OF 1875, OTTAWA.

First Prize, Bronze Medal and Diploma, Provincial Exhibition, Quebec, 1877.

The Safes I manufacture, justly considered at present as the best ever offered to the public, combine all the qualities required as to strength and safety. In order to avoid moisture in the interior of the Safe, and offer the greatest possible resistance in case of fire, an air space has been secured between the iron sheets which form the envelope or frame of the Safe.

The Hinges are not of Cast, but Wrought Iron, resting on a solid base of Steel with aperture, in order to remove the doors, in case they should in time require any repairs. This improvement gives an undoubted superiority over all other Safes.

These Safes are all they are represented to be, and a visit to my Factory will convince every thinking man of the truth of what I affirm.

## PREFACE.

---

THE PUBLISHERS have much pleasure in submitting herewith the MONTREAL DIRECTORY for 1879-80, and trust it will meet the approval of subscribers and advertisers. The difficulty of securing thoroughly reliable agents necessitates the revision of their work from door to door. To some this repetition may have proved somewhat annoying, but by no other means could correctness be secured.

The Classification is, in the present issue, confined to Advertisers. A separate publication, entitled:

### LOVELL'S CLASSIFIED BUSINESS DIRECTORY,

will contain a classification, under their respective profession, business or trade, of persons doing business in this city.

The Publishers have to thank subscribers and advertisers for their continued generous support, and beg also to acknowledge the courtesy of those to whom they are indebted for the large volume of Miscellaneous information contained in the Directory.

MONTREAL, June 7, 1879.
