CONTINUED SHOCKS.

Immense Damage Caused by the Earthquakes in the South.

Losses at Charleston Estimated at Five Millions—Thousands of Persons Homeless and Destitute—Heartrending Scenes Described—The List of Killed and Wounded Swelling—Damage in Other Sections.

CHARLESTON, S. C., 1 p.m., September 1.—At 8.25 o'clock this morning another wave swept over the city, coming as the other did, from the south and east and going in a northwest direction. By that time people who had been outside in the public parks and open places all night had many of them returned into their houses to get clothing and something to eat. The approach of the quake was heralded by the usual rumbling sound resembling distant thunder, then it gradually approached. The earth quivered and heaved and in three seconds it had passed, the sound dying out in the distance. This is the only wave felt since 2.30 this morning. It was not destructive, all the destruction having been done at 9.55 last night. The city is a complete wreck. St. Michael's church and St. Philip's church, two of the most historic churches in the city, are in ruins, so is Hibernian hall, police station and many other public buildings. Fully two-thirds of the residences in the city are uninhabitable, wrecked either totally or partially. It is expected that between fifty and a hundred persons were killed and several hundreds wounded. Scarcely a hundred houses in the city are occupied at this time, people being encamped in open places. All the stores are closed, and it is feared there will be a scarcity of provisions, not from want of provisions, but because no one can be got to reach the stores to sell them. The city is wrapped in gloom and business is entirely suspended. People generally remain in the streets in tents and under improvised shelters and will camp out to-night fearing another shock. The gas works are injured and probably the city will be without light to-night. Much injury is done to mansions on the east of South Battery. Many houses were so shaken and cracked that a hard blow would bring them to the ground. The shock was severe at Sullivan's Island, but no loss of life is reported there. Fissures in the earth are noticed, from which fine sand, apparently from a great depth, exudes sulphurous odors.

THE SCENES DESCRIBED.

The first shock of earthquake was felt approaching last night about 9.50, and before people could realize what the trouble was they found themselves being thrown around, their houses falling down on them. Every one ran screaming into the streets, and in a few seconds the city was wild with human beings, perfectly crazed with fright. Exclamations could be heard on all sides such as "My God, save us," "God have mercy on us, sinners," and people could be seen kneeling everywhere in groups offering up prayers. The first shock was followed immediately by another, though of less effect, but renewing the screams and shrieks, and from the time of beginning till to-day light shocks were felt at intervals of half an hour, but each succeeding one being less distinct. Three or four fires started in as many sections with the first shock and the city was soon illuminated with flames, thus leading all to believe that what was left by the earthquake would be devoured by fire. However, the fire department was so well handled that the fires were got under control by daylight. From fifteen to twenty residences and stores were consumed. The loss by fire and earthquake cannot be readily estimated but can be placed safely at $5,000,000. As far as could be ascertained during the night fifteen to twenty were killed and a much greater number wounded in all sorts of ways. Shocks equally as severe were felt at a distance of thirty-five miles and have done inestimable damage to railroads and telegraph property. Charlestown is entirely isolated from the outside world.

NEW YORK, September 1.—A despatch received here says that at 5.19 p. m. to-day another earthquake shock was felt at Charleston, S. C., Augusta, Ga., Columbia, S. C. At Augusta the vibrations were noticeable for about two minutes.

DAMAGE IN COLUMBIA.

COLUMBIA, S. C., September 1.—At 9.48 last night this city was visited by a terrible earthquake. People rushed madly from their houses into the streets. Some sprang from windows and were injured. Five minutes after the first shock a second came and ten minutes later a third. Other shocks followed until 1.05 a. m., when an eighth shock was felt, and this one lasted for a minute and a half. At 4 o'clock this morning a ninth shock came and at 9.30 a. m. and 10.20 a. m. the city was again made to tremble. There were sixteen distinct shocks from the earthquake here last night and up to 5 o'clock this morning. The first shock was fearful, and houses were shaken as though made of pasteboard. It seems as if everything must topple. The rumbling in the earth was loud and terrifying in the extreme. Clocks stopped, bells were rung, and damage done to some buildings, principally by toppling chimneys. Two rooms in the Governor's mansion were wrecked. There were numerous cases of nervous prostration. Two shocks were felt this morning, when the tremor of the earth made pedestrians stagger.

IN GEORGIA.

AUGUSTA, Ga., September 1.—Two distinct shocks of earthquake were felt this morning at 7.59 and 9.20 city time. A number of houses were reported to the fire wardens as in danger, and from all parts of the city and surrounding neighborhood come reports of small damage by the shocks, such as falling of chimneys, parting of walls, smashing of crockery, etc. In the railway accident at Langley the fireman was killed. Another South Carolina railroad train is in the ditch at Horse Creek, four miles from this city and the fireman killed.

LANGLEY, September 1.—The shock burst mill dams here and some thousand feet of railroad track are destroyed. The telegraph wires were also destroyed. No trains are running. The Western Union Telegraph Company has started hand cars from Summerville to restore communication. Great damage is reported at Summerville. The railroad is badly broken on both sides of Branchville.

THE WORST ON RECORD.

WASHINGTON, September 1.—Prof. Mendenhall, of the Signal service, who has made a study of earthquakes for many years, and has felt the shock of a number of severe ones in Japan, says that of last night, while not especially severe, was nevertheless the worst he ever experienced in this country. He expresses surprise at the wide extent of the phenomena, and thinks it likely that when the reports are all in it will be found that the area affected is larger than that of any previous earthquake on record.

FURTHER SHOCKS YESTERDAY.

CHARLESTON, September 1.—1.15 p. m.—Another shock has just passed over the city rather more severe than any since last night at 9.55, knocking down several houses.

SAVANNAH, Ga., September 1. — Eight shocks of earthquake were felt here to-day.

SUMMERVILLE, S. C., September 1.—Midnight.—Ten more shocks were felt here to-night, some quite severe.

A SCIENTIST'S EXPLANATION.

WASHINGTON, September 1.—Major Powell, director of the United States Geological Survey, says the earthquake was well observed by W. J. McGee, of the Geological Survey. After the culmination of the first shock the phenomena were timed. A rough substitute for a seismoscope was improvised out of a tumbler of water placed on a stand in the centre of the room, and a high headboard of a bedstead served as a rude seismometer. Following is the record: The time of the culmination of the first shock (75th meridian) was 9.54½ p. m.; duration of first shock (estimated), 80 sec.; time of termination of same, 9.55; time of termination of slight tremors, 10 p. m. Several slight tremors followed, but were not timed. The time of the recommencement of the continuous tremors was 10.08; time of culmination of shock 10.09½; duration of second series of tremors 10.13; direction of vibration, as indicated by the improvised seismoscope, horizontal direction was from north 80 degrees to a very little north of east, but there was an indeterminable vertical component in the undulation very perceptible in the motions of liquids and of articles of furniture. Roughly the upward impulse in each vibration appeared to be a third or a half of the lateral impulse. The rate of vibration was measured in the high swinging headboards of a bedstead during the second shock, and found to be 115 to 120 per minute. During the second shock the headboard, 8¼ feet high, swung through an arc of from one-half to three-quarters of an inch. It was estimated that the amplitude of oscilation during the earlier shock was twice or thrice as great. During 1885 there were recorded the following earthquakes in the United States and Canada: Canadian provinces, 8; New England, 5; Atlantic states, 9; Mississippi Valley, 3; Pacific slope, 34; total 59. During twelve years—1872 to 1883—there have been recorded in the United States and Canada 364 earthquakes, many of these disturbances so slight as to be unperceived by the majority of the people. The list is more complete in the densely populated and frequently shaken Atlantic states than in either of the seldom shaken Mississippi Valley or the sparsely populated Pacific slope.

THE METHODISTS.

Opening of the Quadrennial Conference in Toronto—Superintendent's Report—Home Rule.

TORONTO, September 1.—The Quadrennial General Conference of the Methodist Church opened in the Metropolitan Church this morning, Rev. Dr. Carman, General Superintendent, presiding. About 250 delegates were present. Rev. Dr. Ryckman was appointed secretary to the conference, polling 115 votes against 96 for Rev. J. C. Antliff of Montreal. In the afternoon the report of the General Superintendent was read. It was a lengthy document and dealt exhaustively with matters to come before the Conference and made various suggestions and recommendations. Regarding the Court of Appeal it said that all requirements supposed to be met by that Court would be fully met without much trouble or expense if some competent authority, as a board of general superintendents, were invested with power to decide law questions that arise during the quadrennial, with obligation to record such decisions and subjects to review at the succeeding general conference. It made certain recommendations regarding the duties of annual conferences, so as not to conflict with those of the general conference, and that a Church and Parsonage Building fund should be inaugurated. The report said, "Whatever we think of Home Rule, of the various measures to serve it, we respectfully and heartily and continually agree on the unity of the Empire and the supremacy of the Crown and Imperial Parliament; and whatever we think of local power and individual rights and claims, we agree positively and heartily and continually with the unity of the Methodist church and the supremacy of its general conference, and we are here assembled in solemn meeting before God to give the best effect we can to our faith, conviction and agreement in those matters." It also called attention to the fact that the close of the next quadrennium will be centenary year of the existence of Methodism in this province, and to the consideration of such services as shall give character and prominence to so important a period of the Church's history. The report was referred to a special committee. Afterwards several routine matters were disposed of, including the appointment of the nominating committee, of which Rev. Dr. Saunderson was appointed chairman. To-night service was held in the Metropolitan Church, which was crowded. Rev. Dr. Williams preached an eloquent sermon, taking for his text Phil. iii., 15, "Let us walk by the same rule."

MR. SEXTON'S AMENDMENT.

The Belfast Riots Discussed in the House of Commons.

LONDON, September 1.—In the House of Commons this evening Mr. Sexton moved his amendment to the address in reply to the Queen's speech, which is as follows:

We humbly represent to Your Majesty that the circumstances accountable for the recent riots in Belfast dictate the necessity for a special measure to maintain order there, the most urgent of these measures being the re-establishment of Your Majesty's authority in the district wherefrom the police have been expelled by an increase of local constabulary, to such a strength as will enable it to deal with any probable contingency.

In offering his amendment Mr. Sexton denied that he had acted contentiously. He charged that the riots in Belfast had been conceived and prosecuted in the interest of the present Government. Mr. Sexton concluded by asking Lord Randolph Churchill what he intended to do to remedy the frightful consequences of his own acts. (Cheers.)

Sir Michael Hicks-Beach denied absolutely that Lord Randolph Churchill's action had in anywise led to the Belfast troubles. He feared that the difficulty of the position would be materially increased by Mr. Sexton's statements, and he earnestly implored the Parnellites to refrain from saying anything that would be likely to provoke uncertain feeling which had originated the riots.

In the debate on the Scotch crofters, yesterday, Mr. Balfour, secretary for Scotland, denied that the crofters suffered more than others of a similar class in Scotland. He said it was more of a question of overpopulation than of rent. The agitation was due in a large measure to the example of Ireland. The outrages and the refusal to pay rent were not due to poverty, but to the advice of agitators, who wished to prevent emigration, the natural remedy for overpopulation.

MASSACRES IN CHINA.

Natives Murdering Christians and Destroying their Property — Whole Villages Occupied by Christians Wiped Out.

SHANGHAI, September 1.—Advices from Ching Too Foo, the chief city of the province of Zchuin, state that the natives of the eastern part of that province and those of northern Cochen China have risen against the Christians and are massacring them and destroying property. This active persecution is attributed to the imprudence of English and American missionaries. In Cochin China alone fifty Christians were killed, their houses burned and their farms destroyed. In Zchuin a general massacre of Christians is reported to be in progress, and they are killed wherever found. It is said whole villages occupied by Christians have been destroyed, and that all lands occupied by the professors of that faith are devastated. The apostolic vicar's residence in Zchuin has been burned to the ground. The foreign consuls barely escaped from Zchuin with their lives. No efforts have been made to suppress the disorder, and so far as known it continues unsuppressed.

ALEXANDER AT PHILIPPOPOLIS.

He Meets with an Enthusiastic Reception—Rebels Captured—A Slight for the Prince.

PHILIPPOPOLIS, September 1.—Prince Alexander arrived to-day and met with an enthusiastic reception. He will probably reach Sofia on Friday.

SOFIA, September 1.—Zankoff, the Russian, who was the leading spirit in the recent revolution, has been arrested. He has been placed under a strong guard, as it is feared he may commit suicide. The revolutionary troops have retreated to the heights of Sofia, which they occupied. The loyalist troops surrounded them, compelled them to surrender and then disarmed them, placing the officers under arrest.

BERLIN, September 1.—It is rumored that the Emperor William has intimated to Prince Alexander that circumstances oblige the striking of his name from the Prussian army roll.

Mr. Labelle Returns.

Mr. Alphonse Labelle, who left the city suddenly for Detroit a few days ago, returned Tuesday with his brother-in-law, Mr. Moquin. He states that mental depression forced him to leave the city. A meeting of the creditors was held in the Practice Court yesterday, when Mr. C. Desmarteau was named curator, and Messrs. P. Grace, J. W. Tester and A. D. Parent, inspectors.

Sheriff Chapleau, of the North-West territory, is in town.

A mob collected in the Shankhill district of Belfast last night and stoned the police, who were obliged to charge. A number of shots were fired and one constable was wounded. Fifteen persons were arrested and quiet was restored after midnight.

The captain of a steamer just arrived at Malta reports that on August 30, and when his ship was fourteen miles to the north of the island of Galita, off Tunis, in the Mediterranean, he noticed the highest peak on the eastern end of the island was in a state of eruption, ejecting smoke like Mount Etna.

The Danish Government has agreed to submit to arbitration in reference to the claim made by the United States for firing upon the American ship "Benjamin Franklin" at St. Thomas in 1856. The claim amounts to half a million dollars, and has been unsuccessfully presented to the Danish Government for the last thirty years. Who the arbitrator is to be is not yet settled.

The great bath at Schevengen, on the North sea in South Holland, was burned yesterday. The Casino was also destroyed. The total loss will not fall short of $100,000. There was a panic among the bathing visitors and inhabitants of The Hague. Within two hours the splendid building, including ball rooms, conversation halls and reading rooms, was completely gutted, and all the magnificent furniture was consumed. The walls are now crumbling.

The Westport Board of Guardians waited upon Lord Ashbourne, Lord Chancellor of Ireland, to complain that, notwithstanding the Government grant of £4000, owing to the severe distress prevailing, the rates were not sufficient to meet the demands for outdoor relief. They said that the Union would soon be bankrupt, and asked that the Government make a further advance from the balance of the Irish Church fund. Lord Ashbourne replied that he feared that compliance with their wishes would establish a dangerous precedent, but he promised to submit the subject to Sir Michael Hicks-Beach, the chief secretary.

THURSDAY, SEPTEMBER 2, 1886.

THE earthquake turns out to have been a much more serious matter than was originally reported. Charleston is ruined; two-thirds of its houses are said to be totally or partially wrecked; an uncertain but considerable number of its inhabitants are killed, and many more seriously injured. The people who are camping out and afraid to return to their homes will be some time before they get over their panic.

FOR presence of mind Mr. McGee, of the United States Geological Survey, surely takes pre-eminence among scientific men. The first shock of earthquake caught him unprepared for which he must be excused. When the second shock came thirteen minutes later Mr. McGee had improvised a seismoscope with a tumbler of water and was prepared to observe any further phenomena scientifically. This says a great deal in favor of scientific training and the habitual use of a tumbler of water as a "night-cap."

MR. JUSTICE BABY in his address to the Grand Jury yesterday made some strong observations with regard to a class of crime becoming intolerably frequent, indecent assaults. His Honor declared that the city could not allow such infamous crimes to be committed with impunity and urged the grand jury to bring in true bills in such cases almost unhesitatingly so that the accused might be tried and punished according to their deserts. By a coincidence a prisoner was tried and convicted of an aggravated assault upon a women yesterday. The lottery of justice, however, brought him before the Recorder instead of Mr. Justice Baby and he was fined $20 or three months.

THE INUNDATION COMMITTEE.

The refusal of the Inundation Committee to accede to Sir Alexander Galt's proposal yesterday is creditable to the sagacity of the committee. It may be a matter of first class importance to the St. Gabriel Levee and railway company to save its charter by commencing work to-day and if so the company had better commence work at its own risk. But it is not a matter of first class importance to the city that this particular company should do the work at all. There seems to be no likelihood of the levee being built in time to prevent floods next Spring, and therefore we see no reason for the city to commit itself to this particular scheme in a hurry, merely to save Sir Alexander Galt's charter.

Now that the Government's Engineering Commission has reported in favor of an embankment, we think the city should institute a financial investigation to ascertain the most profitable way of going about to get an embankment. Such desultory and apparently purposeless conversations as those enjoyed by the Committee and its visitors yesterday are useless. The floods will never be stemmed by any such palavers. It seems to be gradually dawning upon the Committee that something ought to be done by somebody, but they do not seem to have the slightest idea how to begin. Sir Alexander Galt has a definite scheme but the Committee has not a single definite alternative.

NOT FOR CONFIRMED BACHELORS.

One often observes children much happier and more confidential with their grandparents than with father and mother, and doubtless many a father has felt that his boyhood would have been happy had "Grandpa" been as loving to him as to his little son. It is not only that the old people have become less absorbed in business, or work, or society, and so have free minds to take an interest in what the children like, but that they often have discovered how poor are all things compared with love, and have become hungry to obtain, before the end, all that they can get of that priceless blessing. Then too the old, we know, often look back, not without remorse, on the neglect with which in their best days, they treated their boys and girls, and try to make up to their children's children for what they did not bestow on their own. Longfellow's refrain tells us that "a boy's thoughts are long, long thoughts," but who shall explain the longer thoughts and the regretful memories that often make the aged find congenial companionship in the young?

Talleyrand assured the gentleman who had not learned whist that he was preparing for himself a miserable old age, but we should say that one had better make preparations for looking back cheerfully than for closing his mind by an absorbing pastime against long thoughts. There is a lesson, and not merely an example, for every parent in the tenderness of the old for the young, if, as we think, is true, Grandpapa and Grandmama are somewhat moved to be so indulgent by sore memories of their own shortcomings in their prime. And the lesson is that it is well to be loving to your boys and girls now, not only for their sake but for your own present and future sake in this world. It is a terrible thing for a father, looking back, to have to confess to his heart that the bright faced boy, who became a disreputable man and died miserable and disgraced, might have looked from honest, clear eyes to the last, but that his craving heart never found enough affection at home. Let parents try to be sure that at least that saddest self reproach shall never be theirs. It is so easy to be loving if one will, and part of the reward is usually so instant from girl or boy. The glad smile of more thanks than the child has words for, the beaming look, the impulsive embrace, and all for a pat on the head only, or a moment's stooping to consider a maimed toy, or perhaps a genial reference to some dear old family joke!

It isn't enough not to be brutal, not to belabor the children with blows or hard words; it isn't enough even, to provide them with everything good in food and clothes and games. And it isn't enough to preach to them, either! You must take thought of them, interest yourself with them and bend your mind to their fancies, and not try to cramp their living and alert souls to your half dead and inactive one. Mind this, that you have as much to learn from them as they from you, and the wiser you are the more you will find in their company. So all the sages say, and it will be judicious to take their advice on trust in this case.

It won't do to excuse oneself from intimate friendship with his own children by saying, "Oh, but I come home from the office, or the store, or the field, or the workshop too much fagged out. Rest is what I want and not to be troubled with a pack of noisy young ones." If you do say that you might be surprised, and even shocked, to find how deadly quiet they would become if you offered to play with them. But you are in a bad way if that is what you say, for then you have no notion of how to value the best that life yields, nor any idea of how to get really rested. Seldom is brain so weary or muscle so fatigued that the caress of a loving child cannot help the case somewhat; very seldom does work exhaust one beyond the power of giving the youngsters half an hour. Hark to Longfellow again:

"Come to me, O ye children!
For I hear you at your play,
And the questions that perplexed me
Have vanished quite away.

Ye open the Eastern windows,
That look towards the sun,
Where thoughts are singing swallows
And the brooks of morning run.

* * * * * *

Come to me, O ye children!
And whisper in my ear
What the birds and winds are singing
In your sunny atmosphere.

For what are all our contrivings,
And the wisdom of our books,
When compared with your caresses,
And the gladness of your looks?"

SIR ALEXANDER'S PROPOSAL.

The Levee Company Make an Offer to Commence Work To-day to Save the Charter But the Proposition Fails to be Accepted by the Inundation Committee.

The Inundation Committee met yesterday afternoon. Present, Ald. Grenier (in the chair), Ald. Donovan, Laurent, Mooney, Rolland and Hamelin, and the following gentlemen not members of the committee, but representing different interests: Sir A. T. Galt, representing the Levee Company; Mayor Crawford, of Verdun; Senator Trudel and Mr. Decaries, representing the Congregational nuns; Rev. Father Larue, Superior of the Seminary, and Mr. Lafleur, notary, for the seminary; Mr. H. P. Hannaford, representing the G. T. R.; Rev. Father Rouleau, of Point St. Charles; Rev. Father Salmon, of St. Gabriel; Messrs. F. J. Gilman, Robert Watson, Ellis, ex-Ald. Tansey; Mr. St. George, city surveyor; Mr. Glackmeyer, city clerk; Mr. Roy, city attorney, and a number of others.

The chairman expressed his regret at not having been able to be present at the last meeting.

Ald. Donovan strongly urged that something should be done, as the season was now far advanced.

The chairman express his willingness to help

ANY REASONABLE SCHEME

along, but so far nothing of an acceptable character had been submitted to them. The present scheme was by far too limited.

Sir A. T. Galt said that the Levee Company's charter expired on Thursday, and unless something was done at once the charter would be lost. He and Mr. Drummond were willing to subscribe the capital required at once if they obtained some guarantee of indemnification.

The Chairman replied that the committee had no power in the matter beyond recommending the matter to the Council.

Sir A. T. Galt remarked that no more than $1000 would be needed for the present.

Ald. Laurent was opposed to any rushing being done and thought the charter could very well be renewed next year.

It was here explained in answer to a question that the plan only provided for a dyke down to Victoria Bridge no provision being made to protect the Harbour front.

In answer to a question put to him, Mr. Hannaford replied that the Grand Trunk were taxpayers and had a right to be protected as well as any of the other property owners without making any special expenditure in the matter.

Ex-Ald. Tansey, Rev. Messrs. Rouleau and Saunders, Rev. Father Salmon, and Councillor Laprairie, delegates of Point St. Charles and St. Gabriel, stated their views on the matter, and expressed the hope that something would be done to prevent another flood. Property would be very much reduced in value if another flood happened. St. Gabriel was willing to offer all the assistance in its power.

Senator Trudel, representing the Congregational Nuns, said that they would do all in their power to assist the city in this matter.

SIR ALEXANDER'S PROPOSAL.

Sir A. T. Galt then submitted the following proposal:

1. The Levee company to be forthwith organized by the private subscription of $50,000 in shares and payment of deposit thereon required to secure the charter.
2. The levee to be formally commenced to-morrow, 2nd September, and, if possible, to be completed by 1st January next. But the company is not to be liable for damages for non-completion within the time limited. Should it be necessary to obtain an extension of time from Parliament the City Council to support the application, and if it should fail the city to assume the entire work and indemnify the company for their actual outlay.
3. The levee to be constructed from the Victoria bridge to the Lachine road above the flood level as prescribed by the charter, the height to be three feet above high water level with valvular culverts or sewers to such points as may be required by the city engineer. The tail race to be bridged with a substantial railway bridge.
4. The city to construct the levee from the Victoria bridge to Tate's Dry Dock. Also to raise the banks of the tail race to an equal height with the levee.
5. The city to retain the complete control and arrangement of the drainage and pumping. The company being only bound to the actual construction and permanent maintenance of the levee and culverts.
6. The company to construct within the time limited by the charter a railway from the Grand Trunk railway at Point St Charles to the Lachine canal above St. Paul's locks.
7. The city to pay the company a bonus of one hundred thousand dollars in cash, or in bonds of the city bearing four per cent., or those of St. Gabriel and Verdun bearing five per cent. to be taken at par. The said bonus to be payable monthly on the estimates of work done upon the line as certified by Mr. Shanley, C. E., and the entire amount upon his certificate of the completion of the levee, from the Victoria bridge to the Lower Lachine road.
8. The committee to guarantee the approval of this agreement by the city council, or to indemnify the company for all expenses and outlay incurred in taking the immediate action now necessary to secure the charter.

Montreal, 1st September.

The chairman was ready to support Sir Alexander's proposal, but said all the committee could do was

TO REPORT TO COUNCIL.

Sir Alexander thought that the only apparent difficulty was to indemnify the company for the $1000 they were willing to expend in case their plans were not accepted by the Council. He would withdraw that condition if the committee assured the company that they would back it up in the Council.

Councillor Laprairie said he was willing to take a spade and go to work at once.

Ald. Mooney moved:

That this Committee considers that in the interest of the City of Montreal in order to prevent the semi-annual floods, a report should be made to the Council recommending the acceptance of Sir A. T. Galt's proposition.

Ald. Laurent moved in amendment that this meeting adjourn till Tuesday, and in the meantime the City Clerk be instructed to write to the owners of the ground to be covered by the levee to ascertain on what terms they will cede their lands for that purpose.

The amendment being put was lost, the mover voting alone.

Upon the main motion the Committee divided as follows:

Ayes—Aldermen Donovan and Mooney—2.

Nays—Aldermen Laurent, Hamelin and Rolland—3.

The Committee adjourned.

PANIC IN CHARLESTON.

Terribly Agitated Women and Children Running About the Streets—The Situation Becoming Horrible—Cut off from Communication with the Rest of the World.

NEW YORK, September 2.—A private despatch from Charleston, says: "Women and children are running about in the open air terribly agitated. There are three or four steamers in port, including the buoy tenders, and many of the inhabitants are provided with berths on these boats. Fortunately the weather has been good, and the hardships are not as severe as they might have been. The situation, however, is becoming horrible. Cut off from communication with the rest of the world, afflicted and haunted with the prospect of immediate death, that is about the condition of this community. No trains have departed for or arrived here in 24 hours. It is said all railroads leading into the city are crippled. The statement is made that all the railway tracks are twisted into the shape of snakes."

WASHINGTON, D. C., September 2.—Prof. McGee, of the Geological Survey, has left for Charleston, S. C., to make a scientific study of the effects of the earthquake at what now appears to have been the centre of disturbance.

SHOCKS IN EUROPE.

LONDON, September 2.—A severe shock of earthquake was felt at Antequera, near Malaga, yesterday. The inhabitants fled panic-stricken from the town. There was no loss of life.

ATHENS, September 2.—The damage caused by the earthquake at Filiatra, amounts to about two million dollars.

THE BUTCHERS' ASSOCIATION.

Fourth Annual Picnic Held Yesterday on the Exhibition Grounds.

The Butchers' Association held their fourth annual picnic yesterday on the Exhibition Grounds. There was a very large attendance. The City Band played a fine selection and Casey's orchestra furnished music for dancing. Madame Bourassa, the wife of the president, was presented with a fine bouquet by the butchers of Longueuil. The following is the result of the various events:

Firemen's foot race, once round the ring—1st, R. Cairns; 2nd, A. Naud; 3rd, W. McCulloch.

Butchers' flat race, four times round ring—1st, McDuff Lamb; 2nd, H. Renaud; 3rd, B. Lamb.

Foot race, once round ring—1st, G. Morgan; 2nd, P. Lamb.

Trotting dash, six times round ring—1st, M. Laforce; 2nd, J. Desjardins.

Girls' race under 15 years, half round ring—1st, Miss Morin; 2nd, Miss Laplante.

Flat race (dash), farmers admitted, four times round ring—1st, Demers; 2nd, J. Irvine; 3rd, H. Renaud.

Trotting, open to all butchers in sulky, three times round the ring, best two in three—Won easily by A. Letourneau.

Firemen's foot race—1, R. Cairns; 2, W. McCulloch; 3, D. Guthrie.

Wheelbarrow race, blindfolded—This was a very amusing race, and resulted as follows: 1, M. Facey; 2, A. Naud; 3, M. Holmes.

Trotting dash, for hide dealers and drovers—1, M. Marcotte; 2, R. Harper.

Potato race—1, A. Naud; 2, J. Burchell. Some of the contestants protested against Naud getting first place, but the judges held to their opinion.

Foot race, for drivers, once round ring—1, A. Vaiade; 2, A. Williams; 3, J. Pearson.

Hurdle race (open), four times round ring—1, R. Minogue's "Young Kelso;" 2, R. Minogue's "White Stockings;" 3, Geo. Press' "Sunshine."

This was the event of the day, and for half the distance the horses ran neck and neck, taking the hurdles very cleanly. Finally "Young Kelso," being well handled by young Minogue, drew ahead, and won by about fifty yards. The first prize was a cup valued at $100.

Sack race, half mile ring—1, J. Burchell; 2, A. Trundel; 3, R. D. Little.

Running high jump—1, J. Wiggins; 2, A. Naud.

The judges were Messrs. Lamb, Daoust and Beauchamp, and everything passed off successfully.

THE CONVICT ADAMS.

Before the Court of Queen's Bench for Having a Revolver and Tools on His Person—His Former Attempts at Escape.

Acting Deputy Warden Thomas McCarthy, of St. Vincent de Paul Penitentiary, was in attendance at the Court of Queen's Bench yesterday, for the purpose of instituting proceedings against the convict Adams on whose person he recently found the missing revolver and a set of tools. An indictment for larceny and harboring property of Her Majesty was presented to the grand jury, and a true bill returned. Mr. McCarthy states that Adams is one of the cleverest convicts he ever came across. In addition to the revolver he had a complete set of tools including files and drills, with which he intended cutting through the bars in his dungeon. When a boy of 18 he succeeded in escaping from the Reformatory School here, in the midst of Winter, when he froze both his feet, which had to be amputated. He has served two terms at Kingston, and was once found endeavoring to make his escape by climbing up inside of one of the highest chimneys in the place. Since then he has been almost a constant inmate of the penitentiary at St. Vincent de Paul.

NEITHER ROSS NOR MERCIER.

"L'Etendard" Unwilling to Accept Either One or the Other.

L'Etendard claims this morning that it has been informed by a clergyman of the diocese of Three Rivers that the Hon. Mr. Ross wrote a letter to the priests of that diocese, during their last retreat asking for their support for the ministry of which he is the head. Mr. Ross is put down as saying in his letter "Those who are not with me are against me," and that if he is beaten he will be succeeded by Mr. Mercier. The clerical organ claims that Mr. Ross' letter did not meet with much favor. One priest said "We are not with Mr. Ross and still we are a hundred leagues away from Mr. Mercier."

L'Etendard, commenting on this, says: "We can unite our voice with those of these venerable priests; two negroes do not make a white man. As for us, who are seeking for a pure white man, we are not looking for him in either of the negroes. We are looking for him somewhere else."

THREATENED TO KILL HERSELF.

How a Young American Tried to Keep her Lover.

A prepossessing young American woman by the name of Susie R. Chantrey, came to Montreal from Michigan some three weeks ago in company with a man, whom it was supposed at the time was her husband. It is said that both eloped from their homes with the intention of being married. It appears that up to the present they have not as yet forged the matrimonial link. Tuesday evening a scene occurred between them which caused dismay among their acquaintances. She threatened to kill herself if her lover should leave her as he had threatened to do, and for this purpose exhibited a revolver with the apparent intention of using it. She was prevented from committing the deed, if she really intended it, and taken to the Police Station by her protector, who gave his name as Ed. Arlington. The Police Magistrate, after investigating the case, dismissed the accused with a warning.

The English cricketers leave New York on Saturday, for Toronto.

PENNSYLVANIA IRON TRADE.

PHILADELPHIA, September 2.—As compared with 1884, the new directory just completed by the American Iron and Steel Association, says there are a slightly decreased number of rolling mills and steel works in 1886, notwithstanding the great increase since 1884 in the erection of steel plants. This is accounted for partly by the fact that a number of mills which were built to roll iron rails have been wholly abandoned, and partly by the fact that the increasing use of steel rails diminishes the demand for the products of iron rolling mills.

The Rebellion

In the North-West has been suppressed, and our citizens can now devote reasonable attention to their corns. The only sure, safe, and painless remedy is Putnam's Painless Corn Extractor. It never fails; never makes sore spots worse than the original discomfort. See that you get "Putnam's," and take none other.

Horsford's Acid Phosphate,

Invaluable as a Tonic.

Dr. J. L. Pratt, Greenfield, Ill., says: "It is all that it claims to be—invaluable as a tonic in any case where an acid tone is indicated."

There is a field of corn at Garnet, Kan., the stalks of which are fourteen feet high, while it is nine feet to the nearest ears of corn on the stalk.

A. Maybee, merchant, Warkworth, writes: I have sold some hundreds of bottles of Dr. Thomas' Eclectric Oil, and it is pronounced by the public "one of the best medicines they have ever used;" it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence.

The best partners.—For whist, the cleverest and the most indulgent, for dancing, the handsomest and the most amusing; for business, the steadiest, the wealthiest, and the most attentive; and for marriage, one who combines the qualities of all three.

Faces as yellow as that of the "Heathen Chinee," in consequence of bile in the blood, grow fair and wholesome-looking again when Northrop & Lyman's Vegetable Discovery and great blood purifier is used to relax constipated bowels and expel the bilious poison from the circulation. Rheumatic and blood impurities are also driven out by it, digestion restored, and the system benefited in every way by its use.

Special Notice.

Off Work.

"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

Angostura Bitters are endorsed by all the leading physicians and chemists, for their purity and wholesomeness. Beware of counterfeits and ask your grocer and druggist for the genuine article, prepared by Dr. J. G. B. Siegert & Sons.

A Wise Precaution.

During the Summer and Fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

A MODEL FARM.

NEAR MONTREAL.

BY AUCTION.

With fine Residence, Farm House and complete outbuildings, etc., only about thirty minutes' drive from the business centre of the city.

I am instructed by J. M. BROWNING, Esq., to sell at my Room on

WEDNESDAY, 8th SEPTEMBER,

this well known villa and farm "Elmhurst," about 140 acres, beautifully situated, fronting on St. Lawrence river, near Longueuil. As he has positively decided to sell, it is a rare chance to buy a beautiful estate at a bargain. The purchaser will have all the advantages of the years of careful attention as well as the large and judicious expenditure by which Mr. Browning has brought the place up to its present splendid condition. Photograph of the houses, etc., and full particulars can be seen at my office.

Sale at ELEVEN o'clock.

THOS. J. POTTER,
Auctioneer.

The valuable thoroughbred Cattle, Horses, Implements, &c. will also be sold at auction on the Farm, on Wednesday Morning, 6th October, at 10 o'clock. 202tf

REAL ESTATE.

Highly Important Auction Sale Without Reserve.

The splendid property of estate Madame Thivierge, S. E. corner German and St. Catherine streets; a number of houses on St. Constant street; a splendid farm close to the city; valuable corner lot on Dorchester street; several houses near McGill College, two houses on Durocher street, a large property on St. Paul street, fine investments on Ontario and Bleury streets, an extensive sale of lots near St. Catherine street west, and other choice properties will be announced with full particulars in a few days, for September opening of Real Estate Auctions.

THOS. J. POTTER,
202 Auctioneer.

REAL ESTATE AT AUCTION.

Property owners who wish to sell by this method, would consult their own interests by giving me an early call. The entries already made in my diary for September and October, and the number of enquiries from intending buyers, portend an active season. My long experience and unequalled success at this important specialty are well known, and afford a sure guarantee to owners that their interests will be well looked after.

I shall be happy as heretofore, to confer with those intending to sell, and give reliable estimates of market price, cost of advertising, &c., and all necessary information.

Real Estate sales need to be managed from beginning to end with energy, ability, and tact, backed by experience. Advertisements should be well written, and nothing left undone to put each parcel well before the public, both in the newspapers and in the auction room. The Conditions of Sale, both written and verbal, must be so explicit and plainly set forth as to make disputes impossible, so that no "hitch" will occur in having deeds passed promptly. Neglect or lack of experience has often caused serious loss and expensive law suits.

THOS. J. POTTER,
202 Auctioneer.

THE "HIGHLAND LIGHT."

How her Capture was Effected by Captain Lorway—Seized while Seining a Mile and a Half from Land.

[SPECIAL TO THE STAR.]

GEORGETOWN, P. E. I., September 2.—A very practical answer has been given to the oft-reiterated stories about the alleged secret orders given to cruiser captains not to make any seizures for violating the treaty of 1818, by Captain Lorway's capture of the schooner "Highland Light," which, with 200 barrels of mackerel on board, was fishing within a mile and a half of shore at East Giant. This is an important seizure, because it is the first vessel captured in the very act of fishing in shore, and this capture, taken in connection with Sir Charles Tupper's assurance that the Imperial Government will actively aid Canada to enforce the treaty with the North American fleet, shows that there will be no more fooling with this great question, notwithstanding all reports to the contrary. Captain Lorway has done his duty to the best of his ability, and has kept the Yankee fleet as well outside the limits as it was possible for one cruiser to do in a district extending one hundred miles. Moreover,

MACKEREL WERE EARLY PLENTIFUL

outside the limit, but when they began to freely school in shore it was natural for American vessels to follow them. They could not distinguish the imaginary three mile limit from the shore, and besides the exciting advances in the New England mackerel market offered an inducement to run some risk. The sight of Americans making large hawls of fish, whether inside or outside the limit, naturally exasperated Canadian fishermen, notwithstanding the fact that there were enough and to spare. They have, therefore, for some time past, been making savage attacks on "Admiral" Scott and the captains of the cutter, of which the following sample is taken from a local paper:—"For the last few days the American mackerel fleet has been moving eastward. Last Friday, between East Point and the Second Chapel, over sixty sail were to be seen

DODGING ALONG THE COAST,

but, as usual, no cruisers were visible. Next day a large number of American seiners were anchored off Souris. The day following (Sunday, 29) over one hundred of them were still there, waiting more favorable fishing weather. Where are the cruisers? None of them have been seen in this direction for four weeks. It would look much better on Captain Scott's part if he should spend part of his time on North Bay, instead of being in Halifax examining mates and mariners and finding fault with the Prince Edward Islanders, because they have had occasion to protest against his indolence. Last Saturday there were sixty sail of American seiners off Priests pond and Fairfield. Some of them were throwing their seines in seven fathoms of water a mile and a half from shore. Early this morning nearly eighty sail of American seiners were fishing near East Point. All of a sudden the cruiser "Howlett" sailed around the point and pounced down on the "Highland Light," of ninety-two tons, and about one year old, who was seining only a mile and a half from land. Captain Lorway

TOOK POSSESSION OF HER

without form or ceremony, put a portion of his armed crew on board and conveyed her to this place. Captain Kelly, of "Highland Light," admitted being inside the limit. The seizure was made in the presence of the whole Yankee seining fleet, and the greatest excitement naturally ensued. There was, however, not the slightest attempt at interference, and Captain Lorway experienced no trouble in bringing his prize to this port, which is a regular port of entry. Souris would be a nearer harbor, but the Customs official there is only a sub-collector. The whole fleet followed the "Howlett" and her prize in mournful procession until this harbor was reached. The seventy sail of Yankees are mock as mice, and not a word was heard about "blowing" the little cutter out of the water, or even "sailing away from her."

COURT OF QUEEN'S BENCH.

A Young Convict for the Penitentiary—Receiving Stolen Goods—Forgery—Theft.

The Court of Queen's Bench was opened at 10.30 this morning by His Honor Mr. Justice Baby, Messrs. J. A. Ouimet, Q. C., and C. P. Davidson, Q. C., representing the Crown.

The first prisoner to be called was Charles Gelinas, a lad of 15 who is charged with having stolen $40 from his employer, Mr. Z. Deschamps, saddler, of Notre Dame street. The lad pleaded guilty. It appears that he had been in the employ of Mr. Deschamps only a few weeks. While his employer was at dinner the accused broke open a drawer in the safe and removed $40.

His Honor in passing sentence said that he was sorry to have to do so on one so young, but he had no alternative. The accused had already spent three years in the reformatory and it was therefore useless to send him there again, nor was it of any use to send him to gaol for a few months. He would sentence him to three years in the penitentiary, hoping that during that time he would mend his ways. Deschamps will be the youngest convict in the St. Vincent de Paul Penitentiary.

RECEIVING STOLEN GOODS.

Solomon Goldstone was arraigned charged with having received stolen goods of the value of $154, and the property of Mr. S. Carsley & Co. He pleaded "not guilty," and an application of Mr. McLennan, his counsel, to have the trial adjourned was granted.

OTHER ARRAIGNMENTS.

James Williamson, accused of forging the name of D. Somerville on a promissory note of the value of $125 pleaded "not guilty," as did also Geo. Scott, accused of neglecting to provide for his wife.

L. C. Roy, also accused of neglecting to provide for his wife, was also arraigned and pleaded "not guilty."

A VOLUNTEER'S WATCH.

Ed. Massie, a volunteer belonging to the 83rd Battalion, was then placed in the box charged with having stolen a watch valued at $25 from Pte. D. Langlois, of the 65th, on the night of the 10th of July last. Langlois in his evidence stated that both were going over to the Longueuil camp when the accused, in company with two others, robbed him of his watch at the Longueuil ferry after having induced him to enter a freight car to have a drink.

The prisoner defended himself. The High Constable produced the watch which had been stolen, which was identified by the witness.

Constable Caisse, who recovered the watch, gave evidence to the effect that he had given chase to the accused after the theft, and that the latter had thrown the watch on the sidewalk when the witness was on the eve of catching up to him. This closed the case, and after a brief address from the Court, the jury returned a verdict of "guilty."

The Court then adjourned until to-morrow morning.

The Provincial Premier in the City.

Hon. Dr. Ross, Prime Minister of the Province, arrived in the city last evening and this morning had a conference with leading Conservatives at the Government offices, St. Gabriel street. He was entertained at lunch by Mr. Justice Loranger at the City Club.

It is stated by the friends of the Ministry that the elections will not take place before the end of October. "The position of affairs," said an ex-minister to-day, "is steadily improving, and the prospects of the Ministerialists are much better than they were."

Cruelty to Animals.

Samuel Jones, coachman, was brought before the Recorder by Inspector Galey, this morning, charged with cruelly ill-treating a mare belonging to Mr. D. M. Mossom, on the 19th August. He was ordered by Mr. Mossom to take the mare to have her shod. Instead of this he got drunk and took her to the Mile End and there beat her in the most cruel manner. She is now under Dr. McEachran's care. The Recorder sentenced him to pay a fine of twenty dollars or two months.

Grain Standards.

The meeting of the Board of Examiners, for choosing and approving of the Dominion grain standards, to have been held at Toronto, on the 7th inst., has, at the urgent request of the Winnipeg Board, been postponed till the 17th inst.

The Notre Dame street cars now run through to the city limits at Hochelaga without change.

CHARLESTON'S GLOOMY DAY.

No Improvement in the Condition of the Town.

A Long List of Killed and Injured—Churches, Warehouses and Residences Badly Wrecked—Fissures Created, from Which Water, Sand and Mud are Emitted—Further Shocks at Charleston, Washington and Augusta.

CHARLESTON, S.C., September 1, 6.30 p.m.—The gloomiest day ever known in Charleston is drawing to a close, with no improvement in the condition of the people. Great fears prevail to-night of another violent earthquake, as slight shocks have been felt at intervals during the day. Tents have been rigged up in the streets, and the whole population, nearly will pass the night out of doors. The people are greatly depressed, as the aggregate loss mounts up to millions, and may be increased indefinitely at any moment by a gale of wind or additional shocks. The houses generally are in no condition for further trials. The following is a list of

KILLED AND SERIOUSLY INJURED:

M. J. Lynch, struck down by a stone, dying.

Mrs. Charles Rivers, colored, seriously wounded.

Moses Brown, colored, wounded dangerously.

Dr. R. Alexander, crushed to death by a falling chimney.

Samuel Hammond, both legs broken, wounded fatally.

Isabella Howard, wounded seriously.

Mrs. Heidt and Mrs. Annie Torcke, injured dangerously by a falling house.

Miss Jessen, injured internally.

Mamie Palmer Ainsley Robson, killed by a falling piazza.

Laura Roberts, colored, killed.

J. E. Richardson, seriously injured by a falling house.

Olive Nickelby, colored, killed.

Susan Middleton and several unknown colored people killed.

A son of Lt. Heindt, of the police, leaped from a three story window and was instantly killed.

Annie Harris, colored, killed while lying in bed.

Charles Albrecht, killed by a falling brick.

Lizzie Bradley, colored, seriously hurt by a falling piazza.

BUILDINGS WRECKED.

There are many minor casualties. The South Carolina railway offices are cracked, but standing. W. M. Bird & Co.'s wholesale paint store was shaken down. W.E. Holmes & Co. next door, is in a similar condition. Part of the walls of the bagging factory are destroyed. The principal streets are littered with bricks and rubbish. The City Hall escaped damage, but the steeples of St. Michael's and St. Philip's churches will have to come down. The massive portico of St. Michael's was wrenched from the body of the church, and the cracks in the main building extend to the foundation. All the spires of Bishop Northrop's residence was swept away. The Charleston Hotel loses ceilings and part of the coping. The German Artillery hall is somewhat injured. Several buildings in Haynes street were gutted. The injury to St. Philip's Church is almost indescribable. Among

THE RESIDENCES SERIOUSLY DAMAGED

are those of Capt. Dawson, of the *News* and *Courier*, General Sigeiger, the late St. Julien Ravenel, Trenholme Cowitts, George Gibbon, J. L. Tobias, B. Ballwinkle, Pressley Smith and Alderman Murray. On Sullivan island the shocks were severe, but comparatively little injury was done and no lives were lost. On James island, the earth cracked, and in many places the fissures emitted large bodies of cold water, mixed with sand and blue mud. At Mount Pleasant there was a general shaking up, but no loss of life. There are many fissures and cavities from which fresh water and mud have come. Fine mud or sand has also come to the surface in Charleston. It is contended that there was a heist or turn in the motion of the earthquake, and that it had not simply an undulating motion. Articles of furniture and lamps have been found which are turned partly round, in addition to the visible effects of the simple wave motion.

MORE SHOCKS IN GEORGIA.

AUGUSTA, Ga., September 2.—Another earthquake shock was felt at 9 o'clock last evening. Mrs. Samuel Bowers, an old lady, died of fright on Tuesday night. Nothing like this has occurred since 1811, when the shocks extended from Charleston to the Missouri river, where large tracts of land sank. The shocks did great damage to the interior of the residences of Mayor Riley, and Captain Grealish. The latter is barely standing.

Later—A severe shock was felt here at 11.20 last night.

WASHINGTON, September 2.—Two more earthquake shocks were felt here yesterday, at 9.54 a. m. and 5.15 m. They were very slight.

LONDON PRESS COMMENTS.

LONDON, September 2.—The *Daily News* commenting on the earthquake, says: "The United States enjoy their predominance in bigness, even in this catastrophe. No such earthquake has been known in our time, in its extent at least, if not happily, in its fatal effects."

The *St. James' Gazette* says: "Eighteen hundred and eighty-six began on Friday, will end on Friday and contain fifty-three Fridays. Four months in the year have five Fridays. Five changes of the moon occur on Friday and both the longest and the shortest days in the twelve months are on Friday. This might indeed be termed a Friday year."

A DEPLORABLE SITUATION.

ALGIERS, September 2.—The military condition of Algeria is deplorable. There is apparently an utter absence of discipline among the troops. Duels take place almost daily between the soldiers and officers, and even between rival companies of Chasseurs and Zouaves. The native soldiers attack the foreigners on the slightest provocation.

THE "ALASKA" STILL AGROUND.

NEW YORK, September 2.—The steamer "Alaska" is still aground, hard and fast, off Sandy Hook. It will be necessary to remove at least half her cargo before she can be started. The passengers are still on board. If the "Alaska" is unable to proceed in a day or two they will be forwarded by another vessel of the line.

FRANCE AND GERMANY.

PARIS, September 2.—The *Republique Francaise* reproduces without comment an article from the North *German Gazette*, stating that Germany must always keep her eyes on France, because "France is making rapid preparations to fight," etc. The article has caused excitement in the French press and among French diplomats.

A BRIDGE BURNED.

LEAVENWORTH, Kansas, September 2.—A bridge spanning the Missouri River at Fort Leavenworth was burnt last night. It is an iron structure, but the floor and half a mile of trestle was destroyed, entailing a loss of over $400,000. This is the only means which the Chicago, Rock Island and Pacific Railroad have of reaching the city.

Kindness to a Horse.

Lady Stephen did a kind and graceful act yesterday. In the afternoon, a market gardener, driving a meagre specimen of a horse, was endeavoring to force the poor brute to pull an overloaded waggon up the hill on Francois Xavier street, adjoining the Post Office. It was evident that the task was beyond the horse's powers, yet the man persisted and lashed the horse unmercifully. A crowd of men were gathered on the brow of the hill watching the efforts made by the poor horse, yet not one stirred or tried to induce the driver to desist. Lady Stephen, who was passing, saw the occurrence and at once came down the hill and obliged the man to turn his horse around and seek an easier street for the over-worked horse. The crowd of men who had been watching the affair, without making any effort to put a stop to it, then dispersed.

The Provincial Synod.

The Lord Bishop of Algoma will be the preacher at the Provincial Synod service, in Christ Church Cathedral, on Wednesday, the 8th inst., at 10.30 a. m. On the same day there will be a special evening service in the Cathedral at 8 p. m., when the Most Reverend the Metropolitan will preach.

Montreal Veterinary Medical School.

The election of the officers of this institution took place yesterday when the following were elected office bearers: Director, O. Bruneau, M. V.; President, G. O. Beaudry, M. D.; Secretary-Treasurer, J. M. Beauseleil, M. D.

THE CANADIAN WIMBLEDON.

The Third Day's Shooting of the Dominion Rifle Association—Results of Yesterday's Matches.

OTTAWA, September 1.—The weather today was magnificent for shooting, with the exception of the wind, which was variable, and a great improvement in scores was the result. Appended are the scores of the Ouimet match fired yesterday, and the competitions completed to-day, together with the grand aggregate. The matches will all be completed to-morrow, and the prizes will be distributed by Sir John A. Macdonald, after the reception which will be held in the council tent by Mrs. Kirkpatrick.

ST. PETER'S BAZAAR.

The Opening To-day—An Address to Archbishop Fabre and His Reply—Speech by Bishop Gravel Who Contributes $200 to St. Peter's —Description of the Stalls and Decorations.

The bazaar at St. Peter's is already a success, though the preparations are not by any means finally completed—enough has been done already to produce a grand effect and give an intimation of its grand appearance when more fully arranged. The interior this morning was a busy scene, workmen were busily engaged in all parts of the building completing and adding to the decorations. Ladies in charge of the different departments and tables, all of them dressed in neat black habitments, white sashes and aprons, and charming little white caps on their heads, flitted about constantly on their busy errands, changing here and adding to there as suited their fancies and tastes. Flags of all nations, long streamers of many colors, mottoes, ensigns and shields adorn every available space of the vast interior and present a *coup d'œil* at once pleasing and extremely effective.

THE OPENING.

His Grace Archbishop Fabre entered the building at half past twelve, attended by Archbishop Duhamel of Ottawa, Bishops Laurrain of Pontiac and Gravel of Nicolet. Nearly two hundred priests were in attendance, and a collation was served at which the ladies of the bazaar acted as the graceful waitresses. After this His Grace, Archbishop Duhamel, and Bishops Laurrain and Gravel proceeded to the band stand where an address was read by the Rev. L. T. Adon, parish priest of Hochelaga, on behalf of the many priests who had been ordained by His Grace. The address was very congratulatory and paid a very high tribute to His Grace for his many excellencies and virtues and spoke of the high honor they all felt in being under his sacerdotal charge. It congratulated him on being the first Archbishop of Montreal, and referred to the fact that Montreal was the parent of many charitable and religious institutions all over the country. It asked for his blessing on them, and concluded with an eloquent peroration of their devotion to His Grace. The latter replied in feeling terms saying this address would be an imperishable souvenir for the Archepiscopacy. He thanked them for their kind devotion to himself and the diocese, and was glad to have their assistance and good wishes. He had no doubt of the completion of St. Peter's, and was grateful for the encouragement already accorded, which showed that the good work would go on. He said the bazaar was sure to be a grand success as it is a noble work undertaken by the priests and the people. His Grace returned earnest thanks to all who had aided and were aiding in the work. His worship Bishop Gravel, of Nicolet, then made a few well chosen remarks, saying he was always glad to associate himself with work in the *metropole* and he rejoiced with them in the erection of this magnificent church. Doubts had been expressed as to its completion, but under Archbishop Fabre's direction of the church the good work would go on and succeed. To prove his desire to associate himself with the work, he handed an envelope containing $200 to His Grace. Archbishop Fabre in thanking him said that this was the result he expected. He said that the Archbishop of St. Louis had told him Montreal was the most Catholic of all cities in his experience and spoke of the many religious communities here. He concluded by thanking Bishop Gravel most heartily, saying he took the gift as a mark of personal esteem and friendship. His Grace then visited the various stalls, in which he was very much interested.

Entering the main door the first stall on the right is occupied by the

PARISH OF ST. JEAN BAPTISTE,

which presents an admirable effect, and is gay with bright *objets de vertu* and utility. This is in charge of Madame Villeneuve, president; Madame P. Terreault, secretary, and Madame J. L. Barre, secretary. The next alcove is occupied by the stall of the parish of St. Joseph, of which the officers are Madame H. Gingras, president; Mrs. Dr. Dubuc, first vice-president; second vice-president, Madame L. Joubert; secretary, Madame L. Legendre; treasurer, Mrs. E. Pinson. The parish of Notre Dame is next, and the decorations have been admirably carried out by Mr. Beullac; the front is ornamented with representations of Corinthian columns in gray, and within is a grand array of bright colored flags and streamers and some beautiful articles which are being constantly added to. There is a beautiful painting of the Sacred Heart by M. Marois. The ladies in charge are Madame C. S. Rodier, president; treasurer, Madame Judge Baby; secretary, Madame A. Gelinas, and the display is highly creditable to them and their donors. St. James parish is in charge of president, Mrs. L. A. Jette; vice-president, Madame A. Levesque; treasurer, Madame A. Lacoste; assistant-treasurer, Madame L. S. Olivier; secretary, Madame J. N. A. Provencher. In the centre of this stall is a large statue of Our Saviour, under which are an excellent oil painting of the Madonna, elder down cushions, wax flowers and other articles. The display of bunting here is elaborate.

Under the dome is the band stand handsomely decorated and built after the model of that in St. Bridget's parish. It is to be used by the City and Harmony bands. To the right of this is the ice cream stall and twenty tables, presided over by Madame St. Onge, Madame Rivard, Mesdames C. Chaput, S. Pagnuello, Warner, and assisted by numerous young ladies. Behind the band stand is the permanent dining room having ten tables and capable of accommodating four hundred persons. It is in charge of the

DINNER AND LUNCH COMMITTEE

composed of Mesdames Jacques Grenier, president, C. C. Snowdon and the committees of the different parishes.

On the left of the band stand is the confectionery and fruit departments in charge of Mesdames J. A. Laramee, president; C. A. Geoffrion, vice-president; J. A. Ouimet, J. L. Archambault, J. O. Dupuis, J. N. Dupuis, H. C. Cadieux, etc. Fruit department (county of Hochelaga)—Mesdames Louis Beaubien, president; A. Desjardins, vice-president; J. Descoteaux, P. Claude, A. Deschamps, M. Prudhomme, L. E. Miller, A. Bie, Lenoir, Jos. Descaries, E. Hetu, Gingras, Misses E. Chaput, A. Chaput, E. Brousseau, C. Brousseau, Nelson, D. Gervais. Department of drinks (Notre Dame West)—Mesdames M. Valade, president; T. Valade, T. Corbeil, A. Tremblay, Richardson, E. Leroy, etc.

The kitchen is supplied with four gas stoves lent by the Gas Company. A convenient pantry has also been arranged and the door in one of the pillars is used as an ice chest.

The next stall is that of the Association de St. Jean Baptiste of Hochelaga and the parish of Notre Dame de Grace. This is arranged in a very tasteful manner against one of the large pillars supporting the dome and is being rapidly put in order. It is in charge of Madame L. Adam, president, Madame E. Gauthier, secretary, Madame Redaker, treasurer Notre Dame de Grace, Madame J. Descarries, Madame Prud'homme, secretary, Miss McKenna.

St. Ann's parish is in charge of Mrs. T. Moore, president, Miss Maggie Miron, secretary, and Miss Maggie Lesperance. This promises to be one of the notable stalls of the bazaar. The parish of St. Anthony's, parish, has an appropriate display of shields, flags and other decorations. It is not fully completed yet. The ladies in charge are Mrs. W. J. Tabb, president; treasurer, Mrs. T. Harding; secretary, Mrs. R. A. Wilson. Many useful articles will be shown here.

ST. PATRICK'S STALL

is already an elaborate one in its display of green and white. A large canopy in white covered with large shamrocks gives a light appearance to the stall and makes a beautiful effect. On the left is a fairy bower, beautifully and elaborately ornamented with artificial flowers of all kinds. Many of the articles for this stall are arriving to-day and being placed in position. It is under the direction of Mrs. Hingston, president, Mrs. Ed. Murphy, Mrs. J. H. Semple, and Mrs. L. Boult, vice-presidents; Mrs. T. B. Hawson, treasurer, Mrs. J. McShane, secretary, and assistant secretary Miss A. Sadlier. This stall is in worthy hands and is sure to be one of the very best. St. Bridget's parish is in the hands of Madame M. Laforce, president, Madame S. L'Archeveque, vice-president; secretary, Madame C. Roch; treasurer, Madame J. Lincourt. This stall is in a condition of great completeness and perfection and the display of art work, needlework, fancy articles, silk embroidery and other results of ladies' deft fingers, is one that can hardly be surpassed. The Sault au Recollet parish have an excellent display of wax-work and embroidery, and rich articles in silverware, under the direction of Madame J. Brousseau, president; Madame J. Lapierre, treasurer; secretary, Madame Contant. The Sisters of the Holy Community of Jesus and Mary have their stall against one of the huge pillars, and an extraordinarily rich display it is, comprising over 20 beautiful articles. They have articles from many distant places. The display of art work is exceptionally fine; the needlework done on the most expensive materials is extremely ornate and rich. It is in charge of Mlle Mount, daughter of Ald. Mount.

THE GOOD SHEPHERD SISTERS

will have a beautiful stall. A beautiful statue and oil painting of our Saviour are now in position, and other articles are being added. The remaining stalls are in a somewhat backward state; their positions are against the massive pillars dividing the alcoves.

The interior will be lighted by 125 incandescent lights, and a reserve of ten are lights in case of any accident. The dome is being filled up with flags and appropriate mottoes, and soon not an inch of the bare walls will be visable. The whole effect is grand and magnificent already, and will exceed the expectations even of the most hopeful of the organizers. The vast interior now looks like the palace of Aladdin with its magnificent distances and huge proportions. The decorations apart from those of the stalls, are necessarily of large extent and size in order to harmonize with the vastness of the edifice, and this has been most successfully effected already, and will of course, be more pronounced as they are more fully completed. The arrangements throughout are excellent in every way, even to the accommodations for the press which consist of two galleries under the dome and handsomely draped in red.

THE FLOOD COMMISSION.

The Surveys of the River by Mr. E. D. Lafleur C. E.—The South Shore Likely to be Provided for.

The surveys in connection with the flood commission are being pushed forward as actively as possible. Mr. E. D. Lafleur, C. E., of the Public Works Department at Ottawa, who has been for the last few months carrying on the hydrographic survey of the river at Lachine, has almost terminated his work, and he expects to return to headquarters in a day or two. The result of his labor will immediately be elaborated in plans, and submitted to Messrs. T. Keefer, H. F. Perley, P. St. George and John Kennedy, the flood commission appointed by the Government, who will base thereon their report on the matter to Public Works. Mr. Lafleur's survey extended from the head of Dorval islands to the new Canadian Pacific bridge, and over 10,000 soundings were taken. The bed of the river in the vicinity of Caughnawaga was also surveyed.

Another survey is being carried on by Mr. Joseph Smith, C. E., from the foot of the rapids as far as the Boucherville islands on the south shore and along a part of the north shore. He will have ended his work by the end of Autumn.

The commissioners have not yet received any answer from Ottawa to a letter they forwarded some time ago, asking whether their report was to include recommendations for the prevention of the floods on the south side as well as the north side of the river. One of the commissioners stated yesterday that surveys were being taken on both sides of the river and that this proceeding would surely meet with the approval of the Government.

SHAMROCK-MONTREAL.

Considerable Speculation on the Coming Match.

Lacrosse circles and admirers of the manly game are considerably excited over the coming match between the Shamrock and Montreal Lacrosse Clubs, which is to be played on the Shamrock Grounds on Saturday. The friends of the former team are jubilant and think that if the Shamrocks manage to take the first game they will surely win the match. It is believed that the following will be the team which will come to conclusions with the champions: Prior (goal), Cregan, point; Morton, cover point; Duggan, Hart, Canadien, defence field; Devine, centre; Maguire, Heron, Ryan, home field; Reilly, outside home; Hamilton, inside home. The friends of the Shamrocks add much importance to the fact that the games are taking place on their own grounds, and believe that they will be as fortunate as they were when they last played the Montrealers. Betting this morning rather 25 to 10 in favor of the Montrealers. Said a well known lacrosse man to-day: "I am a friend of the Shamrocks, still I would not like to see the Montrealers beaten, as it would endanger their chances for the championship, and would not very materially assist the Shamrocks." Pools will be sold at the Ottawa House to-morrow evening at eight o'clock in the Shamrock-Montreal and Toronto-Cornwall matches.

The Late A. Beach Muir.

We regret having to announce the death this morning, of typhoid fever, of Mr. A. Beach Muir, accountant, of the Henderson Lumber Co., for the last 3 or 4 years. It appears that a short time ago one of Mr. Muir's children was attacked by the fever, from whom both Mr. Muir and his wife took the same disease. Mr. Muir was for some years on the office staff of this paper and was a highly popular and honorable man. He was the son of the late Rev. P. D. Muir, and leaves a wife and four children. His illness was of very slow duration and his end quite sudden and unexpected. His wife and one child are still prostrated with the disease. The funeral will take place tomorrow afternoon at 4 o'clock, from his late residence, 436 Richmond street.

Run Over.

Charles Le Brun, from Quebec, 30 years of age, living on St. Lawrence Main street, was knocked down by a waggon right opposite the Main street market. The wheels passed over his body inflicting serious injuries. He was removed in the ambulance to Notre Dame Hospital, where he received every attention. He lies in a precarious condition.

ANOTHER SHOCK TO-DAY.

All Buildings in Charleston Deserted.

No Kind of Order Possible—Terror of the Negroes at Beaufort, Columbia and Other Places — The Ground Constantly Shaking.

NEW YORK, September 2.—The following from Charleston, S. C., has just been received: "Another shock occurred at 1 a. m. today. Hotels, residences, public places and all business houses are deserted. The inhabitants are all in vacant lots. Although every effort is made to establish some kind of order everything is still in confusion.

A STATE OF TERROR.

BEAUFORT, S. C., September 2.—The negroes of this county are in a state of great terror. They remained in their churches all day yesterday, sobbing and supplicating. They expected a final shock last night, and then the dawn of Judgment Day. No work of any kind is being done. The negroes tread the ground as would blindfolded people. The women in particular are demonstrative, and their cries for mercy and bewailing are simply appalling. Their terror is complete, and weeks will pass before they settle down again.

THE GROUND CONTINUALLY SHAKING.

COLUMBIA, S. C., September 2.—Seven carloads of refugees from Summerville arrived last night. Their homes have been destroyed, and they report the ground continually shaking, that boiling water and mud is spouting up from fissures in the earth and that these crevices are continually widening and threatening the destruction of the entire town. Many colored children have been killed. There is not a habitable house in the town. Mothers and children have not the means to go away, and are suffering the agonies of despair. The refugees left their homes without preparation, and have but little clothing. They are afraid to enter the buildings and remain in the cars.

THE STREETS BLOCKADED.

Advices from Charleston say that all the streets are blockaded. Travel through the *debris* is made on foot with great difficulty and peril, as every moment the walls of buildings are expected to tumble to the earth, and several houses were shaken down by last night's shock. The negroes are holding open air religious exercises. Their shouts are unearthly and their screams and prayers but add to the terror of the white women and children.

OFFERS TO SEND RELIEF.

NEW YORK, September 2.—The main office of the Western Union Telegraph Company in Charleston was badly injured. An office has been opened about a mile and a half from the old one, and two wires have been placed in working order. The Western Union Company announce that they will gladly forward to Charleston any contributions of money for the sufferers and any messages pertaining thereto free of charge.

Prophetic Utterances of Sir William Dawson.

[SPECIAL TO THE STAR.]

LONDON, September 2.—A special cause for interest on this side of the water in the earthquake disturbances has been given by the lecture of Sir William Dawson. It was delivered before any news had arrived in England of the shocks experienced along the Atlantic coast, and his remarks are considered to have been almost prophetic, when he said it was possible that there would soon be, or might even now be, in progress a new settlement of the bed of the Atlantic Ocean, especially on its western side, and that there would possibly be at the same time renewed volcanic activity on the eastern margin of the ocean. Both these things have apparently taken place, and the fact is much talked of as a verification of the computations of scientific investigation.

A PRIEST'S WILL.

How the Late Father Picard Disposes of His Earthly Goods—The Greater Part to Charity and the Church and Some to His Relatives.

The last will and testament of the late Rev. Abbé Picard, P. S. S., has been filed in the tutelle office. The reverend gentleman's love of charity and good works which distinguished him so highly during his life as a priest proved true until the end, and almost all be possessed at the moment of his demise has been left to the needy. The document is dated the 4th of September, 1878, and was written, as the deceased states himself, in the silence of his room and in the presence of God, the Blessed Virgin and the Holy Angels. He then goes on to say:

I, the undersigned, filled with the knowledge of my nothingness and convinced that I will never know how to repay Heaven for so many benefits, the infinite bounty of God bestowed upon me notwithstanding my great ingratitude and my many sins; wishing to acknowledge by an authentic document bearing my last wishes, the fact that God's grace alone aided by the concourse of good example, I constantly had before my eyes and the fervent prayers of the faithful and of our dear and beloved parishioners, might have been the cause of all these benedictions; wishing to save my soul by disposing of all that may belong to me according to my inspiration or grace, I hereby affirm by the present last will and testament that after having recommended my soul to God I wish: 1st. That my remains be interred in the cemetery of Notre Dame des Neiges in the midst of my brethren members of L'Union des Prières; 2nd. That all the books that I have written and which are still in my possession along with others which still belong to me, be disposed of after my portrait has been placed in each of them, on behalf of the good works I will mention hereafter. I have 9000 volumes of the work "*Le Tresor des Ames!*" worth one dollar apiece, and 4000 of "*Consolations pour ceux qui pleurent!*" worth 25 cents each. The products of this sale will be divided into five equal shares, which will be handed over to the Bishop of Montreal, for the new cathedral; the curé of Notre Dame to help to pay the debt caused by the ornamentation of the Church of Notre Dame; the Refuge of Passion; the Little Servants of the poor, and my brother for the education of his children."

To his brother he also bequeaths a house, mortgaged to the extent of $1300, at Coteau St. Louis. He relies on him to keep his sisters should they ever need his aid. He constitutes the Seminary his legitimate legatee to all the shares he possessed in L'Union des Prières, with the exception of those from country parishes, which are to go to the Bishop of Montreal, who will dispose of them as he thinks proper. He gives to the parish priest of Notre Dame a cape, which was made for him by the Grey Nuns, and a mat used by the members of L'Union des Prières, and which he purchased with his own money. He concludes by naming Rev. Abbes Rousselot, Lenoir and Deschamps his testamentary executors.

Renouncing the World.

The following young ladies took the holy habit in the Convent of the Good Shepherd, yesterday: Mlle. Eliana Cadotte, of Montreal, in religion Sister Marie de la Merci; Mlle. Eudoxie Robert, of St. Hubert, in religion Sister Marie de L'Immaculée Conception; Mlle. Marie Louise Denis, of Cedres, in religion Sister Marie de Saint Ephrem; Mlle. Marie Louise Viau, of Montreal, in religion Sister Marie de Saint Luc; Mlle. Philomene Chouinard, of St. Hilarion, in religion Sister Marie de Sainte Rose de Viterbe.

The following entered the novitiate; Mlle. Delia Laflamme, of Upton, in religion Sister Marie du Mont Carmel; Mlle. Almaide Dansereau, of Contrecœur, in religion Sister Marie de Sainte Justine; Mlle. M. McNicoll, of Halifax, in religion Sister Marie de Sainte Chantal; Mlle. Philomene Daoust, of Saint Benoit, in religion Sister Marie de Saint Benoit.

Farmers' Claims Against the C. & Q. Railway.

Messrs. J. B. Resther, Joseph Rielle and F. X. Archambault, the arbitrators appointed to settle the claims of the farmers of Vaudreuil, against the Ontario and Quebec railway, decided yesterday to award Mr. Victor Lalonde, one of the claimants, $3255.90 as compensation. In the cases of Messrs. Malette and Charlebois, the arbitrators did not agree, and the matter was taken *en délibéré* until Saturday.

The Late Mr. Robert Cochrane.

The late Mr. Robert Cochrane, who died recently, was very popular, and much esteemed for his many amiable qualities. He entered the employ of the North British and Mercantile Insurance Company as a boy and remained with them as accountant till the time of his decease, a period of twenty-seven years. He was a faithful and loyal employé, his qualities in this respect deserving especial mention. He was only forty-one years of age and will be very much missed.

THE BULGARIAN SITUATION

Much Improved by the Return of Prince Alexander—A Declaration that the whole Bulgarian Nation Must Belong to Russia.

[SPECIAL TO THE STAR.]

CONSTANTINOPLE, September 2.—A representative of one of the great powers says the Bulgarian situation is much improved owing to the return of Prince Alexander, and the firm attitude of the Bulgarians. Whether Russia has given special assurances to the Sultan or not, he finds the Porte to-day manifesting much less anxiety. The prevalent opinion among the ministers is that the crisis will end without any over tact on the part of Russia endangering the European peace. Russia, seeing the great failure of its *coup d'etat* will not oppose the Prince's reassumption of power for the present, not caring to raise the storm of indignation that the attempt to coerce Bulgaria would revise throughout Europe. The British Government is strongly supporting the Prince.

RUSSIAN AIMS.

ST. PETERSBURG, Sept. 2.—The *Moscow Gazette* declares that the whole Bulgarian nation must belong to Russia. "Bulgaria," it says, "which was created with an outpour of Russian blood, can only exist under Russian protection. Prince Alexander's rights are dependent on how he fulfils his duties to the Czar. The Bulgarians owe allegiance to their prince not to antagonism to Russia, but through Russia."

MONEY FOR THE PRINCE.

LONDON, September 2.—A number of European bankers have offered loans to Prince Alexander.

FATAL ENCOUNTER.

Between Loyal Troops and a Rebel Regiment in Bulgaria—A Number Killed and Wounded on Both Sides.

LONDON, September 2.—The Vienna correspondent of the *Daily News* says: "An encounter has taken place between Col. Mutkoroff's troops and the rebel Kusrendji regiment, near Radomer, and that a large number of men were killed and wounded on both sides.

TRYING TO EFFECT A RECONCILIATION.

BERLIN, September 2.—The Emperor William is trying to effect a reconciliation between the Czar and Prince Alexander.

ALEXANDER'S CLEMENCY.

SOFIA, September 2.—Prince Alexander, being unwilling to suspect his former Ministers has ordered the celebration of Karavaloff and Zankoff. Mgr. Clement and the other conspirators are still in prison.

COUNTER DEMONSTRATIONS.

PHILIPPOPOLIS, September 2.—The city is gaily decorated in honor of the return of Prince Alexander to Bulgaria and crowded with workers come to join the citizens in celebrating the event. An enthusiastic and popular demonstration was held yesterday in front of the British consulate in honor of Prince Alexander, and a counter demonstration in favor of the revolutionists at the same time was held in front of the Russian Consulate.

RUSSIAN OCCUPATION.

ST. PETERSBURG September 2.—Gen. P. Vannoorski, Minister of War, has returned to St. Petersburg. The *Nove Vremy* says Kussia must either occupy Bulgaria and suppress the anarchy prevailing therein and restore order or leave the country to anarchy for an indefinite period. Russia's dignity could never admit the compromise as possible.

GERMANY'S ATTITUDE.

BERLIN, September 2.—The *North German Gazette*, referring to the remarks of the Ultramontane and Liberal press regarding Prince Alexander, says: Germany, unless she forthwith declared war against Russia, could only protest against any further interference with Prince Alexander, or perhaps against Russia taking further steps in the direction of Constantinople. Russia would energetically repel the insinuation of such intentions, and Germany's friendly relations with Russia would be ended. It must be remembered that war would be a logical development of such a situation. Nobody doubts that the ultramontane and Liberal policy is fraught with imminent danger to Germany. One must either stand to the policy of the Government or plunge the Empire into intermanable war. We hear that a commercial convention between Germany and Spain has been signed, and that Bismarck will then be afforded an opportunity to stigmatize before the country the reckless frivolity of the Empire's foes, who attempt to handle its foreign policy."

SIR WILLIAM DAWSON

Delivers the Presidential Address at the Opening of the British Association.

[SPECIAL TO THE STAR.]

LONDON, September 2.—Sir Wm. Dawson, Principal of McGill College, Montreal, delivered the Presidential address before the British Association at Birmingham last evening, dealing mainly with the subject of the geological formation of the bed of the Atlantic and the climatic influences of the distribution of water on the surface of the globe. He favored the theory that the kernel of the earth is solid, but that there is liquid between the kernel and the surface. The crush of the earth, he said, is thicker and stronger than ever, affording a guarantee of its permanence, and the history of the ocean and the continent is an example of the progressive design equally with the history of living beings. The address was listened to attentively by two thousand persons and highly praised.

VIOLET CAMERON AGAIN.

Her Husband Wants a Summons Issued Against Lord Lonsdale.

[SPECIAL TO THE STAR.]

LONDON, September 2.—M. Debensaude, the husband of Violet Cameron, the actress, applied to Bow street Police Court yesterday for a summons against Lord Lonsdale. M. Debensaude wishes to have Lord Lonsdale tried on a charge of causing the publication of a libel against the plaintiff. The libel was printed in the *Topical Times* and gave as the *reasons* for Lord Lonsdale's protection of Miss Cameron certain statements which that lady's husband avers have been hard on him. The court refused to grant the application, taking the ground that the petitioner had not furnished any evidence to show that Lord Lonsdale had any connection with the publication. Mr. Debensaude thereupon gave notice that he would reapply for a summons.

THE PARNELLITES INDIGNANT.

[SPECIAL TO THE STAR.]

LONDON, September 2.—The Parnellites are indignant at the attitude of the Speaker in the debate in the House of Commons last evening. They hint that they will retaliate by prolonging the debate.

CONFERENCE ON SUGAR BOUNTIES.

[SPECIAL TO THE STAR.]

LONDON, September 2.—The Government is making arrangements for an international conference on the question of sugar bounties.

TUG AND BARGES AGROUND.

[SPECIAL TO THE STAR.]

KINGSTON, September 2.—The tug "Thompson," belonging to the Montreal Transportation Company, with two barges for Oswego, are aground at Yorkshire Island. The barges were taken off in a leaking condition. The tug has not been released yet.

THE ANNIVERSARY OF SEDAN.

BERLIN, September 2.—Yesterday was the anniversary of the battle of Sedan. The Emperor William and Empress Augusta reviewed 20,000 troops at Potsdam. The review was witnessed by thousands of spectators. The troops presented a splendid appearance. A banquet was afterwards given at the Schloss. Among the guests was a member of the staff of the Czar.

Dr. A. O. Gervais, of Mignonne street, is petitioning the courts for a separation from his wife. Dame M. F. Perrault.

New York Stocks by DOMINION EXCHANGE & MONK.—Money rules somewhat easier and the bulls are talking more loudly, but it is hardly likely there will be any material advance until the Grand Trunk matter is cleared. The market has been strong all day and more active although outside influence is still wanting. Commission houses are carrying a considerable line of stocks and it would not be surprising if an effort were made to shake out the public before a new movement is started.

COMMERCIAL.

LOCAL.

Business on 'Change was quiet to-day, only one sale of 125 brls. superior extra at $4 07½ was noted; a fair jobbing trade in broken lots is reported outside at prices within range of quotations; a sale of 250 brls. of Manitoba strong bakers' is noted at $4 60; the grain market is quiet and unchanged in values. Wholesale Produce, Provisions, Etc.

CHEESE.—English markets are unchanged at 44s per cwt. for choice. Our market is firm, a few exceptional lots of late July cheese are said to have been taken at 9c, but 8¾ to 8¾c are regarded as outside figures for finest. August make has been sold in the Brockville sections at 9¼c, which seems to be about the basis on which buyers show any disposition to operate. Stocks here are light, the bulk of the dealing being with factory men direct. British mail advices report stocks very light, and enhanced values probable for August makes. We quote: August make, finest, 9 to 9¼c; July finest, 8½ to 8¾c, medium to fine 7½ to 8¼c, and lower grades 6 to 7c.

BUTTER.—There is no material change in the position or tone of the butter market, choice stock in creamery and dairy makes is scarce and commands full prices, low grades are too abundant and very difficult to sale even at very low prices, export demand is quiet. Our market is firm for choice goods, and jobbing lots bring outside quotations. We quote: Creamery, 16 to 20c; Townships, 15 to 19c; Morrisburg and Brockville, 13 to 15½c; Western, 12 to 13c.

SALT FISH.—We quote: Labrador salmon, No. 1, $18; do, No. 2, $12; do, No. 3, $11; do, British Columbia salmon, $11; dry cod, $3 to 3 50; Labrador herrings, per brl, $3 25 to 3 50; lake trout, half-brl, $3 75.

ASHES.—The market is quiet; we quote: Pots, firsts, $3 25 to 3 30; seconds, $3 and pearls, $5 to 5 10 per cwt.

TALLOW.—4½ to 4¾c.

EGGS.—The market is dull and easy; stocks are quite ample for the demand. Fresh laid eggs in case lots bring from 13½ to 14c, and ordinary 13c per doz.

LARD is firm; the local jobbing trade is fairly active. We quote: Fairbanks at 10c, and Canadian 8¾ to 9c in pails.

PORK.—A steady local jobbing trade in small lots is reported at quotations. Hams and bacon are in fair enquiry for retail trade; prices are firm. We quote: Chicago mess pork new, $14 to $14 50; clear short cut, new, $14 50 to $15; smoked hams, 12 to 13c; do canvassed, 12¼ to 14c; breakfast bacon, 10½ to 11c.

FRUITS.—There is a fairly active trade doing, and the market is well supplied with the leading lines of seasonable fruits. Pears and plums are largely in excess of the demand, and difficult of sale. We quote: Apples, new, $2 to $3 per brl; Messina and Palermo lemons, $9 50 to $10 per box; Naples lemons, $10 to $11 per case; yellow bananas, Jamaica, $1 50 to $2; red do, 50c to $1 50 per bunch; dried apples, 5c per lb; Spanish onions, $5 per casg; California grapes, $3 50 per case; Jersey peaches, $2 75 to 3 50 per crate; do, in carriers, $4 to $6; American plums, 75c to $1 25; do, $4 to $4 50 per brl; Canadian do, 70 to 90c per basket; Southern do, grapes, 8c per lb; California Bartlett pears, $6 to 6 50 per box; New York do do, $2 to $2 50 per keg and $4 to $5 per brl; bell pears, $4 to $6 per brl; cocoanuts, $6 per 100; watermelons, 30 to 40c each.
