NEW ADVERTISEMENTS.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?
If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will subdue it, if taken according to directions for a reasonable length of time. If not cured, complication of many diseases and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.
Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.
Dr. Pierce's Golden Medical Discovery
CURES ALL HUMORS,
from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Scrofulous Sores, Swellings, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.
"FOR THE BLOOD IS THE LIFE."
Thoroughly cleanse it by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.
CONSUMPTION,
which is Scrofula of the Lungs, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "Consumption Cure," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for all Chronic Diseases of the
Liver, Blood, and Lungs.
For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.
Sold by Druggists, at $1.00, or Six Bottles for $5.00.
Send ten cents in stamps for Dr. Pierce's book on Consumption. Address,

FROM THE DOMINION CAPITAL.

Railways Busy—Postal Improvements—Nova Scotia Elections.

OTTAWA, Ont., Oct. 4.—The winter freight rates on the Canadian Pacific Railway will come into force on the 15th November.

The freight business on the different railroad lines is unusually heavy, and the companies find much difficulty in supplying sufficient rolling stock. The Canadian Pacific Company are turning out five freight cars daily from the car works at Perth to supply the demand for cars on the western division of the road for moving grain from the west.

It is understood that many new improvements in the postal service will be introduced as a result of the recent visit of the Postmaster-General to British Columbia. Since the return of Hon. Mr. McLelan, who is satisfied with the handling of mails by the C.P.R., orders have been issued for the opening of quite a number of new offices in Manitoba, the North-West and British Columbia. Advices to the Post Office Department show that the volume of mail matter passing between Japan and the Dominion is increasing every month.

Politicians in Nova Scotia will be getting on their war paint in a few days as it is understood the elections for the four vacancies in that province will be held simultaneously at an early date. The writs have not been issued and no great activity is expected until the arrival of Sir Charles Tupper.

FROM THE ANCIENT CAPITAL.

Official Movements—Old To-morrow's Delay.

QUEBEC, Oct. 4.—Hon. Mr. Mercier will arrive from Roxton Falls to-morrow afternoon, when some important railway matters will be discussed by the Cabinet.

Hon. Mr. McShane arrived from Montreal this morning, and was soon besieged by applicants for Mr. Walton Smith's office, the parties firmly believing that gentleman was dead. The Hon. Commissioner quietly told the parties, that Mr. Smith's office was not vacant just yet and not likely to be for a long time, as Mr. Smith is much improved in health since yesterday.

Stevedores and ship laborers are beginning to go south for winter, they have had a poor season here as Quebec harbor has this summer been almost deserted by shipping.

It is understood that tenders are about to be voted for the building of the Branch Laval University at Montreal.

The French despatch Corvette "Bouvet" has gone on the dry dock at Point Levis for repairs.

The members of the bar here, of both political complexions, are deeply incensed at the delay of the Federal Government in not filling up the vacancies in the Court of Queen's Bench for this province. Business is retarded on all sides as the few judges at present are overworked endeavoring to attend to half the cases inscribed. The Chief Justice has already reported the position of affairs to the Government, but nothing has been done. It is another case of "to-morrow."

At a meeting of the directors of the Lake St. John Railroad Co., it was stated that the Company was in a position to give a contract to Mr. Beemer for the immediate construction of the divers branches one from Pointe Aux Trembles to Chicoutimi, the other from Pointe aux Trembles to St. Prime and a third from St. Gabriel Station to River Aux Ours. The company are enabled to commence this important work at once through the assistance of the Provincial Government who give them the necessary grants of land. It is expected that Mr. Beemer will actively push the work in the mountainous part of Pointe Aux Trembles. They will wait for the winter's frost to cut the rock, but elsewhere the work will be commenced at once.

About a quarter past three this morning a fire declared itself in a shop on Fabrique street, kept by Mrs. Barry. The fire originated in the cellar, and progressed so fast that Madame Barry and her daughters had to escape in their night dresses. The printers of the *Canadien* gave the woman, whose condition was pitiful to see, shelter. The firemen succeeded in keeping the fire within limits. Mr. A. Chaperon's stock was entirely destroyed by the fire, water and smoke. Mr. Chaperon is insured in the Liverpool, London and Globe for six thousand dollars. Mrs. Barry has one thousand dollars insurance on her furniture and effects. The house, of which the interior is entirely destroyed, belongs to Mr. Harris.

Shooting a Judge.

LEBANON, Ky., October 4.—Clem Rawlings, a justice of the peace, was shot and killed yesterday by Frank Beard.

The Cholera Cases on the Alesia.

NEW YORK, October 4.—This far 19 of the passengers of the steamship Alesia have died of Cholera. The cabin passengers yesterday received permission from the health officer to come to the city.

Died on the Way to Canada.

CHICAGO, Oct. 4.—Edward and Thos. Moran were found dead in bed at their hotel this morning, suffocated by gas. They came from Dakota and were en route to Canada. The two were brothers.

Trying to Save the Anarchists.

CHICAGO, October 4.—The president of the amnesty association which has charge of the petitions in behalf of the condemned anarchists said yesterday that the work of the association is progressing rapidly.

To-day's Cholera Reports.

NEW YORK, Oct. 4.—Two more deaths from cholera occurred among the passengers of the steamship Alesia off Coney Island, this morning, and two more will die before night. No new cases are reported.

Chicago St. George's Society.

CHICAGO, October 4.—At a meeting of the St. George's Society last night Mr. Brahams said the naturalization movement among the British subjects was getting along nicely. Five hundred Englishmen and Scotchmen at Pullman were getting ready to join.

Knights of Labor Convention.

MINNEAPOLIS, October 4.—The General Assembly of the Knights of Labor was convened at Harmonia Hall this morning. Small tables covered the centre of the hall, and from two to four Knights sat at each. General Master Workman Powderly welcomed the delegates in a brief speech. The session was secret.

An Unfortunate Actress.

NEW YORK, Oct. 4.—The *Sun* says Miss Sarah Jewett, formerly the leading lady of the Union Square Theatre, applied yesterday to the Actors' Fund charity to money to buy the necessaries of life. Miss Jewett was the bright particular star of the cast in the "Two Orphans," "Rose Michel," and the other well known pieces. Miss Jewett's creations were continually successful. There was never a breath of scandal whispered against her. It is said that opium is at the bottom of all her trouble.

A Very Extensive Society.

MINNEAPOLIS, October 4.—The National Farmers' Alliance began its seventh annual convention here this morning, with fifty delegates present from Illinois, Iowa, Nebraska, Wisconsin, Minnesota and Dakota. The Secretary reported a thousand more alliances added since the last session, and that there were now 600,000 members in all. The Southern Alliance has been invited to send delegates, and a move for the consolidation of the two will be made.

New York Yacht Club Testimonials.

NEW YORK, October 4.—The New York Yacht Club last evening voted to appropriate $500 for the purchase of a suitable testimonial to Captain Paine, in recognition of his unequalled skill and ability in thrice defending the possession of the America's Cup. It was also decided to tender a dinner to Capt. Paine and Edward Burgess at such time as may be most agreeable to them, and that a reception be tendered Vice-Commodore Bell, of the Royal Clyde Yacht Club, and that the club contribute $500 to the national subscription as a testimonial to Mr. Burgess, designer of yachts uritan, Mayflower and Volunteer.

Chloroformed and Then Robbed.

CHICAGO, Oct. 4.—A most extraordinary crime was committed at two o'clock this morning at 45 Canal street, the house being robbed, its tenants chloroformed and bound and the building fired. The first floor of the building was occupied by Frank Macha. He utilized the two front rooms as a saloon and billiard hall and lived with his family in the rear. The upper story is occupied by five families, mostly Bohemian. Macha closed his saloon last night as usual at 12 o'clock and retired. About two hours later a noise below in the saloon roused the lady occupying the front room up-stairs. She suspected that all was not right, and looking out of the door she saw three men ascend the stairs. They placed a bundle of papers under a sink and applied a match to it then fled. The lady was rescued just after proceeding with the aid of her husband easily extinguished the fire. The had scarcely turned from their work when cries of "help" rang in their ears. They rushed below and found the saloon enveloped in smoke. Mrs. Macha had been bound hand and foot and being awakened by the suffocating smoke, was vainly endeavoring to arouse her husband. Mr. Macha made no response to the call and presented the appearance of a dead man, he had been chloroformed. After vigorous efforts the fire was extinguished Macha was robbed of $143 which he had placed under his pillow. The loss by fire was about $1,900.

Wreck of a Canadian Steamboat.

ST. IGNACE, Mich., Oct. 4.—The Canadian passenger propeller California, which left Chicago Saturday night, was struck by yesterday's gale on Lake Michigan. Her hold soon filled extinguishing the fires, and at about one o'clock, when off St. Helena, she broke up and went down. Seven of the crew reached Point Les Barbes in the lifeboat in almost lifeless condition. Those not accounted for, Capt. John Trowski, First Mate Peter Lago, purser Geo. Foley, first engineer James Ellis, second engineer S. A. Mills, fireman Belltough, cook Bob, cabin boy Arthur Hazard, and two lady passengers, Miss Poppa and Mrs. Blood. It is possible that the captain and some of the crew may have reached St. Helena in the other boats.

LATER FROM THE WRECKED STEAMER.

MACKINAC CITY, Oct. 4.—Prop. California, commanded by Capt. Trowell, left Chicago Saturday night bound for Montreal. She was laden with twenty thousand bushels of corn and several hundred barrels of pork and carried a crew of 22 persons and had 3 passengers. She encountered a heavy wind early Monday morning off the Beavers and at 4 p.m. the sea had increased so that it was impossible to steer her, and 300 barrels of pork were thrown overboard, but without helping her much. About 11 p.m., when just above St. Helena, the sea broke in the gangways and put out the fires. She then swung around in the trough of the sea and began breaking up. The captain ordered the boats lowered but she was so badly listed that it was impossible to lower but one. The captain went into the cabin to get the passengers out but when he returned found that the first mate and several men had left with the boat. The steamer now began rapidly breaking up and soon all hands were struggling in the water. The captain and engineer succeeded in floating a table loose from the wreck and picked up the second engineer, cook and one lady passenger. Then the boat drifted down alongside the propellor A. Folsom which was anchored under St. Helena, and was picked up and brought here. Another boat had succeeded in get

THE MONTREAL HERALD.

THE MEN WHO ARE RESPONSIBLE.

It is natural that we should all feel aggrieved at the contemptuous tone, and with the disrespectful language that has been used towards Canada within the past few years. We do not like the soubriquet of "Transatlantic Greeks"; we do not like the way in which Mr. William Abbott spoke, at a public meeting in London, of the Canadian Parliament, as being an institution too venal to be worthy of consideration. These and other sayings, not confined to Englishmen interested in Canada, jar sadly on Canadian ears. Strangers abroad know us principally through our Government and our public record; they are not in a position to discriminate between the sheep and goats. They cannot be expected to know that this act of unblushing bribery, or that purchase of some public man, or some other unrighteous dicker by which the public purse was robbed, met with strenuous opposition from the opponents of Sir John Macdonald, or was carefully hidden from public knowledge until by accident it leaked out. They see only that the most atrocious system of corruption is practiced by the Government of Canada, they read how one cabinet minister after another is unseated for bribery, and they plead that the men who are guilty of these things retain the confidence of the country and are recommended to Her Majesty as proper persons to receive Imperial honors. Our critics say: if Canadians did not approve of these things they would not keep as their government the men whose methods are notorious. They urge that having discovered by the Pacific scandal what manner a man Sir John Macdonald is, we take the earliest opportunity of putting him back in power and of requesting Her Majesty to confer some honor upon him. If we reply, "'twas you who gave the honor," they answer, "True, but 'twas you who asked for it, and if you are content with your friend's character it is not for us to complain, particularly since he is useful to us when we want him." That is the British view of the situation. How are we to answer the retort? If we say, human nature is frail and Sir John Macdonald keeps the public purse, by means of which the men who should be his censors are made his slaves, we are met with the query, How is it he is supported by clergymen, merchants and others who presumably condemn in private persons the crimes they condone and practically applaud in Sir John, Sir Adolphe and the rest of his colleagues? Why indeed! we are unable to say. The reproof must be borne in silence for it is inexplicable that men of position, men of character and reputation, men who sit in judgment on the less exalted of their countrymen and mete out punishment to the lowly, should hide their eyes to the sins of the Privy Council and bow in the House of Rimmon without blush or hesitation. Do those who say in private that the acts of Sir John are indefensible, support their views by their public attitude and action? They do not. They support by their votes that which they condemn with their voices. This is the class to whom Canada should look for help to raise her from the depths into which she has fallen. These are the men against whom Canada has the strongest ground of complaint. Poor humanity may be and is bought to betray its trust, and these men with professions of right doing stand by and assist in the crime. Why preach honesty from the pulpit or in the market place while applauding and sustaining the gravest dishonesty in the Council Chamber? We send an embezzling clerk to the penitentiary, but we are silent about Ottawa. The excuse of ignorance, can not be pleaded. No intelligent man can have read of the transactions that have been from time to time exposed and conceal from himself the knowledge that corruption is rampant in the Federal Government of Canada. No business man, professional man, clergyman, or other man of intelligence doubts that the Government levy large sums from those contractors who have claims against the government, and no one can be quite fool enough to believe that contractors make presents of large sums of money to the government without being recouped in their bills for extras. If a merchant found such transactions going on in his business he would not be content with merely dismissing his employee, but many of the same merchants who talk much about the sacredness of integrity in employees and condemn dishonest practices in no measured terms, are not merely silent concerning the practices of Sir John Macdonald and his colleagues but give them aid to perpetuating them. They should not be surprised at others with less elastic consciences raising an outcry at the present condition of things. Sir John Macdonald regards those who are not of his party as enemies whom it is proper to attack at all times and in all ways. These, however, comprise at least one-half of the population of Canada. It is only natural that they should clamour for a more righteous government, and should declare that almost any change would be better than a continuance of Sir John. There is more truth than many like to admit in the proposition that Sir John Macdonald's continuance in power constitutes an imminent danger to Confederation, and that in the interest of all parties he should be removed. In many respects his usefulness has gone; even his advanced years alone point to the propriety of his abandoning the active management of affairs, and his objectionable methods, which constitute so grave a scandal and bring so much reproach on Canada, are so ingrained in the man that they are ineradicable. This is a matter which should receive the earnest consideration of those whose position in social and business circles entails upon them a responsibility of which they cannot divest themselves however, much they may endeavor to ignore it.

AMUSING.

The action of the inspired correspondents of the Government newspapers, in relation to the Premier's "possible" acceptance of the position of Canadian Commissioner, is very amusing. It is given out from time to time that the post is being pressed upon Sir John; that he does not desire it; that he has not accepted it; that there is a universal demand that he should take it; that he is considering the subject seriously; that it is hoped he will finally surrender and save his country and all that sort of thing. Those who know the Premier laugh heartily when they see such things in print, and especially when they seem to be inspired. They know that Sir John Macdonald has never thought for a moment of any Canadian representative except himself being appointed to the Commission. They know he would rather cut his right hand off than allow any of his associates to sit on this Commission, *provided* there is a fair prospect of a favorable issue to the negotiations. When the public come to be officially informed, if they ever do, that any one other than Sir John has been appointed Commissioner to Washington, they may rest in the assurance that Sir John expects the negotiations to fail.

ANNUAL EXHIBITIONS FOR MONTREAL.

It will be remembered that a short time ago representatives of the French Board of Trade waited upon members of the Provincial Government, to request that the exhibition buildings and grounds, owned by the Government, might be handed over to a commission of our citizens composed of men of all creeds and races, to be used as permanent exhibition premises, after the system adopted in Toronto, the intention being to hold annual exhibitions of Quebec products. Hon. Messrs. Mercier and McShane intimated their personal approval of the scheme, but, of course, the matter had to be submitted to the full Council at Quebec before a reply could be forthcoming. We trust this reply, when it comes, will be entirely favorable. The example of Toronto is one that may safely be followed. The annual exhibition has passed beyond the lines of mere experiment. It has been for years a gratifying success. A hundred thousand visitors have been attracted to Toronto every fall by this exhibition alone, many of whom have remained for a week at least, and immense sums of money have thus been expended there. These are small matters, however, compared with the great advantages to trade which such extraordinary forms of advertising are certain to bring about. Yearly there has been the keenest competition between manufacturers, farmers and other exhibitors, and as a matter of fact many exhibitors will forego all other exhibitions in the Dominion to ensure their being well represented at the Toronto annual show. Without Government aid of any kind, this private enterprise—for such it is practically—has become one of the institutions of the Province of Ontario. It is a private enterprise with this peculiarity, that all its profits go to extend the premises and the attractions of the great fair. Everything it nets is expended on itself; so that every year the exhibition becomes more and more attractive.

There is no reason why a similar annual exhibition should not be established on the same plan in Montreal. Even if the Government were not to consent to part with the exhibition premises, there is wealth and enterprise and sagacity enough in Montreal to provide grounds, buildings, etc., and to carry the work on to a successful consummation. We have a much larger population in Montreal than they have in Toronto. We have more extended and varied manufactures. We have more wealthy men to put down subscriptions and head the lists with good round sums if needed. And we have quite as vigilant a press to watch over the management and assist to make it a success. In our circumstances the example of Toronto might be followed with a certainty of our equalling if not eclipsing even that progressive city's record. The idea is so good a one that we trust no time will be lost in giving it effect.

THE MANITOBA WHEAT CROP.

The Winnipeg Board of Trade publish the report of their secretary on the year's crop. The showing is a remarkably good one and we trust that the figures are accurate. He gives the net result for export at:—

Wheat	10,000,000 bushels at 55c	$5,500,000
Barley	1,000,000 bushels at 30c	300,000
Oats	2,500,000 bushels at 18c	450,000
Flax	150,000 bushels at 75c	112,500
Potatoes	1,000,000 bushels at 25c	250,000
	14,650,000	$6,612,500
It is safe to add for the value of dairy products, stock, vegetables, wool, hides, etc., available for export, not required in Manitoba		500,000
		$7,112,500

This is after allowing 2,000,000 bushels of wheat for home consumption, seed, etc., 1,000,000 bushels of barley and 2,500,000 bushels of oats. The question of course is Do these figures form a fair estimate of the yield? The secretary, Mr. C. N. Bell, says that the average under crop is taken from the returns of the crop reporters of the Agricultural Department of the Manitoba Government, who last summer made their returns. The grain buyers, it appears, were practically unanimous in declaring that 30 bushels an acre was a sufficiently low estimate of the wheat crop, and the amount of binding twine sold to the farmers supports the belief that the estimate of 30 bushels is rather under than over the proper figure. Notwithstanding all this, however, there are people in the province who should have some knowledge of the facts who estimate the return at twenty-five per cent. below the figures given by the secretary of the board. Taking it at this lower amount it still remains an extraordinarily high average, much higher indeed than the average of the United States and equal to that of England. There is elevator capacity in the province for about 1,600,000 bushels and according to the official computation of the yield there is over 14 million bushels to be moved, which will require 20,000 railway cars. Deducting twenty-five per cent. as before referred to from the estimate, 15,000 cars will be required, or seven hundred and fifty trains of twenty cars each. As the yield in Manitoba is only a part of the North-Western grain business, further figures will be necessary before an accurate knowledge can be gained of what has been done this year in our latest wheat field, but the results of the harvest generally should go a long way to restore Winnipeg and Manitoba generally to that prosperous condition that was interrupted by the bursting of the boom in 1882.

BETTER CABLEGRAMS WANTED.

An exchange says, when repeating the complaint of an English traveller that all European news sent by cablegram is intended for a certain class:—

If Canadian newspapers would all subscribe towards the expense of stationing a well-informed man in London, and of direct cablegrams, a great improvement would result and the messages would probably be nearer the truth.

Something of this kind should be done. At present the news is collected by men who seek to please the taste of United States readers. It is cabled to New York and there edited for the several divisional headquarters. Such as will suit the West is sent to Chicago; something different is sent to New Orleans, and another edition is sent to Buffalo. Canada derives its inspiration via Buffalo, after the news has been re-edited there. It may be imagined, therefore, how little the despatches are to be trusted, or, at least, of how little value they are. The expense of keeping a correspondent in London ought not to be a matter of moment to a combination of all the leading newspapers in Canada.

WHAT has the fact that a civic contractor subscribed to buy a fur coat for Mr. Mercier got to do with the purity of civic government? And why are such things dragged before the civic investigating committee? After all, is party politics at the bottom of this enquiry?

MR. PAGNUELO asked to examine witnesses to contradict the testimony of Dumaine. The Mayor asked what was the use. Even though Dumaine were contradicted, this evidence would not bear on the case. The Committee upheld the Mayor's ruling, and the meeting adjourned until Friday next, when Alderman Beausoleil will be summoned to attend. —[*Gazette's* report.

The Mayor's ruling in this matter appears to be fair and just. Dumaine was the witness through whom the promoters of this enquiry hoped to prove that aldermen had taken money in connection with the granting or cancelling of a scavenging contract. He was, so to speak, *their* witness. His testimony did not turn out as was expected. It went to exculpate the aldermen; and when this result was reached, the counsel for the prosecutors turned upon Dumaine and asked permission to break down his evidence. At one stage of the case he is put forward as a credible witness; at another stage it is sought by the same parties to treat his evidence as perjury. This is scarcely according to the rules of fair play or justice. We do not believe that the citizens expect all the laws of courtesy and evidence, and even justice itself, to be ignored in order to demonstrate that men in whom the citizens have had confidence have been doing what they ought not to have done. Even aldermen and ex-contractors have rights which investigating committees are bound to respect, and the decisions of the Mayor and the committee are generally commended as fair and honest and prudent.

The Mutual Reserve Fund Life Association, The largest open assessment association in the world, continues to afford safe and reliable life insurance at nearly one-third the rates of Old Line Companies. Total membership number over **Sixty Thousand.** It has a Reserve Fund of **One Million Two Hundred and Fifty Thousand Dollars** (not fictitious or subscribed stock but actual cash). It has no Stockholders to receive large dividends. It is licensed by the Dominion Government, and has deposited therewith **Fifty Thousand Dollars,** and with other Governmental Departments **Three Hundred Thousand Dollars,** viz.: The Bank of England, $100,000, and the New York State Insurance Department, $200,000. Its entire Reserve Fund is held in trust by a **separate corporation,** thus giving absolute protection to its members.

Its plan of insurance is simply to collect every two months the cost of insurance together with amount required for the Reserve Fund. **Pay as you go, and get what you pay for.** It has declared to its members of five years' standing a dividend equal to 35¼ per cent. of all their assessments. It is paying over $4,000 a month to the families of deceased members more than **$3,000** for every working day in the year. The admission Fee and one year's Annual Dues are but **$11 for $1,000 Life Insurance, $35 for $5,000 Life Insurance, $70 for $10,000 Life Insurance, and $140 for $20,000 Life Insurance.**

THE
BELL TELEPHONE CO.
OF CANADA.

NOTICE TO SUBSCRIBERS.
In view of rumored attempts of other organizations to compete with this company, subscribers are requested to consider that the success of such efforts means that each person must connect with two or more exchanges, instead of one, in order to reach the same number of subscribers as are now reached by the BELL TELEPHONE COMPANY, and hence the necessity and nuisance of two telephones instead of one, and an increased rather than a reduced rental. And, further, it will be prudent, before making any new engagement, to ascertain what the competing companies intend to give in return for their patron's subscriptions, since if they propose to place more than one set of instruments on a line, their advertised rate is no reduction on this company's charge for similar service, and the number of connections must necessarily be much smaller. It should also be borne in mind that the BELL TELEPHONE COMPANY'S system of trunk lines—comprising some four thousand miles connecting cities and towns—can be used by its subscribers at reduced rates, and will not be connected with any competing exchange. Subscribers may be sure that this company does not propose to retire from a field which has required eight years in time, and a large expenditure in money to secure. For the purpose of expediting and improving the service, this company is about to erect an exchange at the west end of St. Catharine street, where the business of that section of the city will be conducted, and which will also have connection with the present exchange. By this means a large number of subscribers who now pay an extra rental because of extra mileage, will have their rentals reduced to the standard one mile rate. The Bell Telephone Company will also introduce a Messenger service, which will enable subscribers to obtain messengers, cabs, etc., without the expense of a special call box for that purpose.

DANCING AND DEPORTMENT.
NOTICE TO THE PUBLIC.
Allow me to offer a suggestion to those intending to learn Dancing. In making application for admittance don't listen to a boast of what will be done for you, but visit the classes; see for yourself which offers the simplest instruction to accomplish the same ends; it will not require a previous experience to judge. You will then know whether your master is capable. This is reasonable, and Dancing Teachers should have no objection to a thorough investigation.
My closing programme this spring was the largest in America.
The classes for Ladies and Gentlemen meet every evening; different classes.
The Juvenile Classes—I have classes also every day, and persons can be suited with regard to hours.
Private Lessons—Hours to suit pupils. Fancy Dances of all nations; in fact, anything done with the feet.

Trade and Commerce.

THE HERALD OFFICE.
Tuesday Evening, October 4, 1887.

Montreal Stock Market.

There is little or no change in to-day's prices and the feeling is also unaltered. There is still no inclination among the general public to trade, and stocks though firm show no life, and every upward movement is checked, in the face of very favorable circumstances through lack of support. Banks were again dull, with Commerce the most active; sales, 153 shares at 120¾, a fractional advance; the close was a shade easier, sellers at 120¾, no buyers over 120. Montreal is steady but dull. There was a small transaction in Merchants at 133½, and in Peoples at 109; 14 shares Union changed hands at 94. In the miscellaneous list, Montreal Telegraph shows a little weakness, being offered at 94½, but without inducing business. Richelieu & Ontario opened rather better at 56, but lost a fraction towards the close, which was, however, steady. Gas closed rather easier, sellers at 210¼ ex-dividend, a decline of ¼ from the opening sales 275 shares. North-West Land was dealt in to the extent of 150 shares at 45, and Canadian Pacific Land Grant Bonds were offered at 104, 1,000 shares changing hands at that figure. Street Railway Company is held at 245, no sales. In Cotton stocks; there was a small deal in Hochelaga at 132½, others were neglected but steady. The total transactions to-day were 1,742 shares, as follows:—

MORNING BOARD—5 Bank of Montreal at 232½; 7 Merchants Bank at 131½; 150 Bank of Commerce at 120¼; 150 N. W. Land Co. at 45; 100 Richelieu & Ontario at 56; 50 Gas Co. at 211; 200 do. at 210½; 1,000 Canadian Pacific Land Bonds at 104; 10 Hochelaga Cotton Co. at 132½.

AFTERNOON BOARD—16 Banque du Peuple at 109; 14 Union Bank at 94; 10 Richelieu & Ontario at 56; 5 do. at 55½; 25 Gas Company at 210½.

New York Stock Market.

The market recovered somewhat to-day from its demoralization of yesterday, and prices generally were stronger. Western Union heading the list, on the rumor being again current that papers had been signed and the arrangements completed with the B. & O., an advance of two points was established, the close being firm at 77¼; sales, 47,100 shares. St. Paul opened ½ lower at 75½, but on the earnings being reported and the decrease less than expected, a better feeling set in, and the close is better at 75¾; sales, 62,900 shares. Reading is still weak and closes ½ lower than yesterday at 50½; sales, 42,000 shares. North-West opened better at 111½, but weakened during the day, closing ½ lower at 110¾, but ¼ advance on yesterday's close. Canadian Pacific was easier at 51½. The total transactions were 223,200 shares. Money remains easy at 4½@5 per cent.

PRODUCE AND PROVISIONS.

Breadstuffs.

MONTREAL, October 4, 1887.

FLOUR—Receipts, 1,100 barrels. There is no change in the market to-day and prices are steady at yesterday's decline. The business done on 'Change was in small compass and no sales of round lots are reported, the local dealers being the only buyers, and in very small parcels, to supply their immediate necessities. There is the usual good demand for strong bakers, and that ground from old wheat is eagerly sought after, and sales are reported at $4.35@$4.45. There is very little enquiry for export and prices here are above a shipping point. With the very low ocean freights now ruling, flour can be bought in Liverpool as low as here.

Quotations are as follows:—

Choice Patent	$4.50 @ 4.65

Grain.

There is a good enquiry for peas, and sales are reported at 74c afloat. Barley is firm at 65c@66c per bushel and there is a good business doing. Wheat is very dull and none offering. Quotations are nominally unchanged.

The following report of the market is from Messrs. MacDougall Brothers through their Chicago representatives.

CHICAGO, Ill., Oct. 4.—Wheat opened dull and rather weak. Though there was less selling pressure than yesterday, cables indicated no weakness abroad, which rather surprised the bears here, but they are not inclined to change their tactics, still putting faith in the supposed movement in the North-West to enable them to carry their point. Such a movement would be but natural at best and we don't believe can, or should, affect prices much if any on the present basis. Market closed stronger, with better tone, 73¾c December, 76c asked May. Corn and provisions without material change, prices steady. No market to-morrow (holiday).

Montreal Provisions.

PORK, LARD, &c.—The provision market is quiet, but prices rule firm and unchanged at previous quotations. Lard is in fair demand at 9¾c per lb. for Western.

Montreal S.C. pork	18.00 @ 18.50
Western S.C.C. do	18.00 @ 19.00

Shoulders, per lb	00.10 @ 00.10½
Tallow, per lb	00.03½ @ 00.04

Eggs.

The market for eggs is brisk, and receipts are not too heavy. All arrivals are picked up, and stocks are not allowed to accumulate. Sales were made to-day at 17½@18c, and a small lot of new laid brought even a fraction over this.

Ashes.

Potash is firmer, and the improved demand continues. There is no change in values since yesterday, $4.50 per 100 lbs for first sorts being still the figure.

Dairy Products.

BUTTER.—The butter market is without change to-day and prices are steady at our quotations. The only business doing on the market is on local account, and this branch of the trade continues brisk and is likely to remain so all this month. There is a fair supply of choice dairy tall make, and this brings good figures for the city trade. A good deal of butter is being held back in the country, so that the city demand is quite up to the receipts at present, and stocks do not lie long in receivers' hands. Our quotations are:—

CHEESE.—We find no new feature in to-day's cheese market, the situation is unchanged, and, though very dull, there are few if any signs of weakness in the market. The cable quotes the English market easier at 58s 6d per cwt., and the feeling dull. Private advices say there is a considerable stock of summer makes in store which has rather a depressing influence on the foreign market. There is nothing doing here to-day, we repeat our yesterday's quotations.

HONORS TO THE ANCIENTS.

The Banquet at the Windsor.

After Dinner Speeches--Leave Takings.

Yesterday the members of the Ancient and Honorable Artillery Company of Massachusetts visited the principal places of interest in and about the city. In the morning they went to Lachine and came down the rapids, during the day driving Mount Royal Park, and visiting the churches of the city and other buildings in company with officers of militia and others. The public parade had to be given up on account of the disagreeable weather, much to the regret of all concerned and interested. In the evening the command assembled in full dress at the Windsor, where a large crowd had collected to hear the Salem Cadet Band discourse a choice musical programme. At five o'clock Adjutant Keeler formed the command in line preparatory to going in to the banquet which had been prepared in the spacious dining hall of the Windsor and the invited guests followed. One hundred waiters were in attendance. The Cadet Band occupied the gallery at the further end of the Hall and furnished splendid music. Col. Walker presided over the assembly, behind him being suspended the National flag and the Stars and Stripes of the United States. The scene was a remarkably brilliant and animated one, the uniforms of the officers of "our boys" contrasting with the many colored dresses of the Artillery. The ladies were present in goodly number. The tables were ornamented with flowering shrubs and potted plants, and the walls tastefully decorated.

THE GUESTS.

Among the guests seated to the right of Col. Walker, were Gen. John M. Corse, postmaster of Boston, Major Gen. P. Frost, assistant inspector of the rifle practice, Rev. E. A. Horton, Col. Edward Wyman, Chief of Staff; Dr. Arthur Leach, Brig. Gen. A. P. Martin, ex-Mayor of Boston; Mr. A. Sturman, Boston; Col. Fred M. Millington, assistant inspector General of Massachusetts; Lieut. Jacob Fottler, Surgeon McDonald, Assistant Surgeon Kinney, Capt. Albert A. Folsom, Major General Sir Frederick Middleton, Col. A. A. Stevenson, Acting Major McBride, Hon. Peter Mitchell, Alderman Richard White, Mr. George Iles, Lt.-Col. M. G. Mattice, Lt.-Col. E. H. Hughes, Lt.-Col. Theodore Lyman, Lt.-Col. Caverhill, Mr. Sergt. Stearns, Mr. Gilman Clunney, Lt.-Col. Ouimet, Lt.-Col. Henshaw, Lt.-Col. Oswald, ex-Mayor Beaugrand. The party numbered in all about two hundred.

The *menu* was elaborate, and was served up in the best style of the Windsor.

THE CHAIRMAN'S ADDRESS.

The cloth having been removed, the chairman said it was unnecessary for him to say that he was glad to see them all assembled there. He had the good will of his command, and he was sure he had the good will of the guests on the visit of their old organization to the city of Montreal. (Applause.) He felt that he could not properly express his thanks for the courtesy that had been offered them, and all the kindness that had been shown them, because he had not words to do it, but it was not because he did not feel it. (Applause.) A few weeks since, when he had stood in London, representing the great company now celebrating its 356th anniversary, he had met there a welcome so cordial that he could not then find words to express his thanks. He did not then think that within a few short weeks he should be standing within an English colony, side by side with his fellow-members of the Ancient and Honorable Artillery Co. of Massachusetts, and should receive there the true welcome that they had received here in Montreal. He thanked the gentlemen of Montreal over and over again, and in doing so he knew he expressed the feeling of all in his command. (Loud applause.) They had enjoyed their visit to the fullest extent. They had wandered through the churches of the city, and marked and appreciated deeply the solemn devotion which had filled the men and women of Canada, who had erected them. They had visited Mount Royal, and had seen it to be royal indeed; they had visited the business marts of this great city of the Dominion of Canada and had found many objects emblematic of the history of the last hundred years. They had also found emblems of those troublous times that had now gone by, and had given way to the broad, quiet stream of prosperity and commerce which now blessed the land. (Applause.) The visit of this ancient organization to the first or second oldest city on the continent has been one of deep interest. They in Montreal had built up their city as they in Boston had built up their's. Col. Walker then went on to refer in touching terms to the history of Montreal and its intimate relations with the history of the people of some parts of the old or state of the Union. He hoped that the same spirit of faith which had marked the children of Canada in years gone by would go down to posterity through long generations yet to come and find Montreal still the Queen city of the Dominion, blessed through time with progress, in accordance with the spirit which they returned home they should carry with them the most pleasant memories, and hoped that they would yet repay some of the kindness that had been extended them when they found the citizens of Montreal within their gates and upon their waters. (Loud applause).

THE TOASTS.

The first toast given was

THE PRESIDENT OF THE UNITED STATES.

which was coupled the name of Gen. John Corse, Postmaster of Boston.

Gen. Corse, in responding spoke of the true regard in which sixty millions of the American people held the President of the United States. He passed on to speak of the English nation, and said the American people honored as much as any one Her Majesty and the people of her mighty Dominions who had fought, bled and died for the high and noble principles which in all years has characterized the English nation.

The toast was drunk with the greatest enthusiasm.

The second toast was

HER MAJESTY THE QUEEN,

which was right loyally honored, the band playing the National Anthem, and the entire audience accompanying the music with their voices.

The third toast was to the Prince of Wales. In giving the toast the president announced that the Prince was an honorary member of the Ancient and Honorable Artillery Association.

The toast was drunk with enthusiasm: the audience at the request of the president honoring it with "three" and "tiger."

The next toast was "the City of Montreal and may all prosperity be to her in the future."

The chairman coupled with this toast the name of the acting mayor, Alderman McBride, who after a few remarks in response was followed by Ex-Mayor Beaugrand, who spoke of the visit of the Snow Shoe club to Boston and of the hearty welcome which they received there. He expressed the delight it gave him that the citizens and soldiers of Montreal had had this occasion of returning it, and said that he regretted deeply at having left the civic chair was when the Ancient and Honorable Artillery arrived in the city on the previous night and he could not be there officially to each out the right hand of friendship. He hoped that this would not be the last visit of the kind, and regretted that it was so short to give them the opportunity of treating their visitors as they would wish. On behalf of the French people of the city he would say that they joined with their English brothers in bidding the ancient and honorable artillery a hearty welcome to the city. The toast was duly honored.

The next toast was "The Army, Navy and Militia of the Dominion," coupled with the name of Major General Sir Frederick Middleton, who expressed the pleasure it had given to here in Montreal. He thanked the gentlemen of Montreal over and over again, and in doing so he knew he expressed the feeling of all in his command. (Loud applause.) They had enjoyed their visit to the fullest extent. They had wandered through the churches of the city, and marked and appreciated deeply the solemn devotion which had filled the men and women of Canada, who had erected them. He referred in sympathetic terms to the friendship that existed between the American and English nations. Much had been said about breaking down the barriers between Canada and the United States. He thought more of these invasions took place the barriers would come down of themselves. (Loud applause.) In conclusion he proposed the health of the ladies.

The next toast was "the health of Col. Stevenson," who regretted that they had not had more time to treat their visitors as they wished to do and he hoped the next time they would remedy all by the artillery staying a longer time with them. (Applause.)

The toast was warmly honored, the guests singing, "For He's a Jolly Good Fellow."

The Royal Scots was coupled with the name of Lieut.-Col. Caverhill, who replied in appropriate terms.

"The Victoria Rifles" was responded to by Lt.-Col. Hen haw.

Speeches followed by Major Merrill, Commander of the First Battalion of the Massachusetts Light Artillery and State Insurance Commissioner, and others.

The chairman read a telegram from Sir Adolphe Caron, Minister of Militia, regretting inability to be present.

After a capital speech by Rev. Dr. Horton, Ex-Mayor Beaugrand proposed the health of the chairman, which was drunk with enthusiasm.

Immediately after the banquet the artillery formed up in front of the Windsor and marched to the Dalhousie Square station. The procession was led by the band of the 65th, followed by the Salem Cadet Band, all the officers and other members of the artillery. Ald. McBride and Ald. White escorted the visitors on foot, and a large concourse of people lined the streets. Lusty cheers were raised all along the way.

As the train left the station there was a loud cheer raised, which was as cordially responded to.

CARDINAL TASCHEREAU'S ARRIVAL IN THE CITY.

Upon the arrival of the Cardinal Archbishop of Quebec at three o'clock this afternoon, he was driven in a carriage drawn by four horses, and accompanied by a procession of the clergy, Catholic societies and leading Catholic gentlemen, to the Presbytery of St. Patrick's Church. There were among others in waiting at the Dalhousie Station to receive His Eminence, Bishop Lafleche, of Three Rivers, Father Dowd, Father Toupin, Hon. Senator Ryan, Ald. Farrell, Messrs. B. J. Coghlin, Edward Murphy, Owen McGarvey, L. H. Senecpe, James O'Brien, J. J. Curran, Q.C., M.P., Bernard Tansey, James Sadlier, M. P. Ryan, Collector of Customs. After partaking of refreshments His Eminence proceeded to pay his respects to the Archbishop. Thence he went to the residence of his sister, Lady Routh. Returning to the clergy house a procession marched to the St. Patrick's Academy, where a reception was accorded His Eminence, and an entertainment given by the pupils. His Eminence dined at the Presbytery, among the guests present being Mgr. Healey, of Portland, Me., Mr. Verreau, Principal of the Normal school, and many gentlemen of the Seminary. Today at 9.30 o'clock, His Eminence will officiate at the wedding of Miss Sills to Mr. C. F. Bouthillier. After the wedding breakfast, Monseigneur will visit the Seminary, and in the evening dine with his nephew, Mr. Justice Taschereau. To-morrow morning he will leave for Toronto, where he will arrive at eight o'clock. A deputation, representing the Roman Catholic congregations of the city, will then escort him to St. Michael's Cathedral. On Friday afternoon a *levee* for ladies will be held in St. Michael's Palace, and in the evening one for gentlemen. On Sunday morning at half-past ten o'clock the Cardinal will sing Pontifical High Mass at St. Michael's Cathedral, and on Saturday afternoon will lay the corner stone of the new St. Paul's Roman Catholic Church, at the corner of Queen and Power streets. On Monday evening His Eminence will be entertained at dinner at the Rossin House.

LOCAL NEWS.

HUNDREDS of ladies are buying their Winter Mantles now during S. Carsley's Mantle Sale at special prices.

THE REV. DR. NORMAN'S BIBLE CLASS for ladies will be resumed on Friday next, Oct. 7th, at 3 p.m., at the Synod Hall.

FACTS ARE STUBBORN THINGS, and one fact is that machine made bread is the best, the healthiest, the most delicious. Made only in this city by C. Fitts & Co.

WONDERFUL.—The curative powers of St. Leon Water are marvellous. Persons troubled with rheumatism and dyspepsia should try it and be convinced. To be had at 51 Victoria Square.

FRESH.—A fresh lot of the old favorites, "Yxora" conchas, received and selling at three for 25 cents, at Hirsch's, opposite the Post-Office. This brand is *extra good value* at $7.50 per 100.

DON'T take a fool's advice and spoil your clothes by using patent soaps for to clean them, but take a wise man's advice and send into Keller's, 47 Beaver Hall Hill, and have them done properly.

THE ASSORTMENT of new Fall and Winter Mantles at S. Carsley's is said to more than equal all other retail stocks of mantles in Montreal combined.

TO RUN AGAIN.—Alderman Rousseau intends running again for Hochelaga Ward. A meeting of Council will probably be held on Monday, and nomination will probably be ordered for October 13th and election for October 20th.

RALEIGH CUT PLUG SMOKING TOBACCO is guaranteed perfectly pure and not injurious, and is pronounced by connoisseurs the best now offered to the public. Ask your tobacconist for it. I. Harris & Son, 1004 Notre Dame street.

THE BOARD OF ARBITRATORS.—This Board held a sitting in the Road Committee room at the City Hall yesterday afternoon to arbitrate on some property to be expropriated between Fort street and the city limits, in connection with the widening of that portion of said street.

GROCER'S ASSOCIATION.—The annual meeting of the Grocer's Association, for the election of officers, &c., takes place this evening at night at the Hope Coffee House. A large muster is expected, as we understand there is considerable competition for the different offices; several strong tickets being in the field. The meeting opens at 8 o'clock.

DISPENSARY OF THE ASYLUM OF PROVIDENCE MONTREAL.—Number of prescriptions given during the month of September, 1887, under the care of Dr. A. Archambault, 2,059; number of visits made, 176; total 2,855. Dispensary for the diseases of children under the direction of Dr J. Asselin: Number of prescriptions given during the month of September, 1887, 94; number of visits made, 63; total, 157.

THE CIVIC REVENUES.—Mr. J. F. D. Black, City Treasurer, has prepared the following statement: Corporation revenue collections for the week ending October 1st, 1887: Sept. 26th, $44,231; Sept. 27th, $55,178; Sept. 28th, $56,267; Sept. 29th, $108,218; Sept. 30th, $241,-833; Oct. 1st, $113,185; total, $618,947. The total for the corresponding term in 1886 was $583,-445, showing an increase of $35,502. The large increase in one week is considered very encouraging,

LADIES from other parts of Canada should write their friends in Montreal and get them to select a Winter Mantle, or Dolmon, or Ulster for them during S. Carsley's Cheap Mantle Sale.

ASTRO-METEOROLOGICAL ASSOCIATION.—The Astro-Meteorological Association will hold its opening meeting for the session of 1887-8 in the Fraser Institute this evening. Papers are to be read by the President Mr. W. H. Smith on "Isothermals of the Northern Hemisphere," and by Mr. A. J. Johnson on "The Great Pyramid considered from an astronomical standpoint." The Association although not yet three years started has already about fifty resident members in Montreal, and more interest in the popular subjects included in astronomical and meteorological science is in consequence shown than ever before.

BUSINESS DIFFICULTIES.—Hr. HughO'Hara, of Chambly Canton, trader, has assigned on demand of Macmaster, Darling & Co., of Toronto, with liabilities about $8,000. Mr. C. Desmarteau, accountant, has been appointed curator to the following estates: J. Villeneuve, grocer, of Montreal; Joseph Perrault, shoe merchant, of Montreal; Louis Bonville, of Ste. Cunegonde. Mr. Desmarteau has declared the following dividends: *In re* Emond & St. Marie, Arthur Leonard, Damase Rocheleau, of Montreal, and Toussaint Boyer, of Valleyfield.

MONTREAL LADIES BENEVOLENT SOCIETY.—The annual general meeting of the members and friends of the Montreal Ladies Benevolent Society by which was called for Thursday, October 4th, has been adjourned to Saturday, October 8th, at three o'clock p.m. The meeting to be held in the house of the Institution, 31 Berthelot street, for the purpose of receiving the reports of the secretary and treasurer, the appointment of office-bearers and other business of this corporation. The Hon. Mr. Justice Mackay will take the chair. All friends are earnestly requested to attend.

S. CARSLEY'S sale of a manufacturer's stock of new Winter Mantles at specially low rates is a grand success so fas.

PEST HOLES.—Complaints having been received at the Health Department that several of the basins along the harbor—into which sewers had been emptying before the construction of the city and intercepting sewer were in the most filthy condition, Mr. Bradford made a tour of inspection yesterday morning The Jacques Cartier basin was found to have several feet of stagnant sewer refuse in it, from which gas is continually emanating. The gases, as soon as liberated, spread and leave the water and smell horribly. Mr. Radford will recommend a prompt removal of the stuff. The Jacques Cartier and other basins have not, it is said, been cleaned for ten years.

TRANSFER OF AGENCY.—The agency of the Lancashire Insurance Co., of England, has been transferred to Messrs. Belleau & Bamford. The company has been doing a large business in Canada for a long period and is favorably known for its honorable and prompt settlements, as well as for the ample security its subscribed capital of three millions sterling affords. It is thus scarcely necessary to speak of the new agents a fair share of business, nor to hope that they will succeed, for both are assured. Messrs. Belleau & Bamford's office here is at 260 St. James street Victoria Chambers, and in the Union Bank buildings in Quebec.

PROTESTANT WORKINGMEN.

The regular monthly meeting of the U. P. W. Benefit Society was held last evening, Mr John Cunningham, president, in the chair. After the minutes had been read and confirmed, Mr. W. Seale, treasurer. presented his report for the past month, showing—Receipts, $216.85; disbursements, $168.88; balance cash on hand, $652.97. Dr. John H. Flinn, medical officer, reported—Office consultations, 62; sick at home for less than a week; 5. There were on the sick and benefit list during the month, 13 of whom one was discharged, leaving 12 still under his care. On motion the reports were adopted, some routine business transacted, and the meeting was adjourned.

HEALTH MATTERS.

Dr Laberge has received from Commissionner Otterson, of the Brooklyn Board of Health, a printed form in use there which every plumber is obliged to fill in as well as to supply a plan of premises and answer numerous printed questions as to pipes, closets, wash basins, sinks, etc. Dr. Laberge remarked that a great many things perfectly favorable further south could not be carried out here, owing to the severity of our winters—as for instance the "fresh air inlet," there insisted upon as a safeguard, which would mean simply the freezing up of the outside trap in severe weather. "There is only one another matter," said Dr. Laberge: "The moment we adopt these laws we must appoint a sanitary engineer. This will cost about $2,000 a year at least.

THE VETERINARY COLLEGE.

The Course Opened with a Lecture by Dr. McEachran.

The students of the Montreal Veterinary College assembled in the lecture room at the College last night, when the collegiate year was formally opened with a lecture by the Principal, Dr. McEachran. The subject was, "Veterinary Sanitary Sciences and Diseases of Animals in relation to the Public Health." The doctor gave a very interesting sketch of the diseases to which animals are subject, and dwelt forcibly on the care which should be exercised in treating animal diseases, as those which were liable to be transmitted to human beings. Some useful hints were given as to the course to be pursued by the students.

SALE OF TURKISH AND OTHER RUGS.

Yesterday afternoon, Mr. Hicks opened, in the premises formerly occupied by the Co-operative Supply Association, Albert Buildings, St. James street, the sale of an extensive and well selected consignment of Turkish, Persian and other rugs, Eastern carpets, etc. The specimens were alike beautiful, rare and cosily, albeit as concerns this latter quality, many bargains have already been secured by purchasers. There was also a varied collection of embroideries, portieres, curtains, etc. Mr. Hicks personally conducted the sale with his accustomed courtesy and efficiency, and we strongly advise the public to visit this sale, assuring them that they will find it worth their while to do so.

STILL INCREASING.—The consumption of St. Leon Water is daily increasing. Its efficacy in curing dyspepsia, rheumatism, etc., is wonderful. Head office, 54 Victoria square.

LOCAL RACING CHAT.

It is to be hoped that the baseball game between the Belmonts and Montreal club will not come off on Saturday next; for on that day the Hunt Cup and Farmers' Cup races take place at Blue Bonnets, a yearly attraction of considerable interest to all followers of real sport, lacrosse and baseball men included. The attendance at Point St. Charles, or at the Driving Park wguld be materially affected were a clashing of dates to take place, as the Hunt races have for some time been looked forward to. This year, owing to the great improvements now in hand to the stands, the audience is sure to be larger than usual. The entries, too, are satisfactory.

The Montreal Hunt Steeplechases.

Men are hard at work at Blue Bonnets, renovating and arranging the stands and putting up the fences. The cover to the new member's stand is already in place, while the dressing rooms of the ladies, and of the gentlemen jockeys, are also in an advanced stage of completion. The new judge's box is finished. Owners of horses, and those in possession of member's badges will be pleased to learn that the stewards have given to each station themselves by each fence, so that the crowd will be compelled to keep clear. Carriages should start exactly o'clock p.m. from the city so as to obtain good places, as there will be a big rush after two o'clock to obtain positions, and the racing commences sharp at 2.30 p.m. We would remind ladies to bring both water-proof and warm carriage rug, for though the seats will be made as comfortable as possible, still, it will most probably be very cold towards four o'clock, and is sure to be on the road home.

With a likelihood of yet four more entries in the Hurdle Race and Open Steeplechase, racing should be very good indeed and the fields large. Although somewhat early, as post entries are likely to crop up, we venture to forecast the winners of the first day.

SKYLARK AND ESTELLA

should fight it ought for the green steeple chase, Vigilance should ae be in the vein, has the handicap at his mercy, but should he be black he on his bad behaviour, then we look to Woodlawn to land this event for Mr. Clerk, with Grattan to earn next honors provided he can stay the course. Highway can safely account for the Members' Plate, while George L. may upset the odds and beat Percy for the Open Flat Race.

The following are the weights in the Half-bred Handicap Steeplechase, declared last evening :—

Blk. g. Vigilance	168 lbs.
Ch. g. Echo	159 lbs.
Br. g. Grattan	152 lbs.
B. g. Woodlawn	150 lbs.
Blk. m. Estella	144 lbs.
Ch. g. Prince Charlie	144 lbs.

First Fall Meeting in aid of Notre Dame Hospital.

(TO BE RUN UNDER AMERICAN JOCKEY CLUB RULES.)

The Committee, comprising Messrs. B. J. Coghlin in the chair, J. O'Brien, J. Barsalou and W. H. Arnton (acting as secretary), met last evening at the St. Lawrence Hall, and drew up the following programme, the purses of which will be found most liberal. Not the least attractive event will be the Ladies' Purse, which is run over a mile and a half on the flat. This race should fill well, as it is confined to gentlemen riders, and all those who have objected for various reasons to perform over country, will now have a chance of sporting silk on their own horses, and the lesser fish will always be more than glad to professionals out of the way. The Charity Stakes, run on the first day, which is worth $200 should attract a large number, as all the horses which compete at the Montreal Hunt Races this week will probably stay over, as such an opportunity of earning money towards their Winter keep does not turn up for owners every year so late in the season. This remark also applies to the handicap hurdle race on the first day, the former particularly, as the public enjoy events over sticks. The Notre Dame handicap steeplechase, top weight twelve stone, will, of course, find a crowded field to begin with, and with the introduction of the pony race should bring a lot of little boys to the front, and at the same time encourage lads to learn the difficult art of equitation. This meeting, as has already been stated in these columns, is got up in aid of Notre Dame Hospital, Mr. B. J. Coghlin being Chairman of the Meeting, and O'Brien, Barsalou and W. H. Arnton have most generously offered their assistance, and form the executive. The programme, which is now most influential, will shortly be published, and it will be seen that the officials are all first-class men. A most important fact as this affords much to a great extent the amount of patronage from owners. The meeting will be run under American Jockey Club Rules. Mr. Melomphy will be the starter. Mr. Jas. O'Brien; clerk of the course, Mr. J. A. L. Strathy; clerk of the scales, Mr. C. M. Alcock.

FIRST DAY—THURSDAY, OCT. 13TH INST.

Invitation Stakes—For a purse of $125, of which $25 to second, third to save his stakes. One mile on the flat. Weight for age. Winners once at any time, twice or more, 10 lbs. extra. Entrance, $6.30.

Charity Stakes—For a purse of $200, of which $130 to first, $50 to second, and $20 to third horse; mile heats; light welter weight. Entrance, $7.50.

3. Notre Dame Handicap Steeplechase—For a purse of $200, of which $125 to first, $50 to second, and $25 to third horse. Over two miles fair hunting country. (top weight 168 lbs.) Entrance, $10.

4. Consolation Stakes, (handicap)—For a purse of $100, of which $40 to first, $30 to second, $20 to third, and $10 to fourth horse. Entrance, $2.50. One mile.

For further particulars apply to the hon. secretary; or, J. B. Coughlin, Esq., St. Lawrence Hall.

Sporting Titbits.

Prince Charlie will not start in his first engagement on Thursday.

Mr. Coghlin's Grattan covered four miles on Monday, and pleased her owner immensely.

Bonnie Duke, with Cook up, was sent a good spin of a mile and a half yesterday morning.

George L. and Felig have arrived, and are doing the final spins of their preparation for the Hunt races.

(Count Von Proleus' Tenshields (owner up) galloped 2 miles at Point St. Charles yesterday, and pulled up fresh and well.

$1,200 is the added money to the New Races. Now's the chance to earn some winter keep for some of the horses training here.

The Lachine horses are very fit, and it is expected that the orange and gold stripes will be carried to the fore on Saturday.

THE GAMING HOUSES.

Last week Detective Cullen during the night entered No. 1859 Notre Dame street, tenanted bp Charles Renaud, and found six young men playing poker. He caused summonses to be issued against three of them, and yesterday morning Renaud appeared and pleaded guilty to having a public gambling house, and was fined $100 and ordered to be retained in gaol until he would pay it. Renaud, however, paid the money down and was released.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of the digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage, which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." *Civil Service Gazette.* Made simply with boiling water or milk. Sold only in packets, by grocers, labelled—"JAMES EPPS & CO., Homœopathic Chemists, London, England." Sole agent for Canada, C. E. Colson, Montreal.

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N. S., had chronic rheumatism for two years, and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B. B., now, thanks to the discovery of such a valuable remedy, I am entirely restored to health."

BAZAAR MONTREAL GENERAL HOSPITAL

To be Held October 11, 12, 13 at Victoria Rink.

This circular has been sent to all the city schools, public and private, Protestant and Roman Catholic. If any school has been omitted the principal is requested to communicate with the Secretary when the omission will at once be rectified :—

SIR,—I have been instructed by the Advisory Committee of the forthcoming Bazaar in aid of the surgical wards of the Montreal General Hospital to inform the Principals of the various public and private schools of the city that on Wednesday afternoon, October 12, all school children will be admitted to the Bazaar at the nominal charge of five cents. The Principals wishing to avail themselves of this offer will kindly let me know at their earliest convenience the number of children likely to attend from their respective schools, on receipt of which information special tickets will be supplied the Principals, to be disposed of accordingly. Any tickets remaining unsold may of course be returned.

It is hoped that the day in question may be made a half holiday.

Your obedient servant,
J. G. CARTER TROOP,
Honorary Secretary.

BOARD OF TRADE.

Council Meeting—The Flood Measures Considered and Approved as far as they go—The Bucket Shop Question.

The weekly meeting of the Council of the Board of Trade was held yesterday, Mr. G. A. Drummond, the president, in the chair. There were present Messrs. R. Archer, J. P. Cleghorn, A. Grenier, W. C. Munderloh, H. Shorey, C. P. Hebert, A. J. Thomson, and R. P. McLea.

At the last meeting the Board had asked for some information in regard to the progress of the flood prevention measures. In response City Surveyor St. George appeared before the Board and stated that the dyke in front of the city was well advanced as well as the permanent levee at Point St. Charles together with the pumping stations. He mentioned that the expenditure so far had been over the original estimate. This was no place for their dissevering, as the work proceeded, the necessity of attending to the present sewer system and making some alterations. Chairman of Finance had not authorized the increase he had been enabled to vigorously carry on the work without delay. It was mentioned that the districts in the city lying western portion of the city, between Bonaventure and Notre Dame streets, (which had been previously flooded owing to the water backing up in the sewers,) would be absolutely protected from any overflow of water by the new intersecting sewer which was in course of construction.

Alderman Grenier remarked that from the start he had been impressed with the importance of the work and had endeavored to push it as much as possible. He thought the business men and the public generally would recognize this and acknowledge that once the commission on the subject had made its interim report the civic authorities had wasted no time.

The Council generally expressed their satisfaction with the progress of Mr. St. George and expressed the opinion that the thanks of the citizens were due to Alderman Grenier, Mr. St. George and the Flood Committee for their exertions in the prosecution of the flood preventive measures.

Some conversation took place with reference to the business tax about to be collected by the Provincial Government.

The question of bucket shops was also considered and the feeling of the Council was that steps should be taken to place them under supervision so as to restrict their business to legitimate channels.

The question of the reconstruction of the gratuity scheme of the Board received attention, and after some other important business the meeting adjourned.

EDUCATION IN ARGENTEUIL.

Mr. J. W. McOuat, the energetic and efficient principal of the Lachute Academy, has, during his residence in that place, done considerable yeoman service in working up among school trustees, teachers and scholars, a deeper interest in the work in which they were jointly engaged and which, indeed, it was to their mutual interest to promote. Having sounded the general sentiment he issued a circular, a few days ago calling a county conference of teachers and school commissioners in the Academy building, Lachute, That conference—the first of its kind in the county, and indeed the first voluntary meeting of its kind, gotten up by the locality in which it was held, took place on Friday last, and was numerously attended. In opening the proceedings, Mr. McOuat said "In February 1887, Inspector James McGregor made his visit of inspection to this part of his district, and from his report, I was led to conclude that something had to be done, or else many of our schools would still remain in a sad state of inefficiency, which seemed at that time to be closing the doors of several, and to have even made the question of their existence a matter of time. By the inspector's report no less than 26 out of 42 elementary schools were found with their doors closed in the county of Argenteuil—some of them closed for the winter months, some had no teacher, and others had a teacher engaged but no school and the pupils idle for want of fuel, and that too in a municipality supplied with wood! On the other hand the other 16 were found in operation. Not a few were spoken of very highly in many respects, and reported to be doing conscientious, thorough and practical work. Knowing that every effect has its cause, I have been trying to find out what these causes may be, and how they could be most effectually removed. So far as I have been able to determine these causes, they are first, a general lack of interest in education; second, a half-hearted support by the people; and third, a lack of sufficient interest in the work of the school by the teacher; fourth, the inability, seeming or real, of certain districts to support their school for the whole scholastic year; fifth, the difficulty for children to attend school in winter in other districts which are sparsely settled. How may they be removed or at least how may we lessen their evil effects on our schools? The question is a difficult one, and to solve it I have endeavored to secure the assistance of this conference.

It will be observed from the causes numerated that not only the teacher but also the trustee, the commissioner and even the ratepayer and parent are included in the list of those accountable for the dormant state of education in our midst. This being the case the next question is; "How can we best arouse them all to a sense of what is required, and also to a sense of their duty in matters of education?" While thinking over the question I chanced to read in the "Educational Journal" of Ontario about a county convention of school teachers, and I at once concluded that by combining a county meeting of teachers with a county meeting of trustees, &c., I could accomplish what we so much need, and arouse in each, both employer and employee, a deeper sense of their relation to one another, and of the duties of their position.

Such a meeting as this must of necessity create more interest in schools and education than there had previously been and thus to a certain extent the first and main cause of which we complain is removed and with it must follow the removal of evil, viz: the half hearted support of our schools by the people. The fourth on the list will also have disappeared with the first and the second, namely, the inability of the school open for the whole scholastic year, for run up the interest in any thing you please and you are always sure of support. The third cause of detriment to educational progress may be also caused to disappear by a minor scheme within the greater one, viz: by organizing the teaching staff of our county into an association for the purpose of holding periodical meetings, say monthly from place to place, in order that the work of school may be discussed and talked over for the mutual benefit of all.

After some discussion on motion of Mr. Thomas Lamb of St. Andrew's, seconded by Mr. Patrick Dunbar, it was unanimously resolved to make the Convention an annual and permanent one, and a County Teachers Association was also formed for the purpose of holding monthly the works of teaching by a careful study of school work and mutual improvement.
