

DRIVE AGAINST
BUCKET SHOPS

Action To Close Them Under
The Martin Act Has
Started

New York, N.Y., June 21.—The house cleaning in Wall Street, inaugurated after the failure of E. M. Fuller & Co. for \$5,000,000 and disclosure that the house was one of scores of bucket-shops where brokers bet their brains against their customers' money brought four important developments today.

First—Inauguration by Attorney-General Sherman of a campaign to close all bucket-shops by injunction, under the recently adopted Martin Act.

Second—Announcement that W. S. Silkworth who has been sharply criticized for his alleged dealings with now bankrupt members of the Consolidated Stock Exchange, had decided to resign the exchange presidency next Thursday and that Lawrence Tweedy, vice-president slated to succeed, would immediately start a thorough reorganization of the Exchange.

Third—Disciplinary action by the New York curb market against two members alleged to have committed acts injurious to the Exchange. One was expelled and one suspended for a year.

Fourth—Reports that powerful banking interests in the street had inaugurated a series of conferences to seek some means of stabilizing conditions in the financial zone. In this connection the statement last night by President Cromwell of the New York Stock Exchange that a movement was on foot to organize a pool to save houses subjected to runs, was recalled.

The Attorney-General's drive announced last night, was begun in earnest today when he obtained from Supreme Court Justice Wasservogel temporary injunctions restricting the interlocking brokerage firm of W. W. Weese & Co. and J. H. Dube & Co. from bucketing or otherwise engaging in fraudulent stock transactions.

Wilfred W. Weese and Joseph Dube who recently consolidated but kept both firm names were ordered to appear Monday to show cause why their injunctions should not be made permanent. The firms were said to have no direct exchange connections.

While only two injunctions were sought today, the Attorney-General's office indicated that similar actions would be forthcoming from time to time as the widespread investigation being conducted by the department bears fruit.

The announcement that Mr. Silkworth planned to resign for the good of the Consolidated Exchange came from the president himself.

The curb market's action in disciplining members came as a sequel to the promise made by curb officials to the Attorney-General that they would do all in their power to wipe out improper dealings among their members.

The members disciplined were Benjamin Alexander of the house of J. Schneck, who was expelled for "an act inconsistent with the curb's principles of trading," and A. B. Morley of A. B. Morley & Co., who was suspended a year for "an act detrimental to the best interests of the Exchange."

SS. PRO PATRIA
HELD ON CHARGE OF
SMUGGLING LIQUOR.

North Sydney, N.S., June 21.—The French steamer Pro Patria, running between North Sydney and St. Pierre, was seized by the Canadian Customs authorities here early this morning and is held on a charge of smuggling liquor in contravention to the Customs Act. The seizure was made following the capture of five kegs of rum alleged to have been unloaded from the steamer at one o'clock this morning.

10 P. M.
At 10 P. M., a shimmering gleam,
From Fairy-Land just stepped,
"I would seem—"
A fairer sight can artist dream?

QUEBEC NEEDS
MORE RAILWAYS
SAY MEMBERS

P. C. Casgrain And Hon. C.
Marcil Ask For Railway
Extensions

N.B. MEMBER ALSO
Ask Why Railways Should Be
Extended In West To Neg-
lect Of East

Ottawa, June 21.—(By Canadian Press)—Plans for more branch lines for the Canadian National, particularly in Quebec and the Maritimes, were made in the House today. The House was considering a resolution covering proposed branch line construction, a resolution which was adopted and a bill based thereon given first reading.

During discussion Hon. G. P. Graham, Minister of Railways, said that believing the promises of the Government and of Parliament in regard to the Hudson Bay Railway should be carried out, he would consider including an item in the supplementary estimates in this connection.

Hon. C. Marcil, Liberal, Bonaventure, complained of the inadequate railway services in the Gaspé Peninsula. While Parliament was voting millions for parts of the country where settlers would be arriving, he said, the oldest Province was left without proper railway communication. He noticed that it was proposed to spend \$25,000,000 on the construction of branch lines. Seventy-one miles would be in Nova Scotia, twenty-five miles in New Brunswick, fourteen miles in Quebec, and twenty-nine in Ontario. All the remainder would be in the West.

"I consider that this part of Quebec has been overlooked," said Mr. Marcil, "and when I placed the matter before Sir Henry Thornton on a purely business basis, he was amazed at the state of affairs. He offered at once to undertake to operate these railways as branch lines of the Intercolonial, but we are held up by those English companies who are keeping the roads alive merely for the purpose of obtaining their price."

R. B. Hanson, Conservative, York-Sunbury, made a plea for the residents of Kent County, New Brunswick. There was a railway in this county known as the Kent Northern which had been the subject of negotiation for purchase. This railway company had originally refused the offer made to it by the Government, but he understood that it was now willing to sell, and he thought the Government should take it over. "Last winter the people of this county had been without railway facilities for forty-three days."

P. F. Casgrain, Charlevoix-Montmorency, asked for branch lines in his constituency to develop industries already located there.

A. T. Lege, Liberal, Kent, remarked that he thought his constituents could get along without the interference of the member for York-Sunbury (Mr. Hanson). At the time the offer for the Kent Northern Railway had been made by the Government he had done all in his power to have it accepted.

H. C. Hocken, Conservative, Toronto West, commenced with a reference to the "pathetic plea" made by the members who had preceded him on behalf of railways operated for the past forty years by private companies and now unable to go on. Thomas Vien, Liberal, Lotbinière, interrupted with the assertion that in the Province of Quebec railway mileage was less in proportion to population than anywhere else in Canada; furthermore that railways in Quebec were not able to pay for themselves but for deficits. In the Province of Quebec, pressed Mr. Hocken, there was considerable sentiment against national ownership.

Mr. Hocken said he hoped Western members would not fail to point out the generosity of the Government at the present time towards the West in the matter of railway extensions when they went home. Robert Forke, Progressive leader, asked if Mr. Hocken realized that the city of Toronto will be benefited more by the extension of railway lines than the people of the West.

Mr. Hocken said while he did not realize that, he did realize that Toronto and Montreal and other big centers would pay more towards the extensions than any other part of the country.

Shipping Movements

PROSECUTION IN
DELOME CASE

To Call New Witnesses—
Delorme's Accounting Of
Brother's Estate Meticulous

Montreal, June 21.—An attempt to forge another link in the chain of circumstantial evidence against Father Adelard Delorme, indicted as the slayer of his half brother, Raour, in January, 1921, was made by the prosecution today.

Producing its second sensation, the Crown announced that it would bring a witness named Woods to swear that he had seen a Franklin motor car, similar to that owned by the priest, driving from near the cleric's residence, and later turning in the general direction of the suburbs where the slain boy's body was found.

Tonight the Crown Prosecutor, accompanied by both counsel for the defence and Detective George Lajoie, journeyed out to the scene of the crime with a view to reconstructing the possible movements of the youth's slayer on the night of the crime.

During the afternoon the prosecution sought to show that Father Delorme had so administered the estate that he incurred a personal deficit in his own account which he balanced by converting funds from the account of the slain boy. The defence, however, emphasized that all expenses were charged against the priest's account, even the trips which he made with his brother. Furthermore, the value of the estate had been greatly enhanced, under the priest's administration.

The solitary witness of the day, Willie Marlen, auditor, who examined the books of the Delorme estate under instructions of the Attorney-General, deposed that the priest's accounting of the estate while not conventional was of a highly meticulous character.

WOULD CUT PAY
OF NAVY MEN

Select Committee Recom-
mended That Pay Of All
Ratings Be Reduced

London, June 21.—Although the personnel of the British navy has been reduced from 151,000 to 95,000 since 1913, the aggregate pay has increased from £8,800,000 to £14,000,000.

This striking fact emerges from the report of the Select Committee on Navy Estimates, issued today, which recommends cutting pay all around and organizing and reducing the administrative departments. The report points out that the money paid to the navy personnel has increased 120 per cent in addition to liberal pensions and marriage allowances, although the increase in the cost of living now is only about seventy per cent.

Among the examples given is the maintenance of four surgeon rear admirals at a cost of £4,431, as compared with three of these officers before the war at £4,497.

The Committee also states the warship New Zealand, presented to the navy by the New Zealand Government at a cost of £1,700,000, was sold for £21,000, because it was included in the Washington agreement list of scrapped vessels and was disposed of at a time when the market for ships was glutted.

The Weather.

Toronto, June 21.—A deep depression is centred tonight over Montana, causing fairly heavy rains over the greater part of the Canadian West. Pressure is high and the weather somewhat cooler from Ontario eastward.

Temperatures: Min. Max.
Vancouver .. 50 68

Ottawa Valley, Upper and Lower St. Lawrence—Moderate northerly winds; fair and cooler.
Gulf and North Shore—Moderate northerly winds; fair and comparatively cool.

Maritime—Moderate northerly winds; fair; not much change in temperature.

MONTREAL HARBOR BOARD

WANT NEW BRIDGE

Ottawa, June 21.—(By Canadian Press)—The erection of a highway bridge immediately below and beside the existing Victoria Bridge between Montreal and the south shore of the St. Lawrence River, is recommended by the Montreal Board of Harbor Commissioners in a report to the Government. The estimated cost of erecting the bridge is given at \$3,000,000. The erection of such a bridge, the Commissioners state, would relieve acute traffic congestion for some time to come.

Necessity never made a good bargain.

THREE FRENCH
MINISTERS DEFY
RADICALS

Have Refused To Resign
From Poincare Cabinet At
Demand Of Radicals

POINCARÉ'S POSITION
Premier Has Stoutly Refused
To Discuss Any Of His
Collaborations

Paris, June 21.—Three members of the Cabinet who are also members of the Radical Party, have ignored a summons by the Executive Committee of the Radicals directing them to resign office in order to show their loyalty to the party, which voted against Premier Poincaré in the recent debate on interior politics. The three are Minister of Colonies Sarraut, Minister of Health Strauss and Under Secretary for Posts and Telegraphs Laffont.

While the Radicals consider themselves excluded from the ruling majority and desire to sever all connections with the Cabinet, members of the majority are pressing M. Poincaré to make certain changes, replacing Minister of the Interior Maunoury whom they charge with sympathizing with the Radicals and being likely to favor them in the elections next year. The Premier, however, is stoutly resisting all suggestions for the dismissal of any of his collaborators.

The object of the Radical Party's Executive Committee in demanding the resignation of the three Cabinet members is considered in political circles to be the weakening of M. Poincaré's position in the Senate, where the Radicals are much stronger than in the Chamber, and the decision of the Ministers to stick to their posts is regarded as strengthening the Premier in the Upper House.

FATAL RESULTS
OF EXPLOSION

Of Dynamite In Sewer In
Hamilton, Ont.—3 Fatally
Hurt, Others Injured

Hamilton, Ont., June 21.—Three men were fatally hurt and five injured today when dynamite exploded in a sewer under construction on Kenilworth Avenue near the plant of the Libby Owens Co. today.

The cause of the explosion is not known, but it is thought an old charge was left by workmen, and this left off 17 sticks of dynamite lying on the ground in the pit where the men were.

Fred. Slater, died before he reached the hospital and H. Glaté and S. Jenkins, succumbed to their injuries about an hour later. The injured are: James Owen, Fred Steele, J. S. Williamson, J. Smith, Robert Levesque.

It is feared that some of those reported injured will die.

SHIP WILL BE
SENT TO ARCTIC

By Canadian Gov't. This Year
To Establish Police Posts
And Acquire Information

(By Canadian Press)
Ottawa, June 21.—The Government intends to send an expedition to the Arctic Islands this year to establish police posts and to acquire scientific information. Information to this effect is contained in a return to an order of the House moved by George Parent, Liberal, Quebec West, and brought down today.

The return states that the Government intends to equip the steamship Franklin for service in the Arctic regions at a cost of \$80,000.

This amount will purchase, equip and maintain the vessel during 1923. One cinematographer will be carried on the expedition. An expedition was sent to the Arctic last year under the command of Captain J. E. Bernier.

NEW YORK ROBBERS

CLUBBED YOUNG WOMAN

New York, June 21.—Two men today entered the jewelry store of Max Katz, 25 on Flatbush Avenue, in the heart of Brooklyn's shopping district, clubbed a young woman clerk, alone in the store and escaped in an automobile with jewelry valued at \$10,000.

TWO BELGIANS
WERE KILLED

By Germans In Fight In Marl
—Sanctions Will Be Taken
Against Town

Essen, June 21.—A Belgian corporal and a private were killed and one private was wounded at Marl, near Recklinghausen, today when they endeavored to search two Germans at a control post. The Germans, upon being challenged, drew revolvers and immediately began shooting. They were arrested by other members of the post, and the authorities have announced that sanctions will be taken against the town and district where the shooting occurred.

SPECULATING IN
GERMAN MARKS

May Be Punished Severely By
German Gov't., According
To Reports

Berlin, June 21.—Nervousness prevailed among the dealers in exchange today, when on the eve of the Government's new drive against them, they read of the firm manner in which the Polish authorities are handling the foreign currency situation.

Sweeping restrictions on traffic in money and stocks are forecasted as a result of the Government's conferences with financial and economic experts which are expected to lead to financial conclusions soon.

It is reported that new punitive measures of unusual severity will be instituted and that the whole program for boosting the mark is to go into effect by the beginning of next week or earlier.

NEW BRUNSWICK
FOREST FIRES

Rains In Restigouche County
Have Materially Improved
Situation—Still Danger

Fredericton, N. B., June 21.—The northeastern section of Restigouche County in which serious fires have been burning at Balmoral and Belledune received the greatest benefit from last night's rains which fell in some of the northern sections of the province. The area about Belledune and Balmoral were thoroughly damped by the fall of rain, although not drenched, according to reports which were received here today at the Department of Lands and Mines.

In addition to the blaze which swept the village of Upsalquitch from the map yesterday, new fires were reported late last evening on the Meadow Brook about ten miles southwest of Rogersville and on the little south branch of the Renous River. These fires are in bad locations.

Fredericton, N.B., June 21.—An improvement in the forest fire situation in New Brunswick was seen by officials of the Department of Lands and Mines as a result of conditions of the past 24 hours.

The new fires which were reported yesterday were said not to be making progress while there has been some rain at the location of the big fires in the northern counties of the province.

Canadian National Railways officials reported a resumption of service on the International Railway, which runs through the fire district, after the fire which wiped out the hamlet of Upsalquitch, near the Quebec border, last evening.

CHIEF OF ELECTRICIANS

INVOLVED AGAINST

HYDRO OF ONT.

Montreal, June 21.—At the 32nd annual convention of the Canadian Electrical Association which opened here today P. T. Davies, President, inveighed strongly against alleged discrimination on the part of the Ontario Government in connection with preferential treatment given by that Government to the Hydro-Electric Commission of the province. The Commission escapes income and provincial taxation and further pays no sales taxation on the appliances which it buys for re-sale, claimed President Davies and he commented that all non-users of its products both in Ontario and the rest of Canada were paying for this.

PRISONER ESCAPED

IN GARBAGE CART.

Montreal, June 21.—Dominique Russel, a short term prisoner at Bordeaux made his get-away from the jail by a unique method. He was engaged with another convict, Azario Simard in removing rubbish in a cart and had himself buried under the garbage, despite the extreme heat. The cart then was driven outside the walls of the jail and its contents dumped. Russel then climbed out of the garbage heap and escaped. Simard's part in the escape will be investigated in court.

UNION BANK IS
NOT IN SERIOUS
DIFFICULTIES

Some Losses On Sterling And
Dollar Exchange Have Been
Provided For

REDUCING RESERVE
But Capital Is Unimpaired,
Rest Account Substantial
And Support Ample

(By Canadian Press)
Montreal, June 21.—Reduction of dividend from ten to eight percent as a result of heavy losses and provision for risks in connection with which a sum of \$4,250,000 has been transferred from Rest account to Contingent Reserve is the gist of the statement issued to shareholders of the Union Bank of Canada today over the signature of W. R. Allan, President of the Bank.

The statement opens with the announcement that "unauthorized transactions in foreign exchange, had resulted in a considerable loss to the bank. This loss developed in connection with certain loans made during the period of inflation; and the President states that "in addition to taking care of these, it is prudent to make provision in respect of loans, the full liquidation of which has been delayed by the well known abnormal conditions which followed that period."

A few weeks ago notification was given of the retirement of the General Manager who was succeeded by J. W. Hamilton, Assistant-General Manager. Later the resignation of F. W. Ashe, Assistant-General Manager, with headquarters in London, England, was announced, together with the retirement of the manager of the London office J. Wilson. The local stock exchange has freshened the troubles of the bank. From a high for the current year of 139, the stock has fallen to a low today of 120. A good deal of stock selling has been going on of late months, a total of about 3500 shares to date having been sold.

The present Board of Directors of the Bank is as follows:—

Sir William Price, Hon. President, Quebec; W. R. Allan, President, Winnipeg; Stephen Hass, Vice-President, Toronto; G. H. Thompson, Vice-President, Winnipeg.

Directors:—R. T. Riley, Winnipeg; John Galt, Victoria; Wm. Shaw Quebec; E. L. Dewrey, Winnipeg; F. E. Kenaston, Minneapolis; M. Bull, Winnipeg; B. B. Cronyn, Toronto; J. S. Hough, K.C., Winnipeg; Home Blake, Toronto; R. O. McCulloch, Galt, Ont.; A. Hitchcock, Moose Jaw; W. H. Malkin, Vancouver; G. H. Balfour, Winnipeg; S. E. Elkin, M.P., St. John, N.B.; G. M. Black, Winnipeg; H. A. Robson, K.C., Winnipeg.

The Union Bank will be 58 years old in October next. It was incorporated in 1865 by Act of Parliament of the Dominion of Canada under the name of the Union Bank of Lower Canada with a capital of two million dollars. The head office was in Quebec city up to 1912 when it was moved to Winnipeg. Today it has about three hundred branches scattered throughout the west of Canada. The first branch of the bank was established in Montreal in 1868; Ottawa was the first Ontario branch opened in 1870. The name was changed to the present title in 1885. In 1911 the Union Bank opened a branch in London, England, and today it has two branches there. In 1917 direct connection was made in New York City with the establishment of a New York agency.

In 1918 the bank announced the joint formation with the National Park Bank of New York of a subsidiary connection known as the Park Union Foreign Banking Corporation, designed to develop trade with the Far East. Since then the corporation has opened branches in Seattle, San Francisco, Yokohama, Shanghai, Kobe, Tokio, Hankow, Singapore and other points.

The Union Bank of Canada this afternoon in a circular addressed to the shareholders discloses what is characterized as a "serious condition affecting its rest account." The statement follows:—

"Dear Sir or Madam:—
Shortly before the last annual general meeting your then General Manager reported to the President and Directors the discovery of certain unauthorized transactions in foreign exchange from which a considerable loss to the bank resulted which loss had then been fully provided for.

"Having regard, however, to all the surrounding circumstances and in view of the change in the general management of the bank, a thorough examination and re-evaluation of the bank's assets was later decided upon.

"This has been conducted by the present general manager, the chief executive officers and the auditors of the bank and in addition an independent examination has been made by a high executive officer of the Bank of Montreal, loaned for the purpose.

Right To Seize Contraband
But What About Liquor In
Bond?

Heads Of Prohibition And
Moderation Forces Predict
Victory In Plebiscite

Washington, June 21.—Secretary Mellon began a series of conferences today in an effort to clear up the new ship liquor situation developing from the determination of several foreign shipping companies to bring liquor into United States waters under the customs seals of their Governments.

Prior to the deliberations the Secretary declared there was no doubt of the general right to seize contraband within American water but added that the question whether an agent of the United States Government dared destroy a foreign Government seal presented a grave problem.

Winnipeg, June 21.—"Do you approve of the proposed law entitled an act to provide for government control and sale of liquor proposed by the Moderation League?"

This question faces the electors of Manitoba tomorrow and on the answer of the majority it will be decided whether the legal sale of intoxicating liquors as a beverage is to be restored in this province.

"We are going to win hands down," said John McGregor, Chairman of the Winnipeg Prohibition Campaign Committee.

Rev. Hugh Dobson of Regina, a leader in the campaign, declared that there had been a "steady solidifying and strengthening of the farm vote back of prohibition."

"From my understanding of the situation," said F. W. Russell, President of the Moderation League, "we are going to get in the first place, a very satisfactory vote for the Moderation League in the country and in the second place we are assured of a very satisfactory vote from the women of the province generally. This coupled with the support we are going to receive in the city itself, seems to point to assured success for our movement."

The vote is expected to be the largest ever polled in Manitoba.

Your system demands ALL BRAN if constipation is to be relieved!

Your system needs the "roughage" that Kellogg's Bran, cooked and krumbed, supplies. For, it will not only permanently relieve constipation, but it is eaten regularly, but its full content of the vital elements of wheat will build health and strength in a wonderful way.

You need bran in its full and beneficial strength and that's what you get in Kellogg's Bran—ALL BRAN! You eat Kellogg's Bran for relief and you will get relief in a way that nature planned. Foods with a bran mixture cannot help the man, woman or child who faces grave illness through constipation. You must have ALL BRAN—"roughage" that will sweep and clean and purify and bring health back!

Children should be given Kellogg's Bran each day; grown people should

eat Kellogg's Bran each day—at least two tablespoonfuls, in chronic cases with each meal. Its mechanical action will afford permanent relief.

And, you will find Kellogg's Bran a delight to eat because it is so delicious. As a cereal, sprinkled on other hot or cold cereals, or used in countless bakery batches or in cooking, its nut-like flavor will thrill your appetite—and each spoonful means so much in permanently relieving constipation and in warding off this gravest national ailment. Kellogg's recipes are printed on each package.

Start the entire family eating Kellogg's Bran today. See the color come back to faded cheeks; see the snap that will go into lagging steps. Kellogg's Bran is wonderful. All grocers sell it!

WHO'S WHO ON CUNARD BOATS

What Different Bands And Stripes On Officers' Cuffs Mean Is Explained

The insignia on the cuffs of the coats worn by ship's officers are always a puzzle to passengers. The Cunard Line has given out an explanation of what the different bands or stripes mean when worn by officers of this line, as follows:

Staff Chief Engineer—4 gold bands and three purple bands (all running diagonally).

Second Engineer—3 gold bands and two purple bands (all running diagonally).

Chief Purser—3 gold bands and two white bands.

Staff Purser—2 gold bands and one white band.

Senior Assistant Purser—1 gold band and one white band.

Junior Assistant Purser—1 white band.

Senior Doctor—3 gold bands and two red bands.

Junior Doctor—2 gold bands and one red band.

Chief Steward—2 zig-zag gold bands.

Assistant Chief Steward—2 zig-zag gold bands.

Second Steward—1 zig-zag gold band.

Wireless Operator—Double twisted gold band.

3 VESSELS DUE OVER WEEK-END

1,659 Passengers Are Traveling On Montclair, Marloch And Canada

Three ocean steamers, carrying 1,659 passengers between them, are expected in port over the week-end from the Old Country. The three steamers are the Canadian Pacific Montclair and Marloch, and the White Star-Dominion Line vessel Canada.

The first of the trio expected here, the Montclair, hailing from Liverpool with 256 cabin and 559 third-class passengers on board, being reported at Cape Ray at 1 p.m. yesterday. She is scheduled to arrive at midnight tonight.

Then comes the Marloch, a member of the same fleet, which, sailing from Glasgow and Belfast with 87 cabin and 417 third-class passengers, is expected to dock here at 10 p.m. tomorrow.

The third of the steamers to arrive here will be the White Star-Dominion Line Canada, also from Liverpool, with 120 cabin and 210 third-class passengers. She also is due tomorrow evening.

Passed down yesterday: SS. Hochelaga at 12:45 a.m.; S.E. Rockferry at 3:45 a.m.; S.E. Rockferry at 7:05 a.m.; S.E. Rockferry at 2:50 p.m.; C.G.M.M. SS. Canadian Logger at 5:45 p.m.; SS. John C. Howard at 7:10 p.m.; SS. Ingra at 7:55 p.m.

The steamer Cape Diamond arrived up at 3:20 a.m.

The SS. Saxilby arrived up at 7:05 a.m.

The collier Lord Strathcona arrived up at 3:30 p.m.

The C.S.S.L. steamer Quebec arrived down at 7:55 a.m. and left up at 6 p.m.

The C.S.S.L. steamer Saguenay arrived up at 9:45 p.m. and left up at 10 p.m.

The schooner A. Tremblay arrived down at 10:30 a.m. and left down at 6:30 p.m.

The SS. Glenburnie arrived down at 3:10 p.m. and moved over to the drydock at Levis.

The C.G.M.M. SS. Canadian Conqueror arrived down at 3:30 p.m.

The C.G.S. Bellechasse arrived down at 7:30 p.m. and left down at 8:35 p.m.

Hopper Barge No. 3 arrived down at 7:35 p.m. and left down at 8:35 p.m.

The Gerald Morgan and tow arrived down at 7 p.m.

The Canadian Pacific Montclair was reported at Cape Ray at 1 p.m. yesterday and is due in port at midnight tonight.

The White Star-Dominion Line R.M.S. Canada, from Liverpool with 120 cabin and 210 third-class passengers is due in port Sunday afternoon.

Port of Montreal, June 21—Arrivals—Manchester Regiment, Manchester; Linderhall, Liverpool; Fanad Head, Fowey, Sailed—London, Gibraltar, Canadian Conqueror, London; Tanford, Bergen; Manchester Corporation, Manchester; Eldevaag, Botwood, Nfld.

MAURETANIA HAS DAY'S HIGH RUN

Steamed Twenty Knots More Than Did Majestic On Recent Trip

The Cunard Line announces with regard to the statement published yesterday concerning the new record made by the Majestic, viz., that 609 knots is the highest run achieved on the westbound route by any steamer that such a claim is incorrect. In June, 1922, the Mauretania westbound on the Cherbourg route ran 629 knots.

In order that there may be no doubt as to the predominance of the Mauretania as the fastest steamer crossing the Atlantic, the following are the record runs from New York to Cherbourg:

1922	Speed (Knots)
April 25th voyage.....	25.14
June 6th voyage.....	25.29
June 27th voyage.....	25.29
July 8th voyage.....	25.26

So that any further possible doubts on the subject of Atlantic records may be removed, it is stated that the highest day's run on record is 676 knots, attained by the Mauretania on the New York-Liverpool Service. The best average speed for any complete voyage across the Atlantic is 26.08 knots. This and the record average speed for one day of 27.04 knots by the Mauretania have never been approached as yet by any steamer.

The record passage of the Mauretania from Cherbourg to New York is 5 days, 7 hours, 33 minutes. She left Cherbourg on October 28th, 1922, at 9:25 p.m. and arrived at the Ambrose Channel Lightship, New York, on Thursday, November 2nd, at 11:58 p.m. The record passage of the Majestic between Cherbourg and New York is 5 days, 12 hours and 15 minutes.

TIDE TABLE

The following shows the rise and fall of the tide at Quebec up to and including Sunday, June 24 next. (Standard Time. Daylight Saving one hour later):

June. Time.	High.	Low.
6.45 a.m.	6.45 a.m.	6.45 a.m.
0.01 p.m.	1.51 p.m.	7.13 p.m.
0.45 a.m.	1.51 p.m.	7.52 a.m.
1.18 p.m.	1.48 p.m.	8.21 p.m.
1.53 a.m.	1.57 p.m.	9.03 a.m.
2.25 p.m.	1.49 p.m.	9.22 p.m.

SIGNAL SERVICE

Grosbeak Island. In 1:15 p.m. Wabana 25 east; Blackheath 25 1/2 east.

Cape Salmon—Clear, northeast.

In noon Wabana.

Father Point—Cloudy, calm.

In 10:25 a.m. Richelieu. Out 10:30 a.m. Melita.

Little Melita—Cloudy, variable. In 10:30 a.m. steamer. 11 a.m. Adia Tower; noon steamer.

Cape Magdalen—Cloudy, variable. In 10 a.m. steamer.

Fame Point—Cloudy, northeast. In 10:30 a.m. Gedania 32 east; 1 p.m. Manchester Spinner; 12:40 p.m. Cairnvalona 145 east; 12:25 p.m. Cairnvalona Squatter 40 east.

Nashquan—In 7 a.m. Gaspe.

Clarke City—Out Labrador at wharf this p.m.

Bale des Cedres—Chicago Tribune at wharf noon today.

Point Tupper, N.S.—In 7:30 a.m. Canadian Harvester.

Cape Ray—In 1 p.m. C. P. R. Montreal.

Cape Race—Dense fog, variable.

IRISH RAIL SERVICE BACK

TO PRE-WAR SCHEDULE

A cable from Glasgow to the Anchor Line office states that rail road service in North Ireland is now so much improved that it is on a par with schedules maintained prior to the war. There are also good connections with Central and Southern Ireland. The Anchor Line steamers are the only ships sailing to the North of Ireland, the port being Londonderry.

TIME BALL

The Time Ball is dropped every day at 1 p.m. Standard Time, (4 p.m. Greenwich Time) from the King's Bastion here during the season of navigation.

QUEBEC-MONTREAL TRAIN SERVICE

via Canadian National Railways

The Canadian National Ry. offer the most convenient train service to Montreal and return: "The Montreal" leaves Quebec (Palais Stn) at 1:20 p.m. daily except Sunday and arrives Montreal (Bonaventure Stn) at 6:05 p.m. On Sunday this train leaves at 4:45 p.m. and arrives Montreal at 9:30 p.m.

"The Quebec" leaves Montreal at 9:45 a.m. daily and arrives Quebec at 2:30 p.m. "The Citadel" leaves Montreal at 11:30 p.m. daily and arrives Quebec at 6:45 a.m. Observation and Cafe Parlor Cars on day trains. Standard sleepers on night trains.

For further information, rates, reservation etc., apply to Information Bureau Tel. 2125, City Ticket Office 10 St. Ann Street, City. 529 and 530 or to any Agent of the C. N. Ry.

Men must pursue things which are just in the present and leave the future to the Divine Providence.

How To Sleep 3-IN-A-BED

YES, it CAN be done—but not like this.

The trouble is, most people go to bed with "something" on the mind—or ON THE STOMACH!

The answer is no matter what the day has brought forth to upset your mind and digestive organs, take Beecham's Pills when you retire.

Though in no sense a "sleeping potion," this 80-years-famous household medicine so harmonizes the system that you can sleep in quiet and perfect rest, even in two feet of bed space.

Beecham's Pills are as efficient and harmless for children as for adults—sweetening the stomach, invigorating digestion and stirring liver and bowels to natural activity.

At All Druggists

SEVERAL FAST TRAINS Between QUEBEC-MONTREAL Via Canadian Pacific

The Canadian Pacific Railway maintains between Quebec and Montreal several daily fast trains offering convenient and dependable service with connections for Ottawa, Toronto, Boston New York, Detroit, Chicago and Western Canada.

The "Frontenac" leaves Quebec, Palais Station, at 1:30 p.m. daily, arriving Montreal, Park Ave., 5:50 p.m. Montreal West, 6:12 p.m. Westmount 6:22 p.m. Montreal, Windsor Station, 6:30 p.m.

From Montreal the "Frontenac" leaves Windsor Station at 9:00 a.m. daily, Westmount 9:07 a.m. Montreal West, 9:15 a.m. arriving Quebec, Palais Station, at 2:00 p.m.

The "Viger" leaves Quebec, Palais Station, at 4:40 p.m. daily, except Sunday, arriving Mile End at 9:25 p.m. and Montreal, Place Viger Station 9:40 p.m.

From Montreal the "Viger" leaves Place Viger Station at 5:00 p.m. Mile End, 5:15 p.m. daily, except Sunday, arriving Quebec, Palais Station, at 10:00 p.m. On Sunday an afternoon train leaves Place Viger Station at 2:30 p.m. Mile End 2:45 p.m. arriving Palais Station at 3:30 p.m.

Standard time governs all train movements; to convert to daylight saving time, add one hour.

The equipment is of the most modern type and the service unrivalled. In addition to first and second class coaches, the "Frontenac" and the "Viger" carry electric lighted observation—library-parlor cars, vestibule parlor cars and standard dining car.

In addition to the "Frontenac" and the "Viger" Canadian Pacific operates between Quebec and Montreal a morning train on week days and daily night trains to and from Place Viger and Windsor Street stations, train for faster carrying sleeping-coaches and compartment electric lighted sleeping cars.

Information, tickets, reservations at ticket offices in Quebec: 30 St. John Street, phone 93; Chateau Frontenac, phone 1840; Palais Station, phone 663.

OTTAWA'S ZOO.

Ottawa is pulling hard for the establishment of a national zoo in that city. Most people thought they have had one there already; for about four months of the year—St. Catharines Standard.

All bad fortune is to be conquered by endurance.

BERGERVILLE AND SILLERY NEWS

Confirmation Service By The Lord Bishop Of Quebec—Adventurous Robins

The Lord Bishop of Quebec held a confirmation service in St. Michael's Church, Bergerville, on Sunday evening last when four candidates were presented to him for the rite of laying on of hands. His Lordship gave a most impressive address, taking his text from St. Paul's Epistle to the Ephesians, Chap. 3, ver. 16, "God grant you, according to the riches of His glory, to be strengthened by His spirit in the inner man."

A large congregation was present and the choir rendered several hymns.

Sillery robins seem to be possessed of adventurous spirits and unbounded confidence in mankind, for not only did two of them spend the whole winter in the neighborhood, weathering the severest storms in the most cheerful manner, but a pair have built their nest under the eaves of a house not twenty-five feet from the main road. They are now engaged in raising a second family oblivious of passing traffic and the painters engaged on the roof.

PERSONAL

Miss Gertrude Rhodes has returned from Toronto for her vacation.

Sillery has lost one of its esteemed residents in the person of Mr. W. H. Hatch, who died on Monday last at the age of 74.

The funeral took place on Wednesday from his late residence on St. Louis Road, to St. Michael's Church and Mount Hermon Cemetery.

SEVERE STORM AT RICHMOND

Accompanied By Hail Did Some Damage—Mr. Arthur Cook Kicked By Horse

Richmond, June 21—A severe storm passed over this area Saturday afternoon, during which torrents of rain were followed by a heavy fall of hail. Some damage was done in the exposed parts of the town and adjacent townships.

Mr. Arthur Crook of Melbourne Township met with a severe accident about 10.30 Sunday morning. He was kicked in the abdomen by a young horse and it was found necessary to have him taken in an ambulance to Sherbrooke hospital for operation.

The Richmond Baseball team went down to another defeat on Sunday when they came on the diamond with the Magog team. The game was fairly well contested, Richmond leading most of the way until the 9th inning, when the Magog team secured the necessary score.

The men of the XI. Hussars, now in camp on the Richmond Fair Grounds, attended service in a body on Sunday. The men presented a smart appearance after their short training. Col. R. F. Stockwell, commanded the regiment.

The closing of the classes at St. Charles' Seminary, Sherbrooke, took place on Tuesday the 19th. Among the Richmond boys who are following studies at this Seminary and who returned on Wednesday the 20th, are: Redmond Hayes, John Desautels, Henry Laporte, Ellyer Beausoleil, Gaston Desmarais, Herman and Philippe Girard, Gerard Girard and Omer Davignon.

GRAIN RATES ON GREAT LAKES

House Adopted Resolution To Place Them Under Grain Commissioners

(By Canadian Press) Ottawa, June 21—There was a long and vigorous debate in the House of Commons to-night on the resolution moved by Hon. J. A. Robb, Minister of Trade and Commerce, to give the Board of Grain Rates authority to control grain rates on the lakes. Mr. Robb said the Minister of Marine and Fisheries was providing for an amendment which would give the Government power to suspend the coastal laws. If the measure were passed the Government would have two levers to prevent undue enhancement of lake freight rates. W. F. Carroll, Liberal, Cape Breton South, criticized the members of the Grain Rates Commission and asked whether they knew anything of freight rates on the lakes. This resolution was carried as was also that authorizing the Government to suspend the coastal laws.

C.P.R. PRESIDENT SAYS CANADA HAS BEEN SLOW

In Advertising Its Undoubted Possibilities, And Has Lost Opportunities

LIKE A TORTOISE

Exodus From Canada To U.S. Does Not Mean Lack Of Opportunities

(Canadian Press Cable) London, June 21—Some frank views concerning Grand Trunk matters were given at considerable length by President E. W. Beatty of the Canadian Pacific Railway in his speech delivered at the Canada Club dinner to-night. Mr. Beatty dealt with Canadian development, emphasizing the necessity for greater population and the equal necessity for the introduction of new capital to the Dominion.

E. R. Peacock, a director of the Bank of England and former Assistant Head master of the Upper Canada college, presided and there was a large gathering of prominent Englishmen and Canadians present.

"In recent years," said Mr. Beatty in opening, "Canada has proceeded in framing policies with tortoise-like slowness which has been irritating, particularly when contrasted with the forward and progressive policies of other parts of the Empire."

Faith in ourselves is, however, returning and some of us now fear that the greatest mistake of all was that of the delay and loss of opportunity to secure the highest type of immigrant which has been the penalty for that delay. Fortunately, however, some agencies were able to counteract the propaganda of despondency to a limited extent and immigrants are now coming forward in consequence of the optimism and confidence which prevails and also the removal of certain government restrictions which have denied up to now the entry of some of the finest types of immigrants that Canada could secure."

Industries Needed Mr. Beatty proceeded to speak of industrial expansion being as important as agricultural expansion. It was economically unsound for Canada to count on recruiting industrial labor from the agricultural population. That fatal mistake had been made by the United States when it diverted peasant immigration from Poland, Hungary and Ukraine into the stock yards, the steel works and the mines. The same mistake but to a less degree has been made by Canada.

"What we seem to need is what I might call a balanced immigration which would supply our industries as well as the farmers with the best available help," said Mr. Beatty. "In that way we could anticipate a normal and rational development increasing the home market while at the same time increasing production both in the industries and on the land. As a rule it is not easy to induce the skilled mechanics and craftsmen of any country to migrate."

Floods Of Unrest "But there are times when mankind seems to let loose in a flood of unrest. It was such a flood that drove the Huguenots to England and thus gave England some of her basic industries."

A similar flood seems to be raging through Europe and Great Britain today and if only the doors of immigration are kept open we may find in Canada a home for workers who for generations have been identified with the highly skilled trades and crafts.

Progress so often depends on inventive genius and the actual work. The more of such inventive skill we obtain for Canadian industries the better. We would be wise to keep our gates open for brains as well as brawn."

"You perhaps have heard that during the last year there has been a considerable exodus of Canadians to the United States. You also perhaps have been informed that agriculturalists did not prosper to the extent that they had expected. Both statements involve nothing but the natural consequences of economic dislocation which is an inevitable result of world-wide war, and why it should give any apprehension to the people of a country of such infinite resources is beyond my comprehension. It is incidental to Canada's geographical location that with a nation of one hundred and twenty millions to the south there should be disturbed conditions and inevitable readjustments which is part of the after-war psychology; movement to the United States which is now in a period of great commercial activity."

Somewhat Slow Such a movement does not mean lack of opportunities in Canada but that the inflated commercial condition in the United States has lured those whose position enables them to take advantage of the immediate and temporarily greater opportunities.

"We have been disappointingly slow in advertising our country's undoubtedly possibilities," continued the speaker.

"We have not made steps sufficiently forward to warrant those in

HELD SUCCESSION OF CONVENTIONS

Women Of Benefit Association Met In Five Cities On Pacific Coast

Vancouver, B.C. June 21—Having concluded a series of five progressive conventions held in Los Angeles, San Francisco, Seattle, Victoria and Vancouver, 135 members of the Supreme Review of the Women's Benefit Association left here at noon today on their special train via the Canadian Pacific Railway for the Mountain resorts. They will spend a day at Lake Louise and Banff before dispersing for their separate homes in every province and state in Canada and the United States.

This is the largest women's fraternity organization in the world. It has 270,000 members in North America and a reserve capital of \$18,000,000. Miss Nina M. West, who organized the Order thirty years ago in Port Huron, Michigan, is a member of the party as Supreme Commander and Richard J. Reaume of Detroit, Mich., is director of publicity for the entire continent.

The visitors were greatly impressed with the beauties of the British Columbia coast. Mr. Reaume declared the scenery a bewildering panorama deserving of illustration by brush or pen.

INTERNATIONAL ROTARY CLUBS

Nominate Guy Gundaker Of Philadelphia For President And John Gibson For Canada

St. Louis, June 21—Guy Gundaker of Philadelphia was the only candidate nominated for the presidency of Rotary International at this afternoon's session of the organization's convention here.

Rufus Chapman of Chicago was nominated for Treasurer, and it was announced the Secretary will be chosen by the board of directors at its first meeting. Election of the officers nominated is assured, as they have no opposition.

Among those nominated for directors was: For Canada, John Gibson, Toronto.

EARLY MORNING BLAZE AT BEAUPORT

Shortly before two o'clock this morning a fire broke out in the north wing of the Beaufort Hotel, owing to the difficulty of communication at that hour, however, it was impossible to ascertain the exact location of the blaze.

England believing in our confidence in ourselves and the result has been until very recently a very slow movement of settlers and limited investment of Empire trade expansion.

From Great Britain we formerly secured the support and strength that has been largely responsible for the development of Canadian enterprise. That support was withdrawn necessarily during the period of contention in administration and the feeling that quite recently a great Canadian enterprise had been taken over by the Canadian Government on terms considered unfair in some respects to British investors.

In reply to the first of these reasons he suggested that the number of successes in Canada and the integrity of investments properly made there was as great as in England. As to the second, he declared that if the executive administration of the Grand Trunk Railway had in former years been more Canadian in character and more in touch with Canadian methods and Canadian sentiment, some of the difficulties which confronted the managers of the road at later stages in its history might conceivably have been avoided.

Mr. Beatty concluded that he would be deeply concerned if the two questions of the former administration of the Grand Trunk Railway or the policies of the Canadian Government which led to the acquisition of the road resulted in any lack of support to Canadian enterprises generally by English financial interests.

He considered that financial support from Great Britain constituted a bond of Empire the strength of which could not be over-estimated. Reverting once more to the question of immigration, he presumed that "it will not be suggested that the catastrophe of 1914 would have arisen or would have continued for four years had, for example, the population and wealth of Canada and Australia combined been at that time equal to that of the United States."

UNITED STATES SWELTERING IN TERRIFIC HEAT

Scores Dead And Hundreds Prostrated In East And Mid-West States

FACTORIES CLOSED

Firemen Watered Streets And Gave The Poor Children Showers In Boston

New York, June 21—With more than forty deaths and scores of prostrations reported in the eastern states and with seventeen known dead and many prostrations reported in the mid-western states the United States continued today to swelter in the heat wave which has become almost general.

Schools and factories throughout the eastern states were closed today and in many cities, city employees were given their liberty.

Philadelphia reported the hottest June day in the history of its weather bureau when the thermometer mounted to 93 degrees while it reached 95 in Providence, the warmest spot in the New England states. While the death toll in New York was larger today the temperature was two degrees below that of yesterday when it reached 93. Freshening northeast winds tonight brought some relief.

Mayor Hylan issued a formal order today opening parks and benches as sleeping places of the public. Fourteen deaths had been reported today in New York as directly attributed to the heat.

Boston reported a dozen deaths and many prostrations.

Schools were closed and many industries shut up throughout the New England states. Lawrence, Salem, Pawtucket, R.I., and Somerville were points where the factories closed. In Boston the fire department was called out to water the streets and provide showers for poor children in the crowded city districts.

KIWANIANS HEARD ALL ABOUT JOURNALISM

The speaker at yesterday's weekly luncheon of the Kiwanis Club, held in the Empire Room at the Chateau, was Mr. J. M. Fortin, of Le Soleil, who delivered a most interesting talk on the trials and tribulations of journalism and in particular those of the reporter, who, Mr. Fortin said, had to adapt himself to whatever he was speaking about, or to whoever he was speaking to.

In concluding his talk Mr. Fortin urged the establishment of schools for journalism, where a young man who wanted to take up that line could be given further knowledge of the things necessary to journalism. Only in this way could the right sort of journalist be trained.

A hearty vote of thanks was moved Mr. Fortin after he had ended his address by Kiwanian Smith, and carried standing.

"MOSCOW WOLF" SHOT AT DAWN

Along With Wife—Was Convicted Of Murdering 33 Persons After Robbery

Moscow, June 21—Ivan Komarov, known as "the Wolf of Moscow," convicted of murdering 33 persons since 1921, and his wife were executed Monday night by a firing squad.

Komarov was a former Moscow Cabinet officer. He was arrested last month on a charge of having murdered 33 persons, 22 of the bodies of whom were found in the cellar of his house were contained in sacks. When arrested he made his escape by jumping from a window and was at large for a while. Later he was taken into custody while writing a confession of his crimes. The confession involved his wife and other persons. He said all the victims were killed while attending tea parties in his home where they had been invited for the purpose of robbery.

SENATOR POPE WANTS BANKING BILL HELD OVER FOR A YEAR

Ottawa, June 21—(By Canadian Press)—In the Senate tonight when the banking bill was under discussion Senator Pope drew attention to the statement regarding the affairs of the Union Bank and urged that the Bank Act be held over for another year and a commission appointed to consider the question of securing more adequate banking facilities for farmers and others. He claimed that the demand for this was not from the West alone but was very prevalent in the east.

Senator Dandurand said that the Government would welcome any suggestion for the betterment of the Bank Act.

Considerable progress was made with the bill but a number of clauses were held over at the request of Senator Fowler who desires to move amendments.

METAL WORKERS STRIKE IN GERMANY EXTENDS 11,000 MEN QUIT

Brandenburg, June 21—Eight of Brandenburg's leading factories, employing 11,000 men, have been closed in consequence of the extension of the strike of metal workers begun last week. A bicycle works, spinning mill and docks and foundries have been affected by the movement.

The strikers by a small majority rejected conditions submitted to them by the Manufacturers' Association for the resumption of work and the Association now declines to resume negotiations with the men.

HOLD UP NEAR MONTREAL OFFERS EXCITEMENT

Montreal, June 22—The second highway robbery and hold-up in the outskirts of Montreal this week occurred near Anisette at 12.45 this morning when Valerian Robineau was robbed of \$25 in cash, his watch and the automobile in which he was riding. Robineau reported that five men composed the gang that held him up. This is the same number of men who held up a party of seven in an automobile Wednesday night near Cartierville.

Poor old Germany keeps tottering from one successful bluff to another.—Milwaukee Leader.

U.S. TO SEIZE LIQUOR STORES ON ALL SHIPS

Entering United States Territorial Waters And Deposit Same Under Bond

WILL BE TEST CASE

When Master Of Berengaria Files Formal Protest With United States Officials

Washington, June 21—Secretary Mellon announced last today that it had been decided to seize all ship liquor brought into United States waters even though it is aboard foreign ships and under the seal of Foreign Governments.

Arrangements have been completed by the Treasury and Instructions transmitted to the collector of customs at New York to break the seals on liquor stores carried by the liner Berengaria when she docks tomorrow morning. The liquor will be seized and deposited under bond.

Assistant Collector Stuart at New York will supervise the seizure of the Berengaria stores. It is understood that as a test case, the master of the Berengaria then will file a formal protest which will be forwarded to the Treasury Department for consideration.

Secretary Mellon would not discuss possible action by the Treasury on the protest, but it was explained that such a procedure was necessarily an obvious one for the Treasury to follow in the circumstances.

MT. ETNA'S FURY HAS ABATED

Unless There Is New Emission Of Lava Town Of Linguaglossa Is Safe

Rome, June 21—The fury of Mount Etna seems to be diminishing to-night and messages of hope are pouring in from Sicily.

The flow of lava, which became slower during the day, is now almost stopped, although the volcano is still belching forth smoke cinders and dust.

Catania, June 21—"Unless there is a new and strong emission of lava from Mount Etna the town of Linguaglossa which has been threatened for the last three days, is almost certainly safe from destruction say official reports from the devastated region. The force of the eruption is slowly but steadily decreasing.

The progress of the lava is more sluggish and wide tracks which have already hardened and forming to some extent, barriers to the fresh outflow.

Outside show is a poor substitute for inner worth.

INDIANS WILL TAKE PART

In Ceremonies At Opening Of Banff-Windermere Road On June 30, Is Report

Montreal, June 21—Word has just been received that the Kootenay Indians will take an important part in the opening ceremonies of the Banff-Windermere road on June 30 next. After duly considering the matter the Department of Indian Affairs has given its permission and about 500 of the braves with their squaws and papooses will journey to Windermere for the occasion in all the splendor of paint and feathers. They will establish a village of wigwams at Windermere and on the day of the opening will meet the procession of Government officials and motorists that will drive from Calgary over the new road. During the afternoon they will give a tom-tom dance in the David Thompson Memorial Park and on Sunday will attend a full dress open air church parade. On the following Monday they will wind up the celebration with a stampede that will be thoroughly Indian in character.

The actual ceremony of opening the road will take place at Kootenay Crossing where motor processions from east and west will meet. Several thousand motorists are expected to take part in the ceremony.

SENATE ANGRERS B.C. ATTY.-GEN.

Thinks Province Shouldn't Be Saddled With New Liquor Plebiscite

Vancouver, B.C. June 21—(By Canadian Press)—If the Canadian Senate's plebiscite amendment to the Canada Temperance Act becomes law it will put an extra burden of \$75,000 on the people of British Columbia, according to Hon. A. N. Manson, Attorney-General of British Columbia, who is in Vancouver today. It would cost this amount to take a vote as to whether the Provincial Government should have the sole right to import liquor into the Province. "I am disappointed that at a time like this the Senate has seen fit to put upon this Province a burden of \$75,000," said Mr. Manson.

"That will be the expense of a plebiscite to demonstrate that people are still in favor of the Government having actual control of the liquor situation instead of merely nominal control."

DOCUMENTS ON FRENCH REGIME

Of Great Value Have Been Offered To Dominion Archivist A. G. Doughty

Ottawa, Ont., June 21—A. G. Doughty, Dominion Archivist, has been offered for Canada a very valuable collection of hitherto unpublished documents bearing upon the French regime.

The collection includes letters of Montcalm, Vaudreuil, Levis, Bougainville and of memoirs of Louis XV., Bigot, Amert, Dorell and others. The existence of many of these papers has not been previously known and historical students hope that they may solve some of the puzzles of early Canadian history.

FERGUSON AND RANEY MET IN VERBAL BATTLE

Fergus, Ont., June 21—Hon. Howard Ferguson, Leader of the Ontario Conservative party, and Hon. W. E. Raney, Attorney-General of Ontario, met this afternoon before a packed house of 4,000 electors of East Wellington in a verbal battle over the enforcement of the Ontario Temperance Act. Neither brought out anything much in the way of new points. Both were heckled throughout. Hon. Mr. Raney the more severely.

POLAND'S MINISTER OF FINANCE RESIGNS

Berlin, June 21—The Polish Minister of Finance and trade has resigned because of the new collapse of the Polish mark, according to an agency despatch received here from Warsaw.

The despatch adds that all the banks in Poland have been ordered to surrender their foreign currency holdings to the Government before to-morrow and that meanwhile all the exchange markets in the country are closed.

Montreal, Que., June 21—Struck off her feet when a street sprinkler truck threw off a powerful stream, five year old Alena Bryan, daughter of the trainer of the Grand Trunk of the Football Club, was swept under the wheels of the truck and instantly killed here this afternoon. A few minutes later her father, returning from work, came upon the body of his child as it lay on the sidewalk.

SENATOR FOWLER MADE ATTACK ON THORNTON

When Information Regarding Salaries Of C.N.R. Officers Was Refused By Gov't.

"ASTRIDE CANADA"

"One Foot In Halifax, The Other In Victoria, And Head In The Clouds"

(By Canadian Press) Ottawa, Ont., June 21—The policy of the Government in refusing to publish the salaries of the general officers of the Canadian National Railways led to some sharp criticism in the Senate today. Senator Dandurand pointed out that shareholders in large corporations were not entitled to such information except through the management. Senator Fowler said that Sir Henry Thornton was standing astride Canada with one foot in Halifax and the other in Victoria and his head in the clouds. He appeared to be governed by one man who was an alien by birth, manufactured into a British subject who thinks he owns the whole country from Halifax to Vancouver. He felt it would not injure the Canadian National Railway if Sir Henry returned to the Pennsylvania system.

DEPORTATIONS FROM THE RUHR

Germans Say Allies Have Driven Away 23,500 Railwaymen And Families

Cologne, June 21—Approximately 23,500 German railwaymen or members of railway men's families have been driven from their homes by the French and Belgians in the newly occupied areas from the time the troops entered the Ruhr to the end of June, according to figures given out in German quarters.

The Germans declare that the French of late have been evicting the railwaymen from their dwellings with greater inconsideration than ever, some of those ejected from Bochum last week being "illegally" taken from the dinner table.

Elberfeld, June 20—Passive resistance would be abandoned in the Ruhr Valley on eight conditions. One of the most important of which is indemnification by the French and Belgians for all products of private industry which they have seized, says a memorandum to the Berlin Government reported to have been drafted here by representatives of the employers and employees authorized to act in the matter.

Other stipulations are the removal of the Franco-Belgian railway administration, the return of all persons deported and the release of those persons imprisoned, the renunciation of all measures of force, the nullification of all restrictive control methods, the restoration of telephone and telegraph service and indemnification for all wounded and the families of those killed.

QUEBEC, JUNE 22, 1923.

ADVERTISING.

An international advertising convention, like that at Atlantic City this month, directs attention to the fact that advertising, now one of the greatest powers in the world, is ever extending the scope of its activity. Not only is advertising a potent motive power of modern business; it is being utilized to promote social welfare, nation aspirations and international understanding. It is even being utilized to energize public standing. It is even being utilized to energize public standing. It is even being utilized to energize public standing.

Marshall Field and John Wanamaker may perhaps be regarded as the two greatest merchants of modern times. They began their careers at the time the powers of advertising were beginning to be realized. It is recorded of Wanamaker that when he started business he invested virtually all the proceeds of the first day's sales in advertising on the following day. Marshall Field had the same opinion of the importance of advertising. Not long ago the present advertising manager of the Marshall Field store said: "Our advertising is simply the printed representation of our business. First of all, it will bring our business as an institution to the attention of the public. In its various phases it will build confidence and good will. We feel that by winning the confidence and good will of the people on the basis of a real understanding of our policies and ideals, business will naturally flow to our store in great volume."

The apothecary of advertising came with the great war. Kitchener's advertising campaign for recruits astonished Great Britain and the world. The power of advertising in providing finances for the war was revealed. American bankers had succeeded in finding about 500,000 investors in the United States before the war. In one year and a half the publicity campaigns of the U. S. Government created 20,000,000 investors in Liberty Bonds.

THE UNION BANK OF CANADA.

Mr. W. R. Allen, President of the Union Bank of Canada, has, on behalf of the directors, issued a statement to the shareholders and certain rumors which have been afloat regarding the affairs of the Bank. The statement is frank; it will not be pleasing to the shareholders, because their dividend has been reduced from ten to eight per cent; it shows, however, that depositors and clients have no cause for uneasiness.

President Allen states that a thorough examination and revaluation of the Bank's assets, and an independent audit by a high executive officer of the Bank of Montreal disclosed that the Bank had sustained a considerable loss as a result of certain unauthorized transactions in foreign exchange by a general management which has been superseded. This loss, it is stated, was due to transaction in sterling and American exchange, and not to speculation in continental exchanges. The loss has been fully provided for and at the same time provision has been made for risks in connection with the period of deflation, by the transfer of \$4,250,000 from Rest Account to Contingent Reserve, leave the Rest Account at \$1,730,000, instead of \$6,000,000.

President Allen and the directors assure the shareholders that the fundamental position of the Bank is sound, pointing out that its capital is unimpaired and that its Rest Account is still substantial. The Union Bank was founded in Quebec city in 1865. It has had half a century's banking experience and public good will. Among its shareholders are some of the most powerful firms in this Province. Some years ago the head office was transferred to Winnipeg, mainly as the result of its growing connections with important interests in the West.

The Directors have installed a new management and are, as Sir Frederick Williams-Taylor observes, "to be commended on adopting a wise and courageous course which should inspire public confidence." The thorough investigation, conducted by the new management and independent auditors, has shown that there were no grounds for rumors of defalcations.

Evidently the shareholders will have to be content with smaller dividends until the Rest Account is increased to its old proportions; but there is every reason why depositors and clients should continue their confidence in the institution. Its fine record in the past, its important connections at the strategic points of Canadian development, and the fact that it has the support of some of the most powerful industrial interests in the east and west, is sufficient guarantee that it will overcome its present difficulties.

NATIONAL ADVERTISING.

Great firms in Great Britain and the United States are developing international advertising campaigns. The United States manufacturer long ago realized the importance of national advertising. American advertising agencies have been created which are prepared to place advertisements in all the daily papers of the United States—and of Canada too. Again, American weekly and monthly periodicals have vastly enlarged their circulations, and helped create national lines of thought and action. They help to set standards of taste and fashion all over the continent. These periodicals have only been able to build up their nation-wide circulations through the aid of advertisers; in turn they have helped the manufacturer to build up a nation-wide business.

Toronto is about the only city in Canada that has consistently sought to make itself a centre of national advertising. It publishes the few periodicals that boast of anything like a national circulation. It issues the principal financial, trade and technical journals circulating in Canada. Some of these Toronto publications may not be of much importance as advertising mediums in themselves. But they have an undoubted influence upon the national tastes, desires and fashions; and thus help to increase the drawing power of the advertisements which Ontario manufacturers insert in daily papers all over the country. They are an important aid of the catalogues of the Toronto mail order houses. Toronto and its tributary cities have set the pace in manufacturing and merchandizing. Ontario manufacturers have encouraged the efforts of Toronto publishers to establish periodicals with a national circulation; and these periodicals have played a useful part in helping Ontario to establish its pre-eminence in manufacturing and merchandizing. Moreover, literary, trade and technical journals have been powerful agents of the more general features of Toronto policy. They have made Toronto policy the

dominant influence in Canadian politics and in Canadian finance.

Montreal and Quebec have never exploited the possibilities of publicity on behalf of this Province in the way Toronto has done, on behalf of itself and Ontario. Great Montreal dailies were for years distributed broadcast over the country at less than the cost of white paper; and no doubt Montreal has profited from that practice. But the more pretentious and artistic forms of publicity utilized by Toronto have had a greater influence upon national tastes and fancies.

Advertising agencies frequently assert that the daily paper is the best advertising medium for the retailer, doing a local business. That is a truism. The wholesaler and manufacturer also no doubt find their interest to sell as much of their wares as possible within a short radius of their seat of business.

But the advertising experience of Toronto and the United States have clearly demonstrated the value to the manufacturer of utilizing mediums of publicity which help in shaping the national culture, tastes and fashions. It is a matter of surprise and chagrin that the Province of Quebec does not publish a popular magazine of national appeal, as a medium for the expression of Quebec's ways of thinking and feeling, and as an agent of the business policy of this Province. Such a magazine to make an impression upon the nation would, of course, have to be published in English.

But even La Canadienne is published in Toronto.

Business men in Quebec are taking a brighter view of the immediate future, but their light is darkness compared to the brightness which shines upon the immediate future of the school boy—and the girl.

The United States is a good place to stay away from in summer. Heat waves take a heavy toll of life, and cause a vast amount of suffering. In the Ancient Capital heat waves are not pleasant, but they usually do not last very long.

Shawinigan Falls has been complaining about the heat when the temperature during the day attained 89.5 degrees, though it receded to 69.5 during the night. At 69.5 degrees a good night's rest is possible. The trouble about heat waves in many American cities is that the temperature rises to nearer 99 than 90, and stays there day and night for a week or more.

Our correspondent at Three Rivers reports: "Our port is a centre of activity, no less than twenty ships are either unloading or taking on cargo." Ship, in nautical parlance, is a term only applied to sea-going craft; and, strictly speaking, should only be applied to craft square-rigged on three or more masts. However, the Empress of France may be described as a steam-ship, while any steam-propelled vessel of less than 1,000 tons, engaged in river or coast-wise service ought to be called a steamboat. However, the point is that coastwise and river craft are not usually described as ships, and Quebec has need to look to its laurels, even if the twenty ships at Three Rivers included some river and lake vessels.

A Verse Or Two

BY THE SEA.

It is a beautiful evening, calm and free;
The holy time is quiet as a nun.
Breathless with adoration, the broad sun
Is sinking down in its tranquillity;

The gentleness of Heaven is on the sea;
Listen! the mighty being is awake,
And doth with his eternal motion make
A sound like thunder—everlastingly.

Dear child! dear girl! that walkest with me here,
If thou appear unthought of by solemn thought
Thy nature is not therefore less divine;

Thou liest in Abraham's bosom all the year,
And worship at the Temple's inner shrine,
God being with thee when we know it not.
—William Wordsworth.

Press Comment

COMING TO THE RIGHT PLACE.
(Vancouver Province.)

Holland settlers are reported to be coming to Canada to escape heavy taxes. All join in wishing them good luck.

FARMER'S JOB.
(Edmonton Journal.)

A farmer Premier's job in Canada is not so risky as in Bulgaria. The shots which his opponents take at him here are never deadly, in the literal sense at least.

THE GOOD DAY THAT IS TO BE.
(Regina Leader.)

When Saskatchewan comes into possession of the public domain within its borders, as it eventually must, a substantial increase in its mineral production may be confidently expected to take place.

RURAL CREDITS.
(Winnipeg Free Press.)

In view of the very great importance to agriculture of the adoption of a system of agriculture credits it is desirable that there should be some definite assurance that Parliament intends to give the matter early consideration. The financial leaders of the country should also realize that they are looked to for co-operation in solving the problem and providing for a serious deficiency in the present credit system of the country.

A BIG JOB.
(Edmonton Journal.)

The Public Health Journal is inaugurating a campaign to prevent the circulation in Canada of publications which are filled with drivel and include much of a definitely objectionable character. Those who have perused any of these fifth-purveying mediums must realize the necessity of such action. They are circulated for the most part among those of an impressionable age and the appeal which is made to help in the crusade against the literary scavengers should meet with an effective response.

THE NEXT ELECTION.
(Saskatoon Star.)

There will be no election this year, but it seems extremely likely that the country will vote after the next session of Parliament. The Liberals apparently are not confident that the vote of the West, taken this year, would enhance their majority, but expect to improve their position within twelve months. A decline in the fervor of Progressive sentiment is naturally anticipated and a swing toward the Government looked for on account of its good administrative record. Another protectionist budget, however, will be a hard thing to explain away in the West.

PIG'S SNOUT PUT TO WORK ON FARM

Manipulates Automatic Waterers And Self Feeders—Using Everything But Squeal

Chicago, June 21.—The snout of the pig has been put to work by the farm labor shortage, and the saying that everything of the pig is useful but his squeal no longer holds entirely good, says the National Institute of Progressive Farming.

The pig now drinks at automatic waterers and manipulates self-feeders with his snout, which he formerly used to root up pastures and emit loud squeals. He need no longer root the ground or squeal when hungry, the incentive having been removed. A certain amount of time and labor also was eliminated by the more simplified way of feeding and watering.

The consumer, the Institute says, benefits materially with better pork products through the more general use of sanitary concrete wallows or baths and automatic hog-oilers which tend to decrease hog diseases formerly contracted in the traditional mud-wallows. In fact the hogs readily take to the "concrete baths" in preference to the old mud puddles.

Another item which makes for a healthier and more profitable pig, says the Institute, is the more general advantage taken of the process whereby the hogs are turned into the corn fields and allowed to harvest while feeding themselves. Thousands of acres of grain are harvested in this way instead of carrying feed to penned up pigs. This also serves to reduce the farm labor problem.

Where this process is used, beans are planted with the corn to permit the pig to harvest a balanced ration to give a finer ham sandwich to the consumer.

Three ministers have engaged seats at the Dempsey-Gibbons fight to "see exactly what takes place at this prize fight." It is suspected that all others who attend will be animated by the same motive. —Lowell Courier-Citizen.

This Laxative Works Fine on Old People

Thousands have kept themselves healthy with Dr. Caldwell's Laxative Syrup Pepsin

ADVANCING age with its subdued ambitions and its strivings could be made very happy if only good health accompanied it, and the basis of good health, as everyone learns upon reaching the age of 60, is the regular daily movement of the bowels. If it can be effected through the food you eat, the water you drink and the exercise you take, so much the better. But if nature will not operate it must be assisted or sickness will follow. Neglected constipation causes the blood pressure to go up 28 per cent, and that is the forerunner of hardening of the arteries. It makes rheumatism and gout worse, too.

The ideal constipation remedy for people of advancing years is Dr. Caldwell's Laxative Syrup Pepsin, a vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics. It is gentle and mild, and does not cramp or gripe. It is a mistake to think you need a violent salt or powder or pill, calomel, castor oil and such things. They purge and weaken

ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a trustworthy laxative that seems in the family can use when constipated?" I urge you to try my Laxative Syrup Pepsin. I will gladly provide a liberal free sample bottle, sufficient for an adequate test. Write where to send it. Address Dr. W. B. Caldwell, 23 Caldwell Building, Toronto, Ont. Do it now!

you, and their reaction tends to make you more constipated than before.

Now try the milder method. Dr. Caldwell's Laxative Syrup Pepsin does not lose its good effect with repeated use, and increased doses are unnecessary. Mrs. Ellen Laird of Pictou, N. S., who is 87, keeps herself in good health with it, and Mr. Chas. N. Nicholas of Winnipeg, Man., finds it both helpful and beneficial, and everything that can be desired from a laxative standpoint.

Use Dr. Caldwell's Laxative Syrup Pepsin yourself the next time you suffer from constipation, biliousness, headache, sleeplessness, indigestion, piles or night cramps.

Many thousands of elderly people use nothing else, and it costs them less than a cent a dose. Druggists have sold it successfully for 30 years, and it is the most widely bought family laxative in the world.

TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy

CITY CLERK'S OFFICE

BY-LAW No. 24N.

To Amend By-Law No. 24B Re: Construction of Buildings.

Drawn up in the French Language
At a meeting of the City Council held on the 15th June, 1923, the following By-law was read for the first time:

It is ordained and enacted by this Council and the said Council doth ordain and enact as follows, to wit: Article 47 of By-law No. 24B, passed 11th January, 1918, as amended by By-law No. 24D, passed 11th April, 1919, and as amended by By-law No. 24F, passed 22nd April, 1921, is repealed and replaced by the following:

1. 67. In Montcalm Ward, it shall be forbidden to erect or exploit any manufacture, forge, shop, store, commercial or industrial establishments whatever along St. Louis and Ste. Foye Roads, west of Maple Avenue, of Belvedere, Montcalm, Murray, Beaulieu, des Braves Avenue, Levis Avenue, Montcalm Park, Parke Avenue, new street Levis, Fraser street west of Maple Avenue, Maple Avenue, St. Cyrille street and Holland Avenue, also at the corners of said streets and avenues above mentioned. But the erection of commercial establishments shall be permitted on that part of Ste. Foye Road between Holland Avenue and the western city limit; on said road, and on that portion of Marguerite Bourgeois Avenue, north of Ste. Foye Road.

2. In Belvedere Ward, all the houses that shall be erected on St. Louis Road, Ste. Foye Road, Sherbrooke street, Parke Avenue, Brown Avenue, St. Cyrille street, Beaulieu street, Murray street, Montcalm, Levis, Marguerite Bourgeois Avenue, Holland street and Maple Avenue, or streets and avenues of the subdivision of Dandurand Terrace, on streets and avenues of the subdivision, of Queen City Realty Co., and all other streets the Council may add, shall be of a value of at least \$5,000.00, for a detached house and of \$3,000.00 per house for a block comprising a series of lodgings. On des Braves Avenue the buildings to be erected shall have to be isolated (detached), to be built for only one lodging, each of the value of at least \$8,000.00, exclusively occupied as private residence and have most advanced parts of the house at a distance of not less than twenty feet-8 from the avenue alignment and that of both sides of said avenue.

In the subdivision called "Dandurand Terrace" the houses to be built shall have to be at a distance of not less than five feet from the alignments of streets and avenues of said "Dandurand Terrace" and that on both sides of said streets and avenues.

3. The present By-law is declared formerly part of By-law No. 24B.

Public Notice
is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 22nd June, 1923.

Tenders For Metal Wire For the Fire Alarm Telegraph Department.

Quebec, 14th June, 1923.

PUBLIC NOTICE

It is hereby given that sealed tenders endorsed: "Tenders for Metal Wire for the Fire Alarm Telegraph Department" addressed to the undersigned, shall be received until Tuesday, the 26th June instant (1923) inclusively, up to 2 o'clock in the afternoon, for the supply to this City of the following article:

The quantity of three miles in length of weather proof steel copper clad wire No. 8, 47 per cent conductivity, to be supplied by 1-2 mile lengths.

10 miles in length of medium drawn weather-proof copper wire No. 8, 47 per cent conductivity, to be supplied in 1-2 mile lengths to the Fire Alarm Department.

Each tender must bear the signature of two solvent parties as securities for the executive of the contract. Each person tendering must deposit in the hands of the City Treasurer the amount of—or an accepted cheque for One Hundred Dollars, which shall be confiscated if the persons refuse to sign the contract.

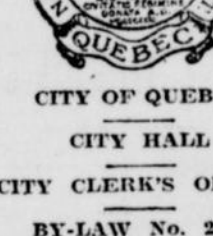

The tenderers are requested to give a price at so much per mile only.

The City does not bind itself to accept the lowest nor any of the tenders. The contractors shall pay to the City the cost of the contract and shall supply a copy to the Fire Alarm Department.

For further information, apply to the Superintendent of the Fire Alarm Telegraph at the City Hall.

THE ST. PATRICK'S PARISH PICNIC

Keen Interest Manifested In Saturday's Outing To Lake St. Joseph

Everything is now in readiness for the St. Patrick's parish picnic to Lake St. Joseph which will be held on Saturday.
Keen interest is being manifested in the outing which promises to be one of the most successful ever held. The picnic is under the auspices of the United Irish Societies and there is a strong executive committee at work as well as a number of sub-committees and their efficient organization laborers will ensure the success of the outing as well as the enjoyment of the hundreds of people who will take part.
A trip to Lake St. Joseph is always a pleasant outing but when it is a parish affair and all the members join in like one big family the excursion is doubly interesting and enjoyable.
The tickets for the outing are being sold rapidly and there will be a record-breaking attendance.

HARRY NEWMAN
Harry Newman, who has recently been elected a director of the Belgo-Canadian Paper Company Limited, is a Montrealer by birth. He was educated at the Montreal High School and McGill University, graduating from the latter with the degree of B.A. His early business training was received with Caverhill, Learmont & Company, of which firm his father was a partner. He is Vice-President of the investment banking firm of Newman, Sweeney & Co. Limited.

OBSEQUES OF LATE MRS. CHARLES A. CATHCART.

A large gathering of relatives and friends attended the funeral yesterday of the late Mrs. Charles A. Cathcart of Toronto from the residence of Mr. Jas. Cathcart, 61, D'Arigny street to St. Michael's Church, Bergerville and Mount Hermon Cemetery.
Rev. J. J. Fothergill assisted by Rev. J. H. Barnes officiated at the church. The prayers were said at the cemetery by Rev. Mr. Fothergill.

Many beautiful floral bouquets and wreaths were received.
The chief mourners were her husband and son, Earl; brothers, Messrs. Sam and Albert Somerville; and R. J. Somerville, nephew of Montreal; Mr. James Cathcart, father-in-law; Mr. Henry W. Cathcart and Mr. Thomas S. Lawe, brothers-in-law, of Montreal.

MISS ANNIE MURPHY HAS PASSED AWAY.

Following an illness of short duration, the death occurred yesterday of Miss Annie Davis Murphy, daughter of the late Mr. Michael Murphy, cutter of the St. Patrick's Church, of which she was a devoted member.
The deceased leaves to mourn their loss a sister, Miss Kate Murphy, two nieces, the Misses Ethel and Alma Thomas, and a number of other relations to whom much sympathy will be extended in their bereavement.

TOOTHACHE SHOWN ON THE MOVIE FILMS.

Paris, June 20—An aching tooth in action is the latest subject for the movies in this country. In a crusade to improve the teeth of the people. During the war it was found that 75 per cent. of the men of the nation were dentally unfit.
The Ivory Cross, a national aid fund that has provided dental treatment of more than 800,000 cases, has now sponsored a film in which a throbbing nerve is pictured in its most excruciating stages. Those who saw the picture attest its vivid accuracy.

FIRE VICTIMS ARE RETURNING TO HOME SITES

Undaunted By Terrible Experience Settlers Prepare To Rebuild Their Farms

SITUATION IMPROVED

Reports Show That Many Of The Fires Have Been Extinguished

Generally speaking the forest fire situation shows quite an improvement, although some new outbreaks have been reported in several localities. Yesterday's rains have somewhat helped to quench some of the fires, and in many places they prevented a spread of the flames, but much heavier showers are required to bring back anything like normal conditions in the woods.

Undaunted and undismayed, some of the settlers who suffered most from the forest fires in Temiscouata County are already returning to the site of their former homes. They are clearing away the ruins of their cottages, barns and stables, and are preparing to rebuild on their fire swept acres. There are 135 families who lost everything they possessed in the world, except the very few bits of clothing they had on their backs when they were obliged to make a hurried exit from their homes as the threatening red wave rolled towards them with the speed of an express train at an awe-inspiring roar.

Some subscriptions have been sent to the Forestry Department for the relief of the victims of the forest fires. Frank J. D. Barnum, the well-known philanthropist who has taken a very keen interest in all forest fire protection, has contributed a sum of \$1,000. The cheque for that amount was enclosed in the following letter which he sent to Gustave C. Piche, Chief Forester, yesterday: "Gustave C. Piche, Esq., Chief of Forest Service, Quebec, P.Q."

Dear Mr. Piche,
Having read the appeal made to the Government at Ottawa by some of the Quebec members for assistance for the six hundred or more families rendered homeless by the recent forest fires, and knowing something of the nature of the misfortunes suffered by these now destitute people who have lost their all and are probably on the verge of starvation, I beg to enclose herewith my cheque for one thousand dollars. In the hope that it may serve as the nucleus of a fund sufficiently large to meet the most pressing of their necessities. I am quite sure there are at least thirty firms or individuals in the province of Quebec who will duplicate this subscription if a proper appeal is made to them through the medium of the public press.

I am sending my subscription direct to you because of the urgency of the situation and because I understand you are in touch with the sufferers and are in a position to apply it to their immediate relief.

Yours very truly,
(Signed) Frank J. D. Barnum.
The Red Cross Society has sent several cases of clothing for the relief of the sufferers and other organizations have also contributed to the assistance of the victims, but a great deal is still required and Mr. Piche issued an other appeal last night for further contributions.

A report was received yesterday that a great conflagration was raging in the extreme north-western section of the province of Quebec. It is believed to be the greatest fire of its kind in the history of Eastern Canada have been received at the Forestry Department.

The following summary of the situation was issued by the chief forester last night:—
Ottawa Valley—Situation has not improved. The fire at Labine is spreading and near Kapawa Lake the fire which was believed to have been extinguished, has broken out again.

St. Maurice Valley—All the fires in this district, with the exception of that at Lac des Sables, have broken out again. There are over 1,500 fighting the outbreaks in that region. The fires at Peloton Blanc and Vermilion are spreading in the section of the province. Details of what is believed to be the greatest fire of its kind in the history of Eastern Canada have been received at the Forestry Department.

CANADIAN NATIONAL RAILWAYS

Through Sleeping Car Service Quebec-Portland
Effective June 23rd from Quebec a direct sleeping car will operate through from Quebec to Portland, leaving Quebec (Palais Station) at 7.25 p.m. daily except Sunday, arriving Portland at 7.00 a.m.
For the return trip this sleeper will leave Portland at 8.45 p.m. daily except Saturday and arrive Quebec at 8.30 a.m.
For further particulars, reservations, tickets, etc., apply to City Ticket Office, 10 St. Anne street, Tel. 529 and 530, to Palais Station, Tel. 2125 or to any agent of the Canadian National Railways.

QUEBEC TODAY AND TOMORROW

A Gateway Of Eastern Canada With Possibilities Which Await Exploitation

By Lieut.-Col. the Hon. P. Pelletier, Agent-General for Quebec.
As one of the oldest portions of the largest and most populous of the great self-governing Dominions, the Province of Quebec occupies a notable place in the history of Canada and in the annals of British Empire development. To Quebec the people of Canada owe much, for the settlement it has provided have done a great deal towards shaping the destiny of the Dominion, but great though its influence has been in the past, and important as it is today, Quebec has the promise of an immeasurably greater future. A survey of its resources and a knowledge of its people bring the conviction that in the new era of development which Canada is now entering Quebec can occupy none but a pre-eminent place. No part of the Empire has been more richly endowed. Fertile lands, vast forests, rich mineral fields and illimitable water powers await development. These factors, utilized by the industry of its people and wisely conserved by a stable and far-seeing Government, ensure for Quebec a future of unbounded prosperity.

Maritime and Inland Advantages.
Geographical and physical features have conferred on the Province enormous advantages. Its area of over 700,000 square miles is bounded by hundreds of miles of coast, while the Province is traversed throughout its entire length by the River St. Lawrence. Although it has the characteristics of a maritime Province, however, it possesses in addition the advantages of an inland country and has immense agricultural potentialities and it already ranks third among the Canadian Provinces in the value of its crops. For farming both soil and climate are highly favorable. Numberless streams, lakes and rivers irrigate and help to maintain the fertility of the soil which produces abundantly and to perfection all kinds of grain, roots, cereals and fruits, while on the rich pasture lands there thrives an important dairy industry. So favorable to farming pursuits are the conditions of the Province that the eastern townships of Quebec have been designated "the garden of Canadian agriculture." The Province will have a remarkable interesting display at the British Empire Exhibition, and this will form the most effective illustration of its resources.

Canada's Eastern Gateways.

The principal ports of the Province, Montreal and Quebec, provide two great eastern gateways into Canada for the commerce of the Old World and outlets for the foodstuffs and manufactures which Canada produces. Both ports are open for eight months of the year to every class of ocean-borne traffic. So large is the volume of trade flowing to and from Montreal that it has attained the proud position of being the second seaport as regards tonnage, on the American Continent, and the seventh largest seaport in the world. A growing importance attaches to Montreal's manufacturing industries, which, greatly aided by the advantages of their situation and the facilities of sea and railway transport, have grown rapidly. A network of railways, three of which are transcontinental, link up Montreal with all parts of the Dominion and with the United States.

Quebec also enjoys some of these advantages, and among the industries the city has developed are those of structural steel, paper, textiles, lumber products, pulpwood and its by-products, footwear and tobacco. The province as a whole, in fact, bids fair to become the leading manufacturing Province of the Dominion. Already possesses the largest aluminum plants in existence with iron, molybdenum and other materials used in steel manufacturing processes, and with ample water power, it is practically certain that there will be established in Quebec other great structural steel works which will help to make shipbuilding and its allied industries on the St. Lawrence River one of the industrial developments of the future.

Capital and Factories Needed.
To the British manufacturer wishing to establish a branch factory in Canada in order to compete advantageously in its markets, as well as to the financier seeking a field for remunerative and safe investment, Quebec offers unrivalled opportunities, not least among its recommendations being the welcome it extends to British enterprise. British capital and branch factories of British firms are, in fact, two of the most urgent needs of Quebec today. American branch industries are being established in large numbers. This, quite naturally introduces into the country an American influence, which cannot be counteracted without British capital to establish Imperial Industries. America seeks, through her Canadian branch factories, to benefit by the preferential tariffs which Great Britain allows to her Overseas Dominions.

Forest and Mineral Resources.
Occupying an important place among Quebec's natural resources are its vast forests, covering about 130,000,000 acres and representing a total value of \$600,000,000. They contain a great variety of forest species, some of which, like the Quebec pine, are not only of considerable size but are among the most valuable of merchantable woods. These forests have assumed a world-wide importance in consequence of the depletion of those of the United States, and the number of saw mills and pulp and paper mills has, in recent years, increased enormously.

While the values of the products of the mines and quarries of Quebec have shown a steady upward trend, large areas yet remain unexploited. There are generous supplies of asbestos, mica, copper, sul-

GOVT. TELLS MUNICIPALITIES TO STAND ON BRAKES

Premier And Caron Warn Them To Do As Little Borrowing As Possible

A FLOATING CONVENTION

Trip To Anticosti Pleasant—Minister Of Municipal Affairs Whenever Needed

Speaking at the annual dinner of the Union of Municipalities of the Province of Quebec on board the steamer Richelieu as she was steaming up the St. Lawrence River last night from Anticosti Island, Premier Taschereau announced that as soon as the municipal affairs of the province of Quebec would warrant it his Government would warrant to appoint a Minister for that department.
Both the Prime Minister and the Hon. J. E. Caron, Minister of Agriculture, sounded a note of caution in their speeches in reply to the health of the province of Quebec. They both advised the municipalities to borrow as little as possible so as not to go too deeply into debt. They remarked that the debt of the municipalities had increased in a very large proportion within the past ten years.

The steamer Richelieu upon which the convention was held left here on Tuesday morning. The Quebec Government was represented by the Prime Minister, Hon. J. E. Caron, and Hon. Jacob Nicol, while the City was represented by Mayor Samson, Ald. J. A. Lesage, Ald. (Dr.) Paradis, Ald. Desmarais, and Ald. (Dr.) Thibault.

The Richelieu reached here a few minutes before midnight and remained moored at the Point-a-Caroy Wharf for about an hour then clearing for Montreal.

Mayor Samson, Ald. Lesage and the other representatives of the Quebec Council expressed themselves delighted with the trip. They said that the cruise was very pleasant. There was no rough weather and very little wind. It was only on Wednesday night that they had rain.

Leaving here on Tuesday morning they reached Anticosti Island at noon on Wednesday and spent the afternoon there. At the Island they were received by the Governor and visited the Mener Chateau as well as other places of interest which the French Chocolate King has established on the island.

While the vessel was ploughing through the waters of the Lower St. Lawrence the delegates to the convention were busily engaged at morning, afternoon and evening sessions and the annual meeting was brought to a close last evening when the annual dinner was held.

The dinner was presided over by Mayor Reaubin, of Outremont. The health of the Province of Quebec was proposed by Mayor Leclerc, of Verdun, and was responded to by the Prime Minister, Hon. J. E. Caron and Hon. Jacob Nicol.

Mayor Samson proposed the health of the Union of Municipalities, and President Reaubin responded.

The health of the ladies was proposed by Ald. J. A. Lesage, of Quebec, and Recorder Geoffrion, of Montreal responded.

phur, iron, chrome, graphite, zinc, lead, silver and gold in addition to building materials such as limestone, granite, marble and clay. Of the world's production of asbestos Quebec supplies 58 per cent. and 80 per cent. of the Canadian output of mica. Barytes, feldspar, magnesite, molybdenum and pyrites are also produced in large quantities.

The lakes, rivers and streams of Quebec, besides being so favourable to its agriculture also provide an immense reserve of water power. The development of electrical energy by this means has provided a foundation for its manufacturing industries, but vast resources remain untapped. It is estimated that Quebec's water power have a potential development of 15,000,000 h.p. making the production of cheap electrical energy for manufacturing almost unlimited. Among the other valuable assets of the Province must be mentioned its fish and game, and its maple products while from Quebec are obtained many of the finest furs in the world.

Type of Settler Required.
From the foregoing an impression will be gained of the many inducements which Quebec offers to the intending settler. The Department of Colonization has taken in hand the work of directing and assisting immigration, and is engaged on comprehensive schemes for opening up the country for those tenant farmers and others of small means who could never become landowners at home, but who, with industry and a knowledge of farming, may confidently look forward to becoming in Canada the proprietors of good farms and comfortable homes. Farm labourers and domestic servants can, of course, readily secure employment, but conditions are not favourable at present for factory operatives, skilled artisans and professional men.

CORPORATION IS TAKING CATTLE

Manchester Line Steamer Loading 368 Steers For England Here Today

Some 368 head of cattle are now at shed 27, awaiting export to England, aboard the Manchester Line steamer, Manchester Corporation, which is expected to leave Montreal this morning for Quebec, arriving here about 2 p.m.

220 head arrived in twelve carloads on Wednesday evening, while the other 148 reached here yesterday at noon. The latter consignment, from Winnipeg had to be detoured, the train being diverted through Ottawa, on account of the forest fires raging in the Abitibi district.

The animals were taken off the train immediately they had been shunted alongside shed 27, and were watered and fed, afterwards being allowed to rest up preparatory to embarking on the steamer. The work of loading the animals is expected to take but two or three hours, permanent cattle gangways now being used in the handling of the animals in order to facilitate progress in the loading, and the consequence is that the animals are transported aboard much faster than with the open gangways.

This makes Quebec's fourth consignment of cattle, the first having left aboard the Manchester Brigade about a month ago, when over five hundred steers were sent over to England.

PICNIC POSTPONED.

Chalmers' Church Sunday School picnic has been postponed from tomorrow (Saturday) till Monday. The picnic will take place to the Island of Orleans leaving by the 11.30 a.m. steamer.

SPECIAL ORDER CUSTOM TAILORING IN FOUR DAYS

Chief Designer Has Schedule For Tailoring Of Special Order Suits On Sure Time Limit

"We now have custom-made suits to show at \$22.50," said the Chief Designer of Semi-ready clothes. In all the Semi-ready stores in Canada the new Canadian homespuns will be shown at this price—but only until the new patterns are out in the fall—when a higher price for woollens is announced.

"At \$25 we have other imported suitings, but for wear and good appearance the Canada-woven homespuns have given splendid satisfaction."

"Our Special Order Tailoring is considered the best tailoring service in Canada, and our rigid adherence to a four-day schedule of delivery is made possible by a well-manned factory, where all the tailors can fall to work on custom-made orders at rush periods."

"Many men prefer to have their suits made to measure, even though our modern system of making Semi-ready clothes reproduce the same quality of work as the one-man bench tailor—and is not akin to what has long been known as the ready-made clothes' product."

George Morissette and Jules Gauthier have both been allotted a share of the \$22.50 suitings, on which they can give delivery in Quebec in six days.

TUBERCULOSIS

DEATH RATE

Has Been Declining And Further Reduction Is Predicted By Insurance Doctor

Santa Barbara, Calif., June 21— "The decline in the tuberculosis death rate of the last two decades from over 200 per 100,000 population to less than 100 in the registration area of the United States, is in large measure to be credited to the organized campaign against tuberculosis which has been carried on by the official and non-official agencies during the period," said Dr. Louis I. Dublin of New York before the National Tuberculosis Association here. Dr. Dublin is a statistician of the Metropolitan Life Insurance Company.

A careful study of the statistics gathered from all over the world by Dr. Dublin gave a direct answer to those who from time to time have questioned the value of the anti-tuberculosis campaign, and have looked upon the working of natural selection and other influences, not under human control, as probably the most significant factors in the fall of the death rate. Dr. Dublin maintained that the larger part is the decline of the tuberculosis death

rate laws due directly to factors under man's control, and that with the development of these factors through the anti-tuberculosis and other social agencies, the amount of control over tuberculosis will be greatly increased and the death rate will be subsequently very much

"Not all, but a large part, of the credit for the declining tuberculosis death rate can be assigned to the anti-tuberculosis movement," said Dr. Dublin. "No one knows all the facts on the causes of the reduced prevalence of the disease. It would

It is unreasonable to deny that there are persons so constituted that even under favorable living and hygienic conditions they may become seriously sick with tuberculosis and would not respond to any treatment now known to the medical profession, but such a group composes probably a very small part of the

whole population. What the anti-tuberculosis movement is attempting to do is to modify the living and

work habits of the great mass of persons of average endowment by inheritance; persons who unknowingly or otherwise misuse their bodily economy, and thus needlessly terminate their life-span.

"With the continued rise in the level of general intelligence and economic well being, the amount of control over tuberculosis will be increased. What may happen in the future is indicated by the phenomenal drop in the tuberculosis death rate during very recent years, when the standard of living among wage-earners rose sharply. Better homes, higher real wages, more time for rest and recreation, and intelligence to utilize to the full these helps to better health, have reduced the tuberculosis death rate of the wage-working population after the war. The anti-tuberculosis campaign itself is an index of the higher intelligence and the social conscience which characterizes an advanced civilization."

DON'TS FOR WASHING THE CAR.

- Don't use hot water.
- Don't use high-water pressure.
- Don't permit the mud to dry upon the finish.
- Don't use soap on the hood, body or other painted parts.
- Don't permit water to dry, but rub the surface with soft, clean cloths.
- Don't wash the hood of the car while it is hot. Permit the hood to cool first.
- Don't use anything other than a soft wet sponge for washing finished parts. Keep sponge rinsed.
- Don't fail to use plenty of clean cold water. The temperature of the water should be between 49 and 69 degrees Fahrenheit.

SCHOOLS CLOSING IN QUEBEC
FOR SUMMER HOLIDAYS

Victoria, St. George's and Commissioners' High School En-
ded Year Yesterday With Appropriate Programmes—
Bright And Smiling Faces Were Features Of Ceremonies

A large number of parents and friends attended the closing ex-
ercises of the Victoria and St. George's Schools, held in the Y. M. C. A.
Hall yesterday morning, at which short programmes were rendered by
the pupils of both scholastic institutions.

Following the programme, Mr. Brunt, Principal of Victoria School,
dwelt upon the work accomplished during the past year and also paid
tribute to the work of Miss H. E. Winn, the retiring lady principal. The
distribution of prizes then took place. In the afternoon the closing of
the junior grades of the Commissioners' High School took place, the
exercises therewith being followed with much interest by friends and
parents of the pupils.

VICTORIA SCHOOL

Dutch Settlers for Canada; Mark Twain Memorial; Vacation Radio

A remarkable action picture of Mr. P. E. Blackmore's "Blackmore" winning the novice jumping class at the Royal Counties Show at Southampton.

Mrs. Stanley Baldwin, the wife of the premier, declaring open the garden fete in aid of the West London Hospital in the grounds of Chiswick House.

Great enthusiasm was displayed by the Yorkshire people during a recent visit of the Prince of Wales.

Admiral Hitora Takarabe, Japanese minister of marine, following the ancient custom of his country of removing the boots before entering a house.

Capt. the Hon. James Gray Stuart, youngest son of the Earl of Moray, who is engaged to Lady Rachel Cavendish.

Mrs. Elinor Glyn, well-known authoress and scenario writer, has recently returned to this continent from abroad.

Lady Plunkett, a daughter of Fanny Ward, the actress, was presented to the King and Queen at St. James Court recently.

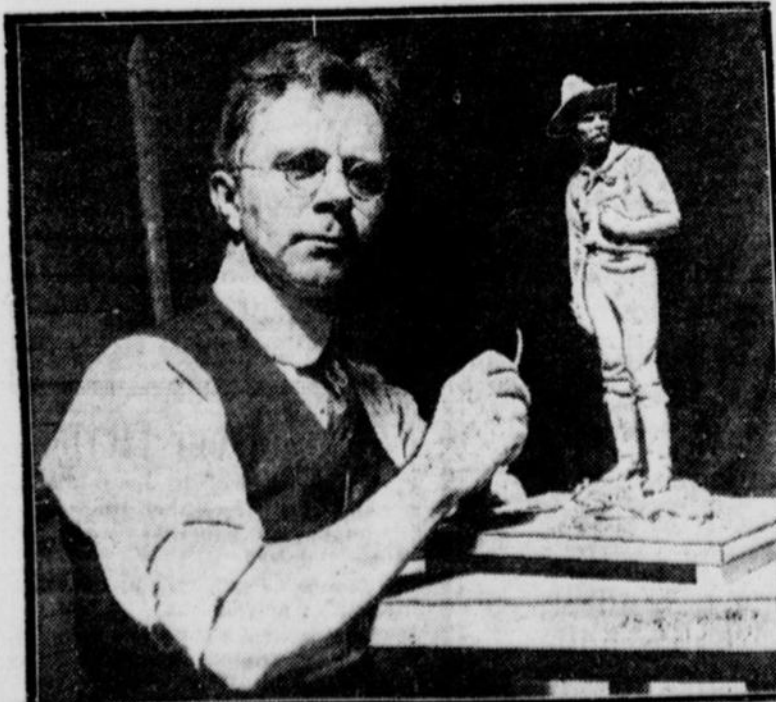

Radio will prove a valuable means of entertainment at summer resorts during the vacation. These young ladies are enjoying a dance to music from the air.

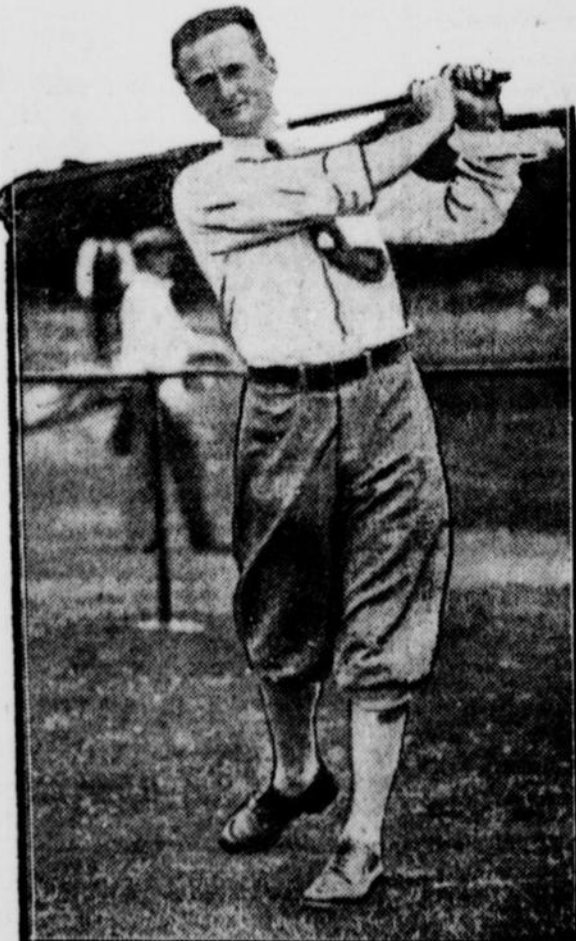

W. B. Jorneman, of the Stamford Bridge track team, England, is shown making a practise long jump in preparation for the coming Olympic games.

A large party of Dutch settlers came to Canada to make their homes here. Photo shows them on their arrival at Quebec.

A statue of Mark Twain, at the age of 29 years, when he was mining in Nevada, is the memorial to America's greatest humorist, which will be placed in Reno.

"Willie" Hunter, English golfer, has won another title. He is now Pacific Coast amateur champion.

Feodore Chaliapin, Russian tenor, of the Metropolitan Opera Company, leaving New York for Europe.

Knitted in an odd loose stitch, this jacquette, in tangerine and nickel grey, with solid grey trimming, is keeping up with the styles.

This tram car de luxe, with a roomy top deck is one of the latest types being used in Leeds, England. The top forms a sort of aerial conservatory.

All these young ladies, who arrived in Canada recently are proficient in a particular line of agriculture. They are winners of the Sir Henry Thornton scholarships, by means of which they are enabled to make a tour of Canada.

NEW YORK MARKET STARTED ON UPGRADE AGAIN

NEW YORK MARKET STAGED A RALLY REACHING FAIR PROPORTIONS BEFORE CLOSE

Bargain Hunters Were In Evidence—Rise In Prices Extended Throughout List—Call Money Held Steady At 5 Per Cent.—Bonds Lagged Behind Stocks

New York, June 21—Supporting orders placed at the opening of today's stock market started a rally which reached fair proportions before the close. Recognition of such orders influenced aggressive short covering operations and there was strong evidence of buying by so-called "bargain hunters."

Recurrent liquidation of impaired marginal accounts resulting from yesterday's smash in prices gave the market a spotty appearance until the final hour when practically the entire list turned upward.

Feeling in the financial district undoubtedly changed for the better in the early hours because of the evidence of substantial support and some of this strength was transferred to the weaker shares.

Today's rise was confined to no particular class of stock but extended throughout the list with here and there a share falling off because of some development affecting it individually.

Baldwin moved up 4 1/4 points, American Can. 4; Studebaker 3 1/8; Pan-American 2 3/4; U.S. Steel 2 and Kelly Springfield 2 1/2.

Railroad shares shared in the upward movement, gains ranging from a point to more than four points. Delaware and Lackawanna gained 4 1/2 points, and half a dozen other advanced one point or more.

Sugar shares reflected the improved outlook in the commodity market. American Sugar, American Beet, Punta Alegre and Cuba Cane preferred rising one to three points.

Foreign exchanges ruled slightly lower, demand sterling slumped 3/4 to 4 1/2 3/8 and French franc fell off 5 1/2 points to 5.19c. German marks held relatively steady at .0007 3/8. Most of the other European exchanges were easier than yesterday.

Call money again held steady throughout the day at 5 per cent. The time money market was dull being confined almost entirely to renewals. Quoted rates were unchanged at 4 3/4 to 5 per cent. for the shorter maturities and 5 per cent. for the longer terms.

A small amount of commercial paper changed hands at 5 1/4 per cent but the rates were steady at 5 percent for prime names and 4 3/4 for exceptional ones.

Day's total sales 1,234,100 shares. 20 industrials averaged 92.26; net gain 1.45. High 1923, 105.38; low 90.81.

20 railroads averaged 81.24; net gain .54. High 1923, 90.63; low 80.13.

The bond market today failed to participate in any pronounced action in the strength shown by stocks. At intervals during the morning selling pressure was applied very persistently against a varied list of domestic issues and foreign bonds, losses running in some instances from 1 to 3 points.

In the last half of the session the complexion of the market underwent a decided change for the better much of the earlier declines being reduced to small proportions, while many popular issues sold materially above yesterday's final figures.

Signs that much of the recent selling through causes of a specific nature were completed were not wanting in the closing dealings, when the more active issues were moving up in a spirited fashion. Relatively little change occurred in United States Government obligations.

Total sales, par value, \$11,409,000.

The Chicago Produce Market

Chicago, June 21—Export business estimated at more than 1,000,000 bushels gave fresh strength to the wheat market today after both the September and December delivery had touched a new low price record for the season. Wheat closed firm 3-5/8 to 1-1/2 net higher with September \$1.04 3/8 to \$1.04 1/2 and December \$1.07 to \$1.07 1/2. Corn finished 3-8 to 1-1/4 up; oats 1-5/8 decline to 5-8c gain and provisions lower by 5a. 7 to 15 cents. Closing: Wheat, July \$1.04 3/4; Sept. \$1.04 3/8; Dec. \$1.07. Corn, July 83 3/8; Sept. 78 7/8; Dec. 67 1/4. Oats, July 46 5/8; Sept. 37 3/8; Dec. 36. Lard, July \$11.02; Sept. \$11.27. Ribs, July \$9.17; Sept. \$9.42.

Egg Market

Ottawa June 21—The export from Winnipeg of 25,000 pounds of frozen eggs is of special interest. The disposal of the large quantities of seconds which are on the market at this season is a problem to which several have been giving close attention and if an export market can be worked up for these eggs broken and frozen it will solve one of the greatest problems with which the trade is faced at the present time in connection with the marketing of eggs.

BANK OF FRANCE

Paris, June 21—The weekly statement of the Bank of France, shows the following changes:—Gold in hand increase 91,000 francs. Silver in hand increase 61,000 francs. Notes in circulation decrease 80,087,000 francs. Treasury deposits increase 49,000 francs. General deposits decrease 103,751,000 francs. Bills discounted decrease 75,232,000 francs. Advances decrease 17,923,000 francs. Advances to the state remain unchanged.

MONTREAL MARKET MORE ACTIVE, PAPERS LEADING IN ACTIVITY, THOUGH WEAK

Detroit And Steel Of Canada Were Strong Features, Each Making A Gain Of One Point—53 Issues Appeared, 8 Gaining And 22 Losing—Bond Trading Was Light

Montreal, June 21—Trading in listed shares on the local stock market was considerably more active with a generally softer tone again prevailing. The papers again led in activity and were down.

Of the 53 issues out, eight gained ground; twenty-two suffered losses ten remained unchanged and thirteen came out in broken lots only.

Laurentide led in activity and closed at 95, down 1-4. Brompton came second and closed at 36 1-2 up 1-4; Abitibi was third and closed at 68 1-8 for a net loss of 3-8 after selling at the new low of 61.

Detroit and Steel of Canada were the strong features of the list making a gain of a point at 78 and 71 respectively. Wayagmack suffered the greatest loss being down to a new low of 47 with a net loss of 8 points. This is due to the general weakness of the paper group.

Total sales, listed 11,890. Trading in bonds on the local stock exchange today was small in volume and without special interest.

Total sales \$74,350.

BELGO CANADIAN PAPER CO. ISSUE

Preferred Shares Being Offered To Yield Investors 7.25 Per Cent.

The syndicate composed of Messrs. Newman, Sweetze & Co. Ltd. Rene T. Leclerc Inc. and A. E. Ames & Co. which have purchased a \$4,000,000 issue of the above Canadian paper company, are today making their public offering. The stock carries dividends at the rate of 7 per cent and is cumulative. It is preferred both as to assets and dividends which will be payable quarterly the 1st of October, January, April and July.

The record earnings is an impressive one. The average for the four years ending August 31st, 1922, was about four times the dividend requirements on the preferred stock and for the eight months ending April 30th, 1923, the average was at the rate of four and three-quarter times the preferred dividend requirements. For two months of the eight referred to above the plant operated at a capacity of 90,000 tons having been increased from approximately 65,000 tons. The Belgo Canadian Paper Company is at present installing another unit which it expects will be ready for operation about November 1st. This unit will bring up the capacity to 115,000 tons per annum and should greatly increase the earning capacity.

The plant of the Belgo Canadian Paper Co. is located at Shawinigan Falls where it has had a continuous and successful record for twenty years. The syndicate feel that the offering will be well received.

Sugar Market

New York, June 21—There was a little better demand for raw sugar today prompted by the continued good inquiry for refined sugar, and prices were 1-8c higher with Cubas now quoted at 3 1/2-3c cent and freight, equal to 37.25 for centrifugal with duty free sugars on the same basis. There were sales of 10,000 bags of Cubas and 52,500 bags of Philippine Islands to local refiners.

Closing Letters By Local Brokers

New York, June 21—The market has been fairly active and moderately firm this afternoon, despite the fact that some stocks have made new low records for the year.

The market was turned with good institutional buying of United States Steel, Studebaker and Baldwin and the confident manner in which it has acted today has dispelled considerable of the gloom which has been apparent for a day or so.

Low priced oil and industrials do not yet show the same signs of rallying as do the pivotal stocks. Total sales 1,292,300 shares.

The Montreal market acted very much in the same manner as did the New York market, that is, several recoveries ranging from fractions to over full points taking place in several quarters of the market.

During the close however, a few stocks suffered further selling which brought them back to where they had previously started and in other case closing prices were fractionally off from opening figures.

The outstanding feature during the last half hour's trading was the spectacular break in Wayagmack common which broke to 47. The initial sale was at 50 compared with last previous sale at 55, hence it sold at 47 and closed there.

Union Bank shares were quite but a little lower touching new low at 120. Victory Bond issues were quiet but rather firm.

SUMMARY

1. THE COMPANY—Belgo Canadian Paper Company, Limited, is being incorporated under the laws of the Province of Quebec to acquire the properties and business of The Belgo Paper Company, Limited, which is one of the largest and lowest-cost producers of newsprint paper in Canada, owning and operating at Shawinigan Falls, P.Q., a modern newsprint paper mill with a capacity of over 90,000 tons of newsprint per annum, now being increased to 115,000 tons per annum. The business has been in successful operation during the past twenty years.

2. PROPERTIES—The plant is one of the most efficiently equipped newsprint mills on the continent, being a complete and self-contained unit, including groundwood and sulphite pulp and newsprint mills, with the necessary auxiliary equipment. The Company's limits consist of 15,000 acres of freehold timber land and 1,800 square miles of leasehold timber limits in the Province of Quebec, located on the St. Maurice River and tributaries, estimated to contain 6,000,000 cords of pulpwood, sufficient without benefit of re-growth or reforestation for forty years' operation at the increased capacity. The location of the mills at Shawinigan Falls is most advantageous with relation to supplies of raw materials and market for finished products.

3. MANAGEMENT—The management of the Company will remain in the hands of those responsible for the attainment of its present outstanding position. The President, Mr. Hubert

100 Years Ago

Steam-Boat Laprairie.

Montreal, June 21.—The Steam-boat Laprairie left this city on Monday last for Chambly. From Chambly, she will commence her regular trips to and from Quebec, filling up the space vacant by the loss of the De Salaberry. By this arrangement, the public will experience but little inconvenience, as a regular communication may be anticipated on account of the Laprairie's draught of water being much less than the De Salaberry.

Shipping Accident.

The ship Margaret, Capt. Fisher, for Liverpool, with a full cargo, unfortunately, when about to sail Sunday, got on the wreck of a sunken vessel near the King's Wharf, and was so much injured that she filled completely with water, and it is supposed will have to discharge. She had some Ashes which were injured.

25 Years Ago

Senator De Blois.

The late Senator De Blois, who passed away the other night at his Beauport home, had attained the ripe age of 83 years. He was maternal uncle of Sir Adolphe Caron, and had been a member of the Senate for fifteen years.

Brutal Assault.

Acting on an order received from the Attorney-General, His Honor Judge Paret Angers left on Saturday for St. Ephemre de Tring where he has to look into the case of a man named Vital Poulin, who was brutally assaulted on the 27th. May last by his cousin. The victim is not yet out of danger. His cousin struck him on the head with an axe splitting the skull open. High Constable Chasse, of the District of Beauce has taken the assailant into custody.

MAGICAL BEAUTIFIERS FOR WOMEN

Women everywhere are trying all kinds of beautifiers, only to find that their efforts are transitory. The first requisite of beauty is health. Without it the steps lag, eyes are lustreless, dark circles appear beneath them, the complexion becomes sallow, and almost invariably the underlying cause is some ailment peculiar to women. There is a very inexpensive remedy for this condition in Lydia E. Pinkham's Vegetable Compound, which for nearly fifty years has been relieving women from some of the worst forms of female ills. We not let it restore you to health and beauty and the joys of living?

Correspondence

From the I.O.D.E.

Quebec, P.Q. June 20.

To the Editor of the Chronicle.

Dear Sir—The Regent and members of the Municipal Chapter, I.O.D.E. have asked me to convey to you their most grateful thanks, and appreciation for the courtesy that you extended the Order, both before and during the Convention. Your hearty support and co-operation, were most helpful.

With renewed appreciation for favours received at your hands.

Yours Truly,

Mildred T. Atkinson,
Hon. Cor. Sec.

Canadian National Railways Notice.

TENDER FEET

TENDER FEET. Aching, burning, swollen, shoe-chafed feet. The minute you put your feet into a "TIZ" bath you feel pain being drawn out and comfort just soaking in. "TIZ" draws out the poisons and acids that cause foot misery. It is almost magical.

"TIZ" takes all the soreness out of corns and calluses. Get a box of "TIZ" at any drug or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet, comfortable.

Bathe Them in TIZ

THE HOME KITCHEN

By Jeannette Young Norton, The Authority on Home Cooking.

HERE ARE DELICIOUS CAKES FOR VARIOUS OCCASIONS.

Cake is just cake in most households, but there is a proper use for every sort, and this should influence the home cook in planning her baking and knowing just what kind she should make for every occasion.

Rich, plain solid cake, like pound cake, are designed to cut in medium slices to serve with ice cream or with a good fancy jelly for dinner dessert, or luncheon. The layer cake—rich enough to eat with a fork—is a dessert in itself. Sponge cake is especially for use with fruit or with milk or cocoa for children. Plum or fruit cakes are good for afternoon tea or more formal luncheons with fruit. Cookies, gingerbread, plain cake and sweet breads, nursery and between-meal cakes.

The real wedding cake is a rich silver cake, made in pyramid form. The real christening cake is a sunshine cake. Coconut, watermelon, ribbon, lady-fingers, macaroons and fancy little cakes are tea or luncheon dainties. Deathnuts and crullers, buns, coffee-cakes and sweet zwieback are among the so-called breakfast sweets.

Cakes should always be mixed according to directions in the recipes. Baking of cakes has much to do with their success. Sponge cakes require a cooler oven than rich and buttery cakes. The most common fault is having the oven too hot. This causes the cake to rise unevenly and perhaps burn on the bottom, and where the cake is thickest it cracks. When a cake has been properly cooked and it is a good brown and has shrunk away slightly from the edges of the pan. It is a good idea to let the cake stay in the pan for a few minutes, then turn it upside down over the plate. As it cools it will loosen and drop on the plate. A knife, loosening it slightly, will accomplish the same object.

The newer baking powders that do not start to rise until they strike the heat are finding much favor with modern cooks.

The best quality of flavoring gives the best results, requires a little less in using, and though it may be a trifle more expensive, yet it pays. There are many good coloring fluids on the market, but they should be used only on special occasions. The natural home coloring stuffs, such as coffee, chocolate, lemon, caramel, strawberry and raspberry juice, are in no way harmful and they are effective for ordinary use.

Cake-pans should be well chosen and kept very clean, well-buttered when used and warm when the batter is put in. When pans are too new or very old they are not so reliable as when thoroughly broken in and in daily use. If too old they are apt to rust and stick. When the whites of eggs are to be beaten, beat them until they are thoroughly beaten, although not dry enough to crack in breaking. In folding them into the dough, beat them just as they are to be used and not so long ahead of time that they separate and have to be beaten again. For they do not come up as light a second time.

Caramel Cake.

Put a heaping tablespoonful of sugar in a steel frying pan and set it to melting. When it turns a golden brown and caramelizes, add a half cupful of water to melt it. Cream a half-cupful of butter and three quarters of a cupful of sugar in the mixing bowl. Add the beaten yolks of two eggs, sift in a cupful and a half of pastry flour in which 1-2 teaspoonfuls of baking powder has been mixed. Add the liquid caramel slowly, then beat until all is smooth. Now fold in the beaten whites of the eggs. Bake in moderate oven, and frost with soft frosting made with coffee.

Good Plain Cake.

Cream together two small cupfuls of sugar and three-quarters of a cupful of butter. Add the beaten yolks of four eggs and a teaspoonful of vanilla. Add a small cupful of milk and a layer cake of cake flour in which four teaspoonfuls of baking powder have been mixed. Beat thoroughly, then fold in the beaten whites of the eggs. Pour into a well-greased warm pan and bake in a rising oven. This cake may be used as a layer cake or it may have a half-cupful of chopped nuts added, or a cupful of seeded raisins lightly dusted with flour, depending on what the cake is to be used for.

NEW BUSINESS NECESSARY.

The man who calculated that the recent Alberta rains were worth \$25,000 made the estimate early in the rainfall and did not take into consideration the value of the rain in inspiring new courage and enthusiasm among the people—Calgary Albertan.

Fashion's Forecast

1786

FOR WARM AFTERNOONS

A frock like this makes splendid porch sewing, in fact, you could finish it in a few hours and be enjoying the fresh air and sunshine at the same time. It is hardly necessary to tell about its simple construction, when the diagram makes it so plain that the entire frock is made from one length of material. Now, perhaps, you would rather have your frock made without the sides pleated. In this case, you will just use a narrower width of material and gather the sides. It won't cost much either, for only 3 yards of 42-inch material with 5 yards of ribbon is needed. The pattern comes in sizes 16 years, 36, 38, 40 and 42 inches bust measure. Price 15c, stamps or coin (coin preferred).

Voile, cotton georgette and crepe de Chine are just some of the materials you might use for this style. Price 15 cents.

Address All Orders to Pattern Department, Quebec Chronicle.

INTERNATIONAL PAPER SHOULD EARN \$6 A SHARE ON COMMON

According to an estimate covering the three months ended May 31, the International Paper Company added to its surplus after all charges and preferred dividends slightly less than \$800,000. With no break in current rate of operations for six months ending June 30, the company will probably earn better than \$6 a share on 139,220 shares of common stock.

Despite the increase in wages voluntarily granted to mill employees this spring, with mills continuing operations at capacity as at present, the company should be able to show net profits available for dividends on preferred stock of at least \$250,000 monthly for the balance of the year. Preferred dividend requirements amount to \$125,000 monthly, or \$1,500,000 for the year. This would be at an annual rate of between \$13 and \$14 a share on common stock, though due in part to inclusion of income from other sources.

ART FOR ART'S SAKE.

Mrs. Newgill (to daughter at reception)—"Jane, dear, sing the song the French professor charged fifty dollars an hour to teach you."

—American Legion Weekly.

Social and Personal

Lady Forget, of Montreal, is leaving today for St. Irene.

Mr. J. M. R. Charlton, of Montreal, is staying at the Chateau.

Mr. Auguste Malouin will spend the summer at Riviere Ouelle.

Mr. and Mrs. Louis LeRoy, of New York, are guests at the Chateau.

Mr. Jas. T. Daly, of Halifax, N.S., is among the guests registered at the Chateau.

Mr. D. H. Pennington is leaving this morning for Hamilton Cove, Co. Saguenay.

Dr. and Mrs. A. H. Greenwood, are in town from Montreal, guests at the Chateau.

Mr. Eug. Charbonneau, is in town from Outremont, Montreal, a guest at the Chateau.

Mr. and Mrs. Darblay of Paris, are at Chicoutimi, the guests of Mr. J. E. A. Dubuc.

Mr. P. Malone of Three Rivers arrived in town yesterday and registered at the Chateau.

Lieut. Colonel and Mrs. C. E. Williams, of London, Eng., are in town guests at the Chateau.

Mr. and Mrs. J. Alexis Cloutier, have returned to Curant, Ont., after a visit to this city.

Miss Jeanne Dupre, will spend some time at Murray Bay, the guest of Mrs. Adela Turgeon.

Dr. and Mrs. A. Dery will leave next week for Trois Pistoles, where they will spend the summer.

Mrs. Jean Bouffard and family are residing at St. Laurent, Island of Orleans, for the summer months.

Mr. and Mrs. C. Gould and Miss H. P. Gould, are in town from Brantford, Ont., staying at the Chateau.

Mr. and Mrs. J. R. Hazelwood and Mr. Preston Hazelwood, of Brooklyn, N.Y., are registered at the Chateau.

Senator Chapais and Mrs. Chapais are leaving next week for St. Denis, where they will spend the summer.

Mrs. J. M. E. Prevost and Miss Suzanne Prevost have returned to Montreal after spending a few days in town.

Mr. and Mrs. Antoine C. Taschereau are leaving tomorrow for Riviere Ouelle, where they will spend the summer months.

Mr. and Mrs. P. P. Stone and the Misses Helen, Margaret and Marion Stone, of Nausseau, Wis., are in the city, staying at the Chateau.

Mrs. Paul Rodier, of Montreal, will spend several weeks at Riviere Ouelle, the guest of her parents, Mr. and Mrs. Antoine C. Taschereau.

Colonel and Mrs. Lawson of London, England, are in Chicoutimi, the guests of Mr. J. E. A. Dubuc. Colonel Lawson is a nephew of Lord Burnham.

Miss S. Hyland entertained at a "kitchen shower" in honor of Miss Hilda Dollard whose marriage to Mr. Theo. Laberge takes place on June 25th.

The Earl and Countess of Minto are spending a few days at Government House, the guests of Their Excellencies the Governor General and Lady Byng of Vimy.

Lady Lemieux has taken up her residence at Cacouna for the summer months. Sir Francis Lemieux will proceed to Cacouna on his return from Montreal.

Mr. George Cote, Assistant Director of Surveys, Crown Lands Department, has returned from the Lake St. John region, where he had been on official business.

Mr. Robert Campbell has been quite seriously ill at his residence at Beville and whilst he was making good progress towards recovery, it will be some time before he will be at his office or able to resume his usual occupations.

Those who had the honor of dining at Government House Wednesday evening with Their Excellencies the Governor General and the Lady Byng of Vimy were the Marquis and Marchioness of St. John, Major-General J. H. MacBrien, Brig-General and Mrs. Charles MacLaren, Major and Mrs. W. D. Herdridge, Miss Laura White and Miss Mary Scott, Dr. and Mrs. Gordon Gunn, who were also invited, were unable to accept.

On Monday, June 18th, 11 o'clock in the forenoon, at St. John's Church, Portneuf, P.Q., in the presence of a host of friends and well-wishers, Amy Ruth, third daughter of the Incumbent, Rev. W. A. Adecock and Mrs. Adecock, was married to Harold Edward Lee of Grand'Mere, P.Q. The bride, who was given away by her brother-in-law, Mr. George Adecock, wore a veil with orange blossoms, and a beautiful dress of white silk cretonne with pearl trimmings. She carried a shower bouquet of white roses and lilies of the valley. The church was most beautifully decorated with a wealth of flowers for the occasion. After the ceremony a reception was held at the Parsonage, at which only the relatives and immediate friends were present. The bride and groom left on an extended trip down the Saguenay and Lower St. Lawrence, and on their return will reside in Grand'Mere. The bride's travelling dress was of navy blue silk, with hat and cloak to match. They were the recipients of innumerable beautiful gifts from their many friends, testifying to the high esteem in which both are held.

A very pretty wedding took place in St. Peter's Church, Vallee St. on Wednesday afternoon, June 20th, when Francis E. Fabyan, only son of Mr. and Mrs. C. F. Fabyan, of Quebec, and Lily M. E. Phillips, only daughter of Mr. and Mrs. A. E. Phillips, also of this city, were united in marriage by the Rev. E. K. Moffatt. The musical portion of the service was rendered by Mr. E. T. D. Chambers who presided at the organ. The bride, who was given away by her

GETTING BUSINESS FOR C.N.R.

Sir Henry Thornton appears to be pursuing a definite policy of getting trade. He is going after it. He is advertising the fact to the people that they have a road of their own, and that it is to the interest of the public to patronize their own where possible when a greater good is to be accomplished by so doing.

What custom has endeared, we part with sadly, though we prize it not.

Simple Way to Get Rid of Blackheads

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the face and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are simply a mixture of dust and dirt and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.
