

Fire prevention art winners are revealed

Westmount firemen have come up from under the welter of pre-teen fire prevention week drawings that have inundated the local stations for the past two weeks to announce the winners.

There were more entries this year, bigger entries, and better entries than ever before, the fire fighters say, not forgetting to mention one entry received from all the girls at The Study, a composite item that ran to fifty feet in length.

Proctor game set Saturday October 22nd

Saturday, October 22nd at 10 a.m. Westmount High will play Proctor Academy (from New Hampshire) half American rules and half Canadian. A special rule employed is that both teams play 12 men when Westmount has the ball, eleven when Proctor is attacking. This is a traditional game, usually well attended and official ceremonies such as exchanging flags, are held.

Keystone Club plans car wash next Saturday

A "CAR WASH" is being sponsored by the Unity Keystone Club of Westmount at their Club, 1090 Greene Avenue, Saturday, October 15th, from 9:00 a.m. until 4:00 p.m.

Winners in the various age groups are as follows:

5-6 years: (a) Pascal Montpetit, St. Paul's Academy; (b) D. McLean, St. Paul's; (c) Mark Durand, St. Paul's.

7-8 years: (a) Paul Yea, St. Leo's (b) Elaine Manceau, St. Paul's (c) Rosemary Neville, St. Paul's; honorable mention — Yoshic Kotani, Westmount Park.

9-10 years: (a) Allison Bell, Westmount Park; (b) Sandy McDougall, The Study; (c) Donnie Patch, The Study; honorable mention — Naomi Lewis, Roslyn.

11-12 years: (a) Leigh Davidson, The Study; (b) Anne Warren, Institute Pedagogique; (c) Sally Sveningsen, The Study; honorable mention — Sandy Creasor, The Study; Elizabeth McMaster, The Study; Brenda Myers, Westmount Park and Helen Girard, Inst. Pedagogique.

Throughout the fire department this year there is general surprise and pleasure at the large number of entries that poured into the contest.

When the plan to invite boys and girls of Westmount to submit designs for fire prevention posters was launched a few years ago, it caught on at once, and year by year the number of entries has been increasing.

This year it was over the 500 mark, and some entries even came along after the closing date.

Yesterday, at Victoria Hall, the firemen showed their appreciation of the interest taken by the local artists, and a full house was recorded as boys and girls showed up to enjoy the entertainment and refreshments. Top of the list was a surprise visit from Batman and Robin.

Catholic Charities seek \$902,500

The annual campaign of the Federation of Catholic Charities opened officially today with a flag raising ceremony at the Place Ville Marie. Residents of Westmount are

again playing an important part in this campaign.

Howard J. Lang, 482 Roslyn Avenue is this year's Chairman of the campaign. William J. Brown 4350 Montrose Avenue is Chairman of the Parish Division which directs its attention to the English-speaking Catholic parishes in the

Greater Montreal areas, William H. Daly of 241 Kensington Avenue is the Zone Chairman in which Westmount is contained and Mr. James Garner, 5 Cote St. Antoine Rd. is the Chairman of Ascension parish.

Others from Westmount who are working hard for the Federation are: Paul Pare, 3004 Bresslay road, vice-president, Marketing, Imperial Tobacco, chairman of the drive corporation division; A. J. Groleau, 4876 Westmount avenue, Bell Telephone, chairman of the industrial division and Mrs. J. G. Howlett, 476 Mountain avenue, chairman of the women's division of the drive.

This campaign is on behalf of Federation of Catholic Charities and it seeks an objective of \$902,500, to maintain its agencies and services.

Westmount fights air pollution

Westmount is making slow—very slow—progress in the fight against air pollution, and the battle, before it is over, is going to be a very costly one.

That's the opinion of City Manager Norman Dawe, caught by The Examiner between sessions of the Union of Municipalities Convention, and queried on the whole subject of the pollution of the air over Westmount.

"We are not an industrial city," he said, "and we don't pollute the air, but we are in the centre of Montreal, and we have to live in the polluted air and we have to try and do something about the situation."

Montreal, he said, had been extremely helpful in making all the facts of the problem available to Westmount, just as soon as the city of Montreal's Air Purification Foundation comes up with the data.

Mainly it is the physicians that bring the problem up in general conversation these days, because

the physician is in a better position to know what is going on.

Statistic show that lung cancer, bronchitis and emphysema are on the increase.

Montreal has taken cognizance of this fact.

It has set up 15 stations in the down-town area to keep track of the dustfall, and is planning six additional stations that will also measure the gas content in the atmosphere.

Montreal at one point recently complained because suburban areas had no bylaws to cover air pollution — but Westmount cannot be faulted in this direction. Air pollution is one of the things that comes under the general nuisance by-law in Westmount, and residents pouring undue quantities of smoke into the atmosphere are hailed into court under the nuisance by-law provisions.

The Westmount Fire Department, in covering the municipality, the year round, from the standpoint of fire prevention, also keeps an eye on apartment house incinerators, to make certain that they are

properly operated, and give off a minimum of pollution into the air.

The Intermunicipal Co-ordinating Council, of which Westmount is a member, and Mayor Tucker a member of the executive committee, is on record with a call for joint action on the part of all suburbs in the battle against pollution of the air.

The battle, as Manager Dawe says, is going to be a costly one. Montreal is spending \$50,000 a year in finding the facts, and in addition this year is spending another \$15,000 on new machinery to check dirt and gas counts in the atmosphere.

Air line pilots can head for Montreal, simply by heading for the gray cloud that hangs over the city, as, of course, over Westmount.

Since beginning its fight, Montreal, it is reported, has cut down the pollution in the air over the general area by 40%.

Still, one doctor says: "Just the fact of living in the city is the equivalent of smoking two packs of cigarettes a day."

OCTOBER 15 TO 22

Nature often gives a preview of winter for this weekend, with one depression system passing south of the Lakes, and another along the north bank of the St.-Lawrence.

Not every year, but frequently and preceded by a little freezing drizzle, the double snowstorm sweeps in from the Great Lakes to drop 3 to 6 inches of snow all along its course, from Niagara to Vermont and the Townships, then Gaspé and New Brunswick.

Cold, gusty winds come in behind the storms, then increasing sunshine will give us two or three balmy days in the south, but northern counties will remain cold and have fog, rime frosts and powder snow. Windscreen icing probable at this time.

The Saucy Maid

By Stephen Schofield

Bill and his wife, Betty, decided to play a joke on a friend, Rudolph. They dressed up Alice, Betty's sister, as

a maid — black stockings, apron and headpiece — and invited Rudolph for Sunday supper.

In advance Bill mentioned casually to Rudolph that they had a new maid, rather young and inclined to be saucy, but all they could afford.

On Sunday evening Rudolph arrived and Alice opened the door, took his coat and and shortly came into the living room with a tray and three glasses of wine.

First offering one to Rudolph, at the moment standing alone, she rolled her eyes and murmured, "Haven't I seen you somewhere before?" At this Rudolph blushed like a beet and glanced over at Betty and Bill, who affected not to notice.

SCRAMBLED EGGS

During supper Alice brought in the scrambled eggs, always serving Rudolph first, and once, bending low, she whispered, "Will you be coming here — often?"

Again Rudolph reddened like a beet and Betty passed it off with a remark, "You will have to excuse her, Rudy. She has only been here a few days." Towards nine o'clock they

took off the lid and told him. Alice removed her apron and headpiece and they all had a good laugh.

All except Rudolph, who did not relish this at all. And he did not accept it like an English cricketer, rather like a Canadian hockey player, smouldering in fury. He was quietly mad.

ALICE AVOIDED

He and Bill are great friends, often together. But for more than a year he carefully avoided Alice, who was liable

to be in Bill's home a good deal.

Until one night he dropped in and there she was. They left together and something happened, the magic spark that makes the world go round. They became reconciled, and later engaged to be married.

Alice and Rudolph have four children today. She is a most devoted wife and mother. And nothing perturbs Rudolph. In all a most serene and solid family living on the fringe of Westmount.

Walter O'Hearn to be speaker for B'nai B'rith

B'nai B'rith, the World's oldest and largest Jewish service organization is celebrating its 123rd anniversary this month. The Eastern Regional Council, which consists of 6000 members in 31 Lodges, has chosen to hold its first Annual Convention in Montreal on Sunday, October 16th, at the Queen Elizabeth Hotel, in conjunction with similar celebrations that are being held by the 500,000 B'nai B'rith members in 43 countries of the Free World.

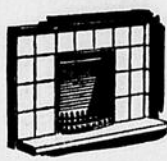

With the theme "TEAM UP FOR ACTION," the Convention committee has plans for a full day of sessions and workshops geared towards the greater development of the B'nai B'rith Program of Service to the Community.

The Convention will open with such key note speakers as: Milton Klein, QC, MP.; Saul Hayes, QC, Executive Vice-President of the Canadian Jewish Congress; and Walter O'Hearn, Kensington Ave. This will be followed by a Birthday Celebration Luncheon, to be attended by the Mayors of the communities serviced by the B'nai B'rith Lodges and Women's Chapters. The Mayors will participate in the candle lighting ceremony in honor of the B'nai B'rith 123rd birthday.

Centennial Year projects, as well as the B'nai B'rith participation in bringing children from all parts of Canada, a project of the Inter Service Club Council of which the B'nai B'rith is a participant, to spend two days visiting EXPO '67, will be dealt with at the afternoon workshops.

School Board Rebutts:

Chairman P. Millar 'enlightens' critics

Sir: The Protestant School Board of Greater Montreal tries at all times to keep its public informed on its activities through the press. This is done generally by encouraging reporters to attend meetings and to meet and discuss with members and officers topics of current interest. Quite frequently press releases are issued on special subjects. As a result of this policy many columns in our newspapers are devoted to educational matters and we appreciate your interest and cooperation in carrying much of what is happening in this important field.

Normally, the Board does not resort to using the "Letters to the Editor" columns to reach your readers but in recent days a number of letters have appeared there on the subject of tax assessment equalization which call for a reply through the same columns. The letters seem to express a genuine desire for more information on what is recognized to be a problem difficult to explain and, at the risk of complicating an already involved situation, I am going to attempt to give, as briefly as possible, an ex-

planation of the Board's position.

It is generally understood by now that the responsibility for equalizing assessments in the twenty-one municipalities is imposed upon the Board by law. To carry out these obligations over the past ten years the Board has hired at considerable cost a firm of expert appraisers to carry out the work. In the past two or three years the Montreal Catholic School Commission has become involved by virtue of the fact that the major proportion of the Neutral Panel taxes goes into its revenue. The Commission appoints its own firm of appraisers which works independently. The findings of the two appraisers are then compared and reconciled. The Board and the Commission then examine and approve the reports of the assessors and issue the necessary legal notices of the changes required.

It so happens that the Montreal Metropolitan Corporation is required to make a similar survey for the distribution among municipalities of certain metropolitan costs. Some differences do occur between the combined School Boards' findings and the Corporation's findings and these discrepancies are confusing to the public. What should be pointed out, however, is that over the years the two surveys have been in general agreement. In any one year the school assessment in a municipality may be higher than the metropolitan figure but the reverse is often true in another year. To illustrate this I would like to quote the figures for the past three years in the municipalities where most protests have arisen this year.

In Westmount the school adjustment of 19% this year is higher than the 12% imposed by the Metropolitan Corporation. Last year both agreed at 35% but in 1964 the metropolitan assessment was 35% while the school figure was only 25%.

In St. Laurent the figures this year are 26% for schools and 22% for the metropolitan. For the two previous years the figures in agreement at 15% and 25%.

In Mount Royal the discrepancy is greater in that the school adjustment is 23.5% while the metropolitan figure is 12%. Last year the figures were 10% and 5% respectively. The previous year is difficult to compare because the Board accepted the new municipal roll while the Corporation added 155% to the old roll.

The question naturally arises as to why there is any difference between the two firms of "experts." This is difficult for a layman to answer but I believe it can be accounted for by the fact that there are two recognized methods of approaching the problem of equalization. The first method is "representative sampling" which entails actual evaluation of a number of properties in each municipality and comparing the results with the values on the municipal rolls. The second is "sales ratios" which is a comparison of values of properties as shown by recent sales and the values of the same properties as listed on the municipal rolls. In the investigation carried out by the Board's appraisers a com-

parison of both methods is used in the belief that this ensures more accurate results. The survey for the Metropolitan Corporation is based solely on the recent sales. Both are recognized and accepted methods but it is inevitable that some differences in result will occur where two approaches are involved. The reports from both surveys have been subject to protests, with the M.M.C. receiving proportionately about as many as the Board. What should be clearly understood is that the firms engaged in this work are fully competent in the field and arrive at their conclusions only after they have made exhaustive studies. There is no question of arbitrary figures being imposed on the taxpayers as has been suggested.

I would like to turn now to the matter of the board's decision on the handling of the many appeals, or protests, it received. To do justice to the Board's position it is necessary to go back a few years to the time when all appeals were addressed to the Superintendent of Public Instruction at Quebec. This office was abolished when the present Department of Education was set up and the law, as amended at that time, stated that all appeals would henceforth be made directly to the Magistrate's Court. The P.S.B.G.M. was strongly of the opinion that forcing the small taxpayer to take his case to court, with the risk of considerable costs involved, was grossly unfair. Consequently, the Board sought and obtained the power to consider appeals itself and to amend its decision where the taxpayer could prove the equalization factor was unfair in his particular case. Acting with this authority, the Board last year on its own initiative granted a "hearing" to practically all residential property owners who appealed and even where no reduction was allowed an opportunity was given for explanation as to why the decision was arrived at.

The situation this year is entirely different. Over 3,000 appeals were received and had to be dealt with. This posed a serious problem. Responsibility for dealing with this lay with the Board's finance committee and the members of this committee discussed the matter at length on several occasions before reaching a decision. Two unsurmountable difficulties presented themselves. The first was lack of sufficient time to hear all cases. On the basis of the committee setting up three revision boards and allowing 15 minutes for each hearing it would require 250 hours for each board to handle its quota of 1,000 appeals. By sitting three nights per week for 2½ hours per session it would take about eight months to dispose of all hearings. Against this we have to place the fact that the Board had to reach a decision before October 8th, 1966 in order to allow the appellant 30 days in which to exercise his rights to proceed to the Provincial Court before November 7th if he so wished.

The second difficulty was just as great. Before sitting down with a taxpayer to discuss his problem the board

'Low-cost,' 'poor' not the same thing

WESTMOUNT was accused last week of, unofficially, not wanting "a poor house" in its confines.

The reference was to the thorny displacement of Selby street area residents by the trans-Canada highway.

Said Dr. Ronald Bayne, head of the gerontological service of the Department of Veterans' Affairs and lecturer in medicine at McGill University — and a Westmount resident:

"But these people aren't paupers or bums. They are people who want to continue to live where they've always lived. It wouldn't be a poor house."

Westmount is well acquainted with both the elderly and the less privileged, including both in surprising numbers among its citizens. If there is a bias against either, officially or otherwise, it is the passive variety which wishes the body politic everywhere might be young, active and well off.

As for the Selby displacement itself, there is a well-founded body of opinion that feels that public housing is not and should not be a prominent feature of Canada's free-enterprise society and, in any case, Westmount — land-shy and high-value — strikes many as not the most suited for economical public, low-cost dwellings.

School levy methods the obvious trouble

MR. Peter Miller's explanation of the school boards' problem, as he sees it, in equalizing the weight of their levies on property owners in Montreal-area municipalities, will not satisfy Westmounters.

It begs the question of inequitable and inconsistent disparity.

It attempts only to

Another opinion on Spence report

Sir:— Your editorial on the Spence Report which appeared in your issue of September 29 is somewhat confusing and contains at least one contradiction. Or so it seems to me.

At the outset you say that the background of Mr. Justice Wishart Fleet Spence is important, referring, obviously, to his early political career as a Liberal. Yet later you state, "A man who impugns the integrity of our Supreme Court in the person of one of its justices — whether acting on the bench or in some parallel, vital capacity — purely for reasons of personal or political pique, is unfit to be considered again as Prime Minister of Canada."

To my way of thinking, it would seem that you are dismissing the Spence Report early in the game because he has a Liberal background, was commissioned to do the report by a Liberal government, and is therefore expected to show extreme bias on behalf of the Liberals.

You go on to say that Pierre Sevigny "stands identified by Mr. Justice Spence with an apparent prostitute, suspected one-time spy and thief. More to the point, it is suggested that, as associate minister of national defence, he lied concerning the extent of this liaison to his prime minister."

Munsinger is not suspected of all these things. She is accused, and there was certainly overwhelming evidence given at the Spence inquiry to lead him to state categorically that, indeed, she was all these things. And it is significant to note that Sevigny did not defend her, but rather defended his own position by testifying that during the period of his acquaintance with her, he did not know about her background.

And one would have to be

justify the school system's methods.

Those methods are patently out of step with those of other authorities; hence the conflict.

And hence the number of protests.

Rejecting them all is no answer at all.

Change the method.

naive beyond belief to even consider that Sevigny, as he testified, on one occasion slept through the visit to Munsinger of two or more paying customers. He didn't deny the visitors came, or paid, only that he saw them.

And since the Spence Report has been made public, Sevigny has not denied any of what you would call allegations (Spence call them conclusions and facts) made against him or his behaviour.

I think you have missed the point of Diefenbaker's blustering — although I agree he is a pathetic figure and should be replaced. But his blustering is about the fact that the Liberals brought the matter up in the first place after so long, and pursued it to the point of holding an inquiry. To him this was not cricket.

But Diefenbaker was happy when he could storm across the House in support of Neilson's accusations of such mundane "crimes" as Liberal purchases of furniture without down payments. But then you can buy from Woodhouse without a down payment and it never raises an eyebrow in the House. Neilson was out to ruin the political careers of as many Grits as he could, by whatever means necessary. But we note that he is silent now that it is quite evident that his own beloved Tories have the same tar from the same brush of scandal.

And where you suggest that because of Diefenbaker's monumental ego he has failed to turn the Spence Report to his own advantage, you have not been observant of late. At a time when Dalton Camp was almost assured of support in his "re-evaluation of the Leadership" — get-rid-of-Dief-campaign — Dief has now the exquisite pleasure of once again seeing his potential enemies line up behind him. He boasted about it last weekend in Quebec City when he noted that these crises have come up before, but he has always beaten them down and been re-affirmed as leader of the PCs.

Don't let those bus-stop discs befuddle you

The Montreal Transportation Commission announces that due to the integration of the surface bus system to the Metro lines, some 1,500 bus stop discs must be changed prior to the effective date of October 17.

There are a total of 71 bus routes changed to allow maximum benefit to be derived from the Metro's speed operation. There will be a large number of new bus stop locations to allow connection with the stations. Other bus stop discs will show new route numbers.

Due to the volume of this work, actual installation of new discs will be made starting Saturday, October 8, and will be continued until completed.

It must be noted that present stops will continue to be effective until 5.30 a.m. Monday, October 17, and bus drivers will observe old stopping locations on their routes notwithstanding the changes indicated on the new bus stop discs.

Opposition critics charged in the Commons recently that the government was wobbling and uncertain in the guidelines it was setting. They pointed to Industry Minister C. M. Drury's call in Edmonton Tuesday for a "general guideline" of three per cent to be applicable to wage and profit increases. And they contrasted it with Finance Minister Mitchell Sharp's earlier creation of a "four or five per cent" guideline. Prime Minister Pearson flatly denied that Mr. Drury's Edmonton speech was open to such criticism.

Power of God uniting force

A description of surfboard riding was used as an illustration of how men must learn to unite themselves with the spiritual power of God, in a free public lecture on Christian Science prepared for delivery in the auditorium of the Westmount High School last Thursday even-ing, October 13.

A surf-rider has to get moving in the same direction as the wave, the lecturer said. "When the wave reaches him and lifts him to its crest, it's a matter of staying 'at one' with the wave, and letting it carry him. He never breaks the relationship of rider and wave otherwise he'd

fall off, get knocked around and go nowhere. Our great need is to move Spiritward, to become attuned to God, to ally our-selves with spiritual power. This is getting on the wave."

The speaker was William Henry Alton, C.S.B., of New York City, an experienced prac-titioner and authorized teacher of Christian Science, who is making a nationwide tour as a member of the denomination's Board of Lectureship. Mr. Alton spoke locally, under the auspices of the Christian Science church on Lansdowne avenue in West-mount.

Dealing with the theme "God's Power at Hand", Mr. Alton emphasized that every individual can gain more and more under-standing of God's power, and by allying himself with the divine in practical ways, he finds that he is not at the mercy of phys-ical and material powers, but enjoys an increasing measure of God-given dominion, and sees more and more harmony and health in his daily experience.

The secret of the greatest power obtainable was given in the Sermon on the Mount, the lecturer said, "the power of love, forgiveness, mercy, purity of heart." He suggested that Jesus' forgiveness of his enemies at the cross may have been "the power that turned his crucifixion into the greatest victory of all time."

*Westmounter president
of McGill Blood drive*

Sue Rittenberg, a life-long Westmount resident, is the first woman to be named head of the McGill Blood Drive to be held October 12-19.

Miss Rittenberg, who now lives at 4350 Sherbrooke west, attended Roslyn School and graduated from Westmount High in 1963. She is a fourth year arts student majoring in political science and psychology, and has worked for the Blood Drive dur-

ing her entire university career. As a freshette she worked in a Drive appointment booth; in second year, she became a member of the Droplettes, a booster organization consisting of comely coeds; and last year she was appointed chairman of women and Drive vice-chairman.

In addition to her Blood Drive duties, she has participated in McGill's Red and White Revue, is a member of the Swimming Club, and teaches swimming during the summer.

In an early speech as Blood Drive Chairman, Miss Rittenberg explained that McGill's Blood Drive, the largest in North America, supplies all area hospitals with enough fresh blood to last a week. She emphasized that the clinic is open to the public as well as to McGill students and faculty, and urged citizens, especially late shoppers, to give on Friday evening (Oct. 14) or the following Tuesday evening (Oct. 18).

*A preview
of Christmas*

Toys and turkeys, tinsel, candy, and bright paper wrappings, Christmas came early this week for members of the Grenfell Labrador Medical Mission, in Montreal who on October 3rd, finished packing and shipping all the things that make Christmas bright and happy for children everywhere. Along with the goodies went cases full of warm clothing, books, and comforts for patients and staff members of the Grenfell Mission's coastal stations in Mutton Bay and Harrington Harbor, in Quebec, and North West River, Labrador, and for the children who spend long months in the Mission's dormitories while attending regional schools.

We see and hear

By ADELE HAYES

● This is the time of year we plan our activities for the winter. It is also the time that organizations of many efforts make plans to put forward their plans for the future, and these often need the support of new members.

● One new project this year, is 'Meals on Wheels,' a joint undertaking of the church of the Advent, Anglican, and the Church of the Ascension, Roman Catholic. Meals on Wheels provides hot meals for needy oldsters, and goes out twice a week. They need volunteers to man the food carrier, to chauffeur the cars used, to help with the preparing of the meals, and many other necessary chores and the ladies say that church affiliation is not important. Co-chairmen of this worthy cause are Mrs. Michael Barkway of the Church of the Advent, and Mrs. Herbert G. Cook of the Church of the Ascension.

● The Canadian Association of Consumers, whose only Mont-

real branch is the one in Westmount, also needs new support. Anyone on the island is welcome to join, and if you care about the rising cost of just about everything you can do something about it by getting behind the CAC. Mrs. Michael Boyd of 341 Metcalfe avenue is the one to contact.

● The Voice of Women, non-political and a cooperating body of UNESCO also seeks new members. For those who care about changing the present state of world tension, this organization wants to form an enlightened public opinion, which they feel is the chief support of governments in their work for peace. This is our pledge to you. We're not relying on sob stories and pictures of crying babies to back it up.

Just the facts. Which are these:

1. The Federation of Catholic Charities supports 32 social agencies and services in Montreal. (No other fund drive replaces this support.)
2. These agencies provide a comprehensive network of modern social welfare

services for people of all ages and economic levels.

3. Our aim is to cut the high cost of charity by preventing small troubles from growing into big tragedies.

Won't you help? Just drop a card to us at 1857 St. Luke Street, Montreal 25, stating the amount you'd like to pledge.

We'll take you at your word.

Amalgamation heat is removed; Westmount can sit back, relaxed

Norman Dawe, Westmount's energetic city manager, spends a lot of his time dashing from convention to convention, in his capacity as 'watchdog' of the welfare of the municipality, and last weekend was no exception — despite the fact that it was Thanksgiving weekend.

Beginning Thursday, continuing Friday and on through Saturday until midnight, he was in attendance at the Quebec Union of Municipalities convention at the Queen Elizabeth Hotel.

You might check the list of speakers, you could comb the agenda, without finding any specific chore that Norman Dawe was listed for — yet he was on the job, and keeping his eyes and ears wide open.

At a convention, as any trained newsman knows and which the general public may not all suspect, the big interest items most frequently come from the reports of the resolutions committee, and from resolutions, submitted to that committee.

Sure enough, that's where

City Manager Dawe is looking most carefully and that is where he hits paydirt.

One of the comparatively small municipalities is planning to present a resolution seeking to make annexation easier.

This doesn't suit the larger municipalities at all, and the place to kill such an item is in the resolutions debate, before the thing gets to the floor of the convention.

This time, however, things turn out well.

Mr. Dawe can sit back for a few minutes and relax.

The work is done for him by Quebec's Municipal Affairs Minister Paul Dozois who tells the convention that the 'National Union's approach to amalgamation is going to be quite different to that of their predecessors in office.

He reaffirmed that the principle of amalgamation is still alive, but the emphasis will be on consultation with the taxpayers and the voluntary participation of the municipalities in any proposed plan.

The government, he said, would not act on either its own or some other proposed plan of amalgamation before first consulting the taxpayer and the municipal governments concerned.

Ready Guide to prevention of fires

Practically all home fires could be prevented if:

- Adults smoked safely, never in bed or while drowsy.
- Small children never were left alone at any time and matches and lighters were kept out of their reach at all times.
- There was no misuse of electricity by improper fusing, overloading of circuits, abuse of appliances; and if all wiring was done by competent electricians and all frayed or broken cords were repaired or replaced immediately.
- Heating equipment was properly installed and kept in good repair, chimneys cleaned annually and all portable heaters used correctly and kept away from all flammable materials such as bedclothing and drapes.
- Fire-resistant or fireproof roofing material was used exclusively.
- Flammable liquids (gasoline and naphtha) were never used in homes. Use only non-flammable cleaning fluids, without carbon tetrachloride.
- Rubbish and unnecessary combustibles, like paints were eliminated.

If fire does strike, call the fire department immediately. The first five minutes are the most important. Don't dawdle. Get out and stay out.

Hallowe'en Party is Highlight of fun-filled October month

Program Director Tom Stephens announced this week that the Unity Boys' and Girls' Club would hold their annual Hallowe'en Party on Hallowe'en Nite, Monday, October 31st, and at a time that would not interfere with the kiddies 'trick' for their "TRICK 'N TREAT" campaign.

CLUB HEADQUARTERS: The Club building on Greene Avenue will be headquarters for the youngsters who would wish to use the facilities for changing into their costumes or checking their treats. Also planned for the evening is a special Hallowe'en Movie scheduled for later in the evening, costume parade, prizes and the usual Hallowe'en treats. Hallowe'en Night at Unity will be open to all club members and the other members of their families including their younger brothers and sisters as well as their parents. There are no limitations at Unity's Parties. Come one, come all. Let's have a good time.

HAPPY BIRTHDAY: All club members celebrating a birthday during the Month will be invited to attend a party in their honor. The "Party" this month will be held on Saturday, October 29th. Special invitations have already been mailed out for this Month's Party with other parties being planned each Month.

CAMPING TRIP: In keeping with a planned policy for the forthcoming 1966-67 Program Season, the Unity Boys' & Girls' Club have started with the first of the series, a special trip per month, the first being a Camping trip to the Upper Canada Village.

In November and succeeding months, special outings by bus, snowmobile, on sleigh rides and other means of transportation will take the youngsters to many places of interest in and around Montreal as well as out of town points.

Club members are urged to

Employment Service changes its name

A change of name, from National Employment Service to Canada Manpower Centre, was announced today by Mr. J. Lucien St-Cyr, Manager of the local office of the former National Employment Service.

Rapid technological change is the reason for the increasingly important role that the Canada Manpower Centre must undertake, if the economy is to prosper. It must take advantage of new and improved ways of doing business, and, to make this possible, the labor force must be extremely adaptable and mobile. It is the job of the Canada Manpower Centre to assist the labor force to respond to these changes.

Mr. St-Cyr said that the new name reflects more accurately the emphasis that the service is placing on counselling, training, labor force mobility, upgrading, research, and labor market information.

Mr. St-Cyr said that both employers and employees will benefit from the new and improved service from the Canada Manpower Centre and urge them to make full use of his office for every employment and labor market need.

register early for these special events. The Montreal Boys' Association's two 72 passenger buses will be used regularly for this purpose.

PROGRAMS EXCITING: It's just like old times at the Club — you would never know that an exodus from the community was impending, due to the Selby Street expropriation, because as each day progresses, more and more former club members are returning and new ones are being enrolled daily.

The membership enrolment to date is nearing the 200 mark

and the trend continues to an upward swing. A significant factor this year is the increased participation in the first month of this year's operation. September showed a participation of 3300 which was an increase over last year's 2643 and athletic activities were predominant.

The T & K's, a junior community service club, have been invited to participate in a television program, a Screen Gems Production. Auditions are conducted in Studio One, at Channel 12, CFCF TV.

double your money with Canada Savings Bonds Centennial Series

Centennial Series Canada Savings Bonds offer you their highest interest yield ever—5.48% a year when held to maturity.

The new Bonds pay annual interest at the rate of 5% for each of the first four years; 5½% for each of the next three years; 6¼% for the following year and 6% for each of the last five years—a total of \$72.25 in interest on every \$100 Bond.

And for the first time, there is a special compound interest option. To take full advantage of it, leave all the annual interest uncollected until Nov. 1, 1979, and you will get interest on your interest, amounting to \$27.75 extra on every \$100 Bond.

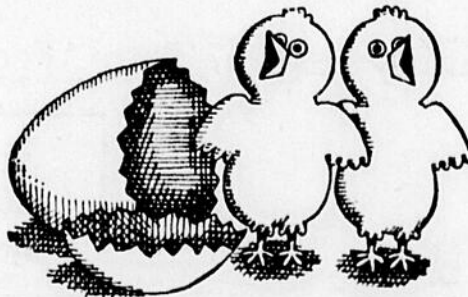

It all adds up to total interest of \$100 on every \$100 Bond. It's a safe, sure way to save. DOUBLE YOUR MONEY with Canada Savings Bonds Centennial Series.

This Series retains all the traditional features which make Canada Savings Bonds Canada's most favoured investment.

They are still easy to buy for cash or on instalments where you work, bank or invest. You may buy as little as \$50 or as much as \$10,000. Every Canadian resident may buy up to this limit. So can estates.

They are still simple to cash, anytime, at any bank in Canada for their full face value plus earned interest. Just fill out the redemption form on the Bond, present it to your bank and you'll get your money right away.

And now they're better than ever to keep with the highest interest yield ever and interest on interest. DOUBLE YOUR MONEY with Canada Savings Bonds Centennial Series.

Jimmy Ebbitt, 15, Wins Tennis Title

Westmount's Tennis Champions were declared in all categories with final matches being played over Thanksgiving weekend.

In the Men's Open Singles,

City hockey program is building up

The City of Westmount Recreation Department has launched its hockey registration program for boys residing in Westmount who wish to play termite, mosquito, pee wee, bantam, midget and juvenile hockey.

Age categories are based as of January 1, 1966. For example, termite must be under nine as of this date. Games in this section are scheduled for 4 p.m. on Fridays and between 9 a.m. and 12 noon on Saturday.

Mosquito players must be under 11 and will play at the same time as the termite. Under 13 is the age limit for pee wees and games are set for Mondays and Wednesdays at 4:30 p.m. and Fridays starting at 4 p.m.

Bantams (under 15) will play on Tuesdays and Thursdays at 4:30 p.m. while the midgets (under 17) will tangle Mondays, Tuesdays and Thursdays at 6:30 p.m. Monday, Tuesday and Thursday evenings will be the days on which the juvenile competitors, 19 years of age and under will meet.

A senior league, in which there is no age limit, will also be in operation with teams to play Tuesday and Thursday nights. On Mondays at 7:30 p.m. fathers will get the chance to show how the game is played when they meet in the "fathers only league."

Boys 13 years of age and over interested in refereeing or coaching will be most welcome. Registration ends Oct. 28.

Salvation Army sod is turned by A. E. Walford

Monday, The Salvation Army embarked on an important extension to the Men's Social Service and Rehabilitation Centre, 1620 Notre Dame Street, West, with a Sod Turning Ceremony by Major General A. Ernest Walford, Belmont Ave., Chairman of the Advisory Board, and Lieut.-Colonel Ernest Fitch, National Social Services Secretary of the Army's National Headquarters.

With the growth of the city in recent years the facilities of the Institution have been taxed to the limit. To make more adequate provision for increasing needs, additional facilities are being erected at a cost of \$500,000. Architect for the project is Grattan D. Thompson and Contractors are Hewson Construction Limited.

The little girl kept coming home from school with such a serious face every night that her mother finally asked her what was wrong. "I wish you'd let me take my bath in the morning instead of at night," she said. "Every day in Health class teacher asks us if we had a bath today or not. I haven't been able to say Yes once this year!"

Tavern sign: "Booth for psychiatrists."

fifteen year old Jimmy Ebbitt defeated John Singer in five sets. Ebbitt defeated other outstanding players on the way to the finals, among them, Colin Anderson, last year's champion.

Ebbitt, who is also a member of Mount Royal Tennis Club, shows a great deal of potential and with his ability and desire may one day represent Canada in the Davis Cup Competition.

Other winners were Ladies' Singles, Anita Sepic; Mixed Doubles, John Singer and Nancy Burwash; Ladies' Doubles, Mrs. Collier and Mrs. Gibbons; Men's Doubles, C. Frank and L. Zold; Boys under 14, Martin Cukierman; Boys under 16, Jimmy Ebbitt.

Winners will be awarded trophies and crests at the City's Annual Awards Night which takes place next May.

Camera Club to be re-activated

By BRIAN MAYNE

As in a true educational system, the ranks of the Westmount High students were joined by teachers for a short while last week and both learned together.

The high school was visited by nineteen student teachers from Macdonald College. They were here for only a day and a half. The first half day they were given a tour of the school and an explanation of how the system works.

The next day was spent observing in classes. Two went for observation of music at Roslyn School with Miss Jamieson.

All have degrees and are taking a one-year course of training and teaching.

This was their first visit to classes while training. They are listed below with the subject they have a special interest in and the name of the high school they attended. Peter Fogden — English — Toronto; Lennox Dee — English, History — Trinidad; Desmonde Pitt — History — Bishop's; S. E. Sokolyk — History — William Dawson; David Freedman — English, History — New York; George Wallace — History — Chambly; Elizabeth

Shaks — History, English — Monklands; Sheila Bruck — English, History — Northmount; Morrie Bakerman — Biology, History — Baron Byng; Tyrone Ishmael — Chemistry — Trinidad; W. J. Keating — Latin, Guidance — Halifax; Jack Ber-covich — Mathematics — Baron Byng; Hyman Adler — Mathematics, Chemistry — Northmount; Varoug Avatis — French — Egypt; Linda Alexander — Music — Greenfield; Kenneth Woodman — Music — New Richmond; Dorothy Gillmeister — Elementary — Hudson; Elizabeth Winn — Elementary — Trafalgar, and Vincent Roper — Elementary — Beaconsfield.

Another highlight at Westmount High will be The Virginia State College Symphonic Band visiting for lunch and to play for the school tomorrow. The conductor is Nathaniel Gatlin who has been with the band for several years. C. Richardson is the assistant conductor. The band party is made up of 117 people. The concert group is 65.

CAMERA CLUB

Westmount High will be reactivating a Camera Club for those interested in photography. It will be the first such organization in the new school. The club's advisors are Mr. Buckmaster and

Mr. Mills. It will be made up of a responsible group of students who have a real interest in this art. The school hopes to be developing, printing, and enlarging their own pictures. Any equipment or chemicals pertaining to photography would be a welcome

donation.

In Westmount sports, the senior soccer team was defeated by St. Laurent. Not listed last week on the Westmount senior soccer team is David Walker.

The Junior football team lost to Monklands. The following are on the team this year: R. Abrams, G. Allaire, J. Banks, H. Barza, L. Blizzard, M. Bourke, L. Brown, M. Butler, F. Cobbett, J. Culley, R. Diamond, B. Dumas, P. Finestone, J. Fisher, P. Fleether, P. Friedman, M. Friedman, J. Graham, B. Hoppe, D.

Howe, T. Hughes, P. Lecouffe, R. Lee, B. MacFarlane, J. Mackenzie, R. Meech, S. Molloy, D. Oliver, D. Patrick, R. Perlman, and K. Saxe.

The strips which band birds used to be inscribed "Wash Biol Surv" for Washington Biological Survey. They were changed after a farmer shot a crow and wrote the government: "Dear Sirs: I shot one of your birds the other day and followed the instructions. I washed it, bled it, and served it. It was terrible."

Chairman

(Continued from page 4)

must have the facts regarding his particular property. This would entail examining all 3,000 properties in order to determine the real value for comparison with the municipal roll listings and the Montreal equivalents. This would be a tremendous task taking months to carry out and, incidentally at a cost of many thousands of dollars otherwise earmarked for education.

After careful consideration of the factors just mentioned the Board reluctantly concluded that it would have to reject all appeals without a hearing. To attempt to hear as many appeals as it could within the time available and to deny a hearing to the others would, in the Board's opinion, have been unfair to the vast majority who would be unheard.

Nevertheless, although it formally rejected all appeals the Board realized that some of the appeals were from people who, because of circumstances, such as having reason to believe local assessors had erred in establishing values, had special reasons for pressing their appeals. All who felt they were in this category were invited to repeat their appeals and these cases are now being heard by committees of the Board.

The Board has been accused of being "undemocratic" in so "airily dismissing hundreds of protests". I cannot agree. The Board has, in my opinion, taken the only course open to it in the light of the situation it was faced with. At all times the rights of the taxpayers were kept solidly in mind.

It is my sincere hope that the explanations I have attempted to give above will help to enlighten the critics who, in all fairness, were not in a position to appreciate the magnitude of the problem.

Yours very truly,

PETER MILLAR
Chairman

Gerontologist takes a round-house swing at 'Housing' attitude

Dr. Ronald Bayne, a local resident, and head of the gerontological service of the Department of Veterans Affairs and a lecturer in medicine at McGill University has taken a round-house swing at Westmount in an address at the Conference on the Changing Community this weekend at the YWCA.

Speaking of low cost housing, he said, in part:

"There is no support for low-cost housing in Westmount because, unofficially, they don't want a poor house there.

"But these people aren't paupers or bums. They are people who want to continue to live where they've always lived. It wouldn't be a poor house," said Dr. Bayne.

"The problem seems to be that they (Westmount citizens) don't want old people around. It's a prejudice. These are citizens who are active and able to take care of themselves."

"No comment" was city hall's reply.

Catholic Charities . .

(Continued from page 1) upon the Federation of Catholic Charities for welfare services.

The people of this area have responded generously in the past to Federations appeal; for three years in a row, the drive has exceeded its objectives. As Federation of Catholic Charities once more turns to the public for support, their campaign organization feels confident that they will be successful.

Certainly, this would be in the interest of everyone, for the vital work of this organization and its network of agencies benefits the entire community.

United Church Women to hold rally

United Church Women will be attending the Fifth Annual Fall Rally for this area on October 18th at The Church Centre, 3480 Decarie Boulevard, Montreal. Registration is at 1:00 p.m. The evening session will start at 6:45 p.m.

The themes for this Rally are "The Church Grows in Canada" and "The United Church Grows in Montreal Presbytery". There will be displays of literature, and an interesting collection of photographs and documents tracing the histories of many of many churches.

The guest speaker will be the Rev. M. C. MacDonald, B.A., D.D., L.L.D., Secretary, Board of Home Missions, The United Church of Canada. Dr. MacDonald was born in Prince Edward Island. He received his education at Prince of Wales College, Charlottetown, Dalhousie University, Halifax, and Pinehill Divinity Hall, Halifax.

He was ordained in 1924 at Hopewell, N.S. He served as a student missionary and later as a minister in several Maritime and Saskatchewan churches.

In 1940, while serving at St. Andrew's Church in Truro, N.S., he was appointed Assistant Secretary of the Board of Home Mission. Later, in 1942, he was

appointed Associate Secretary, and then, in 1954, Secretary.

In 1947 Pinehill Divinity Hall, Halifax, conferred on him the honorary degree of Doctor of Divinity, and in 1963 Dalhousie University honored him with the degree of Doctor of Laws.

He is the author of the book, "From Lakes to Northern Lights". He is a member of many boards and departments of the Church, among them: Board of Finance, Treasury Department, Missionary and Maintenance Department, and Executive of General Council.

Under the chairmanship of the Rev. Norman Slaughter, M.A., President, Montreal and Ottawa Conference, The United Church of Canada, a panel will present highlights of the recent meeting of the General Council of the United Church of Canada held at Waterloo, Ontario.

A dialogue between the Rev. H. St. Clair Hilehey, M.A., B.D., minister of The Church of St. James and Apostle, and the Rev. George Johnston, M.A., B.D., Ph.D., D.D., Principal, United Theological College, will deal with the proposed union of the Anglican and United Churches.

In the evening there will be an opportunity for members to take part in conferences with regional vice-presidents for information and discussion.

Be prepared for the start of Métro service on October 17!

The "Let's take the Métro!" folder has been mailed to you. It includes information and a map of the Métro-Autobus network. To take full advantage of this fast and modern way of transportation right from the first few days, read the folder carefully and keep it for reference.

SOME FEATURES YOU SHOULD REMEMBER:

1 ONE TICKET

The ticket already in use for some time in MTC buses also allows you to use the Métro. This ticket has a magnetic code opening the fare collection turnstiles in Métro stations.

2 TO FIND THE STATIONS

You will find the Métro stations easily if you look for these signs (lighted at night).

3 TWO TRANSFERS

IN BUSES

These transfers will gradually be issued by bus drivers. They have a perforated code and will be distributed automatically and accepted by automatic turnstiles in the Métro or on buses. The present transfers will, until then, have to be checked by the changer in Métro stations.

530P AK .97 S

4 YOUR GUIDE IN MÉTRO STATIONS

Near each Métro platform, you will see a lighted panel, like this one. The arrow shows the direction of the train you can take on the platform.

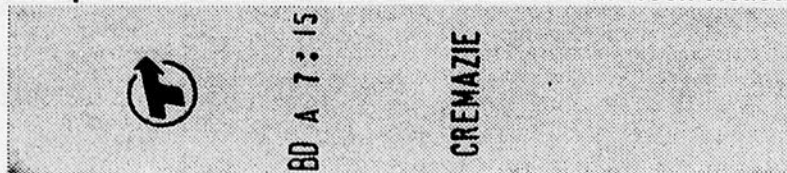

The panel also shows the other Métro lines with which you can transfer and stations where you can stop.
