C. P. R. MECHANICS LOOK TO ENGINEERS.

Their Hope of Success Largely Based on Prospect of Locomotive Drivers Joining in the Strike.

Winnipeg, Man., August 12.—(Special.)—The Canadian Pacific Railway Strike Committee claims to be in possession of information that the rolling stock of the company is getting into very bad shape.

The strikers are still depending on engineers coming out when their condition makes it dangerous for them to operate the locomotives.

Lemieux act or no, it is maintained that no law would compel engineers to take out engines which they believed to be unsafe.

A curious phase of the labor situation is the fact that many of the striking mechanics are being sworn in to act as special constables on the company's property.

NON-STRIKERS WILL CONTRIBUTE

Toronto, August 12.—The unions that are not participating in the strike will make an assessment of $1 per week per member to establish a fund to sustain the strikers. This will mean close upon $50,000 per month.

POLICE DISPERSE TORONTO CROWDS.

Toronto, Aug. 12.—Crowds which gathered to watch the strike-breakers as they go to their mid-day meal from the C.P.R. yards at the foot of York street, has been growing larger daily, and there is a suspicion that the loungers are looking for trouble. Yesterday the police dispersed the crowd to prevent interference with the workers.

A carload of fifty men was taken to the shops at West Toronto yesterday. Ten of them were said to be machinists brought on from the United States. There are now one hundred and twenty men working in these shops, the normal number being four hundred and fifty.

MOVE TO MAKE SIR THOMAS SHAUGHNESSY SOLE ARBITER.

Montreal, Aug. 12. — (Special)—The new feature of the strike is the move to make Sir Thomas Shaughnessy sole arbiter between the men and the company.

The men feel assured of his fairness and judgment and much satisfaction is expressed at latest turn of events.

SITUATION IN MONTREAL.

The situation at the Angus shops, Montreal, is thus reported:

"Weary foreigners who since the strike began have daily plodded their way up to the Angus shops in search of work, have evidently given up hope for the cosmopolitan crowd surrounding the works yesterday, was very small in comparison with previous assembles. There were not more than fifty men in the vicinity of the only entrance to the work on Rachel street. They were all of the laboring class, and many were begrimed with dirt, while others wore tattered garments—each in their way telling his own tale.

"Only three or four men were taken on yesterday morning. There is a plentiful supply of unskilled labor, but the company only requires

ITALIANS STRUCK ON INTERCOLONIAL.

Demanded an Increase of Twenty-Five Cents a Day.

OFFICIALS ARRESTED RING LEADERS AND MAJORITY WENT BACK TO WORK.

St. John, August 12.—(Special.) — Eight hundred Italians struck on the Intercolonial Railway forty miles from Campbellton yesterday.

The leaders paraded the camps waving red flags.

Seven officers left Campbellton fully armed and arrested the ring leaders, gathered in fourteen guns, seventeen revolvers and over twenty knives.

The men demanded an increase from $1.50 to $1.75.

The majority went back to work.

POLITICAL GOSSIP OF THE DISTRICT.

Meeting at St. Elie Last Night Well Attended.

LIBERALS PLANNING BIG MEETING FOR WATERVILLE—POLITICAL NOTES.

The political meeting at St. Elie last night was very well attended, the school house being filled, and quite a number who could not find seats inside listened to the speeches through the open windows. The audience included a number of ladies.

Mr. Gauthier, Mayor of the municipality, presided.

Dr. Worthington, M.P., and Conservative candidate, spoke first, saying he was opening his campaign in St. Elie for the coming federal elections, which rumor stated would take place in October.

Dr. Camirand, President of County Sherbrooke Conservative Association, followed, after which Mr. Bergeron arraigned the Government an hour in a very forcible manner.

At the conclusion of Mr. Bergeron's speech, Messrs. Panneton, Hebert and Campbell spoke briefly, bringing the meeting to a close.

LIBERALS QUIET.

The Sherbrooke Liberals as yet have taken no steps towards the election of a candidate. No date has yet been fixed for the convention.

WILL OPEN IN COMPTON COUNTY.

On Friday, August 28th, the Liberals are planning a big meeting to be held at Waterville, really the opening gun of the campaign in that constituency. It is announced that Hon. Mr. Fisher and Hon. Mr. Paterson will be among the speakers.

CONSERVATIVES OF STANSTEAD.

According to reports Mr. George W. Paige, the Conservative candidate in Stanstead county, is not allowing the grass to grow under his feet. Quietly he is becoming acquainted with the voters of the county and steadily carrying on his campaign work.

BROME CONSERVATIVES.

The Conservatives of Brome will hold their convention at Knowlton at 1 p.m. on August 18th. It is expected a straight party candidate will be selected to oppose Mr. Fisher.

MEGANTIC CONSERVATIVES.

On Thursday, the 20th, the Conservative party convention will be held at Inverness. On the same day a political picnic will take place when speakers, both on local and Federal politics will be present.

GENERALLY QUIET.

There is little stir in political circles in the Eastern Townships generally. It is not probable that much activity will be manifested this month nor till after the fall fairs.

The Conservatives are looking for the elections in October, and at latest in November.

The last general election was held in November. The fall months are generally regarded as favorable for campaigning.

There is a good deal of real basis for the belief that the general elections will be brought on during the coming autumn.

HORSE SHOW WILL BE A FEATURE.

A Proposal in Connection With Coming Fair.

PUBLIC WILL BE GIVEN BETTER OPPORTUNITY TO SEE FINE HORSES.

The management of Canada' Great Eastern Exhibition, August 29th to Sept. 5th, intend making the Horse Show this year one of the leading features of the Exhibition. In former years lovers of horses have not had the opportunity of seeing this branch of the fair to advantage, because in the afternoons there has not been sufficient time between the trotting events to enable the people to see the horses on exhibition to the best advantage. To overcome this a special committee with Messrs. S. L. Clough and R. H. Fletcher in charge, has been appointed to prepare a programme in this connection. One of the suggestions advanced and one which should meet with general approval, is to have a part of the horse show produced at night, when the judging would take place in front of the Grand Stand. This addition to the evening attractions would be an interesting feature, and at the same time give lovers of horses who cannot attend in the afternoon an opportunity of taking in the Horse Show.

JUDICIOUS ADVERTISING BRINGS RESULTS.

(From the Washington Herald.)

We do not at all see the force of any objections urged against the wide-awake plan of the American Unitarian Association. In common with most enterprises, it is plain that the association realizes that wide publicity makes for the greatest success, and it knows, too, that no device for publicity excels the columns of the daily and weekly newspapers. We regard the plan not only as a marked tribute to the good sense of the directors of the American Unitarian Association, but also as a wise and sane tribute to the better class of American journalism. The advertising axiom, that if you have a good thing it is necessary to let the public know it, certainly should hold good in religious as well as commercial matters. The religious organization which indulges in judicious advertising is almost certain to be able at the end of the year to show marked growth and astonishing results.

CHURCH STRUCK BY LIGHTNING.

Tower of Fine Building at Newport, Vt., Damaged.

FORTUNATELY THE BUILDING WAS NOT SET ON FIRE.

Newport, Vt., Aug. 12.—(Special)—During the severe thunderstorm Tuesday noon, a heavy bolt of lightning struck the tower of the Congregational Church at a point 100 feet from the ground and tore out a section extending about 25 feet down the side of the tower.

Fortunately, the building was not set on fire.

AMATUER VAUDEVILLE AT NORTH HATLEY.

Annual Benefit Concert a Great Success.

PROCEEDS FOR FISH AND GAME CLUB, TOWN LIBRARY, BAND, ETC.

North Hatley, Aug. 12.—(Special.)—The annual Benefit Amateur Vaudeville had its concluding performance on Monday evening, the proceeds this year being devoted to local institutions, the Fish and Game Protective Association, Town Library and the fund for erecting a new band stand. From a professional and artistic viewpoint the performance surpassed anything that has been offered in recent years and will long remain as a high-water mark in the summer entertainment life of North Hatley.

The whole occasion was marked by smoothness of action and the fact that, tiresome stage waits were totally absent was due to the excellent stage management of Mr. Herbert Jaques, the well known Boston architect.

A liberal sprinkling of the latest Broadway musical hits executed in a spirited way by Turcotte's Orchestra, contributed in no small measure to the dash and go of the ensemble, while the electric lighting installed for the occasion by Mr. L. E. Taylor, rendered possible some charming and dainty effects.

The Parisian novelty dance, "La Likette" by the Messrs. Cochran and Seeley, opened the evening's entertainment. These young men are both prominent in college theatricals in the states and their work was professional in the extreme.

Mr. Archie Jackson followed with three charming vocal numbers rendered in his usually effective style.

A one-act play by Frederick P. Flanagan entitled "Greater Love Than This," proved an acceptable background to the lighter work that followed. In this number the comedy parts as portrayed by H. M. Atkinson and Herbert Jaques, were both exceedingly well drawn.

For beauty of theme and proficiency in execution the number "In the land of dreams," which followed, would be hard to duplicate. The old but charming story of the bachellor's dream was followed out and ably augmented by a waltz theme following each picture. The Misses Cochran, Westcott, Pritchett, Jaques, English, McIlvaine, Robertson, Bogardus, Pott and Mrs. A. N. Lawrence appeared and Mr. Cochran pleased all with his graceful portrayal of the dreamer.

Frederick P. Flanagan in imitations preceded the intermission.

The second part of the programme was inaugurated by a costume number by the "Dixie Dan Girls" in which the Misses Cramp, Cochran, Robertson, Jaques, Ellen McIlvaine and Mrs. A. G. Lawrence danced themselves into immediate favor in true plantation style. In fact the dancing throughout the performance was executed in a manner that showed careful preparation and able coaching on the part of Mr. Cochran.

Miss Elizabeth Randall charmed the audience with two soprano selections and then introduced her "Cuddle Up" girls and boys, the Misses Manning, Westcott, Cramp and Messrs. Seeley, Crisp, Jaques, singing the chorus of one of the songs, while carrying lighted Japanese lanterns. Miss Randall, who did not belie her title on the programme, responded to four well-deserved encores.

Mr. Chilton Powell amused his auditors in the next number with some well chosen stories, and the evening closed with a musical farce composed for the occasion and entitled "It happened in Hatley," the comedy parts of the five village gossips portrayed by Mrs. A. G. Lawrence and the Misses English, Cramp, Cochran and Pritchett, being played with remarkable fidelity, while the duet "Just Pretend" by Miss Pauline Bogardus and Mr. Jackson, and the Diabolo girls led by Miss Ferebe Westcott, are deserving of mention. A catchy new coon song, "Mandy Lane," sung by Mr. William Cole, sent the audience home whistling and singing refrain.

Montreal, Aug. 12.—(Special.)—Action for the recovery of $200,000 has been taken against the Canadian Pacific in the Exchequer Court by the Dominion Customs Department.

The cause of the action is alleged fraudulent entries, undervaluation, etc., which it is said, took place during the period when Hobb, now serving seven year sentence, acted as the company's customs official.

In one instance it is alleged $37,000 worth of bridge material was entered as scrap iron.

SIX BURIED IN RUINS.

Their fellow workmen immediately came to their rescue and in a short time extracted the injured men, all of whom were taken to the General Hospital. The list of injured and extent of their injuries are as follows: R. McMillan, foreman of bricklayers, married man, compound fracture of right leg; H. Dunoon, both legs broken; F. Waddicoe, E. NOW DIGGING GOLD AT ISLAND BROOK.

Assay of Ore Shows Remarkable Richness.

TWO PROSPECTS ARE NOW BEING TESTED—PROMISING OUTLOOK.

Cookshire, August 12th,—(Special)—Reports from the "gold fields" at Island Brook are rather dazzling.

Sometime ago a syndicate began the development of two prospects, one on the property of Isaac Westgate, the other on that of J. W. Kerr.

Assays have been made from the ore taken from the first mentioned property. Ore at two feet from the surface assayed $30. per ton and at 8 feet $70. gold and $10. silver per ton.

This is the very interesting announcement which is made by those in charge of the operations.

Ore from the Kerr property is now with the assayer and a report is expected shortly.

Mr. Landry, an old miner, who has had experience in British Columbia, is employed in connection with the operations. He regards the prospect as a splendid one.

MINING LAW IN THE PROVINCE OF QUEBEC; EXPLORATION AND PROSPECTING LICENSES.

In the two previous articles on the mining law of the Province we have referred to the possibility of two or three different people having ownership rights in lands obtained from the Crown. In this article we will deal with another kind of right which it is possible for a man to have in these lands, other than ownership. We refer to exploration and prospecting licenses. No person or company may, without a license, prospect and search for mines or ores upon even public lands which are not already occupied as mining concessions or otherwise, but it is possible for such person or company to obtain from the commissioner a prospecting license. The application for an exploration or prospecting license must contain as exact a description as possible of the land required, and be accompanied by a fee of $2.00 for every hundred acres if the mine is upon private lands, or $5.00 for every hundred acres if the mine is upon Crown lands which have been surveyed, and $5.00 for each square mile if unsurveyed. It appears a little strange that a man or company should be allowed for $2.00 an acre to explore private land for minerals while the Government charges $5.00 for the same right on their own land. It would almost appear as if the right to explore private lands ought to cost more than that belonging to the Government and not taken up by individuals. By a recent amendment to the mining law no prospecting license is granted to the same person covering more than twenty-five square miles in unsurveyed territory, or more than thirty lots of 100 acres each within a radius of 100 miles.

The holder of an exploration and prospecting license is answerable for all losses and damages that he may cause to the proprietor of the soil in making such searches and exploration, and is obliged to furnish security to the commissioner for that purpose. He is also obliged to make a report to the commissioner or to the inspector, of the result of his operations. After having explored the property under his license the holder has a right to purchase the mine if he finds any, by paying the price charged by the Crown for mining lands and conforming to the requirements of the mining law.

In addition to the exploration and prospecting licenses above referred to the Government grants two descriptions of licenses for mining, viz.: a private lands license where the mining rights belong to the Crown, and a public lands license, where the lands themselves belong to the Crown.

Every person is prohibited under pain of certain fines and penalties mentioned in the license law, from mining in any mine either upon public or private lands when the mining rights belong to the Crown without having obtained one of these mining licenses. No one is allowed either to commence mining operations without having given notice in writing to the inspector of his intention so to do.

The mining license costs $5.00 and an annual rental of $1.00 per acre. This license is valid for one year and is transferable only with the consent of the commissioner. The licensee may before the expiry of this license and not later than ten days thereafter, renew the same upon payment of a like sum of $5.00. The Government, however, has a right to require the payment of royalty in lieu of fees for mining license and rental as above mentioned.

Where a person holds a mining license on private lands and the person who owns the soil refuses to allow him to mine thereon the licensee who wishes to mine on the land of such private person must first cause to be served upon him a notice in writing stating that he intends to mine on the land of such private person and that he is ready to pay the damages arising from such mining operation which shall be assessed by mutual agreement. The notice must give a delay of one month to the private person to answer and make such agreement if in the Province, and if absent from the Province a double delay, and in the latter case the notice must be inserted in French and English three times in the newspaper of the district. Whenever the private person refuses to come to a mutual understanding for mining on his land, the petitioner may cause a plan of the land absolutely necessary for his mining operations to be made by a sworn land surveyor who causes to be served upon the private person a description of the land to be taken for mining purposes, a copy of the land surveyor's plan, a declaration that he is ready to pay a certain sum as compensation, and the name of the person whom he appoints as his arbitrator if his offer is not accepted; also, a demand upon the private person to appoint and declare the name of his arbitrator. If during ten days the party does not inform the licensee that he accepts his offers, or does not give the name of the arbitrator appointed by him, then the inspector of the mining division may appoint a competent person to be sole arbitrator and to determine the compensation which the private person has a right to receive. If the private person names an arbitrator the two arbitrators jointly name a third, and if they cannot agree the appointment is made by the mining inspector.

The arbitrator or arbitrators, after having taken oath to faithfully and impartially fulfill the duties of their office, proceed to establish the compensation to be paid.

The costs of the arbitration are paid by the licensee, except those of the arbitrator of the opposite party, which are paid by him if the award does not allow him a higher compensation than that offered for the arbitration.

Every person holding a mining license, upon renewing the same is bound to make to the inspector of the mining division in addition to the usual statement above referred to, a full statement under oath, of the work performed and the minerals obtained by him during the term of such license.

The Government has a right under the mining law to appoint inspectors, which must be mining engineers, and also, a police force necessary for the carrying out of the mining law.

A number of specific penalties are laid down for different infractions of the law, and any person contravening the law, where no other penalty or punishment is imposed is liable for every day on which such contravention occurs or is repeated, to a fine not exceeding $20 and costs, or imprisonment not exceeding one month.

The inspector has, for the purpose of enforcing the act, the right to summons before him persons supposed to be guilty; also, witnesses; and determine the complaints in a summary manner upon evidence given under oath by one or more witnesses.

Conditions at Fernie.

Stricken Fernie is still sending forth appeals for aid and evidently responses are neither so numerous nor so generous as they were at first. This is quite natural, but no Canadian city, in a position to lend a helping hand, should hesitate about going to the aid of the sister city, which has been so sorely afflicted. According to authoritative reports the supplies and money so far contributed have been judiciously and wisely distributed among the fire sufferers, and although the relief has been great considerable more outside assistance will be required before the people are in a position to help themselves. So far, our City Fathers have said nothing, at least officially, about this city giving anything. The corporation is not wealthy but we could afford to give something and any sum within our power would prove acceptable without a doubt. The stricken people are our own countrymen, as much as if they lived within a hundred miles of us, and we shouldn't lag behind American cities in going to their assistance. The citizens of Fernie are showing a commendable spirit in adversity in their determination to restore their ruined city and make it better than ever.

Lloyds.

London Lloyds, which originated as far back as 1688, has been looked upon for close upon a century and a half as an insurance underwriting society, whose resources and credit were beyond suspicion. Lloyds is credited with having introduced marine insurance and this particular branch is still supposed to represent the bulk of Lloyds' business. The society is composed of some eighteen separate groups of brokers, who act together in underwriting risks, that is to say, each separate policy is subscribed to by the members of such of the different groups as desire to underwrite a portion, each separate group indicating the amount of its own particular share. Great was the astonishment, last week, excepting in insurance circles so we were told, when it was announced that Lloyds was financially embarrassed. How seriously, has not been announced yet, and it is evidently not known whether seriously enough to break up the ancient society or not. Facts, which would enable one to estimate the financial strength of Lloyds, have always been religiously guarded and purposely,, or so it would seem, shrouded in deep mystery, but of recent years it has been no secret that Lloyds was making a business of freak underwriting, which savored more of gambling than it did of legitimate insurance. Insurance men, and to an extent only slightly less, the general public will await later developments with live interest.

Are you making it pay—this occupation of keeping boarders? Perhaps a better way to put the question would be: "Are you advertising the fact that you keep boarders.

CREAM OF THE WEST FLOUR

You are always safe in buying "Cream of the West" flour. Never varying in quality, the contents of one bag are exactly like the contents of every other bag—always up to the standard.

"Cream of the West" flour is made from only the hardest of hard Manitoba wheat, by the full Hungarian process. It fairly exhales the essence of prairie strength and purity.

"Cream of the West" is a home flour—nourishing, toothsome, and the standard for the housewife who prides herself on her baking. That's the reason why grocers recommend it.

AT THE KNOWLTON CONFERENCE.

Meetings Continue to Interest Many in Attendance.

MRS. BYRNER CONTINUES LECTURE ON TRAINING OF THE CHILD.

Knowlton, Aug. 12.—(Special.)—The meetings of the Knowlton Conference continue to hold the interest of the large number of people in attendance.

Dr. Barns yesterday lectured on prayer. "Fatherhood must give, and so must sonship," said the speaker. The son cannot give things, they are really the father's. The only thing he can give is himself. The chief business of prayer is not to get but to give. The boatman does not pull the shore to himself, but himself to the shore. The Lord's prayer has little of petition for oneself.

CHILD TRAINING.

Mrs. Byrner continued her lectures on child training and S. S. methods on Tuesday morning. The young child is limited in knowledge and experience, in powers of attention and in vocabulary as food for an infant must be appropriate, so the thought and words given to a child must be those only taken by the adult. The child is strong in affection, sympathy and curiosity. All these may be made use of in the Sunday school. Its imagination is strong and its powers of initiative.

At this tender age teach relationship, their relationship to God and God's relationship to them. "God is love." He is the "Lord" of all. And the world is one family.

The room, with its pictures, seats and maps should be an important feature, all suited to the little ones. The lesson should be short and the service varied with one thousand muscles to make the child go and none to make him stop, expect his activities and use them. We must have graded lessons. No teacher can make some of the lessons interesting to children, which are only right for adults. We have beginners' lessons, including the story of God making all things, and then the important Bible stories that are always fascinating to the children. The lecturer exhibited very pretty little pictures of various kinds as aids to the teacher in presenting various lessons. The lecturer made a good point in insisting that the little tots should have lessons selected for them that will be appropriate for their minds as incident, biography, stories of the Bible, etc.

Dr. Barns took as his subject "Jesus dealing with Peter at the shore in the letting down of the net." Peter had toiled all night and was not in a good mood for a sermon, but Peter knew enough about Jesus to obey. He might have judged Jesus not an expert in fishing, but he was willing to obey. He grew in appreciation of Jesus and calls Him "Lord." As he grew in the knowledge of the Lord he appreciated his own condition. "I am a sinful man." The general course of the stream of a man's life may be varied by little eddies, but the way will be clearer and straighter in the line of progress.

KING EDWARD MEETS KAISER

They Embraced Each Other in Most Cordial Manner.

REPORT THAT THEY DISCUSSED QUESTION OF NAVAL PROGRAMME.

Cronberg, August 12.—King Edward arrived here at 9 o'clock yesterday morning and was met at the station by Emperor William and his suite. King and Emperor kissed each other on both cheeks and embraced in the most cordial manner. After the monarchs had been introduced to each other's suites, the King and Emperor entered an open automobile and were driven to the Friedrichshof Castle, where they had a long talk before lunch.

Sir Charles Hardinge, representing the British Foreign Office; Baron Von Jenisch, of the German Foreign Office, and Sir Frederick Lacelles, the British ambassador to Germany, also had a long conversation together. The King and the Emperor continued their private talk after lunch. It is affirmed, however, by both British and German officials, that no actual proposals of any sort are under consideration. The value of the meeting in the political sense is in the frank talking over the European situation by King Edward and Emperor William and representatives of British and German foreign offices.

King Edward left for Ischl, Austria, at 11 o'clock yesterday evening.

Berlin, Aug. 12.—The Tageblatt yesterday says it shares the view of some London newspapers that King Edward and Emperor William have discussed the question of naval programmes at Cronberg.

BATHING AN INDIAN GOD.

(From the Calcutta Statesman.)

Thousands of pilgrims from the various outlying villages and other parts of the Hooghly district poured in from an early hour in the morning to the temples of Jagernath. The image of the god is placed on a conspicuous part of the temple, so that it can be viewed at an advantage by the immense crowd of pilgrims, and there at a certain fixed hour the bathing ceremony commences. The most curious part of the festival is that water is not poured on the image of the god until a certain small bird is found sitting on the topmost banner of the temple. There is a popular belief that the bird comes from Puri, the famous place of Hindu pilgrims, to Mahesh, on the day of this festival, and his very presence is an indication that the ceremony should commence. Immediately after the bath is over the bird disappears.

adjourned general session of the municipal Council of the Township of Sutton held in the Town Hall on Monday there were present the Mayor, Mr. R. A. Wilson, and Councillors J. C. Draper, H. G. Bates, J. S. Upston, E. L. Harvey and S. Courser.

The petition of William H. Courser and others of Glen Sutton, asking for the abrogation of the public road in Glen Sutton, known as Road Division No. 78, running from the main road near the residence of Eugene Larocque northerly to the end of said division was accepted, the road work allowed on this road to be transferred to road division No. 61 for future road purposes.

The valuation roll as made and deposited for the town on July 18th was approved. Said roll showed a total valuation of $924,140 of taxable property, and $19,380 of non-taxable property, with a population of 2,025. This report was accepted in its entirety without any amendment. By-law No. 114 was passed levying a rate of two mills on the dollar to be rated equally on all ratable property in this municipality for general purposes for the current year and made up on the new valuation roll. This assessment to be payable to the Secretary-Treasurer of this corporation at his office on and after the first day of September. This tax is to be used for building and maintaining public roads and bridges, the paying of the county apportionment, the Secretary-Treasurer's salary and all other general expenses of the current year. The amount of one-half a mill from said assessment so levied shall be set aside and applied to any necessary repairs of the roads for the current year. It was also decided that in future all ratepayers in the municipality shall be obliged to cut all grass and noxious weeds along the roadside opposite their respective lands, and shall be allowed to take away any and all hay growing along said road, and no other party shall have the right to cut or remove the same unless by consent of the owner of said property. The Council then adjourned.

MARRIAGES.

GAGNON—LACHANCE.

A very quiet, but interesting wedding took place at St. Patrick's Church on Monday morning, when Miss Ethel Lachance, only daughter of Mr. and Mrs. Matthew Lachance, was married to Mr. Pierre Gagnon, of East Sherbrooke.

The ceremony was performed by the Rev. E. C. Fisette, parish priest, in the Presbytery, as the church is undergoing repairs, the bride being accompanied by her cousin, Mr. Peter Hommel, and the groom by his father, Mr. George Gagnon.

The bride wore a pretty pale blue gown with blue hat and ostrich aigrette. Only the near relatives were present.

After the ceremony a wedding breakfast was served at the home of Mr. and Mrs. Gagnon, the parents of the groom, and the young couple left for their wedding trip to Montreal, and other points. The bride's traveling dress was of brown cloth, with becoming hat.

On their return, Mr. and Mrs. Gagnon will take up their abode with Mrs. P. Hommel, on Grove street.

BOUCHARD—OUELLET.

On July 28th, the marriage took place at the parish church of St. Luce, D'Israeli, of Mr. Jos. Ouellet, of Hudon and Ouellet, of Black Lake, to Mrs. P. Bouchard, of Garthby. The ceremony was performed by the cure of Garthby, Rev. Abbe Carrier. Mr. J. Bourque, N.P., accompanied the groom, and the bride was given away by Mr. A. E. Hudon.

After the service an elaborate wedding breakfast was served at the Rousseau Hotel, at which were present a large number of the prominent residents of Black Lake, Garthby, D'Israeli and Thetford Mines.

The magnificent bouquet of roses, carried by the bride, was presented by Mr. J. S. Mitchell, of Sherbrooke.

The bride was the recipient of many beautiful presents.

Mr. and Mrs. Oullet are spending their honeymoon at one of the summer resorts below Quebec.

How to Cure a Headache

To attempt to cure a headache by taking a "headache powder," is like trying to stop a leak in the roof by putting a pan under the dripping water. Chronic headaches are caused by poisoned blood. The blood is poisoned by tissue waste, undigested food and other impurities remaining too long in the system. These poisons are not promptly eliminated because of sick liver, bowels, skin or kidneys.

If the bowels do not move regularly—if there is pain in the back showing kidney trouble—if the skin is sallow or disfigured with pimples—it shows clearly what is causing the headaches.

"Fruit-a-tives" cure headaches because they cure the cause of headaches. "Fruit-a-tives" act directly on the three great eliminating organs—bowels, kidneys and skin. "Fruit-a-tives" keep the system free of poison.

"Fruit-a-tives" come in two sizes—25c and 50c. If your dealer does not have them write to Fruit-a-tives Limited, Ottawa.

steamfitters, machinists, blacksmiths, moulders, painters and carpenters.

"The company has made a new departure in placing a special constable outside the gates. With baton in hand he challenges all who attempt to gain an entrance to the works, and unless they have the special permit they are informed that they cannot pass.

"Behind the wooden partition separating the works from the public road half a dozen special constables are stationed, and they are well armed. However, so far, nothing approaching rowdyism has been heard of among the strikers.

"About twenty pickets were out yesterday and they report that up to the present no union men have gone back, although two machinists, it is understood, returned to work after being threatened with dismissal.

"The company has cancelled all passes issued to the men over the railway, lines for the time being, so many men who thought they would take a holiday during the strike, will have to pay their own transportation fares in full."

BY FAIR MEANS OR FOUL

AMERICANS' OPINION OF THE WAY BRITISH SPORT IS CONDUCTED.

New York, Aug. 10.—Returning athletes from the Olympic games who came in Tuesday afternoon in the steamers "Mauretania" and "Cedric" announced the intention of the Amateur Athletic Union to hold a meeting within a few days publicly to proclaim J. C. Carpenter, of Cornell University, winner of the 400 metre race, of which English officials robbed him.

It is proposed to place on record in all books and publications over which the Amateur Athletic Union has jurisdiction the name of Carpenter as winner of the event, and to present him with a medal or cup in recognition of his services. This is the race which the English authorities declared was won by Lieut. Halswell after an alleged foul by Carpenter.

The decision of the American athletes is unique in the history of modern sport.

Hugh H. Baxter and R. L. Coursen, both of the New York Athletic Club, who went abroad to witness the Olympic games, were passengers on the "Mauretania." Both saw the finish of the Marathon race, and they said that when the first Englishman in that event finished in twelfth position somebody in the American circle arose and yelled in a voice loud enough to be heard a block away:

"Welcome to our city."

Of the treatment of the American athletes, Mr. Baxter said:

"It was the rottenest deal that I ever saw. I saw them pick up Dorando three times before they finally got him to the line, when they helped and shoved him across. It has been suggested that perhaps they would not have helped Dorando if an Englishman had been second, but that is conjecture.

"In the 400 metre race I had my glasses in the turn, and I could not see any foul. And although I asked more than 100 spectators around me if they saw any foul, all but two agreed that there was no foul. Foul or not, the officials had no right to break the tape as they did. The signal to break the tape was given when Halswell was just turning into the straight 100 yards away. It looked to me as if they had it all fixed up.

"I will say for Halswell that he is a manly fellow; that he acted in a superb manner; made no protest, and might not have accepted the race had he not been forced to do so by the officials."

Mr. Coursen said:

"The Englishmen were always looking for some excuse to do us up. They never lost a chance. If they did not have a pretext, they made one. They go on the theory that if they can't win by fair means they must win by foul means. It was foul means from the word go. I have no comments to make as to the alleged foul. All my criticism is based on the subsequent conduct of the officials. I could not believe that men speaking our language could treat us so if I did not see it myself.

"I understand that the Amateur Athletic Union is to proclaim Carpenter winner of the race anyhow, and so register it on the official records. That is the only way to get around it."

CASES BEFORE JUDGE MULVENA.

OFFENDERS IN THEFT AND ASSAULT CASES ARE FINED.

Emile Lamontagne a juvenile, aged 15 years, from Stoke, was sentenced by Judge Mulvena to pay a fine of five dollars and costs, to refund the money stolen and to give bonds for his good behavior for one year, or in default, sixty days in the common jail. The charge against him was having stolen three dollars from the till in the store of Thomas Taschereau, East Sherbrooke.

Eugene Richer was found guilty of committing an assault upon Pierre Morency in the Township of St. George de Windsor, and threatening him with bodily harm. He was sentenced to pay a fine of two dollars and costs and to give security to keep the peace for 12 months or thirty days in jail. The difficulty grew out of some work being done by Morency on the highway near the residence of Richer. The evidence was very lengthy and occupied all the forenoon. Ambroise Nadeau, of Stoke, was convicted of assaulting by throwing stones at one Jules Paradis, a neighboring farmer. The difficulty arose over some cattle of the complainant's which had been trespassing on defendant's land, and had been turned out by him on the highway. The defendant had also indulged in threats of bodily harm. After hearing the evidence on both sides the court condemned the defendant to pay a fine of two dollars and the costs, and to give his personal bond to keep the peace for twelve months and in default of so doing 20 days in jail.

EASTERN LEAGUE RESULTS.

Baltimore 2, Montreal 1.
Providence 4, Toronto 2.

WHERE THEY PLAY TODAY.

Montreal at Baltimore.
Buffalo at Jersey City.

LACROSSE.

Both the Canadian Rand and East Sherbrooke teams will hold their third turnout this evening preparatory to their match to be played next Saturday. This match promises to be the most interesting to be seen in Sherbrooke this season, as both teams are evenly matched, and are determined to add one more victory to their list.

PEDESTRIANISM.

SUTTON WILL BE REPRESENTED IN THE EASTERN TOWNSHIPS RUNNING RACES.

Sutton, Aug. 12.—(Special.)—Sutton will be represented in the October running races at Sherbrooke for the championship of the Eastern Townships by at least one representative, if not by more. Mr. Malcolm Clark has been in training for some time and will enter the race, while Mr. K. R. Turner, who has also done some work in training, is a little in doubt as to his entering the race. The runners seem to be pleased that the races have been postponed till October, as it has been so intensely hot that it has required lots of grit to practice for the races.

FOR MONTREAL CUP.

SHERWELL WON TENNIS FINAL YESTERDAY AND WILL NOW MEET HOLDER, SUCKLING

Montreal, Aug. 12.—After wrestling the All-Canadian championship from the former holder, Captain Foulkes, of Ottawa on Monday afternoon, Sherwell, of Montreal yesterday continued his course of victory at the Mount Royal courts by winning the semi-final and final for the Montreal Cup, beating Dunlop in the former, and Holland in the latter. This brings Sherwell against Suckling, of Montreal, the present holder of the cup, in the challenge round, the match to come off to-morrow. Today Sherwell and Suckling will meet to decide the open Canadian championship.

THE DAILY SMILE

THE ORIGIN OF A POPULAR EXPRESSION.

"I suppose, Eve," observed Adam, as they passed out through the gate, "we really should have been more economical in the matter of fresh fruit."

"What do you mean, Ad?" she asked.

"Don't you see what we've done," was the reply. "We've eaten ourselves out of house and home."

NON-REVERSIBLE.

Land. "Didn't you tell me that you made yourself solid with Mrs. Vane by asking her if she was herdelf or her daughter—couldn't tell 'em apart, and so on ?"

Strang. "I did. What about it ?"

Lang. "Why I tried the same gag with the daughter, and it didn't go for a cent."
