Now if you want for In-for-mation.

JUST READ THE FOLLOWING RE-COM-MEN-DA-TIONS.

Body.

It is a mistaken idea to conclude that a thick, sluggish Oil has the most lubricating body. Experience has taught that fine, close Oils of a smooth, slippery nature, are the most durable and best lubricants. These are *par excellence* the properties of Castorine.

Frictionless.

It will be easily discovered by rubbing a few drops of the CASTORINE between the fingers that there is less friction than with any other oil; a consequent saving of steam power is the natural result, besides overcoming the annoyance and loss of time from heated boxes.

Density.

By which is meant the superior adhesive quality of the oil globules, imparting great elasticity and durability of body to the Castorine Oils.

Freedom from Gum.

Journals, when oiled with Castorine, remain clean, smooth, and of a bright polished surface.

Not Affected by Heat.

The heat of summer or of an engine room has no effect on the Castorine Oils the body and adhesive properties remain the same in summer as in cold weather this being a quality possessed by no other Oil.

THE CASTORINE OIL

IS SUPERIOR TO NEATSFOOT OR OTHER OIL AS A LEATHER PRESERVATIVE, AND IS PERFECTLY FREE FROM ALL ACIDS.

KEPT BY ALL FIRST-CLASS DEALERS.
