IS ABSOLUTELY DEPENDENT NOW

Upon United States For Coal Supply Ontario Expert Testifies

Ottawa, April 27.—(By Canadian Press)—From its geographical position Ontario is now absolutely dependent upon the United States for its coal supply, said H. A. Harrington, ex-Fuel Administrator for Ontario before the House Fuel Committee this morning. The Province burns annually 3,000,000 tons of anthracite and 10,000,000 tons of bituminous coal. The United States would, however, be sending less and less anthracite as its mines became exhausted and population increased. The solution of the problem lay not in bringing Canadian coal from the East or West but in the use of peat.

Mr. Harrington declared that despite public apathy due to an abnormally mild winter, the situation was most serious. He urged the fullest possible investigation and education of the people in anthracite coal conservation.

Ontario people had been brought up on the anthracite coal and they refused to use anything else.

The witness thought it was economically impossible to deliver Nova Scotia coal to Ontario unless there was first a development of trade.

He did not believe the western briquetted lignites would appeal to Ontario consumers and favored Federal inspection of all coal brought into Canada.

WATCHMAN ELECTROCUTED

Montreal, April 27—Picking up a charged wire which had fallen in the yards of the Dominion Glass Co., Ltd., 900 Wellington st., of which he is the night watchman, I. Chaput, 55, of 1,179 Wellington street, Verdun, was instantly killed this evening.

The Weather.

Toronto, April 27—A pronounced disturbance which developed in the Upper Mississippi Valley last night, has moved northward, causing gales with rain on the Upper Lakes from Lake Huron eastward. In the Western Provinces the weather has been has been fine and moderately warm.

Maritime — Light to moderate winds, fine and warm.

Superior—Strong winds and gales, shifting to northwesterly, showery.

Manitoba—Northwest winds, mostly fair and cool but a few showers in Eastern portion.

Saskatchewan and Alberta—Fair and moderately warm.

INTERNATIONAL LOAN FLOTATION

Secured On Specific German Assets Finds Supporters In London Financial District

London, April 27—The German proposals are discussed in the financial notes of the London Times, it being declared that the flotation of an international loan secured on specific German assets, such as customs revenues and railways has found supporters in the London financial district where it has been discussed by bankers for some time past.

"Provided such a loan is made on prior lien security, ranking ahead of all existing and future debts," it is added, "little difficulty, it is thought, should be expected in floating a substantial amount in the principal leading countries.

The business community, it is pointed out, is anxious that reparations should not be made in a form harmful to British trade and not in competitive products such as ships, coal, iron and steel, but in complementary and supplementary products.

Editorially, the newspaper bases its observations on information from it's Washington Correspondent that he is satisfied the United States will not transmit the note to the Allies. It says that his decision and action taken upon it" constitute a death blow to the hopes with which Germany played her last card."

"They show once more," continues the paper, "that she has grievously erred in understanding the American mind.

Dr. Simon seems to have shared the delusion of Count Von Bernstorff's understrappers that intrigues and German cunning could deceive and mislead "the idiotic Yankees" at will. In their contempt for American intelligence or American sincerity they have repeated the futile effort to divide the Allies and Associates which they made in October 1918."

AN APPEAL FOR EMERGENCY RELIEF

Winnipeg, Manitoba, April 27.—Emergency relief at the earliest possible date in order to prevent production from falling to so low a level that it may constitute a most dangerous situation not only for the country at large but also for the railways interested, was requested by H. J. Symington, K.C.

On behalf of the Governments of Manitoba and Saskatchewan at the afternoon and concluding session of the Railway Commission today, Mr. Symington declared that never before had similar conditions existed in the West and that farmers' organizations were instructing the farmers to produce only what they could harvest themselves. The farmers, he said, were becoming despondent and urged that something be done to save the situation.

Hon. F. B. Carvell, Chairman of the Board, promised that as soon as the Board got back to Ottawa he would convey Mr. Symington's request to the heads of the various railways and to his colleagues and that it would be given very serious consideration at once. If anything could be done, always remembering that they must remain within the restrictions and obligations imposed upon them by the Railway Law, he, for one, would only be too glad to do all he could do to assist, Mr. Carvell said.

INTERIM PAYMENT OUT OF CANTEEN FUND

Ottawa, Ont., April 27.—(By Can. Press)—The Militia Department announces that information has been received from the Army Council that pending a final settlement of the total amount of the expeditionary force canteens profits available for allocation among the various interests concerned it has been decided to make a further interim payment of $130,000 in respect of the profits due the overseas military forces of Canada.

COMMONS PASSED YESTERDAY TO EXTERNAL DEVELOPMENT AND IMPERIAL RELATIONS

Day Set Aside For Discussion Of Coming Conference Of Premiers—Earnest, Thoughtful Speeches And Close Discussion—King Amendment Lost By Majority Of 32

Ottawa, April 27—(Can. Press)—Parliament passed today to the wider field of external development and imperial relations. It was the day set aside for discussion of the coming London Conference of the Prime Ministers of the Empire, a Conference preliminary to the Imperial Conference proper, of which the date has not yet been fixed. It was a day of earnest, thoughtful speeches and of discussion closely followed by a well attended House and well filled galleries.

Appropriately, the debate was opened by Sir Robert Borden. Sir Robert traced Imperial development from the days of the Georges when Government was not responsible to Parliament and Parliament was not responsible to the people. Today Great Britain would hesitate to engage in any war if public opinion in Canada and Australia were against her so doing and Sir Robert emphasized that any important constitutional change must have behind it the weight of public opinion.

Hon. W. L. MacKenzie King, Leader of the Opposition, who followed, raised an issue which brought protests from the Government side of the House. In amendment to the supply motion (which gave opportunity for the discussion), Mr. King moved that no step should be taken at the Conference in any way involving any change in the relations of Canada to other portions of the Empire; and that in view of the present fiscal position of Canada no action should be taken implying any obligations on the part of Canada to undertake new expenditures for naval or military purposes."

Mr. King explained that his motion was not intended as one of non-confidence. It was simply to make clear the Prime Minister's authority in attending the Conference. The Prime Minister warmly replied that an amendment to a motion to go into supply was prima facie a motion of non-confidence. Much more so was it when it sought to manacle representatives of the country.

Won't Map Out Course

He believed that Parliament would take a false step if it should map out in advance the course of action to be followed by its representatives. If such action were to be taken by the other Dominions and carried to its logical conclusion it would be the first step towards maintaining the consultive principle of no value.

In closing, the Prime Minister stated he would welcome suggestions from the House, but he asked that no effort be made to tie the hands of the Canadian representatives.

Nothing of a final, binding nature would or could be done at the Conference. It was merely a consultative, not an executive, body. No step could be taken which would be binding on Canada without the ratification of the Canadian Parliament.

Hon. Rodolphe Lemieux emphasized the importance of our relations with the other Country, but expressed the opinion that these Conferences were much more academic than practical. It was a good thing, however, that these Conferences should be held from time to time as they demonstrated to the world the moral power of the British Empire.

When all sham had been removed from the Conference, Mr. Lemieux went on, it would be found that the main object of it was to discuss defence matters both on land on sea. The Prime Minister could not commit Canada to any expenditure in this matter. It was not time to talk armament while there were bread lines in Canadian cities. Financial matters and appeals to the Privy Council might be desired, also the question of immigration.

Canadian Governor General

Mr. Lemieux declared that in Ontario there was much talk of having a Canadian as the next Governor-General, and the name of the ex-Prime Minister had been mentioned. His advice, in colsing, was to let well enough alone for the present and not do any thing which would in any way jeopardize the relations which bound the colonies to the Mother Country.

Hon. N. T. Rowell made a plea that the Canadian representatives should be sent to the Conference with an undivided Parliament behind them. In the past Canada had been most creditably represented by her Prime Minister and he was satisfied that the present Prime Minister would do his part at the Conference just as creditably as his predecessors. There was no real decision in the House on the question of the Conference and he hoped that the Leader of the Opposition would not create the appearance of a division by pressing his resolution to a vote.

"I believe", urged Mr. Rowell, "that it is the bounden duty of the Government of Canada to use every honest effort to see that a worldwide agreement for the limitation of armaments is secured". He held the opinion that the Anglo-Japanese treaty should not be removed because of opposition to it in the United States.

Dr. Michael Clark, (Red Deer) rose to express the views of the Progressive group. The Progressives had nothing to do with the proposed Conference or with the amendment of the Opposition Leader. In a recent statement the Prime Minister had intimated that the Conference was merely of a preliminary nature it appeared very doubtful whether the Conference should be held at all.

Following the recent tremendous events in Europe, men's minds were in such a state of flux that the value of a Conference was very questionable.

Let Premier Remain Home

The Prime Minister could be better employed if he stayed at home. There were grave doubts as to whether the present British Government truly represented the people of the United Kingdom, but there were still graver doubts as to whether the Canadian Government represented opinion in Canada. It was certain that if the people of Canada were asked they would tell Mr. Meighen to stay at home. This was also true of Mr. Hughes, of Australia, while Lloyd George could find sufficient to occupy his time without attending a Conference.

The amendment was in harmony with the view of a majority of the people and was framed to make for peace, progress and prosperity. The Prime Minister would do well to study it and to allow its principle to permeate his being. Canada could afford to take a rest in the matter of armament and artificial Empire. Supporters of the amendment took the view that they were satisfied with the Empire as it was and that world wanted less armament and more industrial expansion.

Sir George E. Foster, Minister of Trade and Comerce, said that it was useless to make a drive against the Conference when the Mother Country and the other Dominions had decided that it would be held. Canada must be prepared to say that the Conference would go on.

He urged the Leader of the Opposition to withdraw his motion. Ernest Lapointe (Quebec East) said he had no objections to the holding of a Conference, although he was inclined to believe with Dr. Clark that arrangements might have been made for next year's constitutional conference by correspondence. To that conference he thought it might be a good idea perhaps to invite representatives of the various political groups. The constitutional conference should not be held before a general election and he would be glad to see the present Premier there as Leader of the Opposition.

With reference to the Anglo-Japanese Alliance, Mr Lapointe did not see why it was necessary to send Canadian representatives to London to discuss this matter with the British representatives. All that was necessary was to see that a clause was inserted in the new Treaty to the effect that it should not be binding upon Canada until ratified by the Canadian Parliament. He was not sure that Canada should agree to a Treaty which might involve her, in common with the rest of the British Empire, in a war against the United States as an ally of Japan.

Debate continued until half an hour after midnight, when the House divided on Mr. King's amendment. It was defeated by 96 to 64, a Government majority of 32. Eight Progressives present voted with the Opposition. Four cross benchers, Messrs. Andrews (Winnipeg Center) Gauthier (St. Hyacinthe - Rouville); Davis (Neepawa) and Campbell (Nelson) voted with the Government. The main motion to resolve into Committee of Supply was then carried with public works estimates were considered.

The item considered was $598,510 for salaries and $85,00 for contingencies. The committee reported progress and the House adjourned at 1-10 a.m.

King's Motion.

In the House of Commons this afternoon Hon. W. L. Mackenzie-King Leader of the Opposition moved the following resolution on respecting the coming London conferences of overseas Premiers.

"The House, while recognizing the propriety of Canada being represented at any Imperial conference or conference of the Prime Ministers of the Empire that may be called, desires to record its opinion that at the coming conference no step should be taken in any way involving in any change in the relations of Canada to the other parts of the Empire and that in view of the financial position of Canada no action should be taken implying any obligation on the part of Canada to undertake new expenditures for naval or military purposes."

The motion was seconded by Hon. W. S. Fielding.

NEW BRUNSWICK CHILD WELFARE ASSOCIATION

Fredericton, N.B., April 27.—The New Brunswick Child Welfare Association was formed here this afternoon, at a public meeting held in the Fraser Memorial Hall. Dr. Helen McMurchie of Ottawa, Chief of the Child Welfare Division of the Federal Health Department, who was the chief speaker at the meeting congratulated New Brunswick upon being the first Province of Canada to form a Provincial Child Welfare Association.

GET READY FOR TWELVE HOUR DAY

German Workman Will Have To Become Reconciled To Long Working Hours

Berlin, April 27—The German workingman will have to become reconciled to a twelve-hour day if the economic obligations involved in the German counter-proposals are to be redeemed, says The Red Flag, the Communist organ today, which estimates that the working hours for fifteen million workers will be increased by one-third, or more, if the nation is to raise six billion gold marks annually.

While the political writers are optimistic in their appraisal of the prospective outcome of the appeal of the Foreign Minister, Dr. Simons, to President Harding, the financial writers, looking further ahead, take an extremely gloomy view of Germany's ability to carry the self-imposed burden.

The total present Bourse value of the shares of German industrial corporations is estimated by the Vossische Zeitung at eight billion marks, thus representing only a fraction of the amount named in the counter-proposals.

The annual payments on the German offer, the newspaper states, exceed the present total income-tax revenue.

Just what will be the state of Germany's finances in the event that Germany's offer is accepted can only be conjectured, said a leading banker today. He called attention to the present state of the National Exchequer, which is struggling with a current deficit of eighty billion marks and an unconsolidated national debt of 160 billion marks, to which must be added eighty billion marks in unredeemed war loans and an equal amount of paper currency.

The banker declared the Entente statement must proceed cautiously when prescribing the manner in which the German counter-proposals should be carried out, if accepted, in order to prevent Germany from lapsing into the partial state of anarchy prevalent in Austria.

Industrial centres are inclined to view the proposals as "a political offer" whose authors did not take the trouble to inform themselves of its ultimate feasibility.

DELEGATION OF DRYGOODS MEN

From Canada And States Welcomed By British Drapers At Southampton

London, April 27.—A delegation of drygoods merchants from Canada and the United States arrived at Southampton today aboard the steamer Olympic. They were met by a reception committee of British drapers who cordially welcomed the visitors and escorted them to London, where they will remain until May 5, when they will begin an extensive tour of the provinces.

The visiting merchants will be the recipients of constant round of luncheons, dinners and visits during the six weeks of their inspection of British drygoods industries, factories and related business. They will be entertained in London by the Government, the Lord Mayor, Lady Astor and a host of others before their departure for the provincial cities.

The Canadian delegates referred to in the above despatch include Mr. and Mrs. J. C. Chesney, Mr. Theodore Morgan and Mrs. A. J. Dugal, of Montreal. They are scheduled to deliver a number of addresses during the tour.

SELF-CONSTRAINT AND DIGNITY ARE URGED

Upon People Of Japan In Discussing Yap And Shantung Questions

Tokio, April 27.—Self-constraint and dignity were urged upon the peopl of Japan in their discussions of the Yap and Shantung questions by Baron Tanetaro Megata, head of the Japanese delegation at the Geneva meeting of the Assembly of the League of Nations, who arrived here today. He declared the settlement of these questions was complicated by "sensational publicity" adding he was convinced the extreme United States press was "largely influenced by propagandists."

Baron Megata who came to Japan from Europe by way of the United States, said he was impressed by the evidence of good will and friendship toward Japan that had been shown throughout the United States during his journey across that country.

Steamer Clearance, April 27: Dama Quah from Rotterdam for Halifax.

SHAREHOLDERS DISAPPOINTED

Management Refused To Put International Paper Common On Dividend Basis

Corinth, N.Y., April 27—(By Can. Press)—Interests in International Paper Company which sought to prevail upon the Management to establish the common stock on the divident basis were disappointed at the annual meeting here today. Philip E. Dodge, President, intimated, however, that the proposal would be considered.

The directors were re-elected with the exception of A. M. Burbank, who was succeeded by Herman Elsas. Directors re-elected were Ogden Reid, P. P. Jennings, F. N. B. Close and C. W. Lyman.

Commenting on the possibility of dividends on the common stock, Mr. Dodge said he wished to go on record as saying that the present Management did not wish to ignore the claims of the common stock holders and was not opposed to a dividend on the junior issue, but until it was considered safe to divert money now necessary for improvements and extensions, no dividend could be paid on the common.

M. G. Chace, representing the Minority stock holders, said he thought he and his assistants should have a representative on the Board of Directors and to know how the affairs of the company were conducted. Mr. Dodge replied that each of the Directors, with the exception of Mr. Reid, who represented newspaper interests, was a specialist, having charge of some department of the company or in some other capacity.

Mr. Chace intimated that his claim would be pressed again in the near future.

FOUR EXECUTIONS IN CORK THIS MORNING

Men Convicted Of Levying War Against British Crown Forces

Cork, April, 27.—Four men are to be shot to-morrow morning at the military barracks here. They are Patrick O'Sullivan, Maurice Moore, Patrick Ronayne and Thomas Muicahy.

The men were convicted of levying war against the British Crown forces.

The Corporation and the Harbor Board of Cork has passed a resolution saying that as the British High Court in Ireland and the British Ministry recognize the state of war exisiting, the executions will contrvene civilized warfare and the dictates of common humanity.

Copies of the resolution have been sent to the United States President and Pope Benedict.

G. SEIFERT & SONS,

DENUNCIATION OF BLUE LAWS

Delivered By American Consul General Before Montreal Women's Club

Montreal, Que., April 27—A vigorous denunciation of the "blue laws" in the United States was the keynote of an address delivered by Albert Halstead, the American Consul-General, before the American Women's Club this morning. "In New York" said Mr. Halstead, "a woman with a rouged and painted face may be arrested under the Statutes." The jails are not large enough to hold all the women who are liable to arrest for that reason. Some states have laws regulating the height of women's heels, and I believe some cities have ordinances dealing with so-called peek-a-boo waists and transparent stockings. Many puritanical legislators would lengthen women's dresses. Several States, I believe, prohibit the smoking of cigarettes. There is a disposition to make the same kind of a war on nicotine as was made on liquor. Laws to make Sunday a day of terror instead of a day of happiness are also proposed, and life is threatened with being made unendurable. That is so far as as statutory provisions are concerned. I am not criticizing the 18th amendment providing for whether a non-enforcable law or a law that is opposed by a majority of the public is not worse than the condition it seeks to cure. Whatever may be the final results the first effects seem to have bred a disrespect for the laws amongst those who have every reason to be law abiding.

A SETTLEMENT MORE LIKELY

Government Has Made Another Concession To Miners In Coal Strike

London, April 27.—A settlement of the coal strike tonight appeared more likely than at any time since the men laid down their tools. The Government during the day made another concession, further narrowing the gulf between the miners and the mine owners by proposing a State grant for a transitional period of three or four months, under which the miners would be insured against their wages being reduced more than three shillings per day.

The mine owners have not yet agreed to this plan but both they and the Government will consider the new situation further tomorrow and the hope was expressed tonight that an agreeable basis will be arranged between them for presentation to the miners' conference Thursday evening. As the miners already have agreed to a two shilling reduction it is considered that there are good prospects the coming week will see a settlement of the dispute.

GERMAN GOODS ON BRITISH MARKETS

Washington, April 27—Unemployment in England is increasing at an alarming rate" consular despatches reported today. Birmingham, where more than 100,000 persons are idle, was cited as typical, with an increase of 6,0000 per week during the last three weeks. An unprececented volume of German goods is being dumped on the British market, the messages said.

BIG IMPORT OF GATHERING

World Advertising Convention To Meet In Atlanta During June

Atlanta., Ga., April 27—The program headlines for the World Advertising Convention to meet here, June 12 to 16, are announced in a bulletin from the New York headquarters, and they indicate, in no uncertain way, the tremendous import of this great gathering. The keynote will be struck by an opening address, Sunday afternoon, on Business Morality—the Cornerstone of Prosperity, for Irvin P. Paschall, Chairman of the Associated Advertising Clubs' Program Committee, recognizes that business needs, today, primarily, a fresh grip on the old-fashioned virtues of honesty and square dealing.

On Monday morning, the business of the Convention will start off with the Let's Go Session, the session in which world leaders in business and advertising fields, will contribute their best thought on the outstanding problem of the present time—how to get business moving, and how to get it moving toward Permanent Prosperity. Advertising can play a part in this "back of normalcy" period, second to no other educational or business force, and how to help it fulfill this opportunity, will be the function of this first general session.

A new feature of these conventions will be introduced on the first day, when four conferences are scheduled, open to official delegates only, for the purpose of laying plans—and framing a program—for larger and better service in all branches of Associated Advertising Clubs activity.

On the second and third days, there will be department nd interdepartment sessions, conducted, separately, by each of the twenty odd advertising organizations affiliated with the A.A.C. of W. These meetings will represent, respectively, the retail, general, national and export advertiser, as well as all classes of advertising media comprised in the Association's membership.

What promises to be the greatest display of American and foreign advertising yet assembled at these Conventions, has been arranged for Tuesday evening, June 14, by Charles H. Mackintosh, Chairman of the Association's Exhibit and Educational Committees. Mr. Mackintosh, the bulletin states, will gather for this Exhibit the best products of advertising skill not only in America, but from all leading countries of Europe South America, and the Orient.

At the second big general session, scheduled for the closing day of the Convention and called, aptly, the "How It Works" Session, the Service of Advertising, and the Power of Honest Advertising to Build Business, will be dealt with in addresses full of vital information not only to advertising professionals, but to all business men and women interested in learning the way to Better Profits.

The Convention will close on Thursday afternoon with an open session devoted to Association business including the election of officers and the ratification of the 1922 Convention City.

Non-members are welcome to enjoy the benefits of this Convention on equal terms with members. All business men and women are invited. The railroads have granted a special rate of a fare and a half for the round trip to Atlanta, and identification certificates therefor may be secured from the Atlanta Advertising Club, or from P. S. Flores, General Manager, 110 West 40th St., New York.

WEAK AND MISERABLE

Describes the Condition of People With Thin, Watery Blood.

Thin-blooded people experience a form of fatigue which robs them of strength to get about and deprives them of restful sleep. This fatigue is not to be confused with the healthy reaction which follows a day of work and is relieved by sound slumber.

The fatigue which accompanies an anemic or thin-blooded condition robs women of beauty, for it causes their color to fade and leaves the face haggard and drawn. In addition to a feeling of exhaustion there is generally nervousness, headache, a loss of appetite and dizziness. These symptoms indicate the need of a tonic, and the best tonic for enriching the blood is the one taken by Mrs. C. R. Taylor, Bass River, N.S., who says: "I was so run down and miserable that I was completely discouraged. I was so short of breath that at the least exertion I would have to sit down and rest. I often had headaches, and my appetite was poor and sleep disturbed. A friend recommended Dr. Williams' Pink Pills, and I have reasons to be grateful that I followed the advice. I continued using the pills until I had taken ten or twelve boxes, and I can truthfully say they have made me feel like a new woman and I know in my case they have done all that is claimed for them."

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co, Brockville, Ont.

SOLDIERS BUY LAND.

Victoria April27—At the first sale of irrigated and governement improved land in the Osoyoos district, British Columbia, twenty-three parcels, each containing from ten to twenty acres of irrigated land in the South Okanagan irrigated project were purchased by returned soldiers. A total of $71,668 was paid for their purchases.

MAY VISIT CAT.

San Francisco, April 27.—Mrs. H. La Haye has received a divorce decree here which grants her $1,000 adimony and the custody of a cat 9 years old. Under the decree La Haye is permitted to visit the cat, which must be kept in California.

ASPIRIN

Only "Bayer" is Genuine

say BAYER

Warning! Take no chances with substitues for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

DECENTRALIZATION IN MANUFACTURE

British Manufacturers Considered Advisability Of Establishing Branches Abroad

Toronto, April 27—A discussion of direct interest to Canada and to Canadian industry has recently developed among British manufacturers—the advisability of establishing branch works abroad as the more effective means of handling the trade offering in distant parts. The London Statist, reviewing the situation, points out that in the main the British manufacturers incline to the belief that, except in certain lines, where competition is very keen, better results would be obtained by following the usual course of shipping manufactured articles from the United Kingdom. It is pointed out that the opposite view appears to be favored in America and on the continent. Illustrating the movement some particulars from the experiences of Ontario in this regard are cited.

The year 1919, it is pointed out, was notable for the number of inquiries made by United States companies with a view to the proposed establishment of branch factories. The industrial commission of an Ontario city in close proximity to the United States was in correspondence as to this matter in November, 1919, with over a hundred United States firms. In many cases a decision was made to erect such works, and construction was begun. The character of these enterprises varied from small assembling plants to large factories employing several thousand hands.

The report proceeds as follows:

In establishing industries in Canada the United States promoters explain their action by the fact that they are thereby placed in a position to handle the Canadian market at close range and to receive the benefits accruing from any special trade arrangements made for the units of the British Empire—such as, for example, the Imperial Preference arrangement. In addition, they are enabled to handle the export orders received by the parent company in the United States for shipment to the United Kingdom and other parts in the British Empire.

Data gathered in January, 1914, showed that there were 388 manufacturing works in Canada connected with similar concerns in the United States. The total investment was estimated at $264,939,592. In the case of seventy-six of the companies the actual paid-up capital has been obtained, being $51,895,350, an average of $682,834. The seventy-six for which the capitalisation has been obtained are fairly representative of the whole list, and this average has been used in estimating the total investment in all works. In 1914 the estimated number of plants was 450 and the total investment $135,000,000, an average of $300,000. A considerable number of branches then included constituted, however, mere distributing agencies. Some of the concerns previously included have since 1914 passed entirely into the hands of Canadians, and these have also been eliminated; while they, generally speaking, manufacture lines in Canada similar to those manufactured in the United States by the company or companies which originally established them, they no longer represent the investment of any great amount of United State capital in Canada.

Obviously, before entertaining the idea of investing capital in an overseas factory, the project will need to be carefully examined, not only from the economic, but also the political, point of view. A close connection with a market unhindered by tariff walls or other considerations is very desirable, but this may be insufficient to offset the economies in manufacture resulting from large-scale production in the United Kingdom. Should wages here fail to be adjusted to the level of a lower cost of living, an additional inducement will be held out to seek the co-operation of outside labour in catering for the needs of an outside market.

NEW BUILDING GRAFT DISCOVERED

Chicago, April 27.—A new type of graft in connection with building was brought to light recently by the committee which is investigating the building situation in Chicago. The proprietor of a North side residential hotel told the commission that after paying large sums in graft during the construction of his hotel he had to pay a sum to the waiters union. "The business agent came to me and said that the dishes I had bought could not be used by Union waiters because they were not union made", the hotel owner said. "He explained however that for a certain sum of money he could instruct the waiters that they could use the non-union made dishes. I paid him and everything was all right."

QUEBEC, THURSDAY, APRIL 28, 1921.

REPARATIONS COMMISSION HAS FIXED SUM OF TOTAL DAMAGES DUE BY GERMANY

One Hundred And Thirty Two Billion Gold Marks Is Figure—German Counter Proposals Characterized As Step Backwards—No Promise Of Satisfactory Settlement

Paris, April 27—The Reparations Commission has fixed 132 billion gold marks as the total damages for which reparation is due by Germany under Article 233, second paragraph, and Annex one, part eight, of the Treaty of Versailles.

The Commission's decision was officially communicated to Dr. Von Oertzen of the German War Burdens Commission to-night.

The action of the Reparations Commission is in accordance with the provisions in the treaty that the findings of the Commission as to the amount of damage done to the civilian populations of the Allied and Associated powers and to their property during the period of the belligerency of each ,must be notified to the German Government on or before May 1, 1921.

According to the treaty, Germany undertakes to meet this obligation. Included in the various categories for which compensation is demanded are damages for from bombardments, cruelty, violence or maltreatment, all pensions to the naval and military victims. The cost of assistance by the Allied to the prisoners of war and their families and dependents, allowance for similar purposes and all levies, fines and other exactions imposed by Germany and her Allies upon civilian populations.

Eyes On Washington

The German counter proposals are characterized by Government officials as a step backward, and are declared to give no promise of a satisfactory settlement. All eyes are now turned on Washington, where the counter proposals are under advisement, but no new fact had developed there up to midnight to change the situation as far as it concerns the attitude of France.

The general feeling is that occupation of the Ruhr is unavoidable, but it is believed in some circles barely possible that in some way the Berlin Government may be made to understand, through Washington, the gravity of the situation and the essential fact that no proposal can be considered by the French Government unless based upon the Paris Conference.

Proposal Unacceptable

Jean Jules Jusseraud, French Ambassador to the United States, has been informed by the French Government that the German reparations proposals, as transmitted to the Washington Government, are absolutely unacceptable.

The French point of view is that the proposals, instead of making any advance toward a satisfactory settlement of the reparations question, are rather a step backward.

It is pointed out in official circles that the Germans in their proposals are precise in their demands and extremely vague in their offers, and that what they propose would yield to France only one third of the French reparations claims and that only conditionally.

German Demands

The Germans, on the other hand demand:

First—Release of all pledges held by the Allies in the way of occupation or claims upon German property abroad;

Second—That Upper Silesia shall remain German territory;

Third—Release from all the cost of the military occupation of the Rhineland as well as the evacuation of other German territory. This amounts, according to the French view, to giving up all guarantees without any alternative security or definite assurance even that the promised amount will be paid.

The semi-official Temps in a full analysis of the German offer, concludes: "This analysis is beyond comment."

Very much below the terms of the Paris agreement, without precision as to true values and maturities and bound up with reservations that would upset the treaty and deprive the Allies of nearly all their guarantees, the proposals cannot constitute a basis of division.

They fully justify the firm words M. Briand spoke yesterday before he had knowledge of the proposals and they only intensify throughout all France the determination of the Allies to back German rulers sense."

The German Embassy here has issued a lengthy explanatory statement regarding Germany's reparations offer. It claims that the difference between the sum offered in Berlin's last proposal of two hundred billion gold marks and the 226 billion gold marks under the Paris terms "is but small". The statement also says with regard to the conditions relating to the suppression of penalties that "it apparently means" the penalties decided upon at the London Conference should be cancelled, but certainly not that the territories occupied by virtue of the peace treaty should be evacuated."

Clumsy Re-Hash

London, April 28—Germany's reparations proposals were not at first understood in British official circles, declared the late edition of the Daily Mail this morning, and the newspaper asserted that after they were examined it was seen "they are nothing more than a clumsy re-hash of the German offer made here on March 1, and as such are not acceptable".

In an earlier edition, the newspaper had asserted the British Government had taken the attitude that the German note "deserved examination."

The German Labor leaders' Peter Grassman, Wilhelm Dittman, Otto Hue and Herr Silberschmidt have left Berlin for London for the purpose of discussing questions regarding reparations and reconstruction of the devastated areas of France with British Labor leaders and politicians, says the Central News Amsterdam correspondent today.

Belgian Opinion

Brussels, April 27—The German counter proposals with regard to reparations were declared in political circles here today to be entirely inacceptable. It was pointed out the new proposals did not differ materially from those submitted by the Germans at the London Conference.

Still Unadvised

Washington, April 27—The United States Government to-night was still without any official information as to attitude of the Allied Powers with respect to Germany's counter proposals on reparations. Consequently a reply to the communication received from Berlin yesterday was not prepared.

As only three days remain before the date set by the French Government for beginning of its move into additional German territory it is expected that a reply to the German communication will not be long delayed.

President Harding left Washington today on the Yacht Mayflower for Hampton Roads to be absent until Friday, but it is not thought likely that this will serve to delay the United States answer, as it is understood that the Administration's plans were agreed upon at the session of the Cabinet Tuesday. Should there be any unforeseen developments in the situation, the President could be communicated with readily by radio.

MANUFACTURERS HELP EACH OTHER

Thirteen Groups Brought Under Investigation At Legislative Inquiry In N.Y.

New York, N.Y., April 27.—Thirteen groups of manufacturers spread over the United States were brought under investigation today at the legislative building trust enquiry.

The committee heard testimony that the manufacturers exchange price lists, operate secret codes for informing one another of their business operations from day to day and in come instances compare bids on each piece of work before forwarding a final quotation to the prospective buyer.

The thirteen organizations declared to be conducting these exchanges are grouped according to products and include manufacturers of cloth, paper, ammonia, brass, copper, fine cotton goods, meters, napthaline, natural gas, appliances, range, boilers, steel lockers, steel sashes and pipe valves.

Earlier in the day the committee was informed that there is no such thing as free competition in the fire insurance business of the United States.

CONSERVATIVES ACTIVE IN SASKATCHEWAN

Regina, Sask., April 27—Withdrawal of Donald McLean, K.C., of Saskatoon, from the leadership of the party in Saskatchewan and a decision to contest many of the seats in the next Provincial election, are the principal features of the Conservative Provincial Convention here today. Mr. McLean has led the Opposition since 1917. Nominees for the next election will run as straight "National Liberal and Conservative" candidates it was announced.

HON. J. A. TESSIER AT SHERBROOKE

Promises Immediate Construction Of Magog Section Of Montreal Highway

Sherbrooke, Que. April 27.-Speaking at the eleventh annual meeting of the Sherbrooke Automobile Association this evening, the Hon. J. A. Tessier, Minister of Roads for the Province of Quebec, re-affirmed the statements made recently by the Provincial Prime Minister insofar as the construction of the Sherbrooke-Montreal Highway was concerned. The Minister of Roads went even further and declared that having gone over the road this very afternoon, he was prepared to strongly urge the immediate construction of that part of the road between the Sherbrooke limits and Magog. The Cabinet meets in Quebec to-morrow evening and the matter will be brought up during the course of the session. When supported by the Minister of Roads it will probably meet with unanimous approval. This concession is much appreciated by the citizens of Sherbrooke and the Hon. Mr. Tessier's statement was received with deafening applause. Figures submitted by the speaker showed that while in 1919 over 17,000 automobile tourists and strangers visited the Province of Quebec the 1920 figures showed an increase of 13,000 while it was estimated that for the year 1921, in excess of 50,000 tourists and strangers would visit the Province. This, it was claimed is largely due to the improvement in good roads and the energetic policy being pursued by the Government.

The Minister of Roads paid a high tribute to the valuable assistance given his Department by the different Automobile Associations through out the Province.

Commenting on the difficulty of promoting interest in good roads in the years 1911 and 1912, it was pointed out that the present year had shown such a reversal of opinion that while in the former years it was difficult to get the different municipalities to accept money the present period found applications for grants amounting to in excess of $12,600,000, whereas, only $4,000,000 had been allotted to the Roads Department to cover their full requirements. Since 1912 the Province of Quebec had spent $30,000,000 for the improvement of roads within the Province without taking into account the ordinary budget requirements of the Roads Department. In spite of this enormous outlay the Province was never in a more prosperous condition, and, remarked the Minister of Roads, an important feature in this connection is the fact that this total amount of $30,000,000 has been spent within the Province. Last year more than $8,000,000 was derived directly as a result of the good roads policy. The Hon. Mr. Tessier advised that it was the determined intention of the Government to proceed with the construction of the Montreal-Shenbrooke Highway in 1918, but the necessity of acceding to the requirements of the Federal law delayed the work.

The speaker took this opportunity of emphasizing the fact that perfect harmony characterized all dealings with the Federal Commission for roads and that the Provincial and Federal Officers agreed on every point. Another reason for delaying the work last year was the enormous cost of supplies and labor. Contract work was practically impossible and the Provincial Government had obtained permission from the Federal Government to build the road by day labor. The Government expected to be able to construct the different roads this year at a cost of anywhere from a quarter to a half of the cost of last year's figures.

The final remarks of the Minister of Roads to the effect that the construction of the road between Sherbrooke and Magog would be commenced at once was loudly cheered.

Other prominent speakers of the evening includes Judge D. W. Steele of St. Albans, Vermont, President of the International Automobile League, and the Hon. H. Bates, Highway Commissioner for the State of Vermont.

APPLICATION CAUSE OF MILD SENSATION

Bathurst Light & Power Co. Sought For Permission To Reduce Rates

St. John, N.B., April 27—A mild sensation was caused at a session of the New Brunswick Public Utilities Commission here this morning when an application was presented by the Bathurst Electric Light and Power Company for permission to reduce rates and asking the Board to approve a schedule submitted. An order was made returnable here on May 25th when the application will be considered. H. C. Ramsay appeared for the Company. This is the first application for reduced rates that has been presented to the Commission for some time.

An application from the Caleds Water and Power Co., Ltd., for permission to increase some rates was presented. Hearing was set for May 26 at St. Stephens.

ANOTHER M.P. ILL

Chatham, N.B., April 27—W. S. Loggie, M.P., for Northumberland, is seriously ill from pnuemonia. Members of his family have been called home.

UNDERWRITERS ARE SUSPICIOUS

Cases Of Ships Being Lost At Sea Have Become Numerous Lately

London, April 27—The cases of Ships being lost at sea have become so numerous in the past four or five months that the Marine Insurance agencies here are instituting investigations into the circumstances of these 'Disasters". These cover some cases in which the full claims have already been paid. In other cases they have resulted in the holding up of insurance payments pending inquiry while still other cases, it is declared in insurance circles, likely will end in criminal proceedings. The most suspicious circumstances attending many recent sinkings, the underwriters declare have been their almost unfailing occurrence within safe reach of land. In underwriting circles it has become a common remark that never have so many lost ships been known with so little loss of life. The Spanish and Portuguese coasts and the Mediterranean have been the scenes of the majority recent deathless sinkings.

Another curious fact noted by the underwriters is the frequency of losses of ships and cargoes just three or four days before the expiration of insurance policies on high war time valuations.

These valuations were made when shipping was in great demand for wartime or the flourishing post-bellum traffic and consequently, was at the peak of the long sustained high market. With the coming of world trade, depression, however, shipping values took a corresponding slump and the underwriters refused to continue the assumption of risks at artifically high valuations.

It was shortly after the inauguration of this policy, insurance men say, that the wave of mysterious losses began. In many cases the explanation of the captain of a lost ship has been "sunk by striking a mine", but this explanation now is failing to satisfy the underwriters who have the Admiralty's assurance that virtually no live mines are jeopardizing the sea, owing to the zealous sweeping operations recently concluded.

GERALD H. BRUCE ON TRIAL IN MONTREAL

Two People Owed Firm Money, According To The Books, Showed Yesterday

Montreal, April 27—The outstanding evidence today at the trial of Gerald H. Bruce was that in the case of W. F. Alloway, a client of the firm who was shown in examination of the books, to be owing the firm money and at a time when the account was in debit, said Mr. Oswald, cheques were paid out to Alloway. The checking of the accounts was left over today for further evidence at the trial.

He was shown in the books, indebted to the firm of Oswald Brothers for $70,000 but stated that he knew nothing of it until after liquidation of the firm. Another witness was F. Bierann, President of the Belgo-Canadian Pulp Company who deposed to having paid for $60,000 worth of Victory bonds; 100 shares of Riordon and 100 shares of Price Brothers and who had never received his his stock or bonds.

When Oswald Bros. went bankrupt the defunct firm owed him at failure $183,000.

The trial will be continued to-morrow.

CLOSER RELATIONS ARE NOW BEING SOUGHT

By Nationalist Assembly At Angora Between Turks And Soviet Russia

Constantinople, April 27.—Closer relations between the Turkish Nationalist Government and Soviet Russia are being sought by the Nationalist Assembly at Angora, which has conferred broad powers on a delegate who will be sent to Moscow. Bolshevik agents in Angora are declared to be opposing a reconciliation between the Constantinople and Angora administrations and they seem to have succeeded thus far.

Conventions which were concluded with the French and Italian Governments by Bakir Samy Bey, Nationalist Foreign Minister, have encountered sharp opposition in the National Assembly where the extremists hold complete power as a result of the defeat of Greeks at Eski-Shehr.

VIVIANI RETURNED TO PARIS YESTERDAY

Paris, April 27—M. Viviani returned to Paris today from his mission to the United States. His reception covered somewhat of a triumphal procession. He was greeted at Havre by Government officials, who accompanied him here. In Paris, his friends and other officials had prepared an elaborate reception, and great crowds cheered him.

He was confident and cheerful over what he had accomplished, but deferred discussion of the results of his mission, until after he had conferred with Premier Briand.

QUEBEC POLICE ASK ARBITRATION

Make First Application Under Galipeault Act — City Refused Wage Increase

The first appeal for arbitration under the Galipeault Act which declares lockouts and strikes in municipal public services over wages disputes and other matters illegal, was made yesterday when the National Union of Employees of the Quebec Police Department sent in an application to the Hon. A. Galipeault, Minister of Public Works and Labor, for the creation of a board of arbitration under the act in question.

Some time ago the Policemen's Union applied to the City for a wage increase of 25 per cent. The police at the present time are paid the following scale: $17.50—$19.50—$21.50—Sergeants: $25.00.

When the request was received by the Police Committee it was laid on the table and the City in turn offered the policemen a pension which after some consideration was rejected by the men who persisted in their original request for a wage increase.

Later the city expressed its determination not to grant any increases whatsoever to any employees, whether of the interior or exterior service. Matters hung fire for some time and the latest development came yesterday when the Policemen made their application to the Minister of Public Works and Labor for a board of arbitration.

On receipt of the application yesterday Hon. Mr. Galipeault immediately notified Mayor Samson and the Policemen's Union to appoint their representatives as the law prescribes. The board of arbitration consists of three members, each of the parties appointing one representative, and, failing an agreement within two days of their appointment between the two representatives regarding the choice of a third representative, the Minister of Public Works and Labor shall himself select such third arbitrator.

The Act also states that—"If either of the parties neglects to designate its representatives within a delay of five days after having been called upon to do so by the Minister of Labor, the latter shall, without delay, appoint the arbitrator who should have been chosen by the party in default, and such member of the board shall be deemed to be appointed at the request of the party in default.

"The board of arbitration shall submit its award to the Minister of Public Works and Labor after not more than five days deliberation, and a copy of the said award shall be sent to the registrar of the council of conciliation and arbitration to form part of the archives of the Department of Labor."

Penalties Prescribed

Heavy penalties are prescribed for infractions of the Act

"Any employer who declares or who is the cause of a lock-out in contravention of the provisions of this section, shall be liable to a fine of not less than one hundred dollars nor more than one thousand dollars, for every day or part of a day that such lockout lasts.

"Every employee who goes on strike in contravention of the provisions of this section, shall be liable to a fine of not less than ten nor more than fifty dollars, for every day or part of a day such employee remains on strike.

"Any person who incites, encourages or aids in any manner an employer to declare or continue a lockout, or any employee who goes on strike or remains on strike, in contravention of the provisions of this section, shall be guilty of an offence and liable ot a penalty of not less than fifty nor more than one thousand dollars."

There will be a meeting of the Civic Police Committee at the City Hall tonight when the question of appointing a representative on the board of arbitration will no doubt come up for consideration.

The Firemen's Demands

An increase similar to that made by the Policemen has also been submitted to the City by the Firemen, who up to the present time have received no reply from the City. The firemen are planning to send a delegation to wait on the Mayor, and his reply will determine whether or not the firemen will follow the example of the policemen and apply to the Minister of Labor for arbitration.

RIG AND AUTO COLLISION YESTERDAY.

A trifling accident occurred last evening at 6 o'clock at the corner of Ste Valier and St. Ambroise streets when the five passenger Maxwell automobile owned and driven by Dr. Simard, and carrying the license number 50554, struck a farmer's wagon.

The rig sustained no damage at all, while the auto suffered a damaged bumper and a crumpled front fender.

FIRE BURNS NEARLY WHOLE OF TOWN.

Ottawa, April, 27.—The greater part of the business section of Shawville Que, is in ruins today as a result of a fire which broke out about one o'clock this morning and lasted until about 4-30 p.m. A rought estimate of the loss is between $60,000 and $70,000, the greater part of which is covered by insurance)

Fully a dozen places of business and three residence were destroyed, the greater number of which were of wooden construction, which considerably hampered the fire-fighters in their efforts.

CITY WOULD SELL OLD WATERWORKS

Will Consult Engineers As To Utility Of Former Limoilou Waterworks

The question of disposing of the old Limoilou waterworks system was discussed at a meeting of the Waterworks Committee, which was presided over by Ald. Emile Bouchard, last night.

It was pointed out that the old system, which has its source at Charlesbourg, was not used now. The system consisted of a six-inch pipe and its value was estimated at about $20,000.

The Committee finally decided to consult the city engineers before taking any definite action in the metter.

Tenders were opened for the annual supplies of the Waterworks Deparament and the contracts were awarded as follows:

Cast iron pipe, the Fonderie de Levis; cement, G. I. Lachance; clay pipes, Standard Clay Products Co.; forge requirements, Alain & Co.; lead pipes, La Cie Martineau; brass faucets, Terreau & Recine.

Public Works Meeting.

It was decided that there will be a meeting of the Public Works Committe on Monday evening. Some of the members wanted to hold the meeting in question last night, but owing to the absence of Ald. Albert Bouchard, through illness, it was decided to defer this meeting until Monday. Alderman Albert Bouchard has been ill for several weeks and his confreres at the City Hall were gratified to learn last night that he is improving rapidly and will be able to be about again in a few days.

EXTENSIVE PLAN OF ACTION IS PREPARED

By Newly Formed Christian Women's League Against Indecent Fashions

Montreal, April 27—An extensive plan of action has already been prepared by those interested in the newly formed Christian Women's League against indecent fashions, which already has a membership of approximately 10,000 women in this Province. The organization is designed not only to cover the province of Quebec but to extend all over the country where women willing to join are to be found. The league is open to both Protestants and Catholics alike, and pamphlets explaining its aims and ambitions are being distributed throughout the Dominion and to Roman Catholic priests, who are asked to bring the dearue to the notice of their congregations. The main object of the organization is to establish some standard in dress which will prevent the women of Canada exceeding the permissive limits of good taste in their desire to be fashionable.

DENOUNCED WAVE OF IMPERIALISM

Messrs. M. Monaghan And Eugene Dussault Speakers At Irish Meeting

Messrs. M. Monaghan, Eugene Dussault and others spoke last night at a public meeting in St. Patrick's School, DeSalaberry street, under the auspices of the Terence MacSwiney branch of the Self-Determination for Ireland League of Canada.

There was a capacity attendance and the speakers were enthusiastically applauded. The tone of the meeting was a denunciation of Imperialism and the wave of propaganda which had for its object the strengthening of the bonds of Imperialism.

At the conclusion of the meeting all present joined in singing "O Canada," and "The Soldiers' Song."

The meeting was presided over by Mr. M. Monaghan.

BINET AND PALMER WILL COME UPTO-DAY.

William Frederick Palmer and Raoul Binet, the two men accused of being the authors of the Blanche Garneau murder in Victoria Park on July 22 last, will appear before Judges Lachance and Choquette today. They were remanded last Thursday for eight days, in accordance with law.

It is not thought probable, however, that the preliminary investigation in the case of Palmer will be resumed to-day, as the Crown Prosecutors will be busy with the motions by Mr. Taschereau before Sir F. Lemieux and will most likely ask for another remand.

The same holds good in the case of Binet, and there is very little chance of a preliminary investigation in his case being enacted to-day

Whether habeas corpus proceedings will be instituted if Binet's preliminary investigation is not started to-day is not known, but he is not being illegally detained, as a warrant has already been sworn out against him, and he has appeared every eight days, up to now in accordance with law.

IMPORTANT POINT IN INSOLVENCY LAW

Vendor By Instalments Has No Right To Refuse Last Payment

Montreal, April 27—An important point in insolvency law was decided this afternoon by Mr. Justice Panneton in giving judgment on a petition in re Lemieux and Copping, Motor Distributors Limited, in liquidation.

His Lordship held that the vendor of goods on instalment purchase had no right to refuse the last payment on such goods and to seek to obtain the goods again when such payment was tendered by the creditors of the firm to whom the goods had been sold in the first instance, and who had failed to pay over the complete purchase price of such goods.

COMMITTEE ON RISKY GROUND

Debate Centred About Railroad Wage Question In Three Hour Debate

Ottawa, April 27—(By Canadian Press)—For the greater part of a three-hour session of the House Committee on National Railways and Shipping tonight, debate centred about the question of wages. The Chairman, Hon. S. C. Mewburn, thought it was dangerous ground and should be avoided entirely. Hon. A. K. McLean (Halifax) wanted at least to be able to understand intelligently the working of the much talked of schedules.

T. M. Tweedie (Calgary) thought the matter of wage schedules was so involved that a special committee would be necessary.

Hon. J. D. Reid, Minister of Railways, suggested filing the McAdoo award as an exhibit, so that members might consult it.

A. B. Copp (Westmoreland) contended that wage items appeared on exhibits filed by officials of the railways and therefore were matters about which investigation was all awake.

Geo. M. Allen (Winnipeg) said, even if the Committee had the right, he thought public interest would best be served by leaving the question alone.

Hon. Charles Murphy considered the judgment of the Committee must be relied on to avoid matters which must prejudice the rights of workers or the interests of the Railway Management. He hinted that perhaps it would be necessary to call in experts to delimit the duties of the Committee.

A motion was finally passed to call in the operating Vice-President of the National Railways to make a statement explanatory of certain items of wages appearing in the records of the proceedings.

The witness of the evening was S. J. Hungerford, Vice-President of Operation and Maintenance, National Railways, who gave particulars of the work in his charge.

BRAXTON IS SWEPT OUT OF EXISTENCE

Heap Of Smoking Ruins All That Remains In Tornado's Wake

Hattiesburg, Miss, April, 27.—The little lumber-farming community of Braxton was virtually swept out of existence by a tornado yesterday. A heap of smoking ruins is all that remains, the debris having caught fire Estimates place the number of dead at 18 with more than a score injured.

Entirely cut off from the world by telephone and telegraph communication, survivos struggled to the town of D'Lo where they gave first word of the disaster.

A train loaded with tents, nurses, soldiers, and cots, left Jackson for the scene of the disaster last night, in the meantime practically all of those more seriously hurt had been taken to the hospital at D'Lo.

QUEBEC, APRIL 28, 1921

THE MOMENT IS CRITICAL

The German counter-proposals would seem to indicate a tardy realization that some genuine effort must be made to satisfy the reparation claims of the Allied Governments in general, and those of France and Belgium in particular, but they still fall considerably short of the minimum demands made by the Allies and have already been semi-officially rejected as a basis even for discussion. Under the circumstances, Germany must either toe the mark, however hard or repugnant it may be for her to do so, or submit to severe coercive measures, chief among which will be the occupation of the important Ruhr region.

An eleventh hour attempt made to play the United States off against French and Great Britain by calling in the American Republic as an umpire in the case has apparently failed, but it is still too soon to finally assure ourselves that such is the case. In the event of the Harding Administration coming to the conclusion that the German proposals are really fair and adequate, complications of a kind that Dr. Von Simons sought to engineer may easily result. The probabilities are all against such an embarassing stand by the United States but it cannot be lost sight of nevertheless. One Allied encroachment has already been accepted by Germany with seeming docility and the second one, which can be regarded as a virtual certainty, may likewise pass off without untoward incident: at the same time they do not serve to minimize German resentment and if no resistance is offered it will be for lack of means and not of will. Altogether, the moment is a critical one and the possibilities are considerably more ominous than appears on the surface. While a nominal peace exists, the world has not yet got beyond the actual status of an armed truce in which the price of safety must still be "eternal vigilance."

POINTS TO BE WEIGHED

Although there has been as yet no official comment upon the suggestion put forward by Lord Shaughnessy within the past few days to place the railroads of the country upon a more hopefull basis, the Press has expressed its opinion very freely which, as was to have been expected, is not of an undivided character. Whatever may be the force of His Lordship's trenchant references to past mistakes, it cannot be said that they have facilitated acceptance of the proferred remedy. Candor is a virtue that cannot be sufficiently praised but tact, or diplomacy, is also required in the transaction of public business. When advice, however excellent and disinterested, is coupled with a blunt condemnation of the Government's entire railroad policy up to the present time, it is a little to much to expect the Government to convict itself by an acceptance of the one that could only tacitly imply acquiescence in the other.

Thus the practical objection is raised that Lord Shaughnessy, while offering a solution of an admittedly baffling problem, has in the same breath made its adoption very nearly impossible. Again, notwithstanding His Lordship's attempt to discount such suspicions, the feeling has been inevitably aroused in several quarters that he is prompted by ulterior motives, that he has put in one word for Canada and two for the C.P.R. In this connection we have already expressed our firm belief in the good faith of Lord Shaughnessy, nor are we at all alarmed by the bogey of a C.P.R. monopoly. On the other hand, it must be admitted as a weak point in his proposals that they do not involve any division of risk whatever. Irrespective of success or failure, prosperity or depression, the investment of the shareholders is protected by a fixed dividend rate, guaranteed in perpetuity, while the tax-payers of Canada must continue to shoulder the burden of any future deficits that may be created.

Lord Shaughnessy does not hold out the prospect that deficits will be immediately done away with under his programme, although he may argue with considerable justice that, given the present desperate railroad situation, it would be unfair to call upon the shareholders of a successful going concern to turn their property over to the Government in order to help it out of a hole and to ask them to share the risks of the experiment at the sametime. All that can fairly be considered, in fact, is whether or not the proposed pooling of railroads is the best solution available under the circumstances and whether or not it offers a reasonable prospect of relief from financial embarrassment.

As security for sound and eventually self-sustaining administration His Lordship pledges the recognized efficiency of the thoroughly tried Canadian Pacific organization, but here two considerations suggest themselves. There is already a Canadian National organization in existence, composed of experienced transportation men, a considerable number of whom have served their apprenticeship on the C.P.R. itself or on other leading American roads. If, then, the failure of the system is due to mistaken policy on the part of the Government, as claimed; that failure cannot properly be charged against the operating staff and if, which is quite possible, that organization is fully capable of producing satisfactory results under the Shaughnessy plan, we may ask ourselves why it should be arbitrarily scrapped merely in order to make way for the organization of the C.P.R.

Further than this we may ask ourselves whether any organization, C.P.R. or otherwise, is capable of making a success of Government ownership and Government operation in Canada. The Canadian Pacific staff has earned an enviable reputation, but it has done so under the stimulus of the demand for dividends. When that stimulus has been removed by establishing fixed dividends without regard to the actual financial situation of the undertaking, it becomes very much a question as to whether the personnel will be able to retain its accustomed initiative and aggressiveness unimpaired. Where there is so incentive, human nature is so constituted that the tendency is towards diminished effort.

In the view of many people, which is shared by the Chronicle, the only real solution of the transportation problem is the abandonment of Government ownership and the returns of all railroad properties to private management. There is more than one reason, however, why this cannot and will not now be done. Accordingly the Shaughnessy plan, with any necessary modifications, appears to be the most practicable alternative and one that the country cannot afford to reject through political amour propre or uncharitable prejudices.

A HAPPY AGREEMENT

The Government is entitled to congratulations on the conclusion of its treaty arrangements with the British West Indies. Under these treaties Canadian products which are subject to customs duties in Barbadoes, British Guiana, and Trinidad, are admitted at rates 50 per cent. less than are imposed on the products of other countries; in British Honduras, the Leeward and the Windward Islands the preference granted in favour of Canadian products is 33 1-2 per cent. and in Jamaica and the Bahamas such preferis 25 per cent. The arrangement comprises all the British West Indian colonies except Bermuda, which has so far not seen fit to come in. Canada on her part admits the products of the British West Indies which are subject to Canadian customs duty at rates 50 per cent less than the general tariff rates.

These reciprocal trade preferences, substantial as they are, coupled with the operations of the Canadian Mercantile Marine, should result in a substantial increase in trade between the possessions of the British Empire, in the West Indies and Canada. The Hon. Mr. Fielding, usually a keen, unsparing critic of the Government, felt constrained to accord them a meed of praise. "The trade arrangement," he said, "would commend itself to the House and the country," and, he believed, "there would be an extension of trade through it."

RECONSTRUCTING AUSTRIA

One of the most hopeful signs in connection with the various schemes now being discussed for the revival of industrial activity in Europe, is the growing tendency to regard Austria as the test of any possible success. It is freely admitted that the needs of Austria are more pressing and more difficult to meet than those of other countries, where much the same problems have to be faced, but the reason for this is not even yet universally recognized. The Exchange difficulty in Poland is as acute as in Austria, and the depreciation of the currency in Roumania is also very serious, but in neither of these two countries is the effect said to be quite so disastrous.

Any effective consideration of means whereby the present pitiful condition of Austria can be remedied must take account of the fact that, before the war, Vienna was the financial and commercial centre of south-eastern Europe. This was due, not only to her geographical situation on the Danube, and at the centre of the railways leading to all parts of that portion of Europe, but also to the special proclivities of her population for finance and administration. The Government Offices and the Head Office of most of the big Austrian industrial and banking undertakings were also established in Vienna. It followed that the populations of Vienna and German Austria obtained a goodly portion of their livelihood by the provision of essential services to other parts of the Empire, and to adjacent countries, rather than by the production of commodities.

As regards natural wealth, German Austria is probably poorer than any country in Europe. She is practically without coal, and the mountainous character of the country precludes the possibility of her feeding herself. There are undoubted opportunities for industry, if adequate coal and raw materials could be imported and if the economic barriers set up by her neighbors were removed. On the whole, however, it would seem that the key to the position in Austria, and to some extent to that of the surrounding countries, is the reinstatement of Vienna as a financial and commercial centre, for it is almost inconceivable that Austria's visible exports can ever balance her imports.

It follows that the difference must be made up by an increase in invisible exports, such as banking, exchange and other services; the alternatives are charity, starvation, emigration or absorption by Germany. The point needing emphasis is that the necessary invisible exports can only become practicable with the possession of a more stable currency and its concomitant—more stable foreign exchanges. There would seem to be no possibility of realising such conditions without the provision, in the first instance, of foreign credit in volume sufficient to fill the gap between imports and exports.

In these circumstances, special interest is attached to the decision recently arrived at by the Governments of Great Britain, France, Italy and Japan to release—for a period of years to be determined later—their liens in respect of claims against the Austrian Government for the cost of Armies of Occupation, for Relief Credit Bonds and Reparations, provided other interested Governments agree to similar postponements.

LEAVE THEM WHERE THEY LIE IN GLORY

Leave them where they lie in glory, with their buddies, where they fell!
Mourning France to guard and tend them—she will keep her vigil well!
Crosses white stand at attention, silent sentries, row on row;
And in their returning seasons France's fairest flowers blow,
Planted there to do them honor in the land for which they bled—
For their pain, the purple lilies; for their glory, poppies red!
There above them float the colors of the flag for which they died,
Emblem of their country's honor, symbol of their country's pride
In their valor! Leave them sleeping, there on France's mourning breast,
Heroes with a hero's honors—where they fell, ah, let them rest!

REVISE PART OF U.S. TARIFF BILL

Immediate Consideration Of Senate Will Be Sought For Emergency Measure

Washington, April 27—Revisions of sections of the House Emergency Tariff Bill were agreed on today by the Senate Finance Committee. It was decided to strike out the clause authorizing customs collectors to estimate depreciation of foreign currency up to 66 2-3 percent which, it has been contended, would virtually bar all goods from Central Europe.

A substitute adopted, Chairman Penrose announced, would provide for collection of United States duties on the foreign market or on export value, whichever should be highest.

Revising the anti-dumping section, the Committee decided that the proposed prohibitive tariff against foreign goods imported for sale in the United States below cost or below prices asked in the country of manufacture should not be general. The plan adopted would give to the Secretary of the Treasury power to investigate and invoke the prohibitive anti-dumping penalty in cases where he should determine that "dumping" was being practiced.

With these revisions, Senator Penrose said the bill would be completed to-morrow and reported to the Senate, next Saturday or Monday.

Senator Penrose added that immediate Senate consideration would be sought.

A DOG'S RESENTMENT.

Duluth, April 27.—Since it's canine pal was killed recently by a street car, a Scotch collie dog stands guard at a certain corner here each day, leaps high into the air as cars pass by and often manages to grasp the trolley pole rope with it's teeth, pulling the pole off the wire and stopping the car. Efforts of the dog's master and car crews to persuade the dog to cease the practise have been of no avail. The animal probably will be shot, it is said.

CITY OF QUEBEC.

CITY HALL.

Leases of Shops, Stalls, Sheds of Moncalm, Berthelot, St. Peter and Champlain Markets.

Quebec, April 4th, 1921.

PUBLIC NOTICE is hereby given that the leases of shops, stalls, sheds in the Market Halls and Public Markets of Moncalm, Berthelot, St. Peter, Champlain Markets shall be renewed and leased for the year beginning the 1st of May, 1921, and ending on the 20th April, 1922, as follows, to wit:—

Those of the Moncalm, Berthelot and Champlain Markets, in the sales room of the Finance Department, on Monday, the Twentieth day of April, instant, beginning at two of the clock in the afternoon. And those of St. Peter's Market Hall shall be renewed in St. Peter's Market Hall, on Tuesday, the twentieth first day of April, beginning at nine o'clock in the forenoon.

The City Notaries, shall respectively be present on Monday morning, the eleventh (11th) instant, at the City Hall, and at St. Peter's Market Hall on Tuesday, the twelfth (12th) of April, 1921, beginning at nine o'clock in the morning, to pass and ag the deeds of lease necessary.

In the event of the present lessees not paying before the sale by auction arrears of rent due by them, said shops, sheds and stalls shall be put up by auction and shall be leased to any other applicant who will then and there comply with the said conditions.

Instructions have been given by the Public Works Committee to lock up on the last day of April, instant at five o'clock (5 o'clock) p.m., the stalls that shall not be leased on the days above mentioned.

A notarial lease containing the conditions will then and there be signed by the lessees and paid by them, including a copy for the City.

One month's rent in advance and the price of the license shall be paid by each of the lessees for each stall prior to the passing of the deed of lease to the Notary then and there in attendance respectively as above stated, in the sales room of the Finance Department or in the St. Peter's Market Hall.

Possession of the premises shall not be given by the City to any person who shall not have previously signed his lease and paid his dues as such and as long as he shall fulfill his obligations. Each lessee shall furnish before the execution of the said deed of lease and to the satisfaction of His Worship the Mayor, two good and responsible securities.

If the lease of any shop, etc., is not signed by the lessee within 24 hours, the dejudication shall be absolutely null and void, and the Public Works Committee shall proceed forthwith to grant them to other parties. The terms of payment and other conditions of the leases will be made known publicly on the spot before proceeding to the sale. For further information, apply to Mr. George Trudel, City Hall.

By order,
(Signed) GEO. TRUDEL,
City Revenue Collector.

PROCLAMATION.

Daylight Saving Time Adopted at the City Hall, Quebec.

Quebec, 14th April, 1921.

Considering the desire generally expressed in the public at large, considering also that the Railway Companies, the Navigation Companies, the Post Offices and a great many of the Public Services and important organizations have decided to adopt the new hour in accordance with the change of time decided in the United States, considering also that Montreal and many other Cities have equally adopted the Daylight Saving Time

I hereby give Public Notice that from Two (2) O'clock, A.M., Sunday morning, the 1st of May next, (1921) until Sunday morning at 2 O'Clock A.M. of the 2nd of October next (1921), the clocks of the City Hall shall be advanced one hour, and I pray all citizens to adopt as much as possible the new hour so that there be uniformity.

By Order.
H. J. J. B. CHOUINARD,
City Clerk.
(Signed) JOSEPH SAMSON.
Mayor of Quebec.

IN AND ABOUT TOWN

TABLET WILL BE UNVEILED

In Trinity Church Next Sunday To Memory Of Members Who Fell In The War

The unveiling of the memorial tablet the members of Trinity Church who fell in the Great War and also to those who also served with the Canadian Expeditionary Forces will take place at the morning service (daylight saving time) next Sunday morning.

Lieut. General Sir Richard Turner, whose father was a member of Trinity Church and to whose memory the Communion Table was placed in the Church will unveil the tablet, and the Bishop of Quebec will dedicate it. The service will be a military one, and the various units in the City will attend, accompanied by the R.C.G.A. Band. The special preacher for the occasion will be the Rev. Canon Shatford, M.C., of Montreal.

The stone which is cut out of a solid piece of white marble and will have a black marble background will contain the names of seven men killed in action and those ofthirty-five members of the congregation who served in the war. On each side of the tablet is a gilded sword intertwined with poppies. On the top is a shield intertwined with Maples eaves, all carved out of solid marble and coloured.

Besides the units of the Garrison the service will doubtless be attended by a large number of the veterans, resident in the Ancient Capital, to honor the memory of their comrades who gave their lives for King and Country in the greatest war that the world has ever known.

TAX COLLECTION IS GOING AHEAD

Average Of Three Hundred Thousand Dollars Being Received Each Day

The collection of the Income Tax Returns in this city is proceeding briskly, and a large amount of money is being received in each bunch of mail that is delivered to the Inspector of Taxation at the Custom House.

It is estimated that some three hundred thousand dolars is being received every day, and each day whatever money is on hand is transported to the bank As the offices are open until five or six o'clock each day, in some cases later, the question was asked yesterday afternoon what measures were being taken to safeguard the big amount that is in the Inspector's safe every night and the following answer was given.

Two members of the R.C.M.P. are stationed in the building, night and day, while at night there are two members of the Inspector's staff also on guard. Their duty is to look after the money, which is never left unguarded even for a second.

Some two thousand people pass through the doors of the offices each day to pay their income tax for 1920. It is thought that it will be impossible to finish the work of checking up the returns on Saturday, and it is expected that some of the staff will be compelled to work on Sunday morning, in order to balance the cash. The returns are not expected to be completed until Tuesday, at the very earliest.

It was stated at the Inspector's office that all money received in the mails by May 2, or all returns coming in on that date, via the mails, will be accepted as being on time. This does not apply to money returns brought into the Inspector of Taxation's office in person on that date. That must all be brought in by Saturday, at the latest.

There is no penalty attached to returns by mail on May 2. Heavy penalties however, exist for those who do not file their returns on time, accompanied by at least 25 per cent of the sum they are obliged to pay.

All kinds of forms in both English and French, as well as pamphlets of instructions and information, are to be had at any of the Post Offices, or else at the office of the Inspector of Taxation, Customs Building.

With a view to obtaining authentic information in answer to inquiries made by a number of people in regard to the Income Tax, Mr. Evariste Rochette, Inpector of Taxation for the City and District of Quebec, stated, in answer to a query put to him as to the necessity of a married man, having an income of $2,000 or less making a return, said: "A married man with an income of $2,000 or ess pe annum is not obliged to make a return, unless he receives a special request or order from the Department to do so. The same applies to a single man with an income of $1,000 or less.

G.W.V.A. HOLD ANNUAL MEETING

Capt. E. E. B. Rattray Elected President—War Memorial To Be Proceeded With

The annual meeting of the Quebec Branch of the Great War Veterans Association was held in the Drill Hall last evening and was well attended by the members, the President Major C. Fontaine M.C., occupying the chair. A feature of the meeting was the harmonious manner in which the proceedings were conducted ,a spirit of comradeship prevailing throughout.

The financial statement for the past year was read and this showed a substantial balance on hand. The report of the Executive displayed the fact that the membership had increased by sixty. Over one hundred had been placed in positions, and it was pleasing to note that a large percentage of these men are still holding their jobs, with honor to themselves as well as to their employers. Several cases of comrades and their friends were reported as having required assistance, which received the attention of the officers of the Association. Special reference was made to the splendid work accomplished by the secretarie, Messrs. Beattie and Julien since the last annual meeting who were complimented on the zeal they had shown in the interests of the Branch Appreciation was also expressed at the services rendered to the Association by the Soldiers' Wives League the I.O.D.E. and the Red Cross Society, and a vote of thanks passed to each of these organizations. During the shopping season last year, many veterans residing in different parts of Canada secured the services of the Branch in meeting relatives and dependents upon their arrival at this port. These were given every attention at the hands of the officers of the Branch and sent on their way, feeling happy at the reception they had received on their arrival in the Dominion.

First Vice-President Capt. E E. B. Rattray, M.C, gave an interesting report in connection with securing club quarters, and there is every indication that these will be obtained in the very near future. The following comrades were elected a committee to look after this important matter: Captain E. E B. Rattray, Lieut-Colonel Rev. Canon F. G. Scott, Lieut. H. A. Sirois, Major C. Fontaine and Lieut. Wm. LaRue.

Lieut. H. A. Sirois was unanimously elected to represent the Quebec Branch at the Dominion Convention which will be held in Winnipeg early in May.

Regret was expressed at the removal by death during the past year of Comrades Tardif, Clint, Morissette and Lelievre.

The thanks of the Branch was extended to His Worship the Mayor and to the Aldermen of the City of Quebec for the granting of the site on Montcalm Market Place for the memorial to be erected to the memory of those Quebecers who fell in the war. This Memorial will be in the form of a Cross with sword similar to those that are about to be erected in the soldiers' cemeteries in France, and will have around it the names of all those from Quenec who died at the Front. The following were appointed a Committee to carry out the details in conection with the memorial: Comrades Lieut. Colonel R. M. Beckett, Major C. Fontaine, Lieut. H. A. Sirois, Lieut. Colonel Rev. Canon. F. G. Scott and Captain E. E. B. Rattray.

A vote of thanks was passed to the retiring President Major C. Fontaine for undertaking and carrying out the work of his important office during the past year, and the meeting also extended its congratulations to him on the occasion of his approaching marriage.

The election of officers for the ensuing term then took place and resulted in the following being unanimously chosen: President: Captain E. E. B. Rattray; First Vice-President, Lieut. H. A. Sirois; Second Vice-President, Lieut.-Colonel Rev. Canon F. G. Scott; Joint Secretary-Treasurer, Messrs T. D. Beattie and F. H. Julien. Executive Committee, Comrades A. A. Robert, Napoleon L'Heureux, R. Keiller, P. Drouin, B. Mellon, J. Labbe, Wm LaRue, J. E. Pratte, R. Plante, C. B. Bennett, and A Paquet.

A vote of thanks was passed to Headquarters for the use of the Drill Hall for the annual meeting of the Association.

Previous to the close of the meeting the new President took the Chair and in the course of a short speech outlined the work for the ensuing year, and his remarks were heartily applauded by those present.

The meeting concluded with the singing of "O Canada," and the National Anthem.

ARE SENTENCED TO THREE YEARS

Five Holdup Men Booked For Penitentiary — Appeal By Sixth

Five of the six young men who were arrested and pleaded guilty to highway robbery, in the hold-up of Mr. Poulin on the 16th instant, when $785 was taken at the point of revolvers, were yesterday morning sentenced by Judge Lachance in the Court of Sessions to three years each in the St. Vincent de Paul penitentiary. The names of the five sentenced were Edmund Boucher, Emile Turcotte, Leon Lachance, Paul Bedard and Noel Savard. The sixth member of the gank, Joachim Guerard, will be sentenced this morning a motion having been made in his behalf to show extenuating circumstances, calling for a lighter sentence that that given to his companions.

SIX DEPOTS FOR QUEBEC CITY

Quebec Liquor Commission Ready To Act On Repeal Of Scott Act

Asked last evening how many liquor depots would be in Quebec under the new Quebec Liquor Law, and where they would be situated, Mr. Nap. Drouin, a member of the Quebec Liquor Commission, informed the Chronicle that there would be six in the city.

However, he said, nothing could be done in the matter of stating who would be the successful persons to obtain the permits, as the Commission would have to wait for the repeal of the Scott Act before taking any steps in the matter of announcing the people who will secure licenses under the Quebec Liquor Law.

The repeal of the Scott Act will not take place before May 12, at the very earliest, and until then, said Mr. Drouin, the Quebec Liquor Commission was not prepared to go ahead with their work.

There have been several persons whose names have been mentioned in connection with permits, but last evening Mr. Drouin said that nothing could be given out officially until the Scott Act had been repealed.

He did state, however, that there will be six depots in the City of Quebec, three in the lower part of the city, and an equal number in the upper part of the town. Of these six, five will have permission to sell strong liquor, while the sixth will deal in sacramental wines only.

There will be one near Palace Hill, and one in St John's Ward, while the dealer in sacramental wines will also be located in the upper part of the town. Downtown there will be one in Lower Town, a second in St. Roch's Ward, and the third in St. Sauveur Ward. This last will be situated in the centre of the ward, and will serve all the residents of that part of the town.

Mr. Drouin said that as soon as ever the Scott Act was repealed, the Quebec Liquor Commission would be ready to work within two days. At present, he said, the Commission were at work in the country surrounding Quebec, and there would be two depots established at Shawinigan Falls and Three Rivers, and one each at Grand'Mere and Riviere du Loup.

GOOD PROGRESS IS BEING MADE

In Hygienic Courses For The Young Medical Practitioners At Laval University

The Hygiene courses established at Laval University in January last under the auspices of the Superior Board of Health for the Province of Quebec are making good progress, judging by the attendance at the lectures of young medical practitioners. In the latter part of 1920 the Superior Board of Health conceived the idea of establishing special courses for the study of practical hygiene work and divided the province of Quebec into fifteen divisional centres to carry on the work so as to allow young physicians to attend the lectures in their respective localities without being obliged to come into the cities of Montreal and Quebec. The course consists of forty lectures of two hours each, and the following are the professors at Laval University: Drs. Simard, Guerard, Julin Faucher, Carbonneau, Valle Coullard and Paquin. The subjects treated in the course of these lectures include: Industrial hygiene; Sanitary engineering; Child Culture; School Sanitation, chemistry as applied to hygiene; bacteriological hygiene; statistical and legislative hygiene, and public sanitation.

JUDGMENTS IN THE SUPERIOR COURT.

Four judgments were rendered in the Superior Court yesterday, Chief Justice Lemieux presiding at one of them, while Judge Letellier decided the other three. They were as follows:—

Sir F. Lemieux.

La Societe Co-operative Agricole St. Nicholas vs. Martineau. Judgment for $65.32, following consent of the plaintiff. Each party to pay share of costs of suit.

Hon. Judge Letellier.

La Cie de Publication de Levis vs. Renault, oppo. Proof before judgment.

Vachon vs. Cie Dorchester. Motion accorded, fifteen days delay.

Nadeau vs. Nadeau. Defendant obliged to render account, and action maintained without costs.

TWO ARRESTS IN LEVIS VOTING

Trio Of Men Accused Of Impersonation — Pair Were Apprehended Yesterday

Warrants were issued yesterday afternoon for three individuals in Levis, for impersonation in the referendum which is still going on across the St. Lawrence over prohibition.

Two members of the Provincial Police went over to Levis and succeeded in arresting two out of the three men. The pair who were apprehended appeared before Judge Choquette and were admitted to bail, their cases to come up this morning. The names of the three men are Arcadius Fournier, Laureat Fournier and Maurice Charland.

Both of the Fournier brothers, who reside at St. Joseph de Levis, appeared before the Judge, but the third man was not at home when the police called. It is expected, however, that he will be arrested this morning.

Arcadius Fournier is alleged to have voted under the name of Labrecque, while Charland is supposed to have voted under the name of Cream. It is alleged that there are forty two cases of impersonation in the referendum.

1,416 Votes Polled.

Yesterday there were 324 votes polled in the plebiscite which brings the total since Monday up to 1,416.

Public opinion in Levis seems to be very evenly divided as to the outcome of the voting. Both sides are working hard for victory, the prohibitionists for the continuance of the Provincial Prohibition regime, while their opponents want the new Taschereau Liquor Law to have effect in the City of Levis.

It is not expected that more than 250 to 300 voters will go to the poll today, and the results of the referendum, which will close this afternoon will be made public this evening.

WILL SOON BUILD FINE LABORATORY

Laval University To Be Made One Of Most Modern In Scientific Equipment

Laval University University has decided to make this institution one of the most modern in scientific equipment, and therefore propose to build one of the largest laboratories in the Dominion for the study of the advanced chemistry. It is also planned to build two additional stories to the School of Medicine building situated on Hebert Street, and also demolish the present private dwellings west of the School of Medicine in the same street, and the houses on the south side of St. Famille street to the gate entrance on the same street, giving ingress into the University buildings.

When the private dwellings are demolished they will be replaced by a large fine strong structure leading from the west end of the school of Medicine building along Hebert and St. Famille street, uniform in height and architectural design which will be fitted up as a modern chemical laboratory.

This is but the beginning of the development of Laval University by means of the Government subsidy of one million dollars, and the generous aid given by public subscription during the recent "L'Aide a Laval" campaign to enable it to widen its scope of classical and scientific education, in keeping with the general advancement of higher education.

FORMER MANAGER OF CHATEAU IN TOWN.

Mr. Charles DeRouville, former manager of the Chateau Frontenac, arrived in the city yesterday on his honeymoon. Mr. DeRouville, who was manager of the Chateau from 1912 to 1915, is at present the manager of the Freeman's Hotel, Montreal.

FOREIGN MAIL.

Foreign Mail (Letters Only) will be despatched per SS. Corona, sailing from New York.

This Mail will be closed at Quebec head-office at 9-30 p.m. on the 28th inst.

WILL HEAR MOTIONS THIS MORNING

This morning, before Chief Justice Sir Francois Lemieux, the two motions by Mr. Alleyn Taschereau, on behalf of "Big Mike' Prosko and "Little George" Janousky, will be heard.

The motions were originally supposed to have been heard at the beginning of the week, but owing to the absence of Mr. Alleyn Taschereau, who was pleading in Beauce County, the hearing was put off until this morning, following a suggestion from Sir Francois Lemieux, on the understanding that they be heard this morning.

PERSONAL.

Ald. Joseph Mercier returned yesterday from a business trip to Montreal, Ottawa, Toronto and Hamilton. While in Toronto Ald. Mercier visited his daughter, who is studying at Loretto Abbey.

DIED

BURNS.—On the 26th of April, 1921, after a short illness, Mary Ellen Doyle, beloved wife of Thos. A. Burns, Merchant, 63 Buade street.

Funeral will leave her late residence on Friday, 29th instant, at 8-45 A.M., for St. Patrick's church (McMahon street), thence to St. Patrick's cemetery.

Friends and acquaintances are respectfully invited to attend.

PRICE BROTHERS STANDING FIRM

Sir William Price Says Labor Difficulty Unsettled—Firm Won't Give In

Sir William Price returned from Kenogami last evening where he went some days ago to investigate the labor difficulties between the employees in the paper mills and the firm of Price Bros., Co., Ltd. Sir William on his return to the city, said that no settlement had as yet been effected, the point of difference still remaining between the employees and the Company, and it is not the intention of Price Bros., Co., to give in. The situation is thus in statu quo for the employees to consider, and they can rest satisfied that the firm is and will remain steadfast in the attitude it has taken.

ERRATUM.

In yesterday's morning issue, it was stated that Mrs. Faucher had applied for an injunction against the St. Louis Hotel to prevent them going ahead with work on their garage. It appears, however, that she applied for an injunction to stop them from pulling down her boiler room.

"There's a Reason"

THROUGH CANADIAN PACIFIC SERVICE TO HAMILTON, ONT.

Quebec—Montreal — Ottawa — Toronto and Hamilton will be linked together with a new through Canadian Pacific Train beginning May 1st from Montreal. This train will leave Windsor street Station at 9.30 p.m. daily except Saturday, with coaches, standard sleepers and buffet-compartment sleepers for Hamilton, travelling via Smith Falls and Peterboro. This train will arrive at Toronto (Yonge Street) at 7.00 a.m., and at Hamilton (T.H. & B. Station) at 8.50 a.m. Yonge Street Station is in the heart of the residential section of Toronto and convenient to the downtown section The Yonge Street cars pass its doors for all points down town. The T.H. & B. Station is in the business section of Hamilton. Eastbound the train will leave Hamilton at 8.00 p.m. and Toronto (Yonge street) at 10.00 p.m., in each case daily except Saturday, arriving Montreal, Windsor Street Station, 7-30 a.m. All time shown above are Eastern Standard Time.

This train is an ideal one for the business man, for it gives him a good night's sleep over the comfortable Peterboro route and puts him close to where he wants to do business. And everything is Canadian Pacific Service—there is none better. April26tf

MONTREALERS WERE NOT GIVEN PERMITS

Wholesale Liquor Men Cannot Bring Liquor Into New Brunswick

St. John, N.B., April 27.—Statements published here recently that the chief liquor inspector of this Province had granted permits to certain Montreal wholesale liquor dealers to bring their stocks to New Brunswick were authoritatively denied here today. No liquor stocks can be brought from another Province and warehoused in New Brunswick without the permission of the chief inspector, whose permit is also necessary for the granting of licenses for a bonded warehouse. Should the chief inspector approve of any premises and also of those applying for a bonded warehouse, he can grant a permit, which under the law must be sent to the customs authorities at Ottawa. They can, but not until then, issue a license for a bonded warehouse.

RUTH ROLAND ON HOUSEKEEPING

Serial Queen Is Noted For Skill in Housewifely Arts

The successful housewife aims at successful simplicity in entertaining, rather than over-elaborate and extravagant display. She never overcrowds her rooms, no matter whether it be children's party, an at home, the dansant, or musical evening, she only invites as many as can be conveniently accommodated, and not one guest more.

She realizes that a tired hostess can never be a successful one, and arranges things so that on the actual day she has time to rest and dress comfortably, in order that she may appear before her guest looking her brightest and best.

All cooking is finished, so that on the party day cutting of sandwiches, arranging of freshly arrived pastries, and final decorating of sweets are practically the only tasks to be done.

Coffee cups are arranged on trays; spare glasses, cutlery, plates, etc., put ready on sideboard or buffet, and, in short, nothing is left undone which can possibly be done beforehand.

Even the clothes she is to wear and those of her children are overlooked and laid out ready to wear, so that there is no scrambling for needles to mend torn laces, or discovery of adders in silk stockings almost at the moment of the first guest's arrival.

And, in consequence, not only has she the satisfaction of knowing that the proceedings will go off without a hitch, but is able to enjoy to the full all those things which she has so skillfully planned for others.

Have you ever tried your hands at that appetizing, economical, satisfying and most popular of national French dishes, the pot au feu? It is a cook's time-saver, too. All from one pot you serve smoking plates of soup, and then a second course of boiled beef and vegetables.

The recipe is simple, yet no two housewives will ever obtain the same flavor. There is genius in it, as in anything else, and your genius will dictate exactly the proportion of meat and vegetables. Fill to two-thirds your earthenware marmite, bring to the boil as rapidly as you choose, put in half a cabbage, two turnips, one large onion, some celery one or two leeks, one horse-radish, a few carrots cut in two, one bay leaf, one clove, and a sprig of thyme (the last three tied together and to be withdrawn as soon as the pot-au-feu is cooked).

One or two potatoes are not a bad addition as any one who has tasted the "rata" of French soldiers can assert.

For a family of four I would get about three or three pounds and a half of beef, preferably ribs. When the vegetables have boiled for a quarter of an hour, add the meat and once more bring to the boil, after which it must only simmer with the lid on. After an hour you add enough water to make up the quantity of bouillon you desire. Three hours at least are necessary, four or more are better, if you wish to extract all the juice from meat and vegetables.

Dumplings can be made with the marrow of bones, and, cooked apart in a little bouillon, are served when the soup is ready.

After three or four hours, take out meat and vegetables. Bouillon may be served clear or with vermicelli, or poured over thin slices of bread. The French usually eat part of the meat hot from the pot, with the vegetables, over which some melted butter has been poured. Dijon mustard and pickles accompany the bouilli.

The meat left over may be cut into small dice and made into a tasty salad by the addition of a salad dressing made of olive oil, wine vinegar, and a little mustard, some chervil being chopped and sprinkled over. Potato, peas, or better still cold cauliflower may be added. Or it is used to hake rissoles. Chop it fine chop also an onion and some parsley, add crumbs soaked in milk or water, shape into balls, dip into flour, and fry.

One of the chief extravagances in American homes results in a reckless waste of soap. It has been estimated that more than half a million tons of soap finds its way into the sewers of our large cities every year.

There are numerous ways in which this huge loss may be counteracted. For example, odd pieces of toilet soap can be placed in small muslin bags, and used for washing the hands.

The smaller pieces of kitchen soap can be utilized in making soap-jelly. Place all the oddments in a shallow basin and pour over enough boiling water to cover them well, and stir until dissolved. This is especially suitable for washing flannels and the daintier blouses.

A good scouring soap is not difficult to make, either. Put a pound of caustic soda into a pint and a half of hot water and stir until dissolved. Now pour about four pounds of melted fat into a large vessel, add the soda and water very slowly, and stir occasionally. After this, let the mixture stand for twenty-four hours, and it is ready for use. In this way you can use up waste fat which has become useless for frying purposes.

SCOTTISH FOOTBALL.

Glasgow, April 27 — (Canadian Press)—Results today of games in the Scottish League Association Football were:

Rangers, 0; Hearts, 0.
Ayr, 6; Lanark, 1.
Hibernians, 2; Partick, 0.

HONORABLY ACQUITTED.

Halifax, N.S., April 27.—Arthur N. Burgess, who was arrested in Toronto and was brought to Halifax to answer the charge of the theft of $700 worth of goods from the Robert Simpson (Eastern) Ltd., was honorably acquitted by Magistrate O'Hearn in the Police Court this morning.

HELP GIVEN TO UNEMPLOYED

Municipalities Have Received $133,093.42 So Far From Emergency Appropriation

Ottawa, April 27—(Can. Press)—That up to April 23, $133,093.42 had been paid by the Dominion Government to municipalities throughout Canada under the Emergency Appropriation for relief of the unemployed was stated in the House of Commons this afternoon. Winnipeg leads the list with $51,003.49 and Vancouver next with $49,457.

The municipalities and the amounts paid to them as the Government's share of the relief plan follows:

Amherst, N.S., $830.54; Montreal, $3,811.03; Winnipeg $51,003.49; Moose Jaw $7,505.10; Saskatoon, Sask., $1,320.37; Regina, Sask., Sask. $10,640.24; New Westminster, B. C., $112.30; Vancouver $49,457; St. James, Man., $847.47; West Kildonan, B.C., $316.43; Burnaby, B. C., $146.; Nelson, B.C., $105.51; Prince Rupert, B.C., $1,558.45; The District of South Vancouver, B.C., $5,519.22; and Cumberland, B.C., $26.21.

Total $133,093.42.

Hudson Bay Railway

That a total of $20,590,443.33 had been expended on the Hudson Bay Railway, and that $14,284,552.62 of this amount was expended on the railway and $6,305,891.71 on the Port Nelson terminals, was stated in the House this afternoon in answer to a question by Thomas MacNutt (Salt Coats). An estimate, based on the original estimates, placed the cost of completing the railway at $8,410,000, but the proviso was added that under present conditions the cost of completing the railway would probably be twice that amount.

Three Bills Introduced

Three bills were introduced at the opening of the House this afternoon. The first, which was fathered by Dr. H. S. Beland (Beauce), provides for the use of the word "Maple" in connection with adulterated maple products, if the fact of adulteration is clearly indicated on the package. The second was the Government bill to amend the Bankruptcy Act which stands in the name of the Solicitor-General. No explanation of this bill was given.

The third which was introduced by H. M. Mowat, (Parkdale), seeks to set aside Monday of the week in which Armistice Day occurs, as a day of general thanksgiving.

CLINCHING MATTERS

"I can't see why you keep proposing to me. I am sure you can win some more beautiful woman to be your wife."

"But I think ugly women make the best wives."

GREEKS AND TURKS BOTH MARKING TIME

Activities Confined To Sporadic Encounters In The Southern Sector

Athens, April 27—The much discussed renewal of the Greek offensive against the Turkish Nationalists present activities on the front are being confined to sporadic encounters in the southern sector, yielding indecisive results. Both sides are apparently marking time, the Greeks awaiting fresh troops and supplies in order to present an unbroken front to the enemy and the Turks anticipating further forces from Cilicia.

The question of calling out additional classes of reserves still remains undecided. The government, however is conscripting every available soldier.

C.P.R. SLEEPING CAR SERVICE TO MONTREAL

The Canadian Pacific Railway sleeping cars attached to the night train leaving Palace Station, Quebec, at 11-45 p.m., daily for Montreal are now ready for occupancy at 9-30 p.m., instead of 10 p.m. These cars reach Montreal, Windsor street Station at 7-05 a.m. and Place Viger Station at 6-40 a.m., and may be occupied at the latter until 8.00 a.m. Mar18tf.

SEND WARNING TO PRIME MINISTER

Unemployment In Toronto Serious — Unusual Unrest In Some Quarters

Ottawa, Ont., April 27.—The Prime Minister received the following telegram relative to conditions in Toronto this morning:—

"Unemployment situation in Toronto serious. Unusual unrest in some quarters may be forerunner of dangerous situation which all veteran organizations in this city are anxious to avoid. Imperative that the government must make provision for ex-service men and women to meet exceptional situation fair and square by reinstating the Department of Soldiers' Civil Re-Establishment relief measures, also placing on army pay and allowance all bonafide unemployed ex-service men until absorbed into employment through government employment bureau.

"Representatives of all veteran organizations now assembled in conference are united in the above request and strongly recommend that the government open all necessary public work within their jurisdiction refer you to local officials of D.S.C.R. for confirmation.—(Signed) —G.W.V.A.—His Majesty's Army and Navy Veterans and the G.A.U.V. through J. B. Conroy Secretary, Toronto District Command, G.W.V.A."

CAPABLANCA IS CHESS CHAMPION

Dr. Lasker Resigned From Series And Conceded Title To Cuban

Havana, April 27—The tournament committee, which had in charge the International Chess championship match between Dr. Emanuel Lasker of Germany and Jose R. Capablanca, the Cuban expert, decided today to grant Dr. Lasker's request to resign the series and concede Capablanca the World's Championship Chess title. Dr. Lasker gave illness as the reason for the desire to cease playing.

The twenty-five thousand dollars involved in the match is being divided among the players as though the full twenty-four games of the series had been played.

The score in the tournament was four games won by Capablanca and ten games drawn.

The principals and the tournament officials gathered today in a small reception room at a local club to consider the letter of resignation which Dr. Lasker submitted Monday declaring he could not do himself justice because of illness. In addition to pleading illness, the German master tonight said he was convinced that in any event he could not have beaten Capablanca.

Capablanca said that while he would have preferred to win the title over the chess board, the action of the committee in calling off the match and giving him the championship was entirely satisfactory to him.

FOOTBALLERS HELD MEETING

Preliminary Assembly Of Quebec And District League Held Last Night

The Quebec and District Football League held a preliminary meeting at the Victoria Hotel last night. The President, Mr. L de B. Murray, occupied the chair, while Mr. H. Slater, the Secretary, looked after the minutes. A number of football enthusiasts were present as well as the delegates of the Junior Football League. The chief object of the assembly was to find out what teams would operate this season, and if anything was known of the intention of other clubs to apply for admission. It is pretty certain that the R. C. G. A. outfit will again operate, as well as two other military teams, who will make application at the next meeting. Messrs. Bell and Morton also signified their intention of entering a club. The question of the two boat teams, Victorian and Empress of France, was left over to be discussed at the next meeting.

The Junior League delegates signified their intention of amalgamating with the Seniors, and will make application at the next assembly.

As was the case at all meetings of local sporting organizations, the ground question was also on the programme. Capt. Wadner was appointed a delegate to interview a certain party in an endeavor to secure a playing ground.

Before adjourning a vote of thanks was tendered Mr. H. Fontaine for kindly placing a room at the disposal of the meeting.

MOTOR BOAT MAY WIN FROM TRAIN

In Race From Miami To New York--Actual Running Time Counts

New York, April 27—Although the Atlantic Coast Line Havana special which left Miami, Fla. early Monday morning in a race to New York, with the motor cruiser Gar II. Jr., arrived here last night far in advance of her sea rival, the boat's sponsors today had high hopes of ultimately winning the race.

This apparent anomaly was made clear here today when it was announced that the race was on a basis of elapsed running time and not of the actual arrival. The boat has been running only in the day time whereas the Havana special steamed ahead continuously.

Basis for hope that the speed boat which is owned by Garfield A. Wood, prominent Detroit sportsman and manufacturer, might yet come out victorious was contained in a telegram from the skipper announcing that the boat had averaged considerably better than thirty miles per hour in the open sea. The train ran on a schedule of slightly less than that speed.

It was expected that the boat will reach here late tonight.

GANDIL NO LONGER UNDER ARREST

Los Angeles, Cal., April 27—Arnold "Chick" Gandil, former Chicago White Sox player, arrested here last night to answer charges of participation in the alleged throwing of the 1919 world's series was released upon his own recognizance today. The police said they acted upon instructions from Chicago.

JACK DEMPSEY IN TRAINING

Heavyweight Champion Begins Work At Summit, N.J., For Bout With Carpentier

New York, April 27—Champion Jack Dempsey today began formal training at Summit, N.J., for his mitch with Georges Carpentier in Jersey City, July 2. Discarding his haphazard, open air play schedule, he did both road work and sparring and will hereafter work on a regular daily schedule.

Following a short walk and runs on the roads about his quarters he boxed eight rounds with two of his sparring partners. In the first set-to he faced Joe Benjamin for four reunds and then took on Jimmie Darcy for a similar distance. From now on Dempsey will gradually increase the amount of work he will do daily until he is following the regular routine which prevailed when he prepared for his contest with Jess Willard. Kid Norfolk and other light-heavyweights will join camp within the next few days.

Sporting Notes.

Washington took the lead in the American League yesterday by winning from New York, while the former leaders, Cleveland, were losing to Detroit.

• • •

George Kelly, of the New York Giants, bids fair to give "Babe" Ruth the race of his life for home run honors this summer. Kelly knocked his fifth four-base clout yesterday and is now tied with the "Babe."

• • •

Cricket may be revived in this city this summer. Followers of this port are endeavoring to secure suitable grounds, and should their efforts be successful, the game will go on.

• • •

Lack of playing grounds is what is bothering every sporting organization in this city, and should this great obstacle be overcome, Quebec City should be a sporting centre second to none in the Dominion.

• • •

The Prince of Wales and Lord Lonsdale, head of the National Sporting Club of London, have been invited to attend the Dempsey-Carpentier fight as guests of Tex Rickard, the promoter

• • •

It cost "Babe" Ruth $25 for driving his automobile up Broadway last week at 27 miles an hour on his way to keep an engagement with the New York Yankees.

Linen Industry in Canada

Dominion Linens, Ltd., Mangling and Ironing Department, showing Callanders, Hydraulic Mangles, Folding and Measuring Machines. Total floor space about half acre.

The linen industry was initiated in Canada in 1902 by Mr. William Berny, now Vice-President of the Dominion Linens Limited, Guelph, Ontario. Previous to this time, however, there had been several attempts at linen manufacture, and mills established in different parts of Canada, but all had resulted in failure. From the earliest period of human history till almost the close of the eighteenth century, linen manufacture was one of the most extensive and widely disseminated of the domestic industries of European countries. It was most largely developed in Russia, Austria, Germany, Holland, Belgium, Northern France, certain parts of England, the North of Ireland and throughout Scotland. In the latter part of the eighteenth century the invention of cotton spinning machinery gave the linen weaving industry a fatal blow. Domestic spinning and weaving began to shrink and with it hand loom weaving.

In 1815, at Darlington, England, a machine was invented, which after many improvements and modifications has become the perfect system of machinery with which at the present day linen spinning mills are furnished. The discovery of a process for the mechanical spinning of linen yarn for weaving into cloth by power loom was much slower than in the corresponding case of cotton.

There are two branches in the modern manufacture, spinning and weaving, to which may be added bleaching and various finishing processes. The flax fibre is received in bundles from the scutch mills and after having been classed into various grades according to the quality of the material, is labelled and placed in store ready for the flax mill.

When the manufacture of linen in Canada was successfully started, the idea was to purchase yarns from the Continental and Irish spinning mills, who were being supplied with Russian flax, at a price much below that for which flax could be grown in Canada. As most of the linen manufacturers in Ireland were weavers only, buying their yarns from spinners, it was thought quite possible and feasible that the same method could be employed with success in Canada, and prior to the war, the linen business depended entirely on these imported yarns to keep their plants in operation.

In the year 1913, it is estimated that Russia produced about 400,000 tons of flax, and other European countries, including Great Britain and Ireland, 100,000 tons.

With the complete collapse of Russia in 1918, it became evident that if the linen business was to be continued in Canada, it would be necessary to establish a spinning plant here, to spin the Canadian grown flax, which with the improved methods of cultivation, were proven equal to or better than the Russian flax, on which the industry had relied previous to the war. A modern flax spinning plant, which would complete the chain of linen manufacturers and make the business a purely Canadian one has been installed at Guelph and is now in full running order. This plant has been equipped with the latest modern dry and wet spinning systems. To secure the highest quality of linen yarns, workers were brought from Belgium, via the C.P.R., who were experienced in water retting flax, similar to the finest Flemish and Belgian flax which are used for producing the highest grade linens.

School Girls' Nerves

"I give my children Nerve Food during examinations, and am sure it helps them," writes a Vancouver lady.

AFTER the long school term the children's nerves are keyed up to the highest pitch. The fear and worry of examinations are often the last straw which brings the nervous breakdown.

It is usually the naturally nervous child who has the greatest ambition, and by denying his or herself the requisite amount of outdoor exercise comes up to the examinations with too little energy and vitality left.

Fortunately the child's system quickly responds to such restorative treatment as Dr. Chase's Nerve Food. The blood is enriched, the nerve cells are replenished and health and vigor is soon restored.

Mr. S. F. Flarity, Wiarton, Ont., writes:

"My daughter, eleven years of age, was in a run-down condition and suffered from a nervousness which showed a tendency toward St. Vitus' dance. I got a few boxes of Dr. Chase's Nerve Food for her, and by the time she had taken three boxes there was a big change in her. She is much stronger, and her system in general is built up. She has recovered from her nervous weakness, and you could not detect a trace of it now."

Dr. Chase's Nerve Food is in a class by itself as the most popular of nerve restoratives. 50c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

EQUALIZATION OF FREIGHT RATES

Between East And West Being Fought Out Before Railway Commission

Winnipeg, April 27—(By Can. Press)—The fight for equalization of freight rates between the East and West has commenced. Expected almost daily for the past two weeks at the sittings of the Railway Commission in various Western towns it did not materialize until practically the last case on the agenda of the Winnipeg sitting.

This morning's session, so far as equalization of rates was concerned, was almost purely preliminary and was more or less a sparring between counsel as to the furnishing of information on the part of the Railways, with the Chief Commissioner leaning apparently in a desire also for the information sought for by H. J. Symington, on behalf of Manitoba and Saskatchewan.

The specific information desired is the earnings of the Canadian Pacific by divisions. C. H. Chrysler, K.C., representing the Railway Association of Canada, and E. P. Flintoff, Assistant General Counsel for the Canadian Pacific both declared that what information the Railway Company could give would be willingly handed out. In this instance, however, the Company's accounting did not give earnings by divisions and therefore could not be obtained. G. G. McGeer, for Vancouver and British Columbia joined with H. J. Symington in pressing for these figures intimating that they could be arrived at by the Canadian Pacific Railway without undue difficulty and were very necessary.

Chairman B. F. B. Carvell said so far as concerned himself he had taken very seriously the charges of discrimination against the West and felt that the earnings by divisions would be of considerable help in arriving at decision as to whether or not there was any discrimination in the present rates.

Prior to the freight rates hearing commencing, D. A. Clarke, Chairman of the Shippers section of the Board of Trade read a report of a meeting held Tuesday afternoon between Eastern and Western representatives of Boards of Trade.

A little later J. B. Coyne, K.C., stated to the Commission that he was appearing on behalf of the Winnipeg Board of Trade and that it had not changed its position regarding alleged discrimination in freight rates against the West.

VIVIANI IN FRANCE

Havre, April 27—Former Premier Viviani who recently completed a mission in Washington for the French Government, arrived here today from New York. He left immediately for Paris.

THE NECESSITY OF PREPARATION

Unemployment Of Staggering Proportions Inevitable Next Autumn

Ottawa, April 27—(Can. Press)—The necessary of preparation at this time for unemployment "of staggering proportions which will inevitably occur next autumn" was placed before the Special Committee on Pensions and Re-Establishment today in a letter from C. O. MacNeil, Dominion Secretary Treasurer of the G. W. V. A.

After setting forth the "Department of Labor statistics regarding continued reduction of employment" and stating that returned soldiers were actually suffering from lack of work at the present time.

Mr. MacNeil in his letter stated: 'Returned soldiers are not petitioning for unemployment doles, except as a last resort to prevent starvation.

"Returned soldiers believe that the responsibility rests with your Committee to recommend the commencement of enterprises which, in promoting a general revival of industrial conditions, will provide all with useful employment. It is still further believed that such enterprises may be conducted in a manner that will provide those not yet reestablished with suitable opportunities".

FRANK CARVELL WON'T EXPRESS ANY OPINION

Chairman Of Railway Commissioners Will Not Speak On Shaughnessy Proposal

Toronto, April 27—A special despatch to the Star from Winnipeg, says: "At least one person will not voice an opinion on the proposals of Lord Shaughnessy."

This is Frank Carvell, Chairman of the Board of Railway Commissioners. He was all settled on Tuesday night, to give out a statement when told that the Public had been waiting for it. Then he suddenly changed front and said: "No, I guess I have been talking too much already. I have nothing to say.

Many think I have been making a fool of myself and I am not going to give them an opportunity to say it in this issue. His "not" was emphatic and he persisted in that stand."

MONTREAL'S POPULATION.

Montreal, April 27.—The population of Montreal last year, according to estimates made by city assessors was 758,045 people of whom 475,807 were French-Canadian, 101,271 English; 55,173 Irish; 31,724 Scotch and 94,075 of other nationalities.

BIBLE SOCIETY TO MEET YEARLY

In Future Work Will Be Carried On By Two Sub Committees

Ottawa, April 27—In future the work of the Canadian Bible Society will be carried on by two sub-committees, one East and one West of the Great Lakes, under the direction of the parent body. This decision was reached at the meeting of the general board here this afternoon. At was the result of a report made by a committee which went to Winnipeg to discuss the situation, the Committee being composed of Rev. C. W. Gordon, Rev. W. J. Southam, Winnipeg; Rev. S. J. Farmer, Ottawa; Mr. A. Donovan, Toronto, and Rev. P. A. Goodwin, St. John.

A plea for the emergency fund of the British and Foreign Bible Society was made by Rev. W. B. Cooper, D.D., the General Secretary. The parent society is facing an overdraft of nearly half a million dollars, he said.

It was decided to meet annually instead of every two years, the next meeting to be in the West.

Dr. N. W. Hoyles, of Toronto, who has been President since the founding of the Canadian Society was re-elected.

The practice of the principles of the Gospel was a nation's hope of greatness and the world's only hope of peace was the testimony of Senator Gideon Robertson, Minister of Labor, and Mr. A. R. McMaster, M. P., representing the Prime Minister and the Leader of the Opposition, speaking at a luncheon tendered by the general board.

DEATHBLOW GIVEN IN THE ONE BIG UNION

Withdrawal Of Street Railwaymen's Unit Regarded As Significant In Winnipeg

Winnipeg, April 27.—The Winnipeg Free Press to-night says: Impending withdrawal of the Street Railwaymen's Unit from the One Big Union, coupled with the announcement this morning of the resignation of Victor H. Widgley, general secretary, is regarded by International Labor men as the deathblow of the One Big Union. The street railway conductors and motor men are holding a mass meeting to-night ostensibly to consider their new wage schedule, the old one expiring at the end of this month. It has developed, however, that the street railway company has refused to negotiate with the One Big Union for a new agreement.

LAND IN SPLENDID CONDITION IN WEST

Heavy Falls Of Rain And Snow Assure Ample Moisture This Year

Winnipeg, April 27—The Grain Trade News will say to-morrow:

"Heavy falls of both snow and rain have occurred during the past week over much of the Western territory. This has caused considerable delay with the work on the land, which was becoming very general, and in some of the heavy land districts and where the precapitation was heaviest it is expected that seeding will be delayed till near May 1st. One of the features of the moisture which has fallen is the fact that it has been pretty general, many of the districts which have been exceptionally dry for several years, are assured of ample moisture to germinate the seed.

With the soil in such splendid condition, no apprehension is felt at the delay in seeding and as the area of prepared land is ten percent greater than in 1920, somewhat later seeding is unlikely to reduce the acreage to any extent.

ITALIAN STEAMER IS LISTED AMONG "MISSING"

London, April 27—The Italian steamship Monte San Michele, which left New York on February 2nd last with a cargo of grain for Genoa, has been given up for lost and was today added to the grim list of "Missing ships" which is posted by Lloyds. The Monte San Michele was a ship of 6,500 tons gross register and carried a crew of 45 men, signed on in Italy. She was built in 1919 and was originally known as the War Odyssey.

NO CHANGE FOR INCOME TAX RETURNS

Ottawa, April 27—(By Can. Press)—In the House this afternoon Sir Henry Drayton, Minister of Finance, said there was no proposal to change the date on which income tax returns had to be in, but a consolidating bill would be brought down. The penalties for non-observance of the Act would be ameliorated but there was no provision for changing the method of securing information.

RAILWAY SHOPS CLOSED.

Montreal, April 27. — The G.T. Ry. shops and C.P.R. shops here closed to-day for a week, 7,000 men are affected.

The men, who are temporarily laid off, held indignation meetings, claiming that the McAdoo award under which they are operating, was based on the idea that they would be given steady employment.

Purity Ice Cream the Deliciously Different Kind

Everybody has eaten Ice Cream, everybody likes Ice Cream, more or less, but to really like it and to know its superior goodness, you must taste PURITY ICE CREAM. There's a freshness to its flavor, there's a richness embodied in its making and there's a velvet smoothness to its texture, which, combined with its absolute purity, give a pleasure you will instantly detect. PURITY ICE CREAM is in truth the "DESSERT OF ALL DESSERTS." It is even more. It is made of the richest cream and pure fruits and in its deliciousness are stored away the most nutritive of food properties. Don't let a day go by without having PURITY ICE CREAM.

The Purity Ice Cream Co's plant in Montreal is one of the nine operated by the PURITY ICE CREAM COMPANY interests. Years of experience in the manufacture of PURITY ICE CREAM have been brought into play in its planning and construction. The highest scientific principles and most advanced inventions for the sanitary and quality manufacturing of Ice Cream have been followed and installed in it.

Eat Some Purity Ice Cream Every Day

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

GOLD MINES ARE NOW VERY ACTIVE

Big Season Of Production Is Being Generally Anticipated—Production Costs

Cobalt, April 27—The gold mines of Northern Ontario are stepping out to show just what they can do. The stage is set for a real step forward in yellow metal production. Prior to the war several of the big mines were just coming up. Many others were just starting development and most of them, especially those of Kirkland Lake, were non-existent. Gradually these new properties have been opened up and the larger ones brought up to the state of efficient organizations, but there has always been something to impede their progress. The war provided an acute labor shortage and several of the mines were forced to suspend altogether. It was just past the middle of last summer that this condition began to right itself and in its place came the power shortage.

However, today troubles have been set aside and the march forward is in progress. True, some of the mines would be pleased if there was a lowering of costs, but not one of them will suffer materially by the present prices as the margin of profit in all cases is sufficient to warrant their going ahead. Last year the gold production of the province reached the handsome total of $11,000,000, passing that of silver for the first time in the history of the province. Generally speaking it is thought that the last three-quarters of this year will more than equal that amount.

Many Discoveries Made.

Of course it is hard to prognosticate when the gold production will reach the peak. New gold camps are coming up every day. It is to be noted that claims of discoveries involve over one hundred townships yet at present the production is confined to but three, although there are two or three others which should soon have working mines.

The Porcupine camp is the first to spring ahead. At the beginning of the week, the mining companies were notified by the power companies that they could increase to their full power capacity whenever they wished as the power was ready for them.

The Northercrown just at the proper time has made an excellent gold discovery. On the 500-foot level $20 ore has been opened up. The discovery was made while opening up a section of the main vein of the mine in the hopes of locating ore.

The Hidgood of Kirkland Lake will reopen the first of next month. This mine is carrying out the pioneer work in Lebel township. The shaft is down 300 feet and considerable lateral work has been done.

Within a short time the Lake Shore expects to tap No. 2 vein on the 600-foot level.

The Goldale Mining Co., which had taken over the Bewick-Moering interests in Porcupine, east of Pearl Lake, is going to open up. There is a good plant on this property. The new interests are New Yorkers.

Allied-Porcupine in Field

The Allied-Porcupine Gold Mines, a new company, is to take over the combined interests of the Three Nations and Le Palme. These properties include some veteran claims bringing the total acreage up to a square mile. It is in the northeast part of Whitney near the Keora.

The Bailey has just sent out an excellent shipment of high-grade silver. Development on the Bailey shows that he new ore shoot recently reported is larger than was first thought. Officials of the company appear quite satisfied with the progress made.

Mining Corporation.

There have been rumors about that the Mining Corporation was to resume as soon as the wages were cut. There is no official authorization for this report. Quite extensive alterations in the plant are being made and it is certain that work will not go ahead until this is concluded.

The Kerr Lake company has exercised its option on the Hargreaves silver property. The price was about $17,000. This will wipe out the debt of the Hargreaves but leave little for the stockholders. The property adjoins the Kerr Lake and can be easily worked by the extension of the Kerr Lake drifts.

April26tf

BACK TO THE MINES

"Well, Rastus, I hear you are working again. What business are you engaged in now?"

"Ise done be in the de mining business, sah'."

"What kind of mining are you doing—gold, silver or diamond?"

"Ise doing calsomining, sah."

THE CONSCIENTIOUS JURYMEN.

The fair plaintiff was decidely fair, plump and alluring. The jury had been out for half an hour when the foreman of it asked a word with the judge.

"Your honor," he said, "the lady is suing the gentleman for $10,000 for a stolen kiss?"

"Correct," answered the judge.

"You are to decide if it was worth it."

"That's just the point, your honor. The jury believes that it needs a sample to decide."

SHORT

They were talkin g about dwarfs.

"None of 'em you've mentioned," ifn-ene.. n",n cadare uwff:aqd!.eo said Smith, "can come up to one I knew. Why, when his corns hurt him"—

"Yes" they chorused as he hesitated.

"Every time his corns hurt him," repeated Smith, "he thought he had the headache."

A WOMAN CLERGYMAN.

Boston, April 27.—A woman for the first time in the history of the Protestant Episcopal Church in Massachussetts, has been elected to the administrative office in the diocese held by a member of the Bishops council to which she was elected by the recent annual diocesan convention here.

FIND MASTODON'S REMAINS.

Arlington, Ore., April 27.—The remains of a mastodon have been discovered in Butcher Knife Canyon about four miles south-east of Arlington by a sheep herder. One of the tusks has been brought to Arlington. It measures nine feet from the base which is 12 inches in diameter, to the tip and is a perfect specimen.

HIS REASON

"I wish you would tell me," said the agent, who had been a long time on Mr. Snaggs trail, "what is your objection to having your life insured?

"Well, I don't mind telling you," replied Mr. Snagga. The idea of being morevaluable dead than alive is distasteful to me.

FRENCH SPICED MUSTARD

"GEODITE"

A SUPERIOR PRODUCT

The ideal condiment for use with meats, poultry, fish, salads and to flavor various sauces.

Geodite mustard is one of the incomparable products of the firm of Julien Mack of Dijon, France, where good mustard originated. Capers put up by the same firm are specially recommended to add relish to white gravies etc. Capers aid digestion.

Taste the above choice products and you will surely adopt them.

Ask your dealer for the above brand. If he cannot supply you just telephone or write us giving us his name and we will see that you are supplied

A TWO FAMILY BUNGALOW

DESIGNED BY CHAS. S. SEDGWICK, ARCHITECT

HERE is a plan for a two family bungalow, each apartment has about five hundred square feet and the space is nearly equally divided. There is one central chimney with one separate flue for each apartment, this will accommodate a heater in each separate basement and flue for kitchen. The design is arranged for a corner, with one entrance approached from one street and the other from the oth street, in this manner keeping the two apartments entirely separate. Each has a porch entrance of same size and living rooms each 14 ft. x 15 ft., also separate stairs to each basement which is full and complete. The bath rooms are on opposite sides. The estimated cost is $4,500 to $5,500 exclusive of heating and plumbing.

The construction is frame and covered with wide drop siding, or "Colonial siding." The upper sections and gables are stuccoed and the foundation is of concrete with full basements fully equipped for laundries, heating, fuel, etc. There are two good sized bed rooms, one for each and well fitted kitchens with pantry cupboards and small rear porches with space for refrigerators. There are also good closets for each. The roof is covered with creosoted shingles stained to suit and the wide siding stained a Mission brown with all cornices, casing, etc., painted white. The floors in two living and bed rooms and the casings are designed to be of oak, the kitchens to be finished with linoleum on the floors and the woodwork of pine and enameled white. The main entrance steps are of cement concrete or may be of hard brick.

WHY WOULDN'T IT?

The drummed looked across the aisle. The seat beside the pretty girl was vacant. Going over, he said: "Is this seat engaged?"

"No said the girl, "but I am; so it won't do you any good."

C.P.O.S. STAFF CHANGES MADE

Circular Issued By Mr. C. E. E. Usher Passenger Traffic Manager, From Montreal

Cnanges in the passenger staff of the Canadian Pacific Ocean Steamship Service have been announced in a circular issued by Mr. C. E. E. Ussher, Passenger and Traffic Manager of both the rail and ocean services, which are as follows:

Mr. W. G. Annable, at present general passenger agent, is appointed assistant passenger traffic manager, and Mr. Wm. Ballantyne, now assistant general passenger agent, will be general passenger agent. Mr. H. M. MacCallum, now general agent at Toronto, is appointed assistant general passenger agent at Montreal in place of Mr. Ballantyne, and Mr. H. B. Beaumont, general agent, Montreal, will be general agent at Toronto. The position of general agent here will be filled by Mr. J. E. Parker, at present city passenger agent, Montreal, and Mr. G. S. Reid, passenger agent of the Port Staff, becomes city passenger agent, Montreal, succeeding Mr. Parker.

SCHOONERS CAN NOW BE CLEARED

From This Port Without Certificated Captains Despite Gasoline Engine

As a result of the exclusive report made in the shipping columns of the Chronicle on Wednesday, April 20th, which also included an interview with Mr. Louis D. Hudon, representing the Franklyn Lumber Co. and other lumber interests on the North Shore of the Lower St. Lawrence, schooners in the coasting trade, fitted with gasoline engines, having a tonnage of less than 100-tons can be cleared from the port of Quebec without being obliged to employ a certificated captain the same as at the port of Montreal.

The difficulty that has ended in this ruling, was brought about on the 19th instant, when Mr. Hudon endeavored to have cleared a schooner with supplies for lumber camps in the Lower St. Lawrence, this schooner, the San Lucas, being fitted with a gasoline engine. The Customs official applied to for a clearance refused, on the ground that it came under the category of a steamship and should carry a certificated captain. Mr. Hudon, with a copy of the Shipping Act, made a protest, exclusively in the Chronicle, on the 19th, and on the following day his statement was published. The same day the Customs official in charge of this clearance branch was interviewed, and in quoting from the Shipping Act, mentioned that all schooners over five tons, carrying freight or passengers, were under obligation to carry a certificated captain, as they came under the heading of steamships.

The Board of Trade then took the matter up, and learned from Montreal that local schooners of less than 100-tons, fitted with gasoline engines, were cleared from that port. The Board then carried a complaint of discrimination to the Minister of Marine and Fisheries, with the result that a telegram was received from the Deputy Minister of the Department yesterday to the effect that a schooner under 100-tons, fitted with a gasoline engine, could be cleared without the employment of a certificated captain.

SHIPPING NOTES.

The C.P.O.S. steamer Minnedosa, which sailed from Liverpool at 3 p.m. on the 20th, with 511 cabin and 1,384 third-class passengers, 2,201 bags of mail, and 882 parcels, was reported at Cape Race yesterday at 4:25 Greenwich time, and is due to arrive at Quebec tomorrow morning.

• • •

The steamer Turret Cape arrived up at 12:20 a.m. yesterday.

• • •

The steamer Troutpool passed up at 1:25 a.m. yesterday.

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-tives" The Fruit Medicine

R. R. No. 1. Lorne, Ont.

"For over three years, I was confined to bed with *Rheumatism*. I treated with doctors, and tried nearly everything without benefit. Finally, I tried "Fruit-a-tives". *Before I had used half a box I saw improvement;* the pain was easier and the swelling started to go down

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

ALEXANDER MUNRO.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

GOVT. DECISION STATED IN HOUSE

In View Of Present Situation, Do Not Intend Meeting Interest Payments

Ottawa, April 27—(Can. Press)—The Dominion Government's decision to meet no further Grand Trunk Pacific Railway bond interest payments at the present time was stated on the House at question time today.

Answering a question by P. F. Casgrain (Charlevoix-Montmorency) Sir Henry Drayton, Minister of Finance, said that the Dominion Government had paid $295,755.50 interest on bonds guaranteed by the Province of Alberta and $1,155,755.72 on bonds guaranteed by the Government of Saskatchewan. In view of the present situation, the Government did not intend meeting interest payments which fell due on May 1. Other announcements were, that:

The accounts between Canada and Great Britain had not yet been finally settled. The balance due the Dominion as at March 31, 1921 was $144,408,746.63.

This was exclusive of certain outstanding items unadjusted and charged up, such as rail shipments and incidental costs, the requisition of ships of Canadian register and adjustment as to rate of exchange, etc.

Indebtedness on European countries to Canada was:

Italy, principal amount due $6,-003,301.20, interest nil;

France, principal $5,648,726.60, interest nil;

Belgium, principal $6,291,225.64, interest nil;

Rumania, principal $20,571,227.23 interest $1,475,234.96, as at April 1, 1921;

Greece, principal $7,478,953.39, interest $153,915.63 as at December 31, 1920.

WHAT HE PRAYED FOR.

The pastor was interrogating the pride of the family.

"And do you always say yourr prayers before you go to bed?"

"Yes, sir," replied Johnnie.

"And what are the things you pray for?" pursued the good man.

"Well," responded Johnnie, thoughtfully, "mostly that pa won't find out what I've been doin' during the day!"

The steam barge Iquifar passed up at 8:45 a.m. yesterday.

• • •

The Elder-Dempster steamer Kaduna passed up at 12:35 p.m. yesterday.

• • •

Steamcoal barge No. 6 arrived up at 2:10 p.m. yesterday.

• • •

The steam barge Hunt passed up at 6:45 p.m. yesterday.

• • •

The steamer Montrollite passed down at 6:30 p.m. yesterday.

• • •

Captain Michael Doyle, master of the steamer Venusia, the first trans-Atlantic liner to reach the port of Montreal, will be presented with a gold-headed cane today by the Montreal Harbor Commission.

• • •

St. John, N.B., April 27—Passenger traffic at this port for the season will be brought to a close this afternoon with the sailing of the C.P.O.S. liner Melita for Liverpool with approximately 350 cabin and 550 third-class passengers.

• • •

The new 8,350 dw. ton steamer Canadian Commander, which underwent a successful trial run on the 19th, was turned over to the Canadian Government Merchant Marine Tuesday by her builders, Canadian Vickers, Limited. In the afternoon the vessel proceeded to Windmill Point to bunker, following which she will begin loading for her maiden voyage to Avonmouth. She is due to sail on May 4th. Her sister ship, the Canadian Leader, which will also be delivered by Vickers, within the next few days, is scheduled to sail on May 11th for India and the Far East.

• • •

A total of 653 steel vessels belonging to the United States Shipping Board, having a total deadweight tonnage of 4,279,551, have now been tied up or ordered withdrawn from service by the Board. The initial cost of these vessels was in excess of two billion dollars. With records of slight improvement in various trades, it was hoped last month that the worst of the depression was over and that the number of idle vessels would not greatly exceed 600. When its managing agents proved unable to find cargoes for the ships allocated to them the Shipping Board had no recourse but to lay up the vessels. No effort has been made to disguise the fact that these ships which have been kept in operation during the last three of four months have generally sustained heavy losses.

THE JUDGES' ACT WAS DISMISSED

Progress Was Reported In Senate Yesterday — West Indies Trade

Ottawa, April 27—(Can. Press)—In the Senate today on the bill to amend the Judge's Act, exempting the salary of the Chief Justice of Canada from income taxation, Senator Ross, Middleton, moved another amendment that before Judges could act on these commissions they should receive the consent of the Chief Justice of the Province, or, in the event of his absence, the consent of the senior Justice and of the Minister of Justice.

Senator Proudfoot remarked that he would like to move an amendment striking out the entire clause governing the serving of Judges on commissions.

The Committee thereupon rose and reported progress. The West Indies Treaty Bill received a second reading.

Discussing it, Senator Bostock said an attempt should be made to develop trade between the West Indies and the Pacific Coast via the Panama Canal, the Canadian Government Merchant Marine to be used for this purpose.

The Senate adjourned until 3 o'clock to-morrow.

NO WONDER.

Jeweler (to new boy) — Did you sell anything while I was out, Harold?

New Boy—Yes, sir. I sold six plain gold rings.

Jeweler (very much pleased) — Good my boy. We'll make a first class jeweler of you one of these days. You got the regular price, of course?

New Boy—Oh, yes, sir. The price was marked on the inside, 18c., an' the gentleman took all there was left, sir.

CHANGE OF TIME EFFECTIVE SUNDAY, MAY 1ST., 1921.

The Canadian National Railways announces the following change in their train service effective, Sunday, May 1st, 1921.

From Levis Station.

Train No. 4 "Maritime Express" will leave Montreal (Bonaventure Stn.) 11.00 A.M. daily, arrive Levis 4.00 P.M.; leave Levis 4.15 P.M. arrive Halifax 5.05 P.M. daily except Sunday.

Train No. 3 "Maritime Express" will leave Halifax daily except Sunday and arrive Levis 1.50 P.M.; Leave Levis 2.05 P.M., arrive Montreal (Bonaventure Stn.) 7.40 P.M. daily.

Trains Nos. 1 & 2 will operate on same schedule as at present.

Train No. 32 will leave Levis 7.20 A.M. daily except Sunday; arrive Riv. du Loup 11.50 A.M. and Campbellton 9.15 P.M.

Train No. 31 will leave Campbellton daily except Sunday 8.45 A.M. and arrive Levis 8.55 P.M.

Train No. 36 Daily except Saturday and Sunday, will leave Levis 3.15 P.M. arr. Riv. du Loup 7.35 P.M.

Train No. 38 Saturday only will leave Levis 1.15 P.M. arrive Riv. du Loup 5.40 P.M.

Train No. 35 will leave Riv. du Loup 4.25 A.M. and arrive Levis 8.25 A.M. daily except Sunday.

Train No. 29 Sunday only leave Riv. du Loup at 6.10 P.M. arrive Levis 10.20 P.M.

Train No. 30 Sunday only leave Levis 7.20 A.M. arrive Riv. du Loup 11.50 A.M.

From Union Palais Station.

Trains Nos. 51 and 52 will operate on same schedule as at present.

Train No. 11 will leave Quebec 5.00 P.M. daily for La Tuque and Cochrane, making connections for Winnipeg and Western points.

Train No. 12 from Cochrane and La Tuque will arrive Quebec at 12.20 noon, daily.

Train 46 will leave Montreal (Bonaventure Station) 9.30 A.M. and arrive Quebec 3.40 P.M. daily except Sunday.

Train 45 will leave Quebec 12.01 P.M. daily except Sunday and arrive Montreal 6.15 P.M.

Train 34 will leave Montreal 11.30 P.M. and arrive Quebec 6.40 A.M. daily.

Train 33 will leave Quebec 10.55 P.M. and arrive Montreal 6.10 A.M. daily.

Parent Square Station.

Train No. 23 will leave Quebec at 9.45 P.M. Monday, Thursday and Saturday arriving Chicoutimi 8.50 A.M. Tuesday, Friday and Sunday.

Train No. 24 will leave Chicoutimi 6.15 P.M., Sunday, Tuesday and Friday and arrive Quebec 5.45 A.M. Monday, Wednesday and Saturday.

Train No. 151 will leave Quebec, Sunday only, 8.10 A.M. arrive St. Raimond 9.55 A.M.

Train No. 152, Sunday only, leave St. Raymond 7.30 P.M. arrive Quebec 9.15 P.M.

Train 25 will leave Quebec, daily except Sunday, 4.20 P.M. and arrive St. Raymond 6.15 P.M.

Train 26 will leave St. Raymond daily except Sunday 5.55 A.M. and arrive Quebec 7.40 A.M.

Train 10 will leave Montreal 8.30 A.M. arrive Quebec 3.45 P.M. daily except Sunday.

Train 9 will leave Quebec 12.30 noon daily except Sunday, arrive Montreal 7.45 P.M.

Train 20 will leave St. Prosper 5.40 A.M. and arrive Quebec 8.00 A.M. daily except Sunday.

Train 19 will leave Quebec daily except Sunday 4.20 P.M. and arrive St. Prosper 6.45 P.M.

Train 40, Sunday only, leave St. Felicien 7.10 P.M. arrive Chambord 8.40 P.M. connecting at Chambord with train No. 24 for Quebec.

Train 41, Sunday only, will leave Chambord 9.18 P.M. arrive St. Felicien 10.45 P.M. connecting at Chambord with train No. 24 for Chicoutimi.

All Trains Operate on Standard Time.

CITY CLERK'S OFFICE.

BY-LAW No. 2N.

By-law to Amend By-laws Nos. 2B and 2G Re--Taxes.

(Drawn up in the French Language)

At a meeting of the City Council held the 22nd of April, 1921, the following B-law was read for the first time.

It is ordained and enacted by a By-law of this Council, and the said Council ordains and enacts as follows to wit:

1o Article 23 of By-law No. 2 passed the 24th March, 1911 as amended by Article 17 of By-law No. 2G passed the 23rd April, 1918, is repealed and replaced by the following:

23. Every person keeping a Laundry in the City of Quebec, on his own account, or as agent for other persons, must before exercising his trade, obtain a license to that end, for which license, said persons must pay a sum of one hundred dollars.

2o. Article 2 of By-law No. 2G passed the 23rd April 1918, as amended by Article 2 of By-law No. 21 passed the 25th April, 1919 and as amended by Article 2 of By-law No. 2M passed the 29th April,1920, is repealed.

3o. Article 1 of By-law No. 2B passed the 19th April, 1912, as amended by By-law No. 2K passed the 25th April, 1919, is amended by replacing said Article by the following:

1o. To contribute to the payment of expenses for the wants of the civic service, for the fiscal year 1921-22, it is hereby imposed on every imposable immoveable in the City of Quebec, according to the dispositions of the law 8, George V. chapter 83 Article 14, and assessment of one cent and 4-10 per dollar of the actual real value,, commercial and —?— —of every such immovable, said tax shall be levied according to law, on every such unmovable, as aforesaid.

4o. Article 9 of By-law No 2 passed the 24th March 1911, as amended by By-law No. 2A passed the 29th September, 1911, as amended by By-law No 29 passed the 23rd April, 1918, and as amended by By-law No 2I passed the 30th August, 1918, replaced by the following:

9o. Every person, or company carrying on the business of transporting persons from one place to another in the City, for gain or profit whatever by using any kind of vehicle whatever, must before exercising said trade, obtain a license for the price of which he must pay the sum of eleven dollars for every vehicle.

Every person or company carrying on the business of transporting from one place to another in the City for gain or profit whatever, merchandise, material, or other effects whatever, by using any kind of vehicle whatever, must before exercising said trade, obtain a license for which must be paid the sum of fifteen dollars for every vehicle

5o. The following Article is added after Article 9 in By-law No 2 passed the 24th of March 1911, to wit:

9a. An annual tax of five dollars is imposed and payable by every person, using a sprinkler for general use in a stable or coach house, for the washing of automobiles, taxicabs, or other motor vehicles. The watering hose having more than 3-4 of an inch in diameter with an orifice of more than 1-4 of an inch is forbidden in the city.

6 The following Articles are added after Article 21 in y-law No. 2 passed the 24th March, 1911, to wit:

21a. Every Peddler, ininerant dealer, dealer, packman, public vendor, selling only small articles, such as small pamphlets, small pictures, shoe laces, letter paper, and enevelopes, metal polishing material shall before exercising his trade or business obtain a license for which ten dollars shall be paid.

Said license is issued only on a written recommendation from His Worship the Mayor, and a numbered piece of metal as the same as the number registered on the license obtained from the Chief of Police of the city, and to be worn in a visible manner by every person to whom the above license has been granted.

21b. Every Scissors or Knife-Sharpener, or umbrella repairer, or repairer of other articles, soliciting from door to door, shall before exercising his trade or business, obtain a license for which he shall pay five dollars.

21. Every travelling musician, mechanical lano player, or player of any other instrument, shall before exercising his trade or business, obtain a license for which he shall pay ten dollars.

21d. All persons soliciting or taking orders for the confection of photographs, or exercising the art of photography, for gain, in any other place than a business place, inscribed in the assessment roll, shall before exercising his business or trade, obtain a license for which he shall pay ten dollars.

21e. Every proprietor or tenant of a dancing hall, shall before opening said hall, obtain from the Chief of Police, a license for which he shall pay one hundred dollars.

21f. Every person exhibiting in public to advertise medicine or other merchandise or for any other end, shall before doing so, obtain from the Chief of Police a permit for which he shall pay ten dollars.

7 Article 41 of By-lay No. 2 passed the 24th March 1911 is repealed and replaced by the following:

41o. Whomsoever shall be found guilty of any infraction of the dispositions of the present By-law shall be liable to a fine not exceeding one hundred dollars and in default of payment of said fine and costs to an inprisonment for a space of time not exceeding three months.

8o. The present By-law is declared primary part of By-law No. 2

9o. The present By-law shall be put in force on the 1st of May, 1921.

8. The following Article is added to Article 2 in By-law No. 2 passed 24th March, 1911.

2a. A personal and annual tax of two hundred dollars is imposed on every person in possession of a permit obtained in virtue of the dispositions of the law concerning spirituous liquours, sanctioned the 25th February, 1921. (11 George V. ch. 24-25).

Public Notice.

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 29th April, 1921.

BY-LAW No. 39.

By-law concerning the inspection of manufactories, theatres, etc., for prevention against fire.

(Drawn up in the French Language)

At a meeting of the City Council of the City of Quebec, held on Friday the 22nd of April instant, (1921) the following By-law was read for the first time.

Whereas Article 15 of the Law 11 George V. Ch. 110.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts:

1O. For the prevention of fire, in this city, it is hereby enacted that an annual inspection shall be made of manufactories, stores, theatres and other buildings, in which a great many persons work or have access.

2O. Every proprietor of such building thus inspected shall pay an annual fee as follows, to wit:

Manufactories and other places of business operating with electric or steam power, $3.

Theatres, places of amusement, public garages for automobiles, hotels, receiving travellers, $3;

Wholesale stores, store houses, banks, buildings wherein are offices for rent, $3.00

Retail stores (including any kind of business, $1.50.

Restaurants, taverns, dining rooms, $1.50.

Carriage Makers' Shops, blacksmiths, joiners, in which any kind of motive power is used, $1.00.

3O. The inspectors appointed to that end, by the City, are hereby authorized to enter at any convenient hour in the building hereinabove mentioned, to make an inspection, and report to the Clerk of the Recorders Court of any infractions to the law or to the By-laws concerning the precautions to take against fire or to prevent fires.

4O. Whosoever is found guilty of any infractions to the dispositions of the present By-law is liable to a fine not exceeding $40.00 for each infraction, and in default of payment of said fine and costs, is liable to an imprisonment for a space of time not exceeding two months.

5O. Said fine might be imposed for each day during which said infraction shall be committed or continued.

Public Notice.

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 29th April, 1921.

Compound Your Victory Bond Interest

On May 1st more than $30,000,000 in interest will be paid to holders of Victory Bonds. We suggest that the recipients put this money to good advantage by promptly reinvesting it in further Victory Bonds, or in other high grade Government and Municipal Bonds. We offer a selection of these bonds, with a wide choice of maturities, and possessing the same facilities for prompt and convenient interest collection as do Victory Bonds. The yield ranges from 6% to 6.80%

Egg Market

Ottawa, April 27—The general tone of the egg market is not so strong the demand is not so urgent for supplies, and the offerings are steadily increasing in many instances. Ontario track shippers are storing on their own account rather than accept loss on present trading.

Toronto specials are jobbing at 38c, extras at 36c, firsts from 34c to 35c, and seconds from 28c to 30c.

Carlots of inspected extras are reported being offered at 36c to 37c, f. o. b. free export cases.

Montreal steady. Quotations unchanged, yesterday's receipts 6,988 cases, the heaviest of the season to date.

Closing Letters By Local Brokers

(By Bruneau & Co.)

New York, April 27—The market in the past few days has had a nice advance and there has been active short covering in all departments besides some good long buying. The bear interest is not dead by any means as shown by this morning's opening when the steel report was used as an excuse for active selling of the list and especially of U. S. Steel.

After that time the market hesitated for a while but showing from time to time a disposition to rally but when the reduction in the Penna dividend was announced price broke in quite an activity and the market closed weak under what looked like a renewal of the bear attack with a consequent material crisis in the short interest. There have been all sorts rumors in regard to the Penna dividend would be paid and to have this, our greatest railroad, and no doubt the greatest in the world, after a record of twenty one years of paying dividends at 6 percent or more, reduce its quarterly dividend today is indeed a sad commentary on the already bad situation of the railroads as a whole and it is to be hoped that it will add another argument toward the necessity of railroad wage reductions, which matter is so bitterly opposed by the railway unions, no one knows exactly why, except for their own selfish purposes. It is quite apparent to the most casual observer that wages cannot be kept up to their present high level and expect a decrease all through the country. The wage reduction is of especial importance in the case of the railroads in order that all prices of the necessities of life which are carried by these same railroads may be reduced.

Sales 870,200.

(By Breen, Gourdeau & Charlebois)

New York, April 27—Lower prices pretty generally prevailed at the opening of the stock market today, but an improving tendency set in shortly afterward. Mexican Pete, General Asphalt, Bethlehem Steel and Republic Iron & Steel were especially favored in this upturn, while the sugar stocks remained heavy, selling pressure being apparent.

On the whole, price changes pursued a rather irregular course up to mid-day, when a sharp advance in General Asphalt tended to have a favorable effect on the whole list. Trading quieted down somewhat in the afternoon, although prices held fairly well around the best prices of the day. United Fruit was a particularly bright feature in the afternoon. A combination of realizing and bear selling occurred prior to the close, resulting in good sized losses from the high prices of the session.

Sales, stocks 870,000; bonds $8,400,000.

(By L. G. Beaubien & Co.)

New York, April 27—Announcement of Penna R. R. dividend reduction to 4 per cent basis put a different complexion on the market and considerable selling followed. This centered on the rails and resulted in declines of 1 or 2 points in Penna itself and other leading issues. At same time pressure appeared in the active industrials such as the steels, oils, equipments and motors so that the reaction spread to these quarters.

The declines were orderly, however, and no marked weakness developed. Closing figures were practically low prices of the day, however, and barring favorable developments on the Reparations question which would naturally alter the outlook, the market still seems in a vulnerable position. Sales 870,000 shares.

The Montreal Stock Exchange

Montreal, April 27—Outstanding in point of net changes in today's trading on the local stock exchange was the banking group which while not active was weak.

Ten shares of Merchant's Bank sold down 8 1-2 points to 170; 35 shares of Commerce were down 4 1-2 points to 187; and 32 shares of Nova Scotia sold down two at 255.

Union was, however, up two at 155; Molson's gained a fraction and Royal a point.

In the Paper group the trend was downward, with Wayagamack unchanged and Howard Smith up one at 81. Abitibi was down 1 7-8 points at 30 3-4; Brompton down a point at 32; Riordon, down 3-4 at 31 3-4. Spanish common, down 3-4 at 68 and the preferred down half a point at 76.

Breweries lost 2 1-4 points at 42 and Dominion Steel preferred was down 1 7-8 points. Tractions were shaded and other utilities were steady. Power was active and unchanged. Bonds were relatively strong, although the 1937 "Victories", in which dealings totalled half the whole turnover, was a fraction lower.

Total sales, listed 5,674; bonds $355,400.

Sugar Market

New York, April 27—The raw sugar market was quiet early today with both Cubas and uncontrolled sugars available on the basis of 3 7-8 for Cubas, cost and freight, equal to 4.89 for centrifugal. No sales were reported.

Refined was steady at 6.75 to 7.00 for fine granulated, but there was no improvement noted in the volume of business. Aside from May, which was four points lower at midday under scattered liquidation, the futures market was steadier on covering and trade buying with prices 1 to 8 points higher.

Closing Letters Canadian Press

(By Canadian Press)

New York, April 27—The uneven and irregular course of today's stock market was influenced by the conflicting and confusing developments such as the United States Steel quarterly report, the Pennsylvania Railroad dividend cut and fresh complications in the German indemnity tangle.

Of these the most influential was the showing made by the United States Steel Corporation, which fully confirmed the general impression of increasing slackness in that industry.

Steel common reacted to an extent of 2 points and most of the allied independents made a recessions of two to four points. Rails enjoyed a brief upward spurt at midday on news that the Inter-state Commerce Commission had ruled in favor of existing inter-mountain freight rates but much, if not all, of this advantage was forfeited in the final hour on receipt of word that the Pennsylvania dividend had been cut from 6 to 4 percent. Professional pressure seemed to be directed against a number of the highest priced specialties, including tobacco subsidiaries; Oils, leather, sugars and kindred issues suggested a resumption of short selling at gross declines of 2 to 11 points, a heavy tone ruling at the close. Sales amounted to 800,000 shares.

The money market followed its recent monotonous course, all demand loans being made at the fixed rate of 6 1-2 per cent, that figure being fully one percent over outside quotations. Indications of ease were seen in time funds, including commercial paper. All foreign exchange quotations were lower, the French remittance forfeiting all of yesterday's substantial advance and Scandinavian rates, especially Stockholm, breaking sharply.

Liberty bonds continued to lose ground and Pennsylvania Railroad issues were affected by the reduced dividend on the stock. Other changes Domestic and foreign, were irregular. Total sales (par value) aggregated $9,850,000.

Daily Gossip On Leading Stocks

Indications are not wanting that this Continent has entered upon that phase of post-war readjustment, the ultimate consummation of which will be the restoration of a state of "normalcy"; and it is, therefore, opportune to point out that the duration of this phase will influence the development of a robust investment market.

• • •

Publishers in the United States have been practicing economy in the use of newsprint and magazine paper. This was partly forced upon them by a heavy shrinkage in advertising. The New York Post-Office reports that second-class matter, newspapers and magazines mailed from New York during the first three months of the current year amounted to 52,000,000 pounds in weight, as compared with 72,000,000 pounds during the first quarter of 1920.

This curtailment of the use of white paper has brought about a decline of two cents per pound in prices, but at 5c the prices are still about double what they were before the war. It is noticeable that some of the magazines which were swelled by advertising space to burdensome proportions, have become emaciated. "Financial America" says regarding the paper situation:

'With the decline in national advertising and the use of paper we have begun to curtail in recent months the large amounts spent in Norway, Sweden, and Canada for wood pulp. Wood pulp imports in February were about a third of those a year earlier. January's were reduced about 40 per cent. Paper imports were still high. The depletion of material supplies, with high freights, high wages, and other costs at home have doubled our news paper imports since 1914. Last year America spent $69,000,000 for foreign news print, against $11,000,000 in the pre-war year. Development of Alaska's resources in timber and water power as urged by the Interior Department would provide a domestic source that would meet all our needs. Meanwhile, the economics practiced by the buyer of paper and advertising should bring home to the paper manufacturer the need of cutting costs and prices in his industry to the level of other products.'

• • •

The movement on the whole of the stock market recently, while establishing some decided gains, was not particularly impressive, although it must be admitted that at the recent low levels most of the adverse factors in the situation appear to have been discounted and the market is in a position to respond favorably to the removal or modification of financial and industrial apprehension and uncertainties.

• • •

The market in the opinion of many followers of the tape presents a more satisfying picture than it has for many months. Each day it becomes apparent that the extended short interest has spread itself too far and is in dangerous ground. The failure of the various bear drives to depress general market prices to any appreciable extent gives evidence that a large accumulation is taking place in the greater part of the list.

1,000,000 SHARE DAY ON STREET

Favorable Influences Imparted New Strength To Trading In New York

(Mail and Empire)

Publication of a highly favorable weekly statement for the combined Federal Reserve banks and a second advantage in the price of Pennsylvania crude, together with higher quotations for low-grades of Eastern crude oil, imparted strength to the stock market today, and resulted in the establishment of new high prices for this movement in several directions. Gains ranged from 1 to 3 points in the most active issues. Railroad shares were steady, but failed to participate in the demonstration, which resulted in total transactions of more than a million shares.

Oils were favorites, under the leadership of Mexican Petroleum, which made a new top for the present advance. Transcontinental also made a new high.

Foreign exchange was higher. Cotton was steady, without material change, but wheat declined from 3 to 5c a bushel. Coffee was also under pressure.

General expectation is that the Burlington issues will be formally offered to-morrow to investors. Some dealers have already started resorting to subterfuges to obtain subscriptions. Some were today offering 101 1-2 for Burlington joint 4s, provided the owner selling the securities guarantees to subscribe to, the new Northern Pacific-Great Northern joint 6 1-2 per cent. offering. This is considered a technical violation of the syndicate agreement.

Commission houses report that they are doing a larger business than they were ten days ago. There is little evidence, however, of a return of the general public. Some of the largest houses were inclined to believe that prices had reached the top for this movement, and were advising their customers to sell for a reaction.

The Pennsylvania Railroad Company directors are scheduled to meet Wednesday and take action on the dividend, which, rumor had it today, would be cut to 4 per cent. The road now pays 6. One rumor had it that the payment would be reduced and paid in script, but little credence was placed in that story. Some small wagers were made that the regular payment would be made.

Orpheum Circuit was strong easly in the session on reports of good earnings and statements that the company is in a strong cash position.

Island Oil was active in anticipation of the announcement of a favorable development.

The earnings of the United States Steel Corporation for the first quarter of this year will be announced shortly after the close of the stock market to-morrow. The figures are expected to show substantially more than the quarterly dividends earned on both classes of stock. Net earnings are expected to approach $30,000,000, which would compare with $43,877,862 for the fourth quarter of last year. The Bethlehem Steel earnings, to be announced soon, is expected to show more than the dividends earned on all classes of stock.

The Toronto Produce Market

Toronto, April 27 — Manitoba wheat, No. 1, Northern $1.76 5-8; No. 2 &1.78 1-8; No. 3 $1.61 5-8; No. 4 $1.48 5-8.

At The Theatres

"The Money Changers," a Gigantic Play, at the Classic Theatre Today

Behind tenement windows and tenderloin "joints"; behind the gaudy splendor of chop suey palaces and the inscrutable stare of silent celestials; behind the furtive glance of the street corner's slouching figure and the brazen appraisal of the loitering woman; behind the sinister, mysterious night shadows of the swirling Metropolis smoulder a life of intrigue which is but the visible expression of the turmoil of the classes.

It is but a step from the glitter of Fifth Avenue to the glamor of the underworld. The vices and virtues of men and women are alike in silks or in soiled garments. A false move, a shot from a darkened doorway, and the morning papers are aflame with a sensational story involving influential citizens with deeds of depravity.

O Henry, who knew his "Bagdad on the Subway," disclosed with colorful accuracy, bizarre adventure of the mysterious underworld. What O. Henry was to literature, Upton Sinclair and Benjamin B. Hampton are to motion pictures in producing this amazing feature, "The Money-Changers," which paints in powerful colors the highlights and shadows of the mysterious metropolis. No lover of life, no seeker of adventure should miss its exquisite thrills and its exciting, overwhelming climax. "The Money-Changers" will be presented at the Classic Theatre today with an all-star cast.

The third episode of "The Purple Riders," a Comedy and the Pathe Magazine are also on the bill.

Elaine Hammerstein, at the Victoria— "Buster" Keaton is on the Same Bill

"Poor Dear Margaret Kirby," by Kathleen Norris, will be Elaine Hammerstein's next Selznick Picture to be shown at the Victoria Theatre today, and the readers of this novel will agree that nothing could be found which is better suited for Miss Hammerstein's personality.

Margaret Kirby is the wife of John Kirby, a man of considerable means. One of his admirers is Rutherford Pell, also a wealthy man. One day, through force of financial reverses, John Kirby is pressed for ready cash. He asks Margaret to negotiate a loan from Pell. She indignantly refuses. A few days later Kirby returns home a ruined man, and the first sight he witnesses is Pell placing a valuable string of pearls around Margaret's neck. Hastily jumping at conclusions Kirby attempts suicide by taking poison. He is frustrated, but the poison has entered his system and he becomes a physical wreck. Upon the reports of the loss of the Kirby's money their social friends desert them, and it devolves upon Margaret to become the breadwinner of the family. How she does this and keeps the pathetic results of their actual status concealed from John Kirby is said to constitute a most apepaling story.

"Buster" Keaton in "The Haunted House" is also on the bill.

Womens' Work.

April 1921, finds work among the Women's Institutes of this Province forging ahead. In most instances the annual meeting is past, and programmes for the coming year well outlined.

• • •

During the last few weeks the Institutes in the Counties of Missisquoi, Dummond, Pontiac, Ottawa, and others have been favored with visits from our Superintendent, Miss Roach and her able assistant, Miss Buzzell. These visits with their accompanying lectures and demonstrations are producing good results among the institutes. The bright young Women Institute workers never fail to leave an influence that is stimulating and helpful.

• • •

An appeal was made to the Women's Institutes for their assistance in the McGill Campaign. A report of their efforts at that time, has just come to hand, and we find four hundred and forty dollars was raised by these organizations.

• • •

The illness of the local Superintendent, Miss Roach, who is in hospital in Montreal suffering from Scarlet Fever is recorded with regret. Sympathy and hope for a speedy recovery is extended to her by many friends inside and outside the Women's Institutes.

• • •

To-day and next Thursday a member of the General Turner Chapter, I.O.D.E., will be at I.O.D.E. Headquarters to receive all the work that is ready to turn in. Members who have not yet returned their made-up work, should do so at once.

• • •

It has been decided by the Quebec Ladies' Golf Club, at a special meeting called for the purpose of considering this matter, that the work of enlarging their quarters be commenced. This enlargement consists of extending the kitchen and locker room of the Club which are now inadequate. To meet the expense entailed, members are to be asked for subscriptions of from $1 to $5 a piece. The Club House, as it is, will be open to players next week, but the opening tea will not be held until the completion of the alterations. It was also decided to admit thirty women from the waiting list as partial members, having the right to play on three mornings a week only. Permission had to be received from the men's club to increase the membership in this way.

• • •

The Y.W.C.A. Ladies' Auxiliary will meet for one of their usual sewing meetings this afternoon. Next Thursday they will hold their annual meeting and election of officers.

• • •

The Cathedral Branch of the Women's Auxiliary as well as the Girls' Branch of the Auxiliary of that parish have suspended their meetings for the present, but will resume work in the autumn. The Junior Branch, also of the Cathedral has not yet closed for the season.

• • •

Several prominent members of the Societe Canadienne Francaise have just founded and organized in Montreal a Society called, La Ligue des Femmes Cretiennes, the object of which is to combat the growing lack of modesty in women's clothes. Already ten thousand women have joined what seems to be an important movement of protest in this connection. The organizer of the Ligue is Madame Edmond Brossard, and the officers are as follows: Honorary Presidents, Lady Gouin and Madame Rosaire Thibaudeau; President, Madame Albert De Lorimier; Vice-Presidents, Mesdames Charles Archer, L. E. Pauneton, Zephrin Hebert, and Edouard Garceau; Secretaries, Mesdames, Albert Hebert and D. J. Byrne.

Movie Notes.

Richard Dix has just signed a two-year contract with Goldwyn, it is announced by that company. His first work for Goldwyn was in Rupert Hughes' original screen story, "Dangerous Curve Ahead!", not yet released, in which he has the male lead, opposite Helene Chadwick.

• • •

Lewis S. Stone, who is seen in the leading role of Goldwyn's production of "The Concert," narrowly escaped being a sailor. At seventeen he sailed before the mast and began the study of navigation, but when he learned he could not get a pilot's license until he was twenty-one he decided to change his profession.

• • •

James Mason, who played "Red Pawl" in the Goldwyn picture, "Godless Men," under the direction of Reginald Barker, is the son of James Kent Mason, one time Colonel of the 22nd New York Regiment. He was born in Paris and came to America at an early age, where he was educated at Cornell.

• • •

The high cost of cooks does not worry Mabel Julienne Scott, who plays the role of Delphine in "The Concert," a Goldwyn picture. Her brother William, also in the movies, likes to cook as a hobby. When Mabel gets home in the evening she finds dinner waiting for her.

• • •

J. Frank Glendon, leading man in Goldwyn's production of Gouverneur Morris' "A Tale of Two Worlds," was born in Choteau, Mont., and educated at the Montana Wesleyan University. Mr. Glendon's father, a Methodist minister, was first cousin to John A. Logan, while his mother's cousin, James B. Blaine, once ran against Logan for the presidential nomination.

Notice of Sale

Public notice is hereby given that by virtue of an ordinance of J. O. Roy, Deputy Prothonotary of the Superior Court, of the District of Quebec, dated April 25th, 1921, the undersigned, notary will proceed, at his office 49 Fourth Avenue, Limoilou, on Friday the Thirteenth day of May, 1921, at ten o'clock beforenoon, with the sale and adjudication of the following immoveable property belonging in undivided half part to the minor children of the late Mrs. Peter Blackburn; to wit: the lot of land measuring about 24x90 feet with a house and all dependancies thereon situated on 3rd Avenue, Limoilou, and designated under the number 508-291 of cadastral plan of Parish of St. Roch, north of Quebec, in the City of Quebec; with a common wall dividing this property from the next one built on lot number 508-290 on the north side, of same cadastral plan.

For the conditions apply to the undersigned notary.

R. C. de la CHEVROTIERE, Notary.

49, 4th Avenue, Limoilou.

Quebec, April 27th, 1921.

HER SUFFERING OF LIFETIME IS ENDED

Can't Express Gratitude I Feel Toward Tanlac Says Mrs. Burrington

"From childhood until I got Tanlac, I suffered from indigestion and stomach trouble,' said Mrs. J. A. Burrington, 540 Stanford Ave., Los

MRS. J. A. BURRINGTON
Los Angeles, Calif.

Angeles, Calif., "and that's been a long time, for I'm now in my sixty-eighth year.

"I remember when I was a child I was kept on a strict diet of lime water and milk for weeks and I have been in constant distress all these years. I suffered terribly from bloating and had to be very careful of what I ate. I became so weak and nervous I could hardly go about my housework and was in a miserable condition.

"About two years ago my husband got such splendid results from Tanlac he insisted on my taking it and the medicine wasn't but a little while in ridding me of my troubles. It gave me a splendid appetite and I could enjoy a hearty meal, even things I hadn't dared touch before, without any fear of it troubling me.

"Then I had the influenza and became dreadfully sick and weak, but my stomach kept in good order and it only took four bottles of Tanlac to build me up again to where I'm now feeling better than at any time I can remember. I have gained eleven pounds in weight, too, and words can't express the gratitude I feel toward Tanlac. I keep Tanlac in the house all the time now, for I know it is a medicine that can be depended upon.

Lieut. and Mrs. Moffatt arrived in town yesterday from Montreal, and are guests at the Chateau.

Mr. and Mrs. R. T. Sterling of Philadelphia, arrived in town yesterday and are registered at the Chateau.

Mr. Arthur Gagnon, Chief Accountant of the Public Works Department, and family have taken up their summer residence at Lorettieville.

The Rt. Rev. Arthur Dunn, D.D., Bishop of British Honduras, and former Rector of St. Michael's Church, Bergerville, who has been spending a few days in town left last evening for New York, where he will embark for Belize. Last Sunday His Lordship preached in St. Matthew's Church to a large congregation, in which he spoke of the needs of his vast diocese. His former parishioners and his many friends in this city were pleased to find Bishop Dunn looking so well, notwithstandig his arduous duties, and all wish him bon voyage and further success in his important work.

Chronicle Files 100 Years Ago

The King's Birthday.

Monday last being the anniversary of St. George's Day, the day set apart as His Majesty's Birthday, it was observed with the usual ceremonies. The Royal Standard was hoisted in the morning at the Citadel, at twelve o'clock a feu de joie was fired on the Esplanade by the military and troops in garrison, and at 2 o'clock there was a levee at the Castle.

In the evening a number of gentlemen, presided over by the Hon. H. W. Ryland, sat down to dinner, at the Union Hotel, where the best of everything the season offered, with the choicest wines, was served up to the entire satisfaction of the company, who did ample justice to the viands, and in the course of the evening offered full libations to the rosy god but not to an extent in any degree to lessen the harmony of the company, many of whom remained to a late hour. Among the toasts were:

"The Health of His Majesty the King 4 times 4.

"The Health of the Royal Family 3 times 3.

"The Day, and may the patriot King who has chosen the anniversary of England's Saint for the celebration of his own birthday, and placed his chief glory in promoting the happiness of his people, ever experience on their part the grateful return he merits."

Chronicle Files 25 Years Ago

The Floods.

Mr. Alph Gagnon, of this city, writes to the French newspapers suggesting that instead of the costly celebrations this year of the festival of St. Jean Baptiste, the money that they would cost in various parts of the country, together with a general collection in all the parishes, be devoted to the relief of the unfortunate sufferers by the late floods in different parts of the Province.

Must be Stopped.

Complaints are made that members of one of our military organizations, on their way home from rifle practice a day or two ago fired off blank cartridges on the streets. The authorities should look into the matter at once. Such practices cannot be permitted.

St. Joseph's Day.

The Festival of St. Joseph was celebrated on Sunday morning last by a magnificent musical service and Grand Mass at the Church of St. Jean Baptiste, in this city, under the auspices of the St. Jean Baptiste Society. Mgr. Tetu officiated at the Mass, and a number of distinguished guests were present at the service.

Mrs. D. W. Morgan.

Universal sympathy will go out to Mr. David W. Morgan in the sad bereavement which he has been called upon to endure in the death of his wife, which occurred at an early hour yesterday morning. The deceased lady was a favorite with all who knew her, and many warm friends will regret her early decease, which was the result of a cold contracted several months ago.
