OLD KING TOP GONE

Dropped Dead at Blue Bonnets
—Rain Interfered with
Yesterday's Sport.

Montreal, June 6.—The worst weather conditions of the Blue Bonnets met confronted the racing fraternity to-day. Rain, which threatened during the forenoon, commenced to fall this afternoon and, in consequence, the track was heavy. This, of course, had an adverse effect on the attendance. The card for this afternoon was a good one and furnished some keen racing. The horse, King Top, owned by Mr. W. Henderson, a prominent Montreal business man, dropped dead at the track last night. King Top was schooled on the turn of the field with Harry Henderson, a son of the owner, in the saddle, and as he was going over the last couple of jumps seemed to falter. Shortly after, the horse was taken out of the field into the flat, he staggered and fell dead. King Top was a valuable horse, fourteen years of age, and had won many jumping races.

After the ride Jockey W. Knapp put up on the odds on favorite, Gilpen, in the fourth race yesterday, he was called to the judge's stand as the stewards considered the ride was satisfactory, the efforts made by the horse being very weak. The stewards have ordered Knapp not to engage any more mounts at this meeting until he has permission from them. Summary:—

First race, half mile, maiden, 2-year-olds, \$400 added—Columbia Lad, 113, (McDaniel), 7 to 5 and out, won; Guards, 110, (Schallor), 10 to 1, 4 to 1, and 2 to 1, second; Truro, 110, (Diggins), 6 to 1, 2 to 1, and even, third. Time, 2:00. Concerned, Fred, Mace, Helms, Green, Maxton, Donald T. and Pedregre also ran.

Second race, one mile, 3-year-olds and up, selling, \$400 added, the Jockey Club course—Schroeder's Midling, 94, (Gaugel), 5 to 2, 4 to 1, and 2 to 1, won; Azeline, 104, (Goldstein), 7 to 5, 1 to 2 and out, second; Canopian, 107, (McNamara), 3 to 1, even and 1 to 2, third. Time, 1:45.25. Factotum, Water Dog, All Ablez and Stoney Lee also ran.

Third race, one mile and a furlong, Blue Bonnets stakes, purse \$1,000—Main Chance, 121, (McDaniel), 2 to 5 and out, won by two lengths; Col. Jack, 123, (Bullman), 8 to 5 and out, second by eight lengths; Monkey Puzzle, 116, (Diggins), 20 to 1, 3 to 1, and out, third. Time, 2:00.45. Only three ran.

Fourth race, about two and half miles, handicap, steepchase, 4-year-olds and up, \$400 added—Dr. Keith, 148, (Saffel), 8 to 5 and out, won by half a mile; Eshejoy, 156, (Brazil), 4 to 1, 2 to 5 and out, second. Time, 6:04. Three started but Kara lost rider.

Fifth race, half mile, 2-year-olds, selling, \$400 added—Lady Powell 104, (McDaniel), 4 to 5 and out, won; Camplight, 104, (Galex), 15 to 1, 4 to 1, and even, second; Patricia, 107, (H. Alex), 5 to 2, 7 to 10, and out, third. Time, 1:50.15. Mamatonovk, Lee Crest and Nell W. also ran.

Sixth race, seven furlongs, the to-bogon course, for mares and geldings, 4-year-olds and up, selling, \$400 added—No Trumper, 114, (J. Johnson), 6 to 1, 5 to 2 and 6 to 5, won; Abjure, 107, (Gaugel), 15 to 1, 6 to 1, and 3 to 1, second; Principia, 107, (Goldstein), 2 to 1, 4 to 5, and out, third. Time, 1:32.35. Mendocino, Tyrolion, Bonnie Reg, Asterisk, Healing Salve, Bally Castle and Oriflamme also ran.

ATTEMPT TO BURN A CITY
Allentown, Pa., June 6.—What was apparently an attempt by incendiaries to destroy the city of Allentown occurred early to-day, when firemen were called simultaneously to fight three fires in the business section of the city. An attempt was made to draw the firemen from the business section by false alarms from remote residential sections. The total loss was \$125,000.

FATAL AUTO MISHAP

Machine Crashes Into a Street
Car in an Endurance
Run.

Albany, N.Y., June 6.—The 200 mile endurance automobile run, under the auspices of the New York Motor Club ended in the loss of one life and the more or less serious injury to two other persons about three miles east of Albany shortly after six o'clock to-night, when one of the automobiles crashed into an electric car.

Clarence McKemie, of 101 West 66th street, New York, president of the Standard Brake Company, was killed instantly. W. H. Mosher, a bicycle policeman, residing at 538 West 51st street, New York city, and W. J. Swan, of 247 Chestnut street, New Britain, Conn., chauffeur, are in local hospitals. Mosher is badly hurt. Swan is said not to be seriously hurt. Doctors from Albany and Rensselaer and ambulances from this city were hurried to the scene and the injured men taken to hospitals. In Albany, Mosher, it was stated, sustained fractures of the skull, jaw and hip, and probably internal injuries. Swan sustained severe injuries about the head and body.

ATTEMPT TO LYNCH PRIEST

Rome, June 6.—The people of the village of Girardina, Sicily, yesterday attempted to lynch an Abbe because in the course of a sermon he denounced Garibaldi as a spurious hero. The Abbe had to appeal to the protection of the carabinieri to escape from the mob.

SOCIALIST APPEAL TO SOLDIERS

London, June 6.—"You are pariahs," "Trial by court-martial is a mere farce and mockery," "Military law is rotten." These are among the phrases in a circular headed "An Appeal to Soldiers," which was distributed at Aldershot yesterday by the Social Democratic Federation. It urges the soldiers to be dissatisfied with their lot and demands the abolition, root and branch, of the national army as at present organized.

ONTARIO EXPLORATION

Toronto, June 6.—Three exploring parties are being sent out by the Bureau of Mines this spring to various portions of northern Ontario. One, under the direct charge of Professor Miller, Provincial Geologist, assisted by C. W. Knight, of Kingston, will make a geological as well as a topographical examination of the new silver Cobalt area on the Montreal River. Professor Brock will make an examination of the Larder Lake region. Mr. A. L. Parsons, of the University of Toronto, will accompany the surveying party headed by A. Niven, O. L.S., which is to run the boundary line between the districts of Algoma and Thunder Bay, north of the C.P.R.

COADJUTOR BISHOP FOR TORONTO

Toronto, June 6.—In the report of the executive committee to be presented at the Anglican Synod, which opens next Tuesday in St. James' Cathedral, Archbishop Sweetman will ask the church for an assistant bishop to aid him in the work of the diocese, which is the largest in the Dominion. Last year the question of the appointment of a coadjutor was discussed at the Synod but nothing was done in the matter. As the churches, missions and stations in the diocese number over 550, it is the opinion that an assistant who has power to officiate at confirmations and ordinations should be appointed. In this connection the name of Bishop Reeve, of Mackenzie River, who is now home on furlough, is mentioned.

A little learning is a dangerous thing, but a lot of ignorance is still more dangerous.

Fortune's knock is seldom loud.

THE TERCENTENARY CELEBRATION PLANS

Meeting of the Executive Committee Last Evening

A WORKING COMMITTEE

Appointment of a Permanent Secretary—Arrangements for Accommodation of Expected Visitors.

A meeting of the executive of the Tercentenary was held last evening at the City Hall under the chairmanship of Mayor Garneau, president, those present being Hon. A. Turgeon, Col. Evanturel, Lieut.-Colonel Ray, Hon. Mr. de la Bruere, Major Hetherington, Messrs. Cyr. Tessier, Thos. McDougall, M. Joseph, Aug. Carrier, M.P., Dr. Morin, Dr. Simard, Dr. Harper, G. M. Fairchild, P. B. Dumoulin, C. Duquet and A. Painchaud, and H. J. J. B. Chouinard, secretary. The secretary informed the committee that Mr. Mathieu, Mgr. Gagnon and several other clergymen, members of the committee had telephoned him that owing to other pressing business they would be unable to attend the meeting.

Mr. Dumoulin, as president of the Finance Committee, read a report of the committee to the effect that their quorum had been fixed at three members, and that they had decided to pay all accounts which would be approved by the president of the executive and the president of the finance committee, these accounts now amounting to \$13,65, for printing, translating and typesetting.

Mr. McDougall, treasurer of the executive, informed the committee that he now had in hand \$5,500. Mr. Jules Hone, president of the hotels and lodgings committee, was unavoidably absent but the first report of that committee was read by Mr. Dumoulin. The report is a very important one and shows that Mr. Hone has had considerable correspondence with the parties who had charge of the lodgings and hotels at the St. Louis Exposition. Mr. Saxton, who superintended this department at St. Louis, is also in charge of hotels and lodgings at the Jamestown Exhibition and has written to Mr. Hone in connection with the tercentenary celebration.

Mayor Garneau congratulated the committee which had done much special work so far, as they have come the right way to try and overcome the difficulty of securing lodgings for those who will visit Quebec on that occasion.

Mr. Fairchild remarked that at a recent meeting of the historical and archeological committee it had been suggested that a prize of \$500 be given for the publication of the best guide which would be known as the official guide.

Mr. Chouinard replied that since the last meeting of that committee he had changed his opinion regarding the advisability of having an official guide printed, as there are already several good guides published in this city and it would only be competing with the publishers who improve on their guides every year. He was also of opinion that the historical committee could not take action on the matter, as that committee had not yet decided upon their quorum.

Hon. Mr. Turgeon suggested that each committee should decide upon their quorum, otherwise no decision could be arrived at only by an absolute majority.

Col. Evanturel was of opinion that this executive could arrange with the publishers of the guides to print a special guide for the tercentenary exhibition for a certain financial consideration.

The secretary was instructed to write the committees to have them fix their quorums. Dr. Simard, pursuant to a notice given at last meeting, moved that a working committee be appointed which would have the direction of all the business decided upon by the executive, such committee to be composed of the president, three vice-presidents, and treasurer of the executive, and a delegate from each of the seven sub-committees, and that the secretary-general and two joint secretaries act in such capacity with this working committee and that the quorum be fixed at five members.

In reply to Dr. Morin, Dr. Simard stated that this working committee could not do anything without the executive's approval, and the object of such a committee was to carry out the decisions of the executive.

Mayor Garneau, in answer to Major Hetherington, stated that the idea of Dr. Simard's motion was to get a committee composed of a few members to carry on the work. The original executive was composed of 35 members which had now been increased to 75 or 80. This working committee would only carry out the ideas of the executive or elaborate upon any project which the executive could suggest.

The motion was finally adopted. Mr. Fairchild thought that the time had arrived to appoint a permanent secretary and also to have permanent officers. There was no man better suited for the position of permanent secretary than Mr. H. J. J. B. Chouinard who had already done considerable practical work in connection with this celebration. He proposed that he be appointed permanent secretary. On suggestion of the chairman, this proposition was left to the working committee to carry out.

On motion of Hon. Mr. Turgeon, seconded by Dr. Simard, it was decided that commencing in September next, the executive should meet every second Tuesday of every month, except when a meeting was specially called by the president.

A man with a future and a woman with a past can generally be sure that they are being talked about.

THE QUESTION ASSUMES A SERIOUS ASPECT

Japanese Relations with the United States

SAN FRANCISCO RIOTS

Have Greatly Excited Japanese, who Expect Reparation and Punishment of Offenders.

Tokio, June 6.—The leading papers here whose opinions are worth quoting are silent on the question of demanding an indemnity for the damage to Japanese establishments in San Francisco. Reparation for the damage inflicted and punishment of the culprits is expected and it is believed that the Government is taking proper steps in the matter. Though the public here is irritated at the tardiness displayed in effecting a solution of the difficulty, opinion has not yet reached the stage of advocating an appeal to a hostile demonstration in any form. It is true, however, that popular indignation has reached a degree never before witnessed in the history of Japan's relations with the United States. It is thought by influential Japanese that the quicker the facts regarding the negotiations now in progress here and in Washington are published the better it will be for all concerned, as a stage has now been reached when it may prove dangerous to keep the people in suspense or ignorance of what is being done.

An experienced diplomat, who was a protégé of Marquis Ito and prominent figure in national affairs, said to-day to the Associated Press: "America is the last country with which I expected complications with Japan. Traditional friendship of the two nations uniformly maintained by the Government at Washington makes me almost hesitate to believe that an anti-Japanese sentiment exists in Uncle Sam's territory, though the unfortunate occurrences stand unassailable. But before forming a final agreement in the present instance it is absolutely necessary to bear in mind that in America the autonomy of the various States is jealously guarded and the slightest infringement or interference by national authorities is deeply resented. Consequently the Federal Government is in a most delicate position. Fortunately the chief executive of the United States is a wonderful personality. Judging by his speeches and writings he might be called the incarnation of the principles of Bushido. There is no doubt that he is resolute enough to cut this gordian knot."

"The Japanese cause, in the present instance, is right throughout, beyond the shadow of a doubt. This is a fact impossible to escape the enlightened judgment of a person like President Roosevelt. I confidently expect that justice will be meted out and the sooner his action in this matter is made known the better."

UNION WITH CANADA

London, June 6.—The West Indian Club gave a dinner last night at the Hotel Cecil in honor of Sir Robert Bond, the premier of Newfoundland. Joseph Chamberlain sent a letter expressing his hope for the ultimate union of Newfoundland with Canada as most conducive to the welfare of Newfoundland.

Sir Robert, in reply to a toast to his health, said that he would not challenge the correctness of Mr. Chamberlain's statement but such a union at present was neither desirable nor practical.

Referring to the recent meetings of the imperial conference, Sir Robert said he had told the government that a repetition of his action of last year would not only be regarded as humiliating to the colony but would lead to a total disregard of all constituted authority within it. He was not without hope that before he returned something satisfactory would be arrived at regarding the matters in which Newfoundland was interested.

Sir Robert said it was his pleasure to admit reports to the contrary notwithstanding, that his treatment from his fellow-ministers in all his negotiations with them.

W. MACKENZIE'S SON

Died Yesterday in Toronto After an Operation for Appendicitis.

Toronto, June 6.—Alexander William Mackenzie, second son of President William Mackenzie, of the Canadian Northern Railway, died at his residence to-night after an operation for appendicitis. He was in his thirtieth year and was the treasurer of the Canadian Northern Railway. Mr. Mackenzie was well known in business, social and sporting circles. He was in most of the Toronto clubs, the Ontario Jockey Club, the Toronto Hunt Club and the Lambton Golf Club. Mr. Mackenzie was at one time a well known cricketer and football player. He was financially interested in a number of the Mackenzie & Mann projects. Mr. Mackenzie attended the races on last Thursday and was taken ill on Friday and had to be operated upon. He married Miss Kirkland, daughter of the former manager of the Bank of Montreal. His father, Mr. Wm. Mackenzie, who with his family has been touring in Europe and the east, is thought to be on the way home now.

He that is inexperienced in whitting should use a dull knife.

Anybody can keep cool most of the time this spring.

HIS CAREER OF CRIME LAID BARE

Gruesome Revelations of Harry Orchard

IN CASE AGAINST HAYWOOD

His Assassination of Former Governor Frank Steunenberg of Idaho.

Boise, Idaho, June 6.—The Steunenberg murder trial was resumed at 9 o'clock. Orchard resumed the witness stand at 9:03 a.m. Harry Orchard, the man who says his true name is Albert Horsely, who assassinated former Governor Frank Steunenberg, at Caldwell on the night of December 30th, 1905, resumed his gruesome story as a witness against William D. Haywood, secretary and treasurer of the Western Federation of Miners, in the district court this morning. The gruesome relation of five years of crime has not been finished. The climax is to come to-day. If, indeed, there can be a climax more terrible than the one already reached in the narrative told by the witness. The story of the crime with which Haywood is charged is a revelation to the people of this country, if the story told by Orchard is true. So far as the people of Idaho and the presentation of this case are concerned, the climax comes to-day in the telling of the murder of Frank Steunenberg. In his confession on the street yesterday Orchard, or Horsely, without telling any of the early history of his life, without revealing the reasons that caused him to change his name, without a word of the wife whom he is known to have deserted or of father and mother back in the old days in Canada, plunged at once into the narrative of what he has done since early in 1899, when as a worker in the Cour D'Alene he first joined the Western Federation of Miners. It is not to be supposed that his misdoings commenced with the lighting of the fuse that blew up the Bunker Hill mill at Wardner and hurled two men to death, but to-day he must tell of the last crime of all, when on a stormy night as the old year was dying, he set a bomb that blew Frank Steunenberg to his death within sight of his children and within the hearing of his wife.

RECEIVED BY THE POPE

Rome, June 6.—The Pope to-day received in private audience Sir Wilfrid Laurier, the Canadian Premier, and L. P. Brodeur, the Canadian Minister of Marine, and their families. The Pontiff informed his visitors that he followed with affectionate interest the progress made by the Dominion.

GRAND DUKE'S DANCER

St. Petersburg, June 7.—There have been so many alleged attempts lately upon the lives of members of the imperial house of Russia that scarcely a day passes without adding to the number. The latest, according to the Novoe Vremya, was a deliberate design on the life of Grand Duke Michael Alexandrovich, younger brother of Emperor Nicholas. In any event a serious accident was narrowly averted. The scene was the Gatchina road leading to Tsarsko-Selo and the time yesterday afternoon. Piles of stones completely blocking the highway were discovered just before the passage of an automobile bearing the Grand Duke. They were hurriedly cleared away and the Emperor's brother passed in safety.

MEANS MUCH TO MEN.

A Name is Protected by Government Registration in All Countries.

During last year several firms in Canada have been enjoined from using the name "Semi-ready" in their advertising. This is a Government trademark signifying tailored garments finished to the trying-on stage.

In Toronto a large retail house sought to use the name, knowing that its value was superlative. They apologized.

In Montreal another retail house recently acknowledged an infringement, and promised not to do it again.

A building firm in Winnipeg borrowed the name for some settlers' houses finished ready-to-wear.

The name "Semi-ready" belongs solely to "Semi-ready," Limited, a company with a big factory in Montreal, supplying about eighty stores in Canada. In less than ten years this system of tailoring clothes has made wonderful strides, and there are 79 reasons why the name means much to men.

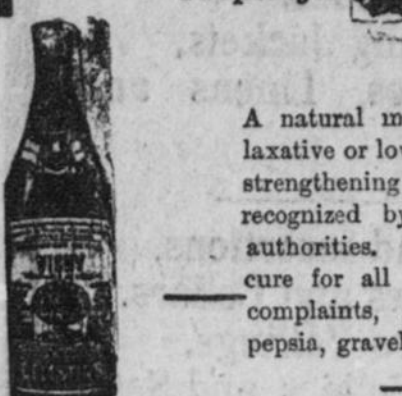

Faguy, Lepinay & Frere have the sole agency for Quebec City.

CANADIAN NORTHERN AND QUEBEC & LAKE ST. JOHN RAILWAYS.

On 16th inst., the following timetable will be put into effect on these railways for the summer:—Leave Quebec at 9:30 a.m. for Montreal, at 11:15 a.m. for La Tuque, Roberval and Chicoutimi, at 1:45 p.m. for Lake St. Joseph, at 5:20 p.m. for St. Raymond, and at 6:20 p.m. for Lake St. Joseph, daily except Sunday, and also at 1:45 p.m. for St. Raymond, Sunday only, and at 10:00 p.m. for Roberval and Chicoutimi, on Thursdays and Saturdays. Trains will arrive in Quebec as follows:—At 8:55 a.m. from St. Raymond, at 2:45 p.m. from Chicoutimi, Roberval and La Tuque, at 4:20 p.m. from Lake St. Joseph, at 4:45 p.m. from Montreal, and at 11:00 p.m. from Lake St. Joseph, daily except Sunday, and also at 7:00 a.m. from Chicoutimi and Roberval, Saturdays and Mondays only, at 7:00 a.m. from Indian Lake, on Wednesdays and Fridays only, and at 9:45 p.m. from St. Raymond, Sunday only. Lunch will be served at Lake St. Joseph Hotel to passengers by the 11:15 a.m. train from Quebec for Lake St. John, Wednesdays.

INGENIOUS MACHINES FOR TIPPING COLLARS

Another Ingenious Laundry Appliance which adds to Man's Comfort.

There is one particular style of collar that will always be popular with well dressed men, the wing point. This collar has always been a difficult style to launder just right. Laundries not equipped with modern appliances used to try to get out these collars, but the result was anything but satisfactory. The tips would not point just right and the wearer would feel as if he was dressed to act the part of a clown in the circus, with one tip of the collar pointing dejectedly to mother earth and the other describing an angle as if trying to locate an extinct star. The edge would have a temper like a cross cut saw and the result on the hapless wearer's neck after a day's wear would look as if he had been obliged to resort to an amateur barber college shave. We have recently installed a machine that shapes perfectly all wing point collars and the same are first moistened where the folds come, then put through this machine, which is heated at the right temperature, and when the collar is pressed in the same result is a beautiful work of art and a joy to the wearer.

Your Hair Needs Care

A little time devoted to the care of the hair works wonders. Just use Ayer's Hair Vigor, the new kind, systematically and conscientiously, and see the result. Stops falling hair, cures dandruff, makes the hair grow. Ask your doctor about this. We publish the formulae of all our preparations.

The Quebec Chronicle

QUEBEC, JUNE 7, 1907.

MY EYES AND BETTY MARTIN

The Quebec Telegraph has a bad fit of indigestion and is haunted by nerve-shaking visions of plots, Conservative of course. In its present enfeebled state we would not suggest strong remedies, but perhaps Baby's Own Tablets, and Mrs. Winslow's Soothing Syrup might afford relief.

It is rather difficult to make out the real aim and intention of an article about the plot that failed, for the language is somewhat obscure and the connection still more so. The article begins apparently with a reference to the "wine, women and graft" scandals of the Dominion Liberals, and talks of the publication of "falsifying correspondence," whatever that may mean, and then switches off abruptly to the Prevost-Asselin case and informs the public that "the jury in the Prevost-Asselin case disagreed, and rendered a verdict accordingly." It may be our ignorance but we never heard of a disagreeing jury rendering a verdict before. This adds a new remarkable feature to an already remarkable case.

Then we are asked what is the ground for the continued warfare of the Conservative press seeing that Hon. Messrs. Prevost and Turgeon were publicly exonerated from any personal charge or blame for wrong-doing (which is not correct, but it may pass for the moment, and we are told that the ground is "simple." The whole plot was cut and dried, and the Conservatives had to go on with it. What plot? The plot against the Dominion Ministers, or that against the Provincial ones. If the latter, supposing that there was a plot, it was a Liberal one, conceived in the office of a Liberal newspaper, with a Liberal agent as the villain of the piece, and all the dramatis personae Liberals. But our friend has got somewhat more than mixed, and says that if he were to mention the names of officials who are implicated in "the plot" the public "would question the heinousness of the crime," which means, if words mean anything, that the public would believe that the plotting officials had not done such a very wicked thing after all. But whether they did or not, we do not see where the Conservatives come in, because, lest the Telegraph scribe, the plotters were "officials" and Conservative officials in a Liberal Government, either Dominion or Provincial are black swans; very rare birds indeed, and not enough to scare up a decent "plot" among them. All the plots going at present are Liberal ones; witness the Parent-Choquette affair; the Gouin-Parent affair; and now the Prevost-Asselin affair. The Conservatives have no need to originate plots; all they have to do is to pat the Liberal plotters on the back, and that ought to be regarded as a sign of friendly interest, and not as a just ground for complaint or calling names.

And now we come to the most astonishing part of this generally astounding effusion. All this about Conservative delinquencies and Liberal plots was merely a text on which to preach a moral sermon to our business men. "Here is a question which every right man might put to himself, and be his own judge in the case"—and the question is does the right minded business man, think that his "business would stand the searching scrutinizing investigation and cross-examination by the most eminent criminal lawyer and come out as unscathed of even the taint of charges that might be preferred against him," as that of the Commissioner of Mines and Colonization? That is rather rough on our business men, and we should be sorry to think that they could not stand the test a great deal better than the Honorable Commissioner of Mines and Colonization has done, but the Telegraph scribe seems to be of a different opinion, and, on the principle "Let him that is without sin among you throw the first stone," concludes with the impassioned appeal: "In all fairness to the character of men, the fair spirit of humanity and the intelligence of business men, ask yourselves this question and you will be the best judge of the plot to dethrone the Liberal party from power."

Now what we want to know is how will the business men of Quebec like to be told that if their conduct of affairs was enquired into as closely as that of Mr. Prevost they would not come off as well as that gentleman who was shown to have allowed his department to get into a state of great confusion and inefficiency, and whose connection with campaign fund graft six out of twelve men were strongly inclined to believe in.

"Thought it meant death sure"—Mrs. James McKim, of Dunnville, Ont., says of her almost miraculous cure from heart disease by Dr. Agnew's Cure for the Heart: "Until I began taking this remedy I despaired of my life. I had heart failure and extreme prostration. One dose gave me quick relief and one bottle cured me. The sufferings of years were dispelled like magic."—3.

CHRISTIANITY IN JAPAN.

There are many reasons why a peculiarly appreciative welcome should be extended to His Imperial Highness, Prince Fushimi besides his high rank and the distinguished position which he occupies as the representative of a friendly and allied nation. The fight which the little Island Empire of the East put up with the Great Northern Empire, the pluck and skill with which it was conducted, and the self-dependence exhibited throughout the fierce struggle could not fail to excite first interest, and then admiration and respect throughout the whole world, and these feelings have been augmented rather than diminished by the subsequent career of Japan and the broad liberal features of a policy which has made her career in peace no less remarkable than her success in war.

An instance of this liberal and enlightened feeling which is not generally known, is given in the treatment of the World's Student Christian Federation which assembled last month in Tokio. The Marquis Ito declared this conference to be "one of the most memorable events in the history of Japan," and accompanied his letter, sent from Korea, with a gift of five thousand dollars, and the delegates at the conference, representing twenty-five countries, received messages of greeting from such distinguished men as Viscount Hayashi, Minister of Foreign Affairs, and Count Okuma, Elder Statesman.

The Literary Digest of June 1 quotes from the New York Outlook the following interesting features of this remarkable gathering:

"The Conference was of course distinctively Christian in character; it had a definite purpose of proclaiming a Christian message; it advocated ethical and intellectual progress by means of the Christian religion; it assembled in a non-Christian land; yet its existence, so far from arousing resentment or opposition, evoked rather the warmest expression of appreciation and even gratitude. That it stimulated emulation is not surprising. A Buddhist Conference, for example, was summoned in the same city at the same time, but at that Conference resolutions expressing its 'profound respect' to the gathering of Christians were passed, and a deputation to convey these resolutions was chosen. Similarly, a Conference of Shinto priests sent a letter to the Christian Conference expressing their sense of the honor which the Federation had shown to Japan by convening in Tokio, and, in lieu of a reception, which could not be arranged for lack of time, presented material mementoes and tokens of esteem," in order, to use their own words, "to express our deep appreciation of your coming, and to commemorate this bright event in Japan's history." And adds, "the Japanese press, recognizing the influence which the Conference would have upon international relations, and particularly upon the growth of good-will between the East and the West, were emphatic in expressing their good-will. The Kobe Herald declares that Christianity is regarded as a beneficent force in the development of the nation. It says further: 'The fact is, we believe, that both the authorities of Tokio and the nation at large are coming more and more to recognize the need of encouraging the spread of spiritual and ethical influences to act as steadying and inspiring forces in the transition from the old ideas to the new through which Japan is passing, and this more particularly among the rising generation, to which the Student Christian Federation especially appeals.'"

Referring to the Christian missionaries in Japan The Herald observes: "The very fact that Japan is so ready to welcome with pleasure and friendship a great Christian organization and to encourage its work among the youth of the land is in itself the strongest of proofs that the Christian missions in this country have in general performed their tasks in a wise, tactful, and beneficent manner."

PRESS OPINIONS.

A STRIKE AGAINST GOVERNMENT.—Strikes by men employed in the shipping trade have been numerous this season, but the strike of French sailors has features so peculiar in relation to national politics and the principles involved that it demands more than passing attention. The strike is a challenge to the Government, a defiance in fact by men in its employ, daring it to put in force its declared policy prohibiting the organization of unions by persons in the service of the state. It will be remembered that a short time ago the General Confederation of Labor, which is largely controlled by the Socialists, proposed to extend the union system to the Civil Service, including the Naval Reserve. The object, it would seem, was to obtain power through the organization whereby to coerce the Government into yielding to the demands of the Labor party. This move was promptly met by a ministerial order forbidding Government employees to join the unions, and the announcement that a bill was in preparation to deprive them of the right to organize strikes. The spirit animating the men may be judged by the fact that they

immediately went to work organizing the strike which has now paralyzed French shipping. The gravity of the situation is shown by the statement that about one hundred and twenty thousand men of the Naval Reserve, including some twenty-five thousand of the actual war fleet, have joined the strike. Thus, in addition to paralyzing commerce, the strikers have crippled the navy. This would be called mutiny in Great Britain and treated accordingly, but in France it seems to be regarded as the exercise of an inherent right of citizenship.

The present trouble is about the new pensions, the men holding that the increase recently granted by the Government is too small, while the Minister of Finance declares it is as much as the nation can afford. Such being the situation, it raises the question whether the Government or those who serve it shall rule. As a mutiny, which it really is, it should be put down at any cost, or there is an end to all discipline. But as the strikers are for the most part half civilians, half sailors on reserve, having the warm sympathy of the entire navy, the extreme difficulty of suppressing the movement is evident. Outside the service, the strikers are backed by the would seem that this strike has precipitated, what many believe to be inevitable soon or late, a conflict between Republicans and Socialists, to decide which shall control the destinies of France. From a despatch sent out from Nantes, it appears that a section of the Naval Reserve is not in accord with the General Confederation of Labor, and refrains from the strike still assured that that organization is not at its head. A division of this kind shows the men of the Reserve are not all Socialists, and a way for compromise may be thus opened. The situation is the gravest that the Clemenceau ministry has had to face, but the probability of its regulation appears reasonable from the resolute attitude of the Government and the fact stated in the reports, that the sentiment of the country is against the strikers.—Montreal Witness.

THE BRIDE OF JUNE.

Here's to the June bride,
Blushing and fair,
Treading sedately
The wedding march rare.
Checks like lilies,
Lips like the rose,
Blessings upon her
Wherever she goes!

Here's to the June bride,
Smiling her face,
Gentle her mien is,
Alluring her grace.
Fairest of maidens,
Queen of to-morrow,
May grim shadows
Darken her way!

Here's to the June bride,
Lovely and sweet,
Picturesque flower,
Dainty and neat.
What of the bridegroom?
Nothing to say.
He gets the sweetest
Bouquet to-day.

A WASHINGTON professor has just concluded a remarkable series of experiments illustrative of the physical processes induced by right and wrong thinking. He has reduced anger, jealousy, love, grief, and anxiety to chemical formulae. According to the professor, every change of the mental state of an individual is expressed in the

What Malt Is to Beer

Malt is barley, with its life-germ artificially grown. Malt gives body, strength and quality to beer.

The better the malt, the more satisfying the beer.

The Pabst Eight-Day Malt-fermenting Process follows Nature—it grows the barley slowly, thus preserving all of the nutritious food properties of the grain, and transmitting them to

Pabst Blue Ribbon

The Beer of Quality

Brewed from Pabst perfect Eight-Day malt and the choicest hops, Pabst Blue Ribbon is a beer having a delightful flavor, with the vital, life-giving malt-predominant. It is a pure beer, properly aged, rich and mellow—malt and hops perfectly blended.

When ordering beer, ask for Pabst Blue Ribbon. Made by Pabst, at Milwaukee and bottled only at the Brewery. L. Chaput, Filis & Co., Agt., Montreal. L. P. J. Turcotte, Distributing Agt., Quebec. Phone 1131.

secretions of the body. Treated with the same chemical reagent, the perspiration of an angry man shows one color, that of a man in grief another, and so on through a long list of emotions.

After condensing the volatile constituents of the breath of his subjects, the professor obtained a brownish sediment from anger, a grey sediment from sorrow and a pink sediment from remorse. Of the brownish substance the professor administered doses to men and animals. In every case it produced nervous excitability or irritability. We have a contemporary in Frederickton which, while ordinarily mainly yellow in its sediment, is at present a variegated color-scheme made up largely of grey and pink.—St. John Sun.

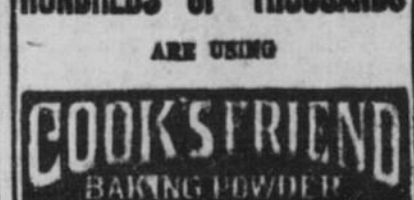

TO THE CANADIAN NORTH-WEST.

Hundreds and hundreds of people from this province are going to visit that interesting country which, on account of its great development in the course of the last twenty years, has now become known all over the world. In order that our own people may have the opportunity of knowing what this country really is, the Canadian Pacific Ry. Co. have organized for the 19th of June and the 3rd, 17th and 31st of July, excursions to all Western points at very low rates. Every one can benefit by a trip there, especially those wishing to establish themselves on a farm; for a few dollars and good will you can work up in a few years a fine farm in every way fitted to bring in each year a big revenue, on very good conditions, that is, at small expense and same can be paid by small sums periodically. You will never know exactly what the North-West is until you get there yourself.

IN AND ABOUT TOWN

PRINCE FUSHIMI ON THE LOOK-OUT

Arrival of the Distinguished Japanese Visitor This Morning.

The hour of the arrival this morning of His Imperial Highness Prince Fushimi of Japan is somewhat uncertain. The steamer Empress of Ireland is expected to arrive by the C.P.R. steamship officials as early as six o'clock this morning, but as the weather conditions down the river are not very favorable, it being very stormy and foggy, the ship may not get here so soon. The Empress arrived at Father Point at 8 o'clock last night and she left Rimouski at five minutes past ten, having been unable to land the mails, the weather being too rough.

According to the plans for the reception of Prince Fushimi, the Empress will anchor near the entrance of the harbor this morning. The Government steamer Lady Grey will go down and bring off His Excellency Earl Grey and after landing him at the King's wharf, will then return for the Prince. Owing to the possible late arrival of the steamer the landing is not expected to take place until ten o'clock, which is the official hour set for the ceremony. Should the Empress not arrive by 10 o'clock she may not get into port before 2 p.m.

A cable message from King Edward for Prince Fushimi was received last evening, and will be presented to His Royal Highness upon his arrival this morning by Under Secretary of State Pope.

The guard of honor of the 8th R.R. will parade at the Drill Hall this morning at 8 o'clock. It will consist of 100 men and will be in command of Capt. W. B. Lindsay, with Lieuts. Molson and Johnston.

The Council Chamber at the City Hall has been decorated with a view to having the civic address to Prince Fushimi presented there should the weather be too unpropitious for the ceremony to take place on the Terrace.

Sergt. Parkinson and two men of the Dominion police force, have arrived in town for duty in connection with the reception to the Prince.

Four prisoners were convicted of drunkenness before the Recorder yesterday. One was fined \$10 and costs, while three were sentenced to \$5 and costs each.

Drink Beauport Lager; it is the best.

POLICE COURT.
In the Police Court yesterday Jean Simard, who stole a registered year at Lac au Sable, Lake St. John district, a few days ago, was sentenced to three years in the penitentiary. Simard stole the letter, which contained \$350, from the mail-bag on the railway station platform at Lac au Sable.

YOU ASK WHY?
Read the grand advertisement of Faguy, Lepinay & Frere. You will save money.

SADLY AFFLICTED.
The friends of Mr. J. E. Boiley, notary, will regret to hear of the death of his little daughter Marie Josephine Emma, which occurred yesterday. This is the second child Mr. Boiley has lost through death within a week. Much sympathy will go out to the bereaved family in their double affliction.

DO YOU WANT TO MAKE MONEY.
Go and make your purchases at FAGUY, LEPINAY & FRERE.

OBITUARY.
The death occurred at her residence, DesFosses street, Wednesday evening, of Mrs. Stephen Carroll, widow of the late Stephen Carroll, at the ripe old age of eighty years, a great majority of which she passed in this city. Deceased leaves a grown up family, all highly respected in the community, including Miss Winnie, Jennie and Annie Carroll and Mrs. M. Davis, to whom the sincere sympathy of all who know them will be extended.

STH R.R. GUARD OF HONOR.
Will Parade at Drill Hall at 8 O'Clock This Morning.

The guard of honor for the reception to Prince Fushimi, which is to be supplied by the 8th Royal Rifles, will parade at the Drill Hall at 8 o'clock this morning. Full dress will be worn. The guard will be in charge of Captain W. B. Lindsay. All men who failed to attend at the Drill Hall last evening are expected to turn up sharp at 8 o'clock this morning.

FLOWERS FOR PRINCE.
Mrs. Lemieux begs to announce that she is fully prepared to meet all demands for flowers for the reception to Prince Fushimi.

SCOTT-HENDERSON.
The marriage of Miss May Henderson, daughter of Mr. Gilbert Henderson, of Frampton, Que., to Mr. C. W. Scott, son of Mr. Thomas A. Scott, of Montreal, took place at the residence of Mr. Jas. S. Parker, 104 St. Matthew street, Montreal. Rev. G. Colborne Heine officiating. The bride, who was given away by Mr. Frank Parker, wore a handsome gown of white silk cologne over cream tulle, with a bertha of real lace, tulle veil and orange blossoms, and carried white roses and lilies of the valley. The maid of honor, Miss Alice Brodie, of Quebec, wore white chiffon tulle, with trimmings of hand-made lace, a real lace hat, and carried pink roses. Mr. G. H. Henderson, of Quebec, brother of the bride, acted as best man. The groom's gift to the bride was a diamond and sapphire ring, to the bridesmaid a gold locket, and to the best man a pearl scarf pin. Mr. and Mrs. Scott left for a trip through the Eastern States. On their return they will reside at 233 Hutchison street.

LOST.—ON TUESDAY EVENING, at Lake St. John station, a black hand satchel containing fishing outfit, etc. Reward given on returning same to Chronicle Office.

WANTED.—AT ONCE, A GOOD man hunting young man as collector, for a large establishment. Apply giving recommendations. "Collector," care Chronicle.

For the Murderers of Father Kasper, the New York Priest.

Halifax, June 6.—The Halifax police are trying to locate the men implicated in the trunk murder, the particulars of which have already been published.

The three Greeks, who are charged with the murder of Rev. Father Kasper, whose body was found in a trunk in a tenement house in New York last week, have been traced to the Maritime Provinces by New York detectives. A member of the New York detective force called on Chief of Police Poirer and five other officials in the trunk murder, the particulars of which have already been published.

The Halifax police think the men are on the line of the I.C.R., and all stations have been wired to keep a sharp look out. A full description of the men is also given. The youngest is about 22 years of age, dark complexion and is five feet eight inches in height, and his face is badly pock marked. He wears a light grey suit and cap. The second man is about 24 years of age, five feet nine inches in height and his face is also pock marked. He wears a light suit and cap. The third man is 23 years of age, is not quite as tall as the other two and is noticeably bow-legged. He wears a dark hat and coat and light pants. They are all three travelling together, but only one of them can speak English. They are without funds and have been in communication with friends in New York asking for money.

CABINET COUNCIL.
The first meeting of the Provincial Cabinet since the arrival of Premier Gouin from Europe will be held this morning.

A CORRECTION.
In yesterday's paper we stated that the sum of \$900,000 cash had been paid by the Paquet Company, Ltd., to the heirs of the late J. A. Paquet. This was absolutely incorrect as the amount was much larger than the above.

WELCOME TO OUR NOBLE VISITOR
Before taking your departure from our city, do not fail to procure a Quebec Souvenir, manufactured and imported from Japan, also our Quebec Souvenir Albums containing the principal views of Quebec. For sale at Ant. Langlois, 26 Mountain Hill, and at the Dufferin Terrace Elevator News Stand.

VICTIM BURIED.
The funeral of the young man Emile Drolet, who was killed in a runaway accident on Monday last, took place from his late residence, St. Joachim street, yesterday morning and was largely attended. The funeral service was held at St. Jean Baptiste Church.

12,900 YARDS OF EMBROIDERY
were gotten from the failure of a whitewear manufactory, and, as this is not the season for embroidery sale, we will offer them at such low prices that they will have to GO. On sale Friday and Saturday at

THE QUEBEC SYNDICATE,
Corner St. Joseph and Crown Sts.
June 7x2

DEATH OF MISS LEMAY.
The many friends of Miss Juliette Lemay will regret to learn of her death which occurred yesterday evening after a couple of months illness. The deceased, who was only 20 years of age, was the daughter of Mr. Pamphile Lemay, the well known poet, and sister of Ald. Lemay. Her funeral will take place on Monday next.

LAW EXAMINATIONS.
The law examinations of the Faculty of Law at Laval University will begin on Saturday. The following are the candidates for practice:—
Law—A. Metayer, J. E. Fortin, A. LeFebvre, Jules Poisson, R. Lavergne, A. Blais, E. Parent, E. Laliberte.
Notarial—J. Verrault, A. Dupuis, A. Gilbert, J. Bernier, L. Girard, A. Rinfret, R. DeLachevrotiere.

FATAL ACCIDENT.
A fatal accident occurred at St. Flavie on Wednesday, news of which was received in town yesterday. Jules Leblond, a workman, had been building an oven for F. X. Raymond, baker. It was almost finished and despite the warnings of Mr. Raymond, Leblond went into it to take out some pieces of wood. The oven suddenly collapsed and the man was buried in the debris. Leblond was finally extricated, but died a few minutes later.

ACADEMY ROLLAWAY.
A good sized crowd attended the matinee and evening exhibitions at the Academy Rollaway yesterday and were delighted with the graceful skating of Miss Fanny Leight, who was able to appear again last night and will do her very interesting act at each of the performances for the balance of the week. To-night the big feature of the week will be on, a one mile race between Reckless Recklaw, champion bicycle rider on his bicycle and Harry Vigue, the champion of the State of Maine, on roller skates. Everyone should see this race.

"THERE'S A REASON"

THE CORONER BUSY

Child Burned to Death—Sudden Death of Two Women.

Mrs. Taylor, 70 years old, and residing at No. 16 O'Connell street, died suddenly at her residence yesterday morning. Dr. Jolicoeur will hold an inquest this morning.

Coroner Jolicoeur held an inquest yesterday morning at St. Ambroise, Ancienne Lorette, on the remains of Marguerite Allard, wife of Mr. Pierre Martel, who died suddenly in that parish on Wednesday evening last. The deceased, who was 62 years old, was paying a visit to a friend and took suddenly ill, and died in a few minutes. The jury returned a verdict that death was caused from syncope of the heart.

While in St. Ambroise yesterday, Dr. Jolicoeur was informed that a child had died suddenly a few days ago at a place called La Montagne, in rear of Lake St. Charles. Coroner Jolicoeur proceeded there and learned that a daughter of Pierre Lirette, one year old, had been severely burnt on Monday evening last and had died from its injuries. It appears that Mrs. Lirette was washing clothes outside her residence when she noticed the interior of the house in flames. She rushed in to save her baby, whom she had left in the cradle, but when the child was taken out, she was very badly burnt about the body which resulted fatally. The verdict was that death was caused from accidental burns.

CARD OF THANKS.
J. E. Talbot, Esq.,
Regent,
Citadel City Council No. 166 R. A.,
Quebec.

Dear Sir,—Allow me to thank you and the Supreme Council of the Royal Arcanum for the prompt payment as soon as papers were received of the insurance of my husband the late J. L. Painchaud.

I assure you I have highly appreciated this, and the sympathy that has been shown by Citadel City Council, both during my husband's sickness, and after his death.

I remain,
Yours truly,
CATHERINE L. PAINCHAUD.

It is a mere nominal price, considering their real value or quality. This silk will be promptly sold. Make haste if you want some.

I. A. FORTIN.
June 7x2

AUDITORIUM.
"A Royal Slave" is a most striking production in many ways. It is a new and pleasing departure in the way of the play, and there is nothing similar to it on the stage to-day. It is unlike any other story, containing an interesting theme presenting a pretty romance in a manner which holds the interest of the audience throughout the entire play. Mr. John Arthur, who portrays the part of "Aquila," the Slave, is a man of fine physique, possessing a rich mellow voice and handling the character in a masterful manner. He gives an excellent interpretation of type of a race which now remains only in memory.

TO-DAY (FRIDAY).
Will be offered for sale 65 white lawn costumes trimmed with embroidery worth \$5.75 for \$2.89. These are samples from the manufacturer. Take advantage of this, ladies.

MARCEAU & CIE,
155 St. Joseph street.

SPECIAL TRIPS.
Steamer Champion is making two special trips on Sundays. For particulars regarding them, etc., see advertisement.

NEW LIBERAL CLUB.
A number of the leading Liberals of Quebec Centre are convening in the Auditorium Hall and formed a political club to be known as the Quebec Centre Liberal Club. The following officers were elected:—

Patrons—Sir Wilfrid Laurier, Hon. Lomer Gouin.
Hon. Presidents—Messrs. A. Lachance, M.P., A. Robitaille, M.P.P.
Hon. Vice-Presidents—Hon. R. Turner, Mr. Jos. Amyot.
President—Mr. P. J. Bazin.
Vice-Presidents—Mr. L. A. Cannon, Ald. Picard.
Secretary—P. J. Paradis.
Asst. Secretary—Dr. P. H. Bedard.
Treasurer—N. E. Papillon.
Committee—U. Barthe, A. Gagne, G. Dery, J. Dery, A. Masson, A. Piche, L. H. Gaudry, A. Picard, M. d'Hellencourt, R. N. Godin, E. Caron, Dr. Bedard, A. Cote, H. Lavigne, C. Faguy, I. Bilodeau, W. The House That Was Built By Honest Values

A WAY BACK in the year 1850, the Great Departmental Stores of Z. Paquet, which will hereafter be known as The Paquet Company Limited, Retail Division, had their origin in an unpretentious store in St. Valier Street, St. Sauveur.

On Sunday morning, October 14th, 1866, this little building was burned to the ground, but the greater part of the stock was saved from the flames; and, on the very next day a new location was secured on St. Joseph Street, directly opposite the Convent of St. Roch, and business was resumed with almost no interruption.

On the 15th of September, 1876, the stock and building of the late Mr. Carrier, at 165 St. Joseph Street, was purchased, and this marked the commencement of a remarkable, and quite unprecedented, success. Business increased to an extraordinary degree and the new quarters were soon found insufficient to meet the requirements. The store was greatly enlarged, but three years later, in 1879, it was found necessary to more than double the floor space and the large four-storey building, where is now the main entrance, was built. In 1890, just eleven years later, the immense six-storey building was erected, and in the following year a part of the three-storey annex was added. Four years later, in 1905, the remaining part of this three-storey building was secured, making a total frontage on St. Joseph Street of 181 feet.

The vast size of this establishment may be realized only when one has the actual figures at hand. For this reason we have gathered a few statistics that will prove most interesting to every resident of Eastern Canada.

The total floor space occupied by the Retail Division is 116,778 square feet. Four Hundred and Sixty-Eight people are given steady employment in this branch alone. There

are Thirty-Eight Departments, including:—Silks and Velvets, Black Dress Goods, Colored Dress Goods, Ladies' Mantles, Millinery, Ladies' Underwear and Corsets, Muslins and Wash Goods, Quilts and Blankets, Staples, Ladies' Gloves, Ladies' and Children's Hosiery, Embroideries and Laces, Handkerchiefs and Ribbons, Soaps, Perfumes and Leather Novelties; Notions, Parasols, Men's Hats, Men's Furnishings, Custom Tailoring, House Furnishings, Carpets, Butterick Patterns, Men's and Boys' Clothing, Trunks and Travelling Goods, Boots and Shoes, Pictures, Silverware, China, Crockery and Glassware, Cigars and Tobaccos, Confectionery, Optical Goods, Phonographs, Wall Paper, Furniture, Church Ornaments, Furs, Kitchenware, Toys.

There are six large, airy workrooms, where are manufactured Ladies' Hats; Ladies' Suits, Skirts, Mantles and Waists; Men's and Boys' Clothing, and Church Vestments. Orders are also executed for high grade embroidering and painting in oils.

The Retail Division has a permanent Buying Office in London, England, and maintains a European Buyer, who is ever on the alert for exceptional opportunities to turn his knowledge and experience to good account for the benefit of our patrons.

The sound business principles laid down by the founder of this house, the late Mr. Z. Paquet, and followed by his son, the late Honorable J. Arthur Paquet, Senator, whose remarkable ability and progressive spirit played such a prominent part in the development of the business, have been strictly adhered to for over half a century.

The policy of the store will remain unchanged. Patrons are always free to return, within a reasonable time, any purchase which might not prove absolutely satisfactory and the full purchase price will be refunded immediately. The com-

plete confidence of the public, which has built this business from a humble beginning to a position among the foremost retail establishments in Canada, will always be the keynote of our success. We want you to feel that this is YOUR store—that you have helped to build it up to its present gigantic proportions—that every fresh success is but one more step towards giving you more value and still greater satisfaction in buying here. We want every resident of Quebec to take a personal interest in the development of this business, knowing that by so doing the volume of business will continue to increase, and the prices of all classes of merchandise will be proportionately decreased.

The augmented capital, which the New Company now has at its disposal, will greatly strengthen the purchasing power of the house, which is even now recognized as a powerful factor in the leading markets of the world.

The Departmental System, which has been in operation here for some years, has proven a great convenience to the public, and is now universally recognized as a step in the right direction.

We invite criticism of our methods, and any suggestions, whereby your convenience and comfort may be added to, will be gratefully received and carefully considered.

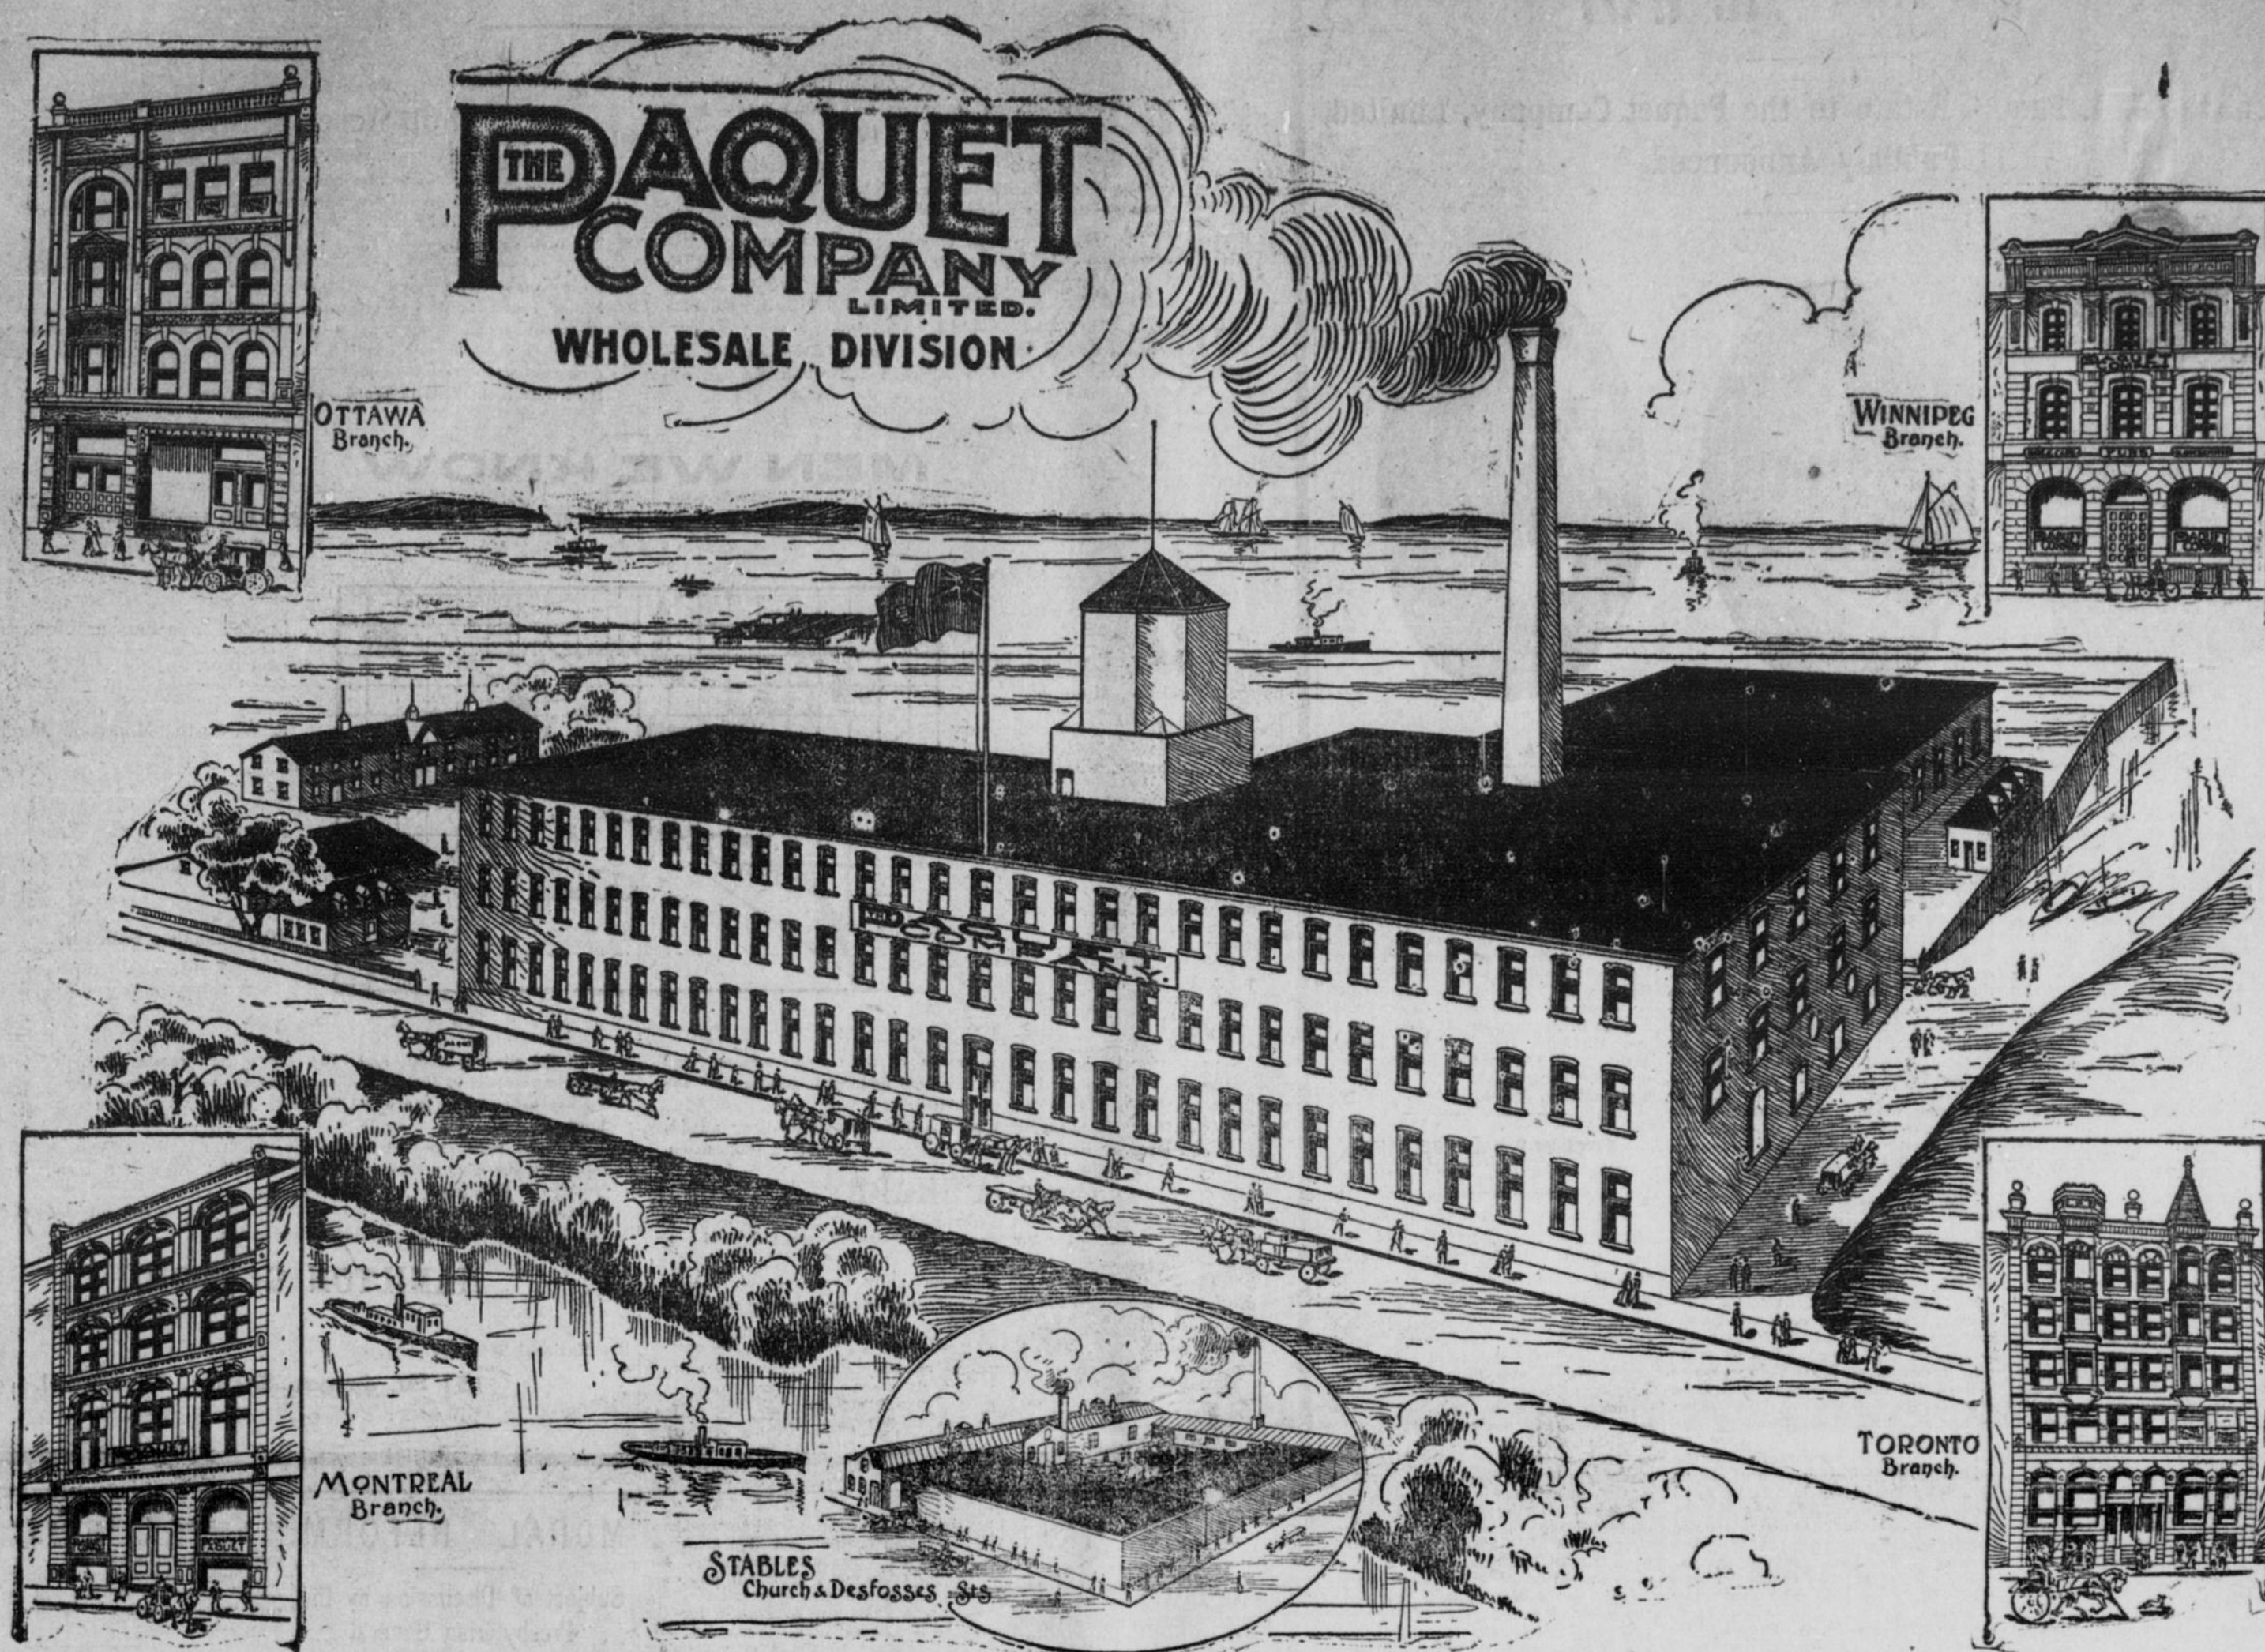

We take this opportunity to thank you, one and all, for your hearty support and cooperation in the past, and to assure you that no effort will be spared to merit a continuance of the same, both now and in the years to come.

On Friday, June 7th, the store will be closed for the purpose of checking the inventory, and on Saturday will commence our Great Transfer Sale. Orders have been issued to clear out the present stocks within the next 30 days—and to-morrow's papers will contain full particulars of the sale.

THE PAQUET COMPANY, LIMITED,

G. A. VANDRY,

General Manager.

The Largest Fur Factory in the Dominion

THE well-known house of J. Arthur Paquet, which will hereafter be known as The Paquet Company, Limited, Wholesale Division, was established in the year 1892 by the late Honorable J. Arthur Paquet, Senator.

The Fur Factory, which is by far the largest establishment of its kind in Canada, and one of the largest in the world, is the only Fur Factory in AMERICA where every process, such as dressing, tipping, dyeing and finishing of Furs, from the raw skins to the finished garment, is conducted under the one roof.

Year by year, this branch of the business has expanded, until to-day there are no less than eighteen travellers employed, covering the entire country from Newfoundland to the Yukon.

In 1895, was laid the foundation of the immense Hat Importing business, which has grown to be a very important branch. Here is the source of supply of the renowned "Carter" and "Wilkinson" Hats, which are now famous from coast to coast. These are the most widely-advertised Hats in Canada. More than 190 painted signboards are used along the lines of the great Canadian Railways, from Halifax to Vancouver; and thousands upon thousands of attractive booklets, showing the principal styles, have been mailed direct to the customers of Hat Dealers in every part of Canada. A series of newspaper advertisements is now running in a strong chain of papers which practically covers the entire country. Dealers are given every possible aid in advertising and selling; such as Ready-made Ads., Free Newspaper Cuts, etc. The remarkable increase in the sales of "Carter" and "Wilkinson" Hats is the best possible proof

of the soundness of this policy.

Shortly after the Hat Department was an accomplished fact, the Glove Factory was established. Here are manufactured the famous "J.A.P." Gloves and Mitts, which are now handled by the majority of Dry Goods and General Stores throughout the Country. Over 200 different styles are made, from the finest of ladies' kid gloves to the strongest of workmen's mitts.

The total floor space occupied by the Wholesale Division is 97,402 square feet, not including the branches at Vancouver, Winnipeg, Toronto, Montreal, Ottawa and St. John, N. B.

Over 400 people are employed in all departments of the Wholesale Division in the City of Quebec, exclusive of the branch offices, in each of which a separate staff of clerks is employed.

The Winnipeg branch occupies a handsome building of its own, and carries a complete stock of Furs, Hats and Caps, Gloves and Mitts, to meet the demands of the rapidly-increasing Western Trade. The Montreal branch also occupies an immense building, which is used as a distributing point for that district. In Ottawa, Toronto and St. John, N. B., commodious suites of offices are maintained, and the new branch office at Vancouver, B. C., was formally opened last week.

The manufacture of Furs, which is the most important branch of the Wholesale Division, is in the hands of experienced operators who thoroughly understand every detail of the work. The most modern machinery is in operation throughout the entire plant, and no expense has been spared

to make the product as perfect as human skill and experience can make it. The result, as might be expected, is a strictly high-grade article at a price that makes it an object for Fur Stores to handle these goods exclusively. Every Fur Piece and every Fur Garment, turned out of this Factory, is covered by an ironclad guarantee, ensuring absolute satisfaction to the wearer and increased business for the retailer. Standard styles, which appeal to almost every taste, are supplied to dealers on shortest notice; and any particular design, no matter how elaborate or expensive, can be made to order from selected skins which are always kept on hand for that purpose.

The Hat Department occupies an immense two-storey building, situated just beyond the main building and at right angles to it. Here may be seen samples of all the multitudinous styles in Men's Panama, Chip and Sennit Straw Hats, as well as the "Carter" and "Wilkinson" Stiff and Soft Felt Hats, of which this house has the exclusive control for America.

It is with feelings of the greatest pleasure that we tender our thanks to the Retail Merchants of Canada for their valued patronage in the past, and we solicit a continuance of the same. Let us urge all our customers to make liberal use of the Advertising and Selling Helps, which we issue from time to time. These are always at their disposal for the asking.

THE PAQUET COMPANY, LIMITED,

G. A. VANDRY,

General Manager.

BIG DEAL REPRESENTING MILLION AND HALF DOLLARS

Sale of the J. A. Paquet Estate to the Paquet Company, Limited,
is Publicly Announced.

JOS. O. PAQUET.

DR. LAURIN.

G. A. VANDRY.

In our columns yesterday, the most gigantic deal ever put through in Quebec was briefly announced. We refer to the sale of the immense business of the J. A. Paquet estate, to the Paquet Company (Limited), which was finally closed on Tuesday and which involves values estimated at fully \$1,500,000. As it may interest the public to learn some of the leading details of this important transaction, it may be mentioned that the sale embraces all the property and business of the estate of the late Senator J. A. Paquet, including the vast establishment on St. Joseph street, the fur factory at Hare Point, etc. The new company's board of directors is composed of Messrs. G. A. Vandry, president; Jos. Paquet, vice-president; Jos. Laurin, secretary, and Dr. Laurin, director. Legal advisers of the executors were Messrs. LaRue & LaRue, also Taschereau, Roy & Cannon. The legal advisers of the company were the Hon. E. J. Flynn and Mr. Roy. The deed of sale was signed by Mr. Vandry and Dr. Laurin, as testamentary executors of the estate and by Messrs. Jos. Paquet and Jos. Laurin, representing the Company.

The new company will continue to carry on the large and ever increasing business of the house, but it is currently reported that they contemplate making, at no distant day, great additions and improvements to their establishments, which will enable them to greatly enlarge and extend their trade and which will be a good thing for Quebec in many ways.

Some details as to the personnel of the management of the new company to whose enterprise the ancient capital is indebted for this welcome boom will doubtless, also interest our readers.

Mr. George Alfred Vandry, the President and General Manager of the Company, who is only 41 years of age, was educated partly at the College of Ste. Anne de la Pocatière, where he followed the classical course and partly on deciding to follow a

business career, at the Quebec Commercial Academy, where he took the complete commercial course. In 1898 he entered the service of the Paquet house as book-keeper, so distinguishing himself in this position by his ability and business expertness that later he was made manager of the fur factory at Hare Point. Appreciating his talents at their just value, the late Senator Paquet soon singled him out as his "right-hand man" and thus Mr. Vandry was brought into such close touch with the retail business that on the Senator's death, he was at once chosen to succeed him as general manager of both establishments. How ably and well he discharged the responsible duties of that important office is well known to the whole city. How high an estimate is also placed upon him by the outside world is also shown by the fact that he has filled the position of president of the local branch of the Canadian Manufacturers' Association during two terms and that at the Winnipeg Convention last year he was chosen as Vice-President of the Association for the Province of Quebec.

Mr. Joseph Octave Paquet, the Vice-President of the new company, is the second son of the late Z. Paquet, the founder of the house, and is 32 years old. Educated at Levis College, where he took the full commercial course, he entered his father's employ immediately upon the completion of his studies and has been closely connected for the past thirty-five years with the establishment, whose vast business he powerfully helped his late father and brother to build up.

Dr. Victor de Lotbinière Laurin, is one of the directors of the company, and Mr. Jos. Laurin is the secretary. Dr. Laurin succeeded the late Hon. V. W. Larue, who died last December, as one of the executors of the late Senator J. A. Paquet. He is 60 years old. Educated at Levis College and the Nicolet Seminary, he graduated as a physician from Laval University, Quebec, he has long been

one of the most prominent and successful medical practitioners in this district. He has also been prominent in military circles, holding the rank of lieutenant-colonel in the militia. He was formerly commander of the 87th or Quebec County Battalion and saw active service during the Fenian Raids and the second Northwest Rebellion. The directors of the company are: President and General Manager, G. A. Vandry; Vice-President, Joseph Octave Paquet; Dr. Victor de Lotbinière Laurin; Secretary, Joseph Laurin; Treasurer of Retail Division, L. Huot; Treasurer Wholesale Division, H. Cloutier; Auditor, N. Lajeunesse; Solicitor for the Company, Hon. E. J. Flynn; legal adviser, Mr. Roy, N.P.

BRYCE ON FEMALE EDUCATION

Philadelphia, Pa., June 6. — James Bryce, British Ambassador, was the orator to-day at the commencement exercises of Bryn Mawr College, taking for his subject "Has the education of women distinctive aims." He said that the faculties of men and women are practically equal and held therefore that the intellectual training fit for the one is fit for the other. As to women in political life, he said he claimed the privilege of declining to give an opinion on a topic so highly controversial for an Englishman to answer; but, he added, that so far as he could judge, the majority of American women at least in the eastern and middle states do not desire a change. The Ambassador suggested to women two fields of work which the average male citizen does not find time to enter. One is the cultivation of a thorough knowledge and a fine taste in literature, the habit of reading that which is not ephemeral, and the other field includes the study of how to mitigate the contrasts between wealth and poverty—how, in various ways, to help those who need help.

BRITISH-AMERICAN COBALT MINES, LTD.

You are certainly good business man enough to buy stock in a silver MINE, when you can get it for at least HALF what it is worth.

This is exactly what I am offering.

On the property of the British-American Cobalt Mines, Limited,—which I represent—there is a PROVEN silver mine.

If you have followed the news of Cobalt, you have heard of the Silver Lion property. It includes the "LUCKY GODFREY" MINE. After sinking a shaft only 21 feet, a 7 inch vein of calcite, cobalt, smaltite and gold was struck. The assay ran 400 OUNCES OF SILVER and \$160 WORTH OF COBALT to the ton.

This property consists of 120 acres and is immediately opposite the Gillies Timber Limit, the MINING RIGHTS for which the Government refused \$10,000,000.00.

This much I KNOW: Altogether there are

560 Acres of Silver

land owned by The British-American Cobalt Mines, Limited. Much of it has not been thoroughly prospected, and no one knows HOW MANY MILLIONS of dollars worth of silver will be found. The possibilities are LIMITLESS.

The map shows the location.

See for yourself that the holdings (in black) lie close to some of the most famous silver mines in Cobalt.

Mining experts—experienced prospectors—tell me that the claims owned by this company ought to mine MORE SILVER than those companies whose stock sold at \$1 a share a year or two ago, and now sells readily for \$150.00 a share.

Isn't THAT the kind of profit YOU are looking for?

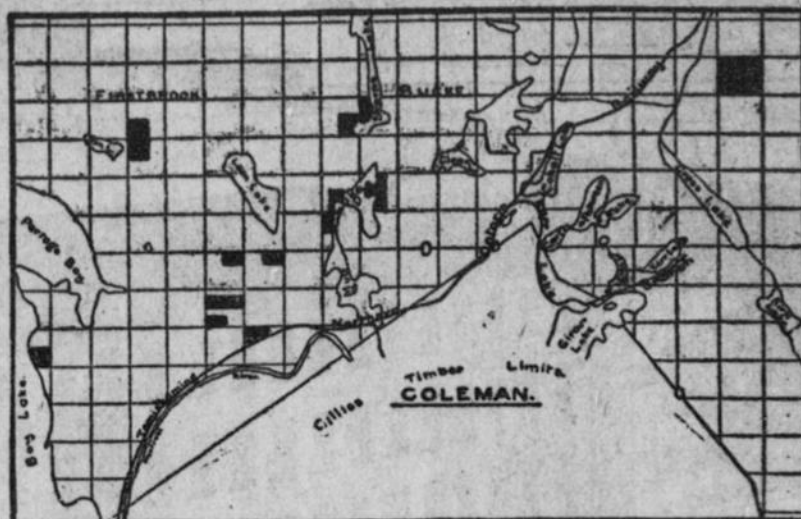

MEN WE KNOW

THIS IS THE PERSONNEL OF THE BRITISH-AMERICAN COBALT MINES, Limited:—

W. A. McKay, President International Steel Co., Montreal.

D. W. Lockerby, Vice-President, Merchant, Montreal.

W. I. Gear, Montreal, Vice-President, Robt. Reford Co.

Lt.-Col. John Carson, Montreal, Carson Bros.

R. W. Garth, Montreal, Merchant.

F. Ross, Secretary-Treasurer, Accountant, Montreal.

Ziba Gallagher, Solicitor.

They are men who have made a success of their own business, and will lend their brains and energy towards making a success of the British-American Cobalt Mines, Limited.

With such valuable assets, and such business minds to direct affairs, I don't see how anyone can help investing in so sound a proposition.

50c. A SHARE

The capital stock of the company is \$3,000,000.00—par value \$1 a share.

But frankly, I will not have this much stock to dispose of. Most of it is to be kept in the treasury. Because there is no necessity of selling so much.

With the money on hand, the company has almost enough to operate the Godfrey Mine and pay wages of experts and miners who are prospecting the various claims.

With the silver in sight, and what gives every promise of coming in sight very shortly, the company will have all the money they need for expenses and to pay a HANDSOME DIVIDEND to the shareholders.

So, if you want stock at 50c. a share, GET IT NOW.

I don't know of any business proposition that holds out such a promise of BIG profits as THIS company.

I urge you to invest in it. But do it NOW. Make out all cheques, money-orders or drafts, payable to the company.

HAMILTON GORDON,

Fiscal Agent,

National Trust Building,

151 St. James Street, Montreal.

EXPRESS RATES

Will Not be Taken Up by
R.R. Commission Until
August.

Ottawa, June 6.—The Railway Commission will not take up the question of express rates until late in August. They go to Montreal to-morrow in connection with the telephone enquiry. In two or three weeks they go to Fort William and Winnipeg. The board may take up telephone matters in Manitoba and look into the G.T.R. west of Winnipeg and its terminal there.

A reputation of Ottawans waited on the Hon. A. B. Aylesworth to-day requesting that the Parliament Buildings be decorated for the summer carnival in July next and that a powerful searchlight be placed on the clock tower of the House. The Acting Minister of Public Works promised to do something in the matter and expressed sympathy with the Capital's reunion and semi-centennial.

An English philatelist in 1903 sent \$1,200 worth of rare stamps to Jean Baptiste Forneste, of Wright county, Quebec, one approval. That gentleman put them in his safe and it was "cracked" and the stamps stolen. Action has been taken to recover their value from Mr. Forneste, who is fighting the case.

OCEAN ARRIVALS.

June 6—
SS Saxonia, at Boston, from Liverpool.
SS Astoria, at Moville, from New York.
SS Ivernia, at Liverpool, from Boston.
SS Noordland, at Liverpool, from Philadelphia.
SS Caledonian, at Liverpool, from Boston.

SS Bremen, at Cherbourg, from New York.
SS La Lorraine, at Havre, from New York.
SS Carpathia, at Trieste, from New York.

JAPANESE APPEAL

New York, June 6.—Count Okuma, former leader of the Progressives, the opposition party in Japan, in response to a request by the New York World, vouched that paper the following opinion regarding the incidents in San Francisco in which Japanese were involved:—

"I deeply regret that anti-Japanese outrages are being repeated in San Francisco. We, as a nation, were not satisfied with the settlement of the last school incident, which resulted in unjust discrimination against, and the actual expulsion of Japanese immigrants. We patiently hoped that the principles laid out in the enlightened message of President Roosevelt last December would prevail and that every unjust discrimination against the Japanese would be stopped. Repetition of injustice against the Japanese will seriously hurt our feeling toward America and our

traditional friendship will be weakened thereby. Fair and just treatment is essential to maintain friendship. Repeated outrageous acts will not only damage American interests, but also discredit American civilization for the sake of justice and humanity, sincerely appeal to the American public to stop Boxer-like outrages and unfair discrimination against Japanese and pray that Washington's farewell address be not forgotten by the American people."

Count Okuma has been Minister of Finance, Foreign Minister and Premier of Japan. He is now head of Waseda University, which he founded and endowed largely.

Water should never be put on gilt frames. They should be wiped with dry cloth or chamois. This applies to all metal and lacquered goods. After a lacquered bed has once been wet and polished it must be continually polished, so the best plan is to keep it as dry as possible.

MORAL REFORM

Subject of Discussion by the
Presbyterian General
Assembly.

Montreal, June 6.—At this afternoon's session of the Presbyterian General Assembly a large number of reports were received, but the reports were not of special interest.

The question of temperance and moral reform came up and after considerable discussion the matter was referred to a committee to decide what action should be taken by the church. The assembly was addressed by Rev. Dr. Gordon, of Winnipeg, who deplored the lower moral standards in political and commercial life. S. S. Macdonnell, K.C., of Kingston, denounced graft in public life and was supported

by a number of other delegates, who urged that vigorous action should be taken by the church.

At to-night's session "Home Missions" was the subject and satisfactory reports dealing with this work were presented.

Oxford, Eng., June 6.—The first regular baseball game played at Oxford was decided here to-day. It was a return match of the American Knodes scholars of Oxford against an all-England nine and attracted a few spectators, who, however, were keenly interested. London started by recording three runs in the first inning. The Americans were ahead in the third and maintained their lead to the end, winning by 15 to 11. In the first match, played at Tottenham on June 3rd, the score was: Americans, 22; London, 7.

Belgium was the first country to organize domestic training schools; the first was organized in 1889.

Wanted: A Brain!

An employer in the City advertised for a man to fill an important position. This employer is a man of keen business attainments, and has built up in a very few years a trade which he could not afford to give up even to accept a

Salary of \$10,000 per annum

which had been offered him.

It is obvious that any one, to meet his requirements, must have business qualifications of a high order, such as are only possessed by a man of brains, and to such a man he offers high salary and other inducements. **He wants Brains!!!**

Where is the Brains?

Are you satisfied with the kind that only earn for you \$10.00, \$15.00, or \$30.00 a week? Positions with high salaries are open, but it takes brains to fill them. Argue around Robin Hood's barn from now to Eternity, and you come back to first principles, viz., that

Food Builds Brains

and renews the waste and the wear that goes on every minute.

If you want to make money you must have a strong money-making brain, and to secure that you must eat food containing the elements which especially feed the brain and nerve tissues.

Grape-Nuts food

contains these brain-building elements. The food is made of wheat and barley, and in these field grains an all-wise Providence has hidden small quantities of Phosphate of Potash, the vital food for the brain and nerve centres. Grape-Nuts possesses this important element, which is lacking in white bread, potatoes, mush, etc. Besides, in the manufacture of Grape-Nuts the starch in the grains is changed into a form of sugar or pre-digested, so that it is easily and quickly assimilated.

Eat Grape-Nuts ten days and see how effectively it quickens and sharpens the brain power.

There's a Reason for

Grape-Nuts

The Klondyke at Home!

THE HARBOR WORKS

Suggested Improvements on the Louise Embankment—Mr. McNicol's Visit.

A special meeting of the Quebec Harbor Commission was held yesterday afternoon when Mr. D. McNicol, General Manager of the Canadian Pacific Railway Company, was present to discuss with the Commissioners some improvements in the harbor. It is proposed to build some crib work and otherwise improve the north side of the Louise Embankment, so as to give greater facilities for railway connection with the Breakwater extension. Another suggestion is to remove the baggage shed from the front to the rear of the Immigration Buildings. This would allow much more space for the increasing traffic on the Embankment.

After the matter had been fully discussed, Mr. McNicol, accompanied by Mr. J. B. Laliberte, Chairman of the Commission, and Mr. St. G. Boswell, Harbor Engineer, visited the locality of the proposed improvements.

ALLAN LINE.

Steamer Hibernian, Captain Imrie, from London, with a general cargo, arrived in port at 10 a.m. yesterday, mooring at the company's wharf. Having discharged Quebec cargo, she left for Montreal last night. Reports passing between lat. 46.13 n, long. 52.45 w, and Father Point seven large and small icebergs, and a number of smaller pieces.

Steamer Mongolian, Captain Gambell, arrived from Montreal at 5 p.m. yesterday and after embarking Quebec passengers proceeded for Glasgow. Steamer Tunisian, Captain Brues, from Liverpool, passed Father Point yesterday evening, and is due in port at 8 a.m. today. She has 66 first, 299 second and 1016 third class passengers and a general cargo.

C.P.R. LINE.

R.M.S. Empress of Ireland, Lieut. Forster, R.N.R., from Liverpool, passed Father Point at 8 p.m. yesterday, and is due in port at 6 a.m. today. Reports from down the river, received last night, state that stormy weather prevailed, with considerable fog, which may detain the vessel.

THOMSON LINE.

Steamer Jacana, Captain Lindsay, having completed cargo, left port at noon yesterday for Leith.

Steamer Escalona, Captain Ross, arrived from Montreal on Wednesday night and went into the Louise Basin to complete cargo.

"SOO" CANAL TONNAGE.

Detroit, Mich., June 8.—The Soo canal tonnage for May was 7,644,824, over 3,000,000 tons greater than last May, making a new record, and bringing the total so far this season ahead of the total up to this time last year, in spite of the late opening and great delays this spring.

STEAMER LIBELLED.

Amherstburg, Ont., June 6.—A libel of fifty-three thousand dollars has been filed on the steamer John C. Gault, which sunk the steamer Byron Whittaker opposite this place four weeks ago. The damages are about equally divided between the value of the cargo and the vessel, and the cost of raising the latter after the collision. During the illness of Byron Whittaker, of Detroit, who died only a few hours before the collision occurred, the insurance on the Whittaker had expired.

THE EUROPEAN MAILS.

The Virginian will call at Sydney on her next outward voyage, which commences to-day, for the mails. The Government has issued instructions that the original programme, which was upset owing to the ice field off the Cape Breton coast, must now be carried out, since the obstacle has been removed. The Virginian will, therefore, call at Sydney on Saturday night. It was stated at the office of Messrs. Allan that the Virginian, this season, will call three times at Sydney to take on and discharge the mails, twice going east, and once all westward. The Virginian will call once each way. The Empress of Ireland landed her mails at Rimouski last night, but on her outward passage will take on the mails at Sydney. A careful record will be kept of the delay, if any, which occurs by the call at Sydney.

NOTES.

Steamers Mystic and O. A. Knudsen, arrived from Montreal yesterday and proceeded for Sydney.

Steamer Karnak, from Liverpool, via Charlottetown, P.E.I., with salt, arrived in port yesterday afternoon, and moored at the Pointe-a-Carrey wharf.

Steamer Magda, Captain Heutzke, arrived from Montreal yesterday afternoon and proceeded to St. Catherine's Bay to load for the United Kingdom.

Steamer Samuel Marshall, from Quebec for Erie, Pa., with pulpwood, passed Port Dalhousie on Wednesday.

Steamer Cataract, from Erie to Quebec, with coal, passed Port Colborne.

PORT OF QUEBEC.

SHE WANTED TO SEE LULA.

Because the curiosity of an actress delayed a belated Southern train, there are some conductors south of the Mason and Dixon line who are watching carefully for Miss Maude Fealy. Recently Miss Fealy appeared in Memphis, her birthplace, and following her engagement there the company was booked for Greenville, Miss. It seems that a small town, named Lula, was the home of her father before he became postmaster at Memphis, and Miss Fealy wanted to see it. So, when the train left Memphis she asked the conductor to stop there when they reached the station; then she settled down to enjoy the panoramic view of the Mississippi.

Shortly before noon the train was suddenly stopped at what looked like a well-conducted farm, but what on closer inspection became a railroad station. Just as Miss Fealy discovered the name of Lula on the door of the depot, the conductor's voice was heard through four or five cars crying out the name. Then the cry was taken up by brakemen until the length and breadth of the train echoed with the word. But no passenger made any attempt to leave. The conductor's anger became something akin to rage when he saw Miss Fealy calmly surveying the surrounding country and her father's former abode with marked, though calm, attention.

"Lula!" cried the conductor, almost in her ear.

"Lula!" shrieked the brakeman, outside her window.

"Yes," said Miss Fealy, "I see the name on the station. How long do we stop here?"

"Stop?" said the conductor, "we don't stop here. This is only a flag station and we've stopped five minutes already. How long do you expect us to wait for you to get off?"

"Oh, but I don't want to get off," said Miss Fealy, "I just wanted to see the town in which my father—"

But the conductor did not wait for the rest of the explanation. He pulled the rope to signal the engineer and added another burning chapter to the report of belated conductors.—From the June Bohemian.

It is always best in the case of new pillows, to cover the ticking with an outer case of calico. These covers should be taken off and washed three or four times a year, and then replaced, this precaution keeping the ticking always clean and fresh.

A Message for Pile Sufferers

FROM TWO LADIES WHO HAVE BEEN CURED OF EXTREMELY TORTURING CASES OF PILES BY

Dr. Chase's Ointment

Mrs. Geo. H. Simset, Grant, Russell county, Ont., writes: "Eleven years ago I began to suffer from piles, and as they caused keen distress, and became worse, I doctored for them, but with little or no avail. They were bleeding, itching and protruding, and oh! the torture I suffered at times can never be described. It was with suffering that the bowels moved, and as nothing brought relief, I could only endure the misery with an aching heart and without hope of cure. "Finally a lady friend told me about Dr. Chase's Ointment curing piles, and to my surprise I felt relief at once on using this ointment; the little tumors soon disappeared, the ulcers healed, and the bowels became regular. This was five years ago, and I have never been troubled with this terrible ailment since, a thousand thanks to Dr. Chase's Ointment." Mrs. Captain Clinnansmith, Salvation Army, Essex, Ont., writes: "It is with pleasure that I write to you in praise of Dr. Chase's Ointment. Two years ago I was taken with a severe attack of protruding piles, and became so bad that I had to keep my bed, and could lie in no position except on my stomach. Doctors could give me no help, and the various oils and ointments used proved of no avail. "One Saturday night, when I was suffering untold agony, my husband went to the drug store for a box of Dr. Chase's Ointment, which I had heard of as a cure for piles. Although I had almost given up hope, to the wonder of those around me, I was able to be up and on my feet by Monday, and have had no difficulty from piles since. As a treatment for all kinds of sores and burns, Dr. Chase's Ointment works like magic. "To persons who have given up looking for a cure of piles or hemorrhoids this letter should bring new hope. There is, we believe, no more effective treatment for piles than Dr. Chase's Ointment. 60 cents a box at all dealers, or Edmanston, Bates & Co., Toronto.

EMBROIDERY SALE.

On Friday and Saturday of this week will take place, at our store, corner of St. Joseph and Crown Sts., the largest embroidery sale ever heard of in Quebec. 12,900 yards of fine embroidery coming from the failure of a large white-wear manufactory were bought at half price and must GO QUICK. See them!

THE QUEBEC SYNDICATE, June 7x2

FUNERALS YESTERDAY.

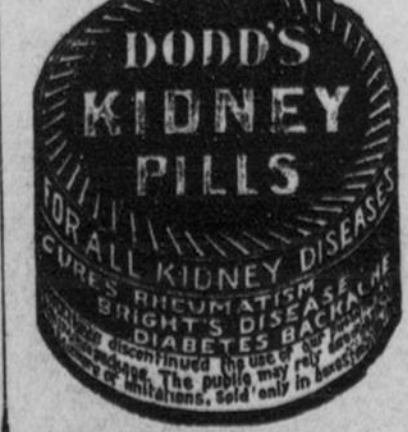

The funeral of the late Louis Ferland took place yesterday morning and a large concourse of mourners being in attendance. The funeral service took place at the Basilica, the Rev. Tancrède Paquet, of the Seminary, officiating at the requiem mass, assisted by Fathers Godbout and Carrier as deacon and sub-deacon. The chief mourners were the three sons of the deceased and his sons-in-law, Messrs. Marmette and Landrieux. The interment was at Belmont Cemetery.

The funeral of Mme. Olicier Potvin took place yesterday morning, the service, held at the Basilica, being of a very imposing character. There was a large attendance of mourners. The interment was at Belmont Cemetery.

FOUND GUILTY OF MURDER

Mexico City, June 6.—Florence Morales and Bernardo Morn were found guilty last night of murdering General Manuel Barillas, former president of Guatemala in this city on the night of April 7 last. They were sentenced to death.

Wood's Peppermint Cure.

One will please, it will cure. Sold by all druggists or mailed in plain package on receipt of price. New pamphlet mailed free. The Wood Medicine Co., formerly Wood's, Toronto, Ont.

I.C.R. MAIL SERVICE

Halifax, June 6.—F. B. Bent, superintendent of I.C.R. mail service, Halifax, has returned from Moncton, where he and A. Talbot, superintendent of the I.C.R. service, Quebec, were on business in connection with the mail services. Their particular business was arranging for improved mail accommodations on the Ocean Limited and Maritime Express. In the past the mail accommodations on the Ocean Limited were inadequate to the requirements and it is proposed to have part of the baggage car on this train fixed up and placed at the disposal of the clerk, who has the considerable sorting to do. Orders were placed some time ago for two mail cars, sixty-five feet in length for exclusive mail use on the Maritime Express leaving Montreal on Sunday. These cars are being built here and were to be finished by June 1st, but it appears they cannot be completed before the first of September. On account of the heavy mail on Monday mornings these cars were especially needed, as the present mail accommodations are too cramped. The delay in the construction of the cars will cause considerable inconvenience to the I.C.R. mail service.

ROMANCES OF SUCCESS.

First Time the Story of Slater's Success Has Been Told.

The Canadian Magazine this month celebrates the postal route of all the American magazines coming into Canada by a timely article on a great Canadian commercial achievement. The June number of the magazine is very interesting. Under the heading of "A Romance of Success in the Shoe Trade," a writer tells briefly the story of the birth and growth of the Slater Shoe idea. The pages contain photographs of the directors of the Slater Company, and relate in most interesting fashion how Charles E. Slater conceived the ideas on which the business attained such astonishing success. The man with the idea can always claim to possess greater and surer riches than he who discovers a gold or silver mine.

The "Sign of the Slate" on every Slater Shoe protects the people against imitations.

KING EDWARD'S PIPE.

We are indebted to a Parisian "chroniquer" for the information that King Edward shares with thousands of his subjects the peculiarly English affection for the pipe. His Majesty, we are assured, although the slave of etiquette, is never really happy unless he can disregard it in the intimacy of his private apartments. He adores the pipe, and without being entirely willing to part with his kingdom rather than lose it, is very fond of the briar, which is generous in size and innocent of sculpture.

King Edward only smokes when he is safe from prying eyes. And as a king with a pipe in his mouth, he never has been seen in public when His Majesty goes out he contents himself with a cigar. But even when he is on official journeys His Majesty takes with him his favorite pipe, which was made expressly for him in the Jura country. He took it with him when he left England a fortnight ago, but it did not leave its case until he reached Biarritz.

CANADIAN GIRLS AND ZAM-BUK.

Girls who are fond of canoeing, tennis, rowing, golf, and other outdoor sports find Zam-Buk invaluable, as well as do their male friends, who are engaged in the same sports, and baseball, etc. A smarting, blistered hand from a rough paddle is at once relieved by a little Zam-Buk. A burn from insect stings, a sore foot caused by a chafing shoe, a burn at a picnic fire—for all these Zam-Buk is a quick cure.

Don't think because Zam-Buk is prescribed by doctors and used for the most serious skin diseases and injuries, that it is only useful for serious cases. What cures a serious skin injury can soon end a less serious one. Mothers will find Zam-Buk useful for the heat rashes and skin troubles to which young children are subject in the hot weather. Remember always that Zam-Buk is made from pure herbaceous essences, contains no mineral coloring matter, and is thus best for the tender skins of infants. All stores and druggists sell at 50c. a box, or post-free from the Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50.

A BUTTERFLY FARM.

Young Englishman's Novel Enterprise—His Finest Specimens.

In ancient Bexley, whose population is much less than that of some of the suburbs of London, is to be found one of the most remarkable examples of modern enterprise. Six years ago a certain young man put this terse question to himself: "Bookkeeping or butterfly breeding?" He arrived at the decision that the latter offered a quicker and more congenial way to fortune than clerking, and thereupon, says the Boys' Own Paper, commenced to build up the butterfly farm to be seen at Bexley to-day.

Altogether Mr. Newman has about 200 different species of butterflies and moths on his farm in all stages and conditions. The most costly butterfly among them is the purple emperor, or king of the forest, so named because it is usually to be found flying over the top of oak trees, and consequently is most difficult to catch. A male specimen of this insect is worth 4s. and a female, 5s. The prices of the ova, larvae and pupae, which Mr. Newman sells, vary, of course, according to the species. For instance, a dozen of the ova of the emperor, a very common moth, can be purchased for 3d., while the same quantity of the comma butterfly would cost six times that amount. Then, again, a dozen of the larvae of the small tortoise shell cost but 4d., while a dozen ramoth sprawlers could not be purchased for less than 25s. The pupae are sold at 1s. 6d. for a pair, the prices ranging from 1s. 6d. for a pair to 1s. 9d. for a scarce burnished brass.

Mr. Newman's customers are almost as varied as his species. Schoolboys are enthusiastic collectors of caterpillars, which they like to breed themselves.

CAMPANA ARRIVES.

Quebec Steamship Co.'s Campana arrived in port from the Maritime Provinces at 1:45 a.m. and having landed Quebec freight and passengers left for Montreal at 3:45 a.m.

MONTREAL.

BANK OF MONTREAL

UPPER TOWN BRANCH,
Fabrique Street

Savings Department
INTEREST PAID 4 TIMES A YEAR

June 7x3m.

DAY BY DAY.

This year's weather is like a lumber wagon. It has no spring in it.

Quebec's increased subsidy may be paid next month. Aspirants for new offices will please make early application.

When the cat's away, sleep has full sway.

"Mother, may I go out to skate?"
"Oh, yes, my little Pete,
Put on the rollers, stand up straight—
But don't you move your feet."

June owes us a lot of good weather that May defaulted in paying. But June seems to be a poor pay.

One swallow doesn't make a Summer, but if it's the real hot stuff, sweetened a little, it will keep the chill of the June breezes out beautifully.

After his rough trip up the river, Prince Fushimi will, no doubt, ejaculate Banzai when he sees good old Quebec.

The weather man must be a prohibitionist. He is supplying lots of water.

Yesterday's failures should lead to to-day's successes, remarks the Champlain street philosopher.

The rumor that Quebec's city fathers were to sing the Japanese national anthem at the reception to Prince Fushimi to-day is officially denied.

The June bride crop does not appear to have been affected any by the weather.

A physician declares that kissing is not so dangerous as some bacteriologists assert. Why almost any Quebec young lady could have told you the same thing.

There is going to be a fuss
When Fushimi comes!
Bands will play and trumpets bray
When Fushimi comes!

But the thing I can't get right,
Though I've practiced day and night,
Is the way that I should say,
That queer word, Banzai!

Better throw away your calendar
and go it blind.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Barlow, of Jefferson Med. Coll. Pa.; Prof. Hare, of the Univ. of Pa.; Prof. Finley, of Chicago; Prof. Bennett Med. College, Chicago; Prof. King, M. D., of Cincinnati; Prof. John M. Scudder, D. of Cincinnati; Prof. Edwin M. Hild, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merit. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y.
