

LOVELL'S PROVINCE OF NOVA SCOTIA DIRECTORY

For 1871.

ABBREVIATIONS USED IN THE ALPHABETICAL DIRECTORIES OF CITIES, TOWNS, &c.:—*ab* above; *av* avenue; *bds* boards; *bet* between; *ch* church; *cor* corner; *h* house; *J. P.* Justice of the Peace; *n* near; *opp* opposite; *r* rear; *R.* catholic Roman catholic; *sq* square; *wid* widow. The names in CAPITALS are those of Advertisers and Subscribers.

In Cities and Towns, where *av*, *lane*, or *sq* does not follow the residence, street is to be understood; for example, Lovell John, 23 St Nicholas, means 23 St Nicholas street.

Places in the Island of Cape Breton are distinguished by the letters C. B. being put after each.

Owing to the non-receipt of proofs, or returns from Agents, a few places are omitted in their alphabetical order, but they will be found at the end of the Province. As many places are known by more than one name, and as great pains have been taken to ascertain and give these, a reference to the GENERAL INDEX is specially recommended. This will prevent the least delay in finding any place in the work.

***ABERCROMBIE POINT**—A small village on a point of land dividing East and Middle rivers, on Pictou harbor, township of Egerton, county of Pictou. It is connected with the town of Pictou by a steam ferry. Distant from Pictou, a station of the Nova Scotia railway, 2½ miles, fare 7c. Population about 120.

ACADIA MINES—A thriving village on the Cobequid mountains, famed for their iron deposits, township of Londonderry, county of Colchester. The Intercolonial railway, now building, comes to a point within 3 miles of the iron works, and the cars are expected to run this far next summer. A very extensive bed of the ore exists here. This mine attracted attention as early as 1840. It was opened; smelting furnaces were put in operation and iron of the finest quality was made. The enterprise has recently been taken up by an enterprising company. The vein contains a variety of iron ores, such as magnetic, specular, hematite, &c. It is in one place 120 feet thick; its length is said to be about 7 miles, and it is apparently wedge-shaped. Its irregular

*The post office is at Pictou. Sometimes called South Pictou.

character offers considerable difficulties to the miner. Difficulties have also been found in smelting the ores. These mines will eventually become of great commercial importance. Distant from Truro, a station of the Nova Scotia railway, 22 miles, fare \$1.50; from Halifax 83 miles. Mail daily. Population about 500.

Adams Joseph, puddler and manufacturer of pig iron
Annis William, laborer
Barry Allen, miner
Bates John, farmer
Beaton Daniel, blacksmith
Beattie Ebenezer, shoemaker
Bell William, laborer
Betts Henderson, joiner

 Owens Charles, carpenter
 Spencer Philip, saw mill owner
 Spencer William, carpenter

ALBION MINES—A village on the East river, township of Egerton, county of Pictou. The mining part of the village stands on the property of the General Mining Association of London. There are here two seams of excellent coal. Their aggregate thickness is 37 feet and 22 feet respectively. The main seam has been traced for several miles. Six pits are in operation. A new pit, called the Foord Pit, has been recently opened. The quantity of coal raised in 1851 was about 60,000 chaldrons. This yield has been still further increased. In the year 1858, 100,607 tons of large coal were raised and sold; 9,212 tons were used for home consumption; 89,217 tons were exported to the United States; 2,178 tons were exported to the neighboring col-

* The way office is at Kempt.

onies, and the quantity of slack coal raised was proportionately large; in 1864 over 200,000 tons were raised. The offices of the General Mining Association, and of the Acadia Co. are at Stellarton. There is here a station of the Nova Scotia railway called Coal Mines. Distant from New Glasgow 3 miles, fare 9c.; from Pictou 12 miles, fare 37c.; from Truro 40 miles, from Windsor Junction 88 miles, from Halifax 101 miles. Mail daily. Population about 2500.

ANNAPOLIS—A beautiful and flourishing town, on the Annapolis river, at the head of the basin, township and county of the same name. It is the county seat. The court house and gaol are located here. The scenery in the vicinity is beautiful. De Monts landed here in 1605 with a party of French settlers and named it Port Royal. It was four times captured, but finally ceded to Great Britain in 1713, and its name changed to Annapolis Royal, after Queen Anne. Some of the finest apples in America are grown in the Annapolis valley. A steam plies four times a week to St John, N. B., and Digby. This is the western terminus of the Windsor and An-

napolis railway. Distant from Digby 18 miles, fare \$1.50 and 75c.; from St John 62 miles, fare \$2; from Windsor 84 miles, fare \$2.50, from Yarmouth 88 miles, from Halifax 129 miles, fare \$3.50. Mail daily. Population about 500.

ANTIGONISH—A large and flourishing town on the Gulf of St Lawrence, three miles above the head of the harbor, township of Dorchester, county of Antigonish. The harbor is not navigable for vessels drawing more than ten feet of water. Antigonish is the county seat. It has a large college, the residence of the R. catholic bishop of the diocese of Arichat, numerous fine buildings, and mercantile establishments. Ship-

building is carried on here to a considerable extent. Newfoundland merchants do a large business with this place in cattle. The inhabitants are almost exclusively of Scotch descent. In 1863 the county name was changed from Sidney to Antigonish. Western Union Telegraph Co. has an office here. Distant from New Glasgow, a station of the Nova Scotia railway, 40 miles, fare \$2.50, in winter \$3.50; from Port Mulgrave 36 miles, fare \$2, in winter \$3.50; from Port Hastings 40 miles, fare \$2, in winter \$3.50; from Pictou 45 miles, from Truro 78 miles, from Halifax 140 miles. Mail daily. Population about 1000.

ARICHAT, C. B.—A rising and picturesque town on the harbor of the same name, on the south side of Isle Madame, township of Arichat, county of Richmond. It is the county seat. The harbor is capable of sheltering the largest vessels. The population is chiefly of French descent. The English speaking population is, however, increasing. The principal occupation is fishing. There is here an English academy, a convent of Notre Dame, dependent on that of Montreal, and a Court house. A lead mine has been opened at the head of the harbor, and a company organized to work it. Western Union Telegraph Co. has an office here. Distant from Port Hawkesbury 30 miles, fare \$2.25; from Sydney 80 miles, fare \$4. Mail daily. Population about 1000.

BRIDGETOWN — A pleasantly situated village on the Annapolis river, at the head of navigation, township of Granville, county of Annapolis. Here is an abundance of the finest milling and manufacturing privileges. The richness of pasturage and the inexhaustible supply of pure water, and the dry healthy climate, have done much to make this section of the country very superior for farming purposes, it being especially noted for the excellency of its farm stock, and splendid apple orchards. Western Union Telegraph Co. has an office here. It is a station of the Windsor and Annapolis railway. Distant from Annapolis 14 miles, from Kentville 45 miles, from Windsor 70 miles, from Mount Uniacke 89 miles, from Windsor junction 102 miles, from Halifax 115 miles. Mail daily. Population about 800.

CAPE CANSO—A village on the most easterly point of Nova Scotia, in the township of Wilnot, county of Guysborough. Gold has been discovered here recently. Fishing and commerce are the prevailing occupations. The exports of Cape Canso for 1869 amounted to upwards of \$250,000. The Steamer "Commerce," plying between Boston and Charlottetown, calls here fortnightly during summer months. Distant from Guysborough 31 miles, fare \$1.50; from New Glasgow, a station of the Nova Scotia railway, 98 miles, fare \$6.50. Mail tri-weekly. Population about 1000.

COUNTRY HARBOR—A gold district situated in the county of Guysborough. Although gold was discovered here as early as 1861 it was not proclaimed a gold district until 1867. The mines are on excellent ground, the quartz veins are numerous, and the yield of gold from sundry tests has averaged 1 oz. 17 dwts. 8 grs. per ton, the maximum yield 5 oz. 10 dwts. per ton. The course of the lodes varies here largely from that of any other worked in the province, and vary in thickness from 3 inches to 2½ feet, and become richer as they descend. The greatest depth reached is 25 feet, and as yet these mines may be considered as being undeveloped. Distant from New Glasgow, a station of the Nova Scotia railway, 80 miles, from Guysborough 30 miles, from Halifax 180 miles. Mail tri-weekly. Population about 300.

COW BAY, C.B.—A populous village on Cow Bay, township of Sydney, county of Cape Breton. The prevailing occupation is mining. Here are two coal mines, one belonging to the Block-house Co., the other to the Gowrie Co.; both are doing an extensive business, affording employment to about 600 hands. A breakwater has lately been erected at Cow Bay with aid from the government, for the safety of vessels in rough weather. A steamer plies twice a week between this place and Sydney. New York, Newfoundland and London Telegraph Co. has an office here. Distant from Sydney 22 miles, fares \$1 and 75c. Mail tri-weekly. Population about 2500.

DARTMOUTH—A flourishing and beautiful village, opposite Halifax, at the head of the harbor, township of Dartmouth, county of Halifax. A steam ferry plies between here and the city. Dartmouth boasts of many fine buildings, contains several large-foundries, three steam tanneries, employing a large number of men, and the residences of a number of merchants and others doing business in the city. The Provincial Lunatic asylum is half a mile from the village. Dartmouth is the proposed terminus of the Intercolonial railway. Montague Gold mines about 4 miles in the interior are being worked with great activity; according to the Gold Commissioners report for 1869, the total yield for that year was 805 ozs. valued at \$16,100, average yield per ton 1 oz. 8 dwts., maximum yield per ton 3 oz. 8 dwts., average covering per man \$430. Distant from Halifax, the terminus of the Nova Scotia railway, half a mile, fare 5c.; from Picton 114 miles. Mail daily. Population about 2500.

DIGBY—A flourishing and beautiful town on Digby basin, near the Bay of Fundy, township and county of Digby. This sheet of water forms part of the same river as Annapolis basin. It extends for about 12 miles, and has a width of about 8 miles. The entrance to the Bay of Fundy is singularly narrow. Its shores are very picturesque. Herring and mackerel are taken in large quantities here, and exported to the States and chief towns in Canada. Considerable lumbering is also done and ship building extensively carried on. The St John and Annapolis steamer calls at Digby four times a week, fare to St John \$1.50. Western Union Telegraph Co. has an office here. Distant from Annapolis, the terminus of the Windsor and Annapolis railway, 19 miles, fare by steamer 75c. and by coach \$1.50; from Yarmouth 66 miles, fare \$3. Mail daily. Population about 1300.

***GAY'S RIVER**—A gold district situated on the Cold Stream brook, a tributary of Gay's river. Gold was first discovered here in 1862; it was immediately proclaimed a gold district, but systematic mining did not commence until late in 1863, and has at no time been prosecuted in a manner to test the capabilities of the district. The gold chiefly occurs in a curious conglomerate, a ridge of which may be traced across the country a distance of 60 miles, and is known as the Boar's back; and although 50 miles in the interior has all the appearance of being at one time the sea shore. The deposit in appearance is the nearest to alluvial gold as found in the placer diggings of California, of any yet discovered in the province. In the washings in the stream as high as an ounce per man a day has been obtained. Mining has of late been resumed here with vigor, and proper exploration will probably lead to the discovery of rich quartz veins in the vicinity from which the alluvium has received its deposits. Lead also occurs in this vicinity. Distant from Shubenacadie, a station of the Nova Scotia railway, 7 miles, from Halifax 45 miles. Mail bi-weekly. Population about 350.

• **GOLD RIVER**—A gold district in the township of Chester, county of Lunenburg. Gold was first discovered and it was proclaimed a gold district in 1861. The lodes are of great width, and the ore raised has given satisfactory assays both of gold and silver. Gold has also been washed from the sand of the river. Distant from Chester 7 miles, from Halifax, the terminus of the Nova Scotia railway, 52 miles. Population about 150.

† **GOLDENVILLE**—A gold district situated in the township of St Mary's, county of Guysborough. Gold was first discovered here in October, 1861. On the 18th of October, when the fact became generally known, over 200 men assembled on the ground, who on that day obtained gold by breaking quartz to the amount of \$500.

• Also called Western shore.

† Also called Sherbrooke Gold mines.

A surveyor was immediately sent to the ground with instructions to lay areas and receive applications for leases, and in a short time active mining operations were in progress. Since then those operations have steadily increased, and to-day the mines contain a larger developed area and give a higher average to the ton of ore and per man than any other in the province. The total yield for 1867 was over 9000 ounces, valued at about \$180,000; average earnings per man being over \$2000. The surveyed gold district embraces a tract of land three by six miles in extent. The developed mines are at present confined to Goldenville, on the north west side of the River St Mary's, opposite to Sherbrooke village. The principal lodes are the Hewitt, Blue, McKay, Drysdale, Hayden, Aikens, and the Cumminger. The most productive is the Hewitt the maximum yield being 12 ounces, average yield 4 oz. p. ton. According to the Gold Commissioners report for 1869 the total yield of gold was 5,546 ounces, valued at \$110,920. A substantial bridge has been just completed which connects Goldenville with Sherbrooke. Distant from New Glasgow, a station of the Nova Scotia railway, 57 miles, fare \$3.50; from Halifax 150 miles, fare \$5. Mail daily. Population about 900.

***GRAND PRÉ**—A very beautiful and romantic village on the shore of the Basin of Minas, an arm of the Bay of Fundy, in the township of Horton, county of King's. This was one of the first European settlements in the province, a party of French Acadians, under M. De Monts having landed here as early as 1604. It is also rich in traditional lore, being the scene of Longfellow's Evangeline. The Pré with its 10 square miles of dyke skirting the Basin of Minas at one of its most romantic points, with Blomidon in the distance, presents one of the grandest scenes to be obtained in the province. It is a station of the Windsor and Annapolis railway. Distant from Windsor 15 miles, fare 50c.; from Halifax, 60 miles. A packet sails for Parrsborough once a week, distant about 31 miles, fare \$1. The Western Union Telegraph Co. has an office here. Mail daily. Population about 600.

GUYSBOROUGH—A flourishing and picturesque town, at the head of the Chedabucto bay, on the west side of Milford Haven, township of Guysborough, county of the same name. The harbor is safe and commodious. In physical characteristics the county is similar to Halifax. It was settled in 1783 by disbanded soldiers. The name was taken after that of Sir Guy Carleton. In 1836 Guysborough was set off from Sydney county. This place, possessing a brisk trade, engaged in ship building, having agricultural advantages, with a large academy, is the county seat. Fishing is extensively pursued. Gold mining is fast becoming an important industry. The Supreme court holds its sittings here in May and October. The remains of an old fort on a fine bluff head, at the entrance to the harbor, still exist. Distant from Sherbrooke 48 miles, fare \$3; from Antigonish 31 miles, fare \$2.50, from New Glasgow, a station of the Nova Scotia railway, 67 miles, fare \$5; from Pictou 73 miles. Mail daily. Population about 1000.

HALIFAX—The chief city, and capital of Nova Scotia, is situated near the head of Chebucto Bay, township and county of Halifax. It was called Chedabucto or Chebucto until 1749, when Governor Cornwallis proclaimed it as the seat of Government, and gave it its present name in honor of the Earl of Halifax, an active promoter of the enterprise which resulted in founding the city. It has a noble harbor and extensive fortifications. The harbor of Halifax has been pronounced by the highest authorities as "one of the best in the world." It is easy of access for ships of every class, is capacious enough to afford anchorage for the navies of all Europe, and is so situated as to afford protection from every wind. It runs over 15 miles inland, and after passing the city, and narrowing considerably about three quarters of a mile above the city, suddenly expands into Bedford Basin, a beautiful sheet of water covering an area of nine square miles, completely shut in from the sea and affording good anchorage throughout, with from four to thirty fathoms of water. Halifax is fortified by the citadel, situated on the hill rising back of the city, some
