroix & Pichette, dry good merchants, St. Roch's, have consented to assign on demand of P. Garneau, Fils & Co. The liabilities will amount to about \$10,000, and assets about the same. Mr. V. E. Paradis has been named provisional guardian.

A SPLENDID YACHT.

Capt. W. Price's yacht Jamborie, arrived up from Gaspe at noon yesterday and was moored in the inner Basin. The yacht, which is 52 feet on deck, is a splendid looking vessel, and from all appearances a very fast sailer. A large number of yachting enthusiasts visited the Jamborie yesterday, and commented highly upon its appearance.

VANDALISM.

Last evening some young boys were amusing themselves on St. John street by throwing stones at each other, and succeeded in smashing a plate glass window in the music store of Messrs. Lavigne & Hutcheson. Needless to say that they disappeared immediately.

GOING TO THE COUNTRY.

Citizens are now daily removing to the country for the summer months, and this is the proper time for those who own bicycles to provide themselves before leaving with the necessary fixtures. No better place to secure bicycle sundries could be found than H. S. Scott & Co., the prominent Lower Town hardware merchants, where everything in that line can be purchased at the lowest prices.
