

RUSSIANS RETREAT.

Forced to Abandon Liao Yang Which Has Been Occupied by Japanese.

JAPS CONTINUE THEIR ADVANCE.

Russian Army May Be in Tight Place—Report That Railway Line North Has Been Cut—Fighting Has Been Desperate and Losses Heavy.

Tokio, Sept. 2.—(Special)—The Chief of Staff of the Japanese army, telegraphing early this morning, reported that the Japanese centre was continuing to advance to-day with the object of taking a line from Shin Chi Yen to Liao Yang and effecting a junction with the Japanese left, commanded by General Oku.

RUSSIANS RETREAT. London, Sept. 2.—Yesterday's news from the seat of war closed with the receipt of a most significant character, as bearing on the domination of Manchuria at the close of the present campaign.

The first came from the Associated Press correspondent at St. Petersburg, filed there at 10.16 p.m., and said that General Kuropatkin had withdrawn his whole army to the right bank of the Taitsze river, so as to meet General Kuroki's flanking movement. The inference drawn from this despatch was that Liao Yang had been evacuated, that city lying on the left bank of the river.

Nothing to confirm this was received until several hours later, when a despatch from the Associated Press correspondent at St. Petersburg, dated Sept. 2nd, and timed at 1.26, this morning, said that: "The news of the evacuation of Liao Yang and the withdrawal of the Russian army to the right bank of the Taitsze river had caused intense excitement and disappointment."

Late, Thursday night, the St. Petersburg correspondent of the Associated Press, obtained an opinion from the War Office that the withdrawal to the right bank of the Taitsze river became necessary, so that the Russians would be able to repel a blow in that direction and that General Kuropatkin's movement was the carrying out of a well defined idea, rather than a retreat. The same despatch points out with notable lack of comment that the Japanese took advantage of Gen. Kuropatkin's withdrawal to occupy the city of Liao Yang.

The second despatch, which may have a significant bearing on the campaign is that filed at Mukden at 9.27 p.m. on Thursday, stating that the train service between Mukden and Liao Yang was interrupted, and it may mean the cutting of railway communication, which would deprive Gen. Kuropatkin of an opportunity to retreat to his more northerly base at Mukden. As pointed out in the St. Petersburg despatch the Mukden correspondent does not mention whether the telegraphic communications are open.

KUROPATKIN'S MOVE. St. Petersburg, Sept. 2.—General Kuropatkin has withdrawn his whole army to the right bank of the Taitsze river, to meet Gen. Kuroki's flanking movement.

FORCED RETREAT. Tokio, Sept. 2.—At daybreak, yesterday, the Japanese army on the left delivered a fierce and successful assault against the heights to the west of Hsinglingtan, and the high ground to the west of Shoushanpaou. It pierced the Russian lines, and probably later forced the retirement of the Russian troops from their position on the right and centre. Marquis Oyama

telegraphs that his losses in these assaults were heavy. It is believed here that General Kuropatkin has been sweepingly defeated, and that possession of Liao Yang is a matter of hours.

IN TOKIO. Tokio, Sept. 1.—(8 p.m.)—Tokio rings with shouts and cheers for the victory at Liao Yang. Lantern-bearing crowds swing through the streets and swarm around the staff officers, shouting "Banzai."

The details of yesterday's fighting are scanty. It is only known that at dawn General Oku's army was hurled against the Russian right centre on the southern line, and that the Russians were forced to abandon their line and positions and retreat. Their pursuit is now in progress. The result of this pursuit and the result of the fierce battle waged on the eastern line, where Gen. Kuroki is assailing the force which has long screened Liao Yang, together with the abandonment of the Russian right centre on the southern line, exposes the Russian left. But here the Russian force is so heavy that it may possibly be able to protect and extricate itself.

To-night no estimates are obtainable of the losses on either side. Field-Marshal Oyama describes his losses in the morning assault as heavy. The early success of the attack was somewhat unexpected, on account of the strength of the Russians, and the nature of the Russian defenses. It is confidently believed that Field-Marshal Oyama will press the pursuit with desperate vigor, and inflict on Gen. Kuropatkin the most crushing blow possible. It is believed that his trophies will prove valuable. It is the opinion here that the Russians were not able to retreat to their positions, and that they were forced to abandon or destroy vast quantities of stores.

NO OFFICIAL NEWS. Tokio, Sept. 1.—(Special cable)—There is universal belief that Gen. Kuropatkin suffered an overwhelming defeat in giving the Japanese possession of Liao Yang. The Government will not confirm this. It has issued nothing later than the report of the successful rush at dawn, whereby the Japanese left pierced the Russian line on the heights four miles south of Liao Yang, and west of Shoushanpaou, compelling the enemy to withdraw from the right and centre positions, with the victors in pursuit. It is known that the success to which several days' fighting led has been gained at an enormous sacrifice of life, but the various guesses as to the number of casualties are worthless. Field-Marshal Oyama, the Japanese commander-in-chief, telegraphs that he either among English speaking people or French-Canadians themselves, is that they are practically the same race of people as the people of England and Scotland.

The first French settlers in Canada were from Normandy and Brittany, and were therefore a mixture of Celts and Normans. The people of Brittany (Ancient America) were from time immemorial closely allied in race and traditions with the people of Britain. At the time of William the Conqueror a good deal of Norman French blood was introduced into England which can be traced to this day, especially among the aristocracy.

SITUATION AT PORT ARTHUR.

Bombardment Said to Have Been Suspended.

JAPS SAID TO HAVE ABANDONED THE IDEA OF TAKING THE FORTRESS BY ASSAULT.

Paris, September 2.—A despatch to the Matin from Chefoo says that the bombardment of Port Arthur has been completely suspended. It would appear that the Japanese have abandoned the idea of taking the fortress by assault, and will endeavor to reduce it by establishing a strict blockade.

CAUSE OF DELAY.

London, September 2.—A despatch from Shanghai to the Daily Mail says recent advices from Tokio state that the general attack on Port Arthur having lasted since August 18, it became necessary to give the troops a rest and make some changes in their organization. Military circles are now intentionally laying great stress on the difficulty of enterprise and urging patience, presumably to prepare the public for a postponement in taking the fortress. The original programme has evidently been modified, as it has been found impossible to press forward operations as the Japanese hoped. There is general surprise that the place has been held so long, and it is said that the defenders have shown themselves stronger and more resolute than their countrymen who are fighting elsewhere.

EARL GREY IS REALLY APPOINTED.

Will Succeed Lord Minto in Canada.

KING EDWARD HAS GIVEN HIS APPROVAL.

London, September 2.—King Edward has approved the appointment of Earl Grey as Governor-General of Canada, in succession to the Earl of Minto.

Earl Grey was born November 28, 1851, being a son of General Sir Charles Grey and Caroline, daughter of Sir Thomas Harvie Farquhar, Bart. He was educated at Harrow school, and at Trinity College, Cambridge, where he stood senior in law and history, tripos, 1873. He married in 1877, Alice daughter of Robert Stayer Holford, M.P. of Westons, Gloucestershire. He was M.P. (Liberal) for South Northumberland, 1880-85, and for Tyneside, 1885-6. He was administrator of Rhodesia 1896-7. He has been lord-lieutenant of Northumberland since 1899. His estate consists of about 17,000 acres.

His wife is Charles Robert, Viscount Howick, born December 10, 1879, who is a lieutenant in the 1st Life Guards.

FRENCH CANADIANS.

PRACTICALLY THE SAME PEOPLE AS THE ENGLISH AND SCOTCH.

The following is what Norman Murray, of Montreal, has to say under the above heading, in his interesting illustrated guide to Montreal: "A fact not sufficiently well known either among English speaking people or French-Canadians themselves, is that they are practically the same race of people as the people of England and Scotland.

The first French settlers in Canada were from Normandy and Brittany, and were therefore a mixture of Celts and Normans. The people of Brittany (Ancient America) were from time immemorial closely allied in race and traditions with the people of Britain. At the time of William the Conqueror a good deal of Norman French blood was introduced into England which can be traced to this day, especially among the aristocracy.

Again after the "Revocation of the Edict of Nantes" a large number of the artisan classes of France came to Britain to these exiled Frenchmen is largely due to the commercial supremacy of Britain ever since. Besides all these well known facts it remains only to be mentioned that after all the conquest of nearly one hundred and fifty years ago, a large portion of the disbanded British soldiers, particularly the Highland Scotch regiments settled among the French Canadians and are now as French as any of the rest.

After all, language is often a very unsafe guide in tracing up the various races.

NORMAN MURRAY.

The above was mentioned to Louis Frechette, Esq., the celebrated French Canadian poet and Ben Sulte, Esq., the famous French Canadian historian. Mr. Frechette answers "perfectly right." Mr. Sulte maintains that Teutonic element predominates. On this we do not agree as I am of the opinion that the Celtic element predominates.

DIASTER IN POLAND.

SEVENTY PEOPLE DROWNED BY CAPSIZING OF FERRY.

London, Sept. 2.—A despatch to a news agency from Berlin says a telegram has been received from Lodz, Poland, announcing that a ferry boat capsized yesterday on the river Kamien, resulting in seventy persons being drowned. Thirty of the passengers were saved. It is added that the boat was licensed to carry only thirty persons.

POLICE HAVE HAD BUSY WEEK.

Pickpockets Scared Out of Town by Their Vigilance.

MAISONNEUVE FIRE CHIEF ARRESTED—A HOLD-UP ON LENNOXVILLE ROAD—OTHER CASES.

The police have had a busy week so far, there having been no less than thirty-two arrests made since last Sunday. With the exception of one or two cases none of the offences were very serious. The majority of the charges laid were for drunkenness and were mostly out of town residents who had carried their celebration a little too far. The list includes a few from Sherbrooke, many from surrounding towns, and a few from across the line. 85 and costs was the fine in each case.

MAISONNEUVE FIRE CHIEF IN TROUBLE.

Geo. Benoit, chief of the fire and police departments of Maisonneuve, was arrested by the city police, on Wednesday evening, and spent the night in the cells at the Central Station. He is charged with committing an assault on a man by the name of Heath, West Stewartstown, N.H., on the afternoon of the day mentioned. The allegation is that without provocation, Benoit struck the complainant down and afterwards kicked him. Benoit was making for the train, when he was intercepted by the Chief and was given in charge of an officer. Benoit informed the police who he was and thought that he should receive more lenient consideration than the other nine inmates of the cell which he occupied throughout Wednesday night, but he was told that he had to be treated as the others were. The charge being a serious one, Benoit was remanded to take his trial before Judge Mulvena.

PICKPOCKETS HERE BUT DID LITTLE BUSINESS.

A sharp watch has been kept during the week on the members of the gang of light-fingered gentry who follow their calling in large crowds. The city officers were assisted by three outside detectives, and when these parties found that their movements were closely watched they took early trains out of town. There were several well known crooks in town on Tuesday, and on that day two cases of pocket picking were reported, one having taken place at the Sherbrooke House corner, and the other at the depot. Nothing has been reported since, and nothing has been seen of the suspected crooks. The authorities are to be congratulated on having taken such measures to prevent these characters from preying upon the Sherbrooke Fair visitors.

CHARGED WITH THEFT OF BICYCLES.

J. B. Verreault was arrested Thursday, on a warrant on a charge of stealing a number of bicycles. He was remanded to appear before Judge Mulvena.

HELD UP AND ROBBED ON LENNOXVILLE ROAD.

On Wednesday evening, a Mr. Sterling, of Lennoxville, was held up by two men on the Lennoxville Road, some distance outside the town line. No violence was used, but Mr. Sterling was quietly and firmly told to hand over his money, and being unarmed, he proceeded to do so, and handed over \$52 to the robbers. The matter was reported to the police.

FOR OBTAINING MONEY UNDER FALSE PRETEXTS.

John Lowery was arrested on Wednesday, charged with obtaining money under false pretences, on the show grounds. He was remanded to the District Magistrate's Court.

ATTEMPTED POCKET PICKING.

Ralph Williams, Pascham, Me., was arrested on Wednesday, on a charge of attempting to pick the pocket of a man named Estel, of Richmond, on the Fair grounds. He will come up before Judge Mulvena.

CHINESE JUNKS WERE CAPTURED.

WERE ATTEMPTING TO TAKE PROVISIONS TO PORT ARTHUR.

Tokio, Sept. 2.—(Special)—Admiral Heso reports that Japanese guardships near Yentaq, Sunday and Monday, captured twenty-six Chinese junks which were attempting to carry provisions into Port Arthur.

SHIP STRUCK MINE.

The admiral reports that a number of ships were near Port Arthur clearing away mines when one steamer struck a mine and was blown up.

CHINA TAKES ACTION.

STOP S WORK OF REPAIRING SHIPS AT SHANGHAI. Shanghai, Sept. 2.—(Special)—The Chinese Government, according to the demands of Japan, affected a stoppage to-day of all repairs on the Russian protected cruiser Askold and the Russian torpedo boat destroyer Groseover.

SUCCEEDS PARKER.

JUDGE CULLEN APPOINTED CHIEF JUSTICE OF NEW YORK COURT OF APPEAL.

THE INJURED OF RICHMOND WRECK.

Those at the Sherbrooke Hospital Will Recover.

INQUEST WILL BE CONCLUDED TO-NIGHT—FURTHER STORIES OF PASSENGERS.

The inquest in connection with the Richmond wreck will be continued at Richmond to-night by Dr. Baghand, coroner.

THE INJURED.

There are three of the injured at the Protestant Hospital in this city, namely, E. McManus, Ulverton, whose leg is broken; the Italian, whose leg is broken; and A. Walker, of Gore, whose thigh is broken in two places. The last mentioned is the most seriously injured. It is believed that he will recover.

Col. St. Denis, of St. Hyacinthe, was among the most seriously injured who survived the wreck. He was taken to St. Hyacinthe. He had serious internal injuries, and Sherbrooke doctors state that there seemed but the slightest hope that he would survive, even the journey home.

Several of the injured who lived in the vicinity of Richmond were kept there and are in charge of Richmond doctors. A half dozen or so were taken to Montreal, and the balance to St. Hyacinthe.

The injuries consisted chiefly of broken legs. There were a dozen or more who suffered in this respect. A few had broken arms. Several were injured about the head.

It seems likely that all will recover, with possibly the exception of Col. St. Denis, of St. Hyacinthe.

THE MONTREAL INJURED.

Montreal, Sept. 2.—Wednesday night's train brought three of the injured to Bonaventure station, from which they were conveyed to the General Hospital.

Grand Trunk Road Foreman Payette had his right hand terribly mangled, and was still suffering much pain when he reached Bonaventure station. As soon as the train grew up his deeply affected wife pressed forward to his side and mingled words of comfort with prayerful thanks that his life was spared.

Leaning heavily on the arm of a friend was Alf. Stanhope, Bethel, P. O., evidently suffering much pain. When the smash came Mr. Stanhope, who was in the excursion train, was lifted from his seat and landed on his back across another seat some distance down the car.

I was on my way home on the Port-land train, said Paul Deguire, of Rougemont station, and was in front car when the crash came. I felt myself going down and remember no more until I found myself in the hands of the doctors.

J. R. MCINTOSH ON TRAIN.

Mr. John R. McIntosh, of Sherbrooke, was on the Island Pond local train going from Sherbrooke to Montreal. He was in the smoking car at the time of the accident and had no idea that anything was wrong until he heard the grinding as the emergency brake was applied. Then he was thrown forward by the shock and landed on his hands and knees in the middle of the car. He went out and saw where the cars had been telescoped, and the volunteer rescuing party already getting to work. "The confusion was awful," said Mr. McIntosh. "People were not clear as to what had happened and were crying and shrieking with fright. As quick as they could the passengers came tumbling out of the cars. Then as I saw I could do little or nothing, I went to report to those at home that I had escaped injury."

MONTREAL MAN DESCRIBES SCENE.

"I was on the first seat of the first car," said Mr. Gagnon, of Montreal, when we left Richmond. We had gone only a short distance, and everything was going on nicely when the train came to a dead stop, as if we had struck a stone wall. Then there was a lurch and I flew through the air, over the seats, as if launched from a catapult. Conversation had been general in the car and the greatest gaiety reigned. There was an actual change in a moment. I was dazed for a moment, and when I realized what had happened I found myself away down in the other end of the car, and saw that the engine of the Island Pond train had run right into our car. My right foot was caught under seats, and I had not enough strength to pull it out. Although I suffered very much, I did not lose consciousness.

"All around I could see the dead, and hear the groans of the wounded and dying. Mr. Blanchet, the member for St. Hyacinthe, lay right near with his skull entirely gone, and several others were horribly mutilated, while the groans of the dying were even more terrible; than the sight of the dead. I will never forget the scene.

"The people in the other cars, who had not been injured, rushed to our assistance. I was told to remain quiet where I was, and I had no choice but to follow the advice, for I was pinned down, so that I could not move. After working for nearly an hour, the rescuers pulled me out. I found that my right leg and foot were badly crushed, and my left knee was hurt. I thank Heaven that I got off so easily, when so many others who were in less exposed position met with such a terrible fate.

"The doctors were on hand quickly and worked well. They fixed me up, and I believe I will get around soon. It will be a long time, though, before I forget the awful scene through which we passed."

NARROW ESCAPE.

Richmond, Sept. 2.—George Smith, of Richmond, jumped from the window in one of the cars in the special train and saved his life. He was in

LAST DAY OF THE EXHIBITION.

Slight Falling Off in Attendance This Year—Races Closely Contested—The Results—Prize List Continued.

The attendance at the Fair, yesterday, was not quite up to that of the same day last year. The accident on Wednesday near Richmond, had the effect of keeping many from that section of the country from attending. The special train from Montreal, yesterday, on the Grand Trunk, was only partly filled.

The rain held off until just at the close of the afternoon performance, and caught the people on their way home.

The attendance at the evening performance was very good considering the unfavorable weather, and the full programme was given.

Two of Prof. Wolcott's assistants, a man and woman, went up in the balloon, last evening, and descended by parachute.

The races yesterday afternoon were very good. In the forenoon, the unfinished heats of the 2.15 pace on Wednesday's programme were finished. The track was in good condition and fast time was made.

THE INJURED OF RICHMOND WRECK.

(Continued from page one.)
The smoker of the special, and says that he felt certain that No. 5 from Island Pond had not arrived at the station when the train for Sherbrooke pulled out. He was on edge, as it were, and as quickly as he heard the brakes give a grind he jumped from a window which was up, and so escaped without a scratch. He was badly shaken up, of course, but he said that he was all right. He seemed to be expecting the accident and leaped just in time.

THREE OF THE INJURED.
Montreal, Sept. 1.—Grand Trunk Road Foreman Payette lay on his stretcher in Bonaventure Station last night, and waited for the ambulance attendants to take him to the General Hospital. His right hand a mangled mass, gave him much pain. When the train stopped a woman rushed in and escorted by the physician to the mattress she began comforting the injured man. It was Mrs. Payette.

Turning on his side with a moan, and raising one hand painfully to wipe the perspiration from his brow, Paul Demire, of Rougemont Station, listened to the cool comforting words of the woman near him, and although they were not meant for him particularly, he seemed pleased and cheered. "What is your story?" a reporter asked.

"I was going home on the Portland train and just as we were near Richmond the crash came and an awful ripping sound. I was in a front car and I went down. I don't know where, just so," and the injured man made a motion with his free hand, signifying an abrupt precipitation. "When I came to, I was with the doctors and they have used me very well. I don't know what my folks will think. I hear I was reported dead." Then the poor fellow turned over toward the wall awaiting the hospital men. He was taken to the General Hospital.

Among the passengers on the regular Portland and Quebec express which arrived here late last night, with a car of injured from the wreck, was Alf. Stanhope, Bethel, P.O. Leaning heavily on the shoulders of a friend, and Mr. John Ewing, warden of Richmond county, who worked without rest all day among the injured and who identified the remains of J. B. Blanchet, M.P.). Stanhope descended from one of the regular coaches. The

Rev. Mr. Orock, of Boston, has been in town for some days looking up his many friends.

Our local team played the Richmond Vt. aggregation on Saturday, and wiped them out to the tune of 14 to 0. The stars were E. Curley on 3rd base, and H. O'Regan in the box.
The picnic given by the Commissioners to the pupils of the Academy and their parents as a celebration for the great work done during the past year was a great success. Some four or five hundred were present.

JOHNVILLE.
Sept. 2.—We are glad to learn that the fourth prize for butter at Sherbrooke fair was awarded to Mr. Fish, of Ayer's Cliff, but we think the honor belongs to Johnville, as it was made by Mr. Rexford at our creamery.

BRITISH IN THIBET.
MISSION, IT IS SAID, WILL LEAVE LHASA ON SEPTEMBER 15.
Simla, September 2.—According to present plans the British mission will leave Lhasa on the 15th inst.

TO PROTECT THE SALMON INDUSTRY.

Washington, D. C., Sept. 2.—It is said at the American State Department that there is no intention of entering into a formal agreement through Great Britain with British Columbia, respecting the establishment of fish hatcheries in the waters common to the State of Washington and to British Columbia. But the State Department about a month ago did address itself to the British Government on this subject, with the purpose of securing uniformity or regularity in the adoption of similar laws on either side of the contiguous waters of Washington and British Columbia. It is expected that without any formal international agreement, by common treatment of fish hatchery problems, satisfactory protection can be had for the salmon fisheries in that section, to restore them to their former state of prosperity.

WOMEN WANTED TO CREMATE HIM.

MINNEAPOLIS MAN THREATENED BY FORTY INFURIATED HE-BREW WOMEN.

St. Paul, Minn., Sept. 2.—Confronted by forty Hebrew women thirsting for vengeance, and attempting to cremate him alive in Minneapolis, Monday, John Hurley, with upraised knife, held them at bay until the police appeared and placed them under arrest.

The cause of the general uprising of women in the neighborhood of Fifth and Sixth Avenues north was an alleged attempt on the part of Hurley to entice Tillie Rivers, six years old, into a wood yard. The girl became frightened and called for her mother. On the approach of her mother, it is claimed Hurley made indecent proposals to her. His language and actions were observed by several women, who resented the insult to Mrs. Rivers and her little daughter, and they sallied forth for vengeance. Hurley fled on their approach. After a chase of five or six blocks, during which many other women joined in, he was at last brought to bay in a wood yard at Sixth Avenue north and Fifth Street. The women, talking of tying him up and leaving him on a pile of wood which they would set on fire, Hurley became greatly alarmed and drew a knife, which he threatened to use on the first woman who should approach him.

A special Pullman sleeping car has been added to the Quebec and New York flyer from this city for the better accommodation of the North Hatley and Sherbrooke patrons of the Boston & Maine. This train leaves Sherbrooke 6.50 p.m., except Saturdays, arriving in New York 7.05 a.m.

MAXIMUM STRENGTH OF JAPAN'S ARMIES.

La France Militaire, in an article appearing in its numbers for July 24-25, estimates the maximum total strength of the Japanese in the theatre of war at 266,000 men and 960 cannon, distributed as follows:

Army of General Oku—Third Division, 16,000 men, 48 cannon; 4th Division, 16,000 men, 48 cannon; 9th Division, 20,000 men, 60 cannon; Cavalry Brigade, 1,000 men; Artillery Brigade, 2,000 men, 108 cannon; total, 55,000 men, 264 cannon.

Army of General Nodzu—Tenth Division, 16,000 men, 48 cannon; 5th Division, 16,000 men, 48 cannon; Guard Division, 16,000 men, 48 cannon; Artillery Brigade, 2,000 men, 108 cannon; total, 50,000 men, 252 cannon.

Army of General Kuruki—Twelfth Division, 20,000 men, 60 cannon; 2nd Division, 16,000 men, 48 cannon; Cavalry Brigade, 1,000 men; total, 53,000 men, 156 cannon.

This will give the Japanese troops in the field a total of 158,000 men, of which 8,500 are cavalry, and possessing 672 pieces of artillery. In front of Port Arthur there should be: First Division, 20,000 men, 60 cannon; 11th Division, 20,000 men, 60 cannon; total, 40,000 men, with 120 field pieces, not counting the technical or special troops and the seize batteries. Reports indicate that the Japanese have only one reserve brigade to a division. If they have one to each active brigade they would have 26 reserve brigades, each with 4,100 men and 12 guns. The 6th and 7th Divisions, whose assignments are yet unknown, represent each with two reserve brigades, 40,000 men and 60 cannon. There would still remain to the Japanese seven reserve brigades (25,000 men and 84 cannon) to guard Corea, and the lines of communication. When the 10th and 17th Corps join General Kuropatkin he should have a total of 200,000, which force would enable him to assume the offensive, or at least the defensive.

CROSS WORSHIPPED AT LEAST 2,000 B. C.

WOMEN'S STYLES OF THE PRESENT DAY WERE IN VOGUE 3,000 YEARS AGO.

Arthur Evans, the famous archaeologist, who has been for many years in Greece making excavations in the interest of science, has just unearthed deep down under the ruins of the palace of Minos, at Gnosso, the remains of a small sanctuary, which gives evident proof that the cross was worshipped in some parts of the world 2,000 years at least before Christ. Since 1900 Mr. Evans has been making a study of the ruins of this ancient palace, and some of the monuments discovered by him are clearly over 6,000 years of age. Remnants of a building at least 3,000 years old which revealed a series of chambers in the ruins of the palace. In religious worship had been hidden. In a small subterranean chamber Mr. Evans found the furniture of a small chapel, and incised in the wall of the room a marble cross in the form now in use in the orthodox church. Several small statues of earthenware stood at the foot of the cross surrounded by many votive offerings. One of the statues evidently represents a goddess and two others her personal servants. The most surprising feature of the discovery is the dress of the statues, which is entirely dissimilar from the dress of ancient Greeks and Romans, but resembles much more our modern apparel. The goddess is represented wearing a corset similar to the ones used in our time by the gentle sex, and her jacket is exactly as is worn in the present day. Her skirt is in the style worn at the time of Louis XV., and her maids are attired very much as maidens in our age.
