

GERMAN ATTACKS ON POSITIONS TAKEN BY FRENCH TROOPS WERE REPULSED WITH HEAVY LOSSES

Violent Artillery Fighting Between Mont Blond and Mont Carnillet. Patrol Encounters in Parroy Forest Resulted in Capture of Prisoners. British Raid Enemy Positions and Destroy Dugouts in the Bapaume Region.

(Canadian Press Despatch)

PARIS, June 19.—The Germans made an attack last night on the positions in the Champagne, between Mont Blond and Mont Carnillet, which were taken by the French yesterday. Today's official statement says the Germans were repulsed with heavy losses. Violent artillery fighting occurred in the Champagne.

ENEMY DUGOUTS DESTROYED.

(Canadian Press Despatch)

LONDON, June 19.—"Parts of our troops raided the enemy's position last night southeast of Le Verquier and in the neighborhood of the Bapaume-Cambrai Road," says today's official statement.

"Several of the enemy were killed, and his dugouts were destroyed. We captured eleven prisoners."

STRUMA VALLEY VERY UNHEALTHY FOR ALLIED TROOPS

(Canadian Press Despatch.)

LONDON, June 19.—Referring to the evacuation of the Struma Valley region, as reported in the Bulgarian official communication, the Times says the entire abandoned country is low without trees or shelter and intensely hot. It is damp and unhealthy and in summer time is malarious. Even when captured by the British last autumn, the Times adds, the region was found to be unsanitary.

FRENCH OFFICIAL STATEMENT

(Canadian Press Despatch.)

PARIS, June 19.—French official statement follows:
"In the Champagne there was violent artillery fighting between Mont Blond and Mont Carnillet. A strong German counter-attack on the positions we captured yesterday in this region broke up under our fire. The enemy suffered serious losses and left a number of prisoners in our hands. German attacks on small posts north of St. Quentin and near the Calonne trench were repulsed. Patrol encounters occurred in Parroy Forest. We took prisoners, of whom one is an officer."

BIG EVENTS ARE IN MAKING ON MACEDONIAN FRONT

LONDON, June 19.—The massing of Entente troops in Thessaly, south

of the centre of the line now held by General Sarraïl's forces, taken in connection with the withdrawal of British forces on the extreme eastern wing along the lower reaches of the Struma river, seemingly is an indication that big events are in the making in the Macedonian theatre in an attempt to retake Serbia, or at least that portion of it as far as Nish, through which runs the famous Berlin-Constantinople railway.

Along the Vardar and Morava river valleys northward through Serbia undoubtedly would prove easier ground over which to operate than northward along the Struma and through Western Bulgaria to the junction of the railway at Sofia. No impediment is being placed in the way of the troops that have been landed in Thessaly, and with the capture of former King Constantine from the country the people are declared to have become more friendly to the Allied cause by placing their adherence in the provisional government of Hristophor Vamvelos.

Although on the eastern wing the British have given up numerous villages which they previously burned they are holding tightly to the bridge head position on the left bank of the river Struma in the Lake Tabanos-Bukovo sector, northeast of Saloniki. That the retirement of the British was voluntary is indicated by the Bulgarian official report dealing with the manoeuvre, which does not mention any fighting as having taken place. There has, however, already been some activity on the part of the British in the Vardar-Lake Doiran sector, but Sofia reports that the attempt made by them to advance near Dautli was repulsed.

POLES BREAK WITH AUSTRIA

Polish Leaders Give Notice That They Will Negotiate Only With New Cabinet.

(Canadian Press Despatch.)

LONDON, June 19.—The Poles have completely broken off relations with the Austrian government, says a despatch to Reuters' Limit, from Zurich, Switzerland, quoting Vienna advice. This action the correspondent adds, has caused a serious cabinet crisis. After a long debate Saturday, the Polish Club sent a full notice of the Government's budget and saying it would not negotiate with a new cabinet.

ALLIES AROUSED AT GREEK KING'S PROCLAMATION

Allied Press Demand That New King Follow in Footsteps of Father to Switzerland.

PARIS, June 19.—King Alexander's proclamation issued at Athens on June 12 is published in the newspapers here. King Alexander refers to the supreme sacrifice of his august father and to his grief at being separated from him in circumstances so critical. His single consolation, he says, will be to carry out his father's sacred mandate, which he will endeavor to realize with all his power, following the lines of his brilliant reign with the help of the people upon whose love the Greek dynasty is supported. By obeying the wishes of his father, the people, King Alexander concludes, will help to rescue Greece from her present terrible situation.

This proclamation has been commented on somewhat scathingly by the French press. M. Gustave Hervé says that if the new king follows as he says in the footsteps of his father, they will lead him to Switzerland.

WOULD EJECT KING WITHOUT CEREMONY.

LONDON, June 19.—The publication of the proclamation of the new King Alexander of Greece comes as a shock to England, France and Italy. The new and youthful monarch pledges himself to carry out the brilliant policy to his revered father, the notoriously pro-German Constantine, and uses the language of an absolute monarch.

The press of the Allied nations demands to know if it has been hoodwinked, and if another German diplomatic trick has succeeded in the Balkans. There is a universal demand that if King Alexander attempts to follow any such course as did Constantine, he be instantly ejected without ceremony; that the Allies take direct control of the country, establish Venizelos in power and keep him there by force if necessary.

PARIS, June 19.—The Geneva correspondent of the Journal Des Debats telegraphs that former King Constantine of Greece, may not sleep at Lugano, as it had been reported he would do, but go direct to Baden-Baden, the famous health resort, in Germany.

HOT WAVE PASSES OVER GERMANY

Reports State All Grain Crops Are Burning Up as They Did in 1915.

(Canadian Press Despatch.)

COPENHAGEN, June 19, via London.—Throughout Germany, according to reports here, all valuable grain crops are burning up as they did in 1915, in an unprecedented heat wave.

A prolonged drought has not been broken since early in May. Berlin on Sunday experienced the hottest June 17 on record in the seventy years' experience of the weather bureau. Tropical temperatures were also reported everywhere west of the Oder River. The weather bureau states that the prospects for rain or lower temperatures are very light. The effect of the drought on grain crops around Berlin, where only eight millimeters rain have fallen since May, is described by a neutral who arrived here on Friday, as almost catastrophic.

SITUATION STILL GRAVE IN SPAIN

Premier Admits That Serious Problems Still Face the Government.

(Canadian Press Despatch.)

MADRID, June 19.—Via Paris, Premier Eduardo Dato, addressing a number of press representatives, said that calm prevailed in Spain, but that he considered that very grave problems faced Government. He did not believe however he said that these problems, were beyond solution. The dissolution of the Cortes was possible, he said, but not probable, and urgent questions might arise which it would be necessary for Parliament to discuss.

ANARCHISTS SEIZE PETROGRAD NEWSPAPER

(Canadian Press Despatch.)

LONDON, June 19.—A despatch to Reuters' Limited from Petrograd says the anarchists have seized the editorial rooms and printing offices of the Republican newspaper Russkii Volok.

TRANSMISSION LINE TO WEEDON

Byelaw Passed By Council. Ratepayers to Vote July 4th. Other Business.

Mayor Sylvestre presided at the bi-monthly council meeting last night. There was a full attendance of aldermen. The secretary-treasurer was instructed to proceed against all persons who have not yet paid their special taxes and for permits and licenses.

PURCHASING AGENT.
On the recommendation of the finance committee, the council appointed Mr. H. C. King, accountant, as city purchasing agent. All orders for supplies must be obtained from him.

ROAD IMPROVEMENTS.

Ald. Forest presented a report on the annual inspection of the city streets by the road committee. Amongst other things the committee recommended improvements on Rand Drill street and Drummond road, the construction of a retaining wall on Alexander street, the macadamizing of Laurier avenue between Galt and Aberdeen, the macadamizing of Wellington street between Aberdeen avenue and the trestle, repairs to St. Michael street, Portland avenue, Ontario street, Quebec street and Beckett road, and the purchase of a stone crusher.

On a request of Ald. Brault, Ald. Forest included the graveling of King street east to Council street, and the report was adopted.

On the recommendation of the parks and real estate committee Mr. L. Beaulieu was granted permission to build a small pavilion on the city's vacant lot on Wellington street for the sale of fruit, peanuts and refreshments, at a rental of \$5 per month.

NO SUNDAY BASEBALL ON PARADE GROUND.

In view of a petition to the council signed by most of the residents and proprietors in the vicinity of the Parade Ground, the council, on the recommendation of the parks and real estate committee, refused the application of the junior baseball league to use the grounds on Sundays.

NO LICENSE FOR GRAND UNION.

The council refused the application (Continued on page 8.)

HIGH WATER IN BEAUCE COUNTY

Train and Highway Traffic Suspended Along Chaudiere and Gilbert Rivers.

(Canadian Press Despatch.)

QUEBEC, June 19.—Train traffic, even highway circulation, is suspended through certain sections of Beauce County, along the Chaudiere and Gilbert Rivers, since yesterday noon, through the excessively high level of the waters. Beauce is used to spring floods, but never has there been a submerging of that region in summer. The heavy rains of recent date caused all the rivers to overflow and in certain parishes people go about in flat boats and canoes. A number of houses have been vacated.

HIGH WATER AFFECTS C. P. R. TRAFFIC

The Halifax express, due here at 10.30 p.m., did not proceed further than Sherbrooke last night on account of bridges having been washed away by the storm on the other side of Southeyton. The passengers for points east of Sherbrooke were transferred to the Intercolonial Railway at Montreal, and the C. P. R. train ran as a local to Sherbrooke.

Relief trains from Farnham for the scene of the disasters passed through Sherbrooke at nine o'clock last night and shortly before six this morning. Traffic is suspended in the area affected by the high water.

GERMANS HANG 30,000 POLES

Great Up roar in Austrian Chamber When Charge Was Made By Polish Deputy.

(Canadian Press Despatch.)

ZURICH, June 18, via Paris.—The Polish deputy Dazinski declared in the Vienna Reichsrath that more than 30,000 Poles have been hanged by order of the German authorities, according to the Vienna Arbeiter Zeitung, which prints special details of the sittings of the Reichsrath on the 14th and 15th. Deputy Striherny also described the abominable treatment accorded political suspects, whereupon the Pan-Germanist Deputy Peine shouted, "They haven't used the rope enough; all of them ought to have been hanged."

At these words all of the Slav and Polish members rushed upon Peine, and the sitting was obliged to suspend the sitting in the midst of a tremendous uproar.

CITY COUNCIL VOTES UPON CONSCRIPTION

Passes Resolution Against Adoption of Measure Before Referendum is Taken.

At the City Council meeting last night Ald. Forest moved "That the Council protests against the adoption of any conscription law in Canada for overseas service before the electorate have had an opportunity of voting upon a plebiscite and that the Mayor in the name of the citizens of Sherbrooke send to Ottawa a petition protesting against the adoption of such a law and praying the House of Commons not to vote upon same before the people have voted upon the question."

Ald. Gavrin seconded.

ROSE TO POINT OF ORDER

Ald. Parkes rose to a point of order. He claimed that the motion had to do with a strictly partisan political matter. Had it been brought up a month ago it would not then have been in the arena of party politics, but having been introduced in the House of Commons by one of the political parties and largely opposed by the other, it could not come before the Council. He asked the mover and seconder to withdraw it because the Council had its own troubles, without introducing party politics.

ALD. FOREST WOULD NOT WITHDRAW.

Ald. Forest refused to withdraw the motion.

Ald. Parkes.—In that case . . .

NOT THE COUNCIL'S BUSINESS.

Ald. Skinner supported Ald. Parkes' objection. The Council had been elected to manage the affairs of the city and not those of the country at large and it seemed to him that questions of religion, politics and nationality should be discussed elsewhere. Ald. Forest or anyone else was within his rights in promoting such a resolution in a "public" meeting as everyone in Canada had the privilege of expressing his opinion freely, "because this is still a free country, thanks to those who have done their duty in this war," but he was sorry the question had been introduced in the Council. It would not accomplish any good except to bring forward those who brought it forward and it would not receive any consideration at Ottawa.

ALD. EDWARDS OPPOSED

Ald. Edwards said that at the last meeting a number of aldermen agreed at conscription was absent because they understood that Ald. Parkes intended to offer a resolution favoring conscription. Patriotic as the speaker was, he should have opposed it on the ground that the Council chamber was not the place to bring up a controversial subject of that kind. He was of the same opinion still. He appealed to Ald. Forest to reconsider the wisdom of offering his resolution as he could not see that a body of city after holding a public meeting of 300 people, Ald. Edwards would not allow Ald. Gavrin or Forest to speak for him, but if they cared to recommend their friends to memorialize the government in the name of (Continued on page 8.)

SEIN FEINERS CAUSE TROUBLE

Demonstrators Tore Down Recruiting Posters and Tried to Start Fire.

(Canadian Press Despatch.)

DUBLIN, June 19.—Several demonstrations were held last night in connection with the return to Dublin of the released Sinn Feiners. Two men climbed the walls of the ruined post office building, on which they tied the Sinn Fein flag. The crowd sang the Sinn Fein song, and amid great cheering, tore down recruiting posters. The police did not interfere until about two o'clock this morning when two demonstrators were arrested and charged with breaking into the post office and setting fire to timbers. The police later dispersed several marching bands.

WOULD OPPOSE IRISH MISSION TO U. S.

(Canadian Press Despatch.)

DUBLIN, June 19.—The provisional executive of the Sinn Fein has decided to demand passports for three of its members to proceed to the United States for the purpose of opposing the objects of the Irish party mission there.

No previous word has been received that an Irish mission was to come to the United States.

TORONTO JEWISH WOMEN LIFT "BREAD STRIKE"

(Canadian Press Despatch.)

TORONTO, Ont., June 18.—After a three weeks' boycott, the Jewish women of Toronto lifted the "Bread Strike" by settling with the bakers on the basis of 10 cents per loaf, and a promise to reduce it to 9 cents when flour drops.

LEADER OF LIBERAL PARTY MOVES FOR A REFERENDUM BEFORE CONSCRIPTION PASSES

Compulsory Measure Introduced in House of Commons and Debate Has Begun. Premier Spoke Briefly and Gave Figures of Men Available For Service. Sir Wilfrid Laurier Regretted That More Men Had Not Gone From Province of Quebec.

OTTAWA, June 19.—Sir Wilfrid Laurier unmasked the battery which he has been laying against the Government's Military Service Bill for the past week when the second reading was moved by the Prime Minister in the House of Commons yesterday. The motion of Sir Robert Borden, which was coupled with an appeal for prompt action to send aid to the Canadians now at the front, the leader of the Opposition answered by putting forward an amendment demanding "that further consideration of this bill be deferred until the principle thereof has been by means of a referendum submitted to and approved by the electors of Canada."

Sir Wilfrid's amendment, backed by an argument in the main directed to show that compulsory service should not now be adopted in Canada, was seconded by Hon. Frank Oliver, who, unlike his leader, announced himself as "a strong supporter of conscription."

SPOKE FOR AN HOUR.

Sir Wilfrid's amendment was presented at the close of a speech which occupied slightly more than an hour in delivery. The address was in the main an argument that the Government had been until May 18 last, the date upon which Sir Robert Borden announced his intentions to introduce a compulsory service bill, pledged not to resort to such a method of producing reinforcements for the army at the front. The extension of the Parliamentary term in 1916 would, he asserted, not have taken place with the assent of the Opposition had it been known that conscription would within a year be the policy of the Government. Sir Wilfrid maintained that a moribund rump of Parliament had no right to adopt a measure of compulsory service. He admitted the failure of French-Canadians to respond to the call to arms as had their English-speaking compatriots, but laid the blame for that condition of affairs at the door of the Government, saying that it had neglected to make an appeal to French-Canadian sentiments through the instrumentality of a French-Canadian.

SIR GEORGE POSTER'S REPLY.

Sir George Poster, in his stirring reply, made it clear that the Government had made up its mind to assume full responsibility for its policy, and that come what may it will proceed to pass the military service bill without a referendum. The Minister of Trade and Commerce characterized the Liberal leader's amendment as a "miserably dilatory motion" made with no other object than to permit Sir Wilfrid Laurier to delay the bill without taking a definite position either for or against conscription.

Sir George did not allow the Liberal leader to thrust the blame for backward recruiting in Quebec upon the shoulders of the Government. He frankly voiced his opinion that if Sir Wilfrid Laurier and his French-Canadian colleagues had shown more in-

terest in educating the people of Quebec as to the paramount issue of the war, the situation there would have been different to-day. Hon. Frank Oliver, H. H. Stevens, of Vancouver, and Hon. Chas. Maclellan continued the debate.

SIR ROBERT BORDEN.

On rising to move the second reading of the Military Service Act Sir Robert was received with loud cheers from the Government supporters. "As I gave on moving the first reading of this bill," said the Prime Minister, "a full explanation of the measure now presented. It is based now to detain the House at any great length. It is upon the motion which I am now presenting to the House that the bill is to be discussed, according to the usage of Parliament."

"In that respect I emphasize what I said when I presented the bill, that no new principle is invoked by the measure now presented. It is based upon precisely the same principle as that embodied in the bill introduced in 1868 by Sir George Etienne Cartier and confirmed when the Militia Act was re-enacted in 1904."

"The chief change between this measure and the Militia Act is this, that under the Militia Act the selection of men for service in case of emergency is effected by the instrumentality of the ballot, or blind chance. We did not think that under the circumstances confronting the country at the present time such a move could be tolerated for a moment. For that reason we brought before the House a measure embodying the principle of compulsory service, which was first established in 1868, and which has remained in force ever since. But we have changed the method from blind chance to intelligent selection, based upon a consideration of the needs of the country at the present time."

"We have endeavored to frame the bill in such a manner that the tribunals that will make that selection shall be beyond suspicion, and, in that regard or any other respect any suggestions can be made from either side of this House which would seem to surround this bill with better safeguards and at the same time not detract from its efficiency, we shall be only too glad to consider them."

MEN AVAILABLE.

Proceeding, Sir Robert quoted the figures recently prepared by Mr. Robert Conates as to the number of men available for military service. According to these figures there were in Canada 760,453 unmarried men between 20 and 45, and 828,096 married men between the same ages, making a total of 1,588,549.

Between the ages of 20 to 24 there were 314,610 single men and 66,247 married men; between 25 and 29 there were 205,125 single men and 165,369 married men; between 30 and 34 there were 112,011 single men and 198,321 married men, giving a total of men, married and single, between 20 and 34, of 1,066,690. There were in Canada 686,746 single men between 20 and 34, (Continued on page 8.)

LAKE MEGANTIC

The marriage of Mr. Philip Brucean and Miss Blanche Roy, both of Megantic, was celebrated one day last week.

The young child of Mr. Jos. Fortier, of Spaulding, died last Friday. The funeral was held at Megantic on Saturday.

The teachers and scholars of the Model School held a very enjoyable picnic at Sandy Bay on Saturday. The Brothers and pupils of the College were also to have held a picnic on Saturday, but the threatening weather all day prevented it, and instead they were all taken for a round trip on the lake in the steamer Woburn on her afternoon trip.

Mr. Henri Laporte has rented the farm of Mr. H. B. Smith at Smith's Point for the summer and next winter, and now has a crew of men putting in crops.

Mr. Percy Mills, son of Mr. Elijah Mills, Three Lakes, had the misfortune last week to have one of his legs broken above the ankle, while working in the woods for Mr. John Boyle. A rolling log struck him. He was brought to Megantic, where the bone was set, and he is staying at Mrs. Braddock's for surgical attendance, and is doing very well.

A band of gypsies camped at Sandy Bay on Saturday with two vans. Mr. and Mrs. Jos. Laporte, from Boston, are in town for their vacation and are staying at the camp of

Mr. Henri Laporte, Smith's Point, for a week or so.

During the thunder storm last Thursday the wind wrecked the roof of Mr. E. H. Renaud's mill on the lake shore.

The mill of Mr. H. R. Van is expected to finish sawing this week, and will then close down.

Messrs. Walley & Son, of Sherbrooke, who are lumbering the lots of Mr. Bramhall on the fifty range of Ditchfield, have now finished loading all their birch, and the crew are now cutting and peeling pulpwood, which will take a month or two.

Mr. Chas. Braddock is loading their cars.

The family of Mr. W. B. Swan arrived from Montreal last Friday and have joined Mr. Swan on the farm in Ditchfield for the summer.

Mrs. H. S. Albino and two children, from Fitchburg, Mass., are spending a few weeks at the home of Mr. Albino's parents, Mr. and Mrs. H. W. Albino, at their home on the lake shore. Mrs. Albino's father, Mr. Sissons, is reported to have died recently in Montreal.

The Model School examinations closed on Monday and the distribution of prizes took place at the close. A special series of prizes were given by the commissioners privately and other friends to the most worthy scholars, according to merit.

From Mr. Thompson for the highest number of marks in Grade VIII., and one from Mr. Albino for the most regular attendance, and others which will be acknowledged later. These free gifts are in strong contrast to others who refuse to pay even the regular fees.

The sacrament of the Lord's Supper will be held in Milan next Sunday, June 24, and at Marshboro Church on the following Sunday, July 1st.

BARNSTON

The Rev. Cecil Stevens of Coaticook conducted the service at Christ Church on Sunday in the afternoon. Mr. Ben Corey of Kingscroft assisted in the singing. Mr. Corey and family are guests of their parents, Mr. and Mrs. H. Corey.

Miss Hazel Conners is on her way home from a visit to her uncle and aunt in Grand Rapids, Mich.

Returning delegates from the Baptist Association at Dixville report a very enjoyable and profitable meeting.

Mrs. Frank Wright is assisting in caring for her sister-in-law, Mrs. Henry Wright.

Mrs. John Jenks, who has been quite ill is now improving greatly to the satisfaction of her many friends.

Mrs. Perkins, Sr., is away on a visit to her daughter.

The young people's class taught by Mr. Protzman of Rochester Seminary is increasing rapidly in numbers and efficiency.

The motor car used in the conveyance of cream to the Conners factory covers many miles of territory daily.

COMPTON

(From Occasional Correspondent.)

Rev. Mr. Miller closed his pastorate here in connection with the Methodist Church on Sunday last. Rev. Mr. Williams, of Diamond, Ont., who has been appointed to succeed Mr. Miller, will not reach Compton until next week, and will therefore occupy his new pulpit for the first time on July 1. Rev. Mr. Miller will supply for him next Sunday.

The Ladies' Aid are planning to hold an ice cream social on the church grounds on Tuesday evening, July 3, which will take the form of a reception to Rev. and Mrs. Williams. At the annual meeting of the above society, held on Tuesday of last week, Mrs. E. H. Todd was chosen president for the ensuing year, with Mrs. G. A. Sautley as vice-president. The office of honorary president was for the first time conferred upon its oldest member, Mrs. Quarus Bliss, with whom the meeting was held.

Major A. L. Pomeroy received on Saturday a cablegram from his daughter, Miss A. Pomeroy, stating that she had arrived safely in London, Eng.

Mr. and Mrs. A. A. Pomeroy, who are spending a part of their honeymoon in the Townships, will be in Compton for the week-end.

A meeting was held here in the Methodist Church last evening under the auspices of the "No-Licence" League, at which the principal speaker was John H. Roberts, secretary of the Dominion Alliance for the Province of Quebec.

A large number of people are in town to-day to attend the closing exercises in connection with King's Hall School.

The Government examinations have been in progress during the past week, with Miss Rugg as deputy examiner.

Mr. and Mrs. Woodward, of Lennoxville, are spending some time in Compton with relatives.

Miss M. Demerise is in Ottawa for her annual holidays, the guest of Mrs. H. Booth.

ULVERTON

On June 12th a very enjoyable evening was spent at the home of Mr. and Mrs. Wm. Mowsey, when upwards of 60 guests were welcomed home their son Edward and his bride.

The wedding ceremony took place in Compton. After receiving the congratulations of all present a very sumptuous tea was served. The remainder of the evening was spent in social intercourse and music. They were the recipients of many valuable presents.

On Wednesday evening, June 20th, an ice cream social in connection with the Methodist Church will be held on the lawn of the town hall, Ulverton. Arrivals: Mr. and Mrs. Thomas Mitchell, Drummondville, guests of their daughter, Mrs. Oscar Wright; Miss Emma McManis is spending a couple of weeks holidays with her parents, Mr. and Mrs. Reuben McManis.

RANDBORO

The late Mr. Wm. Barber, who passed away on Saturday morning, June 9th, of typhoid pneumonia as previously reported, was a life long resident of this place and was highly esteemed. He was of a quiet and retiring disposition and had many friends. He was 68 years of age and leaves a widow and two sisters to mourn his loss. He, with Mrs. Barber, were devoted members of the Baptist Church at Sawyerville, and in the absence of the pastor, Rev. Mr. Newby, the funeral was held in the Methodist Church at Randboro, Rev. G. H. Ford officiating.

The choir of the Baptist Church had charge of the singing. Mr. M. Cairns acted as manager and the bearers were Messrs. A. Munn, L. Bowker, E. J. Parker, W. Montgomery. The interment took place in the Maple Leaf Cemetery. Those from out of town who attended the funeral were Mr. and Mrs. Thos. Harrison, sister; Mr. and Mrs. Howard Andrews; Mrs. Fred Harrison of Duds-well; Mrs. Robert Barber, sister; Mr. and Mrs. Warren Barber, Mr. Sterile Barber, nephew, of Lennoxville; Mr. Geo. Harrison, Mr. Herbert Harrison and Mr. Erle McKintyre, nephews of Bishop's Crossing; Mr. and Mrs. Harold James, niece, of Sherbrooke; Mr.

and Mrs. J. Millar, Mr. and Mrs. John Burns, Mr. and Mrs. Richard Burns, of Island Brook; Mrs. John Burns, sister, Sherbrooke, was unable to be present through illness. Many floral tributes were sent in by relatives and friends.

NOTES FROM HATLEY AND DISTRICT

Pte. James Sadler Tells of Attack on Vimy Ridge. Buried in Shell Hole.

HATLEY, June 19. — (Special.)—Mr. C. G. Whitcomb has lately received a short letter from his young ward, Pte. James Sadler, who left Hatley for service overseas as a member of the 117th Eastern Townships Battalion. Pte. Sadler tells of living in the trenches, the charge against the enemy at the battle of Vimy Ridge; that the first shell that came over killed one of the men nearby and buried him. He was, however, dug out and again buried upon three different occasions. At the time of writing, Pte. Sadler had been in hospital in England for an operation, where he was afterwards to take a course of training, which is not altogether to his taste, as the young soldier adds that he will be glad to get back, as he likes fighting much better, and that he is determined to see it through.

RELIEF FROM TRENCHES.

In a late message from Pte. Carroll Hodges he states that he has been allowed to leave the trenches for a while, and at time of writing was employed in a cook house.

INDIA, SUBJECT OF DISCUSSION.

India, considered from a number of different viewpoints, formed the principal topic of interest at the regular Friday evening meeting of the Hatley Young People's Society, which was literary evening, and conducted by Miss M. Gage in Memorial Hall, in connection with the Methodist Church, on June 15. A sketch of the sacred city of Benares, the chief centre of the Hindu religion, was given by Mrs. (Rev.) A. F. Shorten, followed by papers from "The Missions of India," by Miss Gage; "The Religious of India," by Mr. Delbert Poole; "The Customs of India," by Miss Florence Glidden, and "The Women of India," by Miss Geneva Emery, while Miss Dorothy Brown told "How India came to belong to England." The young members afterwards sang of "India's Coral Strand" and other appropriate hymns. On Friday, June 22, if the weather should prove favorable, the members of this flourishing society propose holding a picnic in the vicinity of Bacon's Bay, on Lake Massawippi, leaving in the morning for that popular pleasure ground of former years, where lunch will be spread at the noonday hour, followed by boating, games and other amusements.

GUILD RESUMES MEETING.

After an intermission of three or four months the members of St. James' Guild will resume their regular fortnightly meeting, which will in future be held in the new Guild hall on Meadow street, the opening one taking place on Wednesday afternoon, June 20. A basket tea will be served at the close of the afternoon.

CHANGES IN SCHOOL STAFF.

Examinations in the junior class room at the Hatley Model School were concluded on Friday. Miss Althe Dresser, who has been in charge of these grades for the past two years, returned to her home in Richmond on Saturday. Miss Dresser, who resigned her position in the school to accept a similar one in her home township of Cleveland, will be succeeded by Miss Booth, of Shefford, for 1917-18. The pupils of the model grades and I. academy finished their school duties on Monday afternoon. The closing of the present school year completes the fourth of Miss McLeay's work as principal of the school, and the second of Miss E. Jessie Davidson, in the intermediate ranks, the latter of whom will return to the reopening in September when Miss Goff, of New Carlisle, will assume the duties of principal.

PATRIOTIC SOCIETY.

The regular fortnightly meeting of the Hatley Patriotic Society will, in future, be held in the new Guild hall, on Meadow street. It has been requested that all who have magazines, newspapers and scraps of waste paper of any description will remember to send them to "Brookbank," where Mr. J. H. Haines has kindly given the use of the barn for storing the same until a sufficient quantity has been collected for shipment. The proceeds from the sale of this collection will be devoted to Red Cross work, the same as last year, when nearly two tons were sent to the American Paper Co. in Montreal, which brought \$25 into the treasury.

NOTES.

On account of the absence of both the librarian and her assistant on Saturday, the Hatley Public Library was closed during the afternoon. Mrs. J. H. Haines filling the office in the evening, when the usual number of volumes were given out.

Mr. C. G. Whitcomb, who has been ill from pneumonia for several weeks, is again able to be out. Master Archie Little, eldest son of Mr. and Mrs. Taylor, J. Little, who has been confined to his home during the latter part of the school year, suffering from pneumonia, was able to come into the village in order to attend the June examinations, remaining for the time at the home of his aunt, Mrs. C. P. Young.

Relatives in this place have received the assurance that Miss Helen Embury, who recently underwent an operation for appendicitis in the Royal Victoria Hospital, Montreal, is making favorable progress toward recovery.

Mr. and Mrs. Fay Young have returned from their wedding journey and are now at their future home, "Maple Lane Farm," Hatley Centre; Mr. R. R. Whitcomb to Sherbrooke for the week-end with his parents, Mr. and Mrs. I. W. Whitcomb; Mr. Howard Hewton, of the staff of the Canadian Bank of Commerce, Lennoxville with his mother, Mrs. R. J. Hewton, for the week-end; Mr. and Mrs. C. Leavitt at "The Butternuts" for a few days.

WINDSOR MILLS ITEMS OF NEWS

Wet Weather Has Retarded Growth of Garden Produce. Everything is Late.

WINDSOR Mills, June 19. — (Special.)—The past week has been one, long succession of thunder and rain storms. It began to rain on Sunday morning, June 10, at 11.30 a.m. and rained incessantly until Tuesday, and the thermometer never more than 30 above freezing. Wednesday was a glorious summer day with the thermometer at 85 in the shade during the middle of the day. Thursday, Friday and Saturday were raw cold days and Sunday also, but at 2 p.m. it commenced to rain heavily until after midnight.

The river is in flood and almost as high as the spring floods after the melting of the snows of winter. The outlook is very serious for the farmers and also for the householders with garden vegetables and root crops that should be well grown are not yet above the ground and the potatoes are very backward. Many that have been planted early are not as forward as those sown end of May. It looks as if the crop will be ruined same as last year's by the heavy rains in June. This is also the month of roses, but they are conspicuous by their absence. The rose trees are several budding, the wild roses which are as a rule out before the cultivated are not yet in bloom. In future the Junes of 1916 and 1917 will be known as the month of rain.

CONFIRMATION SERVICE.

On Sunday next, June 24, the Right Rev. Lennox Williams, of Quebec, will conduct the rite of confirmation at St. George's Episcopal Church at the 11 o'clock morning service. A number of young men and maidens have been prepared for the ordinance by the Rector, P. G. Pye.

A PUBLIC NUISANCE.

A correspondent writes: "The new policeman might direct his attention to a nuisance, which as existed for a long time, the gathering of young hoodlums from 10 to 15 and 15 years of age who nearly all day long sit on the concrete steps of the candy store in the old Sherbrooke Block, they smoke and expectorate all over the sidewalks and throw orange peel and banana skins on the sidewalk and make it dangerous for pedestrians and the insult and jeer at both men and women passing by. The superintendent is kept so busy with his numerous duties he has warned them several times but they take no notice of the warning. This is a good chance for the new man to make good."

NORTH THETFORD

The outlook for farmers is rather serious in many instances. Owing to the lateness of spring and wet weather, many got in little or no crop and those who succeeded in planting in many cases the heavy rains have washed the seed from the ground. Grass looks well but in many places the prospects for crop indicates failure.

BROME

The play "Willowdale," given by
the West Brome Dramatic Club in
the Town Hall, Brome, on Thursday
evening, proved a grand success, fi-
nancially as well as socially, the
tidy sum of \$47 being added to the
Red Cross Fund. The ladies of
Brome feel very grateful to the club
for their kindness in coming, and
enough cannot be said in praise of
those taking the different parts, as
one and all did well. Miss Cady as
"Mrs. Bassett," a wife inclined to
have her own way, seemed to carry
out the part to perfection, while Mr.
Durkee, as the henpecked husband,
showed that he was truly the right
man to act the part. Rev. Mr. Car-
ledge, as leader of the choir, was
also found to be in the right place.
Nor must the little folks be forgot-
ten who rendered their solos so
well. Masters Gordon Durkee and
McCutcheon, and Mrs. McCutcheon,
who sang so nicely. The orchestra
rendered excellent music between the
acts.

ery, has been spending a few days

Couldn't Keep
Back Tears

When the Nervous System
Broke Down—Queer Feel-
ings in Back of Head
Caused Much Alarm.

MIDLAND, Ont., June 19.—Col-
lapse or breakdown of the nervous
system leaves one in a most pitiable
condition. Strong, healthy-looking
women, and men, too, will weep from
helplessness and despair.
The case reported here was a most
severe one, as is indicated by the hy-
sterical condition, the pains in the
back of the head and the futility of
the many treatments used.
It is further evidence that the regu-
lar and persistent use of Dr.
Chase's Nerve Food for a reasonable
length of time will positively restore
the most exhausted nervous system.
Mrs. S. Sharp, Midland, Ont.,
writes:

"About eleven years ago I had a
serious nervous breakdown, and was
so bad at times that I could not keep
back the tears. I also had a queer
feeling in the back of my head.
Sometimes I seemed to be going
backwards. I could not do any sev-
ing, and finally could do no work at
all. I tried other remedies and doc-
tors' medicines, but they only gave
me temporary relief. Last Fall I com-
menced using Dr. Chase's Nerve
Food, and had not taken very many
until I found I was getting better. I
kept on taking them, and am at present
greatly improved. I am now able to
do my work, and they have strength-
ened me splendidly. I can highly
recommend Dr. Chase's Nerve
Food for nervous trouble of any kind."

Co., Limited, Toronto. Do not be

ner.

A very pleasant evening was spent
at the Dunham Convent on Wednes-
day last. The drama played by the
scholars was a real success. About
150 were present. Miss Adam and
Miss Bombardier gave piano duets,
which were well rendered and gave
much pleasure to all present. An ad-
dress was read to the Rev. Father
Roy by B. Rainville and flowers were
offered. The Rev. Father Roy re-
turned thanks. The audience parted
after the singing of "O Canada."

Miss Wade, the principal of St.
Helen's School, formerly Dunham
Ladies' College, is making an effort
to install an electric plant to be in
working order at the re-opening of

The Ladies' Guild will meet with
Mrs. Edward Raymond on Wednesday
next, June 20th.

Some Wonderful Operations
"Very remarkable" is indeed but a
mild term to describe some of the
operations, particularly in regard to
bone-transplanting, which has been
performed with success on returned
soldiers. For example, in one case,
a man with a smashed jaw, presenting
a fearful appearance, had one of his
teeth transplanted into the angle of
his jaw, with wonderfully effective re-
sults.

Italian Fleet's Record
An Italian official report states that
during twelve months the Italian fleet
had transported 200,000 men, 200,000
tons of material, several thousand
horses, guns, and vehicles from Italy
to the Balkans, having lost less than
1 per cent. by submarine attacks.

W.C.T.U. CONVENTION

Many Delegates Attend at Bed-
ford and Interesting Ad-
dresses Listened to.

BEDFORD, June 19.—(Special)—
The annual County Convention of the
W.C.T.U., which was held in Bedford
was well attended despite the unfav-
ourable weather.

The Convention opened Thursday
p.m., with the President, Mrs. C. A.
Nutting, of Waterloo, in the chair.
The whole afternoon was devoted to
the reports of the various officers and
committees. The evening session was
of especial interest to all interested
in the Temperance work in the three
counties, when Mr. Roberts, Sec-
retary of the Dominion Alliance, gave
a most inspiring and instructive ad-
dress.

Mrs. Newton, of Montreal, also
gave an enthusiastic paper on the L.
T. L. work, and attached great im-
portance to the carrying on of that
particular branch of the Temperance
work; too much cannot be done in
the way of influencing our young
people for the right. Mrs. Newton is
a charming speaker, and it is to be
hoped that her appeal for more in-
terested workers in this department
will meet with ready response.

On Friday a luncheon was served
in the Methodist Church Hall to the
delegates and friends. The Convention
closed with short afternoon ses-
sion. The delegates from the Counties
of Bedford and Brome were en-
tertained by the following ladies of
the local Union:

Mrs. Sanderson, of Danville, at the
home of Mrs. Parker (Provincial
President);
Mr. Roberts, Secretary Dominion
Alliance, with Mr. and Mrs. McCaw;
Mrs. C. A. Nutting, Waterloo, with
Mrs. E. F. Currie;
Mrs. Newton, Montreal, and Mrs.
Tillemore, Waterloo, with Mrs. F.F.
Ewing;

Mrs. Drake and Mrs. Stewart, Cow-
ansville, with Mrs. A. Bachelor.
Mrs. Bridge, Waterloo, with Mrs.
H. O. Roy;
Mrs. Brown, Dunham, with Mrs.
Marvin Smith;
Mrs. Racicot, Waterloo, with Mrs.
Reynolds;

Mrs. Taylor with Mrs. Ernest
Perry.
Mrs. L. C. Parsons, Rev. Mr. Hin-
ton and W. N. Cotton, of Cowans-
ville, also attended Friday's session.
The Secretary's report is as fol-
lows:

"During the past year the Women's
Christian Temperance Society of
Bedford held their meetings regular-
ly, with an average attendance of 15
members. By the untiring efforts of
our President, Mrs. A. J. Ward, the
meetings were interesting, helpful
and harmonious. We feel that this
has been one of the most successful
years in the Temperance cause in
Bedford."

"We have 33 names on the roll call,
four of which are honorary mem-
bers. During the summer three bas-
kets of flowers and a barrel of apples
were sent to the Khaki Military Con-
valescent Home in Montreal; 34 vi-
sits to the sick were made.
"\$15 was paid over to the Rev. Fa-
ther Messier, Treasurer of the Anti-
Alcoholic League, towards defraying
expenses of the County Campaign;
\$5 from the Bedford Union was sent
to Mr. Roberts, Secretary of the Do-
minion Alliance, Montreal; \$5 was
voted and forwarded to the Provin-
cial Union, towards making Mrs. Nut-
ting a life member. Quilting bees and
teas were held at different times in
order to raise funds to carry on our
work. The Superintendent of Evan-
gelistic Work has a very good report
to make. A committee was formed to
organize a L.T.L. \$2 worth of mu-
sic, blackboard sketches, pledge cards
and one copy of the "Young Crusad-
er" were procured, but I am sorry to
say that the plan did not carry."

"In view of the coming campaign
for Prohibition, the members decid-
ed not to distribute literature at our
annual Fall Fair.
"An invitation was extended by
the Rev. Hutchinson, of St. James
Church, Bedford, to the members to
attend a special Lenten service in
the interests of Temperance; 15
members attended. The following
Sunday the members met in the Me-
thodist Church. Pastor Ward made a
stirring appeal to the Councilors to
support the vote being made to close
the only remaining bar in Bedford."

A copy of the following resolution
was sent to the Mayor and each
Councilor:
"Resolved: That we cordially ap-
prove of the vote made on Wednes-
day last, the 5th inst., to close the
bar of the New Bedford House, and
earnestly ask you, should the peti-
tion for any cause to be found to be
invalid, that you would give effect of
the clearly expressed wish of the vo-
ters in Division No. 4, and vote
against giving a certificate for the
sale of intoxicating liquors."

Mrs. Hyslop, an organizer and lec-
turer of renown in the Temperance
world, visited Bedford on the 18th
and 19th of November, and gave two
very stirring addresses, which should
inspire and encourage Temperance
workers to greater effort until our
own Province shall take its place

A FATIGUE DUTY

The nurse who is "just ready to drop" will find a wonderful stimulant in FRY'S delicious Cocoa. Of course it feeds every tired muscle—it nourishes bone and nerve—but it really does more. FRY'S possesses in full measure that subtle "spirit of cocoa"—theobromine—which is one of the most beneficial stimulants known. So you see FRY'S is a tonic as well as a nourishing food.

PATRIOTIC DANCE.

The patriotic dance at the E.S.S.S. clubhouse last night drew a good crowd and was a success in every way. The inclement weather of the past few days got somewhat upon the nerves of the organizers, but the weather man was all smiles yesterday, as were the ladies when a member of the snowshoe club came to their aid and "fixed things up" so the dancers could enjoy the pleasant walk through the shadowy woods to the clubhouse, which looked inviting with its patriotic decorations and large vases of ferns. The "patriotic orchestra" provided excellent music, responding generously to insistent encores, and delicious fruit punch and cake was served.

Mr. J. E. Mills acted as floor manager and as an "extra" lantern bearer through the places made somewhat rough by the heavy rains, and Mr. Norrey's Price gave most valuable assistance in many ways.

The ladies felt well repaid for their work and several requests for more have made them decide to continue the dances. The orchestra deserves special mention, as their services are given gratuitously, and the music of the best. Several out-of-town visitors were present, among them being Miss Beebe, of Beebe Junction, and the Misses Hawes, of Lennoxville, and several others.

licensed hotels, clubs, cafes, etc., are prohibited from serving liquor to men in uniforms. The new order becomes effective next Friday.

ENQUIRY FOR MISSING SOLDIER'S RELATIVES.

A communication from Ottawa addressed to Mr. Joseph Lapointe, 52 St. Edward street, Sherbrooke, cannot be delivered, as no person of this name lives there. The contents state that Pte. Oliva Lapointe, brother of the above, who has been missing since October 4, 1916, is not on the official list of prisoners of war, and is presumed to have died. A death certificate is enclosed. The papers are in the hands of the chief of police.

PROTESTANTS SCHOOLS SPORTS AND FIELD DAY.

Final details are now complete for the big day tomorrow at 1.30 p.m. The Athletic Association has worked hard to make this their first attempt a big success.

Through the kindness of some interested parties many decorations have been loaned for the occasion and the Parade Grounds will take on a tinge of a patriotic day as well as a sports day.

Every boy and girl contestant are requested to be at the Parade Ground so as not to delay the prompt starting at 1.30 p.m.

Reserved seats will be placed in a conspicuous place where the important part of the different events can easily be seen.

SIR JOHN AIRD.

(Canadian Courier, 16th June) When Sir Edmund Walker ceased to be general manager of the Bank of Commerce to become its President, succeeding the late Senator Cox, it was supposed by casual critics that no man down along the line could step into his shoes. He was succeeded by Mr. Laird, who succeeded to hard work in a few years and left the general manager's desk vacant for the man who had come down from the West to be assistant to the general manager.

That man was John Aird, now Sir John, one of the hardest working bankers that ever signed a check in this country or any other. Nobody in Winnipeg when he was bank manager there, nobody in Longueuil, P.Q., where he was born, ever in his wildest dreams imagined that John Aird would ever become a knight, even in

TWENTY YEARS AGO

(Notes from Record File, June 19, 1897)

The residences of E. C. Enright and J. Kinkead, Montreal street, and Henry Taylor's farm buildings at Birchton, were destroyed by fire this morning.

A strike of pilots is on at Montreal in real earnest. Not a vessel, save the Parisian, left port today.

A petition against the election of Hon. M. F. Hackett as member for Stanstead county was filed yesterday.

Hon. W. Laurier was one of the principal speakers at a banquet at the Imperial Institute last night, at which the prince of Wales presided.

1917. There never was a general manager of a great bank in Canada of whom so little has been said in print as about Sir John Aird. He has never been a mark for the interviewer or a butt for the paragrapher. When he slid up to the G.M.'s desk in Toronto, following those other two masters of hard work, Sir Edmund Walker and Mr. Laird, he sat down heavily to take a big lift on the scales. There was a twinkle in his eye. He knew he could do it, but nobody else knew that he knew—outside the office. And of all times in history the period of Gen. Mgr. Aird at that desk has been the most beset by the demon of hard slavish work. The war played hob with the big banks. The bigger the bank the more it was affected. Gen. Mgr. Aird never gave out a word to the press that he was the least bit alarmed over the prospect. He hung on, worked while he waited, and shouldered up more work. Any day, at noon, he might be seen at the New York Club, the only chance he had for much conference with the President. He saw over a thousand men leave the Bank of Commerce for the front. As best he could he filled up the ranks. Nobody outside the bank ever knew there was any labor shortage in the big institution. It was never Sir John Aird's way to magnify difficulties. He has been too busy overcoming them.

For pure undemonstrative neglect of notoriety along with consuming hard work, it is doubtful if banking ever produced a knight in Canada the equal of Sir John Aird.

MARRIAGES

NORRIS-HUGHES.
A very pretty wedding took place on Wednesday, June 6th at the Methodist Church, South Durham, when Dulcie, Helena Hughes, daughter of Mr. and Mrs. George Hughes was married to Mr. George Roy Norris of Ulverton, Que. The ceremony was performed by the Rev. N. Massicotte of Bethel, Que.

The bride who was given away by her father wore a dainty gown of white silk shadow lace and brocade, trimmed with pearls and wore a long veil of silk net with a wreath of orange blossoms. She carried a beautiful bouquet of white roses and maiden hair fern; her only ornament being a diamond brooch the gift of the groom. The bride was attended by Miss Alice Norris, sister of the groom, who wore a pink gown of georgette crepe and a large picture hat of black satin trimmed with pink roses. The groom was attended by Mr. Willie Hughes of Richmond brother of the bride.

The gift of the groom to the bridesmaid was a pearl brooch to the organist a brooch and to the best man a set of pearl cuff links. The bridesmaid wore the recipients of many valuable presents among which were cut glass, silver, linen and furniture.

Mr. and Mrs. Norris left for Niagara and other points and upon returning will reside in Ulverton.

Among the guests were Mr. and Mrs. W. Moore of Montreal and Mr. and Mrs. G. Richmond of St. Lambert's.

MONT NOTRE DAME CLOSING

Interesting Event Marked By Large Attendance.

Closing day at the Convent of the Rev. Sisters of the Congregation is always an eventful occasion, especially to those pupils who are saying farewell to its quiet cloisters, and yesterday was no exception to the rule. Mont Notre Dame was thronged all day, and in the afternoon when the closing exercises took place, the Music Hall was crowded to its capacity. Many parents and friends of the pupils from the city and a distance were present, and Mgr. Paul Larocque, Bishop of the diocese, presided with Mgr. Chalfoux, the Rev. Father Simard and other members of the clergy.

The Rev. Mother Superior and her assistants received the guests, and escorted them to special seats. The hall was arranged with palms, busts of famous musicians, and great quantities of flowers, a huge stand of roses in the centre of the room attracting attention.

A very delightful musical and literary programme was rendered. The distribution of prizes to the various classes was an interesting event.

The graduating class were presented with their diplomas. They were Misses Yvette Campbell, Letitia Deshaies, Irene Wolfe, Eleanor St. Denis, Germaine Ledoux, Marguerite McCaffrey, Anita Duckett, Gertrude Pelletier, Irma St. Pierre, Beatrice Lawrence.

The following special prizes were awarded:
French language—Misses L. Deshaies, Anita Duckett.
Good English, silver medals—Irene Wolfe.

History of Canada—Misses E. St. Denis, A. Duckett and G. Ledoux.
Cookery—Yvette Campbell, L. Deshaies, and other graduates.

Prize given by Mrs. L. E. Codere for Piano and Harmony—Miss Y. Sauson.
Violin—Given by Prof. Bourgeois—Miss Y. Rvest.

Prize for General Excellence, given by Mr. P. D. Authier and friends—Miss Yvette Campbell, Miss L. Deshaies and Miss Medora Gagne.

The prize of \$50 of the Knights of Columbus was divided between the graduates, under-graduates and senior class.

The Pontifical March was played and Mgr. Larocque presented the graduates with the prizes donated by himself, and himself placed upon their heads, as they knelt before him the well merited "Good Conduct" crowns of silver leaves.

The Bishop made a short address, congratulating the Rev. Sisters upon the results of their teaching, and the excellence of their methods.

He alluded to the fact of so many of the pupils being English, the graduates being equally divided, and felt that the "entente cordiale" which had always existed should be maintained.

He begged the graduating class to remember their "Alma Mater" and its lesson in virtuous and Godly living, and in all the womanly graces, which had been installed at Mont Notre Dame, and above all to show their gratitude to the Father of all good for His manifold gifts.

Mgr. Larocque spoke first in French, and then made a few remarks in English, and requested the Rev. H. R. Bigg, of St. Peter's Church, who was present, to speak to the English pupils.

Rev. Mr. Bigg said that he felt honored by the invitation, and would gladly respond.

To the young girls now going out into the world he said an appropriate motto would be "noblesse oblige," which, if carried out faithfully, in this life, with all that it implies, would make them worthy of a crown of life hereafter.

Mgr. Chalfoux followed with a few congratulatory words to the teaching staff, the graduating class, and the pupils generally, voicing his satisfaction with the standing of the institution.

The benediction was bestowed by the Bishop and the National Anthem closed the day.

PERMITS FOR UNITED STATES

Canadians Residing Across Line Can Return to States After Visiting Canada.

Since the article relating to permits for the United States was published a few days ago, Major Pomeroy has received new instructions from the Immigration Department at Ottawa to the effect that Canadians residing in the States and whose families and businesses are established there, and who come to Canada for business or pleasure, may return home upon obtaining the necessary permit.

AMERICANS MUST PROVE CITIZENSHIP.
As some misapprehension exists in regard to Americans residing in Canada who wish to go back to the States, Major Pomeroy wishes it to be understood that such persons are not turned back by the Canadian border inspector, but the inspector on the American side of the line must be satisfied through the production of a birth certificate or some other document that they are bonafide American citizens.

CLOSING OF IRISH ACADEMY

Interesting Programme Marked Close of the School Year.

The last day of the scholastic year was marked at St. Patrick's Academy by an entertainment arranged by the boys which never fails to attract a large audience. The hall, therefore, was crowded and when the curtain rose on the minstrel show, the long row of "cuddled gemmen" in quaint costumes brought down the house.

The interactor, Mr. Raymond Chamberlain, carried out his dignified part successfully and well, and the jokes were new and fresh.

The second part of the programme was miscellaneous, comprising a "colored" school, with a teacher from the north, a French recitation, and a sketch in that language, showing considerable proficiency.

Rev. Brother Sennan read the yearly report, which was very satisfactory, and gave the names of the winners of the special prizes, the ordinary prizes having been presented during the day.

The handsome gifts were handed to the winners by the School Commissioners present amidst loud applause.

Mr. D. McManamy, chairman of the School Board, arose, and said that the Irish community had good reason to congratulate themselves on the success of the school, now closing its sixth year. He spoke in the highest terms of the ability and devotion of the Brother. The speaker said: "They make no money, have a bare living, but give up their entire time, and their whole interest to the welfare and progress of the school and scholars. The parents of the boys could not feel grateful enough for the care, spiritual, moral and material benefits bestowed by the Rev. Superior and the staff. For himself he could only thank them, and wish them success."

Rev. Brother Sennan expressed his appreciation of the kind words of the chairman, and continued that he asked nothing better than to remain in Sherbrooke, where he and the staff had met with so much kindness, not only from the School Commissioners, but from the people.

The boys cheered everybody, including the Brothers of the Presentation, the Commissioners, the teachers individually, and all joined in the National Anthem.

FORMER HUNTINGVILLE PASTOR PASSES AWAY

Rev. Welburn D. Potter recently died at his home in Canton, New York. He was a graduate of St. Lawrence University and later of the Catholic Theological School (University) and immediately after graduation took up his chosen work. His first pastorate was in Huntingville, Que., where he was ordained in 1900. At that time the minister's circuit was much larger than in recent years and Mr. Potter preached at Moe's River, North Hatley, Ascot Corner, Sand Hill and Johnville. Wherever he went his sterling character, striking personality and genial sunny disposition won for him a host of steadfast friends. In the pulpit he was a forcible and interesting speaker. Although more than a score of years have passed since he lived and worked among the people here, he is held in loving remembrance by all who knew him. To appreciate the wonderful influence he exerted over the minds and hearts of his people one must really succeed him in his work of the ministry, go about among the people who were his and note the high esteem with which they universally regarded him. It is a useful inspiring lesson to behold the great good he accomplished in his pastorate of 3 short years. He went from Huntingville to Sherburne Falls, Mass., and later ministered to the Churches at Oneonta and Cortland, New York. In all of these places he was eminently successful. He is survived by his wife who resides at Canton and one son Wilburn H. Potter, a student at Ithaca University. The funeral was held Monday, June 4th. Rev. I. M. Atwood of St. Lawrence University officiated.

GIRLS' RUSHED MEALS

Only 25 Minutes For Lunch in English Recruiting Office

"The inadequate mid-day meal intervals allowed to women clerks in Government Departments is having very serious results on many of the girls," said Miss Isabel Bassett, secretary of the Association of Women Clerks and Secretaries. An army instruction had been issued to sub-recruiting offices in the London area that only twenty-five minutes was to be allowed for the mid-day meal. If more is taken an hour's overtime pay each day is deducted.

"At the headquarters of the London District, at the Horse Guards, no mid-day interval is allowed at all. The girls work from 9 o'clock to 7.30, at the rate of \$5.75 a week with 50 cents war bonus, for 42 hours, the remaining hours being compulsory overtime. A girl may work from 9 to 4 without an interval or from 9 to 5 with an hour off, and after 4 to 5 p.m., as the case may be, she begins her overtime. Many girls come to town by workmen's trains in order to save a few pennies, and they never leave their offices during the day, bringing food which they eat at their desks."

Size of Armies in 1666
Asking how many men there were in William the Conqueror and Harold's army during the Battle of Hastings, 1066, a correspondent learned that according to Cressy's account of the Battle of Hastings, William of Normandy set out with 50,000 knights and 10,000 soldiers of inferior degree. Harold's army is described as being "far inferior in number." Harold had just fought a costly battle with Harold Hardrada in the north of England; defeating the Norseman who came in several hundred ships. Harold had to make a forced march south with a "small army" and practically no cavalry to meet the Norman knights. Bulwer Lytton's "Harold" (a splendid story) says that the Norman army consisted of three divisions and the English army of two divisions.

SPARTAN LONDONERS
John Ward, Plain Labor M.P., Hero of Tyndareus

It was not a Mayfair aristocrat, a blue-blooded officer of the Coldstream Guards, the King's Hussars or the Black Watch, who will go down in the annals of the British army as the hero of the Tyndareus, but plain John Ward, labor leader, up from the people. Nor was it a crack regiment that stood at attention and faced death on the deck of the sinking transport. John Ward's fellow heroes were the volunteers of the Middlesex battalion, Londoners, Cockneys, all sorts and conditions of hand to mouth toilers, some of them waifs and strays, and perhaps human derelicts with nothing specially to live for in the old days. But discipline had transformed the least worthy into men, love of country and pride in the regiment inspired all of them; they were responsive to sympathetic leadership, and they stood firm. Spartan-like, with a heart for any fate, when Colonel John Ward made the appeal to them that will be historic.

INCENDIARY BOMB LOOKS
This is the outward appearance of the bomb used by Germans to set fire to undefended towns. These bombs readily fire buildings owing to the fierce flames and the molten metal generated by the chemicals used. They are dropped from aeroplanes and Zeppelins.

BELGIAN FAITH IN BRITISH
An officer on active service writes: "The faith of the Belgian in the cause for which we are fighting and in the ultimate vindication by the strength of the British Empire is shown by the way in which he is creeping back to his homeland. It is now a common sight to see a 'handbook' kind of dwelling knocked together, and occupied within a few days. A good many of them have walls of nothing more substantial than cheese or biscuit boxes intended primarily for the packing of army rations. Discarded tea tins packed with earth have been used in an attempt to make a 'bomb-proof' dwelling. The normal population of many of the villages is growing rapidly by the homing instincts of the Belgian and through his confidence in British troops to keep the Boche where he is."

INSTANCES OF HEROISM

Artillery Officer's Splendid Courage Under Fire

A War Correspondent writes: I wrote of the splendid work of the British gunners, that great orchestra of destruction whose symphonies continue day and night, and which plays in such harmonious anonymity that it is hard to pick out the part of any single performer. But in this battle there occurred an incident well worthy of special record. The day before the attack an artillery officer made his way out to a point where he could observe the state of the German wire, and found that in one important place it was not being destroyed by our artillery bombardment. The weather was too thick for aeroplane observation, so he crawled out with a telephone line and lay in a shell-hole in front of the German lines, and there remained surrounded by bursting shells controlling and directing the fire of his battery. As a result of this magnificent act of coolness and courage the attacking party found the wire entanglements gone when they advanced. I give this instance not because it is unique but because it is typical.

How Incendiary Bomb Looks

TWILIGHT RAIDING
Incident of St. Eloi—Prolonged Bombardment Deceived Enemy

The raid was the work of a group of men, volunteers, who had been specially trained in the art of bombing and searching of trenches, so that each man knew exactly what he had to do. The place chosen for the raid was a small German salient to the east of St. Eloi (south of Tross), between the Bluff and Hill 60. It was an evening raid, conducted in the last of the daylight; and, as usual, preceded by a prolonged bombardment, which left the enemy in the dark as to when and where the blow was to fall.

Under cover of a dense smoke barrage, the advance was made. It took the form of a centre with two wings, all three formations converging on a common objective, which was the centre and rear of the German salient. It was so successful that centre and wings met, and a crowd of surrendering Germans, at exactly the time and point agreed on. The greatest depth of the advance was 500 yards and the front covered was about the same. There was a certain amount of fighting in the trenches, but the raid had been so well rehearsed that the work of clearing and bombing was quickly done, and the Germans had no time for serious opposition. It was light or surrender—and in most cases they chose the latter.

WORTHY OF SOLDIERS
Young English Girl Won Deserved Medal For Courage

At the Mansion House, London, the Lord Mayor presented a gold wristlet watch, the gift of the Carnegie Hero Trust Fund, to a girl of 18 for exceptionally heroic conduct on the occasion of a Zeppelin raid. On the night of the raid she was sitting up with her grandmother waiting for the return of her parents, who were out for the evening. At the top floor of the house a baby had been put to bed. A bomb fell very close to the house, causing considerable damage. The first thing the girl saw was the baby, who had rushed upstairs and secured a safe place. At the time the stairs were dark, and some of the steps had disappeared, and she could not walk down, but clutching the baby she slid down somehow and got into the street. Here, in the excessive darkness, all lights having been extinguished, she knelt down and prayed. She then made her way to a hospital, where the baby was taken into safe custody, and the surgeon, examining the girl, found her bleeding and wounded. Subsequently a piece of glass was taken from her ear.

What "Hill 60" Means
A good many people have puzzled their brains over Hill 60, Hill 97, the historic Hill 306 at Verdun, and so on, and even now not many know what the numbers mean. It is, however, very simple. The numbers refer to the height in metres as printed in the French military maps. Thus Hill 60 is 60 metres (about 195 feet) high, and Hill 205 is 205 metres in height (about 675 feet). So now we know all about it.

Huns and "Fire Throwers"
The German flamethrower, or "fire thrower," so far from being "new," are hoary with age. They were used at the siege of Constantinople by the Turks five centuries ago, when sheets of flame were vomited through long copper tubes; and centuries earlier still British warships had tubes fixed at their bows through which "Greek fire" was spouted at the enemy.

FINANCIAL AND MARKET NEWS

OPINIONS OF WALL STREET

Shipment of Gold From Ottawa Relieved Strain on the Money Market.

NEW YORK, June 19.—Canadian Pacific advances \$10,000,000 to Imperial Munitions Board for production of war materials. Copper miners out on strike in Butte district number 12,000. Montana power electricians strike. Application for injunction restraining D. & H. from paying a dividend dismissed. President pledges United States to the restoration of Belgium. Crucible Steel declares 2 per cent. dividend, leaving 2 per cent. due of preferred back dividends. Bill introduced in Congress at instigation of Federal Trade Commission for government operation of principal paper mills.

The arrival of \$22,000,000 in gold yesterday, which was shipped by the British Government from Ottawa, and the intimation that further shipments are soon to be received which will bring the total up to about \$100,000,000, came at an opportune time to relieve the strain on the money market. The call money rate dropped to 5 per cent. late yesterday afternoon. The volume of transactions in the stock market yesterday was somewhat reduced from recent full day totals, and it does not appear that there was any considerable public liquidation on the reaction. The selling came principally from the professional element and pool operations in the industrial, who found that the money situation was causing banks to tighten up on rates and collateral requirements.

MONTREAL LIVE STOCK MARKET

TRADING SLOW, BUT CATTLE PRICES ARE STEADY. Montreal, June 19.—The offerings at the West End Cattle Market yesterday were 5,000 cattle, 125 sheep, 700 hogs and 500 calves. For the week there has been offered 675 cattle, 200 sheep and lambs, 1875 hogs, and 2,175 calves. Prices are steady, with trading very slow, and consequently a very drab market. There is a pretty good demand for calves, but the market for hogs is only fair. We quote prices as follows, per 100 pounds: Choice steers, \$10.75 to \$11.25; good, \$8.50 to \$9; medium, \$8.25; choice bulls at \$9.75 to \$10.50; good, \$9 to \$9.50; medium, \$8.75 to \$9; calves, \$7 to \$12; sheep, \$9 to \$11; lambs, yearlings, \$11 to \$12; spring lambs, per head, \$5 to \$9; hogs, choice selects, \$15.50; good, selects, \$15.50; sows, \$13 to \$14. Offerings at the C.P.R. Market yesterday were 250 cattle, 200 sheep, 200 hogs, and 350 calves.

LETTERS TO THE EDITOR

WINDSOR STREET REPAIRING.

Editor Record:—Now that the season for repairing of roads has arrived, it is quite interesting to note the method employed in various places. Here in the town of Windsor the Council has adopted quite a plan which should be of interest to every lover of good roads throughout the country. Several years ago the town macadamized the principal streets. Owing to the action of the frost and general traffic conditions, holes have appeared in places. These of course required filling up. So the Council proceeded forthwith to the task of repairing them. After discussing the matter pro and con it was decided to take the bit in their teeth, and in this instance, at least, act on their own initiative. With the help of the civic engineer and the newly-appointed policeman, the formula for filling up holes in macadamized streets as finally agreed on as being most satisfactory was mud from the ditch, clayey gravel and a liberal coating of West India molasses, using a mixture of 5-2-1. However, it was discovered that probably owing to war conditions molasses was not available, so they sorrowfully proceeded with the work, using an extra supply of mud.

One can imagine how entertaining the noise would have been could the late Barney Quinn have passed along the street while work was in progress. It is to be trusted that in their future deliberations the Council will not hesitate in seeking aid, either clerical or Divine; but if this street repairing is a measure of their ability, one must woefully exclaim, God help them!

TWO MORE SUTTON BOYS ENLIST IN U. S. ARMY.

SUTTON, June 19.—(Special).—Mr. and Mrs. J. B. Sutton have received word that their two oldest sons, Arthur and George Butler, have enlisted at Manchester, N.H., into the American army service. These young men have been working in New Hampshire for several years, while their parents reside in Sutton, the father being a driver for Dr. MacDonald of this village.

FUNERAL OF LATE COUNCILLOR E. L. HARVEY OF SUTTON.

SUTTON, June 19.—As before briefly noted in the Record this town has been called upon to mourn the death of one of its most honorable and distinguished citizens in the person of the late E. L. Harvey, postmaster and merchant of Acorn at his home in that village, after an illness of several months.

Funeral service was held at the home Saturday afternoon, the Rev. Herbert Charters of Sutton officiating, and burial was in the family lot in the new cemetery. Besides his wife he leaves a son, Dr. Fred W. Harvey, C.A.M.C., of Montreal; and two daughters, the Misses Fronia M. and Rachel L. Harvey, to mourn an irreparable loss.

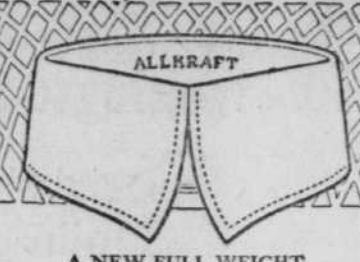

Mr. Harvey was born at East Dunham June 13, 1852. About 35 years ago he came to Acorn and purchased the business of Alfred Neill, which he continued with unvarying success until death, and his long business career was marked by honorable consideration for all with whom he had to do. He had held the office of postmaster for over 30 years, through both Liberal and Conservative administrations; he served nine years on the town council, two years as mayor, and was warden of Brome County one year. He was a member of the council until January last, when illness forced him to decline a re-election. All these things testify to the high character of the man in the appreciation of his fellow townsmen, who delighted to honor him.

Mr. Harvey was a most loving husband and father, his home life being one of the happiest and best; and in his intercourse with neighbors and friends he was a most delightful man, full of a quick and responsive sympathy that endeared him to all who had the pleasure of his acquaintance.

In his death our town has lost an eminent citizen whose patriotic spirit will be greatly missed by all with whom he was wont to associate in social and business life and in council. His family have the deep sympathy of all in their great affliction.

SINKING IRISH FISHING BOATS

Germans Threaten to Destroy the Whole Fleet: 12 Sunk in One Night.

CORK, Ireland, June 19.—German submarines are actively engaged in the destruction of the Irish fishing fleets, from Kenmare in Kerry to Howth in Dublin.

In one evening 12 boats of the Baltimore fleet were sunk by bombs placed on board them by the crew of a U-boat of the latest pattern—about 300 feet in length—which attacked the fleet 20 miles off Baltimore.

The fishermen were only allowed 10 and in some cases only three minutes to get out of their boats, and all their belongings were sent to the bottom of the sea with their boats.

A British patrol boat, which caused the submarine to submerge, enabled the other boats to return to port. The enemy did not spare the smaller craft, for they bombed two open boats, and, preferring not to waste a bomb on it, smashed to bits with a large hammer the engine of a little motor boat, and left it to drift about on the sea. No lives were lost, but for that the Germans deserve no thanks, for they refused the fishermen permission to take oars into their punts.

One fisherman, resenting the refusal said to the commander of the submarine, "I thought the Germans would do nothing to the Irish—that ye liked us!"

"Ah, my dear fellow, you don't know the Germans yet," was the commander's reply.

The German declared that "they would have every Irish fishing boat at the bottom of the sea before a month," and that they intended "shelling villages on this coast shortly."

A Baltimore skipper's opinion of the proceedings was: "Tell all America that the Germans are the worst savages on earth and that this is their most cowardly blow yet, and that we hope and trust with the aid of our kith and kin in America the arch fiends will soon be swept from the face of the earth."

QUEBEC'S SIX HUNDRED

Glory of 22nd French-Canadians at Courcellette on Somme

Captain Gustave Lanctot, formerly with the 73rd Highlanders, gave an interesting description of the gallant and unforgettable deeds of the 22nd Battalion at the Battle of Courcellette, where on the 15th September, 1915, a Canadian Division attacked the German positions, and against terrific odds, inflicted punishment on the enemy and came out of the battle with glory. Capt. Lanctot was at the front at the time of the battle, and though not with his French-speaking comrades at the time Courcellette was taken, he was in the same sector and his record was collected from official information, and from the men who participated in the attack.

Four Canadian battalions took part in the Battle of Courcellette, and they all distinguished themselves. A few hours before the battle began, the commanding officers of the four battalions were called into conference by General Turner, who commanded the division, and in the plan of campaign was explained to them, Col. Tremblay, who had charge of the French-Canadians, asked for the privilege of leading the attack, because the 22nd was the senior battalion. This was agreed to and it was under these circumstances that the 22nd Battalion went "over the top" first, and played a prominent part in the operation.

Courcellette was a veritable fortress and the Germans had adopted every device that their military skill could suggest to keep the town, but the Canadians took possession in a way that has often been told, and will never be forgotten. Out of the 640 French-Canadians who went into the battle on the 15th Sept., only 250 answered the roll call next day.

SAFETY FIRST

Simple Devices Which Have Proved Good in War

An ingenious method of devising shelters against both the enemy and the weather was adopted by the British troops in France. Heavy rains had overtaken the army, and so a new style of tent was erected by them. Fixing a number of stakes in the ground, Tommy covered the top with tarpaulin, or the nearest approach to it which he could procure, and so managed to keep out of the moisture. But the enemy's artmen had also to be remembered, and so on top of covering the soldiers piled up great masses of branches covered with leaves. The result was that from overhead such an encampment presented the appearance of growing foliage, instead of the tents for which the air scouts were looking for.

Disastrous Mistake

A subaltern, writing from France, gives the following incident: A party of twelve bringing up tea walked straight up to a Boche trench, asking, "Is this our bloomin' front line?" and quickly discovering their mistake cheered to the left straight on to a German bombing post with disastrous results to themselves.

DROUGHT HITS GERMAN CROPS

Excessive dry Weather Causes Conditions Most Dreaded By Farmers There.

COPENHAGEN, June 19.—Official admission of food difficulties in Germany resulting from a shortage of potatoes and the inadequacy of grain stocks to afford a supplementary bread ration, is made in an announcement of the food control department. The announcement states that the official fiction of the five-pound potato ration will be abandoned and that while an attempt will be made to supply bread in the place of potatoes the quantity must be reduced.

Berliner Tageblatt reports after having made inquiries, that two pounds, or, at the highest, three pounds, of potatoes weekly is all that can be supplied until new potatoes are available in mid-July, and that instead of 140 grammes of bread, a little less than five ounces, hitherto supplied as a substitute for each failing pound of potatoes, only 70 grammes, or less than 2 1/2 ounces, can be furnished. Tageblatt's statements regarding possible potato rations are interpreted as meaning, if anything, on the optimistic side.

DROUGHT AFFECTS GRAIN

Prospects for the grain crop are becoming dark owing to the long continued drought. A few showers fell the first of this month, but the amount of rainfall is quite inadequate and for a fortnight the German weather reports from all parts of the empire have reported cloudless or slightly cloudy skies. There has been no precipitation or at most an occasional and isolated millimetre of rainfall and high summer temperatures prevail. These conditions on the light sandy soil in a large part of Germany are conditions in June most dreaded by the farmers. With such a season the crop experts, who a fortnight ago were saying that with plenty of rain an average crop could be expected have of late discontinued discussion of an apparently unpleasant topic.

CANADIANS ARE POPULAR

English Soldier Gives Tommy's Idea of Canucks

Writing from the front, Sergt. L. Jackson, 51st Sanitary Section, A.M.C., refers to the popularity of the Canadian troops in France. "Since I have been in the trenches," he writes, "I have met your Canadian boys several times. They are a fine lot of fellows and are very popular with the English Tommy. I am stationed at present in a well-known town, which is the place where the Canadians made their name when they first came out. In fact, we took over from a Canadian sanitary section. They left baseball bats, violins and no end of stuff, and the only reason we could assign for their having done so is that they are paid much better than the English soldier, and can afford many things which are beyond the reach of our fellows. They get lots of fun out of their baseball games. The latter, however, are not popular with our men."

COLONEL BEST BOXER

Col. Hercule Barre of 150th Won Honors in England

At an assault-arms in Witley Camp, England, between Canadians and English forces, Col. Hercule Barre, of the 150th French-Canadian Battalion, who was wounded in the first battle of Ypres, and made a Chevalier of the Legion of Honor, won second prize in the Middleweight Open class of boxing, and first honors in the officers' class. Sergeant "Bob" Aikin, a member of Col. Barre's regiment, for some years probably one of the best known figures in the hotel business in Montreal, won the second prize in the Open Heavyweights. Col. Barre, whom Sir Sam Hughes described as a "hard-bitten fellow and a tough soldier," recruited and commanded the 150th. He had already been on active service with the 14th Battalion of the First Contingent, and was returned wounded.

TWELVE MILES OF GOLD

Some Idea of Size of Britain's Great War Loan

"How difficult it is," says a writer in a London paper, "for anyone to form even a faint idea of what a vast sum like £1,000,312,950 really means! If it were possible to collect inputs of pure gold to this amazing value, they would fill a line of trucks extending along a railway for upwards of twelve miles. As a matter of fact, there would be in that train at least half the gold in the world."

How Spies Are Outwitted

A London paper writes: Long after all the commercial world had forgotten the existence of such a thing, the British Foreign Office used a sand shaker to dry its important written documents. Then specially manufactured ink blotting paper was used, but this was not found to be spy proof and returned to the sand shaker was contemplated, when someone suggested the simple expedient of a small absorbent roller. These rollers have since been used for drying diplomatic documents. When such a roller has been run up and down a document once or twice, the cleverest spy in the world is at liberty to try his hand at deciphering the impressions.

Facts About Prize Money

During these frequent "scraps" against the Spaniards, Drake secured for his crew many thousands of pounds in the way of prize bounty, or "head" money, as it was termed then. A case in point is the capture of two Spanish frigates off the Isle of Wight. When these prizes were overhauled a veritable Tom Tiddler's ground was brought to light, and the following were the individual shares of the lucky recipients: Captains, \$242,650; Lieutenants, \$25,455; warrant officers, \$14,840; petty officers, \$5,955; seamen and marines, \$316.

GIRL MUNITIONERS IN BRAVEST OF ROLES

Long Hours and Hard Work on Night Shifts For Thousands of Britain's Daughters

An Englishman writes: Few who go comfortably to bed at their accustomed hour realize the strenuous efforts and continuous labor exerted throughout the night, and every night, by a considerable section of their fellows. Thousands of girls have answered their country's call and left the busy cities for munition areas to fall into line in the ranks of those who are responsible for the maintenance of the output of the necessary explosives. The scenes of their endeavors are mostly situated among lonely hills or desolate marshes. In many cases housing accommodation immediately near the great factories is inadequate, and thousands, after twelve long hours of work, have to walk or ride several miles to their resting places.

The work goes on with persistent ceaselessness night and day. Nor is it gloomily undertaken; nearly everywhere the girls sing as they work. At about eight o'clock they go to "breakfast" and somewhere between midnight and one o'clock "dinner" is ready for them. By common consent these names are given to the meals, for to these girls night is as day.

Who beside the hapless one who shows signs of the "Old Man"—a name given to sleepiness; moroseless is the sarcasm brought to bear on the offender. Everything looks orderly and quiet, prosaic and matter-of-fact, but all realize the danger that lurks on every hand. The machinery alone offers the risk of minor accidents, and within the factory there is a hospital beautifully fitted out with all necessary appliances for immediate aid.

Smiling Amid Danger

Sometimes a finger may be caught within the grip of the unfeeling rion. Instantly another girl fills the sufferer's gap, as her brother does in the trenches. The work must go on! Sometimes when the air is heavy and the gaseous fumes rise sluggishly, a girl may be carried fainting from the rooms. But work does not slacken, and these same girls make light of such mishaps, returning with a song upon their lips.

Danger greater still lurks everywhere, and smiling, happy-looking girls are not ignorant of the fact, but like true heroines they cheerfully face the risks and invite others to do the same.

WAR CREATES INVENTIONS

What Happened When Great Britain Blockaded France

That new and more nutritious foods will be introduced as a result of the war, none who have studied the subject will deny. Great wars have always deflected the question of the people's food supply, and brought their notice not only new commodities, but how best to conserve their own food resources. For instance, a hundred years ago Britain was at war with France. She blockaded her ports just as to-day she blockades those of Germany. The result was that very little overseas foodstuffs reached France, and Napoleon found himself seriously embarrassed as to food supplies for his armies. He wanted something more for his men besides things that were dried or smoked—a desire that was enhanced by his knowledge that huge quantities of perishable foods were wasted because of the lack of adequate means of preserving them. He therefore offered a prize of \$2,500 to anyone who would devise a practical method of preserving such foodstuffs. A method was soon discovered, and out of it has grown the world's canning industry.

LONDON'S AMBULANCES

Volunteer Society Which Does Much For Wounded Soldiers

Among the myriads of ways in which England's people try to repay a little of the gratitude owing to the soldiers, and not the least trifling, is that chosen by the workers who have charged themselves with the duty of meeting the trains of wounded at London's main stations to convey the broken soldier in comfort and security to hospital. They call themselves the London Ambulance Column, and they owe their existence to the fact that when the war broke out few means for taking soldiers to hospitals were available.

When the first train of wounded and sick from the front arrived in London, the whole of the transport facilities at the command of the Column were two motor ambulances and a couple of private motor cars loaned by their owners. The rest, other than those exceedingly bad cases, which the motors dealt with, were taken in store carts to various hospitals. So the organizers of the Column borrowed vehicles, and were presented with others, until they had 110 private cars at their disposal, and fifty ambulances, which have been presented to them.

Many cars are driven and kept in repair by the owners themselves, and they also undertake to supply all the petrol necessary for their running; other owners have loaned their cars and their chauffeurs to the Column, while still other cars are loaned without drivers—in which case they are staffed by the Column.

The drivers are all men ineligible for service. It would be impossible to employ women drivers, for the conditions of the work are arduous, and the hours frequently extensive. Sometimes it is necessary to take cases right out of London altogether, in the small hours of the morning, and the vitality of women would fail.

The organizers of the Column, Mr. and Mrs. Dent, placed the whole of their private house at its disposal. Furniture has been warehoused to provide offices and store rooms for pillows and blankets; their garage has been turned into a repair shop, for the care of injured vehicles.

TREATMENT OF TUBERCULOSIS

Military Medical Board Re- commends Compulsory Treatment of Soldiers.

(Canadian Press Despatch.)
OTTAWA, June 19.—The conference of medical officers in charge of Sanatoria conducted by the Hospital Commission has adopted some strong resolution on the professional aspect of fighting tuberculosis. Soldiers who wish to refuse treatment are not to be allowed to sign waivers releasing the Government of its obligations. The medical officers hold that treatment should be compulsory in the interest not only of the afflicted, but of the community generally. Indeterminate periods of treatment are recommended. Soldiers who are to enter Sanatoria will be allowed to make a short visit to their homes on leave. The directors of small Sanatoria were criticized for expecting medical officers, in addition to looking after patients, to keep books, buy supplies and tend horses and cows. Granting leave at holiday times to patients who would travel on crowded trains was condemned.

U-BOAT SUNK BY CRIPPLED STEAMSHIP

British Freighter Attacked Submarine and Shells Split Craft in Two.

NEW YORK, June 19.—In a battle between a crippled, stranded British steamship and a German submarine off the Italian coast in May, both craft were destroyed, according to members of the crew of the American steamship Hiltonian, which arrived here yesterday. The Hiltonian was sunk off the Italian coast on May 15, the crew being landed at Albenga.

On the same day an unidentified British freighter carrying coal also was torpedoed, but the captain managed to run his ship into shallow water before she partly sank. Two days later the Americans asserted, the submarine returned to the attack and launched a torpedo which hit the steamer amidships and almost blew her apart. As the submarine came to the surface to observe the effects of the shot two deck guns on the stern of the freighter were turned on her. A six-inch explosive shell hit the U-boat and she was seen to turn over twice and split squarely in two before going down. During the fight which took place less than a mile from shore, coast batteries also turned a fire on the U-boat.

CAMERONTIAN TORPEDOED.
LONDON, June 19.—The British transport Camerontian with a small number of troops on board, was torpedoed and sunk by an enemy submarine in the Mediterranean on June 2, it was officially announced last night. Sixty-three persons including the captain of the transport, are presumed to have been drowned.

The Camerontian which is on record as belonging to F. Lyland and Company, of Liverpool, was a vessel of 5,861 tons, built in 1913 at Binswarden. She was a originally the Kamerun Hamburg-American liner and was one of the interned German steamers taken over by the British and renamed.

JAPANESE WARSHIP SINKS HUN SUBMARINE.

LONDON, June 19.—An official statement yesterday by the British Admiralty says that a Teuton submarine has probably been sunk by Japanese warships in the Mediterranean.

"The Japanese naval attaché communicates that one of the Japanese flotillas in the Mediterranean on the evening of June 12 encountered an enemy submarine and immediately attacked it with, it is believed, good success, and probably sank it."

TORONTO STEAMER SUNK IN DETROIT RIVER BY COLLISION

(Canadian Press Despatch.)
DETROIT, Mich., June 19.—The steamer Natronco, of Toronto, was sunk in the Detroit River this afternoon after a collision with the passenger steamer Eastern States. The latter was bound for Cleveland, but sustained a damaged bow and returned to Detroit. There were no casualties. The Natronco was built in 1892, and is 225 feet long. She lies close to the channel, near the Canadian shore.

LATEST TELEGRAPHIC DESPATCHES**CANADIAN CASUALTIES NEAR 100,000**

OTTAWA, June 19.—Sir Edward Kemp informed the House of Commons yesterday that the total Canadian casualties up to June 5th 1917 were 99,639. Under the heading "Casualty" are included killed in action in action died of wounds, died of sickness, presumed dead, wounded including gas and suffering from shell shock, missing and prisoners of war. The term "casualty" does not apply to unwounded officers and men in hospitals or convalescent homes. Of the casualties 68,639 are in the wounded category. This does not mean that many men have been wounded, as some have been wounded twice and others more often. On June 4th there were 23,265 Canadian patients in hospitals and convalescent homes in England. Of the remainder some had recovered and returned to duty, 1,500 medically unfit had taken their discharge in England, and 12,500 had returned to Canada.

REFERENDUM NOW TOO LATE

Should Have Been Resorted to at Outset of War, Says Toronto Star.

(Canadian Press Despatch.)

TORONTO, June 19.—The Star is opposed to a referendum on the issue of conscription, "not because we fear it might result in an adverse vote, but because, if we are to have government by referendum, it should have been resorted to at the outset of the war, and it should have been taken on the question whether Parliament should carry the country into the war. But we did not have it."

"Parliament as at present constituted—made up of the members who now sit in it—is responsible, along with the Government, for the sending of our armies into this war. Are these members going to support the theory they have sent the front, or are they going to repudiate their pledges and withdraw Canada from the war as fast as our abandoned battalions are wiped out on the battlefield?"

"The party aspect of the situation, so far as Liberals are concerned, has its national importance, and is therefore not to be ignored. The way out for English Liberals, who believe in conscription, is for their leaders to stand by their convictions, drawn off neither to the right nor the left, and to preserve for the English portion of the Liberal party in Canada, a rallying point around which it may gather when the issue is fought out, as it must be, throughout the Dominion, sooner or later."

MONTREAL, June 19.—The Star sums up its editorial on the conscription measure as follows:

"Canada is sternly confronted with three alternatives: (1) She can go on with the war; (2) She can agree to an armistice for the summer, which would be the practical meaning of a referendum; or (3) She can sign a separate peace with Germany, which would be the practical meaning of finally rejecting conscription. If Russia were to agree to an armistice, we know what we would think of her. If she were to sign a separate peace, we know what that would affect us."

SUBMARINE TOLL ON BRITISH SHIPPING

In Four Months 322 Vessels of More Than 1600 Tons Were Sunk.

NEW YORK, June 19.—An Associated Press despatch from Washington yesterday says:

"The German submarine toll of British merchant ships since February 17, as shown in official British figures compiled here today, is 322 vessels of more than 1,600 tons and 135 of less than 1,600 tons. British steam fishing vessels sunk in that period numbered 78. Records for sailing vessels are incomplete, but a three weeks' total was 78.

"Submarines in the period given attacked 299 ships unsuccessfully, and the weekly percentage of unsuccessful attacks has ranged from 51 to 75. During the last week given, the seven days ending with June 9, it was 58.

"Arrivals and sailings in British ports since the intensive submarine campaign began have averaged about 2,500, but these include Channel sailings."

"The British figures do not give the tonnage of vessels sunk, but officials here say 5,000 tons probably would be a fair average for vessels of more than 1,600 tons destroyed. Computing the total at that average and putting the average of the smaller ships at 1,000 tons, the total loss during slightly less than four months' submarine warfare would reach 1,745,000 tons, or about 250,000 tons less than the entire world's shipping output during 1916."

HUNS TRY NEW SCHEME TO GET INFORMATION

Send Out Letters Purporting to Be From Prisoners of War and Ask For Military News.

(Canadian Press Despatch.)

PARIS, June 19.—An official note issued last night warns families of prisoners of war in Germany against letters purporting to come from prisoners which contain requests for parcels of food, or for certain information of a military character to be conveyed by means of underlining certain words, which together form phrases. Sometimes, it is suggested, answers can be written in saliva on the inside of envelopes.

The public is recommended to send these letters to the military authorities. It is said these proceedings are employed by the enemy to obtain information and food parcels for their own use.

RUSSIAN MOSLEMS AND SELF-GOVERNMENT

Delegate to 'Stockholm Expects Great Results From Socialist Conference.

(Canadian Press Despatch.)

LONDON, June 19.—The Stockholm correspondent of the Chronicle reports the arrival of Abdurroschid Ibrahim, representative to the Socialist conference from the Russian Moslems, who has issued a statement in which he says he has been authorized to inform the conference concerning the Moslem peace interests. He said that 25,000,000 Russian Moslems are building great hopes on the conference, which they expect will claim self-government for all peoples, but they think first of the hundreds of Moslems living in the English and French colonies, and he says, they anticipate with joy that the conference will claim national independence even for them.

DEPORTATION OF BELGIANS CONTINUES

Belgian Government Denounces Statement of Germans That They Had Stopped.

(Canadian Press Despatch.)

HAVRE, June 19.—The Belgian Government, in an official statement issued today, denounces the bad faith of the denial of the Wolff Bureau on June 7 of the continuation of the deportation of Belgians. The denial, the Government declares, avoids the essential facts, and concerns itself only with the question of the place to which the Belgians had been deported. The Belgian Government maintains that the deportations continue, and that they did not cease as the Wolff Bureau stated, on February 10.

Rally at East Angus Largely Attended. Clergy Pledge Support to Cause of Prohibition.

EAST ANGUS, June 19.—(Special)—The first temperance mass meeting in the interests of the Compton County no-license campaign was held Sunday night in the Star Theatre. In spite of the very disagreeable weather, which prevented people from outside coming into town, the hall was well filled with English and French citizens. The president of the English local branch, Rev. G. A. Sisco, presided at the meeting. On the platform with him were Rev. Father Plomond, Rev. Father Tourette, Rev. J. B. Sincennes, Ex-Mayor Cate, of Sherbrooke, and Mr. John H. Roberts, secretary of the Dominion Alliance. The local clergy were called upon and gave short addresses, pledging their support and co-operation in the campaign. The Rev. Father Tourette, of the Dominican Order of Monks, who is conducting revival work in the Roman Catholic Church, spoke in English, endorsing most heartily the temperance movement, calling for union of all forces and pledging his hearty support in the local contest.

Ex-Mayor Cate, of Sherbrooke, was then called upon and dealt with the liquor evil under the head of waste and inefficiency. In a very forceful and convincing manner he proved that the food condition of today was too serious to allow the waste caused in the manufacture of liquor. Mr. Cate made a plea for a dry county, which act would, in his judgment, materially help in the work of conservation.

Mr. John H. Roberts gave a very inspiring address, in which he outlined the reasons why the liquor traffic should be voted out. Due to his years of service and wide experience, he was able to recite convincing arguments to prove that where there is drink there is danger, while on the other hand prohibition brings in a trail of blessing. The meeting closed with the singing of the National Anthem.

There will be another mass meeting on June 27, when another Dominion Alliance speaker will be present, together with Rural Dean Roy, of Cookshire, and Rev. Spencer Percival, of Sawyerville.

TRANSMISSION LINE TO WEEDON

(Continued from Page 1)

for a temperance license at the Grand Union Hotel, as the chief of police was opposed to granting same.

LICENSES GRANTED.
A business license was granted to the Colonial Hide Co., also a restaurant license for the Stanley Cafe at 180 Wellington street. Numerous applications for licenses for lunch carts, refreshment stands and shoe shine parlors were granted, and a billiard table license was accorded to the Grand Central Hotel.

BAND CONCERTS.
Ald. Edwards drew attention to the fact that \$300 had been voted to the bands. He felt that they should give weekly concerts during that summer in return, and asked that the secretary write the band officials accordingly.

TWO MILES FALLS POWER.
On the recommendation of the gas and electric committee, and in view of the statement of the city engineer that he had no time with his present work to trace the proposed transmission line from Weedon to Sherbrooke, the council appointed Mr. A. C. Crepeau to do the work at \$10 per day and expenses.

Ald. Edwards approved of the appointment, but as there was no appropriation for this work, and as the expense would have to come from the proceeds of the sale of bonds under the \$150,000 by-law, he urged that the work be not commenced until the ratemakers had approved of the by-law.

The council passed the by-law to authorize the borrowing of \$150,000 for building the transmission line. Ald. Parkes and Skinner voted against it on the ground that the period of 30 years fixed for the bonds was much too long. The ratemakers meeting to decide if a vote be taken on the by-law was fixed for July 4.

The by-law for the improvement of the Brompton road was adopted.

CONSCIENTIOUS OBJECTORS SEND PETITION.

OTTAWA, June 19.—A number of the constituents of W. M. Gorman, M.P. for Welland, figure in the category of "conscientious objectors" to conscription. Sixteen of them living at Fonthill, Welland County, have forwarded a petition objecting to the "principle and service of war as indirect opposition to the principles and teachings of Christ."

The petitioners, while expressing their own sincerity, say that they have the utmost deference to the views of pro-conscriptionists. The petitioners say that they are loyal citizens of the country, but opposed as a matter of conscience to compulsory service.

ANOTHER RICHFORD BOY ENLISTS IN NEW ENGLAND SAW MILL UNIT FOR WAR WORK IN ENGLAND.

RICHFORD, Vt., June 19.—Thayer Jenne went to Boston Sunday night to join the New England saw mill men's unit, which sails for England for a year's work in milling timber for use at the war front in repairing bridges, building trenches and posts for barbed wire defences. The unit embraces about 30 men, 120 horses with full equipment of harness, etc., for lumbering operations, ten portable saw mills with full equipment, ten 60-power engines with equipment, and kitchen and mess room equipment sufficient for the party; all of which is paid for by New England people.

LEADER OF LIBERALS MOVES FOR REFERENDUM

and of married men of the same ages, 429,944.

"Of course, said Sir Robert, any of these men would not be fit for military service. Of those who had hitherto volunteered for active service, 25 per cent. had been rejected on first examination, and about 10 per cent. had been subsequently rejected.

"Then there are other considerations to be taken into account," continued the Prime Minister, "in connection with the exceptions in the act, and the principle on which exemptions are provided for, which I have already explained.

"I will, therefore, only say once more that I present this bill, which has been prepared with great care, with an earnest desire to do justice to all parties. I commend it to the House for consideration in the spirit in which it has been prepared, and I very earnestly hope the opinion of the House with regard to it will be expressed with the least possible delay, in order that whatever support this country can give the gallant men who are supporting the cause of this country and of liberty and humanity at the front to-day shall be given with the least possible delay." (Loud Government cheers.)

PRESS COMMENT ON REFERENDUM

(Canadian Press Despatch.)

HAMILTON, June 19.—The Hamilton Times says: "Sir Wilfrid Laurier has lost the greatest opportunity of his life to show his devotion to the Liberal interests of Canada and the Empire by intervening to prevent the application of conscription in this country."

OTTAWA, June 19.—The Ottawa Journal (Conservative) in the course of a lengthy editorial on the Laurier amendments says: "Sir Wilfrid Laurier, almost in so many words, invites Parliament to shelve the responsibility which the war has imposed upon it. An admirer of the British form of responsible government, Sir Wilfrid would have the Government of the day and Parliament shirk the vital duty of deciding on the evidence as presented to them."

BRANTFORD, Ont., June 19.—The Express (Liberal) editorially sums up the case for and against referendum seems to be the delay which declares: "The chief objection to a referendum seems to be the delay which would necessarily be involved at a time when avoidable delays should be unthinkable; that it would throw the country into a turmoil compared with which the enforcement of selective conscription would be nothing in comparison, and that it is contrary to the precedents set during the war by Great Britain, New Zealand and the United States."

It concludes: "Finally, a serious objection to referendum is that, despite the good offices of Sir Wilfrid Laurier, which he would undoubtedly give, there is no question that if conscription should carry on a referendum, while there is at least some probability that as a result of the ill-feeling developed during the election there would be greater hostility than ever."

LONDON, June 19.—The London Free Press says today: "The issue that the leader of the opposition raises is whether a single province may block the way to Canada's success in the war by the laws of Canada, or she is not. The majority rules, or it does not. The day of minority rule has gone by. Harmony is maintained by playing the national game upon an equality basis. Quebec is fully represented in the law making of the land. She ought to be as fully represented in the law keeping."

FIRE DESTROYED LARGE STEAMER IN PACIFIC OCEAN

(Canadian Press Despatch.)

VANCOUVER, B.C., June 19.—Loss of the freighter Waitotara, owned by the Union Steamship Company of New Zealand by fire last week in the Pacific, was reported in a cablegram received here today. She left here May 19th and San Francisco, May 23rd, with 7,000 tons of cargo, bound for Australia. The fire broke out after she had passed Suva. The crew is safe.

JAPAN RESENTMENT STORIES ARE FALSE

WASHINGTON, D. C., June 14.—Publication on Sunday and again on Monday of reports intended to make it appear that the Government of Japan has taken exception to the friendly interest manifested by the United States towards China, is ascribed to no responsible source. Such reports are false and have no foundation in fact.

HANDSOME GIFT TO HOSPITAL.

LONDON, Ont., June 19.—Sir Adam and Lady Beck have given a nurses' home to the Queen Alexandra Sanatorium and the new soldiers' tuberculosis hospital. The soldiers' building will be permanent, and, together with the present establishment, will provide for a total of some 250 patients, with 165 acres of land in one of the most picturesque spots in Ontario. Sir Adam is founder and president of the sanatorium.

AMERICAN OIL TANKER SUNK

Four Members of Crew Reported Lost. Vessel Was Armed and Carried Gun Crew.

(Canadian Press Despatch.)

NEW YORK, June 19.—The oil tank steamer John D. Archbold, of the Standard Oil Co., has been sunk by a submarine. The announcement was made at the office of the company here today. Four members of the tanker's crew were lost. The Archbold was sent to the bottom last Saturday in European waters. The John D. Archbold was two days out en route to this country from France. The ship was armed, and a gunner's crew from an American warship was on board.

The John D. Archbold was an American steamship of 8,374 tons gross register, owned by the Standard Oil Company, and built in 1914 at Newport News. The ship left here May 20 for Havre and Rouen, France, with a cargo, under the command of Captain H. B. Thompson, with a crew of 41 men.

CITY COUNCIL VOTES UPON CONSCRIPTION

(Continued from page 1)

those present at the meeting on Sunday night, that was as far as they could go. By withdrawing the motion Ald. Forest and Gauvin would save peace at home and all would be better friends.

MAYOR OVERRULES OBJECTION.

The Mayor said there was no doubt all the citizens knew the opinion of the Sherbrooke aldermen on this question. He did not see why the Council should not state their opinions publicly. If Ald. Forest refused to withdraw he, the Mayor, must put the motion.

ANOTHER POINT OF ORDER.

Ald. Parkes then raised another point of order. Quoting from the statutes he claimed that no alderman could take part in any discussion in which he was personally interested, neither could he vote. Ald. Parkes claimed that Ald. Forest, Edwards, Tetreault, Skinner and perhaps Ald. Deiorne were under 45 years of age, that Ald. Fortier had a son at the front who had been wounded, and therefore these aldermen had a strong personal interest in the resolution.

The Mayor told Ald. Parkes that if he had no further arguments those brought forward could not be considered.

MOVES AMENDMENT.

Ald. Parkes then moved an amendment that the petition he referred to the chairmen of all the committees for a report at next meeting.

MOTION CARRIED.

The amendment was not seconded and the motion was carried by 7 to 3.

FOR—Forest, Genest, Gauvin, Braut, Tetreault, Deiorne and Fortier.

AGAINST—Parkes, Edwards, and Skinner.

At the close of the meeting Ald. Parkes was observed to open a package which had been placed under his desk. When the wrapper was removed, the eyes of all present beheld a toy gun.

The public seats were filled with anti-conscriptionists who frequently applauded and cheered at the result of the vote.

SWISS ACTIVITIES EXPOSED.

PETROGRAD, June 19.—America's commissioners to Russia are intensely interested in exposing Swiss activities in the new democratic nation. One of the American party was authority yesterday for the statement that Switzerland's agitation in Russia was of the same character as that which Dr. Ritter, Swiss Minister in Washington, headed shortly after the departure of German Ambassador von Bernstorff.

"Here, however," the American observed, "the Russians caught them with the goods."

CABBAGE CIGARS NO MORE A JOKE IN GERMANY

(Canadian Press Despatch.)

COPENHAGEN, via London, June 19.—Venerable jokes about cabbage or hay cigars have become a sad but serious reality in Germany, owing to the scarcity and high cost of genuine tobacco.

The latest war substitute within the purview of the Governmental department on substitutes is composed of the above tobacco, with other ingredients like strawberry leaves, lavender blossoms and sandalwood to impart aroma.

HORSE BREEDING INDUSTRY IN CANADA

The war will probably do more for the horse breeding industry of this country than anything else could have done.

No legislation could ever touch a farmer's pocket in the same effective way that having unsound horses turned back upon him has done. This has shown him beyond a doubt that if he is to realize good prices for his animals they must be sound, and in order that they should be sound they must have sound sires as well as sound dams.

There has been in the past a general use of stallions lacking in quality and breeding. Farmers have failed to properly appreciate the value of a pure bred stallion of desirable conformation. Hundreds of inferior stallions have been and are now in use and the idea is still abroad that the close proximity of one of these to the prospective breeder's farm combined with the low cost of his service is excuse enough for his use.

Twenty-one states in the American Union have enacted legislation regarding the public service of stallions. In Canada, excepting in the case of one or two of the provinces, no attempt has been made to regulate this important matter. Ontario has such legislation on her statute books, but whether it will be put into practice and so be made a stimulus to the horse breeding industry or whether the cry of those who are content to remain in the rut be listened to as happened in the case of the recently enacted legislation regarding the sale of milk and cream to cheese factories and creameries, remains to be seen. But no matter what our laws are, Canadian farmers with such splendid opportunities for the acquiring of advanced agricultural knowledge at their disposal, should voluntarily refuse to breed to raise a scrub as it does a good grade or a pure bred and when you have him at the age of three or four years he is worth less than nothing. This for the reason that he cannot be sold for as much money as was required to feed and to care for him during his period of maturity.

RACE HORSES GO TO UNITED STATES

Seventeen Yearlings From Famous Stable Sold as Result of Prohibition on Racing.

(Canadian Press Despatch.)

LONDON, June 19.—As a result of the prohibition of racing in England, seventeen yearling race horses, the get of celebrated sires, and forming the entire stable of the famous Sledmere stud, have been sold to an American buyer by Sir Mark Sykes. The buyer and the price have not been announced, but Sledmere's always have fetched big prices at the annual Doncaster sales.

\$225,000 AWARD IN BREACH OF PROMISE SUIT

(Canadian Press Despatch.)

NEW YORK, N.Y., June 19.—A verdict of \$225,000 in favor of Miss Honora May O'Brien, 28 years of age, in her breach of promise suit against John B. Manning, a retired banker, 80 years of age, was awarded by a State Supreme Court jury in Long Island City, yesterday. The plaintiff, secretary to a New York newspaper man, alleged that the defendant, father of grown children broke his promise to marry her.
