New HUDSON "37"

Furnished complete, no extras—\$1,875, f. o. b. Detroit

Two Cars in One Saving \$3,000 or More

A new Automobile that has all the Advantages of a Closed Electric Car in Addition to Points you desire in a Gasoline Car

You need no longer have a winter and a summer car.

Nor need your wife any longer do her shopping and calling in an electric car, because now the function of the electric and that of the gasoline car have been combined. Now one car serves where it was necessary to have two before.

A positive electric self-cranking system in the New HUDSON "37" removes the woman's last objection to a gasoline car. The car is electrically lighted, and is so responsive that a small girl can safely drive it.

There is nothing in the operation of the car which cannot be accomplished from the driver's seat. You press a button to crank the motor. Three buttons on the dash operate head lights, side lights, tail and dash lights; oil and pressure gauges are located upon the dash. A dainty jewel keyless watch is combined with the speedometer.

New HUDSON "37"

In comfort the New HUDSON "37" excels the electric. Its Turkish type upholstery is 12 inches in depth, exceeding that of the \$5,000 and \$6,000 cars.

It is the masterpiece of 48 picked engineers from 97 famous factories of the world. These men had a hand in building over 200,000 automobiles. They worked under the direction of Howard E. Coffin, acknowledged the industry's foremost designer.

And the New HUDSON "37" price is but \$1,875, \$1,200 less than the average electric. Here is a suggestion that can save you \$3,000 if you utilize it.

Have a New Hudson "37" touring car and in addition have a coupe body for winter use.

We desire to extend to you an invitation to visit our exhibit room and see both these cars. We have further important facts that you would like to hear.

There's a Relish to Every Meal
on "*The Olympian*"
Chicago to the Pacific North Coast

No effort or expense is spared to maintain on this splendid train the reputation enjoyed by the "St. Paul" Road for unsurpassed culinary perfection.

Frequent supply stations provide every seasonable delicacy at its best. Meals are prepared by skilled chefs in immaculate kitchens and served by courteous waiters.

The dining cars are beautiful in design and elegant in appointment—They are "St. Paul" owned and operated and every attendant is a "St. Paul" employee.

"*The Olympian*" leaves Chicago at 10:15 p. m. and with "*The Columbian*," its companion train, which leaves Chicago at 10:10 a. m., provides unequaled double daily service to Seattle and Tacoma over the newest and shortest line—the

The Perfect Gift— A String of Pearls

Pearls are the rarest of gems—the crowning beauty of the fairest women—the highest tribute anyone can give. Such a gift must be faultless; the pearls perfectly matched in size and color; each gem lustrous and without a flaw. The markets of all the world give us their best. Our experts pass in judgment on each stone. The experience of three-quarters of a century gives us the position of authorities on pearls and the Peacock name and reputation guarantee the absolute worth of every gem.

WRIST WATCHES are the fashion of the hour. They are a delightfully feminine variation of the ever useful time piece. Every woman wants one of these attractive and convenient watches. They are very small and dainty in appearance, but perfectly reliable timekeepers.

Prices \$25 to \$1000
