

HUNDREDS OF LIVES LOST IN FIRE SWEEP NORTHERN ONTARIO.

Towns Ravaged by Flames, and Places in the Ontario Mining Country Wiped Out—Miners Were Cut off by Flames, and Took to Shafts Where They Perished.

Toronto, July 13.—The Mail and Empire's resident correspondent at South Porcupine, who escaped Tuesday's fire and reached Cobalt yesterday, wires the following despatch:—
The loss of life in Porcupine from Tuesday's fire will probably reach several hundred, while the property loss will reach \$1,000,000.

In four short hours, commencing at 2:30 noon Tuesday, the fire raged from the Standard Mines right through to the shores of Porcupine Lake, eating up South Porcupine, Pottsville and part of Golden City, as well as many small buildings along the lake front.

While part of the loss of life occurred near Porcupine Lake, the greatest havoc will be around the main mines, notably West Dome and Big Dome. Here the entrapped miners, cut off by the flames, took to the shafts, where they perished.

At Preston East Dome safety was sought in an untimbered shaft, and there was no loss of life.

The streets of South Porcupine are strewn with dead human beings, horses, dogs and cattle, while along the mine roads charred corpses lie at intervals. The names and number of prospectors in the bush must have perished in the seething furnace of flames, driven by a sixty-mile gale.

It is known, however, that of the staff of 300 at the Dome but a few were saved, while at the West Dome but three out of 84 employees are known to be alive.

Along the highway between West Dome and South Porcupine, over a comparatively open section, there are six charred bodies. In the ruins of the town of South Porcupine there lie the bodies of William Gohr and his clerk, Mac Smith, Captain George Dubar and Tom Gedes.

CONFAGRATION APPROACHES.
Early Tuesday morning dense clouds of smoke could be seen in the southwest, but the fire was apparently remote. A small fire also broke out at Lakeview, Porcupine township, but this excited little notice because of the frequency of bush fires. As noon approached, thick clouds of smoke reached the zenith, marking the approach of the fire and soon the sun was obscured.

At 2:30 the fire had covered an area of 25 miles in length and over two miles in width and had reached the base line of Tisdale, destroying the Standard and Imperial mines in Delora township; Philadelphia, in Shaw township; and the Eldorado and United, in Southern White.

At 1:15 p.m. the seriousness of the situation was realized in South Porcupine. The fire call was sounded on the Dome mine whistle, with repeated blasts on other whistles. By this time the sky was black with smoke, and residents began to pack valuables and light baggage for a hurried departure. Soon the flames had reached the Foley & O'Brien Mine, having enveloped the Preston, East Dome, the Dome, West Dome, North Dome and what remained of the Dome Extension after last Sunday's fire.

In half an hour the outlying shacks had been reached. This was the beginning of the end. It became apparent at once that the town and possibly all the inhabitants were doomed, for the width of the fire was sufficient for it to sweep over the entire town of South Porcupine and around both sides of Porcupine Lake. The fire reached the frame buildings of the town with a roar heard for miles.

CORPSES AND EMBERS LEFT.
In twenty minutes South Porcupine was completely in flames and in three hours there were but corpses and smouldering embers where the most flourishing town of the camp had stood. Men, women and children crowded to the water front. Launches and canoes, scows and boats were pressed into commission and the women and children were first packed into the boats and sent to Pottsville and Golden City, both safe at the time.

Thirty launches and as many canoes soon had the women landed in safety on the other side of the lake. There was one exception where the most pitiful of all Mrs. William Gohr, with her baby in her arms, refused to leave the town until she

had news of her husband, Mr. Gohr, like the others who perished in town had gone back in an effort to save some valuables, and with his clerk was penned in the building. For over two hours Mrs. Gohr stood in the water of the lake, a hundred feet from the shore, calling to her husband, and refused to leave until he was found. Even after all had deserted the town, and the fire had died out, she remained in a tent on the shore, awaiting recovery of her husband's body.

ANIMALS WENT WILD.
To add to the terror of the situation scores of horses, cattle and dogs ran wild through the town. Their disemboweled and scorched bodies now line the streets with the bodies of dead men.

Acts of heroism were too numerous to mention in detail, while the horrors of the holocaust are too gruesome to print. One man said after the fire:

"The man who could go through this could travel through hell with a smile on his face." One man was led through the town with both eyes burned out, and moaning because his partner had perished; another with his face and arms a mass of blisters, and still another had his abdomen burst open by burns. Harry Roche, a mining engineer, and A.S. Shields, representatives of the J. B. O'Brien Mines, beat their way back through town when the flames were at their height and brought an unknown man who was so seriously burned that a portion of his hand fell off when he was picked up.

HORROR FOLLOWS HORROR
Toronto, Ont., July 13.—(Special)—Horror followed horror in reports which hour by hour are reaching Toronto, of great forest fires in Temiskaming region. It is impossible up to this time to state with certainty the extent of the loss of life and property, but late reports placed loss of life at three hundred and property at several million dollars.

The greatest catastrophe appears to have happened at South Porcupine. Of six hundred persons who sought refuge in lake when fire swept through South Porcupine, two hundred persons, many of them women with children in their arms, lost their lives according to private message received by Mr. Weldy Young, last night. The message came from Mr. Carlton of Haileybury, prospector, who was in the lake when the fire was at its height.

SPECIAL TRAIN CARRIES REFUGEES.
Englehart, Ont., July 13.—(Special)—A special train from Porcupine pulled into Englehart at 20 minutes past 12 this morning, bearing 250 refugees. Behind in three box cars huddled in blankets were twenty-two injured men, three women and two corpses of men, who had died during the journey. Others were injured from West Dome, which has suffered severely. This mine has 28 fatalities, including Manager Weiss, his wife and child, who were killed by suffocation in a shaft. Capt. Meek of Dome and Mrs. Meek were on board. Capt. Meek is blind.

PROSPECTORS' EXPERIENCES.
Little will ever be known of the experience of some of the prospectors in the bushes, as only the dead remain, but a few have already come to light.

SCENES IN THE MINES
The men from the Eldorado all escaped. What occurred at the West Dome, the centre of the most terrible part of the catastrophe, will probably never be known, but so old and experienced a miner as Robert A. Weiss would probably never have led his associates into a timbered shaft in time of fire unless all other means of escape were cut off. There are in the West Dome shaft 27 bodies, including that of Weiss.

YOUNG MAN DROWNED.

Wm. Sims Lost His Life In River at Bromptonville.

VERDICT OF ACCIDENTAL DEATH RETURNED—HAD ONLY BEEN OUT A SHORT TIME FROM ENGLAND.

Bromptonville, July 13.—(Special)—A sad drowning fatality occurred in the St. Francis River here yesterday when a young man, named Wm. Sims lost his life.

In company with a friend he went to the river for a swim. They entered the water about 300 feet above the iron bridge. They had not been long in the water when Sims's companion missed him. The alarm was given and the body was recovered about fifteen minutes afterwards. Life was extinct.

It is supposed that the unfortunate young man had been seized with cramps.

Mr. Bachand, Coroner for Sherbrooke, presided at an inquest held last evening. After hearing the evidence a verdict of accidental death was returned.

The deceased was a young man and had only been a short time out from England.

DISASTROUS FIRE AT ST. JEROME.

Twenty-Seven Families Were Rendered Homeless as Result

CENTRAL PORTION OF TOWN SUFFERS LOSS TO AMOUNT OF \$150,000.

St. Jerome, Que., July 13.—The most disastrous fire in the history of the town broke out at 3 o'clock yesterday afternoon, and before it could be controlled damage estimated at \$150,000 was caused, an area comprising three acres of the business portion of the town having been razed to the ground. Twenty-seven families are homeless as a result of the conflagration, whilst several of the principal stores of the town are but a mass of smoking ruins. It is not known how the fire started, but flames were first noticed issuing from between two stables on the property of Mr. Bruneau Beaulieu.

A stiff breeze blowing from the north aided the flames in their course and they leaped from building to building with lightning-like rapidity. Soon the whole area was a raging furnace.

Residents hastened to save their household effects, and all rigs were commandeered to bring valuables outside the range of the flames. At one time it was feared that the whole town was doomed, and a hurry up call was sent to Montreal for assistance. However, towards 5 o'clock the wind subsided, and as the fire had burned itself a wide thoroughfare the progress of the flames was blocked. There were no fatalities or accidents, but very little in the way of furniture and personal effects was saved.

In most cases the premises were covered by insurance, but stock and furniture were not.

The twenty-seven families left homeless as a result of the blaze are being looked after by neighbors, and relief work in their behalf is being organized by the town authorities.

PREMIER REACHES OTTAWA.
Ottawa, July 13.—Sir Wilfrid Laurier returned to Ottawa last evening. In a speech the Premier eschewed politics and exhorted the citizens of Ottawa to prepare an adequate welcome to the Duke of Connaught. He paid high tribute to the British Crown as the real link of the countries of the Empire.

MISTAKEN FOR A BEAR.
Fredericton, N.B., July 13.—Mistaken for a bear in the thick woods and shot by a friend, Myles Cropley, of Fosterville, Parish of North Lake, York county, was killed. Word of the tragic accident reached here and from particulars available it appears that three men, one of whom was Mr. Cropley, were going through the woods across a point of land at North Lake towards the main road, when they became separated, and one of the three, who carried a gun, fired at what he thought was a bear, and

FIRE DOES DAMAGE AT WATERLOO.

Two Dwelling Houses Were Somewhat Scorched.

PROMPT ACTION ON PART OF FIRE FIGHTERS SAVED SERIOUS CONFLAGRATION.

Waterloo, July 13.—(Special)—The fire alarm sounded yesterday for a fire at the house occupied by Mr. Turcotte, on Star street. The blaze got a good start before the brigade arrived, and the firemen were obliged to work like Trojans. It was with a great deal of difficulty that it was finally got under control.

There was a high wind blowing at the time, and those living near the burning building were caused some uneasiness. The damage by fire and water will be heavy. The fire alarm sounded Tuesday for a fire at the residence of Dr. C. Phelan. The blaze started from an overturned oil stove. Fortunately, those who first arrived on the scene kept their presence of mind, and by hard work succeeded in extinguishing the fire.

POLITICAL POT AGAIN BOILING.

All Signs Point to an Election This Fall.

NOT EXPECTED, HOWEVER, THAT APPEAL WILL BE MADE BEFORE OCTOBER.

Toronto, July 13.—A special to the Globe from Ottawa says:

"With the return of Sir Wilfrid Laurier and Mr. R. L. Borden to the capital, and the reassembling of Parliament on Tuesday next, the political pot, which has been quietly simmering here during the past two months, is again boiling. The Opposition leader before leaving for a brief holiday with Mr. George Perley, M.P., at the latter's fishing camp in Argenteuil, gave out an interview in which he declared that the Opposition was still determined to fight reciprocity to the bitter end. If the Opposition can compel an election on the issue they will do so. And no one doubts their intention or their power to compel a dissolution by the simple process of holding up supply when the House resumes. The Premier and the members of the Government have already intimated that the Opposition's challenge will be accepted."

AN EARLY ELECTION.
"Both sides anticipate and are preparing for an early election. The only question now is as to the probable date. Probably no definite or authoritative forecast can be made as to this until after the House has been in session for a fortnight or so."

There will be party caucuses on both sides shortly after the House meets, and questions as to political expediency in regard to plunging at once into an election and getting through with the agony quickly, or as to continuing in session for a couple of months or so while the remaining business of the session is put through and a redistribution bill brought down will then be thrashed out.

THE REDISTRIBUTION BILL.
"The Government are, of course, anxious to put the redistribution bill through before dissolution. The Opposition, however, know that the redistribution, with 20 additional seats given to the pro-reciprocity provinces, will work to the advantage of the Government. Consequently it would be held up on the plea that it is unfair in its details."

They will seek to placate the west by promising a redistribution bill immediately after the election, to be followed by another election if they are returned to power.

OPPOSITION MUST SHOW THEIR HAND.

"The Government will take early opportunity to force the Opposition to make plain the tactics intended with regard to allowing the reciprocity proposals to come to a vote, with regard to voting supply to carry on the administration after September, when the present interim supply, granted runs out, and, if possible, also with regard to the redistribution bill. The jockeying for position will probably take at least a month. Under all the circumstances an election before October is hardly probable, even were the voters' lists in the unorganized portions of Ontario ready before that time, which is highly improbable."

WOMAN KILLED BY BLOW.

Quebec, July 12.—A young woman named Emma Simard died at the Hotel Dieu Hospital from injuries alleged to have been caused by an old man named Garneau striking her on the head with a stick. The assault occurred in a boarding house, and the coroner's inquest will take place on Thursday morning.

THE PRINCE'S INVESTITURE.

Ceremony of Declaring Prince Edward Prince of Wales Was Impressive.

MANY WERE PRESENT AT CARNARVON CASTLE—EVERYTHING PERTAINING TO THE CEREMONY WAS WELSH.

Carnarvon, Wales, July 13.—(Special)—The investiture of the Prince of Wales by King George, according to the statily ritual prescribed centuries ago, in the Great Court of Carnarvon Castle to-day was a wonderful spectacle, as impressive as it was picturesque.

The ceremony was the biggest thing that Wales has known for centuries. Everything pertaining to the investiture was distinctly Welsh. Welsh music, Welsh drama, Welsh costumes and Welsh genius were conspicuous factors in the wonderful spectacle. Never within the memory of living man has anything so aroused the national patriotism of the

PRINCE EDWARD, whose investiture as Prince of Wales took place at Carnarvon Castle, Carnarvon, Wales.

Welsh people. The genuine enthusiasm with which the masses greeted their Majesties, the fervor with which they joined in singing the National Anthem, the wild shouts which rent the air when the Prince of Wales showed himself to the people at the conclusion of the ceremony—all this, and more, must have been a revelation to the hundreds of English visitors, to the great majority of whom, it is safe to assert, the character of the Welsh people was an unknown quantity.

The ceremony of the investiture took place in the centre of the castle square opposite the main entrance, where a large platform had been erected. Surrounding the platform were great tiers of seats for the accommodation of the privileged spectators, who numbered more than 12,000, and included many court functionaries, civil and military officers, ecclesiastics and friends of the royal family, in addition to the many chosen representatives of the Welsh people. The gray walls and ivy-covered towers of the ancient castle afforded a magnificent setting for the brilliant picture within the enclosure, made dazzling by the multi-colored flags and banners, the bright uniforms of the military and the no less brilliant robes of the State functionaries.

The Royal party, detained at a station a few miles from Carnarvon and entered the town in carriages under military escort. The procession entered by the north road and proceeded through the main street to the castle square, where they were formally received and presented with addresses of welcome by the Mayor and corporation. The Royal party then entered the Castle at the ancient Water Gate on the sea front, overlooking the picturesque Menai Strait and Carnarvon Bay. As their Majesties passed within the Castle walls the Royal Welsh Choir of 500 voices joined in the Welsh national anthem, "Land of Our Fathers."

From the castle square to the first entrance into the castle there were two separate processions, that of the Prince of Wales preceding that of the King and Queen by a few minutes. On the entrance of the Prince the Eagle's Tower, where tradition has it that the first English Prince of Wales was born. Trumpeters in medieval costume played a fanfare as the head of the procession came in sight. On the entrance of their Majesties, a few minutes later the Prince's flag was lowered from the turret and the royal standard hoisted.

Arrived within the castle precincts, their Majesties and the Prince were escorted to apartments specially fitted up for their use—the same which are said to have been occupied by King Edward I. and Queen Eleanor—where they donned their robes of state for the subsequent ceremonial. The robes of the King and Queen were similar to those worn on other state occasions. The Prince of Wales wore a specially designed robe of cloth of gold and purple velvet, modelled on one worn by Charles I. The royal party, having robed, proceeded in two processions by a specially constructed roadway along the

PENN TABLET UNVEILED.

London, July 13.—(Special)—In the Church of Allhallows Barking, in which William Penn was baptized on October 23, 1644, a bronze tablet in memory of the founder of Pennsylvania, presented to the Church by the Pennsylvania Society of New York City, was to-day unveiled with appropriate ceremonies. The unveiling ceremonies took place before a distinguished assemblage of Englishmen and Americans. Dr. Robinson, vicar of the church, presided and Ambassador Whitelaw Reid delivered the principal address. The tablet was designed by a firm of New York architects. The expense attendant upon casting and erecting the tablet in the church was borne largely by former Senator W. A. Clark, of Montana, who is Vice-President of the Pennsylvania Society. The Church of Allhallows Barking is the only building still extant in London which is definitely associated with the birth of William Penn.

AYER'S CLIFF.

The Children's Day service on Sunday proved very interesting. The children earned much credit for themselves as well as those who had them in training. Miss Ruth Libby assisted with a solo, and the choir with an anthem. Before the close of the service four infants were baptized by the Pastor, Rev. C. Moore. The weather continues very warm, thermometers frequently running blood heat.

Mrs. J. M. Hand, Mrs. G. W. Worthen, and Mrs. A. A. Drew were in North Hatley one day recently. The ladies of the W.C.T.U. met with Mrs. S. E. Hill on Wednesday afternoon, with Miss Strout, returned Missionary from China, as a visitor. There are many in camp at Elmwood as well as visitors and boarders in the village. Mrs. D. L. SENSATIONAL FIGHT EXPECTED OVER BABE.

ETHEL BARRYMORE'S CHILD IS BEING LOOKED AFTER NEAR ST. JOHNS, QUE.

St. Johns, Que., July 12.—(Special.)—A little babe, over whom there is to be waged a fight that promises to be one of the most sensational that the United States courts have known for some years, is being quite peacefully looked after in a pretty little home near St. Johns, Que. The child is the son of Ethel Barrymore, the famed actress, who has begun a suit for divorce against her husband to whom she has been married two years, Russell Griswold Colt, a young multi-millionaire.

The child is at the home of a family named Fringers, in the care of a trained nurse. Shortly after the babe was born, it attained no little publicity, being photographed any number of times. Miss Barrymore wrote quite a little thesis on the joys of motherhood for one of the magazines. It was illustrated with photographs of herself and the child.

MISS BARRYMORE TO VISIT.

Miss Barrymore is expected to arrive at St. Johns in a week or so, and to spend most of the summer with her child there. Her Western tour has been cut short and ends on Saturday.

WON'T LEAVE SON AGAIN.

The young mother, it is said, has expressed a fixed determination not to be separated again from her child while the boy is in his infancy. He will be two years old in November, and in all probability, if Miss Barrymore goes on another tour next season, she will take the little one and his nurse with her. She does not purpose to give up the stage, but neither does she plan to be away from her son.

Deaths Reported.

Lodge, who died Tuesday in the Royal Victoria Hospital at the age of 61 years, took place from his late residence on Sunday to St. Ann's Church, where the service was conducted by the Rev. Rural Dean Hepburn. The interment took place in St. Anne's cemetery.

SENSATIONAL FIGHT EXPECTED OVER BABE.

ETHEL BARRYMORE'S CHILD IS BEING LOOKED AFTER NEAR ST. JOHNS, QUE.

St. Johns, Que., July 12.—(Special.)—A little babe, over whom there is to be waged a fight that promises to be one of the most sensational that the United States courts have known for some years, is being quite peacefully looked after in a pretty little home near St. Johns, Que. The child is the son of Ethel Barrymore, the famed actress, who has begun a suit for divorce against her husband to whom she has been married two years, Russell Griswold Colt, a young multi-millionaire.

The child is at the home of a family named Fringers, in the care of a trained nurse. Shortly after the babe was born, it attained no little publicity, being photographed any number of times. Miss Barrymore wrote quite a little thesis on the joys of motherhood for one of the magazines. It was illustrated with photographs of herself and the child.

MISS BARRYMORE TO VISIT.

Miss Barrymore is expected to arrive at St. Johns in a week or so, and to spend most of the summer with her child there. Her Western tour has been cut short and ends on Saturday.

WON'T LEAVE SON AGAIN.

The young mother, it is said, has expressed a fixed determination not to be separated again from her child while the boy is in his infancy. He will be two years old in November, and in all probability, if Miss Barrymore goes on another tour next season, she will take the little one and his nurse with her. She does not purpose to give up the stage, but neither does she plan to be away from her son.

Deaths Reported.

"The Story of Quamin," a tale of the Tropics, which has just been issued from the press by G. P. Putnam & Sons, New York, by Mrs. W. H. Drummond, wife of the late lamented Dr. Drummond, proves that the name has by no means disappeared from the directory of current literature. In this tale and in the half dozen short stories which fill out the book, Mrs. Drummond does for the colored population of Jamaica a service almost equal to that of her husband for the simple-minded and really lovable inhabitant of the Quebec woods. Of course Dr. Drummond's clients were not of an inferior race, but descendants of the best European stocks, in whom certain qualities had been accentuated by isolation and peculiar environment. Mrs. Drummond's, on the contrary, are the children of African savages, whose traditions link them back to a past of dreadful savagery, but whose characteristics have been obliterated by easy conditions of living and the wise Government of their British masters.

Turcotte's Orchestra furnished music for the dancing.

CONDUCTORS ARE CONSIDERATE
Whether it is due to the management of the Sherbrooke Railway and Power Co., or to the calibre of their conductors, it is worthy of note that several of them are most considerate. This is especially so in the case of mothers riding with small children.

On one trip yesterday the conductor got off four times to assist the little tots and their mothers. There are one or two, however, who have evidently overlooked that these little acts of kindness are appreciated by the travelling public.

It is hoped that they too may from now on show the same consideration to the travelling public as their confreres do.

The funeral of the late W. W. Pet-chall took place from the home of his daughter, Mrs. A. T. Drew, 52 Prospect street, on Wednesday afternoon at 2.30 p.m.

Deceased was born in Kettering, Northamptonshire, Eng., and came to Sherbrooke 14 years ago.

HUNDREDS OF LIVES LOST.

(Continued from Page 1)

It is known that 100 pounds of dynamite were in the basket at the mouth of the shaft. Of the 84 employees of the West Dome only three are known to be alive.

Employees of the Preston East Dome, headed by Captain Jack Wilson, visited the West Dome property as soon as possible, and, dropping chains and ladders entered the shaft. The body of Mrs. Burt, wife of Angus Burt, the assayer, was found hanging half way up the ladder where, while trying to escape, she was hit by a falling, burning timber, the marks of which remain on her body. The smoke and the gas from the exploded dynamite was so stifling that no other bodies could be removed. The escape of those at the Dome and Preston East Dome, which were in the centre of the fire zone, is little short of miraculous. At Preston East Dome not a man was lost. At the Dome it is known that 30 foreign laborers perished in a shaft where they sought shelter. Other bodies are lying about the property, and of the force of three hundred it is doubtful if half remain alive.

The escape of Manager Meek and his wife and children, with Mrs. Meek's mother, was providential. That the North Dome employees made their way out of the fire without the loss of a man, as is now believed, is another miracle. Whether any were lost at the Standard and Imperial is not yet known, but to-day relief parties will be sent out.

DYNAMITE EXPLODED.
On the Foley O'Brien property stood the Canadian Explosives dynamite magazine, containing 12 tons of dynamite. This burned for some time before it exploded. At the time of the explosion Ernest and Harry Holland, Captain Munn and several others were only 300 yards away. They were hurled from their feet by the concussion but received only bruises. On a siding in Lakeview Porcupine a car of dynamite exploded, breaking every pane of glass in Golden City. Men and women standing in the water at South Porcupine were thrown from their feet, and flying debris was scattered everywhere. A piece of iron fell at the dock, shattering the arm of an unknown man about to board a canoe. He was picked up and taken across the lake and his arm later amputated. Doctors worked heroically, but the fire had destroyed drug stores and other necessities for relief. There remained nothing but to administer stimulants or sedatives.

The fire in Golden City consumed about one-third of the town, entering from north and veering around to the Murphy house, where men at the point of guns were forced out to fight the flames. The best residences of the town were destroyed and several churches and other buildings also. Food was soon exhausted, and this morning there remained nothing to eat but a small supply of crackers, which must suffice until relief trains are sent in. These trains are already sent for. Glen Foster equipped a train of doctors, nurses and supplies, as well as a hundred coffins for the camp and this should arrive at midnight.

MEASURES FOR RELIEF.
Toronto, July 13.—Prompt measures were taken here yesterday to relieve the distress occasioned by the terrible fires in the Porcupine district. A relief fund was headed by the City Council with \$5,000, and by the Board of Trade with \$1,000, and many individual contributions were made. By to-morrow \$10,000 or more will be available for the sufferers. The provincial Government is also prepared to help liberally, and the resources of the Government Railway, the Temiskaming and Northern Ontario, have been unreservedly placed at the disposal of the stricken district. The Standard and the Dominion Mining Exchanges will be closed to-day as a mark of sympathy with the devastated mining region.

UNEEDA BICYCLE

"The bicycle is coming back into popular favor," we are told. It certainly should come back, and the only wonder is that the restoration has taken so long. The present generation of young men and women is missing much of the physical and mental enjoyment that the bicycle brought to those who rode it in the '80s.

There is a charm about bicycle riding that is all its own, a charm that can only be discovered by those who earn it through labor, and who can appreciate the beauties of the countryside that unfold with every passing mile."

MISTAKE OF GROCERY CLERK.

As Result Several Waterloo People Were Taken Violently Ill.

SOLD MACHINE OIL INSTEAD OF VEGETABLE OIL, AND SAME WAS USED IN FOOD.

Waterloo, July 13.—(Special)—A rather unique case of poisoning occurred here, when several well-known residents of the place were taken suddenly and violently ill. Upon consulting a physician, the symptoms were found to be those of poisoning. Every conceivable cause was thought of, but the victims and their friends were unable to figure out what they had partaken of that would bring about such sickness. The next morning it was learned that a sub-clerk in one of the best known stores was the cause of the baffling mystery. It appears that he sold by mistake machine oil for vegetable oil. The supposed vegetable oil was used in pies and other pastry, and of course disagreed with those who partook of food in which it was used.

The victims, however, have recovered and are about again, but do not recommend their newly tried recipe.

AMENDMENT LOST BY LARGE MAJORITY.

U. S. Senate Turned Down That Offered By Senator Bailey.

WOOL TARIFF AMENDMENT TO RECIPROCITY BILL TO BE PRESENTED.

Washington, D.C., July 13.—Senator Bailey's free list amendment to the Canadian reciprocity bill was defeated in the Senate late yesterday, by a large majority. So evident was the margin against it that Senator Bailey did not ask for a roll call.

Pursuing the policy of forcing the opponents of reciprocity to proceed without delay, Senator Penrose urged Senator Bailey to introduce his wool tariff amendment at once. The latter did so, and the Senate adjourned with the amendment pending.

It is a modification of the wool tariff bill recently passed by the House and places all duties on raw and manufactured wool at a general average of 30 per cent.

The consideration of the reciprocity bill is expected to move with rapidity from now on.

GOD SAVE THE KING.

PEACE VERSE INSERTED IN THE NATIONAL ANTHEM.

London, July 14.—A change has been made in the English National Anthem. In these days when the main thought throughout the civilized world is peace, one of the old verses of the anthem is said to have struck the King as sounding a somewhat discordant note. It ran:

"O Lord our God arise,
Scatter his enemies,
And make them fall;
Confound their politics,
Frustrate their knavish tricks;
On him our hopes we fix,
O save us all."

That verse has now been replaced by the following, written by Dean Hole, and breathing a more peaceful spirit:

"O Lord our God arise,
Scatter his enemies,
Make wars to cease;
Keep us from plague and dearth,
Turn Thou our woes to mirth,
And over all the earth,
Let there be peace."

This alteration has been specially sanctioned by King George, and is, therefore, of national importance, seeing that it is now likely to be universally followed.

ROYALTY DEPARTS FROM IRELAND.

FOUR DAYS' VISIT OF KING AND QUEEN FINISHED TO-DAY.

Dublin, July 12.—(Special)—The four days' visit of the King and Queen to Ireland came to an end to-day, when Their Majesties and their suites left Dublin for Kingstown, whence they are to travel in the Royal yacht Victoria and Albert to Holyhead. The Royal party were given a cordial farewell.

It is only the sanguine mind, however, who look to find substantial, desirable political effect from the King's visit to Erin. There was less deliberate aloofness displayed than was threatened. There probably would have been less still had there not been keenly jealous supervision. However that may be, it has not lessened the admiration for the tact and tireless good-will with which the King performed his mission.

THE PRINCE'S INVESTITURE.

(Continued from Page 1)

Interior of the castle to the investiture platform. The King officiated at the brief ceremony. The Queen was seated at the left of his Majesty and grouped about them were the Earl Marshal, the Garter King-at-Arms and Somerset Herald, the Pursuivants and other functionaries.

As the Prince knelt before him the King solemnly said: "We declare your Royal Highness to be Prince of Wales." Following this the insignia was adjusted by the officials upon whom this duty was imposed by tradition.

The Prince, immediately after being invested, proceeded to the celebrated Queen Eleanor's Gateway, where he presented himself to the view of his Welsh subjects. He was greeted with shouts of wild enthusiasm, for the emotional Welsh people recognized in him a royal prince who was also a Prince of Wales.

WALKING HOLIDAY TOUR.

Walking tours are not quite so popular as those by auto, but two young Lennoxville men spent an enjoyable holiday walking to St. Johnsbury and return. They left Lennoxville on June 1 and followed the highways, passing through many towns and villages by way of Capelton, North Hatley, Ayer's Cliff, Stantead Junction and continuing on to Uncle Sam's domains, through Newport, Coventry, Barton Landing, Barton and Lyndonville, to St. Johnsbury, Vt., their intended point of destination. While there they witnessed a great national demonstration on July 4th in connection with American Independence Day. On their homeward trip these gentlemen changed their route, and returned by way of Island Pond, Coaticook and Waterbury, thus completing their pedestrian tour by king's highway and accomplishing the same in seven days, having returned home on Friday, July 8th. Many beautiful lakes, rivers, streams and landscapes were passed along their route, all of which were attractive, as well as appreciative, and added much towards making their holiday tour a very enjoyable one.

EGG MARKET IS STEADY.
Montreal, July 13.—Receipts of eggs 1,407 cases as against 1,022 for the same date a year ago. The tone of the market remains steady under a good demand and the fact that the quality of the stock now coming forward is far from being up to the

mark owing to the excessive heat of late, and in consequence the shrinkage of the case is heavier than usual at this period of the year. Sales of straight gathered stock in round lots were made at 18½c to 19½c, and selected stock 21½c to 22½c per dozen.

POTATO MARKET GOOD.
Montreal, July 13.—The tone of the market for old crop potatoes is

very firm on account of the increased scarcity and the steady demand for the same from some buyers, but the feeling in the market for new crop stock is easier owing to the more liberal arrivals, and it is expected that the prices in the near future will be on a level to meet all buyers' views. Sales of Green Mountains in a jobbing way were made at \$1.65 to \$1.75, and other grades at \$1.40 to \$1.50 per bag.

HONEY MARKET SLOW.

Montreal, July 13.—The demand for honey shows no improvement, but as the supplies on spot are not large the tone of the market remains steady and prices show no important change. We quote: Clover white honey 1½c to 1¾c, dark grades 8c to 10c, white extracted 7c to 8c, buckwheat 6c to 7c.

FAIR TRADE IN BEANS.

Montreal, July 13.—A fair jobbing trade continues to be done in beans, and as the offerings are not excessive a steady feeling prevails in the market. In a jobbing way three-pound pickers are selling at \$1.80 to \$1.85, and in car lots at \$1.70 to \$1.75 per bushel.

MAPLE PRODUCTS QUIET.

Montreal, July 13.—The market for maple product is quiet, the demand being only for small lots for actual wants. We quote: Maple syrup in wood, 7c to 7½c per lb., with syrup in line 7½c to 7¾c as to size, and maple sugar at 8½c to 9½c per lb., as to quality.

DAIRY PRODUCE.

CHEESE MARKET FIRM.
Montreal, July 13.—Receipts of cheese were 16,247 boxes as against 28,736 boxes for the corresponding date of last year. Prices in the country were stronger, sales being made as high as 11 9/16c. The local market was firm, finest western being quoted at 11½c to 11¾c, and eastern at 11c to 11½c.

BUTTER MARKET EASY.

Montreal, July 13.—Receipts of butter were 526 packages as against 1,069 packages for the corresponding date of last year. The local market is easy, with finest new creamery quoted at 21½c to 22c.

PROVISION MARKET.

FIRM FEELING IN ALL LINES.
Montreal, July 13.—There was no further change in the condition of the market for provisions, but the feeling in most lines is very firm and especially so in all kinds of smoked meats owing to the heavy demand for the same at present from all sources, and the fact that supplies in packers hands are somewhat limited now, and this coupled with the recent advance in prices for live hogs tends to strengthen the situation considerably. The trade in cooked meats is also active on account of the very warm weather, but the demand for lard and other lines is only fair.

MONTREAL LIVE STOCK MARKET

SMALLEST RUN OF LIVE STOCK THIS YEAR WAS OFFERED.
Montreal, July 13.—At the East End C.P.R. stock yards yesterday the most peculiar circumstances were mingled with the day's trading. The smallest run of live stock offered this year on the Montreal market was in evidence. For two weeks past the prices of sheep have held so low that drovers have held part of their stock back and turned them out to pasture to await higher prices. Hogs were also very scarce the eastern supplies having been well sold up and the hot weather restricting the shipments of westerns. Bids at \$7.25 for Monday delivery were made drovers to-day but refused on account of fear of the constantly fluctuating market and the uncertainty of supplies.

The cattle offerings were only 400 head. Top steers brought \$6.15 to \$6.25; medium, \$5.50 to \$5.75; few fair, \$5 to \$5.25; bulls, grass and capers, declined and sold at \$3 to \$3.25. Cows, steady, best, \$4.65 to \$4.75; poor to medium, \$3.50 to \$4.50. Milkers, \$25 to \$30 each; sprinklers, \$30 to \$50 each.

Only 250 sheep and lambs were offered. Old sheep, \$4 to \$4.50, yearlings scarce at \$5 each; lambs scarce and advanced to \$4.50 to \$5 each to-day.

Out of the receipts of 400 hogs, scarcely 75 were left on the market for sale at the end of an hour. All these were selected and sold at \$7.25 cwt. off cars. There were no fats. Some 400 calves were offered and sold at \$3 to \$7 each.

SAWMILLS BURNED AT CALUMET.

Mills, Offices and Lumber Yards Were Destroyed.

THE LOSS IS ESTIMATED AT CONSIDERABLY OVER \$200,000.

Calumet, Que., July 13.—Fire swept the saw mills, lath, shingle, and clapboard mills of the Riordon Paper Company yesterday afternoon, and not a vestige of the plant remains. The loss is estimated at considerably over \$200,000. About 800,000 feet of sawed lumber, a season's sawing of shingles, and several large sheds of dried clapboards, along with the main buildings, offices, a school house and eight houses, owned by the company, and occupied by mill hands were lost. The entire loss is covered by insurance. Mr. George H. Perley, M.P., is vice-president of the company.

Two hundred men are out of work, but, it is stated, only temporary. Mr. J. B. White, manager of the company's Quebec saw mills says that the plant would be rebuilt and that all the men would be placed either in the company's other mills and lumber camps or in the work of rebuilding.

DEATH OF FORMER LENNOXVILLE RESIDENT.

Residents of Lennoxville and Sherbrooke will be shocked to hear of the sudden death of M. le Marquis Charles Bouthillier-Chavigny, which took place at Cambridge, Mass., yesterday from the effects of the intense heat.

The Marquis, who lived for some time in Lennoxville, had occupied for some years the position of professor of French literature at Harvard University. He was born at Paris and was the son of the Count Charles de Chavigny et Buzenal, the ninth count of the name. Some 25 years ago he came to Canada and married the granddaughter of M. La Mothe-Cadillac, the founder of Dorchester.

He is survived by a widow, five daughters and two sons, who have the sympathy of their Canadian friends in their bereavement.

EVA BOOTH ILL.

New York, July 13.—Eva Booth, commander of the Salvation Army, is ill from prostration by the hot weather. It was announced at the Army headquarters yesterday that, after conducting a vigorous evangelistic campaign in New York and Boston, she had fallen a victim to the oppressive heat of the past twelve days; that she has had several fainting spells and found it utterly impossible to keep her appointment at the Christian Endeavor convention at Atlantic City, where she was to have delivered an address. Miss Booth, it was announced, is still under a physician's care, and is likely to be for some time.
