Ten Known Dead and Property Damage Estimated in Millions Results as Entire North Atlantic Seaboard Is Swept—Mexico Reports Great Damage and Heavy Loss of Life from Caribbean Storm—Fears Held for Nova Scotian Apple Crop.

A hurricane, runaway madcap from the tropics, sent gales raging toward the Nova Scotian and Maine coasts today after wreaking death and destruction on other parts of the United States Atlantic seaboard.

Ten persons were known to be dead in North Carolina, where the storm struck its most vicious blow. Property damage there approached \$3,000,000. Two persons drowned in Pennsylvania.

Massachusetts suffered a buffeting yesterday. Steamboat service between Nantucket and the mainland was stopped.

New York and New Jersey escaped much of the storm's wrath, but historic Barnegat lighthouse, a Jersey institution for three-quarters of a century, faced possible destruction. The storm left only twenty inches of sand between the light and the raging waves. A plan was afoot to save it by a temporary barrier.

In Mexico soldiers searched ruins for additional victims of another hurricane that struck the vicinity of Tampico and San Luis Potosi. The number of dead in those two cities was set at forty-five, with nearly one hundred and fifty injured and six thousand homeless.

HEAVY DAMAGE FEARED TO NOVA SCOTIA APPLE CROP

Halifax, Sept. 18.—Tail-end of a sweeping storm that made its battered way up the Atlantic seaboard, lashed the southeast coast of Nova Scotia and finally tapered into a thunder storm over the more central part of the province.

Howling winds and fast-dropping barometers aroused consternation for the rich apple lands through the Annapolis Valley, where about ninety per cent. of the 2,500,000-barrel crop is still in the orchards, but aside from a heavy downpour the entire area escaped unscathed. Along the south shore, fishermen, aroused from their beds early this morning by the beating of heavy seas, moved to protect their boats and gear, but no damage was reported.

The Radio Signal Service said the greatest velocity reached by the wind was thirty-two miles an hour. All vessels were reaching port on schedule despite a thick, low-lying fog this morning.

NORTH CAROLINA DEATH TOLL MOUNTS STEADILY

New Bern, N.C., Sept. 18.—The known toll of life and property taken by Friday's hurricane as the storm swept the north Carolina coast Friday night and Saturday was gradually increased today as reports trickled in from outlying sections with improvement in communications.

Ten persons were known to have died in high waters left by the storm, and the property damage estimate was climbing toward the \$3,000,000 mark.

In addition, at least six persons were on the missing list. Property taken by the storm was estimated as \$150,000. Four persons were described as "dangerous," and relief agencies moved hurriedly to provide food and other necessities.

Pamlico, Cartaret and Tyrrell counties apparently were the hardest hit. Four persons were known to have died in Cartaret, four more in Tyrrell, and crops and livestock were almost completely swept away.

Communications had not yet been established with many of the banks fishing villages, and safety was expressed for the safety of the residents.

FORTY-FIVE KNOWN DEAD IN TWO MEXICAN TOWNS

Mexico City, Sept. 18.—Soldiers searched today for additional victims of Friday's hurricane as the cities of San Luis Potosi and Tampico set the total dead at about forty-five and injured at nearly 150.

Simultaneously local, state and federal authorities made plans for reconstructing the dwellings of more than 8,000 homeless persons and rebuilding damaged sections of both cities.

No accurate figure was available, but the damage was known to be at least several million dollars. Many buildings in both places were wrecked and crops near Tampico suffered greatly.

The greatest loss of life was in San Luis Potosi, 175 miles west of Tampico, where the bodies of fourteen women, fourteen children, and nine men had been recovered.

All drowned when the San Jose dam broke under the pressure of the swollen Santiago river, military authorities feared more bodies would be found when the waters receded.

Four blocks of dwellings were wiped out. About 2,000 stone houses were partly destroyed, leaving at least 3,000 homeless.

Pitiful scenes were enacted as the wall of water swept into the city at 11 p.m. Friday, when ceremonies were conducted to celebrate the 123rd anniversary of the "Grito," or cry of Mexican independence.

Damage to the city proper was roughly estimated at \$275,000. Four bridges over the Santiago river were destroyed. Train traffic to the south was halted. Communications were disrupted, delaying four hours the news of the disaster.

In Tampico and its suburbs nine persons died, and two others were killed in Ciudad Madero.

Marine authorities feared the steamers Cecilia and Rosario had gone down with twelve men. Tugs

ANGLO-U. S. DEBT DISCUSSION SET FOR OCTOBER 5th.

London, Sept. 18.—Anglo-American debt conversations are expected in London official quarters to begin in Washington on October 5th, it was learned today.

The first interviews will be between Sir Frederick Leith-Ross, of the British Treasury, and representatives of the United States Treasury.

DOMINION MUST CONTINUE AID TO WESTERNERS

Premier Taschereau Declares Canadian Unity Makes it Imperative that East Assist in Western Distress.

St. Flavian, Que., Sept. 18.—"The day must never come when the East with its vast riches will say to the West that it will no longer contribute to financing of the West, for Canada's unity as a whole is dependent on maintenance of existing conditions," Premier L. A. Taschereau told 10,000 Liberal followers here yesterday, as the party feted Hon. J. N. Francoeur, Quebec Minister of Public Works, upon the completion of twenty-five years in the Provincial Legislature.

"One of the big problems facing Canada today is the East and the West," Premier Taschereau said. "We are one nation—Canada—without a doubt, but between the East and the West are many miles of territory."

The Dominion Government was sending millions of dollars to Western Canada, and the Province of Quebec, which contributes thirty-three and one-third per cent. of Canada's revenue, Mr. Taschereau said, was contributing therefore, the same percentage as far as Federal grants to the West are concerned.

Quebec's Premier declared that Canada's banking system was firm and that there was no need for a central bank. He also reassured Quebec voters that though the province had a deficit of approximately \$7,000,000 for 1932-33 there would be no increase in taxation and no decrease in important government services.

Hon. Ernest Lapointe, former Minister of Justice, criticized the Dominion Government agreement for curtailing wheat production. "I have not much faith in birth control applied to wheat," he said. "I still believe that working, producing, saving, and paying debts are better than doing nothing, curtailing production, spending money and paying debts only when there is enough left."

Hon. J. N. Francoeur was presented with a grandfather clock from his personal friends. His electors in Claireville, Que., presented him with a gold-headed cane in token of their esteem.

MANY ON TRIAL FOR PARTS IN KIDNAP PLOTS

Authorities Appear to Have Upper Hand in Battle with Deadly Crime.

New York, Sept. 18.—The six letter word with deadly import—"kidnap"—came back to the headlines today.

Bailey and Bates, modern revivalists of a desperadoism which once characterized the "wild west," went on trial at Oklahoma City for the \$200,000 Urschel kidnaping. They were held before the opening of the trial in shackles, hand and foot, and they slept virtually under the muzzles of guardsmen's guns, so desperate does the law regard them.

At Edwardsville, Ill., the trial of five men and a woman for the kidnaping of the aged August Luer—who was released without the payment of ransom—continued.

Peoria, Ill., authorities held a man they believed to be Clyde Culbertson whom Denver police want in connection with a plot to kidnap a wealthy clubman.

A recent kidnap, too, was heard at Norristown, Pa., where the manager of the boxer, Tommy Loughran, received a phone call demanding that he pay \$10,000 according to instructions to be given later. If the money is not paid, the extortionist said, "it will be just too bad."

In Jackson, Miss., police held Clyde Crews, age eighteen, on a charge of attempting to extort money under threats of kidnaping.

Brooklyn police held Mrs. Jean Costello and John Isola on charges of attempted abduction.

Meanwhile, there were reports that a compromise could be effected between President Ramon Grau San Martin and the opposition factions which seek his retirement—the Nationalist of Colonel Carlos Mendizola, the followers of former President Mario G. Menocal, the A.B.C. and O.C.R.R. secret societies, and others.

Along with industrial unrest and the administration situation, a third problem remained to be settled, as writting as the others.

FRANCE GIVES ITS VIEWS ON DISARMAMENT

French, British and American Representatives Hold Conversations Preliminary to Re-opening of Arms Conference.

Paris, Sept. 18.—A three-point front on disarmament was the hope of French leaders today, as British and United States representatives joined them in conversations preliminary to re-opening of the Arms Conference in Geneva next Monday.

From the French point of view, the talks will have three objects:

To compare notes on charges that Germany is re-arming; to discuss a course should Germany refuse to accept a control plan which French opinion considers pre-requisite to the acceptance of any disarmament treaty, and to get backing for a French proposal for international arms control before armaments are reduced.

Captain Anthony Eden, Under-Secretary for Foreign Affairs, represents Britain. Speaking for France are Premier Edouard Daladier and Foreign Minister Joseph Paul-Boncour. Norman H. Davis is the American spokesman.

The feeling is general in France that the Disarmament Conference will enter a crucial period this fall because of the fear of Nazi Germany.

The Conference will early arrive at definite results or, informed quarters say, will be lost in war clouds.

CHINAMAN SPENT FIFTY YEARS IN GOLD MINING

Ah Look, Veteran of Gold Rush Fifty-Three Years Ago, Returns to Vancouver for First Time.

Vancouver, Sept. 18.—Out of the wilds of Northern British Columbia has come Ah Look, a Chinese. He went in during the gold rush days fifty-three years ago. And he hadn't been out since.

Ah Look munched up the Fraser River and over the historic Cariboo trail to Manson Creek, in the hinterland. He panned his gold and now he has made his pile.

When Ah Look emerged at Smithers he saw for the first time electric lights and horseless carriages. He couldn't speak English and he had forgotten his native tongue. But he could talk five Indian dialects.

He is going home to China. He figures after half a century of hard work he has saved up enough to keep him in his old age.

POPULAR WRITER IS DEAD.

Old Greenwich, Conn., Sept. 18.—Roselle Mercier Montgomery, poet laureate of the New York Federation of Women's Clubs, was dead today in her fifty-ninth year. She died at her home on Saturday.

She was noted as the writer of "Ulysses Returns" and other poems, while she contributed frequently to magazines and newspapers.

NEW CUBAN CABINET CHALLENGED BY INCREASING LABOR TROUBLES

Thirty-Seven Business Groups Threaten Holiday as Protest Against Workers' Violence—Many American Firms Boycotted—Manganese Mines at Cristo Remain Storm Centre—Negotiations Proceeding to Arrange Compromise Between San Martin and Opponents.

Havana, Sept. 18.—Increasing labor troubles challenged the strength of the week-old Cuban Government today as powerful opposition groups completed a new plan designed to end political troubles.

Americans throughout the island were said to be "nervous" as thirty-seven business groups threatened a twenty-four-hour cessation of business tomorrow to protest against workers' violence and as the number of strikes grew.

Boycotts against American firms were invoked at Manzanillo, where a general walk-out was set for today. Communists in Santiago threatened to seize American mills and banks and all American women were taken for safety to Rente, across the bay from Santiago.

American-owned manganese mines at Cristo remained a storm center. In Havana 8,000 Cubans paraded, shouting "Down with Sumner Welles," American Ambassador, and "Down with American imperialism. Unrest grew in a number of other places.

Meanwhile, there were reports that a compromise could be effected between President Ramon Grau San Martin and the opposition factions which seek his retirement—the Nationalist of Colonel Carlos Mendizola, the followers of former President Mario G. Menocal, the A.B.C. and O.C.R.R. secret societies, and others.

UNITED STATES PRODUCTION AT HIGHER LEVELS

Manufacturing for First Seven Months of 1933 Sixteen Per Cent. Above 1932 Levels, Indices Show.

New York, Sept. 18.—Manufacturing production in the United States in the first seven months of 1933 averaged sixteen per cent. higher than in 1932, it was shown today in an analysis of Federal Reserve Board indices by the National Industrial Conference Board.

March, 1933, saw the low point in manufacturing. A seventy-seven per cent. recovery in the next four months brought production close to the average of the three-year period, 1923 to 1925, the report showed.

At the beginning of 1930, iron and steel industry which last March produced only twenty-two per cent. of its 1923-25 output, and the automobile industry, which in October, 1932, produced only sixteen per cent. and last March only twenty-seven per cent. of its 1923-25 output.

In July, 1933, the iron and steel industry had risen to 100 per cent. and the automobile industry to seventy per cent. of the 1923-25 average output.

HUNDREDS OF UNEMPLOYED VETERANS WAIT FOR WORK

Some of the Men Stood All Night on Detroit Street in Answer to Promise of Jobs with Ford Motor Company.

Detroit, Sept. 18.—Hundreds of unemployed war veterans gathered around the American Legion Memorial Hall in downtown Detroit today in answer to a promise of jobs with the Ford Motor Company.

The men, some three hundred of whom had waited all night, filled the sidewalks on two sides of the building at Cass and Lafayette avenues, overflowed into an adjoining parking lot and stood four or more abreast for a block. Police estimated there were 4,500 men in the crowd.

The men were attracted by an announcement that the Legion will select 5,000 men who will be given jobs at the Ford plants in the Detroit area. The announcement said three hundred men will be selected daily until the quota is filled.

REPORTS OF SPANISH UPRISING NOT WELL FOUNDED

Madrid, Sept. 18.—Reports of an impending extremist uprising which caused police in Madrid to take precautions, were laid today to exaggerated newspaper reports which proved baseless.

Dispatches from various parts of Spain said peace and quiet reigned throughout the day.

CHINESE TODAY MOURNING LOSS OF MANCHURIA

Under Orders of Government, Millions of Chinese Are Said to Have Repeated Prescribed Oath "I Swear to Avenge This Humiliation."

Shanghai, Sept. 18.—China observed its newest "humiliation day" today to mark the second anniversary of the Japanese occupation of Mukden, which presages the establishment of the Manchukuo Government in Manchuria.

At the same time Japanese officials accused the Chinese of occupying the Jehol border town of Kiyuan in violation of the Tangku truce which in May brought to an end the Japanese campaign in Jehol province.

Chinese reports said Japanese threatened to expel the Chinese from the area, but military officials both Chinese and Japanese, said no clash was foreseen because Chinese troops entered the district to drive out bandits and then withdrew.

Under orders of the Government, millions of Chinese were said to have repeated a prescribed oath: "I swear to avenge this humiliation."

Many meetings commemorating the loss of Manchuria were held throughout the country today. Flags were flown at half mast.

Places of amusement were closed. In some respects the country was in mourning.

Business, however, was not interrupted, that "production must be maintained."

In Nanking, the capital, the day was signaled by the public burning of Japanese goods seized by an anti-Japanese association. Vernacular newspapers urged the public to "remember Japanese aggression and prepare for more."

In Shanhaikwan, Japanese directed inhabitants in a celebration of the incorporation of that Great Wall town into Manchukuo, as a delegation returned from giving a petition, asking such a move, to Governor Pu Yi of Manchukuo.

COAL COMBINES JURY TO BE CHOSEN TODAY

Quebec, Sept. 18.—A jury will probably be chosen today to hear the trial of eleven coal companies charged with forming a combine to maintain coal prices.

The presiding judge, Mr. Justice Wilfrid Laliberte, has under consideration requests of two of the companies for separate trials. Other companies have filed requests for particulars of the times and places of the alleged offences.

STEEL BUYERS STILL FAIL TO PLACE ORDERS

Industry Faces Fourth Quarter Devoid of Reserve Orders Unless Situation Changes Radically in Ten Days.

Cleveland, Sept. 18.—Unless there is a reversal of the unbalanced market situation within the next ten days, the magazine, Steel, said today, steel mills will enter the next quarter practically devoid of orders.

"Either for current requirements or for stocking," the weekly review went on, "consumers of steel continue to specify fully against expiring third-quarter contracts, but with equal unanimity they are refraining from any commitments for the fourth quarter."

"These specifications were broad enough to restrict the decline in steel production last week to one point, leaving the national average fifty-one per cent. In fact, operations were stepped up in four districts and held stationary in four."

"But this unbalanced market situation is rapidly draining backlogs away, and unless there is a reversal in the next ten days, the mills will enter the last quarter practically devoid of orders, with a consequent further break in activity. Sentiment went down perceptibly last week. For this stalemate, the confused situation arising from the new steel code is partly responsible."

"Sheets and bars are the busiest department of the industry, largely because of automotive releases. A slight stir in railroad participation in the market developed. Federal work logs increasingly in structural. Pig iron is moving well in all districts. Coke is being strengthened by the coal miners' holiday in western Pennsylvania."

"A Pittsburgh mill broke the deadlock in steel scrap by a purchase at \$13, followed by one at \$12.50, lowering the market to \$12.50 to \$13. Most smelters are willing only to take in distress lots, at distress prices."

"Steel's iron and steel index was stationary at \$31.23; finished steel at \$48.30; scrap off 12 cents to \$10.88."

MUCH-DEBATED BITUMINOUS COAL AGREEMENT READY FOR PRESIDENT

Expected Formal Signature Will Be Given to Controversial Code Today—President Given Power to Fix Wages in Several Fields—Code to Be Enforced on Non-Signers of Agreement—Retail Price-Fixing Causes Trouble.

Washington, September 18.—President Roosevelt's formal approval of soft coal's fair competition code topped today's N.R.A. programme as Hugh S. Johnson turned his energies toward retail price control plans.

Johnson expected to present the long-disputed United States bituminous coal charter to the President during the day. Wage rates for Alabama and Kentucky, which the President would fix under the code accepted by the industry Saturday night, still were being studied.

Once he receives the code, Mr. Roosevelt's signature was looked for almost immediately. Promulgation today would make it effective on October 2nd.

Before Johnson and his counsel, Donald Richberg, were a host of legal arguments on the proposed retail trade code provision for maintaining minimum retail prices at ten per cent. above the wholesale costs.

The coal code provides that workers be limited to forty hours a week; that wages shall be paid on a scale adjusted to a basic scale for skilled underground labor ranging from \$5.63 in Montana to an undetermined figure in Alabama and that they may join any union they wish.

It provides also that miners are entitled to their own representatives to check the weight or measure of coal and that they cannot be required to live in company houses. No person under seventeen years of age can be employed in a mine.

General Hugh Johnson, N.R.A. director, pointed out that the code governed the entire soft coal industry.

"It is a code for the United States," he said, meaning that non-signers were just as much subject to its provisions as the operators who put their names to the document.

Soon afterward Johnson announced a proposed "friendly aid" program, "friendly aid" in guiding local compliance boards set up to help enforce the recovery campaign.

Least the declaration of "friendly aid" should be construed as softness, Johnson attached to the regulations the warning that "any employer willfully persists in non-compliance with the agreement after being fully informed of his obligations, he is no longer entitled to the blue eagle and the Federal Government will take it away."

As cheering note in the recovery campaign's progress, the National Labor Board reported it had settled nineteen labor disputes in the last three weeks, involving nearly four hundred firms.

Another phase of the labor outlook was presented by William Green, president of the American Federation of Labor, in a statement issued here October 2nd.

"It is going to continue to be, as it has been for more than half a century, the recognized, all-embracing spokesman for American labor. That means there is no room in the United States for any other labor movement."

ACCIDENTS IN ONTARIO CLAIM SEVERAL LIVES

Two Deaths Attributed to Shock, Third to Hunting Mishap, Train Accident Took Fourth Life, while Two Other Men Were Found Dead.

Toronto, Sept. 18.—Six sudden deaths were reported in Ontario over the week-end, two of which were caused by shock. A hunting mishap was responsible for a third death, while a fourth life was taken in a train accident. Two other men were found dead, one from a fall and the other crushed to death by a huge rock.

Missing for three days, Gus Carlson, forty-six-year old Swedish farmer of Port Frances, was found by his wife on Saturday buried beneath a giant rock in a hole on his farm. Carlson had dug a hole beside the rock, intending to roll it in, because it interfered with his plowing. In some unexplained manner the huge boulder moved unexpectedly and rolled on top of Carlson crushing him to death.

Alexander Cummings, twenty, of Ottawa, was fatally wounded when he, shotgun accidentally discharged while duck hunting at Shirley Bay on Saturday. The gun was discharged when one of the hammers struck the cross piece of his canoe as he was beaching it with a companion.

Struck by a train as he was searching for dew worms yesterday morning, Maurice Fitzpatrick, forty-four, of Streetsville, was killed almost instantly. He was crawling along on his hands and knees when struck.

Mrs. Annie Jane Stidwell collapsed while watching a ball game at St. Thomas on Saturday and died before medical assistance could be summoned. She had complained of a heart pain a few minutes previous to her death.

The second death from shock was recorded at Toronto, when William Harvey Pearce, aged eight, collapsed when he thought a young girl with whom he and a number of other boys were playing with had been struck by an automobile. The youth died in his father's arms while being rushed to hospital.

At the same time Japanese officials accused the Chinese of occupying the Jehol border town of Kiyuan in violation of the Tangku truce which in May brought to an end the Japanese campaign in Jehol province.

Chinese reports said Japanese threatened to expel the Chinese from the area, but military officials both Chinese and Japanese, said no clash was foreseen because Chinese troops entered the district to drive out bandits and then withdrew.

THREE MILLION AFFECTED BY YELLOW RIVER FLOODS

Relief Commission Estimates that 250,000 Are in Acute Distress Following Recent Floods.

Peiping, Sept. 18.—Estimates compiled by foreigners in charge of the International Famine Relief Commission today revealed upwards of 3,000,000 persons affected by recent floods in the provinces of Hopei, Shantung and Honan.

The Commission stated more than 250,000 persons are in acute distress in regions where the Yellow River overflowed its banks. It was estimated 4,000 villages were inundated and 500,000 homes destroyed. The river has fallen recently.

Governor Yu Hsueh Chung, of Hopei province, meanwhile, charged Japanese military authorities with trying to force inhabitants of the Shanhaikwan area to ask for its annexation to Manchuria.

THE WEATHER

FAIR AND MODERATELY WARM.

The tropical disturbance is centered this morning just east of Halifax, N.S., and is moving north-eastward with apparently decreasing intensity; while pressure is high from northwestern Ontario southward to the Gulf of Mexico. Showers have occurred in northern Ontario and in Quebec and moderate to heavy rains have been general in the Maritimes and a gulf with strong winds and gales. It has been fair and warm in the region of the Lower Lakes, and with the exception of showers in northern Alberta, the weather has been fair in the West.

Forecast: Fresh northwest winds; fair and rather cool tonight, Tuesday fair and moderately warm.

Temperature yesterday: Maximum 73, minimum 32.

ANOTHER INFLATION STEP TAKEN BY UNITED STATES

Washington, Sept. 18.—President Roosevelt put another \$150,000,000 of federal pressure behind the United States credit expansion programme today as Southern Congressional spokesmen rallied for straight-out currency inflation.

The new federal funds were made available to the Federal Land Banks by the Reconstruction Finance Corporation to assist in the immediate refinancing of farm mortgages held by banks whose operations have been restricted by heavy portfolios of such paper.

Jesse H. Jones, chairman, announced the plan as the drive for currency inflation picked up its strongest force since Congress empowered Mr. Roosevelt to issue new currency or devalue the dollar.

The gathering here of cotton men and southern political leaders again made the inflation issue one of Mr. Roosevelt's major problems.

LOCAL PLAYERS TIED MONTREAL IN EXHIBITION

Sherbrooke Tennis Performers, Aided by "Bill" Crocker, Held Formidable Montreal Aggregation to Three-All Tie at Sherbrooke Country Club Yesterday.

The Province of Quebec Lawn Tennis Association's good-will expedition visited Sherbrooke yesterday and gave an exhibition to a fair-sized gallery of local tennis fans against a Sherbrooke Country Club squad, supported by Willard Crocker, of Sutton. The day's activities ended in a three-all deadlock, the deciding doubles match being cancelled owing to the late hour.

The exhibition gave the audience and the players an indication of Montreal intermediate tennis. Five of the metropolitan performers, captained by Jim Faulconbridge, composed the visiting delegation. They captured three of the five singles matches played and dropped the lone men's doubles attraction to the two "Bills," Crocker and Beck, in what proved to be the feature of the afternoon.

The other Sherbrooke victories were registered by Bob Dunsmore and Crocker. The former Canadian champion gave an impressive display in routing Bill Childs, of the Brooklyn Park club, in straight sets. Crocker uncorked some of the spectacular drives which helped him gain the Eastern Townships men's singles title recently to win by scores of 6-4, 6-0. Some of the Sutton player's deep back-court drives solicited bursts of applause from the spectators.

Dunsmore was forced to three sets before gaining a decision over Faulconbridge. After dropping the opening set at 3-6, Dunsmore attained better control of his strokes, acquired the match with a 6-4 triumph in the second tilt and won the deciding set with the loss of only two games.

Paul Bennett, Erson Miller and Ed. Lanthier, provincial junior champion last year and runner-up this season, were responsible for the visitors' three victories. Bennett, erratic at times, settled down sufficiently to tag a 6-1, 1-6, 6-4 defeat on A. Reid, while Miller found "Bill" Beck playing far below his usual form and took an easy 6-2, 6-2 triumph at the expense of the Lennoxville star.

Mac Dunsmore, City men's singles title holder, engaged Lanthier and although he only won seven games in two sets he gave his opponent a stern battle. The bespectacled Montrealer, who with Childs gave Sherbrooke fans their initial glimpse of tennis shorts, had too much experience in his opponent and accomplished his conquest by a count of 6-3, 6-4.

The Crocker-Beck combination was much too formidable for the Lanthier-Faulconbridge pair. Many long rallies, intermingled with a series of spectacular placements and exceptionally fine net playing, kept the fans in continuous applause throughout the short match. In the end, the more finished exhibition of the Eastern Townships duo proved too great an obstacle for their opponents to overcome and Crocker and Beck came through with a 6-3, 6-4 triumph.

Although the season is fast approaching the end, it is planned to have another Montreal squad play a

FOURTEEN COUNTRIES ARE REPRESENTED AT MEETING

First Meeting of Wheat Advisory Committee Opened in London Today.

London, Sept. 18. — Canada and fourteen other countries were represented today at the first meeting of the Wheat Advisory Committee, of which Robert W. Bingham, United States Ambassador to Great Britain, was appointed chairman.

The committee was established to take over the application of the recently signed world wheat agreement. This agreement bound producers to restrict output and consumers to stimulate the use of wheat.

Other exporting countries represented at the meeting were the United States, Argentina, Australia, Soviet Russia, Hungary, Bulgaria, Yugoslavia and Rumania. The importers were Great Britain, Italy, France, Spain, Switzerland and one of the Scandinavian countries.

SPORTING NOTES

TWO NEW CANADIAN RECORDS ESTABLISHED

Hamilton, Sept. 18. — Two new Canadian track and field records were set on the 100 yds. today, chalked up to the credit of colored Jesse Owens, sensational Cleveland schoolboy, and John Gordon, nineteen year old Detroit high school student. Owens raised the Canadian standard in the running broad jump to 24 feet 7 3/4 inches and Gordon jumped 6 feet 4 1/2 inches to better the high jump mark of Colliingwood's Jack Portland by 3/8 inch.

Owens sailed to his broad jump mark after racing to a narrow victory over Bert Pearson, Canadian sprint king, in a 9 9/10 seconds final of the 100 yards and accepting a two-yard defeat from the blond Canadian flyer in the 220. In its eight annual track and field meet Saturday, Hamilton Olympic Club divided highest laurels with invaders bearing United States colors.

Owens, United States national junior sprint champion, trailed Pearson for eighty yards in the century only to come from behind and nose out the Hamilton flyer in the tape. In the furlong, Pearson went out on top at the outset and won by a margin of three yards in the good time of 22 1/10. Owens was trailed closely in this event by Earl Deacon, of the Hamilton club.

short visit in the near future. Should present plans materialize, a senior aggregation will be brought here for an exhibition, with the pick of Eastern Townships players supplying local color.

ST. FRANCIS CLUB TOURNAMENT BEING ARRANGED

As the conclusion of a successful tennis season, the St. Francis Tennis Club will stage its annual tournament this week-end. Preliminary arrangements are being made and the draw for the 1933 play will be made Thursday evening. The men's singles aspirants are requested to get in touch with Charles Brindamour and the lady competitors with Miss Evelyn Veilleux before Thursday evening.

Bob Dunsmore will defend the men's singles title, while a new champion will be crowned in the ladies' rank owing to the absence of last year's holder of the Church trophy, Mrs. Norman D. Lowe.

TWO SENTENCED ON CHARGE OF HAVING DRUGS

Fabien Guerin and Rene Desforges, New York City, Appear Before Court in St. Johns.

St. Johns, Sept. 18. — Fabien Guerin and Rene Desforges, giving their addresses as New York City, were sentenced to six months in jail, plus a \$500 fine each, when found guilty of having been in possession of narcotics. The sentence was imposed by Judge Lalonde, district magistrate.

Guerin and Desforges had been arrested last August by preventive officers of the narcotic squad, at Cantic, while crossing the border from the United States into Canada. Preventive officers had been informed that they were on their way to Montreal with narcotics and had kept a close watch of all persons entering Canada from the United States. Their vigilance was rewarded when the two men were placed in custody at Cantic, and brought to this city where they were both found guilty of possessing narcotics.

MOTHER OF DEPOSED CHIEF APPEALED TO KING GEORGE

His Majesty Asked to Bring About "Release" of Chief Tshakedi, Suspended After Flogging of British Subject.

Johannesburg, Union of South Africa, Sept. 18. — A poignant appeal was addressed to King George today by the dowager Queen of Bamangwato for the "release" of her son, Tshakedi, who was suspended as chieftain of Bamangwato after an inquiry into the flogging of a white man by a native court.

YOUNG LAD IS WITNESS AT REICHSTAG INVESTIGATION

Fourteen-Year-Old Kurt Torgler, Son of Imprisoned German Communist Leader, Told of His Father's Movements on Day of Fire.

London, Sept. 18. — Kurt Torgler, fourteen-year-old son of an imprisoned German Communist leader, today told an international legal commission of his father's movements on the day the German Reichstag building burned.

The unofficial committee resumed its hearings this morning on the blaze, for which they seek to fix the blame, whether on Communists, and as German Government leaders in charge, or the Nazis themselves, as was suggested at the hearing last week.

Young Torgler, a handsome, self-possessed boy, said that on February 27, when the parliament building partly burned, his father and sister kept an appointment with a journalist, and discussed election prospects.

CHARGE BRITISH SCHOLARS MALTREATED BY BELGIANS

Reported to Have Been Jailed and Abused by Passport Officials on Return from Germany with Swastika Emblems.

London, Sept. 18. — Thirty-two British schoolboys returning from a tour of Germany were stopped yesterday and forced to dispose of swastika emblems before they were allowed to cross the Belgian frontier. THE MYSTERY OF LIFE.

George Gordon Payne.

The road of life is long and dreary, And leads but to the grave; But the hands of courage save the weary And golden moments pave.

If truth were known and facts were bare And met us face to face, Those future woes we would not share As we do in every case.

For a vital spark burns in our soul To keep ambition bright, And thus leads us to our chosen goal By its gleaming light.

WE PAY AND WE PRAY WHILST WE DRIFT.

When the politicians first began the general attack on railways on this continent the transportation companies were making money and paying from six to ten per cent. in dividends. The country was prosperous.

Envy and jealousy inspired the attacks, and the railways helped themselves into the mire by hiring professional lobbyists who invited the harriving political racketeer to further blackmail. That is the bald truth.

Then came the public ownership theorists who did not know that the bottom had dropped out of profits but did know that railways were indispensable to the country.

Along came gasoline trucks and politically-managed railways to provide devastating competition, while the railway operators found their hands tied behind their back by the Railway Commissioners and the Railway unions.

Who started these absurd movements, anyhow? Business went to the bow-wows, and only those with super-men at their head could survive.

The people pay higher rates on both passengers and freight, and on top of that each and every one of us pay \$10 a year for the privilege of calling a railway our own. This railway drifts along at a staggering loss to the country.

In the United States the net railway income this year earned but 1.64 per cent. on the invested capital, or less than the savings banks pay.

We continue to pay taxes with a grim grin—Federal taxes, provincial taxes, municipal taxes, and fifty-seven varieties of irritating taxes. We pedal along, pushing ahead an added burden each year, while we pray for the candidates for public office who have a true conception of the danger ahead, and who have the courage to cut expenses and rid the country of the omnivorous taxgatherers.

We want men with Empire conception who will dip into details. We need them sadly.

TORONTO AND GENERAL DRAPER.

Toronto is in the throes of criminal palpatation, and some of the newspapers have apparently set out to destroy the morale of the police and to get the scalp of Brigadier-General Draper, who has been fighting the criminal class and the trouble-makers with their own choices of weapons.

The penitentiaries, established for the punishment of wrong-doers, of thieves and thugs, of men who are evil in mind and body, are being held up as places of torture. Some men would have the penitentiaries made into play-houses, where all sorts of games and pastimes could be indulged in at added expense to the taxpayers. With tearful sympathy they would have a Bank Robbers' Baseball team and a Bandits' Hockey Club, with the finals in the Penhouse League to be between the guards and the cooligans.

It is to be hoped that in the interests of peace and justice this hysteria will pass. The Chief Constable stands firm and adamant ever since the body of Police Commissioners has been filled with his critics.

General Draper was first attacked by the spellbinders of the Communists, and is receiving no support now that the high-binders are after him.

Criminals are being attracted to the city because of the efforts to traduce a high-minded police chief and a strict disciplinarian. The Toronto Globe, which has ever stood strong for a clean city, rebukes those who would weaken a firm administration of the law, and chastises those who, being led by the Mayor, have adopted the plan of "Anything-to-get-Draper."

The Globe describes it as "an amazing situation," and believes that that the Board of Police Commissioners will make a serious mistake if they do not get to the bottom of the conspiracy.

Perhaps the most amazing of all the incidents, since the release of a bank-robber was effected by the city authorities, is an attack on the Chief because he accepted the suggestion of one of his inspectors to withdraw a charge of fast-driving, laid against a

touring visitor returning to Montreal from the World's Fair. This young man was the respectable son of an Ottawa Cabinet Minister. The anti-Draper newspapers deplore this courtesy to a distinguished visitor.

The Mayor of the City used as evidence against the Police Chief an anonymous letter, written on hotel stationery, and with the typed signature, "James De Gonacher."

Altogether, as the Globe asserts, the conspiracy of the Mayor to "get Draper" is a poor advertisement for the city, and will speedily place Toronto as a city to detour until they have a new Mayor.

"This sort of reputation, on the eve of Toronto's Centennial, when the city is eagerly asking and seeking the advent of thousands of friendly and enthusiastic visitors, is displaying the 'keep out sign,'" states the Globe.

"People who may be counted upon to mean much to business houses and enterprising households, will find it seriously damaging. If Toronto purposes, instead of warning them courteously, to entrap its guests, send them to the police station and have them searched and threatened with the cells—and have such procedure commended by the Mayor—there is little prospect that the centennial will attract many. . . .

"Crooks and criminals, concerned solely over the clash between civic politicians and police activities, naturally regard Toronto as a place of opportunity.

"Under the stern administration of General Draper, this city has been a bad place for criminal operations. Every major crime attempted by the underworld, has been solved, and the miscreants brought to justice. Householders have felt safe."

The Mayor forgets that mayors may come, but mayors do go, often sinking into oblivion. He has sought to make the nucleus of a Tammany Hall, whilst the Police Chief stands on the merit system. Quebec is interested, inasmuch as General Draper is a distinguished son of the Eastern Townships, and we all know his sterling worth.

INTERNATIONAL UNIONS CANNOT HAVE UNION OF THOUGHT.

The dismissal of Senator Murdoch as vice-president of the United States Brotherhood of Trainmen may lead to a severance with the international union. The Yankee viewpoint seldom coalesces with the Canadian view, for the conditions are totally different. There thus arises a feeling of distrust by the employing railways, which only leads to unrest and continuous disturbance.

Many Canadian trade unions find themselves hampered by their United States affiliations, and feel they would be well out of the alliance.

The people, as a whole, do not approve foreign connections, and the International do not have their sympathy or support. This sympathy is always necessary to a successful fight with the thrifty builder of commerce and trade.

We seldom can approve the public or political utterances of Senator Murdoch in his effort to be a labour dictator, but his dismissal on the allegations advanced by his insider-enemies will have a tendency to strengthen him.

EDITOR'S NOTE BOOK.

One lesson in economy stands out in the Nova Scotia elections which the other eight provinces might well take into consideration. Where there were forty members for 500,000 people the number of electoral divisions were reduced to thirty, which alone is a substantial saving to the province. Again, Nova Scotia abolished its Upper House altogether under the late administration. This was drastic, but it was done so long ago that the electors forgot.

Cleaning out the fakirs who fester the County Fairs with their gambling devices may not meet with the approval of the aged Sweepstakes in Canada, but it has certainly resulted in a larger attendance and a deeper interest in the features which make a County Fair attractive. Any man who thinks twice will not sell a permit to a lot of rascals who would aim to victimize their neighbours.

Cuba fears the United States because that country freed them from the rule of Spain. Ingratitude is a sign of weakness of intellect; and Cuba seems to have reverted into "just another South American republic," unstable and irresponsible.

Laddies, use the word "chap" when you speak of "that guy," for guy is guttery, and folks may think you were born on Common street in Montreal.

THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record. September 18th, 1903.

Windsor Mills was set on the path of municipal ownership, the council deciding to enter the electrical business on the deciding vote of Mayor H. Marcotte. The plant cost so much that it was afterwards sold.

Mayor William Farwell, of Sherbrooke, in addressing an Ottawa gathering declared: "Federal and municipal ownership provide nothing more than a sink-hole for public money."

President Roosevelt had a narrow escape from disaster when his yacht was swept out to sea by a storm.

M. W. Mitchell and J. A. Cook, returning from a trip to Atlantic coast resorts said they preferred the Sherbrooke climate to tropical storms.

Mrs. Frank Grundy, Mrs. W. Duncan Smith and Mrs. Frank Wilson entertained the weekly tea of St. Peter's Guild.

An Ottawa engineer reported the discovery of a large coal seam on the Gatineau river, but as usual the investors in the mine were undermined.

Clarence Drake and Mrs. John Spafford, of Compton, both had their barns and season's crops destroyed by fire.

An unofficial committee was formed to rid the city streets of beggars.

Reports from all parts of the Townships tell of unusually large crop of grain and potatoes.

Mr. and Mrs. B. C. Doyle, East Sherbrooke, entertained forty young friends of their daughter, Miss Eva.

WAR MEMORIAL UNVEILED AT PHILIPSBURG

Many Attend Impressive Service at Philipsburg School Grounds on Saturday Afternoon.

Philipsburg, September 18.—In the presence of a large gathering, Miss Dorothy French unveiled a very impressive war memorial at Philipsburg on Saturday afternoon. The erection has been delayed over a period of years, through lack of a suitable site. The building of a new school, with extensive grounds, afforded the desired setting for the memorial, the site being admirable in every way. It is located near the old parade ground of the Imperial forces when stationed at Philipsburg in years long past.

The memorial of local stone and craftsmanship is simple in design. The coping stone tells the story of the Canadian contingent in Belgium and France. The inscription is in both languages reading as follows: "In honor of those of this district who served with the forces and in abiding memory of Capt. Bertrand St. George French, Russell Deuel, Antonio Rheuma, J. W. Fletcher, Rosario Lariviere, Albert Edward Wells, Lt. Leslie C. Ramsay, Lt. James W. M. Ramsay, Flight Lt. Langley F. Smith, D.S.C., R.N., who laid down their lives in the service of the Empire and her allies."

Geo. H. Montgomery, K.C., D.C.L., presided over the gathering. Prayers were recited by Rev. Father Chas. Hetu, parish priest of Philipsburg. Rev. Mr. Tripp, of the United Church, read the Scripture, and the dedication was performed by Rev. W. G. New, rector of Philipsburg.

The last post was sounded by a trumpet from St. John's Barracks who was present through the kind permission of Col. Caldwell, commander at St. Johns.

Many wreaths were placed at the foot of the memorial, and a large number of ex-service men attended in a body, as well as the children from the Protestant and Catholic schools.

It always comes on the first of the month. Now Mamma can pay the bills.

YES, thanks to a husband's love and forethought, here is another home protected by an Imperial Monthly Income Policy.

Here are two children who will have cause to bless their daddy's memory. There is a widow who will breathe a prayer of thankfulness each time the Imperial Life cheque comes, a pledge of safety amid a changing world.

To ensure your wife and children an income of \$50, \$75, \$100 or more per month, should you pass on, might not seem much in comparison with what you are doing for them now, but it is amazing what a woman can do with even a small income, if it is regular.

A few dollars saved every year from money you now readily spend or invest in other ways would make certain this guaranteed income to your family.

More than that—the income can be planned to come to YOU in your later years when your earning power will decrease and when a regular cheque would be very welcome.

LEGION FORMED NEW BRANCH AT BURY SATURDAY

H. Keys Appointed President of Branch 44 of Canadian Legion B.E.S.L. — Installation Ceremony Conducted by Major W. W. Foote.

That the activities of the Canadian Legion are growing rapidly and gaining influence in the Eastern Townships was indicated at Bury on Saturday evening, when a charter was granted for the formation of a new branch to be known as No. 44 and officers for the ensuing year were installed.

Over fifty legion members gathered in an informal "get together" at Bury for the occasion, and the installation of the new lodge was conducted by Major W. W. Foote, vice-president of the Provincial Council, assisted by E. J. Struthers, of Rock Island, a director of the Provincial Council.

Seventeen members signed the application form and were installed as members of the new branch. The officers appointed for the rest of the present year were: President, H. Keys; first vice-president, Col. H. H. Robinson; second vice-president, W. Stormont; secretary, C. Smith, and treasurer, W. Straps.

During the evening, addresses dealing with different aspects of Canadian Legion work were delivered by Col. H. H. Robinson, M.C., of Sawyerville; Mr. Rowley, president of the East Angus branch; Major Scowen, Capt. A. Whitehead and others. Major Foote outlined

PACKED HOUSE AS VICTORIA OPENS DOORS

Attractive Moving Picture House on King Street West Re-Opened Under Management of William Hall Yesterday—Obligated to Turn Hundreds Away.

With every seat filled and standing room at a premium, hundreds of people were turned away from the Victoria Theatre, attractive moving picture house that has re-opened under new management after being closed for almost two years, yesterday afternoon and evening.

For the past five weeks, workmen have been busy renovating the interior and exterior of the building, and the Victoria today is a spotless and smart movie house ready to cater to a large public. A "talkie" system has been installed and the new manager, William Hall, who is not unknown to Sherbrooke cinema fans, has booked a long run of excellent pictures and intends to operate a first class theatre.

"We will be presenting a double bill of first class pictures," stated Mr. Hall to a Record representative. "We intend that every performance will meet with the approval of the public."

Mr. Hall managed the Victoria six years ago when silent pictures were still the vogue. He was in charge of the King street west picture palace for several years, and then moved to Verdun City, where he operated the Palace Theatre.

Presenting Eddie Cantor in "The Kid from Spain" and Marlene Dietrich in the "Blonde Venus," the Victoria gave a continuous performance yesterday from one o'clock until eleven. It was a case of a crowded house during the afternoon and evening, and it was only during the supper hour and early evening that admittance could be gained.

"I've been obliged to turn them away by the hundreds," the new manager smiled as a Record reporter entered the theatre and saw for himself that there was a crowded house.

"The Kid from Spain" and the "Blonde Venus" will be featured at the Victoria until next Wednesday.

the objects of the Legion, stressing the importance of forming a branch in Bury.

An entertainment was enjoyed during the latter part of the evening and luncheon was served.

DEATH OF WELL-KNOWN ROCK ISLAND LADY

The death occurred in Rock Island yesterday after several weeks' illness of a well-known and highly esteemed lady in the person of Mrs. F. W. D. Maloon, who passed away at her home.

Mrs. Maloon had a large circle of friends in Rock Island and the Eastern Townships and her death is widely mourned.

Deceased leaves her husband and one daughter, Mrs. W. W. Lynch, of Sherbrooke. The funeral will be held on Wednesday afternoon at two o'clock at Rock Island.

SPECIAL PREACHERS AT TRINITY UNITED CHURCH

The preacher at yesterday morning's service in Trinity United Church was Rev. James A. Payton, B.A., B.W., of the United Church at Gould. Rev. Mr. Payton gave a very impressive message on "The Purpose of the Church," in which he pleaded for a more spiritual conception of the Church's function in the life of the community.

The music of the service included the anthem, "Great and Marvelous," by Turner, by the choir and of the base solo, "He That Dwelleth," by Macdermid, sung by James Keough.

In the evening, at the Union service for Plymouth and Trinity Churches, Rev. Cecil King, of Christ Church Cathedral, Montreal, spoke to a more than ordinary-sized and very appreciative congregation on the Oxford Group Movement and its results. Rev. Dr. E. Read had charge of the service, assisted by Rev. J. A. Payton, Rev. Mr. Lennon, the pastor of the church, was not present at either services, being engaged in conducting the eighty-third anniversary services at Gould. The special music in the evening at Trinity Church included the anthem, "At Even, ere the Sun Was Set," by Turner, and a solo by Miss Eleanor Wheeler, "My Prayer," a composition of Welch.

SIX PERSONS WERE INJURED IN ACCIDENTS

Five Coaticook People Sustained Quite Serious Injuries when Automobile in which they were Travelling Collided with Another Vehicle Near Waterloo — Sherbrooke Girl Injured Near Magog.

As the result of two motor car accidents that occurred on the Sherbrooke-Montreal highway over the week-end, six persons are in the St. Vincent de Paul Hospital today suffering from rather serious injuries.

Five Coaticook persons were injured in one accident early yesterday morning, when the car in which they were travelling in the direction of Waterloo collided with another vehicle while rounding a curve.

The injured were Mrs. Joseph Munier, fifty-three years old, suffering from cuts to the face and head; Leo Munier, twenty-one years old, who sustained a gash in the head; Lea Munier, seventeen years old, who fractured her right leg; Maurice Belisle, twenty-one years old, suffering from a sprained foot, and Laura Hebert, twenty-three years old, who sustained a bad shaking up and is suffering from nervous shock. The driver of the car escaped uninjured.

Miss Marie-Ange Bolduc, 63 First avenue, Sherbrooke, is also confined to the St. Vincent de Paul Hospital suffering from a severely crushed foot, an injury sustained when the car in which she was an occupant overturned in the ditch near Magog. Her condition is not serious.

SMOOTHNESS IS PROMINENT IN AUTUMN STYLES

Woolen Materials for Autumn Show Preponderance of Fancy Textures—Color Brings About Contrasts in Coats and Dresses.

The woollen materials for the autumn show a preponderance of fancy textures and a tendency towards greater smoothness, writes a London correspondent. There are many harsh surfaces, but there are no such surface knots as there were in coat materials last year. Stripes and checks are shown and also a number of new hairy cloths, some of angora wool in both coat and dress weights.

There is a good deal of color, and this will bring about contrasts in coats and dresses. Many new coatings have no cross-weight material, and the dresses worn with them will be of light-weight woollens. Among the new colors is aubergine, which suits some of the hairy angoras, and there is a green which looks as if brown had been mixed with blacklead, a dull tone of some of the knitted materials, is used in plain coat allied with bold black and white checked tweed. Colored stripes are varied and there are fine diagonal stripes in autumnal colors of burgundy, plum, dark red, and green, allied with mole, beige, and natural. From these striped materials horizontal, perpendicular, and chevron effects can be built up in big coats and short coats, and on the hip-line of the tubular skirts.

Smooth cloths with a velvety finish are different weights for coats and dresses and are in solid soft colors of autumnal shades. Among

berets of the season. Suede and antelope are also being used in the same way as velvets.

San shines forth an important hat material for early fall. It will be a delightful complement to the many satin dresses that are making their appearance. It is interesting to note that some milliners are using the same satin in hats that is being used in shoes because of its ability to hold shape well.

Many hats will be seen fashioned of the ribbed materials... bengaline, faille, and even corduroy. Tafeta is also shown in some of the new beret types.

Among the revivals of the 1900 period are feather trimmings. Don't expect to see birds of paradise, but do look for hats where the feather is more than just a detail. In many berets it completes the styling of the hat, and gives it the dashing look you require. Besides feathers there are innumerable hat ornaments that look smart on hats that pull down over the eye. Ribbon bows, coardes, and fancy buckles are also at important part of the fashion picture.

This is one season when not a single woman will be able to say, "I can't wear the new hats." For there are so many shapes that every person can find the one most becoming to her. There are berets in enough versions to make everyone happy. There are plenty of tailored toques that are almost universally becoming. There are countless brimmed types, among which is the visor which has an altogether new and charming look.

LENNOXVILLE

REMAINS OF E. DAWSON INTERRED NEAR FORMER HOME

On Thursday, the remains of the late Edward Dawson, foreman for many years at Lennoxville Experimental farm, were taken to Randboro for interment in the cemetery near his boyhood home. The hearse was followed by a long cortege of motorists filled with members of the Experimental farm staff and its employees, and other neighbors and the many friends Mr. Dawson had made during his life in Lennoxville.

The bearers were Messrs. Albert, Joe and Rufus Riddle, of Randboro, and Henry Riddle, of Beecher Falls, Vt.

The family prayers at the house were said by Rev. A. Jones of St. George's Church, Lennoxville, and the funeral service at Randboro Anglican Church was in charge of Rev. Vibert, of Sawyerville.

Mr. and Mrs. Dawson, both of whom are now deceased, left one daughter, Mrs. Robert Smith, of Beebe, another member of their household from her second year was Mr. Dawson's niece, Pearl, who, now Mrs. Eugene Douglas, of St. Johnsbury, Vt., sincerely mourns the loss of a loving foster father.

General Notes

Mr. and Mrs. Roy S. Clarke have returned from an enjoyable motor trip through the White Mountains. Friends of Mr. Oscar Statton will be glad to learn that he is slowly recovering after his recent lengthy illness.

The fancy materials in solid colors is a corduroy bouclet, which is produced by a well-known Scottish manufacturer; this is good in green, wine, navy and nigger-brown. A British made woolen material called "Bramble," which was successful last season, is now made in half-a-dozen more colors. There are some new British coatings with a shadow diagonal on a slight bouclet surface, which are likely to be acceptable for two-piece suits and there is another British coating with a corrugated chevron design, which can be matched up in a light-weight velour cloth for dresses.

Novelties from the Ilota group of Yorkshire manufacturers are of interest; a number of them have been taken up by Paris model houses. Of these Surfliota, which is a harsh and slightly hairy fabric in a basket weave, is for the coats of sports ensembles, and is to be allied with other Ilota cloths for the blouse and skirt. A more definite surface like a broken diagonal woolen material called "Bramble," which was successful last season, is now made in half-a-dozen more colors. There are some new British coatings with a shadow diagonal on a slight bouclet surface, which are likely to be acceptable for two-piece suits and there is another British coating with a corrugated chevron design, which can be matched up in a light-weight velour cloth for dresses.

Velveteen with a wide flat rib is another autumn material. It is a Manchester cloth, and is already being shown in early autumn coats and skirts, and it is also shower-proofed. Its range of colors is large, and the brown and green are particularly good.

UNIONISTS WILL CONTEST BRITISH COLUMBIA SEATS

Premier Tolmie Denies Cabinet Split Over Fighting of Election — Only Three Government Candidates Named.

Victoria, Sept. 18.—"As far as this Government is concerned it will contest every seat in the Province," stated Premier S. F. Tolmie of British Columbia last night, replying to published reports there had been a "split" in the cabinet over the question of fighting the election.

"Those statements are nothing but political propaganda and are wholly without foundation," stated the Premier. He added he was preparing a complete statement of policy which would be issued this week.

The election date is November 2nd and so far only three Tolmie Unionist candidates have been definitely named.

SENATORS AND GIANTS NEAR WORLD SERIES

Washington Requires Three Victories and New York Two Decisions to Clinch Respective Pennants—New York Yankees and Pittsburgh Only Remaining Contenders.

New York, Sept. 15.—The New York Giants and the Washington Senators stood at the threshold of baseball's throne room today, ready to step over at a moment's notice and accept the crowns as 1933 champions of the two major leagues.

Each had disposed of all but one rival in the struggle for the remnants and the schedule today made it possible, with just the right combination of victories for their opponents and defeats for their opponents for both of them to clinch the flags.

Of the two the Giants were a trifle closer to a certainty. By defeating the St. Louis Cardinals by four to three yesterday on a combination of Mell Ott's twenty-second home run of the season and Adolfo Luque's fine relief pitching, they eliminated the Cardinals as contenders.

Assuming a Giant victory today and an even break for the Pirates, Pittsburgh could go ahead and win all the nine games it would have left and the Giants could drop ten and still win the clubs would finish with this standing:

Table with 3 columns: Team, W, L, P.C. showing standings for New York, Pittsburgh, St. Louis, Cincinnati, Boston, Philadelphia, Detroit, Washington, Cleveland, Chicago, and Boston.

The Senators, nine and a half games ahead of the New York Yankees and with ten games to go against thirteen for their rivals, needed three decisions to clinch the American League pennant. And all three were on the programme today with Washington playing against the St. Louis Browns and the Yankees against the Chicago White Sox in a double-header. Given a double defeat today and a Washington triumph, the closest the Yankees could come would be this:

Table with 3 columns: Team, W, L, P.C. showing standings for Washington, New York, Pittsburgh, St. Louis, Cincinnati, Boston, Philadelphia, Detroit, Washington, Cleveland, Chicago, and Boston.

The Senators helped their cause along yesterday by coming from behind in the ninth inning to score two runs on Buddy Myers' single with the bases full and two out and defeat the Detroit Tigers by four to three. The Yankees out of the Washington margin a trifle without doing any serious damage to the Senators' pennant prospects as they took two games from the Cleveland Indians by three to two and by six to one.

Russ Van Atta and "Lefty" Gomez pitched fine ball for the Yankees, the latter turning in a three-hit, thirteen-strikeout masterpiece in the second game and Babe Ruth whacked a homer in each contest to bring his season's total to thirty.

Chicago's Cubs also won a double-header, beating Brooklyn by a six to five count in each contest, but the one Giant victory left them too far behind in the pennant race to catch up in the seven games they have left. Ray Dandridge managed to outlast three Dodger hurlers in the opener and relief flinger Pat Malone won the second game by driving in Bill Campbell with the odd run.

The Cincinnati Reds threatened to climb out of the National League cellar as they took two games from the Boston Braves by five to two and by six to nothing to finish only a point behind the idle Phillies. Larry Benish pitched six innings in the opener and Paul Derringer followed up by hurling a four-hit shutout to break a string of eight defeats. Boston errors aided considerably in the Reds' scoring.

The closing double-header between the Chicago White Sox and the Boston Red Sox was rained out, while the Philadelphia and Pittsburgh clubs in the National League and St. Louis and Philadelphia in the American circuit had open dates.

ROCHESTER DOWNED BUFFALO IN FIRST GAME OF FINAL SERIES. Rochester, N.Y., Sept. 15.—Ray Schalk is wondering what jinx the Red Wings have at Red Wing Stadium on his Buffalo. Boston's "Big Six" Wings won eleven of twelve in the regular season on their home lot and continued to win by beating the Herd yesterday by one to nothing in a well-played contest, first of the final playoffs for the championship of the International League.

Just ten days ago at Buffalo the Bisons won three of four from the Red Wings to get in this playoff and the visitors figured they could knock off the Herd. Boston's "Big Six" as they did Baltimore.

The Bisons took three straight from Baltimore and the Wings took three straight from Newark after losing the final. Thus Rochester ran its streak to four straight while taking the first of the Herd. Kaufman outpitched Gallivan in the matter of hits, while Gallivan had the best of it on control. But Gallivan also had an error behind him, followed by a rining two-base hit off the bat of Ray Pepper. Brooklyn pitching for five hits, Buddy Meyer, Senators—Batted in winning runs against the Tigers with ninth inning single.

Adolfo Luque, Giants—Limited the Cardinals to three hits in four and two-thirds innings of relief in a row by achieving their third straight victory over the champions by nine to seven. The Wings spotted the Bruins five runs in the first three frames and then came from behind with a six-hit attack off Jim Weaver in the third for

MAY PARTICIPATE IN WORLD AMATEUR HOCKEY SERIES

Montreal, Sept. 15.—Canadian hockey men wishing to participate in the world amateur hockey tournament which will take place in Paris this winter must first obtain permission from the Canadian Amateur Hockey Association, President Frank C. Greenleaf stated in an interview.

Last year, the National Sea Fleas, of Toronto, went into this series which was staged in London. To date this year, President Greenleaf said, the only clubs to which he would be prepared to grant permission to undertake the trip are the St. John's Quakers and the Moncton Hawks. These clubs, Alton C. Peabody stated, are the most dangerous rivals. Two more decisions were needed to drop the Pittsburgh Pirates out of the race, and the Buccaneers were scheduled for a double-header against the Phillies today, while the Cubs played their second game at St. Louis.

Assuming a Giant victory today and an even break for the Pirates, Pittsburgh could go ahead and win all the nine games it would have left and the Giants could drop ten and still win the clubs would finish with this standing:

Table with 3 columns: Team, W, L, P.C. showing standings for New York, Pittsburgh, St. Louis, Cincinnati, Boston, Philadelphia, Detroit, Washington, Cleveland, Chicago, and Boston.

B. HOLTHAM AND DUNLAP IS NEW ED. WOLFE WON AMATEUR GOLF CLUB TROPHIES

Holtham Won Third Country Club Title by Defeating H. A. Peabody Yesterday, While Wolfe Captured Turnbull Handicap Cup by Scoring Over D. T. Diplock on Saturday.

The record which Gordon Miller established last year by winning his third Sherbrooke Country Club golf title was equalled yesterday when Bartley Holtham captured the Mackinnon Cup, emblematic of the championship of the local eighteen-hole course. By the decisive margin of seven and six, Holtham defeated H. A. Peabody to become Miller's successor as the near of the Country Club players and place his name a third time on the coveted trophy in the other feature match over the week-end, Eddie Wolfe became the possessor of the Turnbull handicap cup by gaining a two and one decision over Dave Diplock.

Playing a sterling brand of golf, Holtham was headed but once in the early stages of yesterday's thirty-six hole final. At the end of the eighteen-hole morning round, the former title-holder held a margin of two holes, increased his advantage to five holes at the twenty-seventh and finished the match on the thirtieth with a seven-hole lead.

Peabody collected his only lead when he won the third hole of the morning round after the first two holes had been halved. Holtham evened matters by capturing the fifth and forged in front by taking the next three holes, negotiating the sixth and seventh with birdies. The eighth was halved and Peabody gained the verdict on the ninth to finish the outgoing nine with Holtham holding a two-up lead.

Peabody whittled his opponent's margin by winning the tenth but Holtham snared the eleventh and twelfth. The thirteenth, fifteenth and seventeenth were halved, while Peabody came out on top on the fourteenth and eighteenth after Holtham had snared the sixteenth. Peabody's customary steady putting touch failed him at crucial moments and his failure on the greens together with Holtham's almost flawless marksmanship, left him trailing by two holes when the morning round was completed.

A birdie three on the twenty-fourth after the nineteenth, twentieth, twenty-second and twenty-third had been divided and Holtham had increased his margin on the twenty-first, put Peabody back into contention and Holtham blasted his hopes by reeling off the next four holes, accomplishing his third birdie with a four on the twenty-eighth. The twenty-ninth was halved and the match ended when Holtham took the thirtieth with a par three, leaving the round on a tie. Peabody captured the thirty-third on a birdie three, while the remaining five holes were halved.

Holtham toured the thirty-six holes in 158 strokes, while Peabody's card totaled 165. The thirty-third hole was the turning point in the Wolfe-Diplock battle. During the week, the two Turnbull Cup finalists had completed eighteen holes all square after Wolfe had accumulated a four-up margin when the seventh was reached. Saturday's game was an almost exact replica of the first play-off, Wolfe accumulating a four-hole advantage when the eleventh was attained.

Diplock's rally cut his rivals' margin in half, but Wolfe naived the thirteenth and won out on the thirty-fifth after Diplock had sandwiched a win on the thirty-fourth. Both finalists, Wolfe with a handicap of eighteen, turned in identical gross scores of ninety-two during Saturday's play.

MATHIAS ALLEY WON LOCKER ROOM CHAMPIONSHIP. Phil Mathias' No. 2 alley banked the Sherbrooke Country Club directors on Saturday when it captured the locker room title. In the very near future, the players banded in this row expect to be able to dress, not by the lighting system which filters through the locker room windows, but by means of electricity. Prime Minister Mathias will make this policy his principal aim when he submits his slate of requirements to the "powers-that-be."

A shout which could be heard from the Country Club fairways to the St. Francis bunkers when the statisticians announced that the Mathias "merrymen" had made good their boast. Their eight best gross scores totalled 750 strokes, twenty strokes better than Jack Simms' alley No. 3's aggregate. Bart Holtham's No. 1 row final had third, five strokes behind second place.

The respective scores of the eight members of the three teams were as follows: Alley No. 2, Don Johnston 85, Earl Peabody 86, Earl Fidler 89, Dr. M. Beaton 92, Claude Spafford 92, Sam Wood 94, Ernest Amnidge 96, and Philip Mathias 96. Total 750.

Alley No. 3, Len O'Donnell 85, J. M. S. Macdonald 89, Fred A. Baldwin 91, Eddie Wolfe 92, Charlie Stead 93, Philippe Dion 93, Evans Joslin 103, Larry McGarron 104. Total 750.

Alley No. 1, Harold Peabody 82, Bart Holtham 84, D. A. McLanahan 91, Dave Diplock 92, Eric Webster 93, Dr. W. W. Lynch 97, W. Terry 104, W. M. Mather 112. Total 755.

A man from Montreal was peering into the depths of the Grand Canyon. "Do you know," said the guide, "that it took millions of years for this great abyss to be carved out?" The man from Montreal was tremendously impressed. "You don't tell me," he commented. "Why, I didn't know it was a government job."

Twenty-Four Year Old New Yorker Became Second Youngest Amateur King by Scoring Six and Five Victory Over Veteran Max Marston, Champion in 1923.

Cincinnati, Sept. 15.—George T. Dunlap, Jr., the New York boy who concentrated on developing his golf game because it was good for his health to be outdoors, has now achieved the third and the greatest feat since becoming the new amateur champion of the United States.

For two years and for old Princeton, too, Dunlap won the highest intercollegiate golfing honors of this country. Last year he was selected for the American Walker Cup team to represent the United States in the most spectacular golf of the international series with England at Brookline.

On Saturday, as the climax to a triumphal march through the field at match play, the twenty-four year old New Yorker defeated Max R. Marston, of Philadelphia, by six and five in the final round of the national amateur tournament.

If he has any other special objective in mind, it is to carry off the British amateur title too. He came close to achieving the double victory this year, for he reached the semi-finals of the British championship at Hoylake after a victory over the Canadian ace, C. Ross Somerville. It was Somerville who turned over possession of the American title trophy on Saturday to Dunlap.

The new standard-bearer is the youngest amateur king since Bobby Jones scored his first victory in 1924 at the age of twenty-two. He shot a heart-breaking six-eighty-eight in the morning round on Saturday and put the game on ice.

With a dazzling exhibition of shot-making, Dunlap turned back his veteran rival who captured the amateur title ten years ago at the age of twenty-two. To take the crown which Somerville won last year to become the first Canadian to accomplish this achievement, Dunlap broke the course record on the first eighteen holes and gained a lead of seven up that ended any doubt about the result.

He came up on the twenty-second hole in the afternoon and not even Marston's gallant rally, during which he shot the last nine in thirty-two, three under par, could stem the tide.

There was three under par in the morning and one under par in the afternoon and he had a total of 31 holes played. While shooting his plus-perfect 68, the New Yorker was never off a single green and that by a scant two feet, and he had only one three-putt green all day and he was in a bunker only once.

No one in the perspiring crowd that marvelled at Dunlap's play would have suspected the youngster had barely qualified for the match play. Only a lucky putt on the second extra hole of a play-off last Wednesday morning kept him in the tournament. Thus saved, he settled down to play the best match of any remaining competitor. Not once was he hard pressed as he disposed of five successive opponents, two by the score of 4 and 3 and three by 6 and 5.

In succeeding Somerville, Dunlap reached a mark he has been shooting at for seven years. The best he ever did before was to reach the second round in 1928 and 1931. He failed even to qualify last year after his great work in the Walker Cup matches.

This spring he was chief American contender in the British amateur and won the semi-final before yielding to the Hon. Michael Scott, who won the title the next day. By a coincidence, Dunlap eliminated Somerville in the British tournament.

Marston was the big stumbling block of the tournament. For ambitious youngsters until he was 21, the veteran had disposed of Willie Turnesa, Sidney Noyes and Jack Munger, three school boys, in reaching the final round. His experience and steadiness appeared in his favor, until Dunlap lit the match by yielding to the Hon. Michael Scott, who won the title the next day. By a coincidence, Dunlap eliminated Somerville in the British tournament.

DOUBLE SPORTS HONORS TAKEN BY SHERBROOKE. Cottons Girls Softball Squad Defeated East Angus, while the Rangers Defeated Magog-Beebe Soccerites.

Softball and football fans combined at the Parade Grounds to stage a field day on Saturday afternoon, the Sherbrooke Cottons ladies' net meeting an aggregation from East Angus in a return softball fixture, the visitors meeting defeat by twenty-six to thirteen. For the soccer enthusiasts, a picked eleven from Beebe and Magog met the Sherbrooke Rangers, going down to defeat before the home squad by four to one. Despite the threatening weather, a medium sized crowd witnessed the two events.

Two great innings, the first and fourth in which ten and eleven runs respectively were amassed, served to give the Sherbrooke Cottons victory in a runaway lead over the visiting East Angus aggregation. H. Tremblay was the first to cross the home plate. She was followed by each of her team-mates in turn with the exception of T. Bachand, who was caught out at third. Miss Tremblay increased the Cottons score to ten in her second time at bat.

In the third H. Tremblay, M. Tessier and F. Cabana each made two round trips, while G. Bilodeau and Beryl Mandigo were the only Cottons players who failed to score. Cottons added another in the fourth and four in the sixth. East Angus tallied one in the first, four in the third, one each in the fourth and seventh, and three each in fifth and sixth.

Louis Gardyne shifted his infield following their dismal showing last week in Barnston. Glen Watson replaced Wesley Slack at third base and the latter was stationed at shortstop instead of Jimmie Walker. Walker was posted in left field, while the remainder of the team occupied their regular positions.

Saturday's game was the third fixture of an exciting play-off. Ayer's Cliff scored the first victory on its home diamond with an eighth-inning rally which netted five runs to overcome Barnston's early lead, while Barnston evened matters last week by a healthy margin in its own backyard. Besides winning the championship, Ayer's Cliff had the satisfaction of being the only team to defeat Barnston this summer.

Within the course of the near future, the victorious Ayer's Cliff team will be guests at a banquet tendered by their ardent supporters.

RANGERS DEFEAT PICKED TEAM. For a post-season encounter between two pick-up teams, the soccer game between a re-aligned Sherbrooke Rangers and a select squad from Magog and Beebe proved to be a high calibre. Sherbrooke taking the long end of a four-to-one count. Russ Foley opened the counting early in the first half for the Rangers, Clint Gardner adding the second a few minutes later. Magog-Beebe took the upper hand as the period drew to a close, coming through for their only tally of the afternoon.

In the second, Sherbrooke broke away again, Bill Taylor and Lewis Hatch each turning in a counter. The game was handled in an efficient manner by Amb. Wootton.

AYER'S CLIFF WON DECIDING PLAYOFF TILT

Albert Rexford Turned in Six-Hit Masterpiece, while Team Mates Capitalized Barnston's Errors to Win by Six to One and Captured Stanstead County Championship.

Coaticook, Sept. 15.—Ayer's Cliff today is the proudest town in the entire Eastern Townships. And well it might be exultant for on Saturday its baseball team captured the Stanstead County amateur championship and became the first holders of the cup offered by L. E. Carpenter, of Tomfobia. And to Albert Rexford's trusty right arm belongs the greater share of the spoils, for it was his ability to keep Barnston's sagacious batsmen together with his team-mates' cooperation in the field, that permitted the lakeside aggregation to win the third and deciding fixture of the hard-fought series.

By a score of six to one, the Ayer's Cliff team defeated Barnston's high hopes of bringing the honors home to Coaticook's neighboring town. Rexford yielded but six blows and saw to it that not two of the half-dozen were bunched in any single inning. Aided by the superb support he received, Rexford turned back the Barnston batters without a hit in three innings and his partner behind the plate, Bill Wyman, arose to the occasion whenever a Barnston runner reached the key-stone sack. On the day's showing, Ayer's Cliff deserved to win, although their margin could not perhaps have been so big. Several of their runs were unearned, costly errors and loose fielding by their opponents paving the way to valuable points.

Both Rexford and his mound rival, Hubert Sutton, turned in six-hit performances, but there was no comparison of the respective fielding. Ayer's Cliff committed but two errors of little consequence, while Barnston had six miscues chalked up against them, many of which figured in the scoring. Sutton struck out nine men against Rexford's half dozen, but the latter gave three free tickets to first, while Sutton handed out five bases on balls.

Barnston could blame its downfall to poor fielding inability to connect with Rexford's offerings and the fatal mistake of trying to steal second base against the Wyman-Everett Slack combination. On no less than five occasions, Percy Buckland's men attempted to beat the throw to the second bag and they were successful but once. The result was that Oliver Menard, who scored Barnston's lone run, was the only Barnstonite to reach third base.

Rexford had plenty of stuff on the ball as he mowed down his opposition and the tally which Ayer's Cliff notched in the initial frame on Freeman Sutton's mislay loomed big as the game progressed. Barnston's effort to deadlock the count in the opening inning was nipped by a double play in which Rexford, Everett Slack and Jimmie McFadden figured. Sutton found himself in hot water in the second chucker when he walked both Wesley Slack and Ernest Whipple after striking out Norman Whipple.

It was in the fifth someseter when Wesley Slack collected his second single and incidentally his team's second safety. Ernest Whipple walked and Slack crossed the plate when Hubert Sutton failed to field Everett Slack's grounder. Rexford drove the second base on balls in this chucker and Wyman delivered a single which was long enough to permit Whipple and Slack to score.

The sole inning in which two singles were bunched was the Ayer's Cliff half of the eighth. Everett Slack singled and was responsible for his team's final counter on Rexford's single. Oliver Menard, the only Barnston player to solve Rexford's slants twice, raised the losers' hopes by opening the ninth frame with a single, but the next three batters were unable to bring him home.

Louis Gardyne shifted his infield following their dismal showing last week in Barnston. Glen Watson replaced Wesley Slack at third base and the latter was stationed at shortstop instead of Jimmie Walker. Walker was posted in left field, while the remainder of the team occupied their regular positions.

NOTRE DAME HAS ONE GAME LEAD OVER SAVARD'S

Notre Dame Nine Defeated Savard by Three to One in Interesting City Championship Game at Ball Park Yesterday Afternoon.

The Notre Dame Baseball team is today one game ahead in their fight with the Savard nine for the city championship by virtue of their three to one victory in an interesting fixture at the local ball park yesterday afternoon. Notre Dame having won two games, another victory will concede them the championship.

Several hundred fans yesterday afternoon were treated to a fine exhibition. Longpre, pitching for Notre Dame, had nine strike outs to his credit, while Camire, occupying the mound for Savard, had seven.

Notre Dame scored their first run in the second inning, when Gosselin crossed the home plate on a fly which Trotter hit to Asselin at their base but which the latter fumbled. Notre Dame came near scoring another run in this frame when the bases were full and Bob Roy went to bat. He singled to Camire, however, and was thrown out at first, retiring his side.

Savard was unable to retaliate and even the score until the fourth inning. With Asselin on the bases, Briere hit to third and a wild throw by Roy to first enabled Asselin to reach home and Briere to travel as far as the second base. One man was out and Ginguet went to bat. He struck out. Pepin then made a safe hit over second base to centre field and Theberge went to bat with Briere occupying third base. He
