THE ALASKAN BOUNDARY.

AN INTERESTING LIGHT THROWN ON THE DISPUTE.

GREAT BRITAIN ACTING AT THE INSTANCE OF CANADA.

The Disputed Territory Rich in Minerals, Harbor Accommodations, and Scenic Beauties.

Baltimore, Sept. 9.—The Rev. Father Barnum, who has recently returned from the interior of Alaska, where he spent four years in missionary work among the natives, gives the Associated Press an interesting interview regarding the Alaskan boundary dispute between the United States and Great Britain. "The claim made by the British Government at the instance of Canadians," said he, "embraces a valuable strip of land, a portion of which is the key to a vast extent of the interior of Alaska, possessing rich mineral resources. Another portion would give them control of some of the finest natural harbors, and in a third place they would gain one of the most magnificent scenic regions in the world, Glacier Bay, which is now beginning to be visited by tourists from all over the world during the winter months. Although the immense value of this land cannot be accurately determined, a knowledge of its geographical position on the coast shows that great commercial advantages should accrue in the future from its possession by this country. It is a long, narrow irregular district of Alaska territory, the nearest to this country, most temperate in climate and the only part of the territory that is settled by any considerable number of white men."

"One important effect of Great Britain's claims, if they should be allowed, would be that Great Britain would have control of the route which is the gold fields in the northeast corner of Alaska. These fields pan out about \$100,000 each year, but it has been stated that there are rich prospects there yet unworked, as well as other mineral resources, which when they become well known will cause considerable emigration thence."

"The best route into the interior is from the head of the Lynn Canal by an overland route of 27 miles to one of the lakes at the head of the Yukon River in British territory and thence by boat down the Yukon to the gold territory in Alaska. It is the only route in which abrupt mountains do not obstruct the way, and should a railroad ever be built into the interior it is probably the only route which it could follow."

Lynn Canal has several good natural harbors within the strip claimed by Great Britain, and it is safe to say in which Canadians would soon control the whole trade into the interior if Great Britain gains her point."

BOWEN ARRESTED.

Wanted at Ottawa, Hull and Owen Sound.

(Special to the Herald.)
Ottawa, Sept. 9.—Albert Bowen, who was arrested some time ago and placed in Hull jail for raising Dominion notes, has turned up at Calgary, Northwest Territory. Bowen was out on bail and was to have put in an appearance here last June at the time of the sitting of the court to have it renewed. He failed to do so, a bench warrant was then issued for him. He was arrested by the Dominion Police at Calgary under the name of Blackburn, and the provincial authorities of Quebec are communicating with the Department of Justice and the Mounted Police with a view of having Bowen, alias Blackburn, returned to Hull. Bowen is also wanted at Owen Sound, being suspected of having been connected with holding up mailmen and robbing them in that vicinity. There were also similar robberies in the vicinity of Ottawa, which Bowen is credited with having some knowledge of. He is about twenty years of age.

BULL FIGHTS IN FRANCE.

The Government Have Resolved to Permit Them.

London, Sept. 9.—The Paris correspondent of the Times says that the Ministry of the Interior, intimidated by the violence of the population of Southern France, has made a compromise on the question of allowing bull fights, and has issued orders to permit the bull fights in the Department of the Gironde, but on condition that the bulls must not be killed in the Spanish manner.

EXPIRED IN A BROTHEL.

Death of a Montreal Student During a Debauch in Quebec.

Quebec, Sept. 9.—A student who arrived from Montreal a short time ago died suddenly in a house of ill repute in this city Monday last during a debauch. His death is said to have been caused by natural causes. However, his body was carried secretly at night to a relative's house to save the parents' disgrace.

I.O.G.T. District Lodge No. 1.

The annual session of District Lodge No. 1, I. O. G. T., was held on Saturday in J. B. Gough lodge-room, St. Catherine Street. There was a fair attendance of representatives from the various lodges of the district and visitors, and the session altogether was one of the best held in a long time. The reports of the officers showed the order to be in a fairly prosperous condition, and the organization of a new lodge was reported, and others are expected in the near future. The evening session was largely attended and was given up to the consideration of committee reports and the annual election of officers. The elections, some of which were keenly contested, resulted as follows:—

D. C. Bro. D. H. Howard, D. V. T. Bro. M. Nelson, D. S. J. T. Bro. Rev. F. A. Warden, D. Dep. Bro. H. Holden, D. Adams, D. S. Jones, D. Sent. Bro. F. Adams, P. D. C. T. Bro. S. J. McArthur, D. Com. Bro. A. Norwood, D. Sec. Bro. John Richards, D. E. S. Bro. J. P. Adams, D. Chap. Sis. Mason, D. Mar. Bro. Melville, D. Guard Sis. Maguire, D. Asst. Sec. Sis. Richards. Delegates to Grand Lodge: Bros. Rev. F. A. Warden, H. Holden and John Richards.

A special meeting of the District Lodge is to be held on the first Friday in October in the same place to receive the report of the Grand Lodge delegates and for other business.

NO ENQUETE.

Furriers and Tailors Charged With Arson to be Investigated Directly.

William Thomas, furrier, John Belser, furrier, Lewis Lowenthal, tailor, Isaac Davies, furrier, L. N. Dagenale, tailor, Adolphe Sasseville, furrier, E. Richardson, furrier, A. Payeur, tailor, were brought before Judge Adams yesterday on the charge of arson, the particulars of which have already been given in the Herald. None of them were allowed out on bail. They will all be indicted before the Grand Jury Wednesday and no preliminary enquiry will be held. Mr. J. N. Greenhalgh has been engaged to defend Thomas and Lowenthal, Mr. F. S. McLennan defends Davies, and Mr. L. T. Marchal appears for Belser and Payeur.

Crown Prosecutor Quinn has stated that he has quite enough evidence to indict the prisoners and that the charges embrace a very large territory. Mr. Quinn has just returned from New York where he has been looking up the records of Belser and his associates. Some of the prisoners are said to have been concerned in the incendiarism in tenement houses in New York two years ago. Mr. Quinn estimates the total amount of insurance paid out in the fires at over a million dollars.

ST. LAMBERT HORTICULTURAL SOCIETY.

Everyone Surprised at the Number and Variety of Plants.

The exhibition of the St. Lambert Horticultural Society on Friday last proved a great surprise to everyone as the number and variety of plants, some of them rare ones, was so much in excess of what was expected. The judges, Messrs. John Doyle and John Trussell, expressed themselves as very delighted with the class of exhibits and said that they did not expect to find such valuable results as were shown. A large number of plants were given a most thorough examination of the various competitors and their decisions appeared very satisfactory to all. They made special mention of the following: *Delphinium*, *Chrysanthemum*, *Geranium*, *Campanula*, *Hydrangea*, *Salvia*, and many others. The exhibits of fruits and vegetables were very good; a watermelon weighing 21 lbs. 12 oz., grown by Capt. D. O. Davis, excited much interest.

Old Chinese Carvings.
In the Loos Mountains, of Southern Mongolia, is found a comparatively soft stone, variegated in color, called jade-stone. It is possible to carve it into any shape desired, and Mongolian artists have taken advantage of this fact to carve the birds, fruits and flowers of the district, and numerous animals that never had any existence on earth or in the sky, only in the grotesque imaginations of artists or religious fanatics.

A large collection of these carvings has been imported by Mr. MacLean, of 2257 St. Catherine Street, and placed in a richly adorned window, where he has a pile of the books of knowledge, handing down pearls of wisdom to the male guardian angel, while above them, and behind the tall bamboo tree, are the clouds, rosy as a summer sunset. The bamboo tree seems to be as strong and vigorous as ever, though it was 3,000 years old when the virgin goddess first climbed to her perch, and she has been sitting there for 1,000 years since.

Mr. MacLean asked Teen Yee, the Chinaman, if Niko-Tua-Ying was sitting there yet. The yellow man answered and said "Hi loh, yin see Chung hi see." This was no relief to the reporter, who suffers from the idea she is there yet. This interesting piece of stone work can be seen, among many others, at Mr. MacLean's store, in the back portion of the new book store, No. 2257 St. Catherine Street.

MOFFAT STOVE CO.

The Moffat Stove Company, of Weston, Ont., whose exhibits at the Sherbrooke Fair was so much admired, received the highest awards for stoves and ranges. The Moffat "Pearl" stoves are now to be found everywhere throughout Canada, and the demand for them is increasing each year. This demand is due not only to the superior cooking qualities but to their handsome appearance, and the reasonable price at which they are sold. A catalogue giving sizes and prices of these stoves and ranges will be mailed free on application to Weston, Ont.

AN ALARMING INCREASE.

The Prevalence of Female Complaints Found to Result Largely From the Kidneys.

Saginaw, Mich., Sept. 9.—Doctors are beginning to turn their attention more exclusively to the causes of the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reany, of Ashland, Wis., who was cured of this form of trouble by the use of a kidney medicine known as Dodd's Kidney Pills, which originated in Canada, but has now become widely known and used throughout the Western States. This and other similar cases go to show that these troubles are largely due to the kidneys, and that the above mentioned remedy is likely to have a great effect in lessening the number of victims to this form of complaint.

Walter Baker & Co. Limited.

The Largest Manufacturers of PURE, HIGH GRADE COCOAS AND CHOCOLATES

On this Continent have received HIGHEST AWARDS from the great

THE MONTREAL HERALD CO.

THE CANADIAN PORTS FOR CANADIANS.

The lament of Mr. Pugsley, as given utterance to by way of interview in another column, is that of thousands upon thousands of Canadians who are in full sympathy with him. That our subsidized steamships should continue to pass by our own ports to give our exporting and importing business to the ports of a foreign country does seem inconsistent with a high sense of national patriotism, no matter how strongly we may deny the soft impeachment. One would think that the great question of inwards and outwards cargo could be met as well at St. John as at Portland, that is, with a little effort and determination. Therefore Halifax and St. John should afford traffic facilities and cargo as fully as Halifax and Portland. It is a pleasure to contemplate this aspect of the case, but it seems very hard to realize it.

This is a broadly public question, however, and political issues intervene unavoidably. It has been the policy of the Government of this country for fifteen years past to handicap the country's commerce under the fallacious impression that they were fostering home industries and a home market. There was nothing in all this calculated to invite shipping to our ports and to build them up, but expressly the contrary. The traffic to and from Canadian ports had therefore not kept pace with the facilities offered for its conveyance, so that the ports and shipping business fell into decline. The recourse to American ports is declared to be a dire necessity.

The remedy lies in a change of our fiscal policy. But we fear that Mr. Pugsley is one of those who do not agree with us upon this point, for he is well known to be the candidate in the interest of the present Government for King's County. He calls upon the Government to adopt his views and come to the relief of the Canadian ports; but the Government will be as deaf this year as they have been for the last twenty-eight, and we should be very much afraid to say that for that persistent deafness Mr. Pugsley would vote them out of office. He would, perhaps, vote them out of office, if to vote them out were not to vote the Grits in. At any rate, we know a large number of patriotic gentlemen who avowedly take that ground, and it is not to be expected that we can do much to comfort them.

We are now on the eve of a general election. There are few if any questions at this time that can be severed from their political relationship. The political issues of the next five years are to be settled in the outcome of the now almost impending struggle. The grievance of which Mr. Pugsley complains, which he prays the Government to remedy, but which they will not remedy, let him pray or praise as he may, will find the earliest hope of relief in the reversal of the present commercial policy. That is to be looked for only in the event of the success of the Liberal party. But Mr. Pugsley will not do anything to promote, but all he can to defeat, the Liberal success. We have to say to the honorable gentleman, therefore, that in the use of means to the great end he has honestly in view, he is very unfortunate.

THOSE LABRADOR SEIZURES.

It was through the exclusive publication in the Herald of a cablegram from its special correspondent at St. John's, Newfoundland, on Friday last, that not only the Canadian public but the Ministry of Marine and Fisheries at Ottawa first learned of the high-handed proceedings of A. L. Howard, of the Labrador coast, in seizing Canadian and Newfoundland vessels by an authority which is not yet clearly defined. That the Marine Department had been in ignorance of Howard's conduct until the despatch appeared in our columns evidences a looseness in the services under the supervision of that department, which, it may be hoped, will no longer be permitted to continue to exist.

Even if Howard be, as has been stated, a sort of sub-collector of customs on that part of the coast on which he has received fishing privileges from the Ottawa Government, his conduct is open to grave censure on more grounds than one. The feeling of irritation to which these

harassing proceedings have naturally given rise, both in Newfoundland and Nova Scotia, is hurtful to the sentiment of solidarity which should exist between all portions of the empire, and which it should be the care of the Federal Government to foster. It is intolerable that a man occupying either an official or a semi-official position should be allowed with impunity to do anything calculated to impair the strength of that sentiment. From the point of view of the promotion of mutual trade interests such actions as those of Howard are also to be deeply deplored.

The Government has done well to order the immediate release of the vessels seized by Howard. But more remains to be done. The marine service should be so improved as to render impossible the recurrence of the delay in the transmission of important intelligence such as that to which we have drawn attention; and Howard should be deprived of the little authority which he has shown himself so anxious to abuse.

LIGHT WANTED.

The unanimous vote of the Council of Westmount to authorize its solicitor to apply to the Quebec Legislature for an act to allow the municipality to appropriate the plant of the Montreal Gas Company, existing within the limits of the town, would seem to indicate the determination of the Council to go into the gas business. We say "would seem to indicate," for apart from the formal resolution and the quite as formal passing of it by the Council no indication whatever was given as to the views of the Council upon the question. The naked resolution unsupported by preamble or explanation setting forth the necessities or advantages of the case was all that was vouchsafed. There was a most evident conspiracy of silence. The eloquent chairman of the Light Committee lost an admirable opportunity to earn the thanks of his constituents by enlightening them upon this rather obscure subject. The chairman of Roads appeared to consider himself excused from making or asking any explanations because he occupied the chair in the absence of the Mayor, and the Napoleonic chairman of Finance, to whom the ratemakers naturally look for financial light and leading, was as dumb as the proverbial oyster. The situation was decidedly suggestive of that point in the proceedings of the Montreal Council where the clique cry "vote! vote!" It looked very much as though the aldermen were acting either without information upon the subject or with withholding information which they were withholding. Either horn of this dilemma is discreditable to the model municipality of the Island. The Councilors should endeavor to realize that they are but the servants of those who elected them and that their ratemakers have a right to be put in possession of all the information which the Council has gained by the expenditure of municipal money. It has been stated that the Light Committee of the town is in possession of estimates by a gas expert as to the cost of installing and operating a municipal gas works, and it is more than probable that the information contained in these estimates is the basis upon which the act for expropriation is asked. If this is correct, the report and estimates should be published so that they may receive the public criticism to which they are acted upon by the Council or municipality. If they are fallacious it is decidedly in the interest of the municipality that their shortcomings should be exposed; if they are sound it will be gratifying to have them confirmed, and their public approval will strengthen the hands of the Councilors. In their anxiety to furnish their constituents with the best possible illumination at the lowest possible cost, the Westmount Councilors should not overlook the importance of conducting the business with the light turned full on. Let the data be given to the public fully and freely. No other course is compatible with honest administration.

The English have a peculiar faculty of adding to their language by making verbs and common nouns out of proper nouns when the occasion seems striking. "Boycott" is a familiar example of this, the first victim of the social ostracism so generally used in Ireland afterward, being a Captain Boycott. This new method of warfare needed a name, and "to boycott" became a familiar word in England, and was soon adopted by the very inventors of the system. And now, according to an English sporting authority, the action of the Cornal crew in England last year has led to the coining of the verb "to cornell." A man "cornells" when he commits an ungentlemanlike act, and defends it under the plea that the rules, of whatever sport it may be, protect him in his action. Needless to say, cornelling is not a popular method of proceeding.

NOTE AND COMMENT.

The Week congratulates McGill University on the appointment of Principal Peterson, who, it says, is a most capable Scotchman, who has devoted himself to Greek and the Humanities. The Week hopes that the Arts Faculty may under the new principal win as great renown as it has been for years past in the matter of weather predictions.

Another murder in Ontario. This time it is a jealous squaw who kills another while under the influence of liquor. Canada's good name as a law-abiding country seems to be rapidly disappearing. In this latest case it is quite evident that the liquor dealer, who provided the Indians with liquor, breaking the law for a trifling sum, should be held partly responsible for the result.

Dr. E. Stone Wiggins, our world famous weather prophet, has published a letter in which he reminds the anxious public of a prediction made thirteen years ago by him of a great storm to take place between the 18th and 21st of this month. We might remind the seer that thirteen is an unlucky number. It is to be hoped that the general superstition regarding thirteen holds good even in the matter of weather predictions.

Dr. Forbes Winslow, of London, who is at present in New York, says that the increase in lunacy in Great Britain in ten years has been more than 1,000 persons in every 10,000 of the gross population. When the grave digger was asked why Hamlet was sent to England he replied: "Because he was mad; he shall recover his wits there, or if he do not 'tis no great matter. 'Twill not be seen."

In him there; there the men are as mad as he." If Dr. Winslow's statistics are correct the people of England would seem to be approaching the condition described by the grave digger. Dr. Winslow is also responsible for the prevalent impression that Jack the Ripper is confined in an English mad house.

The State of Illinois recently adopted a statute which provided that all public schools should display an American flag. Some public schools, many Roman Catholic parochial schools and even by all the Lutheran Church schools are ignoring the law, which is now taking effect on the opening of the school year. Catholics are not as outspoken as the Lutherans in their opposition. The president of a private Catholic college in Chicago says the law will be scrupulously obeyed; it would be obeyed should they require teachers in the private schools to dress up in the stars and stripes after the manner of Uncle Sam and Miss Columbia, and he thought it would be as sensible to enact such a law as to put on the statute books the one now in controversy.

How absurd all this self-glorification by the American press over the excellence of their navy and its utility in time of war must appear to naval experts when it is found necessary to take the new battleship Indiana to Halifax in order that she may be docked. The United States navy department would do well to postpone the building of a few warships and devote its attention for a while to the building of docks for those already constructed. A navy which has to depend in this important matter upon a foreign country for accommodation would not be very doubtful value in time of war. The dock at Halifax, we believe, owned by a private company, but it is subsidized by the Imperial Government, whose vessels have the first right to it. It is extremely unlikely that the service of the dock would be available for United States vessels in the event of that country being embroiled with a foreign power.

That Captain Howard, who has been making matters so unpleasant for Newfoundland fishermen by seizing their schooners, is no other than the famous "Howard," the "Rebellion" fame. He received his commission from the Controller of Customs to act as a sub-controller along some thirty miles of the north shore. In addition to this, Hon. John Costigan gave Howard a five year lease of this thirty mile stretch for lobster fishing purposes. Despite the favor with which the Dominion Cabinet seems to have regarded the captain at that time, they have found it advisable now to repudiate the action of their official. The Ottawa Citizen states that the sub-controller has been ordered to release his seizures, and continues thus:

"So far, of course, only one side of the story has been made known. Capt. Howard's report has yet to be received, and until it is forthcoming it is impossible to judge to what extent his action may have been justified, but the opinion in official circles here is that Capt. Howard has taken advantage of a mere technicality to create all this disturbance he has committed a serious blunder."

La Revue Nationale, for September has just been issued. This number is an excellent one, containing many carefully selected papers by clever writers. Mr. L. O. David appears with an article on the patriots of the North, Hon. David Maréchal and Hon. Wilfrid Provost.

That versatile Canadian writer, Faucher de Saint Maurice, has written for this number a very pleasing sketch entitled "Chants et Fautes du Matelot," in which, amongst others, he gives some of the ballads of the Gulf of St. Lawrence. Coming from the pen of Faucher de Saint Maurice it needs no further recommendation.

The number, moreover, contains a new song, "Les Roses de Saadi." The music has been written by Mr. Ernest Lavigne, the leader of the Sohier Park orchestra; the words are by Madame Desbordes Valmore.

There is also a sketch of a Montreal street on Sunday morning by J. Germain, which is interesting and well written. Faucher has the direction of the pages devoted to fashion. Mr. J. D. Chartrand, the editor, has written a short story, entitled "An Accident."

Illustrations also beautify the pages and make the magazine very interesting. The number is an excellent one, and compares favorably with any American magazine.

Any uneasiness at the stomach or indigestion in any form is absolutely cured by Adams' Tonic Fruit.

CORRESPONDENCE.

A Case of Hardship.

To the editor of the Herald:
Sir,—A case which occurred yesterday serves to show how terribly costs accumulate in small suits, owing to the want of a competent court of jurisdiction lower than that of the Circuit Court. A family on Berri Street, some time ago, was necessary to mention, suffice that it was that of a respectable mechanic, suffering from the hard times—found itself in the meshes of the law for a balance of a coal bill amounting to three dollars. The wife of the mechanic was ill in bed. Judgment having been obtained some months ago in principle of less than \$17.50, making in all \$20.80 for the paltry balance of 33, which non-employment and hardship alone had kept the defendant from paying when the coal was delivered. Happily the landlord had been previously informed of his tenant's trouble was on hand and paid the amount, thus saving the man from actual "sell out." The whole matter reflects on the judicial system, which provides no simpler, more summary and less expensive form for the collection of such petty debts than the court named; similar cases are occurring every day. Let our law-makers in Parliament look into it.

Montreal, Sept. 7, 1895.

DEMERS ON TRIAL.

CROWDS TRYING TO GET INTO THE COURT ROOM.

The Jury Sworn In After Some Trouble.—Address of the Crown Prosecutor.

A good deal of excitement prevailed in the vicinity of the Court of Queen's Bench yesterday, as the Demers case was the first on the list. Those who were to seek the court room from motives of curiosity were doomed to disappointment, as crowds were turned away. The outside halls and stairways were crowded with would-be spectators trying to effect an entrance, or in the event of failing to do so, to obtain a view of Demers as he was led into the court room. Many were the ruses resorted to and High Constable Bissonnette was kept busy unearthing the unscrupulous sight-seers. Questioned regarding his success Mr. Bissonnette remarked: "I have just put out a saloonkeeper who was attempting to pass for a lawyer."

At 10:40 the court opened and Napoleon Demers took the prisoner's dock. Mr. Desmarais informed the court that the language of the defence was French. His Honor Judge Wurtelle ordered that the jury be composed of six French and six English-speaking men.

Demers looks bright and his appearance is that of one who has full confidence in the favorable result of his case. Some difficulty was encountered in empanelling a jury; several were already prejudiced and had set opinions on the case. Thence the jury was called. One had heart disease, and was asked by the judge to produce a doctor's certificate to-morrow morning. Finally the requisite number was found and duly sworn in. The following is the list of jurors: Simon M. Giroux, Napoleon Desmarais, P. Eugene Normandeau, Magloire Bousquet, Guillaume Deslauriers, Denis Lusier, William J. LeDuc, John P. Patrick, O'Shaughnessy, William Yardley, Frank Wilkes, Charles Smythe.

The judge ordered Lieutenant Hilton to attend to the defence, and on becoming the decorum of the Court of Queen's Bench, and ordered the officer to bring before him any person who violated in any way the order of the court. The crown witnesses were first called. They numbered thirty-nine. After they had been called they were ordered into a waiting-room in charge of an officer, and will be summoned in turn. Mr. Desmarais, counsel for the defence, stated that the witnesses for the defence had not been assigned yet; he would have a list prepared and would present it to the court to-morrow morning.

Joseph Lemarche and A. St. Martin were sworn in as court stenographers in the case. Court Clerk Sicotte gave an official order that if any witnesses of the defence were present they should retire. J. L. Archambault, Q.C., explained the case to the jury. In a case such as the present one there were two ways open to them. To rid society forever of the presence of the prisoner at the bar, or acquit him. All persons were to be banished from their hearts in dealing with the case. The learned counsel for the crown placed the situation plainly before the jury and spoke of the attending incidents connected with the case. The different plans representing the house in which the tragedy occurred and the outbuildings were shown to the jury.

The court rose at one o'clock for lunch. The Court of Queen's Bench continued its sitting at 3:45 this afternoon. Mr. Desmarais, counsel for the defence, was seen previous to the session. He was very much surprised, he said, in the jury which had been empanelled. Up to the last moment he had been given to understand that the jury was to be entirely composed of Frenchmen. As the matter now stands, he will be assisted by Mr. Peers Davidson in the defence. On some mention being made to Mr. Desmarais of surprises on the part of the prosecution, he replied that he was prepared not to be surprised, and was ready with his defence on all points connected with the case.

Mr. J. F. Quinn, Q.C., addressed the jury in English, the French address having been delivered in the morning by J. L. Archambault, Q.C. Mr. Quinn said that it was the first time in three years that a jury was called together in Montreal to return a verdict in a case of murder. The jury before him, he had no doubt, were intelligent men, and fully recognized the weighty burden of responsibility which rested upon men placed in the position they were in. Circumstantial evidence was not to be overlooked, but to be weighed with great care. The Crown would not show the jury that Napoleon Demers murdered his wife, but they will show that there is such a combination of circumstances as to show beyond the shadow of a doubt, who is responsible for the crime.

Mr. Quinn's address occupied forty-five minutes, and at its conclusion the first witness was called in the person of J. A. U. Beaudry, C.E. Mr. Beaudry prepared the plans of the Demers' house and surrounding buildings, and explained the technicalities of his plans to the jury. The jury, however, were apparently unable to form a correct idea of the situation from the plans, and on the joint request of Crown Counsel Archambault, and O. Desmarais, counsel for the defence, the court was adjourned until this morning at 10 o'clock, to allow the jury to visit the actual scene of the tragedy, Demers' house on Notre Dame Street.

CITY HEAVILY FINED.

Many Similar Actions for Damages to Follow.

Judge Bourgeois rendered judgment yesterday in the case of George H. Matthews vs. the city of Montreal. This action was to recover from the city damages, which had been caused to Mr. Matthews' property by the widening of Inspector Street. The case is analogous to those which have been instituted against the city by proprietors of Notre Dame Street East. These latter have suffered for years by the obstructions and delay occasioned by the expropriation, and they awaited with interest the judgment to be rendered in the case of Mr. Matthews. They may now feel confident of success, because Judge Bourgeois condemned the city to pay Mr. Matthews \$2,545 damages. The other cases of a like nature, as well as new ones to be instituted, will be pushed forward, and the city will have heavy sums to pay, as well as large fees to lawyers, and coming at such a time it will be difficult to meet these payments, because the reserve fund is exhausted, and such amounts are to be paid out of that fund.

Cells Instead of Hospital.

Mrs. J. C. Thompson has instituted an action against the city of Montreal for \$3,000 damages. Her husband, who was a watchman, fell down stairs at 735 St. Paul Street during the month of July last. He was severely injured, and the police carried him to the Chabouzeau Square Police Station. After he had passed the night in the cells it was discovered that he was in a state of exhaustion. He was immediately taken to the hospital, where he died soon after his arrival. Mrs. Thompson alleges that the action of the police shows gross neglect, and that her husband's life could have been saved had more care been taken of him. Hence her action.

Patronize Citizens' Gas Control Co.

LUNATIC AT LARGE.

Montreal West Troubled With an Unwelcome Visitor.

Montreal West has for the past week been frightened to death—so to speak. A wild man has been suddenly appearing in summer kitchens, barns, conservatories, etc., until the women openly declared that rather than stay alone all day they would come to town with their husbands. In one case a lawyer's wife refused positively to be left without male protection. On Friday the man appeared at her house, and after demanding and getting all the good things to eat that the house afforded made straight for the woods, uttering piercing screams as he ran.

On Saturday night he ventured near Lechin, and the residents turned out for a capture.

Constable Roberts soon ran down his man and took him to the lock-up, where he gave every indication of being an escaped lunatic from one of the asylums. During the night he managed to escape from his cell and in a dexterous manner climbed to the roof of a neighboring house not however before he planted several heavy blows on the constable's head and face. Roberts followed him and caught him on the roof just as he was about to jump. A desperate struggle followed, and for some little time was the lunatic secured and locked up. An effort is now being made to identify him.

THE POPE'S BLESSING

Received by a Methodist Minister From Here, St. Louis.

Chicago, Sept. 9.—There is great excitement in Hyde Park Methodist church circles over the report that the Rev. Herbert G. Leonard, pastor of the leading church in that fashionable suburb, had yesterday received the Papal blessing from Mr. Stoll. It is said that the Ablegate blessed the Rev. Leonard in the name of the Pope at a function at the convent of the Sacred Heart, to which the Methodist minister had been invited. Rev. Leonard later admitted that it was true. He said that he had received the blessing and that he was proud of it.

THE REVOLT IN CUBA.

A Band of Insurgents Said to Have Been Bitten.

Madrid, Sept. 9.—A third army corps of 30,000 is to be organized ready to sail for Cuba in November in case of necessity. The imperialist's Havana despatch says that troops under Col. Oliviera defeated a strong band of insurgents at Silla Grande after a hand-to-hand fight, in which fifteen insurgents were killed by machete wounds.

RECIPES.

Hoe Cake.—Take one pint of cornmeal, place it in a bowl and add to it 1-2 teaspoonful of salt; pour over it sufficient boiling water to just moisten the meal, and let stand ten minutes; then add sufficient water to make a batter that will drip from the spoon; bake the same as griddle cakes. When done, place a bit of butter on each cake and serve hot.

Macaroni Croquettes.—Break the macaroni in pieces about two inches long; place it in a kettle nearly full of boiling water and boil rapidly twenty-five minutes. When done put it in a colander to drain, then into cold water for fifteen minutes; drain again, and then cut it in pieces a half inch long; put half a pint of milk on to boil, rub a tablespoonful of butter and two of flour together until smooth; stir into the milk when boiling, and stir continually until it thickens; then add the cheese and macaroni, salt, pepper, and the yolks of three eggs; cook one minute longer; then turn out on a plate to cool. When cold, pour into cone-shaped croquettes; roll first in egg and then in breadcrumbs, and fry in boiling fat. Serve with cream sauce.

Mock Mince Pie.—Roll two Boston crackers and mix them with one cup of finely chopped raisins, 1-2 cup of washed currants, 1-2 cup of chopped citron; add 1-4 teaspoonful of salt, one beaten egg, 2-3 of a cupful of molasses, 1-2 cup of cider, one tablespoonful of vinegar, 1-2 cup of sugar, juice and rind of one lemon and splash of water, cover the peaches left by the stone with sugar, and bake in a quick oven thirty minutes. Serve hot, with sugar and cream. Apples may be treated the same way instead of peaches.

Coddled Apples.—Pare tart apples of uniform size, remove the core without breaking the apples, stand them in the bottom of a porcelain-lined kettle, strew thickly with sugar, cover the bottom of the kettle with boiling water, place on the lid, and allow the apples to steam on the back part of the stove until tender; dish carefully without breaking; pour the syrup over them, and stand away to cool.

Defy the Nipping Winds

OF CHILLY FALL DAYS BY HAVING YOUR COATS AND WRAPS LINED WITH

Fibre * Chamois.

It will make them absolutely impenetrable to the wind, and yet you will have no burden of weight to carry around. Its porous nature, combined with its very light weight, makes it the most healthful lining to be had. No other unites a stylish stiffness with great warmth. The medium weight, No. 2, is best suited for coats of cloth. Be sure of getting the real Fibre Chamois by sliding the name on every yard.
