Wyman MacKechnie appointed to Worlds Fair committee

A three day conference of the Natoinal Advisory Committee on Agriculture was held in Montreal during last week. The committee is working in connection with preparations that are being made for the World's Fair in 1967.

Wyman MacKechnie attended this meeting as livestock consultant. He was appointed to the sub-committee on livestock.

The World's Fair is expected to run from April until October, 1967, and will be the first in North America to be fully recognized by the 31 member nations.

Plans are now being made to display specimens of Canada's major breeds and classes of cattle throughout the entire length of the fair. The members of the conference were entertained in one of the larger hotels and were treated to a tour of the site prepared for the Exposition in 1967.

This site is a seven hundred acre tract of land composed of Ste Helen's Island, Notre Dame Island and Ile Vert or Green Island, all of which have been joined together by an engineering feat which involved the use of thousands of trucks and men to procure and convey millions of tons of fill necessary for the venture.

First fur fashion show in Shawville

Cross - Country models display for town's first fur salon

Mrs. Helen Towell, who has recently opened Shawville's first Fur Salon in her home, treated the ladies of the district to a very fine fashion show of furs in the Anglican Hall on the evenings of October 8 and 9. Various pots of coloured mums and beautiful autumn maple leaves decorated the stage. Modelling to the accompaniment of hi-fi music were the finest models in the county. They were Misses Lucille Hodgins, Sandra Brown, Heather Richardson, Sandra Towell, Ann Amyotte, Sandra Hereault, Margaret Ward, Mrs. Pat Clarke, Mrs. Dan Kilsby, Mrs. Neil Wilson, Mrs. Dalton Hodgins, Mrs. Clyde Keith, Mrs. Harold Muise Mrs. Claude Young, Mrs. Helen Pelletier, Miss Amyotte and Miss Bertrand. Commentating was Mr. Doggett of Montreal. Furs modelled included stoles, shorties three-quarter and full length coats. To name a few of the variety, there were the most well-known Canadian furs in sheared beaver, squirrel, mink, otter and muskrat in various shades; Russian squirrel and ermine, persian lamb in grey, cocoa and black, persian paw and Alaskan seal, imported Norwegian blue hair seal, silver raccoon, Iragain lamb and processed lamb to resemble seal. The stoles of black diamond ranch or pastel mink spoke for themselves. Mr. Doggett completed the show with his modelling of a very fine man's carcoat of Canadian racoon. About sixty coats were modelled in all.

Aylmer first in Canada to adopt National Fire Code

On the third attempt, Aylmer Town Council succeeded on Thursday last in passing a new bylaw dealing with the town's fire prevention and control system. Prior to Thursday's meeting, discussion had bogged down on the point of whether or not the Officers of the Brigade should be appointed by council, on recommendation of the Fire Chief, or whether they should be elected by the men themselves. Until now, only the Fire Chief's appointment was not subject to annual election. On a divided vote, the bylaws prepared in cooperation with members of the Brigade finally passed on a vote of 5 to 1. Ald. Eugene Dorion who had first posted the objection cast the lone dissenting vote.

The National Fire Code, drawn up by the Associate Committee on National Fire Codes of the National Research Council, has been adopted as the local Fire Prevention Bylaw. This makes Aylmer the first municipality in the country to adopt the code in its entirety. The development of this National Fire Code dates back to the formation of a special committee at the National Research Council in 1956, at the request of the Canadian Federation of Mayors and Municipalities, the Association of Canadian Fire Marshals and the Canadian Association of Fire Chiefs. The Associate Committee consists of a group of about twenty Canadian citizens appointed for three-year terms by the council. They sit as individuals and not as representatives of any organization. Special technical committees include fire marshals, fire chiefs, municipal managers, fire fighters union officials provincial legislative counsels and municipal affairs officials, fire insurance interests and other technical ex perts. The code as adopted is a very flexible document that provides detailed information from storage required for the most hazardous chemicals in industrial applications, to the penalties to be paid by "every person who contravenes or fails to comply with this code or who fails to carry out an order made under this code or any condition attached to a permit. . ." Naturally all individual sections of the code do not apply, nor can they be enforced at the present time, in the future course of its development at least the minimum safety standards will have to be observed.

High School basketball

Shawville High opens its western Quebec Basketball schedule this Friday night at 7:00. In this the first of six outings Shawville will meet a usually strong opponent from Aylmer High.

This year we are hoping for a much improved showing from our Shawville squads. Three games are scheduled for the evening, senior girls, senior boys and junior boys.

These should be three very good games and local support would be very much appreciated by our teams.

Pastoral comment...

Rev. M. A. Swaren, Quyon

Many of our Universities now offer a course in Logopedics, which also is sometimes known as Lolopathology, and has to do with teaching people how to speak properly, correcting speach difficulties, removing word blocks etc.

This month of the pumpkins, of football finals, of world series ball, comes to a peak with our most ancient festival "thanksgiving". I fear that we all need a special course in "logopedics" when it comes to this matter of thanksgiving, for we all misuse the word; we take it too much for granted, we neglect it too frequently, we fail to understand its importance.

In the Bible I read of ten leprous men who were healed, but only one returned to give thanks and the question put to the one at that time was: "Where Are The Nine"?

"Where are the nine?" Where are the nine hundred, the nine thousand, the nine million who are cleansed and nourished and kept by the Power of God and by His Divine love and mercy? According to the numbers in any Church on Sunday it would appear that only ten percent turn back praising God and giving Him thanks. But you and I could be of that saving minority.

Too many of us are like the boy who was going to a birthday party. Before he left his mother gave him some instruction in politeness. She said: "Even if you would be inclined to forget to say thank you, please try to remember it on this occasion.

When the boy returned his mother said: "Did you remember to say thank you?" "I was going to", said the boy, "but I heard Jimmy Smith say thank you, but the lady said "don't mention it", so I didn't."

Have you ever thought to thank Him for His great and marvelous Salvation, the greatest gift of all? Where are the nine? Let us return and give Him thanks. We have a duty of thankfulness. Let us take the course in Logopedic Thanksgiving.

THINKING AHEAD

Pontiac people are often heard to say that theirs is the forgotten corner of Quebec. The Equity has echoed these sentiments time and again. Just last week we were complaining because the wonderful school broadcasts being prepared by the Protestant School authorities and the CBC aren't available here. And then there are the roads, a perepetual cause of the "we are forgotten" frame of mind.

But one government agency hasn't forgotten Pontiac, in fact they have favored us over our neighboring counties. This is the Centennial of Confederation Committtee in the Provincial Secretary's office. Centennial money alloted to other Western Quebec areas are being lumped together to build a large commemorative arts center in Hull but our County of Pontiac has been allowed to have its own project.

To commemorate the hundred years of progress from 1867 to 1967 Pontiac County will build a permanent replica of a pioneer homestead. As our County's early settllers were here even before the confederation of Canada, our reconstructed homestead will include items which are well over a hundred years old and as our pioneers were of many sorts, the project here will reflect several origins, religions and cultures.

To accomplish this task the government of Quebec has allowed a sum of $37,400. The Federal government's contribution is to be $22,000 which gives a total of $59,400 from both. This is 90% of the estimated cost of the project and will be forthcoming as soon as Pontiac County can raise their 10% which is $6600.

Letters have been sent to the mayors of every municipality in Pontiac, asking them to bring the matter before their councils and see what amount each area can conveniently allocate for the County's Centennial project. An additional grant from the County Council has also been requested. The private citizens and corporations in Pontiac or who have an interest in Pontiac may also contribute and all donations to the fund are deductible for income tax purposes. They should be sent to Pontiac Centennial Museum Fund c/o Royal Bank of Canada, Shawville, Quebec.

Progress on the project depends on the immediate raising of the local ten percent. When 1967 rolls around and every other area in Canada has a flourishing centennial project, Pontiac's status will be determined by whether or not we can raise $6600 in 1964. Here's hoping.

Aylmer Jottings

By Fran O'Malley

At the opening session of council meeting last week, Alderman Eugene Dorion made one significant contribution to the discussion of the Fire Department's monthly report when he commented that he felt that council should go on record as telling the Gatineau County Agricultural Society "that it should be ashamed" to charge the Aylmer Volunteer Fire Brigade $100 for the use of the Aylmer Fair Grounds for their August Civic Holiday picnic. . ."because they get fire protection from them all year, and never pay any taxes. . ." His remarks were warmly applauded even though the mechanics of implementing their intent would be a little difficult. The sooner council gets around to acquiring these nonrevenue producing lands for the benefit of the general public who support all the services they use, the better.

Congratulations to the Aylmer Rotary Club who once again waltzed off with the attendance trophy for the Zone Convention held at Messina two weeks ago. The trophy is given on the basis of the percentage of each attending the convention. President Joe Ray and five of his stalwarts Charlie Dagg, Phil Michel, Bill Kereliuk, Don Ritchie and Walter Schultz formed about 25% of their membership — so — for the second year in a row, back comes the trophy to Aylmer. On Thanksgiving night President Joe, Bill Kereliuk, Carl Schubert and Charlie Dagg, suitably chaperoned this time by their respective spouses, attended the Golden Jubilee of the Watertown New York Rotary Club to bring greetings from Aylmer.

Aylmer Fire Brigade members wound up Fire Prevention Week with a dinner-dance to honour their wives on Saturday night, at the British Hotel. The entertainment committee of Ray Gravelle Leo Routh, and Lucien Rockburn were in charge of the arrangements and the festivities have been described as "one of the best —ever!"

One of the Brigade's best known members, Deputy Chief Gerry Ladouceur, was among the absentees from Saturday's celebrations. Gerry suffered a severe heart attack during the week and is now in Ottawa Civic Hospital. His condition is still too serious to permit visitors, but he would appreciate a card! Best of luck and good wishes for a complete recovery.

Pontiac R C teachers convene for study

Keynote speaker emphasizes enthusiasm, patience, perseverance, dedication

by Sister Constance of C. Bay

The Pontiac Local of the Provincial Association of Catholic Teachers held its annual convention in St. Edward's School Auditorium, Bristol Mines on Saturday.

Miss Marguerite Moyle, president, called upon Reverend D.J. Harrington, PP to extend greetings to the teachers. He united his welcome with that of nature, now at her best; of St. Edward's School staff; of the CWL and of God Himself in the church where the forty hours' devotion was in progress.

The president in her address welcomed the members of the Association, and set forth the aims of the convention. She then called upon Mr. Joseph White, president of the Provincial Association. Mr. White remarked upon the advances made by the Pontiac Local, and encouraged it to greater zeal by setting forth the notable accomplishments and the influence of the Association at the provincial level in educational circles.

Highlight of the morning's session was a demonstration of a Reading Laboratory, a multi-level program, designed as an auxiliary to the regular reading program. The introduction to, the explanation and the demonstration of the Laboratory at work were ably conducted by Sister M. Lourdes, CSJ and Sister M. Philomena, CSJ, both of Our Lady of Fatima School, Renfrew.

A special feature of P A C T convention followed the work of the morning, The Holy Sacrifice of the mass was offered by Fr. Harrington for the members of the Association. The choir led by the organist Miss Dumas rendered pleasing selections.

After Mass the CWL served a banquet in the Parish Hall. The guest speaker, Fr. Harrington expressed himself happy to welcome such a group to St. Edwards.

In the words: "A task well begun is a task half done."

He encouraged the teachers in what they had done; and by another proverb: "Procrastination is the thief of time", he urged them to put forth at all times their best effort, for, he said, it could sometimes be that teachers could be procrastinators. In his address he delineated the traits which must characterize a true teacher: enthusiasm, patience, perseverance, dedication. He reminded them of the nobility of their task, for they work with God in fashioning the child who is the image of God. He encouraged them to love their work, to admire their work, for, he said, "God admires it with you".

Miss Moyle expressed her appreciation of the wonderful cooperation of the executive and teachers in presenting the present program.

The afternoon session was devoted to the cultural aspects of the course of education, music and art.

Mr. Duplantis, president of the newly formed association of Catholic Music Educators, outlined the place, value, and purpose of music as arranged in the school syllabus. Sister M. Terrance, CND, Dean of Music, Marionapolis College, Montreal, by her demonstration talk and workshop showed that music is the powerful means, and must be used as such in meeting the twofold challenge of Pope John XXIII and Pope Paul VI, the challenge of the revitalization of Christian life and the responsibility of ecumenism.

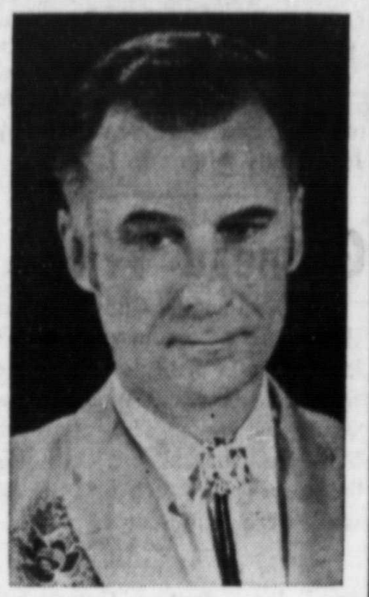

Sister Mary Immaculate, CSJ St. Mary's Teachers College, offered to the teachers a wealth of ideas in the sphere of art, and stressed the obligation the teachers have of giving to their pupils a training in this field.

Following the adjournment at 4:30 the teachers departed, convinced that they had had a convention successful, spiritually, educationally and socially.

Double drowning of canoists

A double drowning on Lake Deschenes and the discovery of the body of a former Aylmer resident on the verandah of a Wychwood cottage have kept Aylmer's police force working long hours this weekend. Thursday, two young students at St. Alexandre College, Limbour, are believed to have drowned when their canoe overturned. The body of Daniel Coutu, age 16, son of Dr. Noel Coutu of Hull was found by two fishermen about 200 yds. from shore near the Cedars. That of his companion has since been the object of a widespread search aided by skin-divers. The missing student is 18 year old Richard Granger of 81 Eardley Road in Aylmer. In spite of rough water on the Lake, Aylmer police are continuing their search on a daylight to dark basis. On Sunday morning Leon Granger, father of the missing youth had a narrow escape when the boat he was using in the search capsized and he was hauled to nearby Aylmer Island by the skindivers working with him.

Saturday afternoon, Dr. Viau came out to check his now-closed cottage at 44 Lake Street in Wychwood. He noticed the body of a man on the verandah of the next-door cottage, and after preliminary investigation called the Aylmer police. The body was that of 56 year old Roland Glandon, a well-known former resident of Aylmer who lived at the corner of Albert and Bancroft Streets until about eight years ago. He had been residing recently at 245 Notre Dame Street in Templeton. He is survived by his widow, two sons and two daughters. No decision on an inquest has yet been reached by the Quebec Provincial Police to whom the case was turned over by officials in Aylmer.

On Wednesday, Oct. 2 at 11 a.m. John Elliott Jones of North Clarendon, was united in the bands of holy matrimony to Mary Jane Hodgins, eldest daughter of George Hodgins, resident near No. 9 School House, Clarendon. The ceremony was performed by the Revd. W. Barnett at the home of the bride.

About ten car loads of potatoes were shipped last week.

Snow fell heavily on Thursday and Saturday and Sunday. It disappeared however as fast as it fell until Monday when a couple of inches fell.

The painters engaged at St. Paul's Church have completed the work. The walls of the body of the church were painted pale terracotta, bordered by bands of crimson, the uppermost of which was lettered in gold text, whilst the band at the base directly above the wainscotting was ornamented in bronze stinsel-work. The recesses above the windows were filled in with neat ornamental work. The chancel was done in bronze, having at the top of the side walls a wide band of deep blue ornamental in crimson and gold.

The Clarendon circuit, last year contributed to the Mission Fund the noble sum of $253.56.

Albert Palmer brought in a pound and a quarter lemon this week which his mother, Mrs. Isobel Palmer of Portage du Fort grew from a seed in her living room planter. The fruit was so large it had to have a wire support under it to prevent it from breaking down the little lemon tree! The lemonade was delicious.

The afternoon session opened by singing a verse of O Canada. Our guest speaker, Mr. Cameron from the Experimental Farm, Ottawa, was introduced by our president Mrs. Kelly. SHELL
Oil heats best... costs less...
HERE'S WHY...

1. Heating Oil is the SAFEST fuel ever developed. Oil will not burn except under the ideal conditions prepared by a properly engineered oil burner.

2. The air in an oil heated home or business establishment stays FRESH and PURE. No noxious fumes. Nothing harmful to plant life. No lurking gases.

3. Oil heat is CLEAN HEAT. No dust, dirt or grime. A perfect combination. . .CLEAN and EFFICIENT.

4. OIL HEAT COSTS LESS! Of all fuels in general use today, heating oil produces the most abundant heat for the least money. Insist upon fully modern, fully automatic OIL HEAT and SAVE!
