Chicago Hog Market.

UNION STOCK YARD, December 8. Limited receipts of hogs 21,000. Cash Market for hogs, prospects firm. Cash quotations; wires in trouble.

FINANCIAL.

Business in the London markets remains flat for Americans. The silver something to do with the unsettled of the shares market, and the probability of a premium in the United States firm at 1 to 1 1/4 p. c. on call and

The Democratic victory and the outbreak of the reform in the United States is having a great effect on the British commercial markets. The exports to the United States show a great increase for the first three months of the year. The amount for this year is £1,370,000, while for the year £1,230,000. An increase of £141,000 is shown. Money is chiefly in wools, tinplate, etc.

Money in New York is stiff at 4½ per cent, and 5 to 6 per cent, on time. Sterilized money is steady and unchanged. The price of gold is 486½ for mixtes and 489 for demand. The price of silver is 67½ for demand, and 67¼ for 487½ for mixtes. Metals are 483, and documents are 483 and Paris France 518½ for long and 518½ for short.

with this vexatious question, that has been gold locked up out of the way, a cash distribution of large amounts of goods has been said, and the government is now working towards a return being put on more staple financial condition there is no doubt, but the market has had too severe a period of uneasiness to launch into a bull campaign. The situation is being maintained, and the outcome is being given while this support is withdrawn, continuous advance can be expected.

There is no change in the local rates. Cash rates are 10 per cent and the commercial paper is negotiated at 10 per cent as to amount. Foreign exchange is still down. Sixties are 91-1/2 to 93-1/2.

Lamontagne, Clarke & Co.'s advices
To-day are: The changes at this
opening were trifling, but the bitter le-
gacy's close was still in force, and a
night there was large buying, and a
slight recovery. Bidders were not so
to account for the difference in action

ket, the grangers are again heavy, and

"The silver was used to purchase the dividend rate in the 1950s, and the dividend rate was used to purchase the silver in the 1960s," says the author. "The silver was used to purchase the dividend rate in the 1950s, and the dividend rate was used to purchase the silver in the 1960s."

There seems at the moment a decided leaning towards the Buenos Aires conference for position and preferring to know other means to do before committing it.

The supply of commercial and other small local, that shipments seem to be coming from Buenos Aires, and would seem must come from London, by our securities, and this London money daily declines to do until we take action on silver. In the meantime the manipulation up or down in the class, than on any legitimate factors, as upward in the general market is not very strong hold fairly well in the market with small fluctuations, the industry is wrong.

MORRHUOL.

THE CURATIVE ACTIVE PRINCIPLES
EXTRACTED FROM COD LIVER OIL.
NO TASTE OR SMELL.

MORRHUOL is much more prompt in its action than Cod Liver Oil in the treatment of Consumption, Bronchitis, Coughs, Pains in the Chest, Sore Throats, and Asthma.

MORRHUOL restores the health of pale weakly people, writhing under the agonies of Rheumatism, Skin diseases, Scrofula, Scabs, sores in the neck, sore eyes and inherited lymphatic temperaments.

MORRHUOL represents the medicinal part of the fish liver oil; it modifies rapidly the general state of the patient, and develops the appetite in a most extraordinary manner.

Cheese.

The cheese market is stronger. Trade for the present is quiet, and chiefly for small and medium and firmly held, ranging from 10c to 20c. The Liverpool market to-day was unchanged at 53s for white and colored cheese.

Butter.

There is a good steady local business done in fresh dairy and new roll butter at prices within range of quotations. Creamery is quiet, owing to the small quantity of stock on hand.

Western dairies	22c	to 23c
Township dairy	20c	to 21c
Western dairies	19c	to 20c
Western dairies	17c	to 18c

Eggs.

Receipts of eggs are light, and demand fairly steady at firm prices. We quote fresh stock as follows:

1c to 2c	3c	good held	3c	to 1c	and
1c	1c	1c	1c	1c	1c

Poultry and Game.

There is a fairly good demand for dressed poultry at prices within range of quotations. Respected fowls are in demand, and chickens are more plentiful, but geese are in excess of present want and ducks are in fair inquiry. Prices range as follows:

Hickens.	No. 1.	per brace		64	to	716
Partridges.	No. 1.	per brace		60	to	600
Do	No. 2.	do		35	to	400

Honey.

There is a moderate trade doing in honey for local retail wants. Stocks are ample. We quote: strained, 7 to 8c per lb., and comb, 9 to 11c per lb.

Hops.

Quotations for hops are largely nominal as trade, on spot, is extremely quiet, and no round lots sales reported. We quote: Prime new hops at 20c to 22c, and good at 18c to 20c in round lots. For round lots of new 17 to 18c would be about the basis.

FINANCIAL.

Business in the London markets remains limited and flat for Americans. The silver crisis has again depressed the market, and the probability of gold going to a premium in the United States. Money is firm at 4 1/4 p. cent and 2 to 3 p. cent for short bills. Grand Trunk closed today at 9 1/2 p. cent for 184 p. cent.

The Democratic victory and the outlook of transformation in the United States is having its effect in the London market. The probability of increased exports to the United States show a good increase in the American growth rate. The American exports for the year 1910 were \$1,000,000,000, an increase of \$140,000,000. The increase is chiefly in woods, tinplate, cottons, etc.

Money in New York is stiff at 4 1/4 to 5 p. cent, and the British commercial market. Sterling exchange is steady and unchanged. The posted rates for American goods are 100 to 105 p. cent. Actual rates were 85 to 90 p. cent for 100 p. cent. Actual rates for demand, and 48 1/2 to 48 3/4 for cables. Concomitant with the increase in the American growth rate for demand, and 48 1/2 to 48 3/4 for cables. Concomitant with the increase in the American growth rate for demand, and 48 1/2 to 48 3/4 for cables. Concomitant with the increase in the American growth rate for demand, and 48 1/2 to 48 3/4 for cables.

With this vexatious question, that has kept so much gold locked up out of the way, a channel for the distribution of large amounts of good securities, such as the U.S. Government bonds, in the market is being worked toward. The ruling policy of the market is working toward a strengthening of the market, a more stable financial condition there seems to be no doubt, but the market has had too long and too severe a period of uneasiness to launch at once upon a new and untried policy. Shorter issues will be the main support, and much outside support will be given while this support is withdrawn, before a continuous advance can be expected.

There is no change in the local rates of money. Commercial rates are 4 per cent, and "git git" is 3 per cent. Commercial paper is negotiated at 10 to 11 per cent as to amount. Foreign exchange is firm and steady. Sixties are 90-110 to 90-110 and de-

[illegible]

The supply of commercial and other bills was so abundant that the market seems to have been glutted. The only quick relief from this state of things was the would-be sale of the London purchase of the Argentine securities, and this was not expected to be decided upon until we should have had some indication as to the stock exchange hinges more on the anticipation up or down in the industrial market than on the general market. It is not yet in sight, but the market is not yet in sight, but the market is not yet in sight.

With small fluctuations, the industrial market is not yet in sight, but the market is not yet in sight.
