Liberace Wins Suit For Libel

LONDON (AP) — A High Court jury awarded American entertainer Liberace £8,000 damages today for libel by the London Daily Mirror.

The jurors decided after 3½ hours of deliberation that a story in 1956 by Mirror columnist William N. Connor implied that the pianist was a homosexual.

LIBERACE

The implication was untrue, the jury held, and the phraseology used by Connor in the column was not "fair comment," as claimed by The Mirror.

The libel action contained a lesser second count, based on another Connor column, but the jury found this count not proved.

The second column noted that The Times had carried a notice of a Liberace concert in a current events listing devoted largely to religious doings and called it "the sacred next to the profane."

The jurors held this to be fair comment.

The trial lasted seven days. Court reports estimated the cost, including lawyer fees, at around £1,000 a day.

Justice Sir Cyril Salmon told the jury of 10 men and two women it must decide whether the words Liberace complained about "in the ordinary and natural meaning mean that the plaintiff is a homosexual."

CLAIM FAIR COMMENT

The Mirror denied the column was intended to give the impression that Liberace was sexually abnormal. The newspaper contended that the opinions set forth in it were fair comment.

Among the phrases Liberace cited was Connor's description of him as "everything he, she or it can want . . . the pinnacle of sex — masculine, feminine and neuter." He also described the entertainer as "fruit flavored" and Liberace contended that "fruit" was a slang term for a homosexual.

Under British legal practice, plaintiffs in libel actions do not claim a specific sum in damages. If the jury decides there has been damage, it also sets the compensation.

Anti-Red Tension In India

TRIVANDRUM, India (CP)—"Direct action" agitation to end Communist rule in Kerala poses the state government with the delicate problem of how to maintain order in the face of mounting violence and flamed emotions.

The movement organized by a combined political organization, including the Kerala state Congress party, also places Prime Minister Nehru's central Congress government in a difficult position.

The situation is further confused in that outwardly the agitation so far has the appearance of a struggle between communism and the Roman Catholic Church.

TWELVE KILLED

Since the agitation started Saturday 12 persons—all Catholics—have been shot and killed by state police in three isolated incidents. Speculation is rising in this tense state capital on whether the army bay be called in to assist the state government or whether the central government may take over throgh presidential rule.

The Communists Tuesday accused the Congress party and socialists of employing unconstitutional means and attempting to overthrow the government by violence.

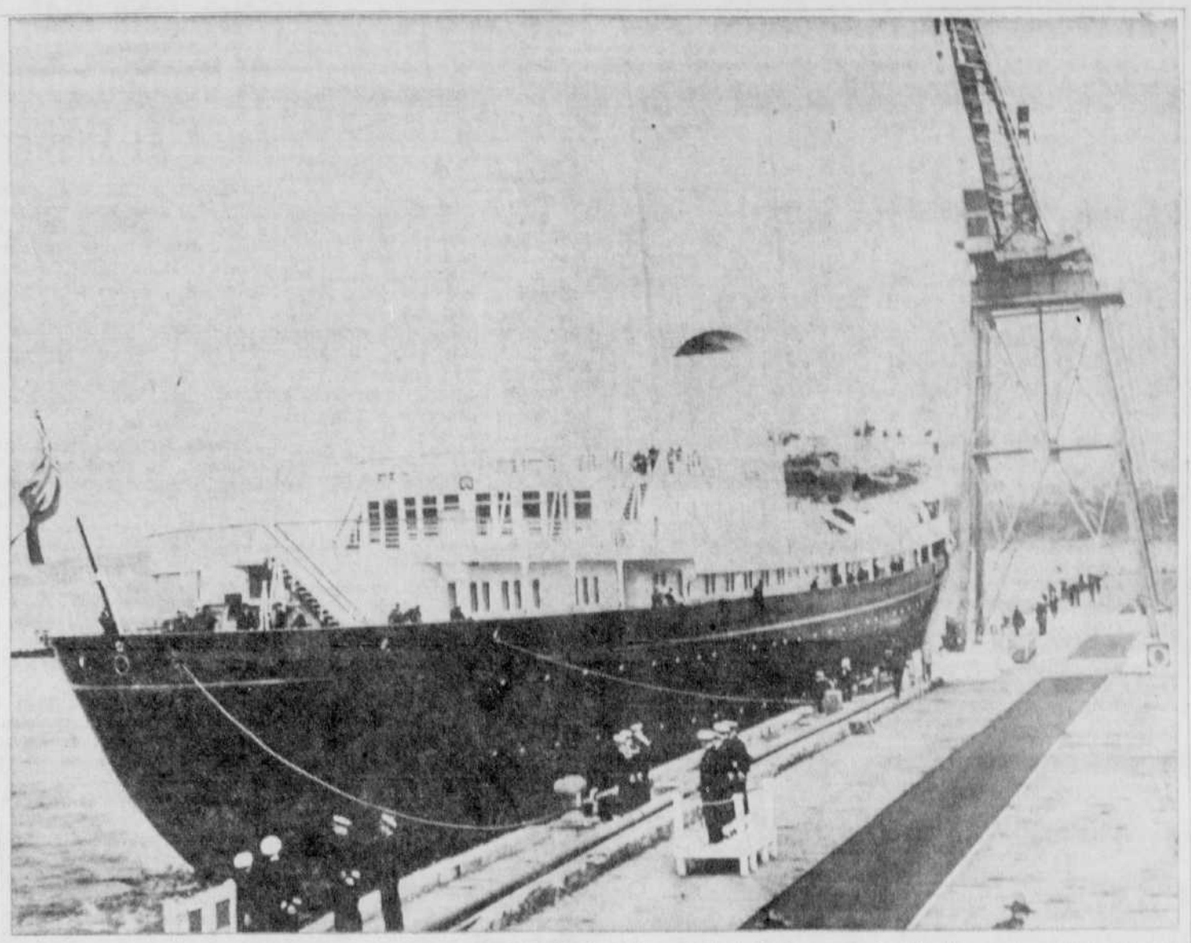
The Congress party says its campaign is strictly non-violent with peaceful picketing as its chief weapon. The joint opposition, however, says it will intensify its efforts next week unless the government resigns. Presumably this could mean an attempt to paralyze state operations.

Judge Says Perry Mason Bad Lawyer

BLOWING ROCK, N. C. (AP)—Actor Raymond Burr who plays Perry Mason, the lawyer who never loses a case—is scheduled to address the convention of the North Carolina Bar Association — and the invitation has set off some legal fireworks.

Superior Court Judge Frank Armstrong won't be in the audience. The judge, protesting the bid to Burr to speak Friday, said:

"I see about as much of Perry Mason on television as I care to because my children watch it at home.



REGAL VISITOR — The Royal Yacht Britannia rests at dockside in Sydney, N.S., following a rough Atlantic crossing which delayed her arrival by one day. The ship will take on fuel and provisions at Sydney for the trip through the St. Lawrence Seaway, during the forthcoming Royal Tour. The ship will pick up the Royal couple at Sept-Iles, Que. (CP Photo)

Weather Headache For Tour

ST. JOHN'S, Nfld. (CP)—Capricious Atlantic weather is giving Royal Tour planners their biggest headache only a day before Queen Elizabeth and Prince Philip arrive to start their tour of Canada.

The royal plane is due at the nearby Torbay Airport Thursday at 3.30 p.m. NDT to open the 45-day Canadian tour, highlighted by the official opening of the St. Lawrence Seaway June 26 with President Eisenhower.

But heavy Atlantic fog and threatening cloud the last two days has seriously disrupted airline flights in and out of this oldest city in North America. Royal Tour planners are feverishly trying to work out alternate routes should fog close in Torbay Thursday. No flights have landed here since the weekend.

MAY GO BY ROAD

If the plane is unable to land here, it will probably be diverted to Argentia from where the royal party would have to travel 80 miles over indifferent road to reach St. John's.

The royal yacht Britannia was preparing to leave a day early from Sydney, N.S., in the event the royal plane cannot land in Newfoundland and has to go directly to Sept.-Iles, Que., the yacht's destination.

Elaborate plans have been made for the arrival of the royal visitors here. The plane will be met by a 21-gun salute and a city decked in flags and bunting. On hand to greet the Queen and her consort will be Prime Minister Diefenbaker, Governor - General Massey and Premier Smallwood of Newfoundland.

Highlight of the three-day Newfoundland tour will be the official opening by the Queen of the new $3,500,000 terminal building at Gander Airport. The tour of the island will take the couple across the province to Corner Brook on the west coast.

FLY TO SEPT-ISLES

They leave Newfoundland by air Saturday at 12:45 p.m. NDT for Sept-Isles, where they go aboard the Britannia for the long trip up the St. Lawrence River and later into the Great Lakes.

During the Canadian tour, the royal party will travel by yacht, aircraft, trains and cars where necessary.

The royal visitors will meet 4-H groups in Saskatchewan, visit a modest dairy farm in Prince Edward Island, attend the famed running of the Queen's Plate in Toronto, tour industrial sites in Sault Ste. Marie and Sudbury, Ont., and attend the international festival of the arts in Vancouver.

The tour ends Aug. 2 at Halifax where the royal party boards the Britannia for home.

Liberals Want Deal Probed By Committee

OTTAWA (CP)—The Liberals make a formal effort today to have a parliamentary committee decide whether the actions of John C. Pallett, chief Conservative whip, violated parliamentary standards.

Basing a motion for such an inquiry on a land expropriation case recently before the courts, Opposition Leader Pearson will move that the committee "consider and report whether the conduct of the member was contrary to the usage or derogatory to the dignity of the House or inconsistent with the standards which Parliament is entitled to expect from its members."

The motion cites a number of points arising from the judgment of Mr. Justice J. T. Thorson, president of the Exchequer Court, in a case concerning expropriation by the transport department of property owned by Mrs. Aileen

210,000 UK Workers In Labor Disputes

LONDON (Reuters)—More than 210,000 British workers were on strike, preparing to strike or laid off because of strikes in industrial disputes today.

Members of 10 printing unions, speaking for nearly 200,000 men, prepared for a strike tonight that will close 5,000 printing shops and shut down most newspapers except the national dailies.

The unions Tuesday rejected a management appeal to go to arbitration on wage-and-hour disputes.

Talks to end a strike touched off a jurisdictional dispute between shipwrights and boilermakers at a shipyard near Liverpool broke down Tuesday. About 2,500 men are idle as a result of a strike of 1,750 boilermakers.

LONGSHOREMEN OUT

Four thousand longshoremen are on strike at the port of Hull, in sympathy with 16 union members who refused to unload a Russian ship without mechanical equipment. Another 43 ships are idle in the port.

The Standard Motor Company refused to rehire 117 men fired for what the firm considered fantastic pay demands and a walkout of 10,000 in the plant was threatened.

The British Motor Corporation sent home almost 3,000 workers in two plants after a strike by 600 craftsmen and drivers at a body plant. Another 1,600 may be affected.

Tight Squeeze In Trailer

PERU, Ind. (AP)—Trailer living can be a tight squeeze.

Firemen called to Mrs. Edwin Lange's mobile home found her jacknifed, with her head caught between a couch and a wall.

She explained that she dropped a book back of the couch, reached for it, and was trapped. Her three-year-old son, Max, handed her the telephone.

Crucial Private Session

GENEVA — (CP) — Soveit Foreign Minister Andrei Gromyko today was reported giving "very careful" study to the West's final offer for an interim Berlin settlement.

Soviet sources reported this development as the Western foreign ministers conferred for 45 minutes about their crucial afternoon session with Gromyko.

This private session should determine whether the Big Four foreign ministers talks end in collapse this week or reach sufficient agreement to justify a summit conference.

Communist sources said Gromyko studied the Western document to see whether it made "any advance toward the Soviet view about Western occupation rights in Berlin.

If Gromyko says yes—or even maybe—the Geneva meeting soon may produce an agreement leading to an early summit conference. The Western price for that is an end to the Soviet threat to freeze the Allies out of West Berlin.

MAY END SOON

If Gromyko says no, the conference probably will end Thursday or Friday without an agreement to go to the summit. This would revive the threat of serious trouble over the future of West Berlin, surrounded by Communist territory 110 miles from West Germany.

The five-point plan representing the final Western bid for agreement was delivered to Gromyko's headquarters Tuesday night.

The heart of the proposal, Western informants said, is a provision for the Big Four to guarantee the existing arrangements on Berlin.

The West is asking the Russians to promise to avoid any action that would menace its air, rail, and road lifelines between Berlin and West Germany.

Laurentian Plane Crash Kills Four

ST. MICHEL DES SAINT, Que. (CP) — Four persons were killed Tuesday night when a light plane crashed and burned in a field 15 miles from this Laurentian community 85 miles north of Montreal.

Napoleon Compois, a local hotel-owner, said the bodies had been burned "beyond recognition." The aircraft, also badly damaged by the explosion and fire which followed the crash, was identified as a single-engined Cessna.

Provincial police from Joliette, Que., 65 miles southeast of here, were investigating. No further details were available.

US Plane Couldn't Fire Back

YOKOSUKA, Japan (AP) — A U.S. Navy plane crew told today how Communist MIG fighters raked their patrol plane with 15 to 20 bursts of machine-gun fire and sent it limping home with two of its four engines out and one of the 14 crew members wounded.

The airmen told a press conference two "or possibly three" red-starred jets—their nationality still a mystery—had swooped down suddenly Tuesday on the turbo-prop P-4M Mercator while it was over international waters, 45 miles off the east coast of North Korea.

The tail gun was knocked out and the gunner wounded on the second of six Communist runs before he could open fire. The plane's two other machine-guns were unable to fire because of missing parts.

LIMPS HOME

The attack was broken off as the plane started to limp back to Japan. It was met by two U.S. Air Force Sabre jet fighters that answered its call for help, but the MiGs had vanished long before.

The injured tail gunner, Donald E. Corder, 20, suffered more than 40 painful but not critical wounds from shrapnel and flying plexiglass. He was hit in the neck, arms and hands and suffered a fracture of the kneecap and a head wound.

Rear - Admiral Frederic S. Withington, commander of U.S. naval forces in Japan, said emphatically that U.S. patrols will continue in the area.

"We are not going to admit that the Sea of Japan is a Russian lake," he said.

AWARDED DFC

The admiral interrupted the press conference to read a telegram from Washington awarding the Distinguished Flying Cross to the plane's 35-year-old commander, Lt. Cmdr. Donald R. Mayer, for bringing his aircraft back.

The plane was starting home to its base at Iwakuni, 500 miles west of Tokyo, from a routine radio mission when the jets attacked.

The first warning came from Corder over the intercom system: "Sighted two swept - wing jets." Then: "They're firing at us!"

"I gave the order to fire," said Mayer, "but the communications were bad and Corder didn't get the order on the first run. On the second run, before he got the range, he was hit."

DIVES TO OCEAN

As Mayer dived the plane from 7,000 feet to within 50 feet of the ocean, the Communists made four more passes, coming up from behind. Firing on at least three of the runs, they peppered the 86-foot-long plane with 15 to 20 bursts.

In Washington, the state department denounced the attack as unwarranted and vicious. A formal protest was planned as soon as it could be determined whose planes had made the attack.

Walter S. Robertson, assistant secretary of state, charged that the attack had been timed deliberately to create tension at the current critical stage in the Geneva foreign ministers conference.

'Pick Arctic Dwellers For Brains, Not Brawn'

MONTREAL (CP) — Many Canadians working in Canada's far north are out of their element, Dr. Maxwell Dunbar, associate professor of zoology at McGill University, said Tuesday night .

Northern communities are conventionally pictured as composed of small, happy bands of hardy souls grouped together in common efforts, he said. But in reality the average northern community is "unhappy, torn by petty jealousy, boredom and overdeveloped egos."

Dr. Dunbar, an expert on northern living, spoke to a meeting of the National Federation of Financial Analysts Societies.

"Picture to yourselves a considerable number, 200, up to 2,000 men who have been yanked out of their familiar way of life.

"Most of them, with movie and corner drugstore minds, are living in barracks with connecting corridors at a stuffy and overheated level all 24 hours of the day. A pasty pallor is the fashionable complexion and everyone is overfed.

"Small wonder that wages have to be astronomically high and small wonder also that morale is abysmally low."

Dr. Dunbar said people interested in northern development should think about the high expense of maintaining the present "unhappy communities" and try and recruit men and women likely to enjoy living under true northern conditions.

Instead, the men who put up money for developing the north are "trying to attract anyone at all to live for 18 months in the airconditioned barracks at 80 degrees fahrenheit by means of high pay and nightly movies and airborn steaks."

He listed as unsuitable for northern living persons "with big egos," those with "missionary zeal to do good for the Eskimos or to carry the flag to distant parts, self - conscious athletes and the football players who have never discovered that there are more important things in life."

More suitable were quiet, modest men and women with senses of humor, cynical rather than over-optimistic and without illusions about their strengths and weaknesses.

"In general, pick people for mental qualities rather than physical qualities," Dr. Dunbar said. "Poor physiques will be built up into tough physiques in the north and the north is a healthy part of the world."

Liver Pills Just Pills Now

SAN FRANCISCO (AP)—The U.S. Court of Appeals ruled Tuesday that Carter's Little Liver Pills have no effect on the liver and directed Carter Products, Inc., to delete the word liver from the trade name and advertising of the widely known, 70-year-old product. The court upheld a federal trade commission order issued Oct. 4, 1956.

Cuban Soldiers Hijack Airliner

MIAMI, Fla. (AP) — Six soldiers from former president Fulgencio Batista's Cuban army hijacked a Cubana Airlines plane shortly after takeoff from Havana Tuesday and forced the pilot to fly to Miami.

Witnesses said the soldiers were the first persons off the plane when it landed at Miami International Airport, where they appealed to immigration officials for political asylum. Passengers said there was no panic.

Second Year Of Power

De Gaulle Blocks Labor Trouble

PARIS (Reuters) — Gen. Charles de Gaulle, president of the Fifth Republic he brought into being last fall, has started his second year in power with a notable new success.

The threat of serious labor trouble seems to have been warded off following the cancellation of a threatened eight-hour rail strike.

The strike was called off chiefly because union leaders found no support for it among the workers.

The government's success on this issue starts de Gaulle's second year of power and crowns 12 months of remarkable achievement.

UNLIMITED POWER

De Gaulle took office June 2, 1958, with powers for six months to do practically anything he liked.

His first act was to abolish the Fourth Republic's constitution vesting all power, both executive and legislative, in the National Assembly. The new constitution distinguishes decisively between the powers of the government and those of parliament.

The second big achievement of the new regime is to have crushed currency inflation successfully for the first time since the end of the Second World War. Six months after the austerity plan was launched, the franc stands out as a strong currency and prices are stable.

A mere list of the main reforms initiated shows how the government has acted to modernize the country:

1. The system of national defence and the duties of the citizen in it have been recast to conform to the needs of an atomic war.

2. Tax exemptions for firms adopting approved forms of profit-sharing with their workers have improved management-labor relations.

3. Health services are in the process of being recast.

4. Changes have been made in the legal system, sweeping away many out-of-date practices and century-old methods of work.

5. Housing has been stepped up as never before, on a nationwide basis.

6. There has been an important reorganization and modernization of the state school system.

The outstanding problem remains Algeria. While some people feel disappointed that de Gaulle has not yet succeeded in restoring full peace in Algeria most officials with intimate knowledge of Algeria agree that the rebellion is losing ground all the time, and that it is only a matter of time before complete peace is achieved.

Irish Vote Today For President

DUBLIN (Reuters) — Irish voters chose [illegible] of their heroes in balloting to decide the next president of the republic.

The election battle was between Eamon De Valera, prime minister of Ireland for a total of 21 years, and Sean MacEoin, his comrade in arms in the 1916 Easter uprising that brought the Irish battle against British rule to a head.

Voters also were deciding whether or not to scrap the country's proportional representation system of elections and return to the straight ballot.

De Valera, 78, was strongly favored to win the presidency, a largely honorary post, although the election issues have aroused little interest among the 1,700,000 eligible voters.

Both De Valera and MacEoin were founders of Sinn Fein, the Irish nationalist movement.

APACHE TRAIL, Ariz. (AP)—A pagoda perched on an Arizona peak . . . 200 Chinese truding up the steep face of a canyon . . . a Chinese village set in a cactus-filled arroy. . . .

Those are the incongruous scenes here in the Tonto national forest. A sizeable hunk of China has been created amid the crags and canyons of Arizona for The Mountain Road, latest of the Hollywood films to seek fresh and authentic-looking backdrops.

Columbia Pictures says it is spending $3,500,000 on the film and will drop $1,000,000 of it in Phoenix, the base of operations 60 miles from the location.

The movie magicians have created an authentic version of China, says Lt.-Col. Frank Geason, technical adviser. He's the army man whose demolition trek through China in 1944 inspired the Theodore White novel.

HOT TREK

I watched while the Chinese—125 from Phoenix, 75 brought from Hollywood—trooped up the mountain road in the 100-degree-plus sun. Also making the journey was James Stewart.

Jimmy shook his head and muttered:

"When I was a bachelor, I made all my pictures in the comfortable confines of studios. Oh, I think I went to Lake Tahoe for Rose Marie, but that was all.

"Then I get a wife and four wonderful children, and what happens? I start making movies all over the globe."

NOT TOO HAPPY

In the last nine years, he has made only two pictures—Rear Window and Bell, Book and Candle—entirely in Hollywood. How does his wife, Gloria, like this setup?

"Not so good," he admitted. "I don't expect her to visit me on this picture. She and the kids have a house at Malibu for the summer and I don't think she'd want to leave it for this heat.

"I've promised her a trip to Spain when I'm finished, and that may help clear me with her. At least I hope so."

McGill Musical Examination Results Listed

The results of the Sherbrooke local centre examinations conducted by McGill University have been announced. These local centre examinations are held throughout Canada as part of an extensive program to raise the standard of musical education in this country and at the same time bring the influence of competent examiners to bear upon instruction.

As McGill grants degrees in music and a diploma of licentiate, the University extends its field of work by means of these local examinations, which are preparatory to those for degrees and diplomas.

The examiners are appointed by the Senate of the University and the local secretary is Wright W. Gibson, M.A., F.M.C.M., principal-superintendent of the Sherbrooke Protestant Schools.

The examinations this year were conducted by Kenneth Meek of the McGill Faculty of Music.

In all high school grades pupils may receive credit for music as a unit of their high school course by qualifying for the certificates granted by McGill.

The local centre results are:

Journalist Gives Impressions Of Recent United Kingdom Trip

The history, landscapes and human interest of Great Britain as seen by a visiting Canadian journalist were recounted to the Sherbrooke Rotarians at their regular meeting last night by Louis C. O'Neil of Sherbrooke, who has just returned from an extended tour of the Old Country.

"The minute you put your feet on the English coast, you already feel that Canada is only a few centuries old," said the speaker, who chose as his subject "Great Britain at a Glance."

He stated that the Britisher appeared to him to be a highly civilized individual, "not that he knows how to behave, but that he knows to live, which means much more.

Mr. O'Neil expressed the belief that the critics of the Queen are not taken very seriously by her British subjects and that she in devoted to and admired by her people.

In dealing with the English press, Mr. O'Neil said the people of the United Kingdom buy more newspaper per person than the people of any other country. The British press enjoys great liberty of comment on matters of public interest but Mr. O'Neil felt this great freedom is abused by many papers.

"Freedom, liberty, confidence and privilege are four things," he said, "but scandal, morbidity, harm and nuisance are another four."

The speaker was introduced by Emile Levesque and thanked by Don Johnston.

President Ivan Saunders stated that the Rotary Club charter would be forty years old today and that the only surviving charter member was Bert Skinner, He added that next week a report would be given about the 50th convention of the Rotary International held in New York last week.

It was announced that the local club has been invited to tour the Canada Paper Co. at Windsor Mills and attend a buffet supper on Thursday, June 25.

Seated at the head table were: Bart Holtham, A. C. Skinner, Ernie Gilbey, Emile Levesque, Louis C. O'Neil, Ivan Saunders, Don Johnston, Ken Jenckes, Gordon Armitage, Dick Dixon and Forest Keene.

Missing Men Are Located

LAKE MEGANTIC — Two Montreal district men lost in the thick bushland of Frontenac County since Friday were recovered by a search party yesterday. The pair, Albert Plante, 30, and Roger Bisson, 20, both of Chateauguay, are reported as being in good condition despite their 70 hours of exposure.

According to Detective Antoine Gaudreau of the provincial police detachment at Lake Megantic who organized the volunteer search party, Plante and Bisson with a third man, Lorenzo Roi, 21, also of Chateauguay, went fishing Friday afternoon in the Deblois River in a ten-square-mile bush area between the Lake and St. Hilaire.

The men could not find their way out of the bush that day and when it became apparent they were hopelessly lost, they decided to split up and make their own way to safety.

Roi stumbled into St. Hilaire Monday and a search party was organized to look for his two companions.

Blanchette Condition Critical

Jacques Blanchette, 20, of Windsor Mills, is still in serious condition in Notre Dame Hospital in Montreal, following a two-car collision on the Windsor Mills - Richmond highway Sunday afternoon in which three other people died.

Fatally injured in the accident were Mr. and Mrs. Charles de L. Mignault, of Quebec City, passengers in one car, and Gisele Carrier, of Windsor, 17, a passenger in Blanchette's car.

Also injured in the crash was Miss Madelaine Mignault, 25, daughter of the fatally-injured couple.

Blanchette was given emergency treatment in hospital in Sherbrooke before being taken to the Notre Dame Hospital in Montreal.

Wotton Girl Is Missing From Home

Provincial Police in Sherbrooke have been asked to assist in the search for Marie Marthe Viens, 16-year-old daughter of Rosaire Viens, of Wotton, missing from her home since June 4.

It was first believed the girl had headed in the direction of Montreal to find work. Since that time, however, the parents of the girl have feared something may have happened to her and have asked for police assistance.

Any information leading to the whereabouts of the girl should be sent to Provincial Police in Sherbrooke or to the parents in Wotton.

Chamber Names Committee Heads

Fifteen committee chairmen have been named by the new board of directors of the Sherbrooke Chamber of Commerce.

J. Andre Leduc, Chamber treasurer, heads the temporary committee to organize the provincial congress to be held in Sherbrooke in September. Other members of the committee are Jacques Brisson and Al Caplan:

Other chairmen named are: Doug Ross, membership; Andre Leduc, finance; Claude Genest, speakers; Lionel Caron, legal; Denis Tremblay, town planning; John York, civic and municipal affairs; Robert, Beaudry, Arnold Agnew and Jean-Louis Gauthier, publicity; Lionel Caron, provincial affairs; John Dunn, education, assisted by Dr. Rosario Cousineau, head of the Faculty of Commerce, University of Sherbrooke and R. E. Duval of the Department of Business Administration, Bishop's University; Gontran Guillemette, commercial affairs; Jean-Louis Gauthier, tourist committee; Len Curtis, National affairs; and Walter Lefebvre, Bulletin.

Missing Youth Returns

Dawson St. Francois, 19-year-old son of Mr. and Mrs. Leopold St. Francois of East Angus, missing since Saturday, last night returned to his home.

The young man apparently had gone to Drummondville after hiding from search parties sent out for him following an accident in which he overturned his car Saturday night.

Parents of the youth were first notified by friends Garth Ryan and George Bishop of their son's mysterious disappearance. The two found the car overturned on the East Angus-Sherbrooke road late Saturday night. Although some bloodstains were found in the car, there was no trace of St. Francois.

Upon learning of his whereabouts yesterday Bishop and Ryan notified the parents and went to Drummondville to pick him up.

Bank Bandits Said Heading To Sherbrooke

Provincial Police in Sherbrooke are on the lookout today for a getaway car and the three hold-up artists who staged a $28,000 robbery yesterday morning at the Provincial Bank in St. Guillaume d'Upton, near Sorel.

Local police were alerted when the car was seen headed towards Sherbrooke over the back roads.

Branch manager Armand Rainville told police the bandits came into the office about 45 minutes after it opened for business. They herded the five employees into the vault.

Mr. Rainville was hit on the head when he resisted and later received treatment for a scalp wound.

After forcing the employees into the vault the men scooped the money from cash drawers and fled in a car.

Accommodations Are Listed For Great Congress

At least 1,000 rooms are expected to be available in Sherbrooke and district in hotels, motels, rooming houses and tourist homes for delegates attending the dioscesan Eucharistic Congress at the end of this month. Other delegates to the Congress will stay in religious communities, convents, seminaries, colleges or presbyteries.

Prices for rooms in hotels vary from $2.00 to $4.50 and in motels from $2.00 to $6.00. Restaurants too have made special arrangements to accommodate the influx of visitors to the city with prices for meals ranging from 65 cents to $2.00.

All further inquiries for those expecting relatives or friends or questions pertaining to meals or lodging should be addressed to the general committee of the Eucharistic Congress.

C.N.I.B. Studies Joint Financial Campaign

The Sherbrooke and District Branch of the Canadian National Institute of the Blind is considering combining its annual financial campaign with that of other agencies, the members were told at the annual meeting held last evening in the MacKinnon Memorial.

In his annual report, N. L. Amirault, the president stated that slightly over $9,000 had been raised in Sherbrooke, Lennoxville, Richmond, Windsor Mills and parts of Stanstead county last year but that the picture does not appear too bright for the ensuing year.

One reason was unfavorable weather during February and March but another was the numerous demands being made upon the public. For this reason, the society was studying joining with other groups, but no decision will be made for some time.

It was also announced that two new committees had been created during the past year, one for Richmond county and the second for Compton county.

Mrs. H. P. Stockwell

Final Tribute Is Accorded To Stanstead Lady

STANSTEAD — Funeral services for Mabel Agnes Miller, widow of Dr. Henry P. Stockwell, of Stanstead, were held at the Stanstead South United Church, Rock Island, on Tuesday afternoon, Rev. T. W. Tyson officiating. Interment was in Crystal Lake Cemetery.

Mrs. Stockwell, who passed away at Montreal on Saturday, June 13, in her 83rd year, was a resident of the Eastern Townships for over 50 years. She was born in Dundee, Que., on Nov. 17, 1876, the daughter of Samuel Miller and Mary Gordon. The deceased was educated at Huntingdon Academy and was a graduate of the School of Nursing of the Royal Victoria Hospital.

She married Dr. H. P. Stockwell, of Stanstead, in 1903, and during his lifetime assisted him in his practice in the Three Villages and surrounding district. Mrs. Stockwell's contribution to the community also included her activity in the Red Cross, I.O.D.E. and the Order of the Eastern Star.

She is survived by a sister, Mrs. Leslie Ryan, of Rouses Point, New York, and four sons, Henry P. of Ottawa, Hermann G. and Dr. William G., of Montreal, and Ivan M., of Pointe Claire. Her son, Dr. Walter C., predeceased her in 1955. Also surviving are ten grandchildren.

Honey Support Price Raised

OTTAWA (CP)—Federal support prices on honey in the 12 months starting July 1 were announced in the Commons Tuesday by Agriculture Minister Harkness.

Producers will be paid the difference between the average Canadian price and 13½ cents a pound for white No. 1.

The support price in 1958 was 12 cents a pound, equivalent to 91 per cent of the 10-year average.

Plymouth Church Sunday School Annual Picnic

The Plymouth Sunday School annual picnic was held at the cottage of Mrs. Andrew Sangster, Shore Acres. Rev. Mr. Williams and members of the congregation furnishing transportation to the picnic grounds. There was a splendid turn out and with the weather ideal the swimming and sport events were enjoyed by all.

Field races were open to all age groups and the enthusiasm displayed by not only the children but the adults as well, was very rewarding to all those who helped on the various committees in planning this event.

During the afternoon it was announced that a mystery lady was in the gathering. She was found by Joan Collinson to be the minister's wife, Mrs. M. W. Williams. Both received prizes.

After the races were completed several tug-of-war competitions were enjoyed by the children and adults and added greatly to the merriment of the afternoon.

It was an added pleasure for everyone to greet a former pastor, Rev. Dr. Doxsee, who was in the vicinity and dropped by to renew old acquaintances.

After the distribution of prizes a basket lunch was enjoyed with free cold drinks and ice cream.

A vote of thanks was voiced by Percy Gray, the superintendent, to all the parents, children and friends who had helped to make the event such a success also to Mrs. Sangster for her hospitality and the use of her grounds which through the years has always been very much appreciated.

Stiffening The Penalties

With too large a section of the driving public seemingly less concerned with what happens to their lives and the lives of others than to their pocketbooks, the vast majority of drivers will endorse the intensified campaign by the local courts against impaired driving on Eastern Townships roads.

The latest declaration comes from Judge Redmond Hayes who announced that from now on the penalties for impaired driving will be increased by fifty per cent over those which have been the unofficial standard for the past several months.

When the regular penalty was increased from fifty to one hundred dollars and the suspension of the permit from three to six months for the first offence, a substantial drop resulted in the number of offenders against the impaired driving regulations. But the violations of the law were still too frequent for the safety of the general public. The logical result has been the decision to make the penalties even stiffer in the hope that more care would be taken by potential killers.

The suspension of a driver's permit seems to have the best curative effect, especially as the majority of the offenders make use of motor vehicles in whole or part for earning their living. They may find their income reduced temporarily as a result of the stricter application of the law but it must be remembered that these offenders were willing to risk the livelihood and lives of others.

France Pushes Her Luck

Wartime colleagues of Charles de Gaulle, then leader of the Free French, found themselves inevitably involved in personality clashes. He was variously accused of being a prima donna and an irascible egotist. But when he returned to power last year after toppling the decadent Fourth Republic, the world hoped that his years in the political wilderness had mellowed him.

Now it seems that President de Gaulle is using the same prima donna tactics to further France's interests as he did during the war. His action in refusing to allow the United States to stockpile nuclear bombs on French soil unless they are under French control is a barefaced attempt to force Britain and America to accept France as an equal in matters of strategy, diplomacy and international politics.

Canadians, who have no choice but to become the partners of the U.S. in defence, can sympathize to a certain degree with France's plight. The United States dominates the military picture in North America by sheer size and we are acutely aware of American "occupation" of our North.

However, few Canadians have the delusions of grandeur that de Gaulle apparently possesses. Canada has never held the position in the world that France did in her days of glory. And Canadians who are realistic know where our best interests lie. . . .

Those who understand de Gaulle fairly well know his intense devotion to his country. It is not surprising that he should insist on a bigger place in the sun for France.

But de Gaulle must realize that by threatening to make no new commitments to the North Atlantic Alliance and by taking the French fleet out of NATO jurisdiction he is undermining the security of everyone. France will only become bigger in co-operation with her free world allies, not in isolation.

Serving Justice

One of the traditions that has made our judicial system one of the best and fairest in the world is that hearings and trials of accused persons will be heard in the open rather than in secret. It is when hearings are held in secret — as they are in many parts of the world — that the innocent accused may fear for a fair trial and the guilty accused may scheme to thwart the due processes of law.

An amendment to the Criminal Code which has been proposed to Parliament by Justice Minister Davie Fulton is thus a step backward, rather than forward, for our judicial system. Mr. Fulton's amendment would prohibit reference in newspapers to a confession or admission of guilt by an accused person prior to the completion of his trial.

A section of the Canadian legal profession has been advocating this step for some time on the grounds that publication of a confession at a preliminary hearing may prejudice his subsequent trial. This would deny to the public an essential piece of information on which police and prosecuting officials are basing their case. The public has a right to know the available facts when a man is brought into court.

The interests of the defendent are not served by increasing the secrecy which surrounds the administration of justice. Experience has shown that the memories of jurors are short in regard to what they may have read in newspapers, as is the memory of the general public. Jurors are more likely swayed by the facts put before them, the arguments of counsel and direction from the Bench.

Some members of the legal profession are opposed to any sort of publicity regarding preliminary hearings and investigations. The interests of justice would be better served if the public knew more about court and police station activities rather than less.

"WAIT!... I'VE DECIDED I DON'T WANT THE UPPER BERTH!"

Paradox In Budapest

Church, State Exist Together

BUDAPEST (AP) — Graceful church spires hold newly-gilded crosses against Budapest's skyline. Red, neon - outlined stars top Communist government buildings.

Here an atheistic state and still influential churches exist together, obliged to tolerate each other.

The situation produces paradoxes. A government of non-believers uses taxes to support religion. Leading clergymen take oaths to the godless state.

The government does not disguise its opposition. It sponsors lecturers, films and reading material to discredit religion. Official newspapers call for a big effort to root out "religious superstitions." But with memories of the 1956 uprising still fresh, the government is not anxious to stir up trouble.

* * *

Imre Miklos, vice-president of its church affairs office, explained the official position this way:

"An important part of the population is religiously minded and wants to go to church. It is a demand that must be satisfied. Our state anti-church ideology does not exclude help to the church. As long as people need religion, then it should be given to them.

"Communists are convinced that after a certain period the people automatically won't need religion any longer."

Meantime, he said, the Communists are keeping up the annual church subsidy of 70,000,000 to 80,000,000 forints ($2,800,000 to $3,200,000) paid from a chronically - strained state treasury. Without the subsidy the churches, already stripped of estates from which they drew revenues, would be helpless.

The churches live under strict controls. All appointments must be approved by the government. If the churches don't fill vacancies, the government can do it.

* * *

Government and police keep a close watch to make sure clergymen do not become a rallying point for anti-Communist activity. In the last year clergymen were transferred from sensitive parishes to others where their influence could be less.

Miklos explained: "We give the churches every freedom to communicate their ideas. They have the facilities of radio and press.

"But one thing they cannot do is undermine the system. They would not be able to do it, of course, but we don't even let them try."

The churches give no sign of making trouble. In last fall's election, both Catholic and Protestant governing bodies endorsed the Communist-sponsored list of candidates.

The old anti-Communist fighters are gone. Joseph Cardinal Mindszenty lives in refuge and silence at the U.S. legation. Lutheran Bishop Lajos Ordass, who once gave the Communists trouble by not stepping out of office when they wanted him to, is in retirement.

Only once in a while is the outward calm disrupted. From Roman Catholic seminaries came word in recent months that student priests had balked at the party line preached by "peace priests," several of them excommunicated. As a result, large numbers of seminarians are reported to have been expelled.

* * *

The churches have remained strong enough to make the government think twice about cutting the church subsidy.

The basic subsidy agreement worked out in 1948 scheduled a 25-per cent cut every five years. This meant the churches would be on their own in 20 years. But the cuts scheduled in 1953 and 1958 were never made.

The state aid, plus money from congregations, has given the churches an appearance of prosperity that sometimes surprises visitors to Budapest.

Sunday attendance varies. In many villages it is heavy. Some Budapest churches are overcrowded week after week. Other churches are not so well attended.

The church - state agreement provides for religious instruction in the schools if parents request it. Many parents, particularly in the cities, decline to get involved. As long as an atheistic state controls education and job opportunities, they decide not to be too obvious about religion.

The government, which controls all phases of economic life, is betting that religion eventually will give way to atheism. But churchmen believe their 2,000-year old religion has more staying power than the new doctrines of communism.

Letter To The Editor

The Editor,
Sherbrooke Daily Record
Dear Sir:

May we be granted space in your columns in which we may reply to Dr. Lafleur whose letter, in criticism of our letter, was published in the Record of June 9.

We have read Dr. Lafleur's letter many times prior to its appearance in the Record as 75% of the contents are copied verbatim from the propaganda pamphlets put out by the American Dental Association. We would assure the doctor that we have never before opposed any health measures or procedures. We are not a scientist but we do possess enough intelligence to be able to distinguish the difference between "true and false."

We do not wish to deprive anyone of the benefits they feel they may obtain from the consumption of sodium fluoride, however, we do not want it in our drinking water! No child, right now, in any city, is being deprived of fluoride unless its parents want it that way. Right now tomorrow if they wish, they can start giving their children fluoride in measured doses of the amount recommended by their Health Service. They will probably need a prescription from their doctor or dentist; their druggist can add 1.7 grams of sodium floride to a gallon of water. From this gallon they will give each child one teaspoonful daily, and they will receive a measured dose of one milligram of fluorine, which is what the proponents of flouridation say they should have. We wonder if Dr. Lafleur is taking this treatment?

In a pamphlet published by the Health League of Canada (Toronto), entitled "Safety of Water Fluoridation" Guaranteed by World Health Organization, it is stated that controlled fluoridation is in operation in the following countries: a list of seventeen countries is given of which the following are part, Australia, Great Britain, Sweden, New Zealand, Canada, The Netherlands. Sweden rejected fluoridation in no uncertain terms last fall, the other countries mentioned while they are experimenting, similar to our Brantford set up, are finding it extremely difficult to convince the public with resultant law suits in many communities.

James H. Shaw, of the Harvard School of Dental Medicine and editor of "Fluoridation as a Public Health Measure" stated in 1954 that on the basis of material published in that text, "No other public health procedure in the annals of history has been so thoroughly tested in field trials under the widest variety of controlled circumstances." (See Dr. Lafleur's letter).

This book is the scientific bible of the fluoridationists and this statement has been taken by the proponents, given to popular feature writers, and repeated over and over again — parrot fashion — as if by mere repetition the statement would be established as fact. It is within the covers of this very book that the meager basis upon which this statement stands is revealed.

Two "long term" studies, one a medical appraisal of two similar groups of children, age 0 to 10, for the cities of Newburg and Kingston, N.Y., and the second, a Public Health Service examination of two selected groups, age 15 to 68, in the towns of Bartlet and Cameron, Texas, are described. These are the "field tests."

The only contact during the ten-year period between the people examined and the doctor-dental team was a review of their medical history — if any — for that period. Upon such superficial evidence we are expected to accept the statement that fluoridation has been thoroughly tested and is safe for all people. Actually, no long term controlled experiment has ever been carried out to demonstrate safety of the fluoride procedure for people in all stages of life and condition of health and susceptibility. The Medical-Dental ad hoc Committee on Evaluation of Fluoridation state that no positive proof of safety has been offered.

LUCK ASSISTS OVERBID SLAM

South was one point shy for his two no-trump opening. North was about one point shy for his jump to six.

Two overbids usually add up to trouble but with a little bit of luck plus double dummy play South managed to land on his feet.

The luck started with the opening diamond lead. Of course, the queen of diamonds was in the right place all the time but it helped to find it at trick one.

South decided to attack the hearts. He went to dummy with the jack of clubs, led a low heart, finessed his jack, cashed the ace of hearts and West showed out.

His next play was a low spade from his hand. East won with the eight and led the jack back. South finessed the queen and cashed the ace. West showed out but everything was all right now. South was ready to squeeze East.

All he had to do was take his king of diamonds, go over to dummy's king of clubs, discard one spade on the ace of diamonds and lead to his ace of clubs.

East could not guard his queen of hearts and keep the high spade at the same time.

NIKE OR BOMARC?

(Baltimore Sun)

If President Eisenhower has in fact, told the Secretary of Defense to make a decision in the controversy over the Army's Nike-Hercules missile and the Air Force's Bomarc, it would hardly be surprising.

For in the absence of any such decision by the executive branch, the issue is going to be decided by Congress.

And Congress is not the proper-body to decide this highly complicated technical question.

MISTAKEN IDENTITY

(Sudbury Star)

It is an old story that two witnesses to a crime see different things. Yet law enforcement agencies cling to the hang-over from a bygone age of lineup identification. Many newspaper reporters can relate how they have been mistaken for suspects by witnesses looking over a drafted lineup in a police station.

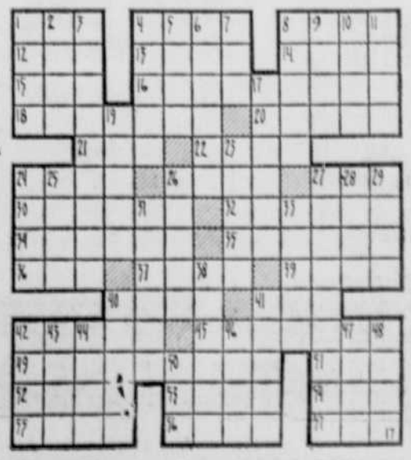
Answer to Previous Puzzle



COURTING TIME COMING

(The Financial Post)

It is becoming more and more obvious that we are going to have to work harder to hold our own in world trade. We may have to change our ways to keep our markets.

As a nation, Canada is in the position of an old-fashioned specialty shop. It is noted for the quality of its traditional merchandise, but it has to face the fact that it is being outsold by more aggressive stores prepared to offer lower prices and more up-to-date lines.

Preaching about integrity and experience will get the older firm nothing but reverence; and you can't eat reverence. What's needed is sales. Adding new lines and adopting new methods is the inescapable necessity.

Canada is showing signs of facing this necessity. Private facilities for financing exports are now being established with parliamentary blessing. It's a big step in the right direction.

The real test is whether we are hard-headed enough to deal, in time, with the changes in agricultural policy, cost-price relationships, and business practices which we have postponed far too long already.

We can't go on producing what is most convenient and handling it in the way that suits us best. We have to be sure that we are producing what the world wants, at a price it will pay.

In international trade, as in the corner grocery business, the customer is always right.

E. T. Motor Club Rally Won By Richmond Men

RICHMOND — The Eastern Townships Motor Club Rally held here on Saturday was a great success according to the president, Clifford Hoyle.

Fifteen members participated in the cross - country run, which left the St. Francis High School grounds at 10.00 a.m. Cars left at one minute intervals and followed a planned route which took them to Windsor Mills, across the bridge to the river road leading into Sherbrooke. From here they travelled to North Hatley, Coaticook, Lyster Lake, where they stopped for lunch, and then went on to Stanhope, Dixville, East Clifton, Martinville, Lennoxville and ended up at the sanctuary outside Sherbrooke.

The trip clocked in at three hours, 42.16 minutes for the distance of 133.4 miles.

First place was taken by Ken Perkins and Bob Boa, of Richmond, with total penalty points of 98. In second position were Mr. and Mrs. Jack McCabe, of Thetford Mines, with 160 points. Third place went to Mr. and Mrs. Clifford Hoyle, of Danville, with 166 points; fourth position to Roscoe Patrick and Clair Horan, Danville, 193 points, and Mr. and Mrs. Ken Healy, of Danville, with 220 points. Other contestants entered from Asbestos, Lennoxville and Drummondville.

This is the first rally held by the local club and the entrants found it very exciting and gruelling. Tension was high as the navigators followed the instruction sheets, watching every intersection and sign posts along the route. Four check points were located along the way. Several drivers "were lost" and had to open the sealed envelope with the scheduled route marked to get back in the race, ending up a few points behind their competitors.

The group met in the evening at the Armory in Danville, where several films on stock car and standard car racing were shown. The event closed with dancing and a buffet lunch.

BEDFORD —

That is less demanding wording than any used in similar proposals put to Gromyko.

IGNORES QUESTION

The new plan drops the West's earlier insistence on a specific Soviet guarantee of the Allies' right to remain in Berlin as post-war occupation powers. It gets around the legal question of occupation rights by simply not mentioning them.

This is the West's way of meeting Gromyko's refusal to sign an agreement "perpetuating" the occupation.

The West figures Soviet acceptance of the plan would mean a quiet end to the Communist one-year deadline for the Western garrisons to get out of Berlin.

Gromyko is reported to have told U.S. State Secretary Christian Herter at a 70-minute secret meeting Tuesday that the West must agree to end its occupation. But some little hope remained among Western diplomats that the Kremlin would find the new wording or something similar acceptable as a compromise.

Western authorities did not expect the Russians to say yes to their new proposal. They thought that if Soviet Premier Nikita Khrushchev is anxious for a summit conference, the Soviet reply might be maybe. The West was prepared to take that as a bid for serious negotiation.

M. Drew near Toronto's Malton Airport.

Mr. Pearson's motion states that Mr. Pallett secured the appointment, with Transport Minister Hees' approval of J. E. S. Clare of Port Credit, Ont., as independent appraiser for the land to be taken. It says that Mr. Pallett proposed that both the department and the property owner be bound by the appraisal and that he instructed Mr. Clare to place as generous as possible a valuation on the property.

"EXCESSIVE" VALUATIONS

The motion adds that Mr. Clare "was not a free and independent appraiser" and that "Mr. Clare's land valuations were quite erroneous and excessive and that his property valuations were out of line with other valuations and settlements" in the same area.

In Monday's business the Commons unanimously passed through all its stages a bill to provide Canada's prime ministers with a summer residence in the Gatineau Hills north of the capital. The residence is on a 13.4-acre estate on Lake Harrington, about 25 miles from the capital.

Virtually the whole day Monday was devoted to another in the series of battles over the government legislation to amend the Unemployment Insurance Act by increasing contributions to the unemployment insurance fund of employers and employees by an average 30 per cent.

Paul Martin (L—Essex East) renewed the Liberal argument that the unemployment insurance fund should be replenished from general government revenues and not through higher employer and employee contributions.

West Coast Woodworker May Strike

VANCOUVER (CP)—An official strike vote among British Columbia's 27,000 coast woodworkers has been set for next week and the province's mainstay industry is heading for what has become an annual crisis.

Labor Minister Lyle Wicks Tuesday set the government-supervised strike vote for June 26 after the policy committee of the International Woodworkers of America (CLC) rejected a conciliation board majority report endorsing wage increases proposed by 137 coast lumber firms.

The union has asked for a 20-per-cent raise in the basic pay of $1.72 an hour. The majority report approved a management offer amounting to 12 cents over two years.

ANNUAL FUSS

In 1952 a 45-day IWA strike cost the provincial economy an estimated $155,000,000. Since then the annual contract renewals have been marked by tough talking, prolonged negotiations and eleventh-hour negotiations.

The union this year says improving market conditions and increased productivity mean that management can afford to meet its demands without losing business.

The companies say marketing prospects are far less certain than the IWA has contended and have pointed to new competition from Russia and Scandinavian countries.

One Dead, One Injured In Manhunt

MIDDLEBORO, Mass. (AP) — Two brothers wanted in the slaying of a Philadelphia policeman and the kidnapping of a man they held hostage for 10 days were shot down shortly before 9 a.m. today when intercepted by state troopers in a patch of woods.

First reports said one of the brothers was killed and the other captured.

The Coyle brothers — John, 24, and William, 22, both of Philadelphia — had been sought here since Monday when they fled into woods after holding up a liquor store.

Walter Schmidt of Union City, N.J., and his wife were having breakfast in the kitchen of Mrs. Schmidt's mother, Mrs. Victoria Canova in South Middleboro.

ON HANDS AND KNEES

Schmidt said: "I saw this fellow in a blue jacket crawling on his hands and knees. He went into some bushes back of the garage."

Schmidt then called police and half a dozen cars converged at the area.

At least 20 shots were fired at the brothers when they were trapped behind the Canova home.

One of the brothers was carried out on a stretcher. The second was stripped of his clothing and wrapped in a trooper's raincoat as they marched him out of the woods.

Set Pretty Outdoor Table on Budget

If you have an outdoor dining area, don't limit its use to the night you entertain. Families, especially the children, enjoy the novelty of eating outdoors, and the cool evening breezes will make food taste better.

Informal service is certainly the order of the day, but that needn't mean a succession of paper plates and cups. Some thrifty homemakers will save their odds and ends of old china to use in such a way.

This form of thriftiness will not appeal to all, especially to those who delight in a pretty, co-ordinated setting, whether for company or for the family.

In these days, when really good-looking dinnerware can be bought for so little, and when there are so many double-purpose containers which go from kitchen to table, it's not an extravagance to have dishes enough for any occasion.

Looking very much at home on either outdoor or indoor informal tables are the new serving pieces and canisters which team warm woods, such as walnut, with earthenware or china.

One new and very moderately priced group features tapered china canisters with walnut lids. Those could line up on a kitchen counter or a table to hold condiments and sugar and, in the larger sizes some staple items.

A wood tray is likely to be teamed with cheese or snack servers. Walnut and brass are used to make warming stands for coffee jugs or casseroles.

Oiled teakwood holders with glass liners could be used for a variety of foods.

Natural teammates for such serving pieces are china and earthenware in modern shapes and those with provincial or Scandinavian motifs.

A good example is found in a low-priced dinnerware with a brilliant mustard sunburst that rims plates and the bases of wood-topped jars and cruets.

What joins in smoothly with such tableware are wicker baskets for bread or rolls, wooden candle holders, boldly colored tablecloths and sturdy garden flowers.

A welcome change, too, for the youngster charged with setting the table is to show her this variation:

Let her tie each person's flat-ware in a big, lap-size napkin.

Wrap protects silver and simplifies buffet service.

For informal dining, blue cloth is set with new, inexpensive, dinnerware in mustard sunburst rim pattern. Canisters and serving dish have walnut lids; casserole, a walnut stand. Pitcher and matching mugs carry well on a wicker tray.

MANNERS MAKE FRIENDS

If you are giving a party in honor of a bride or a June graduate and want the guest of honor to supply the guest list, be sure to give her an idea of about how many you would like to entertain.

Homemaking

Rid rooms of stale tobacco smoke with this "home-made" deodorizer. Just mix a little ammonia in a bowl of fresh water and let it stand overnight in the smoke-filled room. The next day the rooms will be sweet and fresh again.

Bill Casper Arrives For Canadian Open; 150 To Compete In Field

Final Warm-Up Rounds Slated Today Although Weather Is Still Chilly; Leonard And Balding Top Canadians

MONTREAL — (CP) — The last warm-up rounds for the Canadian open golf championship come up today and all hands — certainly Bill Casper — were hoping the weather would warm up as well.

The rotund Californian who won the U.S. Open Sunday hopped off a plane Tuesday, was whisked to the Islesmere course here and promptly declared: "I thought I was being set down in Alaska."

It was cold at Islesmere — in the 50s — along with blustery winds, heavy clouds and a few weak peeps of the sun.

Prospects today were that the temperature might get up to 65 and that there will be gradual warming for the start of the 72-hole tournament Thursday.

150 ENTERED

The draw shows an entry list of exactly 150. The field will be cut to 100 lows and ties after Friday's play and to 60 lows and ties after the third 18-hole round Saturday.

Because of his great win in the U.S. Open, Casper has become something of a popular choice to win here.

But among Casper's touring pro mates considered likely to upset him are Art Wall, Jr., this year's winner of the Masters and top-money man on the tour, Bob Rosburg, Doug Ford, Ken Venturi, Tommy Bolt and Paul Harney.

Wes Ellis of Ridgefield, N.J., is the defending champion and is not being overlooked. Ellis won at Edmonton last year.

The only Canadian ex - champ in the field for this $25,000 Open is veteran Pat Fletcher of Royal Montreal, who ended a 40-year American stranglehold by winning in 1954 at Vancouver.

Stan Leonard of Vancouver and Al Balding of Toronto, both of whom have been on the tour, are regarded as the best prospects for a win by a Canadian.

Rodriguez Faces Virgil Akins In Miami Tonight

MIAMI BEACH, Fla. (AP)—Luis Manuel Rodriguez, 22-year-old Cuban welterweight champion likely will be underdog when he faces Virgil Akins in a 10 - round fight here tonight.

Although Rodriguez is undefeated in 21 fights and has knocked out three American welters, Akins is older by 10 years and more experienced by 51 ring engagements.

Rodriguez is a flurry puncher much on the order of his famous countryman, Kid Gavilan, but packs a hefty wallop and knocked out Charley Scott and Isaac Logart recently. He also upset Ralph Dupas and has knocked out Joe Miceli and Cecil Shorts, among others.

Akins, who recently lost his title to Don Jordan, is a lazy fighter who waits for one punch but is deadly with either hand. His record is 49 wins, 22 defeats and 1 draw. He has scored 29 knockouts.

The fight to be televised will be scored on a 10-point must system.

BESMANOFF WINS OVER DE JOHN

MILWAUKEE (AP) — Willi Besmanoff scored a unanimous decision over lanky Mike de John of Syracuse, N.Y., Tuesday night in a 10-rounder at The Auditorium. Besmanoff weighed 200, de John 207.

Eddie Arcaro Leaves Hospital

NEW YORK (AP)—Eddie Arcaro left hospital Tuesday for his Garden City, N.Y. home. Dr. Alexander Kaye said it'll probably be 10 days or two weeks before he rides again.

Arcaro suffered a slight concussion, sprained neck muscles, contusions of the left shoulder and bruises when he was thrown by Black Hills in Saturday's Belmont Stakes. Black Hills fractured a leg and was destroyed.

Leo Durocher Fine Following Kidney Operation

ROCHESTER, Minn. (AP)—Leo Durocher, former major league baseball manager, was in satisfactory condition Tuesday after undergoing an operation for removal of a kidney stone Monday.

A Mayo Clinic spokesman said Durocher probably would be discharged from Methodist Hospital toward the end of the week.

Juan Pizarro Hurls No-Hitter For Louisville

LOUISVILLE, Ky. (AP)—Juan Pizarro, a fire-balling southpaw sent down from Milwaukee just 10 days ago, pitched a no-hitter for Louisville in the American Association Tuesday night.

Pizarro faced only 28 batters as he blanked Charleston Senators 1-0. He struck out eight and would have had a perfect game except for two walks.

Big Newk Is Main Stay Of Redlegs' Pitching Staff, Stops Giants 2-1; Braves Edge Dodgers, Pirates Win

There were snickers last spring when manager Mayo Smith figured the big fellow in his Cincinnati pitching staff might be Don Newcombe.

Newk? Sure he won 27 in 1956, but he was washed up, hadn't even been able to win 20 over two seasons since.

So who's the ace of the Red staff? Big Newk, winner of six straight, all complete games, with a 3.00 earned run average and 4-0 against the slugging San Francisco Giants after he chopped them down 2-1 Tuesday night.

It was Newcombe's seventh victory of the season, matching his total for last year when he lost 13. This one slipped the Giants two games behind the National League-leading Milwaukee Braves, who came off with a 5-4 victory over Los Angeles Dodgers.

CARDS TAKE PAIR

Pittsburgh Pirates tightened their hold on third, just a game behind the Giants, by beating Chicago Cubs 5-2. St. Louis Cardinals swept a two-night pair from Philadelphia Phillies 8-1 and 5-2.

Newk, who hasn't lost since he dropped his fourth game May 10, stretched the Giants slump to three games with a six-hitter, walking none and striking out three.

The sixth - place Reds didn't give him a lead until they roughed up Mike McCormick (4-6) for both runs in the eighth inning on Vada Pinson's 11th homer, a single by Frank Robinson and a double by Frank Thomas.

Lew Burdette won his 10th for the Braves but failed to go the distance for the fifth straight time when the Dodgers, shut out for seven frames, scored twice in the ninth. John Roseboro's double and a walk brought on reliefer Don McMahon, who gave up a two-run single by Charlie Neal before getting Wally Moon on a popup that ended it.

Moon, who was 4-for-5 had tripled home a run and scored himself in a two-run eighth. Johnny Podres (7-3) was the loser.

NINTH-INNING OUTBURST

Bob Friend (3-8) won it for the Pirates, who broke a 1-1 tie with four runs after two were out in the ninth. Don Hoak's two-run double and Friend's two - run single beat Dave Hillman (3-5) as the Pirates won their fifth decision in the last six. Reliefer Roy Face figured in his 37th victory since he last lost (May 30, 1958) by getting the last two outs. Ernie Banks hit his 18th homer for the Cubs.

The Cards made it eight out of 10 as Wilmer Mizell (8-3) beat the Phils in the opener and Ernie Broglio, who had lost five, won his first in the majors with Lindy McDaniel's two - inning mopup.

Hal Smith homered in the opener for the Cards and Gino Cimoli hit a two-run homer in the first inning of the nightcap, clinched on Stan Musial's triple in the fourth.

Dave Philley homered and singled for both second - game runs by the Phils. Ruben Gomez (1-4) and Jim Owens (4-4) were the losers.

YESTERDAY'S STARS

Pitching —Art Ditmar, New York, gave up only four hits for 5-1 victory over Chicago White Sox, walking but one and striking out four.

Hitting—Don Hoak, Pittsburgh, had three hits in four trips and broke a 1-1 tie with a two-run double in the ninth inning for 5-2 victory over Chicago Cubs.

Cleveland Indians Riding Hottest Streak Of Season, Dick Brown Clouts Homer; Yanks Knock Over White Sox

Cleveland Indians are riding their hottest streak of the season and Cal McLish is back in stride, but still trying to shake a shutout jinx.

The big righthander, whose lone whitewash performance in the majors came eight years ago, pitched the Indians to their seventh straight success and a full-game lead in the American League race with a 4-1 victory over Boston Red Sox Tuesday night.

It was the fifth time this season McLish, 6-3, has come close to nailing his second shutout. This time he missed by inches—when Marty Keough's seventh - inning drive ticked outfielder Rocky Colavito's glove and got away for a home run.

YANKS WIN

New York Yankees helped along by defeating Chicago's second-place White Sox 5-1. Other games, Detroit at Baltimore and Kansas City at Washington, were rained out.

The Indians plunked the Red Sox back into a last-place tie with Washington on a two-run homer by Dick Brown in the fifth inning against loser Ted Wills (2-2).

McLish's lone shutout in the majors, incidentally, came in the National League when he was working for Chicago Cubs in 1951.

The Yankees moved to within a single game of fourth - place Baltimore behind the four - hit pitching of Art Ditmar (5-4). The Sox scored in the first inning on a double by Nellie Fox and Sherm Lollar's single, then managed only a pair of singles by Norm Cash, in the fourth and sixth, the rest of the way. Ditmar walked but one struck out four. Billy Pierce (7-7) was the loser.

Mike Goliat Clouts Homer As He In Process Of Getting Free Walk As Royals Win; Leafs Dump Marlins

Mike Goliat has clubbed many a home run, but the one he'll probably remember best came Tuesday night against Havana's Emilio Cueche.

Cueche was attempting to walk Goliat when the Montreal Royals' second baseman reached out and smacked the first wide pitch over the right field fence with two men on base. It provided the winning margin in the Royals' 7-5 victory.

In other International League action, Toronto defeated Miami 5-2, Buffalo clung to a half-game first-place lead over Richmond, though losing to Columbus 3-2 while Rochester beat the Vees 5-1.

Goliat, who played 34 games with Toronto this season before being traded to the Royals hit his blast in the sixth inning as Cueche made his first pitch in relief of loser Walt Craddock (6-3). It gave his mates a 7-2 lead at the time.

Larry Novak hit two home runs for Havana and Curt Roberts and Clyde Parris one each for Montreal as Babe Birrer (4-7) got the victory with relief help.

LEAFS IN LATE RALLY

Toronto used four singles in the eighth inning to score two runs and tie the score 2-2 against Miami's Jack Fisher. They hit two more singles in the ninth before Art Kay took over and gave up three more and three runs. Fisher pitched hitless ball for five innings. Al Pehanic (2-2) was the winner in relief of Bob Chakales.

Lefthander Joe Gibbon broke Columbus' seven - game losing streak against Buffalo with a five-hitter. He struck out nine and didn't walk a man. Bobby Morgan homered for the Bisons and Tim Burgess hit his 14th for Columbus. Don Erickson (3-2) was the loser.

Rochester's Bill Smith, also a lefty, duplicated Gibbon's five-hitter against Richmond. He struck out six and walked one as his mates used two errors for four unearned runs against loser Bob Wiesler (7-4).

Gilles Boisse Of Senators Posts His Third Straight Win By Downing White Sox 11-7; Two Games Tonight

Gilles Boisse, Senator hurler, chalked up his third win of the season downing the White Sox 11-7 last night in a Little League game at the Parade Grounds. Tonight the Red Sox tangle with the White Sox and Tigers meet the Yankees at Lennoxville.

Last night's encounter played in chilly weather sent the Senators to the top of the league with four wins against no losses. White Sox chalked up two runs in the top of the first inning. Three walks issued by Porritt, Senators' starting pitcher, and a single by Gravel sending in the runs. Senators with two hits in their half of the same inning got three runs. The hits coupled with a White Sox error and two walks.

White Sox made it 3-3 in the top of the second. A double by C. Lachance and a fielder's choice scoring the run.

White Sox in the top of the third and fourth were kept off the score sheet. Boisse taking over the pitching chores for the Senators in the third inning. In the last of the fourth Senators forged ahead having a big six run inning. Four hits, an error and two walks accounting for the tallies. Porritt, Boisse, Patrick and Caron got the hits in this inning. Patrick with one man on for the Senators in the bottom of the fifth put the Senators further ahead hitting a home run.

White Sox threatened to come close in the top of the sixth when Boisse got a little shaky issuing walks to the first two men who faced him. An error by Boisse filled the bases and Lachance hitting safely drove in two runs. Two hits in a row again filled the sacks and left fielder Proulx lashed out a clean single sending in two more runs. This was the finish of the scoring as Boisse settled down and with the aid of a double play along with a strike-out retired the side.

The game was well played each man pulling his weight. Roy, Webb and Largy umpired.

Herve Filion Retains Lead As Top Reinsman; Sunday's Card Tonight

Buster Huckins Holds Second Spot In Race For Individual Honors; "C" Pace Is Main Event Tonight

Herve Filion extended his lead in the battle for top position in the individual race for driving honors at the Sherbrooke Race Track during the past week. He holds a thirty-two point bulge over the runner-up, Buster Huckins.

Filion, who hails from Angers, Que., has chalked up twenty-one wins, eight place and six show in his 58 starts, the largest of any driver at the local oval. Huckins, who has a nine-point spread over his closest rival, Fern Desrocher, has only thirty-one starts to his credit.

Huckins has nine wins, 11 place, the highest on the sheet, and four show finished for his record. Desrochers holds eight points over Amedee Beaudoin, who has collected 36 points while Robert Jutras is next with 33 and A. Gravel is close with 32 and Guy Desrochers completes the big "Six" with 30 points.

Tonight's card is the one which was slated for Sunday evening but was postponed owing the damp weather. Secretary Lionel Racicot has a well balanced program and the fans should see some good racing.

In the main event, a "C" Pace, seven starters will answer the call. Bennett's Texas Blue will be making his first start while William West Kyer, Dixie's Baby, Flip Morris, Boum Boum Bumpas, Mary G. Herbert and Reyno Worthy comprise the field and anyone of the seven could well emerge the winner in what should be a close battle right to the wire.

The list of top drivers follows:

Belleville To Know Soon How Much It Will Cost Them In Taxes For Their World Champion Hockey Team

BELLEVILLE, Ont. (CP)—Hockey - loving citizens of this eastern Ontario city should know within a week exactly how much they will have to pay in taxes to replace money taken from the city treasury for their world champion hockey team.

Ontario's Municipal Affairs Minister Warrender is also awaiting completion of a detailed audit begun a month ago. He has promised a judicial inquiry if the audit indicates one is necessary.

Another awaiting the result is Drury S. Denyes, 40-year-old city manager and manager of Belleville McFarlands. He was suspended as city manager last month after Mayor Gerald B. Hyde reported a misuse of city funds.

"We have no reason to believe that the money has been stolen or embezzled by the responsible official," the mayor said, "but we know it has been terribly misspent without any authority."

$102,609 DEFICIT

A preliminary investigation by the city's auditors showed the hockey club and the Belleville Memorial Arena had an accumulated deficit of $102,609 at the end of 1958. Salaries totalling $57,000 had been paid to hockey players from the city treasury during the last three years.

Mr. Denyes was city treasurer for several years before he also was appointed city manager in June, 1957.

He became manager of the McFarlands in 1956 when the team entered the eastern senior A division of the Ontario Hockey Association. He went to Europe with the club when it won the world hockey title last March. It is understood no city funds were used to finance the trip.

The city's 28,000 residents now will probably have to meet the deficit in their taxes.

Mayor Hyde says he hopes the money can be raised over a period of two or three years "so it won't hurt quite so much."

Indians Rally In Late Innings To Post 6-2 Victory Over Kist To Take Over Fourth Position In Junior League

The Sherbrooke Indians won their second consecutive Junior League Baseball League game from Kist at the local ball park last evening. The Indians under their new coach Larry Greenland posted a 6-2 victory to move into fourth place in the Fortier Loop.

The Indians played a steady game of ball capitalizing on five Kist errors. The Kist team, perhaps the youngest in the league, appeared nervous in the field and were unsure of themselves in the field.

Billy Robinson was credited with his second win of the season coming in for Moreau in the fifth with the game tied 2-2. Desbiens started the game. Tanguay went the distance for Kist and was charged with the loss.

Kist are now in the cellar of the League with a one and five record.

The Indians took a first inning lead scoring two runs. Kist tied the game with singles in the second and third innings.

Greeland's boys took two in the fifth and another two in the sixth to wrap up the game.

Francois Lemire was the big man at the plate for the Indians collecting two hits in three trips to the plate.

Action in the League resumes Thursday night when second place Coaticook play host to league leading Fuller.

Game time is 7:30.

Brian London Not To Appeal BBBC Decision

LONDON (AP)—Brian London, the British fighter suspended and fined $2,800 for fighting world heavyweight champion Floyd Patterson, said Tuesday he will not appeal against the British Boxing Board of Control's verdict.

The BBBC had forbidden London to meet Patterson because the contest was "against the best interests of British boxing." London ignored the ban and was knocked out in the 11th round at Indianapolis May 1.

London decided not to appeal after an attorney told him it would be a waste of time and money.

Parry O'Brien Breaks His Own Shot Put Record

POMONA, Calif. (AP)—Parry O'Brien broke his own world record in the shot put Tuesday night with a throw of 63 feet, eight inches. His listed record is 63 feet, two inches, set in Los Angeles in 1956.

Alex Petrie, Amateur Athletic Union official, said there is no question but what the record will be accepted, since the field was surveyed and the shot weighed for the event, especially staged to give O'Brien a chance to break his record.

Halfback Option Play To Be Used More-Trimble

HAMILTON (CP) — Football fans in Eastern Canada will probably see a greater use of the halfback option play this fall, Jim Trimble, coach of Hamilton Tiger-Cats of the Big Four Football Union, predicted Tuesday.

Trimble said in an interview this type of offensive play, where a halfback gets the ball and has his choice of running or passing, "isn't really new. It's just a rebirth."

Montreal Alouettes often used the play last season. Trimble said he expects Ottawa Rough Riders will probably exploit it more than any other club this fall, although Ticats and Toronto Argonauts will use it as well.

Ingemar Johansson Not Impressive In Workouts, Fails To Throw Any Rights, Must Be Playing It Foxy

GROSSINGER, N. Y. (AP)—To put it mildly, Ingemar Johansson was not impressive. Perhaps it was an off day for the unbeaten Swede. Perhaps he was holding back for fear of giving away secrets. Whatever it was, it left many boxing writers cold.

Johansson, in the home stretch of his training for the June 25 title match with heavyweight champion Floyd Patterson at Yankee Stadium, showed little fire in his work Tuesday.

After spearing Bill Johnson with some stinging left jabs, he confined himself to trying to block punches. Some he didn't block, especially when Clarence Floyd, a New York light-heavyweight crowded him.

"It was one of those days," said Johansson.

The European heavyweight champ used his right sparingly as he has done in all his workouts. Still, they insist the right is the big punch — the punch that knocked out Eddie Machen in one round. A slugger devoting all his time to a jab is something like Mickey Mantle spending spring training practising bunts.

Whatever it is time is running short. Counting today's work, Ingemar has only four more days of boxing before he finishes Saturday.

When is he going to throw the right? What is he saving it for? Maybe Patterson will find out June 25.

FINSTERWALD'S GOLF ... No. 38

Woods Easier Than Irons

Another of a series written for NEA Service and Sherbrooke Record.

By DOW FINSTERWALD
PGA Champion

Brute force will get you nowhere with the woods.

The average golfer forgets woods are designed for distance and that he doesn't have to break his back to give the ball a long ride. Mental attitude is far more important than muscle, especially in using woods from the fairway. You get more distance when you relax and swing easily.

Woods are easier to use than irons because they generally are played off the tee or from good lies. A wood has a flat, wide sole which tends to right the club if it is swung too deeply into the turf. Irons have no such sole.

Balance throughout the swing is a most important feature. The swing should be developed gradually. Don't be in a hurry. Practice for timing, rhythm and smoothness which will provide accuracy and distance.

The ball is played off the left heel. I like a closed stance, with the right foot back about one inch. The hands work as a team. At the start of the swing, the club should be brought back with both hands, never with either hand alone.

Keep in mind that the club should be swung.

If you lift it, you may lose that balance so essential in playing the woods.

Expedition Leaves Whitehorse on Trip To Examine Our Highest Mountain

By GERRY McNEIL

EDMONTON (CP)—What will five young Canadians see if they reach the weathered, storm-swept summit of glacier-locked Mount Logan—Canada's highest mountain?

A. H. MacCarthy, Canadian leader of an eight-man expedition that first conquered the towering peak in 1925, described the sight as "a huge layer cake, nuts showing through the frosting, a veritable sea of white expanse with myriads of islands, all thousands of feet below."

Mount Logan, at 19,850 feet the second highest point in North America, is one of the largest mountain masses in the world. Its precipitous granite slopes and great glaciers cover an area between 100 and 200 square miles in the Elias Range of the southwestern Yukon Territory. Sixty miles east of the Pacific, warm winds cause storms that dump 200 inches of snow a year on the perpetually-covered peak.

TO TACKLE EAST RIDGE

The latest expedition left Whitehorse, Y.T., by station wagon May 25 for Kluane Lake, 130 miles west and about 75 miles east of Mount Logan. It planned to tackle the east ridge after scaling the Kashawulsh Glacier.

Led by Hans Gmoser, 26, of Banff, Alta., the members include Willy Pfisterer, 33, alpine guide at Jasper, Alta.; Ron Delasalle of Montreal, McGill graduate in architecture; Don Lyon, 24, University of British Columbia graduate in education; and UBC zoology graduate Karl Rieker, 24.

Gmoser, known as a daring and capable climber, hoped to make the ascent in less than 20 days. The party planned to follow the Donjek Glacier to the Donjek River on descent, then paddle three rubber rafts to the Alaska Highway.

Each man carries a 100-pound pack compared to 80 pounds in MacCarthy's expedition. Food supplies allow 2½ pounds of bulk of 4,400 calories daily.

WEATHER HAZARD

Weather was expected to be an important factor in the attempt. Temperatures on the mountain drop well below zero even in summer.

It took MacCarthy's men from Feb. 17 to June 28 to reach and climb Mount Logan in what was regarded as a major mountaineering feat. They left MacCarthy, about 230 miles east of Anchorage, Alaska, with eight tons of supplies which were hauled 85 miles up the Chitina Valley, then distributed along 50 miles of glaciers. Their northwest approach left them 18 miles of actual climbing on the mountain.

MacCarthy listed avalanche, treacherous ice, high winds, glacier fatigue and the effects of a rare atmosphere as some of the tougher aspects of his climb. The strain of climbing in deep snow, broken ice and over tumbled boulders left his party in "more or less dazed condition in the last stages." Almost continuous summer daylight had "an undermining effect on the nervous system" of the men.

SUFFERED FROM COLD

Temperatures fell to 33 below zero at one point and frost-bite affected several climbers. After descending the mountain, they still had 85 miles to go through rugged terrain.

They built two log rafts and set out down the Chitina River. One of the rafts upset however and its members had to walk 70 miles, one with frozen feet.

Now, 34 years later, a determined party is challenging the peak again.

"I'm sure that we can make it in less time than the American team who made nine camps and took 20 days," said Pfisterer, interviewed before leaving Whitehorse.

Logan was discovered in 1890 by Prof. I. C. Russell of the United States Geological Survey. He named the peak after Sir. William Logan, first director of Canada's Geological Survey.

Redolent with history, fragrant with apple blossoms

Nova Scotia's Blossom Festival

Probably no other Province of Canada is so rich in romance and folklore, so crowded with memories, as Nova Scotia, site of the first permanent settlement in North America, home of the early Acadians, the land of Evangeline, immortal heroine of Longfellow's epic poem.

Each year, at the end of May, the beautiful festival of the blossoms is held in many villages and towns throughout Nova Scotia's lush Annapolis Valley. The Memorial chapel in the background has never been used as a church, but serves as a museum for Indian and Acadian relics, as well as for those of the first New England settlers in the Minas country. Above, last year's festival Queen lays a bouquet of apple blossoms at the statue of Evangeline in Grand Pre's national historic park.

It was the early Acadian settlers who first introduced apple growing to the province in the late 17th century. They erected dykes against the sea, reclaimed thousands of acres of rich land, laid out the orchards which became the basis of the prosperous apple industry of today.

The Queen, against a lovely background of blossoms, poses happily with her pretty young attendants. The traditional Nova Scotian festival has developed into a program of colourful pageantry, which features a grand parade, community singing, folk-dancing and many brilliant displays where the romance of the province's storied past is recalled throughout a land fragrant with apple blossoms.

National Film Board of Canada Photos

One of the many picturesque spots which are dotted throughout Nova Scotia's famed Annapolis Valley is Clementsport, often called the "Queen of the Basin". To the right of Clementsport, the Blue Mountains of the Micmacs, rich in Indian lore, take their rise. The township was settled by Loyalists of Dutch and German descent who built the sparkling white church in the foreground in 1789.

Duck Farms To Aid Waterfowl In N. America

WINNIPEG, (CP)—Man - made "duck farms" on the Canadian prairies are expected to play a vital role in North America's waterfowl production this year as drought conditions attack most natural breeding grounds.

Field experts of Ducks Unlimited (Canada), a waterfowl conservation organization, say dry conditions extend through most southern regions of Manitoba, Saskatchewan and Alberta — where more than 65 per cent of the continent's migratory waterfowl are born and raised each year.

Duck breeding in southern areas has been disappointing this spring. The decline has been offset somewhat by a shift of the breeding ducks to northern regions of Alberta, Saskatchewan and Manitoba.

The duck farms — man-made reservoirs — are formed through river diversions and irrigation system and maintained at controlled levels by damming.

Ducks Unlimited completed 39 new "farms" last year, bringing the total to 494 — 99 in Manitoba, 303 in Saskatchewan and 192 in Alberta. The total number of DU breeding grounds represents more than 780,000 acres of marshland and water—including more than 4,000 miles of shoreline, a basic measurement of waterfowl production potential.

BIG OUTLAY

The organization has spent more than $6,500,000 on such work in Canada since its first project was established in Manitoba in 1938. This year $550,000 has been alloted for 47 new "farms" scheduled for construction through the prairies.

Most of the money comes from Ducks Unlimited's United States membership, with state and local branches donating funds for construction of reservoirs in specific areas.

Besides offering waterfowl controlled watered areas for breeding, DU also plants vegetation in the areas for food and cover. Main food plants are sago pondweed and bulrushes.

The field men report migration of birds this spring was normal but there were indications of a late start in nesting due to the lack of small ponds, farm sloughs and water - filled ditches that many of the birds normally use for breeding.

However, by mid-May nesting was reported among pintails and mallards—the perennial early arrivals on Canadian marshes.

Synod Archives Committee Visits Nelsonville Parish

COWANSVILLE — The Archives Committee of the Synod of Montreal paid its annual visit to the Parish of Nelsonville, which is, as local readers know, the Cowansville - Sweetsburg area.

The committee chairman, Rev. S. L. Pollard, accompanied by the secretary, Canon A.R. Kelley, Professor J. I. Cooper and R.G. Harries, motored to Cowansville where they were greeted by another member, Frank Wise of the Nesbitt Residence, who acted as their guide through Trinity Church. Of particular interest were old bricks on which are carved the names or initials of a number of the original Church "fathers".

In Sweetsburg at Christ Church A. L. Windsor welcomed the visitors. Within the sanctuary, time was spent in examination of the silver, which is worthy of note; in form and pattern it resembles that of other Canadian churches which have been blessed by gifts from England.

In the adjoining cemetery the group compared and followed dates on stones. One memorial was found to antedate the institution of the graveyard and must therefore have been moved to its present position.

While in Cowansville the distinguished guests called at the rectory, where they saw Rev. and Mrs. John Peacock, and at noon they dined at the Nesbitt Anglican Residence.

ULVERTON —

The W. F. Supper held in the Dunkerley Hall was well attended. Proceeds netted $77.62.

Mr. and Mrs. Ralph Garvin of Chute Panet were guests of Mr. and Mrs. L. Norris.

Cookshire Senior Church Group Holds Meeting

COOKSHIRE — The Senior Woman's Association met at the home of Mrs. Cooper, with Mrs. J. H. Beaumont in the chair, assisted in the devotional period by Mrs. Cooper and Mrs. Heatherington.

The minutes were read by the secretary, Mrs. Heatherington, and the treasurer, Mrs. Butler, reported a fair balance on hand.

Final plans were made for a food sale and tea in Trinity Church Hall on June 19, at 3 p.m. Those appointed in charge were: Handwork and miscellaneous table, Mrs. G. Learned and Mrs. C. Cooper; food table, Mrs. Beaumont, Miss Nelson, and Mrs. O. C. Farnsworth; tea tables and kitchen, Mrs. Van Der Leden, Mrs. Heatherington, Mrs. Morrow, Mrs. Wootten, and Mrs. Farnsworth, posters, Mrs. Beaumont.

Mrs. Butler reported for the parsonage Committee, and it was decided that the branch would pay its share of the renovation. The committee of stewards will be given $100.

At the close of the afternoon the hostess served refreshments.

Meetings will resume in September.

WATERLOO —

St. Paul's Junior Choir and Mission Band members visited the Wales Home, Richmond. Twenty children were in the group with their leaders, Mrs. M. O. Singfield, Mrs. Westover, Mrs. Russell Bockus and Mrs. George Young. Parents and friends provided the transportation. On arrival at the Wales Home, the youngsters met the old people and gave a little recital, opening with their regular devotional service. The singing of familiar hymns pleased the residents. Following the visit, the Waterloo group went to Bowker Lake and enjoyed a picnic lunch on the shore.

Guests of Mrs. C. G. Hall were Miss Joyce Raymond, Miss Edith Watson and Miss Florence Bowker, all of Montreal. While here Miss Watson visited her uncle, Mr. Fred Parmelee, at the Courville Rest Home, South Stukely.

Mr. and Mrs. G. E. Hanson attended the graduation of their daughter, Carol, from Ontario Ladies College, Whitby, when she won the Canadian Bank of Commerce Silver Medal for second standing in Grade 13.

Parkes; vice-president, Mrs. Heman Wing; and secretary-treasurer, Mrs. O. T. Pickford. A donation of $10 will be sent to the Wales Home, and plans were discussed for increasing funds on hand. At the close of the meeting, the hostess served tea.

Miss Griffin, who is severing her connections with the High School after ten years on the staff, spoke briefly in farewell.

John Chapman introduced the guest speaker, Tom Tait, of Granby. Mr. Tait was in the R.C.M.P. until ill-health forced his retirement. His experiences in the service were of interest to everyone, and it would be difficult to find one with a more thorough knowledge of the subject he chose, Narcotics. Mr. Tait chose this subject because he was talking to a group of teachers and educationists, who who are in daily contact with young people and he considered it important that they should be fully informed.

Betty Sturtevant, 12, and her young sister, Wanda, 6, sang to Betty's accompaniment on an accordion. Mrs. Black's reading proved an amusing item.

Boundary Rotary Club Pays Tribute To Popular Principal Of Sunnyside

ROCK ISLAND — Ronald Gibson, Rotarian and principal of the Beebe Intermediate school, paid a glowing tribute to Mrs. Muriel McClary principal, who is leaving Sunnyside this year and going to the Stanstead College staff. Mrs. McClary was thus honored at a banquet held at the Dufferin Heights Country Club with the Boundary Rotary club the hosts, and their ladies as guests.

Mr. Gibson traced the life of Mrs. McClary, a former student at Stanstead College and a graduate of Macdonald College, St. Anne de Bellevue. She taught a year at her home town of Bulwer, and was principal for 21 years at Hatley school.

In 1951, Mrs. McClary came to Stanstead College and became principal of the Holmes Model School, succeeding Mrs. Ruby Wharram. When Sunnyside School replaced the Model School Mrs. McClary remained as principal and it was under her expert guidance that Sunnyside added two high school grades to become an Intermediate school.

Mr. Gibson said: "It is indeed appropriate that the Rotary Club should honor Mrs. McClary. Others in the past years have known her worth by honoring her in various ways. She has received the Service Medal from the Junior Red Cross for work through her school. In the autumn of 1953 she received the Coronation Medal award for outstanding contribution to education, and in 1956 she was awarded the Order of Scholastic Merit by the Department of Education, a highly valued and worthy honor."

Mr. Gibson, who taught under her as assistant principal at Sunnyside for two years, continued: "She is an outstanding administrator; one does not for her but with her, not because he wants to but because he wants to. The Boundary Rotary Club appreciates your talents and your tireless efforts during your many years of devoted service."

Mrs. McClary was presented with a bouquet of flowers by Mrs. George Carruthers. Lloyd McKeen, who is leaving Stanstead County as supervisor, added his thanks and appreciation to Mrs. McClary for her co-operation and help during his years as supervisor.

Mr. Gibson, also leaving Beebe this year, was presented with a lighter by Lloyd Bliss on behalf of Rotary Club members and wished every success at his new position in Mount Bruno.

A roast beef dinner was served by Mrs. Winslow of the Country Club.

FAREWELL PARTY

Prior to leaving to spend the summer months in England, Mrs. M. B. Quillinan was honored with a farewell party. Mrs. Quillinan had been invited by Mrs. Kenneth Barlow to go for a drive, ending at the latter's summer cottage, where several friends awaited them.

The evening was spent playing card games and Mrs. Quillinan was presented with a gift of money, accompanied by best wishes for a "Bon Voyage," from her friends.

Refreshments were served by Mrs. Barlow, Mrs. Rudy Miller, Mrs. Breakey Mosher, Mrs. Victor Federico and Mrs. Herbert Chamberlain.

Mrs. Quillinan left immediately for Montreal where she spent a few days with her son and daughter-in-law, Mr. and Mrs. John Quillinan, before sailing for England, where she will visit her mother, who is in poor health, two sisters and two brothers as well as other relatives and friends.

The Doctor Says

Edwin P. Jordan, M.D.

MORE THAN FACE WILL BE RED IF YOU IGNORE THIS ADVICE

The old saying, "the burnt child shuns the fire," apparently does not apply to many grownups who get themselves painfully sunburnt year after year.

In many parts of the North American continent (yes, I know about California, Texas, Florida and New Mexico.) the sun is pretty weak during the winter months and the residents of our cities and towns lose most of their tan.

But a goodly proportion seem to forget their vulnerability to the strong sun of early summer and spend the first bright sunny Sunday or holiday trying to make up for lost time.

The inevitable result is a few absences from the office the next day and the appearance of others shining like a beacon light from sunburn.

This really does not make much sense. A severe sunburn is not only uncomfortable enough, but can be dangerous.

A sunburn is of no earthly benefit to health. When the skin is burned by sun the outer layers are killed and have to be replaced from the layers below. After a severe sunburn, for example, the outer layers are shed in sheets and pull off. The dead outer layers do not get any benefit from the sun and actually prevent some of the good which is desired.

The sun's rays are necessary for growth of plants and help in maintaining the health and well-being of humans and animals.

One of the benefits which the sun can give is to aid the human skin to produce a substances called Vitamin D. This is necessary for complete good health and prevents rickets in children.

A brown, tanned color is the result of the deposit of a pigment or coloring matter in the skin called melanin. This helps to protect the body against getting too much from the sun's rays. When the skin becomes pale it means that there is not much melanin present.

Melanin is not deposited in the skin at once on exposure to sun, but takes time. A white skin, therefore, is not so well protected against the sun as it is when good tanning is present. Until the skin is protected in this way it can be burned by the sun in almost exactly the same way that it can be burned by any other hot substance.

Several ointments or lotions can be placed on the skin and do protect somewhat against rays of the sun and promote tanning rather than burning. A person with a pale skin, however, cannot safely feel that to do this will protect completely against burning.

A word should be said about the pills, which some readers may have heard about, which are said to aid in rapid sun tanning.

These are of a chemical nature and carry some possibilities for harm. I would not want to try them myself at the present time.

Vast Improvements At Beaulieu Super Market

New Modern Look Marks Progress Of Super Market

A new and modern look so as to please the customers all the more is part of the renovations which have taken place at the Beaulieu Super Market in the East Ward.

A complete transformation including a vast new area of floor space has been added in one of the most popular super markets in the city.

At its early beginnings, five years ago, the super market had undergone a transformation under the present owner but now, floor space has been added so that there is over 4,000 square feet.

RENOVATED BEAULIEU SUPER MARKET

This new and modern grocery and butcher store has all the commodities requested by the many clients.

Besides all the above improvements, a new lighting system has been installed for the benefits of the clientele.

In 1943, Roland Beaulieu, president of the present Beaulieu Super Market, took charge of his first grocery store situated on Carmen street.

Mr. Beaulieu spent three years at this location, or until he became owner of a grocery store on Short street which was under his ownership for four years.

During this four year period, Mr. Beaulieu became the owner of another grocery store situated at the corner of the 12th avenue.

It is not until five years ago that Mr. Beaulieu opened up his newest grocery store.

His long experience together with his hard work and that of his wife and two children, Denis and Jean-Claude, have contributed to the ever increasing success of this grocery store.

Since the beginning of the Supreme grocery chain, Mr. Beaulieu has proudly exhibited such a sign on his establishment, for he is one of the founders of the Supreme chain stores.

He is also a member of the Grocers and Butchers Association of Sherbrooke and member of the Retail Merchants Association.

Born in Sherbrooke, Mr. Beaulieu is the son of Mr. and Mrs. Adelard Beaulieu.

His studies were made at the Larocque Academy. Upon leaving school, Mr. Beaulieu spent a few years in commercial establishments and industry before becoming the owner of a grocery store.

He is married to Armande St. Cyr, of Sherbrooke and has two sons, Jean Claude, 21 vice-president of the renovated grocery store and Denis, 19-year-old director of his father's business.

As for Mrs. Beaulieu, she is the secretary-treasurer of the establishment.

Mr. Beaulieu is a member of various service clubs and social clubs in the city of Sherbrooke.

At this time, the directors of the Beaulieu Super Market would like to thank their many customers for their patronage. The public's cooperation has greatly aided in the rapid progress the store has had during the past few years.

The stores reputation of being reputable and popular is growing day by day.

Bible Society Holds Annual Church Service At St. Luke's In Waterloo

WATERLOO — The morning service at St. Luke's Church was the annual service of the Waterloo Auxiliary of the British and Foreign Bible Society. The preacher was Rev. T. Dale Jones, district secretary of the Society.

At the service, Mr. Busing tendered his resignation as rector of the Parish, explaining that he was accepting the charge of St. Cuthbert's and Park Extension in Montreal, since Bishop Dixon felt it was a challenge he could meet, and since higher education would be more readily available for his family in Montreal. This decision, while perfectly understood, is regretted by members of St. Luke's Church. Both he and his family have become admired and loved by the parishioners, and each one will be greatly missed.

The flowers on the altar were placed there by Mrs. H. D. Wells in memory of her husband, Hubert Wells, and his mother, Mrs. Clara Wells.

Rev. Dale Jones preached a splendid sermon, and brought the work of the Bible Society into prominence and asked for prayers and support.

The full-vested choir sang several missionary hymns in keeping with the service.

Immediately following the service, a short executive meeting of the Boble Society was held. Mrs. Lloyd Maynes was elected the new president to replace Mrs. Nelson Langevin. Mrs. Donald Martin is the vice-president.

SUNDAY SCHOOL PICNIC

St. Paul's United Church held its annual Sunday School picnic at Casavant's Lac des Sources.

Over 100 children and parents were on hand. Orval Quilliams took a school bus load and several in private cars assisted with the transportation problem.

The superintendent, Roger Darbyson, had a well-arranged program which ran smoothly from start to finish.

At 1.00 a.m. swimming was enjoyed. The races were next on the program and were a happy competition and everyone received prizes. At the picnic lunch, the Sunday School provided ice cream and soft drinks. A second dip in the lake filled in the final hour.

Sunday June 21st will mark the formal closing of the Sunday School with a church service in the morning and prize giving. At the date coincides with Father's Day, the choir will be composed of fathers, assisted by the Junior Choir.

A collision occurred at the corner of Main Street and St. Joseph when a Buick Sedan, belonging to Mr. Achille Bergeron, of South Stukely, was turning off Main to go down St. Joseph. A Plymouth convertible, driven by Mr. Yvon Bolduc, of Granby, crashed into the side of the Buick. The two passengers in the Plymouth required first aid before proceeding home. Damages to the cars were estimated at approximately $400 each.

Among those on hand from here were Mr. and Mrs. Millinchamp, Robert Flood and Mr. and Mrs. A. J. Buckland.

The local drive for the Sherbrooke Hospital has been completed, with $532 collected from 50 donors. The drive was under the presidency of Mr. A. J. Buckland, assisted by Messrs. REMEMBER WHEN WASH DAY TOOK ALL DAY ?

To get enough hot water Mom started the night before. She filled all her large cooking pots, then set them out to heat on the kitchen range overnight.

She rose at dawn and began the laborious chore of ladling hot water into her big wooden wash tubs. Then followed hours and hours of scrubbing on wooden washboards, and seemingly endless turning of hand wringer and mangle.

Then Mom carried heaping wicker hampers of clothes to the outside clothes-line and wrestled with wooden clothes pegs for hours more — a truly numbing experience in zero weather.

Invention of electric washers, then electric clothes dryers, changed all that.

Today we put this versatile servant, electricity, to work — not only to do our laundry and light our homes but also to serve us in a thousand ways which contribute to our strength, comfort and prosperity.
