Special Notices.

To the Medical Faculty of Canada.
WOLFE'S SCHIEDAM AROMATIC SCHNAPPS.

A superlative tonic, diuretic and dyspeptic and invigorating cordial. This medicinal diet drink, manufactured soley by the proprietor at his distillery in Schiedam, in Holland, expressly for medicinal porposes. It is the pure tincture of juniper, distilled from the best barley that can be selected in Europe at any cost. It is flavored and medicated not by the common harsh berry, but by the choice botanical variety of the aromatic Italian juniper berry, whose more vinous extract is distilled and rectified with its spirited solvent, and thus it becomes a concentrated tincture of excellent flavor and aroma, altogether surpassing in its cordial and medicinal properties any alcoholic stimulant now in use in the world. It has been submitted to all the first class chemists and physicians in the United States, who endorse it over their own signatures as one of the great essentials of the materia medica. It is now prsecribed with great success in gravel, gout, rheumatism, obstruction of the bladder and kidneys, dyspepsia, whether acute or chronic; in general debility, sluggish circulation of the blood, inadequate assimulation of food, and exhausted energy, are acknowledged by the whole medical faculty, and attested in their highest written athorities.—Put up in quart, and pint bottles, enveloped in yellow paper, with the proprietor's name on the bottle, cork and label. For sale by all the respectable druggists and country merchants.

UDOLPHO WOLFE,
Sole Manufacturer and Importer,
Nos. 18, 20, & 22, Beaver st., N.Y.

I beg leave to call the attention of the reader to testimonials in favor of the Schnapps:—

Laboratory, New York, May 2, 1853.

Mr. Udolpho Wolfe:—

Dear Sir,—I cannot speak too highly of the purity of your Schiedam schnapps. It is decidedly superior to any thing of the kind in the market.

It is perfectly free from the admixture of fusel oil, or any of those arnylic compounds which produce such a mischievous and irreparable effect upon the constitution, and which very few samples of alcoholic distilled liquors are without—most of them being largely impregnated with it.

I have personally inspected the various processes of distillation practised at Schiedam, and know that unusual care is taken to separate the noxious elements from the pure alcohol; and your Schnapps is a striking proof of its success.

As a medicinal agent for chronic and renal affections I have successfully prescribed it, and recommended it as an agreeable cordial and harmless stimulant, and shall continue to do so, as well as to use it as a source of pure alcohol for chemical investigations and experiments.

Your obedient,
ISAIAH DECK,
Consulting Analytical Chemist.

From Dr. J. W. Bright, Louisville, Ky., Sept. 1.

I feel that we have now an article of gin suitable for such cases as that remedy is adapted to.

From Dr. O. L. Leonard, Louisville, Ky.

I well know the difficulty of obtaining genuine unadulterated spirituous liquors of any kind for medical purposes, and therefore rejoice at any attempt to render certain the purity of those articles, and at the same time to improve the medicinal properties. Perhaps in no article is this improvement more desirable than in Holland gin. We frequently fail to prescribe it where it might be useful, having no faith in obtaining a genuine article, and of course anticipating no benefit from the use of an inferior one. I shall take great pleasure in receiving a bottle of your schnapps, and hope it may prove all that it is described.

Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of "schnaps" as a remedy in chronic catarrhal complaints, &c.:

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient serv't.

CHAS. A. LEAS, M.D.

Dr. Chaloner of Philadelphia, who is well known to be opposed to the use of ordinary alcoholic stimulants, thus endorses the schnapps:

Philadelphia, July 15.

"MR UDOLPHO WOLFE, 22 Beaver street, New York.

"Dear Sir—Last year the writer received, through your agent in this city, a bottle of your "aromatic Schiedam schnapps," and since that period has presented the same in certain forms of urinary complaints, also, in cases of debility in aged persons. So far, the schnapps have been of much interest to those using it. * * *

In conclusion, where a diuretic and stimulant is required, I should use the "Aromatic Schiedam Schnapps." Thanking you for your kindness, I am respectfully yours,

A. D. CHALONER, M. D.,
130 South Eighth street.

Dr. D. Calkins, town physician and surgeon at Lyme, Conn., says in letter dated October 14:—

I consider your Schiedam schnapps a superior article, and one that will not come short of our highest expectations. It is an article the medical fraternity have long wanted. I have used it so far with every apparent success. Please forward me as soon as you can conveniently, twelve bottles. * * * D. CALKINS.

Dr. S. Russell Childs, 86 Chambers street, New York, under date, July 12, after referring to the schnapps as a "superior article," remarks:—

"Such an article is wanted for medicinal purposes. The profession are deeply interested in this matter. * * * * It will afford me pleasure to lend my aid in introducing the article you have been instrumental in bringing before the public.

Very truly yours, S. RUSSEL CHILDS, M. D.

Dr. C. Robbins of Boston, celebrated for his cure of epilepsy, cholera, &c., complains of the "great difficulty of procuring a pure Holland gin," and speaks of the Schiedam schnapps as follows, under date of Aug, 5:—

I have recommended your article in four cases—two in Connecticut, one in Vermont, and one in Rhode Island. An article of this character is much needed. I have been unable to find a substitution in the materia medica for pure Holland gin. Yours, C. ROBBINS.

OFFICE OF PROVINCIAL PARLIAMENT, Kansas Territory, July 31, 1854.

DEAR SIR—Having heard much of the medicinal properties of your "Schiedam aromatic schnapps," and they not being accessible in this "far off land," I feel desirous of having them introduced into this country, on account chiefly of a diseaseprevailing in the prarie and mountainous portions of this country—somewhat resembling stranguary derangement of the urinary organs. It is a complaint peculiar to this country.

As I do not know whether you have any agencies in any of the Western cities or towns, I have deemed it best to address you this note, to inquire whether the article can be had (genuine) nearer than New York.

My post office and embarking and debarking place is "Kansas City, Jackson county, Mo." Yours, respectfully,

Udolpho Wolfe, New York. WM. WALKER.

OPINIONS OF THE PRESS.

[From the Kentucky Medical Recorder, Louisville.]

WOLFE'S AROMATIC SCHIEDAM SCHNAPPS.—We speak by the card, when we add our testimony to the host of others, who admit the superiority of Mr. Wolfe's aromatic Schiedam schnapps over all other kinds of gin. From time immemorial, medical men have regarded gin as one of the best diuretics; and the disuse it has fallen into of late years must be attributed rather to the inferiority of the article in the market, than to the fickleness of physicians in substituting some other remedy for it. We know there are many physicians who prescribe alcohol as a remedial agent, in every disease, and under all circumstances. It is not our intention, however, to discuss this question now, but simply to confess our predilection for stimulants in very many diseases, and are certain that we have saved many lives by their administration, which would otherwise have been lost. Mr. Wolfe, we consider, has supplied a desideratum the want of which has been long felt by the profession, (and we might also say by the public,) in importing an article of gin superior to any other we have ever tasted; and we have no hesitation in so recommending it. In several cases which have come under our charge requiring diuretics, we have prescribed it with the best success.

[From the New York Express.]

AN OLD MEDICINE REVIVED.—In days of yore, as we have all learned from the old folks, no medicine was so useful to have in the house, or so good in many diseases, as Pure *Holland Gin.* For a long time, however the genuine article could not be had, until lately it has reappeared under the new name of Aromatic Schiedam Schnapps. The article appears to be manufactured exclusively by Udolpho Wolfe, at Schiedam, in Holland, and put up in quart and pint bottles expressly for medicinal purposes, with his name on the seal, bottle and label, to protect it against counterfeits. What a great blessing it is for persons residing in the interior of our Southern and Western States, that they can now purchase a pure and unadulterated article of Gin with confidence, without the least liability of deception or dissatisfaction. That it will tend to diminish the consumption of the common, deleterious and spurious liquors which now almost exclusively pervade this country, admits of no doubt. We consider the medical profession and the traveling community are under obligations to Mr. Wolfe.

[From the N. Y. Courier and Enquirer.]

WOLFE'S AROMATIC SCHIEDAM SCHNAPPS.—We perceive that this liquor is coming into very general use for medicinal purposes, and with a very happy effect. In the hands of physicians, it is proving itself, as a stimulating diuretic, to be entirely successful after other medication with this intent had been tried in vain. In one of the cases thus reported, abdominal dropsy has been cured, and the necessity of tapping averted; and, in another, a distressing case of gravel, so called, has been entirely removed by the passage of a calculus of considerable size, which is ascribed to the use of only two bottles of this article. The editor of the New York *Medical Gazette*, Dr. Reese—good authority in such matters—speaks thus of this article:—"As respects its medicinal and curative effects, we understand him to claim only that it is a pure and reliable article of Holland Gin, and, as such, worthy of the confidence of physicians, in those cases which they are wont to prescribe it, and have, hitherto, only been restrained by finding it impracticable to obtain the article in a pure state. Nor should any prejudice against alcoholic medicine deprive the afflicted of the benefit of this article, which, from time immemorial, has held its place among the remedial agents of the Materia Medica, if it be found worthy of confidence by continued experience. At all events, those who persist in the employment and toleration of other alcoholic medicines, as tinctures, bitters, &c., and especially those who prescribe Gin, under any circumstances, must all unite in giving the preference to a pure article, over the manifold adulterations so rife in the market. Mr. Wolfe liberally supplies physicians with a sample bottle for analysis and trial, as set forth in his circular, and stakes the reputation of the remedy upon the innocence, safety and efficiency of his Holland Gin, when used under medical advice; and pledges his own character in business that the article will not disappoint any who use it. We shall take occasion, hereafter, to discuss the whole subject of alcoholic medicine, a topic which has recently been attracting much attention in Europe and America."

ALCOHOLIC LIQUORS AS A MEDICINE.—In the July number of Dr. Reese's monthly periodical we observe a letter from Mr. Udolpho Wolfe, the proprietor of the Shiedam Aromatic Schnapps, a preparation of the Juniper Berry, which has been introduced about two years, and about which a vast deal has been said, written and published, until it has got to be recognized as a medicinal remedial agent, and indulged in as a pure and unadulterated preparation of Holland Gin, by those who use spirits, from one end of the Union to the other. This letter is addressed to the medical fraternity throughout the country, to whom a bottle of Schnapps was gratuitously furnished, with a view of obtaining their sincere and candid opinion as to its purity, quality and excellence as a remedial agent and wholesome beverage, either pro or con. It would appear that all the doctors have not complied with this request to furnish the proprietor with the results of their experience, and they are now solicited to furnish it to the editor of the Medical Gazette, briefly or in extenso. We shrewdly suspect, and if all we are told and hear of the delightful aromatic flavor, gently stimulating, invigorating, mild, innoxious, and non-intoxicating qualities of the Schnapps, that medical recipients have confined its use strictly to their private practice or in other words, personally and individually absorbing them. We can scarcely blame them, but they should certainly furnish Mr. Wolfe with their personal knowledge of his Gin or Schnapps.

A question has recently arisen whether alcoholic mixtures in any form are not objectionable as medicines, although they have been employed as an invaluable medical agent, in a variety of cases for a period of time "whereof the memory of man runneth not back." We believe, indeed we know that a very large majority of the medical faculty believe in the judicious administration of alcohol in certain forms and certain cases; and it is essential to the preparation of a great variety of drugs and medicines. There are many, however, of the modern school of M.D.'s who repudiate alcohol in any shape whatever. Dr. Reese wishes to have the question discussed in all its bearings, and announces in his July number that his columns will be open to a free and impartial discusions on both sides of the question, for respectable members of the profession. The Doctor himself is of the old school, and believes in spirits, if kept in proper check. He has expressed his decided opinion that "Wolfe's Shiedam Acromatic Schnapps" is the very best and purest article of Holland Gin ever produced in the world, and a valuable auxiliary in the hands of the medical fraternity.

But that is neither here nor there; we simply wish to call the attention of the medical faculty, and its temperance members—those who are radical, even, in their denunciations of alcohol for even medical purposes—to the fact that there is now afforded them ample scope and verge enough to pile up argument, backed by evidences, that alcohol is an out and out poison. Go in, gentlemen of the faculty, and heaven defend the right! We shall look after the Gazette and Wolfe's with more interest than ever. As Sir Lucius O'Trigger observes, "It's a mighty pretty quarrel as it stands."—*New York Courrier.*

A CHALLENGE TO ULTRA TEMPERANCE MEN.—We believe that all ultra teetotalers profess to hold an opinion that all alcoholic spirits are hurtful under all circumstance. That, even as a medicine, in extreme cases, and whether used internally or externally, the spirit of alcohol is poisonous. Now, we find this question fairly placed before the scientific world by Dr. Reese, editor of The Medical Gazette of this city—a journal of wide circulation and influence, who challenges discussion in regard to the virtues of "Wolfe's Schiedam "Aromatic Schnapps"—a popular "preparation" of pure Holland Gin and Juniper Juice.

The proprietor of these Schnapps has presented a bottle to every regular physician in the United States, at a cost of some of $5,000; and while he has received letters from over one thousand members of the medical faculty, strongly recommending the use of the Schnapps, no one, we believe, has ventured to take the field, on the negative side of the question. We should like to hear from some of our distinguished teetotalers on this subject.—*New York Evening Mirror.*

1m DC 215

BOGLE'S TOILET ARTICLES.
BOGLE'S HYPERION FLUID.
FOR RESTORING PRESERVING AND EMBELLISHING THE HAIR.

The following certificate from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many others received.

BOSTON, Feb. 15, 1856.

Mr. Wm. Bogle:—Sir: The preparation invented by you, for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds. * * * WINSLOW LEWIS.

It is an indispensable article for the ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BLEEDING AT THE LUNGS CURED

Seth W. Fowle, Esq.: Dear Sir,—Having been attacked with hemorrhage of the lungs, which left me with a troublesome cough, and the usual debility consequent upon such an attack, and having cured myself by the use of WISTAR'S BALSAM OF WILD CHERRY, I feel it a pleasure and a duty to testify to its merits. My general faith in patent medicines is small; but for those who are suffering under pulmonary attacks, I am persuaded that the Balsam is an excellent preparation. Yours, truly,

JONA R. CHILDS, Editor Chicago Telegraph.
Chicopee, Mass., Feb. 20, 1854.

None genuine unless signed I. BUTTS on the wrapper.

Sept. 14. r 218

Mothers and Nurses will find Du Barry's delicious Revalenta Arabica Food admirably adapted to remove all disorders of stomach and bowels to which infants and children are at all times liable, such as Indigestion, Flatulency, colic, dysentry, diarrhaea, constipation, debility and restlessness. It strengthens, nourishes, and is used with more advantage than milk in rearing infants. We quote a few testimonials:

No. 58034, Grammar School, Stevenage, Dec. 16, 1850.
—"Gentlemen: We have found it admirably adapted for infants. Our baby has never once had disordered bowels since taking it. R. Ambler.

Amsterdam, 31st Dec., 1852.

Dear Sir: Our child, up to the age of eleven weeks, was very delicate and wasting away, and milk, sago, and arrowroot turned sour on its stomach, causing great suffering. We then fed it upon DuBarry's Revalenta Arabica which agreed wonderfully with her; and she is now, at the age of nine months, a plump and lively little girl.

Daniel Servas.
Wildervank, Holland. Sept. 20, 1853.

Dear Sir: Our baby, which heaven presented us with ten months back, was attacked, when four weeks old, with a disease of the stomach and glands, by which our seven previous infants had all been carried off, and this last child seemed destined to follow its sisters and brother, before many days, for our doctor, a very able practitioner, had, during three weeks, exhausted all his skill, and was at a loss what to prescribe next, when he advised DuBarry's Revalenta Arabica, which, I am happy to say, worked a great change for the better in a few days; and in six weeks time the child was perfectly well, and is now a cheerful, blooming boy—a source of the greatest happiness to us all. L. H. Vaalman.

A SURE CURE FOR A FELON.—When the soreness first commences, or even when far advanced, it can be relieved and entirely cured by holding the finger or part afflicted in Perry Davis' Pain Killer for half an hour. It has been thoroughly tested, and proves a never failing remedy. A felon is a troublsome thing, and we would advise all so troubled to test the remedy.

PERRY DAVIS' PAIN KILLER.—The thousands who have been relieved, as well as the thousands who have the most unbounded confidence in Perry Davis' Vegetable Pain Killer, will read among our special notices this week another of the additional evidences of the power of the application. We are doing an act of humanity when we urge every family to possess themselves of it.—Buffalo Christian Advocate.

WOOD'S HAIR RESTORATIVE.—Prof. Wood, the renowned discoverer of the invaluable Hair Restorative, still continues to labor on behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair on the head of the aged, that has been silvered for many years, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt that it is one of the greatest discoveries in the medical world. It restores permanently gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world.—*Cincinnati Daily Sun*, April 27, 1857.

☞ To the Subscribers of the Daily Herald.—We would thank Subscribers who do not receive their paper punctually, to inform us of the omission. We would also caution the public against purchasing papers from our carriers as they are not allowed to sell papers.

☞ We would remind our correspondents at a distance that we refuse all letters unless they are pre-paid.

ANIMOS EQUITATE TENEBO. OMNI
THE MONTREAL HERALD

FRIDAY MORNING, SEPT. 18, 1857.

☞ *TO YEARLY ADVERTISERS.* ☜

We would remind Yearly Advertisers that an extra charge is made by us to all who exceed their limits. Parties pre-paying advertisements for our columns should therefore keep this in view.

Docks and Steamers.—While the Committee of Engineers is sitting to decide upon the best place for the docks for this city and the best plan of making them when the place is chosen, the citizens would do well not to forget that a long interval must elapse before the recommendations of the committee can have any practical fulfilment, and that in the meantime events are taking place of great importance to the trade of Montreal. The Steamship Company, which has successfully fulfilled its contract to carry the fortnightly mail between Liverpool and Montreal, are now building four steamers, of 2,300 tons each, one-third larger than their present craft. The first of these steamers will be here on the first trip in May, and, as we are informed, she cannot come into the present port. She must, therefore, stop at Quebec unless something is done in the meantime. Now, are our fellow-citizens prepared to see this trade slip quietly away from them rather than make a little exertion? Will our merchants be easily reconciled to a continuance of the evil of which they have had to complain since the loss of the "Canadian"? Will our landed proprietors acquiesce in this practical declaration of the inferiority of our port? If not, something has to be done, if this case is as we are informed it is. We have been supposed by the partizans of what is called the East end interest to have been opposed to their wishes, though in truth we have never had any desire to see one end of the city gain or lose at the expense of the other. But we are now pointing out, in the common benefit, an evil, the remedy for which seems to involve an improvement a good deal in the direction of those for which our Eastern friends have been clamouring. In short, we are led to believe that the steamers of the large size now about to be put upon this line cannot come to any part of the port of Montreal, as things exist at present, other than Hochelaga Bay. If this is so, it becomes a matter of very great importance to consider whether a railtrack should not be laid down to connect the new wharf there with the Grand Trunk Depots at the west end of the city. We know not to what extent the Grand Trunk Company would be disposed to co-operate in this work. If we recollect right, they did not, when they formerly proposed it, find much sympathy in the City Council; and we have heard it surmised that they would not be sorry to have the steamers always stop at Quebec, in order to have the business of conveying parts of their cargo between that city and Montreal. This is not a large view of their own interest; and we hope the Company would rather study to make the entire route a desirable one, than to throw obstacles in the way, in order to make a petty immediate gain. However that may be, the citi- uld at once look into the ich will arise next spring, hem. A track for ed for the Bowens' Wharf, is not a ndoubtedly be effec- very ruinous work; and if it will ctive against the blow which seems to threaten us, is certainly within our means. We, of course, do not imagine that the construction of such a track has anything in common with the choice of a locality for docks. That will still be an open question to be decided by competent authority. We recommend a temporary remedy, to secure us till the permanent one, whatever that may be, shall be ready.

The Agricultural and Industrial Exhibition.—We, yesterday, gave a tolerably full account of the articles just now being exhibited at Point St Charles; but in our hastily prepared sketch, we necessarily omitted to notice many things very well worthy of attention. We revisited the scene yesterday, and in addition to the exhibition, notwithstanding the wet weather, the ground was enlivened by the presence of a large number of visitors of both sexes. We were most struck, on this second survey, with the great improvement which appears to be taking place among us in the ornamental arts. This fact was well marked by the presence of two or three exhibits of Montreal manufacture, such as would have been considered past the powers of any of our citizens, only a very few years ago. The chief of these was perhaps the collection of specimens of stained glass, manufactured by Mr. Spence. They prove that here, in Montreal, we can now furnish this beautiful species of decoration, in any variety of pattern, and to produce any given effect, whether the poets' "dim religious light" is required for some edifice devoted to the purposes of worship, or whether the glass is to be used at once as a screen and a method of obtaining bright coloring in any department. In Mr. Spence's collection, their were specimens in every department. Small, neat uniform patterns, giving in the mass nearly the effect of a single color—figures or patterns in which several colors appear in sufficiently large surfaces to give variety to the tint of the transmitted light—other glasses where the prismatic effects are united, or perhaps only subsidiary to the design.

Akin to this manufacture are those of marble, and of marbleized slate. We presume that there must be an increasing demand for these beautiful articles, as well for mantle pieces as for tablets, and other kinds of slabs. Mr. Hyatt exhibited various specimens of the real marble—one nearly white, others variegated, and approaching to black. Messrs Mesnard Freres, also showed articles of the same kind, while Messrs. Reed & Raynor have sent slabs or slate worked into various forms, possessing a polish which is little, if any, inferior to the marble itself. Still, in the same department of art we must notice the scagliola pillars and slabs, shown by Mr. Wm. Gorman, of Griffintown. These specimens possess all the beauty of those made elsewhere, and will doubtless be found very useful for decorative building. Mr. Hammond also exhibited some work of this kind. We may also notice several specimens of lapidary art of considerable merit, contributed by Mr. Hammond. In a kindred department we noticed several very nice bronzes, contributed by Mr. Hunt, of his own manufacture, and the same exhibitor had sent two pretty Etruscan (?) vases.

While upon the subject of decorative arts, we must not omit the show of encaustic tiles, placed at the exhibition by the agent of Messrs. Minton, & Co., an English firm, who are successfully imitating this kind of paving, which has been so frequently employed in ancient and mediæval times in churches and buildings containing open courts or large Halls intended for the wear of many feet. The tiles were in several patterns, and have a very handsome effect for a fine carefully kept pavement.

Of similar use are the Scotch flags, shown by Mr. Forsyth, which may be laid down so as to form a very nice black and white mosaic. Others of these flags are adapted for smooth, hard, cool flags, and Mr. Forsyth shows some made into a cistern for water or a rat proof safe.

The fine arts strictly speaking have usually been very indifferently represented among us. This year we have a piece of statuary, however, which is really a credit to the department to which it belong. Mr. Sohier's white marble bas-relief of "Innocence" holding a dove to her breast, is a work such as any sculptor might well be proud of. This gentleman, will, we predict, live to become widely known and appreciated. This "Innocence" attracted universal notice and admiration, and it well deserved all it received. We have seldom seen anything prettier than this piece of sculpture.

As it is always interesting to see any new manufacture naturalized among us, we notice with particular pleasure the buckskin gloves, shown by Messrs. Greene and Son. These are the first, we believe, ever made on any large scale in Lower Canada, and we are informed that the skin as well as the manufactured article, is wholly "native and to the manner born."

When we remember the extent to which the glove manufacture has at various times promoted the prosperity of certain towns, as well on the continent of Europe as in England, we are led to augur very favorably of the result of this new undertaking of our enterprizing fellow-townsman.

From gloves to furs is an easy transition. The Messrs. Greene are well known for the excellence of their stock in this line, and we have already mentioned their exposition, as well as those of Messrs. McIver, Brahadi, and Henderson. Persons whose taste led them in that direction had ample room and verge enough for the gratification of the most cultivated or most fastidious taste. A very beautiful part of this department of the exhibition consisted of two tippets, one of turkey, the other of goose feathers—forming a covering which, while warm, is especially light and airy, both for wearing and appearance. We could not learn the name of the exhibitor of these rarities, but we understand that she is a lady residing in the townships.

Among articles of more miscellaneous character we may notice particularly an automaton carriage made by Mr. Wm. Campbell, of St. Antoine Street. This carriage by means of a set of levers adjusted to work upon toothed edges and so upon the wheels, can be propelled at a very rapid rate by the motion of the arms, and, of course, without horses. The inventor offered to run against a horse for a mile; but declared his preference for a longer heat, if he were to try the bottom of his invention, on the same principle we presume as the Americans wanted to back their horses in England for 4 mile heats.

We here mention two or three other exhibitors, whom we accidentally passed over yesterday.

Messrs. Campbell and Jones of the Canal side—Saws of various kinds; circular and gang saws in great variety.

Mr. T. Dednam—Copper Kettle and other vessels.

Mr. Otis Warren—Various platform and other scales.

Mr. Rice—Wire work in great variety, as well for the preservation of various articles, as for Cemetery and other descriptions of fencing. One article from the manufactory of this gentleman was a specimen of wire ceiling plastered. This was said to be fire-proof.

Mr. McIntosh—Galvanic Cement roofing.

Mr. Drummond, Kingston—A great variety of agricultural implements, chiefly axes, forks, &c. These are chiefly of the American style, polished like cutlery, rather than the mere blacked tools which are used in England.

Mr. Pilbeam—A large assortment of boots and shoes.

Messrs. Higgings of Cote St. Paul—A collection, including Spades, Shovels, Axes, Forks, Hammers, Augurs, &c., of excellent finish.

Mr. Nickolds, of St. Ann's Suburbs, has a good collection of Gold and Silver Foils, and Leaf; a new branch of native manufacture.

We have already noticed some of the leading features in the Horticultural part of the exhibition; but were unable to specify the names of the exhibitors. We may now add to what we said yesterday that the prize for cauliflowers was taken by Mr. Cooper, who sent some most beautiful heads of that delicious vegetable. He also sent some large specimens of parsnips.

Messrs. Nicholson, Clarke, and Campbell, (the latter late of A. Delisle Esq.,) sent beets. Mr. Hudon of Cote St. Antoine exhibited some specimens of the Chinese Sugar Cane, with some syrup expressed from it.

We mentioned yesterday the fine collection of apples shown by the Hon. Mr. Young, and Mr. Lunn. We must add to that notice, the remark that the Hon. Chas. Wilson also showed a very great variety of this fruit. It was Mr. Carrol the gardener of the Hon. Mr. Wilson, who prepared some of the finest floral pyramids shown under the tent. Mr. Jas. Shuter also sent a dish of very large sized apples, much exceeding in bulk any other variety.

As it may be interesting to see how considerable are the collections of stove plants amassed by some of our citizens, we have obtained a list of those shown by Mr. James Eerrier junior. We may add, however, that in spite of the hard names and the graces of some of these specimens, the poor man, need not greatly repine, at his incapacity to purchase, and maintain these costly exotics, since the flowers, which may be grown without these appliances are possessed of at least as many beauties. Of course we do not say this with any view of depreciating so laudable a method of employing abundant wealth, as is the collection of these works of nature which are not to be met with in our own climates. It is but a word of consolation for ourselves and others who can but admire these things without any chance of possessing them. Here is the list of curiosities:—

List of Plants Shown by Jas. Ferrier, jun., Esq.

STOVE PLANTS.

Ardisia Crenulata; Aspidistria Falus Variegata; Aphelandra Lepsoldii; Adiantum Tenerium; ditto Formosum; ditto Pubescerus; ditto Taprizifone; Asplenium Marinum; ditto Buliferium; ditto Premorsnne; Anagria Frafinifolia; Begonia Picta; ditto Marmarea; ditto Splendida; [illegible] ditto Rubra; ditto Argentea; ditto Zebrina; ditto Euphitifolia; ditto Sanguinea; ditto Rrubra Veine; ditto Fisherii; ditto Manicata; Brexia Chiryasphilya; Buonopoara Juncea; Cama Indica; Cissus, Discolor; ditto and Vebretina; Coffea Arabica, Cycas Revoluta; Croton Epictum; Cereus, Senlis, old Man, Cactus; Caladium Bicolor; ditto Picturatum; Cardeline Escolitna; Coleus Blumii; Camphlobtris Discolor; Centradenia Grandiflora; ditto Rosea; Cyprdium Barbatum; Chalanthus Lendigei; Columnea Radican; Draccena Terminalis; Discorea, Discolor; Dixonile Antartica; Draccena Umbraculifera; Glodeudron Indicdum; Ficus Elastica; ditto Religosa; Cupherbia Splendens; Gesneria, Zebrina Splendens; Gymnagrmna, Sulphura; Hoya Carnasa Variegata; Hydrangea Variegata; Ixora Coccina; Justicia Zebrina; Lycopodium Cæsum; ditto Stolenifera; ditto Verticilata; Maranta Zebrina; Maranta Vicolor; Musa Cavendishii; Philodendron Perustum; Pheœnix Dactylifera; Reullia Maculata; Streltzia Reginea; Sugar Cane; Theovirides or Tea Plant; Tradescantia Discoler.

GREENHOUSE PLANTS.

Araucaria Excelsa; Ditto Imbricata; Agave Americana Varigata; Ocacia dealbate; Ditto Fullifolic; Ditto Grandis Prostato; Aucuba Joponica; Axalea, three varities; Andromeda Florabrinda; Camelia; Chorigema Hendersoni; Cupressus Funiblers; Chamarops Hybersteric; Cuphea Platycentra; Cedrus Dedora; Cigines Myrtifola; Ficus Imperalis; Gardenia Radieans; Gyneriumi Argentun; Nerium Varigatum; Pittasporum Tabria Varigato; Polygala Opssilifalia; Ditto Dalmaisiana; thirty Oranges.

The Late John Egan.—"Bytown's" notice in yesterday's *New Era*, of our correspondent "Chaudiere's" sketch of the late member for Pontiac's life and character, reminds us of a significant—but we trust a slanderous—saying, attributed to the late Sir Jonah Barrington. The witty Knight is reported to have said:—"If you wish to *roast* an Irishman, you will not have far to seek for another Irishman ready to *turn the spit*." If "Bytown" does not hail from the Green Island, our discrimination is greatly at fault.

The Great Eastern Steamship.—We have received a letter from a gentleman intimately conversant with the administration of the Great Eastern Steam Navigation Company, dated London, the 1st instant, stating that the Directors had just then decided that this wonderful ship is to be launched at Millwall, on the banks of the Thames, near London, during the early Spring Tides of next month, although the day was not absolutely fixed. At the date of our correspondent's letter, it was understood that it would be on Monday, the 5th, that this memorable event would take place.

The tides will be the highest of the month on that day.

The Military and the Exhibition.—A review of the Active Volunteer Force, under Lieut.-Col. Dyde, the Commandant, will take place this afternoon, on the Champ de Mars. Col. the Hon. Geo. Moffatt, commanding the district, will inspect the brigade on the occasion. The different corps will muster on their private parades not later than half-past one, to enable them to take up their ground at three o'clock.

The following has been handed to us for publication:—

Montreal, Sept. 17, 1857.

Sir,—The Local Committee of this Exhibition will be most happy to admit, free, the Officers and Men of the Active Volunteer Force, coming in uniform, to-morrow from 9 a.m. till noon.

For the Committee.
(Signed) T. S. BROWN.
Colonel Dyde,
Commanding Active Volunteers.

Destructive Fire at North Sandwich, Mass —On Sunday morning last, a fire broke out at the Manomet Iron Works, North Sandwich, which soon consumed the entire lower works, comprising the machine shops and foundry. Loss from $25,000 to $35,000, partly insured. These works, used for the manufacture of Warren's Turbine Water-wheels and machinery. Mr. Warren had just completed a large amount of machinery for flouring-mills in Upper and Lower Canada, which had fortunately been sent off a few days previous to the fire. The loss will fall heavy on him, as he had the machinery for some twenty mills in process of construction, which was entirely consumed, with all his valuable patterns, on which their is no insurance. Of course the mills where the machinery was destined will suffer much from detention, although Mr. Warren will take measures to have new patterns made as soon as possible, and hopes to be able to resume his work in a few weeks. The origin of the fire is unknown.

Canada Bank Note Reporter.—We have received from Messrs. S. D. Nutter & Co., publishers, the first number of this periodical. It is got up in a systematic and apparently correct manner, is full of valuable information regarding current and uncurrent money, and must prove a valuable work to all business men. We extract the following from the number before us:—

"Ten Dollar Bills of the Quebec Bank altered from ones, easily detected, the denomination being X in each corner, instead of the figure 10; also, one Dollar Bills of the same Bank altered to twenties—well done; the words twenty Dollars engraved in the centre of the bill, encroaches on the first letter in the word "currency."

We are authorised to say that the children of our city schools going in bodies or processions, accompanied by their teachers, will be admitted free to the Provincial Exhibition, at, and after 3 o'clock to-day.

Theatre Royal.—Crowds flock to this agreeable place of resort every evening—the entertainments being of the most attractive character, and the Company, in all respects, truly excellent. The *Black Doctor* will be performed to-night for the last time. Those who have seen this piece will, we are sure, re-visit the theatre on the present occasion, and we recommend to all play-goers who have not done so, to avail themselves of this the only opportunity. The laughter-provoking farce of *That Blessed Baby*, with singing and dancing, form the remainder of the performance.

Minton Celebrated Flooring Tiles.—We refer parties building to T. C. Hearle's advertisement of these beautiful tiles. Mr. H. has a number of patterns, which he will be happy to exhibit to parties desirous of purchasing. They are very beautiful and worthy of examination.

Grand Trunk and Great Southern Railroads.—The Grand Trunk and Government organ at Toronto announces that the Grand Trunk Company has obtained, through Mr. Buchanan, the cession of the rights of the two companies, which make together the Southern Railway.

Forcible Language.—We give the following extract, from the lastest Utah papers, for the benefit of certain would-be—or rather should be—gentlemen nearer home:—

In a sermon delivered on the 26th July, Brigham Young said he was not a prophet, but a Yankee guesser, and he guessed "James Buchanan had ordered the expedition to Utah to appease the wrath of the angry hounds that are howling around him." After scolding about Kimball's loss of the mail contract, Brigham says—

"But woe, woe to that man who comes here to unlawfully interfere with my affairs. Woe, woe to those men who come here to unlawfully meddle with me and this people. I swore in Nauvo, when my enemies were looking me in the face, that I would send them to hell across lots if they meddled with me and I ask no more odds of all hell to-day."

From a long article in the *News* of August 12, speaking of the new appointments for Utah, we take the following:—

"If you intend to continue the appointment of certain officers, we respectfully suggest that you appoint actually intelligent and honorable men who will wisely attend to their own duties and send them unaccompanied by troops, which you yourselves well know are of no lawful use here, and your officers will be respected and treated strictly according to their acts and merits, as you also well know has been the case, except that we did not hang up some of the *infernal scoundrels* you have heretofore sent, as they most richly deserved."

Domestic Poultry.—"Allow me," said Arthur looking pleadingly at Angelica the other morning at breakfast—"allow me to send you a little duck. Unless" he timidly added in a half whisper, "that is like sending coals to Newcastle." The little duck answered that he was a great goose, but did not altogether look as if she thought so.—*Punch.*

City Council Proceedings.

ADJOURNED QUARTERLY MEETING.

Reported for the Montreal Herald.

Wednesday, Sept. 16, 1857.

Present:—His Worship the Mayor; Aldermen Atwater, Leclaire, Homier, Whitney, Day, Marchand, Browne, and Masson; Councillors Jodoin, Belle, Bulmer, Clarke, Simard, Rottot, Corse, Valois, Grenier, Penn, Bronsdon, Auclaire, Terroux, and Cusson.

LETTER.

The following letter, from Dr. Scott, addressed to His Worship the Mayor, was read by the City Clerk:—

"I gave a certificate to Capt. May of the "Union Fire Company," respecting the state of health of one its members—John Sadler—who was attacked and shamefully beaten while in the discharge of his duties at the fire at Douglas' Saw Mills, on the morning of the 13th of July last. The object of such letter was to obtain from the Corporation some assistance to Sadler for the support of himself and family, until he shall have sufficiently recovered, so as to be able to follow his usual employment. I think that in addition to whatever temporary support the Corporation may think proper to award him, my account for professional attendance should also be paid by the city, and which it would be exceedingly unjust to allow the sufferer to be at the loss of."

The consideration of this letter was referred to the Finance Committee.

PROTEST.

The City Clerk read a protest at the suit of Mr. John Kelly against the Corperation, stating, that should the Corporation proceed with certain works in St. Constant Street, to the detriment of complainant's property, that he would be compelled to proceed against said Corporation for damages. Referred to Road Committee.

THE SINKING FUND.

The City Clerk read the following certificate of the City Treasurer, relative to the Sinking Fund:—

"I, the Undersigned, Treasurer of the City of Montreal, do hereby certify, that I have faithfully filled the obligations imposed upon me by the 6th sec. of the Act 16 Vic., cap. 26, intituled "an Act to authorize the City of Montreal to raise a loan to consolidate their debt;" and that, in conformity with the provisions thereof, I have this year taken out of the annual revenues and funds of the Corporation of the said city of Montreal (from whatever source arising), and before the payment of any appropriation whatsoever of the said revenues or funds, the sum of £4,000 currency, which said sum is equal to two per cent. on the outstanding consolidated debt of the city, secured otherwise than by bonds for terminable annuities, which said sum of money I have and do still keep apart from all other monies, to be invested and applied under the orders of the City Council, solely and exclusively as a sinking fund, towards the extinction of that portion of the said consolidated debt secured otherwise than by bonds for terminable annuities. In testimony whereof I have hereunto signed, and this certificate hath been countersigned by the Mayor of the said City of Montreal in the City Hall of the said City, this 10th day of September, 1857.

ATTENDANCE OF MEMBERS.

The City Clerk read an abstract of the attendance of Members on the various Committees for the quarter ending the 12th of September.

PETITIONS.

From Messrs. J. & J. Douglas, claiming £3,226 9s. 6d, for loss of property, by the burning of their saw mill, on the night of the 13th of July. To Finance.

From Thomas Watson, claiming £4,354 4s. 8d. for loss of property by the burning of Douglas' Saw Mill. To Finance.

From Robert Lavigne and Jean Bte. Caron, claiming £454 6s. 7d. for loss of property by the burning of Douglas' Saw Mill. To Finance.

From Alexander Murphy, to be indemnified for damages to his premises on the 13th July last. To Police Committee.

For a gas lamp at at the corner of Berry and Parthnis streets. To Light Committee,

From Leon Larue to be permitted to retain a wooden erection. To Finance Committee.

From O. McGarvey, for a side walk on the continuation of St. Antoine Street. To Road Committee.

From O. McGarvey, *et al*, for water-pipes. To Water Committee.

From the butchers of St. Ann's Market, for certain improvements. To Market Committee.

From William Kelly, not to be charged for a pigeon-hole table. To Finance Committee.

From Louis Laroche, carter, to be indemnified for the loss of a load of oil casks, through the bad state of the roads. To Road Committee.

From John Frothingham, to be indemnified for the loss sustained by his horse falling in an excavation in Sherbrooke street. To Water Committee.

From the inhabitants of St. German and St. Constant streets, complaining of certain houses of ill-fame in St. German street. To Police Committee.

From E. N. Gosselin, collector of the Montreal Water Works, for increase of salary. To Water Committe.

From Robert Mitchell & co., for leave to erect a steam-engine. To Fire Committee.

From P Boismenu, for repeal of By-Law, No. 194 on billiard tables. To Finance Committee.

From J. Marcotte, for leave to erect a steam engine. To Fire Committee.

To have the footpath in Prince street repaired. To Road Committee.

From Catherine Scanden, for remission of assessment. To Finance Committee.

From O. Berthelot, for improvements in Dorchester street. To Road Committee.

REPORTS.

From the Water Committee, for an appropriation of £300 for stop-gates, required on the line of the new aqueduct. Adopted.

From the Road Committee, for an appropriation of £300 to widen part of Sherbrooke street. Adopted.

From the Finance Committee, for the purchase of the Christ Church property with bonds payable three years after date. Adopted.

From the Water Committee, for an appropriation of £306, to erect a brick building for the wheel-wright and assistant wheel-wright of the New Water Works. Adopted.

From the Road Committee, for an appropriation of £70 14s 9d, to pay for the purchase of bricks for foot-paths, and the construction of a foot-way in front of Mr. Pinsonnault's building in Commissioner Square. Adopted.

From the Market Committee, for an appropriation of £100, to remove the Cattle Market from Viger Square. Adopted.

From the Road Committee, for an appropriation of £300 for contingencies. Adopted.

From the same, for an appropriation of £85, to construct eighteen cast-iron grates.—Adopted.

From the City Hall Committee, for an appropriation of £412 14s 10d currency, to settle an outstanding account with Mr. Charles Garth, for gas-fittings and plumbers' work for the City Hall, offices, &c. Adopted.

From the City Hall Committee for an appropriation of £412 10s with which to pay for firewood. Adopted.

From the Road Committee for an appropriation of £818 10s 7, to improve and widen Signora Street. Adopted.

From the same for an appropriation of £50 currency for improvements on Versailles street, the parties interested contributing a like amount

THE CENTRE WARD.

His Worship the Mayor stated that, in consequence of the resignation of Councillor Townsend, it devolved upon him to fix the time for the election of a sucessor to that gentleman for the Centre Ward. He would therefore name Monday, the 28th and Tuesday, the 29th instant, as the days when the election should take place.

THE FINANCE COMMITTE.

Councillor Bulmer was appointed a member of the Finance Committee in the place of Councillor Townsend, resigned.

THE SPECIAL COMMITTER.

Councillor Rottot was apoirted a member the Special Committee to inquire into the Road Department in the place of Councillor Townsend, resigned.

THE OFFICERS OF THE COPORATION.

Moved by Councillor Cusson, seconded by Councillor Bulmer, and adopted,

"That a Committee be named to inquire into the salaries of the different officers of the Corporation, the time given by each officer to the performance of his duties the amount or surplus, paid by each department as contingent expenses, and all other matters necessary to enable the Council to arrive at an exact knowledge of the annual expenses of the various departments in the Corporation; and that the said Committee be composed of Aldermen Masson and Homier, Councillor Penn, the mover and seconder.

TARIFF OF RATES FOR THE SUPPLY OF WATER.

The Water Committee report that the full and ample supply of Water from the new Water Works and Reservoir now enables one to water being furnished to all the citizens of Montreal; and exertions are being made to introduce the pipes into every habitation throughout the city. Time will, of course, be required to crown these exertions with full success. In the meanwhile, the distribution has been proceeded with to a sufficient extent to justify the introduction and adoption of a By-law to substitute an assessment or water-rate for the conventional charges hitherto made to those who, as tenants, have been supplied with water. The advantages of such a system over the practice hitherto adopted, of charging according to agreement with each particular tenant, are too obvious and too well understood to require that they should now be dwelt upon; besides, the change is desired, and has been asked for by the citizens at large.

With a view, therefore, to the introduction of a By-law to establish a Tariff of Rates for the water which the Corporation will be ready to supply from the 1st November next, your Committee have caused to be prepared, and herewith submit to the consideration of the Council, a Tariff of Rates, which they earnestly recommend may be adopted as the Tariff of Rates to be established by By-law for the supply of water in this city, from and after the 1st November next; and your Committee further recommend that a By-law be made and passed by the Council to establish the said Tariff, or such other Tariff of Rates as the Council may adopt in lieu thereof, so soon as the same may have been settled and decided upon.

The following is the tariff of rates for water supplied to every house rented, as follows:—

House rented below £10, one family, £1 5s; do two families, £1 15s; from £10 to £15, one family, £1 10s; do two families, £2; £15 to £25, one family, £2; do two families, £2 10s; £25 to £40, one family, £3; do two families, £4; £40 to £50, one family, £3 10s; do two families, £4 10s; £50 to £60, £4 10s; £60 to £75, £5; £75 to £90, £6 5s; £90 to £100, £7; £100 to £125, £8; £125 to £150, £9; £150 to £175, £10; £175 to £200, £11; £200 to 225, £12 10s; houses rented under £50, £2; from £50 to £100, £4; from £100 to £150, £4; £150 to £200, £5; private hydrants, £1; small hoses, £1; closets, 10s; baths, £1; horses, 10s.

On the motion of Alderman Atwater, seconded by Councillor Jodoin, the above report was carried on a division.

PROLONGATION OF DORCHESTER STREET.

Moved by Councillor Valois, seconded by Councillor Cusson, and carried,

"That inasmuch as since the rendering of the award, by a Special Jury, in the matter of legal expropriation of a certain portion of a lot of ground belonging to Thomas Molson, Esq, required by the Corporation of this City for the prolongation of Dorchester street, in the St. Mary's Ward of this city, each and every necessary and legal proceedings have been adopted, instructions be given to the City Surveyor to take possession of such portion of ground according to law."

NOTICE OF MOTION FOR NEXT MEETING.

Councillor Bulmer.—That the Road Committee be authorized to cause to be furnished, an estimate of the probable expense of extending Craig street from the St. Antoine Bridge to Bonaventure street, and to report thereon to this Council at as early a day as possible.

The Council then adjourned.

Trade and Commerce.

Mails and Sundries	1,523 41
Total	52,108 16
Corresponding week of last year	$59,053 20

NEW YORK MONEY MARKET—Sept. 16.

If the actual condition of financial and commercial matters does not authorise an announcement that signs of positive improvement are perceptible, we may at least venture to say that they are now no worse; nay, not only no worse but with such symptoms of convalescence as to encourage the hope of an early advent of better times. Yesterday, less difficulty was experienced in obtaining accommodation at the discount houses on good paper, while the Banks were disposed to grant as liberal facilities as possible without hazarding the unpreparability of their position. The current money rates are 15 to 20 per cent for prime commercial paper, with very little at the inside figure, and 24 to 30 per ct. for second class rates.

Since our last, several heavy failures in mercantile circles have been announced, but these, we believe, have been, for the most part, the results of an inability to realize upon securities subject to the daily fluctuations of the Stock market. Out of town, there have likewise been a number of suspensions of note, but we are inclined to believe that the worst times are over, and that, henceforth, things must take a turn for the better.

NEW YORK SUGAR MARKET—Sept. 16.

The market has continued depressed, and prices of medium and good grades Grocery have further declined ¼ of a cent, but qualities, suitable for export and refining are unchanged, these not being offered in excess of the demand.

Sales 460 hhds Melado, on private terms; 1500 do Cuba Sugar, 7⅞@8⅛c, 4 mos; 256 do for export, 5¾c, cash, in bond; 184 Porto Rico, 8¼@10½; and 40 do for export, 6¾, in bond, 4 mos.

At Boston, 500 bags very good Calcutta Yellow sold at 10c, 6 mos.

SHIPPING INTELLIGENCE.

No arrivals since Monday last. Wind fresh from the west all yesterday.

The tug steamer Napoleon, Captain Gourdeau, returned from the straits of Belle Isle yesterday afternoon, and reports the loss of the new barque Flora, Flaherty, in the straits of Belle Isle, on the 29th ult. She has been condemned and sold for account of the Underwriters, and adjudged, it is said, for £50. The Flora cleared at the Custom House here for Glasgow, on the 21st ult.

At a Privy Council at Buckingham Palace, July 16th, it was enacted that dues to the amount of one sixteenth of a penny per ton, for the maintenance of the Light House on Cape Ray, Newfoundland, be paid by all ships, steamships, &c., touching at any port or ports in the United Kingdom, from the British Colonies in North America, and vice versa; or from New York, or any port in the United States north of New York, arriving at any port in the United Kingdom; or that may sail from or arrive at any port in said Colonies on a transatlantic voyage. No such dues, however, to be levied in any Colony without Legislative sanction.

The French corvette Newton, under command of Monsieur du Vaurce, was totally lost at Port aux Choix, near Point Reach, Newfoundland, on the 10th of June last. No lives were lost, and all her machinery, materials, &c., were saved and conveyed to St. Pierre.

MARRIED.

On Tuesday, the 15th instant, at Terrace Bank, the residence of the bride's father, by the Rev. A. F. Kemp, George A. Drummond, Esq., to Helen, third daughter of John Redpath, Esq.
