SALE OF WATER POWERS BY PROVINCIAL GOVERNMENT

To Take Place in Salesroom of Department of
Lands and Forests Interfered With
by Dominion Government.

PROVINCIAL MINISTER RECEIVES PROTEST

The sale of Provincial water powers, advertised by the Provincial Government to take place this morning in the Department of Lands and Forests, presided over by Hon. A. Turgeon, has been ordered postponed by the Dominion Government, and cannot take place unless in defiance of the order received by telegram yesterday.

For a month past the Department of Lands and Forests of the Province of Quebec, have advertised in the Provincial newspapers, and county weeklies the sale of certain water powers by auction, in the salesroom of that Department this forenoon at 10.30 o'clock, and just on the eve of the auction, and when a number of buyers have reached the city to bid for the same, comes a hint that the auction must be postponed.

This notification was received by the Provincial Minister in the form of a telegraphic despatch, pending the arrival of a written official protest from the Federal authorities, stating that the request is made until the question of right is studied in regard to the disposal of the water powers advertised or any other such powers that is connected with navigable rivers, said to be the exclusive property of the Federal Government.

In addition to the telegram received from the Dominion Government by the Minister of Lands and Forests, Hon. Mr. Hyman, Dominion Minister of Public Works, forwarded a copy of the despatch to a legal firm of Quebec with instructions to call upon the Minister and present him with a protest against the sale in behalf of the Dominion Government, and also obtained the sale in case it should take place, and warn all interested purchasers of the notice served on the Provincial Government to the effect that control of the said waters is alone vested in the Dominion Government, and no sale by the province can be recognized as derogating from Dominion rights. The telegraphic notification received by the Provincial Minister of Lands and Forests, special-

MILITIA BRANCH

Of the Dominion Subject to
General Severe Criticism
by Militia Officers.

The Canadian Militia Department is the subject of general severe criticism these days by militia officers and others well up in military affairs, and the present Military Council at Ottawa is blamed for the existing state of affairs. A military officer speaking of the Department yesterday said he was surprised at the gait it was running contrary to the public good and likewise of the service. The officer in question regretted that he could not make known his identity for publication, which would be looked upon as a breach of military discipline, and if he did talk in multi it was on account of the lamentable conditions existing, which were going from bad to worse every day without a halt being called. He said the Military Council at Ottawa was nothing less than an oligarchy, whose chief business was to increase their own salaries, as was evidenced in the advance copy of the Canadian Military Gazette, and discriminate against Tommy Atkins without any compunction of conscience. He pointed out that when the non-commissioned officers of the R. C. G. A. and R. C. R. were withdrawn to proceed to garrison Halifax, they were compelled to wear their summer caps for three weeks in the cold winter that prevailed before being served out with their winter head covering. He also alluded to the small number of non-commissioned officers and privates on the Citadel and R. C. R. barracks to garrison the important city of Quebec and its valuable property and blamed the situation on the apathetic indifference of the department, which was not studying the interests of the common soldier. There were not more than 125 men of all ranks, including the personnel of the State Band, on the Citadel, where there should be at least 320 and even a larger number to look after the fortress. The R. C. R. only contained 76 men of all ranks, a mere corporal's guard, out of a stipulated complement of 100 men, and the number in both cases mentioned were not augmented by recruiting, it was the fault of the Ottawa Military Council, which only sought to increase instead of mitigate the lot of Tommy Atkins and imprimerize the Canadian army with officers from abroad without need.

In order to demonstrate how the private soldier is discriminated against and the sources of recruiting so limited, the Chronicle's informant pointed out how the staff officers at Ottawa had increased their salaries to \$6,000 and at the same time kept the private soldier's home to the grinding stone. He said in the past a soldier purchased a razor from the Government stores for 12 cents, while to-day he is compelled to pay 55 cents. Beretor sergeants were served with gauntlets and fur caps free of charge, and to-day they are compelled to pay \$1.50 for the former and \$6 for the latter; sergeants frocks heretofore cost the man \$3.50 and to-day they are charged \$4.10; cloth tunics in the past cost \$5, to-day they cost \$6.90; drawers used to cost 60 cents, at present they cost \$1.10; grey shirts cost in the past \$1.10 and to-day the men must pay \$1.35.

Formerly the men were furnished with a complete issue of clothing every year, and if a soldier took care of his clothes and his commanding officer found that they were good enough to last a second year the man was allowed the money value of the new uniform.

But under existing new rules the men are only served out with two uniforms for every three years they serve, and if any of them shall have through care been able to save a suit he is only allowed two-thirds the value of a new uniform, paid to him after six months from date of application.

In days gone by the men were allowed \$1.50 for alteration of their clothing and at present they are only allowed \$1, and it is this in all things appertaining to the private soldier, a marked reduction in all things, while the staff officers go on increasing their salaries and allowances.

Another hardship referred to by the informant officer is the great difference in field allowances of the officers and men. A field officer is allowed \$2 per diem extra per day, a captain \$1.75, a lieutenant \$1.50, a warrant officer 75 cents, staff sergeant 35 cents, a sergeant 25 cents, a corporal 15 cents, and Tommy Atkins 10 large cents, notwithstanding that his cost of living is just the same as a warrant officer, who is allowed 75 cents. Besides this when instructors or men are not away on duty they are only allowed 25 cents to pay their board instead of 50 cents as heretofore.

These are only a few grievances, said the Chronicle's informant, that go to show the indifference the warfts of the private soldier, and one of the chief reasons why the recruiting sergeant is meeting with such poor success.

In the meantime the expenditure of the Militia Department is growing by leaps and bounds, without any beneficial return. The militia of Canada is not improved, but on the contrary, is in a worse condition comparatively than ever, and this is altogether due to the oligarchical military council at Ottawa, who seem to rule the responsible minister, who is either devoid of a proper standard of intelligence or merely a staminal or simply a tool instead of a master of his subordinates.

However, no matter where the fault lies it is apparent to the public that the situation should change for the better, and the only way to accomplish this end is to revoke the order in the Dominion Executive Council, creating the military council before a cataclysm is the result.

ONE YARD OF SILK FREE TO EVERY PURCHASER OF 4 YARDS.

ALL THIS WEEK there will be great excitement in the Silk Department—every lady in Quebec will be sure to contribute her share to the general buzz in this busy department. We confidently expect to make this the busiest week of the whole year—and this is how we're going to do it. Every purchaser of 4 yards of silk will be given an extra yard absolutely free! Just stop a moment and try to realize it! This means that if you want five yards of silk you only have to pay for four. But that isn't all—the main feature of this unique offer is that it covers every bolt of every variety of silk in our entire assortment, regardless of price. It doesn't matter if you want the cheapest or the most expensive silk in the house—

Paquet's Little Fashion Talks. No. 13. REVIVAL OF TUSSEAR.

THIS season marks the return of a very old friend known as Tussear Silk. Just how long this beautiful fabric has been out of favor, and why, it would be difficult to say. Its revival was predicted almost a year ago and that prediction is now being fulfilled. We are showing it in the delicate pastel tints and in grey and beige.

this offer is good if you come this week. Don't lose a day—this is an offer we couldn't afford to repeat, no matter how much we might wish to. Remember, our prices are already the lowest in Quebec!

THREE FAVORITES AMONG THE FASHIONABLE BLACKS.

DAME Fashion has declared that every woman who wishes to be considered correctly gowned must have at least one Black Dress. This need not necessarily be all black—many of the newest creations in summer costumes are of Black Mohair or Sicilian, relieved by a touch of color or a dainty garniture of white. For summer wear, there is nothing to compare with these delightful fully cool materials. Our showing is the largest and choicest to be met with anywhere in this section of the country. Have a look at these.

- Black Alpaca, 40 44 inches wide, the genuine Bradford Manufacture, exceptionally serviceable and suitable for summer dresses, prices per yard.....25c to 90c
- Black Sicilian, 45 inches wide, beautiful finish, light and firm, fine brilliant black, a very desirable costume material, our price per yard.....75c
- Fancy Black Sicilian, charming designs in self checks and fancy markings, just what you will choose if you are judges of feminine taste, prices.....70c to \$1.40

RICH TAFFETA RIBBONS.

OUR Ribbon Department is a never-ending source of interest to our lady customers. There are so many charming varieties and shades from which to select, and the prices are so insupportably low that it is little wonder it should be so popular. We are making a special feature of Taffetas this week.

5 pieces, fine Taffeta Ribbon, 51-2 inches wide, very newest designs in plaids, checks and overchecks, unequalled value at our special price per yard.....55c

Also a large assortment of delicate shades in plain Taffeta Silk Ribbon, 51-2 inches wide, a regular 25c. value which we are selling right along at per yard.....19c

MEN'S SILK HANDKERCHIEFS.

THE finishing touch to a smart and perfect-fitting suit is a natty silk handkerchief, with a colored border. This is worn with either one or two of the corners projecting from the breast pocket and showing both the border and the white silk inside. Our showing of Men's Silk Handkerchiefs comprises all the newest ideas in fancy borders.

5 dozen, Fine Silk Handkerchiefs, size 18 x 18 inches, white with colored borders, regularly worth 45c. each, your choice.....29c

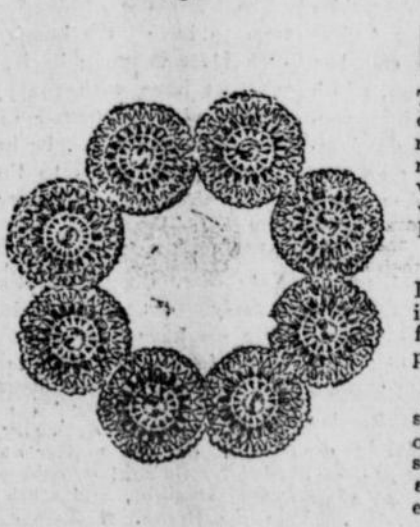

Plain White Silk Handkerchiefs, size 17 1/2 inches square, hemstitched borders, embroidered initials, very handsome, regular price 30c. each. Special price, each.....19c

A RARELY GOOD TIME TO BUY SILK AND LISLE GLOVES.

RIGHT in the midst of the "Wedding Month" comes this remarkable offer in Ladies' fine Silk and Lisle Thread Gloves. Was ever anything more timely? You know how useful and serviceable real Silk Gloves always are—Paquet's Silk Gloves in particular. The reason for this is a special purchase, of course, we couldn't offer such values as these if we had been forced to pay the regular price. We really didn't need to say a word about it—but that's not our way. Here is the good news in detail:—

- 3 dozen pairs, Ladies' Fine Silk Gloves, Ivory shade only, made without buttons, just the very smartest thing for Weddings and commencement exercises, regular price 45c. a pair, your choice while they last, per pair.....29c
- 5 dozen pairs, Ladies' Fine Silk Gloves, white or black, assorted sizes, made with two dome fasteners, not quite such a fine quality as the other style but well worth the regular price 30c., your choice, per pair.....19c
- 20 dozen pairs, Ladies' Lisle Thread Gloves, white only, not all sizes, made without buttons or clasps, matchless value at the regular price 15c. per pair. Come and take your choice at, per pair.....12c

Dainty Teneriffe Lace Doyleys.

DO YOU NEED A LAP ROBE ?

DON'T say no—and then turn your attention immediately to something else. You do need a Lap Robe—that's why we are telling you about ours! Did it ever occur to you to spread a shawl or blanket on the grass these cool summer evenings? That's what a Lap Robe's for. Then when you take your afternoon nap in the hammock—you need a Lap Robe to throw over your shoulders.

50 only, English and American Lap Robes, 50x70 inches, colors: Eerie, Blue, Red and other shades, checked or fancy designs, made with knotted fringe. Special price, only.....69c

Notions and Sewing Requisites.

USEFULNESS is the predominant characteristic of these doyleys. There are a thousand and one different uses such as table mats, centerpieces, sideboard mats and so on. Your silver will show up to the best advantage if you use these doyleys on your sideboard.

40 dozen, Teneriffe Lace Doyleys, size 6 inches and 8 inches in diameter, made of fine white thread, special prices, each.....7c and 10c

Teneriffe Lace Doyleys, 10 size, suitable for centerpieces or covers for small tables, same style as above, remarkable value at our special price each.....15c

THE Notion Department is prepared to supply all your needs in Thread, Tape, Needles, Buttons and Dressmakers' requirements generally. This department is daily increasing in popularity, owing to the matchless prices which prevail.

5 gross, White Pearl Buttons, sizes 16, 18 and 20 only, either 2 or 0 holes as desired, regular price 7c. a dozen. Special 2 dozen for.....7c

Besides these, there are always special inducements in this department which lack of space often prevents us from mentioning. If you form the habit of coming regularly, you will hear of them.

MEN'S AND BOYS' LINEN HATS.

SUMMERWEIGHT hats are in great demand just now. The hot weather has come to stay. Don't imagine for one minute we are going to escape altogether, just because it was rather late in getting here. This summer promises to be a "scorching" and no mistake. And that reminds us of a cool summer hat—how'd you like a linen hat this year? We have them in every shape and every size, colors: Grey, Brown, Fawn and White, just about the lightest and naggiest thing out, unless you can afford a Panama. Let us show you these Linen Hats for Men and Boys, the prices are only.....50c to 75c

HANDSOME SILVER WEDDING GIFTS FOR THE JUNE BRIDE.

WHEN you choose a Wedding Gift, it must be, first of all, of unquestionable quality. Then you must consider the price—it mustn't be beyond your means. Our policy overcomes all your difficulties in these respects because we will sell you anything except what is of the best quality for a wedding gift, and our prices cannot be matched in Quebec for equal value. Be sure to see our assortment before you finally decide to buy. If it is not too much trouble, we would urge you to look around town first—then come and compare our prices with what you have been asked.

INVESTIGATING THE BIALYSTOK HORROR

No Less than Three Enquiries
to be Held.

A GOVERNOR'S STATEMENT

Thought a Little Blood-letting Would be
Useful—Protests Reach President
Roosevelt.

Bialystok, June 20.—Three official investigations to determine the responsibility for the excesses of the last week will be prosecuted. These are to be conducted by the commission of the lower house of parliament, the Minister of the Interior, and the Ministry of Justice. All witnesses of violence and sufferers by the excesses are invited by the Ministry of Justice to submit depositions to the judges of the local courts. The police are enforcing the restoration of pillaged property.

London, June 21.—The correspondent of the Jewish World, asserts that in replying to a Jewish deputation which visited him before the Bialystok outbreak, the governor of Grodno said he thought a little blood letting would be useful, adding: That was the case in June, 1905. Only 40 Jews were killed and we had peace for six months afterwards.

London, June 21.—The Tribune's correspondent at St. Petersburg asserts that Emperor Nicholas is urging General Trepoff to organize a cabinet and that the Emperor has summoned M. Pobedonostoff, former Procurator of the Holy Synod, to an audience at Peterhof to-night. A despatch from Riazan to the same paper reports that the Bolshoi regiment has mutilated and killed several of its officers.

London, June 20.—The Jewish Chronicle of this city says it has received a telegram from Bialystok announcing that the murderer of Chief of Police Derkatchoff, who was shot and killed here May 30th, was a former policeman. The Jews had previously been accused of the crime.

Washington, June 20.—Protests have

G. SEIFERT & SONS,

JEWELLERS,

16 FABRIQUE STREET, QUEBEC

The Quebec Chronicle

QUEBEC, JUNE 21, 1906.

THOROUGH.

There is no doubt about the present City Council being a reform Council. It has set about reforming our markets, reforming our drinking habits, and now it has undertaken to reform our language. Henceforth the Quebec public will understand that if it wants to take a drive, otherwise than on the electric cars or an automobile, it must engage a "cabman." If it engages a "carter" it is liable to be carried down to a freight depot and have a tag put on it. We shall soon throw Boston in the shade.

BIALYSTOK.

Bialystok, which takes its name from the River Biala on which it is situated, is a Russian town situated to the southwest of Moscow, from which it is distant about fifty-five miles by rail. It possesses a population of about forty thousand, and the chief occupation is the production of woollen stuffs, which gives employment to between thirty and forty factories. It is here that the recent Jewish massacres have occurred, which have excited the horror of the whole civilized world, and which have exceeded in barbarous brutality any preceding massacre.

There appears to be no doubt that these outrages against humanity have been deliberately organized by the local authorities; that a false report was spread among the Christian population to rouse it to fury, and that when it was so roused the mob was joined by the police and soldiery. That was the information which reached a member of the Duma in the following terms:—

"The Jewish outrage at Bialystok was produced by provocation. The police participated in it and the troops actively supported the rioters. The military authorities now have full control. The Governor-General has left the city. Persons who tried to leave Bialystok were killed at the railway station and others who succeeded in reaching the open fields outside the town were run down by dragons. There seems to be no hope of stopping the attacks. The number of victims is large."

It is the old, old tale differing only in the magnitude of the horror, and when the fire of slaughter and rapine died out for want of fuel, when all who could be caught were tortured and slain, and all that could be looted was carried off, then, as in former cases, we are told that reinforcements arrived and that the military authorities regained full control. That is a thing that regularly happens.

There is, and always has been, a state of antagonism existing between the Christian and Jewish populations of Eastern Europe, but this is a thing with which the Russian authorities do not greatly concern themselves, their enmity is political, and is due to the revolutionary propaganda of the Jews. The massacres are the work of the bureaucracy, and there is little doubt but that they will increase instead of diminishing the revolutionary fever, which already seriously weakens the efforts of the more moderate democrats to procure constitutional liberty by constitutional means. The effect of the Bialystok massacres has been to determine the Duma to resist prorogation, and to take another step in the way of the first French revolution.

If the Duma should, as it probably will, declare itself permanent, or in other words, a Constituent Assembly, there is only too much reason to fear that the beginning of the end has commenced, and that the Duma, which has hitherto shown itself fairly conciliatory will be over-run and dominated by the revolutionary party as was its French prototype. It has been urged upon the British Cabinet that it should firmly remonstrate with the Russian Government, and back up its remonstrance with a naval demonstration, but those who press it know little of European politics, and advocate a measure which would increase the embarrassment of the Russian Government, and would certainly destroy all chances of that entente cordiale for which the King is working, without in the least benefiting those whom it was intended to aid. Another proposal is that the financiers should cut off the "sinews of war," and this is equally futile and more likely to do harm than good. Either of them would weaken the hands of the Government, which, if it is to survive the coming storm needs strengthening; strengthening not only against its open foes, but also against its professed friends, for these massacres are the work of the local authorities and not of the central one, and the trouble is that the central power is too weak to repress them and punish their authors with a strong hand.

CAPE COLONIAL PREFERENCE.

Cape Colony has decided to give a preference in placing its contracts to producers who are British Colonists, acting on the maxim that charity begins at home, and the home manufacturers are to receive a preference of one per cent. on goods produced or manufactured entirely from colonial-

grown articles, and five per cent. on goods manufactured from imported ingredients, or partially so. This is understood to mean that Canadian or Australian wares will get a slight advantage over alien wares. Shipping and landing charges, as well as customs charges are, it seems, to be taken into consideration in working out percentages. The preference is not a large one, but it is large enough to affect competition. In some quarters it is proposed to impose a tariff tax on imports from Germany equal to the undue preference which German manufacturers now obtain through the state railway concessions, and it is urged that if this could be done two good purposes would be served; the basis of competition between English and German manufacturers would be equalized, and revenue would be produced for the colonies. The German State Railway concessions to exporters are held to be depriving the British of trade with East and South Africa.

TWO MEN, TWO MEASURES.

Between the last Minister of Justice and the present one there is the difference that the former was a good lawyer all round, and a statesman to boot, and the latter is not at all a statesman, but a political partizan, and an eminent lawyer in corporation cases only. Hence, where Mr. Fitzpatrick conceived it improper for him to practice in the courts while holding a position as Cabinet Minister, Mr. Aylesworth refused to enter the Cabinet without having it plainly understood that he was at liberty to do so, and where Mr. Fitzpatrick considered that the judges of the country should devote all their time and talents to the country's service, Mr. Aylesworth thinks that they should be allowed to turn an extra honest penny by acting as arbitrators in private cases. He has been rather severely criticized on both counts, but there is this much to be said in his favor that he claimed nothing for himself that he was not willing to allow others, and that if he wished to add a little by private practice to his salary as Minister of the Crown, he manfully stood up for the right of the judges to do the same thing. On this head the Kingston News remarks very pertinently:—

In accordance with a promise given earlier in the session, Mr. Lennox's bill respecting judges of provincial courts has been taken up in committee. The purpose of the bill was to prevent judges from acting as arbitrators or referees except on work assigned to them by statute, or by the Government—Provincial or Dominion. When the bill was first up for consideration this session, Mr. Fitzpatrick, the Minister of Justice, said that he had been thinking of introducing a similar bill, and that either he would do so or that he and Mr. Lennox would consult together for the purpose of putting Mr. Lennox's bill through. Mr. Lennox expected that this would be done, but evidently some change had been made in the Government's policy by Mr. Aylesworth, the new Minister of Justice, for the bill was accorded very scant courtesy when under discussion in committee. Mr. Aylesworth argued that the judges ought to be allowed to do the work.

It is quite clear that the bill will not become law. But it is also clear that it ought to. Judges should confine themselves to the work of the regular courts for which they are appointed. And men should be appointed by the Government for the work of arbitration.

The Minister of Justice does not seem to have the knack of agreeing with his colleagues; he is, as we have seen, at issue with the present Chief Justice of the Supreme Court on two important principles, he had diametrically opposite ideas to the late Postmaster-General on proper and improper publications, and he recently collided with the Premier in the Cinq-Mars case. One would think he was entirely out of place in a Cabinet, only we have the authority of Mr. Tarte for stating that in the Laurier agglomeration its members were in the habit of quarrelling "like blazes," and another eminent authority informed us that it did not matter at all what the Minister thought or said so long as he voted straight, and stuck to his brief in the House. If these conditions are observed nothing else is required, and for the rest the Laurier Ministry is a "go-as-you-please ministry"; indeed, for the matter of that, the whole party is a "go-as-you-please" party, except at the times when it is necessary to line up at the polls.

PRESS OPINIONS.

THE OUTLOOK FOR HARVEST.—

Mr. Wm. Mackenzie said to a reporter from Saturday that the crop reports from along the line of the Canadian Northern Railway were the best that had ever been sent in. The lines of the Canadian Northern cover a great portion of Manitoba and now extend to Edmonton through the northern ranges of Saskatchewan and Alberta. The statement, therefore, covers a vast territory of agricultural lands. The report of one whose sources of information are so detailed as well as widespread conveys comfortable assurances of a bright outlook over a large portion of the West. The report of plentiful rains all over Manitoba on Sunday is still further reassuring.

The bases for the formation of crop estimates in the west are, of course, progressively changing. A few years ago when one spoke of western crops he really spoke of the outlook in Manitoba, and a comparatively small area even of that Province. Weather conditions were likely to be the same all over the producing area, and a crop failure meant virtually a failure of greater or less severity for all engaged in farming. Now, however, lands are being cultivated in the very foothills of the Rocky Mountains and as far north as Fort Saskatchewan. Nor is spring wheat the whole of the wheat crop—fall wheat is becoming of increasingly important proportions. The irrigated lands must be reckoned with, too. Instead of a comparatively restricted area, therefore, and single conditions, we have a continental area and a variety of conditions. It would be astonishing if over so wide a field identical crop conditions prevailed. An average certainty should take the place of extraordinary yields or extraordinary failures. Dependency on a comparatively steady average is a decidedly better basis upon which to found commercial conditions.

A correspondent in Saturday's issue gave as account of the crop prospects in the Midland district in this Province. He was able to report favorably, and it is perhaps not too optimistic to say that a similar examination of the Province, east and west, would lead to like conclusions. It has been more than once pointed out that one of the most important crops in this Province is the hay and clover crop. The season has been most favorable for both, and it is safe to say that fair and warm weather for some time to come would form a fitting sequel to the cool and moist weeks of May and June. About this time of year and until the harvest is gathered we all appreciate how dependent is the whole vast machinery of transportation lines, warehouses, banks, monetary institutions, and commercial contrivances generally upon the man on the self-binder. The entire country may congratulate itself, therefore, on the fact that at the time of writing his outlook seems encouraging.—*Toronto Globe.*

WHOLESALE GROCERS' GUILD

MEET IN CONVENTION.

The Wholesale Grocers' Guild of the Province of Quebec will meet in convention in the Quebec Board of Trade Rooms this forenoon, presided over by the President, Mr. G. Carrier, M.P. of Levis. A considerable number of delegates from Montreal and elsewhere is expected to arrive which will be to attend the meeting to discuss matters concerning the trade, and mutual advantages. This afternoon the Quebec members of the Guild will entertain the visiting delegates to a luncheon at the Kempt House, Montmorency Falls.

A DAY IN OLD QUEBEC.

If there is anywhere in this world a more attractive prospect than from the Terrace or from the Chateau itself overlooking the St. Lawrence, I have yet to find it. One might sit and gaze for hours from these seats of the mighty, across this wonderful river, dreaming of its romance and history, its stirring tales of courage and conquest, its silver sheen of present peace, its golden promise of grandeur and glory. With reluctance, we hurried away from this scene of enchantment to visit the Plains of Abraham.

A most interesting trip from Quebec, which nowadays is made by trolley, includes the Falls of Montmorency and the Shrine of St. Anne de Beaupre. Of recent years so many excursions and pilgrimages have been made to the latter that this part of the country is quite familiar to thousands of people throughout Ontario. We were there in May, before the season of pilgrimage, and indeed as it happened, were the only visitors. The church itself is magnificent. Suddenly filled with dazzling light from the influx of electricity, one beheld, not without reverence, "Our Lady of Perpetual Help," and as the solemn tones of the great organ rolled and swept through this vast temple of worship, one could imagine the great crowds of people sighing and groaning under the burdens of life, vainly beseeching for that "surcease of sorrow," which the poet tells us we shall find but "never-more."

"Can you cure my headache?" one of us asked the priest, who had kindly shown us everything, including the relics of good St. Anne. "Ah, that depends on yourself," he answered smilingly. Thousands of crutches are piled in

the church that were abandoned by pilgrims who came there upon them; for two hundred years unbroken traditions have ascribed wonderful graces to the Shrine of St. Anne de Beaupre. It has been no cult, with its origin in capriciousness. It has been a faith that sprang up in the hearts of the people and has grown with the growth of the country.

"Have miracles been worked at this place?" I don't know. If a man were inclined to believe, a very doubtful case might convince him. Were he determined not to believe, no phenomenon could overcome his incredulity. Once admit that a miracle could exist, there is nothing absurd in its being performed at any particular time or place. Just now the current of thought is skeptical and we smile perhaps, at the storm-tossed sailors from Brittany, who prayed to la bonne St. Anne for succor and here built a rude cross and shrine in her honor. But out on the water, with the winds lashed to a tempest, one is not quite so sure about this "higher criticism." As a man who all but perished in the snows of the Yukon expressed it:—

"This agnostic business is all right around here, but it don't last very long when there is nothing between you and God but the snow and the silence."

The Falls of Montmorency are higher, of course, than Niagara. The fall—for the plural seems more appropriate to Niagara—has a beauty and charm of its own. It is more symmetrical, one is tempted to say more natural. For the roar and crash of Niagara is not in accord with the majestic calm of nature. As a rule her great mani-

festations of power are free from tumult.

"The shallows murmur, but the depths are dumb."

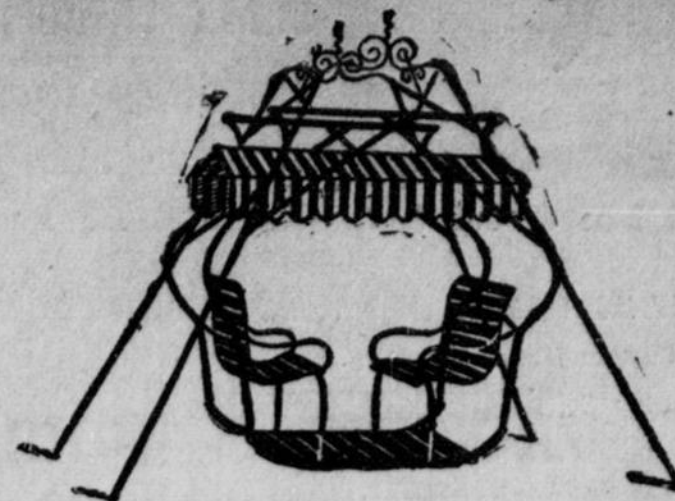

We were transported by cable to the high level from which the falls drop, a sheer two hundred and fifty feet, and found a handsome colonial man-sion—now an hotel, and a very good hotel, too—called the Duke of Kent's House. It was here that Queen Victoria's father lived while stationed in command of the Imperial troops at Montreal. But here, as in the ravine beneath, there seems no place or opportunity to lose oneself, as at Niagara, in gazing at the falls. One can sit for hours mooning at Niagara. There time and place fade and one's personality is lost in contemplation. The falls at Montmorency do not so absorb you. But they are very beautiful, a shrine that lovers of nature visit from all the world.—Toronto Sunday World.

HOW TO GET CONSUMPTION

Ninety per cent of the "lungers" contract consumption by allowing power of resistance to fall so low that a favorable condition for the development of the bacilli is provided. In a healthy system consumption can't take root. But where there is weakness and debility, there you find tuberculosis. For developing strength and building up the weak, nothing equals Ferrozone. It makes the blood nutritious and the nerves enduring. The way it converts food into nutriment, the appetite it gives is surprising. Just what the man verging on consumption needs,—that's Ferrozone. If tired and weak don't put off. Fifty cents buys a box of fifty tablets—at all dealers.

Among the first impressions that count are those made more in sorrow than in anger by the parental slip-

Happiness in a Grain of Wheat

It Contains Every Food Element Necessary for Man's Sustenance.

All authorities agree that fourteen elements are needed in the human body to sustain perfect health and that these must be supplied in the food taken into the system. Nature has provided us with one single article of food containing all of these fourteen elements in the exact proportions necessary to supply our bodies with vitality, strength and heat. This food, so wonderful in its composition, is wheat, and intelligent men and women are coming to realize more and more that in the whole of the wheat is found the secret of health and happiness. Rich in the nitrates, or muscle-making elements, the carbonates, or heat-producing elements, and the phosphates, or brain and nerve-making elements, the whole grain of wheat supplies every necessity for man's body and mind.

This is how Malta-Vita came to be known as "The Perfect Food," for Malta-Vita is simply the whole of the wheat and a little salt, thoroughly steamed and cooked in absolute cleanliness, then mixed with pure barley malt extract, which converts the starch of the wheat into maltose, or malt sugar, an active digestive agent and very nutritious as well.

All grocers sell Malta-Vita. Large packages, now 10 cents.

DOMINION PARLIAMENT
ON THE WAGNER CASE

Motion that an Interior Department Official Be Dismissed

FOWLER INDICTS OLIVER

Later Admits That Wagner, Whom He Appointed, Was Convicted for Theft.

Ottawa, June 19.—On the motion, to go into committee of supply in the House of Commons this evening, Mr. Fowler, of Kingston, drew attention to the case of Philip Wagner, and demanded that an enquiry should be held into his case. Mr. Fowler said Wagner was a particular friend and protégé of Mr. Oliver, minister of the Interior. He was an interpreter at Edmonton, who was dismissed and then reinstated. The case as described by Mr. Fowler showed the loose way in which business is done by the Department of the Interior. Wagner was employed for months before it was known at headquarters what his duties or pay would be. His duties were to assist the immigrants. He early began to defraud the persons of whom he had charge. Instead of being a father to them he showed himself to be a cruel stepfather, said Mr. Fowler. Letters were read in support of these charges, showing that the department took steps to secure from Wagner moneys paid to him by immigrants to secure baggage held to Montreal, and which money he had not paid over or accounted for. Though the department was insistent, no satisfaction was obtained. Then the Edmonton, young Liberal Club passed a resolution urging that Wagner should have his pay increased. This was supported by Mr. Oliver, then a member for the constituency. Some time later, in 1901, Wagner was committed for trial on a charge for defrauding \$729 from a Galician. Mr. Obed Smith, immigration commissioner, reported on the case and stated that it would be well to dismiss Wagner. Later the Catholic Apostolic Missionary wrote to the department, mentioning a number of other charges to the effect that Wagner was regularly defrauding Galicians, who had business with the local land office. These charges were supported by other correspondence. Mr. Oliver, at this point, interfered in Wagner's behalf, in a letter which Mr. Fowler denounced as showing the writer to be always thinking of partisan ends. Mr. Oliver also telegraphed to the department, wanting to know why Wagner's salary was not being paid. Another other curious thing in the connection, it came out that Wagner had assigned one month's pay to two persons. Meantime the Department of Justice was acting. Wagner was convicted of defrauding a Galician out of \$35 and sentenced to three months' imprisonment at Fort Saskatchewan. For defrauding another Galician out of \$50 he was sentenced to three months' imprisonment. There were three other charges on which he was prosecuted but not convicted. He was dismissed from the Government employ. In July last, after Mr. Oliver's appointment as Minister of the Interior, Wagner was re-appointed to a dual capacity in the immigration service, and gets \$25 as assistant-immigrant agent, and \$75 as interpreter. About this time Mr. Oliver at a meeting at Edmonton, spoke of Wagner as capable and competent. Mr. Fowler asserted that at the time Wagner was taking part in the election. At this meeting also Mr. Oliver admitted that he knew Wagner had been in jail. In the House of Commons (this session, Mr. Oliver declared that there was nothing in the department to show that Wagner had ever been imprisoned. Mr. Fowler denounced Mr. Oliver for this contradiction. During the present year complaint was made that Wagner had interfered in the elections while holding office. Mr. Fowler argued that the circumstances outlined justified the demands of the amendment, which he moved, to the effect that Wagner should be dismissed, or if he denied what had been alleged, that his case should be investigated.

MR. OLIVER'S REPLY.
The reply to this severe indictment was made by Mr. Oliver who began by referring to Mr. Fowler's cause as gutter snipe politics. He condemned the attack on a plain citizen of the country, who was not in a position to call in question the words put upon him. Mr. Oliver admitted that today Wagner was in the employ of the Government. At first, the Minister said the appointment was made before he entered the Government. Later he had to admit that he himself made the appointment. Then he went on to say that there was a need of Wagner's appointment, that he was the most efficient interpreter of the Galician language in the country, was conducting a tailor business, and was respected.

"Was he not convicted of theft?" Mr. Oliver was asked.

"Certainly he was," was the reply. Mr. Oliver proceeded to say that Wagner was punished rather because he was a Liberal than because he was a thief. This raised a laugh, and another followed.

Then Mr. Oliver proceeded to say that Wagner was the victim of organized persecution, that he was disabled because he was influential in politics, and that the bringing forward of such cases brought the House of Commons into utter contempt.

The discussion was continued by Mr. Fowler, who ridiculed the idea put forth by Mr. Oliver that Wagner could have been prosecuted because he was a Liberal in a place where, as Liberal members are found of boasting, the elections all go overwhelmingly in favor of Liberal candidates. Mr. Fowler also read from documents produced in Parliament to show the extent and character of Wagner's interference in the Alberta provincial elections, which included the herding of Galician voters and keeping them in humor to vote for Liberal candidates by providing them with beer by the barrel. This matter of interference was regarded

by Sir Wilfrid Laurier more seriously than by Mr. Oliver.

The Prime Minister thought the charge made by Mr. Fowler should be investigated. He did not, however, attach importance to the fact that Wagner had been convicted of theft, maintaining that because of having offended against the law a man should not be forever ostracized. Sir Wilfrid Laurier also referred to the employment of Wagner as an interpreter in the court, which had convicted him as evidence of his capacity. The debate was concluded by Mr. Borden, who showed that the case was one of a kind too common under the Government, and by Mr. Turfitt, who argued that there were defaulting officials and meddling public servants under Conservative administrations.

The vote was taken at 11.30 and stood 41 to 58, a Government majority of 17.

The House then went into committee of supply, taking up again the supplementary estimates of the current year, voting \$62,000 for Dominion Lands, and adjourning.

On the motion for the third reading of the bill respecting immigrants and immigration, Mr. Monk drew attention to certain objections to the bill made by medical men in Montreal. One of these was in respect of the medical examinations, whose position is diminished rather than otherwise by the bill. Another referred to the discharge of immigrants after the detention, and suggested that in case of disagreement the decision should be left to a board of enquiry with an appeal to the chief medical officer. An amendment in the sense of the latter was adopted, and after some clerical errors had been corrected the bill was ordered to be reported.

Mr. Fielding announced that on the advice of the British consul-general at San Francisco, the Government had forwarded \$50,000 to the Red Cross Society at San Francisco for use in general relief work. The other 20,000 of the grant is held for further action.

Replying to a question by Mr. Borden, Sir Wilfrid Laurier said that no new railway subsidies would be brought down this session, though the Government might propose to re-open some which have lapsed. The Prime Minister further said that supplementary estimates for 1906 would be brought down early, and that a bill relating to ministerial pensions would be introduced.

Replying to questions put to him during the discussion of the Militia Pension Bill, Sir Frederick Borden said there was some difficulty in getting recruits for the permanent corps. Drafts had been made from various depots to complete the Halifax garrison, and had been made good since "to a greater or less extent."

Active Liver,
Good Digestion.

AND THERE IS NO MORE PROMPT AND CERTAIN MEANS OF KEEPING THE LIVER RIGHT THAN

DR. CHASE'S

KIDNEY-LIVER PILLS

In calling your attention to Dr. Chase's Kidney-Liver Pills it is only necessary to point to their success in the past, for they are known in nearly every home.

By means of their direct and specific action on the liver—causing a healthy flow of bile—they regulate and enliven the action of the bowels and ensure good digestion in the intestines. At the same time they stimulate the kidneys in their work of filtering poisons from the blood.

This cleansing process set in action by Dr. Chase's Kidney-Liver Pills means a thorough cure for biliousness, intestinal indigestion, torpid liver, kidney derangements and constipation. It means a restoration of health, strength and comfort where there has been pain, weakness and suffering. It means a removal of the conditions which lead to backache, rheumatism, lumbago, Bright's Disease, appendicitis and diabetes.

Madame Napoleon Roy, Moulin Tatu, Lotbiniere Co., Que., writes:—"It is with pleasure and gratitude that I recommend Dr. Chase's Kidney-Liver Pills for they have cured me of liver trouble from which I suffered for five years. I had dreadful pains in the back and sides and suffered much from indigestion. In vain I had consulted several doctors in the United States and Canada."

"My husband read in the papers about Dr. Chase's Kidney-Liver Pills and advised me to try them. Thanks to their direct action they helped me wonderfully and to-day I am entirely rid of all the distressing symptoms of liver complaint after having used four boxes of these pills. I hope that others may be benefited by my experience."

PLAINS OF ABRAHAM CONTRACT AWARDED

In a Deplorable Condition and For the Erection of the New Central Protestant School.

The Plains of Abraham are in a deplorable condition and calls (or remedy) by the civic authorities. The work all done on the old historic grounds some two years ago and left unfinished only aggravates the situation and causes them to be an eyesore instead of a pleasure to the observer.

Whisk they received the property from the Government it was with the express condition that the same should be turned into a public recreation park, and a promise was made that neither expense or labor would be spared to convert the grounds into a beautiful garden. The city started out with a great blast of trumpets to accomplish this end. Roadways were lined up and dug out and broken stones laid for a considerable distance, while a few hundred saplings were planted, and then the work came suddenly to a standstill and never gone on with since. The public in the meantime complained, but their opinions fell upon deaf ears, and when any of the aldermen were approached they only shrugged their shoulders and replied that the city had not the funds to continue the work, let alone live up to its agreement with the Government.

Yesterday a reporter of the Chronicle was induced to investigate the condition of things, and was surprised on walking over the ground to realize the weird state of the old historic spot. The vast field is covered with weeds that even cover the stones laid on the different roadways marked out, and one has considerable difficulty in walking. The saplings are nearly all dead and the scene one of abject neglect and a shame to the city. Everywhere the reporter wandered he observed the same sad condition of things, which reflect nothing but disgrace on the city and its inhabitants. His Worship Mayor Garneau, who is said to have an eye for beauty and refinement, should give the matter his attention, and if he desires to please the public and at the same time preserve the natural grandeur and quaintness of the old historic spot, he would confer a favor upon the citizens of Quebec by placing the Plains back into their original condition. If the city does not wish to assume the responsibility, why not turn them back to the Federal Government to be used as a military parade ground as of old, and at the same time permit the Quebec Turf Club the privilege of again using the same for a race course.

The members of the Turf Club would indeed be pleased if the privilege were again accorded them, and they, no doubt, in the interest of good sport, would not begrudge spending a requisite sum of money to reconstruct the old race track and put up a grand stand that not only would be useful but an ornament to the locality. The citizens of Quebec to a man would be pleased if this should come to pass, for the present race course on the Exhibition Grounds is considered too far away from the city and consequently not popular, at least this is the general expression of opinion, and if Mayor Garneau would act in the direction he could not doubt learn the thoughts of the entire public and at the same time perform an act for the public good.

A CHURCH CLOSED.
The doors of the Church at Baie St. Paul have been closed by order of the Government on the report of the inspectors, who state that the building is in too dangerous a condition to permit of its being used any longer by the public. The grand mass of last Sunday was the last service to take place in it. The sacristy and the chapel at the Hospice Ste. Anne will be utilized for mass pending the construction of a new church.

THEY LAUGHED
At the Arguments on the Packages.

The husband of an Ohio woman brought home some packages of Grape-Nuts one evening and there was much discussion, but let her tell the story. "Two years ago I was thin and sickly and suffered so from indigestion that I was not able to perform my duties and was constantly under the care of my physician. I had tried plain living and all the different remedies recommended by friends, but got no better. "One day my husband brought home two yellow boxes and said, 'The grocer wants us to try this food and report how we like it. He thinks it will help you.' I read all it said on the boxes about Grape-Nuts and I remember how I laughed at it, for I thought it foolish to think food could help me. But the next meal we all ate some with cream. We liked and enjoyed the deliciously crisp and new flavor so we kept on using Grape-Nuts, not because we thought it would cure me, but because we liked it. "At that time we had no idea what the results would be, but now I am anxious to have the world know that to-day I am a well and strong woman physically and mentally. I gained over 30 pounds, do not suffer from any of the old ails and I know that it is to Grape-Nuts alone that I owe my restored health. They call me 'Grape-Nuts' here in the home and all of my friends have asked me the cause of it all. I have persuaded several of them to use Grape-Nuts and everyone who has done so has been benefited and I wish it were in my power to induce everyone who is sick to give this wonderful food a trial. We still have Grape-Nuts three times a day and never tire of it." Name given by Postum Co., Battle Creek, Mich. Ten days on this nourishing and completely digestible food will show anyone who is run down from improper feeding a great change, sometimes worth more than a gold mine because it may mean the joy and spring of perfect health in place of the old ails. Trial proves "There's a reason." Look in places for the famous little book, "The Road to Wellville."

8TH ROYAL RIFLES.
Col. Ray has issued instructions that the Regimental badge will be fired for at the ranges at St. Joseph on Saturday next. It is also his intention to have the competition for the Dobell Cup on that date, which will be fired for by companies of 20 men per team.

SYNDICATE OF QUEBEC.

A meeting of the Protestant School Commissioners was held on Monday last, when the contracts for the new building on St. Joachim street were awarded as follows:—Masonry, A. Fackney; carpenter work, L. Peters, and painting, Marchant Bros. The building will cost about \$40,000, and Mr. Fackney is already at work with a large staff of men demolishing the present building. Every effort will be made to have the building roofed in for next fall.

The meeting adjourned until Friday next, when the nominations of a Lady Principal and first assistant for the Girls' High School will take place.

PORT OF QUEBEC

Handling Cargo is Costly Here Says Captain Walsh of C.P.R.

The C. P. R. steamer Empress of Britain completed putting out her inward cargo at 1.00 p.m. yesterday. A Chronicle reporter met Captain Walsh, the Marine Superintendent of the C. P. R., and asked him if matters were progressing favorably. The captain replied in the negative, and said the work was slow and costly. This was due to the scarcity of labor and slowness of the work. He wanted to have five gangs at work on the Empress of Britain but could secure only four. On Friday he had to put men to work on the Lake Michigan, but could not get enough to do so, and was compelled to take some from the Empress. He said the handling of cargo in Quebec cost fifty cents per ton, which was exactly double what it cost in either Liverpool or Montreal. In the two latter ports there would be no need of overtime to discharge and load the Empress, as it could be done during the day in plenty of time to allow her to leave on schedule time.

With regard to other ships of the Company, the result so far as handling cargo at Quebec was concerned was unsatisfactory. Captain Walsh then took at haphazard, from among a number of others, the cost of the steamer Lake Manitoba. This vessel generally has to be discharged and loaded in quick time. In Quebec there were 311 hours labor by day and 186 hours by night. The cargo handled here cost 52.06 cents per ton. In Montreal there were 4,000 tons discharged and 8,000 tons put on board, or a total of 12,000 tons. To do this work occupied 4,575 hours in day, 5,000 night, 3994 Sunday, and 2934 Sunday night, at a cost of 26.2 cents per ton.

In the other steamers of the line the cost of handling cargo at the two ports was in the same proportion. In fact cargoes are handled at Liverpool and Montreal for the same price, the double handling, as for once in Quebec.

Asked about the facilities here, Captain Walsh replied that the people and press of Quebec said they were as good as elsewhere.

Asked his opinion of the work of the laborers here, he said that he would criticize no one, but as he had already stated the increased cost here was caused by the scarcity of labor. Over time in Quebec was 50 per cent higher than in Montreal.

OUANANICHE FISHING.
The steamer Mistassini is now crossing regularly from Roberval to the Grand Discharge, and the fishermen's resort at the latter place, known as the Island House has been opened for the season, after undergoing repairs and improvements. The fly-fishing season in the Discharge which opened a few days ago will be at its best in a few days more.

MORE JUNE WEDDINGS.
A pretty wedding was solemnized at the Methodist Church yesterday afternoon, when Rev. G. H. Williams officiated at the marriage of Miss Margaret Baller, daughter of Mr. Louis Oaker, sr., to Mr. Leslie H. A. Cummings, sister of the groom, who wore a blue gown with white hat and carried a pink bouquet. The best man was Mr. W. A. Creighton, of Montreal. The young couple received a large number of wedding gifts, among them being a silver fruit service from the employees of the groom's father. Mr. and Mrs. Cummings left by R. & O. boat for Montreal, en route for Buffalo, Niagara, Rochester, Toronto, etc., where the honeymoon will be spent.

A pretty wedding took place yesterday morning at St. Patrick's Church, when in the presence of a large gathering of the friends of the contracting parties, Miss Mary E. Creighton, daughter of the late B. Creighton, became the bride of Mr. Thos. J. Martin, of the Chronicle staff. The bride, who was given away by her brother, Mr. W. Creighton, looked charming in her cream bridal costume with hat to match. She carried a bouquet of white roses and carnations. The groom was attended by Mr. C. A. Nolan. The wedding ceremony was performed by the Rev. Father Delargy, and at its conclusion the bridal party and invited guests drove to the residence of the bride's mother, where a sumptuous wedding breakfast was partaken of. The happy couple left by the afternoon C. P. R. express on a honeymoon trip to Ottawa, followed by the good wishes of their many friends for a happy and prosperous future. The wedding presents were handsome, costly and numerous.

CORONER'S INQUEST.

Coroner Jolicoeur held an inquest yesterday at St. Raymond on the body of the sixteen year old boy who met death by drowning at that place as already reported. A verdict of accidental drowning was returned.

GOVERNMENT APPOINTMENTS.

By an Order-in-Council, signed by the Lieut. Governor yesterday morning, Hon. Chas. Langelier, Sheriff of Quebec, has been named a member of the Board of Governors of the Financial Syndicate of Laval University of Quebec. By another Order-in-Council, Mr. Joseph E. Pouliot has been named Recorder of the town of Fraserville.

STREET CAR EMPLOYERS.

The request for an increase in wages which the motormen and conductors of the street car system have laid before the company ask that they be paid at the rate of 14 cents per hour for first year men, 15 cents per hour for second year men and 18 cents per hour for all men over two years in the company's employ. On Sunday the employees also ask that they be forced to work only six hours instead of eight, which would bring the day into two equal shifts, from 12 to 6 and from 6 to 12.

FEAST OF ST. JEAN BAPTISTE AT ROBERVAL.

The residents of the town of Roberval, on the line of the Quebec and Lake St. John Railway, are determined to celebrate the feast of St. John Baptiste with unusual eclat on Monday next. Propositions have been in vogue for some weeks past to make the occasion a red letter day in the history of the town and the Mayor of Roberval, Lieut. Col. B. A. Scott, is doing his share of contribution. He has secured the services of the R. C. G. A. Band to proceed to Roberval and take part in the procession and also give a promenade concert, which will, no doubt, be appreciated by the people of the whole Lake St. John district, who no doubt will be in attendance en masse.

QUEBEC TURF CLUB.

A meeting of the Executive of the Quebec Turf Club was held in the Chateau Frontenac last night to transact business in connection with the annual meeting of the Club, to be held on the Exhibition Grounds on the 29th and 31st of August next. Besides routine business disposed of it was decided to employ Messrs. McGinnis, of Fort Erie, and Neilson, of Detroit, as starter and judge of the meeting. The stewards of the Quebec Turf Club expect to complete their programme next week, when a meeting will be held to make final arrangements and invite entries. They have every reason to believe that the races will be a splendid success and expect to have the generous support of the public, especially as the membership of the Club is limited in number and the workers on the Executive, some six or eight gentlemen, the same old sports, the bearers of the full responsibility.

When You have a Bad Breath

Food does not tickle them enough to make them act.
That's Constipation!
Castor Oil, or "Physic" will help to slide out one load of trouble, but they can't help the Cause.

In fact, they weaken the Bowel Muscles more than ever by slackening them, and by doing work for them which they should do for themselves.
When your Bowel-Muscles grow flabby they need Exercise, to strengthen them—not a sling to support them.
When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physic" to pamper them.
Then carry the little ten-cent "Vest Pocket" box constantly with you, and take a Cascaret whenever you suspect you need it.

THAT'S the time to take a Cascaret.

—When your tongue is coated,
—When you have Heartburn,
Belching, Acid Risings in throat,
—When Pimples begin to peep out,
—When your Stomach Gnares or Burns,
—That's the time to check coming Constipation, Indigestion and Dyspepsia.
One single Candy Cascaret will do it if taken at the right minute, just when you first feel the need of it.
"A Cascaret in time is worth nine" later on.

Cascarets don't Purge, nor Weaken, nor waste Digestive Juices in flooding out the Bowels, like Salts, Castor Oil, "Physics."
But, they act like Exercise on the Muscles that shrink and expand the Intestines, thus pushing the Food on Naturally to its Finish.
When the Bowel Muscles grow flabby weak, or lazy from want of Exercise, the

One Cascaret at a time will promptly cleanse a foul Breath, or Coated Tongue, thus proving clearly its ready, steady, sure, but mild and effective action.

A thousand dollars a year spent in amusements could not buy for you half so much hearty Happiness, solid Comfort, Cheerful Temper and Health Insurance as that little ten-cent "Vest Pocket" Box of Cascarets will bring you.

All Druggists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Curse of Constipation." Free for the asking. Address Sterling Remedy Company, Chicago or New York.

GRAND OPENING OF A NEW STORE

—BY—
M. EUSEBE PICARD,

Founder and Manufacturer of the Steel Store
L'ECONOME No. 36 ST. JOSEPH STREET.

SATISFACTION AND ECONOMY

The new establishment of Mr. Picard, Quebec's well known founder, is open at No. 36 St. Joseph Street, where the public are invited to examine a considerable assortment of Stoves, L'ECONOME (Steel) GLENWOOD (Cast Iron) PENN ESTHER, PLAIN, also REFRIGERATORS, NICKELED KITCHEN UTENSILS. The Steel Store L'ECONOME is the most perfect and most modern one. It gives satisfaction to the housekeeper as the cooking of all food cannot be surpassed, economises the fuel and the cinders are shaken from the ashes in the stove, no dust spreads through the house. We have also a special Steel Stove for firewood.

A Visit is Solicited.

The Little Girl Will Proudly Wear One of Our Wash Dresses.

Why?—for the same reason that the women find our garments so superior to those obtained at other stores.

Better style—prettier fabrics—a wider choice—even in the garments for little children.

Hundreds of children will feel cool and comfortable—and look bright and rosy in our dresses during the hot months of summer.

While our stock is large—we advise early buying as naturally some of the dresses are more desirable than others and will sell quickest—perhaps you will want one of these.

Some pretty white dresses—many in choice ginghams and equal number in percales. All are priced so as to make it folly to do home sewing.

Fancy print Navy Blue, with spot Dresses, size 6 to 14 years 65c.

Pale Blue and White Percale Dresses trimmed with embroidery size 6 to 14 years, 80c, 90c and 98c.

Gingham and Duck Dresses in Pale-Blue, size 6 to 14 years, \$1.00 and \$1.15.

Navy Blue, White Lustre trimmed with red, star braid, size 3 to 7 years, \$2.50 and \$2.95.

Black Lustre Dresses, size 6 to 14 years, \$2.95 to \$3.60.

BACK FROM BERMUDA

Little Sloop Gauntlett Returns from Long West Indian Trip.
 New York, June 20.—The Gauntlett, the smallest boat entered in the Bermuda yacht race, entered the port of New York yesterday morning at eleven o'clock under command of her owner, George W. Robinson, seven days and twenty-one hours from Bermuda. The little vessel bore no marks of her arduous passage to the islands in the race for the Lipton Cup, and the Brooklyn Yacht Club is to be congratulated upon bringing to a successful close the long ocean race held under its auspices. The actual contest was ended some time ago with the Gauntlett's arrival at Bermuda, but the return of the two boats that finished marks the completion of the round voyage.

Enormous Amounts of Money Won and Lost at Races.

New York, June 20.—Here is an estimate of the business in the betting ring at Gravesend on Monday, Friday and Saturday of last week as outlined for the Sun by one of the biggest bookmakers at the track:—
 "Last Monday the big ring with 150 layers won \$400,000 on the day. Cown alone cleaned up \$35,000 in that day, while even the smaller operators, such as the 'non-members' in the front line, won all the way from \$4,000 to \$10,000 each on the day. It was a remarkable bit of business, but it was surpassed on Friday when nearly \$500,000 was won by the layers on the six races. Cown was \$40,000 winner alone. Tyler cleaned up \$30,000, while George Rose, Lichtenstein Boles, and others were from \$10,000 to \$25,000 to the good.

AVERAGE WINNINGS.

"On Saturday it is not exaggerating it a particle to say that the ring won \$300,000. The sheets will show the business beyond a doubt. With 150 layers, an average winning for all three days of \$10,000 each would not be impossible by any means. Anybody who tries to deny that there is more betting at the track now than ever before is not on the level with the public.

BUSINESS ENORMOUS.

"The volume of business is enormous. Cown was a tremendous loser up to the middle of the Belmont Park meeting. His losses footing up to nearly \$140,000. But he has got it all back in the last ten days. I know of no other handler of big money who was \$80,000 to the bad up to a week ago yesterday."

SOURIS TEAM LEAVES C. A. A. U.

Winnipeg, June 20.—The Secretary of the C. A. A. U. has received notification that if the Souris lacrosse team, champions of the Manitoba, played Montreal Shamrocks for the Minto Cup, as contemplated, they will be placed under the ban of the Union and professionalized. As the Union is a dead letter in western sports its ultimatum is not taken seriously.

COLLEGE ATHLETES COST MONEY

New Haven, Conn., June 20.—The financial report on Yale athletics for 1904-1905, made public today, shows that the total receipts from football, baseball, rowing and track athletics, the interest from the reserve fund and other minor credits, amounted to \$106,692, the whole amount of which was expended for the maintenance of the four major teams and appropriation to Yale field. In football the total receipts were \$60,911, and the expenditures, \$37,957. Receipts from baseball were \$24,617, and expenses \$26,816.23. In rowing the receipts amounted to \$13,795, while the expenditures were \$28,482. For track athletics Yale received \$3,349 and expended \$8,876. Compared with the previous year there is a loss of about \$4,000.

ROCK CITY VS. VICTORIA.

The next game in the Canadian Baseball League will be between Rock City and Victoria on the former's grounds at Hare Point on Sunday afternoon next. "Joe" Page will umpire the event.

LACROSSE MEN AT PRACTICE

There was a good crowd of players on the Q.A.A. grounds last evening in preparation for the match with Sherbrooke on Saturday. Two full teams lined up and made things interesting. "Jim" Early was on deck last evening and his appearance on the team will increase the defence end of it in a most satisfactory manner. Sherbrooke is sending down its strongest team and the match promises to be a hummer. Jesse Brown will be referee. An additional feature of the matches on the Q.A.A. will be the bulleting of all the big games being played in other cities, a special wire being run to the ground for this purpose.

 New York, June 20.—An accident marred the last race at Gravesend to-day when Escort and Penguin both fell on the paddock turn. Jockey Brussel, who had the mount on Penguin, was cut about the head, and it is feared he may have received a fracture of the skull. He was removed to a hospital in Brooklyn. J. Jones, who fell when Escort went down, received a broken collar bone. In the first race two horses fell near the finish, but both Benis Sewell and Cochran escaped injury. Dishville, second choice, won the Myrtle stakes, while Oro took the Kensington steeplechase, the features of the closing day. Three favorites were successful.

COUP THAT FAILED

Killing at Windsor Planned by Toronto Men Not Made.
 Toronto, June 20.—There was great hustling and busting yesterday among the local horse talent and fishers after "good things." There has been cooking for some time back a "coup" to be pulled off at Windsor. A taste was given the players at the Woodbine when a syndicate of six took \$7,300 out of the ring on Rising's Showman. They prepared for a good bite out of the bookies yesterday, and the medium was to have been Showman's stablemate, Merry George. A contingent went up from here, and the thing was whispered all over town, so much money going in on it that most of the bookies would have been put out of business had it gone through. The price was even money, and was all bet six and place to run third. Merry George was fractious at the post, and the long delay killed his chances, otherwise another hard job might have been handed the markets.

ST. PATRICK'S BASEBALL CLUB.

There is to be a meeting of the St. Patrick's Baseball Club this evening at 8 o'clock at St. Patrick's School, at which every member is expected to be present as business of importance is to be discussed.

GRAND TRUNK CHANGE OF TIME

In the item in newspapers of Saturday last, relative to change of time of Grand Trunk train service, through error it was announced that the ferry would cross from Point Lewis to Quebec in connection with the night train arriving at 10.30 p.m., instead it should have been inserted that passengers arriving at Point Lewis by this train will as heretofore take the Lewis electric cars from Point Lewis station to Lewis, crossing to Quebec by the regular ferry. Grand Trunk ferry tickets are accepted on the electric cars and transfer tickets issued for the ferry crossing to Quebec.

Danger in Corn Salves

They usually contain acids and burn the flesh. The one safe cure in liquid form is Putnam's Corn Extract, which is purely vegetable, causes no pain and cures in one day. Don't forget the name—"Putnam's."

A VITAL POINT.

Colonel "Pete" Hepburn tells of a lawyer prominent in Iowa who was much given to spinning metaphysical distinctions in his arguments before a jury. On one occasion, says Mr. Hepburn, the learned lawyer appearing as counsel for plaintiff offered such an abstruse explanation of the difficulty giving rise to the suit under trial that the jury were soon hopelessly befuddled.
 At this juncture, counsel for the defendant took a hand, telling a story to the jurors that resulted in the discomfiture of his opponent.
 "The learned counsel for the plaintiff," began the opposing lawyer, "who is so successful, as a rule, in getting away with his fine-spun distinctions, reminds me of another eminent lawyer of that State who was once retained in the defence of a man who shot a neighbor's dog. The proof was clear that defendant had said he would shoot the dog; that he brought out his gun in broad daylight and loaded it; that he took deliberate aim at the dog, and that at the crack of the rifle the dog fell dead, with a bullet-hole through him.
 "But the eminent lawyer contended that this was an instance of merely circumstantial evidence, and that in such cases it was a settled principle that if a single link was wanting in the chain the whole evidence was worthless. Although there was proof of the threat, the loading of the gun, the firing, and the death of the dog, 'yet,' concluded the eminent lawyer, 'what witness has testified that he saw the bullet hit the dog?'
 The jury were so impressed by this tale, concludes Mr. Hepburn, that they soon returned a verdict against the "fine-spun" lawyer.—Harper's Weekly.

THEY HUG THE FEET

IMPROVEMENT NUMBER THIRTEEN

A shoe that's built with a Plumb-Line Level Heel and Sole, balanced on precisely the same level as the heel and ball of the foot with an artistic arch that follows the curved arch line of the foot with watch-like accuracy, is pretty apt to hug the bottom of the foot.

A shoe that's built with a Heel-Comforting Ball and Socket Counter that clings around the heel like the socket of the shoulder envelopes the arm-ball, is pretty apt to hug the heel and back of the foot.

A shoe that's built with a Hurlless Instep Seam, modeled the exact shape of the foot's instep and set at the correct point on the instep, is pretty apt to make the shoe hug the foot's instep.

A shoe that's moulded over Foot-Sculptured Lasts, which give the shoe precisely the same inside shape as the shape of the foot which inhabits it, is pretty apt to make the shoe hug the foot snugly on the outside at every point of contact.

And a shoe made of "Normal-Calf," a leather almost as soft and supple as the live calf's skin, is more apt to hug the feet than a coarser leather. Kid gloves hug the hand; buckskins don't.

This is how Foot-rite shoes are built and that is why Foot-rite shoes hug the feet. No other shoe was ever constructed on scientific plans and specifications to insure a snug fit for every foot.

If you've had trouble with too loose fitting shoes that look hoboish, or too tight fitting shoes that look like inflated frogs and cause corns, bunions, blisters, and all sorts of foot troubles, call on the Foot-rite retailer in your town. His name's below. His door swings inward but never outward to find a more welcome store. You'll find him a good fellow, willing to be bothered. Let him fit you with a pair of Foot-rites. Don't do the fitting yourself. Let him do it. He's an expert fitter and knows best what size and shape will fit you. He'll give you a little shoe fitting astonishment. He'll show you a shoe without a wrinkle in vamp or waist, because Foot-rites are wrinkleless. He'll show you a shoe that won't rub or pinch corns and things on the feet. He'll show you a shoe that hugs the feet at every point, as gently, though snugly as silk socks.

People miss a lot of good things by not trying. Here's a case where the try is worth the trouble. Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

CITY OF QUEBEC.

BY-LAW No. 402.

A By-law to amend By-laws concerning
cabsmen's and errands' stands and
cabsmen's tariff for the transfer of
persons.

(Drawn up in the French Language).

At a meeting of the Municipal Council of the City of Quebec, held on the 15th of June, instant (1906), in the City Hall of the said City in conformity to law, and in virtue of a By-Law passed by the Council pursuant thereto, and after the due observance of all the formalities prescribed by the Statute in such cases made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that it is to say:

His Worship the Mayor and Aldermen, Barthelemy, Beland, Brunet, Campbell, Dumas, Drouin, Duguet, Keat, Foley, Fortier, Hall, Hogarty, Huard, Lavigne, Letourneau, Macklin, Mathieu, Messervy, Mulroney, Paquin, Picard, Shink, St. Pierre, Taschereau, (St. J. G.) Vermet (25).

Be it ordained and enacted, and the said Council doth hereby ordain and enact as follows, to wit:

1. A cab stand is hereby established on the ground belonging to the city, on the south side of Grande Allee, opposite Maple Avenue.

2. The stand on Chauveau Avenue, for cabsmen shall, in the future, be located on the eastern side of the said avenue, opposite the City Hall.

3. On the street or public thoroughfare situated on the north side of Champlain street, cabsmen shall stand on the north side of said passage, between Notre Dame street and Champlain street, and also at the north-western corner of Champlain Market Hall; cabsmen shall stand on the south side of said thoroughfare to the east of the Market Hall.

4. On the space of ground or public thoroughfare which lies to the north of Finlay Market, and which extends from Dalhousie street to Thibault lane, the cabsmen shall stand on each side of the said thoroughfare, and the cabsmen shall stand along that portion of Parth street, comprised between Thibault street and Thibault lane.

5. A cab stand is hereby established on the north side of St. Paul street, starting about twenty-five feet from the north-eastern corner of Ramsay street, and going in an easterly direction.

6. A cabstand is hereby established on the north side of St. Paul street, between Henderson and St. Nicholas streets. The cabsmen shall stand on the south-west side of Henderson street from St. Paul street, going to the north-west.

7. A cab stand is hereby established along the sidewalk at the eastern side of Crown street, for a row of cabs from St. Joseph street, in a northerly direction.

The cabsmen shall stand in a row behind the row of cabsmen's vehicles.

8. A cab stand is hereby established on Boulevard Langelier, on the north side of St. Joseph street.

9. A cab stand is hereby established on the south side of St. Valier street, facing St. Peter's Market, between Duquesne and Durocher streets.

10. Section 5 of By-law No. 275, passed by the Council, on the 27th of January, 1888 is replaced by the following:

(25k) It is forbidden for all cabsmen, their servants or employees, driving in the city a vehicle for hire for the transfer of persons to ask, or exact for the use of any such vehicle any sum above these hereinafter mentioned, to wit:

FOR ONE HORSE VEHICLES,
Time allowed fifteen minutes.

By the Drive:—
For one or two persons.....\$0.25
For three or four persons..... 0.50
Time allowed thirty minutes.

For one or two persons..... 0.50
For three or four persons..... 0.75
By the Hour:—

For the first hour for one or two persons..... 1.00
For three or four persons..... 1.25
For every subsequent hour for one or two persons..... 0.75
For three or four persons..... 1.00

FOR TWO HORSE VEHICLES,
Time allowed fifteen minutes.

By the Drive:—
For one or two persons.....\$0.50
For three or four persons..... 0.75
Time allowed thirty minutes.

For one or two persons..... 0.75
For three or four persons..... 1.00
By the Hour:—

For one or two persons..... 1.25
For three or four persons..... 1.50
BAGGAGE.

For each trunk or box carried in any such vehicle..... 0.25
When the drive exceeds half an hour, hour rates to be charged;

Fractions of hours for any drive exceeding one hour shall be charged at pro rata hour rates, as above established for drives by the hour.

For drives between midnight and four o'clock in the morning fifty per cent shall be added to the tariff rates above established.

Children under five years of age, and sitting on their parents' or guardians' lap, will be admitted free of charge, and shall not be held as being included in the word "persons" in the said tariff, and no charge shall be exacted for travelling bags, boxes, or parcels which passengers can carry by hand.

The word "drive" wherever it occurs in the said tariff shall be held to admit stoppages within the time fixed for said drives.

11. The term "cabsman" means he who is in charge of a vehicle for the conveyance of persons; and the term "carter" of materials, effects, goods, and notwithstanding the use of the term "carter" alone, in any existing By-Law, to designate he who conveys persons as well as the one who conveys materials, however, wherever in any such By-Law, it is question of the use in charge of a vehicle for the conveyance of persons, that means a cabsman; as when it is question of the use in charge of a vehicle for the conveyance of materials, effects, goods, that means a carter. And whenever it is said that a cabsman, or a carter, must place himself at a stand or part of stand, that means a cabsman with his vehicle, or a carter with his vehicle.

12. By-Law No. 393, passed by the Council on the 10th of March, 1905, is hereby repealed, and all the provisions of section 26 of By-Law No. 275, of the 27th of January, 1888, which are incompatible with the present By-law are also repealed.

AN EXCEPTIONAL OPPORTUNITY.
A unique property for sale. The magnificent property, known as the Pensionnat de Notre Dame du Bon Conseil, at St. Thomas de Montmagny, on which the works of repairs and enlargement have been finished for some time, is now offered for sale. These works had been undertaken for the installation of a branch of the Convent of Notre Dame du Bon Conseil at Chicoutimi. Mr. Charles Vézina, contractor, 117-121 Bridge street, Quebec, has through certain circumstances acquired the property, and would be disposed to sell it. It is without contradiction one of the finest establishments in the district. A pretty chapel connected with it which is a veritable gem has been built there. The establishment is provided with all the modern improvements, baths, hot and cold water everywhere, as well as electric lighting and warm water heating. A part containing a hall and drawing rooms has been specially divided off for the use of the director of the establishment and the other part contains class and study rooms and dormitories, and can accommodate between 40 and 50 boarders. The property is situated about a mile from Montmagny station. A spacious ground of two arpents by four belongs to it and a superb wood in an elevated and most healthy situation. It is a unique opportunity for a pensionnat, a religious community, a hospital, a sanatorium, or a deaf and dumb institution. Apply to Mr. Charles Vézina, 117-121 Bridge street, Quebec.

OCEAN TRAVEL.
Montreal, June 20.—The rush of Cana-dian and United States travellers by the St. Lawrence route to Europe is now at its height, and with the de-parture of the Victorian, of the Allan Line, from port at daybreak on Thurs-day, and the Empress of Britain, of the C. P. R., from Quebec on Satur-day, the largest number of first and second class passengers for the season will leave for the other side of the Atlantic. The large cabin accommo-dation of the Empress is fully taken up, while the Victorian will go out with every berth occupied. It was stated yesterday that this season has so far broken all passenger records, and although actual figures are, not yet compiled, they are claimed to be greatly ahead of any previous summer. Not only is Canadian travel on the increase, but this season, so far, has been notable for the very large number of United States travellers taking the St. Lawrence route. Again the me-dium priced passengers have had the effect of inducing people of limited means to travel. While the exodus from Canada is large, the incoming tide of immigration is larger, and a bumper shipping year appears to be well under way.

SIR JAMES WATSON'S OPINION.
He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly be-lieves in local treatment, which is best supplied by "Catarrhazone." No case of Catarrh can exist where Catarrh-azone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treat-ment's can't reach the diseased parts like Catarrhazone because it goes to the source of the trouble along with the air you breathe. Catarrhazone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Ca-tarrhazone which alone can cure Ca-tarrh.

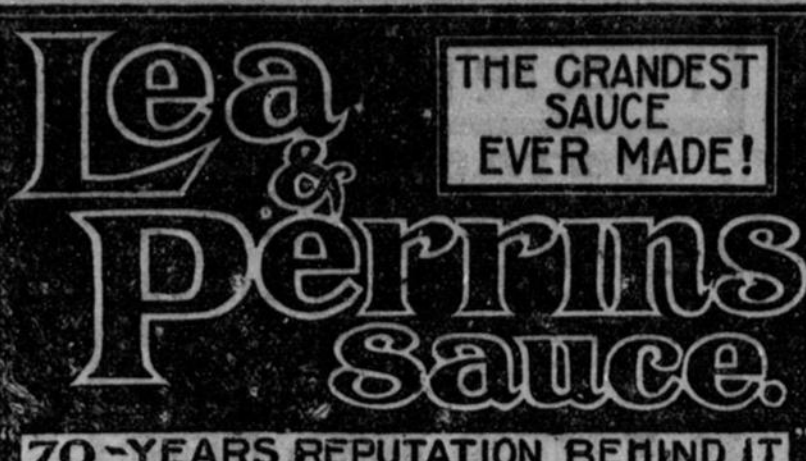

PICTURES, POSSIBILITIES OF UTAH.
Filled from cover to cover with the most interesting information about a State which is making its settlers wealthy in probably a greater pro-portion than any other, is the book-let on "Utah" just issued by the Union Pacific Railroad.

One is amazed at the wonderful re-sources of Utah, as gleaned from the booklet, which is compiled from the latest Government reports, and is as accurate as an encyclopedia. Tabu-lations showing the wealth in agri-cultural, grazing, mineral and timber-ed portions are interspersed with re-markably interesting descriptions which include history, educational advantages, opportunities for hunt-ing, fishing, rest, recreation, or health seeking.

The chances for investment are con-servatively stated with a mirrored bird's-eye view of the present condi-tion of the various industries. The booklet, in a word, is a reliable guide to those who are already financially interested, or are contemplating set-tlement in a rich or rapidly growing state.

Already deep inroads have been made in the edition in answer to re-quests for copies sent to the various agents of the Union Pacific in all the large cities over the country.

ROUND AND SQUARE HOLES.
We often hear the expression—a round peg in a square hole and vice versa—in fact, there are many amongst us who frequently apply these descriptions to themselves and their corner in life. And, alas! alas, let us remember they are never used to describe persons, not at least, to describe themselves, but only by the culture, by those who frankly call themselves unambitious. Now, frank-ness is often a virtue, and it is a quality to be striven after, but not in this respect because to admit openly, even, to ourselves, that we are failures is giving up of hope to some extent, and, therefore it is bad for us. To dub ourselves this or that, and to come habitually to consider ourselves so, goes too, a large way towards us really becoming what we describe ourselves. We are very imita-tive creatures, we usually do our best to live up to a description, especial-ly, alas! if it be a bad or undesirable one. Bear this in mind, therefore, when next you are tempted to think yourself the round or the square peg in a hole that is not fitted to it. What then are you to do? A wise question, because in this world we must all do something, bad if not good; and if we are not after one thing, the other will occupy us. So try rather to fit your surroundings to your requirements. This is quite pos-sible. We can't, of course, easily change concrete things; but we can alter our way of regarding them, and turn even the hardest to our good instead of our undoing. A temptation resisted, for instance, be-comes a stepping stone to heaven, and a difficulty we have surmounted, instead of letting it crush us. And even the material facts of life, the circum-stances of our surroundings, will alter before a brave and earnest endeavour. Away then with the cowardice, the incoherence that cries out about round or square pegs, about unsuitable sur-roundings. Let us take up our daily work bravely, worthily, and so shall our bravery make the lowest most worthy.

COMPARE TIMMONS' SODA WATER

with Appolinaris or Perrier Waters. It is perfection and cannot be excelled by any in the world as a dilutant of Whisky or Milk Crisp, white, brisk, sharp without biting and smooth without being flat. It will not chill the palate but is tasty and clear and will retain its effervescence for a wonderful time after opening and only same price as so called Soda Water.
