QUEBEC, MONDAY, JUNE 12, 1882.

COL STEVENSON'S RETIREMENT.

The elections of Montreal West are greatly excited over the retirement of Colonel STEVENSON from the coming contest. He was at first accounted a pretty strong man, the superior of Mr. BULMER in many respects, and a shrewd talker. As the canvass went on however, and Mr. WARD the Liberal candidate became better known among the electors, it soon grew apparent that the gallant Colonel had no chance to win. It was urged as a canvass against him that he was a Free Mason and a volunteer, and as there were very many voters in the West division who are opposed to one or both of these organizations, it was felt among Ministerialists that a stronger man must be at once selected to carry the Conservative standard. At the last moment, the present popular representative of the constituency, Mr. H. GATLY, Esq., was induced to re-enter the field. He did so on Friday night, when the Colonel withdrew his name from the list. The contest is now between Mr. GATLY and Mr. WARD. There can be little doubt as to the result. Mr. GATLY's majority will be nothing short of a thousand. In 1878 he wrested victory from Mr. DARLINGTON, a popular opponent, by fully seventeen hundred majority.

BAD NEWS FROM IRELAND.

The news from Ireland grows worse and worse. Much of the country seems given over to lawlessness, and agrarian outrages of a very dire description are reported in several of the fatter sections of the community. A great deal of excitement prevails among the people, and the shocking and objectionable murders which have been committed on defenceless, and often aged persons, within the last few days, have awakened very bitter feelings indeed. How it will all end for unhappy Ireland, no one can tell, but one thing is quite clear, something must be done to check these growing disorders against law, human rights and the face of heaven. Our despatches, to-day, tell a harrowing story of dependency, crime and horror. The Lord Lieutenant and the permanent officials under his control spent the night of Friday last at Dublin Castle, sending out instructions to various parts of the country regarding landlords and officials whose lives were reported to be in danger. An attempt was lately made to assassinate farmer Brown, while at work in his field, near Ballina. Six men approached him, and after demanding of him the reason why he took his farm when he had been warned not to do so, they fired six shots at him. Two bullets lodged in his thigh, and the old man, who is upwards of sixty years of age, fell to the ground insensible. When found he was picked up for dead, but though alive it is expected that his death may occur very soon. The daring of this crime may be imagined when it is learned that just ten minutes before the shots were fired the police patrol passed the scene of the tragedy. Four men have since been arrested on suspicion of having taken part in the attempt to murder Brown. At Roscommon another revolting crime was attempted the other day when an extensive farmer and mill-owner named East was attacked by three men with blackened faces. They carried heavy bludgeons, and though it was in broad daylight they scaled the wall and attacked their victim savagely. His son rushed to his rescue but was compelled to flee. East's wife then approached the cowardly miscreants but was driven away and her life threatened. The farmer was shot in the hip, knee and ankle, and at last succumbed to his wounds. Four men were arrested, but East, unfortunately, was unable to identify any of them as his assailants.

What adds to the horror of these bloody crimes is the utter lawlessness of the police to put them down. In every instance, almost, the desperadoes manage to make good their escape.

DEATH OF ANGUS MORRISON.

The regret very much to hear of the death of ex-Mayor MORRISON, of Toronto, which occurred in that city on Saturday morning last apparently from heart disease. Mr. ANGUS MORRISON was a very useful man in his day, a politician of the old school of Conservatives, a consistent supporter of Sir JOHN A. MACDONALD for many years, and a kindly, genial gentleman of generous impulses and manner. He has often sat in Parliament, has been Mayor of Toronto, and has been intimately connected with the growth and development of the Queen City for over a quarter of a century. He will be much missed in the circle of which he was a conspicuous member, and everyone who knew him will be sorry to hear of his death. The manner of it is very sad indeed. He was found dead at nine o'clock on Saturday morning. Of late he had been complaining of acute attacks of the heart. When discovered, his hand was lying over that organ as if he had been suffering a good deal before dying. Within a week or two ago, Mr. MORRISON's name was mentioned in connection with the candidature of one of the Torontoites in the Conservative interest. In the old election campaigns he was always a popular candidate.

ANGUS MORRISON was born in Edinburgh, Scotland, on the 20th of January, 1824. He came to Canada when only

eight years old in company with his father, the late HUGH MORRISON, who was killed by an accident in the Old Market Square, Toronto, at a political meeting in 1836. Mr. MORRISON was educated partly at Belfast, Ireland, and partly in Upper Canada College, Toronto, finishing his studies at a grammar school. In his younger days he was quite an athlete, and took much interest in rowing, winning and holding the championship of Toronto Bay in 1840-41 and 42. He was President of the Toronto Rowing Club for fourteen years, and greatly excelled in curling, shooting, cricketing and kindred sports. He was first secretary, and afterwards President of the Toronto Curling Club. He studied law in the office of Messrs. BLAKE & MORRISON, and was called to the bar in 1846, when he entered on a most successful and lucrative practice. In 1853-4 he sat in the Council for St. James Ward. In 1854 he represented North Simcoe in Parliament, and remained member for that constituency until 1863, when he was defeated at the polls. After this defeat he sought the suffrages of the people of Niagara, and was elected, and represented that constituency in 1864, and up to the time of his overthrow in 1873. In 1874 he was defeated in Centre Toronto by the late ROBERT WILKES. In 1875 he became Mayor of Toronto, his majority being the handsome one of 1,890. He was re-elected in 1877 and in 1878. In 1887 he was made a Queen's Counsel. In 1856 he married JANE GILMORE, daughter of General GILMORE of Three Rivers, a veteran of the war of 1812. The fruit of this union was six children, four sons and two daughters.

EASTERN TOWNSHIPS BANK.

ANNUAL MEETING, 1882.

The Annual General Meeting of the Shareholders of this Bank was held at their Banking House, in the city of Sherbrooke, on Wednesday, the 7th day of June instant, only a small number of shareholders being present. The usual notice calling the meeting having been read.

On motion of R. W. Heneker, seconded by J. B. Paddon, Lt.-Col. King was unanimously chosen Chairman of the meeting.

On motion of Rev. A. C. Scarth, seconded by Major I. Wood, Wm. Farwell, the General Manager, was elected Secretary.

On motion of Hon. J. G. Robertson, seconded by R. W. Heneker, Messrs. J. B. Paddon and Major Wood were elected scrutineers of votes.

The minutes of the last annual meeting having been read and confirmed.

R. W. Heneker, on behalf of the Board, read the following REPORT.

In submitting their usual Annual Report, the Directors desire to congratulate the stockholders on the prosperous year just brought to a close, and on the increased volume of business which the accounts disclose, as exhibited in the annexed Balance Sheet of the 15th ult., and the Profit and Loss Statement of the year.

The balance of profit brought forward from the preceding year was \$1,726.20, to which there has been added—after making full allowance for bad and doubtful debts—\$14,000.25, making a total of \$15,726.20. A dividend at the rate of 3 per cent was paid in January last, and at their meeting yesterday the Directors declared another dividend of like amount, payable on the 3rd day next.

These two dividends together, 7 per cent, amount to the sum of \$97,572.35, leaving \$32,423.35 still to be disposed of. The Directors propose to place \$30,000 of the credit of Reserve Fund, thereby increasing the said fund to \$270,000, representing nearly 20 per cent on the paid up capital, and to carry forward \$3,242.50. They held to the principle that a wise banking policy is best shown by a large reserve and the payment of a fair interest to stockholders, and they are pleased to be able to show that the reserve of this Bank rapidly regaining the position which it held before the late disastrous financial state of affairs.

Until lately there have been few matters to excite the interest of the stockholders. As before remarked, the volume of business has been very large, yielding a net profit in the year exceeding that of the previous year by \$10,000, and this in the face of cheap money, the rates of loans having gradually been reduced from time to time. Apart from these results, all money lenders in the country, it has no doubt told adversely on the incomes of those who depend on their investments for a living. The interest deposits of this bank have also increased from \$1,109,926.00 to \$1,507,772.00, on which interest has been paid at the rate of 3 per cent. The circulation has also increased from \$702,734.00 to \$875,260.00, notwithstanding the withdrawal of the four dollar bills, through the operation of the Statute of 1880, which took effect in July of last year.

The increased means thus placed at the disposal of the Directors, have been carefully used and the larger profit of this year has not been earned on a speculative, but as they believe, on a sure basis.

The City of Sherbrooke has shown great activity in trade. Its mills and factories have been in successful operation, giving employment at good wages to a large number of operatives. In the immediate neighborhood the copper mines at Capetown, and the opening of new mines in various directions—iron, silver and asbestos—have shown the value of the mineral deposits of this section of country. The lumber trade has also been lively and productive, and the farmers obtained a good value for their harvest of last year. The completion and extension of some of the railways which make Sherbrooke their centre, have added to the development of trade. In Cooktown the cotton and other industries have told favorably on the resources of the town and surrounding country, and in every section of the townships a life and activity have been manifested, showing present prosperity and a hopeful sign for the future.

It is however during times of prosperity that watchfulness and care in the administration of banking affairs are peculiarly needed, and the Directors hope that their successors in office may be enabled to exercise caution while evincing a proper desire to aid legitimate trade.

The whole respectfully submitted.

R. W. HENEKER, President.

Wm. FARWELL, General Manager.

After reading the report, the President addressed the shareholders, explaining more fully the various items of the Statement, and remarking upon the general prosperity of the country. He was of the opinion that business generally was on a safe, sound basis, but if it was to continue so, great care and watchfulness must be exercised, credits must be closely scrutinized, and extravagance of all kinds avoided. He closed by moving that the Report be received and adopted. Mr. A. Adams seconded the motion, and after remarks by Mr. J. B. Paddon, Hon. J. G. Robertson, and others, the motion was unanimously passed.

FIELD GAMES.

Superior Fishing Tackle!

Having been made in England this year with some remarkably heavy scoring, W. J. Grace, it will be remembered, making a long score in his first innings in the following from the Daily News of May 25th—Yesterday at Cambridge, in a match between the Colleges of Clare and Magdalen, the latter stayed in all day, scoring 291. Out of this number Mr. W. N. Roe made 126 without a chance, his chief hits being fifteen runs in his first innings, and 115; Mr. M. G. Macnamara, 63, and Mr. H. G. Barlow, 31. Earlier in the week Mr. W. N. Roe, in a match at Salford, Wales, scored 105. He is not down to play against the Gentlemen of England or the Australians, being engaged in examinations. In another match yesterday at Cambridge, between Trinity and Assinians, Mr. A. J. Polhill-Turner, for the Assinians, made 124 out of a total of 284. The bowlers opposed to Mr. W. N. Roe were Messrs. Parvillier, Leaf, Currie and Eccles. Trinity scored 107 for the loss of four wickets.
