VOL. XXXVIII, No. 108 MONTREAL, MONDAY, MAY 7, 1906. PRICE ONE CENT.

PRINCE ARTHUR COMING TUESDAY

His Royal Highness is Expected in City at Eleven O'Clock.

PROGRAMME FOR THE VISIT

Mayor, Aldermen and 1st Prince of Wales' Fusiliers' Guard of Honor to Welcome Prince.

Prince Arthur of Connaught arrives in Montreal to-morrow at 11 a.m.

One hundred men of the Prince of Wales Fusiliers under the command of Captain D. W. B. Spry will mount guard at the Windsor station, where will be assembled the Mayor and a deputation of aldermen with other distinguished citizens to welcome the royal visitor.

After an inspection of the guard of honor the Prince will be driven direct to Ravenscrag, where he will be the guest of Sir Andrew and Lady Allan during his stay in this city. After luncheon there the presentation of the civic address at the City Hall will take place at 3.30.

AT THE CITY HALL.

The City Hall will be specially decorated for the occasion, and after the address has been read the aldermen will be presented in the Mayor's chamber. In all it is expected that the ceremony at the City Hall will last but half an hour.

At four p.m., the inspection of the Cadets will take place on the Champ de Mars. The brigade will be in line facing the Nelson Monument, the Mount St. Louis Cadets on the right, the Highland Cadets on the left. Major F. S. Meighen, of the 5th R. S. Highlanders, will be in command, with Captain H. Jodoin, 65th Mount Royal Rifles as orderly officer.

WILL INSPECT FIRE BRIGADE.

This inspection over, Chief Benoit will order the turnout of the fire brigade, which will close the afternoon proceedings.

Dinner will take place at the St. James's Club at 7.15, to be followed by Lady Allan's reception in his honor in the evening, beginning at 9.30 p.m.

On Wednesday afternoon the Prince will visit the Horse Show at 2.45 p.m., to be followed by a dinner at Sir Montagu Allan's at 7.30 p.m. Later he will pay his final visit to the Horse Show, embarking on the SS. Virginian.

Thursday, the Allan Line SS. Virginian, with His Royal Highness aboard will sail at daybreak.

CIVIC RECEPTION TO THE PRINCE.

The Civic Reception Committee held a meeting to-day in the Mayor's parlors to complete arrangements for the Prince's reception at the City Hall tomorrow at 3.30. The Mayor presided at the meeting.

It was decided that the civic deputation which welcome the Prince upon his arrival at the station should be: The Mayor, Ald. Sadler, L. A. Lapointe, Lavallee; City Clerk David and Assistant City Clerk Mr. Rene Bauset.

So soon as His Highness arrives at the City Hall he will be conducted to the Council Chamber where Mayor Ekers will read the civic address.

After an adjournment is made from the Council Chamber the Prince will be introduced, in the Mayor's parlors, to the aldermen and prominent guests.

In connection with the inspection of the fire brigade, arrangements are being made by Chief Benoit of the Fire Department so the brigade can turn out on the Champ de Mars. The exhibition will take place so soon as the Prince leaves the City Hall. Sufficient firemen and fire apparatus will be left in the various stations to handle any fires that may break out during the review.

Cards of invitation will not be issued to the public for the reception at the City Hall. The public will be admitted. Chief Campeau is making arrangements in order that the most perfect police protection can be given while His Royal Highness remains in the city.

KING EDWARD'S VISIT TO CANADA

Montreal City Council Requested to Join Parliament in the Invitation.

IS LIKELY TO BE ACCEPTED

It is Believed Their Majesties Will Favorably Receive Canada's United Request.

His Worship the Mayor has received a communication from Ottawa pointing out that the Parliament of Canada has passed a resolution inviting King Edward and the Queen to visit Canada. In this connection the Mayor is asked to have a resolution passed by the City Council of Montreal, endorsing the action taken by the Canadian Parliament.

The communication in question reads as follows;

"Sir,—I have thought it my duty to take the liberty of addressing to you a copy of the debates in the House of Commons and of the Senate of Canada upon the resolution which I had the honor to submit in the House, proposing the adoption of an address for the purpose of inviting their Majesties the King and Queen to visit Canada a: as early a date as possible, in the hope that the reading of this debate will interest you and will cause you to take a favorable view of the request I am about to make of you as head of your municipal corporation.

HOPEFUL OF ACCEPTANCE.

"There is reason to believe, and even to hope, that their Majesties will favorably receive the invitation which is to be sent to them forthwith, and it is now generally believed that if it is shown to their Majesties that this address is not merely an occasion for the expression of our loyalty and devotion, but that all Canada entertains the hope and the desire that this visit will come to pass, they will, in all probability, grant our request and honor us with their visit at a near date.

"You will permit me to suggest that your Municipal Council should adopt a resolution cordially approving of the step taken by the Parliament of Canada, and adding an expression of the sincere desire of your citizens that their Majesties will accept the invitation.

"If my suggestion is agreeable to you, as I hope, I respectfully beg that you will, as early as possible, secure the passage of this resolution by your Municipal Council, and have the goodness to inform me of the result.

(Signed) "N. A. BELCOURT."

FIRST IMPERIAL LIMITED.

Canadian Pacific Has Resumed Double Daily Transcontinental Service.

The first Imperial Limited express left the C. P. R. Windsor street station yesterday morning at 9.40 on her trip across the continent, thus instituting a double daily service between Montreal and Vancouver, which owing to the increased traffic will probably be continued in operation the whole year round, beginning this season.

The train which left here yesterday was made up of the special car Banff, dining car Berwick, sleeping car Agassiz, one first class coach, two tourist cars, two colonist cars, and a baggage car. The dining car Berwick is a marvel of construction just turned out of the Angus shops. It has large plate glass windows, natural oak interior, twelve large tables, splendid kitchen arrangements, and a costly table service which has been recently imported from England. The tourist sleeping cars are comfortably fitted with berths, and a range is provided in each car for the benefit of those who desire to do any cooking on board.

The special car Banff, with its artistic interior, was reserved for the members of the press, who through the courtesy of Mr. George Ham and Mr. W. A. Cooper, of the C. P. R. were invited to accompany the train as far as Ottawa. At the latter town the press members were met by a deputation from the Parliamentary press gallery and taken for an electric car tour through the city and out to Britannia on-the-Lake.

SPECIAL GAS MEETING OFF.

Mayor Ekers Will Not Call Session for Thursday.

Mayor Ekers said to-day that on account of various members of council being out of the city he would not summon the special meeting of council for Thursday to take up the gas question. The question, however, would be taken up at the meeting of council on Monday next.

More Stolen Goods Returned.

A parcel containing some $1,000 worth of jewellery was left in the hands of Detective Boulard, at the Detectives' Office, at an early hour to-day. These goods are believed to have been stolen, and already many of the watches which were in the parcel have been claimed.

TYPHOID ATTACKS REFUGEES' CAMP WHERE 'FRISCO SUFFERERS ARE LIVING

There are Fifty Thousand People Camping in the Open and a Quarter of a Million Receive Daily Rations from Distributing Posts.

Special to The Montreal Star.

Oakland, Calif., May 7.—Typhoid has broken out in the refugee camp at Presidio. Though the actual number of cases thus far is uncertain, something like twenty are believed to have been noted. There is also much intestinal trouble, which may be found lately to be typhoid.

FIFTY THOUSAND IN CAMP.

Washington, May 7.—The Military Secretary received the following despatch from General Greely, dated San Francisco, yesterday:

Conditions are steadily improving. Arrival of thirty-six officers permits assignment to numerous camps of commanding officers to ensure decency and order in sanitation. Rough estimates place the number of persons thus living at fifty thousand. Naturally such large bodies become threatening factors as regards the future health of the city. When practicable, a further report will be made on the number of campers, which is apparently increasing. Registration and census of their number is progressing Presumably, the mouths fed to-day will approximate a quarter of a million. Am proceeding with methods calculated largely to reduce this number through the institution of facilities for cheap meats and gradual restrictions on issue to male adults. Rations are plentiful as far as flour and potatoes go, but extremely limited as to other articles."

Another despatch received from General Greely stated that on last Saturday the number of rations issued was 220,000.

CROWDED TO VAUDEVILLE SHOW.

San Francisco, May 7. — Open air services were the rule among religious communities. At Golden Gate Park, the usual Sunday afternoon concert was given before thousands of persons. That the people are beginning to look for diversion was shown last night, when a great crowd assembled to see a vaudeville show at a hall in Fullmore street. The authorities at the last moment refused to permit the performance. Two arrests for selling liquor were made.

Coroner Walsh, after revising his list of cases, informed Major-General Greely that the total number of cases handled by his office was 319, of which 134 were identified. This report shows 39 fewer fatalities than given by a previous count.

SOME OF THOSE WHO FIGURED PROMINENTLY IN THE FRENCH ELECTIONS.

FORMER DEPUTIES WERE RETURNED

French Election Took Place Yesterday and There are Few Changes in Personnel of the Chambre.

Paris, May 7.—Results thus far announced in the general parliamentary elections, which were held yesterday, show few changes in the Chamber, most of the former deputies being re-elected, but an extraordinary number of second ballots will be necessary in Paris.

The present ballot gives the Opposition a majority, but the second ballot, which will be taken May 20, is expected to produce the results of 1902, when the representation of the capital was equally divided.

Nevertheless, the Government has gained one seat. It is estimated that there was a record poll of votes. Owing to the excitement caused by the recent strike and the disorders occasioned by the taking of inventories of church property, the polling booths were guarded by military and police, but the day passed practically without incident and intervention by the authorities was unnecessary.

Great crowds last evening surrounded the Hotel de Ville, the Ministry of the Interior and the newspaper offices, where results of the voting were posted. The people cheered and hooted when the return of popular candidates were announced.

The success of prominent men, such as Messrs. Briand, Presence, Millerand, Lockroy, and Milleverte and Admiral Bienaime, was greeted with enthusiasm. Marcel Hebert, director of the League of Patriots, was defeated.

Police and cavalry patrols prevented demonstrations by the disorderly element, and good humor was generally prevalent.

CHILD WAS NOT POISONED.

Eva Daoust Died of Natural Causes, Declare Coroner's Jury.

The inquest into the death of little Eva Daoust took place this morning at the morgue before Coroner McMahon. After the jury had been sworn in the coroner gave a short resume of the circumstances under which the death of the child took place, and informed the jury that it was their duty to find correct answers to the following two questions: "Was the child killed by the action of the drug administered to her as a medicine, and was the clerk who made up the prescription responsible for her death?"

Maurice Daoust, the father of the dead child was first called. In substance his evidence was as follows: The child had been sick about five weeks, being treated by Dr. Brossard from the commencement of the illness. On Monday last the doctor gave a prescription to him, which he had filled at a drug store near his home. From the time the first dose of this had been administered, the child became rapidly worse, and on Thursday night the doctor, after increasing the dose from three to four and then five drops every three hours, informed the parents that the medicine was not as he had prescribed. In place of being one ounce of 'creosotale,' it was pure creosote and was being administered in very powerful doses even for an adult.

The child was in a very bad state at the time, and early Friday morning it died, Dr. Brossard giving a certificate for burial on the assumption and with the belief that the cause of death was the disease with which it had been suffering, never for an instant having cause to believe that it might have died of poisoning. On Saturday Drs. McTaggart and Dugas held an autopsy on the body, coming to the same conclusion as Dr. Brossard.

In view of this, especially since both the medical experts stated positively that the child's respiratory organs were filled with puss and died from that cause, the jury brought in a verdict of death due to natural causes.

Fined for Interfering With Police.

Ten dollars or two months in gaol was the fine imposed this morning by Mr. Recorder Weir on Walter Wilkes, on a charge of interfering with the police.

It is alleged that Wilkes enticed two men who were arrested to resist the police, telling them to kick him. The two men, Joseph Sloan and Walter Elbourne, were each fined $3 or fifteen days in gaol on a charge of being drunk.

STABBED BROTHER-IN-LAW.

Edward Power Used Knife in Course of Family Quarrel.

Edward Power, 40 years of age, appeared before Judge Lafontaine to-day charged with having stabbed Alfred Guimont, his brother-in-law. He pleaded guilty to the charge and will be sentenced Wednesday.

A family quarrel took place at 84 Murray street yesterday and during it, Power inflicted four wounds in Guimont's body, three in the arm and one in the neck. The weapon was an ordinary penknife.

DOCK LABORERS WILL NOT STRIKE

'Longshoremen's Union Disclaims any Intentions in that Direction.

OUTSIDERS GIVE ONLY SIGN

Some Gangs From Portland and St. John Said to Be Trying to Start Trouble.

There will be no general strike on the docks this season, but two or three shipping firms may have trouble with their men, who are in no way connected with the Montreal 'Longshoremen's Union.

It transpired at the mass meeting of 'longshoremen, held yesterday afternoon, that several gangs of men who were imported from Portland and St. John, N.B., during the trouble three years ago, have been trying to start trouble among the two thousand dock workers, but up to the present they had made but little headway.

It was reported that all the Canadian Pacific Steamship Company's vessels were manned by members of the union. All the coal carrying boats were on the fair list and all the tramp steamers entering the port are taken care of by the members of the association in accordance with the rules and regulations of the parent body.

After communications had been read from Mr. Charles Barter, of Detroit, general secretary of the International Association of 'Longshoremen, relative to the strike on the great lakes, the president denied the yarn to the effect that a walking delegate was here from the United States for the purpose of working up trouble. He said the story was absolutely false and absurd. "We do not go on strike for the good of our health, and we are well able to decide all these matters for ourselves," said the officer with much determination.

Sympathy was, however, expressed for the thousands of 'longshoremen who are on strike, at the variuos ports in the United States.

The annual report of the secretary-treasurer was presented. It stated that 1,800 members were in good standing, and that the financial position of the union was never in a better condition.

The report of the committee on legislation showed that no measures had been passed by the Dominion Government that was in favor of the working people of this country. There was some discussion relative to the Alien Labor law in this connection, but no action was taken.

The nomination of officers resulted as follows:

President, John Ryan and Napoleon Badard; 1st vice-president, Alderic Beauvais; 2nd vice-president, Alexander Mullins; French recording secretary, Joseph Baril; English recording secretary, W. Mansfield; treasurer, George Poliquin and Karl Troisaa; marshall, C. Pelletier, J. Viau and M. Desjardins, A. Breiere and Peter Karrington; sergeant-at-arms, J. B. Aubin, P. Jeary and P. Gagner.

The elections will be held at the next meeting. A lively contest is expected.

The Star was told to-day that the reason the Portland men wanted to make trouble in Montreal was because they were expelled from their own local union, and hoped to be reinstated in the event of serious trouble at this port.

FOUR DROWNED IN MONTMORENCY

One Man Leaped From Boat and Upset It—He Got Ashore But His Friends Were Drowned.

Quebec, Que., May 7.—Four men were accidentally drowned to-day in the Montmorency river at the locality well known to tourists as the natural steps.

Here the Quebec railway Light, Heat and Power Company, which furnishes light and electricity for the city and district is constructing a sixty thousand dam to raise the water in the lakes and river above and reserve it for the dry season.

Five men employed on the work started to-day to cross the river above a furious rapid, in a boat. One man named Giroux, growing frightened leaped out and swam ashore. In so doing he upset the boat throwing the other four into the water.

All were drowned. Whether or not the bodies will be recovered before they are swept away over the falls is not known.

The names of the drowned men are Lepage, aged 46, of Lange Gardien. Legare, Casault and Trudel all residents of the neighborhood of Montmorency, all are married, and all of middle age.

SECOND VISIT FROM BURGLARS

Joseph Pony's Jewellery Store on St. Catherine Street, Visited Early Sunday Morning.

Between Saturday midnight and Sunday morning at 6 o'clock, the store of Mr. Joseph Pony, 1632 St. Catherine st., was broken into and a quantity of jewellery and other goods were stolen. Mr. Pony lives over the store and heard the noise downstairs. On descending armed with his revolver, he found the parties whoever they were had escaped. Mr. Pony said to-day to Chief of Detectives Carpenter that he valued the goods which had been stolen at $200. Some few days ago, Mr. Pony states, his store was entered and about 72 watches taken.

Sydney, N.S., May 7.—One hundred Newfoundlanders who came up last Thursday on the Bruce to go to Clarke City, Quebec, to work in the pulp mills, and who have since been at North Sydney, waiting the arrival of the steamer Aranmore, which is to take them to that place, struck this morning and refused to go on unless the pulp company paid their board during the time they have been detained here. The men claim that the pulp company agreed to pay their passage to Quebec and assured them there would be no delay.

RECOMMEND A NEW MEDICAL STAFF

Re-organization of the Toronto General Hospital Would Start This Way.

Toronto, May 7.—A complete reorganization of the medical staff of the Toronto General Hospital is recommended by the committee appointed in January last to consider what scheme should be adopted to place the hospital in the forefront of such institutions in university centres. With a view of obtaining opinions from authorities whose interests were not local, and who therefore would be free from purely local views, the committee submitted a list of questions to leading authorities in Great Britain, the United States and Canada, and on the answers received, the committee is making twenty-six recommendations. As a preliminary step, it is recommended that the resignation of the entire present staff be called for.

Sale of Church Lands.

Application Refused.

Special to The Montreal Star.

Ottawa, May 7.—The Railway Commission has refused the application of the Canadian Pacific Railway Company to build a branch line to Laurier avenue, along Nicholas street, for the purpose of establishing a freight terminal there. When the C.P.R. made application for the approval of its plans the city opposed it unless the rialway company would agree to come in on the level of the G.T.R. tracks along the canal. This the C.P.R. did not wish to do, claiming that to cut down the embankment would be too expensive.

PROSPECTS FINE FOR LACROSSE SEASON

Montreal and Nationals had Practices Saturday—Capitals will be Out for Work To-night.

The lacrosse men that play the game on the field got busy on Saturday—that is, some of them.

Montreal and National had a number of men out capering over the green sward, but the Shamrocks were content to lay low and allow old Sol to put in a little more of the drying process before venturing out.

There was a rumor about town that all of the green shirts were out, but big Jim Kavanagh. This, however, proved to be a hoax.

ON MONTREAL GROUNDS.

At the Montreal grounds a lively scene was presented. Here the ground was in fairly good condition, and upwards of thirty wielders of the stick turned up to go through a little limbering up process. It is always a hard matter to get a good crowd of seniors out to the initial practice, but the Montreal committee felt satisfied with the number on hand. Muir was there between the poles, and in front of him Angus, Strachan and Dr. Cameron lined up. The attacking force consisted of Dade and Scott and some of the intermediates. The six seniors looked to be in good condition, while Dade showed that he has lost none of his cunning.

WITH THE NATIONALS.

The National grounds are not yet in proper condition for good lacrosse, but, nevertheless, they also had a good turnout, some twenty-odd men appearing on the field.

Captain Clement was in charge of the work, and lined the home men up against the defence, and kept them going at a lively pace for some time.

Among those on the field were Decjardins, Poirier, Vidal, Secours, R. Lamoureux, Faulkner, Cote, of Seattle; Catarinich, Blanchard, the two Millaires and Beauchamp. Several other players were also present on the side, but did not care risking the field in its wet condition.

CARLIND'S HOPEFUL VIEW.

Expects Montreal Will Win Championship.

Mr. Tom Carlind, president of the Montreal Lacrosse Club, was in great good humor Saturday night.

"We have had one of the best opening practices we ever had," he said, "and if Montreal does not land the championship, I would like to know the reason why.

"There is great enthusiasm amongst all the boys and I think our team will compare favorably with any of the six others that are in the Union.

WILL PLAY PROFESSIONALS.

He was asked if Montreal intended to play any professionals, and replied: "We will play some professionals, but the majority of the team will be amateurs.

"We will announce our professionals when the season starts.

That was the idea of the Association when it gave us permission to play with and against professionals, and I will carry out that idea.

"I am convinced that we will make the best showing this year that we have made for many a year, and I feel that the entire Montreal Amateur Athletic Association is backing us up."

HOOBIN AND BRENNAN.

President of Shamrocks Says They May Be Out Again.

It will be a matter of gratification to lovers of lacrosse to hear that the president of the Shamrock Lacrosse Club announces that the chances are that two such popular lacrosse idols as Messrs. Henry Hoobin and Paddy Brennan may again come out during the present coming lacrosse season.

"I have great hopes," he said on Saturday, with a smile, "that Mr. Hoobin will be out again, and as to Mr. Brennan, I think that if he can get into condition as far as his weight is concerned, his love for the game is such that he will not be able to resist the urgent requests that will be made to him to again don the green uniform.

EXTENSIVE IMPROVEMENTS.

"We are going to make extensive improvements to our grounds, or rather to our structures there.

"Considerable money will be spent on the stand, a thing which to my mind will be justified by the present indications which all go to show that the coming season will be one of the most interesting that has ever been had in lacrosse.

NATIONALS WILL PAY.

Make No Bones About Paying of Professionals.

President Joseph Mercier, of the National Lacrosse Club, authorizes the statement that all the players of the Nationals will be professionals during the coming summer.

"You can announce," he said Saturday, "that all our men will be professionals. What is more, I have no hesitation in saying that, although there may have been some who were not paid in the past, as a rule our players have always been paid.

"We will have a good team. We have three or four men in view who will greatly strengthen our team.

"Who they are, I cannot say just at present. We will spare no money or efforts to make our team the equal of any of the other city teams.

"Last year on account of our incorporation and improvements we spent about a thousand dollars extra.

"This year we are prepared to add this sum if necessary to the money we have beeen in the habit of paying our players in the past to get up a first-class team.

"I think that lacrosse will boom this season as it has never boomed before."

LACROSSE SALARIES.

The Budget That Will Have to Be Provided for.

There is some talk of trying to get together all the senior lacrosse clubs to discuss, if possible, the problem of salaries. Said one prominent lacrosse man:

'I think that since we are all going to openly pay men we ought to get together and settle upon some special limit for salaries, for if we do not there will be such a bidding for men that some of us will be bankrupted."

Asked what he thought would be the average pay to be given to the professionals that will be played this season, he replied: "From $10 to $20 a game."

As all the clubs will play twelve schedule games, and at least three exhibition matches, and as they will carry at least fifteen men on their teams, it will mean, taking the average salary of a professional at $15 a game, that the seven clubs, supposing they paid all their men, would spend about twenty-four thousand dollars during the coming season.

One reason why so many clubs were opposed to the idea of again having field captains was that it would mean another two hundred and fifty dollars in salaries.

MINTO CUP STILL ON DECK.

One Challenge for It is in at Present.

The question of whether the Minto Cup is going to be a nonenty under the new lacrosse regime, which will no doubt result in weakening the Canadian Lacrosse Association greatly, has been much discussed.

From what can be ascertained, the Minto Cup will be just as much in evidence as before.

Mr. Harry McLaughlin, president of the Shamrock Lacrosse Club, said on Saturday:

"Certainly there will be Minto Cup matches. Although it looks at present as if the Canadian Lacrosse Association teams would not be as strong as in the past, I think that you will find that they will be pretty strong towards the middle of the season.

"They have lots of strong intermediates to draw from in the west. Besides, we have already a challenge in hand from the Souris Lacrosse Club of Manitoba.

"As to the senior professional question, it is not going to trouble us at all. We are not going to declare who are professional on our team, if we should have any, or who are amateur.

"We are not going to follow the Canadian Amateur Athletic Union rules, and there is nothing to compel us to disclose our private club business in that respect to any one."

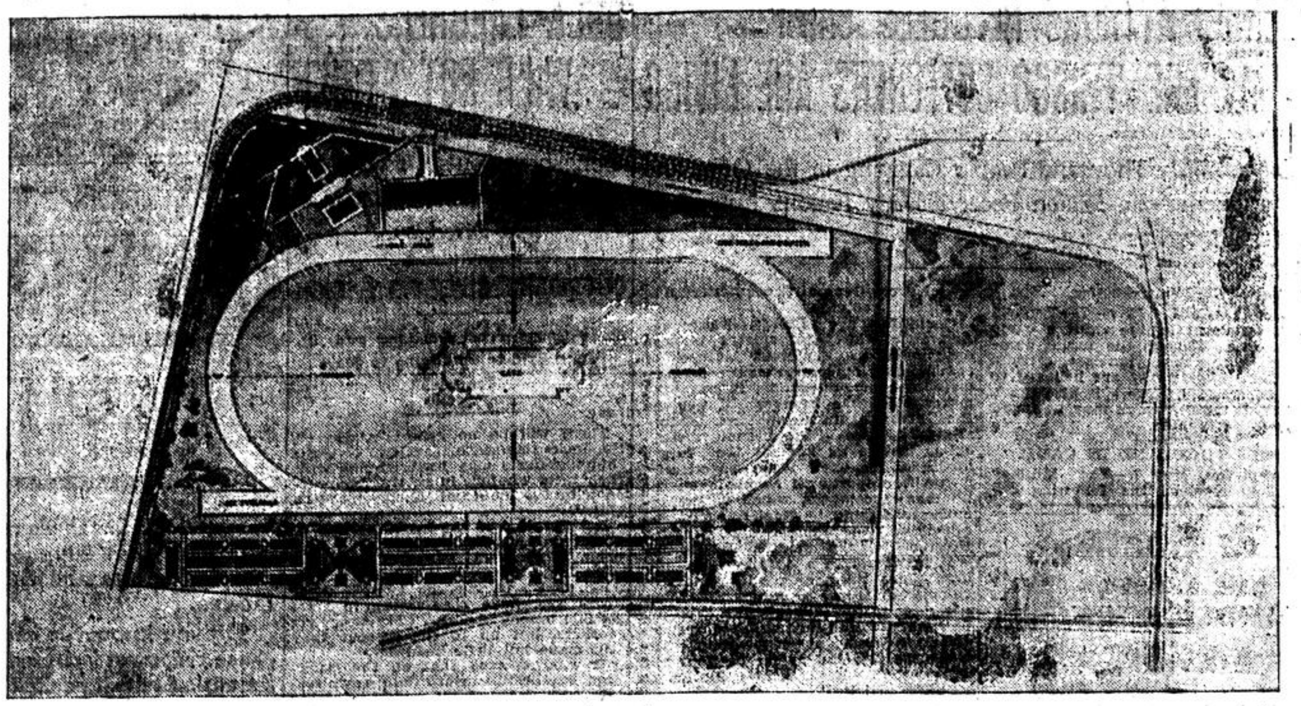
Special Notice.

About the Big New Building.

We have been disappointed about getting into the new Lindsay building. We expected to move about May 1st. Well, we are at the old number yet (2366 St. Catherine street), buying, selling, tuning, repairing pianos and living in the blessed hope of an early moving. We will give the public ample notice. Meanwhile our bargain prices continue so long as we are here. What do you say to a Heintzman & Co. upright, in use for less than three months, at $300, on easy terms, or a very fine Lindsay upright, only used a few times, on easy terms, for $255? Come in and see them. C. W. Lindsay, Limited, 2366 St. Catherine street (near Peel street; old number). 106 3

REVISED RACE TRACK PLAN.



To-day is published the revised plan of the Montreal Jockey Club race track. A preliminary plan was published in the Star in November. This is the revised plan by Mr. G. A. Nagle, and brought by him from New York this morning.

He brings word from Mr. John F. Ryan to the effect that the total of Montreal's contributions amounts at present to seventy thousand dollars and that the success of the undertaking is assured. He expects to have a thousand horses at the inaugural meeting.

The principal change is that, instead of a mile as originally shown in the preliminary plan, the track will be a mile and a quarter.

INDIANS BIG SHOOT ON VICTORIA DAY

To Be Held on the Grounds of the Montreal Gun Club With Many Prizes.

The Canadian Indians, an organization of trap shooters, which came into existence about a year ago, will hold their first annual tournament on the grounds of the Montreal Gun Club, on Victoria Day and the day following. The amount of cash to be distributed in prizes amounts to $1,050, and there will also be a number of trophies. The tournament will be open to all Canadian Indians, and to all amateurs, irrespective of residence, and Canada Trap Shooting Association rules will govern.

How Sutton Was Beaten.

Baltimor, May 7.—George Slosson defeated George Sutton, 400 points to 382, at the 18 inch 2 shots in balk billiards game.

Sutton made a game rally in the sixteenth inning, when he tied and forged into the lead by one, after making a straight run of 128 balls. At this time Slosson needed only 18 points to win, and he made them without any trouble.

Slosson, by making the highest run of the game, 134 in the ninth inning, carried the score in his favor 312 to 96.

COMMENT HERE AND THERE

Speculation is rife in Ottawa regarding the players who will turn out with the Capitals to-night for the first practice. Pringle has not shown up, Ashfield does not want to play, Johnnie powers positively refused to line up, Eastwood hasn't been asked, and "Bones" Allen had to be coaxed. Everything is calm from outside appearances, but much consternation exists under cover regarding the rule which prevents players residing in one place from playing with other clubs. This rule affects several Ottawa men who played up West last season, and also one or two amateurs who figured on accepting terms with either Torontos or Tecumsehs. It is a well-known fact that "Bones" Allen had a tempting offer from Torontos prior to the establishment of the residential clause, and the husky home player had all but made up his mind to accept it.

One man, a former C. L. A. star, styles it as a "wholesale stall" on the part of the Eastern clubs to compel players residing in Ottawa to come out or quit the game.

On the whole, all the pros in Ottawa are howling at their sad position.

There is such a lot of talk about the egg training diet, which is said to have helped the victors of the Oxford-Cambridge boat race on the Thames, and Sherring at Athens, that one would almost imagine it is a new thing. It is nothing of the kind, however. Soft boiled eggs have, from time immemorial, been considered a splendid adjunct to the training table.

A New York paper has a suggestion which is very applicable in this part of the country. This paper says:

Although the athletes of Yale and Harvard are far from being such deadly enemies as it is sometimes thought they are, still they are inclined to be diffident to each other.

It has long been thought that they should be more sociable on occasions that bring them together, such as a football game or other athletic contests, and an attempt is now being made by the Harvard Crimson with this end in view.

Says the Crimson: "A college team comes to Cambridge. It drives from the hotel to Soldier's Field in an omnibus. And when the game is over it climbs into its omnibus and drives back to its hotel. The team has received its guarantee, and has played its scheduled game, much as the Boston Americans might play the New York Americans. It is pretty much a business engagement only.

"Why, then, should not the members of teams which are to come to Cambridge this spring sit down to dinner with the members of Harvard teams in the training table room at the Union after the game? Such entertainment as this would be easy to provide. Moreover, it would afford us an opportunity to break away from some of the set and unnatural conditions with which our athletic contests have been surrounded and to carry out the spirit of the new eligibility rules in making our athletics more a matter of pleasure and less a business proposition."

Something will have to be done in that line here also. Last year, in many cases, the teams even forget to cheer each other as they went off the field.

ALEXANDRA'S BAN ON HORSE RACING

Her Majesty Hates Gambling and Especially So Since a Peer Became Involved in the Scandal.

London, May 7.—The Queen has intimated her opposition to horse racing and race tracks. The fashionable racecourses of Ascot and Goodwood will not be graced this year, and possibly not in the future, by the presence of Her Majesty.

The death of her father is the ostensible reason for her intended absence from these fashionable meetings, but behind this is the Queen's intense growing dislike for horse racing.

The Queen was greatly distressed by certain incidents associated with the "sport of kings" last year, and particularly by the recent scandal, in which Lord Gerrard was involved.

This peer's mother is a very close friend of the Queen, and the dangerous influence of the race track on young men has led Her Majesty to be seen little at the tracks.

She detests gambling in all forms.

METROPOLITAN SEMI-FINALS.

Most of the Links are in Bad Condition.

The Metropolitan Golf Club are already down to the semi-finals for their club trophy.

The links are in fairly good shape, which accounts for their being so far ahead of the others. Being on the slope of the mountain they are drained in a natural way.

This cannot be said of the other links, which are somewhat backward, the frost preventing the moisture on top from getting away.

The Montreal links will not be ready for a couple of weeks yet, as they are very wet. It is true there has been some play, but only temporary holes have been used in order that the greens may be put in the best possible condition.

Saturday, on the Metropolitan links, the qualifying round for the Allan Cup was played, and resulted in the following draw, which is to be played off during the coming week:—

S. H. Martel vs. W. W. Mowat.
A. Urquhart vs. J. B. Cassils.
J. Paterson vs. G Fenwick.
A. Oughtred vs. J. H. Wilson.
J. W. Gardner vs. J. Traquair.
Dr. H. M. Paton vs. Jno. Adair.
L. Martel vs. Col. Cooke.
Prof. Fraser vs. Dr. Novinger.

The following is the draw for the semi-finals of the Metropolitan Club trophy:—

S. H. Martel vs. Prof. Fraser.
Col. Cooke vs. Dr. H. M. Paton.

RACE IN AUTOS TO WIN A GOLD MINE

Bullfrog, Nev., May 7.—A thrilling automobile race, in which the stake was $20,000 in gold, took place between Goldfield and this city, and several New York mining men won. The contestants were the New Yorkers against Solomon Camp, the latter being superintendent of the January Mine at Goldfield.

The option upon the Original Gold Bar Extension Mines at Bullfrog had expired, and both parties were racing to close a deal for its purchase.

Camp and the New Yorkers left at the same time in fifty-horse-power automobiles. They ran close together at the highest speed until they were within a few miles of Bullfrog, when Camp's chauffeur ran into a stretch of deep sand while trying to make a short cut, and was compelled to walk the remainder of the way. When he got there the New Yorkers had paid $30,000 for the mine. Camp at once offered them $50,000 for their bargain, and they accepted the offer on the spot. They left the camp $20,000 richer.

Dyment Horse Court Martial Will Go to Post Second Choice for King's Plate.

Toronto, May 7.—The curtain will go up on the racing season in Canada two weeks from to-day, when the annual spring meeting of the Ontario Jockey Club will commence at Woodbine. This meeting promises to surpass all previous ones, not only in the number of horses entered, but in the quality of racing. The purses have all been increased in value, and this has proven an inducement to owners of larger stables to come here. Then, again, there is no racing in the West and all of the western owners have made up their minds to get a piece of the Canadian money, if possible. Consequently a large number of horses that have been racing on southern tracks this winter will be here. The best of them have been entered in stakes, and Minnie Adams, who has two Derbies to her credit, will be numbered in the lot.

A BACKWARD SEASON.

It is hardly likely that the Canadian horses will have things as much their own way as they did last spring, as the season has proven to be backward.

The greatest interest is evinced in the King's Plate race. This is for province bred horses, and many of the larger Canadian owners would rather win this event than any of the others on the programme. It is the only event on which there is any future betting, and each season sees some of the candidates for the Guineas heavily backed. This spring play has been well divided on three stables, namely, Seagram, Dyment and the Kirkfield entry, Wicklight.

The first-named opened favorite, and, although odds have been extended, still holds that position. The Dyment horse, Court Martial, is second choice, and will carry a lot of money, while Wicklight has been backed down from 12 to 1, to 6 to 1, and the book is now full on him.

CONCEIVE THE VARIETY.

How the New Semi-Ready Tailorey Insures a Correct Fit.

Seven distinct physical types of manhood, showing thirty-five variations of the types, and in many cases fifteen sizes of each variation, gives the reader a faint idea of the basic measurements available in a Semi-Ready store. The ordinary clothier makes his clothes from one distinct type. In a Semi-Ready store the clerk can show you a chart where over 400 sizes and types of figure are represented, and as these are shown in many cloth patterns, a better conception of the certainty of a satisfactory fit in the Semi-Ready store may be had.

In this city and district the exclusive franchise for the sale of Semi-Ready is held at 231 St. James street and corner St. Catherine and St. Andre streets, Montreal.

ROYALS BROKE EVEN THUS FAR AT NEWARK

They Made a Runaway Race of it During the Last Game—Result Never was in Doubt.

Special to The Montreal Star.

Newark, N.J., May 7.—Jimmy Bannon and his Royal aggregation got sweet revenge on the Newarks yesterday for the defeat of Saturday. From flagfall to finish it was Montreal all the way, and at no stage was there a doubt as to what the result would be. As there were six thousand people present, despite the cloudy and threatening condition of the weather, Manager Burnham wanted to make sure of a victory and sent McCoy, who he got from the Washington's, to the slab. But the ex-big leaguer did not terrorize the Royals for Captain Bannon, the first man up, drove the ball far over the left field fence for a homer. The wallop broke McCoy's heart, and when he walked to the bench at the end of the first half five runs had been placed to the credit of Bannon's men. It is needless to add that he did not come back. Bronkie, who was substituted was just as easy and in addition was very wild. Goode, who opened for the Royals, got himself in trouble in the second inning through his wildness, and after one run had been scored and the bases were still filled, Whalen relieved him. The latter pitched in great style after he got out of the box in which Goode had placed him. But to say he got brilliant support would be putting it mild, for the field work of his team mates was of the sensational order.

Both of the Bannons distinguished themselves by phenominal running catches, while Hartman pulled down a couple of liners of the rifle short order and made double plays on each of them. The field work of the locals was anything but brilliant. The slab work seemed to demoralize them. But to the first inning, where the game was won. After "Foxey" had made his homer, Wagner walked and took second, when Gatins muffed McCoy's throw of Conner's grounder, both runners being safe. Huelsman walked, filling the bases. Massey then placed a corker to left centre, scoring Wagner and Connor and putting Huelsman on third. After Latimer and J. Bannon had fanned big Bill stole second and Hartman walked, filling the bases again. Goode singled, scoring Huelsman and Wagner, but "Foxey's" grounder to McCoy forced Hartman at third and ended the circus. Singles by Hartman, J. Bannon and Wagner, with Bronkie's wildness, gave the Royals their next three. Massey's pass, Latimer's sacrifice and Hartman's single gave them the ninth run, and J. Bannon's pass, a steal and Huelsman's double gave them the final. Goode's wildness and Brown's single were responsible for Newark's three.

HOW THEY FELL SATURDAY.

Newark, N.J., May 7.—Loose playing by the Montrealers when there were men on the bases was responsible in a measure for the Newark's victory here. With perfect play the game would have been a tie, if the Royals would not have won. In addition, Keefe was wild at times, and one of the runs made by the locals was forced over the plate when he hit Engle in the head with a pitched ball, Foster having got one of the same kind earlier in the game. Pardee was also wild at times, and was hit freely, but received magnificent support. It is likely that the Royals would have gotten at least one more run, but for a bad decision by Moran in calling out Huelsman at second, there by giving the locals a double play and robbing the Royals of an excellent chance to score. This same player early in the game had distinguished himself by driving the ball over the left field when there were two men on bases, the hit giving the visitors their three runs. Before the game there was considerable thunder. The skies were black, and this prevented many from making the trip to the park. Three thousand loyal fans braved the elements however, and had the pleasure of seeing their idols maintain their lead in the race. When Umpire Moran called play, it began to shower, and after the Royals had been retired in their half of the first inning the players were obliged to seek shelter. But it was only for a minute. Several times afterwards, for a period of fifteen minutes there were slight showers, but not sufficient to interrupt the game. In the third inning the sun broke through the clouds, and after that the day was an ideal one for ball playing, and the ground was still in good condition. There was nothing doing in the first inning, although Jimmy Bannon was passed and got second on Wagner's out, but was nipped stealing third. In the second the Sailors broke the ice. With one out, Gatins singled and Brown followed with a liner over Captain Bannon's head, which bounded over the low fence into the centre-field bleachers, giving Brown a homer and sending Gatins across the plate in advance of him. In the third, "Foxy" doubled, but the hit went to waste, as Keefe had fanned and Wagner and Jim Connor did likewise. Two more were tallied, by the Newarks in their half. With one out Mallay walked, and came all the way home on Keefe's wide throw to second after fielding Engle's bunt. Engle reached second on the throw and took third on Cockman's out. Foster was hit in the head and walked when he stole second. Engle stole home as Connor's return throw was high. Jones singled, Wagner's wild throw to first of McCauley's grounder passed to Pardee and Mallay and Keefe's wildness in hitting Engle gave the Newark's their last two. In the sixth Wagner walked, was singled to third by Jim Connor, and both came home with Heulsman on the batter's drive over the fence.

Kramer Wins Bicycle Race.

London, May 7.—Frank Kramer, of Vailsburg, N.J., the American champion bicyclist, won the international professional mile bicycle race at the Crystal Palace here, defeating Thorwald Ellegaard, the Danish rider, and J. S. Benyon, the British ex-amateur champion, who finished in the order named. Time, 2 minutes, 7 2-5 seconds.

GOVERNMENT GIFT TO WILL SHERRING

Five Hundred Dollars From Ontario—Grand Reception Arranged for by Hamilton.

Toronto, May 7.—The supplementary estimates of the Provincial Treasurer will include a vote of $500 to Sherring, the Marathon hero.

Hamilton, May 7.—Willie Sherring, the hero of the Marathon race, will get the greatest reception ever accorded a victor. The public meeting at the Board of Trade rooms was largely attended by Hamilton's most influential citizens, and many were turned away on account of not being able to procure even standing room. Old men and young of all classes were present, and there was never a public meeting held in this city where so much enthusiasm was shown, and so much sound business done in so short a time. Opinions varied as to the nature of the reception, but all were unanimous in the opinion that too much could not be done for the little hero who had so gallantly represented this city in an event the first winner of which was proclaimed a marvel by the ancient Greeks.

Mayor Biggar presided, and T. M. Wright, who has been so instrumental in the manner of having Hamilton represented in the historic event, was appointed secretary. A committee of fifteen citizens was appointed to act in conjunction with a committee from the City Council, which will be selected at a special meeting to-day, was appointed to arrange for the reception and testimonial. The committee will have full charge and will likely add to its number, and will appoint subcommittees. The reception will be of a civic nature, and will be so arranged that every man, woman and child in Hamilton will have an opportunity of taking part. Both the city military bands have offered their services, as has the Forty-Fourth Regiment band of Grimsby.

TORONTO WANTS TO HELP.

Toronto is anxious to join in the welcome. The St. Mary's Club of that city has arranged to have a special train to bring the club's members and friends up, and several of the Queen City's most prominent citizens have signified their intention of being on deck. But the Toronto people not only want to help welcome Sherring here, but they want to have a provincial reception, which they propose to be held in Toronto. They suggest that Sherring come home by way of Montreal, and that he be given a reception in each city on his way up. But the suggestion does not meet with approval here.

Hamilton sent Sherring, and Hamilton should be first to receive him. Other Canadian cities are showing their loyalty in wanting to have a peek at him, but it is only natural that the city in which he was born and raised should want to welcome him at first.

A heap of suggestions were offered but one decision was arrived at. It was to make the reception the greatest in the city's history, but with as little expense as possible, so as to donate every cent possible to the testimonial. The consensus of opinion was that money would do more than words and fireworks towards showing appreciation of Sherring's deed.

Gould Won Again.

London, May 7.—Jay Gould, of Lakewood, N.J., defeated H. J. Hill, on Saturday, in the final round of the amateur court tennis championship of Great Britain at the Queen's Club, by a score of 3-0.

Gould's play was rather feeble at the start, but he soon found his true form and ran away with the game. His opponent was completely tired out. The sets were, 6—3, 6—1 and 6—1.

Gould will next play V. Pennel, last year's runner-up, and the winner will meet Eustache Miles, holder of the championship.

Jersey Football Club.

The above-named club will be pleased to make arrangements for a friendly game on May 24th (away) or at any other time, with any junior or intermediate team. Address communications to G. E. LeRiche, secretary of the Jersey Channel Islands' Society, 2078 St. Catherine street.

ROYAL SCOTS GO IN FOR ATHLETICS TOO

Will Form a Military Athletic Organization Which It is Hoped Will Spread.

There will shortly be a new Athletic Association in the field.

This will be the Royal Scots Athletic Association.

A well-known officer of the regiment made a statement to that effect on Saturday.

"When our new armory is completed," he said, "we will have lots of room for athletic recreation space, and it is thought that regular athletic exercise will not only improve the men but will add great interest to the work of soldiering.

AS IN THE UNITED STATES.

"The regiment has already gone largely in for Association Football, and there is no reason why it should not have a shy at other branches of sport.

In New York and other large cities in the United States, Athletics play a great part in the wellfare of the volunteer regiments, and most interesting inter-regimental competitions are held every winter and summer. We will make the experiment anyhow, and I think it will be a success, and will probably be taken up by other volunteer bodies.

"I understand that the officers in charge of the district greatly favor the idea."

Frank Kramer Won.

London, May 7.—On Saturday, at the Crystal Palace, Frank Kramer, of Vailsburg, N.J., the American champion bicyclist, won the international professional bicycle race, defeating Thorwald Ellegaard, the Danish rider, and J. S. Benyon, the British ex-champion, who finished in the order named. Time, 2 minutes, 7 2-5 seconds.

In the half mile race Kramer was first, Ellegaard was second and Benyon third. Time, 1 minute 1 second.

The quarter mile bicycle race was won by Kramer, Ellegaard was second, and Richard Heler, the Austrian champion, was third. Time, 34 2-5 seconds.

POLICE STOPPED A SUNDAY BALL GAME

It Was to Be Played at Jersey City But the Bluecoats Interfered Yesterday.

Jersey City, N. J., May 7.—Yesterday the police stopped a regular championship Eastern League baseball game between the Buffalo and Jersey City teams, and four arrests were made on the technical charge of violation of the Sunday law.

The men arrested were Pitcher McCann and Catcher Vandergrift of the local team; Umpire Carrol and a ticket seller. All four were admitted to bail, and to-morrow will appear in court.

Only a few tickets had been sold when it became known that the police would interfere in order to make a test case as to the Sunday games. Manager Murray, of the Jersey City Club, then stopped the sale of tickets and threw the gates wide open. The game was then started, but only one inning was played. The management insists that there was no violation of the law and wished to have the disputed point settled as soon as possible.

FOOTBALL PROFESSIONAL.

The Montreal Rugby Football Club is to have another professional coach next autumn.

He may be a professional from the United States.

A number of the members are still in favor of again trying a Canadian, but an almost equally large number prefer to try a man from the other side of the line.

A prominent official, when asked about the matter, said:—

AMERICAN PROFESSIONAL.

"It is difficult to find a good Canadian coach. At the same time our rules will be changed sufficiently to obtain great advantage from a United States professional."

"At any rate we decided at a meeting last night that no money will be spent to get as good a man as possible for the coming season."

BELMONT ENDS HIS WAR ON POOL ROOMS

Proprietors Open Wide and Get Full Information From Jamaica Races.

New York, May 7.—The pool rooms are wide open again. August Belmont's war on them has failed utterly. Three hundred pool rooms in this city reopened for "business" yesterday. Every one of the rooms which resumed yesterday received accurate data on all six races at Jamaica and, while it was a little late in arriving, it came in quite smoothly.

The most farcical part of it all was that the intelligence was sent to the New York rooms practically under the very eyes of Pinkerton men. No extraordinary plan was used to get the jockeys' scratches, odds, etc., to the poolrooms. A corps of runners, one automobile and a single telephone were all that were required to thwart August Belmont's effort to keep the poolrooms closed.

The pool rooms' runners worked in the simplest fashion and were as easy to identify as a house afire on a dark night. They all entered the track enclosure before the first race. As soon as the jockey slips, which also show the scratches, were handed around to the bookmakers, one of the bits of tissue paper, through collusion, fell into the hands of one of the runners. An automobile carried the information at top speed to a hotel less than half a mile away.

The only thing the pool rooms did not get was a full description of the running of the races. This, however, is not considered a necessity. Of course, the patrons like to hear one, so the rooms yesterday "faked" that part of the description which they did not get.

Immediately after the fifth race a reporter, carrying a programme which bore the jockeys, scratches and preliminary odds for the sixth event, left the race course by the main exit. He passed at least six Pinkerton men to whom he was unknown. He held the programme in plain sight of the detectives and in such a way that the pages with the sixth race data were plainly visible. No attempt was made to intercept him. He then walked hastily to the hotel whose telephone the pool room runners were using, but was not followed.

This showed the ease with which information was carried out of the Jamaica race track yesterday. Everything pointed to a relaxation of Belmont's pool room war.

OUR OWN WRESTLERS WON IN TORONTO

But in the Boxing Bouts Toronto Was Away Ahead of Any Place.

Toronto, Ont., May 7.—The finals in the Canadian wrestling and boxing championships at Mutual Street Rink here were productive of some excellent sport. This year there have been few entries from out of town in the boxing. One entry from Ottawa, three from Hamilton and two from Montreal, A. Cote and A. Giroux, being received. All succumbed in the first two nights, with the exception of Allan, who easily won in the 115-pound championship for the second time. Cote and Giroux were beaten the first night. Consequently all but one championship will be held in Toronto during the coming year.

In the wrestling bouts, however, the outsiders had it all their own way, the Montrealers making a particularly good showing, winning everything in which they were entered. W. Dunn, one of the Montreal contingent turned out to be a double champion, winning in both the 135 and the 145 pound class. In the first bout he met W. Raine, a Toronto boy, and won with a crotch hold in three minutes. In his second bout, Smith, to whom he conceded at least ten pounds, gave him an argument for six minutes, and was then thrown by a half Nelson; Cote was always the aggressor in his bout with H. MacDonald from the Hendrie Club, Hamilton, and after four minutes of wrestling put the Hamiltonian to the mat in about 4 minutes. In fact, the Montrealers duplicated in the wrestling bouts what Toronto accomplished in the boxing. Taking everything in which they were entered. Summary:

BOXING.

105 Pound Class—Fred. Oswald, Good Luck A. C., beat Frank Judge, Toronto. Decision.

158 Pound Class—Joe Christie, West End A.A., beat Bet F. Laura, Good Luck A.C., Decision.

1st—Either a tender for the whole property in bulk, or,

2nd—Tenders for one or more of the above lots at the option of tenderer.

Terms of payment: 20 per cent. cash on notification of acceptance, the balance to be paid within thirty days. Subject to satisfactory arrangements with the Liquidator, terms of payment may be extended for such a period as he may agree to, with interest at six per cent., upon sufficient security being given.

Tenders will be opened by the Liquidator in the presence of the Inspectors at his office as aforesaid, on the Fifteenth day of May, 1906, at twelve o'clock noon.

The Liquidator does not bind himself to accept the highest or any tender for the totality of the said property with any alternate tender for any of the said lots separated.

Tenders must be marked, "Tender upon assets of The United Lumber Company, in Liquidation." It must be accompanied by an accepted cheque for five per cent. of the amount of the tender, payable to the order of the Liquidator. The said cheques will be returned in the event of the tender not being accepted, and will be forfeited if, upon the notification of the acceptance of any tender, the party or parties thereto shall fail to fulfil their stipulated obligation.

The purchasers of the real estate will have ten days to examine the title thereto at their own expense, and if any substantial objection is raised, which the Liquidator is unwilling or unable to remove, the tenderers' deposits may be returned and the sale shall be void.

All costs and charges of completing titles, deeds, etc., to property purchased shall be borne by the purchaser.

For further particulars, apply to the Liquidator.

MONDAY, MAY 7th, 1906.

THE PRINCE TO-MORROW.

Prince Arthur of Connaught, after having made the tour of Canada, comes to Montreal to-morrow to see the commercial capital of the Dominion and to sail for home. If the Prince has not had a good time in Canada, it has clearly not been due to any lack of activity on the part of those of our people whose duty it is to prepare and read addresses on such occasions. He has been officially assured of his welcome by officialdom from sea to sea; and he may be sure that the plain people who are behind all this are glad to see him visit their Premier Colony of the Empire too.

It is a pity that the Prince could not have stayed longer and got to know more of us as we exist behind the line of address-reading representatives. The free people of such a democracy as we have here are well worth the study of any son of Europe where conditions are so different. Sir Thomas Shaughnessy told the officials of London the other day that they ought to know more by personal contact of the Colonies over which they are supposed to exercise some shadow of control; and it is not only the country which they should know but the people as well.

However, the Prince can hardly have failed to have learned something of us; and we will hope that hereafter Canada will have in him "a friend at court." It seems a pity at times that the precedent set by the appointment of the Princess Louise and her husband, the present Duke of Argyll, to the court at Rideau Hall has not been followed up; and members of the royal family sent to occupy what is essentially a royal position. In that way, they would become acquainted with the Greater Britains over which one of them must always rule, in a manner which can never be approached by indirect reports through others and the glimpses to be got of us in our official dress by a hasty rush through a dropping fire of addresses.

We should like the Prince to come again and stay longer, when we ought to be willing to "take most of our addresses as read."

NO COAL STRIKE.

The feeling of relief at the fact that we are not to have a coal strike will, as the weather man says, be "general throughout the United States and Canada." President Mitchell seems to have decided not to order battle at this time because of his information regarding the condition of his own forces, in which he shows himself a wise general and one thoroughly in command of his own men. It always takes a stronger leader to hold his men back than to excite them to advance.

The Continent will reap a great advantage form this decision. Especially in Canada would we have had no time to bother with a coal problem when all our energies should be bent to the tremendous task of making the most of our opportunities in the West. But this temporary "scare" should call our attention to the humiliating way in which we in this northern clime are dependent upon the coal lands of a foreign people for our comfort, if not our prosperity. As soon as possible, we should discover some means by which we might write another Declaration of Independence in the matter of fuel.

Whether the American people will endure this condition of affairs very much longer remains to be seen. They are a very busy people; and will endure a great deal rather than take the time and trouble to remedy it. But a few more "scares" ought to work them up to the pitch of electing a Congress with a mandate on this subject, and then seeing to it that the Congress does what it is bid. If it were not for the general distrust of political control of such things, we should probably have seen action before to-day; but the people of this continent—not excluding the people of Canada — have come to look upon Government management as tantamount to mismanagement. But it ought to be possible to get Government control and even Government ownership without political operation by the simple device of putting the working of the business in the hands of an independent commission. The Ontario Government is doing this in the case of its New Ontario railway.

THE CANADIAN PATENT LAW.

Mr. Ingram's suggestion that the existing requirement that an article patented in Canada must be manufactured in the Dominion within a stated time be repealed, is hardly a wise one. Americans confess at times that this little clause has quite as much to do with compelling the establishment of branch manufacturing "plants" in the Dominion as has the National Policy. If it were not for this requirement, a man might get a Canadian patent on an article and then control this market from an American or European factory without spending a cent on labor or for raw material in this country. He would simply tie us up to his monopoly; and we should not get the slightest advantage from it.

It should never be forgotten that a patent right is a special privilege conferred upon its holder for a special purpose. We take this way to reward and encourage inventiveness; and there is no particular reason why we should tax ourselves to reward and encourage inventiveness which confines all its operations to another country, and which is already sufficiently rewarded by the patent rights obtained in that country. An American inventor, for instance, obtains a patent in the United States. That is a sufficient reward for him on the ground of his invention alone. We in Canada can well afford to "sit tight" and encourage some of our own people to manufacture his invention with the help of Canadian labor and Canadian capital and Canadian raw material for the Canadian people. If he wants to get the advantage of our market for his invention, he must patent it here and then arrange for its manufacture here. To permit him to pick up our market as an extra after he has corralled the American market, without requiring him to do anything for this special right to tax our people, would be exceedingly stupid.

Our own inventors we will protect to the uttermost; for they labor to enrich our own country. But a patent right is a tax upon everybody who uses the patented article for the benefit of the patentee; and we are not giving taxing powers over our people to foreigners for the fun of the thing. If by so doing we can induce them to establish a new industry in the Dominion, we will generally have made a good bargain. At all events, it is a good general policy. But to let a man in Germany tax our people for a term of years while he is not required to spend a cent or hire a man in this country, would be a very bad general policy.

THE TRAILING DRESS SKIRT.

The Germans, who are nothing if not scientific, thorough and logical, have undertaken to deal with the trailing dress skirt. The Town Council of Nordhausen, we are told, has forbidden ladies to allow the trains of their dresses to drag in the streets. The more timid masculine governors of other communities while feeling the same, have never gone farther than advice or gentle ridicule; but Germany is the land of police regulation, and what they do not like, they do not hesitate to prohibit.

Anyone who has walked behind a lady with a trailing skirt on a dusty sidewalk, has noticed that it is not only her own health and that of her family which she is endangering. Nothing stirs up the dust and loads the air with it like a dress skirt, except an automobile. The skirt does not collect all the dirt and germs as does a carpet sweeper; it rather flings the most of the lighter particles into the air to settle on the nearest objects as does the broom.

Just why the dainty sex is determined to sweep up the filth of the streets with her skirts and then carry a large portion of the collection home with her to distribute between the carpets of the living rooms and the recesses of her wardrobe, must ever remain a mystery to the mere man. He gets his boots into the dirt but he takes pains to clean them as often as possible. Moreover, when he fails to leave as much of this refuse of the street on the door-mat as possible, he anticipates a lecture from the household guardian just as soon as she has bustled about the house with her dusty skirt and provided microbes for the children's breathing.

Legislation on the subject would never be tolerated in this free country. We can forbid smoking in certain places; we can attempt to cut off the supply of cigarettes; we can prohibit the scattering of papers on the streets. But to interfere with a lady's right to trundle a microbe-museum at the bottom of her walking skirt would be too much for the Constitution. Only the efforts of men to defile the air and litter up the streets, can be attacked in this community where women are denied the ballot.

THE LATE T. D. BUZZELL.

Former Well Known Liveryman Has Passed Away.

The funeral of the late T. D. Buzzell, of Montreal, took place this morning at 11.30 o'clock in Abbotsford, Quebec. The remains left Montreal by a Canadian Pacific Railway train at 9 o'clock. For some years, with a brother, the deceased conducted a general store in Cowansville. Later he established a livery business in Montreal, from which he retired five years ago. Mr. Buzzell was a native of Abbotsford and was born in 1847. A widow and one daughter, Mrs. A. J. Jeffries, of Albany, N.Y., survive.

New Justice of the Peace.

Several new justices of the peace have been appointed for the district of Montreal. Among them are the following: Messrs. Joseph C. Wilson, 1086 Ontario street; L. J. D. Papineau, general secretary of the Alliance Nationale; Casimer Allard, Verdun, and George Herbert Simpson, of Westmount. Mr. W. George Mulligan is made a justice for the district of Ottawa, while in the district of St. Francis the new appointments are Messrs. Samuel Dumoulin and Horace E. Baldwin, of Barford, Stanstead county.

FOUR WOMEN SENTENCED.

Recorder Weir Deals Severely With Female Drunkards.

Six months' imprisonment for women drunkards was the feature of Saturday's sitting of the Recorder's Court. The first dealt with was Mary Williams. She spun a yarn about having been sick and requiring to take a glass of whiskey.

"I had only one glass," she said, "and the policeman who arrested me took my purse and stole all the money in it, and gave me back the empty purse."

"You are a familiar face in this court," said Mr. Recorder Weir, who took the tale with several grains of salt, "and on each occasion you managed to secure a light sentence, but this time you will go to gaol for six months as a habitual drunkard."

Kate Dickery, who has left prison only last Monday, was next on the list. When asked what was her last sentence she said: "Six months. "You'll have to go back another six months," was the Recorder's reply.

Alice Balliberry and Teresa Drake also received six-month sentences.

"It is absolutely no use," said the Recorder when the cases had been disposed of, "to be lenient with these women drunkards. We cannot have the public scandalized by having drunken women reeling about the streets and blaspheming."

THIS DATE 30 YEARS AGO.

Lieut.-Col. A. A. Stevenson.

May 7, 1876.

The Queen's Birthday this year, to all appearances, promises to be held with great eclat, and the arrangements proposed will afford novelty and amusement for young and old. The Mountain Park will be opened officially by His Worship the Mayor and aldermen, and on the summit, where the proceedings will take place, a flag staff will be erected, and the red ensign of the Dominion will be unfurled to the breeze amidst the roar of artillery from Lieut.-Col. A. A. Stevenson's Field Battery, after which the Hon. Peter Mitchell will deliver an inaugural address. The Park Commissioners cordially invite all citizens and their friends to be present.

THE official opening of Mount Royal Park was very successful, as far as the means at the disposal of the Park Commissioners—the late Ald. H. Nelson and F. David—would permit. The "hard times" cut out the big picnic, fireworks, etc., which were contemplated from the programme, as Ald. Nelson, the city's finance minister at the time, kept a close grip on the corporation purse. The main avenue from Fletcher's Field was just finished in time for the opening, and the long procession of carriages and pedestrians by thousands had no difficulty in reaching the summit. Col. Stevenson and his gallant gunners fired a royal salute, after which hats went off and three lusty cheers were given for Queen Victoria by the assemblage, led by Mayor Hingston, Colonel Stevenson and aldermen. The address by the late Hon. Peter Mitchell was an excellent effort, worthy the occasion.

Sub-Chief Naigle yesterday began a course of instruction to the men lately added to the police force as to their duties and the manner of properly performing them. Sub-Chief Paradis assisted at the instructional class. The course will take a week before the new men will be placed on their beats.

BOTH the sub-chiefs have since passed away. The former served as a non-commissioned officer in the French army for many years, and saw active service in several campaigns in Algiers. He was a thorough disciplinarian, and performed his duties at all times to the satisfaction of his superiors. Mr. Paradis, on the demise of Mr. F. Penton, was promoted chief of police, which office he filled for years, until he was forced to retire in the nineties from ill-health. The late Lieut.-Col. G. Hughes, who died a few months ago, was his successor.

The Late Hon. Edward Murphy.

The annual meeting of the Montreal branch of the Home Rule League was held last evening in St. Patrick's Hall, the president, Mr. Edward Murphy, in the chair. There was a large attendance of influential Irish citizens. The chairman made an interesting address as to the progress of the past year in Ireland under the able leadership of Mr. J. Butt, M. P., and the Home Rule members in the Imperial Parliament. Mr. J. J. Curran, Q.C., vice-president, also made a strong appeal to all Irishmen to support the Home Rule cause. The treasurer's reports, showing a sound financial position of the league, were adopted.

THE late Hon. Senator Murphy was a most enthusiastic worker in the cause of Home Rule, but he was as well as Mr. (now Hon. Justice) J. J. Curran a strong advocate for obtaining the measure by constitutional means. With the physical force party he had no sympathy. Mr. Murphy was a most successful hardware merchant, and possessed of high literary attainments. He was called to the Senate in June, 1889, and died in the nineties. The late Mr. Butt was succeeded in the leadership of the Home Rule party by the late Mr. Charles Parnell.

Our London despatches to-day state that Miss Emma Abbott, an American artiste, made her debut in opera at Covent Garden last night, and achieved a decided success. Her singing and acting were heartily applauded throughout the performance.

THE late Miss Abbott made her first appearance in Montreal at the Academy of Music in the early eighties, her manager being Mr. Eugene Wetherell, whom she subsequently married. She was a good operatic singer, but certainly not in the same rank with Patti, Nielson, Gerster, Jucke, Cary and several other stellars. As an actress she could hold her own with the best, being possessed of a graceful, eloquent pose and a vivacious manner. She was always well received in this city, and had the reputation among the profession of being good-hearted and most charitable to those in distress. She well deserved to be called "charming little Emma." She died some years ago a wealthy woman.

The Late Judge Henry.

Judge Henry, of the Supreme Court, is confined to his house by illness, and will for some weeks be unable to attend to his judicial duties.

THE late Hon. William A. Henry was called to the Bar of Nova Scotia in 1840 and created a Queen's counsel in 1849. He was appointed a member of the Executive Council the same year, and held at various times the offices of Solicitor - General, Provincial Secretary and Attorney - General. He was a delegate to the Charlottetown and Quebec conferences regarding Confederation, and was at the final conference in London in 1866 to complete the terms of union of the provinces of British North America. He ran for the House of Commons in 1867 and was defeated, and again in 1869 met a similar fate. He was appointed to the Supreme Court on its organization in 1875.

(A Chinaman who has visited Canada and the States says that we have a lot to learn.)

Now let us hope the Chinamen

  Should know we live this way.
If all that happened came to light
  'Tis not too much to fear
That they, in their presumption, might
  Send missionaries here.

MARINE NEWS.

VIRGINIAN REACHES PORT.

The Allan liner Virginian, the first of the turbiners to reach port this season arrived at 1.30 o'clock on Saturday afternoon.

The Virginian's voyage was by no means devoid of incident. In the first place a second class passenger named Gough jumped overboard on April 28, two days out from Moville. Gough, according to the officers and passengers on board had evidently been on a protracted spree, which culminated that morning by his jumping into the Atlantic. The cry of "man overboard" brought the big vessel to a standstill, but as she was ploughing ahead at full speed at the time, the Virginian was a full two miles from the unfortunate man. A life buoy was thrown him as soon as possible and a boat was lowered in charge of fourth officer McNeisch. A careful search failed to reveal any sign of the man who undoubtedly went down soon after touching the water. There was a heavy sea running at the time and it was only with the greatest difficulty that the boat was lowered and brought on board again. Off Cape Race the Virginian was delayed four hours by fog, but was able, owing to wireless signals, to avoid the floating ice, of which there is still a great deal in the Gulf.

Considering the heavy weather and the delays the Virginian made a very good passage indeed, the days being from 375 to 426 knots. The present trip of the Virginian was seven hours quicker than that of her maiden voyage to Montreal last May.

The Virginian brought over all told some 1,900 passengers, of which 131 were saloon and 431 second cabin.

EMPRESS STARTS FOR CANADA

Liverpool, May 7.—The Canadian Pacific Railway Company Empress of Britain, Capt. Stewart, R.N.R., sailed out from this port on her maiden voyage on Saturday evening at 7.20 o'clock. The event was a notable one, and the many Canadians and friends of Canada in the Mother Country made it a red letter day.

The Empress sailed gracefully down stream, carrying a complement of passengers—1475—besides a cargo of 2500 tons of general merchandise, and a consignment of £205,000 sterling (over one million dollars) in specie.

There were 158 first cabin, 480 second cabin, and 837 third class passengers.

Amongst the prominent people on board are Sir Thos. Shaughnessy, president of the C.P.R.; Lady Shaughnessy and Miss Shaughnessy, R. B. Angus and daughter, Mrs. Wanklyn, Col. E. A. Whitehead, E. S. Clouston general manager of the Bank of Montreal; Hon. L. J. Forget and family, and Mr. and Mrs. S. Carsley, of Montreal; Senator L. Melvin-Jones, of Toronto; Hon. Edouard B. Garneau, Hon. Adelard Turgeon, and Mrs. Dobell and family, of Quebec; Mr. and Mrs. Gracie, of Govan, Scotland; Dr. and Mrs. Edgar, Mr. and Mrs. Thomas McDougall, Mr. and Mrs. A. C. Allan, Major and Mrs. Audain, Sir Robt. Filmer, Bart.; Thos. E. Kenny, Halifax, and W. L. Griffith of the Canadian Government Offices, London.

It is expected that, under ordinary circumstances, Quebec will be reached next Friday evening or early on Saturday morning.

Business at St. John.

St. John, N.B., May 7.—The winter port business for 1905-6 at St. John shows the sailings of ocean-bound steamers from here this season numbered 113, as compared with 102 last season. The exports total in value something more than 23 million.

The value of last season's shipments was about thirteen and three-quarter millions. United States goods shipped through here show a big increase. Last season they were valued at nearly six million, and in the season just closed reached nearly nine million of dollars. There were thirteen thousand five hundred American cattle shipped here.

A Bishop's Sham Antiquities.

The Hungarian minister for worship, having been informed of the pecuniary embarrassments of Monsignore Bubics, the bishop of Kassa, recently ordered an enquiry to be made into the financial management of the diocese. The accountants engaged on the investigation of the books stated that the dignitary had, in spite of his princely income, fallen into the clutches of unscrupulous usurers. In order to free the bishop from his debts, it was decided to sell his antiquities, and experts were summoned to value the apparently precious collections of antique china and old lace. The result of the experts' work was stupefying, for they declared that the "antiquities," on which the prelate had spent a sum exceeding 1,000,000 kronen (about $200,000), were worthless shams. The police, to whom the matter was referred, have succeeded in detecting a gang of swindlers, who, led by the bishop's own secretary, had taken advantage of the childish confidence of the unfortunate octogenarian.

New Road for Royalty.

England's future Queen, while in Egypt, was the recipient of a compliment for which there is only one precedent, namely, that paid to Empress Eugenie by old Khedive Ismail, six-and-thirty years ago. On that occasion—it was at the time of the inauguration of the Suez canal—Ismail caused a fine carriage road to be constructed from Cairo all the way out to the pyramids and the sphinx of Gizer, so that the Empress might be able to drive to the foot of the pyramids, instead of being compelled to make the trip on horse—or donkey-back. The road, near eleven miles long, exists to this day, has been used since 1870 by many thousands of American tourists, and is now equipped with a trolley line, which enables the run to be made in about an hour, instead of taking the greater part of the day. In honor of the visit of the Princess of Wales, a carriage road has recently been constructed from Bedrasheen to the pyramids and ruins of Sakkara, and the Prince and Princess were thus able to drive the whole way in Khedival carriages, instead of being compelled to make the journey on donkeys or camels. It is hardly necessary to add that the construction of the road vastly impressed the natives with the importance and rank of the Princess. Fortunately, the roadway will remain, and will prove as great a boon to generations of American visitors to Egypt as the road built for Empress Eugenie.

Japanese Punishment for Cowardice.

Although cowardice is rare among the officers of the Japanese army, nearly all of whom belong to the Samurai, or formerly petty noble class, there are some instances, all the more noteworthy by reason of their rarity. Thus, in the great prison of Omuta, the most despised of all convicts are a couple of former officers, a major and a colonel, undergoing life imprisonment there for cowardice under fire. They are confined in separate cages, exposed not only to wind and weather, but also to the contempt of all visitors, and as an illustration of the fate reserved for cowards. After their conviction, they were accorded the opportunity of committing harakari, that is to say, of committing suicide, by disemboweling themselves. But, to the profound regret of their fellow-countrymen, they declined to avail themselves of the privilege. It may be added that none are so severe in the condemnation of cowardice on the part of the Samurai as the common people. Thus, during the recent war between Japan and Russia, whenever the men of a regiment considered that any one of their officers had betrayed signs of fear, or had wavered in bravery, he would be secretly visited on the following night by a deputation of his non-commissioned officers and privates, who would notify the delinquent commander that they were not satisfied with his conduct in action, and that, for the honor of the regiment, he must do justice to himself; that is to say, commit suicide, intimating that if he lacked the courage to kill himself, the members of the delegation would be perfectly ready to assist him in the matter. To this may be attributed the fact that, every now and again, Japanese officers were found in the morning in their tents, stone dead and disembowelled.

Bacteria as Soil Fertilizers.

A German agricultural chemist named Hellriegel discovered at least half a century ago that leguminous plants enrich the soil by supplying nitrogen which they assimilate from the atmosphere by means of their root tubercles. Modern science has taken advantage of this fact and is able to utilize the action of bacteria for the purpose of enriching the ground from which the powerful nitrogen has been removed by too severe cropping. This inoculation makes it possible to work a cure in tired soil and render it again fertile and productive. The bacteria which are to accomplish this end are sent out to the farmers by the Department of Agriculture in the form of a small package like a yeast cake. When received this cake of dried germs is dropped into a barrel of water, in which the germs revive and turn the water a milky white. The seeds of clover, peas, alfalfa and all leguminous plants which are moistened in this liquid are given marvellous strength. The same soil which has produced alfalfa only a few inches high, in spite of the farmer's toil, will produce from seeds which have been soaked in this preparation a crop which reaches a height of several feet. The main reason for once productive lands becoming unproductive is because the nitrogen in the soil has been exhausted. A nitrogen famine has been predicted for the next forty or fifty years, and though there is a bare possibility of such a catastrophe, it is extremely unlikely. Still it has long been known that successive crops of wheat and grain exhaust the soil by taking nitrogen, without which no crop will flourish. The difficulty has been to get the nitrogen back into the soil. For though there is an inexhaustible supply of that element in the air the problem had been how to get it. But when the discovery was made that various leguminous plants were able to put back nitrogen into the ground the difficulty was met and the question answered. The reason of this is . .t the plant absorbs the free nitrogn by means of bacteria tubercles growing on their roots, these growths varying in size from a pinhead to large clusters. However, it is only the seeds of leguminous plants which are benefited by the process.

World Gossip

Development and Labor Conditions.

"Canada is the country of the young man, and also the country for the man with money," said Mr. P. E. Macdonald, formerly of Detroit, and now connected with large business interests in Port Hope, Ont.

"Canada is certainly the country of the present, and for the next twenty years a development will take place here that will probably be unrivalled in the history of the world, or at least it will exceed the most sanguine expectations of those who know and can prophesy for the country.

"We have a factory at Port Hope which was formerly at Detroit, and in removing to Canada we brought over some hundred and fifty people, and I belive that the immigration into Canada will be just as large from the United States as from any other part of the world."

Graft in the Grab.

"It appears to me that the spirit of graft has overshadowed every other feeling of man in this twentieth century of ours, and this, taken in connection with the apathy of the people, gives to our law makers the privilege of doing what they like."

The above opinion was expressed last night by Mr Simon R. Headley, of Windsor, in connection with the indemnity grab of the Canadian members of Parliament.

"I think this grab is an outrage, and the independence shown by The Star in combating it is most commendable. The fact of men going to Parliament and voting themselves a salary the same year leaves the way open for them to do the same thing next year, and keep doing it until they may have anywhere from $5000 to $10,000 per year: the principle in the one case is just the same as in the other.

"This will also result in the bringing of an undesirable class of representatives into the Parliament of the country, as any man going into Parliament for the sake of the salary attached to the position is better at home and would not be an influence for good in the councils of the country."

People Should Have a Say.

Mr Harry Spence, of St John N. B., speaking last night of the indemnity grab, stated that, personally he was opposed to the grab, and especially the manner in which the salary increase was obtained.

"Most decidedly this question should have been submitted to the people, and since it was not, the people of this country have not had a chance to be heard, that is, for the present for I do not think I am far wrong when I say that, though the next elections may be far off, the memory of this grab will remain fresh in the minds of the people, and unless the grab is wiped out, they will speak with no uncertain words when the first opportunity affords."

Real Estate Boom in West.

"Real estate is on the boom not only in Winnipeg, but throughout the district of Edmonton and Calgary,"

So hopefully spoke Mr. A. L. Houdon, of Winnipeg, at the Windsor last night.

"As an indication of the development in the city of Winnipeg, Mr. Houdon stated that five years ago an entire property, with a frontage of thirty feet, was worth about $50, and to-day this same property is being sold for $35 and $40 per foot. In fact, property in Winnipeg is selling in the business district at from $3,000 to $4000 per front foot.

"The district between Edmonton and Calgary is also booming, and the land in that district is being taken up as fast as it can be sold.

"This section of the country is being bought up by American farmers, who sell their farms, and with this money and in many cases a certain amount of stock they settle down immediately and begin working out a future for themselves in their new Canadian homes. This land has been taken up so quickly that for a distance of fifty miles to the east of Wetaskiwin there is not a homestead to be picked up; you have to go quite a way down the Battle River to pick up a property.

"The western part of this district is very heavily timbered and not so good for farm land. But there is another district in north-western Alberta, which is a splendid farming country, consisting of about 500,000 acres. This has been bought up by an English syndicate, who are now selling it out.

"Between Edmonton and Calgary we have the Lacombe branch of the C.P.R. This line runs east as far as Alix, and will eventually be extended north. The Canadian Northern starts from Edmonton and runs through to Fort Saskatchewan, and then takes a south-easterly direction to Winnipeg. The Grand Trunk Pacific, according to prospective surveys, will run between the C.P.R. and Canadian Northern, and will be about fifteen miles distant from each of the other lines. Hill has also men out through the district making surveys, and in a few years, with its network of railways, its great farm lands and timber limits, this will be one of the finest countries in the world."

CANADIAN FAST ROUTE.

Mr. Arthur Piers Believes It Will Hold the First Position.

Mr. Arthur Piers, manager of the C. P. R.'s steamships, arrived in the city yesterday from Great Britain. While in England, Mr. Piers inspected the company's new steamer, the Empress of Britain, and will leave again on that vessel, Saturday week, from Quebec, in order to be present at the trial trips of the sister ship, the Empress of Ireland.

The sailing qualities of the two new vessels, are such, says Mr. Piers, that the Canadian is bound to become the fast route between the Old and New Worlds. The mails cannot but come this way as the British public is incensed over the sending of British mails on German vessels, as was recently done.

PLUMBER WAS ASPHYXIATED.

Was Overcome by Flow of Gas from Pipe He Had Opened.

Joseph Cloutier, plumber, 23 years of age, was asphyxiated Saturday, in the cellar of a house, on City Hall avenue, St. Louis de Mile End.

Cloutier unscrewed the cap off the end of the pipe leading into the house from the street, in order to make a connection with the house, and was overcome by the rush of gas from the main. Cloutier was found lying on the floor of the cellar. His right hand was lying lightly over the opening of the pipe, as if, when he found himself losing consciousness, he had tried to stop the flow of gas. Accidental death was the verdict of the Coroner's jury.

Victim Was Alexander Hamilton.

Alexander Hamilton, 61 years of age, who lived at 42 Emily street, was the man who died in the Notre Dame Hospital on Friday night from the effects of injuries received by jumping or falling from the Notre Dame street bridge into Berri street, a distance of 42 feet. Three weeks ago Hamilton, who had been in the employ of the corporation for some twenty-five years in the McCord street yard, disappeared from his home, 197 St. Hypolite street, and was found a few days later in a cab shanty on Metcalfe street. After hearing the evidence the Coroner disposed of the case without calling a jury.

Conditions of Sale.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank.

Failing payment they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are opened for inspection in the Department of Lands and Forests, in this city, and at the office of the Crown Lands and Timber Agents in the different agencies, in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized to the department.

CORPSE WAS BURNED.

Candles Set Fire to Drapery of the Mortuary Chamber.

The body of Charles Bourdon, who died suddenly on Wednesday, while playing baseball at Longueuil College, where he was a student, was badly burned yesterday by a fire in the home of his father, 201 Versailles street. The blaze is supposed to have been caused by a candle setting fire to the drapery near the body. The damage to the house and furniture will amount to about $1,200.

TEMISKAMING AND NORTHERN ONTARIO RAILWAY COMMISSION.

TENDERS For Mining Lease.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Mining Lease," will be received at the Office of the Commission, 25 Toronto Street, Toronto, up to 12 o'clock noon on Thursday, May 10th, 1906, for a 999 year mining lease of the portion of the right of way of the Temiskaming and Northern Ontario Railway lying north of Cobalt Lake and east of the 99 feet regular right of way, together with license as appurtenant to such lease to prospect and mine on the following two portions of the right of way:

(a) Between mileage 101 and the intersection of the right of way with the southerly shore of an arm of Cobalt Lake, being 1,840 feet, more or less, north of mileage 102.

(b) Between the intersection of the right of way and the northerly shore of Cobalt Lake, being 1,450 feet more or less northerly from mileage 103 to mileage 105.

Forms of tender and full information may be had, and plan showing location may be inspected at the said Toronto office of the Commission. Tenders will not be considered unless made on the forms supplied by the Commission for the purpose and signed with the actual signatures of the parties tendering.

Terms of lease and of agreement governing appurtenant rights to be subject to the approval of the Commission and to provide for the satisfaction of the Commission for inspection, audit and security for payment and to reserve a rental of $500 per annum, plus 10 per cent. of the gross value at the mouth of the mine of ore mined assaying less than $400 per ton; 25 per cent. of the gross value at the mouth of the mine of ore mined assaying $400 per ton, but not exceeding $1,000 per ton, and 50 per cent. of the gross value at the mouth of the mine of ore mined assaying $1,000 per ton and upwards.

An accepted cheque on a chartered bank of Canada, payable to the order of the Chairman and Secretary-Treasurer of the Commission for the amount of cash bonus (which must not be less than $50,000.00), tendered for such lease, must accompany each tender.

The party whose tender is accepted will be required to enter promptly into a formal lease and agreement satisfactory to the Commission, failing which his deposit will be absolutely forfeited to the Commission.

The cheques sent in by unsucessful tenderers will be returned to them.

The Commission does not bind itself to accept the highest or any tender.

H. W. PEARSON,
Secretary-Treasurer.

GOOD SHOWING FOR CANADIAN ROUTE

Steamship Virginian's Mails Here Ahead of Matter Brought by New York Route.

The Canadian route has made a handsome showing in regard to her European mails in comparison with those coming via New York.

The White Star steamship Baltic, which was the mail steamer due in the American seaport late last week, sailed on Wednesday, April 25, taking her mails on board at Queenstown on Thursday, April 26.

The Allan Liner Virginian sailed from Liverpool on Thursday, April 26th, and took her mails on at Moville the following day, the 27th. The Allan turbiner reached Rimouski at 6 a.m. Friday, and at ten o'clock that night the mails were landed in Montreal via the Intercolonial.

The mails via the Baltic did not reach Montreal until Saturday morning, so that the mails via the Virginian contain a day's later news than those of the Baltic and were delivered here some hours earlier than those of the White Star Liner.

ST. HELEN'S ISLAND PARK.

Formal Opening Suggested for St. Jean Baptiste Day.

Members of the St. Jean Baptiste Society waited on Ald. Robillard to-day and suggested to him that, as the Government had turned the whole of St. Helen's Island over to the city, it should have a formal opening. It was asked that this should be held on June 24, St. Jean Baptiste Day.

Ald. Robillard expressed himself as being well pleased with the idea and promised to bring the matter before the attention of the Parks and Ferries Committee. Ald. Robillard explained that on account of lack of funds it was not likely that the city would be able to make many improvements on the island this summer.

The Late Mrs. W. H. Cameron.

The death occurred yesterday, at Arnprior, of Mrs. Robena Cameron, wife of Dr. W. H. Cameron, at the age of 29 years. Mrs. Cameron was the eldest daughter of the Hon. George Bryson, and had only been married two years ago. She leaves her husband and a little five weeks old infant to mourn her loss.

Stole Two Barrels of Beer.

Arthur Chouinard, Henri Chartrand and Ephriam Archambault appeared before Judge Lafontaine to-day, charged with having stolen two barrels of beer from Reinhardt's brewery, on City Hall avenue. They all pleaded guilty and were fined $5 each or 10 days in gaol.

PERFECT WATCH ADJUSTMENT.

Everyone remembers the old-fashioned "Bulls-eye" that our grandfathers called a watch—a curious piece of mechanism, thick, unwieldy; running fast in the morning when freshly wound; gradually running down as the mainspring uncoiled; affected by every change of weather; inaccurate at all times.

What a difference between it and a Birks "Thin Model" Watch.

Think of that marvelous adjustment of parts, which makes it possible to produce this watch no thicker than a lead pencil and even less—which makes it possible for it to run with perfect uniformity whether in a temperature of 30° or 100° Fahrenheit—to secure a uniform rate of running during the entire 24 hours elapsing between successive windings—to secure perfect time in whatever position it may be laid or carried.

Not all watches are made with such care, but all Birks "Thin Models" are.

You cannot buy a better watch, for there are none better made.

A Gentleman's Watch, particularly recommended for its beauty and accuracy, is our open-faced "dress" model, in solid 14-karat gold case, at $30.00. Order No. 200. The fact that you call to see it places you under no obligation to purchase.

BILL WOULD MEAN MANY MILLIONS

Level Crossing Protections on Canadian Pacific Would Cost Over $24,750,000.

Special to The Montreal Star.

Ottawa, May 7.—The special committee on Mr. Lancaster's bill to oblige railways to provide increased protection at level crossings in cities, towns and villages, this morning examined Mr. G. F. Gutelius, chief engineer of the Canadian Pacific.

Between St. John and Vancouver the C. P. R. has 1337 unprotected level crossings in cities, towns and villages; each gate would cost on an average $500, the necessary watchman would cost $840 a year; repairs and supplies, $60; total cost per year, $900. Capitalizing the maintenance and adding the first cost, each gate would cast $18,500, an electric bell would cost $300 on installation and the annual cost would be $25. Thus to provide gates for all these crossings would mean a cost of nearly $24,750,000, and to provide bells, rather over $1,000,000.

He went exhaustively into the respective merits and disadvantages of these methods, declaring that the only positive protection is to carry the tracks either above or below the tracks. The average cost of a subway is from $40,000 to $45,000; the railway should not be asked to contribute more than one-third of this, or at all events should not be asked to spend more than the $18,500 which a gate would cost. Turning to the expedient of slowing down to ten miles when approaching a crossing, Mr. Gutelius estimated that this would increase the time between Montreal and Ottawa by 40 minutes.

The time of a transcontinental train will be increased by 12 hours. The effect on freight trains would be similar, especially in those on fast freights, where time is an object. With heavy trains this would become very serious.

It would involve an addition of one train in ten to carry the same amount of freight, or an additional $1,500,000 a year to the cost of operating freight trains.

Socialists Plan for Campaign.

The regular meeting of the Socialist party of Canada was held yesterday afternoon, when it was decided to carry on a vigorous campaign during the summer months. After the regular meeting Comrade A. St. Martin spoke on social problems. He argued for the necessity of change in the social system, and declared that the Socialist idea and aim were to educate the people for the change so that when it did come every citizen could intelligently help it along in its proper channel.

At an informal meeting in the evening it was decided to call the May Day Conference together for the evening of May 9, to discuss ways and means of bringing prominent speakers to the city.

Mr. Heney in Alaska.

The steamers Jeanie and Portland, says a Seattle paper, have sailed for the north, carrying material for the new Heney Road at Orca. The Jeanie will proceed to Skagway, and take on equipment to be used in construction work. On the Portland will be M. J. Heney, Chief Engineer Rice, Dr. F. B. Whiting, who is to have charge of the hospital, and J. E. Pharo, general manager of the Alaska Coast Company. Both vessels are taking in laborers for the new road. As soon as the Portland reaches Orca steps will be taken to establish camps along the route of the road and the work of building the line rushed as fast as possible.

Colonel Buchan Inspected Cadets.

On Saturday afternoon Col. Buchan, C.M.G., A.D.C., O.C.Q., reviewed the Highland and Mount St. Louis Cadets on the Champs de Mars, in view of their approaching inspection by His Royal Highness Prince Arthur of Connaught on Tuesday next. Major Meighen, of the 5th Royal Scots, acted as brigadier, and Captain H. Jordan, of the 65th Mount Royal Rifles, as brigade-adjutant. These two officers will act in the same capacity at Tuesday's inspection, and Saturday's procedure will be followed out precisely before the Prince.

Harmony on the Great Northern.

Mr. C. W. Spencer, manager of the Mackenzie & Mann lines in the East, received a couple of representative Great Northern Railway trainmen, on Saturday, and had a general talk with them over matters concerning the trainmen. The meeting was quite informal and no grievances were advanced by the men and they were assured of the friendliness of the management. Mr. Spencer stated this morning that the greatest harmony existed between the employes of the Great Northern and the men.

Youth Stole Money Orders.

Arthur Daoust, 20 years of age, appeared before Judge Lafontaine today, charged with having appropriated $105 to his own use, the money being C. O. D. orders which he was delivering for the Laing Packing and Provision Company. The young man pleaded guilty and on account of the prosecutors receiving a sum of money in part payment of the sum stolen, Judge Lafontaine sentenced the young man to 6 hours in the cells.

Was Not a Jesuit Priest.

To the Editor of the Montreal Star.

Sir,—It was stated in the Star newspaper of Friday evening last, that a Jesuit priest named Pedro Morales had been murdered in Spain by a brother Jesuit. I am in a position to affirm most emphatically that there is no such Jesuit priest as the said Morales in any of the four Spanish Jesuit provinces. Will you have the goodness to publish this note and oblige.

Yours sincerely,
G. O'BRYAN, S.J.

PROPOSED TRAMWAY TO ST. LAMBERT

Citizens of South Shore Town Met Saturday and Discussed 21 Year Franchise Proposition.

An open meeting of proprietors and tenants was held in St. Lambert's Saturday evening to consider the proposals placed before the St. Lambert Town Council by the Montreal & Southern Counties Railway.

The company asks for a twenty-one year franchise for St. Lambert, connecting it with the city of Montreal across the Victoria Bridge by a half-hour service.

Messrs J. W. Harris, vice-president of the company, and Mr. W. B. Powell, the manager, were present in the interests of the company, Mayor Reid, A. E. Harvey, Mr. J. A. R. Hicks, Mr. Cantin and a number of other proprietors and tenants addressed the meeting also.

Some objections were raised as to the fares to be charged. These Mr. Powell pointed out, were regulated by the G.T.R. suburban rates, no lower rate than the monthly commutation ticket, 5-cent rate, being permitted. Some objection was also raised to the length of time granted by the franchise. Percentage of earnings, and the question of clearing the snow from the streets in winter, was also discussed.

The representatives of the company satisfied those present as to the standing of the promoters of the scheme by pointing out that amongst those interested in the affair were the following:—S. T. Willett, F. D. Monk, M.P., George Sumner, J. W. Harris, W. B. Powell, and others.

The additional value which will accrue to real estate, and the convenience which the half or one hour service would be to the citizens of the municipality was also pointed out.

At the present time the blanks for a referendum upon the questions have been forwarded to the proprietors by the council, and these are daily being returned.

UNDER MOB RULE.

Washington, May 7.—Guadaloupe, French West Indies, is under mob rule, according to a despatch received at the State Department to-day from the U. S. Consul at that point. His despatch says the mob is in control and the authorities are unable to restrain it. Election troubles are the cause of the disturbance. At the request of the State Department the Navy Department has ordered Commander Southerland, the senior officer in command of the fleet at San Domingo, to send a warship at once to Guadaloupe to protect American interests. The sail from San Domingo to Guadaloupe is not more than 24 hours. There are six American vessels in San Domingo waters.

Awarded $100 for False Arrest.

Leon Deslauriers did not ill-treat the bull belonging to J. B. Jasmin and the latter for having without sufficient reason made a charge against him to that effect, has been condemned by Mr. Justice Archibald to pay $100 and the costs of the action instituted by Mr. Deslauriers. The plaintiff had been arrested on the charge but was declared innocent by the magistrate before whom the case had been heard, and immediately took action for damages. The court in this case held that the defendant had so little reason for his action that there was suggestion of malice, but as the plaintiff had not been greatly injured in his reputation the damages were reduced to $100.

Six Hundred Immigrants Arrive.

The flow of immigration keeps merrily on, and this morning some six hundred Britishers who came over on the Lake Champlain and Virginian arrived at the Windsor Station, destined for the West.

The first and second cabin passengers coming from the old country will from now on be landed from the steamers at Montreal, whence they will be taken by rail directly to their points of destination in Ontario or Western Canada, while the third class passengers will be landed at Quebec and will then come to Montreal by rail and from here will be forwarded to the West.

Victim Was Pacifique Hebert.

The coroner's inquest in the case of the Wellington street collision between a street car and a freight train was begun this afternoon. The body of the unfortunate man who was killed in the collision has been recognized as that of Pacifique Robert, a young man 22 years of age, whose parents reside at Saint Remi. He lived with one of his uncles at 963 St. Andre street. He was unmarried and had been about four years in Montreal.

GOVERNMENT GAIN TWENTY-FOUR SEATS

Boni de Castellane is Elected, But Colonel Marchand is Not Yet Certain.

Paris, May 7.—The election results to-day show increasing Government gains. The Ministry of the Interior gives the gains at 35 and the losses at eleven, or a net gain of 24 seats. The effect of this is to give the "Bloc," or groups supporting the Government in the Chamber of Deputies, 243 votes against a total vote of 146 for the Opposition groups. The Government Left, therefore, appears to be assured of a majority of about one hundred. There remains over 150 districts, in which second ballots will be necessary.

Among the prominent men elected are former Foreign Minister Delcasse, former Premier Ribot, War Minister Etienne, Minister of Marine Thomson, former Minister of the Interior Dubieff, Count Boni de Castellane, the Marquis de Dion, Minister of Public Works Barthou, Minister of Agriculture, Jean Leon Jaures, the Socialist leader; Baudry d'Asson, Premier Sarrien and Paul Deschantel, former President of the Chamber of Deputies.

Included among the new Deputies are M. Leroy Beaulieu, the political economist, and Maurice Barres, the academician. The defeated candidates include M. Bos, chairman of the Budget Committee; Count Stanislas de Castellane, brother of Count Boni de Castellane, and former Premier Flourens.

Two picturesque characters, Col. Marchand and M. de Roulede, require second ballots in their district.

CHURCH'S WORK HELP OF MAN

Rev. K. J. Macdonald Enters on Ministry at St. Matthew's Church.

The Rev. K. J. Macdonald, who was inducted last week at St. Matthew's Presbyterian church, Point St. Charles, entered on his duties yesterday preaching at both morning and evening services. Speaking in the morning on the text "Wist ye not that I must be about my Father's business," from St. Luke, II. 49, he emphasized the idea that this verse, which gives the only glimpse we have of Christ's early life, indicates the leading principle and purpose of his work. His Father's business is to help man, and this is the work of the Church. Mr. Macdonald took for his motto in entering on his new work.

At the evening service Mr. Macdonald preached from Acts III. 6, "Peter said, silver and gold have I none, but such as I have give I thee. In the name of Jesus Christ of Nazareth, rise up and walk." Silver and gold hold an important place in man's estimation, he said. They form the standard of relations between employer and employee, and the standard of charity. According to this standard Christ and the Apostles failed. Of silver and gold they had none, but they gave the cripple gifts of eternal value, sympathy and health, or the ability to help himself. This is the only certain method of philanthrophy; a gift of money often fails to accomplish its object.

TWO INSURANCE ACTIONS.

One Was Partially Successful, the Other Was Dismissed.

The action of N. Bolduc against the Metropolitan Life Assurance Company for the recovery of $500, the amount of a policy on his father's life, has been dismissed by Mr. Justice Loranger, who maintained the plea of the defendants that the insured had obtained the policy under false representations with regard to his state of health at the time.

Judgment for $39 and the cost of an action for that amount has been given by Mr. Justice St. Pierre in favor of Mrs. Clovis Leduc, who sued the Provident Savings Life Assurance Society of New York for $958, the amount of a policy on the life of her late husband. The defendants claimed, and the court maintained their plea, that the policy had been forfeited to them, except to the extent of $39, for which the plaintiff was given judgment.

Fined for Obstructing Trolley Track.

An unusual case was heard this morning by Mr. Recorder Weir, with the result that the accused was fined $3 and cost or fifteen days gaol.

Cyrille Rochon, a driver, was charged with obstructing the street railway track. The motorman testified that Rochon would not get off the track, although he had rung the gong three or four times, adding that when a constable in civilian garb appeared, the accused whipped his horse so as to try to get away from him.

The births in the city last week numbered 83. A peculiarity about the figures is that the males numbered 55 and the females only 28, while as a rule the females outnumber the males.

"Greed" of Companies.

Special to The Montreal Star.

Toronto, May 7.—Rev. Dr. Shearer, secretary of the Lord's Day Alliance, speaking in Old St. Andrew's yesterday, declared that the greatest menace to the preservation of the Sabbath day was the greed of transportation companies and the selfishness of the general public. The most tremendous influence, he further declared, was being brought to bear at Ottawa to introduce and carry through legislation inimical to the welfare of the nation.

Zulus Again Repulsed.

Durban, Natal, May 7.—A force of Zulus attacked Colonel Mansell's column near Cetewayo's grave yesterday, but they were repulsed with a loss of about sixty killed and wounded.

Strawberry Crop a Failure.

Ottawa, May 7.—The strawberry crop in the Ottawa Valley district will be a total failure this year. The past winter was a disastrous one for the plants.

NORTH AMERICAN UNDER SEARCHLIGHT

With National Agency Company, It Received Mr. Shepley's Probing To-day.

Special Staff Correspondence.

Toronto, May 7.—There was a little variety in to-day's session of the insurance commission. The Manufacturers' Life stepped down and the Union Life came under investigation. This morning the transactions of the North American Life and the National Agency Company were the topic, this question having been discussed at some length in Ottawa.

The National Agency was a company formed to act as agent for the North American Life to handle the provident insurance of that company; that is the policies not exceeding $1,000, on which monthly premiums are paid. The formation and scope of this company occupied most of the time to-day.

Manager H. Pallman, of the Union Life, was called first. He stated that he was president and manager of the Union Life, as well as secretary of the National Agency Company. He was a member of the board of directors of both companies. Formerly he was manager of the Provident Insurance branch of the North American Life Insurance Company.

Provident Insurance, the witness explained, was for sums smaller than $1,000 upon which the premiums were payable monthly, as opposed to industrial insurance, which was also for small sums, but upon which the payments were weekly. Mr. Evans admitted with seeming reluctance that the volume of provident insurance business managed by him for the North American Life amounted annually to $800,000. The monthly premiums were seven or eight hundred dollars. This business was taken over by the National Agency Company in January, 1901. This company was promoted by Mr. Evans. The other directors were A. E. Plummer and Mr. Symons.

Witness did not recall whether any book existed containing the record of the business taken over by the National Agency from the North American Life.

The charter of the National Agency was produced. It showed that the company was organized "To act as managing agent for any insurance company." The share capital was $100,000. The witness said that his idea on forming the company was to extend the provident business of the N. A. Life. He had been limited in his operations for that company to Toronto city. Mr. Evans said he had the experience of seven or eight years in industrial and provident insurance, having been agent for the Metropolitan Life for three years in Tennessee and representing the Sun Life in Montreal and Philadelphia.

AGREEMENT EXAMINED.

Mr. Shepley obtained with some difficulty a copy of the agreement entered into between the N. A. Life and Mr. Evans for the transfer of the Provident business to the National Agency. It was dated November 7, 1900, and provided for a transfer of all the business as soon as the new company had a paid-up capital of $25,000. Mr. Shepley drew attention to the fact that there was a wide difference between the powers set forth in the charter and those in the agreement.

The National Agency had to pay seven times the amount of the monthly premium dues. At the time the transfer was made the monthly premiums on Provident Insurance were about $700, the Agency paying about $53,000 for the old business.

The sum of $2 per net thousand of new business was also paid. The National Agency was also to pay a part of the surplus, but before this could come due there must be 10 per cent. dividend paid to shareholders. About fifteen shares of $100 were subscribed by the promoters out of a necessary paid-up capital of $25,000. Mr. Shepley went over the agreement, and stated that the witness had been doing the active business of an insurance company in the name of the North American Life. He asked the witness if he did not think he was in this going beyond charter powers. Why had he not formed a regular insurance company? Witness said: That by so doing they had the prestige of the North American Life. It was not to avoid Government returns, he said, in reply to a question.

R. J. McLaughlin, who is acting for the Union Life, as well as the Manufacturers' Life, here entered protest that the Commission had no right to go into these companies that were not insurance companies. Mr. Shepley read the act creating the Commission, which gives fairly broad powers.

MR. SHEPLEY WINS AGAIN.

After a long argument, Judge MacTavish ruled in favor of Mr. Shepley's contention. A systematic system of blocking was adopted by the counsel for the Union Life, efforts being made to prevent the production of the books and other records of the National Agency. The enquiry about that firm went on.

In January, 1901, when the agreement with the North American Life was to be carried out, the $25,000 capital had not been raised, so a verbal extension was received to August. On August 4th the formal contract was made, embodying the terms before mentioned. After the annual 10 per cent. dividend had been paid to shareholders out of the surplus, the North American Life was to receive at first 20 per cent. of surplus, and finally 40 per cent. Under this agreement the National Agency worked until July 16, 1902, acting as agents also for the Canada Accident Company. After this date it was decided to form the Union Life Assurance Company. This decision was taken on account of the growth of the business, etc.

Verbal negotiations were had with the North American, which company had no objections to the new company. Then the charter was applied for. Each of the seven directors were to take twenty-five shares. The National Agency took the rest. The seven directors were Charles Percy, H. Symond, A. E. Vallerand, Col. Jones, Dr. Hughes, H. P. Evans and G. E. Millechamp.

Death of Mrs. George Brown.

Toronto, May 7.—News was received in Toronto to-day of the death of the widow of the late Hon. George Brown, at her home in Edinburgh, Scotland. Mrs. Brown had a stroke of paralysis about three years ago, from which she partly recovered, but she never regained her full strength. She is survived by two daughters, one the wife of Dr. A. H. F. Barlow, of Edinburgh University, the other married to Mr. Geo Sandeman, of Edinburgh. Mrs. Brown was about 80 years of age.

Killed Her for "Love."

Long Branch, N.J., May 7.—Thadeus Birch, who came here from Virginia in search of his wife who left him some time ago, met the woman on the street, and after a few words shot her dead. He was arrested and declared that his love for his wife impelled the deed.

TWO DEATHS OVER OWNERSHIP OF CATS

William Cox Shot Son-in-Law and Killed Himself After the Quarrel.

Steubenville, Ohio, May 7.—William Cox and his son-in-law, William Carney, both coal miners of Smithfield, quarreled to-day over the possession of two cats. As Carney was leaving the yard Cox seized a double-barrelled shot gun and shot him dead. He then fired the second load into his own breast, dying almost instantly.

Goes Back on Interview.

Special to The Montreal Star.

Ottawa, May 7.—The committee on agriculture this morning decided to countermand the order to Mr. Stemshorn, an employe of the immigration department in Manitoba, to appear and give evidence. The subpoena was issued on the strength of a newspaper interview which Mr. Stemshorn has since repudiated, and a telegram was sent to Winnipeg to-day telling Mr. Stemshorn that his presence in Ottawa was not required. The newspaper interview stated that Mr. Stemshorn was prepared to make some revelations as to the methods of the immigration department.

Carefully Guarded Corsets.

Special to The Montreal Star.

Toronto, May 7.—After being carefully guarded in the vaults of a Toronto trust company for six long years, a pasteboard box, carefully bound with wrapping paper, held fast with numerous seals, and believed to contain diamonds and jewels of great wealth, has been found to contain only a pair of corsets. The package was deposited with the trust company by an English woman of considerable means while travelling in Canada six years ago. The woman died a few months back and it was on instructions from her heirs in the old land that the box was opened.

Miners are Conciliatory.

New York, May 7.—At noon to-day it was positively stated that although the miners will first ask for a shorter agreement they will accept three years if the operators insist upon it. Members of the Mine Owners' Committee who were seen prior to the meeting, said that under no circumstnces would they agree to terms that would run out before April, 1909. They felt there would be no trouble over agreeing on details regarding the taking back of all men and putting them in their old places.

Funeral of Hon. Peter White.

Special to The Montreal Star.

Pembroke, Ont., May 7.—The funeral of the late Hon. Peter White took place to-day. Among those who attended from Ottawa were the following M.P.'s: Messrs. Daniel Barr, Hughes, McLean (P.E.I.), Porter, Sproule, Brabazon, Haggart, and Ingram. Senator Perley also attended. The staff of the House of Commons is represented by W. Bowie, assistant sergeant-at-arms.

Raced With Death.

Special to The Montreal Star.

Brantford, May 7.—The new gates erected at the Market street crossing of the Grand Trunk do not work properly and many drivers have been caught between them on the tracks. Doctors Ashton and Fissett were thus caught on Saturday night before the approach of a train and escaped death only by turning the horse and racing down the tracks in front of the train, which was finally brought to a stop.

Made Haul of Gill Nets.

Special to The Montreal Star.

Brockville, May 7.—James Fraser, of Prescott, overseer of fisheries for the district lying between Gananoque and Prescott, made a good haul on a tour of inspection the other day. He succeeded in landing several hundred feet of gill nets, bushels of night lines, sticks of dynamite; in fact, several complete outfits for the destruction of game fish.

Holland Got Three Months.

Toronto, May 7.—Christopher Holland, for stealing $13,800 from the Ideal Bedding Company, was sentenced to three months in the Central Prison by Police Magistrate Denison this morning. The magistrate said the sentence would have been heavier had it not been for the extraordinary unprofessional conduct of the lawyer for the Ideal Company.

Killed by a Train.

Special to the Montreal Star.

Cornwall, Ont., May 7.—Glengarry friends have received word of the death of T. E. Wood, son of the late James Wood, of Bainsville, Ont., and chief pumpman for the Duluth, Missable and Northern Railway. Stepping out of the way of one train, Wood was struck and run over by another.

PREACHER PRAISED SENATOR.

Rev. H. P. A. Abbott Enters on Duties at St. James the Apostle.

Those who knew of the Rev. H. P. Almon Abbott, M. A., the new curate of St. James the Apostle, merely by reputation, were surprised to see in the pulpit yesterday morning a man of comparative youth, but their surprise was not followed by disappointment. Embued with broad, modern ideas, and equipped with simple but forceful utterance, Canon Ellegood's new assistant bids fair to become one of the most popular of our city preachers. A native of Halifax, Mr. Abbott received his education at King's College, Windsor, N. S. and Christ Church, Oxford. He was curate of St. Luke's, Halifax, two years before accepting his present position.

At the morning service the keynote of Mr. Abbott's sermon, preached on the text "Blessed are they that have not seen and yet have believed, John XX, 29, was the realization and interpretation of the spiritual world through the temporal. The text is paradoxical, he said, for only by penetrating things material, and learning, their significance can we derive any idea of the spiritual realities. His concluding message was a warning against being materialists, blind to the eternal, mystics, blind to the temporal, or ritualists, narrowly putting one's faith in certain empty rites.

At evensong, Mr. Abbott took his text from the "Sermon on the Mount," Matthew V. beginning at verse 39. His intention, he said, was not that of explaining away all the difficulties of the Mount Preacher's words, a task which would be the height of presumption in a young man, but that of setting his hearers thinking. He explained that a full realization of the truth of the "Sermon" is only gradual. Some of its dictums which are quite in harmony with ideas of to-day were entirely at variance with public opinion at the time they were uttered. Revenge, an honorable action in Christ's day, now getting into disrepute. "To-day the public respects the senator who hears with calm restraint the maledictions and aspersions of unscrupulous conduct and of the natural defects due to age, hurled at his head by one of his fellows." Similarly some of Christ's precepts, which are difficult for us to accept, will voice the sentiments which are arising in preparation for an actual milennium.

Canadian Butter in Jamaica.

Special to The Montreal Star.

Ottawa, May 7.—G. E. Burke, commercial agent at Kingston, Jamaica, reports that butter from Nova Scotia which bade fair to become a standard table article in Jamaica has now lost its reputation by being considerably deteriorated in grade. A creamery butter from Montreal put up in glass jars, however, has obtained a high reputation and the standard is well maintained, though the jars do not contain the full quantity represented. Efforts were made to introduce another brand of butter from Montreal, but the sample shipment was too salty for the Jamaican market.

Bonusing at Brockville.

Special to The Montreal Star.

Brockville, May 7.—A public meeting of the citizens of Brockville was held last night to consider the organization of a Board of Trade and the granting of loans to the Shirreff Manufacturing Company of the town; the Salem Shirt manufacturing Company of Montreal, and the Glauter Brass Manufacturing Company of Cleveland, Ohio. The last two mentioned firms are desirous of locating here in consideration of money, bonuses and other considerations. The proposition from the local concern was regarded with favor, but as to the other two opposition was manifested. Definite steps were taken to perfect a Board of Trade organisation.

Desperate Chicken Thief.

Special to The Montreal Star.

Sarnia, May 7.—Edward Greenwood, a young man, went to an outbuilding at the rear of his lot last night, and as he opened the door a man sprang out and discharged a revolver, and forcing his way past, disappeared over the fence. The bullet entered Greenwood's side, but the injury inflicted is not serious. Greenwood's explanation of the affair is that the stranger was a chicken thief.

LATE COTTON MARKET NEWS.

From the Special Correspondent of the Montreal Star on the New York Cotton Exchange.

New York, N.Y., May 7. — The market opened steady at an advance of 2 to 4 points, in response to cables, and reports of rather less favorable weather in the belt. It is an old saying in the cotton market that a wet May makes a short crop. This idea probably arises from the fact that the wet weather prevents necessary field work and encourages the growth of grass and weeds. The market worked up to a net advance of 4 to 7 points within the first few minutes, later easing off slightly, under realising. Liverpool was quiet, and but few cables were received. Prices there were 1 to 2 points higher. The English spot market was 2 points higher on sales, 10,000 bales.

SHARP UPS AND DOWNS IN STOCKS

Stocks were very erratic in the afternoon, breaking around 2 p.m., and then getting a sharp rally. Reading recovered to 129⅝ the best of the day, and the general closing was firm.

New York, May 7.—Wall Street, 2 p.m. —Stocks yielded easily after mid-day in sympathy with a three point reaction in Reading. The Hill stocks betrayed notable weakness, and there was a general return to the low prices prevailing at the opening or below. Spasmodic rallies were very poorly maintained, and prices were allowed to sag back to the lowest. Business was very light during the greater part of the early afternoon, and improved later when the recovery set in.

The Montreal market was slow.

SOME FIREWORKS IN READING STOCK

It was only Feature of a Rather Tame Day in Wall St.

LOCAL LIST WAS FIRMER

But Trading Save in Power Which Went to 90 Showed Very Little Life.

The settlement of the coal strike has helped the general market considerably and has resulted in a display of fireworks in Reading.

Some of the big Wall Street brokers were buying Reading in 5,000 share blocks this morning and up to one o'clock, one house alone took 30,000 shares.

The stock closed on Saturday at 126, opened at 125 to-day and then fell to 124 3-4. Then the buying began to appear and the stock had a steady rise to 129 3-8. Later it broke violently to 127.

Delaware and Hudson moved from 201 to 203, while Erie opened at 41 5-3, went to 42 1-3 and then lost its advance.

The other leaders were inclined to be irregular, although strength in Copper was a feature of some note.

Gold continues to flow this way, although the Bank of England will probably attempt to check the movement.

That institution this afternoon advanced the selling price for Eagles to 76s. 8 1-8d. on the advance in bar gold and continued American demand.

Montreal stocks were not active but in spots showed a moderate amount of firmness.

Power showed a disposition to recover a little to-day, but it did not develope much activity at the higher level. As pointed out the other day the decline in Power brought out some pretty good investment buying and in the last four days a good deal of stock has been taken from the market. The sales of Power last week were a little over 13,000 shares. This represented a good deal of forced liquidation, no doubt, but it is fair to say that the shake up has improved the market position of the stock.

Richelieu stock which acted extremely well through the trying days of last week was not liquidated to any marked extent. Is is said that the results of the system's early operations have been fairly satisfactory, although this is naturally not a profitable period of the year and the officials are well satisfied if they can make expenses. The directors and others have every reason to believe that the present season will go beyond early expectations in the matter of tourist traffic. The people in the States have plenty of money and no strong counter attractions are looked for.

Twin City was inclined to be fractionally better, and although Twins did not act very well on the decline, some of the traders seem to think very well of the stock at the present level. The road's earnings for the fourth week of April showed an increase of $13,903, and a gain for the month of April of $60,216.

The Havana issues still hold firm and decline to lose ground. There was a sale of 40 shares of common here at 46, while in New York there were sales at 46 3-8 and 47.

Canadian Pacific showed little or no life in either market around 158 1-2 to 159, while Toledo sold at 30 3-4 and "Soo" common here at 155, which was higher than it reached in New York.

Canadian issues in Wall Street were very quiet, there being only scattered sales in the leaders. The highest and lowest prices to noon were as follows:

	High	Low.
Can. Pac.	159	158½
Havana	47	46⅞
Hanava Pr.	90	88
Soo..	154⅞	153¾
Soo Pr	168⅛	165½
Twin	113¾	113½

It is stated that the Electrical Development Company will supply the power required by the Erie Railway when the railway's extensive electrification plans are carried out.

The Winnipeg Electric Railway Company is said to face a long series of suits for damage to water pipes by electrolysis.

Bell Telephone shareholders will be interested to learn that the Ontario Legislature will pass a bill incorporating a new long distance telephone company in this province; also that the Government of the new Province of Alberta is taking immediate steps to secure a public owned telephone service. The Government proposes establishing a long-distance system, leaving the local lines to municipalities. This is Manitoba's plan, too.

The New York banks have gained $7,950,000 from the sub-treasury since Friday on account of U. S. deposits against gold engaged for imports.

The Hill stocks were quiet. Great Northern opened at 290, went to 291, while Northern Pacific started at 194 3-4, went to 195 1-2, and receded to 194 1-4.

The sales to noon in Wall Street were 619,650 shares.

"Soo" Railway earnings for the fourth week of April showed an increase of $95,944. The gain for the month is $319,661. Duluth earnings for the fourth week of April showed a gain of $2,523, and for the month an increase of $12,096.

SAY ITS A BUCKET SHOP.

That Charge is Made Against the Haight & Freese Firm.

The charge that the Haight & Freese Company, the brokerage concern of Boston, and well known in Montreal, which assigned several months ago, conducted a "bucket shop," is made in the report of Marcus Morton, master, which was filed in the United States Circuit Court in the suit against the company.

The master alleges that the dealings of the Haight & Freese concern were intended to make the public believe that its business was legitimate, and that certain correspondence indicated a knowledge that the business was illegitimate. The company failed with liabilities of $500,000 and assets of $150,000. It had branch offices in various New England cities and towns. The plaintiff in the case seeks to recover money invested.

MORE NEW COBALT CONCERNS

Capital of Concerns Ranges From $40,000 to $2,500,000.

Two million five hundred thousand dollars in one-dollar shares is the capital of the McKinley-Darragh-Savage Mines, of Cobalt, Limited, the head offices of which are in Toronto.

The Cobalt Chartered Company, Ltd., Haileybury, with a capital of $350,000; Cobalt & Hudson Bay Development Company, Ltd., of the same place, with a capital stock of $100,000; Hudson Bay Extended, Ltd., Toronto, capital $50,000, and the Mining & Lands Development Company, Ltd., of Toronto, capital $40,000, have also been chartered as mining companies.

The Cobalt Standard Mining Exchange, Limited, with a capital of $40,000, has been formed by a number of Toronto capitalists.

MADE ANOTHER NEW RECORD.

Canada North-West Land shares continue to make new records, and a sale of a small block is reported in London at 127½.

This is equivalent to 509 on the Montreal basis.

Wall Street—Its Laundry

On the "Floor."

The System's "magic" is how T. W. Lawson expresses the manner in which the copper stocks were put up after the recent deal. And, describing "washing" operations in Wall Street, he says:

"Two brokers in connivance with each other pretend one to buy and the other to sell at a certain price on the floor of the Stock Exchange, for the purpose of having the official records of the Stock Exchange and the tickers throughout the world quote the price they have thereby made, as though it were a price arrived at, in a legitimate transaction, because of real supply and demand in this particular stock. For instance, Heinze and his gang have been 'washing' regularly now for weeks as high as 30,000 and 40,000 shares a day for the purpose of deceiving the bank and trust company officials and brokers into believing that the public are greatly interested in the stock and are buying and selling large quantities of it. The commission for 'washing' 40,000 shares of stock is $10,000 each day; that is, the broker who has the 'selling end' of the 'washing' receives 12½ cents per share, or $5,000, and the broker having the 'buying end' the same. The game is one of the oldest in the stock world, but it is worked every day. Its effectiveness, as a method of siphoning millions out of banks and trust companies direct or through brokers into the pockets of schemers, is obvious."

MR. HOSMER ARRIVES LATER.

Mr. Charles R. Hosmer is not returning, as at first reported, on the Empress of Britain, and he is not expected now before the end of the month.

Leading financiers on the new C.P.R. steamer are Sir Thomas Shaughnessy, Senator Forget, Mr. E. S. Clouston, Mr. R. B. Angus and Mr. T. E. Kenny.

STOCK LOST $65,000,000.

Standard Oil stock has sustained a loss of $65,000,000 in quoted value since the slump began.

Since selling as low as 590, however, it has recovered to 610.

LIVELY WEEK IN MONTREAL.

Market Active and the Fluctuations Were Wide.

Last week was a busy one on the local board, and it is rather interesting to look back and sum it up. It will be seen that over 13,000 shares of Power changed hands, and that stock led the procession in point of activity. Detroit was second, and Steel third.

Here are the sales and highest and lowest prices for the week:

ANCIENT BUT LIKELY RUMOR.

Revival Talk That "Soo" Will Pay 8 Per Cent.

One ancient, but highly respected, rumor that is bound to come true some time is again in circulation. A wire says:

"It is said in well-informed quarters that the next dividend on Minneapolis, St. Paul and Sault Ste. Marie common will be 4 per cent. for the half year, placing the stock on an 8 per cent. basis. The road is earning at the rate of 20 per cent."

According to the Montreal stock-holders, "Soo" common should have been on an 8 per cent. basis two years ago. There is such a thing, they think, as being too conservative.

GOSSIP ON TORONTO RAILS.

Detailed Statement Issued of the Road's Assets.

The Toronto Railway Company and the Toronto and York Radial Company, which are now virtually one concern, have issued, presumably for the guidance of stockholders and fire insurance companies, a document describing and giving the values of all buildings, plant and rolling stock of the two companies.

The total value of property held by the two companies amounts to $3,066,000 of which the York Radial values represent $220,000.

MONTREAL EXCHANGE RATES.

Montreal exchange rates between banks: New York funds, 1-32 to 1-32; sterling, 60 days, 8 7-32 to ¼; do demand, 9 to 9 1-32; do cables, 9¼ to 5-32; Paris, francs short, 5.19⅜ to 1-16.

A COMMON DIVIDEND.

The U. S. Steel directors have not taken up the question of a dividend on the common stock.

NEW HOCHELAGA BRANCH.

The Hochelaga Bank has completed arrangements to open shortly a branch in St. Hyacinthe.

GRANBY WAS HIGHER.

Granby sold higher at 13 on Saturday, and was quoted at 13 bid and 13¼ asked to-day.

BUCKET SHOPS AND $2000 TAX

Do Not Recognize yet that they are Supposed to Pay the Money.

ONLY FIVE HOUSES PAY UP

The Government Means in the End to Tax Every Wire That is Used in Montreal.

Up to date five Montreal branches of Wall Street Stock Exchange houses have paid the Quebec Government the new $2,000 tax.

These are the regular houses like Randolph's, Bache's, and Laidlaw's.

The others do not recognize the fact as yet that they are liable to the tax, and therefore they have not paid it.

Evidently it is the intention of the Government to tax every private wire that comes into the city, but the new law does not read clearly upon that point, and will probably be amended until it does read clearly and the Government draws in $2,000 from everybody.

In the meantime so-called bucket shops have not paid the tax, and they won't until officially notified that the law enfolds them within the grasp of the $2,000 tax.

Of course, the Government does not officially recognize the fact that bucket-shops exist, although the Government winks the other eye when it says that.

At all events the bucket shops are evidently going to be treated exactly like the other houses.

Thousand Millions Are Wiped Out

It is perhaps not sufficiently realized how great the decline in stocks has been.

Since the high prices of 1905 many of the acitve shares have declined from 30 to 80 points.

This is a tremendous shrinkage, amounting to probably one thousand millions. Says Henry Clews: That such a contraction could take place without involving a single failure worth noting is remarkable testimony of the inherent strength of our financial situation.

It perhaps can no longer be said that stocks are unduly high so long as industrial and commercial activity continues at its present level.

Securities have certainly receded to a more natural level, and liquidation, if continued, should follow in other quarters where no recession has yet taken place after abnormally high prices. Many commodities, especially those in the metallic industries, are also selling too high for stability, and reaction would be beneficial.

Prices all round, costs of living, wages, etc., are too high.

Perhaps such reaction may not be long postponed, and Wall Street, with its usual foresight, is discounting some of these movements.

"SOO" GAINS ARE VERY LARGE

Increased Dividend Easily Justified by Present Showing.

There continues to be no abatement of the rapidly growing profits of the Soo road. For the last week of April the increase in gross showed the great percentage of 56.21. For the month increase 50.99 per cent., and for fiscal year to date 32.99 per cent. If substantiation were needed such favorable exhibits would certainly support the statements of important holders of the stock that the dividend paid on the common issue will be increased at an early date.

DIVIDEND ON LE ROI STOCK.

An interim dividend of 2 shillings a share has been declared by the directors of the Le Roi No. 2 Company.

The total of the dividend is £12,000.

The Le Roi No. 2, owing to the finding of valuable shoots of high grade ore, is in a position to make larger profits than in 1905, when it paid dividends to the extent of four shillings a share.

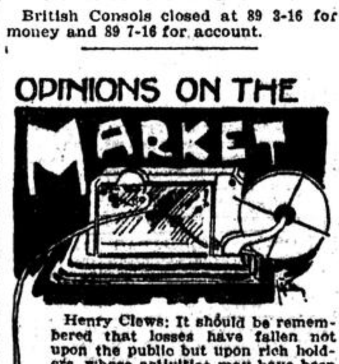
IT DOES THE OPPOSITE.

(Washington Post.)

This slump in Wall Street stocks might be stopped if Tom Lawson could be induced to predict another panic.

CONSOLS WERE STEADY.

British Consols closed at 89 3-16 for money and 89 7-16 for account.



Henry Clews: It should be remembered that losses have fallen not upon the public but upon rich holders, whose activities may have been crippled but who apparently have not been totally incapacitated. An active and fluctuating market seems likely for some time to come.

J. S. Bache: There was very little in the situation that would call for a set-back outside of the fact that the market has had a good recovery and was entitled to a reaction.

J. B. Picken: The coal strike is now out of the way. Crop prospects are good and business generally throughout the country is brisk. Under these circumstances we look for a market with a good undertone and a tendency towards gradual improvement.

E. and C. Randolph: There were renewed complaints about the lack of commission business, and brokers generally handling outside accounts say that they have few if any orders either way.

Charles Head: The undertone is strong, but the feeling is that the recovery has gone far enough for the present.

Laidlaw & Co.—There was nothing new in the morning's news, although the consensus of critical market opinion was somewhat more cheerful than had been expected.

TOPICS OF THE STREET

Brokers have to work harder in a lively break than they do in a big boom.

The amount of actual work involved in both cases may be identically the same, but the break brings a mental strain a keen look-out for margined accounts and a general feeling of unrest that tells on everybody in a broker's office.

The average broker may take a break with outward coolness, but, as matter of fact, he does not like to see a client lose money any more than the client likes to lose it himself.

A Wall Street broker who passed through Montreal yesterday, is going West to get rid of a case of "nerves."

"One week of it knocked me out this time," he said.

"We have been at work before the world was aired every morning, have been burning the midnight oil. I felt my head beginning to go around, so I'm off for the West, where I can't hear that d—— ticker."

The office boy in a St. Francois Xavier street broker's office picked up a couple of cheques just outside the Stock Exchange on Friday.

One was for $500, the other for $16, and both were certified.

Had they fallen into the hands of an expert in the cheque-cashing line they might easily have been cashed, with a loss of $516 to the person who signed them.

The boy took them in to show his boss, who told him to hustle them up to the owner in order to relieve his anxiety.

"And," said the boss, "he'll give you $5 for your trouble, anyway."

The small boy returned ten minutes later firmly grasping a 25 cent piece.

Canadian bankers no doubt took a great deal of interest in the announcement that $1,000,000 was being brought from England by the Royal Bank.

These shipments, a common occurrence in New York, are unique for Canada, and it is thought that this shipment may be the forerunner of more.

The rate of exchange has been low lately, and the Royal Bank has been able to make the shipment at a fair margin of profit.

U.S. banks bringing English sovereigns to this side are obliged to melt them, and a fractional loss attends that operation.

The Royal, however, will not find it necessary to do this, as of course, English sovereigns are legal tender in this country.

There seems to be nothing wrong with the old time-worn theory that it takes the stock market six months to go up and only six days to go down.

One of the officials of the National Bank of Commerce, in St. Louis, who attended the Iowa State Bankers' Convention at Des Moines, while conversing with a group of bankers, was asked: "How did your bookkeeper happen to make such a bad mistake in your last published statement? He puts your circulation at the impossible figure of $6,999,997.50."

The St. Louis official laughed. Said he: "Those figures are correct."

"But there are no two-and-a-half dollar bank notes issued, as your statement would seem to indicate."

"I know that. The matter is, however, easily explained. The Government will redeem a bill torn in two for one-half its face value. Some person lost one of our $5 bills, presented half of it for redemption, for which he received $2.50, and the balance of the bill is still to be heard from."

The Shakespeare Development Co. has been formed at Sault Ste. Marie, capital $300,000. It is not clear whether the idea is to develop Hamlets for the stage or develop the King Lear mine of Cobalt.

Mr. F. H. Mathewson, Montreal manager of the Canadian Bank of Commerce, and president of the Board of Trade, leaves to-night for Europe, and expects to be away about three months.

BRITISH CONSOLS STEADY.

How They are Traded In and Their Recent Fluctuations.

British Consols are not treated as the general London list. Other issues, stocks, mines, railroads, foreign bonds and the miscellaneous securities of that great Exchange settle once a fortnight. In Consols, however, the speculative account is adjusted monthly. It is noteworthy that the speculative account open at the settlement just completed was so considerable as to have an influence upon the money market. The ordinary investment business in Consols is transacted for cash. The transfer of the security is merely a matter of the seller's signing the Bank of England's books.

Consols, however, have also an interesting speculative side. In late years they had quite an extensive range. Even in 1898 the price, in the old 2¾ per cent. form, touched 108, while towards the end of the Boer war, as a 2½ per cent. security, Consols sold at 85. Even in the present account the fluctuation has been quite considerable. In the price movement there is the difference between 91 3-16, the top price for account, and 89¾, the price on the settling day. A fluctuation of nearly 1½ per cent. in a month is an important movement, and shows a decidedly sensitive position.

BANK OF ENGLAND'S STAND.

Will Have to Stop the Big Drain of Gold to States.

London, May 7—In expressing the opinion, that it is impossible for the Bank of England to allow much more gold to be withdrawn, the Statist says:

"The bank will have not merely to protect its existing reserve, but during the next few months it will have to obtain increased reserve in order to be in a position to meet the usual autumnal demands. The probability is that the rate of discount will soon be further advanced."

WAS PROFIT-TAKING TO-DAY.

But the Market Was Mixed and Shorts Covered.

Wall Street, May 7.—Profit-taking in liberal volume was in evidence at the opening of the stock market to-day, and initial prices showed almost uniform declines, ranging from stout fractions to a full point. This pressure, however, was removed soon afterward, and it soon appeared with these offerings out of the many stocks were in scarce supply, a fact which set shorts covering in heavy volume. Reading enjoyed a further wide improvement on urgent buying of this character, and the action of certain other shares denoted a considerable short interest outstanding. When the advance was resumed further liberal selling appeared, which was attributed to people who supported the market at lower prices.

CROPS JEOPARDIZED BY LACK OF SNOW

Strawberries and Clover in the Ottawa Valley Damaged.

SHARP ADVANCE IN BUTTER

Cheese and Eggs Higher—The Guarantee Question on Cowansville Board.

Special to The Montreal Star.

Ottawa, May 7.—The statement is made by horticulturists that the strawberry crop in the Ottawa Valley will be a complete failure this season. The past winter has proved disastrous to the plants. Those at the Experimental Farm were ruined. Mr. W. T. Marcoun, the horticulturist at the Experimental Farm, declares that nearly all the herbaceous perennials have been destroyed, an experience unprecedented in the history of the farm The clover crop is a total failure. The destruction of the plants was caused by the lack of snow, the extreme changes of temperature, and the warm periods during which the earth was thawed out for several inches in depth. These were followed by rain and severe frosts, which literally destroyed the fibre of the roots.

HAS CHEESE BOARD WON?

Buyers Promise Guarantee at Cowansville—Contracting at Cornwall.

Special to The Montreal Star.

Cowansville, May 5. — At Saturday's session of the Dairy Board, President T. L. Burnet was in the chair, and a large assemblage of salesmen were in attendance.

The feature of the afternoon was the announcement of the president, in opening the session, that By-law No. 21, of which so much has been said in the past, would for this one session, be waived on account of a promise received from the buyers that next Saturday they would be on hand prepared to put up guarantee of payment for goods purchased, either by accepted cheque or other approved method and means. It is understood that the proposition or suggestion thrown out the Saturday previous by Mr. Arthur Jones, manager for Gunn, Langlois & Co., Ltd., that he would do something of this sort, led to the break of the combine among the buyers, and that Mr. Jones was prepared to put up his guarantee at this session, but would not take an unfair advantage of the rest of the buyers present. The whole session's outcome was in the nature of a victory for the salesmen.

Mr. H. A. Hodgson, president of the Montreal Produce Merchants' Association, was present, and essayed to find out the arrangement that had been made, but no information was vouchsafed by the chairman.

The firms represented or present on the board were Jas. Alexander, Ltd., represented by A. W. Woodard and D. C. Alexander; Lajeunesse & Duclos, represented by Mr. Date; Hodgson Bros., by H. A. Hodgson and P. F. Ferguson; A. A. Ayer, by H. H. Hibbard; the D. A. McPherson Co., by W. P. Hibbard; A. W. Grant, by W. T. Wilkinson; Gunn, Langlois Co., by Arthur Jones and John O'Dell; Lovell & Christmas, by R. Scott, Jones, Marshall & Rutherford, by A. A. Hibbard, and Dalrymple & Son, by Albert Dalrymple.

Twenty-two creameries boarded 1,031 boxes of butter, and four cheese factories offered for sale 138 boxes of cheese, and the top prices for butter were 18⅞c for one single creamery, Frelighsburg, and 10⅝c for cheese, Montreal inspection.

Vice-President Bouchard acted as auctioneer, and the following sales were made, sales being made in French and English for the first time in the board's history:

Jas. Alexander, Ltd., 802 butter at 18⅝ to 18¾c; A. Dalrymple, 86 at 18⅝c; Hodgson Bros., 30 cheese at 10⅝c, and 87 butter at 18⅝ to 18⅝c; Gunn Langlois Co., 65 cheese at 10⅝c, and 19 butter at 18⅝c; Lovell & Christmas, 23 cheese at 10⅝c; unsold, 20 cheese and 80 butter.

Brockville, Ont., May 7. — At the meeting of the cheese board held here Saturday, 2,516 boxes were boarded; 2,063 colored, balance white; 10⅝c offered, but none sold.

Belleville, May 7. — The organization meeting of the local cheese board for the year was held Saturday afternoon, and was well attended. The officers were elected as follows: President, W. J. Crews; first vice-president, D. Young; second vice-president, D. Hanley; secretary-treasurer, D. J. Fairfield; auditors, M. Lovett and P. H. Lawson.

A discussion ensued on the advisability of having the weight of all cheese stencilled on the boxes, and it was resolved that it should be done in future, and that it be incorporated in the rules and regulations of the board.

A committee, consisting of Dr. J. A. Simmons, W. J. Crews, D. J. Fairfield, J. A. Kerr and W. J. Magrath, was appointed to revise the rules and regulations of the board and bring in a report at the next meeting.

Thirty-four factories boarded 1,032 boxes white and 491 boxes colored cheese. 1,032 boxes of white and 491 boxes of colored were sold. White brought 10 15-16c to 11c, and colored 10 9-16c to 10⅝c. The balance sold on street at low prices.

Last year's prices at this date were from 9⅜ to 9½c, to-day's prices being over 1c higher than same date last year.

W. J. Magrath & Co., of this city, will this year send a representative to the Brockville cheese board. During the past week this firm sent over $100,000 worth of cheese to the Old Country.

The grass is backward in this section at present, and prospects are not favorable for any large make of new cheese before the beginning of June.

Winchester, Ont., May 7. — At the meeting of the cheese board Saturday night, 568 boxes colored and 63 white were boarded. 10 9-16c for colored and 10⅝c for white was offered. 488 white and 63 colored were sold.

Cornwall, Ont., May 7. — At the Cornwall cheese board Saturday, 397 boxes were sold, 128 white at 10⅝c, and 269 colored at 10⅝c. The offerings were small, as the bulk of the cheese in this district has been contracted at Cornwall ruling. This step of the salesmen, if persisted in may result in the abolition of the board.

Alexandria, Ont., May 7. — At the cheese board meeting Saturday, no cheese was boarded, as buyers were not present.

Vankleek Hill, May 7. — The Vankleek Hill cheese board held the first meeting of the season at 3 p.m. Saturday. Mr. Chas. Northcott was elected president; H. C. Jones, secretary and salesman. One hundred and forty-six boxes were boarded. Highest price bid on the board, 11c for white and 10⅝c for colored. All sold except 35 boxes colored, which were held for higher price. Four buyers present.

Crysler, May 7. — On the cheese board Saturday 252 boxes of white and 136 boxes of colored were boarded: 35 boxes white sold at 11 1-16c. The balance of the white sold at 11c, and 81 boxes of colored sold at 10⅝c.

Watertown, N.Y., May 7. — Sales of cheese on opening of board Saturday, 3,000 boxes at 9 to 9¼c, for large and small.

Canton, N.Y., May 7. — Butter sold at 19¼c; cheese sold at 9¼c.

CHATS ON CHANGE

Mr. F. H. Mathewson, president of the Montreal Board of Trade, who will act as one of the delegates to the coming Congress of Chambers of Commerce of the Empire, is now in New York city, from which centre he will sail shortly for England.

A Buenos Ayres cable said: "Weather is showery. Holders refuse to sell to any extent at present low prices. There will be more doing a little later on, during next week or two."

The U.S. Government crop report to be issued May 10 will show the area of wheat in cultivation on May 1 and the per cent of abandoned acreage, the condition of winter rye, meadow mowing lands and spring pastures, per cent. of spring ploughing and of spring planting completed by May. The report is expected to be ready by 12 o'clock, Washington time, as usual.

Chicago says: Both sides of the speculative controversy in oats greatly curtailed their operations lately, each waiting for the other to make the next move. Patten found that the shorts were less eager to buy, and he accordingly offered nothing. The situation in cash oats was a little different. Recent large sales through the East had caused some demoralization among the larger buyers, but there was a host of the lesser sort to take their places, and the Patten holding was again reduced by about 250,000 bu. The same prices were sent out on cash oats by the Patten forces, as previously, thus showing a tendency to wait for the buyer to regain his confidence.

New York says: Paralysis in the cash grain trade on account of the strike and no offerings of grain by lake, and realizing in the speculative markets, where not supported by strong bull parties, were the greatest and almost only features to note lately.

George Urban, of Buffalo, N.Y., in touching on the flour market, had this to say: "There is only one way that I can account for the dull trade in flour. We have been holding our wheat prices too high and trying to sell all our flour at home. In order to sell our flour surplus, the price of wheat will have to go to a level with the Canadian product, so that the millers will be able to compete with the foreign millers. Our mills are shut down and there are a whole lot of others in the same fix throughout the east."

Shipments of American corn are arriving out of condition at Germany—even shipments from New York, which is the highest grade of any seaboard market. The continent is anxious to cancel corn purchases rather than have shipments made, as there is less loss reselling than taking delivery of the poor condition corn on arrival abroad, as Argentine corn condition is guaranteed. Exporters who are not long on ocean freights are again selling out long corn futures and cancelling sales to Europe. Those exporters who have ocean freight against sale also have orders to cancel, but can't resell, as they are unable to re-let ocean room. This is the situation at seaboard.

WHEAT STEADY AT NOON.

Nearly Three Million Reduction in Visible—Oats Firm.

From a Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, Ill., May 7.—May wheat sold from 81 7-8 to 79 5-8 to 80 3-4 and July from 79 3-8 to 78 7-8 to 79 1-8, compared with closings yesterday of 81 and 79 1-4c respectively.

The bulls in May wheat attempted to throw over a good sized chunk of that grain after forcing prices upward to 81 7-8, but it broke to 79 5-8 on comparatively few transactions. The crowd backed away from the offerings in a hurried manner. July was forced up to 79 3-4, but broke nearly a cent on only moderate offerings. The bears in wheat are afraid to make any attempt to pull the props out from under the market owing to the strength at Liverpool and the decreasing stocks in that market. World's shipments were larger than expected and there was a further increase in the amount of grain on ocean passage.

Winnipeg, Man., May 7. — The Canadian Northern seeding report for the week indicates that in the older districts work is finished, and that from 75 to 90 per cent. is completed in the north-western part and in the newer districts. Rain has fallen, doing much good, and in the Battleford district there was a fall of snow, which was also of benefit. At Gladstone 60 per cent. is above ground. About 9,000 acres are seeded at Kamsack, and 8,000 are yet to be seeded. At St. Jean 56,000 acres are under crop, while 20,000 acres will be seeded around Emerson, Low Farm, Acland, Dunrot and Minto. No rain has fallen around Neepawa. The growth in the majority of districts is very rapid.

The Liverpool spot wheat market closed unchanged, to-day, at 6s 7 3-4d to 6s 8d for No. 1 Northern Manitoba, 6s 6d to 6s 6 1-2d for No. 2, and 6s 5 1-4d to 6s 6d for No. 3. Options closed 1-8 up, at 6s 8 7-8d for May, and 1-4 up, at 6s 7 3-8d for July, and 1-8 up, at 6s 6 1-2d for September. Antwerp closed steady, at 17 1-4 for Bahia Blanca. Paris closed steady at 22.70 for May, and 22.10 for September and December.

Winnipeg was steady at noon, on May, at 78 7-8, July at 80 3-8, and October 76 5-8.

Chicago was 1-8 up, at noon, on May, at 81 1-8, and 1-8 down on July, at 79 1-8. May corn was 1-8 down, at 46 7-8, and July 45 3-4. May oats steady, at 32 1-4, July 30 7-8.

Duluth was 1-8 lower on July wheat, at 80 1-8.

LOCAL MARKET.—Some large sales of oats have been made at last week's figures, viz., 39 1-2, store, for No. 4, 40 1-2 for No. 3, and 41 1-2 for No. 2. Demand is good and prices are very firm, occasional sales bringing more than quotations. Stocks in store in Montreal show a falling off of 26,555 bushels, and are now 297,484. It is expected that shipments for export account will be of considerable volume for some time to come.

SURPRISE IN BUTTER MARKET.

Jumped About a Cent—Cheese and Eggs Also Advanced.

Can. Associated Press:

London, May 7.—Demand for Canadian cheese was of a hand-to-mouth character, as buyers were looking for a regular weekly decline during May. Choicest were quoted at 62s., and colored at 65 to 66s.

Butter.—There was a surprise in the butter market last Saturday, when buyers got out to Cowansville and found they would have to pay all the way from 18⅝ to 18⅞c for their butter. This practically meant that the market was a cent more than they thought it was. This morning, the local market was in a very undecided condition. Dealers hardly knew whether to follow the advance or not. Purchases which were made at 18c, per lb., wholesale, on Saturday, were re-sold this morning, at 18 1-2, without difficulty, and the seller allowed that the quality was not the best. Others were demanding 19 for choicest creamery and it is likely that that figure represents pretty accurately the market price, the range being 18 1-2 to 19c. for fine choicest, according to quality. There was apparently very little trading this morning, merchants holding off until the situation developes.

It is believed that, although England does not want any fodder butter, she was induced to purchase by the low prices of last week, and that perhaps a thousand packages were taken.

Cheese.—The advance in cheese was not so great a surprise as that in butter, for the reason that it was known that shipments to the other side were very large and there was an active competition on country boards to obtain the stock. In fact, the market showed a disposition to advance each day, towards the end of last week, and more than one dealer looked for an advance. Sales were being made to the other side at a basis of around 11c, and it was almost a certainty that the heavy shipments would leave very little stock here.

Country boards on Saturday went at such prices that much of the stock could hardly be sold at 11 1-4 here. At the same time it is thought that that figure is about the market, and that 11 to 11⅛c. is about the most buyers would grant for white, while 10 7-8c to 11c. is the range for colored. Talk of shorts still continues.

Eggs.—The market was very firm today. Packers are now putting away stock as fast as they can, some doing this on their own account, and others on contracts. Consequently, the quality of eggs for sale is quite light, and as a result, prices are if anything higher than last week. Dealers expressed the opinion, this morning, that they would not be able to make purchases at 16, wholesale, mentioning 16 1-2c. as about the proper figure. Sales were being made to grocers, in single cases, at 17c. The market is unquestionably very firm.

Potatoes.—Sales of potatoes were made to the west at a basis of about 65c. here, per 90 lbs., on carloads, on track. Dealers quote 63 to 67c. for fine to finest stock, the market being about steady. Potatoes are selling in broken lots, per bag, of 90 lbs., at about 75c. delivered into store. Some may sell at 70 and an occasional lot may bring even more than 75c.

COTTON RATHER EASIER.

Edmund & Charles Randolph's letter: According to the common talk around the "Street," very important interests are opposing each other in the near months, and many traders are avoiding these positions as being under the influence of manipulation. It is to be borne in mind, however, that spot cotton is still over a parity with July contracts, the bulls have secured control of a large part of the local stock available for delivery on contract, and with a big speculative short interest in July, it would seem that with any favorable news or a change for the worse in the new crop outlook the shorts might be severely punished. So far as the new crop months are concerned, they have been sold liberally on the good start for the growing crop, and will undoubtedly prove very susceptible to bad weather news, or even to continued advances in the old crop opinions.

TO-NIGHT'S WRESTLE WILL BE NO JOKE

To-night Montrealers will for the first time have an opportunity of seeing a contest between two Japanese, in their national style of wrestling—jiu-jitsu.

Much has been said and written regarding the merits of jiu-jitsu, and upon one or two occasions local wrestlers have been induced to meet one of the little men from the Flowery Kingdom. But in these matches the jiu-jitsu man was handicapped by not being permitted to use certain holds.

To-night only a few of the most dangerous holds will be barred, and the many Montrealers who have long sought an opportunity of witnessing a real test of the merits of the system, will be gratified.

While, from the standpoint of curiosity, the jiu-jitsu match will hold first place in the interest of the audience, it is expected that the Graeco-Roman bout will be a most exciting one. Pietro, the Frenchman, is one of the best, most feared wrestlers of Europe, and is probably the only man who ever disposed of Frank Gotch in three minutes, this being Pietro's performance during the tournament here a few weeks ago. Poiree is an antagonist who will keep the burly Frenchman busy from the time he comes on the mat. Poiree is powerful and skillful, and will give a good account of himself.

The lovers of wrestling are, consequently, assured of an enjoyable evening at Sohmer Park to-night.

Diamond engagement rings from $25 to $500. R. Hemsley, 255 St. James St.

HENDERSON COMPANY.

Re-organization Completed — Total Stock is $300,000.

Toronto, May 7.—The reorganization of the Henderson Roller Bearing Company is now practically completed. The reorganized company has been corporated as the Dominion Henderson Bearings, Limited, with a capital of $125,000 preferred stock and $175,000 common. The property purchased from the liquidation by the reorganization committee has been transferred to the new company. It is said that the stock will next week be distributed to the shareholders who come into the new company. The committee is now considering a number of names for the position of general manager to raise to the board. They expect to reach a decision early next week, and the shareholders will be called together to elect a permanent board of directors the week after. The amount of cash actually paid into the new company by stockholders of the old company is between $57,000 and $60,000, and out of this $5,500 has been paid over to the Trusts and Guarantee Company, liquidators of the old company.

Fatal Duel in Ohio.

Cleveland, Ohio, May 7.—Following a quarrel between Samuel Wallace and Matthews Aurell, at Randall, a few miles east of here on the Erie road, early to-day, the men fought a pistol duel with the result that Wallace is dead, while Aurell is missing. A posse is hunting for Aurell.

Ride Cost Him His Life.

Napanee, Ont., May 7.—A young Englishman, named King, while stealing a ride on the blind baggage of the westbound G. T. R. express Saturday night, was caught between the bumpers and killed at Kingston, but his body was held until the train arrived at Napanee, when it was discovered.

ROBBERS SMASHED DOOR WITH HAMMER

Under Nose of Police, They Secured $150,000 From Leiter's Office.

Chicago, May 7.—Burglars early today entered the office of Joseph Leiter, who became famous several years ago when he attempted to corner the wheat market, blew open two vaults and escaped with bonds said to be valued at from $100,000 to $150,000. The building in which the office is located is within half a block of police headquarters.

The men had entered by the office by breaking the door with a sledge hammer, which it is thought by the police, had been covered with rubber or cloth in order to muffle the sound. Employes of the firm upon arriving at the office, discovered papers and documents scattered over the floor. Among these papers was a bond valued at $2,000, which evidently had been overlooked by the burglars.

LEFT STOLEN MONEY IN CONFESSIONAL

Banque Nationale Gets $1635 From Priest to Whom Thief Gave it.

Sherbrooke, Que., May 7.—The $1635, which disappeared from La Banque Nationale here on Tuesday, April 24th, was recovered last night. The culprit left the money in the hands of the Rev. J. S. Roy, rector of St. Michael's Cathedral, under the confessional secret, asking him to remit to Mr. B. A. Dugald, manager of the bank. Mr. Dugald received the money last night. Upon returning to the bank he looked for Tanguay, the night watchman, who was with the messenger the day the money was lost, but could not find him. The detectives are working on the case.

STILL THROWING BOMBS IN RUSSIA

Vice-Admiral Said to Have Had His Foot Blown Off and a Governor Has Been Assassinated.

St. Petersburg, May 7.—While Vice-Admiral Doubasoff, governor of Moscow, was returning yesterday afternoon to his residence from a church service in commemoration of the Czarina's name day, a young man threw a bomb at him. The missile exploded and blew off one of the governor's feet and severely wounded him in the head. It is feared that the latter wound will prove fatl. The man who threw the bomb was killed, as were also the governor's adjutant, Colonel Kokonetseff, a policeman, who was standing outside the church, and a boy. The assasin was dressed in the uniform of a naval officer.

Vice-Admiral Doubasoff was appointed governor-general of Moscow in December last. He is also an aide of the Emperor and a member of the Council of the Empire. Since his appointment as governor-general several plots against him have been uncovered.

ASSASSIN IDENTIFIED.

Moscow, May 7.—It turns out that the man who attempted yesterday to assassinate the Governor-General of Moscow, Vice-Admiral Doubossoff, was a revolutionist disguised as a naval officer which enabled him to approach the palace without creating suspicion. He carried the bomb in a candy box and had a false passport, in which his name was given as Metz, which proved his connection with the three revolutionists who were killed by the explosion of a bomb in their room on Saturday last, that being the name under which the partment occupied by the revolutionists was rented.

ANOTHER GOVERNOR SHOT.

St. Petersburg, May 7.—The report of the assassination of the Governor of Elizabethpol, in revenge for his savage repressions in the caucasus, which reached here last night, was incorrect. It was the Governor-General of Ekaterinoslav, South Russia, who was assassinated yesterday evening by six unknown persons who fired volleys from revolvers at him and then escaped.

FIGHT FOR AN EARLDOM.

Toronto Man Likely to Be Earl of Airth and Menteith.

Special to the Montreal Star.

Toronto, May 7.—On the decision in a case before the British House of Lords rests the succession to the vacant Scottish Earldom of Airth and Menteith, and, according to reliable authorities, the result will be to place Mr. George Marshall Graham, of this city, in full possession of the title to this ancient Scottish earldom. There are two claimants to this earldom, Robert Barclay-Allardice, mayor of Lostwithiel, Cornwall, and Mr. Graham. The former is of humble origin on the paternal side and bases his claim on his maternal descent, while the latter is descended on the paternal side not only from the earldom of Menteith, but also from the earldom of Strathern. (Created 1631). The present Premier of Great Britain, Sir Henry Campbell-Bannerman, is descended from Mr. Graham's house.

Winter Shipping at St. John.

Special to the Montreal Star.

St. John, N.B., May 7. — The winter port business for 1905-6 at St. John has closed and the figures of exports are complete except for the goods taken by the steamer Wyandotte to South Africa. The sailing of ocean bound steamers from here this season numbered 113, as compared with 102 last season. The exports total in value more than $23,000,000. The value of last season's shipments was about $13,750,000. United States goods shipped through here show a big increase. Last season they were valued at nearly six millions, and in the season just closed reached nearly nine millions of dollars.

Killed, Before Wife's Eyes.

Special to the Montreal Star.

Edmonton, Alta., May 7.—J. J. Woolsey, a Canadian Northern engineer, was taking his engine out of the round house here Saturday when the injector burst, filling the cab with steam. He jumped to save himself from being scalded, but as he did so he turned the throttle and the big locomotive bounded forward, throwing him under the wheels and severing his head from his body at the feet of his wife of a few months. Woolsey was an old and experienced railroad man and formerly resided at Winnipeg.

Will Proceed With Action.

Special to The Montreal Star.

Ottawa, May 7.—Mr. John Murphy will proceed with his action against the Hull and Ottawa Power and Manufacturing Company. The appeal maintained in the Court of Appeals, Montreal, was against the interlocutory injunction granted Mr. Murphy, prohibitng the company from using the invention for thawing frazil and slush from water wheels.

Few Girl Immigrants.

Special to the Montreal Star.

Toronto, May 7.—"Out of nearly 14,000 immigrants, who have come under our attention this year, more than eight per cent. have been women and girls," said an office of the Ontario Immigration, "and nearly all the gentler sex were married women. This shows there is good ground for the statement from the west that men there are unable to find wives."

Highwaymen Near Toronto.

Special to the Montreal Star.

Toronto, May 7.—Albert Watson, a butcher, of Malton, was held up on the York Mills Road by highwaymen and robbed of $150. He was driving home from Toronto after selling a load of beef, and had on him about $350 when held up.

Grand Trunk Buys Land.

Special to the Montreal Star.

London, Ont., May 7.—The G. T. R. Company have purchased more private property here within the last few days. It is stated that the company within the past two years has expended $350,000 for property in London.

Miss Roselle Knott, the well-known Canadian, has instructed her managers to insert a clause in all contracts granting courtesies to local chaplains of the "Actor's Church Alliance." This is the first definite step taken by any actress in regard to the Alliance.

WESTERN MEMBERS WERE THEIR GUESTS

The Lafontaine Club Entertains Ontario and Manitoba Parliamentarians.

HEIRS OF CONFEDERATION

Conservative Party is Carrying on Work of Founders of the Dominion, Say the Speakers.

Confidence in the leader and hope in the future of the party were the keynotes of the speeches at the Lafontaine Club's monthly gathering on Saturday evening, when a number of members of Parliament from Ontario and the West were entertained. Especial stress was laid upon the work done during the past session, and upon this was based the confidence that the days of the present Government are numbered.

Mr. F. D. Monk, K.C., M.P., who presided, welcomed the guests of the evening, who included Messrs. A. E. Kemp, Toronto East; A. B. Ingram, East Elgin; J. E. Armstrong, East Lambton; B. B. Gunn, South Huron; Dr. W. J. Roche, Marquette, Man.; Dr. Fred. L. Schaffner, Souris, Man. Mr. Monk expressed regret at the absence of Mr. R. L. Borden, M.P., and explained that the position of leader of the Opposition was a busy one in a session like that now on, and that it was more difficult for Mr. Borden to leave Ottawa than for a Minister of the Crown to get away. No leader had ever had more onerous or important duties to perform and none had accomplished his work with more care and attention.

TOLERATION AND GOOD FEELING.

The guests of the evening Mr. Monk designated as the political heirs of the men who had banded together, in Ontario and Quebec, on the broad grounds of religious toleration and good feeling among diverse nationalities to found the Dominion. He wished to assure their guests that this feeling still prevailed in the province of Quebec, which was always ready to work to carry out the great principles that underlay the foundation of Confederation.

The coming of the members from the West was a happy augury. He was happy to assure them of the esteem and appreciation of all for their uniformly kind and courteous treatment, which excluded all narrowness and prejudice. Their coming was a sign that the party was united in every fibre—a party of earnest men, who desire nothing more than the triumph of truth and the progress and welfare of the nation.

Many momentous questions remained to be settled, and a new Government, with clean hands and unhampered by a shady past, must be called upon to carry forward the development of the country. Such a Government the Conservative party would supply, and would be prepared to go to work with that vigor which characterizes a new Government.

MAKERS OF CANADA'S HISTORY.

Mr. A. E. Kemp declared that adherence to principles was better than power. When the history of Canada since Confederation is written, that great event will occupy the first place, and with it will come the building of the Intercolonial and the Canadian Pacific. Of such great national accomplishments the record of the past ten years is a blank.

Referring to present-day matters, Mr. Kemp declared that public opinion must be somewhat blunted, for such a deal as the North Atlantic Trading Contract was sufficient to drive a Government from power. The history of that contract and the North-West land deals must cause Canadians to feel ashamed of the Government of the country.

"THIN RED LINE."

Dr. Roche dwelt more particularly with the "thin red line" scandal, where the Liberal organizer disfranchised hundreds of electors in Manitoba. The people had already begun to revolt against the party responsible for such things. Manitoba had started first; then British Columbia and Ontario had returned Conservative Governments. These were but the forerunners of the fate of the Liberal Government at Ottawa.

Messrs. Armstrong, Schaffner and Gunn also spoke, after which Mr. Kemp proposed the toast of the club, to which Mr. F. J. Bisaillon, K.C., and Mr. L. T. Marechal, K.C., replied, and the gathering closed with remarks by Hon. L. O. Taillon and Mr. Louis Beaubien.

Murderous Affray at Nashville.

Nashville, Tenn., May 7.—Marvin Winters was shot and instantly killed and Thomas Stewart and his young daughter severely wounded during an affray at Stewart's home, near Pleasant View, Cheatham County, Saturday night.

The TERRIBLE PANGS OF DYSPEPSIA CAN BE CURED

To be dyspeptic is to be miserable, hopeless, confused and depressed in mind, forgetful, irresolute, drowsy, languid and useless.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic.

Dyspepsia is a disease that in one way or another resembles nearly every other disease, and the only way to get rid of it is to tone up the stomach, liver, bowels and blood. This will be quickly done by the use of

BURDOCK BLOOD BITTERS

It regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, removes acidity, purifies the blood, and tones up the entire system.

Mrs. M. A. McNeil, Back Village, N.S., writes: "Last winter I was very thin and was fast loosing flesh owing to the run down state of my system. I suffered from dyspepsia, loss of appetite and bad blood. I tried everything I could get but to no purpose. I finally started to use Burdock Blood Bitters, and from the first day I felt the good effects of the medicine and am strong and well again. I can eat anything now without any ill after effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."

NEW HOME FOR PHARMACY COLLEGE

Old Bishop's College, Ontario and Mance Streets, Will Be Ready for October.

The Montreal College of Pharmacy held their annual meeting, Saturday, the president, Mr. David Watson, presiding. The annual report and treasurer's statement was read by Mr. E. Muir, secretary-treasurer, and showed the college to be in a prosperous condition.

In his address the president announced that the building committee and executive board had purchased from the F. W. Campbell estate, the old Bishop College building, corner of Mance and Ontario streets, which would be thoroughly renovated and equipped for the next session in October.

The following officers were then elected:

President, Mr. David Watson, and secretary-treasurer, Mr. E. Muir, reelected.

Vice-president—Mr. W. H. Chapman.

Executive board—Messrs. John E. Tremble, E. Giroux, A. E. DuBerger, A. Goyette, W. Albert, Thomas R. Goulding, F. J. Leduc, R. W. Williams, and C. J. Covernton.

The Late Mrs. Edward Thomson.

The body of the late Elizabeth Story-Todd, widow of the late Edward Thomson, will be brought to Montreal for private interment in Mount Royal Cemetery. The deceased has for some time been living in the College House at Lennoxville, and passed away there at the age of 94 years. Mr. Thomson, the late husband of the deceased, was a well known man in Montreal, and in the year 1854 held the positon of an alderman. Mrs. P. M. Christie is a daughter, and Mrs. H. H. Henshaw, a grand-daughter.

Mass Meeting of Bakers' Union.

Will Horn, of San Francisco, general organizer of the Bakery and Confectionery Workers' International Union, addressed a mass meeting of the local unions on Saturday afternoon in St. Joseph's Hall.

He said he understood there were six unfair bake shops in the city. Only thirty men were on strike, and they would be supported from headquarters until a settlement was reached.

STANDARD OIL COMPANY SCORED

Commissioner Garfield Submits His Report on the Oil Industry Investigation.

Washington, May 7.—Commissioner of Commerce and Labor Garfield has submitted a report on the oil industry which has to do with the subject of transportation and freight rates.

The subjects investigated are given under the following heads:

The crude oil production in the United States and its relation to the world's supply; the prices and methods of purchase; the use, development and control of pipelines.

Refining of oil; the control of refineries; the cost of refining and marketing; the prices of petroleum products.

The organization, ownership and relation of the companies engaged in the production, manufacture and distribution of oil.

The competitive methods used in the production and sale of oil.

Transportation and freight rates.

Foreign trade and conditions and their relation to the domestic industry.

Commissioner Garfield says, in part: "The general result of the investigation has been to disclose the existence of numerous and flagrant discriminations by the railroads in behalf of the Standard Oil Company and its affiliated corporations. With comparatively few exceptions, mainly of other large concerns in California, the Standard has been the sole beneficiary of such discriminations. In almost every section of the country that company has been found to enjoy some unfair advantages over its competitors and some of these discriminations affect enormous areas."

Constantinople, May 7.—In the event of war between Turkey and England, the Sultan's navy will probably be commanded by an American. He is Admiral Ramsford Bucknam. He is a native of Bucksport, Maine, and for many years sailed between San Francisco and Oriental ports. Later he became trial captain for warships built by Cramps, and commanded vessels sent by Cramps to Turkey.

M'LEAN TELLS A STRANGE STORY

Ate of the Candies Which Killed His Friend and Knew That She Had Put Poison in Them.

Edmonton, Alta., May 7.—According to a disconnected story told by McLean, the man found in this vicinity suffering from poison, at the hospital, when he was sufficiently recovered to be able to speak, he had gone out in the morning to visit Miss Fortier, who lives with her mother and sisters north of Rat Creek. Miss Fortier had in her possesison a bottle containing some powder, and few days since had made the threat to McLean that she would poison herself.

In the morning they had both been drinking rather heavily, and about 1 o'clock in the afternoon Miss Fortier brought out some chocolates, which she had, and McLean saw her insert some of the powder from the bottle in some of the candies. She offered them to him. Later, when they were walking in the bush, both ate some of the candies. Miss Fortier was seized with convulsions and died in a few minutes within a short distance of the tent where they lived. McLean also was seized with convulsions. They were discovered almost immediately, and police sent for. An inquest will be held on the body of Mary Fortier.

When asked why he ate the candies when he must have known there was poison in them, McLean said he did not realize what he was doing, as he had been drinking. Miss Fortier is a young woman who had been living with her mother and sisters in a tent north of Rat Creek for some time. McLean is 32 years of age, and has been employed as a teamster in the city. His parents live on a farm a short distance from Edmonton.

5342, Breakfast Jacket. 5141, Five-Gored Tucked Skirt.

FOR SUMMER MORNINGS.

Morning gowns made with skirts and breakfast jackets to match are among the latest whims of fashion and are exceedingly comfortable as well as dainty and attractive. This one is made of a pretty figured lawn with trimming of simple embroidered flouncing and banding and is absolutely cool and summer-like in effect. The jacket is one of the prettiest of the new ones and can be made as illustrated, with the open neck, or extended to the throat and finished with a turn-over collar. The skirt is made after one of the best of all models for washable fabrics and is five gored, the fulness being laid in tucks at the belt. All the simpler materials of the summer are appropriate, white materials as well as the colored and flowered ones. Also the bertha in place of being made from embroidery can be of the material if better liked.

For a woman of medium size the jacket will require 3 1-2 yards of material 27, or 2 3-4 yards 38 inches wide with 4 1-4 yards of embroidery 10 inches wide and 2 1-2 yards of banding; for the skirt 7 1-2 yards 27 or 5 1-2 yards 36 inches wide.

A May Manton pattern of the jacket, No. 5342, sizes 32 to 42 inches bust, or of the skirt, No. 5141, sizes 22 to 30 inches waist, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents for each.

The Long Night

By STANLEY J. WEYMAN,

Author of "A Gentleman of France," "Under the Red Robe," "The House of the Wolf."

CHAPTER XXI.—(Continued.)

Before he was five minutes older he was reminded of the necessity. At the door of his house the pains of the disease from which he suffered—aggravated, perhaps, by the excitement through which he had just passed, or by the cold of the weather—seized him with unusual violence. He leant, pale and almost fainting, against the doorjamb, unable at the moment to do so much as to raise the latch. The golden dreams in which he had lost himself by the way, the visions of power and fame, vanished as he had so many times seen the after-glow vanish from the snow peaks; leaving only cold images of death and desolation. Presently, with an effort, he staggered within doors, poured out such medicine as he had, and bent double and almost without breath, swallowed it; and so, by and by, a wan and wild-eyed image of himself, came out of the fit.

He told himself in after days that it was that decided him; that but for that sharp fit of pain and the prospect of others like it, he would not have yielded to the temptation, no, not to be the Grand Duke's favorite, not to be Minister of Savoy! He ignored, in his looking backward, the visions of glory and ambition in which he had revelled. He saw himself on the rack, with life and immunity from pain on the one side, the prospect of a miserable death on the other; and he pleaded that no man would have decided otherwise. After that experience the straw did not float, so thin that he was not ready to grasp it rather than die, rather than suffer again. Nor did the fact that the straw at that moment lay on the table beside him go for much.

It did lie there. When he felt a little stronger and began to look about him, he found a note at his elbow. It was a small, common-looking letter, sealed with a B, that might signify Blondel, or Basterga, or for the matter of that, Baudichon. He did not know the handwriting, and he opened it idly, in the scorn of small things that pain induced.

He had not read a line of the contents, before his countenance changed. The letter was from Basterga, and cunningly contrived. It gave him the directions he needed, yet it was so worded that even after the event it might pass for a trifling communication from a physician. The place and the hour were specified—the latter so near that for a moment his cheek grew pale. On that ensued the part which interested him most; but as the whole was brief, the whole may be given.

"Sir" (here followed a cabalistic sign such as physicians were in the habit of using to impose on the vulgar). "After paying a visit in the Corraterie, where I have an appointment on Saturday evening next between late and early, I will be with you. But the mixture shall be sent to you twelve hours in advance, so that before my visit you may experience its good effects. As surely as the wrong potion in the case you wot of deprived of reason, so surely (as I hope for salvation) will this potion have the desired effect.

"The Physician of Aleppo."

"Saturday next, between late and early!" Blondel muttered, gazing at the words with fascinated eyes. "It is for the day after to-morrow! The day after to-morrow!" And in his thoughts he passed again over the road he had travelled since his first visit to Basterga's room, since the hour when the scholar had unrolled before him the map of the town he called "Aurelia," and had told him the story of Ibn Jasher and the Physian of Aleppo.

. . . . .

"No, I am not well," he answered. He sat, warmly wrapped up, in the high chair in his parlor, his face so drawn with want of sleep that Captain Blandano of the city guard, who had come to take his orders, had no difficulty in believing him. "I am not well," he repeated, peevishly "It is the weather." He had some soup before him, and beside it stood a tiny phial of medicine; a phial strangely-shaped and strange looking, containing something not unlike the green cordial of the Carthusians.

"It troubles me a good deal, too," Blandano said. "There are seven men absent in the fourth ward. And two men, whose wives are urgent with me that they should have leave."

"Leave?" the Syndic cried. "Do they think naught"—leaning forward in a passion — "of the safety of the city? If I were not ill, I would take service on the wall myself to set an example!"

"There is no need of that," the Captain answered, respectfully, "if I might have permission to withdraw a few men from the west side so as to fill the places on the east——"

"Ay, ay!"

"From the Rhone side of the town——"

"From the Corraterie, you mean? Well, that is least open to assault."

"Yes, from that part, perhaps, would be best," Blandano said, nodding. "Yes, I think so. Well, if I might do that, I think I could manage."

"Good, then, do it," Blondel answered. "And make a note that I assented to your suggestion to take them from the Corraterie and put them on the lower part of the wall. After all, the nights are very bitter now, and there are limits. Do the men grumble much?"

"It is as much as I can do to make them go the rounds," Blandano answered. "Some plead the weather; and some argue that, with President Rochette, whose word is as good as his bond, on the point of coming to an agreement with us, the rounds are a farce!"

The Syndic shrugged his shoulders. "Well!" he muttered, rubbing his chin and looking thoughtfully before him, "we must not wear the men out. There is no moon now, is there?"

"No."

"And the enemy can attempt nothing without light," Blondel continued, thinking aloud. "See here, Blandano, we must not put too heavy a burden on our people. I see that. As it is so cold, I think you may pass the word to pretermit the rounds tonight — save two. At what hours would you suggest?"

Blandano considerd his own comfort —as the other expected he would—and answered, "Early and late, say an hour before midnight and an hour before dawn."

"Then, let it be as you suggest. But see" — with returning asperity—"that those rounds go, and at their hours. Let there be no remissness. I will make a note," he continued, "of the hours fixed. An hour before midnight and an hour before dawn."

He extended his arm and drew the ink-horn toward him. Midway in the act, whether it was that his hand shook by reason of his illness, or that he was in a hurry to close an interview which tried him more severely than appeared, his sleeve caught the little phial of green liquid that stood beside the soup on the table. It reeled an instant on its edge, toppled on its side, and rolling, in one-tenth of the time it takes to tell the tale, to the verge of the table—fell over.

Messer Blondel made a strange noise in his throat.

But the Captain had seen what was happening. He caught the bottle dexterously in his huge palm, and with an air of modest achievement was going to set it back on the table, when he saw that the Syndic had sunk down in his chair, his face ghastly. Blandano was more used to death in the field than in the house; and in a panic he took two steps toward the door to call for help. Before he could take a third, Blondel gasped, and made an uncertain wavering movement with his hand, as if he would reassure him.

Blandano returned and leant over him. "You are ill, Messer Syndic," he said anxiously. "Let me call someone."

PILES MAKE LIFE WRETCHED

It may be truthfully stated that piles produce more excruciating pain, misery and wretchedness of feeling than any known disease. Life becomes a perfect burden during the attacks of itching, burning, stinging pains.

It is a great mistake to imagine that the effects of piles are local, for, as a matter of fact, they sap the vitality of mind and body and slowly but surely lead to the ruination of the health.

This is true of itching and protruding as well as of bleeding piles, which, because of the loss of blood, are more rapid in their disastrous effects.

Dr. Chase's Ointment brings almost instant relief from the itching, burning, stinging sensations of piles and is a positive and thorough cure for every form of this wretched, torturing and oftentimes stubborn disease. This has been proven in so many thousands of cases that there is no longer any room for doubt that Dr. Chase's Ointment is the most satisfactory treatment for piles that was ever discovered.

Frequently when doctors have failed to cure piles and the surgeon's knife has proven futile, Dr. Chase's Ointment has effected thorough cure—60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

More Facts : : : : : : About Metile.

Metile is the most sanitary wall covering made for bathrooms or kitchens.

It looks just like porcelain tiling—you couldn't tell the difference—

But costs about half as much.

It consists of a zinc sheet covered with a flexible enamelled coating.

This sheet can be twisted in any form without cracking the enamel.

It is fixed to the wall with a germ-proof cement.

Metile has this advantage over porcelain tiling that it can be attached to a ceiling or curved wall.

We're the only firm in the Province of Quebec handling metile.

Metile is made in about 25 different designs, and costs from 35c to 50c a square foot.

The John Murphy Company Limited

Monday, May 7th, 1906.
We Close Daily at 5.30 p.m.

WE SHALL HOLD OUR

Summer Millinery Opening

ON TUESDAY.

We shall then show you what is most fashionable just now in both Paris and New York.

To make sure that the styles would be positively correct our buyer took his chief designer with him to New York last week, and what was learned there will be wrought out in materials specially purchased for the purpose.

The picture hat will be very much in evidence, mostly of real mohair, fine chip braid or natural leghorn, trimmed preferably with ostrich plumes, marabou and other soft feather effects, or else with the large American Beauty or the Cabbage Rose, in natural and lighter tints.

Besides these more elaborate hats there will be scores of new adaptations of both the sailor and the lingerie ideas, all strikingly stylish and so very simple.

One prominent feature of the display will be the exclusiveness that can be had for so little money. There will be as many differences as there will be hats.

TO CONSIDER THE NOTE.

Extraordinary Meeting of the Council Has Been Called at Constantinople.

Constantinople, May 7.—An extraordinary meeting of the Council of Ministers has been summoned for to-day to consider the British note demanding the evacuation of Tabah within ten days, and Turkish consent to a joint demarcation of the frontier of the Sinaticle Peninsula.

An attempt made yesterday by the Sultan through the intermediary of a palace official to re-open the discussion met with a prompt intimation from Sir Nicholas R. O'Conor, the British Ambassador, that any communications on the subject must come through the Turkish Foreign Minister.

Mother Murdered Daughter.

New York, May 7.—Mrs. Mary A. Waters and her daughter, Agatha, were shot and instantly killed, supposedly by the mother, during a fit of temporary insanity at their residence, 144 West 76th street, early to-day. Mrs. Waters was 50 years of age, and the wife of John R. Waters, vice-president of the Irving National Bank.

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining.

It is the nerves and heart that are not acting properly.

They can be set right by the use of

MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and sleeplessness.

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly."

Milburn's Heart and Nerve Pills are 50 cents per box or three boxes for $1.25 at all dealers or sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The name of the National Drug and Chemical Co., Ltd., has been changed to the Canadian Drug and Chemical Co., Ltd.

TELLS OF BRUTAL MURDER.

Body Found by Children Who Were Herding Cattle.

Morris, Man., May 7. — Children herding cattle, near Lowe farm, found a body on the prairie and revealed to the authorities the first evidence of a brutal murder, which had been committed months ago. The jawbone of the dead man had been broken, and there were other indications of violent death, but the body had been partially devoured by wolves when found. Deceased is believed to have been one of two foreigners who disappeared last fall, and who evidently was murdered by his companion for his wages.

Drowned at Quebec.

Special to The Montreal Star.

Quebec, May 7.—A young man, named Tremblay, 21 years of age, while rolling a coil of wire on to the steamer Frontenac, Saturday afternoon, fell into the river and was drowned in full sight of a large crowd of people, who seemed too excited to render him any assistance.

Rioters Shot by Police.

IMMIGRANTS IN A RAILWAY WRECK

Party Arrived from Halifax After an Exciting Experience.

STORY OF ONE OF THEM

Strange Sensation of the Cars Falling Down Embankment—Foreigners Tried to Loot.

The immigrant passengers on the SS. Carthaginian, which reached Halifax on Friday, will, in future years, have good reason to remember their trip across seas and their railway journey from Halifax to Montreal

After spending nearly three weeks on the water, exposed to extreme peril on several successive days from icebergs and Arctic ice-floes, they had the additional misfortune to lose all their personal effects and baggage in a railway wreck near Megantic, on Friday afternoon, while en route from Halifax to Montreal.

Fifteen in the party were more or less seriously injured, a few sustaining fractures of the legs, while others received severe contusions and scalp wounds. Many of the injured were conveyed to Sherbrooke, and placed in the hospital there.

The immigrant special conveying the new settlers to Montreal was badly wrecked, two of the baggage cars being smashed to pieces and three of the passenger coaches being so thoroughly broken up, that they have been put out of business for keeps.

SUPPOSED RAILS SPREAD.

The accident occurred on Friday afternoon, at a point near Megantic, and, as far as can be ascertained, resulted from a spreading of the rails. The locomotive passed the place in safety, but immediately after the baggage car left the track, the force of the diversion from the road-bed causing a breakage of the coupling connecting the first of the two with the engine. Both cars plunged down the steep embankment, carying three of the passenger coaches with them. These were filled with immigrants, the total complement on board the special consisting of upwards of 700 men, women and children

STORY OF AN IMMIGRANT.

What occurred afterwards is best told in the words of several of the uninjured who reached the city in advance of the main party on the Halifax C. P. R. express, on Saturday afternoon.

"After the accident," said one of these to a Star representative who met him at the Windsor station, "the greatest consternation prevailed. The married women in the party were frantic with anxiety, and, for a time, were fearful lest their children had been killed or seriously maimed. It took upwards of an hour to ascertain just what physical injuries had been sustained by those in the coaches that left the track. Happily, no lives were lost, but many were seriously injured. One poor fellow had both of his legs broken, being pinned beneath one of the seats. It took some time to extricate him. Another chap sustained a fracture of the arm. Several received very painful injuries, and, in the absence of a surgeon, their wounds could not be dressed for some time. The women seemed to be the lucky members of the party, as none were seriously hurt.

A STRANGE SENSATION.

"I shall never forget the sensation I experienced as the car in which I was seated followed those in front of it down the steep embankment. My first thought was to get out in the passageway; but that was impossible, and so, like most of the others, we went to the bog beneath in our seats. Fortunately the carriage in which I was travelling suffered to a less extent than any of the others, and, beyond a few slight bruises, I and my companions escaped unharmed.

"The accident, I may say, occurred at a very sharp curve in the road-bed, otherwise the damage might not have been as bad as it was. Along one side of the track, a small stream of water flowed, and into this the cars plunged. Several of the pasengers received a bad ducking, but those who escaped uninjured did not much object to that, except in so far as it inconvenienced them for the time being. To secure a change of clothing, under the circumstances, was impossible, as most of the personal effects of the passengers were in the baggage cars, and these were completely wrecked. Personally, I only managed to save the suit I am wearing, and it is hardly the correct thing to wear in a large city such as Montreal on Sunday, is it?" And, with a laugh, he looked down at his coat, riding-breeches and leggings, all of which gave evidence of having had considerable service.

FOREIGNERS BEGAN LOOTING.

"To make matters worse," he continued, "the foreigners on board, especially the Germans, began looting the contents of the baggage cars after nightfall, and would have also ransacked the carriages if vigilant eyes had not prevented them.

ONE COMPANY UNDER.

As Result of San Francisco Fire, Insurance Company Fails.

Chicago, May 7.—A petition for the appointment of a receiver for the Traders' Insurance Company was filed in the Circuit Court Saturday.

Byron L. Smith, President of the Northern Trust Company, of this city, was later appointed receiver of the company by Judge Julian Mack of the Circuit Court.

The Traders is one of the largest fire insurance Companies in the West, and its distress is due to the heavy losses it sustained in San Francisco, said in the application for the receiver to be approximately $3,748,000. The assets, it was also stated, will not exceed $3,300,000. Other claims amounting to $111,962 are unpaid. The bonds of Mr. Smith as receiver were fixed at $2,000,000.

It was known on Friday that the company was in trouble, but it was announced and believed that the matter of its heavy losses in San Francisco could be arranged by an assessment against the stockholders of $200 a share, and as the stockholders are all wealthy men, it was believed that the trouble was at an end. Saturday, however, some of the stockholders objected to the assessment, and it was decided to place the company in the hands of a receiver. The company now has outstanding policies aggregating $160,000,000. The officers of the company are: T. J. Leffs, President; S. A. Rothermel, secretary; and S. L. Collins, assistant secretary.

CZAR EXPRESSED KEEN GRATITUDE

Eulogized Witte and Durnovo Upon Their Retirement from the Ministry.

St. Petersburg, May 5.—A member of the Council of the Empire, who was elected from the Marshals of Nobility, explained the circumstances of Count Witte's resignation, which go to show that M. Goremykin's appointment as Premier represents a victory of provincial against agricultural interests over Count Witte's system of financial centralization. At a conference of the Marshals, which was held in St. Petersburg for the election of their delegation a fortnight ago, it was evident that Count Witte's position was becoming untenable. The debates turned wholly on the position of the landed interests in the face of the inevitable demand of the Douma in behalf of the peasants for a radical scheme of land distribution. The sense of the conference was strongly against Count Witte's known solution of the agrarian question, which was described as robbing Peter to pay Paul.

Enquiries among members of the Douma to-day show that the constitutional Democrats regard the change in Premiership as merely temporizing with the situation. Premier Goremykin's local reputation on his estate in the Province of Novgorod is that of a man who is amiable and accessible to all classes, but generally disinclined to take part in active political campaigns.

OFFICIAL ANNOUNCEMENT.

The official announcement of Count Witte's retirement from the Premiership, the retirement of M. Durnovo from the Ministry of the Interior and M. Goremykin's elevation to the Premiership appeared this morning in the Official Messenger. The names of the other members of the new cabinet were not gazetted. It is asserted that one or two are hesitating, notably M. Izvolsky, Curator of St. Petersburg High Schools and University, who has been named for Foreign Minister, knowing full well that the Cabinet is a makeshift of the Emperor to let both Count Witte and M. Durnovo down. The usual rescripts do not contain the slightest suggestion of His Majesty's displeasure. On the contrary, the rescript to Count Witte puts the motives for his retirement in the best possible light, accepting the excuse of ill-health at its face value. The whole tone of the rescript is extraordinarily cordial, and besides it confers on Count Witte the Order of Alexander Nevsky set in brilliants. It is the second highest decoration in Russia. The retiring Premier also retains his title of Count, and is appointed a member of the Council of the Empire or Upper House of the new Parliament, and remains a Secretary of State. M. Durnovo, in giving up the Ministry of the Interior, becomes a Secretary of State, retains the dignity of Senator, and is made a member of the Council of the Empire.

FAREWELL RESCRIPTION.

In his farewell rescript to Count Witte under Saturday's date, the Emperor says:

"In consequence of the state of your health, which has been impaired by your arduous labors, you have been obliged to ask to be relieved of the functions of President of the Council of Ministers. When I summoned you to this important post for the purpose of carrying out my intentions in regard to inviting my subjects to partake in the legislative work, I was convinced that your proved capacity as a statesman would facilitate the establishment of new electoral institutions. Thanks to your perseverance and enlightened action, these institutions have now been called into existence and are ready to be opened, despite the opposition of the revolutionists, against whom you have displayed your usual energy and decision. At the same time you were able, on account of your experience in financial questions, to cooperate in placing the resources of the state on a sound footing by assuring the success of the new loan. In acceding to your request to be relieved of your functions, I cannot but express to you my heartfelt gratitude for the many services you have rendered.

"Your ever well disposed and sincerely grateful

(Signed) "NICHOLAS."

The papers comment caustically upon Count Witte's retirement. Even the Novoe Vremya says it is useless to attempt to claim that M. Goremykin is more Liberal than Count Witte. The paper expresses the belief that the retiring Premier is only temporarily eclipsed, and says the country cannot afford to dispense with the services of a man of his ability.

WHIPPED SCHOOL-MASTER.

Brother of Little Girl Who Was Chastised, Took Summary Punishment.

Special to the Montreal Star.

Brockville, May 7.—Corporal punishment administered by a school teacher named F. Holmes, employed at Stanley, in Grenville County, has led to novel legal complications. Holmes chastized a little girl named Johnston, and the same day her brother thrashed the schoolmaster. An action was brought in the division court by Holmes against Johnston for damages as a vindication before the public of his position in the school section. Judge McDonald found that the plaintiff had exceeded the punishment that was ordinarily necessary upon so young a child, and refused to allow damages.

He found Johnston guilty for a breach of the law and imposed a fine of $1 and costs. Holmes intends to contest the case in a higher court before a jury, and thereby ascertain whether or not the old time exercise of the right of whipping by country school masters is to be allowed in future. In the meantime Holmes, feeling that his usefulness in the section is gone, has resigned his position.

Grocers Sold Carbolic Acid.

Special to The Montreal Star.

Brockville, May 7.—During the past couple of weeks, a Government detective has made his appearance in a number of rural grocery stores in quest of information. AUTOMOBILISTS AND SPEED REGULATIONS

Mr. Berne Nadall Fined in Recorder's Court for Exceeding the Law.

SPEED LIMIT CRITICISED

Mr. Nadall While Claiming That He Did Not Exceed What Law Allows, Questions Limit.

Mr. Berne Nadall, an automobile manager, was to-day fined $10 and costs by Recorder Weir, for running an automobile at a speed greater than the six miles an hour prescribed by the city by-law.

While imposing the sentence, however, the Recorder remarked that it seemed an anomaly to adopt such a by-law. What was the use of an automobile if it could not run at a fairly moderate speed? Why should people invest hundreds in machines, if they cannot ride at such speed as may be safe? This was a matter for automobilists to take up and see whether they could not secure better road rules, so that they might enjoy their purchases.

Mr. Nadall, who is a member of the Automobile Club of Great Britain, explained to the court that he was out with Mr. H. W. Prendregast, in a car which that gentleman had bought quite recently, and was explaining some of the workings with which Mr. Prendregast was not altogether familiar. As they proceeded along Dorchester street, two officers in plain clothes stepped off the sidewalk, and holding up their hands caused the automobile to slow down. The constables stepped upon the running board and ordered the driver to take them to the station on St. Catherine street west. Mr. Nadall was positive that he was not going more than four to six miles an hour, and he declared that having driven over 100,000 miles in seven different countries he considered himself a fair judge of speed.

Mr. Prendregast supported Mr. Nadall in his statement, but the two constables declared that they had timed the automobile from Guy street to St. Matthew, one-eight of a mile in twenty-eight seconds. They had no stop watches, and were standing near St. Matthew street when the automobile passed Guy street, yet they stuck to their statement as to the speed, and the Recorder had no choice, as the men were there on special duty.

"This is the first time," said Mr. Nadall, "I have been taken to a police station on such a charge. I was fined once in England, but that was on account of a quarrel with some local authorities and a gentleman on whose estate we were driving, within the limits of the municipality. I will say this, however, that I am prepared at any time to take a party of civic authorities, aldermen or road officials, and demonstrate to them that an automobile going at forty miles an hour can be checked within a few feet, so that it has a right to go faster than a street car or a horse. If a horse breaks away, nothing will stop him, while it takes a hundred yards to stop a car with speed up. Why then should an automobile, which can be stopped within a very small space be restricted to slower time than a car or a horse?"

THE WEATHER

PROBABILITIES FOR THE NEXT 24 HOURS.

Moderate northwesterly winds partly cloudy and cool to-day and Tuesday.

At one time this morning great black clouds came sailing across the sky, seeming to forbode storm and rain, but their shadows soon passed by, and the bright sun again shone down brightly from the empyrean heights. Altogether it has been a magnificent day, in spite of the clouds, and its being perhaps a little cool, and the tutelary genius of the month deserves the heartfelt thanks of all his grateful votaries.

BREAD MAY RISE IN PRICE.

Bakers Declare it is Necessitated by Increase in Wages.

The leading bakers of the city will probably meet this week to consider the advisability of increasing the price of bread.

This action has been forced upon them, they state, by the action of the journeymen bakers in advancing wages all round some 25 per cent. This increase is paid by the union shops, but as there are a number of non-union shops still paying the old scale the success of the former in establishing a higher price for bread is doubtful.

Mr. James Aird, in discussing the matter with the Star, stated that there had been no definite decision made to increase the cost of bread to the consumer, but that the increase in wages would naturally increase the cost of production. Considerable and mutual discussion would be necessary before any advance should be made.

Mr. J. H. McKeown was of the same opinion. The increased cost of production warranted an increase, but personally he had not as yet decided upon any such step.

A member of another prominent firm engaged in the same business stated that probably an agreement would be reached amongst the bakers and ultimately if the new scale of wages persists an increase may take place. This would probably amount to one cent per single loaf.

At a meeting of French bakers held in the Monument Nationale last Saturday, the matter was discussed but no decision reached.

St. Anthony's Temperance Society.

Yesterday afternoon St. Anthony's Juvenile Temperance Society held its first reunion. Sixty new members were initiated. A musical performance consisting of solos and choruses, several recitations and the reading of essays dealing with the evils of intemperance were given. At the end of the programme, Rev. Father Thomas Heffernan gave an address on the necessity of being temperate. He hoped that the members would labor well for the building up of the society so that it would be an honor to the parish.

For St. Ann's Free Library.

An entertainment for the benefit of the free library of St. Ann's parish will be given in the St. Ann's Young Men's Hall under the auspices of the young ladies of St. Ann's Church, to-morrow evening. The entertainment will consist of pictures given by the London Bioscope Company, together with songs and recitations.

Little Girl's Skull Fractured.

Alice Conroy, 13 years of age, who lived with her parents at No. 23 Marlborough street, was knocked down by a St. Catherine street car, at Hochelaga, last night, and received a fracture of the skull. Little hope is entertained for her recovery at the General Hospital, where she was taken. The little girl was attempting to cross the track, when she was struck and knocked down.

Torpedo Exploded in His Pocket.

Eugene Lyons, a Canadian Pacific brakesman, was brought to the city yesterday from Gache, near Sturgeon Falls, and taken to the Royal Victoria Hospital. Lyons was injured while he was carrying railway torpedoes in his pocket, as the result of one of them exploding. The man's right side and hip are torn in a frightful manner. His condition to-day was reported as being serious.

COTTON FACTORIES IN FULL SWING

Strike has been Declared off and Employes are at Work.

SETTLED BY COMPROMISE

Company Grants An Increase of Wages on the Finer Line of Goods Manufactured.

Both the East End factories of the Dominion Textile Company were reopened at the usual hour to-day. Not one of the fifteen hundred employes were missing when the gong sounded to put the machinery, which had been lying idle a week, in full operation.

Mr. John Taylor, general superintendent of the Hochelaga mill, told the Star that there was not the slightest hitch. Th big cotton mills, he said, were running full swing and he did not expect any more trouble.

The strike of the cotton operatives was settled at a mass meeting in Tremblay Hall, St. Catherine street, on Saturday afternoon.

ORIGINAL DEMANDS.

The original demand of the strikers was for a general increase of twenty per cent. The officials of the Dominion Textile Company at first offered an advance of ten per cent., but this offer was turned down by the ten hundred young women engaged in the battle. All kinds of conferences were held and all kinds of offers were made, but the difficulty was finally compromised by the employes accepting an increase on finer lines.

At a conference held in the St. Lawrence Hall, Friday afternoon, it was agreed that there should be a meeting between the officials of the company and the strikers in Tremblay Hall, on Saturday afternoon. At 3 o'clock precisely, Victor Desparois was elected chairman, and J. R. Renaud was appointed secretary. Messrs. William Whitehead, general manager; John Taylor, general superintendent, and A. H. McManus, assistant superintendent of St. Ann's mill, occupied seats on the platform.

SETTLEMENT SECURED.

The chairman, Mr. Desparois, opened the proceedings by introducing Mr. Wilfrid Paquette, of the Montreal Textile Workers' Union. Cheers filled the hall when the leader took the platform to address the gathering. Mr. Paquette declared that the demands of the strikers, under the circumstances were reasonable, and pointed out to the officials of the company that the strikers were prepared to hold out for three months. He expressed the hope that there would be give and take on both sides, so as to end the trouble immediately.

Mr. William Whitehead, upon being introduced, was given a splendid reception. He addressed the strikers, on behalf of the company, in French and English. When he said he was pleased to meet all his employes he was cheered by the young ladies. Mr. Whitehead said that the company was willing to grant an increase of about 14 per cent. He wanted to see the mills in full operation and declared that the advance was given in good faith.

A vote of thanks was tendered Messrs. Wilfrid Paquette, who represented the strikers at all the conferences, and Mr. William Whitehead, general manager of the Dominion Textile Company.

At the close of the proceedings the three officials of the company shook hands with hundreds of the young ladies and after congratulating the chairman on the happy outcome of the meeting, the three gentlemen retired, amid cheering.

Mr. Wilfrid Paquette, when seen today by a representative of the Star, corroborated the statement made by Mr. John Taylor, superintendent. He said that the men and women were naturally much pleased at the happy termination of the strike, and they would now work with more determination than ever, feeling that they were being paid a living wage.

Claims in the Adler Assignment.

Among the principal claims against Mr. S. A. Adler, who carried on business under the name of the Parisian Waist and Skirt Manufacturing Company, and who recently made assignment of his property for the benefit of his creditors, are the following:— Bagley & Wright Manufacturing Company, $1,312; China & Japan Silk Company, $2,700; Corticelli Silk Company, $1,230; Camizzi & Rosasco, $1,375; H. J. Dingman, Toronto, $2,179; A. Falardeau, $1,057; J. M. Fraid, $3,800; Montreal Jobbing Company, $1,700; Montreal Woollen Mills, $1,800; Rushworth Company, $2,140; Walker, Barr & Co., Montreal, $1,050; Boyd & Company, $6,000 (secured); Canadian Underwear Company $5,000, and the Dominion Bank, $4,048.

The assets consist of a stock of machinery fixtures and book debts in the company's premises at No. 16 Lemoine street.

Dinner of Junior Bar Association.

The annual dinner of the Montreal Junior Bar Association took place on Saturday night at the St. Lawrence Hall, where thirty of the younger legal lights of the city were assembled about the festive board. The toast of "The Profession" was proposed by Mr. L. McFarlane and responded to by Mr. E. Brossard, in a very bright and witty speech. Other toasts were: "The Public," proposed by Mr. Alex. Lacoste, responded to by Mr. Arthur Phelan; "Canada," proposed by Mr. Jos. Archambault, responded to by Mr. E. F. Surveyer; "The Press," proposed by Mr. Paul Surveyer, responded to by Mr. A. Beauchemin, and "The Ladies," proposed by Mr. F. Bourbonniere, responded to by Mr. Walter Mitchell.

Dr. Hans Harthan's Recital.

Cinderella to Be Repeated.

There were hundreds of disappointed people who tried to get into Stanley Hall last Saturday afternoon to see the production of Cinderella. The ladies' committee of the Hervey Institute held a meeting while the performance was going on, and requested Prof. Frank Norman and his assistants to repeat the performances on Friday evening and Saturday matinee, May 25 and 26 next, which will be done.

PREACHERS TOOK CARNEGIE FOR TEXT

Words of Philanthropist while in City Came in for Criticism.

SOME FAVORABLE, SOME NOT

Rev. G. O. Troop and Rev. Dr. Young Express Somewhat Diverse Views.

The utterances of Mr. Andrew Carnegie, while a visitor in this city, the attitude of that gentleman towards Christianity, and his elevation of works above faith came in for discussion at a number of the city churches yesterday.

The Rev. G. O. Troop, rector of St. Martin's Church, in his sermon last evening, took as his subject, "The Gospel versus Wealthy Humanitarianism."

Taking for his texts Christ's words to the rich ruler, and 2 Corinthians, 8, 9, he proceeded to discuss Mr. Carnegie's statements.

"Think less of making Heaven your home, and more of making home your Heaven," the millionaire philanthropist had said. "There is no religion more pleasing to God than service to your fellow-men."

Humanitarianism, commented the preacher, was only one side of our religion, the other side was our love and fidelity to God. The preacher of humanitarianism ignored the need of spiritual change.

"A man's character," said Mr. Troop, "may be blameless morally, he may be a great philanthropist and an excellent citizen in the sight of the world, and at the same time he may be a lost sinner in the sight of Heaven, short of the glory of Jesus Christ. The sole question in the final hour will be "Are we new men in the knowledge of Christ Jesus, by the blessing of the Holy Spirit.'"

REV. DR. YOUNG.

The Rev. Dr. Young, of St. James Methodist Church, in his sermon last evening, also referred to the recent utterance of Carnegie, while in the city.

The most successful man of modern times perhaps from the standpoint of wealth, whom some people also spoke of as the greatest benefactor of modern times, had, while in the city, used a couple of expressions which required some consideration.

"Let us have less theology and more religion," was a statement which might or might not be accepted. It depended on what the speaker meant by theology. If he meant hair-splitting discussions of metaphysical questions relating to abstract truths, then we could join with him heartily and say, "Let us have less theology and more religion."

"If, on the other hand, he meant by theology the vital principles underlying the questions of personal salvation he was not correct. It was as if Mr. Carnegie would say to his employes, 'Let us have less knowledge about the science of manufacturing steel and more production." This, he thought, was the exact opposite of Mr. Carnegie's practice.

With regard to Mr. Carnegie's other injunction, "less of making Heaven our home as of making home our Heaven," he considered him correct. There was little probability of a man's making Heaven his home unless he did all in his power to make his home heaven.

THREE IMPORTANT LEGAL OPINIONS

Attorneys Declare City has Power to Destroy Adulterated Liquor.

MAY PROHIBIT NEWS GIRLS

Aliens Need Not Be Naturalized Before Being Incorporated if Council Consents.

The City Attorneys are submitting three important legal decisions to the City Council.

They refer to: 1. The power of the city to seize adulterated liquors; 2, selling of newspapers by girls in the streets; 3, incorporation into clubs of aliens.

In regard to the first question it is shown that the city has full power to seize and destroy adulterated liquors.

The city also has power to pass a by-law forbidding girls selling newspapers in the streets; and, finally, it is shown that aliens may form themselves into clubs.

ADULTERATED LIQUORS.

The opinions in question are as follows:

"Where as the sale of adulterated liquors is of great importance, in view of public health, we thought it was our duty to communicate with the authorities of the local Board of Health and also of the Provincial Board of Health; the latter through Dr. Elzear Pelletier, secretary of the Council, has conferred on said subject with the Solicitor-General, and the Assistant-Solicitor's opinion was that the hygiene law of Quebec, article 46, expressly grants to the municipal authority the right to seize adulterated liquors and to dispose of same in such a way as to prevent their sale. We do not hesitate to concur in said opinion and to state that the only practical difficulty, which may arise when enforcing the above mentioned law, is that a complete organization would be required to successfully prepare cases before the courts; among others, competent analysts duly authorized to act. The matter should be referred to Dr. Laberge and his colleagues, for a special report on the last point."

INCORPORATION OF ALIENS.

"The question has been raised as to whether your committee could recommend the incorporation into a club, according to our provincial statutes, of citizens who are not British subjects or naturalized as such, and the matter has been referred to us for report. According to the provisions of the revised statutes of Quebec, art. 5487, ten or more persons, in any part of the province, may obtain the right to form an association or club by obtaining the consent of the municipal council of the place of their domicile. There exists no obligation to be British subjects or to be naturalized as such."

"Regarding the question as to whether your committee has the right of prohibiting the sale of newspapers in the streets by young girls, we beg to report as follows: In virtue of paragraph 65, of article 300, of our Charter, the city is authorized to adopt by-laws prohibiting the employment of minors in the streets and public places; to grant licenses and to make regulations for newspaper carriers. This provision of our Charter which has been in existence since 1899, has not yet been enforced by any by-law. It would be sufficient that instructions be given to the City Clerk and to the City Attorneys to prepare such a by-law."

DINNER TENDERED HON. R. LEMIEUX

Solicitor-General Honored by Friends on His Return from France.

THE ANGLO-FRENCH ENTENTE

Hon. Mr. Lemieux Speaks of French Canadians as Bond Between Two Peoples.

On Saturday evening a complimentary dinner was tendered to the Hon. Rodolphe Lemieux, at the St. Denis Club, Sherbrooke street, on the occasion of the return of the Solicitor-General from France.

During the evening a handsome oil painting was presented to Mr. Lemieux. The subject is the arrival of Champlain at Quebec and is the original of the painting, which hangs in the Legislative Council Chamber at Quebec, the author being Mr. Henri Beau, a Canadian artist.

MR. LEMIEUX'S ADDRESS.

In replying to the toast "Our Guest," proposed by the chairman in a very tactful manner, the Hon. Mr. Lemieux spoke happily in both languages. He said that the mixed political and racial gathering before him showed conclusively how easy it was for the people of Canada to lay aside party and national feeling and meet on the common ground of friendship and esteem. He offered especial thanks to his English-speaking compatriots who had joined those of his own tongue in giving expression to a very decided sentiment of good-fellowship, and declared that he owed a good deal of his advancement in life to the excellent counsel of men belonging to that race.

ENTENTE CORDIALE.

Mr. Lemieux also touched passingly upon his recent visit to France. While listening to the guns belching forth the friendly salutes from the French and English men of war in the harbor of Cherbourg he came to the conclusion that without doubt the entente cordiale between these, the two greatest nations of the world, had become an accomplished fact. Of his complimentary decoration by the French Government, Mr. Lemieux spoke in a nowise personal way, but referred to the matter in its bearing on the relations of France with the Empire. He claimed that nobody could better appreciate the love which French-Canadians entertain for old France than their friends of British origin. French-Canadians had another feeling quite as strong as their love for France, however, and that was the pride and gratitude they felt in being a part of the glorious empire of Britain, and enjoying the liberty and protection of the British flag.

LETTERS OF REGRET.

During the evening Mr. Desaulniers, the chairman, read letters of regret at inability to attend the banquet from Sir Louis A. Jette, Hon. Lomer Gouin, Mr. F. D. Monk, M.P.; Mr. Justice Robidoux, Mr. Thomas Chase Casgrain, ex-M.P.; the French and Russian consuls-general, and others, all testifying to the Solicitor-General's talents as a public man, and wishing him still more eminence in the career he had chosen.

Speeches were also made by Ald. W. J. White, Mr. G. A. Nantel, and Mr. H. A. Lemieux, father of the guest.

The subscribers were: Hon. L. P. Brodeur, Hon. R. Dandurand, Mr. F. D. Monk, M.P.; Hon. J. P. B. Casgrain, Hon. Lomer Gouin, Hon. F. L. Beique, Ald. W. J. White, J. P. Mullarkey, Dr. J. J. Guerin, H. McLeod, to represent graduates residing outside of Canada and Newfoundland.

Drowned in Swimming Bath.

Ferland Castonguay, 23 years of age, was drowned in the Laurentian Bath yesterday. Castonguay had been swinging on the rings, which are suspended over the water, and after amusing himself in this manner for a while, clambered on to a bar which is suspended over the middle of the swimming pool. From this place he dived into the water, and was not missed for some time, when his lifeless body was found lying at the bottom of the bath. The deceased lived at 59 St. Denis street.

BACK TO THE MINES, SAYS MITCHELL

There will be no Strike in United States Anthracite District.

SCALE OF 1903 ACCEPTED

Convention Unanimously Decided to Agree With Mitchell—Men are Pleased.

Scranton, Pa., May 7.—Developments in the great coal struggle took a most important turn Saturday, and it is now announced that there will be no strike in the anthracite coal fields of America, provided the operators agree to give every man his old place and reinstate those men who have been dismissed because they happen to have obeyed the strike order issued by President Mitchell. The miners are willing and ready to return to work under the scale of 1903, which was the Strike Commission's award.

This was the decision unanimously reached at the session of the convention on the advice of President Mitchell. The important decision was reached after President Mitchell and National Secretary-Treasurer Wilson had addressed the delegates, recommending the 1903 award be continued. A resolution to this effect was offered and unanimously adopted.

PROPOSED BY THE OPERATORS.

By this unanimous vote, the miners thus adopted the proposition of the operators—a continuation of the award of the Anthracite Coal Strike Commission, with the modification that the term for which it is continued shall be mutually agreed upon. The operators' suggestion was that it should be at least three years. The action of the convention, together with a request for a conference on Monday, was telegraphed by President Mitchell to Chairman George F. Baer, of the Operators' Committee, and an answer was received agreeing to a conference at 2 o'clock Monday afternoon at the Jersey Central office in New York city. The only matters to be discussed at the conference are the length of time the award shall continue, and the provision that there shall be no discrimination against the men who obeyed the mine workers' suspension order issued by Presidnet Mitchell.

MR. MITCHELL'S STATEMENT.

Speaking to-night, President Mitchell said:—

"The miners are ready to return to work on the basis of the award of the Anthracite Coal Strike Commission for such a period of time as may be agreed upon mutually between the representatives of the anthracite coal mining companies and our scale committee, provided that all men who suspended work on April 1st or since that time, or who have been dismissed because they stated that they would refuse to work if a strike were declared are reinstated in their former positions and working places.

"Our convention will remain in session until Tuesday, and the scale committee shall report to the convention at that time.

"The suspension of work is to continue until an agreement has been made and its terms approved by the convention."

Chamberlain, S.D., May 7—Dowie has signified his interest in the proposal of M. B. O'Connor, a wealthy farmer and rancher, living in Brave Bull Creek country, in Western South Dakota, that he accept O'Connor lands as a site for a new Zion. O'Conner says the fact that Pine Ridge and Rosebud Indian reservations are not far away would give him excellent opportunity to get converts among the Indians. It is intimated, however, that if Dowie does proselyting among the red men, it will be among Cherokee's, who will soon get from the United States $4,589,588.

BROKER SUICIDED.

Suffering from Acute Indigestion, Edwin Clark Shot Himself.

New York, May 7.—The Times says: Edwin Clark, a middle-aged broker, and a member of the Cotton Exchange, shot himself early yesterday in his apartments at the Hotel Marseilles.

Mr. Clark had suffered several attacks of acute indigestion on Friday and Saturday. Yesterday morning a still more violent attack taxed to the limit his endurance.

Mrs. Clark telephoned for the family physician, but found he was out of the city. Then she called up two other physicians, who advised her to use mustard plasters until their arrival. Mrs. Clark hurriedly made and applied them. Her husband, seeming more comfortable, she went into the next room for a moment. The sound of a pistol shot brought her quickly back into the sick room, and she found her husband dead.
