MONTREAL, a city of Hochelaga co., Que., the commercial metropolis of Canada, and the largest city in the Dominion. It is situated on the south side of the Island of Montreal in lat. 45° 31′ N., and lon. 73° 34′ W., at the head of the St. Lawrence ocean navigation and the commencement of inland navigation. It is, of course, connected by rail with all points of importance to America.

The Island of Montreal is situated at the confluence of the Ottawa and St. Lawrence Rivers, is 32 miles long and 10 wide at the broadest part. With the exception of Mount Royal, 750 feet high, the island is level and fertile. The city is situated between the mountain and the St. Lawrence River, here about 2 miles wide, and is 986 miles from the Straits of Belle Isle and 334 miles from New York by rail. It is 274 miles by water from Port Arthur, at the head of Lake Superior, with which it is connected by the finest canal system in the world. It is divided into 31 wards, and has over 220 miles of streets and lanes. Some of the streets are narrow and ill-paved, but of recent years vast sums have been expended in enlargement and improvement, and now the principal streets will compare favorably with those of any other city on the continent. The principal streets have large well-built edifices, constructed chiefly of limestone quarried near the city. These buildings, combined with the effect of the lofty towers and spires, give the city a very imposing appearance when viewed from a distance. The chief business streets are St. James, St. Paul, Notre Dame, St. Lawrence, McGill, St. Catherine East and West, Craig and Ontario. There are about 1,400 streets.

The principal public buildings are the City Hall, Court House, Post Office, Custom House, Seminary of St. Sulpise, Convent of Notre Dame, General Hospital, Grey Nunnery, Montreal College, McGill University, St. Mary's College, Young Men's Christian Association, Deaf and Dumb Asylums (Protestant and Catholic), the Hotel Dieu, Female Home, Mount Royal Club, Sailors' Institute, St. George's Home, St. Andrew's Home, St. James Club, Art Gallery, Royal Victoria hospital and 5 public markets, including the Bonsecours, a magnificent pile with a lofty dome, fronting the river. There are also a Society of National History, a Mechanics Institute, a Canadian Institute, Board of Trade, Corn Exchange, etc. The city is well supplied with churches of the various denominations among which may be found many hendsome structures.

The Parish Church of Notre Dame is capable of containing from 10,000 to 12,000 persons. It is 255 feet long and 145 feet broad, with two towers, 220 feet in height. In the north-east tower is a fine chime of bells, and in the north-west is a bell weighing over 12 tons. Christ Church Cathedral is the most perfect specimen of Gothic architecture in America. It is built of Montreal limestone with Caen stone dressings, obtained from Normandy. The Church of the Gesu, a very imposing edifice, is 230 feet long and 102 feet wide, with a transept 152 feet long and will accommodate 4,500 persons. The walls and ceiling of the interior are beautifully frescoed. Another magnificent pile is the St. James Roman Catholic Cathedral. It is after the model of St. Peter's in Rome, and is one of the finest ecclesiastical edifices on the continent. Trinity, St. George, St. Andrews, St. Paul, St. James Methodist Church of St. James the Apostle, and the majority of the churches are all exceedingly handsome edifices and add much to the beauty of the city.

The largest banking houses in the Dominion have their head offices in Montreal, are mostly situated on Place d'Armes and St. James street, and consist of very handsome and costly structures.

The City is well supplied with banking facilities, no less than 19 banks having offices here, many of which have a number of branches, giving a total of 114 in all.

The harbor of Montreal, which is formed towards the St. Lawrence, is secure, and the quays are unsurpassed by those of any city in America; built of limestone and uniting with the locks and cut stone wharves of the Lachine Canal, they present, for several miles, a display of continuous masonry which has few parallels. No unsightly warehouses disfigure the river side. Improvements in the harbor are yearly being made to accommodate the large increase of shipping.

Montreal is the seat of the Grand Trunk Railway, the Grand Trunk Pacific Railway and the Canadian Pacific Railway. The chief works of the former are at Point St. Charles, in the south-western part of the city while the offices are situated on McGill street. The Victoria Bridge here spans the River St. Lawrence. The first stone of this great masterpiece of the Engineer Stephenson was laid July 20, 1854, and the first train crossed over in December 19, 1859. It is 9,184 lineal feet in length—24 spans of 242 feet each, and one, the centre, 60 feet above the river, of 330 feet. The bridge cost nearly $7,000,000. In 1897 and 1898 this was replaced by a magnificent cantilever structure witha roadway opened on it in 1899. Near Lachine, the C.P.R. bridge crosses the St. Lawrence.

The educational equipment of the city comprise McGill University, with faculties of medicines, arts, applied science and law, open to persons of all religious denominations; Lavel University with faculties of law, medicine and theology; Roman Catholic, Wesleyan, Presbyterian, Methodist and Anglican theological colleges, 1 Jesuit college, 1 high school, several classical and scientific academies, and a number of private and public schools.

Montreal returns 5 members to the House of Commons and 9 to the Provincial Legislature. It is the seat of the See of the Anglican Bishop of Montreal and of the See of the Roman Catholic Archbishop of Montreal. The climate in summer is hot, often reaching 90° in the shade; and the winters are sometimes severe, the temperature ranging very often from zero to 10° and even 30° below it. Pap. in 1871, 115,000; in 1881, 155,238; 1901, 267,730—composed chiefly of French Canadians, English, Irish and Scotch, and in 1901, 267,730; in 1909, 419,837 (estimated) or with its suburbs 476,334; in 1914 (estimated) 595,600, or with the suburbs 690,217.

The taxable property is valued at $612,789,512. The debt $77,301,399 at December 31, 1913.

Smillie John, engineer and mayor, Lafayette av.

MONTREAL EAST

The Town of Montreal-East, incorporated June 4th, 1910, was founded by Mr. Joseph Versailles, one of our young French Canadian masters of finance, and is situated between Montreal (Longue Pointe Ward) and Pointe-aux-Trembles.

The first Municipal Council was elected on the July 1st, 1910, Mr. Joseph Versailles being elected Mayor, and Messrs. Jean Versailles, broker, Joseph Marcotte, contractor, Napoleon Sarrasin, manufacturer, Wilfrid Marchand, printer, Cyrille Durocher, contractor, were the first Aldermen.

The present Municipal Council, which is the third since the date of incorporation, is composed of Mr. Joseph Versailles, financier, Mayor; J. Albert Berthiaume, broker; Wilfrid Marchand, printer; J. Tancrede Morin, lumber dealer; Alfred Richard, insurance inspector; and J. Olivier Tetrault, manager, as Aldermen.

The other officials of the Town are; J. Emery Coderre, notary, Secretary-Treasurer; Louis Hurtubise and Gabriel Hurtubise, Town Engineers; Remi Guertin, Accountant; Emilien Gareau, Chief of Police.

Montreal East, which, at the date of its incorporation had only fifty inhabitants, has now a population of eleven hundred.

The territory of the Town was doubled this year by the annexation of all the farms lying east of the Longue Pointe Ward, so that the present territory of Montreal East extends now in width from said Longue Pointe Ward two miles and a half east towards Pointe-aux-Trembles, and in length crosses the Island of Montreal up to the bank of Back River (Riviere des Prairies).

A By-Law regulates the construction in the territory of the Town, which is divided into a residential and an industrial part.

Public Services such as waterworks, electric light, telephone, cars and tramways, run through the Town and give one of the best accommodations which can be secured in the Montreal suburbs.

The Town has many streets macadamised and bordered with cement sidewalks.

Over ten thousand trees were planted four years ago which are now full growing.

The Montreal Tramways are now constructing a double track on Notre Dame Street and the Town has just given the contract for the paving of said street.

A Catholic Church has been built.

The Club Champetre Canadien has erected in the Town one of the largest and finest country club houses which can be seen in Canada.

THE CHIEF INDUSTRIES ARE:

Canada Cement Co., Limited (Lakefield Plant, the largest of the Company).

Raymond Cement Co., Limited, sewer pipes, cement bricks, and all kinds of ornamental work made with cement.

Reid Brothers Aviation School and Park.

Star Iron Corporation.

GROCERIES, STORES AND POST-OFFICE

are now within the locality, as well as

WOOD AND COAL YARDS.

The Durocher Construction Co., Limited, is now in operation and manufactures all kinds of wood, iron and stone work.

There is plenty of land available within the Town for building factories or residential sites; with a fine water power derived directly from the St Lawrence River.

The Town is lighted throughout by electricity; and a new police and fire station is actually under construction, with plenty of other facilities to any intending settlers.

For information apply to

The MAYOR, MR. JOSEPH VERSAILLES,
90 ST. JAMES STREET, MONTREAL,
or the SECRETARY-TREASURER, TOWN HALL,
MONTREAL EAST

Montreal South.—Continued.

Thomas Frank B., optician, Lasalle av.
White Wm. M., printer and school commissioner, 25 St. Helene av.

MONTREAL WEST (Incorporated as a town, 1897). Formerly Montreal Junction. This beautiful suburb is so easy of access that it is in great favor for residential building. Trains connect with the City at almost all hours both by the Canadian Pacific and Grand Trunk Rys., while the Upper Lachine and Sherbrooke Boulevard roads afford delightful drives. The Park & Island Electric Ry. cuts through the lower part of the Town affording a 20 minutes' service with the city. On the Upper level, the Montreal P. & I. Ry. enters the Town by the Sherbrooke Boulevard with a 5 minute service It has three churches (Church of England, Presbyterian and Methodist), a Public Model School and a Post Office. Postal delivery twice a day. There are drains, water, gas electric light and Bell Telephone. Population about 1,400.
