

ESTABLISHED 1764.

QUEBEC, FRIDAY, JANUARY 22, 1909

ONE CENT.

## SEVENTY KILLED IN THE TUNNEL HORROR

### On Lake Michigan—All the Bodies Not Yet Recovered—Fire Boats Unprepared for Work.

Chicago, Jan. 21.—That the list of 50 known dead will probably be increased to 70 or even more, was the chief fact developed to-day in the official investigation of the burning of the temporary wooden crib in the lake one and one half miles off the shore of South Chicago on Wednesday. It was discovered that most of the workmen died at the mouth of the shaft and that surrounded by fire and with a wide stretch of icy water between them and the shore they sought but failed to reach safety by going down into the submarine tunnel. The shaft was searched to a depth of 105 feet to-day but no more bodies were found. It is believed, however, that bodies will be found further on and also in the lake. The officials of the construction company which built the crib, in explaining why the structure was made of wood instead of steel, said all temporary structures of the kind were of wood. Although a boat plied between the crib and the shore no regular fire boat was prepared for an emergency, it was stated.

### RENFREW WON

(Special to Chronicle.)

Ottawa, Jan. 21.—The Renfrew hockey team took another step in its march towards the Federal League championship at the local arena to-night, when the Senators were defeated by a score of 9 goals to 2.

### WOMEN WANT TO VOTE

(Special to Chronicle.)

St. John, N.B., Jan. 21.—A delegation of women asked that women be given the franchise in provincial affairs under the restrictions governing civic elections, that is that widows and spinners having property qualifications should have the right to vote. Premier Hazen promised consideration.

### MOTOR BOAT RACE

(Special to Chronicle.)

Brookville, Ont., Jan. 21.—The first motor boat to be completed for the next gold cup challenge races on the St. Lawrence River, near Alexandria, is owned by W. D. Hayden. The boat is thirty-nine feet long, five feet beam and is fitted with a 75 horse power engine. The craft is expected to make the best of them hustle for a place.

### RIOTING IN THE TRANSVAAL

Johannesburg, Transvaal, Jan. 21.—There was an outbreak of fierce rioting at the village deep mine to-day in which six Chinamen lost their lives and a score were so seriously injured that they had to be sent to hospital. The Chinese laborers at the mine have been in an ugly temper for some time past. This morning 800 men refused to go to work and started wrecking the compound. The police were powerless to check the disorder, and twice were driven back by the Chinamen. Eventually they made use of their arms and six Chinamen were killed at the first volley. This had the effect of awing the rioters, and order was restored.

### LIKELY TO COME TO NAUGHT

London, Jan. 21.—Unless the various delegates settle their difficulties, there is a strong probability of the labors of the international naval conference, which has been in session here since last month, will come to naught. Some of the delegates place the chief blame for the present situation on the shoulders of the American representatives. They aver that as soon as the conference took up questions upon which there were serious differences of opinion, the American delegates adopted an uncompromising attitude. Great Britain, which with her great maritime interests, has the most at stake, has been conciliatory as becomes the power convening the conference, but America, whose views coincided in the beginning with those of Great Britain, has been unwilling to go as far as England. The foreign delegates put this unwillingness down to failure to understand the continental points of view, and to lack of definite instructions. The British delegates have been anxious to negotiate, while the other representatives have had to send home for instructions on many important points. There have been a number of informal meetings between the delegates at which an effort to reach a working understanding was made, but without very much success. The conference re-assembles to-morrow and the hope has been expressed that the delegates will have sufficient authority to make it possible for the meetings to continue.

### LONG SHOTS WON

Oakland, Cal., Jan. 21.—Long shots were to the front in some of the races at Emeryville to-day. Kethamike at 15 to 1 upset calculations by winning the mile and a sixteenth easily. Daughter Yankee won the fifth from Lady Rensselaer, a 60 to 1 shot. The track was muddy.

## KILMARNOCK SCOTCH WHISKY

The Secret of Its Lasting Popularity is in every Bottle. J. & W. Young & Co., Montreal.

## ACCIDENT ON THE CANADIAN PACIFIC

### An Express Train Wrecked in New Brunswick—One Man Badly Injured.

(Special to Chronicle.)

Andover, N.B., Jan. 21.—The north bound C. P. R. express was wrecked about a mile west of here to-day, a broken rail or spread rails, causing the accident. The postal and express and the baggage car turned over, caught fire and were destroyed. The baggage master, was the only one injured. He was caught in the wreckage and had to be cut free. He was crushed but will likely recover. An auxiliary train took up the service.

## SUDDEN DEATH OF PROF. E. A. MACKENZIE

### Of the Montreal Presbyterian Theological College—Heart Disease Supposed to be the Cause.

(Special to Chronicle.)

Montreal, Jan. 21.—Under circumstances recalling the pathetic death of the late principal vicar, Rev. Professor Ewen A. Mackenzie, of the Presbyterian Theological College, this afternoon passed away with a suddenness that was a shock to the staff and students. While Professor Mackenzie was waiting in his retiring room for the going to announce the next lecture, Professor Welsh entered his room and found him in a fainting condition. He lost consciousness almost immediately and in an hour breathed his last. He had been suffering from heart weakness for some months but was apparently in good health to-day. The body was laid out in the Assembly Hall of the College and will remain there until Sunday evening when it will be taken to Lucknow, Ontario, for interment next Tuesday. A pathetic feature of Professor Mackenzie's death is that he was to-morrow night to have presided as Moderator at an induction service in Crescent Street Church.

### CAUGHT IN A SNOW-SLIDE

Ymir, B.C., January 21.—Foreman Jack Moen, Jeff Steele and Strongman employed at the Kootenay Belle Mine, had a narrow escape from death yesterday afternoon when they were swept down the mountain side by a snowslide. Moen and Steele were dug out of the slide uninjured, while Strongman was badly bruised, and, it is feared, has suffered internal injuries. While travelling with the slide he was dropped over a bluff fifty feet deep into an open cut, where he was found. He was brought to the hospital here. Owing to the thaw, the snow, which is from two to eight feet deep, is now sliding, making it dangerous at the mines situated on the steep hillsides.

### MANITOBA IN A FIX

Winnipeg, January 21.—Premier Roblin stated to-day that he considered it time that the Legislature was getting to work, as there are now seven of the Canadian houses in session. The difficulty in Manitoba is that there is no person to open the Legislature, Sir Daniel McMillan is absent in the South and the Government has no advice as to his whereabouts. Chief Justice Dubuc is administrator, but his position does not allow him to open the Legislature. This power could not be given him without special permission from Ottawa, and this cannot be secured without a request from Sir Daniel, who is not at hand. The Premier said he would settle the date of opening the Legislature within 48 hours after he got in touch with the Lieutenant-Governor.

### JURY COULD NOT AGREE

New York, Jan. 21.—After six hours deliberation the jury in the case of David H. Sheppard, a former Brooklyn policeman, charged with the murder of Barbara Reig, reported that it was impossible to reach a verdict and was discharged. Sheppard was re-committed to jail. Justice Crane, on motion of the defendant's counsel, to-day ruled that the prosecution had failed to show premeditation and instructed the jury that it could convict only for second degree murder or for manslaughter. The case grew out of the shooting of Barbara Reig in a shelter house in Irving Park, Brooklyn, last July. His defence was that the girl committed suicide, using his revolver, because he repulsed her infatuation for him. Justice Crane ordered Sadie Lee, a witness for the defence, committed to jail on a perjury charge. The girl admitted she had perjured herself when testifying before the grand jury regarding the shooting.

Staying in nights may be galling to the spirit, but it certainly is good for the rheumatism.

## ATTEMPT TO STEAL PARLIAMENT NOW RAILWAY TIES FULLY UNDER WAY

### is the Charge Laid Against an Official of the Intercolonial Railway.

(Special to Chronicle.)

Halifax, N.S., Jan. 21.—A warrant is out for an I. C. R. official at Windsor, but though the officers have been searching for a week the man has not been located. The charge in the warrant is attempting to steal railway sleepers and defacing Government work, and the information was laid by Inspector Stewart, of the I. C. R., whose business is looking after ties purchased for the railway. The offence that is charged is unique. Ties are bought by the I. C. R. which are accepted and paid for after Inspector Stewart puts his stamp on them. This he does in a mark placed on the end of the tie. It is charged that the official who is wanted sawed a thin edge off the end of the ties, thus removing the Government mark and that he then sold, or tried to sell, the ties to other parties. The end were sawn from about 800 ties and negotiations were afoot for their sale, but it does not appear that any were actually removed from the railway yards. It is on this account that the warrant read, "attempting to steal," instead of stealing. The warrant was issued last Saturday, but the I. C. R. detectives up to-night have not located their man. On the Monday before the issuance of the warrant the official informed people in Windsor that he was going west and that he was resigning his position with the I. C. R. He came to Windsor from the railway offices in Montreal, about a year ago.

## INVESTIGATION INTO LEVIS FORGERIES

### Some Interesting Evidence Given Yesterday Regarding Certain Cheques—Case will be Continued Today.

The investigation into the recent forgery cases at Levis are progressing daily before Magistrate Brunet and upon instructions from the Attorney-General's Department the investigation is now open to the press.

Yesterday morning Atkinson was again brought here from jail and was present at both morning and afternoon sessions. At the morning session Mr. Laurent Darveau, of the Levis branch of the B.N.A. Bank, was recalled and explained that the two cheques signed by Atkinson and referred to on Wednesday last, were made on Caisse d'Economie blanks and had been in the possession of the B.N.A. Bank for nearly two years. First of all these cheques were set for the same amount. They were originally made out for \$300 and increased to \$1,400. Atkinson occasionally paid amounts on these cheques and as a rule the amount of these cheques averaged between \$1,100 and \$1,200. The first time these cheques were handed to the B.N.A. Bank they were made out on Caisse d'Economie blanks. Mr. Lachance, on behalf of the Crown, asked why these cheques were kept in the bank and after some hesitation witness stated that they were not entirely Atkinson's and Manager Lindsay owed part of them, as the former had advanced him money. Asked what amount was advanced, witness replied that he could not be precise, but it was about \$1,500.

Witness was also asked who had given orders to present these cheques to the Caisse d'Economie in December and replied that he did not think that anybody had given such orders, but as soon as the inspector came to the bank, the cheques had to be returned to the Caisse d'Economie. The inspector generally came around twice a year, but in December last two years had expired before the inspector came around. When witness sent the cheques to the Caisse d'Economie he telephoned to Atkinson about the affair, but could not swear if he had also telephoned to Mr. Robitaille at the Caisse d'Economie. He did not know what became of these cheques and all he knew was that they were honored by means of cheques drawn upon La Banque Nationale. Witness could not say what partnership existed between Lindsay and Atkinson, but was aware that the former was indebted to the latter.

Mr. Gibson objected to the question and Mr. Lachance questioned the right of Mr. Gibson appearing for any one at this investigation. Magistrate Brunet upheld Mr. Lachance's objection, remarking that it was well known that Mr. Gibson was looking after the interests of Mr. Lindsay, but as the latter was not yet brought into the case, he had no right to be represented by attorney.

At the afternoon sitting no further important facts were brought out. Mr. DeBilly, of the Levis branch of B. N. A. Bank, testified to the fact that Manager Lindsay had given him instructions to renew Atkinson's notes discounted at the bank. On one occasion Atkinson's account was overdrawn by about \$900.

Mr. Lafrance, General Manager of La Banque Nationale, also testified to the technical questions relating to that bank's affairs and will again appear in the court this morning when some important evidence is expected.

### OCEAN ARRIVALS.

SS. Oceanic, at Southampton, for New York.  
SS. Montezuma, a. London, from St. John, N.B.  
SS. Caronia, a. Naples, from New York.

### Speech from the Throne Delivered Yesterday—It Refers to Many Questions.

Ottawa, Jan. 21.—His Excellency the Governor-General delivered the speech from the Throne this afternoon, on the occasion of the opening of the first session of the new Parliament of Canada. It was as follows:

Honorable Gentlemen of the Senate; Gentlemen of the House of Commons:

In welcoming you to the performance of your duties of the first session of a new Parliament, I desire to acknowledge with devout thankfulness the abundant harvest with which Divine Providence has again blessed us. The Quebec Tercentenary festivities in July which were honored by the gracious presence of His Royal Highness the Prince of Wales as representing His Majesty, marked an epoch in the history of the Dominion. The generous support given to this national celebration by the Federal Parliament and Provincial Legislatures and by the people of Canada of the other Dominions, and of the United Kingdom emphasized the community of sympathy which binds the various parts of the British Empire to each other and to the throne and person of His Majesty the King. The presence of representatives from the United Kingdom, Australia, New Zealand, South Africa and Newfoundland, and from the great and friendly republics of France and the United States, with the ships of war of the three nations, served not only to add lustre to this occasion, but to provide an assurance of increasing amity and peace.

I have much pleasure in announcing that a treaty relating to the Great Lakes and other international waterways has been agreed upon between His Majesty and the Government of the United States of America, and is now awaiting ratification. Both countries are to be congratulated upon having arrived at an amiable settlement which I trust will remove during the lifetime of the treaty many vexed questions from the field of controversy. The treaty and papers relating thereto will be laid before you in due course.

A little more than a year ago the whole civilized world entered into a period of commercial, industrial and financial depression which may not yet have completely spent its force; signs there are, however, that it is gradually passing away. Whilst it is hardly disputable that owing to the abundance and elasticity of her resources, Canada has suffered less than other nations, this depression has seriously affected our trade, producing an appreciable shrinkage in the public revenue, and calling for exceptional caution in the administration of our national affairs.

The rapid settlement of the new provinces calls for new lines of transportation, the construction of the Transcontinental Railway has been vigorously pressed forward during the past year. The line was open to the carrying of the crops from Winnipeg to the Battle River, a distance of 675 miles.

Explanatory surveys for a railway from the western wheat fields to Hudson's Bay are being pushed energetically. Four parties have been at work since August last. Upon their report it will be possible to reach a decision as to both the route to be followed and the approximate cost. The provision of the Dominion Land Act of last session for the sale of pre-emptions and purchased homesteads has created a new source of revenue that will be sufficient to bear the cost of the railway to Hudson's Bay without burdening the ordinary revenue.

From September 1st, when the act came in force, until January 1st sales of pre-emptions and purchased homesteads have amounted to over two million acres, all subject to homestead settlement conditions. The total volume of immigration has not reached the high figure of previous years, but the number of those seeking homes in our uncultivated lands has been fully maintained during the last season, and owing to the ever closer supervision of the immigration branch of the public service the character of these new inhabitants of Canada seem to be of the highest, and promise no small addition to the wealth of the country.

The Government of the United Kingdom having expressed its willingness to include a representative of Canada among its delegates to the conference held at Shanghai, to investigate the opium trade, my Government has been pleased to welcome an offer so significant of Canada's growing importance and on its recommendation the Government of the United Kingdom has accordingly appointed a member of the Dominion Parliament to be a member of the Commission.

Representatives of Canada participated lately in the permanent establishment and organization of the International Institute of Agriculture with its headquarters at Rome, an event of interest to our country in whose economic system agriculture plays so great a part. It is gratifying to note that among the 48 states adhering to the institute, recognition of Canada's agricultural importance was shown by election of our representatives to some of the highest offices of the institute.

The appalling calamity which has befallen Sicily and southern Italy and caused a total destruction of life and property absolutely unprecedented and unequalled in the long series of historic disasters, has induced my Government to offer assistance for the immediate relief of the hundreds of thousands of sufferers who are helpless against famine and all its consequent horrors. I confidently hope that you will approve its action.

In pursuance of an announcement made during the concluding session of

## LAKE CARRIERS' ASSOCIATION

### Open Shop Policy Absolutely Necessary—Past Season a Bad One.

Detroit, Mich., January 21.—Vessel men from all over the Great Lakes, to the number of about 190, were present to-day when President Wm. Livingstone, of Detroit, called to order the annual meeting of the Lake Carriers' Association. Officers of the association stated before the meeting that while the usual amount of business was to be transacted, one of the most important matters to come before the members is the welfare plan made public by the executive committee several weeks ago, which embodies the enforcement of the "open shop" principle on the ships enrolled in the association.

The annual reports of President Livingstone and the other officers of the association was the first business of the meeting, and their reading occupied the forenoon. President Livingstone, in his annual report, states that the tonnage enrolled in the Lake Carriers' Association comprises 610 vessels, with a total of 2,922,225 tons. He outlined in detail the welfare plan of the association, with the provision for the "open shop" on its vessels, saying that the experience of the past season had demonstrated the absolute necessity for the "open shop."

President Livingstone said that the season just passed was a severe trial and disappointment. There was little demand for iron ore; the coal movement was less than the preceding season, and there was not enough increase in the grain trade over 1907 to compensate for the diminished movement of other commodities. During the year there were built on the Great Lakes 25 vessels and 10 steamers, and six schooners were lost. There were 33 lives lost on the lakes during the season. Among the President's recommendations were the following: That there be maintained a minimum width of 200 feet between piers of all bridges built across the Chicago river; that the lighthouse board be petitioned to leave aids to navigation each year; and that every member of the association urge the member of Congress from his district to assist in the passage of a bill providing for pensions for members of life-saving crews.

### ST. BONIFACE STOCK YARD.

Winnipeg, January 21.—F. W. Peters, assistant to the second vice-president of the C.P.R., was to-day asked with reference to the progress being made in the negotiations made for the establishment of union stock yards in St. Boniface. Mr. Peters stated that these were proceeding most satisfactorily. The companies concerned had filed with the City Council of St. Boniface assurances that they would expend on the yard's amounts aggregating almost \$400,000, the exact sum being \$395,000. As soon as the final steps are taken by the council, Mr. Peters, accompanied by the chief engineer and the general superintendent of the C.P.R., will leave for the south and will make careful inspection of the largest modern stock yards in the States, including Chicago, Kansas City, St. Joseph, Mo., Omaha and St. Paul.

The chief engineer will look into various construction matters, the general superintendent will obtain information with reference to operation, and Mr. Peters will act for the commercial side. All that is now required is that the members of the council of St. Boniface should reach a final decision on this matter. The three railways concerned, C.P.R., C.N.R. and G.T.P., will then proceed to complete their required work of construction and track-laying.

A deputation of the Live Stock Association called on Mr. Peters to-day to discuss matters pertaining to the building and operation of a public abattoir and the creation of an open market. In reply to this deputation, Mr. Peters stated that the railway companies concerned in the new stock yards in St. Boniface were prepared to give to the city every facility in connection with the construction of a public abattoir that they would give to any private corporation.

last Parliament, a commission was appointed to examine the various lines of railway connected with the Intercolonial Railway, and which might become valuable feeders thereto. The report of this commission has been received and will be placed before you.

The commissioner appointed for investigating the conduct of officers of the Department of Marine and Fisheries has concluded his labor, but has not yet reported. His report, however, is expected at an early date, and when received will be placed in your hands.

A measure will be submitted to you based upon similar legislation enacted in 1906 by the Parliament of the United Kingdom, aiming at the repression of the payment of secret commissions and gratuities both in public and private business.

You will be asked to consider measures relative to insurance, the civil service, immigration and other subjects.

Gentlemen of the House of Commons:—

The accounts of last year will be laid before you.

The estimates for the coming year will be submitted at an early date; they have been prepared with a due regard for economy consistent with the requirements of the public service.

Honorable Gentlemen of the Senate; Gentlemen of the House of Commons:—

I pray Divine Providence that it may guide your deliberations and that they may tend to a further increase in the prosperity of our country and the well-being of our people.

## PAQUET COMPANY

COME EARLY COME OFTEN

Retail Division, 157-173 St. Joseph Street.

**Ayer's Hair Vigor**  
**Falling Hair**  
 Ayer's Hair Vigor promptly restores the hair that falls out, and cures the itching scalp. It restores the hair to its natural color, and keeps it from falling out again. It is a healthy condition. We wish you to positively and distinctly understand that Ayer's Hair Vigor does not affect the color of the hair, even to the slightest degree.

## The Quebec Chronicle

QUEBEC, JANUARY 22, 1909.

### CONSULT THE PROPRIETORS

It has been deemed advisable by the municipal authorities to levy a tax on persons gaining their living in the city but residing in outside municipalities; we do not propose to discuss this measure, but we wish to point out the inevitable deduction from it, namely that the city needs more money wherewith to carry on its affairs and make needed improvements, and that in the opinion of the city fathers that money must be sought elsewhere, and not from real estate, which is already heavily burdened. That being the case, it is evident that in the question of the annexation of Limoilou, serious consideration should be given as to the effect it will have on the civic taxation, and whether it would not be calculated to necessitate an increase on the burdens of property holders. It is plain that these have a very vital interest in the question, and, in our opinion, they should have an opportunity of giving their views upon it, as it is they who have to bear the brunt of increased taxation if it is necessitated by the annexation of Limoilou; in other words that the decision for or against the project should not be left with the City Council, but should be referred to a plebiscite of the proprietors of real estate.

### THE FIGHT AGAINST THE WHITE PLAGUE.

Our readers will remember that a short time ago the members of the medical profession held a meeting to consider the best steps to be taken to combat the ravages of tuberculosis in this city and district. We are glad to be informed that they are making good progress, and that a committee is in process of formation to organize an anti-tuberculosis society, after which the public will be taken into its confidence, and the public support will be solicited in a meeting to be called for that purpose. It is needless to say that this should be readily accorded, and in large measure, to a society whose aims are calculated to materially serve the cause of humanity. It was stated the other day in the papers of New York, that in spite of all the agitation on the subject, and the measures of prevention and relief that had been taken, the number of the victims of consumption, instead of diminishing had sensibly increased during the past year, and this shows the need of renewed efforts and still more energetic methods. It is therefore a matter for public congratulation that the medical fraternity here have taken up the great fight against the disease, and we are confident that the public, when called upon, will extend to them the hearty sympathy and co-operation.

### THE CHANCELLOR OF THE DIOCESE.

We are glad to learn that Dr. Robt. Campbell, K.C., D.C.L., has been appointed Chancellor of the diocese of Quebec in succession to the late Dr. James Dunbar, whose services to the diocese during his life-time were so much valued. No better appointment could have been made, and we congratulate the diocese on having secured the assistance of a gentleman whose eminent legal attainments and ripe experience so peculiarly qualify him for the important position he is now called on to occupy.

### THE OPENING OF PARLIAMENT.

There are many important matters which will engage the attention of the Parliament which opened yesterday. The chief of these undoubtedly will be the question of economy; the matter of the investigation of other departments besides the Marine Department and the steps to be taken to bring the Marine Department offenders to justice; and the question whether or not the Closure shall be adopted. Since the election the Government has been confronted with revelation after revelation showing that the Marine Department has been scandalously mismanaged and that the Minister at its head is in fact not a responsible Minister at all but is more or less a political head. It has been confronted also with the suggestion—which seems to have some basis for it—that several of the other departments, notably the Militia Department, are in a mismanaged condition as is the Ma-

rine Department and it would certainly seem to be up to the Government to order an investigation of these Departments also.

So far as the Closure is concerned its adoption will depend simply on the question whether or not the Government purposes to continue its Dark Lantern Brigade in existence or whether it intends to let the light in and free investigation instead of restrict or prevent it.

Coming to the question of economy. It is no longer a matter of choice with the Government; it is a matter to fall off while expenditures are increasing and the National Debt is piling up. We are borrowing largely abroad and it is estimated that we will have to borrow perhaps \$60,000,000 more within the next few months. Clearly, with this borrowing at high interest rates and with the National Debt increased last year alone by approximately \$30,000,000 there is nothing for the Government to do but to retrench, and to retrench drastically.

### BRITISH COLUMBIA'S WEALTH

A recent report shows the natural richness and productive capacity in timber and minerals of British Columbia. Evidently the great peaks of the Province are stored with mineral wealth, and its slopes are covered with a growth of timber unequalled in the world. Great as the mineral wealth is known to be, it has not yet been fully prospected; and the forests of the Pacific slopes, if not quite inexhaustible, are, at least, more than sufficient to meet all the timber demands of the present generation.

Last year the value of the province's total mineral production was \$23,857,735. This was a slight falling off from the output of 1907, but that was due to special circumstances, and not because of any exhaustion in any of the mineral deposits. The value of the gold output was \$5,973,520, the bulk of it being from lode mines. Silver and lead had each an output of \$1,500,000; while the value of the copper output was \$5,792,520. The value of the coal output was \$5,950,000. To these fall to be added \$1,488,000 for coke, and \$1,200,000 for building material. Added together these show the value of the mineral resources of the province last year.

The value of the forest products last year was less than that of the minerals, but it yielded a larger revenue. While the mineral output of \$23,857,735 yielded a revenue of \$200,000, the cut of 900,000,000 feet of timber, valued at \$20,000,000 yielded a revenue of \$2,000,000, including the annual ground rents (which are payable whether the timber is cut or not), and the sums derived from royalties, hand loggers' licenses, etc. About 11,000 square miles of timber lands have already been leased in one form or other. Although a cut of 900,000,000 feet may seem large, there are reliable estimates which show that the actual standing timber will supply that yield for a century, without counting growth or reforestation.

### THE RACE APPEAL.

The Quebec Daily Telegraph declares that the News "continues its daily attacks upon everything that is French-Canadian and Roman Catholic." This is the familiar whine of the Laurier organs in Quebec. The News makes no attack either upon French-Canadians or upon Roman Catholics. It is, however, necessary for such newspapers as the Telegraph to slander their Ontario contemporaries in order to appeal to prejudice in their own province.

This is the sort of campaign which has been carried on with extraordinary cunning, and bravado ever since Sir Wilfrid Laurier became leader of the Federal Government. The Conservative press of Quebec has been destroyed and every courageous utterance of a French-Canadian Conservative is grossly caricatured and misrepresented amongst his own people. In so far as the organs of opinion go, free speech has been very nearly suppressed in Quebec. The French-speaking people have been led to imagine that the Conservatives of Ontario are priest-caters and animated by a desperate hatred of the French tongue and the Roman Catholic religion.

As a matter of fact, no one in Ontario attacks Sir Wilfrid Laurier because he is a French-Canadian or a Roman Catholic. In this province generally there is only the utmost goodwill for the French-Canadian people. There is, however, a growing inclination to protest against the racial appeals of the Laurier politicians and a determination to make Quebec understand that these appeals are the sheer product of the malice and cunning of Liberal politicians.

The Conservative party of Ontario is loyal to the Federal system as interpreted by Sir George Cartier and Sir John Macdonald. It has no desire to interfere with the institutions of Quebec. It freely concedes equal rights and equal privileges to every province and every element of the population. Any French-Canadian leader in public life, in the universities, in trade or commerce, in art or literature, who comes before the people of Ontario

finds that they entertain a keen regard for French-Canadians and express on every convenient occasion an enthusiasm for the French-speaking citizen which they very rarely express towards those of equal eminence who speak their own tongue and belong to the English provinces. So far, however, as this journal is concerned, it does not believe that Mr. Marcell has a right to put his hand in the public treasury and corrupt a whole constituency for no other reason than that he is a French-Canadian. Nor does it believe that Mr. Brodeur should be less severely judged for the maladministration of the department than would Mr. Pugsley, Mr. Graham or Sir Frederick Borden under similar circumstances.—Toronto News.

One thing to be admired about the American people is that when they want anything they have no hesitation in asking for it. Which remark is precipitated by the apprehension that Canada may assist in constructing a deep water canal from Montreal to Albany so as to divert the larger portion of our lake trade to the port of New York.—Mail and Empire.

### HOUSEWIFE SUGGESTIONS.

Salt and soda will clean tarnished brass and will sometimes clean tarnished silver.

When whitewashing mix lime with skim milk and it will not crumble off. If you wish it colored add any paint powder.

In choosing a chicken it should be plump on the breast, fat on the back and have white legs. An old chicken is distinguished by its rough legs, and long hairs are found on the breast.

Flower vases often overbalance when in use, for the flowers put into them are likely to make them top heavy. This defect is easily remedied by putting bits of lead, shot or pebbles at the bottom of the vases.

In separating the whites from the yolks of eggs one often will break the yolk into the white. In such case dip a clean cloth into warm water and wring dry. Touch the yolk with the cloth and it will cling to the cloth.

To prevent shoe laces coming undone tie the laces in the usual manner, but before tightening the bow pass its right hand loop through the knot in the centre. Then draw the bow tight, and it will stay tied until you pull the string to undo it.

If a lamp is kept full of oil and perfectly clean in all its parts it will never be disagreeable. It is the oil slowly frying on the heated metal which makes the persistent noisome odor, or it is the wick turned too high which omits the occasional choking smell.

To prevent matting from becoming yellow on the floor wash off occasionally with a large coarse cloth which has been dipped in a strong solution of salt water. This will not only prevent it from becoming yellow, but will give the various colors a fresh and new look.

Table linen which has been stained with egg should never be placed in boiling water, as this has the effect of "setting" the stain and making it almost permanent. The best method is to soak the cloth in cold water, which will make it perfectly easy to remove the stain before sending it to the wash.

Table linen which has been stained with egg should never be placed in boiling water, as this has the effect of "setting" the stain and making it almost permanent. The best method is to soak the cloth in cold water, which will make it perfectly easy to remove the stain before sending it to the wash.

### Constipation Caused By Indigestion

Is Cured By Helping the Stomach Do Its Work As It Should.

All forms of constipation, bowel or intestinal trouble owe most of their origin to the improper digestion of food. The bowels measure 30 feet. The inside walls or surfaces are wound tightly about with millions of nerves. These nerves give life and control millions of little mouths or suckers which are supposed to take nourishment from the food as it leaves the stomach and passes along this 30-foot human canal.

When indigestion, dyspepsia or stomach trouble occurs, the food being undigested, passes over these millions of mouths, it is a fermented decaying mass and holds no nourishment as it should.

The little mouths suck it up. Impart these impurities to the blood, impregnate the little nerves with poison and so the work of constipation and bowel trouble begins.

A natural juice or secretion belongs normally in the little cells and glands along the mucous membrane of the 30-foot canal or bowel. When indigestion occurs this juice is lacking and so the mass of waste matter cannot pass along as it should and is piled up and caked in the bowel thus bringing pain and misery.

After a while the nerves and nerve centers which give vigor and life to the bowel become paralyzed, thus forever prohibiting the bowel from performing its natural duties.

Stuart's Dyspepsia Tablets, when taken after meals, digest the food properly even though the stomach is sick and it passes to the bowels nourishment and juices, which help the intestines not only to do their work at once, but builds them up, restores vitality to the nerves, brings new secretion to the glands and cells, helps bowel action and enriches the blood.

The stomach is the cause. Common sense and science are one on this point. You see it yourself. One little grain of Stuart's Dyspepsia Tablets will perfectly digest 3,000 grains of food. The assimilation of a meal by one of these tablets is an easy matter and it keeps the stomach clean and sweet so that in a brief time this organ is restored.

Every druggist carries them in stock; price 50c. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

The man who is skillful in sidestepping an obligation presumably husbands his resources in order to be able to incur further obligations.

Steamer Turcoman passed Brownhead at 1 a.m. Wednesday and arrived in Bristol yesterday morning.

**QUEBEC STEAMSHIP CO.**  
Steamer Bermuda arrived at New York from Bermuda at 9.15 a.m. yesterday.

**WRECK OF THE AEON.**  
Victoria, B.C., Jan. 21—Advices received here report that a Sydney syndicate which purchased the wreck of the Aeon, lost last July on Christmas Island, for £270 sterling at Sydney from the underwriters, are having success in saving the cargo, considered worth £15,000, and will make a big winning on their speculation. The wreck itself is unusual, but the cargo of red wood and general merchandise, including a shipment of typewriters, engines, etc., can be secured. The syndicate outfitted a schooner at Sydney and sent a wrecking expedition to the Aeon.

**STRANGE BEASTS OF TURKESTAN.**  
Has Characteristics Of Both Wolf And Bear—Thian Shan Grizzly.  
(From the London Standard.)  
Frederick Gillett, a vice-president of the Zoological Society, who has recently returned from a hunting expedition in Chinese Turkestan, has brought back with him the only known specimen of the Thian Shan grizzly bear shot by a European. The one other skin known in England is in the collection of Walter Rothschild at Tring, and it was bought from a native trader. Mr. Gillett has also secured a specimen of what is believed to be a new species of wolf, while he further saw an animal which, though resembling a bear in size and color, moved like a wolf, but whether this was an animal unknown to scientists it is impossible to state.

Mr. Gillett gave some interesting details of his experiences in Thian Shan which, though somewhat difficult to reach, is apparently a hunter's paradise. Although some doubt has been cast upon the bear being a grizzly, the facts seem to support the belief. It was secured above the timber belt, where the brown bear is practically never found, and it also possesses the unmistakable grizzly peculiarity of having white claws. The wolf immediately strikes one as being different from the ordinary Russian wolf. It is much smaller in body, and the head in comparison looks inordinately big. The animal secured by Mr. Gillett was just changing its coat and is therefore not such a satisfactory specimen as might be desired, although from a non-scientific point of view it is a handsome creature.

With regard to the curious beast that appeared to have some of the characteristics of both bear and wolf, Mr. Gillett declined to express an opinion himself, but he hopes that any other hunting expeditions visiting the district will keep a lookout for it. The facts are as follows: He was shifting camp one day when an animal was observed on the mountain-side opposite, a deep valley lying between. By means of his field glasses Mr. Gillett noticed the peculiarities already mentioned, and asked his trackers what it was. They gave it some weird name which he had never heard before and which was not the word for either wolf or bear. To make sure, when he had secured a specimen of each of these animals he on each occasion asked the men if that was the animal they had seen on the mountain side, and on both occasions he got a negative reply. The men seemed to know the animal and stated that there were only a few in the country. It was impossible to get near to it on the one occasion on which he saw it, owing to the deep ravine which lay between them, a fact much to be regretted.

## CRIMINALS IN JAPAN.

Prisons are Reformatories and Crimes of Inmates Treated as Diseases.

Coming now to their treatment of criminals we find the same discrimination as the wisest modern methods, and the same readiness to adopt the best and discard the harmful and obsolete. They are working on the theory which only our most advanced penologists agree to, and which few institutions have put into effect, that crime is a disease. The administrative ability which effected so much for the army in the field is turning its attention to social reform.

All prisoners are to be reformatories, and they are managed on a system quite the reverse of ours. The restriction of the prisoners' liberty is reduced to a minimum, and the entire supervision of his individual volition abandoned. Every case is as carefully studied, diagnosed, and treated as though every prisoner were a hospital. Every convict remains a person and is not reduced to a number, and the attempt is made to build up his character, just as a patient's body would be built up. His physical condition is carefully looked after at the same time, and he is given an opportunity for a new start in life, and that when it is over, the reproach of his crime will have been wiped out.

Great importance is given to employment, and every one is allowed to earn according to his ability. The quarters are made light and well ventilated, and the prisoner is permitted, when unemployed, to have books and to write. These healthier methods seem to be far more promising of good results than our Christian ones. They will be everywhere watched with the greatest interest.

**PUBLIC NOTICE**  
**CITY OF QUEBEC**  
CITY HALL  
CITY CLERK'S OFFICE.  
Quebec, January 15th, 1909.  
Nomination of Candidates for the Office of Alderman for seat No. 3, to represent in the Council of the City of Quebec, St. Malo Ward of the said City.

**PUBLIC NOTICE IS HEREBY** GIVEN that the nomination of one of several candidates for the office of Alderman for seat No. 3, of St. Malo Ward of the City of Quebec, shall take place on Monday, the TWENTY-FIFTH DAY OF JANUARY INSTANT, between the hours of twelve at noon and four in the afternoon, in the office of the City Clerk, at the City Hall, and if more than one is nominated for the said office, voting for the said election shall take place on MONDAY, THE FIRST DAY OF FEBRUARY NEXT (1909), between the hours of nine in the forenoon and four of the afternoon in the voting booth which shall be established and designated in a future public notice.

(Signed) J. GEO. GARNEAU, Mayor.  
H. J. J. B. CHOUINARD, City Clerk.

## CITY OF QUEBEC

**CITY HALL,**  
**CITY CLERK'S OFFICE.**  
Quebec, October 28th, 1908.  
**Ferry Service Between the City of Quebec and the Town of Levis.**

**Public Notice** is hereby given that tenders are hereby asked for the exclusive right of ferrying passengers, merchandise and other property whatsoever, between the City of Quebec and the Town of Levis, during a period of nine years, to be computed from the first day of May, nineteen hundred and ten (1910), and shall be received up to FOUR O'CLOCK IN THE AFTERNOON OF TUESDAY, THE SECOND DAY OF FEBRUARY NEXT (1909) at the City Hall, Quebec, in his office, the whole subject to the conditions stipulated in the by-law prepared to that effect, and that no tender shall be accepted from any person unless such tender is accompanied by a receipt from the City Treasurer of the City of Quebec, certifying that an amount of four thousand dollars has been deposited in his hands, which sum shall be forfeited if the party to whom the contract shall be awarded refuses to sign the contract.

The amount of the price of the sale and adjudication of the said ferry shall be paid by the purchaser thereof to the Treasurer of the City of Quebec, at his office, in the City of Quebec, in the City Hall, in two equal payments, the first of which will be paid on the first of August, 1910, and the second, on the first of November following, the said payments so to be continued during the period of the following eight years.

By order of the Council of the City of Quebec.  
H. J. J. B. CHOUINARD,

### CARIBOU HEADS FROM GRAHAM ISLAND

Curator of Victoria, B.C., Pronounces  
Them To Be a New  
Species.

F. Kermode, the curator of the provincial museum, at Victoria, B.C., has received the hides, skulls and antlers of the caribou which was shot not long ago by Indians near Masset, Queen Charlotte Islands, and pronounces them to be beyond all question a distinct species of caribou. They differ in many material respects from any species of caribou so far discovered, although it is probable that the differences are largely the result of excessive inbreeding.

The trophies received by Mr. Kermode consist of the hides of two bulls, and their skulls and the hide of a cow. The horns and head of the latter animal, however, are lacking so it is of practically no value. Judging from the specimens received the Queen Charlotte caribou is a small animal probably not being larger than a mule deer and weighing about 250 pounds. The antlers present marked divergences from the ordinary type. The "ploughs" so familiar on caribou heads are absent, the antlers generally are much less palmated than usual, and there are very many fewer tines. In fact, the whole antler is smaller and less massive than on the mainland caribou. The hides are nearly white with only a little brown showing, which is also a result of excessive inbreeding.

One of the bulls is an old animal as his teeth show. The incisors are gone and the molars worn down. The other is younger and smaller, and only boasts one antler. The missing antler has not been broken off, and examination of the skull revealing the fact that it never had one. This again is a result of excessive inbreeding, and the only hope of preventing the extinction of the herd, which is now a small one, is the introduction of fresh blood from the mainland. Half a dozen young bull caribou from the mainland would, according to Curator Kermode, by introducing new strains of blood prevent the further degeneration and the ultimate extinction of the newly discovered species.

The existence of caribou on Graham Island has long been suspected and as vehemently disputed, as the Indians knew nothing of any animals of the deer tribe on any of the islands of the group. Many years ago a specimen was brought down from Masset which is still in the provincial museum. It was said to have been shot in 1882 and was shown to Mr. Seton-Thompson. That eminent naturalist immediately got busy, and from the skull and one antler promulgated a description of a new species which he named Rangifer Dawsoni, after Dr. Dawson, the great geologist. The description is now to be found in scientific works, but it was, of course, pure guess work, and now unfortunately turns out to be almost entirely wrong, especially as to the color of the hide, which Mr. Seton-Thompson said was mouse color. Like the smaller of the two specimens brought down yesterday, the head which he saw also had but one antler.

However, no more were found, and in the absence of any proof that the solitary skull mentioned was actually shot in Masset, many authorities thought that the new species was prematurely announced, though Mr. Harrison of Masset, has always maintained the fact and is now extremely anxious that the new caribou be named after him. Unfortunately it has already been baptized, and it appears to be contrary to scientific precedent to repeat the process.

Two years ago Mr. Kermode asked the officers of the Shearwater to make some investigations when in the vicinity which they agreed to do. They saw no caribou, but they did find some tracks and they brought back to the curator a shed antler which they picked up and some droppings. These presented clear proof that the animals did in point of fact exist, and this year Mr. Kermode made a trip north. Unfortunately he was unable to get a boat to take him across from Prince Rupert during the time at his disposal, and while he was waiting there the three specimens were shot. He intends to go up again this year and observe their habits. The Smithsonian Institute of New York, hearine of the find, has been keeping the wires hot trying to secure a specimen. Those already obtained, however, will remain the property of the province, and as an order-in-council has been passed prohibiting the caribou being shot, it is likely that

the big New York institution will have to possess its soul in patience for some time.  
Owing to a misunderstanding the trophies were delayed en route, and as the hides were badly skinned and treated it will be a difficult matter to stuff and mount them properly. Mr. Kermode, however, intends to see if this cannot be done.

### BURNED BY MOLTEN METAL

Vancouver, B.C., January 21—Scalded by boiling metal, and his sight impaired, was the experience of Paul Cote, a young man employed at Alert Bay sawmill, who was brought to the city for medical treatment. The accident occurred on Friday last while the young man was engaged in casting a bearing at the mill. In some manner the pot of boiling metal was dropped in the snow and exploded, scattering the molten lead in every direction, and Cote, who was standing directly over the spot, was badly burned, his face and hands being frightfully scalded.

### "BANISH THE BAR"

Winnipeg, Jan. 21—One of the keenest fights ever waged on the liquor question is now going on in Manitoba, and will reach its culmination when the Legislature convenes next month. Those who oppose liquor traffic have entered into this contest with determination, and their rallying cry is "Banish the Bar." The liquor men and their friends are cognizant of this determined onslaught, and are bending all their energies to successfully withstand it. The Temperance and Moral Reform League is at the back of a petition which is being circulated and largely signed by opponents of the liquor traffic. This will be presented to the Legislature as soon as possible after its opening. The petition will be accompanied by a monster deputation of Royal Templars. The Grand Council of that body, it is expected, will be in session in the city at that time. The members will add their voices to the volume of request that the bars of the province be banished. The liquor men have also prepared a petition setting forth the claim that the liquor trade should be protected by virtue of its vested rights and the value and need of accommodation for the travelling public. The Licensed Hotelkeepers' Association has prepared a petition which will, of course, be largely signed, and this will be presented to the Legislature, backed up by a fighting and determined deputation. The handling of the ticklish question will be watched closely, not only by the enthusiastic and interested adherents of both factions, but by that large body which views the question altogether dispassionately. It seems that a critical period in the long fight of prohibition against the liquor trade has arrived. Many of the ministers of the city are ranged against the traffic, and will use their pulpits next Sunday in efforts to circulate the petition and give impetus to the "banish the bar" propaganda.

### CONDITIONS IN CHINA

New York, Jan. 21.—Y. S. Wan, a nephew of Kang Yu Wei, the well-known reformer, when interviewed today regarding the present situation at Pekin, described conditions at the Chinese capital as very agitated and uncertain. He said the Government was neither despotic, autocratic nor bureaucratic, but rather a government of traditional policy, and consequently quite distinct from any other government in the world. There are, at least, three political parties in the country, Mr. Wan continued, all ably represented at the capital, and each striving to get the upper hand. These parties are the Progressive, or Regents Party, the Conservatives or Prince Ching's party, and the third is headed by the present Dowager Empress. The Progressive and Conservatives are particularly opposed to each other. The Progressives are composed mostly of members of the Royal Family, the Manchus and a few Chinese, while the Conservatives consist chiefly of Chinese with a sprinkling of Manchus. The moving spirit in the Conservative party has been Yuan Shi Kai, recently deposed as premier. Little is said openly by the party headed by the Dowager Empress, but the Dowager Empress is regarded as the dominant factor in her own household. Officials and mandarins are aspiring to higher positions by involving themselves in a plot to make Prince Chai Chang head of the nation, as well as the people at large, are supporting the present Emperor by discountenancing this treacherous scheme. Further to complicate the situation the nearer relatives of the late Kuang Hsu are seeking by every means to become possessed of the ruling power.

the Pekin Government, said Mr. Wan, and it is impossible to give an intelligent or reliable answer as to what the future will bring forth. But our hopes, centre on the regent, Prince Chun, who is undoubtedly a most reasonable, wise and progressive man. We hope at the expiration of the hundred days' mourning the Progressive movement will again assume its wonted activity and that the most obnoxious Conservative viceroys and officers will be replaced by capable and enlightened officers, and that a really prosperous future will thus be secured for unfortunate China.

CORPORATION OF QUEBEC  
CITY ENGINEER'S OFFICE.

Tenders for Carters' Numbers, &c  
CITY HALL,  
Quebec, January 12th, 1900.

PUBLIC NOTICE is hereby given that sealed tenders, endorsed Tender for Carters' Numbers, etc., and addressed to the undersigned, will be received up to Wednesday, the 20th instant, at 4 P.M., for supplying the carter's numbers, etc., required by the City of Quebec for the fiscal year 1900-1910.

CORONER WILL HOLD INQUEST AN EXPLOSION CAUSED BLAZE

Upon Body of Unfortunate Woman Who Perished in St. John Street Fire.

All day yesterday crowds of people congregated in front of the fire-wrecked building at the corner of St. John and d'Youville streets, where during the previous night one life was lost and a number of other occupants of the building had remarkably narrow escapes.

Narrow Escape from Serious Injury of Son of Well-Known Merchant.

The explosion of a barrel of spirits in the second story of the large warehouse of Mr. J. B. E. Letellier, wholesaler of Dalhousie and St. James streets, yesterday afternoon, caused somewhat of a sensation and involved the very narrow escape of a son of the proprietor from serious, if not fatal, injury.

Spot Cash Shop. Fresh Haddock from Portland every Thursday. Phone 1406. Jan. 22x2

RECORDER'S COURT. The Recorder had no prisoners before him yesterday. A number of cases about the non-removal of snow was heard.

Great Cheap Sale at F. T. Thomas & Co's Store, 10 St. John St. This month only, July 14-15-16-18-20-22.

BAND AT THE Q. A. A. RINK. The band will play at the Q. A. A. Ring this (Friday) evening, weather permitting, when there will undoubtedly be the usual large gathering of patrons of this popular resort.

AT MYRAND & POULIOT'S On Monday, 25th January, a colossal sale which will eclipse anything ever seen in Quebec since its foundation. Don't forget it. Jan. 22.

SUDDEN DEATH AT LEVIS. Madame Joseph Filteau, a widow, 87 years of age, died very suddenly at Levis yesterday. She was sitting in a chair at the residence of her son-in-law, when she suddenly fell forward unconscious. She was cared for and put to bed, but died, without recovering consciousness.

THE FIRM OF MYRAND & POULIOT will have the sale of sales, on Monday, 25th January. Attend! Attend! Jan. 22.

LASSALLE CONSERVATORY. The sale of tickets for the representation of "Athalie," which began yesterday morning, is going on so rapidly that those wishing to see the artists of the Lassalle Conservatory, on the 30th instant, should see at once about it.

SEATS FOR SATURDAY'S BIG HOCKEY MATCH. The plan of reserved seats for the big senior hockey match on Saturday between Ottawa and Quebec, will open this (Friday) afternoon at 4 o'clock.

CHIMNEY FIRES. There were alarms from boxes 95 and 98, both located in St. Sauveur, yesterday, the firemen being required to extinguish chimney disturbances.

GOOD TEMPLAR WORK. A very interesting address was given before Berwick Lodge of Good Templars last evening by the Rev. E. Hammond King, pastor of the Baptist Church in this city.

NEITHER TIME NOR DISTANCE should prevent you taking advantage of the GREAT SALE at Myrand & Pouliot, on Monday, 25th January. Consult Saturday's great advertisement. Jan. 22.

BOYS HAVE AN OUTING. Accompanied by a number of priests and brothers, the choir and altar boys of St. Patrick's Church left for Kent House, Montmorency Falls, at noon yesterday.

Spot Cash Shop. Choice Rose Brand Sausage, 12c. pound. Phone 1406.

OFFICERS INSTALLED. In Citadel City Council, R. A., Last Evening.

There was a large attendance at Citadel Council, R. A., last night. Brother Geo. M. Craig, Deputy Grand Regent, assisted by Bro. Geo. D. O'Farrell, installed the officers for 1909, as follows:—

Regent—R. R. Marchant, Vice-Regent—J. J. Flynn, Orator—J. B. Fisher, Past Regent—W. C. Weary, Secretary—James Woods, Collector—C. J. Knight, Treasurer—Alex. Forrest, Chaplain—J. T. Murphy, Guide—E. J. Fisher, Warden—L. U. Renaud, Sentinel—Ernest Robitaille, Organist—W. O. Langovin, Trustees—R. Wilkinson, W. J. Thompson, E. T. Furois.

At the conclusion of the meeting a game of progressive euchre was played. Bro. Alf. Jacques and Bro. Chas. McCord, winning the prizes. Light refreshments were served and a most enjoyable evening was spent.

HUNT CLUB EUCHRE. The usual weekly euchre took place last evening at the rooms of the Quebec Hunt Club, St. Foye road, when a very pleasant time was spent. The prize winners were as follows:—1st (given by Aid. Lockwell), Mr. Leon Leclair; 2nd (tobacco jar given by Mr. Geo. Carrier), Mr. A. Lavigne.

A simple visit to the counters of L'Heureux & Gauvin's establishment, represents alone an appreciable profit.

LATEST SPORTING NEWS

LAURIER WON IN OVER-TIME BOTH MEN ARE TRAINING HARD

Defeated Laval by a Score of Three to Two Last Evening. Contest Between Longboat and Shrubbs Should be a Great One.

Lauriers were the winners of last evening's scheduled game of the Junior Hockey League series, defeating Laval, after almost fifteen minutes of overtime had been played, by a score of three to two, the defeat being the second successive one administered to the students within a week, the first one also being lost in the overtime play. They lost last evening through their seeming inability to bore through the opposing defence, for the puck, was in their possession fully three quarters of the time, but they appeared at sea after passing center ice and their efforts to reach the nets were unavailing. Lauriers won by their persistent and aggressive tactics, and their victory was a merited one. The teams and officials:— Referee—D. Neilan. Judge of Play—W. J. Hamahan. Umpires—Frank Webster and Degire. Laval:—Goal, Labreque; point, Goudeau; cover, Jobidon; rover, Gingras; center, Jinchereau, B. W. Pouliot, L. W. Pouliot. Lauriers:—Goal, Nadeau; point, Cloutier; cover, de Beaumont; rover, Briand; center, Picard, R. W. Marchetierre, L. W. Robitaille.

MEDAL SHOTS AT QUEBEC RINK

Medal shots for the Colthurst Cup took place on the ice of the Quebec Curling Club yesterday, competitors for the prize playing in squads during the day. The top scores at the conclusion were as follows:— E. E. Ross..... 34 A. Veasey..... 30 S. P. Grogan..... 29 J. G. Brunson..... 28 C. M. Brodie..... 26 Rev. W. C. Clark..... 26 W. G. Sibthorpe..... 25 A. Miller..... 25

The interesting competition which has been in progress for some time for the Jewell Prize resulted in a win for Mr. S. J. Grogan.

CRESCENTS WON

The Crescents defeated Loyola in the scheduled game in the District Bowling League last evening by two games to one and a pin majority of 205. The scores:— Crescents. Middleton..... 147 211 177 535 Davidson..... 153 211 150 502 Cartier..... 151 168 172 491 Somerville..... 126 161 134 421 Kennedy, H..... 164 191 188 543 Totals..... 729 942 821 2492 Loyola. Duchesne..... 125 140 134 399 Deleise..... 163 148 187 498 Bazin..... 154 124 130 408 Talbot..... 136 170 125 431 Boiteau..... 156 138 157 451 Totals..... 734 720 733 2157

JEFF BETTER THAN EVER San Francisco, Jan. 20.—Jeff is faster and better right now than I ever thought I would be when I quit the ring four years ago. This stage work agrees with me and I am getting my wind back every day. Three months' work in the mountains will put me right where I was when I left off. At least, this is the way I feel. This is the latest authorized statement from Jeffries, and it is expected that he will come out in a few days with the formal announcement that he will fight Johnson.

MIKE SEARS DEAD

Boston, Jan. 21.—Mike Sears, the Lewiston, Me., featherweight, who ten years ago was a leader in his class, died yesterday at his home in that city, of pneumonia, aged 33. Sears in his day fought such notables as the late Ike Weir, Sammy Kelley, Jabex White, Arthur Cote, Jimmy Briggs, Dave Ross, Jimmy Davenport, Billy Gardner, Jimmy Kaveney, and Tom Heffernan. He was a natural boxer, never having taken a lesson. His first bout was in 1893, when he knocked out Johnny McLoughlin, and during his career he fought 115 bouts and never was knocked out. He won the bantamweight championship of New England in 1895, and held it for two years. He then entered the featherweight class, and won the championship by beating Frank Zimpfer, of Buffalo, at Madison Square Garden, in 1896. He was taken to England by Richard K. Fox in 1898, but lost a decision to Jabex White. He afterward got a decision over Fedlar Palmer.

A USEFUL GUIDE. The Official Athletic Almanac for 1909 has just been issued. It is edited by James E. Sullivan, president of the Amateur Athletic Union of the United States, and is the only book of its kind containing a complete report of the events at the Olympic games, with an endless lot of Olympic pictures never before published, there being no less than five different fine half-tones showing Dorando's heroic effort to win the Marathon race. The book is also replete with illustrations of athletic events and champions from every section of the United States and from all points of the globe. Anyone claiming to be interested in athletics at all should possess a copy of this book. It will be sent to any address in the United States or Canada by the American Sports Publishing Company, 21 Warren street, New York City, post-paid, upon receipt of 10 cents.

ONTARIO PROS. BREAK UP. Brantford, Ont., Jan. 21.—From reliable local sources it is learned that St. Catharines, which is scheduled to play here to-night, will drop out of the Ontario Professional Hockey League after filling the local dates. It is also pretty well understood that Guelph will disband after to-night's match with the Toronto team, which plays in the Royal City. Both teams have travelled in hard luck all the season. The league will be continued with Brantford, Berlin, Galt and Toronto in the championship, and all teams will probably be strengthened by players who will be engaged from the disbanded St. Catharines and Guelph outfits.

NOT YET, SAYS MEADOWS. Guelph, Jan. 21.—There is no truth in the reports that Fred Meadows, thought by many to be the best five miler in the country, is contemplating turning pro. "There's no truth in the report," Fred said yesterday when seen at his work in the Taylor-Forbes foundry, "I'm not thinking of it—at least not for some time yet. I think if I got right after the running game I could make more money, and eventually I meant to do so, but just for the present I'm saying nothing but 'sawing wood.'"

Tom Flanagan writes to the Toronto Telegram from New York, as follows:— It was impossible to visit the training quarters of either Tom Longboat or Alfred Shrubbs this morning, as both men have, as is well-known, given up their city camps. Tom Longboat is putting in his final preparation in Allenhurst, N.J., while the Englishman also evidently prefers the quiet country life to the great din of Gotham to put in his final touches for what promises to be the greatest race of his career, his meeting with the famous Onondagan at Madison Square Garden on the 26th of this month. I expect to visit both camps to-day, but in the meantime was very fortunate to run into a life-long friend and once trainer of Alfred Shrubbs, and am able to give my Toronto friends some little points that might give some light to those who are trying to distinguish between the relative merits of these two famous runners and get an idea of the possible outcome of this battle royal soon to take place. ALFRED SHRUBBS. My new acquaintance gives Shrubbs' height as 5 feet, 7-1/2 inches, he was born at Horsham, the county town of Sussex, England, and places his countryman in his judgment to be the fleetest-footed human being living from two to ten miles, that is to say, at the time he made his record of fifty minutes, forty seconds, in 1904, for the latter distance. But even at that time, I am informed by this same gentleman that there was a variance of opinion as to whether Shrubbs or W. G. George, the holder of the present professional mile record, was the greater runner, the latter being the old opponent in many hotly contested races of A. Cummings, of Paisley, which performances have helped to make history in the footracing game. My friend very cleverly directed the much-talked-of hour performance of Shrubbs when that little speed merchant covered 11 miles, 1,136 yards in the hour, and puts an entirely different complexion on the performance to what most of us have entertained. SHRUBBS' SPEED. "He goes on to explain that the first mile was done around the fourth mark, and in fact that degree of speed was even carried to the second mile. But then we find if we take the trouble to figure out the distance after the first time was made, for the ten miles, being fifty minutes and forty seconds, that the great speed commenced to wane, and the last mile was done around five-thirty. Beyond the ten miles the time was not so phenomenal as some people imagine. He refers to the paced performance of Watkins, in England, in 1889, when that clever performer, notwithstanding being twenty-five seconds behind Shrubbs' time for the ten miles, ran in the hour one hundred and fifty yards more in that time. That looks good dope on how Shrubbs' speed must necessarily taper off after setting such a hot pace in the early part of a race. Then he refers to the famous race in which Fred Appleby beat him in the fast time of one hour and twenty minutes and some seconds and says that by comparing the great difference in the track on which Shrubbs ran with the favorable weather conditions accompanying him as compared to the first fifteen miles of Longboat's race with Dorando at Buffalo, you will find that from the ten to the fifteen mile post that the time for that particular five miles was none too favorable to the Englishman. POWERS IS PLEASED. Tom Longboat got to town yesterday for the first time with his trainer, Deforest, and called on his manager, Pat Powers. Powers was delighted with Longboat's appearance and claims that he is much improved in every way since he got in the hands of his new trainer. Longboat lives with Mr. Deforest, and is quite contented with his surroundings. The new and old manager of Longboat will go to Allenhurst Thursday to see if Tom runs his final trial and we will then have a fair idea of his condition. Shrubbs is reported to have run last Monday twenty miles in one hour, fifty-four minutes and thirty-two seconds. He ran to the twenty-two mile mark but the time was not taken. T. C. FLANAGAN.

TRAINING TROTTERS IN BLUE GRASS STATE

Horsemen Want John Splan to Open Market in South America.

Lexington, Ky., Jan. 21.—Trainers at the Kentucky Trotting Horse Breeders' Association track here who educate colts for coming Futurities are now getting their stables together and as soon as the weather settles they will begin their season's training in earnest. Among those who will do their training here are Mike Bowerman, Geo. Bowerman, Clem Beachey, jr., Roland Drake, W. H. Owings, Henry Jones, Davis Cahill, Wickliff Curry, Roy Miller and George Hayes. W. E. Luxon, Richmond, Ky., has in training a full brother to Amy Brooks, 2:05 1-4, whom he declares will make a better trotter than the sister. He is called Embury Brooks. Several highly bred mares have arrived here from Russia to be bred to famous sires in this country. Two have gone to the Mansfield Farm of R. L. Nash to be mated to Axworthy and several to the Patchen Wilkes Farm of W. E. D. Stokes to be mated to the Futurity winner Peter the Great, 2:07 1-4. Among those at the latter farm is the race mare Boyarishma, 2:12, who won every race in which she started in Russia. She is the property of William Canton. Among the most promising youngsters in this section is the roan colt Dulcie Jay, a son of Jau Bird and Nancy Gladys. This colt was trained last season by Roland Drake and at the trotting meeting here in October, trotted a mile in 2:11, last half in 1:04 1-2, last quarter in 31 3-4 seconds. He is a well gaited horse, with the best of manners, and is owned by the Georgetown turfman, Kimzen Stone. W. A. Bacon has at his farm near Paris, Ky., a yearling which he claims is the best bred Peter the Great filly living and one of the richest bred youngsters in the world. The filly is by Peter the Great out of Lucille Wand, by Wilkes Boy, 2:24 1-4; second dam Nelly H., by Young Jim; third dam, May Morning, by Mambrino; fourth dam, Betty Brown, dam of Wilkes Boy and grandam of Aleste, 2:07 1-4. A number of horsemen are trying to induce John Splan to visit Buenos Ayres and other places in South America to look over the situation there with a view of opening a market for American bred trotters. The American trotter already has become famous in Austria, Germany, Russia and England, and Spain is credited with having sold more champions to European horsemen than any other man in America. There are now at the Patchen Wilkes Farm a number of yearlings by Peter the Great. Peter the Great is fast forgoing to the front as a great sire. The young stallion is the only horse doing stud service in the country a winner of the Kentucky Futurity who has sired the winner of both the two-year-old and three-year-old divisions of that event. In 1903 his daughter Sadie Mac won the three-year-old Futurity and last season the two-year-old Czarina brought him fame as the sire of a winner of the two-year-old division of the stake. Robt. M. Brown, of St. Louis, has purchased from R. L. Nash for \$3,000 the two-year-old colt Moko Star, by Moko, dam Nellie Farren, by Jay Bird. The colt will be raced by Brown in his two and three-year-old form, after which he will be placed at the head of the stud now being formed by Brown near Marshall, Mo.

COLTS WON IN LEVIS

The Colts bowling team won out at Levis last evening by two games to one. The meeting was a very interesting one, and a novel incident was that both teams tied on the second string, the Levisians winning out by six pins on the play off. The scores and teams were as follows:— Colts. Goudie..... 136 153 153 442 Kennedy, S..... 184 143 127 454 Reynard..... 116 149 125 388 Nickerson..... 134 154 161 449 Hay..... 146 142 134 422 Totals..... 716 741 798 2155 Levis. Roy..... 131 172 146 451 Garant..... 138 148 135 421 Barras..... 143 160 148 451 Pouliot..... 110 124 145 379 Remillard..... 133 137 106 376 Totals..... 655 741 672 2078

QUEBEC HAD WORK OUT

The Quebec hockey team had a work out at the Quebec Rink last night in preparation for the match with Ottawa Saturday night. There were, however, several absentees from the regular line-up, Herbie Jordan and Joe and Chubbie Power not being out. The team, however, seems to be in excellent shape and they will undoubtedly give the Ottawa visitors a hard run to-morrow night. Q. O. C. H. WON. O. O. C. H. defeated the Departmental Corps at last evening's indoor baseball game at the Drill Hall. The score being 48 runs to 31. The batting order:— Departmental Corps:—Duberger, c.; Bedard, p.; C. Wood, lb.; Miller, 2b.; Chaumette, 3b.; J. Jordan, s.s.; Dorion, r.f.; F. Wood, c.f.; Albert, l.f. Q. O. C. H.:—J. Bastien, l.f.; Quinn, r.f.; Timmons, s.s.; Grant, 3b.; Kell, c.f.; McMillan, lb.; McWilliams, 2b.; G. Bastien, p.; Boisjoli, c. Q. O. C. H..... 654 764 1311 x-48 Deput. Corps..... 312 213 1 99-51 Umpires, C. Copeman, Pte. Robinson.

 H. Binks, H. McLaren, L. N. Ander-  
 son, R. S. Stuner, C. B. Hibbard, R.  
 Tessier.  
 Hon. P. H. Roy, of St. Jean, was  
 in the city yesterday, accompanied by  
 his secretary, Mr. Arthur Prairie, and  
 returned to Montreal last evening.  
 Mrs. Wm. Price, of Quebec, is the  
 guest of Mrs. Crombie, Ottawa, who  
 is entertaining at luncheon in her  
 honor to-day.  
 Sir Bromley Wilson, who accom-  
 panied Sir James Dunsuir's party  
 from Quebec around Cape Horn to  
 Vancouver, B.C., returned to Montreal  
 on Wednesday.  
 Mr. J. S. Burford left last evening  
 by Grand Trunk for Boston, where he  
 will embark on the Allan steamer Si-  
 cilian for England. Mr. Burford goes  
 to visit relatives and friends, and will  
 be away about six weeks.  
 Mr. Collingwood Schreiber, Deputy  
 Minister of Railways and Canals, Ot-  
 tawa, has received a cable message  
 informing him of the death of his  
 sister, Mrs. Lewin, in London, Eng-  
 land.  
 The marriage is announced for the  
 9th of February of Miss Marie R.  
 Fortin, daughter of Mr. Cyprien For-  
 tin, of Beauveville, to Mr. L. P.  
 Bolduc, son of Mr. P. Bolduc, and  
 nephew of Senator Bolduc, of Tring.  
 The following ladies and gentlemen  
 had the honor of dining at Govern-  
 ment House, Ottawa, Tuesday night:  
 Hon. Sydney Fisher, Hon. and Mrs.  
 Oliver, Miss Oliver, Mr. R. L. Bor-  
 den, M.P., and Mrs. Borden, Mr. G.  
 H. Perley, M.P., and Mrs. Perley, Mr.  
 and Mrs. L. Fortescue, Mr. and Mrs.  
 S. H. Fleming, Mr. and Mrs. Edward  
 Fauquier, Rev. Dr. and Mrs. Her-  
 ridge, Dr. and Mrs. Chas. Harris,  
 Col. and Mrs. Lesnard, Mr. and Mrs.  
 C. Berkeley Powell, Miss Gordon and  
 Mr. Ketales.  
 At the Chateau—H. N. McMenimen,  
 Phila. M. Feustman, Saranac Lake;  
 E. L. Rising, R. T. Hayes, St. John;  
 C. S. Sutherland, Amberst; Mr. and  
 Mrs. J. A. McSloy, E. F. Saxes, St.  
 Catherine; C. S. Wur, Eril; C. J.  
 Oakley, Arthur F. Tero, J. A. Mc-  
 Laren, Ed. O. Weston, C. A. Davies,  
 Toronto; Philip Peacock, E. Melver,  
 Newark; Willis Clark, F. J. Purcell, F.  
 T. Day, Aug. H. Hall, New York; T.  
 C. Stewart, Halifax; J. H. Mobley,  
 Canton; O. Z. C. Webb, Fulton.

A cable despatch from Calcutta tells  
 of the wedding there on Wednesday,  
 January 20th, of Lady Violet Elliot,  
 daughter of Lord Minto, the Viceroy  
 of India, and Lord Charles Fitz-  
 maurice, son of Lord Lansdowne. It  
 is an interesting coincidence that the  
 fathers of both the bride and bride-  
 groom have filled the high positions  
 of Governor-General of Canada and  
 Viceroy of India. Besides being the  
 daughter of one Viceroy the bride is  
 a niece of another, Earl Grey, Gov-  
 ernor-General of Canada, being her  
 mother's brother. Only last spring  
 the bride's sister, Lady Ruby Elliot,  
 married Viscount Errington, the old-  
 est son of the Earl of Cromer, who  
 directed affairs in Egypt for so many  
 years. As a further testimony of the  
 imperial service rendered by members  
 of these families, it may be mentioned  
 that just one hundred years ago the  
 Right Hon. Hugh Elliot, brother of  
 the first Earl of Minto, was Governor  
 of the Madras Presidency. The wed-  
 ding at Calcutta to-day was attend-  
 ed by many members of both families,  
 some of whom journeyed halfway  
 around the world in order to be pre-  
 sent. Lady Lansdowne, mother of the  
 bridegroom, was among those who  
 went from England. Her trip afford-  
 ed the first instance in history that  
 the wife of an Indian viceroy returned  
 to the former scene of her labors  
 after bidding an official farewell on  
 the steps of Prinsep's Ghat.

**Correspondence**  
 To the Editor of the Chronicle:  
 Sir,—That poor Mrs. Fiteau was  
 burned at the fire on John street last  
 night.  
 She appeared at the window and  
 might easily have been saved.  
 The incompetency of the fire brig-  
 ade was very clear.  
 In many other parts of this Do-  
 minion such negligence would be called  
 manslaughter.  
 ANT. GUILBAULT.  
 Quebec, January 21, 1909.

**ICE BRIDGE.**  
 To the Editor of the Chronicle:  
 Mr. Editor,—To get a bridge at Cap  
 Rouge we will have to pay a few mil-  
 lions of dollars, and we must have it  
 of course and the sooner the better.  
 We could have an ice bridge in front  
 of Quebec and Lewis for five months  
 a year for nothing and we are not  
 willing to get it! How many tourists  
 from both Americas would come to  
 see an ice bridge as plain as a  
 mirror on which ice boats with lateen  
 or triangular sails performing evolu-  
 tions as quick as living birds, etc.?  
 The ice bridge does not determine  
 the date of the opening of the spring  
 navigation; it depends only on the  
 coming down of the lake ice.  
 Yours truly,  
 F. X. DION.  
 Quebec, Jan. 21st, 1909.

**"THE WOLF"**  
 A Graphic Story of Canadian Life.  
 The Wolf, a graphic story of the  
 Canadian Hudson Bay country, full of  
 color and action, inspiring in its  
 theme, thrilling in its situations, or  
 declared to be one of the most perfect-  
 ly constructed plays on the stage. It  
 depicts life in the local of the story  
 as it would be depicted only by one  
 intimately acquainted with the passions  
 and motives which inspire men deep  
 in the heart of nature. It  
 tells the story of a lone girl, of a  
 scheming Wolf, in the guise of man.  
 Of a hero of the type and strength,  
 and throughout the play there is a  
 tenderness and natural wisdom which  
 speaks volumes. In The Wolf, Eugene  
 Walters, the author, was a Columbus  
 of a new field of drama. It was  
 brought out after playrights of all de-  
 grees had dipped their pens into vast  
 avenues of explorations, at a time  
 when it was thought there were a few  
 worlds to conquer in the matter of  
 locale, color, atmosphere and theme.  
 There had been a flood of Western  
 dramas, filled with action and virility  
 of the wild plains and hills, there had  
 been society plays and problem  
 plays, and search was turning to the  
 other side, bringing forth brain  
 children from the ingenuity of transla-  
 tors and adapters. At this physiologi-  
 cal moment, when the world was cry-  
 ing out for something new, something  
 with a fresh thrill, a different slant  
 on life, and the things of life, Eugene  
 Walters wrote The Wolf. It was a hit  
 from the moment of its birth. It re-  
 mains the most perfect example on re-  
 cord, of possibilities of graphic play-  
 righting. It is a story of love, the  
 new love sprung to life, the love of  
 baser birth vanquished, the love of  
 manly man, quick to the defence of in-  
 nocence, asserting itself in the wooded  
 fastnesses of a far country. The above  
 is one of the greatest realistic  
 dramas of the country, a play that  
 held New York and Chicago spell-  
 bound for a whole season. It will be  
 seen at Bennett's in the near future.

**Notice to Owners of**  
**Automatic Pianos**

 sentative will be pleased to call and  
 explain the P. X. L. plan to you by  
 sending name or phoning to  
**J. BEAUDRY,**  
 263 St. John Street.  
 Phone 832.

**THE POLITICAL**  
**CHESS BOARD**  
 Changes in the Provincial Cabinet—  
 Two New Members Added to it  
 —Meeting of Legislature.

The Provincial Cabinet met yester-  
 day afternoon and although the meet-  
 ing only lasted about half an hour,  
 it was of a most important nature,  
 as the changes in the Cabinet re-  
 ferred to some time ago, due to the  
 resignation of Hon. Mr. Turgeon,  
 took place. Hon. Mr. Allard was  
 appointed to replace Hon. Mr. Turgeon  
 at the head of the Crown Lands and  
 Forests Department, while Mr. J.  
 Decarie, M.L.A. for Hochelaga, was  
 appointed to replace Hon. Mr. Allard  
 in charge of the Agricultural Depart-  
 ment. Mr. J. Edouard Caron, M.L.A.  
 of L'Islet, was called to the Cabinet,  
 as Minister without portfolio. The  
 three Ministers were sworn in yester-  
 day afternoon by the Lieutenant-Gov-  
 ernor Sir C. A. P. Pelletier.  
 It is stated that the Provincial Le-  
 gislature will meet for the transaction  
 of business on the 3rd or 4th March  
 next.  
 Nominations for the choice of a  
 candidate in Bellechasse to replace  
 Hon. Mr. Turgeon, will take place on  
 the 2nd of February next. A conven-  
 tion to choose a Government candi-  
 date will take place in that county  
 on Tuesday, next.

**ATLANTIC CITY.**  
 A pulse that denotes the success or  
 failure of a seashore season is the  
 beachfront hotel. Pleasure-seekers  
 from every large city of the United  
 States and Canada bring fortune to  
 the energetic hotel man, at the same  
 time that they are stamping Atlantic  
 City as an all-year resort of world-  
 renowned fame.  
 The Dennis, that magnificent hos-  
 telry at Michigan avenue, and the  
 Boardwalk, "pulsates" that the At-  
 lantic City season of 1908 was a  
 crowning success.  
 The Dennis maintains an unobstructed  
 view of the ocean and boardwalk  
 with its panorama of fashion. Spacious  
 sun parlors, comfortably furnish-  
 ed, will prove a pleasing winter sub-  
 stitute for the cool porch life that  
 features the Dennis during the summer  
 months.  
 Dennis patrons in all parts of the  
 country were recently pleased to re-  
 ceive a dainty seashore souvenir from  
 Proprietor Busby in the shape of a  
 pretty leather-bound memorandum and  
 stamp book.

**DAY BY DAY**  
 The Montcalm is still butting in. But  
 Quebecers will still prefer the old-time  
 butter.  
 The coal man, who thought things  
 were all coming his way, is liable  
 now to have water on the brain.  
 Spare the gates and spoil the score,  
 says the alley critic.  
 The members of the Federal Parlia-  
 ment having been officially informed  
 that there was a Tercentenary celebra-  
 tion in Quebec last summer, the busi-  
 ness of the country can now proceed.  
 Fresh children, unlike fresh paint,  
 should be sat upon.  
 A fellow may turn as red as a lob-  
 ster without being one.  
 Some fellows haven't enough push  
 to maser a wheelbarrow.  
 Some mighty big men have been  
 known to crawl out of some mighty  
 small holes.  
 A winning smile is all right, but any  
 poker player will tell you that it  
 isn't in it with a winning hand.  
 You can be a stalwart hero  
 In the fiercest of the fight;  
 You can lead the forces onward  
 Battling for the Truth and Right;  
 You can ever be a leader  
 In life's moving caravan,  
 Or be a listless plodder—  
 It is up to you, old man.

**COAL BUCKET FELL ON HIM**  
 Couldn't Walk for Two Months.  
 Worker Owes His Restoration to  
 Zam-Buk!  
 Mr. Daniel Goddard, of Bay Street,  
 Sault Ste. Marie, Ont., says: "While  
 employed superintending the unload-  
 ing of a coal vessel at Cohen's Coal  
 Dock, a heavy coal bucket in descend-  
 ing into the vessel to be re-filled sud-  
 denly overturned, grazing my left leg  
 and scraping the flesh off to the bone.  
 I was compelled to discontinue work  
 and go home for treatment, where I  
 was confined for about two months.  
 "When able to get out again I got  
 cold in the wound, inflammation start-  
 ed, the wound opened again, and for  
 another month I was unable to move  
 about. I tried all manner of things  
 to get ease and get the wound to heal  
 up, but nothing seemed able to do it.  
 Not only did everything I tried seem  
 useless so far as healing went, but I  
 could get no ease from the aching  
 and the burning pains. At times I  
 was just about crazy with the intense  
 throbbing pains, and night after night  
 got no sleep whatever.  
 "Not until my wife began apply-  
 ing Zam-Buk did I find relief. When  
 applied to the injured member this  
 balm quickly soothed the pain, and as  
 we continued using it each day  
 brought an improvement. The throbbing  
 pains were soon banished, the inflamma-  
 tion and soreness relieved, and the  
 wound thoroughly cleansed of all  
 poisonous matter.  
 "Healing then began, and in a won-  
 derfully short time—considering the  
 seriousness of the wound—Zam-Buk  
 effected a complete and lasting cure.  
 I have since had no trouble with the  
 limb at all, and it is as sound and  
 strong as before the injury."  
 Zam-Buk is a sure cure for cuts,  
 lacerations, burns, eczema, ring-worm,  
 cold-sores, chapped hands, poisoned  
 wounds, festering sores, bad leg, and  
 all skin injuries and diseases. It is  
 also a cure for piles. Druggists and  
 stores everywhere sell at 50c. a box,  
 or post free from Zam-Buk Co., To-  
 ronto, on receipt of price. You are  
 warned against harmful imitations  
 sometimes represented as "just as  
 good and cheaper."

**CLAIRE FONTAINE.**  
 It is curious, but it really seems im-  
 possible to be rich and friendless at  
 the same time.

**YOUR KIDNEYS**  
**GET WEAK**  
 And Cause Most of the Rheumatism  
 Here Says a Good  
 Authority.

Recent hospital reports show that  
 the dread disease, rheumatism, is  
 steadily increasing throughout the  
 country. All known means of relief  
 are being suggested to save the  
 great amount of suffering this winter,  
 especially among those who are not  
 in a position to pack up and visit  
 the noted health resorts to be treat-  
 ed. Recent tests prove rheumatism  
 not exactly a disease in itself, but a  
 condition caused by clogged up pores  
 of the eliminative tissues in the kid-  
 neys which fail to filter the poison-  
 ous waste matter and uric acid from  
 the blood, permitting these sub-  
 stances to remain in the veins and  
 decompose, usually settling about the  
 joints and muscles, causing the in-  
 tense pain, swelling and stiffness of  
 rheumatism.  
 The following simple home treat-  
 ment will cure Rheumatism and is  
 harmless and inexpensive, and so sim-  
 ple that anybody can mix it at home.  
 The ingredients are:—Fluid Extract  
 Dandelion, one-half ounce; Compound  
 Kargon, one ounce; Compound Syrup  
 Sarsaparilla, three ounces. Go to any  
 good prescription pharmacy and get  
 these three harmless ingredients and  
 mix them by shaking in a bottle, tak-  
 ing as a dose a teaspoonful after each  
 meal and again at bedtime.  
 There is nothing better in the world  
 for backache, kidney and bladder  
 trouble, too. Such symptoms as fre-  
 quent and painful urination, soreness,  
 weakness, general and nervous debility  
 are caused by certain acids and  
 poisonous waste matter, decayed tis-  
 sue, etc., in the blood, which the  
 kidneys will clear and purify after a  
 few doses of this prescription.

**OUR GREAT ANNUAL CLEARING SALE**  
**A BRILLIANT TRIUMPH.**  
**CROWDED WITH SUCCESS**  
 From its inception the popularity of this event has been demonstrated  
 with increasing forcefulness. The announcement of SUCH A LARGE SALE  
 offered by a house of our record and reputation, insured instant recognition.  
 But even we, accustomed as we are to appreciation of our efforts, scarcely  
 anticipated the rousing reception you accorded us. There was a reason how-  
 ever, no such values has ever been offered to the public.  
 For the balance of the week our January Sale will present even more at-  
 tractive SPECIAL bargains, and in every line we assure you a very good  
 values and the best that can be afforded.
