#### FRENCH REPULSE GERMAN ATTACK.

#### EXPECT TO BRING PEACE NEARER.

(Associated Press Despatch.)

AMSTERDAM, Oct. 30.—The Austro-German offensive against Italy, according to the Vorwarts of Berlin, was not undertaken in an aggressive spirit with the object of conquest, but solely to bring peace nearer.

### SECOND ITALIAN ARMY STANDING SUPREME TEST

(Associated Press Despatch.)

ROME, Sunday, Oct. 28. All Italy realizes that the Italian second army is standing a supreme test as a result of the combined German and Austro-Hungarian offensive on the eastern front. The tone of the press is courageous, despite the setbacks that thus far have been reported. The newspapers agree that the Germans are aiding the Austrians in the belief that Italy is starving, rent by internal disorders, and ready to desert the Entente. Also they say Italy offered the best ground for a new success with the German armies which were found to be no longer needed on the Russian front.

The reason for the attack through the Tolmino region is asserted to be partly due to the opportunity provided for threatening the outflanking of the entire Carso Plateau and the Lower Isonzo, where the Italians made gains during the summer, and because the Italians long have sought to penetrate the passes of Tolmino, through which lie the railroads running into the heart of Austria.

One incident of the retreat of the Italians has been the defence of Monte Nero where most fierce fighting took place for an entire week with the Italians able to retreat, but refusing to do so. This gallant defence was made because Monte Nero literally has been consecrated with the blood of Italians since the commencement of the war.

### FRENCH OFFICIAL STATEMENT

(Associated Press Despatch)

PARIS, Oct. 30.—The French official statement follows: "South of St. Quentin we made a successful attack on the German lines, bringing back prisoners and a machine gun."

"There were artillery engagements near Chavignon and Pergny-Petit. Patrols were active in the region of the canal. A strong enemy detachment, which attempted to approach our lines in the region of Cerny was repulsed with losses."

"On the right bank of the Meuse (Verdun front) heavy artillery fighting continued in the sector between Chauvigny and Bezonvaux. We recaptured further trench elements on the Chauvigny crest. Everywhere else the night was calm."

"Last night enemy aviators bombarded Nancy and the region north of the city. One person was wounded. The damage was insignificant."

### SUCCESSFUL RAID CARRIED OUT BY BELGIANS

### OPPOSED TO SEPARATE PEACE

Russian Foreign Minister Says Such Move is Impossible.

(Associated Press Despatch)

PETROGRAD, Monday, Oct. 29.—Foreign Minister Terestchenko, in addressing the preliminary parliament today, said a separate peace was impossible, and that the defence of Russian territory was one of the fundamental needs.

The Foreign Minister said the absolute independence of Courland and perhaps of Poland and Lithuania, was impossible, as it would mean that Russia would return to the days before Peter. He also asserted complete demobilization and disarmament, and neutralization of canals and straits were impossible.

Russia's foreign policy had not changed, the Minister continued, since the first statement enunciating the principles of no indemnities, no annexations and the right of nations to self definition.

"The people must understand that the war is being carried on, not by governments, but by nations," he added, "as the nations began the fighting, so they must end it. Russia and France first held back the foe, and so they must continue."

M. Terestchenko declared that the offers for a separate peace and the sentiment in favor of them were strongest last May, when they were followed by the Russian offensive.

#### DELEGATES SHOULD FORGET POLITICS.

In regard to the forthcoming conference of the Allies at Paris, the Foreign Minister said it must be remembered that Russia, should forget politics there and be represented as a nation. He characterized some points of the peace terms of the soldiers' and workmen's delegates as impossible, saying they could not be defended as the nation's terms. It was in this connection that he made his reference to Courland, Poland and Lithuania, and to the impossibility of neutralizing canals and straits and disarming completely.

#### GERMANY WILL MAKE MORE OFFERS.

"There never has been more peace talk in Germany and Austria than now," said the Minister. "I am confident that Germany was sincere in the reported recent peace for the freedom of Belgium, without the freedom of Alsace-Lorraine, and in the intimation that this would be her last offer. She will make more."

#### BLOW FOR ECONOMIC EFFECT.

Germany is now concentrating her efforts to effect her economic recovery. For instance, her attack on Riga was not strategic, but in pursuance of a far-sighted policy of striking at our weakest point, hoping to ruin the economic life of the country. Too much importance must be given to today's Italian defeat, as this also is for mere economic effect.

M. Terestchenko's speech was cheered throughout by the Conservatives, but he was heckled more than applauded by the Bolsheviks. The British, American and Italian Ambassadors were present when the speech was delivered.

#### RUSSIANS HOLD LARGE FRONT.

(Associated Press Despatch.)

LONDON, Oct. 30.—Telegraphing from Petrograd, the correspondent of the Exchange Telegraph quotes General Verkhovski, Minister of War, as rebuking "those who have talked of the disappearance of the Russian army."

The war minister declared that these persons had forgotten that the Russians hold on their front no less than one hundred and thirty German divisions.

#### AUSTRIAN PREMIER READY TO TALK PEACE.

(Associated Press Despatch.)

AMSTERDAM, Oct. 30.—Dr. von Seydler, the Austrian Premier, speaking in the Upper Chamber of the Austrian Diet at Vienna on Saturday, said that the war situation was the best conceivable, but "our aims are the same as those for which we entered the war."

He continued: "We are still ready to sit at the conference table with the enemy if he has no intention of imposing one-sided and arbitrary peace terms. If such tendencies are continued, we can only answer them with a more decided prosecution of the war until we convince the Entente that we also are able to compel peace."

#### DENOUNCE POPE'S PEACE PROPOSALS.

(Associated Press Despatch)

AMSTERDAM, Oct. 30.—On the occasion of the 40th anniversary of the reformation, the German Evangelical League launches from Wittenberg a manifesto in which the militant sayings of Martin Luther are applied at random to present-day events. The manifesto rejects the Pope's peace proposals as "being invested with no religious authority."

preponderating idea of the entire population now being to abolish party lines in order to meet the situation in the best interests of the country. Even the Cabinet crisis is expected to be solved with comparatively few changes in portfolios.

### PEOPLE WARNED OF HOSTILE AIR RAID ON LONDON

Little Excitement in City Area, and Many Did Not Know That Raiders Were Near.

(Associated Press Despatch.)

LONDON, Oct. 30.—Warning of the air raid was given Londoners last night by police and special officers, but in the absence of gunfire in the city area there was no excitement. A number of persons entered the underground railways or went into buildings. As usual, the streets were cleared quickly, except that here and there automobiles, busses and a few pedestrians were going about their business, apparently unconcerned.

For the most part, however, the residents of London were in bed, and apparently a comparatively small number knew that an air-raid warning had been given.

#### AIR RAIDERS FAILED TO REACH ENGLAND.

LONDON, October 30.—Hostile airplanes endeavored to carry out a raid last night on the southeast counties of England, but none of them was able to pass the other defences, says an official communication issued last night by Field Marshal Viscount French, commander-in-chief of the home forces.

The statement of Viscount French follows: "Hostile airplanes attempted to raid the southeast counties tonight. Our airplanes went up and the guns and lights were in action. No hostile airplanes succeeded in passing the outer defences."

Warning of the air raid was given Londoners by police and special officers, but in the absence of gunfire in the city area, there was no excitement. A number of persons entered the underground railways or went into buildings. As usual the streets were cleared quickly except that here and there automobiles, busses and a few pedestrians were going about their business, apparently unconcerned.

Crowds in the theatres and restaurants remained there until the bugles sounded their "all clear" message, which was greeted by cheers. For the most part, however, the residents of London were in bed and apparently a comparatively small number knew that an air raid warning had been given.

### ITALIAN DISASTER MAY PROVE BEGINNING OF END FOR GOOD OR ILL

Sidney Low in London Chronicle Says Another Sudden and Terrible Crisis of the War Has Arisen. German Gold and Intrigue Used to Detriment of Italy's Aims. Country Must Be Saved From Fate of Belgium and Rumania. Believes if Emergency is Rightly Handled Misfortune May Prove Turning Point in Favor of Allies.

"Another sudden and terrible crisis of the war has arisen. It may prove the beginning of the end for good or ill."

"The Italian armies of the Isonzo have been disastrously defeated for the moment—we hope only for the moment. It is almost a debacle. The Italian line is falling back before the Austro-German host, with its concentrated and overpowering artillery."

"Cadorna may have to retire behind Tagliamento or even further. We seem to be witnessing the beginning of one of those great drives with massed infantry and the march of heavy guns like those which carried the Austro-Germans over Poland, Serbia and Rumania. Another large tract of allied territory—Friuli and Veneto, with their rich and noble cities and fertile fields—may fall into the destroying hands which have ravaged Belgium and northern France."

"If Cadorna cannot stay the rush, he might even be compelled to withdraw across the Po and leave all Lombardy and Piedmont to the mercy of the invader. That, however, will not happen for the reason that before this stage is reached Italy will have made peace."

(Canadian Press Despatch)  
LONDON, Oct. 30. (Montreal Gazette cable).—Under the heading "Save Italy, urgent need of Franco-British help," Sidney Low writes as follows in the Daily Chronicle, on a subject which has been much discussed in London, though not in the press.

"From that fate Italy must be saved, at all costs, by France and England—partly for her sake, quite as much, nay, more, for their own."

"On the other hand, if the emergency is rightly handled, Italy's present misfortune may prove the turning point of the war in our favor. Here, at length, the deadlock of indecisive trench warfare is broken. Here are the Germans, with their Austrian dependents, out in force in the open. Here is the war of movement we have always wanted, and the chance of a great manoeuvre battle. If that battle should be joined when Cadorna has been provided with higher gun power than his opponents, if his own force is stiffened and strengthened by ten or a dozen divisions of British and French infantry, then the result may be, and should be, the complete defeat of the invaders, followed by an allied advance across the frontier in the wake of the routed army which might carry them right on to Trieste and bring about the collapse of Austria and a separate peace with that state."

"Italy MUST BE SAVED."

#### GERMAN GOLD AT WORK.

"It is well to speak plainly. The German stroke has political, not less than strategic, significance. The socialists, neutralists, pacifists and Teutophiles who brought about the fall of the Boselli cabinet are more active than they have been since May, 1915. German gold and intrigue have kept the cross-currents moving. They

## MELBOURNE AND DISTRICT

New Highway Will Be Great Boon to Community. Farm Help Scarce.

MELBOURNE, Oct. 30.—(Special)—The recent heavy rains have seriously interfered with fall ploughing on the low lands. The ground is intensely wet, and if frost comes along on scheduled time the chances for an increased acreage will be nil.

MAKING NEW ROAD.

Cannots Bros. are making steady headway despite the wet weather in widening main street. If the contractors' plans are fully carried out the municipality will possess a local Broadway equal to any town of its size in the Townships.

FARMERS REQUIRE HELP.

It is to be hoped that the exemption tribunals in rendering their decisions will take into full consideration the necessity of leaving as many farmers on the different farms without in any way injuring the service by so doing. The unbusinesslike method of taking every man physically fit who volunteered, without regard to his occupation, which has prevailed for the past three years, has done irreparable harm to the agricultural development of this part of the Townships. However, if it becomes necessary to take the men off the farms to defeat the Huns there is not a farmer who would hesitate. But at present the men who fight must eat.

MUD GOES DEEPER.

The condition of the Gore road from the foot of Randlett's Hill to Gore station is in an almost impassable condition. Hardly a day passes but an auto sticks in the almost bottomless mudholes. However, local auto drivers shun this road, for the past years have taught them that town councils come and town councils go, but the mud on the Gore road goes deeper.

YOUNG CATTLE AND HOGS SCARCE.

The numerous auction sales in this section with the high prices paid for cattle and hogs cast two interesting sidelights upon the past methods of the majority of farmers, viz., milk shipping and calf shipping. For the past five years previous to the outbreak of the war the average farmer found milk shipping so remunerative that he killed the calves for their skins, or in some cases sold them to Montreal shippers. Meat was over 100 per cent. cheaper than it is today, while cows could be bought for 50 per cent. less, so the calves were slaughtered, also as hogs were cheap and pork the same, hog raising also declined. There was also another class of farmers who did not ship milk, these were the creamery and cheese factory patrons, who raised calves during the summer, and sold them in the fall to Montreal drovers. Consequently cows, young cattle and hogs are scarce. This is realized by many of the milk shippers who are quitting what has proved a short-sighted business policy in an endeavor to raise up the stock so sadly needed. In the pre-war years the milk shipper made more money than the creamery patron, but in the year's work the latter's calves and hogs evened the balance in dollars.

NOTES.

Mrs. Ernest Vans has returned to Montreal after waiting on her father, Mr. Wm. Akerman, who has been seriously ill, but is now much to the gratification of his many friends greatly improved in health. Mr. Akerman is past 80 years, a veteran of the Fenian Raid. He was for many years previous to coming to Kirkdale senior member of the firm of Akerman & Little, con. serial printers, Montreal. Having led an active life, now in his sunset days he is living the retired life of a count & gentleman.

Mr. and Mrs. James Kernsey and daughter Kathleen spent the week-end in L'Ange, the guests of the latter's parents, Mr. and Mrs. Phil Ansick.

G.T.R. Held Responsible For Death of Fireman at South Durham.

(Canadian Press Despatch)

MONTREAL, QUE., Oct. 30.—Theophile Poulin, widow of Wilfrid Gagnon, a fireman in the employ of the Grand Trunk Railway Company who was killed in a collision in the G.T.R. near Lisgar, Que., on February 29th, 1916, obtained judgment in the Superior Court against the company for \$4,025 damages, and the Court of Appeal yesterday confirmed the judgment of the lower court.

The collision occurred as a result of telegraph operator, who was on duty at the time at South Durham station, forgetting to give the conductor of Gagnon's train telegraphed instructions which would have held the train on a siding and averted the accident, and the courts held that the company was responsible for the "excusable fault of its servant."

The mid-week service in the Methodist Church will have special reference to Martin Luther and his ninety-five theses.

CHICKEN PIE SUPPER.

A few from Danville attended the chicken pie supper at Denison's Mills last Friday evening. They enjoyed the refreshments provided by the ladies of that place, although owing to the bad roads some difficulty was experienced in getting there. Mrs. E. F. ## WEATHER PERILS

The best safeguard against throat and chest troubles is provided in a handy box of Peps.

As a Peps tablet is dissolved in the mouth, powerful medicines are released in the form of fumes, which are inhaled with the breath and come into direct contact with the bronchial tubes and lungs in a way that medicine swallowed into the stomach could not possibly do.

By this direct action Peps not only strengthens and protects any weak spot in the chest but gives immediate relief to the chronic bronchitis sufferer. Being germicidal, they also provide the throat and chest with a perfect defence against the germs which spread coughs, colds, sore throat, "la grippe," and even lung trouble.

If You Want  
Evidence

That Hemorrhoids, or Piles,  
Can Be Completely Cured  
Read These Letters—  
Both Are Sworn State-  
ments.

TORONTO, Ont., Oct. 30.—Next  
to personal experience the sworn  
statements of reliable people is the  
strongest evidence obtainable. If you  
have any doubt that Dr. Chase's Ointment  
will positively and completely  
cure piles, these letters should con-  
vince you.

Mr. Samuel Parker, fruit grower,  
Grimsby, Ont., has made the follow-  
ing declaration before Mr. W. W.  
Kidd, Notary Public of the same  
place: "I do solemnly declare that I  
was troubled with bleeding piles and  
was advised to go to the hospital to  
have an operation performed. My  
wife said 'No, get a box of Dr.  
Chase's Ointment.' I did so and have  
used it according to directions while  
living in Manitoba and obtained a  
complete cure, for I have never been  
troubled with piles since. I am now  
seventy years of age and want to re-  
commend Dr. Chase's Ointment to all  
sufferers from piles. My wife has  
used it for itching skin and obtained  
complete cure."

Mr. Donald M. Campbell, Camp-  
bell's Mountain, N.S., writes: "I have  
used Dr. Chase's Ointment with great  
success for hemorrhoids or piles of  
fifteen years' standing. After trying  
all kinds of so-called pile cures, three  
boxes of Dr. Chase's Ointment gave  
me a complete cure. I have also used  
Dr. Chase's Kidney-Liver Pills, and  
there are no others so good. You may  
use this letter, if you wish, for the  
benefit of others who may suffer as  
I did."

Sworn before me, Murdoch Gordon

FUNERAL OF LATE GEORGE WALKER.

The funeral of George Walker, who passed away at the Sherbrooke Hospital Saturday, took place Saturday afternoon from Mr. Lord's undertaking rooms to St. Peter's Church. The service was conducted by the Rev. H. Reginald Bigg and the body was laid to rest in the English Cemetery on Prospect street. Those present were Mr. H. D. Lawrence, K.C., Mr. W. H. Wiggett, members of the committee of the Boys' Home; Thomas Billings and Mr. Pitts. Representing St. George's Club were Mr. Hughes, Mr. Pitts, Henry James Collins, Mrs. Cox and Miss Green. On the casket were several floral offerings, including a wreath from the staff of St. George's Club and a wreath from Mrs. Pitts. Deceased, who was only 19 years of age, came from England four years ago to the Home. For some time he had been suffering from an obscure malady, and last fall was under treatment in the Royal Victoria Hospital, Montreal. Returning to Sherbrooke somewhat improved in health, he took a place at St. George's Club where he was most kindly treated, and was happy in his work. But his illness increasing, he was taken to the Sherbrooke Hospital, and his death occurred quite unexpectedly and before the operation which had been decided on could be performed.

The lad, who was absolutely without family ties, found kind friends at the Home and the city, who looked after him during his life and followed him to his last repose.

BOYS' AUXILIARY MEETING.

The weekly meeting of the Boys' Auxiliary was held last evening in St. Peter's Church Hall, with an increased number of members. The president, Mr. Peter Dennis, was present also Mrs. C. H. Bowen, Mrs. Harcourt, Mrs. Harold Laws, Miss Edney, Lloyd Bowen, Leon Harcourt, George Lawrence, Gordon Jarvis, Jack Taylor, R. Cameron, E. Cameron, Clarence Bradock, G. Morgan and Rev. E. C. Russell. The report of the treasurer was given, also the report of the proceeds of the "remembrance quilt." Rev. Mr. Russell gave a very interesting talk on conditions in the American and Canadian West, where he had been engaged in mission work, and of the definite opportunity encountered to the Church or religion generally. He spoke encouragingly to the boys, saying that their work would not be in vain. In endeavoring to help others they were not only pleasing God, but would be happier themselves.

A vote of thanks was given to Mr. Russell, who promised to come in as often as possible, and asked permission to bring a volunteer interested in the work to the next meeting. The superintendent said any assistance would be cordially welcome.

The president gave notice that Dr. Parrock would deliver a lecture for the Auxiliary on November 15, and the superintendent referred to the formation of a Boys' Auxiliary in Quebec, of which great things were expected, and hoped that the Sherbrooke boys would not be outdone. Mrs. Bowen also asked for donations for the bale to be sent to Miss Slade, the devoted English gentleman in charge of the Indian school at Vermilion Lake, dwelling upon her work and self-denial, and the lonely life so far from civilization. All present promised something for the bale, which is to be forwarded in time for Christmas.

An hour was spent in basket work and picture cutting, the members entering enthusiastically into the work. Rev. Mr. Russell closed the meeting with prayer.

GOING TO SEED

The neglected, unkempt, uncared for Street Railway track, and the general appearance of the whole system, gives one the impression that the thing is "running to seed" and soon will be moss covered. It's too bad to see the thing drifting into such indifference, and all for the want of men able to cope with the problem. It's so unfortunate that this city got cobwebbed into such an alluring state of affairs with its eyes wide open, and it's still more unfortunate that there is no relief in sight, not energy enough in the whole aggregation to do something to improve the situation. It takes clever and trained men to deal successfully with such big enterprises as this, and where a medley of mistakes have been made it takes men still more clever to rectify them. And where are they? For the want of such men must the thing continue on in hope that another generation will produce them, or will some effort be made before then to effect some sort of an understanding so as to loosen the ties that bind the hands' progress. Something ought, at least, be attempted in this matter. The cars are most needed where they don't run, and the situation grows worse with the development of that part of the city, "Model City," Fairmount, "Bellevue Park."

## AMUSEMENTS

THE ONLY GIRL.  
Of all those writing for the musical comedy stage today none have given more pleasure to audiences than Victor Herbert and Henry Blossom, particularly so, when they write together.

After several years apart, it was by some good chance that they were brought together again last year, when they collaborated on "The Only Girl," the delightful musical comedy success to be seen at His Majesty's on Wednesday night.

The immense popularity and great success scored by this musical comedy delight during its long run at the Lyric Theatre, New York, where it played for an entire season, is strongly indicative how happily they are suited, each to the other, when they are working together.

Lieut. Harry Edney returned to his home in the city yesterday on a three months' furlough. He recently left hospital after treatment for gas.

### MONTREAL STOCK EXCHANGE CLOSED

Stated Many Brokers in Danger of Ruin Owing to Inability to Dispose of Stock.

(Canadian Press Despatch.) MONTREAL, QUE., Oct. 30.—The Montreal Stock Exchange was not opened as usual this morning. Unofficially it was explained that the Exchange was closed down because a number of brokers are in danger of ruin on account of the heavy holdings and inability to dispose of them on the bad markets of recent days.

Later.—It was decided to open the market at 11 o'clock. Minimum prices will be established similar to those introduced when the exchange opened in 1915 after the closing down due to the war.

NO BROKERS NEAR RUIN. (Canadian Press Despatch.) MONTREAL, Oct. 30.—It was officially stated that none of the brokers are actually on the brink of failure, and that the closing of the market was a precautionary measure only.

FIRST BALE OF NEW CROP OF COTTON BRINGS LARGE SUM.

(Associated Press Despatch.) NEW YORK, N. Y., Oct. 30.—The first bale of the new 1917 crop of cotton that was sold at auction here last July for \$2.55, is now travelling in England, where it has raised \$14,065 for the British Red Cross, according to information received here. The cotton was grown in the interior of Texas, and the bale was first purchased in Houston for \$925.

FURTHER DROP IN PRICES ON NEW YORK STOCK MARKET.

(Associated Press Despatch.) NEW YORK, N. Y., Oct. 30.—(Wall Street).—Stocks suffered further impairment at the active opening of today's market, leaders recording additional recessions of one to almost three points. The movement bore the familiar marks of liquidation, with a sprinkling of short selling. Investment rails reflected their recent pressure, notably the Pacifics, Canadian being the weakest of that group. Equipment, including United States steel, were increasing heavy, with shippings, coppers, oils and motors. New York air brake featured the specialties, losing five points.

TAKE YOUR CHOICE. (Wall Street Journal). Today, American citizens decide one of the most momentous questions in their national existence. The choice lies between buying bonds and forging bonds. Forging bonds that mean liberty to themselves and all peoples of the world, or forging bonds that mean subjection to the most merciless political slavery the world has ever seen.

Since the time of Frederick the Great, the history of Prussia has been a constant repetition of the story of Ahab and Naboth's vineyard. Now, grown powerful through depredations, it looks upon all other countries as vineyards to be taken. Its present course is as cruel and illegal as was the act of confiscation by Ahab. France, England and the United States are the choice vineyards on which it has set its envious eye.

Let this war end even by a "peace without victory," and Germany would be the winner. Out of the conflict she would emerge stronger than before; and the next move would be one whose end would be world domination for Germany, conquest for the rest of us. The process would be one of unspeakable horror. There would be no distinction between victims. Rich and poor, white and black, without regard to race, religions or political beliefs, all would come beneath the iron heel of autocratic rule.

It is said that the Bryce Commission's report, horrible as it is, was severely edited in order to make it fit to print. What is to be said of the violated French girls who have been found crucified against the walls of houses? What is civilization to say of the more than 200,000 cases of crimes against women which the French Government has already established by affidavits of witnesses?

The evidence of German atrocities which has been collected and published, much of it from the mouths of Germans, makes one wonder if such things could originate in a human mind. And it is this same monstrous thing that now confronts the American people. Whether we favor or are opposed to war, is not the question. The war is on us, and it is a fight for every little home in the land. It is a fight for every woman and child between the two oceans. It is the fight of every man in the United States, be he rich or poor.

The choice is upon him to support those who are in the field, or submit. Which?

**Very Simple**

Securing a new and better job is thought by many workers to be a difficult process, when, in reality, if the right method is used, it is comparatively easy.

All that is necessary, nowadays, is to write a little want ad, telling your capabilities and the salary you expect, and in one or two days at most you will have plenty of offers of jobs from which to make the best choice.

While you think about it, just ask that friend of yours about that job he secured by the Want Ad medium. He will assure you, like all other Want Ad users, that they are, indeed, worth a trial.

**CANADIANS STRENGTHEN POSITIONS**

**Captured 500 Prisoners. Fighting in Slimy Mud and Gas Clouds.**

By R. A. WILLISON, Special Correspondent to the Canadian Press.

Canadian Headquarters in France, via London, Oct. 29.—Subject to intense artillery fire and fighting machine guns and gas, waist deep in slimy mud, the Canadians are steadily strengthening their positions.

Bellevue Spur and Passchendaele Ridge. On Saturday night the Germans gained a foothold on our right flank, only to be repulsed with heavy losses when our infantry met them with the bayonet and bomb and drove them back. A further enemy attempt to weaken our hold on the right flank, though supported with successive and intense artillery bombardments, have proved unavailing.

Our foremost position is now within 1,000 yards of Passchendaele itself, while the number of prisoners taken by Sunday night amounted to sixteen officers and nearly five hundred other ranks. On the left, where Bellevue Spur runs on to Passchendaele, with the slimy stretch of the Ravebeek Valley between it and Passchendaele Ridge itself, our men have made slow, stubborn progress through an almost impassable country.

As the result of the last three days' fighting the Canadians, now masters of the lower slopes of Passchendaele, have before them strong enemy positions at the Crest Farm on the left front and Metteschele on the right. In reply to the enemy's employment of gas in the attack Saturday night, our artillery bombarded the opposing batteries with gas shells, while for at least forty-eight hours our guns had been maintaining a persistent fire on Passchendaele, Crest Farm, Haalen Copse and selected strong points.

Early Sunday morning the German artillery which shelled our right heavily, brought down upon itself the concentrated fire of our guns, to which the retaliated with heavy shelling of our forward area. Again in the afternoon he shelled our right, while yesterday evening he opened a heavy fire on our left positions.

Reports taken from captured prisoners show that the Germans in this tillery "which destroys everything," and dominate our zone of defence and report everything to their artillery. Examination of prisoners has further proved that the enemy was informed of the Canadian movement from Lens to the salient, and he hurried up fresh forces, including the One Hundred and Eleventh Bavarian Division, to meet the expected attack.

## FURLOUGH FOR MEN OF FIRST DIVISION

**Government Considering Plan  
to Bring Men to Canada  
For Well Earned Rest.**

(Canadian Press Despatch.)

MONTREAL, Que., Oct. 30.—The Gazette has the following from Ottawa: "All Canadians who went overseas with the original first division, and who are still in France, are to be brought back to Canada on furlough, if a proposal now under consideration by the Government is found practicable by the military authorities. The idea of the government is that if adequate reinforcements can be provided, and the change that might be necessitated in the ranks and among the officers of the battalion would not interfere with the military requirements and efficiency of the first division as now constituted, the three thousand or more men who have survived the hardships and fighting from the first terrible conflict near St. Julien down through the sanguinary battles of Givenchy, Festubert and Sanctuary Wood to the Somme, Vimy Ridge and Lens, should be brought back to Canada in a body and given a well deserved rest."

## ANOTHER VOTE OF CREDIT BEFORE BRITISH HOUSE

**Amount Asked for by Chan-  
cellor Will Last Until End  
of Year.**

(Associated Press Despatch.)

LONDON, Oct. 30.—The House of Commons had before it today's session the introduction by Hon. Andrew Bonar Law, Chancellor of the Exchequer, of the vote of credit for £400,000,000, and one of the Chancellor's periodical statements regarding the finances of the war. The amount which the House is asked to vote is expected to be sufficient to last until the end of the year, when another vote will have to be brought forward. The vote today will bring the total loans for the year to £1,000,000,000, and the total since the commencement of the war to £5,692,000,000.

The debate through the various stages of the vote is expected to extend over four days, and a variety of subjects will be discussed. On Thursday Sir Eric Campbell Geddes, First Lord of the Admiralty, will make his first announcement on naval policy.

paring Province With  
Ontario.**

(Canadian Press Despatch.)

MONTREAL, QUE., Oct. 30.—While the Province of Ontario has given \$5,100,000 for Red Cross purposes in the past three years, the Province of Quebec has given only \$260,000, so Mr. W. R. Miller, president of the Quebec Provincial branch of the Red Cross Society, stated yesterday at a meeting held to organize a campaign for the "Our Day" special appeal of the British Red Cross.

Caustic references to Quebec's small showing were made by Sir Frederick Williams-Taylor, Mr. Huntley R. Drummond and others. "As to this victory loan," said Sir Frederick, "there is plenty of 5-1-2 per cent. patriotism in this country—what we want is more people who will lay up wealth in heaven, instead of laying up investments at 5-1-2 per cent."

Committees were formed to undertake the campaign.

## GERMAN FURLOUGHS AGAIN CUT DOWN

**Number of Soldiers in Field  
Reduced. Will Have Bad  
Effect on Morale.**

COPENHAGEN, Oct. 30.—The new restrictions on the furloughs for German soldiers, necessitated by the growing problem of transportation, cut down by one-half the number of men in the field and eliminate them for troops garrisoning the occupied regions, except for urgent personal reasons or when leave is granted for pressing farm work. It is believed this regulation can hardly fail to have an effect on the spirit of the soldiers, for the semi-annual opportunity to visit home and relax from the strain of service in the field was an important factor in keeping up the fighting spirit and willingness to continue in the war.

The army authorities announce that the restrictions are imposed with the greatest reluctance. This may readily be believed, owing to the effort which has been made to maintain a regular system of furloughs, even for units engaged in the heaviest fighting.

After this radical step the Government will hardly shrink from any measure to decrease civilian passenger traffic.

## ALLEGED CONFESSIONS OF HORSE THIEF

**A. Daudelin Awaiting Trial in  
St. Hyacinthe District  
Makes Many Ad-  
missions.**

(Associated Press Despatch.)

Armand Daudelin, of Granby, who was on Friday last transferred by Judge Mulvena, at Sweetsburg to St. Hyacinthe to be dealt with by the magistrate there on a charge of horse stealing, has made certain admissions to High Constable Boisvert and Constable Guertin, who arrested him.

Accused pretends to come from 51 Bagot St., Quebec city. He admitted to the officers that in September last he stole a horse near Quebec and traded the horse, buggy and harness for a red-painted automobile on the road from Quebec to Valcartier, and that he sold the auto for only \$75.

Daudelin also admits that on August 19th, last he stole a fine mare belonging to Mr. Monty, a farmer residing near St. Cesaire. He went to Actonville and traded the mare with Paul Robidoux for an old horse and \$5, and the promise of a further \$15.

The owner of the mare had to pay Robidoux \$65 to get it back simply because Robidoux pretended to be a horse dealer. The owner of the mare at first objected to pay the \$65, but did so after taking a lawyer's advice. This looks as though the law protects the trader, even though he is a horse trader and gets a horse valued at \$200 for \$65.

Again Daudelin admits that on the night of October 10th he stole from F. Rochelleau, a horse valued at \$190, also a buggy valued at \$100 and a harness worth \$35 from Mr. A. Chaput. Both these men reside at Abbotford. Daudelin is said to have gone straight to Quebec city and sold the horse and harness to Mr. Bedard for \$40, and to have sold the wagon for \$50 to Mr. Edouard Simard, who is a bailiff residing in La Bay St. Paul, Quebec. Mr. Bedard is a son of a horse dealer residing in the city of Quebec.

The accused went to Granby from Quebec with his wife on October 8. He was taken to Sweetsburg, but as the offences had been committed in the St. Hyacinthe district, Judge Mulvena transferred him to St. Hyacinthe as above stated. On his way to St. Hyacinthe he appeared before Justice of the Peace Blanchard, for preliminary hearing on the charge of stealing Mr. Monty's horse and was committed to stand his trial in the district of St. Hyacinthe.

Accused appears to be well known to the horse trading fraternity in Quebec, to whom he has sold several horses during the past two years. He has also lived in Montreal.

Several free-for-all fights followed. Mrs. Snowden and her supporters fled.

McPherson, Liberal member of Portage in the Manitoba Legislature, addressed a large meeting here last night. The feeling of the audience was intensely patriotic. The appeal of both speakers for the victory loan made a deep impression and the appeal of Mr. Meighen for earnest win-the-war endeavors was cheered to the echo. His picture of the urgency for making effective progress against the Central Powers made a deep impression, and there was every evidence of a grim determination to fight to the last man and the last dollar.

Mr. Meighen explained the proposal to divide the unionist candidates in the west among the Conservatives, the Liberals, and the grain growers. His remarks were to the effect that such a division was necessary in order to avoid confusion. There would be no dictation about it.

LIQUOR CASES  
AT THETFORD  
AND BLACK LAKE

Seven Defendants Each Fined  
\$100 and Costs by Judge  
Mulvena.

THETFORD MUES, October 30.—

(Special.)—Judge Mulvena held a term of the Criminal Court here yesterday and heard several liquor cases brought by the city.

S. D. Jacques was fined \$100 and costs or three months for having sold, and allowed to be sold, intoxicating liquor without a license in his grocery store.

Joseph Gagne was fined \$100 and costs or three months for unlawful sale of liquor.

**AN ATTEMPT TO EVADE THE  
LAW.**

Adelard Gagnon was charged with serving and allowing liquor to be served in a restaurant. The evidence, which was very lengthy, established the fact that defendant, who had recently leased a restaurant adjoining an old, abandoned house on the street, had been in the habit of accompanying his customers into this house and treating them to liquor.

It also transpired that defendant had treated in the kitchen, in the rear of his restaurant, and in the passage-way leading into the restaurant, and that the liquor was kept in some instances in a Noxle-Kola bottle on a shelf in the restaurant. The Court held that the actions of defendant, although being an attempt to evade the letter of the law, practically amounted to serving liquor within the purview of the restaurant, and fined him \$100 and costs or three months.

BLACK LAKE, Oct. 30.—(Special.)—Judge Mulvena heard several cases here yesterday of charges brought by the corporation of the town for selling liquor without a license. The complaints laid against Lucien Beaudoin, Joseph Fournier and Joseph Chretien were dismissed after hearing the proof.
