

CONFIDENT THAT ITALIANS CAN HOLD LINE AGAINST TEUTONS; BIG GUN ACTIVITY AT BOURLON

General Garibaldi Says Enemy Can Only Get Past Over Dead Bodies of Italian Troops. Report From Line Between Brenta and Piave Rivers Says General Situation is Satisfactory. Ten Divisions of Belgian Troops Ready to Take Part in Flanders Offensive When Word is Given.

(Associated Press Despatch.)

LONDON, Nov. 28.—The German artillery was active last night in the region of Bourlon Wood, says today's official communication. "No further infantry fighting has taken place. On the northern front, east and north-east of Ypres, hostile artillery activity continues."

CONFIDENT ITALIANS CAN HOLD LINE

(Associated Press Despatch.)

Italian Army Headquarters, in Northern Italy, Tuesday, Nov. 27.—General Garibaldi, commander of the famous Alpine brigade, declared to the correspondent today that the fighting around Monte Tomba, Monte Monfenera and other mountains in the fighting zone in the north, and then to the Piave line, had shown that the Italian troops could hold the line beyond any question. Speaking of the spirit of his men, he added: "If the enemy ever does get past, owing to superior generalship or superior strength of guns, it will be only over the dead bodies of our troops, for they are determined never to yield."

A staff officer of the fourth army, which holds the Villa line between the Brenta and Piave rivers, summarizes the general situation as "satisfactory," the reports showing that the enemy was being held.

BRITISH DRIVE WILL BE FOLLOWED UP

(Associated Press Despatch.)

WASHINGTON, Nov. 28.—The British drive on Cambrai will be followed up resolutely by similar offensives along the western front, in the opinion of officers familiar with what is in prospect in France. Authoritative announcement already has been made abroad that this winter would see no halt in operations, and with the return of American divisional commanders from observation tours in France, it has become certain that the French and British armies will pursue moderate mid-winter campaigns such as never before attempted.

BELGIANS READY WHEN WORD IS GIVEN

(Associated Press Despatch.)

HAVRE, Nov. 28.—(By mail.)—Ten divisions strong, the Belgian army is ready to take its part in the offensive in Flanders whenever the word is given. The Belgian minister of war today told the Associated Press that the Belgian army was composed of 117,000 men at the beginning of the war, increased by 20,000 volunteers in August, 1914, and reduced to 60,000 men after the battle of the Yser. Since then, by the enrolment of Belgian regulars and the enlistment of volunteers who have braved the live wire barriers on the Holland frontier, it has been brought up to ten divisions of well-trained troops.

ISOLATED BAND OF ENGLISHMEN WERE RESCUED

(Associated Press Despatch.)

BRITISH HEADQUARTERS IN FRANCE, Nov. 28.—The battle on the southern edge of Bourlon village continued last night. As a result of a determined drive against the German line, the British were enabled to break through at one point and bring back a party of English troops that had been holding out in the southern part of the hamlet and had been isolated for some time. No attempt was made to remain in the village after this body of men had been rescued and gotten back through the gap in the German line. It was reported this morning that another body of British troops was holding a position in the northern section of the village, with Germans all about them, but this is uncertain.

GERMANY THREATENS TO SEIZE DENMARK

Reply to Report That Norway Will Grant Naval Base to Britain and U.S.

(Associated Press Despatch.) COPENHAGEN, Nov. 27.—Behind the meeting of the Scandinavian monarchs and ministers at Christiania this week lies the fear, unfounded though it may be, of Norway's entry into the war, and of the German menace that, in this case, she should feel called upon to occupy Denmark as a counter measure.

The Associated Press learns from a responsible source that the conference, which was arranged as a consequence of an intimation from Germany that the growth of anti-German sentiment in Norway, particularly after the sinking of the convoy in the North Sea by German cruisers, is being followed with concern by Germany, and that it is feared that Norway might be impelled, either by excited public opinion or pressure from the Allied side, to enter the struggle, at least to the point of granting a naval base to Great Britain and the United States, in which event Germany would feel called upon to seize a corresponding base in Denmark.

GERMAN MENACE VERIFIED

Upon the receipt of this information at Copenhagen, word was hurriedly sent to King Gustave of Sweden, and Denmark's most prominent citizen, President Anderson of the Danish East Asiatic Company, who is high in the confidence of Berlin as well as in London, was despatched to Berlin to verify the report and, if possible, to change the German attitude. Mr. Anderson conferred with Dr. von Kuehlmann, Secretary for Foreign Affairs, at Berlin, and he confirmed the report, adding that in consequence of the Italian and Russian developments the military and Pan-German elements were again in the saddle in Germany and exerting influence against which the Foreign Office, with more moderate views, found it most difficult to contend.

King Gustave came to Copenhagen and spent a day in conference with King Christian, President Anderson and the Danish ministers. As a result of the conference a decision was reached to make every possible effort to moderate the excited Norwegian sentiment and continue the three Scandinavian nations' spirit of joint neutrality.

King Gustave returned to Stockholm and launched the suggestion of a conference of their kings, accompanied by the premiers and the foreign ministers at Christiania, which was accepted, the Norwegians being flattered with the thought of the first visit from a Swedish monarch in the Norwegian capital since the separation of the two countries.

SAYS WAR SENTIMENT IS NEGLIGIBLE

It is difficult to judge how far Germany was actuated in its step by genuine fear of Norwegian action, how far by a desire to force Norway into joining down its strongly anti-German sentiment and wave the "big stick" over the three countries during the pending negotiations with the United States and the Entente regarding the embargo, and thereby get as good a bargain as possible for Germany. On the other hand, a Dane in a high position in the secret service, with whom the correspondent discussed the subject, considered it utterly out of the question that Norway of her own accord would abandon neutrality, and said he attached no importance to the sporadic reports of American or British intention to seize a base in Norway, the better to combat the submarine. Prominent Norwegians declare the war sentiment in their country is negligible. The same views have been expressed in statements in the Norwegian Parliament, probably inspired by the German warning.

BERLIN PERTURBED OVER THE FEELING IN NORWAY

On the other hand, Germany is evidently perturbed by the state of Norwegian public opinion. The German minister to Norway, Admiral von Hynbo, who, it is reported, had been sent to that country as the apostle of the strong hand, has been visiting Berlin to report on the situation. A Danish member of the German Reichstag has just visited Norway on what can undoubtedly be described as a pacifying mission, and a mass of inspiring editorial matter is being telegraphed from the German press and by the correspondents in Berlin in an endeavor to convince Norwegians of the unwisdom of extreme anti-German feeling and of the benevolence of German intentions as respects them.

BRITISH LINE INTACT

(Associated Press Despatch.)

In the meantime the British line running along Bourlon Wood to the northwest was sustaining a heavy assault. The enemy appears to be determined to regain this important position if it were humanly possible. The whole front, from Fontaine to Bourlon village, was the scene of fierce fighting, which at many places was at close quarters. The British line about Bourlon Wood is still intact.

THE ATTACK ON FONTAINE WOOD

The attack on Fontaine Wood was begun with the assistance of a very heavy artillery barrage, and throughout the morning the British gunners maintained an intense fire against the German positions there. The onrushing infantry drove an entering wedge into the northwestern part of the village in a short time, but they were held up by a terrific rifle and machine gun fire to which they were subjected from every point of vantage.

BULL DOG COURAGE OF BRITISH

(Associated Press Despatch.)

Conditions were favorable to the Germans for they were fighting on the defensive in well-prepared positions which could only be taken by storm. Every machine gun was equivalent to several hundred rifles. Despite the disadvantages the British continued the onslaught. It was a glorious exhibition of bulldog courage. They surged on and in less than three hours had pushed the Germans back to the eastern side of the village, leaving enemy dead strewn the streets. The British fought forward and surrounded the various buildings containing enemy machine gunners, many Germans were compelled to surrender or lose their lives. By the time the eastern side of the village was reached five hundred captives had been captured and sent back to swell the total of prisoners taken since General Byng struck his telling blow last Tuesday.

LARGE ENEMY REINFORCEMENTS

(Associated Press Despatch.)

The arrival of a large body of German reinforcements put a different complexion on the situation. These fresh troops immediately counter-attacked, and fighting through the streets of Fontaine took on renewed vigor. The weary British recoiled somewhat in the face of these odds, selling each foot of ground to the enemy at a costly price. The western part of the village was checked, and here, according to the latest reports, the battle continued.

CAPTURE OF FAMOUS TUNNEL

(Associated Press Despatch.)

Some interesting facts were made known today concerning the capture of the famous tunnel trench, which the British now hold in its entirety, northwest of Bullecourt. Part of this underground fortification was captured in the fighting previous to the Cambrai push, but a large portion was taken last week. The tunnel, which was built by Russian prisoners was thirteen miles long, and forty feet deep. Entrances were driven into it every thirty five yards, and the Germans lighted the entire place with electricity. The tunnel was mined at intervals throughout its length but the British quickly discovered the electric wires leading to the wires, and they were rendered useless.

HOSPITAL AT ST. HYACINTHE BURNED DOWN

1200 Inmates Escaped to Safety. Chief of Police Died From Exposure.

(Canadian Press Despatch.) ST. HYACINTHE, Que., Nov. 28.—About 12.45 o'clock this morning fire was discovered in the three-story building, the Hotel Dieu Hospital, occupied by between five and six hundred aged people and five hundred to six hundred orphan children.

The fire brigade got to the scene about 12.50 a.m. At three o'clock it was believed that all the inmates had been removed, but it is possible that in the confusion and contents were almost entirely destroyed. The loss will be about \$600,000. The fire was still burning this morning.

CHIEF OF POLICE LOST HIS LIFE

Chief of Police Foley died from exhaustion and exposure just as the work of removing the infirm and aged was being completed. Fire Chief Bourgeois has one foot seriously injured, while Fireman Brunet sustained a broken arm.

The cause of the fire is not definitely known, but it is suggested by inmates in the wing where the fire broke out that somebody had thrown a match into a waste paper basket. The Montreal fire brigade sent down an engine and twenty men, who helped put out the fire.

63 MEN MISSING FROM TORPEDOED U. S. STEAMER

(Associated Press Despatch.)

Washington, Nov. 28.—Sixty-three men are missing in the three unaccounted for boats of the American steamer Atsescu, reported yesterday torpedoed by a German submarine. The Navy's official report says one boat with twenty survivors landed at Cape Finistere yesterday, and adds nothing more to published accounts of the sinking.

PROVED FROM DR. ALBERT

(Associated Press Despatch.)

When Dr. Albert went to New York as the accredited representative of Germany in 1915, Rathson suspected why he was there but wanted to find out. Albert registered at the Ritz and wrote to Bernstorff informing him of his arrival and saying he awaited his pleasure. The letter arrived in Washington on Saturday morning and under the Embassy rules should not have been opened that day. The secretary, however, wired Dr. Rathson to meet him in New York with the letter in his pocket. They decided to play on Dr. Albert's mind in a manner it was never played on before, to place him in a defensive position rather than in an offensive position, so they sent a Journal reporter with the letter to the Ritz with instructions to spread such propaganda through the United States that the Americans would be in a most passive attitude towards German frightfulness. He told the young man everything that was going on in Berlin, showed him his credentials, and brought out two or three members of his suite to swear he was Dr. Albert. The young man went back with the letter and the secretary returned to Washington. When Bernstorff arrived at his office on Monday he found the letter on his desk. He opened it, telephoned to Albert to come right over to Washington, and when Albert arrived he complimented the ambassador on having such a

INSIDE STORY OF BURNING OF CANADIAN PARLIAMENT BUILDINGS

New England Journalist, Now Associated With John R. Rathson, Tells of Marvellous Work of Providence Journal Publisher in Revealing Hun Plots. German Propaganda Still at Work in Both United States and Canada. Spreading of False Reports to Disturb Public Mind, Insidious Method.

A large audience heard Mr. Arthur Fairbrother, of the Providence Journal, tell the sensational story at the Premier Theatre, last night of the marvellous manner in which Mr. John R. Rathson, the proprietor of that Journal, investigated Hun plotting in the United States and exposed and conquered German intrigue during the last three years.

DESTRUCTION OF CANADIAN PARLIAMENT BUILDINGS RESULT OF HUN PLOT.

Mr. Fairbrother's statement of greatest interest to Canadians was the inside story of the plot to destroy the Canadian Parliament buildings. In this connection he said:

"On a certain day in 1915 Rathson went to the department of justice and said that the Parliament buildings at Ottawa were going to be burned on a certain date. He went to the United States district attorney in New York and told him the same thing. That plot to blow up your parliament buildings was hatched in the German embassy and the emissaries from the German embassy came up here and did it. Rathson knew before this thing took place that all the fire extinguishers in the Houses of Parliament had been taken from the building and filled with gasoline, and when the fire started there was nothing but gasoline inside the building to burn. Only one man who got hold of a fire extinguisher was a fireman and he was incinerated. Who was to blame? I don't know. Three weeks to the day Rathson told when those parliament buildings would go up in smoke, and they went."

A "BUG" ON WIRELESS.

Rathson had a "bug" on wireless for nine months he listened to every message sent from Sable Island to Nantucket, and although on several occasions he was absolutely positive that he had discovered the cipher used by the German embassy and laid that evidence before the president, the president would not believe him. Finally he made a discovery in an aerogram sent to Amsterdam from a man in New York: "Little Emily died yesterday at three o'clock. She will be buried at —" Little Emily, however, died nine times in eight days, (according to subsequent messages) in different places, and was going to be buried in different cemeteries. Rathson had the cipher and he took the aerograms to the president at Washington. The cipher proved to be the official code used by the German embassy to communicate news of the sailing of every British ship that left New York harbor. The United States allowed Von Bernstorff to use a code provided by the U. S. Government had a copy—but they were different! An investigation showed that the radio operators in the different navy yards on the Atlantic coast had been told to report every suspicious-looking message from Sable and Nantucket, but as none had been reported the U. S. secret service took it up and found that dozens of operators in the Navy yards were German reservists who secretly got messages when they left the office from other parts of the German service, and sent them when the censors were out.

After that no man was more welcome in Washington than Rathson. Through some powerful influence Rathson succeeded in planting a man as secretary to Ambassador Von Bernstorff. That man lived in the embassy at Washington for seventeen months, and the ambassador was hardly ever out of his sight. While Bernstorff slept that man saw all the incoming correspondence and heard the plots and intrigues discussed and kept Rathson informed, who handed over all the evidence to the government. ECZEMA,

No rest day or night for those afflicted with that terrible skin disease, eczema, or, as it is often called, salt rheum.

With its unbearable burning, itching, torturing day and night, relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers; no other remedy has done, or can do so much for those who are almost driven to distraction with the terrible torture. Apply it externally and it takes out the stinging, itching and burning, and promotes a healthy healing.

Take it internally and it gets at the source of the disease in the blood, and completely and permanently drives it out of the system.

Miss Mary V. Chambers, Anagnone Ridge, N.B., writes: "I used Burdock Blood Bitters for eczema. I had it when an infant, but it left me. Two years ago it came back. I used doctors' medicine, but it did good only while I used it. At last my face was nothing but a running sore. I saw in the paper what B.B.B. did for people. I took it, and to-day I am free from that terrible disease."

GIRLS! TRY IT!

HAVE THICK, WAVY, BEAUTIFUL HAIR

Every particle of dandruff disappears and hair stops coming out.

Draw a moist cloth through hair and double its beauty at once.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine" hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dirt, dust and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yet—really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely invest a few cents in a bottle of Knowlton's Danderine at any drug store or toilet counter, and just try it.

Save your hair! Beautify it! You will say this was the best 25 cents you ever spent.

weather for the past two or three days, is unprecedented for this time of the year, and householders are beginning to look askance at the winter's supply of fuel, which is becoming "smaller by degrees," and beautifully less.

Mrs. Hartwell, sr., who has lately returned from a visit among relatives, and friends of former years, in Northern Vermont, is recovering from the effects of a severe cold.

While returning upon a recent evening from paying a few calls in the village, Mrs. O. H. Glidden ascended the steps to her home, not noticing the faithful dog was lying stretched across the entrance, and which quickly sprang to its feet, with a joyful, but rude greeting. In the sudden surprise, and alarm, of the unexpected welcome, Mrs. Glidden was thrown down, and striking heavily upon the sharp edge of the mud scraper, suffered a painful injury to the left limb, which has confined her to her room for a number of days, and requiring the services of a surgeon, though fortunately unattended by broken bones.

The regular weekly meeting of the Epworth League will be held in the lecture room of the Methodist Church on Thursday evening when importations of the older members will be given by a number of the subjects. At the conclusion of this part of the programme, should time permit, the remainder of the evening will be taken up with an old fashioned "spelling bee," which is calculated to prove as interesting and instructive as in the older days, when they found so important a part in the amusements of many a winter evening.

The members of the Hatley Patriotic Society will hold their usual fortnightly meeting at the Guild hall on Friday afternoon at the regular hour. It is hoped that all work on hand for the Red Cross, Daughters of the Empire, and local boys on active service, may be completed and brought for the monthly packing.

The amateur players of this place are much gratified by the cordial reception which was given them upon the occasion of their first public appearance, away from home, when they presented their entertaining two act comedy, "Oak Farm," before an Ayer's Cliff audience, on Saturday evening. The sale of tickets, which amounted to about \$50, will be given to St. George's Guild, at Ayer's Cliff, and to the work of the Red Cross, the place, the young people are so much encouraged by their unqualified success that they intend to repeat the play, at Way's Mills, at an early date.

In writing to The Butternuts, from his home, in Andover, Mass., Mr. Mont Whitcomb makes special mention of his pleasure, and gratitude for the customary package of copies of the Eastern Townships paper, which keeps him in touch with the friends and acquaintances of former years, at different points throughout his old home town.

NOTES OF NEWS FROM RICHMOND

Protestant School Board Will Add to Teaching Staff For Higher Grades.

RICHMOND, Nov. 28.—(Special)—A meeting of the Richmond Protestant School Board was held in the town office here on Monday evening.

Chairman J. O. Glin, presided and the other Commissioners were Messrs. C. J. Hill, Sam. McMorine, and Wm. Ross. The absentee being Dr. E. A. Tomkins who is at present in New York.

The principal business before the meeting was the consideration of the circumstances arising since the opening of the term which appeared to require that the board appoint an additional teacher for the higher grades.

After thorough investigation and consideration, the Commissioners agreed to appoint a teacher to take up her duties after the Christmas holidays.

This addition to the staff will be welcomed by all who take an interest in the educational affairs of the town as being a step in the right direction and the board are to be congratulated that they are alive to the necessities of providing a first class education for future citizens on whom this country must depend if it is to take its rightful place in the development of the Empire.

In connection with this appointment, the Board decided to equip a room to accommodate the extra class. This will necessarily require an expenditure of about a hundred dollars but it is money well spent as nothing conduces to good work and successful results so much as the right environment.

It is understood that the rink in Town will not be open this winter, and in these circumstances, it was suggested that a rink be constructed on the College Campus for the benefit of the pupils of the college.

The board heartily approved of the suggestion, and voted a sum with a view to encouraging the townspeople to express in tangible form their support of the project which the board hope to see carried to a successful conclusion in the immediate future.

This evening at 8 o'clock, a meeting will be held in the Town Office at which it is hoped that there will be a representative gathering of those who desire to see this desirable object become a reality.

WHAT IS DOING AT AYER'S CLIFF

More Farm Help Secured Since Military Service Act Went Into Force.

AYER'S CLIFF, Nov. 28.—(Special)—The intense cold has formed a grand sheet of ice on the pond in the centre of the village greatly to the joy of the Academy pupils. While many of the grown ups took advantage of the open air rink and beautiful moonlight last evening.

A large audience listened with pleasure to the story of the Prodigal Son in the Congregational Church Sunday evening. Mrs. Johnston, Mrs. Moore, Mrs. Libby, Mrs. Reiford, gave the reading, interspersed with familiar hymns, in which all took part. The choir gave two anthems assisted by a strong quartette.

A farmer in discussing the Military Act said it was the greatest thing the government had ever done for farmers. For three years past he has been unable to employ steady help and his farm was not producing half it ought to. But since the first of October he had received many applications for a situation, men willing to work for \$20.00 per month. He has hired three and intends to work his farm to the last acre this coming year.

NEWPORT, Vt., Nov. 26.—The
"Lady of the Lake" that had plied
the waters of Lake Memphremagog
for the last 50 years, has been sold to
a Montreal junk dealer for \$2,000, a
mere fraction of its original cost. The
boat has been towed down to the
upper end of the lake and will be
scrapped. The owner plans to burn
the boat for a moving picture reel
after stripping its interior of its ma-
chinery and furnishings. The boat
was built on the River Clyde and
brought across the Atlantic in sec-
tions and assembled at Magog in
1864. It was put on the lake by Sir
Hugh Allan, of Montreal, the founder
of the Allan line of trans-Atlantic
line of steamers, and who had a palat-
ial home on the Canadian side of the
lake. He afterwards sold it to the
Passumpsic Railroad, who used it for
a generation as an excursion boat.
When the Boston & Maine acquired
the Passumpsic Railroad the "Lady
of the Lake" went with the railroad
property, and not until the summer
of 1916 was the lake service abandon-
ed.

Thousands of persons all over New
England and the Eastern Townships
of Quebec will remember pleasant
trips on this boat that has stood at
the lake wharf, Newport, through the
year.

PLAN TO POOL U. S.

Shipping Board Will Endeavor
to Relieve Freight Conges-
tion at Ports.

(Associated Press Despatch.)

WASHINGTON, Nov. 28.—Pooling
of all American and Allied ships ply-
ing out of Atlantic and Gulf ports is
planned. The shipping board, it was
learned last night, is working out a
programme in connection with the
pooling of the Eastern railways, the
primary purpose being to relieve
freight congestion at ports.

The diverting of incoming ships
from the port for which they sailed
from Europe to some other Atlantic
or Gulf port to relieve an exceptional
situation also would be part of the
general scheme.

CRUELTY TO HORSES.
Several instances of cruelty to horses have already been observed on King St. E. The first icy roads apparently has the effect of damaging the tempers of the drivers of loaded teams, but the very evident reason is that the horses are poorly shod. It would be an act of mercy on the part of the S. P. C. A., to insist on having a by-law passed to compel owners to have their horses properly shod.

CHRISTMAS SALE.
The annual Christmas sale in aid of the two Guilds of the Church of the Advent, was held yesterday in the Parish hall. The Guilds decided to combine their sales on account of so many like events, and were well satisfied with the result. Two long tables were arranged on either side of the hall, containing pretty and useful articles, and were presided over by Mrs. King, and Mrs. Peasley, at the women's table, and Misses Daisy Dorman and Ruby Price at the St. Agnes table. A table of home-made bread, pastry, etc., was presided over by Mrs. Brett for the Women's Guild.

Tea was served during the afternoon, and was much enjoyed, especially by those who walked a long distance in the crisp air.

Mrs. Arthur Price poured tea, and the tea tables were looked after by Mrs. Mills, Misses Armstrong, Muriel Pitts and Doris Price.

Mrs. Bryant received the guests and during the afternoon pretty piano duets were played by the Misses Pitts and Price.

The proceeds were most satisfactory to both Guilds.

THE WORKING MAN'S TICKET

There probably is not another city on the continent where the working man's ticket on the street cars is not good from 5 to 7 o'clock p.m. When the city built over their system it is to be expected that this matter will be attended to. The cars will run through Model City, and how could it be a model city without street cars. Highland lots will be sold for possibly double the present price. The Cotton Company expect to start on the wing or all, early in the spring. 100 new houses will be built. There'll be something doing in that quarter of the city soon as building weather sets in.

LETTERS FROM EASTERN TOWNSHIPS SOLDIERS WITH OVERSEAS CONTINGENT

IN CHARGE OF CONVOYS TO FRONT LINE.

SUTTON, Nov. 28.—(Special).—The following letters have been received from Warrant Officer A. G. Brown, who has been at the front for three years:

From Somewhere in Mudland,
October 15, 1917.

Dear Wife:—
Just a line to let you know I am still o.k. I have been up to my neck in work. I have just returned from last battle and thankful to come through. We were rushing up wood to make temporary roads to get our big guns forward, and old Fritz blazing at us, but we did it, and I am o.k. Tell the ones that think I am not in danger that I have been in charge of convoys right up to our front line and only 250 yards from the Germans' front line. I am made of the wrong material to stay behind; if I have not been killed or wounded it is just luck. I have been in some hot places, but thank God always came through safe. I have just seen German positions taken, and was unable to move where I was so interested, but the day is ours, and we all know it.

Watch the papers for reports of the Canadians. I am with them, but unable to locate Bob or Eber. I am with Eber's division today, only just missed his regiment. I am proud of my unit and proud to say it is front line transport and we don't have to take off our hats to any transport out here. We feel young when we get the chance to play football, but I am very stiff after the game, but that is one way of keeping fit for our work. I am not fat,

but hard as nails, but shall be glad to get home again.

October 29.

Dear Wife:—

You must excuse short note, as I have little time to write. I am going farther up. I have been trying to locate Bob and Eber, but failed up to now. I am farther advanced than they are. Lots of rain and mud, but still all o.k., and on we go. Just lost a few more wagons and horses, but only one man, a sergeant, so we can't grumble. I may not be able to write for a week, as I am going on pretty rough work.

YOUR BERT.

November 3.

Dear Wife:—

Just a line to let you know I am o.k., but mud and nothing else but mud. Myself and the company sergeant-major are attached with convoy to the heavy artillery. One sergeant and one driver slightly wounded today, and one driver seriously wounded, six horses and three wagons gone, a fine day's work, but we keep on smiling. You should see our palace, 7 feet wide, 8 feet long, 4 feet down in the ground, with heavy sheet iron for roof with all kinds of sand bags on top, so nothing but a direct hit can get us. I know where Bob and Eber's regiment is, but can't get to see them. I am only a little way off on their right, not two miles.

Yours as ever,

BERT.

LETTERS TO THE EDITOR

UNNECESSARY EXPENDITURE.

Editor Record,

Sir:—We see by the Record that the food controller Hanna, at Ottawa has issued a declaration to us as a people, that we should economize on flour, sugar, meat, eggs and butter, so that we could have sufficient to send to our fighting forces. We uphold him in his reasonable request, but he says nothing about the money wasted on whiskey, tobacco, cigarettes and the style and fashion of this selfish age.

When our Canadian boys are giving their all for our country at the front and need the money that is spent on those \$100 coats and \$10. feathers for ladies hats, and \$7. boots for men and women, I think that money could be well spent in purchasing enough cloth to make a whole blouse for ladies and skirts that would keep them warm and so prevent so many deaths from pneumonia and consumption.

Also expensive furniture and house decorations should be avoided when the money could be used to better advantage in this time of our country's need.

Let us as a people take this to heart, and respond to our country's call and follow the golden rule by doing to "others as we would have them do to us."

SUBSCRIBER.

Millfield, Que., Nov. 26, 1917.

SOME NOBLE WORDS OF PITT'S

Uttered early in the war with Napoleon speak to us today, over the lapse of a century, in tones that are trumpet-tongued.

"If we consider this war as necessary," he said "we are bound to meet it, even to its utmost extent. This is a war in which, not merely adopting empty professions, but speaking the language of our hearts, and fulfilling the impressions of our duty we are ready to sacrifice our lives and fortunes for the safety of the country, and in the cause of justice, humanity, and religion. I will not do such injustice to anyone as to suppose that, in such a cause, he is not ready to go the greatest length, and to make every sacrifice that may be required."

These words are entirely applicable to the present situation as the Canadian Victory Loan is being launched. Yet what, after all, is the "sacrifice" that is being asked of us? In reality it is no more than this—that we should give proof of the sincerity of our patriotic professions by lending to the government, for the prosecution of the war, every dollar we can spare. We are not asked to give our money, as those in khaki are giving their service and their lives, but merely to lend it.

Nor is it a paltry return or an indifferent security that is being offered. On the contrary, the security is the first in the world, for it is supported by the credit of the Canadian government and the good faith of the Canadian people. The security is, in fact, Canada, with all her inimitable resources of every kind. And the return, so far from being paltry, is most generous and most full.

Thus the Victory Loan is for the ordinary investor, who asks sound security as well as generous interest, a golden opportunity. The "sacrifice" asked of him is one which must redound to his future financial benefit. If a man has faith in the justice of our cause, in the strength of the Allied arms, and in Canada herself, then the Victory Loan invites him not to submit to any "sacrifice," but to share in an assured and certain gain.

REGULATE HEATING OF HOUSES.

WASHINGTON, Nov. 27.—Declaring American homes were over heated the fuel administration urged all householders to maintain a temperature if not more than sixty-eight degrees, recommended by eminent physicians. With that temperature the saving in coal will go far toward meeting the enormous war demand for coal, officials announced.

OTTAWA, Nov. 27.—Several hundred inquiries and applications for licenses for the exportation from Canada of food and other commodities to countries other than the United King-

IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS A SIGN YOU
HAVE BEEN EATING TOO
MUCH MEAT, WHICH
FORMS URIC ACID.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Do Your Ears Ring With Head Noises?

Tells Simple, Harmless Way To Overcome
This Trouble at Home And Improve
Hearing 100 Percent. In Many
Instances.

Thousands of people are constantly troubled with buzzing, ringing, rumbling or hissing noises in their head and ears, are hard of hearing and fear the day when partial or total deafness may be their lot.

Such cases, even though of long standing are not hopeless as a simple home prescription used daily has shown it possible in many instances to overcome the head and ear noises in less than ten days and to restore clear, distinct hearing in less than thirty.

Get from any druggist one oz. of Parnint (double strength). Take this home and add to it 1-4 pint of hot water and 4 oz. granulated sugar. Stir until dissolved and then take one tablespoonful four times a day.

Parnint is used this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

NOTE—While Parnint is widely used in the treatment of catarrh people who suffer from head noises or defective hearing should be certain to get it in the special (double strength) form especially designed for treating such cases.

PRESENTATION AT COOKSHIRE

Rev. and Mrs. E. R. Roy Recipient of Gifts From Temperance Workers in County.

COOKSHIRE, Nov. 28.—(Special)—On Monday evening last, by invitation from the officers of the Temperance Organization of Compton County, a number of people assembled at the Methodist Church Hall to do honor to the Rev. and Mrs. E. R. Roy, who are about leaving Cookshire for Lewis. Que. Rev. W. Smith, Presbyterian minister of Sawyerville, presided. Miss Louise Worby delighted the audience with her rendering of the beautiful solo, "Joan of Arc, they are calling you," and for an encore sang "Daddy Macrae." The male quartette, Messrs. Ayton Cromwell, Alden Learned, Cyrus Macrae and Thos. Macrae, sang "Annie Laurie," and Mr. T. Macrae sang a solo entitled "Will ye no' come back again."

There were several short speeches from the reverend gentlemen present, viz.: Rev. J. Vibert, Episcopal clergyman, Sawyerville; Rev. G. H. Forde, Sawyerville; Rev. Lewis Roy, Bury; Rev. H. Mick, Cookshire, and Rev. Gordon Sisco, of East Angus. All paid great tribute to the many sterling qualities of Rev. E. R. Roy, and their appreciation of the great amount of work done by him in the recent campaign in Compton County, expressing their sincere regret at his departure from Cookshire, and extended to Rev. and Mrs. Roy their best wishes for their future success and prosperity in the new appointment to which they are called.

The most important and pleasing part of the programme was the presentation of a beautiful ebony gold-headed cane, with gold band, with the inscription, "To Rev. E. R. Roy, as a token of appreciation and respect, from the members of the Temperance Committee." Rev. G. Forde, secretary of the committee, in a few well chosen words, presented the cane. The Rev. E. R. Roy, in reply, gave expression to his deep appreciation of the gift, and after expressing his thanks, he gave, at the request of the committee a brief account of the work done in the county in connection with the Temperance Campaign, and urged upon the committee and those present the great need of vigilance in carrying out the results of the campaign.

Mrs. Saul Wright, president of the W.C.T.U., then came forward, and on behalf of the W.C.T.U. Society of Cookshire, presented Mrs. Roy with a beautiful emblem pin, a gold bow set with pearls. Mrs. Wright expressed the regret of the Society at the loss of so valuable a member, Mrs. Roy having been the chief promoter of the organization of the Society in Cookshire, and its first president, and

filled that office with great credit to herself.

Rev. E. Roy, at the request of Mrs. Roy, expressed her thanks and appreciation of the gift. Rev. Roy, Sr., and Rev. P. Roy, of Scotstown, father and brother of the guest of honor, said a few words and were followed by Rev. Lewis Roy, of Bury.

Mr. Gordon Sisco, of East Angus, was the next speaker, after which the Mayor, Mr. Cyrus Macrae and Mr. A. Macrae, a life-long resident of Dell, was heard with much regret in this and surrounding vicinity on Friday last. Mr. Mackenzie who has been in failing health for the past year, died at 9 o'clock, Friday morning. His daughter, Mrs. MacLean, urged him to go to her home in Detroit, Mich., in September, hoping and trusting that his health would benefit by the change, but of no avail, and he returned home. Deceased is survived by his wife, one daughter, two sons and two brothers, and five grandchildren besides a number of relatives and friends. The funeral took place from his late home on Sunday, service being conducted by his pastor, Rev. M. McLeod, at 11 a.m. Interment was in the family lot in the Dell cemetery.

OPENING OF NEW HALL AT FOSTER.

FOSTER, Nov. 28.—(Special)—The opening of the new hall at Foster took place on Friday evening last. Regrets for inability to be present were received from Senator Foster, Hon. S. A. Fisher, Mr. Vilas, Mr. MacKinnon and others. The Mayor of Foster, Mr. A. M. Hunter, welcomed the audience and a programme of vocal and instrumental music was then entered upon. Mrs. Pay, of Knowlton delighted all by her violin solos, and was repeatedly encored. Miss Morna MacGowan also rendered several vocal numbers which were enthusiastically received. Mrs. Cochrane, in her own charming manner, treated the audience to a number of delightful recitations, grave and gay. The applause she received was well merited.

Miss Ward and Miss Agnes Hillhouse were also heard to good effect and were very well received. Speeches were made by Mr. McCormack, Mr. Allen and Mr. Ward and each found a responsive echo in the hearts of the audience when they spoke of the need for patriotism and patriotic work. Miss Helen Parry, Mrs. Mason and Mrs. Spencer acted as accompanists during the evening, each contributing very materially to the programme. The piece de resistance was the dancing of Master and the Misses Greenlee from Montreal, who gave the Highland Fling, sword dance and an Irish dance, and repeatedly were encored and obligingly came forward again. The audience of 250 were evidently well satisfied, and the Ladies Patriotic Society of Foster are very grateful to all who helped in the entertainment. No export licenses must be granted for uses other than for the manufacture of food containers, except of satisfactory evidence that plate will be used in such a way as to fill the military needs of the nations at war with Germany and her allies. FRANCE HAS WORST HARVEST IN FIFTY YEARS
The difficulties of the food situation in France are described in a despatch from Paris, which says:
"An official estimate has now been made of the French harvest, and though the full figures have not been published, the discouraging statement has been made in the Chamber by the Minister for Supply that it is the worst for 50 years. This has been due in part to the exceptionally severe weather during last winter, which did great damage to the autumn-sown crops, and even more largely to the disastrous spring. Almost till the end of April continuous snow and frost prevented any adequate work being done in the fields, and the consequent rush that came in the last few weeks could not possibly be coped with by the laborers and their women folk still left on the land."
"As in Britain, the Government had been late to realize how serious the submarine menace might become, and it was not till in February—after the shock-at-night blockade began—that any effort was made to secure the release from the army of the older classes of farmers and agricultural laborers. Then, owing to the weather conditions, it was almost too late to effect any great improvement this year, and though something was gained in the increase of vegetable and late-grown crops, the important wheat crop was almost doomed."
The figures for wheat, maize, rye, barley, oats, potatoes and sugar beets show a yield of 777,000,000 bushels.

He—I don't know about the roman-
tic part of it, but if they are going to try to explain everything, they've got to be more imaginative.

AMUSEMENTS

HIS MAJESTY'S MME. SARAH BERNHARDT.
Sarah Bernhardt will come to His Majesty's Theatre next Monday night with her own company and produc-
tions from the Theatre Sarah Bernhardt, Paris. For over fifty years the marvellous French woman has charmed the world. Wherever she has gone she has left undying memories. And now she comes to say farewell—this time forever. Through half a century her art has been an example to all others. Madame Bernhardt today is as full of life and as active as many women are at thirty, brave and indomitable. Her will, her love of work, have kept her young. The spirit in her case has conquered matter. We hear of her appearing in new parts, and wonder at the power which makes her still, as she has always been, supreme in her own field, without a rival.

For her engagement in this city, Mme. Bernhardt has chosen the most popular plays in her repertoire, as follows: Cleopatra and Portia in "The Merchant of Venice."

With a view to eliminating all delays between Mme. Bernhardt's appearances, Mr. Connor, her manager, has engaged several vocal and instrumental artists of note, who will help make Mme. Bernhardt's last visit a memorable event. Each performance the following artists will appear: Annie Louise David, harpist; "Gems of Art," Jean Duval and company; Florence Hardeman, violinist; Rome Fenton, tenor.

VICTORY LOAN CAMPAIGN

Three More Days in Which to
Reach Million Mark. Over
\$800,000 Subscribed to
Date.

Yesterday's report brought the total for the Victory Loan campaign in Sherbrooke very close to the million mark, only a few thousands more being required. But this amount includes conversion from previous loan, and the total of new money is a little over \$800,000. A million in new money is yet assured, but the local organizers feel very hopeful that the next three days will produce the desired results. There are a few more large subscriptions expected from individuals, and a great number of the workers have still to report on prospects for smaller sums.

The ladies, as usual, are making a record. They have nearly \$45,000 already reported, and it is possible that this total will be nearly doubled.

CAMPAIGN ENDS ON FRIDAY.
It should be remembered that the campaign closes positively on Friday evening. This does not mean simply that the organized effort to secure subscriptions will cease on that day, but it means that no applications will be accepted after December 1. Those wishing to take advantage of this splendid opportunity for placing their savings in a profitable and safe investment should make sure that their application is turned in at the office or given to one of the members of the committee before Saturday. A meeting of the various committees will be held to-night and every night this week at the headquarters in the Sun Life building at 8 o'clock.

The following is a continuation of the list of subscribers:

INSIDE STORY OF PARLIAMENT BUILDINGS

(Continued from page 1)
bright young man to receive him. Bernstorff replied he sent no one to meet him, and Albert pointing to the secretary said: "There is the young man." Bernstorff fired two secretaries but fired the wrong one.

THE TWO HEARTS AND THE ARROW.

Rathom knew that much propaganda was going out from the Austrian Consul General's office to the New York consul. He succeeded in getting his little red-headed stenographer into the office in order to photograph everything there. She informed Rathom that a packing case was being filled with propaganda, receipts, letters, and other things from the German embassy for shipment to Germany. Rathom gave her instructions to mark that case and she cleverly "forgot" Captain Von Papen who was a ladies' man and became mushy. He entered the office one day as he was about to eat her lunch and asked her to share it with him. She invited him to sit on the box and then drew two hearts with red crayon and he drew an arrow through both. When the box arrived at Falmouth it was stopped and found to contain the names of all German residents, and German sympathizers in the United States and receipts for blowing up munition factories.

Mr. Fairbrother stated that with few exceptions every munition factory in the States that had been blown up was the result of a plot hatched in the German embassy or the Hamburg-American Line office, and although Rathom notified the department of justice in advance on information received from the "secretary," who had heard the plots discussed, they would not believe it. On one occasion Rathom wired the general manager of a large munition factory to meet him, as he had something important to tell him (Rathom having heard the place was scheduled to be blown up). The manager sent a nineteen year old boy instead so he did not give him the information. Rathom telephoned the manager and warned him of the plot, but the manager took no notice and the place was blown up with the loss of 31 men.
\$3,000,000 WORTH OF SHRAPNEL DESTROYED.
Plots to blow up buildings had existed for three years all the way from New York to San Francisco. 37 light-houses, three steamships and three million dollars worth of shrapnel had gone up in smoke.

A CLEVER RUSE

In order to find out what was going on in the Hamburg-American Line office, Rathom sent a young man to Lima, Ohio, and from there he wrote a letter to the general manager telling him he was a German whose feelings were entirely with the fatherland, and he understood that Rathom intended to place a spy in his office in the guise of janitor. Three weeks later a young man applied for such a position and was given a good lecture and accused of being a reporter on the Providence Journal. Finally he turned yellow and acknowledged that Rathom sent him as a spy whereupon he was forcibly ejected. A month later the general manager received another letter from Lima stating that the writer did not know if his letter had been of any use but that he was out of work and he wished to get a temporary job in New York and could the manager help him do so? The manager telegraphed him to come at once and gave him a job in his own office. That young man informed Rathom of all the propaganda going out and in order to get into a room guarded by secret service men, he staged a gun fight in the lobby, entered the room when the secret service men rushed out, got what he wanted and started for Providence.

Many other examples of Mr. Rathom's detective work were related, including the discovery that the Germans intended to destroy the engines of all ships interned in United States harbors, a plot which was carried out.

COWARDLY ATTACKS ON RED CROSS WORK.

The speaker told how Red Cross work in America had been discredited by wicked stories which started from nowhere and grew as they passed from one person to another, all due to the machinations of the enemy. Though he had no proof, he believed that German influence was at the back of much of the agitation in Canada.

AMERICA IN WAR TILL FINISH
Mr. Fairbrother paid a great tribute to Canada for her share in the war and declared America was in it to stay. Any man who talked peace now was a traitor. Unity of purpose and co-operation were the watchwords today.

A cordial vote of thanks was extended to the lecturer at the close. Mr. V. E. Morrill presided and introduced the speaker.

The preliminary hearing was concluded before Judge Mulvena yesterday in the case of Guillaume St. Marie, a ticket-of-leave man of Montreal, who was arrested at Granby on the 15th instant on a charge of stealing a mailbag from Windsor Mills station. A large number of witnesses were examined and the Court held there was sufficient evidence to commit accused for trial at the next term of the Court of King's Bench. Bail was accepted, prisoners in \$2000, and one surety of \$2000 or two sureties of \$1000 each, to justify under oath as to their sufficiency.
The complaint in this case was laid by Mr. L. E. Dastous, post office inspector of Sherbrooke.

VOLUNTARY SYSTEM TRIED AND FAILED

London Daily Mail Condemns
Policy of Sir Wilfrid
Laurier.

(Associated Press Despatch)
LONDON, Nov. 28.—The Daily Mail, in an editorial on the Canadian election, calls it a "great misfortune." It declares that Laurier's supporters have undertaken to wreck the Canadian army at the most critical moment of the war, and condemns Laurier's contention that voluntary service will give all the men required. It says this has already been tried and has failed, as it failed in Great Britain, adding: "Victory for Laurier would mean that Canada would have to drop out of the war."

ATTACK ON STANSTEAD CANDIDATE

Dr. Shurtleff Stoned by Anti-
Conscriptionists at
Dixville.

COATICOOK, Nov. 28.—(Special)
—Dr. Shurtleff, the candidate of the Union Government in Stanstead County, had his first experience with the mob element last evening. He had spoken at a joint meeting at Dixville and had been accorded a quiet hearing, although he spoke strongly in favor of conscription in both languages. Later in the evening a section of the hearers showed their disapproval of conscription, although the meeting was fairly orderly. The real disorder, however, developed outside the hall. The disturbers congregated outside near Dr. Shurtleff's car and waited for him and his party, including a lady, to come out. When they did so they were greeted with groans and hisses and a volley of stones and frozen mud. Three members of the party, including the candidate, were struck, while several missiles struck the car.

SENATOR HUMBERT RESIGNS.

(Associated Press Despatch)
PARIS, Nov. 28.—Senator Charles Humbert has resigned the vice-presidency of the Senate Army Committee. His resignation is significant, as Premier Clemenceau has just vacated the presidency of the committee, and expected for the recent Bote Pasha case, Humbert normally would have been elected Clemenceau's successor.

DEMANDS RELEASE OF RUSSIAN PRISONERS

Foreign Minister Has Written
to British Ambassador at
Petrograd.

(Associated Press Despatch)
LONDON, Nov. 28.—A Reuter's despatch from Petrograd says that Foreign Minister Trotsky has written to Sir George W. Buchanan, the British Ambassador, demanding the release of two Russian citizens, Chicherin and Petroff by name, under arrest in England, characterizing them as "staunch and self-sacrificing men of high ideals." He demands also the release of others under arrest.
Trotsky alleges that many Englishmen living in Russia are openly engaged in political activities with the counter-revolutionary Russian Bourgeoisie, and declares: "The revolutionary democracy cannot accept the position that worthy heroes of the Russian revolution languish in concentration camps in England, while counter-revolutionary British citizens suffer no restraint in Russian revolutionary territory."
