MILITARY AND SOCIALISTS MAY MEET ON CHAMP DE MARS

Drill of 65th Regiment and Gathering of Followers of Karl Marx Set For Same Place---Regiment Asks For Protection of Police---Mayor Receives Protest Against Demonstration---Ald. Mederic Martin Secures Revolver.

Chief of Police Campeau waited upon the Mayor at the City Hall to-day and informed him that news had been brought to police headquarters that the socialists had changed their minds and had decided that, after all, they would parade.

In reply, the Mayor said: "You have my instructions, Mr. Campeau, to see that no parade takes place. You will see that my orders are carried out."

Chief Campeau—"I have already given orders to my officers to prevent any parade."

In further conversation it appeared that rumor had it that the Socialists would meet in several places and organize a parade in that manner. Steps will be taken to prevent even this demonstration.

The Mayor said: "I am compelled to see that the law is carried out. If the Socialists desire to hold a peaceable demonstration on the Champ de Mars, they can do so, but there must be no parade and carrying of flags."

MILITARY WILL PARADE.

While the Mayor was conversing with Chief Campeau, two officers, attached to the 65th Regiment entered and made a statement that considerably surprised His Worship. It was to the effect that the 65th intended to hold its weekly drill on the Champ de Mars to-night.

They further stated that they presumed that they would meet with no interference from the socialists who were also to meet on the square and hold a demonstration.

The Mayor—"I sincerely hope that Col. Labelle, will call your parade off for to-night. If you hold this drill trouble might ensue between you and the socialists. It is in the interests of peace I think that there should be no drill.

In reply the officers said that the drill was a weekly one, and that it would be very difficult to countermand it. The 65th did not desire to have any trouble with the socialists.

The Mayor—"I am sure that you do not desire any trouble; but under the circumstances trouble might occur."

It was then stated that all the 65th desired was that they should be allowed half of the square.

The Mayor—"I cannot forbid you to hold your drill, but I again say that I wish your colonel would see that it does not take place. I only desire to maintain the public peace."

The officers stated that they would consult their colonel in regard to the matter and then withdrew.

After they had gone Mayor Ekers instructed the Chief of Police to see that if the drill was held that both parties had proper protection. The chief promised that this should be given.

IS THREATENED WITH DEATH.

This morning Ald. Martin, M.P., waited on Chief Campeau and showed him a document he had received, which threatened him with swift death if he persisted in his fight against the socialists. The document bore pictures of certain death dealing instruments.

"What do you desire that I shall do?" asked the chief.

Ald. Martin — "I desire that you should give me a revolver with which to protect myself. I have a right to see that I am not shot down by the socialists or anyone else."

The Chief, in a good-natured way, said he was quite willing to furnish the doughty alderman with a shooting iron. He then produced a fierce revolver, about a foot long, which he carefully loaded with cartridges and which he handed to Ald. Martin.

Thus armed, and equipped for emergencies, the alderman marched from the office.

ARCHDEACON EVANS ON SOCIALISTS.

Mayor Ekers to-day received the following interesting communication from Archdeacon Evans, asking that in the interests of public peace no socialist demonstration be allowed in the city:

"My Dear Mr. Mayor:

"I notice in the city press that it is proposed by certain citizens, calling themselves Socialists, to hold a demonstration in the streets of Montreal, on May 1st, and I am informed that it is not unlikely that such demonstration may lead to riot, and possibly to worse results. Without wishing to see the rights of any citizen, however humble, unduly interfered with, it is much to be wished, in the best interests of all, that such demonstration should not take place. Should you see your way clear to take steps, as chief magistrate, to prevent it, I am confident that you will have the support and gratitude of your fellow-citizens of all creeds and nationalities. I am further persuaded that you could not act more kindly, to those who propose to make such a demonstration, than by exercising the authority with which your fellow-citizens have entrusted you, to forbid, and if need be to hinder them from carrying out their purpose. I have read, with deep satisfaction, the wise and weighty words addressed by His Grace Archbishop Bruchesi to his own people upon the subject.

"Believe me, Mr. Mayor,
Faithfully yours,
"LEWIS EVANS,
"Commissary of the Lord Bishop of Montreal."

PROCESSION FORBIDDEN.

His Worship the Mayor decided to forbid the Socialists to parade on account of the following communications which he received from Chief Campeau:

Montreal, April 29, 1907.

To His Honor the Mayor of Montreal.

May it please Your Honor.—The procession proposed for Wednesday the 1st, by the Socialist party of Montreal, threatens order and public security.

I have the honor to submit to you, under this cover, a report of Sergt. Belanger and Constable Gagnon, of station No. 4, on last year's procession.

The repetition of such disorders constitutes a veritable danger for peaceable citizens and also for the participants. If the procession is carried out this year, as announced, the police will not try to prevent the troubles apprehended, and I shall be able to accept neither the responsibility for good order nor public security in such case.

If the Socialists wish to gather in any place whatsoever, without a procession, the police will protect them like any citizens, but if they make a disturbance by the procession, the police will not be held responsible.

You alone now can prevent the conflicts feared.

I have the honor to be,
Your obedient servant,
O. CAMPEAU,
Chief of Police.

The following communication to Chief Campeau from police officers, gives the history of what was alleged to have happened when the socialists paraded a year ago:

Montreal, April 25, 1907.

Mr. O. Campeau,
Chief of Police:

Sir,—We, the undersigned, declare that during the parade of Socialists on the first of May, 1906, order prevailed during the course of the parade, until arrival in front of Laval University, on St. Denis street, where the procession stopped, crying "Vive l'Anarchie," and "A bas la colette." The remarks were parried by some students and some men who had followed the procession attempted just then to mount the steps of the university to fight the students, which the police following, prevented.

The police advised them to continue their route.

Throughout the course of the procession, and at near intervals, the men composing cried "Vive l'Anarchie."

Respectfully submitted.
P. Belanger, sergt. Station No. 4.
Jos. Gagnon, constable Station No. 4.

"In the face of such documents as these," said the Mayor to-day, "I should not be doing my duty if I did not forbid the procession to take place. I am sorry if the socialists parade after it was understood that they would call off the demonstration. They should be content to have a peaceable meeting on the Champ de Mars."

WILL MOBILIZE POLICE.

Orders were issued this morning by Chief Campeau to all the captains to have their reserves on hand, and steps have been taken so that a large force can be mobilized at any particular point within a very short time. The day and night men will be on duty at the stations for the next twenty-four hours, and extra squads have been ordered to parade for patrol duty.

Chief Campeau himself is far from being disturbed over the report that the Socialists intend to parade. Although ready for any emergency, he does not look for any particular trouble.

THE COLONIAL CONFERENCE.—Arrival of Sir Wilfrid and Lady Laurier at Euston Station, London. General Botha and Sir W. Baillie Hamilton at Waterloo.

FOREMAN KILLED BY LAND-SLIDE

Several Other Workmen at the Cedars Injured in Collapse of Bank.

As the result of a land slide at the Cedars, near Vaudreuil, last evening, B. E. Brodie, 25 years of age, whose home was at Niagara Falls, N.Y., was instantly killed, and several of his fellow workers were severely injured.

Brodie was the foreman of a gang of concrete workers in the employ of the Canadian White Company, and was in charge of the contract which the company has at the head of the Soulanges Canal. The men were working in the hole below when suddenly the side of the hill collapsed and the men were caught like rats in a trap. The officials of the company informed the Star that the heavy rain and the frost coming out of the ground was responsible for the accident.

The Coroner left for the scene of the accident to-day. After the inquest the body of the victim will be shipped to Niagara Falls for interment.

HELD UP AND ROBBED

G. T. R. Conductor Badly Bruised by Unknown Assailants.

Patrick McDonald, a Grand Trunk Pullman conductor, who lives at 34 St. Alexander street, was the victim of a hold-up last night, in which he was relieved of about ten dollars in cash and a valuable watch chain and locket.

Mr. McDonald was going home about 10.30, and says that when near the corner of Jurors street, near the Ames Holden building, he was struck from behind and knocked down. Two men were concerned in the business and the victim was severely injured by kicks. His face is badly bruised and his knee was also injured and the injuries will lay him up for some time. He has an idea who the assailants were and thinks it was as much a case of spite as of robbery. The place where the hold-up occurred is very dark and the street was at the time deserted.

Detectives Found Stolen Goods.

Chief Carpenter thinks he has the author of recent burglaries in the person of Arthur Laliberte, who was arraigned before Magistrate Lafontaine. A search of the accused's room resulted in the discovery of a trunk packed with cigars, which were identified by Mr. Pony, whose store, at the corner of St. Lawrence Boulevard and St. James street, had been burglarized some while ago; while in another trunk was found a lot of jewellery thought to have been stolen in Quebec. Among the jewellery there is a diamond ring which the C. P. R. special service agent believes to have been stolen from a trunk in transit.

Cap Rouge Ice Moving.

The ice at Cap Rouge is again moving, and it is expected that to-day's high tide will carry it safely away, and that the steamers now in Quebec harbor will sail for Montreal to-morrow morning. The boats now at Quebec and in the Gulf are the Hibernian, Ionian and Corinthian, of the Allan line; Marina, Athenia, of the Reford lines; Cargan Head, of the Head Line; Vancouver and Ottawa of the Dominion line. Following in the train of these vessels are about twenty others, and it is expected that beginning to-morrow there will be a regular procession of vessels in to this port.

A BRITISH POLITICAL SCANDAL

The Chief Conservative Organizer is a Refugee.

TROUBLES, FINANCIAL, ETC.

Little Likelihood of Bringing the Man Back From Mexico.

Special to The Montreal Star.

New York, May 1.—An American London despatch says:

"The greatest scandal in British politics for years has been uncovered. A. E. Southall, secretary of the National Union Conservative Associations, chief organizer of the party, and the bosom friend of the successive Conservative premiers and Cabinet ministers, and known personally to royalty, has disappeared. As a matter of fact he "disappeared" the week before Easter, but the fact has only just been disclosed. It is stated officially that Southall has "taken a sea voyage," but it is known he has fled to Mexico.

"If the disclosures were fully made public, they would constitute the most unsavory story in the annals of political life in England. Southall has been known and trusted by the chiefs. He ruled the principal party office with a huge staff of clerks, and now it is discovered that Southall's relations with his clerks have been of the most morbid character, while the party accounts, which have never been published, have been tampered with for years.

"The party chiefs are willing to sacrifice everything to avoid the scandalous publicity, and have not informed Scotland Yard either of the defalcations or of Southall's moral lapse.

"Instead, Southall was informed that unless he left the country immediately and never returned, warrants would be issued for him. Southall was in receipt of a salary amounting only to $2,500, but had been living a life on a $10,000 scale. If the public prosecution follows it will mean that the party cash account will be exposed to the searchlight of public criticism, while the exact amount which some of England's newly created lords have paid for their peerages to the Conservative war chest, relying on promises of inviolable secrecy, would also be exposed. The Liberals will not be slow to take advantage of their opponents' difficulties."

PROF. HILL FOR CORNELL

Ithaca, N. Y., May 1.—The executive committee of the Cornell Board of Trustees have ratified the election of Albert Ross Hill, as dean of the College of Arts and Sciences.

Dean Hill was born in Nova Scotia, in 1869, and received his B.A. degree from Dalhousie in 1892, and his Ph.D. from Cornell in 1895. After studying at Berlin and Heidelberg, he taught in the State Normal School, at Oshkosh, Wis., the University of Nebraska and the University of Missouri, at which latter place he was dean of the teachers' college.

"HOKEY POKEY" MAN HAS PASSED AWAY

"Lid Is On" and He Is Now on the Search for Other Trades.

The day of the "hokey pokey" man is done. No more will he be seen under his umbrella, in the hottest, dustiest and dirtiest part of the street, handing out the cold ones to the smudge-faced, eager-mouthed urchins of Montreal, and perhaps, at the same time disseminating germs of happiness and contentment as well as germs of disease.

For the lid is on. Yesterday was the last day for the poor "hokey pokey" man, and it being a rainy day, it could hardly be counted a day in his business at all.

But they are all rainy days now, Chief Campeau has issued orders to his men to warn all ice cream vendors; that, at the tick of the clock, midnight the thirtieth of April, the system of permeating joy and gladness by means of the egg cup and tongue, said egg cup being filled with luscious ice cream and purchased from "de dago" at a penny a lick, would in future be dispensed with.

The dagos are sad, but not downhearted. Fortunately it did not take an awful amount of brains to slap together a "hokey pokey sandwich," and most of them do not expect to be out of employment long, because they happen to be too wise. Some will still still continue to glean coppers from the streets by means of candy baskets, and perhaps an apple cart. One follower of the trade is looking up in life and hopes very shortly to establish himself behind his own counter as vendor of cigars, cigarettes and soda pop, while another has quite set his heart on saving up for a horse and wagon and trying "de banan" trade.

Altogether they do not expect to starve, and it will not be long before the same familiar faces are seen under new conditions and the old umbrellas, and a brand new game for separating the small boy from his copper.

Hackmen After Licenses.

The police headquarters were to-day the scene of much activity as the hackmen renewed their licenses for the coming year. Over two hundred of them applied. It is expected by the Chief of Police that all licenses will be handed out within a few days. Before a license is granted, Chief Campeau investigates each case.

Detective Charges Fraud.

Ludger Brouillet, Breboeuf street, was arraigned to-day before Magistrate Lafontaine to answer a charge of obtaining money under false pretences. A plea of not guilty was entered. The complainant, Detective Guerin, claims that the accused obtained from him the sum of $50.

Mr. James Kent Goes West.

Mr. James Kent, manager of the Canadian Pacific Railway's Telegraph, accompanied by Mr. W. J. Camp, left last evening for the West, on business in connection with the department.

Sold Liquor Without License.

For selling liquor without a license Mde. Crebassa, 311 Cadieux street, was sentenced to-day by Judge Choquet to a fine of $50 or three months in jail.

CANADA SHOULD EXPLAIN POSITION

Other Premiers Will Take This Stand at Conference.

THE FEELING IN ENGLAND

Statement of Mr. Fielding Does Not Harmonize with Authoritative Statement from Berlin.

By Special Cable From Our Own Correspondent.

London, May 1.—Hon. W. S. Fielding's reported assurance to the Canadian House of Commons on April 27, that no negotiations have been entered upon with any foreign countries, reads queerly in the English press beside to-day's authoritative statement from Berlin, through the Neueste Nachrichten, that the Canadian Government itself had taken the initiative in negotiations now being conducted in Montreal through the German Consul-General; also that Canada offers Germany concessions which are practically as favorable to German manufacturers as the preference is to British manufacturers.

It is announced that the Hamburg-American Steamship Company, true to its mission of German pioneer in all parts of the world, is ready upon the conclusion of these negotiations to start a new line from Hamburg to Canadian ports.

The Berlin correspondent of the Standard adds most significantly:

"Although German commercial interests primarily are to be promoted, no one here overlooks the fact that Germany, in concluding the projected tariff arrangements with Canada, will effect a stroke of policy which will tend to prevent closer union between England and British North America."

I understand that some Colonial Ministers now here mean to get the exact facts of Canada's foreign negotiations placed before the conference as vitally affecting the whole Empire.

A well-known English public man puts the case thus:

"We admit, of course, that Canada is quite entitled to abolish the preference if she so desires; but is not quite entitled to assume, as Sir Wilfrid Laurier has done in his latest English speeches, a leadership in Empire preference while at the same time, out of the eyes of the public and above the heads of the Imperial Government, Canadian representatives are or have been negotiating with foreign governments to whittle the preference away to little more than a figment. We all want to see the Sister States of the Empire given the fullest possible measure of freedom of negotiation with foreign powers, but let us not make the fatal mistake of trying to best one another by smart tricks. Either we stand together as a family or we go ultimately and miserably to pieces.

"Sir Wilfrid Laurier told the conference yesterday that Canada stands where she stood in 1902. Are her actions the same, is the intermediate tariff nothing, are her secret pourparlers with Germany, France, Austria and Italy nothing? Why, the merest school boy in the wrold of politics must see that the whole basis of Canada's position is fundamentally changed. Does she not owe it to her national dignity to cease this conjuring with words and say exactly what is the Empire's position, so far as Canada is concerned with which the British statesmanship has to deal?"

WINDERMERE.

TO-DAY'S CONFERENCE.

Canadian Associated Press.

London, May 1.—Premier Deakin, of Australia, concluded his speech at the Imperial Conference this afternoon. Premiers Ward, Jameson and Moor followed. It is understood Premier Jameson strongly advocated the case for the Preference, but Messrs. Ward and Moor adopted a conciliatory tone. No resolution was proposed. Mr. H. H. Asquith replies to-morrow.

Many papers comment acidly on the quality of the summaries issued by the Colonial Office.

Sir Robert Bond, Premier of Newfoundland, was presented with the freedom of the City of London privately to-day at the Guildhall.

The Pall Mall Gazette attributes Sir Wilfrid Laurier's "inaction" at yesterday's conference to Canada's confidence in her future, and the influence of French-Canadian feeling on the Premier, and says, "festina lente' must be the motto of true Canadian statesmanship at present."

AN AMERICAN VIEW OF THE CONFERENCE

New York, May 1.—The Sun says:—"While it seems improbable the Colonial Premiers, who have been holding a conference in London will agree upon a practicable scheme of Imperial defence, and while it is certain that the Liberal Government will not grant the request for a preferential tariff, there is no doubt that one result of far-reaching significance has been attained. The ignorance and indifference with regard to the outlying portions of the Empire, which, even in the closing decade of the nineteenth century, still lingered among the masses of the British population, have now passed away. Not only the statesman, but the man in the street has now become keenly alive to the actual and prospective importance of the self-governing colonies. For weeks the columns of the English daily newspapers have been filled with facts and figures which bear witness to the progress already made by Britons beyond the seas and to the seemingly unlimited field for development of their resources. It is doubtful whether the magnitude of Britain's colonial Empire is appreciated in the United States, and whether the average American can even name the colonies which are classified as self-governing. Of these there are but seven: Canada, Australia, New Zealand, Newfoundland, Cape Colony, Natal and Transvaal.

"Not only are they all flourishing communities, but three of them, Canada, Australia, and eventually the South African Confederation, are evidently destined to become powerful nations. The time has gone by when these world-encircling dependencies were undervalued by the parent state. No longer would the British people be willing to let the Colonies go. On the contrary, they would be willing to do almost anything to retain them, except to submit to an increase in the cost of breadstuffs in the British market."

The Two Thousand Guineas.

London, May 1.—At Newmarket today the 2,000 guinea stakes for entire colts and fillies foaled in 1904, distance one mile were won by Slieve Gallion. Benzonian was second and Linacre was third. Ten horses ran.

Slieve Gallion, a warm favorite, made all the running and won by three lengths. The betting was 11 to 4 on Slieve Gallion, 100 to 9 against Benzonian and 100 to 6 against Linacre.

SERIOUS FIRE IN TORONTO

Montreal Firms Involved In a Big Storage Blaze.

Special to The Montreal Star.

Toronto, May 1.—Fire broke out in the warehouse of the Ontario Storage & Cartage Company, in rear of the old Don Brewery, immediately west of the Don and north of Queen street, and resulted in a total loss of over $227,000.

About thirty feet of the one-story machine shop of the Smart Bag Company, of Montreal, was wrecked by the collapse of the east wall of the warehouse. Thirty or forty men will be thrown out of employment.

Colonel Smart, the president of the company, was summoned from Montreal. Other buildings close to the warehouse were slightly damaged by smoke and water. In addition to the Smart Bag Company's estimated loss of $10,000, the A. C. Leslie Company of Montreal suffered a loss of $2,000.

The insurance on the main buildings is carried by Ridout & Strickland and amounts to $36,000. The insurance on the destroyed portions is $21,400, divided among the following companies: Phoenix, of London; Law, Union & Crown, Atlas, Commercial Union, Liverpool & London & Globe, North America and Scottish International. Calvert & Dewyer Co., Ltd., are insured as follows: Northern, $8,000; Royal, $4,000; Montreal-Canada, $13,000; Sovereign, $2,000; Waterloo, $1,000; Caledonian, $2,000; Queen, $3,000; Rochester, $2,000; Phoenix of Brooklyn, $3,000; New York, $4,000; Quebec Fire, $4,000.

Railway Commission's Premises.

Ottawa, May 1.—The increasing business of the Railway Commission has necessitated the use of larger premises. Accordingly, the lower portion of the Woods Building, Queen street, formerly occupied by the Customs, has been placed at the disposal of the commission.

ST. JOHN, N. B.—John Emslie, secretary-treasurer of the T. H. Ashtown Hardware Company, of Winnipeg, is dead.

THE OTTAWA UNION STATION

Plans Will Be Filed with the Government Before July 15.

Special to The Montreal Star.

Ottawa, May 1.—Mr. William Wainwright, comptroller of the Grand Trunk, who was in Ottawa on Tuesday, said that the plans for the new union depot would be filed before July 15, the time specified. Within six months from that time the work will be commenced.

The terminal company's bill being now law, the Grand Trunk, it is understood, will at once start on the formation of the organization which such special legislation authorizes. The different companies using or to use the station—the Canadian Pacific, New York Central lines and the Canadian Northern—are expected to join with the Grand Trunk in a joint scheme along the line authorized by the bill and similar in operation to the agreement effected by the different lines for using the Toronto union station.

RECORD SEASON FOR ST. JOHN

Number of Immigrants Landed at Port Will Total 30,000

Special to The Montreal Star.

St. John, N.B., May 1.—The number of immigrants who came to St. John during the season, which ended with the arrival of the steamship Montreal from Antwerp, will run close up to 30,000. The lists are not yet tabulated, but it is known that the Canadian Pacific Liverpool boats brought over 16,000 and the Antwerp boats more than 9,000. Then there were a large number by the Donaldson line and the Allan line, although the Allan line landed the greater majority of their passengers at Halifax.

The total number of passengers arriving at St. John during the winter of 1905-6 was about 17,000. Then there is an increase of upwards of 13,000 for the season now at an end.

Mrs. R. N. Robins and Mrs. Harry Macfarlane, of Sherbrooke, are spending a few days in Montreal.

INCREASE IN IMMIGRATION

For Fiscal Year There Was Increase of 40 Per Cent. Over Previous Year.

Special to The Montreal Star.

Ottawa, May 1.—The immigration into Canada in March showed an increase of 28,610 over March, 1906, as compared with an increase of 22,400 last March. There was a falling-off in the arrivals from the United States.

For the fiscal year (of nine months) ended March 30, the total immigration showed an increase of 40 per cent. over the previous year. The arrivals at ocean ports showed an increase of 56 per cent., and from the United States an increase of 12 per cent. The influx from Great Britain during the year was 48 per cent. greater than in 1906-6.

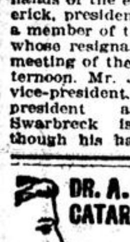
TROUBLE AT OTTAWA.

Golf Club Officers Resign Because of Disagreement.

Ottawa, May 1.—Three officers of the Ottawa Golf Club have resigned as the result of a disagreement over a question of policy, said to be concerned with the international management of the club. Two of the resignations have been accepted, and the third is in the hands of the executive. Mr. A. B. Broderick, president, and Mr. A. Z. Palmer, a member of the executive, are the men whose resignations were accepted at a meeting of the committee yesterday afternoon. Mr. J. F. Orde, who was the vice-president, accordingly became president automatically. Secretary Swarbreck is the third to resign, though his has not been accepted.



DR. A. W. CHASE'S CATARRH CURE... 25c.
is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

RAILROADS.

STEAMSHIP SPECIAL.
In addition to the regular train for St. John, N. B., and Halifax, leaving 7.25 p.m. a special train will leave Windsor street station 8.30 p.m. Thursday night, May 2nd, for the accommodation of passengers for the "Empress of Britain" sailing from St. John Friday, May 3rd. Special train will run along side of steamer.

Dr. Gauvreau's Arm Amputated.

Special to The Montreal Star.

Quebec, May 1 — Dr. Gauvreau, of Rimouski, submitted to amputation of the left arm yesterday at the Hotel Dieu hospital. Four years ago he fell and injured the arm, and recently the injured member grew so much worse that the specialists who examined it ordered amputation.

YELLOW CRUST ON BABY
Would Crack Open and Scab Causing Terrible Itching.
CURED BY CUTICURA
"Our baby had a yellow crust on his head which I could not keep away. When I thought I had succeeded in getting his head clear, it would start again by the crown of his head, crack and scale, and cause terrible itching. I then got Cuticura Soap and Ointment, washing the scalp with the soap and then applying the Ointment. A few treatments made a complete cure. I have advised several mothers to use Cuticura, when I have been asked about the same ailment of their babies. ~Mrs. John Boyce, Pine Bush, N. Y."

FOR RHEUMATISM USE
POND'S EXTRACT
For Rheumatism, Lumbago, Muscular Strains, etc., Pond's Extract is unrivalled. It has stood the test for 60 years. Analysis has shown substitutes sold as "the same thing" as Pond's Extract to contain poisonous wood alcohol and formaldehyde. Don't take chances—be sure—get the genuine Pond's Extract only. Lamont, Corliss and Co., Agents, 27 Common st., Montreal.

5 DROPS TRADE MARK
CURES
RHEUMATISM
LUMBAGO, SCIATICA
NEURALGIA and
KIDNEY TROUBLE
"5-DROPS" taken internally, rids the blood of the poisonous matter and acids which are the direct causes of these diseases. Applied externally it affords almost instant relief from pain, while a permanent cure is being effected by purifying the blood, dissolving the poisonous substance and removing it from the system.
DR. S. D. BLAND
Of Brewton, Ga., writes:
"I had been a sufferer for a number of years with Lumbago and Rheumatism in my arms and legs, and tried all the remedies that I could gather from medical works, and also consulted with a number of the best physicians, but found nothing that gave the relief obtained from '5-DROPS.' I shall prescribe it in my practice for rheumatism and kindred diseases."
FREE
If you are suffering with Rheumatism, Neuralgia, Kidney Trouble or any kindred disease, write to us for a trial bottle of "5-DROPS," and test it yourself.
"5-DROPS" can be used any length of time without acquiring a "drug habit," as it is entirely free of opium, cocaine, alcohol, laudanum, and other similar ingredients.
Large Size Bottle, "5-DROPS" (300 Doses) $1.00. For Sale by Druggists.
SWANSON RHEUMATIC CURE COMPANY,
Dept. 48, 160 Lake Street, Chicago.

BOOKIES ARE FINED

Woodbine Bookies in Toronto Police Court Yesterday.

Toronto, May 1.—Herbert Bailey, Thomas Hare and Fred. Slocum appeared before the Police Magistrate yesterday morning charged with keeping betting houses at the Woodbine. The cases were held over from last fall, pending the decision in the test case of Jake Saunders. Saunders was convicted of keeping a betting house and the case was carried to the Supreme Court, which upheld the conviction. The men yesterday pleaded guilty. Bailey and Slocum were fined $250 and Hare $100, all with costs.

OTTAWA FOOTBALL

Six Teams Will Be Represented in Senior Soccer Series.

Ottawa, May 1. — The Ottawa Association Football League was organized last night with senior and junior departments. Soccer is catching a great hold in the Capital. There will be half a dozen strong clubs in the senior series. Officers were elected as follows: Hon. Pres., Mayor Scott; Hon. Vice-Pres., G. H. Rice; Pres., S. J. Willoughby; Vice-Pres., A. F. Wallis; Secretary-Treas., P. J. Lee.

DR. MACKAY'S SPECIFIC
The Only Cure for ALCOHOLISM and Drug Habits.
Approved and in use by the Government of Quebec, the cities of Montreal and Quebec, under the probatory system. Recommended especially by the clergy. An essentially scientific treatment. Requires no hypodermic injection, is taken by the mouth, at home. No loss of time or inconvenience; leaves patient restored mentally and physically. Dr. Mackay can be consulted gratuitously from 10 a.m. to 10 p.m. daily. All communications strictly private. Write for free literature, etc. Address

GREAT CRUSADE
Against the Tortures of
RHEUMATISM
AND
Kidney Diseases

THESE AGONIZING AILMENTS SUDDENLY SWEEP AWAY THOUSANDS OF OUR GOOD CITIZENS ANNUALLY.

The Board of Health; In Fact, the Government Itself, Could Well Afford to Pay a Great Premium for a Remedy that Will Cure Any Disease That is Destroying Human Life.

These deadly maladies are nearly always brought on by neglect.
When the kidneys are diseased and cannot perform their functions, the blood carries the uric acid into the joints to settle and crystalize, which in time becomes chalky and makes the joints stiff.
This is Rheumatism, and if the Kidneys are diseased and not restored to health, the tortures of Diabetes and Bright's Disease will surely follow.
The human body is like that of a modern machine, only one hundred times more perfect. No matter how perfect it may be, however, if you neglect to cleanse that machine it will get out of order and become useless.
Just so with the Kidneys, which are the main filters of this great human machine. If you overwork and neglect to cleanse them they will cause great agony, and if you continue to neglect them, they will become inflamed and clogged with poisonous matter, and sooner or later they will end your earthly cares.
If you are one of those agonizing sufferers you are on a keen look-out for a cure. Of course, you have tried many things that have not cured you, and have become a victim to your destructive disease. That is just where we find many of the great sufferers that have been cured by Munyon's 3 X Rheumatism Remedy and his Kidney Cure, which should be prescribed by every Doctor in the City.

Rheumatism and Kidney Trouble Positively Cured.

We do not ask you to take our word, but we do insist on your trying these Remedies, for they have cured others and will cure you.
We want you to be your own judge and jury—after you have given Munyon's Rheumatism and Kidney Cure a fair trial. We know what the verdict will be.
The hundreds of unsolicited testimonials that were sent to the Montreal newspapers last week, some of which were published in the recent issues, speak for themselves. We want your testimony so that other sufferers may profit by it.
No language is sufficiently strong to express the great good the Munyon's Remedies are doing for humanity. They do not miss three per cent. of the chronic cases.
Munyon's 3 X Rheumatism Cure and Kidney Cure are absolutely harmless, and sold under the Guarantee of the Pure Food and Drug Act.
The 3 X Rheumatism Remedy cures Rheumatism by neutralizing the uric acid in the system and from the joints, purifying the blood
The Kidney Cure cleanses the Kidneys by removing all poisonous accumulations, allowing them to perform and filter the uric acid in a natural way.
Every chronic sufferer of Rheumatism, who believes they are incurable, who tries the 3 X Remedy and Kidney Cure, if needed, will find in these Remedies an investment that will bring more comfort than anything money can buy.
The Munyon Remedies represent the combined practice of the most eminent and successful physicians in the world, and are specially prepared, one and all, for separate diseases, so if you are afflicted with Rheumatism, Kidney trouble, Catarrh, Dyspepsia, or any other ailment, try one of Munyon's Cures.
There are no ailments Professor Munyon has eliminated from his great vocabulary of scientific Remedies.
His Cold and Cough Cures, cure colds and coughs.
His Pile Ointment cures piles, cures them quickly and permanently.
His Vitalizer gives vigor and strength to weak men, and restores lost powers.
His Constipation Ointment is rapidly taking the place of all cathartics and weakening nostrums.
His Headache Cure stops all headache in a few minutes, and is a good heart and stomach tonics, so we might go on with the different ailments that Munyon's Remedies are prepared to Cure, and which are sold for mostly 25 cents a vial.
These Remedies are doing such human work, relieving so much suffering, saving so many lives, and saving the public so much money that every human being ought to know about their virtues.
We urge the sufferers of any disease to get a copy of Munyon's "Guide to Health," which will be mailed free on application. Physicians' advice also free.
Remember this one fact that if you buy any of Munyon's Remedies, which are for sale by all Druggists, and are not perfectly satisfied with the results, your money will be cheerfully refunded by The Munyon Homeopathic Home Remedy Co., Philadelphia, Pa.

CHAMPION IS DONE

London, May 1.—Hugh L. Doherty, the amateur lawn tennis champion, will not play this year on the English team for the Dwight F. Davis Cup. While discussing the subject of tennis yesterday, Mr. Doherty said, emphatically: "I will not play in any open tournaments this year, and will not defend my title as champion."

"Speed Swimming," the latest addition to the Spalding Athletic Library is out to-day. This is undoubtedly the best book on swimming ever published, as it contains photographic illustrations of the various strokes used in swimming competitions for the championship of the world by Charles M. Daniels, of the New York Athletic Club and other swimmers of international reputation. It also contains valuable and interesting articles for the novice and any one desiring to excel in aquatics should study this book from cover to cover.

ROYALS HAD A REST NO GAME YESTERDAY

Heavy Rain at Rochester—Morgan Joins the Team, Will be Held in Reserve—Small Will Be Farmed Out.

Special to The Montreal Star.

Rochester, May 1.—Rain fell in torrents just before the game, putting a contest with the Bronchos yesterday out of the question. Manager Kittredge was disappointed at the postponement, as the chances of taking another from Rochester are bright, as the Rochester pitching staff is crippled by the loss of McLean, who was called away by the death of a relative. Infielder Morgan is expected to report to-morrow, but Manager Kittredge said that he would not put him in at present, as the infield is going to well as it is to be broken up. Outfielder Small will probably be farmed out for the present, as there is little chance of his getting into the game with Montreal. Kittredge thinks he is a fast player and a good hitter, and wants to keep a string on him.

Errors Won for Orioles.

Baltimore, May 1.—Errors at critical points in a pitchers' battle gave yesterday's game to the Orioles. Score:

		R.	H.	E.
Baltimore	0 0 0 0 0 0 0 1 0 0 1—2	8	4
Newark	0 0 1 0 0 0 0 0 0 0 0—1	5	3

Batteries — Burchell and Hearne; Carrick and Shea. Attendance, 1,500. Umpires, Rorty and Conway.

Jersey City Won.

Jersey City, May 1.—The locals defeated the Grays by the score of 6 to 0 yesterday. Pfanmiller held the visitors to a pair of safeties.

		R.	H.	E.
Jersey City	1 0 0 0 0 2 3 0 x—6	10	0
Providence	0 0 0 0 0 0 0 0 0—0	2	1

Eastern League Notes.

Joe Kelley, manager of the Toronto Club, has been making strenuous efforts to obtain Catcher Corrigan from the Boston Americans. President Taylor, however, won't part with Corrigan.

Manager Joe Bean, of the Skeeters, was suspended for two days by President Powers, for unruly conduct. And the next day the Skeeters won.

Jack Cronin pitched for the Grays Sunday and won the game against Jersey City. Duffy needs two more Cronins if he expects to be in the running.

After three trials the Sailors won a game, defeating the Baltimore Birds. McCafferty was in good twirling form and fanned six men.

The Bisons and the Royals divided honors in the opening series. Each club took one game, and rain prevented the other two.

Joe Kelley's Maple Leaves are certainly doing some tall rustling. Kelley has worked wonders, and his team, from present indications, won't be far from the top when the season ends.

Manager Duffy, of the Grays, has released Pitcher O'Toole to Brockton, and Outfielder McCabe to Worcester. Both are good men, but not fast enough for Providence.

Joe Kelley won Saturday's game from Toronto by a long drive to left field in the eighth, which scored the only two runs the Maples made.

Joyce is about the stick man in Kittredge's aggregation. He has a good eye and usually swats the ball to some safe point.

President Doe, of the Grays, says his team must play better ball. He has announced that he is after two new infielders to strengthen the club.

Hughes, who went to Montreal from the Yankees, is a pitcher who will be of great value to the Royal team.

Manager Duffy, of Providence, has decided to give Alcott a chance at short. Alcott should improve this position for the Grays.

Catcher Murphy Bailey, who caught the opening game for Toronto at Rochester, has been awarded to the Braddock club. Manager Kelley was quite anxious to have Bailey remain with Toronto.

Rochester has released Pitcher Graney and Infielder O'Connell. Graney goes to Olean, N.Y., and O'Connell to Syracuse. Catcher Steelman may return to Rochester in the deal.

Williamsport has made an offer to Toronto for Pitcher Applegate. As Toronto is abundantly supplied with twirlers, the offer may be accepted.

Manager Kittredge says he is well pleased to break even with Buffalo in the opening series. "But it won't be so easy for the Bisons when we meet again," he says.

The Bisons promise to show Buffalo fans something great in the ball line as soon as they get started. And it's about time, too, to get started.

Manager Dunn believes in the Orioles, and he isn't far wrong. He has offered a $10,000 bonus if the Birds bring home the streamer.

Bartley, who went to Baltimore from the Philadelphia Athletics, is one of the most consistent pitchers in the Eastern League.

WITH PROVIDENCE

McConnell, of Rochester, Will Play in Providence This Year.

Rochester, N. Y., May 1.—Infielder Ambrose McConnell, whom the Rochester Eastern League Club intended to turn over to the Utica team, of the New York State League, will not play in that circuit this season, as Providence, of the Eastern League, has refused to waive claim on the player. Providence has forwarded a cheque to the local club for McConnell, and he will report at once to that club.

3,000 PIGEONS TO FLY FROM NORFOLK

New York, May 1.—At a conference held between Mr. Isreal Ludlow, superintendent of the Bureau of Aeronautics of the Jamestown Exposition; Mr. John Fischer, National Race Secretary of the International Federation of American Homing Pigeon Fanciers, and Mr. George G. Hallock, member of the Race Committee of the Metropolitan Concourse Organization, May 18 was fixed for a flight of carrier pigeons from the Jamestown Exposition grounds, Norfolk, Va., and it was agreed that the Metropolitan Concourse, which is the New York district, would supply one thousand pigeons; the Quaker City Concourse would supply fifteen hundred pigeons and the Washington Concourse five hundred pigeons, to be liberated in the forenoon of May 18.

The Metropolitan Concourse comprises the districts of Manhattan, Hudson, of Jersey City; Paterson; East Side, Paterson; Silk City, Patterson; Essex, of Newark; Bloomfield, N. J.; Independence, of Newark; Union, of Elizabeth; Plainfield, of Plainfield, and Williamsburg.

The Quaker City Concourse comprises the following districts:—Philadelphia, North Penn, Haddington, West Philadelphia, all of Philadelphia; Roxborough, of Pennsylvania; Camden, N. J., and Camden City.

The Washington Concourse comprises:—Washington district, National Capital district and South Side.

In speaking of the race Mr. Fischer said:—"The 100 mile record is at the rate of a mile in about 37 seconds. The 200 mile record is about 63 miles an hour, and the 300 mile record is approximately the same."

A homing pigeon is timed by a device which is known as the Haldstedt timing machine, which contains two watch movements, which are set stationary at twelve o'clock. Upon the arrival of the pigeon the member catching it removes from its leg small brass bands, commonly called the counter mark, or better understood as the race mark, which verifies its return, a check of the same having been made by the race committee when the bird was shipped to the race point. This counter mark is placed in a receptacle provided for it in this timing machine, and, when the slide is closed, it starts the movement, and the timing machine is then forwarded or brought to the headquarters of the club or district, thus verifying whatever record is made.

CLUB OUT OF DEBT

Brockville Rowing Club Give Minstrel Show with Big Success.

Special to The Montreal Star.

Brockville, May 1.—The members of the Brockvill Rowing Club organized a minstrel troupe, which made a great hit. For three nights the company played to large audiences in the Grand Opera House, and as a result the club expects to clear between $700 and $800. This will wipe out the present deficit against the club, and place it on a good sound financial basis, and the minstrel show will likely be an annual event. Prominent citizens have already hung up valuable silver cups and trophies for the spring regatta and rowing matters are expected to boom in Brockville this summer.

Wheat Food Is Most Nourishing

Has Been Recognized as Man's Natural Food Since Prehistoric Times.

The failure of people to properly chew their food is recognized by doctors as one of the most prolific causes of ill health. Food not properly masticated (chewed and mixed with saliva in the mouth) not only fails to sufficiently nourish the body but ferments in the stomach, causes indigestion and fills the system with poison. Stomach juices can not convert starch into maltose as saliva does. Hence to develop from ordinary food the rich, nourishing maltose (malt sugar) so absolutely essential to the good health of everyone the food should be (but generally is not) thoroughly chewed.

The ideal food which gives greatest strength to body, brain and nerves is Malta-Vita, in which the starch of the wheat is changed to maltose when the food is made. Malta-Vita is ready for assimilation by the blood as soon as eaten.

Malta-Vita is all of the wheat. Not a single nourishing part is wasted, destroyed or thrown away. Every element required for perfect nutrition is therefore represented in each rich nut-brown flake of this delicious, invigorating food, which perfectly supports all the energies of brain and body. Malta-Vita does not tax the weakest stomach in the slightest, whether it is chewed while being eaten or not, because Malta-Vita is practically predigested. Nothing builds up a weak system quicker or sustains a healthy one better. It pleases the tastes of all and completely satisfies the needs of old or young. Grocers sell it in large, sealed, air-tight packages at 10 cents. Ready to eat when you open the box.

PLAYERS THAT WILL BE SEEN ON FRIDAY

Some of the New Players That Kittredge Has Secured And Some Facts About Them—A Strong Team This Season.

The Montreal Eastern League team, which will open the season here on Friday, has undergone a big change since last fall, and on Friday no less than nine players will be seen here in local uniforms for the first time. These are: Newton and Hughes, pitchers; Brown, Sheen, Needham, Hill and Morgan, infielders; and Madigan and Small, outfielders. Of these nine, Hill played here with Buffalo, and Brown with Newark, last season, while Morgan was with Providence in 1905, but Friday will be the first appearance for the others at Atwater Park.

Of last year's team the following remain: Kittredge, Connors, Stanley, Dubois, Joyce, Phelan and Simons. The last named is not with the team at present, having been injured during the training trip, and he is now at his home in Brooklyn.

Some facts about the new players who will show themselves to the critical Montreal audiences on Friday and the next few days, will be interesting:

"Doc" Newton, the pitcher, has spent most of his career with the two major leagues, being with the New York Americans last season, where his record was seven wins and five losses. He is a giant, standing over six feet, and weighing about 210, when in condition. He is a southpaw, and is very speedy, and Kittredge declares that he is the best pitcher in the Eastern League.

Tom. Hughes who, it is expected, will be another star, is a Westerner. He was with the Atlanta team of the Southern League last year, and had a record of 25 wins, 5 losses and two tied games. In 1905 he was purchased by the New York Americans from Topeka, and was turned over to Atlanta for experience. He trained with New York this season, and was then turned over to Montreal. He is a fine fielder and a pitcher with unusual speed.

Arthur Brown, the first baseman, is considered the best in this position in the league. He is tall and very fast, and hails from Wilkesbarre, where he played his first ball with the State League team. Last year he was with Newark, and made such a good showing that Detroit purchased him, and afterwards sold him to Montreal, with the right to re-purchase at the end of the season.

David Shean, who holds down second, is regarded as one of the cleverest of the bunch secured by Kittredge. He is a Fordham College boy, and last season played a few games with Rutland in the Northern New York League. Towards the end of the season, the Philadelphia Americans got him and he played the last 22 games of the season with that club, and leading the second basemen of the league, accepting 99 out of 101 chances, and for a young player showed up very strong. His batting in the big league was .213, and this season he is proving one of the Royals' best batters. Shean is a player of great promise, and Philadelphia still retains an option on him.

Needham, the shortstop, comes from Buffalo, and played with Columbia, in the South Carolina League last year. He showed great form in the early spring practice, and consequently Kittredge sold Hartman and retained him. He is a small man and very fast.

Hunter Hill is generally acknowledged to be the best fielding third baseman in the league, and this season he is also batting well. Last year he led the Eastern League third basemen in fielding, while playing with Buffalo. Hill has had major league experience having played with Washington and St. Louis.

Morgan, who has just joined, is another third baseman, who will probably be placed at short, because of hit hitting ability. In 1905 he joined the Providence Club, and was among the best batters in the league. Detroit purchased his release and last year when Boston lost Collins, loaned him to that club, and last winter Detroit sold him to Montreal. He is a fast fielder and a fine batter.

Madigan, the right fielder, is expected to be one of the team's best hitters. Last year he was with the Kane Club in the Inter-State League, and led the league with a batting average of .368. He is also a good third or second baseman, but prefers the outfield. He is powerfully built, and has a great throwing arm, and is very fast and is expected to be a big improvement over Huelsman.

Small is a youngster from St. John, N.B., with no experience in professional company, but Kittredge is much impressed with him, and will hold him for future development.

Below is given the records of the various players:—

Name and Clubs.	Gs.	S.H.	S.B.	Fielding Ave.	Batting Ave.
Kittredge, c. Washington	27	2	..	.952	.179
Kittredge, c. Montreal	21	4	..	.969	.189
Connor, c. Montreal	25	19	20	.965	.263

Winners of The Telephone Trophy---The Northern Electric Hockey Team

The men are: 1. J. Dixon, right wing; 2, F. Hughes, c.f.; 3, G. Broughton, goal; 4, Percy Norton, centre; 5, E r.Arnold, rover; 6, Fred. Strike, l.w.; 7, E. Wynne, Captain.

CIVIL SERVICE ATHLETIC BODY BECOMING SENSIBLE

Even Frank Grierson's Association Realizing That C. A. A. U. Rules Are Being Carried Too Far As Referring to Professionals at Present

Special to the Montreal Star.

Ottawa, May 1.—The Civil Service Athletic Association Executive will recommend to the next general meeting of that organization that the members suspected of being pros. in the service be attached to the association as social members, which will give them the use of the material for playing games, etc. This will not entitle them to attend meetings, however, nor will they be permitted to vote in association affairs. No fee will be accepted from these members, and they will not be allowed to compete in any league matches or games for a gate or prize. The idea is simply to give these members of the service, as well as the amateur recreation. Of course this move may be turned down at the general meeting, which will take place next week. Then it will also be subject to the approval of the board of governors of the C. A. A. U.

The fact was brought out last night that when the Civil Service Athletic Association was first asked to join the C. A. A. U., the idea was laughed down by the officers of the first mentioned body. In fact the Civil Service Association at that time thought so little of the C. A. A. U., that there was a clause in the constitution stating "That as there was no recognized athletic governing body in Canada, the Association would have to take a strong stand, independantly for pure amateur sports." That was before October last, when the C. A. A. U. only had 48 clubs under its wing, while now it has over 500.

When asked regarding the question of reinstating a number of men who had played with or against "Pros." President Frank Grierson, one of the C. A. A. U. governors, said that the men who committed the offence before October last would be leniently dealt with, as at that time the C. A. A. U. was very loosely run. But after their organization, a warning had been issued throughout Canada and the men who broke the amateur rule after this would have little chance of being reinstated.

What John L. Sullivan Has to Say About the Rumor That He Is To Be Married Again.

The Star yesterday had an announcement to the effect that John L. Sullivan was to marry again. Here are some more particulars:

During all the years that have intervened John L. has sidestepped the little fellow with the bow and arrow, but Cupid kept in training and "got" the big fellow. John went down for the count. His second trip to the altar will be the close of a romance as modern as it is delightful.

Two years ago, when the mighty Sullivan was doing his best to corner the hop market, he made the acquaintance of the woman who will soon become his wife. Despite John's gruff exterior, he has a sincere way of expressing himself that never fails to win out. They met several times after that, and the outcome was her promise to help John carry his name, provided he would travel by the all water route for a period of two years. John has made good, with more than a dozen weeks to spare.

Sullivan was seen yesterday at Hyde & Behman's Theatre in Brooklyn. He had just finished his monologue and was bowing to applause that would have tickled a grand-opera star. His simple life showed plainly in the ruddy glow of his cheek and the brightness of his eye. His hair is snow white but his step is just as springy as when he bowed before the Prince of Wales, now King Edward. He was willing to talk about anything but his approaching marriage.

"Is it true, John, that you are in training for the rocking chair championship?" he was asked. The answer was in the old familiar Sullivan roar. When John whispers its like another man shouting.

"What are you driving at, son?"

"I came to find out when you're going to get married," said the reporter.

"Married!" was the reply. "Say, son, I've fought my last fight. No wedding bells for mine." Here Sullivan's massive frame shook with laughter. The corrugations in the back of his neck resembled a washboard.

JOHN PARRIES THE THRUST.

"Didn't a New York woman promise to marry you if you behaved for a stipulated period?" asked the reporter as he ducked to avoid punishment.

"Blow your whistle, boy," snorted John. "You're at a crossing."

"How long have you been on the water waggon?"

"This is my one hundred and sixteenth week and I've got a half-Nelson hold. I'm going to qualify for the finals, too. When Gabriel gives the big blow John L. will be there in a diver's suit."

"And you're not going to get married?"

"Be good, bub. I'm done dealing in calico."

"How much do you weigh, John?" was the next question.

"About 275," was the reply. "I dropped a hundred when I climbed on game. A lot of folks had old John L. booked solid over the rum route, but I fooled 'em. I cancelled my engagement on the cocktail circuit. I'm keeping my money nowadays. I like to look at the pictures on it. I guess I'd have a pretty good art gallery if I had it framed."

At this juncture the strains of "Come Back to Erin" were wafted back to where Sullivan was sitting. John hurried away to knock another rear off "Kid" Cutler, his sparring partner.

GETTING IN SHAPE FOR BIG OPENING

Despite the fact that the weather conditions have been unfavorable all the spring, and in fact right up to to-day, the management of Atwater Park expect to have the field fit for play for the opening of the Eastern League series on Friday, when Buffalo will be here. That is if the weather man is good and sends some fine weather until then.

This morning extra men and teams were put at work at the grounds, and everything possible is being done to get them in readiness for the grand occasion. So much snow in April makes the task a big one, but those in charge seem confident of accomplishing it.

The usual ceremonies will be held before Friday's game, and Mayor Ekers has been asked to pitch the first ball. The teams, accompanied by the Victoria Rifles band, will parade the streets on one of the Montreal Street Railway's observation cars, and the usual march across the field will take place.

The season books were on sale yesterday. They include grand stand admission for seventy games and the price is twenty dollars each. These books may be secured from Secretary Ascher at the Bath Hotel to-day, and beginning to-morrow his headquarters will be at Atwater Park.

BACK INTO THE GAME

St. Catharines Will Have Lacrosse Team This Summer.

Special to The Montreal Star.

St. Catharines, Ont., May 1.—At a meeting of the Athletic Lacrosse Club, held last night, many players and citizens being in attendance, it was unanimously decided to get back into the game. Much money was in evidence, and $200 or $300 was raised on the spot. The officers were elected as follows:

Patrons, E. A. Lancaster, M.P.; Dr. E. Jessop, M.L.A.; Mayor Riddell, E. F. Sexias, D. J. McIntosh, F. W. Martin, A. J. Gilmore, A. M. Ecclestone; honorary president, John Dawson; hon. vice-president, Alf. T. Irvine; hon. second vice-president, J. E. Lawrence; president, Wm. J. Lee; vice-president, H. L. Phelps; secretary, W. A. Moore; treasurer, A. M. Platt.

DOG SHOW ENTRIES FROM ALL OVER

Montreal Dog Show entries are coming in fast, and dogs of note are entered from all over the Continent. It has been reported that the famous string of collies owned by Mr. Untemeyer, the New York millionaire will be exhibited here.

It is also reported that Mr. Payne, of Kingston, Pa., who purchased the celebrated pointer "Champion Devonshire Maxim," will also send in a large list of entries. Entries can be made at the Star Uptown branch every evening this week between 8 and 10, and at 110 Temple Bldg., during the day.

Baseball at Nicolet.

The Nicolet 1st were defeated by the Nicolet 2nd in a fairly well played game by the score 9-3. Masson, captain and pitcher of the Nicolet 1st was unable to play on account of sickness and was substituted by Sweeney and Barneau. The contest, being the first of the season, was quite lively. The game was called at 3 o'clock and the first ball was pitched by the director, Rev. Fr. Poirier; he was cheered to the echo by the students. Neither team scored in the first inning, but in the second Nicolet 2nd succeeded in getting three men across the plate. Nicolet 1st scored in the third. With three men on bases, Desautels hit for two bases, sending in three runs. Nicolet 2nd took the lead in the fourth and kept it till the end. The feature of the game was Desautel's good playing and Barneau's good pitching in the last three innings. In the seventh inning Desautels made a pretty one-hand catch off second, of a speedy liner. The same teams will meet again this week.

The line up and score:

Nicolet 1st.—Jolicoeur, 1st; Desautels, 2nd; Beauchemin, c.f.; Desjarlais, s.s.; Belleville, 3rd; Gaillarde, l.f.; Champagne, r.f.; Paradios, c.; Sweeney, p.; Barneau, p.

Nicolet 2nd.—Patry, 1st; Bourfgeais, 2nd; Elie, 3rd; Lancourt, l.f.; Moran, c.gf.; H. Sweeney, s.s.; Doucet, r.f.; Hebert, c.; Cote, p.

Score by innings:

Beell Here To-morrow.

Fred Beell, the little wrestling wonder, will be in town shortly to wrestle at Sohmer Park Friday night. Since defeating Gotch, Beell has lost the title, and of Friday last failed in an effort to win back the lost laurels. For all that Beell in the last match was able to pin Gotch's shoulders to the mat in three minutes, when he took the second fall. Any wrestler who can handle the champion in that short order shows class. Beell's disadvantage is his size. He is only 5 feet 4 inches in height and weighs only 165. For his size he is considered a marvel, being able to hold his own with men twenty and thirty pounds heavier. Beell's opponent for Friday is Perrelli, the fiery Italian, who won popularity here for his spirited bouts with Gotch. The match will be straight catch-as-catch-can to a finish.

EASTERN LEAGUE PENNANT WINNERS.

The following table shows the successful team each year since the foundation of the organization:

Year.	Club.	Won.	Lost.	P.C.	Year.	Club.	Won.	Lost.	P.C.
1891	Providence	40	25	.616	1899	Rochester	71	42	.639
1892	Binghampton	32	16	.667	1900	Providence	85	53	.616
1893	Erie	63	41	.606	1901	Rochester	89	48	.650
1894	Providence	78	37	.678	1902	Toronto	85	42	.670
1895	Springfield	88	37	.704	1903	Jersey City	92	33	.736
1896	Providence	71	46	.607	1904	Buffalo	89	46	.659
1897	Syracuse	86	50	.632	1905	Providence	83	47	.639
1898	Montreal	68	47	.591	1906	Buffalo	85	55	.607

About Sports and Sportsmen

What about that suspicious transfer of Simon-pure Hamilton athletes to a Simon-pure Toronto C. A. A. U. club?

There is one thing the Blue Bonnets track has and that is beautiful natural surroundings. It is far ahead inthis of most tracks in America.

Many years' work, for instance, will be needed to bring the Aqueduct course up to the landscape beauties of Sheepshead Bay and Belmont Park, but the work is going on slowly and steadily. During the summer Superintendent Hampshire will have a large force at work and nature will be called upon to help besides. Grass will be planted on the bare dirt "lawn" of the field inclosure and along the automobile road.

The parking space for the machines will be graded. Financial success of the meet which closed yesterday encouraged the management to plan these steps and it is not improbable that trees will be planted along the backstretch and on the south side of the track, with a view to breaking the chill winds that sweep in over Jamaica Bay. American racing associations have done much in the past ten years to better their plants from the purely estistic viewpoint, and the increase in public support comes somewhat in the nature of an appreciation.

Within the decade the character of the crowd has changed completely, and the hurly-burly, rough and tumble element that was content with the old Guttenberg track, Maspeth and similar places, has been replaced by a quiet, but enthusiastic leisure class, willing to spend its money freely, but also anxious to have the enjoyment of picturesque and fitting surroundings for the day's outing.

The Brooklyn Eagle says:

"In its desire to purify amateur athletics, it is peculiar that the Amateur Athletic Union of the United States takes no notice whatsoever of the fact that many college baseball nines play the major teams. According to the officials that pretend to govern athletics in the States, a man who plays against a professional loses his amateur standing. By this line of reasoning, the Yale baseball players should be declared outlaws for playing against the Giants; and, to go further, all college teams that played Yale should be placed under the ban. No word to date, however, has been received that this has been done. The statement that the A. A. U. does not control the destiny of Yale athletics can hardly hold good, as that body indiscriminately disqualified hockey players last winter, although the followers of the puck are not under its jurisdiction either.

People who think the business man agement of a baseball club is easy ought to read the following:

At the close of that memorable season when Tim Hurst managed the Browns for Von der Ahe, he laid over in Philadelphia on his way to his home up the State, and while in the Quaker City he told his daily experiences while running the Mound City Club.

"My Mondays," said Timothy, "were devoted to telling the St. Louis sporting editors how I was going to win the pennant the next year; Tuesdays I would be kept busy denying to the club owners that I had ever made any such statements; Wednesdays I would be explaining to the newspapers why we weren't winning any games; Thursdays I would be fighting with Chris to keep him from fining the players all they had coming to them; Fridays I would generally be busy all day getting the terms of pitchers that no batter could hit."

"And on Saturdays?"

"On Saturdays I would spend the day signing players that couldn't hit any kind of pitching."

The Greatest Little Wrestler in the World.

The above picture is from a photograph taken in Des Moines, Iowa, and shows Fred. Beell, who will make his first appearance here at Sohmer Park on Friday, trying to get a hold by which he will be able to throw his opponent over his shoulder.

STANLEY CUP HAS NOT ARRIVED YET

Although it is six weeks since the Wanderers won the Stanley Cup, that famous hockey emblem has not yet arrived in Montreal and it is possible that the troubles are not yet ended.

Mr. Wm. Jennings, secretary of the Wanderers, stated that they are not worrying about the matter, but were just waiting to see how long it would be before the Kenoras would forward it. When Kenora won it from the Wanderers the first of the winter, the cup was forwarded to them the fifth Monday after the final game, the delay being caused by the engraving of the plate and it is just possible that the same thing has caused this delay. The Wanderers have taken no action in the matter, but are simply letting it stand to see how long it will take the Kenoras to forward the trophy.

It is about settled that Lester Patrick will be here for the season of 1908. Although his family have gone to Vancouver, Patrick will remain here until fall at least, and although he would not speak definitely, says he may remain till next spring.

GOULD IN FINALS

London, May 1.—In the semi-final in the international amateur court tennis championship games yesterday, Jay Gould beat Page three straight games. Score: 6—0, 6—0, 6—2.

Gould and Pennell, the champion of 1905, will meet in the final to-morrow.

Conscious of the criticism evoked by its postponement of a decision, the executive committee of the court tennis association met yesterday afternoon, instead of to-day, as planned, and decided that Eustace H. Miles, the holder of the championship, shall be permitted to defend the title and that the winner of to-morrow's final may challenge the champion to play for the title May 4.

CZAR'S HORSE MAY WIN ASCOT GOLD CUP

London, May 1.—The Czar of all the Russias is the owner of a possible winner of the Ascot Gold Cup this year. For this race, the chief event of the most fashionable meeting in England, "Mr. Derkul," otherwise Nicholas II., has entered his famous four-year-old Hammurabi, a son of the Derby winner Galteemore.

The Czar's horse, which is now being trained at a famous English stable, is said to be a wonderful animal with an exceptionally long stride. If he keeps up his form he is sure to be a hot favorite for the Gold Cup.

Hammurabi is registered at the Jockey Club as the joint property of nine prominent Russian sportsmen, but is said to be actually owned by the Czar. His sire, Galteemore, and another Derby winner, Ard Patrick, were exported to Russia for stud purposes, the price for each being $100,000.

HAMILTON LACROSSE

Special to The Montreal Star.

Hamilton, Ont., May 1.—The Hamilton Lacrosse Association met last night and decided to apply for incorporation with a capital of $10,000. Provisional directors as follows were appointed. John G. Gauld, W. B. Barker, Ald. A. J. Wright, James Wright, J. W. Nelson, R. S. Babb and Fred. Hubert. The team is about made up.

Lacrosse News and Gossip.

E. Fawcett, secretary of the Collingwood Lacrosse Club, has written Secretary Hall of the C. L. A., objecting to their grouping, as they will likely be the only team in that district, Meaford and Thornbury not going to play intermediate.

Mr. Fawcett wants to be grouped with Orillia, Beaverton, Peterboro and the rest in that district. He suggests that the three clubs mentioned be grouped in one section, and Collingwood, Bradford, Newmarket and the two Toronto teams in another.

The Montreal Lacrosse team starts in training this week.

Mr. N. P. H. Whitney, now of Manchester, who played centre for the Duke of Argyll's team against the Caps on Saturday, was a member of the lacrosse team which came to Canada three years ago and played in Ottawa.

Whitely Eastwood and 'Bouse Hutton seem to be opening the eyes of the English enthusiasts. Gaul and Murphy have been coming in for a good deal of praise.

ITCH, Mange, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by T. E. HUOT, 30 West St. Catherine st. 25, 104 2a—

LONGBOAT WILL BE ASKED TO RUN HERE

At a meeting of the Montreal and District Harriers League, held last night at the M. A. A. A. Club House, the schedule of runs for the spring was arranged, and the programme of the track meet to be held on either the first or fifteenth of June was made out.

The union run schedule is as follows:

May 11.—Union run. Starting from the Westmount A. A. A. gymnasium, in the Victoria Hall.

May 15.—Night run at 8.30. Start will be made from the St. Jacques Club's building, at the corner of St. Denis and St. Catherine streets.

May 18.—Union run from the Y. M. C. A.

May 22.—Open date, with the probability of a night run from St. Patrick's quarters.

June 1 or 15—Date not as yet settled. Annual track meet of the Montreal and District Harrier League at the grounds of the M. A. A. A., Westmount.

The programme of the annual meet will consist as follows:

Seniors—100 yds., 440 yds., 880 yds., 1 mile, relay race, a distance 1 mile, for four-men teams; 3 mile relay race for three-men teams; broad jump, high jump, special match race.

Juniors—100 yds., 880 yds., 1 mile, 1 mile relay race, for teams of four men; 3 mile road race, broad jump.

Three points will be given for a win, two for second and one for third place.

The special match ought to attract a good deal of attention, should it be pulled off, for the committee decided to approach Shipman, of the Gordons, and J. McCuaig, of the M. A. A. A., Nuttings or Williams, of Ottawa and Longboat, the famous Indian.

These men will be written to and inducement offered in the shape of a special prize to bring them together at a distance of five or ten miles, the distance to be decided upon at a future date should the negotiations prove successful with the idea of attempting to lower the Canadian record for the distance.

The track meet will, without doubt, be a record one as some of the best short and long distance men in Canada are in this city.

In future any runner who won any junior event in the last track meet or road race is debarred from the junior ranks this season.

The Y. M. C. A. Harrier Club, of Quebec, will probably be represented at the meet, as they have written the local league asking for information concerning it.

Malone, of Almonte is now reported to have signed by the Shamrocks as goalkeeper. Who next?

WESTERN GOLFERS WANT TOURNAMENT

Toronto, May 1.—At a meeting of the Western Section of the Royal Canadian Golf Association, it was unanimously decided to recommend the resumption of the International tournament with the United States this year. As the Western section consists of five members of the Canadian Board, Messrs. A. W. Austin, G. S. Lyons, M. E. Cameron, R. C. H. Cassells, and Fritz Martin, while the Eastern has only three this year, the international relationship was, to all intents and purposes, decided. Mr. James has written informing the United States body of the decision of this section and that negotiations are now on with the east.

The committee recommended dates for the Canadian tournament as June 29 to July 6, the first day being devoted to the inter-provincial and the next four to the amateur championship. The open event will be played on July 5 to 6.

The Ontario team for the Inter-Provincial will be picked by G. S. Lyon, R. C. H. Cassells, F. R. Martin, and the Quebec team by H. H. Hansard, Ottawa, G. Lees, Outremont, and Dr. Ruttan, Montreal.

Eye Glasses and Spectacles repaired. R. Hemsley, 255 St. James St.

Not So Tame As Expected, Says Capt. Pringle of English Games—Englishmen Are Hard Checkers

The English lacrosse teams are learning to check just as heavily as the Canadian teams according to a letter received from Capt. Bobby Pringle by one of his friends in the interior department yesterday. Pringle, writing from London the day after the second match of the tour, says that the Caps stepped on to the field with the idea that they were going into some kind of a love feast. "Shea and Fagan were all smiles as they sized up their opponents," says Pringle in his letter. "Hutton smiled also when they brought a big fellow, fatter than a clown, and put him in on Fagan. The English players were well padded and looked peculiar in contrast to our boys. When we started off Billy Starrs kept telling the referee that he would not be needed, but we were not going long before we found that we were up against the real thing. These Englishmen used their lacrosses with heavy effect, and every time they checked they left a dent in one of our sticks. Jack Shea's cover landed him a blow on the side of the head, and Ernie Butterworth was sent sprawling. These games are not as strenuous as those in Canada, but the checking was very hard and there is no telling what it would be like if bodychecking was allowed. Herb Ralph forget himself on one occasion and bodied an opponent so heavily that the latter had all the wind taken out of his sails in less time than it takes to tell it. The players in England can run like deer. Give them the combination and they would make us hustle for our lives."

President Tasse, on a card to Dr. Chabot, says that the Caps are being feasted all along. He adds that they are having the greatest time of their lives and that nothing is too good for them over there.

A copy of the London Graphic of April 17 has been received from a member of the Capital party. The Graphic contains four cuts of the Capitals at practice at Lord's and shows nearly all the players having a warming up. In one of the cuts President Tasse is standing behind Bouse Hutton, wearing a beaver hat and frock coat. The other officers may be seen in the background sitting on benches and watching the players canter around in the sun.

ENGLISH SYSTEM FOR WOODBINE RING

Special to The Montreal Star.

Toronto, May 1.—It is announced that John P. Cavanagh will have control of the Woodbine ring at the May meeting. The English system of betting will prevail, individual bets, odds shown, on small hand slates and the layers moving about a portion of the lawn set apart for them. Cavanagh's bureau of advance information, which has worked so successfully in New York, will be inaugurated here, and will operate at the other Canadian tracks in turn.

By this arrangement the bookmakers have to pay nothing for the privilege of laying the prices, as under the old system, but they pay a small daily fee for the scratches, jockeys and other details, which are necessary. They must pay admission to the track like anybody else, so that it may be said that there are no business relations between the betting ring and the Canadian track owners.

MEDALS PRESENTED

British Bowling Team Send Medals to Canadian Hosts.

Special to the Montreal Star.

Toronto, Ont., May 1.—Mr. A. H. Hamilton, of Edinburgh, secretary of the British bowling team, who visited Canada last summer, has sent to Mr. George Anderson, captain of the Canadian bowlers who visited Britain in 1904, a number of beautiful gold medals for distribution to some of the British-er's prominent posts in Canada. The design is a St. Andrew's Cross with crown at top, and at the sides and foot, the rose, shamrock and thistle. The centre also is an enamelled St. Andrew's cross, showing the embems of England, Scotland, Ireland and Wales. On the reverse side is a maple leaf in the centre, with the inscription surrounding it, "presented by British Bowling Team, 1906." Among the recipients are H. Mussen and W. Brown, Montreal.

GOOD BOXING BOUTS AT LEWISTON, ME.

Montrealers lately returned from Lewiston, Maine, tells of some good boxing matches that were recently held there. Under the new law there boxing matches are allowed without any decision.

The main bout of the evening was between young McDonald, of Boston, and Kid Dufresne, of Lewiston, Maine. McDonald had the best of the mill, which was rather slow for the first three rounds, the Boston man taking things easily. Beginning at the third, however, he got into the game in good shape and forced the fighting, and in the sixth especially got in many blows on the Lewiston man. Had a decision been given it would certainly have gone to McDonald, and the crowd were very sorry that the match could not be continued.

McDonald's weight was announced at 121 pounds, and Dufresne's at 119.

The preliminaries were between young Leduc, of Biddeford, and Kid Devassy, of Auburn, in which the latter had slightly the best of the argument, and between Eddie Harrigan, of Portland, and Kid Funningham, of Lewiston. These two were also evenly matched, and a good fight was the result.

MISS SUTTON'S PLAY

Won at Doubles in New York Yesterday After Fine Game.

New York, May 1.—Rarely has Miss Sutton played better lawn tennis than she exhibited in winning the final of the mixed doubles yesterday afternoon. She kept the ball crossing the net at such a lively rate that Wm. A. Larned, who was partnered by Miss Nora Iselin, on the opposite side, was frequently outplayed at his own favorite shots. Miss Sutton was splendidly supported in the game by Theodore Roosevelt Pell, and the pair won the contest in three straight sets by the score of 6—3, 6—2 and 7—5.

WEDNESDAY, MAY 1, 1907.

ARBOR DAY.

Although the forest is one of our province's most valuable assets, and while the most arduous labor of the settler on the public domain is that performed for the purpose of converting bushland into arable fields, still in the older parts of Quebec the preservation of the woodlands and the planting of trees is a matter that has only at last received the attention of the authorities. Very little has been accomplished, for in this country the cause of forestry has not yet passed beyond the educational stage. The people have yet to be taught its importance and those carrying on the work deserve all possible encouragement and assistance.

One means adopted has been the appointment of a public holiday to be devoted to the planting of trees and the consideration of the usefulness and ornamental possibilities of trees and groves. The occasion is known as Arbor Day. By proclamation the Provincial Government have selected May 2nd as Arbor Day for the western part of Quebec, and May 10th for that part of the province lying east and north of the county of Arthabaska. The days having been officially selected, their observance now rests with the people.

It would be well if the residents of every city, town, village and rural community would carry out the spirit of Arbor Day. In many cases, public squares and streets are bare and ugly for want of trees; and usually the barest and ugliest spot of all is the school house yard. With the green fields and blooming orchards all about in the smaller communities, they stand like little deserts unbeautiful, dreary and depressing. A few trees would, in time, change all that, and the work of a few willing hands on Arbor Day would lay the foundation of such a change.

True, it may be, that those who plant trees seldom live to enjoy their shade, but they have the satisfaction of feeling that they have done something to make their neighborhood more attractive. And there is a direct and an immediate pecuniary reward for the tree-planter. A row of young trees planted along a village street, represents invested capital, which will add to the attractiveness of the whole place, make it a more desirable village to live in, and give property an enhanced value. And the same with respect to a farm. Growing trees about the yard, along the lane or across the farm front, mean a better price should the farmer sell. His work on Arbor Day means an improvement to his property that can, even in his lifetime, be reckoned in dollars.

ONE SOURCE OF "GRAFT."

It is reassuring in a welter of political "graft" and popular helplessness to find the clergy taking to themselves some measure of responsibility for the collapse of our public life. Journalists may range themselves as well on the penitent bench; and we may all take a hint from Rev. Mr. Salton's address of yesterday, at the Convocation of the Wesleyan Theological College, on the necessity of keeping before the people "high ideals." This sounds a trifle trite until we look at it closely, when we will discover that it is very largely the cause of the more serious communal sins of our people at this time.

We have elevated the ideal of wealth. The clergy will refer to this as a materialistic ideal; but we have made it worse than that, by caring very little how our idols have got their wealth, provided they can show it in visible form. The seeking of material prosperity is not a half-bad ideal as this old world goes, provided we do not upset the basic laws of ethics to gain it and do not imagine that money-wealth is the end of the seeking. Money-wealth is only half the bargain. We must sell it in turn for the materials of happiness which we can actually consume; and it is better that these should be good music and good art and good literature rather than ostentatious displays and vulgar extravagance.

Still this deifying of wealth has had the effect of inciting everybody to seek it to the exclusion of aught else. They get it honestly if they can; but, they must get it. The natural result of this upon men of the notoriously elastic conscience of the politician, was surely inevitable from the first. Politics is their trade. It is the way they can most easily and surely make wealth. Not being hampered by many scruples, they devote themselves to the making of it and the result is a carnival of "graft." If we had succeeded in making public service a higher ideal than the accumulation of wealth, then we would have found men in public life who would have sought the general approval by conspicuously valuable public service; and a very few such men would have made "grafting" almost impossible.

Now history is full of the records of such men. Races and nations have frequently made public service the highest ideal, and they have been rewarded by producing men eager to serve the public. Such races and nations have prospered and advanced, while other nations, which worshipped rather the successful thief, have decayed and disappeared. Canada may survive a good deal of this sort of internal rottenness for a long time because of the lavish generosity of nature under whose gifts she can hardly fall. But even these gifts will fail in time; and then we must depend upon our manhood. If in the meantime our manhood has disappeared in Mammonhood, the end is certain.

CAN BRITAIN BE INVADED?

A French writer—M. Paul Fonflin—is of the opinion that the invasion of England by German armies is not only possible, but "has been worked out with characteristic German thoroughness, and will be achieved." We quote the London Spectator's review of his book, which does not deal primarily with this question, but with the argument that France should cease spending money on her navy and devote all her energies to strengthening her army. He holds that her navy can never be important while the British navy is superior, and admits that Britain must keep command of the sea if she is to live. Moreover, he is a friend of the Anglo-French "entente," and hints that France might get the help of Britain's fleet if she needed it.

Englishmen are especially interested, however, in his alarmist opinions regarding the ability of Germany to invade Britain. He thinks that the attack will begin as Japan's attack did at Port Arthur, by a torpedo raid against the British ironclads in which the Germans will be prepared to sacrifice everything to the temporary crippling of the British squadron. Simultaneously German agents in Britain will destroy the railways and so retard mobilization. Then the German soldiers are to be packed like sardines in the passenger ships at the docks of the coast cities, which will immediately sail under cover of the frequent North Sea fogs for Scotland. He thinks that Germany could get eighty thousand men ready to embark in this way without attracting any attention; and that, in thirty-six hours, they would be landed on Scottish soil, with the rich cities of Edinburgh, Aberdeen and Glasgow at their mercy.

Then the British fleet would be kept so busy blockading its coast to prevent further landings from Germany that the German fleet would command the sea "and take toll at will of her adversary's sea-born commerce." Thus Britain will be compelled to sue for peace without even fighting the German force marching south from Scotland. At this point, the writer drops an incidental argument in favor of the Channel tunnel scheme. He says that with the command of the sea lost, England will be glad to get food carried to her under the sea through this tunnel, and intimates that even French soldiers might be of value shipped through in the same friendly fashion to meet the German attack.

This last touch will serve to remind the most fascinated reader of the power and presence of the Gallic imagination, and to open his eyes to the circumstance that this is more a work of fancy than of reality. To imagine that, in case a German force were thrown into Scotland, the British navy would be so busy undertaking "a close blockade of her own coasts," as to lose command of even the English channel, is a supreme feat of the fancy. The British fleet, in such an event, would not blockade the British coasts at all, but the German ports of embarkation; and there would be plenty of ships over to keep the German cruisers from pillaging at will in the English Channel. No possible torpedo attack—no matter how successful—could put the entire navy out of business in any such fashion.

Nor is it likely that the blow could be delivered in Port Arthur style. It is inconceivable that Germany would strike such a blow out of a clear sky. Germany is a civilised power. It would only be after serious misunderstandings between the two Governments that such a blow would be tried; and if the British fleet were not on the watch for torpedoes under such circumstances, it would richly deserve its fate. In fact, it would probably be cruising not far off the German ports, at such a time, awaiting a flotilla of transport ships. Then our imaginative author calls the North Sea fog to his assistance. But let us suppose that it did not come. Then the British secret servants could hardly fail to report the mobilisation of the German army of invasion on the coast, where it would be stopped by a few hours of clear sky. Once Britain knew, any attempt would be suicidal.

Of course, the discussion of such possibilities is not in the least unfriendly to Germany. It is merely talking to the people frankly as the authorities of every European nation talk to themselves. The comment of the Spectator on this point is worth quoting:—

Before we leave M. Fonflin's book let us say that it must not be supposed that in summarising or quoting his views as to the possibility of an attack from Germany we are committed to any declaration that Germany at the present moment contemplates or is preparing for an attack upon us. We do not suppose she is. What she is doing, what she has a perfect right to do, and what if we were wise we should follow her in doing, is to prepare for all eventualities without fuss or anxiety or indignation, but in a purely abstract and scientific spirit. She is studying beforehand exactly what she ought to do if ever she were so unfortunate as to be engaged in war with Britain. We do not regard this as specially unfriendly on her part, but only very wise—the world being what it is.

The friendly feeling displayed toward Britain by this French writer is pleasantly significant. He would like to depend upon the support of the British fleet, and delicately he hints at an offer of the services of the French army. King Edward's "entente" is bearing fruit.

The Passing Hour

However, there was one good point about April. It only had 30 days instead of 31.

A Montreal member says local Socialists are not bomb-throwers. They are wise. Canada has a peculiar climate. It's not healthy to throw bombs in it.

The gas is off in the East End of the city, but from force of habit the gas metre is probably operating as usual.

Every little while some librarian bars out Mark Twain's works. Just as if Mark needed the advertising.

WESTMOUNT.

To the Editor of the Montreal Star:

Sir,—To settle a dispute, what is the population of Westmount?

ANXIOUS.

Westmount Statistics.

Population (about)	10,000
Baby carriages	36,427
Lawn mowers	27,212
Garden hose (feet)	2,619,784
Area under onions (acres)	2,860
Area under cabbages (acres)	12,461

The figures are on the whole more or less unofficial.

W. T. Stead has been invited to speak in Montreal. If he comes, why not supply peanuts and pink lemonade and make the circus complete?

Some women are so conscientious; they won't spend more money on clothes than they can get hold of.

And it was snowing in Germany, too. Vas ist der matter vith der April once alretty?

NOT UP TO EXPECTATIONS.

My clothes I always choose with care,
The cloth with judgment I select,
And money I will never spare
To have all my attire correct.
My tailor gives me good advice.
His word, indeed, should carry weight,
But though he sets the style and price,
I don't look like the fashion plate.

I have my fittings—two or three.
I tell the man to shape and pad.
He's most particular with me,
And what he does is not so bad.
But though he uses all his skill
And tries to make me up to date,
And though I always pay his bill,
I don't look like the fashion plate.

No matter whether it's a frock
Or business suit or cutaway,
My feelings always get a shock
In spite of what my friends may say.
They'll tell me it's a lovely set
And that the pattern's simply great.
I try to like them, too, and yet
I don't look like the fashion plate.

What a pity it is that a man with a talent for advertising himself like W. T. Stead was not born a toilet soap.

Germany is said to have an eye on Canadian trade, and will capture it. The eyedea!

You may swallow that story about the professor who taught a starfish to turn somersaults, but we warn him right now not to come back with another one about a starfish that can flap its wings and crow.

From Philadelphia comes the story of a man who died of grief over the death of his mother-in-law. And no doubt some men will insist on having it sworn to before they will believe it.

Two Montreal aldermen threaten to resign their seats, but it is believed that with a little preparation the public would be able to survive the horrible shock.

Servant girls' wages have increased 50 per cent. and school teachers' stipends only 5 per cent. The remarkable part is that our intelligent Legislature even gave the school teachers a rise of any per cent.

MAY.

(Detroit Free Press.)

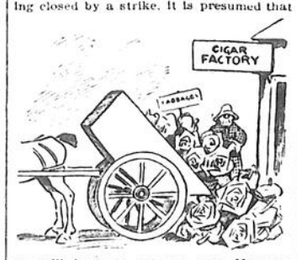
May is coming! Speed the day,
May arrives dressed in her best;
In her hair are posies gay,
Blossoms smiling at her breast.
May is coming. Glad are we,
There's a welcome, May, for you.
We are anxious now to see
All the pretty things you do.

May is coming! Hail the day!
May returns once more to cheer;
Bless her heart; she's been away,
Far from us, almost a year.
But she's coming back once more,
To the place that she forsook,
And we'll greet her at the door,
May's our blred girl and cook.

By keeping a fur overcoat on the hall rack and plenty of ice in the refrigerator, this spring climate may be found fairly comfortable.

An insane woman who had $67 was throwing it away on a street corner the other night. Why don't you ever get around when something like this is going on, instead of waiting to read about it?

Many of the Cuban cigar factories being closed by a strike, it is presumed that we will have to get our pure Havanas from Three Rivers as heretofore.



Our street ice cream dealers can evade the new law. They can easily prove that the stuff they sell is not ice cream.

Peary wants $60,000, and Cap. Bernier wants $120,000. Perhaps the Cap intends to stuff dollar bills in the port holes to keep out the cold air.

Although he agrees with Laurier this time, Sir Charles Tupper wants it distinctly understood that he is not going to make a practice of doing it.

Southern Italy is now having snowstorms, earthquakes and volcanoes. Southern Italy is not progressive. It seems to have overlooked riots and bomb explosions.

Now, May, behave yourself.

Turn on the violets.

THIS DATE THIRTY YEARS AGO.

Montreal, May 1, 1877.

Sir John Rose

Word was received in the city this morning of the death of Mr. William Rose, of Huntingdon. The deceased, who was highly respected throughout the county, had reached the advanced age of 85 years, and was one of the earliest settlers in the county. He was the father of Hon. Sir John Rose, Bart., ex-Finance Minister of the Dominion.

THE late Sir John Rose came to Canada in 1836, with his parents, from Aberdeenshire, Scotland. He studied law, and was called to the bar of Lower Canada in 1842, and created a Q.C. in 1848, when twenty-seven years of age. In the law courts his career was brilliant, with the most successful results in the handling of many important and complicated cases. He represented Montreal in the Canada Assembly from 1857 to the Union, and was Solicitor-General of Lower Canada twice, and Commissioner of Public Works from June, 1859 to June, 1861, when he retired from the Cabinet owing to ill-health. He took a leading part in the several conferences which led up to Confederation, his financial skill sweeping away many obstacles then worrying the poorer provinces. After the Union he entered the Commons for the County of Huntingdon, and became Finance Minister in November, 1867, on the resignation of Sir A. T. Galt. He retired from political life a couple of years later, and removed to London on becoming a partner in the banking firm of Morton, Rose & Co. While out deer-stalking in Scotland in the eighties he dropped dead from heart trouble.

Hon. David Christie.

A well attended meeting of the Dominion Agricultural Association was held yesterday afternoon, at the Mechanics' Hall. After business was disposed of, Senator Christie was elected president, and Mr. J. X. Perrault secretary.

BOTH gentlemen have since gone to their eternal rest. The former was a very extensive agriculturist and a breeder of thoroughbred stock. He was president of the Agricultural and Arts Association for a long period. He was called to the Senate in 1867, and was elected Speaker in January, 1874. Mr. Perrault was also interested in the promotion of agricultural pursuits, etc.

Doctors threaten to be a drug in the market, at the rate they are being passed by the several medical schools, says the Toronto press. One hundred candidates passed at the recent examinations of the College of Physicians and Surgeons, and were licensed to practise.

THE medical schools of the Dominion are to-day sending forth graduates by the hundreds annually. McGill wisely adds one year more to the course, which is to make the youthful "saw-bones" a better trained professional gentleman. Doctors of the Osler type are not in the overflow at the moment.

The Star has been authorized to state that there was no truth whatever in the statement originated by a morning paper that the remains of the late Mr. Beckett had been removed from the cemetery where it was deposited.

THE late Captain "Joe" Beckus was well known among shipping and railway men as a very energetic and successful ticket agent. He was popular with the travelling public, and was for years agent for the Hudson River steamers running daily from Albany to New York and back. He had his office in the St. Lawrence Hall, which has recently changed proprietors.

"THE MORE THE MERRIER"

Under this heading The Star will publish brief communications, if accompanied by the name of the writer as a guarantee of good faith.

Cars Keep Company.

To the Editor of the Montreal Star:

Sir,—In your Monday's issue, the general explanation given by an official of the Street Railway in reference to complaints of running cars in "bunches," is evading the matter as applied to Bleury and Park avenue. It is a well-known fact that cars leave the corner of Craig street in groups, and often an inspector sends them off. The Pine avenue car waits on Chenneville street till an Amherst or Annex car comes along Craig, when it runs out and joins the procession. Returning, it waits on the siding on Fletcher's Field for some of the others, and so keeps them company down the hill again. I once got an official to allow that the time tables for the lines traversing Bleury, etc., were practically the same. Would it be too hard work for some able official to think out an improvement on that method?

F. G.

Are Car Steps Too High?

To the Editor of the Montreal Star:

Sir,—I would like to endorse the remarks of "A Sufferer" on the high steps of the street cars. A couple of weeks ago I wish to take the car going up Beaver Hall hill, and nearly came to grief in my efforts to grasp the said bar. Before I could reach it, in consequence of the high step, the conductor pulled the bell and the car started, nearly throwing me on my back in the gutter, which would certainly have been my fate but for the timely help of a gentleman passing by. Had the step been a few inches lower I could easily have reached the bar and would thus have been saved the weary climb up the steep hill, which I preferred doing rather than risk another shock to my nervous system, if nothing worse.

ANOTHER SUFFERER.

Shooting From A Peel Street Flat.

To the Editor of the Montreal Star:

Sir,—There are some young men living in a Peel street flat who amuse themselves by shooting with an air-gun from their rear windows. They may be aiming at rats or cats, or just shooting for the fun of it. In any case I consider it extremely dangerous, and that it should be stopped. Is there any law against this sort of thing? I myself have a valuable cat, but am afraid to let her out at all for fear she should be hit by these childish youths. Perhaps it is a case for the S.P.C.A., and not the police, as if they should hit a cat it would probably maim it horribly, and then it would be left to die.

A NEAR-BY NEIGHBOR.

Quite Time to Act.

To the Editor of The Montreal Star.

Sir,—I have occasion to pass up and down Seigneurs street twice daily, and for two months there has been the remains of a dead cat in the centre of the road, just above the C. P. R. bridge. This was objectionable enough in cold weather, but now that it is warmer, it is time the person who has the contract for removing these dead animals got on to his job and located this one.

CITIZEN.

Notice of Removal

COBBAN MANUFACTURING CO. have removed to 452 ST. JAMES STREET. Mouldings, Frames and Pictures.

103 4

PERSONALS.

Judge Foster, of Knowlton, is a guest at the Windsor.

Miss Ward, 143 Mackay street, has returned from New York, where she spent the winter.

Mr. James Mackinnon, general manager of the Eastern Townships Bank, is at the Windsor.

Mrs. J. G. McCarthy, Drummond street, entertained at the tea hour for Miss Sadlier, of Ottawa.

Dr. W. B. Howell, 102 Union Ave., has returned to town after a short stay at Woodstock, Vermont.

Mrs. Victor Cawthra, Toronto, gave a supper party for Madame Nordica after "La Traviata" on Saturday night.

Mr. and Mrs. T. Hodgson and Miss Mabel Hodgson, Simpson street, have returned from a trip to New York and Atlantic City.

Mrs. J. Theodore Gnaedinger and family are sailing on the 10th of May on the Virginian, to spend the next four months abroad.

Miss M. V. Young, Park avenue, Montreal, who has been seriously ill for several months, has left for her home in Quebec for a short time.

Mrs. B. Z. Levinson and children, who have been the guests of Mr. and Mrs. I. Presner, Guilbault street, have returned to their home in Winnipeg.

The engagement is announced of Miss Rahino Aitken, daughter of Rev. W. and Mrs. Aitken, of Newcastle, N.B., to Dr. Horatio Walker, of Cimarron, New Mexico, U.S.A.

Mr. and Mrs. T. R. Robson, of Toronto, announces the engagement of their eldest daughter, Mary Violet (Joan) to Harold Leckie Stewart, son of the late Mr. J. F. and Mrs. Stewart, Cowan avenue. The wedding will take place early in June.

His Honor the Lieutenant-Governor of Ontario, will give a dinner at Government House, Toronto, on Thursday evening for the committee and judges of the Horse Show. The committee will give a luncheon for the judges at the King Edward on the same day.

The engagement is announced in Toronto, of Miss Florence McConnell, the second daughter of Mrs. M. McConnell, to Mr. Bayard H. Sweeney, of Denver, Colorado. The marriage will take place early in June, from the residence of J. F. McConnell, Colorado Springs.

The marriage took place quietly last evening, at the residence of Mr. J. M. Aird, Elm avenue, Westmount, of his second daughter, Miss Mabel Ida Louise, to Mr. Arthur G. Nesbitt, son of the late Andrew Nesbitt, of St. John, N.B., Rev. J. Patterson officiating. After the reception, which was attended only by immediate relatives and friends, Mr. and Mrs. Nesbitt left for New York, whence they sail on the SS. Corona for Europe.

A pretty wedding took place in St. Martin's Church last evening, when Miss Alice M. L. Robertson, daughter of Mr. James Robertson, of Montreal, was married to Dr. Ernest Laurie, also of Montreal. The bride, who was given away by her father, wore white crepe de chine over white satin, her tulle veil caught with orange blossoms, and carried a bouquet of pale pink roses. The bridesmaid, Miss Alma Campbell, was gowned in pink with hat to match. The groom's attendant was Mr. Henry Hill. Dr. and Mrs. Laurie left shortly after the ceremony, which was performed by Rev. Mr. Craig, on an extended trip.

Colonel E. W. Wilson is in Toronto for a few days.

Mrs. Cawtha Mulock, of Toronto, has left for Atlantic City.

Mr. George Slaughter has returned from a trip to the States.

Mr. Norman Nicholson has returned from spending the last few weeks in Hamilton.

The Misses Lambe have removed from No. 2 Macgregor street, to the Pine Ave. Apartments.

Mr. F. H. Manley, left Monday night to spend a few days in New York and Philadelphia.

Messrs. M. H. Dandurand and H. S. S. Molson, of Montreal, registered at the Chateau, Quebec.

Mr. Justice Dubuc, Mme. and the Misses Dubuc, who have been the guests in town of Mr. Ernest Rondeau, Parc Lafontaine, left Tuesday morning for Winnipeg.

Mr. Stanley Henderson, and family, formerly of 494 Elm avenue, Westmount, left Tuesday morning for Vancouver, B.C., where they will reside for the future.

Among the wearers of handsome gowns at the May-Grigg wedding yesterday afternoon were: Lady Allan, in white taffeta with black lace overdress embroidered in Dresden effect; large white picture hat with white plume; Mrs. H. B. Yates, in dark blue velvet gown, white hat with long black plume; Mrs. Baumgarten, in blue and white voile costume and rose pink hat; Mrs. T. H. Labatt, in a dark gown and hat to match; Mrs. Robert Macdougall, in a gray gown and purple hat with plumes; Mrs. Tom Gillespie, pale blue gown with long coat and pink hat; Mrs. John Turnbull, wearing a gray gown and small black hat, with blue osprey; Mrs. Herbert Holt, in a balck lace gown mounted over white taffeta and black hat with white feathers; Miss Cook, in a gray voile gown and gray hat; Mrs. T. C. Kidd, wearing a gray and white gown and green hat; Miss Ethel Strathy, purple velvet costume and hat to match; Miss Martha Allan, in pink bengaline with white leghorn hat; Mrs. Phillip Gilbert, in a white cloth costume and black and white hat; Miss Estelle Holland, in white with pink and white hat; the Misses Marguerite and Edith Shaughnessy, in white lingerie dresses and black hats; Mrs. J. Pangman, in a black and white gown and black hat; Miss Gladys Plimsoll, wearing a long white coat and pink and white hat; Mrs. Thornton Davidson, in a pink gown and straw colored hat trimmed with pink roses; Miss Clara Hays, in pink and white gown and light hat; Miss Louise Hays, in a gray costume and gray hat; Miss Huntley Gordon, white gown, long white coat and large cream hat with plume; Mrs. Maurice Davis, in a blue gown and blue hat; Mrs. A. C. Stead, wearing brown with long coat and brown hat; Miss Beryl Wilson, in red silk and hat trimmed with pink roses; Mrs. W. M. Prentice, in a black velvet gown and black hat; Miss Prentice, in a white gown and blue hat; Mrs. F. Cains, in a gray cloth gown and black hat with white feather; Mrs. Labbe, in a black and white gown and light hat; Miss Labbe, in white with hat to match; Miss Elsie Macfarlane, in pink with black hat; Mrs. Jack Riddell, in a pink Empire gown and hat with pink roses; Miss Irene Cains, in pale blue gown and cerise hat; Miss Nancy Dawes in a blue costume and hat to match; Mrs. James Gordon, in a dark gown and light hat; Miss Muriel Fetherstonhaugh, in a blue silk gown and blue hat; Miss Isobel Creelman, in mauve gown and black hat. Others present included: Sir Montagu Allan, Dr. Yates, Mr. Clouston, Mr. A. R. Creelman, Mr. Kenneth Turnbull, Mr. H. Gordon, Mr. Cecil Gordon, the Messrs. Sims, Mr. R. Plimsoll, Mr. W. R. Baker.

PEN-ANGLE

Pen-Angle Underwear is form-knit so it can't help fitting your figure,—it's made of long-fibred wool so it won't shrink—and it's guaranteed besides. The whole idea is to make it so good you can't afford not to buy by the trademark (in red).

In a variety of styles, fabrics and prices, for women, men and children. Form-fitted. Dealers are authorized to replace instantly and at our cost any Pen-Angle garment faulty in material or making.

Tickets, $1.00 and 50c at Nordheimer's.

AMUSEMENTS.

Next Week at the Theatres.

Next week His Majesty's Theatre will be devoted to farce, which means, fun of the silliest kind, as Dallas Welford, the clever little English comedian and his associates who supplied so much amusement when they paid their first visit at this same theatre around the holidays, will return. This time, however, in addition to performances of the brilliant English farce "Mr. Hopkinson," which will be made on Monday, Wednesday and Friday evenings and at Saturday matinee, they will also be seen in a new play written by the author of "Mr. Hopkinson" called "Public Opinion" on Tuesday, Thursday and Saturday evenings.

"Public Opinion," which is the latest play from Mr. Carton's pen, was one of the positive successes in London where some two years ago it was given for the first time at Wyndham's Theatre and enjoyed popularity in a long run which lasted considerably over one hundred nights.

Thomas E. Shea and a strong company will play a special return engagement at the Academy next week, when he will be seen in most of his former successes together with several new plays.

The opening bill on Monday night will be "The Bells." Other plays which are to be presented by Mr. Shea include Bulwer Lytton's classic, "Cardinal Richelieu," Stevenson's weird psychological mystery, "Dr. Jekyll and Mr. Hyde," "The Corsican Brothers" from Dumas' story of the same name and Shakespeare's "Othello."

The Kentucky Belles will furnish entertainment at the Theatre Royal next week. The performance will include two musical skits and a vaudeville olio.

At Stanley Hall the management announce the opening of the great Quimetoscope Moving Pictures and Vaudeville for next Saturday afternoon and evening. The vaudeville feature will be furnished by Harry Tennant, Comedian and Mimic.

A new theatre under the name of "Le Nationoscope" situated corner St. Catherine and St. Andre, will be open on May 12th. This theatre will be devoted to animated pictures of a special character entirely new for the Montreal public. Mr. Geo. Gauvreau, lately of the National, and Mr. Dumase Larose, manager of Sohmer Park, are the proprietors. The hall which is in renaissance style, will be 90 feet deep by 45 wide and will have a capacity of 1,110.

The management of the Windsor Biograph have made arrangements to continue their Saturday afternoon and evening exhibitions in Karn Hall during the month of May. Illustrated songs will be sung by Messrs. Kiely and Farrell.

MEETINGS AND AMUSEMENTS.

HIS MAJESTY'S ALL WEEK. Mat. Saturday. WILLIAM FAVERSHAM In the Stirring American Play THE SQUAW MAN. Seat Sale Opens To-morrow for NEXT WEEK. Return Engagement of Dallas Welford and exactly the same excellent company seen here earlier this year, presenting —in— Monday, Wednesday & Friday Evgs and Sat Mat. MR. HOPKINSON. Tuesday, Thursday & Sat Even'gs AN ORIGINAL FARCE. PUBLIC OPINION. Which is by the author of MR. HOPKINSON, as played for 100 nights at Wyndham's Theatre, London. DIRECTION OF MR. HACKETT. 103*3

Tuberculosis Heads List.

Tuberculosis heads the list of causes assigned for deaths in the city during the past week. The white man's plague is held responsible for twenty-one deaths during that period of seven days. The total number of deaths during that period was 147. Of the dead 118 were Catholics, 20 Protestants, and 4 Jews.

Among the causes of death, outside of consumption were: diarrheal diseases, 18; broncho-pneumonia, 8; cancer, 4; measles, 4; bronchitis, 3; grippe, 3; pneumonia, 3; Bright's disease, 3; typhoid fever, 3; diphtheria, 2.

The births during the past week show a great falling off. Only 98 additions to the population were reported to the Health Department. Of these 54 were males and 44 females.

Among the contagious diseases reported last week measles leads with 37 cases, while tuberculosis shows its ravages again by the reports of 19 cases. Other contagious maladies are scarlet fever, 9; typhoid, 6; chicken-pox, 4; diphtheria, 4; erysipelas, 4; whooping cough, 2, and cerebro-spinal meningitis, 2 cases; a total of 87.

Baseball Uniforms

Our line for 1907 includes 25 colors in three grades.
Prices $30.00, $40.00, $50.00 for 10 complete suits.
On receipt of request from club secretary or manager, we shall be pleased to send samples and all particulars.
As we manufacture this line ourselves, we can supply the special requirements of all clubs.
R. & W. KERR LIMITED.

Mexico In Advance of Montreal.

Mr. W. F. Tye, the chief engineer of the Canada Electric Syndicate, Limited, of this city has returned from a trip of several weeks duration through Mexico. He has a high opinion of the Government of President Diaz, and told some troublesome characters had been dealt with in the mining district of Elora. These fellows were trying to work up a strike among the miners, and had their plans well advanced, when, one night they mysteriously disappeared. They had been quietly drafted into the army, and sent off to a distant province.

Mr. Tye thinks the city of Mexico away in advance of Montreal in efficiency of civic administration, and says our aldermen would do well to look there for pioneers.

The Canada Electric Syndicate is carrying on a great deal of work in the Mexican Republic just now, the latest project being the erection of a plant, and the development of power on the Conchos River, a work which will take two years to complete.

Your Hair Needs Care

A little time devoted to the care of the hair works wonders. Just use Ayer's Hair Vigor, the new kind, systematically and conscientiously, and see the result. Stops falling hair, cures dandruff, makes the hair grow. Ask your doctor about this.
We publish the formulas of all our preparations.
J. C. Ayer Co., Lowell, Mass.

"The Woman's Corner."

Forcing the Season.

In my rambles on Sunday I noticed one pink flowered muslin and one white linen. This seemed to be slightly forcing the season. There have been springs when one could wear muslin with comfort on the last Sunday of April, but this was not one of them. Until the snow completely melts off the mountain and the ice disappears from the river, there is bound to be a coldness in the air. Therefore, if you would avoid coughs and colds and sneezing stick to warmer clothing yet awhile. Not necessarily your heavy winter clothing, but something between that and muslins.

The feminine mind so loves variety that when an unfortunate woman has to drag her heavy skirt and furs around from November to April she is apt to be tempted to change with a rush. How many Montreal women this spring have already put away their winter garments, carefully folded and interlarded with camphor or moth balls? I know one little woman, so anxious to say farewell to old Father Winter, who has put hers in her cedar closet no fewer than three times, and each time has come a belated snowstorm to fool her! "Ne'er cast a clout till May is out" is a command observed in the breach, but it pays to go slow, unless you would catch a tiresome spring cold.

Our Dirty Streets.

Cannot the women of our city do something towards remedying the dirty streets? The men grumble and grumble, but content themselves with that. Cannot we women, who are probably the greatest sufferers from this plague of dirt, devise some means of relief? One of the greatest disfigurements to our streets is the number of papers that are blowing around. Where do these come from? As a rule from garbage barrels or from the carts themselves. In the first place, our garbage carts should have covers. City aldermen, take notice of this. It is ridiculous to pile up carts with garbage and loose papers and then drive them through the streets at the mercy of the four winds of heaven. The aldermen are fond of going on trips to see how other cities manage their affairs. Let them go to Boston and note the neat red waggons, fitted with a tight cover, that go through the streets there collecting the garbage. Let us agitate until we have proper carts. Then, again let householders be forced to use covered receptacles. It is no uncommon sight to see pails and baskets standing on the curbs stuffed to overflowing with refuse. There is a by-law, I believe which says papers must be tied up, but it is not enforced, and when it is observed the string is generally so loose that the papers all slide out.

Another thing that should be done is to provide wire receptacles for papers on the streets. These can be neat and inconspicuous. In New York some years ago they had a vigorous campaign for clean streets, and the children were called into service. Any child seeing a paper or banana peel or anything on that order lying around the streets was asked to pick it up and put it in the nearest receptacle. In this way much was accomplished. Women of Montreal, let us stir the city fathers up to give us cleaner streets.

The New Cretonnes.

For the summer fashions in cretonne, white grounds having huge flowered designs that have held the house mothers fancy so long are giving place to the well identified French variety noted for their ecru and biscuit-tinted backgrounds upon which flowers and designs are represented in inter-mixed colors of exquisite softness and harmony. Those designs, though both minute and large, are never painfully so. The designer remembers that whatever the color or design he has in contemplation it is to be lived daily with for years, and should never come to be a torture to those subjected to its influence. Some of the new backgrounds are quite as deep as string colors are ever found. They furnish extremely well and stand our city dust remarkably. They can be depended upon to clean by dry process or by washing satisfactorily. They wear well, a very great matter when the entire furnishing of a room is under consideration.

The Day's Little Story.

Little Dot—Mumma, Teacher says I must have a new Reader.

Mother—Yes, dear, and what is it?

Little Dot—Teacher says it's "Mary's Little Lamb's Tails," by Shakespeare.

Some Recipes.

Lyonnese Potatoes—Take half a small peeled onion and chop it very fine. Stir and cook the onion in one or two tablespoonfuls of butter until softened and slightly browned. Skim the onion from the frying-pan, to free it from the butter. To the butter in the pan add two tablespoonfuls. Turn in a generous pint of cold, boiled potato, cut in slices between one-fourth and one-half an inch thick; stir and cook until they are browned slightly and very hot, sprinkling meanwhile with half a teaspoonful of salt. Add the cooked onion, toss the onion and potato thoroughly, and serve on a hot dish.

Scrambled Eggs, Reformed Style—Turn four tablespoonfuls of milk into an agate frying-pan, and add half a teaspoonful of salt. Beat four eggs with a silver fork just enough to thoroughly break the yolks. Then turn the egg into the hot milk. Cook over a gentle fire, stirring as the egg thickens, and adding, now and then, a bit of butter, until two tablespoonfuls have been used. When lightly set, turn on to a hot serving-dish.

A. C.

Smart Hats.

Very large mushroom-shaped straws of a deep golden hue, if worn by a tall woman, who carries herself well, will give her a distinguished air. The spring weddings are witness to this fact. One such hat was trimmed with a very wide bias crown band of black velvet simply draped on, while a very long black ostrich plume hung over the side in a graceful sweep. Another straw of the same golden wheat color had a sapphire blue velvet crown band and one long plume toppling over the brim. A smaller mushroom gray straw had two moderately long gray plumes starting from the middle of the front brim and tossed over the brim on the sides. Young faces that are prettily rounded, and cheeks upon which the roses linger and bloom in a richness of color look like pictures in this style of hat. The diversity of styles in hats puts an end to limitations in fashionable choice excepting the very large ones with straight or turned down brims, which are becomingly appropriated by those who have the height to wear them.

An Intrepid Explorer.

The life of Isabella Bird (Mrs. Bishop) has just appeared, and it reads like a veritable fairy story. Here was this woman, small, fragile to an extreme, and alone, penetrating the wildest and most remote of countries. Thibet, Persia, Morocco, and many others. She was the daughter of a clergyman, and was always delicate. In spite of her persistent bad health, her mind was extraordinarily keen and active. At the age of sixteen she wrote an essay on "Protection vs. Free Trade," which had considerable circulation. Her first travels were to Canada, when she came to Halifax and Prince Edward Island, from there visiting the States, returning through Ontario and down the St. Lawrence. This was in 1854, when she was twenty-three. The result of this trip was "The Englishwoman in America." Shortly after this her father died, and she was forced to remain at home busily engaged in writing magazine articles. In 1872 a long sea voyage was prescribed for her health, and she sailed for Australia, spending a year there and in New Zealand, the Sandwich Islands and the Rockies. A few years later the Orient called, and she visited Japan and published another book, "Unbeaten Tracks in Japan." In 1880 when she was almost fifty, a much-loved sister died, and, very lonely and unhappy, she consented to marry Dr. Bishop. This married life lasted only six years, and after the death of her husband she was off again on her travels, not young by any means and afflicted with spinal disease. This intrepid woman went to the Holy Land, Thibet, Kurdistan, Japan and Korea. Her books are all worth reading, and her life is particularly fascinating, as showing what a woman can do hampered by bad health as she was all her life. Mrs. Bishop was a F.R.G.S. and a F.R.S.G.S.

A Mix-Up of Babies.

A curious mistake occurred recently at the hospital at Amiens. Two young women had recently been attended there. One had given birth to a boy, and the other had given birth to a girl. Their babies were taken from them to be vaccinated. After the vaccination the babies, in their swaddling clothes, were returned to their mothers, who went away with them. Soon afterwards one of the mothers returned to the hospital in tears. Her child was a boy, but on returning home she discovered that the nurse had handed her a girl. She insisted on her boy being returned to her. A scene of great confusion occurred, as nobody knew the address of the other mother. At last, toward nightfall, the other mother arrived, greatly excited, complaining that she had been given a boy in mistake for her girl baby. The change was duly executed, and the two mothers went away happy.

A Novel Table Decoration.

A well-known leader in Russian society in Cannes recently gave a dinner, which was notable for its novel and charming table decoration. Upon the table was laid the bough of a tree—as neat and pretty a one as could be obtained—with four or five branches of leaves to it. Holes were drilled in the woods, and in them were inserted tall white candles with shades of pale green leaves. The loveliest violets, roses and creeping white flowers were trailed around the candles, already partly hidden by the leaves. The whole effect was as cool and dainty as a forest garden.

After dinner when the guests returned to the drawing room another pretty sight awaited them. In each corner of the room, from floor to ceiling, was fastened a bamboo stick filled in each of its holes with white, pink, coral, orange and lemon colored azaleas.

An Interesting Collection.

The most interesting collection—and it is a joint one of the King and Queen—is of relics of British soldiers who have taken part in every battle since the coronation of the late Queen. A hospital nurse at Ladysmith got together scraps of khaki worn by all the wounded heroes in the siege, and made them into a cushion, and with her needle worked quite wonderfully in silks likenesses of Lord Roberts, Sir Redvers Buller, General Baden-Powell and General French. The cushion was sent by the nurse to Queen Victoria, who prized it immensely. To the present Queen it occurred to have models of all mounted men in the colonial service in their uniform. One day the collection will be of great historic importance.

The Widow of a Famous Bishop.

The death of Mrs. Sarah Harriet Selwyn, widow of the late Right Rev. George Augustus Selwyn, who was the first Bishop of New Zealand, carries us back to the days of long ago. It was in 1830, when Mr. Selwyn was curate of Windsor, that she married him. Afterwards came his splendid work in the Southern Seas, where she was ever his most faithful helpmeet; and then his promotion to the Bishopric of Lichfield, which came in 1867. Mrs. Selwyn became a widow in 1878, nearly thirty years ago. She lived to the great age of ninety-seven years; a long and most useful and diligent life. It was in the Cathedral Close at Lichfield—the place which she loved so well—that she passed away into the life beyond.

The Fascinating Marie Tempest.

Marie Tempest, plain but chic, is winning fresh laurels for herself in London in Clyde Fitch's play, "The Truth." This deals with a young wife who gets into all sorts of difficulties by her inability to tell the truth. She inherits this failing from her father, who must have been a writer of mining prospectuses. Although in a light vein there is scope for Marie Tempest to show genuine emotion, and she seizes her opportunities in a way that has been somewhat of a surprise to the London critics. This taking little actress has scores and scores of admirers all over the world who lose sight of her lack of positive good looks in her perfect figure and charmingly vivacious ways. She is an excellent illustration of the charm that is quite independent of orthodox good looks. There are many who prefer Marie's snub nose to the most perfect Grecian model, and her piquante mouth to the veriest cupid's bow. One of her greatest attractions is her perfect taste in dress. Her figure is marvellous, and her clothes are always eminently adapted to show it to the best advantage. In this latest play she is wearing some exquisite frocks that arouse all the feminine portion of the audience to envy.

Bad Blood

You may not be to blame for bad blood, since it may have come down to you through generations. It is as often inherited as acquired.

Among its best known signs are spring humors, scrofula, eczema, eruptions and sores, inflammations, swellings and bunches; but it also causes loss of appetite, that tired feeling, and general debility. By degrees it weakens all the organs and deranges all the functions of the body—and this is why bad blood means bad health.

You Can Get Rid of It

This is confirmed by the experience of thousands who now enjoy the blessings of good blood, which is good health; but you must do what these people did—

Take Hood's Sarsaparilla

whose wonderful efficacy in purifying and enriching the blood, giving strength and tone, and building up the whole system, has made it famous as

The World's Greatest Blood Medicine

distinguished by its unequalled number of radical and permanent cures, described and proved by unimpeachable testimony. Be sure to take it

CANADIAN MARINE RECORD

Captain Smith's 52nd Season on St. Lawrence and Lake Ontario.

Special to The Montreal Star.

Picton, Ont., May 1. — When the steamer Alexandria of the Lake Ontario and Quebec Navigation Company left on her initial trip of the season for Montreal, Capt. E. B. Smith commenced his fifty-second season of St. Lawrence River and Lake Ontario Navigation. This record is probably unequalled in the Canadian marine.

Captain Smith first became a master in charge of a steamer when 22 years of age, and during the intervening period he has been on the steamers Picton, St. Lawrence, and St. Helen, all of which are now no more. His career on the waters has been remarkably free from accidents, except when, many years ago, the steamer St. Helen was wrecked in the Cedar Rapids, and Captain Smith had a narrow escape from drowning.

KINGSTON, ONT. — George Hunter, father of Lieut.-Col. Hunter, Deputy Sheriff, is dead, aged 93.

EARL GREY WILL ATTEND

Sherbrooke Fair Will Be Held September 2 to 14.

Ottawa, May 1.—Dr. Pelletier, M.L.A., and Mr. Tomlinson, of Sherbrooke, saw Hon. Sydney Fisher, yesterday, in reference to the Dominion Exhibition which will be held in that city from September 2 to 14. Sherbrooke gets the annual vote of $50,000 which goes to one of the Canadian Fairs each summer. It was arranged that Mr. Fisher would open the fair.

His Excellency the Governor-General will attend the fair towards the end of the first week.

Baron De Ros Dead.

London, May 1. — Baron De Ros, Premier Baron of England and Colonel of the First Life Guards, died on his Irish estate, Old Court, Strangford, County Down, Monday. He was the twenty-fourth Baron of that name, was born at Brighton in 1827 and succeeded his father in 1874.

MAKES NEW BLOOD

That is How Dr. Williams' Pink Pills Cure the Common Ailments of Life.

Making new blood. That is just what Dr. Williams' Pink Pills are always doing—actually making new blood. This new blood strengthens every organ in the body, and strikes straight at the root of anaemia, and the common ailments of life which have their origin in poor, weak, watery blood. Mrs. A. H. Seeley, of Stirling, Ont., tells what Dr. Williams' Pink Pills did for her fourteen year old sister, Miss Annie Sager, after other treatment had failed. She says: "For some years Annie had not been well. She would take spells of dizziness and headaches that would last for several days, and her whole body would become dry and hot as though she was burning up with fever. Her lips would swell until near the bursting point, and then when the fever would leave her the outer skin of the lips would peel off. She doctored with two different doctors, but they did not succeed in curing her, and the trouble seemed gradually to be growing worse. Then we began giving her Dr. Williams' Pink Pills and under this treatment she has recovered her health. The headaches and dizziness have gone; her color is improved; her appetite better, and she has had no further attacks of the fever which baffled the doctors. We are greatly pleased with what Dr. Williams' Pink Pills have done for her, and recommend them to other sufferers."

It was the rich red blood Dr. Williams' Pink Pills actually make which cured Miss Sager. That is why these pills cure all common ailments like anaemia and debility, headaches and backaches, indigestion, rheumatism, neuralgia, St. Vitus dance and the special ailments that prey on the health and happiness of girls and women of all ages. Get the genuine Dr. Williams' Pink Pills for Pale People, with the full name on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

R R R Radways Ready Relief

NEURALGIA, HEADACHE, TOOTHACHE and ALL PAINS

Radway's Ready Relief cures the worst pains in from one to twenty minutes. For Headache (whether sick or nervous), Toothache, Neuralgia, Rheumatism, Lumbago, Pains and Weakness in the Back, Spine or Kidneys, Pains around the Liver, Pleurisy, Swelling of the Joints and Pains of all kinds, the application of Radway's Ready Relief will afford immediate ease, and its continued use for a few days effects a permanent cure. Sold by druggists.

FOR 60 YEARS!

The great curative powers of this remarkable remedy have been known for more than sixty years to medical science and to millions of grateful men and women in thousands upon thousands of homes throughout the world. There is no remedy known that is so effectual in the cure of pain of every or any description, without any possible danger, as

RADWAY'S READY RELIEF.

No opium, chloral or other narcotic or dangerous ingredient is contained in Radway's Ready Relief. Guaranteed under U. S. Pure Food and Drugs Law (Serial No. 537).

We Make a Specialty of Children's Shoes.

Every other shoe factory in the country makes a side line of them—a means of using up scrap leather.

We use the best leather we can buy for our Instructor Shoes for children. And we cut them from the centre of the hide where the grain is tough and even. That is why they outlast two pair of any other make.

Instructor Shoes are modelled on anatomical lines—so the child's foot can grow, each toe lying out flat and uncramped.

Instructor Shoes are put on the last by hand and let twenty-four hours, so all the stretch is taken out of the leather and they will always retain their perfect shape.

There is no shoe factory in the world which uses as much care and skill in the making of their best product, as we do in the production of Instructor Shoes for children. This is correct, too, for those tender growing feet require the greatest care and protection or they'll become distorted and painful.

We're proud of Instructor Shoes, and have stamped the name on the soles of them, so you'll know the genuine. Ask your shoe man for them, if he cannot supply you, write to us and we'll tell you who can.

TRAPS FOR YOUNG GIRLS

Dominion Immigration Agent Investigating Serious Charge.

Mr. John O'Hoolahan, immigration agent for the Dominion Government, is just now busy with a serious charge laid by a young immigrant girl from Glasgow. Arriving in Montreal by special train from one of the latest ships to reach this side, the young girl was engaged as a maid in, she supposed, one of the homes of this city.

The young girl was conducted to a cab and driven to a house which she entered without any suspicion whatever. She soon discovered, however, that she had been entrapped in a house of ill fame. She made her escape and after wandering about for a whole day, finally secured a position through an employment agency. She told her story to the lady who employed her, who then called on Mr. O'Hoolihan who is now investigating the matter with a view to laying charges. Two other girls from Glasgow are said to have met the same fate, but escaped, while a third has not been heard of since her arrival in Montreal.

It is stated that disorderly houses in American cities keep agents in Montreal to secure inmates for their establishments in Chicago and other places and these lure young girls to houses of ill-repute on the pretext that they are to obtain lucrative employment. After a few days they are shipped to the American city to which the procurers have decided to send them.

Dismissed Writ of Mandamus.

Mr. Justice Robidoux has dismissed the writ of mandamus obtained by Mr. Joseph Mercure, managing director of the Federal Lumber Company to force Avila J. Ranger, president of the company, to give up the stock book to the petitioner. Mr. Mercure declared that the proper place for the stock book was at the company's office, and Dr. Ranger had refused to give it to Mr. Mercure, saying that he was not through with it and would hand it over when he was ready. The Court held that the managing director had no interest of his own to justify his forcing the president to give up the book. Such action could be taken only in virtue of a resolution of the directors.

President of Panama a Philatelist.

It may not be generally known that the president of the Republic of Panama is an interested philatelist. He has recently requested a well known Swedish collector to purchase and arrange material for complete collections of Sweden and Norway. Perhaps this philatelic interest on the part of the President may have had something to do with the late flood of stamps from Panama. If this is the case the issues of Sweden and Norway will furnish him with a well earned rest.

O. M. F.

AN OPEN LETTER

To The People of Montreal.

To Whom It May Concern:

Of late there has been a good deal of discussion in Montreal in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Montreal that we believe the most valuable preparation of cod liver oil—the best tonic reconstructor, health restorer and strength creator— we have ever sold in our store is Vinol.

Vinol is not a patent medicine, it contains no injurious drugs, but it actually does contain all of the medicinal, curative elements taken from fresh cods' livers, without a drop of the useless oil to upset the stomach and retard its work, and tonic iron added.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles. We ask the people of Montreal to try Vinol on our offer to return money if it fails. R. H. Bryson, Druggist.

MAY DAY STRIKES SHOW BIG DECLINE

The Industrial Outlook is Much Brighter Than Last Year.

FEW STRIKES IN CANADA

Situation in New Brunswick, Nova Scotia and British Columbia Is Very Satisfactory.

Special to The Montreal Star.

Ottawa, May 1.—Bricklayers, masons and stone cutters to the number of about 200 went out on strike to-day. Stone cutters want an increase from 43 to 50 cents an hour, and the bricklayers and masons from 45 to 50 cents an hour. The men on strike constitute only a small portion of the men engaged in the building trade. In the majority of instances the small contractors have granted the demands of the men. The large contractors are holding out, including Geo. Goodwin, and work is suspended on the National Museum, for which he is the contractor. The big contractors are putting in stone saws, which will do the work of several stone cutters.

Later advices from union headquarters indicate that the strike is more widespread than was at first thought. At noon it was estimated that 200 bricklayers, 150 masons and 150 stonecutters are out, and 200 builders' laborers are affected by the strike of the skilled workmen. Unless a settlement is reached, building operations will be crippled.

The trackmen and checkers at the Canadian Pacific freight sheds, who had been getting $1.45 per day to start with, threatened yesterday to strike for $1.65, but effected a compromise between the two amounts.

SITUATION IN NEW BRUNSWICK.

Special to The Montreal Star.

St. John, N.B., May 1.—The labor situation in St. John and throughout New Brunswick is, on the whole, considered satisfactory. The only discontent is found with the carpenters in this city, who struck for more pay some weeks ago. Most of the men have gone back, however. They were getting $2 for a nine hour day, and asked an increase of 50 cents, which was not granted. Ship laborers will ask for 40 cents an hour, which undoubtedly will be given. In Fredericton, a serious strike with the tanners has just been settled, compromises having been made. Reports from north shore mills and Bay of Fundy shipping ports indicate that wages are higher this year than ever before.

NO TROUBLE IN NOVA SCOTIA.

Special to The Montreal Star.

Halifax, N.S., May 1.—The labor situation throughout Nova Scotia is all that could be desired by man, and a season of vigorous and uninterrupted operation seems assured in the building trade especially. Prosperous conditions prevail throughout the province generally, and in Halifax particularly this season promises to be one of great activity as building operations are progressing on every hand.

In mining work, which is always a most important factor in the labor problem of this province, peace prevails. The scarcity of labor, which was so serious a matter a year ago in the collieries of Cape Breton, is not now so much a factor.

The Dominion Iron and Steel Company's plant at Sydney is in full operation and the outlook for the future is exceedingly bright.

IN BRITISH COLUMBIA.

Special to The Montreal Star.

Victoria, B.C., May 1.—Relations between employers of labor and laboring men here are very harmonious, and except for a strike among the boilermakers at the British Columbia Marine Railway shops, there are no differences. In Vancouver a settlement has just been arrived at in the strike of carpenters, who are to receive $4 a day until August 1 and $4.50 until April 1, 1908. The strike at Fernie is being felt at the Coast, and unless a settlement is arrived at shortly, Coast merchants will suffer severely.

MARINE OFFICERS MAY STRIKE.

New York, May 1.—May day found the workingmen in comparatively few of the trades in this city ready to assert any demands for increased wages and in consequence strikes were few. Chief interest centered in the possibility of a strike to-day of the first, second and third officers of the coast wise steamers, who have made demands for $100 a month for first officers, $80 a month for second officers, and $60 for third. They are now receiving an average of $20 per month less than that amount. Realizing that the threatened strike would seriously hamper coast wise trade, the Department of Commerce and Labor at Washington sent two of its representatives to try to avert the strike.

In Paterson, N.J., 1,000 journeymen carpenters went on strike for an increase of wages from $3.50 to $4 a day. In the same city the bakers had demanded an increase in wages to $14 per week for journeymen and $17 for foremen, and there would have been a general strike of bakers if forty-two of the companies had not yielded to the demands.

Little trouble is reported from Chicago and Boston and surrounding towns. The teamsters' strike in Boston is still in progress.

THE SITUATION IN FRANCE.

Paris, May 1.—Although the entire garrison of Paris was under arms and 600 mounted republican guards and vast police reserves were on duty in order to prevent the gigantic May day manifestation planned by the Socialists, the city presented almost its normal aspect this morning. Troops were massed at strategic points but they were discreetly kept out of sight in order to avoid unduly alarming the population. The authorities, while not interfering with the workmen's meetings, were resolved to break up the first attempt at street demonstrations which might lead to serious disorder.

It was apparent early in the morning that the mass of people had not much sympathy with the agitators. The appeals of M. Jaures and other Socialist leaders for a complete suspension of work throughout France were generally unheeded.

The police kept the crowds moving, arresting scores of loiterers. By noon 200 arrests had been made, among those taken into custody being a soldier in citizen's clothes who was selling anarchist papers.

About 4,000 dock laborers struck at Bordeaux. Practically all the miners in Lenz district quit work, while at Brest only 200 workmen failed to appear at the arsenal to-day.

GORKY FAILED TO APPEAR.

Rome, May 1.—The police forbade a public meeting here to-day, organized by the socialists to commemorate May day, at which Maxim Gorky had promised to speak. All the streets leading to the Botanical Gardens near the Coliseum, where the meeting was to be held were occupied by troops, but the thousands of workmen who gathered in the vicinity broke through the cordons, entered the gardens, and held a meeting. Several socialist deputies delivered fiery speeches, but Gorky did not appear. According to one report his absence was due to the fact that his sufferings from consumption prevented him from making the journey from Capri to Rome. But on the other hand, it was stated that Gorky had been notified that he would be expelled from Italy if he attempted to cause any disorder.

COMPLETE TIE-UP IN WARSAW.

Warsaw, Russian Poland, May 1.—The general strike ordered for May day here resulted in practically a complete tie-up of the business and traffic. No meat or bread were available, no street cars or cabs appeared on the streets, no papers were printed and the stores were closed. Warsaw to-day is practically a military camp.

SEVERAL KILLED AT LODZ.

Lodz, Russian Poland, May 1.—Many sanguinary fights in the streets here marked the May day cessation of work in the factories, stores and newspaper offices. The Nationalists who opposed the strike, and the socialists who declared it, were in conflict throughout the forenoon. Several men were killed or wounded and many arrests were made. The street cars were kept running under the escort of armed soldiers.

PEEK-A-BOO WAIST SHOCKS OHIO JUDGE

"You Cannot Come Into This Court Unless You Wear All Your Clothes."

Cincinnati, May 1.—Peek-a-boo shirt waists are tabooed so far as the local Municipal Court is concerned, even if the thermometer registers 80. Judge Luedees too a shy at dress reform when Miss Alva Hall, twenty-two years old, appeared in court with a perforated or lattice work waist.

"That won't do here!" remarked Judge Luedees. "You cannot come to this court unless you wear all of your clothing. I will continue this case so that you can get out of here quickly and get on a decent waist. When you come for trial do not have that kind of a waist on. If you do I will fine you to the very limit of the law."

Afterward the judge said: "I am opposed to the peek-a-boo waist. Woman's crowning glory is her modesty, and I do not think that peek-a-boo waists have any excuse on them. I do not think that exposure of that kind is of any benefit to the health of the wearer, either."

FRANCE SIDES WITH GREAT BRITAIN.

Brussels, May 1.—Additional information seems to confirm the reports that King Leopold's efforts to secure the support of France against the policy of Great Britain towards the Congo have failed.

The late E. G. Russell, the well-known Western railway man who committed suicide at Prince Rupert, B.C., recently.

NOON-DAY EVANGELISTIC SERVICES.—Dr. Torrey and Mr. Butler.

'PHONE RATES HIGH: WILL ASK REDUCTION

Ald. L. A. Lapointe Will Introduce Motion to Deal with Tariff Application.

When the City Council meet on Monday, Ald L. A. Lapointe will make a motion that a special committee be appointed for the purpose of considering the application that has been made by the Bell Telephone Company for power to make a new list of tariffs, etc.

A special commission from Ottawa will meet in this city on the 13th inst. to enquire into the whole matter.

"I am making my motion in Council," said Ald. Lapointe, "because citizens are now being charged far too high for their telephones. The rates must be drastically cut down.

Continuing Ald. Lapointe said: "The text of my motion will be as follows:

"Whereas in the month of October 1904, the petition of many ratepayers of the City of Montreal represented to this Council:

That the Bell Telephone Company of Canada enjoys exceptional privileges in the said city, particularly the use of the streets for the installation of its services;

That by the terms of the Company's charter, as amended in the year 1892, by the act 55-56 Victoria, chapter 67, it was provided that the existing rates should not be increased without the consent of the Governor in Council;

That by further amendments to the Company's charter, in the year 1902, it was provided that:

"Upon the application of any person, firm or corporation within the city, town or village or other territory within which a general service is given, and where a telephone is required for any lawful purpose, the Company shall with all reasonable dispatch, furnish telephones of the latest improved design then in use by the Company in the locality, and telephone service for premises fronting upon any highway, street, lane or other place along, over, under or upon which the Company has constructed or may hereafter construct a main or provide telephone service or system upon tender or payment of the lawful rates, semi-annually in advance; provided that the instrument is not situated further than 200 feet from such highway, street, lane or other place."

"The rates for telephone service in any municipality may be increased or diminished by order of the Governor in Council upon the application of the Company, or of any interested municipality and thereafter the rates so ordered shall be the rates under this act, until again similarly adjusted by the Governor in Council."

"The word 'rates' shall apply to all rates charged for the rental or use of telephones and telephone service, and also to charges for messages from any person in one municipality to any other person in another municipality, commonly known as Long Distance Messages."

Whereas in the month of October 1904, the city received from a great number of Montreal subscribers of the said Company a protest against the severe stand taken by the Bell Telephone Company of Canada, in imposing, by the system of "slot machine" a tax on all persons wishing to make use of a telephone in public places, hotels, restaurants, drug stores, etc., etc.

IMPROVEMENTS ASKED.

Be it resolved:

To embody in the present resolution the complaints and protest of the Montreal ratepayers and telephone subscribers, and to lay them before the Honorable Select Committee as follows:

(1). That the Bell Telephone Company of Canada has gradually increased the rates for telephone service in the city of Montreal under the pretense of the introduction of improved apparatus or modifications in existing apparatus:

(2). That more particularly the said company has, unlawfully and by threats of discontinuing the service, entirely, compelled a number of subscribers to adopt what is known as the "Slot Machine System," whereby the subscriber is compelled to pay a monthly rate which, in the aggregate, exceeds the lawful rate payable annually for telephone service, and in addition thereto the said company collects a fee for each use which is made of the telephone, by means of which the annual rental is made excessive and unjust;

(3). That it is in the interest of the ratepayers and of the public in general that the rates for telephone service in the said city be diminished and the injustice complained of by so many citizens removed;

(4). That the company's subscribers who make use of the telephone, either at their place of business or at their private residence, and who have not the time to answer the call, in cases of urgency, should not be obliged to pay an extra tax, thereby increasing the amount of their subscription in an arbitrary and vexatious way;

(5). That this council respectfully suggests that the following tariff rate should be established for the use of telephones, viz.:

Private house, not more than $25 yearly.

Professional men, not more than $35 yearly.

Business establishments, not more than $50 yearly.

Will Lead Lelaware on Hudson.

New York, May 1.—Clifford S. Sims, who has been assistant to the president of the Erie Railroad for about two years, resigned to-day to become general manager of the Delaware and Hudson.

THREE MEN KILLED IN TRAIN WRECK

Further Details of Fatal Accident at Firehill Siding, Near Nepigon, Ontario.

Details of the terrible acident, attended by the death of three men, which occured on the Canadian Pacific Railway east of Port Arthur on Monday, and which reached Montreal today, show that just as the front wheels of the locomotive of the freight train, in charge of Engineer Wm Fixter and Conductor Jas. Cross, which left there on Monday shortly after noon for Schreiber, touched the rails on Fire Hill Bridge, a short distance west of Mastokoma, and 79 miles from Port Arthur, the structure gave way. The locomotive immediately plunged onward and downward, followed by several cars, loaded with flour. The sudden shock did much damage to the cars in the train, the boarding cars being completely wrecked, but, marvellously, none of the eight men in these suffered any serious injury. The engineer is believed to have applied the brakes when he saw the bridge was gone, but the weight of the train forced the engine into the ravine. While the men in the boarding car were extricating themselves, down in the ravine, flames were already seizing upon the broken timbers of the cars. Volumes of steam hid the locomotive from sight, but by the fitful glare Conductor Cross made his way down, and guided by the cries of William Fixter, reached the locomotive, in which the engineer was imprisoned. He could do nothing, however, as steam poured out all around and in the cab, and finally the engineer's cries died away. On the arrival of help Fixter's body was taken from the cab, but no sign of the fireman or brakesman could be discovered, and it is supposed the bodies of both men are still under the burning mass of flour and timber. A temporary bridge and track were laid, but traffic was interrupted for nearly six hours, while this work was being done.

The collapsed bridge was a 50-span over a small creek, which has been overflowing its banks for some time. Ice was also jammed up against the bridge. Engineer Fixter was a resident of Schreiber and was an old-timer on the division. He leaves a widow. His funeral will be held at Fort William, under Masonic auspices. Brakesman Villeneuve was a new comer on the division. Fireman Beaudry was also a new hand, and previously resided at Pembroke.

Mr. Sturtevant Resigns.

Mr. M. C. Sturtevant, who has been general assistant to the general manager of the Grand Trunk Pacific, has resigned to enter the railroad contracting business. The position has been abolished.

McGill Banner.

An interesting event took place at McGill yesterday, when a banner presented to the college by Her Majesty, Queen Alexandra, through Lord Strathcona, was unveiled by President Peterson. The banner was worked by Mrs. Watts, the widow of the great artist, and is emblematic of Canada's greatness. The gift is in the care of Miss Hurlbott, warden of the Royal Victoria College, and will be placed in the college dining room.

AT THE HOTELS.

TO-DAY'S ARRIVALS.

Windsor—George Young, New York; George L. Bourne, New York; G. F. Maguire, Toronto; H. P. Anderson, New York; B. L. Anderson, Toronto; W. Wesche, London.

Queen's—Thomas N. Rountree, New York; V. V. Rogers, Ottawa; H. G. O'Connor, Winnipeg; J.T. A. Smithison, Toronto.

St. Lawrence Hall—Louis H. Vallee, Quebec; R. H. Disney, Toronto; Thos. Douglas, Toronto; George W. Miller, London.

Place Viger—Arthur Ahern, Quebec; E. R. Garneau, Quebec; Y. Grassy, Lyons, France; J. O. Adams, Quebec.

NEW BATONNIER OF LOCAL BAR

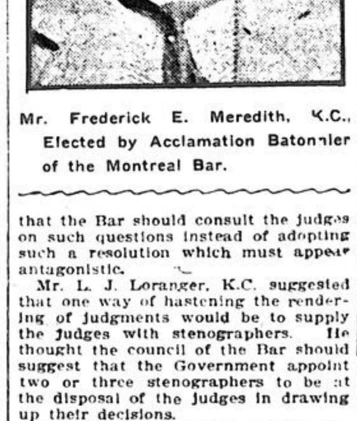
Mr. F. E. Meredith, K.C., Unanimously Elected to the Position.

Mr. Frederick E. Meredith, K.C., of the firm of Campbell, Meredith, Macpherson & Hague, was to-day elected by acclamation Batonnier of the Bar for the district of Montreal. Messrs. Louis Coderre and H. Gerin-Lajoie were re-elected syndic and batonnier for another year, while Messrs Leon Faribault and J. A. N. Pruneau are candidates for the office of secretary and there are many candidates for the eight seats on the council of the bar.

A pleasant incident of the annual meeting of the Bar was the presentation of an oil painting of himself to Mr. P. B. Mignault, K.C., the retiring batonnier. Mr. Honore Gervais, K.C. and Mr. R. A. E. Greenshields, K.C. were the spokesmen of the lawyers in doing this honor to the head of their order.

Before proceeding to the election of officers for the ensuing year Mr. Gonzalve Desaulniers, K.C., seconded by Mr. D. A. Lafortune, K.C. presented a resolution calling upon the new council to take up and prosecute with diligence three important objects. These were the appointment of more judges for Montreal district, the drawing and passing of an act fixing a definite time within which judges should render judgments in cases heard by them, and third provision for a more adequate report by the official reporters of the decisions of the courts.

Mr. Paul Lacoste objected to the tone of the resolution, especially the second proposition. He considered that the Bar should consult the judges on such questions instead of adopting such a resolution which must appear antagonistic.



Mr. Frederick E. Meredith, K.C., Elected by Acclamation Batonnier of the Montreal Bar.

Mr. L. J. Loranger, K.C. suggested that one way of hastening the rendering of judgments would be to supply the judges with stenographers. He thought the council of the Bar should suggest that the Government appoint two or three stenographers to be at the disposal of the judges in drawing up their decisions.

This suggestion was received with much approval, and on agreement of the mover and seconder of the resolutions the wording was amended to suit the views expressed by Messrs. Lacoste and Loranger.

Nominations were then in order for seats in the council. The balloting for eight councillors began shortly after twelve. The candidates are the following:—Messrs. Henry J. Elliott, Louis J. Loranger, K.C., F. J. Laverty, Victor Martineau, Rodolphe Monty, J. F. Dubreuil, R. A. E. Greenshields, K. C., A. J. Brown, K.C., Honore Gervais, K.C., M.P., J. A. Lamarche, K.C., T. Chase Casgrain, K.C., J. H. Rainville, Aime Geoffrion, K.C., George G. Foster, K.C., F. O. Dugas, M.P., Joliette; J. G. Laurandeau, K.C., Valleyfield; L. E. Gendron, K.C., St. Hyacinthe; J. Alexander Bonin, K.C., and D. A. Lafortune, K.C.

ROW IN COUNCIL—ASKED MAYOR TO RESIGN

There was a lively session of the St. Louis Town Council last evening, when Councillor Turcot and Mayor Gelinas had a heated argument over the proposed by-law to obtain authorization to borrow the sum of $375,000 to consolidate a floating debt of over $200,000, and to make certain public improvements.

At the polling last week the proposed by-law received a majority of forty-nine individual votes, but, nevertheless it has been defeated by a majority of property value of $627,012.50 from this however may be deducted $497,012.50, votes objected to on the ground of illegality, but admitted with reserve.

Mayor Gelinas had no sooner announced the result of the polling from the property valuation standpoint, when Councillor Turcot got up and charged the Mayor with disloyalty in the matter and of an attempt to pass off the majority of the Council as a set of rogues. The Councillor said that the Mayor had changed his opinion regarding the by-law inasmuch as a few weeks ago he was in favor of it. Mr. Turcot's address was a very warm one and he made several charges against the Mayor saying that he had never tried to promote harmony in the council and that he always wanted to have the upper hand in everything. The Councillor ended his harangue by calling on the Mayor to resign.

The Mayor in reply rather slighted Councillor Turcot's ability to understand the situation and admitted that he would not affix hisgnature to the notes for the renewal of the debt and that he would not do this until it was shown why the debt had been contracted. As matters now stand the new by-law is defeated and what the next move will be is not yet known.

Authenticity of the Gospels.

In the second of his noon-time addresses to business men in the Sailors' Institute to-day, Dr. Torrey continued his discussion of the authenticity of the Gospels. Using copious illustrations from Scripture, he argued the impossibility of there being any fabrication in the writings of the four great apostles, either independently or in collusion.

"Some might say," he declaared, "that his method of deducing the truth from points of similarity and dissimilarity, deal too much with minor details; but it was by means of these minor details that fact and fiction were distinguished.

To-morrow, he will continue the main topic for the series by showing the evidence of the Resurrection of Christ.

Sherbrooke, Que., May 1.—Fire at an early hour yesterday caused considerable damage in the woollen mill of the Penman Manufacturing Company, Ltd., at North Coaticooke.

NEW DEPARTURE FOR HARBOR BOARD

Commissioners Getting Port Ready For Summer According to Promise.

BIG PLANS ON THE TAPIS

Board Is Now Considering Construction of Large Drydock and Equipment of Harbor.

The members of the Harbor Commission, Lieut.-Col. George W. Stephens and Messrs. C. C. Ballantyne, and L. E. Geoffrion made an official inspection of the harbor of Montreal to-day. They were accompanied by the heads of the various departments, under their supervision, Messrs. F. W. Cowie, chief engineer; Hon. James McShane, Harbor Master; J. Vaughan, superintendent of Harbor terminals; F. L. Gagnon, assistant engineer, and the members of the Press.

Since the advent of the new commissioners to office the work on the sheds and wharves has gone ahead at an exceedingly rapid pace, and the promises made by the commissioners at the beginning of the year have been carried out to the letter. The concrete floors in sheds Nos. 2, 4, 7, 8, and 9 are complete and ready for traffic.

The hanging doors are being put up as quickly as possible, and the wharves being cleared of debris.

TRACKAGE TAKEN OVER.

The railway tracks on the wharf were to-day taken over by the Commissioners, and henceforth all the transportation on the wharf will be under the supervision of the Harbor Superintendent of Terminals, Mr. J. Vaughan. This is a step which has been advocated by the shipping interests for years, and will greatly facilitate the handling of goods at the harbor front. The Commission pay the cost of maintenance of the engines, and give the railways in addition a rental of $10.00 per day for each engine. In return they will receive at the rate of $2.00 per day for every car handled. Tracks are being laid alongside the sheds, which are nearing completion, and within the next week everything will be in readiness to take care of the enormous amount of traffic which it is expected will be landed at this port during the present season.

PLANS FOR FUTURE.

The Commissioners are at the present time considering the question of cranes for the loading and unloading of vessels and cars, but nothing definite has as yet been decided. The question of a dry dock is also being considered, and plans are being considered for a dock one thousand feet long, costing in the neighborhood of $2,000,000, but no decision has been reached as to the site.

Had it not been for the prompt decision of the Commissioners to have the flooring of the sheds completed during the winter, it is doubtful if these sheds would have been in condition to receive any freight whatever. The foundations are being laid for the other seven sheds, and work on them will go right ahead.

FIRE AT A WOMAN'S CLUB CAUSES PANIC.

Chicago, May 1.—Mary Studemeyer is said to have lost her life, and several others it is feared are suffocated in the fire which broke out in the building at 255 Wabash ave., the three upper floors of which were occupied by the Lotus Lunch Club, patronized by women.

When the flames were discovered fully two hundred women were in the place, and a panic ensued. The fire escape became crowded, and many women were injured through being pushed off.

LATE MARRIAGES DENOUNCED

Increased Cost of Living Attributed as the Cause.

Boston, May 1.—The report of the committee on public morals to the 122nd convention of the diocese of Massachusetts, says in part: "We call upon parents to feel their sacred responsibility for judicious instruction of children as to sex and the relation of personal purity to health and happiness."

"A serious responsibility rests upon the church. Clergymen should teach positively the glory of purity. They should insist upon a single standard for men and women.

"The ambitious standards of social life and the increased cost of living are largely responsible for the postponement of marriages; and late marriages are in part answerable for immorality. The average age of the first marriage of men has within a century changed from 22 years to 27 years. Public sentiment should honor young people who are willing to endure comparative poverty and privation in order to establish a home.

$2,000 INSURANCE MYSTERY

Money Paid to Rightful Claimant After Considerable Delay.

Special to The Montreal Star.

Charlottetown, P.E.I., May 1.—Through the efforts of the order of Knights of Pythias, Mrs. Adam Hicken, nee Johanna Stevens, has recovered a $2,000 insurance policy carried in her favor by her uncle Archibald Matheson, a native of Milltown Cross, who died some time ago in Carson City, Nevada. The money had been claimed and paid to a Miss Johanna Stevens, of Denver. After investigation by the Supreme Lodge of Chicago Miss Stevens, of Denver, paid over the money, although she had paid Matheson's debts and placed a monument over his grave.

PRINCE DRAWS 25c WEEKLY

Future King of England Becomes a Royal Noval Cadet.

London, May 1.—Prince Edward of Wales, eldest son of the Prince of Wales, to-day joined the Royal Naval College at Osborne, Isle of Wight, as a cadet.

He will be treated exactly the same as the 400 other cadets, will occupy a bunk in the college dormitory, and will be restricted to the 25 cents weekly pocket money allowed by the regulation.

Trouble Feared at Fort William.

Special to the Montreal Star.

Fort William, Ont., May 1.—Trouble is expected on arrival of the first freight boat, as the Greeks and Italians out of work have threatened to make trouble. The gang is the one which participated in the shooting and riot, during the freight handlers' strike last year.

PERSONALS.

At the residence of the bride's mother, Miss Edith Maud McCallum, eldest daughter of the late Jas. McCallum, was united in marriage, Rev. Norman MacLeod officiating, to Dr. Smith Bellinger, of Council Bluffs, Iowa, formerly of Ogdensburg, N. Y. Shortly after the reception Dr. and Mrs. Beilinger left for the West.

A quiet wedding took place last evening at the residence of Mr. A. Meredith Jaques, 166a Mansfield street, when Miss Elsie Macleod, youngest daughter of the late Mr. Murdock Macleod, was married to Mr. William J. Phillips, of Youngstown, Ohio. The bride, who was given away by her brother-in-law Mr. Meredith Jaques, wore her travelling costume of navy blue, with white lace blouse, and white chip hat trimmed with American Beauty roses with white plumes, and carried a shower bouquet of white roses. The bridesmaid, Miss Daisy Robinson, was gowned in white, wearing a wreath of pink rosebuds and maidenhair fern in the hair. Her bouquet was of pink roses. Mr. Ralph Borley acted as best man. At the conclusion of the ceremony, which was performed by the Rev. Dr. Symonds, a reception was held, shortly after which Mr. and Mrs. Phillips left for New York, Atlantic City and other points. They will reside in Youngstown, Ohio.

Bread Deliverer Fined.

Louis Jacob, a baker, whose establishment is situated at 53 Dorchester east, was condemned yesterday by Mr. Recorder Dupuis to a fine of $15 and costs on a charge of having in his employ a man named David Levin, who delivered bread without using a basket.

Imprisoned Miners Will Recover.

Johnstown, Pa., May 1.—The seven men taken from the Berwynd-White mine, after over 100 hours' imprisonment, are now in a hospital. Physicians said the men would be able to be about in a few days, but they would be too weak to resume their regular duties for a week or more.

EXCITEMENT IN COPPER, WHICH MADE A RECORD

The Metal Crossed 108 Pounds in London This Afternoon.

SALE OF TEXTILE PREFERRED AT 88

Local Market Is Quiet—Union Pacific Is Lower, but Morgan Change Is in the Wind.

Wall Street was dull all morning.

Great excitement in the London copper metal market was naturally reflected by the rising prices in Copper stock in Wall Street.

The events of yesterday were on the whole of a favorable character, but traders were inclined to take profits and await the outcome of crop reports.

The regular dividend of 3½ per cent. semi-annually was declared on Pennsylvania, as expected, but this did not cause a ripple in the stock. The dissolution of some brokerage firms has probably exerted some influence on the market, and this more than anything caused the dulness.

Union Pacific sold off about 1½, but recovered towards noon, and will probably continue to lead the market, as Morgan's entry into the directorate is said to be assured.

U. S. STEEL FIGURES.

United States Steel's figures are always interesting, chiefly because that concern is the greatest money getter in the world.

For the three months, after providing for preferred dividends and charges, the company showed enough to pay the common dividend for a period of two years.

THE LOCAL LIST.

There was a sale of 100 Dominion Textile preferred at 88, which is a considerable decline and a very low figure for a 7 per cent. preferred stock.

Power sold at 91½, only 50 shares changing hands.

MONTREAL STREET.

There were no sales of Montreal Street, which was offered at 218.

Brokers and shareholders have received the handsome new scrip issued by the company, and have expressed no little satisfaction at the fact that they were put to no inconvenience in changing the old for the new.

The secretary of the company, Mr. P. Dubee, has been burning midnight oil making the change, and has just finished a task that was herculean in proportions. The books were not closed while the transfers were being made.

Call money in Wall Street was easy at 2¼ per cent.

The New York banks have lost $1,187,000 to the sub-treasury since Friday.

Copper, the metal, was excited and higher in London at £108, an advance of £3 10s.

Regular dividends on Smelters, People's Gas and Pennsylvania.

American Tobacco declared a regular dividend of 26 per cent. and 5 per cent. extra on the common.

SOO LINE TO TRADE.

It is said that the "Soo Line" and the Northern Pacific may trade branches. The Northern Pacific, if the plan is carried out, will trade its Little Falls and Dakota line, which the "Soo" needs, and the latter will in return hand over its Winnipeg line to the Northern Pacific. The "Soo" road has not found the Winnipeg line very advantageous.

TWIN CITY.

The earnings of the company for the third week of April amounted to $108,061, being an increase of $10,170, or 10.39 per cent. over the same week last year, and an increase of $27,248 over the corresponding week of 1905.

PLEASING FACTOR.

One pleasing bit of news is that the Western coal miners are expected to vote on Thursday confirming a tentative agreement come to by their leaders and the mine owners. If a prolonged tie-up is thus averted the whole Canadian West will escape the danger of a serious commercial setback. The C.P.R.'s prairie system will be busy all summer bringing out last year's wheat crop. Some anxiety still exists as to the coming Canadian harvests. The late cold spring has badly damaged Ontario's fall wheat, but this crop is, after all, a small factor in the agriculture of this province these days. More real interest attaches to the delay in seeding in the West. It is feared that the expected increase in the acreage planted will be curtailed.

MORNING TRANSACTIONS.

BIG BEAR HAS 24 'PHONES

J. Brandt Walker Merely Watching the Market Just Now.

J. Brandt Walker, who cleaned up some $2,000,000 on the bear side of the stock market, is still in Wall Street. A wire says:

"Brandt Walker still expresses bearish sentiments as to the future course of the stock market, but he says that he is not doing much now, as the market is so narrow that his operations would be quickly reflected and show his hand. He has 24 private telephones in his office connecting with various brokerage houses."

FORTUNE LOST AND $200,000

President of D. & H., Who Committed Suicide, a Heavy Loser.

The New York American says that within six months the late David Willcox was independently rich and signed away his interest in the $500,000 estate of his brother.

His entire fortune was in Union and Southern Pacific and in 5000 shares of Delaware & Hudson. He had to sell his Delaware & Hudson to protect his Union Pacific and Southern Pacific, and after the smash of March 14 he had lost his entire fortune and was $200,000 in debt to a prominent banking house.

MONTREAL EXCHANGE RATES

Montreal exchange rates: 60 days, 8 11-16; sight, 9 3-8; cables, 9 15-32; francs, short, 517¼; marks, short, 95 1-63; New York funds, par.

STEP LIGHTLY.

(Albany Journal.)

The stock market acts like living in a glass house with eggs all over the floors.

NO LONDON MARKET.

There was no session of the London Stock Exchange to-day.

THE MAYOR'S REPLY.

The Star asked Mayor W. B. Thompson, of Detroit, if his attitude towards the Detroit United is influenced by the fact that the shares are largely held by Canadians.

Mr. Thompson wired this morning that he is replying to the question by letter.

COMMERCE BRINGS GOLD IN

The Canadian Bank of Commerce yesterday brought $500,000 gold from New York.

It was shipped to the Receiver-General's office in Toronto and deposited there in exchange for legal tenders.

EXCHANGE SEAT AT $79,500

Another seat has just been sold on the New York Stock Exchange at $79,500.

A BRANCH BANK IN PARIS

A despatch from Quebec confirms the previous announcement that La Banque Nationale will open a branch in Paris.

It will be in charge of a Parisian banker and two French-Canadians.

Bank Clearings For 4 Months

Montreal bank clearings for the four months of the present year are now slightly in excess of the figures of this time a year ago.

Clearings to date are $477,945,030, and the increase over last year amounts to only about $400,000.

The figures in detail are as follows:

	1907.	1906.
January	$128,194,689	$129,415,413
February	107,654,099	121,910,224
March	125,041,649	119,615,094
April	117,054,593	107,582,686
Total	$477,945,030	$477,523,417

Detroit United Wins Its Fight

Special to The Montreal Star.

Detroit, May 1.—The Detroit United Railway scored one in its battle with the city, when the Supreme Court to-day handed down the long-waited decision on the right of the city to lay street car tracks for leasing purposes. The court affirmed the decision of the lower courts, which means that the city cannot construct street car tracks under the present charter. After long discussion the council, on October 31, 1905, ordered the department of public works to begin the building of a street car track in certain streets, the expense to be borne out of special fund known as the "Street Railway Fund," and provided for in the budget of 1905 in the sum of $10,000. The point was promptly raised that the city had no rights in the premises.

Mayor Sending Reply to Star

Detroit, Mich., May 1.—Mayor Thompson to-day received the following telegram from the Montreal Star:

"In view of the fact that the Detroit United stock is largely held in Montreal, would you object to telling us if, in your opinion, the interests of shareholders are in any way endangered by the present disputes? Would you also care to say if your attitude towards the road is influenced in any way by the fact that it is largely controlled by foreign shareholders? An answer would be greatly esteemed."

The Mayor replied that he would forward a written explanation of his campaign for better service and lower fares. He will also disclaim any particular hostility because of the D. U. R. stock being almost entirely in foreign hands. The Detroit United will, in all probability, plead guilty to the several violations of ordinances made against it by the Legal Department of the city, and pay a possible total of $2,125 in fines.

The D. U. R. to-day paid its State taxes at Lansing, amounting to $20,584. It was the last day for payment without a penalty.

MARCH EARNINGS OF GRANBY

For the first 20 days of April the Granby and other companies operating in the Boundary district were able to make good smelter runs. March earnings of the Granby Co. were large, estimated to have been in excess of $225,000.

IS COMING HERE FOR MONEY

Portage la Prairie, May 1.—The city has decided to send the Mayor to Montreal to negotiate for an issue of bonds, which will cover all indebtedness of the city.

UNLISTED STOCKS ARE SLOW

Not Much Change in Quotations and No Trading.

There were no sales of unlisted stocks to-day, and prices were not materially changed. W. P. O'Brien quoted:

BIG GATES FIRM IS TO QUIT

"House of Twelve Partners" Closes on First of June.

New York, May 1. — Charles G. Gates, head of the firm of Charles G. Gates & Co., stock brokers, announced to-day that the firm will be dissolved and will retire from business about June 1. Charles G. Gates is the son of John W. Gates. Gates said that he and his father intend to retire from active Wall Street business for a year or two, in order to travel and to give attention to outside interests.

The Gates firm is known as The House of Twelve Partners," as John W. Gates, in forming it, let his son and ten of his western friends, all plungers, have a slice of the business.

BANK DIRECTORY OF CANADA

Mr. W. R. Houston has just issued his first monthly "Bank Directory of Canada," a book that will be invaluable to bankers and business men, as it gives a complete list of branch banks and the names of the managers throughout Canada. It also includes maps showing the location of banks and branches in Montreal and Toronto.

Like all the Houston financial publications, the book is well printed.

W. E. COREY WAS RE-ELECTED

In spite of the opposition owing to his domestic entanglements, William E. Corey was yesterday re-elected president of the United States Steel Corporation.

U. S. STEEL GAIN.

United States Steel earnings for the quarter were a new record for the March period being $39,100,000, as compared with the low record of $13,400,000 in 1904.

MACKAY BOOMS ON TALK OF A BIGGER DIVIDEND

Common Crosses 72 With Increased Activity in All Three Markets.

SAID CHANGE WILL BE MADE IN JUNE

Change in Presidency of American Telephone and Telegraph Is a Factor.

An upward movement in the Mackay shares, in which Toronto appeared to take a prominent part, was an interesting development of the markets to-day.

The move came as something of a surprise to the "Street," as the Mackays of late have been waterlogged.

The advance led to a wholesale revival of the talk of an increased dividend in June, which has already received a good deal of prominence in these columns.

In fact, it was announced some time ago in Wall Street that an increase for June was cut and dried.

The stock has been inactive lately around 69. It started a point higher today, and ran up to 72½, with increased business in Montreal, Toronto and New York. The preferred responded to the rise, but the move in that issue was not as marked as the demonstration in the common.

Mackay earnings, it is said, are increasing in a very marked manner, while a new development of some importance to the company is the change in the presidency of the American Telephone and Telegraph Company, a concern in which the Mackay Company is the largest shareholder.

$10,000,000 Loan Has Been Renewed

It is announced that the Dominion of Canada $10,000,000 loan, which falls due in London to-day, has been renewed for a period of four years at 4 per cent.

TO-DAY'S LOCAL CLEARINGS

Montreal bank clearings to-day compare as follows:

1907	$4,973,828
1906	5,292,399
1905	3,558,014

WEEK'S COBALT SHIPMENTS

For the weekending April 27 the Cobalt mines made the following shipments:

	Lbs.
Greene-Meehan	67,200
O'Brien	65,570
Coniagas	53,500

The shipments were light owing to the bad roads.

F. L. HUTCHINSON'S CHANGE

The announcement that Mr. F. L. Hutchinson is going to represent E. & C. Randolph in Quebec is erroneous. The firm of McDonald, Lesperance & Co., in Quebec, are the correspondents of Messrs. E. & C. Randolph. Mr. Hutchinson goes to Quebec to assume the management of the branch office of Messrs. McDonald, Lesperance & Co., which is to be established in the Chateau Frontenac, and which is being opened there to meet the requirements of the large number of people who visit Quebec and who are identified with or interested in the New York stock exchange.

ANSWERS TO QUESTIONS

"1907"—Mr. E. S. Clouston is president of the Canadian Bankers' Association.

"Nip"—At the annual Nipissing meeting the voting strength was as follows:

	Shares.
Management	718,439
C. P. Caldwell	63,500
George F. Morton, Toronto	23,000
Mr. Murphy, Ottawa	18,000

SHRUNK $6,000,000.

(Boston News Bureau.)

Frank Work was asked how much he lost. He said: "I have not lost a cent, but I have shrunk $6,000,000."

BANKERS MEET TO-MORROW

There is a meeting of the Canadian Bankers' Association to-morrow.

GATES A BUYER.

(Boston News Bureau.)

Gates has been a heavy buyer of Union Pacific throughout the week.

SURE TO FIND IT.

(Wall Street Journal.)

Of course, when one looks for crop damage with a microscope, one is sure to find it.

PROSPERITY.

(Philadelphia Bulletin.)

Some fellows can't stand prosperity, and others never get a chance.

STEEL DIVIDENDS.

United States Steel Corp. preferred dividend is payable May 31. Books close May 8, reopen June 1. Common dividend payable July 1. Books close June 12, reopen July 2.

A. O. Brown.—Sales during first hour only half of those of yesterday. Atchison meeting adjourned, and statement of action promised later in day. Purchases on recession look safe.

E. & C. Randolph.—Traders were reported as rather aggressive on the bull side of St. Paul and Northern Pacific, and predictions were freely made that these two stocks had not participated to anything like the proper extent in the rise in Union, and would have a sharp advance.

Burnett & Co.—Brokers generally are not advising their clients to buy stocks on the bulges, like that of the last two or three days. They do say, however, that on the declines they believe that the standard issues can be bought for an advance of several points at least.

Brown, Delaronde & Co.—The market is still very narrow and professional, but a careful forecast of the near future reveals nothing that should seriously impair the growing confidence now apparent.

Laidlaw & Co.—Bankers generally consider that there is a prospect for money market to continue at around present rates until just before the time when preparations must be made for July disbursements and a little later for movement of crops.

MR. LEVY ON C. P. R.

(Telegram.)

New York, May 1.

Financial Editor Montreal Star:

When that strike in the West is settled, C. P. R. will advance.

I think Hudson's Bays will also go higher.

JEFFERSON M. LEVY.

So far the Montreal Mining Exchange has not set the St. Lawrence on fire with the amount of business it has done, but the members are optimistic, and still believe that there is going to be a good move in the Cobalt issues this spring and summer.

Even in Toronto business in Cobalts has been pretty slow lately, but Cobalt itself is quiet just now as far as actual shipments are concerned, owing to the miserable condition of the roads.

With big ore shipments and mining operations unhampered, Cobalt, it is said, will hum.

There are twenty members of the Montreal Mining Exchange, as follows:

Robert Meredith	R. E. Popham
E. M. O'Brien	J. S. Michaud
J. B. Picken	H. Domville
A. W. Stevenson	H. B. Young
W. J. Fenwick	G. A. Forbes
J. L. Galetti	Alex. Munro.
John Carson	T. M. Lefebvre
D. B. Thibaudeau	F. W. Heath
D. M. Sexton	A. G. Ross
L. Desrosiers	A. Christmas.

Mr. J. B. Picken is president of the board, Mr. Robert Meredith vice-president, A. P. Christmas secretary-treasurer, and Mr. H. B. Young and Mr. L. J. Desrosiers are on the committee.

If a miller sells a baker flour for the purpose of making bread, and knowing well the purpose, subsequently changes the quality and supplies flour so coarse that bread cannot be made from it, the baker is entitled to damages against the miller.

This is the simile utilized by Mr. Z. A. Lash, K.C., in his opinion to the Dominion Steel Company on their right of action against the Dominion Coal Company.

Isn't Mr. Lash infringing a little upon the simile used by Mr. "Jim" O'Connor in L. J. Forget & Co.'s office one day?

Mr. O'Connor illustrated the Steel Company's kick against the Coal and likened it to a man who went to a boot store and bought a pair of shoes, while the dealer sent him home a pair of moccasins.

Mr. Pellatt has been elected a member of the Toronto Stock Exchange.

Mr. W. W. Price was in the city today.

Worth Millions To The Country

Around Montreal things have been moist this spring, but the recent rains were welcome elsewhere. A Toronto paper says, for instance:

"The splendid downpour of warm rain which has occurred within the past twenty-four hours is worth millions of dollars to the province and the rest of Eastern North America over which it extended. Much of the country was in need of just such a deluge to drive the last vestige of frost out of the ground, and to set in full swing the annual resurrection of nature. Spring has been long delayed, but the farmers' outlook, and therefore the whole country's outlook, is brighter because of the refreshing, revivifying rain."

DOMINION COAL'S OUTPUT

The Comparative Showing for the Past Four Months.

The Dominion Coal Company's output for April, one day estimated, was 316,114 tons, an increase of 19,697 tons over last year. The showing for the four months is as follows:

	1907.	1906.
January	252,107	231,606
February	226,190	225,716
March	203,184	309,809
April	316,114	296,417
	$997,595	$1,063,548

GOSSIP ON DOMINION STEEL

New Bessemer Converters Are Being Tried Out To-day.

Sydney, N.S., May 1.—The two 15-ton converters which have been under construction for some time, and recently completed, are being tried out to-day at the plant of the Dominion Iron and Steel Co., at Sydney.

The formal opening is being scheduled to take place in a few days. The particular process used by the Steel Company is what is known as the duplex process, the steel having to pass through the open hearths as well as the Bessemer converters in the process of its manufacture.

There is but one other application of it in use on the continent, that of the Tennessee Coal and Iron Company. Perhaps the greatest advantage resulting to the company in the use of the process is the rapidity with which the finished product can be turned out, it only requiring five hours, when the converters are used, as against more than twice the time involved by the entire open hearth process hitherto employed.

GOSSIP ON MACKAY STOCKS

New President of Am. Telephone and Telegraph and Mackay.

The election of Theodore N. Vail to the presidency of the American Telephone and Telegraph Co. naturally led to the belief that the Mackay interests in the Telephone Co. had become dominant as the largest stock-holders, and assumed the management.

Such is not the case, however. Mr. Vail, who has had years of experience in telephone affairs, was at one time president of the American Bell Co. He has been a member of the American Telephone board for several years, and previous to his election to the presidency was a member of the executive committee.

Mr. Vail has always been regarded in the public mind as representing the Mackay interests, now amounting to about 70,000 shares, but it is stated that Mr. Vail re-enters the presidency of the company entirely independent of any stock-holding faction.

GRANBY MINE NOW CLOSED

Lack of Coal Ties Up the Big Copper Properties.

A despatch from Rossland says: The Granby, Dominion and the B. C. Copper Company's smelters and mines closed down last evening owing to the shortage of fuel. They will remain closed down for a period of two weeks, even if the coal strike is settled. This will throw about 3,000 men out of employment. Should the strike continue the close down will last for an indefinite period.

TRINITY STEADY.

Lawson's Trinity was steady at 21⅞ to 22¼.

GRANBY STEADY.

Granby was steady in spite of the closing of the plant. The range was 127 to 135.

NIPISSING FIRM.

Nipissing was firm at 14⅛ to 14⅝.

$39,100,000 NET WAS SHOWING FOR 3 MONTHS

But U. S. Steel Did Not Increase the Dividend on Common Stock.

UNFILLED ORDERS ARE VERY HEAVY

How the Earnings of World's Greatest Money Maker Compare With Other Years.

No change was made in the U. S. Steel dividend, but while there was some disappointment in this regard, there was none over the earnings, which were fully up to expectations.

The company showed net earnings of $39,122,492, as compared with $41,744,946 for the quarter ended December 31, 1906, and $36,634,490 for the quarter ended March 31, 1906. The surplus, after charges and preferred and common stock dividends, for the quarter ended March 31 last, was $18,184,576, as compared with $18,824,545 for the quarter ended December 31, 1906, and $16,067,000 for the quarter ended March 31, 1906.

The unfilled orders on the books of the company, as shown in the quarterly reports since those figures were first published, have been as follows on the dates mentioned, the figures being given in tons:

March 31, 1907	8,043,858
December 31, 1906	8,489,718
September 30, 1906	7,936,884
June 30, 1906	6,809,589
March 31, 1906	7,018,712
December 31, 1905	7,605,086
September 30, 1905	3,865,377
June 30, 1905	4,829,655
March 31, 1905	5,579,560
December 31, 1904	4,696,203

The April earnings of the Steel Corporation for the past seven years follow:

1907	*$14,300,000
1906	12,581,901
1905	9,037,924
1904	6,863,832
1903	10,905,204
1902	12,320,765
1901	7,356,744

*Estimated.

If April earnings are as large as expected, they will be almost 100 per cent. in excess of earnings reported in April, 1901.

EGG AND POTATO MARKET

EGGS.—The egg market remains unchanged.

There is a fair steady demand, and any surplus stock is at once packed for storage, thus keeping the market from being over-stocked. Prices to-day are at last quotations, 17¼ to 17½c wholesale, and 18c in single cases; No. 2's, 16 to 17c.

Receipts of eggs reported on the Board of Trade to-day were 1,115 cases.

POTATOES. — The potato market is steady, but there are not enough white potatoes coming in to supply the demand. The red stock that arrives is of exceptionally good quality, and in a good many places takes the place of whites.

The demand from outside points is still brisk.

Prices to-day are a little firmer, being quoted at 72 to 75c on track, and 90 to 95c delivered for whites, and 68 to 72½c for reds on track, and 80 to 90c in store.

CHEESE AND BUTTER MARKET

BUTTER. — The butter market is steady, with scarcely enough coming in to supply the demand.

Prices to-day remain unchanged, being quoted at 24½c, but a decline is to be expected as soon as the receipts increase, which they should do now from day to day.

Receipts of butter reported on the Board of Trade to-day are 373 packages.

CHEESE. — The cheese market is steady, there being a demand for the quantities arriving.

The English market declined 1s per cwt. yesterday for old cheese, which will probably have some effect on the market for new cheese.

At the moment, however, the stock of new make here is very small, but meets with a demand at prices 11½ to 11⅝c.

Receipts to-day reported on the Board of Trade are 3,076 boxes.

First Carload Of Strawberries

The first carload of strawberries to arrive in Canada this season will reach Montreal on Friday next, and will be sold by auction in the Montreal Fruit Auction Rooms, at 10 o'clock that morning.

HUNTING FOR FRUIT PEST

Special to The Montreal Star.

Halifax, N.S., May 1.—Recently a report was made to the provincial department that the dreaded brown-tail moth had made its appearance in the Annapolis Valley fruit belt.

A single specimen had previously been found and sent to Dr. Fletcher at Ottawa, who pronounced it genuine.

Principal Cumming, of the Agricultural College, then detailed Prof. Smith to make a careful investigation of these sections where it was feared the "browntails" had made an inroad. After a most thorough search not a single specimen has been found.

THE CURE BLESSED THE BANK

Quebec, May 1.—The unique ceremony of blessing a bank was performed here yesterday afternoon by Mgr. Faguy, cure of Quebec, the bank in question being the lower town branch of the Caisse d'Economie, of which Archbishop Begin is patron and which numbers Rev. Mr. Paquet among its directors.

MOVEMENT OF GOLD TO-DAY

London, May 1.—Gold to the amount of £40,000 was withdrawn from the Bank of England for Paris. The bank bought £129,000 in bar gold.

ANOTHER BANKING CHANGE

Fredericton, N.B., May 1.—It was announced here this afternoon that Mr. W. Byron Coulthard, whose resignation from the Bank of Montreal's service took effect this morning, has been appointed manager of the Royal Bank of Canada in this city, and that he would soon take charge of the bank's business here.

Mr. A. E. Brock, manager of the Royal Bank of Canada in this city for the past three years, has been notified of his transfer to Montreal, where he will become manager of the West End branch.

ON PAGE 13.

Financial news, items from Cobalt and general financial and mining advertising will be found daily on page 13.

A Winnipeg grain firm wires to-day:

Have advice from representative in Kansas, who is covering the same ground covered a couple of weeks ago, and he informs us wheat has deteriorated considerably, and bugs are very bad. He claims that oats are a complete failure, that there has been sufficient moisture, but he does not think it will do much good, and he further says that advices to-day from Newton, Kansas, are bad. Secretary Coburn gave condition of Sumner and Crowley Counties 58 and 65, but our representative says they won't go 25.

A telegram of this date from Chicago reads: Deliveries heavy, but well cared for; southwestern advices worse; market strong, with good all-round trade.

The Canadian Northern Quebec Railway has issued a circular, giving a synopsis of their iced butter car service commencing on the 7th of this month and continuing until the middle of October for the transportation of butter from Quebec and country points to Montreal. Butter loaded in these cars will be charged the current tariff rates, without additional charge for icing.

A telegram this p.m. says: Freezing all over the North-West, delaying seeding.

A telegram direct from the Chicago Board of Trade of this date says: Strongly favor wheat purchases; deliveries gone into strong hands.

The Opening Of Navigation

Winnipeg, Man., May 1.—The opening of navigation will have a stimulating effect on the Winnipeg market—indeed, the announcement of the first boat's arrival has increased the demand for cash wheat already to a limited extent. There are at least 10,000,000 bushels in the hands of Saskatchewan farmers to be marketed over and above seed, and, taking the three provinces, there are between 12,000,000 and 15,000,000 bushels still to market, so that there is little hope of the last crop being disposed of before the crop of 1907 comes into the market, and it is the firm prices in the face of these large holdings that emphasize the doubt as to the crop of 1907.

WHEAT MARKETS STRONG

The Liverpool spot wheat market closed steady. No. 1 northern Manitoba, 6s 10½d to 6s 11d; No. 2 northern, no stock.

Options on wheat firm, May 6s 6½d, July 6s 5⅜d, September 6s ½d.

Weather in England, showery; forecast, unsettled.

The Paris wheat market closed steady, May 23.30, September and December 22.90.

Weather in France: North, cloudy; South, part cloudy; forecast, for North, rain, and in the South cloudy.

The receipts of wheat at Winnipeg yesterday were:

	Cars.
No. 1 hard	5
No. 1 northern	79
No. 2 northern	68
No. 3 northern	11
No. 4 northern	2
Winter	0
Other grades	37
Total	202
Last year	105

The Chicago spot wheat market was quoted at 12.30 p.m., May 80, against 79; July 82⅜, against 81⅜ to 82 at the opening this morning.

The New York wheat market was quoted at 1 o'clock; July 90⅛ to 90¼, against 89⅞ at the opening.

Winnipeg wheat at noon, October 81¾, against 80¾; May 79⅝ to 79&, against 79⅛; July 81½, against 80⅞ this morning.

Winnipeg oats, May 37⅜, against 37½; June steady at 37⅞; July 38, against 37⅞.

Duluth wheat, at noon, was quoted: May 85¼, against 84½.

The Minneapolis wheat market was quoted at noon, May 81⅞ to 82, against 81⅝ at the opening of the market this morning.

Steamer Ames Has Left Fort William

Fort William, May 1. — The steamer Ames, of the Canadian Lake and Ocean line, left here to-day loaded with Manitoba wheat for the Ogilvie Flour Mills Co., Ltd., Montreal, going through without transhipment. This is the first through vessel to load from the head of the lakes this season going through to Montreal without breaking bulk. The wheat will be unloaded at the Ogilvie Flour Mills' Royal mill on Mill street, Montreal.

Mr. G. W. Wood Again Arrested

Winnipeg, Man., May 1.—George W. Wood, president Canadian Stock & Grain Company, was arrested for the third time yesterday for operating a bucket shop. He was committed for trial in a previous case yesterday, and spent last night in jail, not having secured bail. This was the Calgary case, where a business man bought several margins through the agent there, R. V. Bassen, and was closed out. The man got his money back, however, by seeing Wood personally.

A. E. Reed Paper and Pulp Co.

Canadian Associated Press.

London, May 1.—The Albert E. Reed Company, with a £400,000 capital, has been formed to carry on a Newfoundland paper and pulp manufacture.

LONDON WOOL AUCTIONS

London, May 1.—A large number of buyers attended the opening of the third series of wool auction sales yesterday. The offerings numbered 13,376 bales. All lower grades were irregular, and 5 to 7½ per cent. lower. Cape of Good Hope and Natal greasy were unchanged to 5 per cent. below the last sales. Scoured showed change. Crossbreds were in large supply, and Americans bought several lots of mediums. Punta Arenas and Falkland Islands were in active demand. Home traders were the chief buyers. Following are the sales in detail:

New South Wales—700 bales; scoured, 1s 3d to 1s 6d; greasy, 10d to 1s 2½d.

Quensland—500 bales; scoured, 1s 6d to 1s 9d; greasy, 7½d to 11½d.

Victoria—200 bales; scoured, 1s 2½d to 1s 8d; greasy, 9d to 1s.

West Australia—500 bales; greasy, 8d to 11d.

New Zealand—7200 bales; scoured, 1s 1d to 1s 10½d; greasy, 8d to 1s ½d.

Cape of Good Hope and Natal—700 bales; scoured, 8½d to 1s 9d; greasy, 6½d to 9½d.

Punta Arenas—3500 bales; greasy, 6½d to 1s.

Falkland Islands—200 bales; greasy, 8½d to 11½d.

PATTEN HAS OATS CORNERED THIS MONTH

And he is Likely to Put Them Up Around 50c or Possibly 55c.

SHORTS IN WHEAT OBLIGED TO BID UP

Canadian Lake and Ocean Line Steamer Leaves Fort William.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, Ill., May 1.—The shorts in wheat were obliged to face unfavorable conditions in the southwest. The killing frosts throughout the wheat district have been causing more or less alarm because of possible damage.

The shorts were obliged to bid up for wheat.

These frosts were reported as far south as Texas with "killing" conditions in Southern Kansas and Northern Oklahoma. It is expected that a few days of warm weather in Kansas will develop the actual damage by bugs and the long-drawn-out dry spell that was recently broken up.

Deliveries of wheat this morning were up around four and one-half million bushels, and it was taken in by some of the strongest concerns in the trade.

A million bushels of oats were sent around and they were stopped and paid for by Bartlett and Frazer Carrington, of house of Patten. The oats will likely be shipped out and the shorts made to see the folly of their ways. Only a million bushels of corn were delivered and 15,000 bushels of rye.

May wheat sold at 78⅜ to 79¾, and June at 81¾ to 82½.

Rye closed last night at 78⅞ and 81⅝ respectively.

May oats sold up from 45⅝ to 47c, showing an upturn of 1½c.

Patten has this cereal "cornered" for this month, and he is likely to put it up around 50c or possibly 55c. His play will now be to load the oats delivered to him this morning and send them east, where he will have a hole to put them into. He will then make the shorts go into the pit and bid the price up on one another.

New High Records In Cotton Prices

From the Special Correspondent of the Montreal Star on the New York Cotton Exchange.

New York, May 1. — The cotton market opened steady at an advance of 2 to 3 points, which was better than due on cables as a result of over-night buying orders that had been attracted by the strength and activity of yesterday.

New crop months were barely steady at first, owing to prospects for better weather, and rather more favorable report on crop conditions from prominent trade paper than expected.

Trading continued active, and near months soon developed renewed bullish excitement, promoted by strength of July in New Orleans, where summer months shorts seemed to be finding themselves in hot water.

Stopping of May notices and reports of better inquiry for supplies out of local stock from spinners, seemed to point toward possibility of squeeze in July here also, and with private cables from Liverpool reporting that near months there were in very strong hands, timid shorts were fearful of succession of summer month corners in all three markets. Prices here made new high records.

NEW YORK METAL MARKET

New York, May 1.—Iron, east, 2 foundry, 22.50 to 23; north forge, 21 to 22; southern 2 foundry, 18.75 to 21. Steel, 29.50 to 30. Copper Lake, 25 to 25¼. Electrolytic, 24¼ to 24⅝. Tin, 42.85. Silver 66. Antimony, 17 to 18. Spelter, New York, 6.55; St. Louis, 6.40; London, lead, higher, £20 2s 6d.

HAMILTON COAL BOOSTED

Hamilton, Ont., May 1.—The local dealers to-day boosted the price of coal from $6.50 to $6.75 a ton, and they say it will go still higher before fall. The reason given for the advance is that so much coal is being shipped into the North-West and that the dealers have to pay more than they used to in order to get a supply. The dealers also claim there is a danger of a coal famine.

LOCAL FIRMS DISSOLVED

Broadway Shoe Co., Hirsch Leib Wittes, filed April 30th, 1907.

When OurCustomers Say

"Your canoes are the best we have ever seen," "they are certainly dandies," "we have never seen anything to equal them," "they are perfect," "they beat any canoe we have ever seen or used," we begin to think that the public are catching on to the advantages of a CHESTNUT CANVAS CANOE. Have you caught on? If not, better send for catalogue and hear what people who have used them say about them.

Pilon, Defendant en desaveu, and T. Beaupre, Intervenant. On the 10th May, 1907, at ten of the clock in the forenoon, at the place of business of the said Plaintiff en desaveu, 426 Amherst st., in the City of Montreal, will be sold by authority of Justice, all the goods and chattels of the said Defendant, seized in this cause, consisting of household furniture, etc. ED. DESROCHES, B. S. C. Montreal, 1st May, 1907.

VICTORY FOR TAMMANY

Members of That Organization Claim Mayor Was Worsted.

Special to the Montreal Star.

New York, May 1.—Charles F. Murphy, leader of Tammany Hall, denied emphatically that the slaughter of the Mayoralty recount bill was one of the terms of the peace treaty with Mayor McClellan.

"Personally, I am still in favor of the bill," he said.

"Have Tammany members of the Assembly and Senate been instructed as to their action on the measure?"

"No, they have not been instructed one way or the other."

Other members of Tammany declared that the "Tiger" had once more swallowed its prey, and one of them said: "George B. McClellan's appetite for lemons is apparently insatiable."

STEPPED IN FRONT OF TRAIN

Section Hands Run Down in Avoiding a Freight.

Rochester, N. Y., May 1.—An eastbound accommodation train of the New York Central ran into a gang of section hands, two miles east of Batavia, yesterday, killing three of them outright, fatally injuring a fourth, and seriously injuring the assistant foreman, Daniel O'Leary, whose leg was later amputated at an hospital in Batavia.

The accident took place near Godfrey's Pond. The men stepped out of the way of a westbound freight and directly in front of the passenger train.

OBJECT TO THE PIANO

A Resident of Ottawa Wants Playing on Sunday Stopped.

Special to The Montreal Star.

Ottawa, May 1.—Ald. Little has been requested by a resident of Ottawa to introduce a by-law which will prohibit the playing of pianos on Sunday. The man who wants this law enacted says that he has a neighbor who busies himself all day Sunday pounding a piano, to the accompaniment of yells which he mistakes for singing. He points out that in some German towns the playing of musical instruments on Sundays during certain hours is prohibited.

PROTEST MORRIS' ELECTION

Disqualification of Member Asked for on Bribery Grounds.

Special to The Montreal Star.

Winnipeg, Man., May 1.—Dr. Mulloy, Liberal candidate in the recent provincial election in Morris, has entered a protest against the return of his opponent, Attorney-General Campbell, who was elected by the returning officer's vote.

Disqualification of Mr. Campbell is asked for on the grounds of bribery. The Liberals hope to secure a victory simply by an official scrutiny of the ballots, as Dr. Mulloy claims he has actually won the seat.

CONCILIATION TO AWAIT DECISION OF MINERS

Special to The Montreal Star.

Fernie, B.C., May 1.—The conciliation board appointed to investigate the coal trouble met yesterday. Sir William Mulock presided, and the other members were Mr. J. L. Parker, of Lee Lake, Alberta, representing four of the mine companies; Mr. Frank B. Smith, of Edmonton, representing the other three companies, and Mr. Louis B. Eckstein, of Fernie, representing the whole body of employes. The boarded decided to postpone consideration of the questions until Friday.

PRESENTATION TO MISS LINAHAN.—In the office of the Morgan factory, last evening, the managers and foremen of the various departments presented a gold watch and chain to Miss Annie Linahan, who is leaving the employ of Messrs. Henry Morgan and Co., Ltd., after eight years' service.

IN LABOR CIRCLES.

The officials of the local union of the United Garment Workers of America, desire it to be made known that the "Garment Workers" cited in the Socialist list as going to march on May Day, are in no way connected with their organization, but an independent tailors' union.

The International Brotherhood of Electrical Workers, No. 463, will hold their first meeting in the Labor Temple, 127 St. Dominique street, next Friday evening. The permanent business agent, F. Laviolette, states that the union is in a flourishing condition and growing rapidly. Matters of special interest to the craft will be discussed at Friday's meeting.

A meeting of the Laundry Workers was held at St. Joseph's Hall on Sunday, Mr. D. E. Chartrand, the president, in the chair. The following officers were elected: Secretary, G. Raymond; treasurer, J. Leclair; committee, Philippe Vidal, Maurice Blais, W. Gendron, C. R. Salmon, Albert Biengenetti, M. J. Duval, E. Buteau, P. Cholette, Jas. Groulx. The orators of the evening were Messrs. Joseph Ainey, M. Leclair and C. R. Salmon, the secretary of local 69.

The Executive Council of the Stonemasons' Union have ordered a general meeting of the craft for Thursday evening, in the new Labor Temple, St Dominique street, when the finishing touches will be put on the recently adopted scale of wages, which becomes effective on May 1. The new scale calls for 40 cents an hour and a nine-hour day. The officials of the union do not anticipate any trouble. The officials of the Bricklayers' Union have signed with the contractors for the coming season. They will receive 50 cents an hour in future. The carpenters and joiners will not make any demands. Last year's rate of 30 cents an hour will be the union scale.

Samuel L. Landers, of Hamilton, acting general organizer of the United Garment Workers of America, who has been in Montreal the last two months in the interest of his organization, has received word from General President T. A. Rickert to return to New York immediately to attend a meeting of the general executive board, of which he is a member. Many changes are anticipated and Mr. Landers may become the general auditor of the organization or editor of the Weekly Bulletin of the Clothing Trades. During his stay in this city Mr. Landers has added considerably to the membership of the several garment workers unions in the city, and has under negotiation the signing of an agreement with a local manufacturer for the use of the union label of the trade.

Diamonds, Diamonds, Diamonds. R. Hemsley, Jeweller, 255 St. James St.

The Standard.

Important Notice to The Trade.

Until such time as we can secure additional press facilities we deem it well to announce that we cannot entertain applications from NEW dealers to be furnished with supplies of The Standard. Our presses are now working all day and into the night to meet the increased demand from our eight hundred old dealers, and as we are obliged to use our utmost endeavors to grant them sufficient supplies for their customers, it will be easily understood that we regard it as unfair to the older agents to enter new dealers on our list. Of the eight hundred old dealers many of them are taking enormous quantities, the sales of The Standard, so they report, in these cases, even exceeding their sales of The Star. The largest seller of the eight hundred agents disposes of twelve hundred copies of each issue, while scores and scores of them sell one hundred to three hundred each, totaling a circulation far and away ahead of any English Daily in Montreal with one exception. Without further explanation new dealers will understand why we cannot book their orders.

GEORGE MURRAY PUBLISHING CO, LIMITED.

MUCH TROUBLE SMALL RETURNS

New Income Tax on Suburbanites in Force from To-day — Not Easily Estimated.

To-day the civic tax collectors will start on the war path after the fortunate suburbanites who earn good dollars and dimes in Montreal, but who hand in no portion of their earnings to the Montreal treasury.

Happy are the suburbanites who do not earn over twelve hundred dollars; the tax collectors may do them no injury.

It may be some consolation for the unhappy ones who are drawing "fat" salaries to know that although the city assessors, some twelve in number will start on their trail this morning, that their new tax bills will not reach them till the autumn; it will take this long to get the new tax bills out.

"What system will you employ in order to learn the salaries of employes who earn over twelve hundred a year?" was asked of the head of the Board of Assessors.

"The task we have on hand is a most difficult one," was the reply. "The system we shall adopt is to go to the employers in the city and ask them the names of all their employes who reside outside of the city. They will also be asked what salaries these employes get. Finally, in the autumn, when we have got all the information, we shall send out tax bills to those who owe the corporation one per cent."

"But many of these people may own real estate in the city, or pay certain personal business taxes, and what will be done in this case?"

"We have anticipated this. So soon as these persons receive the new tax bills all they have to do it to come to the Board of Assessors and show that they are already paying something into the civic treasury. When this has been proven, they will not be compelled to pay the new one per cent. on salaries."

"Then if a man owns a small office down town and pays a couple of dollars water tax he is free from the new tax?"

"Yes, such a person is giving money into the city treasury, and so is free. All persons, also will be free who pay any business tax or real estate tax into the treasury."

What is perplexing some of the assessors is whether or not a man who pays a dog or house tax is also free. TThe opinion of the majority of the assessors is that such individual is not exempt from the new tax. This point is to be settled by the civic law department.

"Will a large amount be got by the city from this new tax?" was asked of one of the assessors.

The following is his surprising reply: "I do not believe," he said, "that the city will get five thousand dollars by this tiresome tax. It must be remembered that the tax is only one per cent. Now we should have to tax one million dollars before we could get ten thousand dollars into the civic treasury. In order to get five thousand dollars we should have to tax salaries to the amount of half a million. The new law exempts all salaries up to twelve hundred dollars. From this it will be seen that there is not much chance of the city getting any great benefit from the tax."

DEATHS REPORTED.

MAXWELL, ONT.—John Henry Haney is dead, aged 68.

The youngest son of P. N. Tansley is dead in Wingham.

DIXVILLE. — Mr. E. Cutler is dead, aged 23.

HAMILTON, ONT. — Robt. Mackay, a former resident of Hamilton, is dead.

GUELPH, ONT. — John Anderson, a former well-known bookseller of this city, is dead at Vancouver.

MAPLE, ONT. — Joshua Oliver, who had lived in this vicinity over fifty years, is dead, aged 86.

WELLAND, ONT. — John Richardson is dead, aged 78.

COOKSHIRE, QUE. — William Cutler, aged 84 years, is dead at Dixville, Que.

Glenor Gertrude Ashton, only daughter of Mr. and Mrs. William Ashton, is dead, aged 11 years.

Mrs. Jane Ann Pierce, widow of the late Thomas Foster, is dead at Cowansville, Que., aged 75 years.

John Dube, a former resident of Sutton, Que., is dead, aged 52 years.

BROCKVILLE. — Lala Alguire is dead at Ogdensburg, aged 24.

William Denesia is dead, aged 84.

Elizabeth Elder is dead at Pillar Point, aged 67.

Anna H. Church is dead at Watertown, aged 76.

Maria L. Coats is dead at Lowville, aged 67.

Mrs. Anna McNeil is dead, aged 79.

ST. JOHN, N.B.—Frederick Christopher, of St. John, is dead in Philadelphia.

Oscar C. Willis, son of John Willis, of Wetsford, is dead, aged 9.

George McMillan, son of Bernard McMillan, is dead.

Quartermaster John Long, of the Eastern Steamship Line, is dead.

W. E. Stevens, of St. John, is dead in Ottawa, aged 66.

Richard Martin, of Rexton, is dead, aged 65.

Isaac W. Carter is dead at Buctouche, aged 56.

James Reed, of Greenock, is dead.

Mrs. Francis Kilford is dead.

WINNIPEG. — Mrs. C. H. Newton is dead.

The infant son of Mr. and Mrs. H. B. Harrison is dead.

Charles Hugo is dead.

STRATFORD, ONT. — Mr. John Thistle is dead, aged 77.

CARTWRIGHT, MAN. — Mr. William John Steel is dead, aged 74.

COBOURG, ONT. — Robert Somerville, of Haldimand, is dead, aged 76.

Hugh Allingham is dead, aged 89.

Mrs. Sarah Jane Simpson is dead at Orland, Northumberland county, aged 74.

James Stanley little son of John and Minnie Corbett, is dead.

Alice Gardiner, widow of the late T. H. Tebbs, is dead at Orillia.

Mrs. Wm. Cundill is dead at Baddow.

LINDSAY, ONT. — Robert Parker is dead, aged 52.

Mrs. Martha Graham is dead, aged 89.

NEW RICHMOND, Que.—Gavin Doddrege is dead, aged 22.

BONAVENTURE, Que.—The infant son of Bonaventure Arsenault is dead.

ST. JOHN, N.B.—Miss Mary F. McKinnon, daughter of William C. McKinnon, is dead, aged 24.

James Flood, of St. John, is dead in Boston, aged 79.

Charles H. S. Johnson is dead, aged 68.

Fred. B. Stephens is dead.

Mark Doyle, aged 102, is dead at St. George.

Philip Murphy, of South Branch, is dead, aged 71.

Gain Wood is dead at French Lake, aged 69.

Miss Julia Marie Donohoe, daughter of Dennis Donohoe, is dead, aged 16.

Mrs. Edward Boyle is dead at Black River, aged 82.

QUEBEC. — Mrs. Edward Dalbec is dead, aged 77.

Isidore Verret, of St. Sauveur, is dead, aged 66.

Mrs. Paquin, of Portneuf, is dead, aged 84 years.

Severin Dumais, land surveyor, is dead at Hebertville, aged 67.

COOKSHIRE, Que.—Mayor Wm. Weyland is dead, aged 75 years.

Albert Eastman, aged 90 years, is dead at Glen Sutton, Que.

Hughes Newton, eldest son of Rev. and Mrs. S. F. Newton, is dead.

John Samson is dead, aged 68 years.

Mrs. Janie Judd, wife of Levi A. Judd, is dead at Beauce Junction, Que., aged 33 years.

John McDonald, one of the early pioneers of Lake Megantic, Que., is dead, aged 80.

Elizabeth Munro, widow of the late John Munro, is dead at Windsor Mills, Que.

BELLEVILLE.—John Demorest, of Foxboro', is dead, aged 83.

Robert Heffer, of Picton, is dead, aged 68.

Matilda Loweyl, of Picton, is dead, aged 67.

Harriet A. Walters is dead, aged 78.

MONCTON, N.B.—William A. Neill is dead at Moncton, aged 61.

Richard Martin is dead at Rexton, Kent County, aged 73.

John Wry is dead at Sackville, aged 85.

YORK MILLS, Ont.—John S. Humberstone is dead, aged 69.

WHITBY, Ont.—E. T. Thornton is dead.

TORONTO.—Arabella McMorris is dead aged 76.

Benjamin Lloyd is dead, aged 65.

Mrs. Isaac Hutchinson is dead.

Joseph G. Hutchinson, secretary of the Toronto Plate Glass Importing Company, is dead, aged 60.

MAXWELL, Ont.—John White, sr., is dead in Priceville.

Mrs. C. A. Bull, late of Collingwood, is dead in Laprairie.

GLACE BAY, N.S.—Neil McMuulin is dead, aged 90.

QUEBEC.—Julie Cantin, wife of F. E. Blondeau, and mother of Mr. F. X. Drouin, K.C., is dead, at the age of 84 years.

Joseph Bourbeau, the well-known Quebec boatman, is dead, aged 60 years.

Vital Bilodeau is dead at Beauce Junction, aged 74 years.

BROCKVILLE, Ont.—Eliza, wife of Samuel Murdock, is dead, aged 46.

May, wife of Charles Delpapa, is dead at Watertown, aged 29.

Catherine Hughes is dead at Watertown.

James Pritchard is dead at Marble Rock, aged 77.

William Peters is dead at Ogdensburg.

Robert Scott is dead at Watertown, aged 84.

Mrs. George Baird is dead at Smith's Falls.

Charles Johns is dead in Ogdensburg.

Edward Kelly is dead at Prescott, aged 50.

CHATHAM, Ont.—Mrs. William J. Farrell, aged 24, is dead.

Mrs. Neil McFarlane, aged 80, is dead.

Mrs. A. Wilfred Merritt is dead, aged 44.

COBOURG, Ont.—Clara Payne, daughter of the late Charles Payne, is dead.

Clara McCracken, wife of Charles McGrath, is dead at Lakefield.

Spencer Dancy is dead at Omemee.

PETERBORO', Ont.—John Frese is dead, aged 69 years.

Mrs. Mary Armstrong, widow of the late William Armstrong, is dead, aged 73 years.

Archibald Douglas, son of Mr. and Mrs. Charles Rishor, is dead.

Mrs. A. Hartwick is dead at Cobocomk.

John Fisher is dead at Alliston, Victoria County, aged 92 years.

John Wolfe is dead at Matchibash, aged 62 years.

Frederickton, N. S.—The death occurred recently at the Military Hospital of Private John Johnston, after a short illness from pneumonia. Deceased belonged to Halifax. He formerly served in St. Johns and Halifax. One month ago he got his discharge at the latter place and came here where he re-enlisted.

HIGH IDEALS AND ASPIRATIONS

Take Ideals Out of Statesmanship and You Get Wine, Women and Graft.

The graduates of Wesleyan College had the pleasure of listening to two interesting addresses at their convocation exercises last evening, one speaker being the Rev. G. F. Salton, of Ottawa, and the other Professor Workman. Both gentlemen resorted to present day illustrations to force home their points, each making himself doubly interesting by the interspersion of remarks in regard to political matters of the moment, and other subjects of modern times.

"What the world needs is not what it wants," said the Rev. Mr. Salton. "What it needs is the very thing at which the average man is most ready to sneer-ideals and aspirations. Take the ideals out of statesmanship and you get the corrupted politician. When the ideal goes, come 'wine, women and graft.'"

"Too high ideals, or the lack of them, was ascribed the political degradation of the present day, while in many other walks of life failure might be counted for on the same ground. It had been true with literature, where Zola had in some ways usurped Victor Hugo, and Ibsen had taken the place of Shakespeare. The Church itself, with its divine dreams and visions, had not been exempt.

"People often speak of the respectable inefficiency of the pulpit," said he, "and we clergy often deserve it. Too often we have not the ideals which ought to be presented to mankind. A man is sometimes greater than his creed, but never greater than his ideals. Our ideals are the horizon of our lives. They are the best part of us. The poorest man in this world is the man without an ideal. There is beauty all around us, but only the man of high ideals can perceive it."

It must be remembered that ideals were not man-made, but God-made, and God meant them to be fulfilled. The world might sneer and scoff, and put obstacles in one's way, but that was all the more reason why everyone should strive all the harder towards the realization of their ideals.

Professor Workman's theme was "Convictions." Dr. Torrey was held up as an example of what high convictions can do. "We may differ with him in many respects," said the Professor, "but we cannot help but admire the forceful sincerity which enables him to do his present great work in Montreal."

Senator Ross came in for some adverse criticism in the illustration of his subject. "Mr. Ross, as Premier of Ontario," said Mr. Workman, "stood for prohibition for twenty-five years. But at the crucial moment his convictions failed him, and he goes down to posterity, not as a hero in the history of Ontario, but as a trimmer and an opportunist."

In the report of the registrar, Rev. Dr. Jackson, it was stated that the number of students registered during the year was 75, an increase of ten.

Messrs. S. W. Boyd and E. A. Pitt became licentiates of Divinity, while the degree of B.D. was conferred on: D. T. Cummings, M.A.; G. W. Down, B.A.; J. Pinel, S.F.L., and W. J. Wood, M.A.

DE JERSEY TENT.—The regular meeting of De Jersey Tent will be held this (Wednesday) evening in their new hall, corner Crescent and St. Catherine streets.

BROWNLEE SUCCEEDS TO M'GUIGAN'S POST

As foretold in yesterday's Star, Mr. W. G. Brownlee, who has been superintendent of the middle division of the Grand Trunk Railway, with headquarters at Toronto, has succeeded to the position of general transportation manager of the company, in place of Mr. F. H. McGuigan. The office of fourth vice-president does not, however, go with the position, and will in all probability be dropped entirely.

A circular was issued yesterday afternoon announcing that Mr. A. A. Tisdale, who was assistant to Mr. McGuigan, will remain as assistant to Mr. Brownlee.

Mr. N. E. Gillen, assistant superintendent at London, becomes superintendent at Toronto, in Mr. Brownlee's place.

Mr. A. J. Nixon, trainmaster at Stratford, succeeds Mr. Gillen at London, and C. G. Bowker, at present chief despatcher, succeeds Mr. Nixon at Stratford.

Mr. Brownlee has been a railroad man for thirty years. In 1901 he came to Montreal as superintendent of the eastern division, and in the following year he was appointed superintendent of the western division at Detroit. In January, 1905, Mr. Brownlee was appointed superintendent of the middle division at Toronto, from which post he has just been promoted. Mr. Brownlee is regarded as a capable man, and his rise on the Grand Trunk has been steady and rapid.

USED CABIN STOVE TODRY CARTRIDGES

Special to The Montreal Star.

Quebec, May 1.—A serious accident occurred in the woods in the upper part of Montmagny County between the districts of Moose and Armand. Several men in the employ of the Price firm, with a view to getting rid of a block of ice obstructing a river, decided to use dynamite, and placed some cartridges to dry on a stove. Seven men were in the cabin at the time, five of them standing near the stove.

Suddenly, accidentally or through imprudence, some one struck the stove, with the result that there was a terrific explosion. The men were badly mutilated and five will probably die. The names of the five unfortunate men are: Emile Robin, Arthur Robin, Cleophas Collin, E. Morin and Simeon Picard, jr.

WILL NOT STRIKE--- OPERATIVES SATISFIED

The threatened strike of the five thousand odd employes of the Dominion Textile Company has been averted and an amicable working basis agreed to which will satisfy, for the present, both the men and their employers. At a meeting held yesterday afternoon of the different unions, it was decided to ask for an increase of fifteen per cent. in wages all round. The demands were placed before the company and last night at a conference between a committee representing the men and Mr. A. B. Mole, the general manager of the company, the latter offered an increase of five per cent. After considerable deliberation the men decided to accept this offer, and at eleven o'clock last evening an agreement was reached between the two contending parties.

It is not so very long ago that the employes of the Dominion Textile got an increase of ten per cent. all round. The mills affected are the St. Henri, St. Anne's, Hochelaga, Magog and the Colonial Bleaching Mills.

"Human Hearts," an Arkansas idyll will be at the Francais next week. It is said to be a keen and interesting story.

ICE HAS DAMAGED LAKE LIGHTHOUSES

Will the light houses in the lower part of Lake St. Peter have to be rebuilt as a result of the damages inflicted on them by the unusually heavy ice on the river this year? This is a question which is now worrying those who have in charge the channel of the St. Lawrence, according to the report from Quebec heard on the harbor front.

These lighthouses, of which there are three, are known as the St. Francois group, and they are situated just below the islands of the lake. They are practically new constructions, having been put up only two years ago in the place of the floating lighthouses formerly in use. They were very solidly built on forty foot piers, and were sixty feet in height.

The story goes that the ice, which was very heavy and firm on the lake this year, severely damaged these houses in the breaking up. It is said that one of them has been almost demolished by the terrific force of the ice fields, while both the others have been injured. The damage has in each case been done just above the foundations of the building.

WAS BOX IN ORDER PREVIOUS TO FIRE?

Witnesses Before Commissioners Declare That It Was Not

AT GREENSHIELDS' FIRE

Citizens Sharply Critical In Their Testimony of the Peel Street Affair.

The residents of the upper part of the city, since the disastrous fire at the residence of Mr. J. N. Greenshields last Friday, are warm in their expressions of disapproval of the very poor fire protection that is afforded them, and are asking what is to be done about it. They claim that the protection there amounts to almost nothing and the events of last week and the evidence given at the investigation seems to bear them out.

An investigation into the cause of the fire was held on Monday afternoon by Fire Commissioner Ritchie, and a large number of witnesses were examined and some interesting testimony was given.

James Hunt, Mr. Greenshields' gardener, said that he was on the front lawn when one of the maids came out and called out "fire." She was at the rear of the house. He ran to the rear and found the dining room all ablaze and he turned and started for the fire alarm box but found that the gardener from the next house had gone to ring it. He said that as near as he could tell it was about three-quarters of an hour from the time that he first heard the cry of fire until the firemen got there.

Edward Snell, the gardener next door, said that he was in the garden when one of the maids came out and cried "fire." He ran to the box opposite Mr. Ross's house. His evidence regarding trying to pull the alarm was as follows:—"I opened the door, pulled the hook down and the ticker did not go off; I pulled it a second time, it did not go off, then I went up after Sergeant Willwick to the top of Peel street and brought him down and I told him that I had sent in the alarm, but the reels had not come."

The witness said that he did not get any response from the box at all. It was fully twenty or twenty-five minutes from the time he first went to the box until the reels got there. He did not see any salvage waggons there.

Mr. Kenneth Turnbull said that he was in his own house on Peel street when he first noticed the fire. He "first tried to get the fire station on the telephone but got mixed up with central and then ran to the alarm box. I saw the box already opened, a man standing opposite it. He said that he had already tried it, and while I was there I saw him pull the hook down, but no response. I turned away and started to go down the street and heard the bell ring in the box."

Mr. Turnbull could not say how long it was before any firemen arrived on the scene, but it seemed a long time. At first just one hose waggon arrived with about "a dozen men," and it seemed to be as much longer before any more were on the scene. He did not see any salvage waggons at all. He was of the opinion that had the firemen arrived earlier they would have saved most of the contents of the house. Mr. Turnbull also stated that a new alarm box was placed on Peel street on Monday morning.

PROTECTION WAS INADEQUATE.

Mr. Howard stated that as near as he could guess, he arrived at the house at ten minutes to three. At that time there was one hose reel there and a line of hose across the front lawn, but he did not know whether the water was turned on or not. It was a good half-hour before any more reels arrived, and by that time the back part of the house was all consumed. At the beginning there was absolutely no adequate fire protection there. Everything was ruined and the fire was under control and practically out before any attempt was made to save anything. Everything was destroyed before any salvage covers were put on. The witness also said that he thought that had the salvage brigade done some work when they did arrive they could have saved at least eighty per cent of the furniture.

Samuel Ward, who is in the employ of Mr. James Ross, was a witness and gave the following evidence concerning the ringing of the alarm.

"I work for Mr. Ross, and as Snell rang the alarm we were about fifty yards in on the grounds. Two or three painters were with me and a carpenter. Something convinced me that the box was not ticking and so I said to myself, 'I will pull the box again!' I did pull it again, let it go quick, and there was no response. I tried it again, no response. It struck me the minute that it was out of order. Other witnesses were examined but did not throw any more light on the subject.

Seen by the Star yesterday afternoon Mr. Greenshields spoke very strongly regarding the lack of fire protection in that portion of the city. Some of the residences there are among the finest in Montreal and contain not thousands but millions of dollars worth of furniture, art treasures and similar articles, and as was shown in the case of his fire last week they would if a fire should break out, simply go up in smoke. What is needed is a fire station on Peel street, for it is simply impossible for the teams from the present stations to get there in any kind of time, even if the alarm did go in properly.

In the course of the conversation Mr. Greenshields spoke of the box on Peel street having been changed since the fire, and intimated that he had written Alderman Yates, the chairman of the fire committee, requesting that the old box be preserved until the matter was decided as if the box was out of order the matter would be inquired into, either through an investigation or in the courts.

Design by May Manton.

5533 Pointed Yoke Blouse. **5604** Straight Sectional Walking Skirt.

ONE OF THE NEW FOULARDS.

The foulards of the season are very lovely both in color and design, while they are so thin and so soft that they can be tucked and shirred with marked success. This one shows shades of violet and white, and is trimmed with velvet ribbon and combined with a lace chemisette. The design is one of the prettiest of the simpler sort, the waist of which allows a choice of three-quarter or full length sleeves, while the skirt is made in three sections. Each of these last is straight at its lower edge, and consequently the model is peculiarly well suited to washable fabrics, as well as the pretty thin silks, wools and the like. The entire gown would be charming made from one of the pretty flowered cotton voiles, from any of the linen and cotton fabrics, and, indeed from almost anything seasonable, and can also be utilized for the real tub dresses that are made of batiste, dimity and the like. The waist can be lined or unlined as material renders desirable, and is closed invisibly at the back, while the portions of the skirt are joined one to the other beneath the wide tucks. For the medium size will be required, for the waist 3 yards of material 27, or 1¾ yards 44 inches wide, ¾ yard of all-over lace for the yoke or 1 yard of long sleeves are used; for the skirt 8 yards 27 or 5 yards 44 inches wide.

A May Manton pattern, of the waist, No. 5533, sizes 32 to 40 inches bust, or of the skirt, No. 5604, sizes 22 to 30 inches waist, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents for each. (If in haste send an additional two cent stamp for letter postage which insures more prompt delivery.)

DAILY STAR PATTERN COUPON

The price of each pattern is 10c. City readers must call at the Star Branch Office, corner Peel and St. Catherine streets, for patterns. Out-of-town readers will be served by mail, and will receive patterns promptly.

For Ladies, give Bust Measure. For Misses and Children, give Age only. For Skirts, give Waist Measure.

NEW THINGS IN SHOPS

There never has been a season, says a New York fashion journal, showing so varied an assortment of styles. The manner in which a woman chooses to array herself this season will be more or less of a key-note to her personal taste and individuality. Skirts may be long or short, according to the wearer's fancy. Stiff brocades are seen side by side with flimy gauze and chiffon fabrics. Hats may be large or small; and jackets may be a part of the suit or an entirely separate affair.

The dernier cri in Ninon de Sole, as shown at the Colonial House, is the stripe, either narrow or wide. In the latter, one length of the material showed, on a buttercup background, wide stripes of chocolate brown, and a design of yellow roses; while in another piece on a background of pale green, with sprays of pink roses, the wide stripes were a deep leaf green.

Wide white embroidery with a narrow tracery of gilt threading through the centre, and quantities of passementeries in the colored floral designs, are shown also.

Fancy striped etamines and wide striped wool delaines are a real bargain, just now.

Lisle thread undervests are showing a hand-crocheted edging.

Light, convenient suit cases, regulation size, in the new corded matting, bound with leather, are to be had here for $3.50 and $4.

A number of small, portable "Blick" typewriters (Nos. 5 and 7), an important item with travellers and reporters, may also be seen at Messrs. Morgan's.

A belt which adds a jaunty touch to the summer shirt-waist costume is of the Parisian belting which comes in stripes of silver and grey satin, or red and gold, just now selling at 75 cents per yard, at Messrs. Murphy's, and buckles from last year's belts, may be used over again.

Quaint beaded bags with silver and gilt tops, small beaded change purses, Dresden bags, and serviceable envelope bags in seal and alligator are selling here, the latter at $1.00 and $1.25.

"Glovine," a liquid concoction, which bids fair to hold as honored a post in the wardrobe as Pond's Extract occupies in the family medicine chest—being useful as a cleaner of anything from gloves, silks, laces, etc., down to white shoes, is on sale here at 25c cents per bottle.

Complete sets of lingeries in fine embroidered lawn are to be had at $12.25; embroidered underskirts with double frill for $1.25; and plain fine cambric gowns finished with narrow beading, just ready for the lace edging may be had at $1.25.

Dainty little Empire dresses for the wee tots in spotted dimity with elbow sleeves and Dutch neck finished with plain white bands, piped in colors, are to be had at Messrs. Ogilvy's for $1.50.

One very effective little coat of cream corded silk, lined with China silk, is richly trimmed with bebe Irish lace.

A lovely christening robe of cream cashmere has the double cape effect with silk tucks—a decided innovation—set on the capes, the latter finished with ruffles.

Gingham rompers are 50 cents, while tiny pique bootees are marked at 25 cents.

Laval Arts Commencement.

This evening at 8.15 p. m. will take place the commencement exercises of the Art Faculty of Laval University, in the promotion hall of the University. His Grace Archbishop Bruchesi will preside.

The secretary of the University, Abbe Curotte, will read his report on the work accomplished during the year, while the laureate of the last literary competition will read his work. Monsieur Arnould, who has occupied the chair of French literature for the past two years will address his farewell lecture to his pupils and the officers of the University. The distribution of medals, diploma and prizes will also take place.

Death of Mrs. F. T. Savoie.

Mr. F. T. Savoie, M.P., for Megantic, is the recipient or expressions of sympathy from his many friends on the death of his wife, which took place yesterday at their home in Plessisville, Que. Mrs. Savoie, whose maiden name was Miss Sarah Vignault, was fifty-seven years of age and wielded great influence for good in the community in which she lived. The funeral will take place on Thursday, May 2nd, at 9.30 a.m. at Plessisville.

Rumor of Grand Trunk Steamers.

A cablegram from London announces that it is rumored there that while Mr. C. M. Hays, of the Grand Trunk, was in London, he opened up negotiations with the White Star line for three of their steamers to ply between Liverpool and Montreal.

Mr. Hays is in New York and none of the other officials know anything about the matter, they say.

The Ideal Laxative for Children

Mothers cannot be too careful in what they give children to move the bowels. Calomel, cascara, senna, salts, cathartic pills, castor oil, and purging mineral waters irritate the bowels—upset the stomach—and eventually lead up to chronic non-action of the bowels—Constipation.

Fruit-a-tives (or FRUIT LIVER TABLETS)

are the finest medicine in the world for children.

It is just like giving the little ones apples, oranges, figs and prunes — because "Fruit-a-tives" ARE the juices of these fruits—but so combined that the medicinal action is increased many times.

Fruit-a-tives are perfectly safe for the children. Keep a box always in the house.

50c. a-box—6 for $2.50. Sent on receipt of price, if your druggist does not handle them. Fruit-a-tives Limited, Ottawa.

: Cool Sanitary : Floor Covering.

Have you selected the floor covering for your country house yet?

If not, we'd like to show you some of our Japanese mattings.

They make ideal floor coverings,—

They're non-conductors of heat and cold and are always sanitary.

These Japanese mattings are made of the best selected long straws—no cuttings are used.

Most other mattings break easily, because they're made with split straws.

These Japanese mattings can be had in floral, check, oriental, mosaic, motif, and striped effects.

Reds, blues, greens, and browns, are the predominating colors.

Prices from 20c to 45c a yard, less 10 per cent.

There's nothing equal to these mattings for use in bedrooms, and nurseries, especially during hot summer nights.

RENAUD, KING & PATTERSON, Limited,

Cor. Guy & St. Catherine Sts.

NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewerage be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflicted undergo.

Doan's Kidney Pills

are a specific for all kidney troubles. They begin by healing the delicate membranes of the kidneys and thus make their action regular and natural.

They help the kidneys to flush off the acrid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old.

Let Doan's Kidney Pills do for you what they have done for thousands of others, that is, cure you. Mrs. John Young, Harwood, Ont., writes: "I was troubled with my kidneys for some time and my back was so lame I could scarcely get around. After using two boxes of Doan's Kidney Pills, I am completely cured. I feel there is nothing like them for the cure of all kidney troubles."

Doan's Kidney Pills are 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

THE MYSTERY by Stewart Edward White and Samuel Hopkins Adams

(Copyright, 1906.)

PART II.

CHAPTER I.—(Continued.)

The captain mounted the gangplank with a steadiness that disproved by first suspicion of his having been on a drunk. He glanced aloft, cast a speculative eye on the stevedores trooping across the waist of the ship, and ascended to the quarter-deck where the mate stood leaning over the rail and uttering directed curses from between sweat-beaded lips. There the big man roamed aimlessly on what seemed to be a tour of casual inspection. Once he stopped to breathe on the brass binnacle and to rub it bright with the dirtiest red bandana handkerchief I ever want to see.

His actions amused me. The discrepancy between his personal habits and his particularity in the matter of his surroundings was exceedingly interesting. I have often noticed that such discrepancies seem to indicate exceptional characters. As I watched him, his whole frame stiffened. The long gorilla arms contracted, the hairy head sunk forward in the tenseness of a serpent ready to strike. He uttered a shrill falsetto shriek that brought to a standstill every stevedore on the job, and sprang forward to seize his mate by the shoulder.

Evidently the grasp hurt. I can believe it might, from those huge hands. The man wrecked himself about with an oath of inquiry and pain. I could hear one side of what followed. The captain's high-pitched tones carried clearly; but the grumble and growl of the mate were indistinguishable at that distance.

"How far is it to the side of the ship, you hound of hell?" shrieked the captain.

Mumble—surprised—for an answer.

"Well, I'll tell you, you swab! It's just two fathom from where you stand. Just two fathom! How long would it take you to walk there? How Long? Just about six seconds! There and back! You——" I won't bother with all the epithets, although by now I know Captain Selover's vocabulary fairly well. "And you couldn't take six seconds off to spit over the side! Couldn't walk two fathom! Had to spit on my quarter-deck, did you!"

Rumble from the mate.

"No, by God, you won't call up any of the crew. You'll get a swab and do it yourself. You'll get a hand swab and get down on your knees, damn you! I'll teach you to be lazy!"

The mate said something again.

"It don't matter if we ain't under way. That has nothing to do with it. The quarter-deck is clean, if the waist ain't, and nobody but a damn misbegotten son-of-a-sea-lawyer would spit on deck anyhow!" From this Captain Selover went on into a good old-fashioned deep-sea "cussing out," to the great joy of the stevedores.

The mate stood it pretty well, but there comes a time when further talk is useless even in regard to a most heinous offence. And, of course, as you know, the mate could hardly consider himself very seriously at fault. Why, the ship was not yet at sea, and in all the clutter of charging. He began to answer back. In a moment it was a quarrel. Abruptly it was a fight. The mate marked Selover beneath the left eye. The captain with beautiful simplicity crushed his antagonist in his gorilla-like squeeze, carried him to the side of the vessel, and dropped him limp and beaten to the pier. And the mate was a good stout specimen of a sea-farer, too.

Then the captain rushed below, emerging after an instant with a chest which he flung after his subordinate. It was followed a moment later by a stream of small stuff,—mingled with language—projected through an open port-hole. This in turn ceased. The captain reappeared with a pail and brush, scrubbed feverishly at the offending spot, mopped it dry with that same old red bandana handkerchief, glared about him,—and abruptly became as serene and placid as a noon calm. He took up the direction of the stevedores. It was all most astounding.

Nobody paid any attention to the mate. He looked toward the ship once or twice, thought better of it, and began to pick up his effects, muttering savagely. In a moment or so he threw his chest aboard an outgoing truck and departed.

It was now nearly noon and I was just in the way of going for something to eat, when I caught sight of another dray laden with boxes and crated affairs which I recognized as scientific apparatus. It was followed in quick succession by three others. Ignorant as I was of the requirements of a scientist, my common sense told me this could be no exploring outfit. I revised my first intention of going to the club, and bought a sandwich or two at the corner coffee house. I don't know why, but even then the affair seemed big with mystery, with the portent of tragedy. Perhaps the smell of tar was in my nostrils and the sea called. It has always possessed for me an extraordinary allurement——

A little after two o'clock a cab drove to the after gangplank and stopped. From it alighted a young man of whom I shall later have occasion to tell you more, followed by Dr. Schermerhorn. The young man carried only a light leather "serviette," such as students use abroad; while the doctor fairly staggered under the weight of a square, brass-bound chest without handles. The singularity of this unequal division of labor struck me at once.

It struck also one of the dock men, who ran forward, eager for a tip.

"Kin I carry th' box for you, boss?" he asked, at the same time reaching for it.

The doctor's thin figure seemed fairly to shrink at the idea.

"No, no!" he cried. "It is not for you to carry!"

He hastened up the gangplank, clutching the chest close. At the top Captain Selover met him.

"Hello, doctor," he squeaked. "Here in good time. We're busy, you see. Let me carry your chest for you."

"No, no!" Dr. Schermerhorn fairly glared.

"It's almighty heavy," insisted the captain. "Let me give you a hand."

"You must not touch!" emphatically ordered the scientist. "Where iss the cabin?"

He disappeared down the companionway clasping his precious load. The young man remained on deck to superintend the stowing of the scientific gods and the personal baggage.

(To be continued.)

Celebrated Their Diamond Wedding.

Special to The Montreal Star.

Ottawa, May 1.—Mr. and Mrs. Paul Favreau, for many years residents of this city, on Monday celebrated their diamond wedding. Solemn high mass was celebrated at the Basilica by Rev. Canon Campeau. Mgr. Routhier spoke a few words of congratulation to the aged couple. Mr. Favreau, who is 89 years of age, was for over fifty years a member of the Ottawa Fire Brigade and for thirty-five years deputy chief of the brigade. He came to "Bytown" at the age of 20 from Montreal.

Fritzi Scheff Sails for Europe.

New York, May 1.—Having sufficiently recovered from her recent serious illness to be able to travel, Miss Fritzi Scheff sailed for Europe on the steamer Touraine. Upon arrival in France she will go direct to Biarritz, and then to Marienbad, where she will get complete rest.

IMPRISONED MINERS SURVIVED ORDEAL

Seven Men Rescued After Terrible Experience of Over Four Days.

Johnstown, Pa., May 1.—After being entombed since last Friday noon in the Berwind-White Coal Company mine at Feustwell, the seven miners who were shut off from the world by a sudden rush of water caused by the breaking of a wall of an abandoned mine, were reached by rescuers late last night. Never in the history of the mining region has such a joyous scene been witnessed as when the unfortunate men were reported alive. Hundreds of people who gathered about watching the work of rescue, cheered, laughed and cried. Many believed the men had perished.

The miners were reached by Stiney Rodon and Charles Ream, who swam through fifty feet of water-filled heading. They reported that the seven men were alive and well, but that until more pumping was done, the passage to the place where they had taken refuge was impassable to those who could not swim. It was then resolved to allow them to remain where they were until the heading had been pumped out.

Ream and his comrade carried to these imprisoned men a flask of brandy and a little water. They reported that Mike Bolya, a mining contractor, had since the breaking of the walls between the abandoned workings been in charge of the movements of his comrades. When the flood broke out, according to the story he told, Ream led them to the highest point in the heading, where the "overcast" was situated. Each man before fleeing seized his lunch basket. One by one the lamps were each burned out until when they were reached by Rodon and Ream there was but a single light remaining.

Bolya stated that the men feared that their reason would leave them if left in darkness; that of all the dangers they faced, the darkness was the most terrible.

When stock was taken of the available supplies of provisions they found that three baskets were but half emptied. This scanty store of rations was husbanded until Monday morning, since when the men had nothing to eat. During the whole time they were imprisoned they had gone without water, fearing to drink the water from the abandoned works.

THE SWETTENHAM INCIDENT

Mr. Winston Churchill Makes Final Statement on Subject.

London, May 1.—In giving a definite final refusal to furnish the House with further correspondence exchanged between the ex-Governor of Jamaica, Sir Alexander Swettenham, and the Colonial Office, the Under Secretary for the Colonies, Mr. Churchill, stated in the House of Commons that the only point upon which fault was officially found with Sir Alexander was in regard to the propriety of his letter to Rear-Admiral Davis. The propriety of the Governor's action in dispensing with the services of the American naval contingent was never called into question and therefore to set forth the Governor's reasons for so doing, would not serve any useful purpose, but rather the reverse.

Mr. Churchill was asked to publish Rear-Admiral Davis' letter to Rear Admiral Evans in regard to the Swettenham incident, which the questioners intimated entirely exonerated Swettenham from the charge of having quarrelled with Davis, but the Under Secretary pointed out that it obviously was not within the province of the British Government to publish letters exchanged between officers of the United States Navy.

Bravado Cost Him His Life.

Ogdensburgh, N.Y., May 1.—Joseph Goodon was instantly killed by an electric shock while he was attempting to light a cigar from an arc lamp in the street. With several companions he was returning from a dance, when, in a spirit of bravado he lowered one of the big electric street lamps and placed his cigar against one of the carbons. He received a shock of 2,000 volts.

GERMANY'S STAND AT PEACE CONFERENCE

Chancellor Von Buelow Defines Attitude on Question of Disarmament.

Berlin, May 1.—Chancellor von Buelow, replying in the Reichstag, yesterday, to several questions, defined Germany's attitude toward the Hague Peace Conference. He said Germany would hold aloof from the discussion on disarmament, and continued: "Germany's abstention from the discussion of the question does not mean that she cherishes a secret desire for war, or that she is actuated by military ambition or other selfish motives.

"Other powers feel the same way as Germany regarding the limitation proposition, and many friends of peace in France, Great Britain, Italy and the United States think it would not serve the cause of peace to give way to illusions and lost sight of realities. Germany hitherto has secured peace by keeping in readiness for war. This policy has been proved to be a wise one. We never once misused our military strength and never will. Many persons have advised us to take part in the discussion of the limitation of armaments in order to show Germany's good will, since nothing can come of the matter in any way. But Germany's peacable policy has been a sufficient answer to all the aspersions which may have been made. Germany does not wish to prevent other powers from discussion of the limitation of armaments. If some practical result is reached by such a discussion, Germany will conscientiously examine whether it harmonies with the protection of her peace, with her national interests and with her special situation."

During the general debate on Germany's foreign relations, Andrew Carnegie's recent reference to the decision between war and peace being in the hands of Emperor William was criticized and classed as a distortion of facts.

DATE OF CONFERENCE ANNOUNCED.

St. Petersburg, May 1.—The Ministry of Foreign Affairs announces that The Hague conference will meet definitely on June 15. It is understood that besides the known heads of missions the following will probably represent their respective courts: Russia, M. Nelidoff, Prof. Maartens, M. T. Charikoff, Minister to The Hague. France — Leon Bourgeois, ex-Ambassador Decret, and Baron D'Estournelles de Constant. Austria—K. Mercy de Kapos-mere, a chief of section in the Foreign Office. Italy—Count Tornelili Brusati di Vergano, ambassador to France.

NEW USE FOR SODA SIPHON

Accidental Explosion Restored Power of Speech.

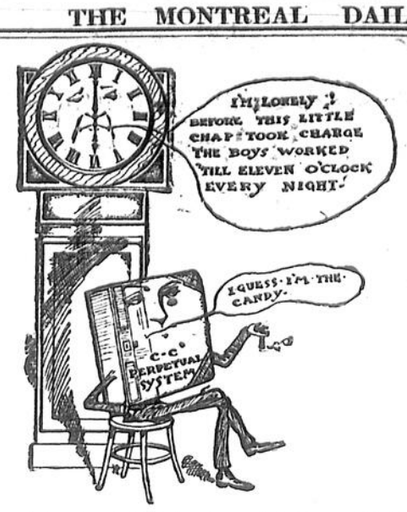
London, May 1.—The accidental bursting of a soda water siphon has restored the power of speech to a dumb man. He is a young musician, who, through overstrain and sickness, became dumb seven years ago. Nothing restored his speech, and he was compelled to seek refuge in the Croydon workhouse. There he opened a cupboard, from which a soda water siphon fell, exploding on the floor with a loud noise. The shock of surprise released the man's vocal chords. The doctors believe that with rest and care he will be permanently cured.

Prescott and Ogdensburg Ferry.

Brockville, Ont., May 1.—An effort is being made to enforce the new Lord's Day Act with reference to stopping the Sunday ferry between Prescott and Ogdensburg, which has been in operation for years. The ferry company takes an opposite view of the situation and will contest the matter in the courts. The company maintains that at any rate the ferry will be permitted to connect with Sunday trains.

Gave Her Life for Her Dog.

London, May 1.—Miss Brassey, a relative of Lord Brassey, lost her life trying to save her favorite dog near Chester. She saw the dog in the road in danger of being run over by an approaching automobile, and rushed to rescue the animal. The driver put on the brakes, but she was run down and died shortly afterwards. The dog was not hurt.

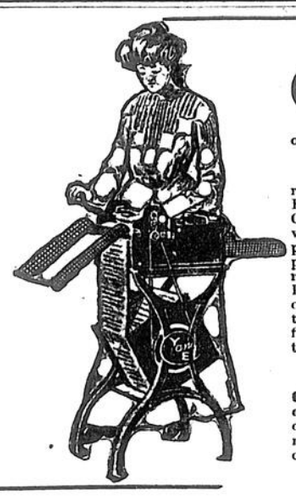


Every Merchant, Wholesale or Retail, must be interested in the Copeland-Chatterson Perpetual Systems for Business.

Broadly speaking, they reduce the labor of accounting—cut the time occupied in the work fairly in half, and by systematizing the handling of accounts thereby facilitate the steady movement of the details of the business.

The Copeland-Chatterson Co'y. of Toronto has systems for the handling of accounting in every business.

The Company will send you particulars promptly.



ONE feature in Office Routine that is sadly neglected in most Business Offices is the copying of the outgoing mail.

Many business houses still retain the antiquated Letter Press, some are using the Carbon Copy method. The wise ones are using our Rapid Roller Letter Copier. It produces clean, clear and readable copies of Letters, Invoices, Statements, and so on, in one-twentieth of the time, one-half the labor, and fifty per cent. less expense, than any other method.

If you have not seen this Copier in operation, call at our Store, or if you cannot call, 'phone or write us to mail Catalog and free sample of work.

MAKERS OF Card and Filing SYSTEMS

SANG "LA BOHEME:" AUDIENCE ENTHUSED

Alice Nielson and Constantino Shared Honors In Operatic Performance of Francais.

THEATRE FRANCAIS — The San Carlo Opera Company in Giacomo Puccini's "La Boheme."

To-day appears to be the period of the more modern Italian operatic school, and it would seem that Montreal music lovers are in the thrall of the cult. "La Boheme" is thoroughly representative of newer thought and novel methods of the group now to the fore. How durable are its qualities, how long will it remain a work for serious consideration, are not immediate questions of the moment; it is a matter of record that Puccini is very popular, not only in America, but also in England, to such an extent indeed that during the last London season the Italian shared honors with Wagner, having received as many presentations of his works as those of the great German master. All this evidently had some appreciable effect upon the thoughts of Montrealers and the result was a generous last night influx to the big east end house to hear Miss Alice Neilsen and the San Carlo Company sing Puccini's masterpiece.

Judging from the size of the audience and its enthusiasm, Montreal has at last started on a fair way to reform, and to break away from the discouraging and depressing coldness which not long ago were the dominant features of Montrealers when sufficient of them were gathered in a group to be dubbed an audience. In this inhstance it was rather surprising. The San Carlo Company has a reputation elsewhere, but not here; rather it did not have one previously ,now it has a hall mark that will stamp it for ever in the memories of those who heard its performance. However, just to be surprising, the good people turned out generously and the immense lower floor and big balcony of the Francais were crowded with a brilliant audience such as is seldom seen in the local home of melodrama, and such an audience as had not been within these walls since Sarah, the Divine Sarah, played upon its stage. The audience was not only large in numbers, but it was cheerful and enthusiastic as well, indeed, its enthusiasm bubbled with a too insistent appreciation on occasions and threatened to interrupt the immediate continuance of the tragic story of Mimi. There were times when the pent up feelings of a considerable section of the people had to be discharged before a singer had concluded and there were several occasions on which the final notes were swallowed up in a furious outbreak of spirited applause.

The audience was pleased at every bit of performance. They exhibited all the symptoms of pleasure, clapping, cheering and stamping and demanding the reappearance of the artists, even but to bow acknowledgments. Every act was ended in a storm and the curtain was raised half-a-dozen times so that the wishes of the auditors could be acceded. It was a rare demonstration of good feeling and this will, doubtless, deepen into positive affection.

The audience had every reason to be pleased. The San Carlo Company proved that it was equal to the task. There was nothing wanting for an enjoyable performance. Principals excellent, chorus good, and musicians capital. What more can any one expect. This troupe succeeded in gaining an eminently satisfactory exhibition of talent. It is quite true that Montreal has not been blessed of late by grand opera, but it was quite evident that appreciation has not diminished since the days when we were wont to occasionally hear the song birds of the costly Metropolitan company, or the less pretentious, but truly excellent, warblers sent here by Col. Savage to sing in the common tongue.

The Italian features of this organization are prominent. There is life and spirit in every phrase and these singers lived up to all the traditions surrounding the continental methods. No set of principals could have put more meaning into their work than did those last night entrusted with the roles, unless it were that genius had marked individuals and grouped them together. That would have been magnificent indeed, but awaiting the gathering of composite genius the present offering proved most interesting indeed.

One good purpose was to introduce a tenor new to Montreal, Constantino. This man's performance rose far above the ordinary, and awaiting the coming of Caruso and Bonci, Constantino will be a live name. He is a singer of the healthy, robust school, lively and full of color. He is somewhat wooden in movement, but the excellence of his voice fully compensates for the lack of the lesser qualities of dramatic action. Constantino proved to be a great hit with the audience, and he in turn reciprocated by throwing himself cheerfully into his role and singing like a human feeling the emotions of the Bohemian Rodolfo. It was a splendid performance, every bit of it.

Naturally much interest attended the appearance of Miss Neilsen as a grand opera star. Miss Neilsen's last stage appearance in Montreal was some years ago when she played in Her Majesty's —not yet His Majesty's—being the chief principal at the premiere of Victor Herbert's "The Singing Girl." At that time, Miss Neilsen was, undoubtedly, at the head of her profession in America, and as a chanteuse legere held sway. Since that time Miss Neilsen gave up her assured career to embark in the more serious operatic life. It has not been at all easy for her and her reappearance in America after completing her European studies, was a bit stormy. Miss Neilsen does not possess an extraordinary voice, but she has a pleasing voice coupled with charming methods and is a delightful lyric soprano. It must have been a bold stroke for Miss Neilsen to throw over the old comic opera life, but she did well and deserves commendation for her courage. Miss Neilsen is admirably suited to interpret the role of Mimi and she did it to the very life.

Fornari and deSegurola sang Marcello and Colline to good effect, and Pulcini made a pleasing Schaunnard, these three aiding Constantino in making a fine set of devil-may-care Bohemians.

Mlle. Fely Dereyne sang Musetta and made success of her scenes. She proved capital in the jolly gathering in front of the Cafe Momus. This scene, which goes to make all of Actli, was excellent throughout. The chorus showed that it is a well-trained and capable body, and the ensemble singing was good throughout.

The orchestra gave a meritorius performance under the direction of Arnoldi Conti and did its part in completing the good work.

As usual, there were a host of latecomers, who disturbed those so unfortunate as to have arrived early. Added to this the ushers seemed to have keen delight in placing spectators in wrong seats. The result was that during half of the first act there was continual movement and changing, all of which proved exceedingly uncomfortable for those who had gone unfashionably early.

Molson's Ale is a Refreshing Drink

Where beer is the popular drink of a country, intoxication is almost unknown.

Few clergymen or temperance advocates condemn the use of good beer---MOLSON'S Beer.

They realize that good beer is wholesome, refreshing and nourishing.

No other drink will quench your thirst more satisfactorily than a glass of clear, cool and foaming ale---MOLSON'S India Pale Ale.

As an appetizer ale has no equal.

Try MOLSON'S the next time you order beer from your grocer. Ask him for

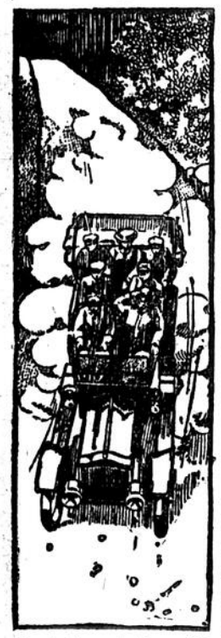
SENSE ABOUT AUTOMOBILES

Many A Good Maker Issues Many A Poor Catalog



ONLY the repair-shop people really know the woes of the man who buys an automobile on the strength of a beauteous catalog and a "road demonstration" by a clever salesman. And there are more men like that than you would suppose,—catalogs seem to count for so much with some. Yet the makers of the staunchest, smoothest-running, honestly-good automobile that ever honked a horn issue a catalog which is a mere horror! Buying a car by catalog is a shaky investment. Buying by a friend's say-so is quite as shaky,—no two men ever wanted just the same things from an automobile. Our business was started and has thrived on the belief that the automobile buyer can be served best by experts who analyse the world's auto-output with an eye single to actual, demonstrable superiority of merit. Thus, when we have placed a car on our list, and backed its quality with our corporate guarantee (apart from its makers'), the buyer may choose from that list in the certainty that it contains no car but has proved its right to class with the rare few in construction, in economy, in downright value. If this policy of safe-guarded choice-with-certainty appeals to your common sense, we shall be glad to correspond with you before you complete any automobile purchase. 25

Our handsome booklet, mailed upon request, describes our methods and these cars:

COREY SHOULD BE HAPPY

Special to The Montreal Star.

New York, May 1. — Mr. W. E. Corey was re-elected president of the United States Steel Corporation yesterday, and Mabelle Gillman, his fiancee, is now on board ship for New York, and is expected to arrive to-day or to-morrow.

At a meeting of the directors of the Steel Trust they took occasion to congratulate Corey on his divorce and his coming marriage.

LOW RATES.

via New York entral Lines to Norfolk, Va., acct. Jamestown Exposition. Consult City Ticket Office, 130 St. James st.

Special Notice.

How to get a Gramophone or $10 for a 2c stamp. If you know of any person in Montreal or elsewhere in Canada, who intends purchasing a new piano, send their name and address to The Leach Piano Co., Ltd., 560 St. Catherine street, west, Montreal, who will write or have their representative call upon your customer. Immediately the sale is concluded you shall receive a new Gramophone or Ten Dollars. State if you wish your name to be known in the matter. Mention The Star. 102 5

At present German capitalists have loans in Turkish securities amounting to about $5,000,000, invested chiefly in fisheries, railways and armaments, drawing interest at the rate of 4 and 5 per cent. The railways in which Germany is interested are the Anatolian and Bagdad.

Jewellery carefully repaired. R. Hemsley, Jeweller, 255 St. James St.

Special Notice.

ARTHUR ROSENSTEIN AND THE KNABE PIANOFORTE.

Arthur Rosenstein, accompanist to Mde. Sevelliac Donalda, expressed himself as delighted with the Knabe grand pianoforte supplied for the Hospital concert on Monday night last. Great artists always use, or at least always choose the Knabe pianoforte. Willis & Co., Limited, 600 St. Catherine St., West, are Canadian agents for the Knabe pianoforte.

TENDERS.

Sealed tenders, addressed to the undersigned, and marked on the outside "Tender for Railway Construction," will be received at the office of T. Malcolm, contractor for the International Railway at Campbellton, N.B., up to noon of May 15th, 1907, for the clearing, grading, masonry and all work necessary to complete up to sub-grade, fifty miles of the International Railway, from St. Leonards to a point north-east on said line.

Plans and specifications may be seen at the office of the Chief Engineer, St. Leonards, N.B., and also at the office of T. Malcolm, Campbellton, N.B., where forms of tender may be obtained. The lowest or any tender not necessarily accepted.

T. MALCOLM, Contractor.

Dahome, of the Furness Line, arrived at Halifax from Liverpool yesterday.

GOLD AT OPASATIKA AND LARDER LAKE

General Activity in Mining Properties at Cobalt and Elsewhere in Mineral Region.

Reports have been received by the Great Northern Exploration Company that gold has been found on their property, adjoining Lake Opasatika, by the parties sent up there last winter to prospect.

Samples of the finds have been shipped to Montreal to be assayed, but have not yet arrived.

The parties report that on the Oller and Renaud property adjoining, considerable work has been done during the winter, and that rich strikes have been made in copper and gold, especially in copper.

On one of the properties of the Great Northern Gold Fields Company, cobalt has been found about two feet beneath the surface, but sufficient development work has not been done to prove its value.

The weekly report of the Cobalt Lake Mining Company states that on No. 2 vein 15 sacks of smaltite, averaging 80 per cent. of pure silver, have been taken out, and No. 4 shaft has been sunk to the 44 foot level an advance of six feet in the past week. No. 1 shaft is now down 46 feet, against 41 feet last week. This vein continues to increase in richness, and the samples taken out prove the best which have yet been obtained on the property. Two small shipments will be made for assay purposes, one to Dreany & Company, and the other to Schoff, Regelman, New York.

Mr. Gordon Magee, mining engineer, has returned to Toronto from Larder Lake with most favorable reports in regard to the prospects for gold mining around the lake. Mr. Magee has completely changed his opinion of the fields since his previous visit to the city some weeks ago, when he was sceptical in regard to their possibilities. Another authority gives an entirely different opinion as to the mineral-producing potentialities of the camp. He says he inspected various portions and found no free gold in places, as had been reported. Mr. L. W. Spear, of P. V. Fraser & Company, Toronto, has received a beautiful sample from the south side of Larder Lake. This sample is perhaps the most valuable seen by mining men in Toronto. It is a piece of quartz about a cubic inch in size, but with several large splashes of gold. There are also fine points of gold sprinkled all through it. The sample was found on the surface.

A despatch from Cobalt states that work has begun on the new vein of the Trethewey. This vein is near the centre of the property, and some distance from the main workings. It is spanned to connect the two shafts after sufficient depth has been attained.

There is quite a lot of activity in the area lying south of the Temiskaming and Beaver mines at present. New buildings are going up in all directions where before there were nothing but staked claims or a few insignificant shacks. The Progress Company already have an office, a cook house, and a complete small plant. Their shaft is now down over 70 feet, and drifting has commenced. The Duchess Mining Company, in which New York capital is interested, is near the Progress, and buildings are also going up on it. The Schutts' property in the same neighborhood is reported to have a good smaltite vein.

The Empress Cobalt Silver Mining Co. is commencing active prospecting work on the surface. Only a few acres of the claim have been explored so far. On account of thawing of the snow surface water has entered the shaft, and work as a result has been stopped for a week or two.

Mr. Justice Garrow, of Toronto, is hearing an appeal in the case of the Attorney-General against E. Hargrave, of the Rutherford, Charles Cumming, and the White Silver Mining Company, Limited. Chancellor Boyd gave judgment in May, setting aside certain leases to the defendants of lots 2 and 3, in the fourth concession, and part of lot 3 of the fifth concession of the Township of Coleman. The Chancellor held that the affidavit of discovery on which the leases were granted was not a true disclosure of the real facts of the discovery, and that the issue of leases pending enquiries made and explanations sought was improvident. Mr. E. F. B. Johnston is counsel for the appellants.

A Cobalt special says prospecting is being done all through this north country, and claims are staked out within 4 miles of Englehart, and a farmer in the Township of Marter is said to have sold a Cobalt claim there for $13,000. A movement is on foot to secure a recording office at Englehart, as it is considered a hardship to take men down to Haileybury from the Far North.

Following are the latest quotations for British Columbia mining stocks, furnished by Robert Meredith & Co., 57 St. Francois Xavier street, Montreal:

Estimates are being made that the Cobalt output this season will reach $10,000,000 to $15,000,000.

Several Cobalt mines now have as much as $200,000 of low grade ore lying on the dumps. Advisability of building concentrators there to handle this is being discussed.

Asks $3,000 for Broken Legs.

Arthur Chauvin, one of the workmen employed by the Montreal Light, Heat and Power Company, at the excavations for the extension of their works at Chambly, has through his attorneys, Messrs. Geoffrion, Geoffrion & Cusson, entered suit against the company for $3,000. This sum he claims as compensation for the breaking of his legs in a landslide last autumn in which several men were injured in the excavations.

Plan for the Acquisition of Shares of the Common Capital Stock and First Mortgage Five per cent. Bonds of the

Havana Central RR. Company

Pursuant to authority conferred by the Board of Directors of the United Railways of Havana and Regla Warehouses, Limited, a corporation organized and existing under the Companies' Acts of England (hereinafter termed the "United Company"), the undersigned present to holders of Shares of the Common Capital Stock and of Five Per Cent. First Mortgage Bonds of the Havana Central Railroad Company, a corporation organized and existing under the laws of the State of New Jersey (hereinafter termed the "Central Company"), an opportunity to accept a proposal made by the United Company for the exchange of such Stock and Bonds.

The Proposal is conditional upon its approval by the shareholders of the United Company, as provided therein.

The Proposal provides that when and as soon as within the period fixed for the deposit of securities thereunder, or any extension thereof, there shall be deposited with the Depositary or Sub-Depositaries 10,000 shares of such common stock and $3,850,000 face value of said bonds, then the Proposal shall become immediately operative.

The United Company is to give in exchange for each $100 of the Common Stock of the Central Company exchanged under the Proposal £7 4s 4d (being $35 at 4.85) in Deferred Ordinary Stock of the United Company, and for each $1,000 First Mortgage Five Per Cent. Bond of the Central Company £206 3s 9d (being $1,000 at 4.85) in Four Per Cent. Debentures of the United Company, and also £4 2s 6d in cash, being the equivalent of interest at the rate of Four Per Cent. per annum for six months ending 30th April, 1907, thereon; and, inasmuch as the dates for the payment of interest on the Debentures will be 1st January and 1st July in each year, the further sum of £1 7s 6d in cash will also be paid as the equivalent of interest from 1st May to 30th June, 1907.

Participation under this Plan in any respect is dependent upon the deposit of securities with the Depositary or a Sub-Depositary herein designated, at the office of such Depositary or Sub-Depositary within such time as may be fixed by the undersigned. No securities will be received on deposit unless in negotiable form. First Mortgage Bonds must carry the coupon maturing May 1st, 1907, and all subsequent coupons. All certificates of Stock must be accompanied by proper transfers and assignments, executed in blank, and duly stamped.

This Plan is not intended as a precise outline or statement of the Proposal to which the depositors are referred, and by the provisions of which they will be held to be bound.

Deposits of securities will be received on and after the 29th of April, 1907, and until three o'clock p.m. on the 31st day of May, 1907, at the office of the

DEPOSITARY—MESSRS. J. HENRY SCHRODER & CO., No. 145 Leadenhall street, London, England.

SUB-DEPOSITARIES—MESSRS. SPEYER & CO., 24 and 26 Pine Street, New York.

THE ROYAL BANK OF CANADA, Montreal, Canada, and HAVANA, CUBA.

(Signed), J. HENRY SCHRODER & CO.

Referring to the above notice, the undersigned, on behalf of Messrs. J. Henry Schroder & Co., are now prepared to receive on deposit the securities therein called for and to furnish copies of the Plan, containing full details, to security holders.

THE ROYAL BANK OF CANADA, Montreal.

N. B.—All Branches of the Royal Bank of Canada will receive and forward the securities to The Royal Bank of Canada, Montreal.

Mr. Hogg's Cattle Kicked.

Moise Martin went with William Hogg to look over some cattle which Mr. Hogg had for sale at the Point St. Charles yards some months ago. While he was examining the cattle one of the animals resented Martin's intrusion and kicked out hard with the result that after having been restored to ordinary health, Mr. Martin brought suit for $999 damages against Mr. Hogg. The judge who heard the suit in the first court dismissed the action, and yesterday the Court of Review confirmed the decision, Mr. Justice Mathieu dissenting.

Change in Canadian Northern.

In connection with the reported retirement of Manager James from the Canada Northern Railway there is a rumor that Mr. James will be succeeded on June 12, by General Superintendent Brown, who in turn will be succeeded by Superintendent Cameron of the Lake Superior Division, and he by Mr. Benjamin J. Campbell, at present terminal superintendent.

Doctors Accused of Neglect.

Action has been taken by the Health Department in the Recorder's Court against two well known local doctors. They are accused with neglecting to report to the Health Department within twenty-four hours, cases of typhoid fever.

City Hall Was Dim.

The transformers on the poles in the rear of the City Hall burned out early last night, and the electric lamps in the building could not be used. Police headquarters and the operating room of the fire alarm department in the towers were dimly lighted by gas during the night.

"Children Teething"

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents.
272 312

LARDER LAKE

THE GOLDEN NORTH AND THE GOLDEN OPPORTUNITY.

The cry is now, "On to Larder Lake!"

A great stampede has set in!

Thousands are on the way! They are now beating the northern trails!

What will undoubtedly prove to be the greatest stampede that has ever been known into a new gold country is now on!

The Larder Lake district is believed to be the richest gold country ever known, and it is just now being opened up. Soon will commence the most tremendous outpouring of gold known to civilization since the days that King Solomon's mines paved the floors and walled his temple with that precious metal!

People of Toronto, People of Ontario, People of Canada—do you realize the great mineral wealth and riches that are now being opened up in Northern Ontario right before our very eyes? Do you understand that you have the richest and most wonderful gold and silver camps, rapidly developing, and that the values are increasing tremendously from day to day?

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smile—they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago! Then it was a "vision," it was a "dream," "a flash of the pan," a "bubble," somebody was "crazy"; but now it is different. Those crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

Larder Lake is the opportunity of a lifetime!

Are you going to let this golden opportunity pass?

Are you going to get in now, in time, at Larder Lake? You can now get in at ground-floor prices on inside properties, make big profits and lots of money. Or will you wait three or four months or a year, and then fall all over yourself in an irresistible desire to get in anywhere or at any price?

Don't wait! Be wise! Act NOW! NOW IS THE TIME! Here is an opportunity that excels that which you had two or three years ago at Cobalt. Perhaps you will say, as you did then: "How do we know they have got any silver up there?" Perhaps you say now: "How do you know there is any gold at Larder Lake?"

We say to you: Do not be so skeptical that you lose faith and confidence in all mankind.

Do you imagine for a moment that men will endure the blast, the snows and frosts of the Northern winters for fun or pleasure?

Do you think there is any fun in living, cooking and sleeping day after day, night after night, weeks and months, upon the ice and snows of the frozen North?

Do you think there is any great pleasure in a man trudging along unbroken trails with a pack of 30 to 50 pounds on on his back when the air is clear, full of frost, and so cold and still that the creaking of every step upon the snow can be heard for a mile away?

All the last winter men at Larder Lake have had to go to the railway station, some 12 to 15 miles away, to obtain the necessities of life. They would shoulder a pack weighing from 30 to 50 pounds and carry it back to their tent on their snow-covered gold claims.

We ask again, Can there be any pleasure in this? Is there pleasure or fun in frozen faces, frozen hands or frozen feet? If you think there is, you are certainly entitled to another think.

No, no! The thousands of strong men who braved the north winds last winter around Larder Lake, who lived in their little tents upon the claims they staked, and watched and guarded as they would their lives, knew full well the treasures they were guarding! This endurance was not for pleasure, but for gold, Gold, GOLD!

Many a tired sleeper in those cold tent houses had bright and happy dreams of the future—days of happiness and plenty that were sure to come to their wives and children, sweethearts, fathers and mothers, sisters and brothers—all from the gold he had found! The gold he was guarding. Gold—pure, virgin gold! Gold that had never been bartered or used as exchange—gold that had never bought man's honor or woman's virtue. UNTAINTED GOLD.

The hardships that have been endured by the prospectors of the Larder Lake district should impress the most skeptical that there must be something there worth while.

We were loath to believe at first. But we have gone further. We have had our own mining engineer making examinations. We have made personal observations and can say without fear of contradiction that the gold discoveries around Larder Lake in Northern Ontario are indeed the most wonderful imaginable. The profits from investments in that district will amount to hundreds of millions.

NOW is the accepted time to place money there. Values are already increasing at a remarkable rate. In our estimates of Larder Lake gold district we have not taken the items from the newspaper or hearsay reports as our basis; we have sent our own engineers and have gone there ourselves and made personal investigations. We are satisfied beyond question, from our engineer's reports and our own personal observation, that the reports from that country are not exaggerated. The discoveries and conditions are as reported. Millions upon millions of gold will be produced from that district, and the outpour of the precious metal will astound the world! All business and trades of Canada, especially Ontario, will be greatly benefited therefrom and thereby. Toronto will be benefited, even more so than were St. Paul, Minneapolis, Winnipeg, Seattle, and Vancouver benefited by the opening up of the great gold fields of the Klondike and Alaska. It remains to be seen, however, whether the investing public and people of Ontario and Canada grasp the situation and take advantage of this exceptional opportunity—truly a golden opportunity—to reap the millions upon millions of honest, legitimate profits that only await the employment of their capital.

The wise, alert investor will reap the quickest and greatest returns.

Northern Ontario is immensely rich in gold and silver—probably the richest in the world. It is just now being opened up. It is now in its infancy. You can now, as the saying goes, invest your money and get in on the ground floor. We hereby extend to investors an invitation to join us and participate in the profits and benefits that are sure to come to all who become interested in the Blue Bell Gold Mines, Limited. This Company owns, free of indebtedness, and with no incumbrance of any kind, 27 well-selected gold claims of this wonderful district. These claims were staked by miners—men who know a gold claim when they see it. Being identified with the Cobalt district, they were in the neighborhood of Cobalt and New Liskeard when the first strike was made. They had the pick of the district. They took their time and prospected, and selected with care the best there was in the field. Every claim has brought a fine showing of values. Assays showing values running as high as $15,000 to the ton have been taken right from the surface, or you might say the very grass roots. The titles are perfect, the samples and specimens taken from the various claims show not only high values in gold, but also high values in silver and copper.

The men identified with the Blue Bell Gold Mines, Limited, have been identified with the rise and success of Cobalt. They would not be identified with any proposition that was not legitimate, straightforward, honest and upright in every particular.

Proposition Plainly Stated.

The Underwriters' Syndicate will consist of and include all investors who join with Law and Company in subscribing for the 2,500,000 shares at Ten Cents per share.

No application to the Underwriters' Syndicate will be accepted for less than one membership (1,000 shares), which will cost $100.

As soon as the Underwriters' Syndicate is closed, which will be on or before May 15th, 1907, The Blue Bell Gold Mines, Limited, will at once place upon the market, through Law and Company, the first allotment of the Treasury shares of the Company at 50 cents per share.

Law & Company will advertise the Blue Bell shares throughout the Provinces of Canada and the United States in their customary vigorous manner by display advertising, they having already closed contracts with their advertising agents for large display advertising for this special flotation. This includes all the principal daily newspapers of Canada—72 in number—and 221 in the United States.

Shares will be issued proportionately share for share from the Underwriters' and Treasury shares at the price of Fifty Cents per share until all members of the syndicate have received the return of their investment therein.

Law & Company will receive the usual brokerage flotation commission of 25 per cent. for all shares sold by them, whether it be Underwriters' syndicate shares or Treasury shares.

All moneys due the Company from shares sold out of the Treasury will be placed to the Company's credit with their Bankers.

All moneys due the Underwriters' Syndicate from shares sold out of syndicate shares will be deposited with The Trusts and Guarantee Company, 14 King St. W., Toronto, Ont., and will be divided proportionately and in accordance with each respective interest therein.

Each member of the Underwriters' Syndicate will be upon identically the same basis.

There will be no favors shown one over another. The large investor will have no advantage over the small. The only difference will be that the larger investor will make the larger amount of profit according to the amount invested.

The Underwriters' Syndicate will be conducted upon a sound, straightforward, business principle, and every representation made herein will be fully carried out.

The Underwriters' Syndicate proposition is simply this:

Those who join us will be interested with the Organizers and Promoters in a ground-floor proposition, and will actually be the original first sellers of shares to the stock-buying public, realizing therefrom big profits.

The Blue Bell Company will install twelve stamp mills and all additional machinery without delay. The Company expects to be sending out gold and paying dividends within three or four months.

Our Engineers advise us that they believe the Company will be able to ship out gold in quantities to pay dividends sufficient to make the shares of the Company go to Ten Dollars per share.

It should be borne in mind that the Blue Bell occupies the same relative position at Larder Lake that Nipissing does at Cobalt. Its properties are in the very heart of the district, are of large acreage, and very rich in Gold and Silver.

Blue Bell will undoubtedly be the greatest shipper this summer from Larder Lake.

In conclusion, we desire to say to our friends and clients: "Join us in this ground-floor proposition; it is a good one, and we believe it will make you lots of money." Our advice is—TAKE AS MANY MEMBERSHIPS AS YOU POSSIBLY CAN.

EXAMPLE.

Showing Cost of and Estimated Results From One Membership

Cost of One Membership consisting of 1,000 shares..... $100
All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company, Limited, who will act as Trustees for the Underwriters' Syndicate, during which period 267 shares out of each membership will be permitted to be sold at 50 cents per share, which will amount to..... $133.50
Law & Company's commission of 25 per cent., amounting to $33.50, for selling the 267 shares at 50 cents per share, deducted from the $133.50 leaving to the owner of the membership the full amount of his investment or cost of his membership..... $100
Also, in addition to the return of $100, he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.
These 733 shares, which will be the result of each membership, will be worth at the advanced price $293.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount.
Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.
Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.
The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. China Clay Making in Ireland

A company has been formed in Ulster to exploit a huge find of china clay, which has been discovered at Browndodd, County Antrim. The mineral is largely used in paper-making, bleaching and other manufactures, and the only other deposits at present known in the United Kingdom are to be found largely in Cornwall and in a small portion of Devon. The company have purchased nine farms, containing two hundred acres, and have also acquired from Lord Massereene the mining rights of an additional hundred acres.

BANK OF MONTREAL

NOTICE is hereby given that a Dividend of Two-and-one-Half per Cent. upon the paid up Capital Stock of this Institution has been declared for the current quarter, and that the same will be payable at its Banking House in this City, and at its Branches, on and after Saturday, the First day of June next, to Shareholders of record of 16th May.

By order of the Board
E. S. CLOUSTON,
General Manager.

.50 Embroidered Mulls .39

WE couldn't sell these Mulls at .39 in the ordinary way, but our Toronto store is specializing them this season, and we knew you'd appreciate them, so we got some.

We say they're worth .50, but as a matter of fact they're worth far more.

Exquisitely silky and soft, drape beautifully, nothing nicer for summer dresses.

About 1000 yards to be sold on Thursday, in pink, sky, mauve, eau-de-nil, gold, grey, champagne, navy, fawn, coral, Alice blue, brown, cream and black. Special Thursday .39 a yard.

VERY STYLISH HATS AT $6.75

To those ladies who do not care to spend more than 6 or 7 dollars on a hat for ordinary use, this announcement will be of particular interest.

In style, in quality of material and in every other way, these hats are at least $10.00 values, and would be priced at that most everywhere else.

No two are the same, and enough styles and types are represented to suit all tastes. On sale Thursday at $6.75 each.

NORMAN MURRAY AND KING DAVID

Dr. Torrey's Sermon Last Night Interrupted — The Evangelist's Retort.

"How about King David?" asked Norman Murray from the rear of St. James Methodist Church last night, as Dr. Torrey was discussing the evil consequences of infidelity and the reading of infidel literature. The evangelist had just said that he had yet to find the first man who had been made better by infidelity, though he had often met men who had been made worse by it. As an instance of this he told of the evil results in one case of reading Ingersoll's lectures.

Mr. Murray then came in with his question regarding the great Hebrew king, evidently taking him as an instance of a man who had strayed somewhat from the ways of the faithful but had managed to return to his high position among the servants of the Lord.

"David was a better man than you," was Dr. Torrey's prompt and cutting reply. "But there is hope for you, even though you have been arrested for selling obscene literature on the street."

To this no answer was made, and there was a little mild applause.

Four refuges of lies—morality, universalism, infidelity and religion—were in turn attacked last night by Dr. Torrey, who declared that not one of them stood the test of conscience, of made a man better, and that neither would they prove good at the dying hour or the day of judgment.

After showing that none of these refuges were available for salvation, Dr. Torrey concluded that Christ alone could save.

"Through Christ," he said, "there is pardon for me as there was pardon for David, and there is pardon, too, for my poor friend yonder," looking in the direction from which the interruption had come.

At the close of the meeting, Norman Murray declared his intention of taking action against Dr. Torrey for defamation of character.

POPULAR OPERA WILL BE ELIMINATED

Ban on "The Mikado" Discussed in British House of Commons.

Special to The Montreal Star.

New York, May 1.—A London despatch to the American says: The curious prohibition of Sullivan's opera, "The Mikado," was lifted into the dignity of an international question.

The matter was brought before the House of Commons, where the question was asked why this particular opera had been banned from production in London. In reply, Under Secretary Runciman stated that while it was not the fact that official complaint had been received from Japan, it had been thought well, in view of the growing entente between England and the Eastern Island Empire, that the opera might better be omitted from the list of the Savoy Theatre attractions.

Mr. Runciman added that it might as well be understood that the Lord Chamberlain had withdrawn the license of the production of "The Mikado," the prohibition affecting the provinces as well as London, and that representations had been made to the Colonial officials with a view to prohibiting its production in the further parts of the British Empire.

The whole proceeding is regarded not only as one of the most extraordinary examples of England's new-found tenderness not to offend the susceptibilities of another nation, but as a still more remarkable proof of the weight which England puts on the retention of Japan's friendship.

The real mover in the ban on the opera is Prince Arthur of Connaught, who took the Order of the Garter to the Mikado, and it was while the King's nephew was in Japan that it was whispered discreetly to him the number of Japanese who had seen the opera in England had been deeply offended and had reported their impressions to the Japanese court. The Prince was told that notwithstanding Japan's modernity the Japanese still clung to the ancient idea that the Mikado, present or part, was a deity, and that to see him as a jocose gentleman touched them to the quick.

THOUGHT MOUNTAIN WAS ABOUT TO OPEN

Stromboli Eruption Was Terrific, and People Expected to Be Swallowed Up.

Messina, Sicily, May 1.— Some of the inhabitants of the Island of Stromboli, who have escaped from there and reached this city, describe the eruption of the Stromboli volcano as terrific. They thought the mountain was about to open, and that all the people would be swallowed up or thrown into the sea.

The detonations were deafening. Red, burning stones, ashes and cinders were thrown up, and about a thousand feet over the top of the volcano, which is 3,040 feet above the level of the sea, an immense dark, umbrella-shaped cloud formed.

The population of the island, numbering about 2,000 persons, had with great effort gradually cultivated the sides of the volcano almost up to the crater, chiefly by the planting of vineyards, but the eruption has entirely destroyed everything within a radius of 1,500 feet of the crater,and has seriously damaged the rest of the island.

American Relief for China.

San Francisco, May 1.—With the 22nd Infantry Band playing martial airs, the crowds on the quay cheering and waving a farewell salute, the United States Government transport Buford sailed yesterday for Chinkiang with four million pounds of American flour on board for the famine sufferers in Northeastern China.

In the event of the river being clear of ice,the Campana will come up to Montreal on Thursday to load for Pictou and way ports, and sail on Saturday afternoon.

SUBURBAN SALES MARKET FEATURE

Federal Realty and Trust Company Purchased Boulevard St. Paul Block for $125,000.

Suburban properties figured largely in yesterday's realty transactions, and land for commercial purposes was a feature in the transfers. The recently organized Federal Realty and Trust Company acquired through Mendoza, Langlois sixty-five acres in Boulevard St. Paul, the purchase price being $125,000.

The suburban property consists of a large farm of sixty-five acres, fronting on the canal bank, immediately adjoining the Boulevard St. Paul property on the west, purchased about a year ago by the Pillow-Hersey Company, and separated by only three acres from the Cote St. Paul property on the east, acquired this spring by the Mount Royal Spinning Company at a cost of $52,000. It comprises the old Jarry farm, and was purchased from Victor and Alphonse Jarry for the sum of $125,000.

It is the intention of the newly formed Federal Realty & Trust Company to place the property on the market at once, and there are already one hundred applications for building sites awaiting the completion of the subdivision, which is now being carried out. With the exception of a block immediately on the canal bank, the whole property will be turned into a residential section. The block on the canal bank measures 415x600, and will be held for sale as a manufacturing site, its position on the bank of the canal, with railway connection immediately in front, making it particularly desirable for this purpose. Almost immediately opposite, on the other side of the canal, is the plant of the Canada Car Company, to one side is the property on which the Pillow-Hersey Company are to erect new quarters, and on the other side is the site for the factories of the Mount Royal Spinning Company. The property of the Federal Realty & Trust Company is to be sub-divided into three streets, running the length of the property, and seven streets running the width. Among the subscribers to the new company are Hon. Treffle Berthiaume, Mendoza Langlois, Victor Morin, N.P., Rev. Mr. Jolicoeur, A. Marchand, J. B. Peloquin, A. B. Dupre, Charruau & Daoust, James Jordan, E. D. Schultz, A. Pildeau, A. Daoust and others. The selling agents will be Charruau & Daoust.

Another deal closed by Mr. Mendoza Langlois yesterday was for a block of residential property, Nos. 323 to 337 Dorchester street east, and from No. 1 to No. 35 Notre Dame des Lourdes. It was sold from Georges Gauvreau, formerly connected with the National Theatre and presently proprietor of the Nationoscope building, in process of construction at the corner of St. Andre and St. Catherine streets, to Mrs. Joel Leduc for the sum of $55,000. The property, which consists of solid stone and brick cottages, has an 87-foot frontage on Dorchester street and a depth of 325 feet. It has been drawing yearly rentals of $5,300

One of the heaviest months in the history of the local registry offices closed yesterday. In the Jacques Cartier and Hochelaga office 1,042 deeds were registered during the month, and in these there were no fewer than 600 sales of real estate. The closing day of the month was quiet enough, in view of the activity that had been manifested during the preceding days, but the business was eminently satisfactory. There were 14 sales in Jacques Cartier and Hochelaga, 2 in Montreal East, and 1 in Montreal West.

Forty cents a foot was paid for land on Lansdowne avenue, Westmount, in a transaction from Hon. Robert Mackay to Alonzo C. Matthews. Sub-divisions 80 to 85 of lot No. 220, having a total area of 40,741 feet, were sold for the sum of $16,296.40.

David Yuile et al. have sold to Thomas W. Wright the residence No. 82 Mackay street for the sum of $7,500. The emplacement, No. 1693 in St. Antoine ward, has a frontage of 22 feet and a depth of 108.

The tenement property Nos. 624, 626 and 628 Colonial avenue, with a dwelling at the corner of Marie Anne street, have been sold by Mrs. Joseph Vezina to Ferdinand Fontaine for the sum of $8,000. The emplacement, known under the cadastral number 258, St. Jean Baptiste ward, forms the southwest corner of Colonial avenue (formerly St. Hypolite street), and Marie Anne street, and measures 30 x 75.

Honore Vermette has sold to Francois Xavier Fouchette two emplacements fronting on St. Lawrence street in Ville St. Louis, with the buildings erected thereon, for the sum of $5,500. The emplacements have a superficial area in all of 5,500 feet.

Arthur Dumouchel has sold to Jos. Cartier lot No. 10-17, in St. Jean Baptiste ward, with the buildings erected thereon, for the sum of $5,400. The lot fronts on St. André street.

Mrs. Adolphe Duperrault has sold to Stanislas Vailleres fifteen lots (vacant), fronting on Resther street, in St. Denis ward, for the sum of $4,500. The lots are sub-divisions 335 to 345, 361, 363, 364 and 378 of lot No. 326. Each measures 20 x 67.

NEW SERVICE TO MEXICO

First Steamer Has Sailed From Esquimalt Harbor.

Victoria, B. C., May 1.—The steamer Georgia sailed from Esquimalt harbor last night on her way to Mexico, and the new enterprise known as the Canadian-Mexican Pacific Steamship Company has been inaugurated. She is loaded with a large cargo of lumber ties brought by scow from Anarcortes.

Midland Refused Any Licenses.

Toronto, May 1.—The Government yesterday refused to grant licenses in the town of Midland, pending the appeal against the judgment quashing the local option by-law. The Government may not grant any licenses this year in municipalities where the by-law was carried, but was subsequently quashed on technicalities.

WORKING GIRLS' CLASSES PROVED VERY USEFUL

A limited number enjoyed the closing exercises of the night school for working girls, established at their convent on St. Alexander street by the Reverend Sisters of the Sacred Heart. His Grace Archbishop Bruchesi presided, and distributed a number of objects of devotion in place of the usual prizes.

Notwithstanding the severe weather experienced during the past winter, a number of the pupils never missed an evening. From a hundred and fifty to a hundred and eighty girls took advantage each evening of the classes so kindly opened for them by the good Sisters.

His Grace congratulated the Sisters on the excellent idea which they had put into practice, and also expressed his appreciation of the manner in which the pupils had attended the classes. They deserved the more credit as they had to come through severe weather, after the fatigues of day's work. He regarded the gathering as a triple feast, feast of the heart, of the mind and of religion. These pupils who were for the most part grown up, could now, better than in their school girl days, appreciate the devotion of the good Sisters. They would be so many more to defend the Sisters from the attacks sometimes directed against them by wicked people in the world. His Grace expressed the hope that all who had attended this year's classes would return, and bring others with them for the next season.

Ask to Proceed in Forma Pauperis.

No less than three petitions for leave to proceed in forma pauperis were dealt with in the practice court by Mr. Justice Davidson. One was granted and the other two were put over for further consideration.

The fortunate petitioner was Dame Agathe Kaerison, widow of Charlie Canoe, of the Caughnawaga band. She is the mother of four children and seeks permission to sue the Dominion Steel Car Company for $5,000 for herself and children. On April 6th, she alleges, Charlie Canoe went to the company's works to get paid, and in the crowd which was approaching the office to be paid, was shoved against a live wire which was strung too low. The contact resulted in instant death.

Say Zzoll, an employe of the C. P. R., at the Angus Shops, seeks to sue in forma pauperis for $1,999, as compensation for a broken leg, caused when a heavy steel rail which he was carrying, fell on him.

Napoleon Aubry, a longshoreman, asks leave to proceed in a suit for $800 damages against Jeffrey G. Brock, for damages for false arrest, on July 17th last, on a charge of stealing a dozen sacks of potatoes. Mr. Brock was represented by Messrs. Campbell, Meredith, Macpherson and Hague, who asked that they be given an opportunity to question the petitioner. This was granted.

EMBROIDERIES.

It would be difficult to find a woman not interested in Embroideries, but when they are hand embroidered the interest is doubled. The Dry Goods firm of Messrs. Jas. A. Ogilvy & Sons, St. Catherine Street West, corner of Mountain Street, are showing some handsome hand embroidered robe lengths at about half the usual prices. Their announcement on Page 11 of this issue of the Star will tell you more than one thing of interest.

THE S. CARSLEY CO. LIMITED
This Store Closes at 6 p.m. WEDNESDAY, MAY 1st, 1907.

May's Amazing Values

OPENING

IN A FEW DAYS OF

Bells' NEW GALLERIES!

This is a departure which marks an era in the "house-furnishing" world, and nowhere could home decorations be shown to greater advantage.

The "New Galleries" are decorated upon classic lines which lend an atmosphere of harmony to the surroundings. The store is probably the largest of its kind in the Dominion, and arrangements have been made with the world's greatest manufacturers to supply your needs. Not only will the wealthy be taken care of, but also those of smaller means. It is a well-known fact that one endowed with artistic temperament and a little "coin of the realm" can make a small paradise.

TASTE and enthusiasm will work wonders.

TASTE in furnishing gives distinction to a home.

Bells'

are applying their long experience to bringing taste in furnishing to everybody's door.

Bells' are making a unique and unprecedented display of Lace Curtains, Chintzes, Cretonnes, Furnishing Draperies, Wall Papers, Friezes, Carpets and everything needed for spring renovation. Their

Exquisite Wall Papers

of all the famous makes are produced to suit all purchasers, and range from 20 cents per roll upwards. The refinement and beauty of the designs are absolutely a revelation to visitors, and no one should dream of selecting new furnishings without first seeing

Bells' Unparalleled Exhibition

where the customer not only gets exceptional commercial value, but also the additional benefit of artistic designs that are not to be equalled in the Dominion.

In their NEW GALLERIES they cater for all classes and sell EVERYTHING for the HOUSE, well designed and well made at low prices.

They are also opening a REAL ESTATE and HOUSE RENTING department, and will be pleased to list your houses for renting or for sale, the department being in charge of a gentleman with a very large experience in real estate work.

Cor. St. Catherine and Peel Sts.

Increase in Customs Returns.

Special to The Montreal Star.

Ottawa, May 1.—The customs returns for April show a total revenue of $4,468,394, an increase of $527,409 over April of last year. For the ten months ended April 30 the total customs revenue is $44,122,292, an increase of $6,135,268 over the corresponding ten months of the previous year.

Montreal Electric Officers.

The directors of the Montreal Electric Light Company held a meeting yesterday in their temporary offices, 301 St. James street. Mr. William C. McIntyre was elected president; Mr. F. Howard Wilson, vice-president, and Mr. T. J. Coonan appointed secretary-treasurer.

SAID FAREWELL TO COLLEGE DAYS

McGill Convocation Yesterday Heard Address By Dr. Osler.

HIS ADVICE TO GRADUATES

Professor Rutherford, Who Is Leaving McGill After This Session, Also Spoke Briefly.

The McGill Convocation yesterday afternoon passed off in an unusually peaceful manner. The underclassmen, for some unknown reason, did not turn out in very great numbers, and those who were present seemed to be of a more subdued disposition than in past years.

The presence of Dr. William Osler was a great surprise to most of those who were present. Few of them even knew he was in Canada at all until he appeared on the platform. He arrived on Saturday and leaves again to-day for Toronto, being, while in Montreal, the guest of Dr. F. J. Shepherd, a fellow student in Dr. Osler's undergraduate days at McGill. From Toronto he goes to Washington to attend the meeting of the American Association of Physicians, to be held there next week.

BANNER FOR McGILL.

Another surprise came in the early part of Principal Peterson's address, when he announced a gift recently made by His Excellency Earl Grey to McGill University. It consisted of a banner, with a device emblematic of Canada's potential destiny, which had been designed and embroidered by Mrs Watts, widow of the famous British artist. It had been presented to Earl Grey by Queen Alexandra, with instructions to present it where he thought most fitting. The banner was now unveiled, and was handed over to the care of Miss Hurlbatt, warden of the Royal Victoria College, until such time as McGill could offer it a home in a convocation hall of her own.

The central figure in the banner is Our Lady of the Snows, all white, and glistening like a mountain peak, and above her head the two guardian spirits holding the great triple crown in colors symbolical of love, faith and hope. On each side of this figure there is a slight and suggestive binding of the maple leaf and the rose and in a scroll on either side, into which the roots of the maple and the rose descend, are the words, translated from a Gaelic blessing:

"Peace and growth to her,
Strength and worth to her."

138 DEGREES CONFERRED.

There were in all 138 degrees conferred. Of these there were fifty-one B.A. degrees, and one B.Sc. degree in Arts; sixty-one B.Sc. degrees in Applied Science and seven B.C.L. degrees in Law. Mr. F. C. Harrison, professor of agriculture at Macdonald College, was admitted to the degree of B.Sc., and M.Sc., ad eundem gradum.

Masters of Arts degrees were conferred on E. M. East, B.A.; J. G. Hindley, B.A.; S. Kirsch, B.A.; M. F. Pearson, B.A.; A. D. Pelletier, B.A.; and H. G. Rice, B.A. Masters of Science degrees on F. C. Harrison, B.S.A., B.Sc.; J. B. Harvey, B.Sc.; G. H. Brummer, B.Sc.; D. S. Lewis, B.Sc.; R. D. Lyman, B.A.; A. F. Robertson, B.Sc.

There were also four honorary doctor's degrees conferred: Doctors of Science, Henry Mark Ami, M.A.; D. Sc. (Queen's), and Samuel Fortier, Ma. E. (in absentia); Doctors of Law, Alfred Kleczkowski (in absentia), and Ernest Rutherford, M.A., D. Sc. (New Zealand), F. R. S.

THE CONVOCATION PROPER.

After the convocation had been opened with prayer by Rev. Dr. Barclay, Dean Moyse presented the annual report for the Faculty of Arts, in which he stated that the number of students in Arts had been 450, a slight decrease in total number but an increase in the number of undergraduates. He referred to the incorporation of Prince of Wales College, and of Vancouver College, henceforth to be known as McGill University of British Columbia, with McGill. Warm tribute in this connection was paid to Dr. H. M. Tory, and in connection with the founding of the Graduate School at McGill to Dr. P. D Adams.

Speaking of the momentous year through which McGill had just passed, the vice-principal said that in her loss McGill had received the sympathy of the world. But they wanted in this hour of great need more than sympathy. They wanted to sow the ground of sympathy with seeds of organic action. The prizes and honors in Arts were then presented by Dean Moyse and Sir William Macdonald and the degrees conferred by Principal Peterson.

The report of the Faculty of Applied Science, presented by Dean Bovey, referred to the departure of Dr. Rutherford to England, dwelling on the great work he had done at McGill. Praise was bestowed on the graduating students in Science for the high standard of their work, two students having received almost perfect marks in the special subjects of their course.

Dean Walton, of Law, spoke briefly. He announced with expressions of gratification, that Sir William Macdonald had decided to again award a scholarship which would enable the winner of the Gold Medal, this year, Mr. J. Harold E Walker, to spend a year studying in France.

PROF. RUTHERFORD'S FAREWELL.

Prof. Rutherford was greeted with tremendous applause when he rose to deliver the annual address to the graduates. He began by remarking that it was his valedictory to McGill as well as theirs, for he, too, was ending his connection with the university with this session. The year 1907 would be memorable to himself and to the students on this account, and also on account of the calamitous fires which had struck a heavy blow at the prosperity of McGill; his grief was, however, assuaged by the confidence that two years would see a greater McGill than has been.

A brief sketch of McGill's place among the universities of the world was then given. Dr. Rutherford explained why McGill was so prominently known in many lands; she occupied a unique position in being entirely supported by private endowment, receiving no state aid whatever; she was strong in all her branches of study, and she was not a provincial but a national institution. Students come to her from distant lands —there are several of them in the graduating class—to study, because they think they will get a better course here. It is the reputation of the teaching staff which makes the reputation of the universities, and in this respect McGill's place is assured.

"It is, however, unfortunate," said Dr. Rutherford," that McGill cannot offer sufficient remuneration to her teaching staff, and her success so far can only be ascribed to the wisdom of those in authority. Positions on the staff are thrown open to the world for competition, and the best available man is chosen. Likewise, Canadian professors may be found in many other countries. The idea that all the energy of the staff should be devoted to teaching is a very mistaken one. They must spend some time in research or in active work to enable them to keep up a living enthusiasm in their subjects.

"The graduating class of to-day," continued the distinguished Scientist, "are fortunate in entering the arena of life at a period when Canada is enjoying great prosperity, and is witnessing an era of unprecedented development. Canada requires to-day the assistance of every one of her sons, and more especially of her educated sons, to keep pace with the full tide of this advance. To the engineer, in particular, the work is clearly outlined. His duty it is to build the road and bridge the ford, to transmit power and light to her cities, and to reveal the riches long hidden in her soil."

In concluding, Prof. Rutherford expressed his appreciation of the facilities offered him by the Governors, for the pursuit of his research in Physics, and he declared his nine years' stay at McGill, working in harmony alike with his colleagues and with his students to have been a most pleasant period of his life.

DR. OSLER'S ADDRESS.

Dr. Osler, who was also accorded a very enthusiastic reception, spoke in a most optimistic view regarding the disasters which have recently befallen her. "But I have faith in this community," he said, "and I am confident that in four or five years, the McGill faculties of Medicine and Science will be in such a condition, that people will say, 'perhaps it was just as well that those buildings were burnt.'"

Then a few words of advice were given to the graduates: "You must make a clean, clear cleavage in your lives between your vocations and your avocations. By vocation, I mean the daily business in which you are absorbed, a routine affair; but besides this you must have something which may interest you, may lift you out of your daily routine to freshen you mentally and physically. Whatever be its form, an avocation is necessary."

Principle Peterson's adress was brief. He referred to the advance McGill was making in the West, in the work of Victoria and Vancouver Colleges. There were now 100 matriculated students at Victoria and 60 at Vancouver. He made a sympathetic reference to the sudden death of Principal Shaw, of Vancouver College, who had taken a prominent part in leading McGill and Vancouver into bonds of affiliation.

HON. ALFRED DEAKIN WAS CHIEF SPEAKER

Colonial Premiers Now Discussing Question of Preference.

DINNER AT CANADA CLUB

Dominion Represented by Lord Strathcona, Sir Wilfrid Laurier and His Two Colleagues.

Canadian Associated Press.

London, May 1. — The Imperial conference took up the question of tariff preference. Several of the members of the British Cabinet were present, in addition to the Earl of Elgin, the Colonial Secretary, who presided. The latter expressed the hope that a harmonious feeling would prevail during the discussions of this subject.

Sir Wilfrid Laurier explained the position of Canada, saying that she was content to adhere to the resolutions of 1902.

Mr. Alfred Deakin, Premier of Australia, spoke for two hours, and had not concluded when the conference adjourned. He said that the oversea dominions were the best customers of the Mother Country, and would always be a part of the Empire and claim to be regarded from that point of view. He urged that greater co-operation was the necessity of the Empire's continued existence. Australia was not likely to find a market on the Continents, therefore she wished to obtain the greater advantage of the British market. Australia could supply, wholly or in part, £213,000,000 of Britain's trade without the preference. However, he doubted if Australia could maintain her position in the British markets, but it might be expected that with a preference on wheat, her exports would be increased four-fold, and by the help of increased export of butter, an additional population of 40,000 would be employed.

DINNER AT CANADA CLUB.

There was a brilliant gathering at Prince's restaurant, Piccadilly, when the Canada Club entertained Sir Wilfrid Laurier and the other premiers, under Lord Strathcona's presidency. The Duke of Argyll proposed the "Imperial forces." Lord Tweedmouth, responding, said the British navy was never more able to meet danger than now. That, however, was no reason for resting on our laurels. He desired that the dominions oversea should join in making the navy all that it should be.

Hon. Mr. Haldane mentioned that Sir Frederick Borden had been at the War Office that afternoon working out details. He considered that in the last 10 days they had made a big step forward. (Applause.)

Sir Frederick Borden, who also responded, agreed with Mr. Haldane that the foundation had been laid for a better understanding and emphasized the danger of legislation exacting terms from anybody. "By relying upon the bond of friendship, affection and loyalty, you have the safest, in my opinion the only, guarantee necessary for absolute co-operation."

LORD STRATHCONA SPOKE.

Lord Strathcona proposed the "Premiers and ministers attending the conference." He said the Empire was only beginning to realize its destiny, and declared there was a strong feeling for imperial unity in Canada. He paid an eloquent tribute to Sir Wilfrid Laurier.

The latter, alluding to the presence of the Japanese ambassador, said Canada's nearest neighbors, east and west, were Britain and Japan, and he anticipated that Canada would become the highway of communication between the two lands. He dealt with the larger aspects of immigration, remarking that Canada was profiting by the mistakes of her neighbors. There was no fear to be apprehended from the influx from the United States. Concluding, he claimed he was not speaking boastfully at Ottawa when he declared the twentieth century belongs to Canada. (Cheers).

Hon. Mr. Brodeur, replying to the toast of the "Dominion of Canada and the Governor-General," spoke of the loyalty of the French-Canadians. He also alluded to the great services performed by Lord Strathcona in opening up the Northwest Territories.

Priests Twenty-Five Years.

An interesting and unusual event in church annals was the celebration, last Tuesday, in the parish of St. Henri de Levis, diocese of Quebec, of the 25th anniversary of the ordination to the priesthood of Rev. J. A. N. Gouin, pastor, and Rev. C. P. S. Gouin, his assistant. The Rev. fathers are twin brothers and brothers of Hon. Lomer Gouin, Premier of Quebec.

PROBABILITIES FOR THE NEXT 24 HOURS.

Fine and a little milder.
Thursday, fine and milder.

To-day broke dark and threatening, but a favorable wind soon cleared away the clouds and the sun came out in splendor, to the great joy of the movers, who had been waiting for fine weather. But though the day was bright, it remained quite cool, and in the atmosphere there was little suggestion of the month of May.

Montreal Weather Statistics.

Readings by Hearn & Harrison's standard barometer:

At noon yesterday, 29.88; at 8 a.m. to-day, 30.14; 11 a.m. to-day, 30.12.

Temperature — To-day, maximum 52, minimum 42; yesterday, maximum 46, minimum 40.

Sun rose this morning at 4.52 o'clock.
Will set this evening at 7.03 o'clock.

Maximum and Minimum Temperatures.

St. James Methodist Church.—Torrey meeting.

CORSICAN LAUNCHED— WILL SAIL TO MONTREAL

The first of the two new Allan liners which were ordered last spring, as an addition to the mail service, was successfully launched from the yards of Messrs. Barclay, Curli & Co., on the Clyde yesterday.

She is named the Corsican, and is a 11,000 ton vessel, a little larger than the Tunisian, of the same line. Her speed is 16 knots an hour, and she will be placed on the Liverpool-Montreal service, leaving the former port on her initial trip July 11th. This vessel has been fitted up in palatial style and will carry anywhere from 1,300 to 1,400 passengers. The Grampian is the second one, which will be placed on the Glasgow-Montreal route at the opening of navigation next year.

Is Now Canon O'Meara.

As a recognition of his great services to the cause of the Catholic church in this city as parish priest of St. Gabriel's, Point St. Charles, the Rev. William O'Meara, P.P., has been named by Archbishop Bruchesi an honororay canon of the Cathedral. The many friends of this popular priest among all classes in this city will be pleased to learn of the ecclesiastical honors thus conferred on him.

On Sunday evening a demonstration will take place in St. Gabriel's Church, in celebration of the honor conferred on the pastor, Rev. Father O'Meara. A reunion of the catechism classes from 1890 to 1907 will take place. In addition to the regular catechism pupils of the last 17 years there will be about a hundred and fifty converts who have been received into the church during the same period.

On Monday evening, a concert will be given in St. Gabriel's Hall, while on Tuesday evening there will be another concert for the parishioners generally.

Two Years for Forgery.

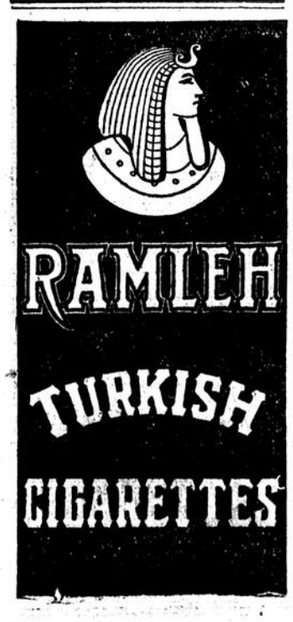
For forging a cheque of $5, Arthur Lacasse was sentenced by Judge Choquet to two years in the penitentiary. About two months ago the accused, who was a room mate of Paul Fillon, broke open a trunk belonging to his mate, and took a bank book from it. Going over to the City and District Savings Bank he forged Fillon's signature on a $75 cheque. He then left town with the money, and was at Bedford, Mass about three weeks. On his return he was arrested by Detective John McCall, who had a warrant against him.

Success of a Montrealer.

Owing to the sudden indisposition of Miss Rosabel Morison, on Tuesday night, the part of Nat-U-Rich, in the Squaw Man, was filled at almost a moment's notice, by Miss Katherine Fisher. Miss Fisher passed most of her girlhood in Montreal, having been educated at the Ville Marie Convent, which she left two years ago to go upon the stage, and has many friends in the city.

Badly Beaten In Row.

Ernest Thibault was so severely beaten in a row at the corner of St. Jean and St. Emelie streets, St. Henri, last night, that he had to be taken to the Notre Dame Hospital.



OTTAWA WILL NOT INVITE MR. STEAD

Canadian Club There Has Not Forgotten His Attitude

ON SOUTH AFRICAN WAR

Distinguished Peace Advocate Addressed Toronto Press Club.—Is Much Impressed with Canada.

Special to the Montreal Star.

Ottawa, May 1. — At the annual meeting of the Ottawa Canadian Club, last evening it was proposed that Mr. W. T. Stead, should be invited to visit Ottawa and address the club. Mr. Fred Cook, Captain Rothwell and others objected to the proposal owing to the attitude Mr. Stead assumed during the South African war. It was decided in view of the opposition not to extend an invitation to Mr. Stead.

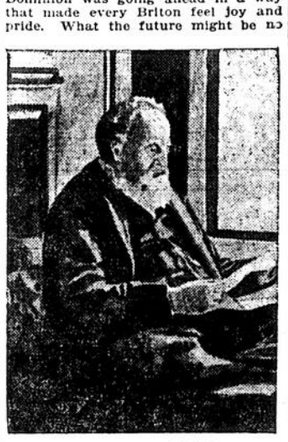
Mr. Hamnet P. Hill was elected president of the club to succeed Mr. Plunket B. Taylor.

MR. STEAD IN TORONTO.

Special to the Montreal Star.

Toronto, Ont., May 1. — Mr. W. T. Stead arrived in the city yesterday afternoon.

In an interview Mr. Stead said the Dominion was going ahead in a way that made every Briton feel joy and pride. What the future might be no



MR. W. T. STEAD.

human being could say, except that Canada was certain to be a source of inestimable good to the human race. But he had one word of caution to offer. Canadians should be careful not to fall out with their brethren across the border.

Emphasizing the importance of the maintenance of good relations, among the members of the English-speaking race especially, he told of discussing this question with Mr. Rhodes, when he remarked that in order to secure the working unity of the English-speaking race he would be prepared, if that object could not be secured by other means, to apply for admission to the American Union. Mr. Rhodes paused for a moment and then exclaimed: "you are right, but never tell anybody I said that."

Pursuing the question of the relations of Canada with the United States, Mr. Stead drew a parallel between the Scotch and Canadians, pointing out that the peoples who lived in the north were usually much keener and much more energetic and efficient than those who lived in warmer climates.

Reverting to South Africa, he said he regarded General Smuts as the ablest man in Botha's Cabinet.

Asked whether he regarded the "intellectual preference" extended by Canada to the Mother Countrp as likely to produce good effects, he replied that as the proprietor of a magazine circulating in Canada he hoped so.

As to the proposed Colonial contributions towards Imperial defence, he said the question was entirely one for the Colonies themselves. "We will never ask for it," he added, "and I would not be disposed to pay it."

Mr. Stead's last words were: "If you want an independent existence you may have it. Nobody in our country will prevent you."

Last night he gave an address before the Press Club and to-night he will speak in the Westminster Presbyterian Church on his favorite subject, Peace.

WILL RAISE FUND OF $11,000

Synod of London and Hamilton Decide to Raise Amount.

Special to the Montreal Star.

Chatham, Ont., May 1.—The feature of yesterday afternoon's meeting of the Presbyterian Synod of London and Hamilton was an address by Professor Kilpatrick, of Knox College on "The Christian Salvation." Following this discussion was indulged in, when some interesting points of doctrine received attention at the hands of the delegates.

Rev. Mr. Ross, of Guelph, presented the report of the committee on augmentation. This recommended the raising of $11,000 throughout the Synod district within the year, which was carried.

In the evening Rev. J. McDuncan, of Toronto, addressed the Synod on the work being done for the Sunday Schools by the General Assembly Committee, and Mr. J. A. MacDonald, of Toronto, spoke on the present movement among the laymen of the churches.

The next meeting will be held in St. Andrew's Church, London.

BURGLAR OFFERS APOLOGY

Returns Property, Finding He Has Entered House of Mourning.

Pittsburg, Pa., May 1. — "I am very sorry for you and you have my sympathy. Had I known I would have selected another house. Here is the watch I took from your pocket, I may restore the other articles as I go along. Well, goodby, as I must be about my business."

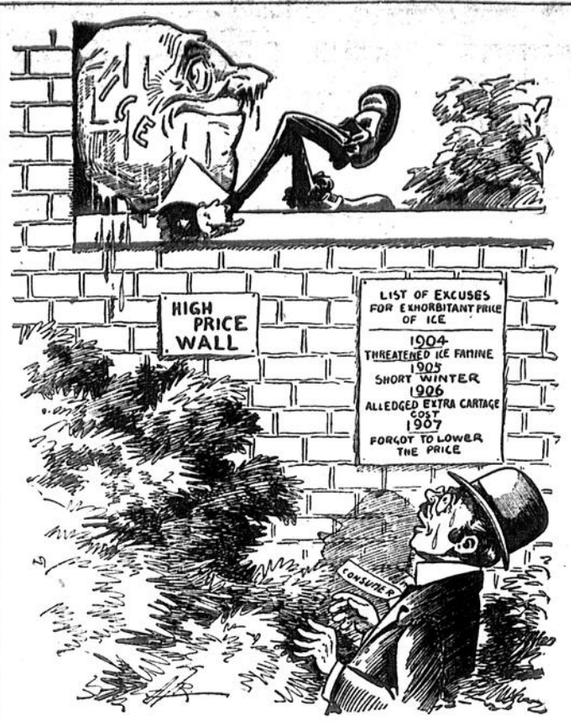
A burglar left the home of W. W. Waitneight, in the suburb of Bellevue, early in the morning after making this statement to Mr. Waitneight, whose babe had just died.

Mr. Waitneight, awakened by a slight noise made by the burglar, thought the nurse who was attending his wife was in the room, and inquired what was wrong. The burglar drew a revolver and told him to "lie down and keep quiet."

Mr. Waitneight asked the intruder if he knew he had entered a house in which a death had just occurred. Then the thief apologized and left.

SHERBROOKE.—W. J. London is dead, aged 82.

Gordon H. Glasgow is dead, aged 20.



Humpty, Dumpty, climbed a high wall,
Humpty, Dumpty, refuses to fall,
All the trusts' horses and all the trusts' men
Will never make Humpty trouble again.

SOCIALISTS WILL PARADE TO-NIGHT

Followers of Marx Decided That They Will March Through Streets.

All preparations for the May Day parade and Labor Day celebration under the banner of the Socialists have been completed.

Meetings will be held in St. Joseph's Hall during the afternoon, and the procession will start from the corner of St. Elizabeth and St. Catherine streets at 7.30 p.m. At a meeting of the conference committee early to-day, the position of grand marshal was offered to Mr. A. St. Martin, who accepted. Mr. J. Glensky, of Buffalo, who will be the principal speaker on the Champ de Mars this evening, was present at the conference, and was tendered an ovation. Mr. Glensky, who was a candidate for the Governorship of Illinois at the last elections, has made a deep study of the social problem. He said he believed the citizens of Montreal had too much sense to attack a few men and women simply because they were trying, in their own way, to do some good in the world.

Mr. A. St Martin said he anticipated no trouble whatever. He had discussed the matter in a friendly way with the students last Sunday, and the original programme, with some slight changes, would be carried out.

At a meeting of the delegates last evening the negotiations with the Mayor were discussed. After explanations by Messrs. A. St. Martin, John Cassidy, Otto Jahan and others, the following resolution was unanimously adopted:

"Whereas, Mayor Ekers has invited our committee, and has represented to us that the rights of the Socialists to parade in the streets of Montreal are by no means doubted by the authorities;

"That, on the contrary, it is unanimously agreed that this right is neither contested nor contestable;

"Whereas, the Mayor further represents that he has received information from the Chief of Police and other reliable sources that some one or organization intends to create a disturbance and cause a riot if we exercise our rights of parading under our flag;

"Whereas, the Mayor concluded by asking that we, as law-abiding citizens, should set an example, and not exercise our rights by making a sacrifice of not parading;

"Be it resolved, that the desire for trouble has not emanated from us, but has fomented from the outside; that we merely declare that if we knew of any law made by the representatives of the Canadian people forbidding peaceful processions, we should obey the same, but, in the absence of such a law, what we are threatened with is not law.

"Nevertheless, be it resolved that, as we fully appreciate the Mayor's position and his kindness, we will endeavor to arrange matters so that those who have threatened to cause trouble shall not have the slightest occasion for doing so."

C. P. R. STEAMSHIP SPECIAL.

In addition to regular train for St. John and Halifax leaving 7.25 p.m. a special train will leave Windsor street station at 8.30 p.m. Thursday night, May 2nd. for the accommodation of passengers for the "Empress of Britain" sailing from St. John, Friday, May 3rd. Special train will run along side of the steamer.

Special Notice.

A Window Well Worth Looking Into.

Montreal manufacturers are certainly waking up to the advertising value of clever window displays. The latest and one of the best that has been seen, is that of Drysalters, Limited, the manufacturers of the famous Mother's Favorite Soap, in the large central window of J. T. Lyons' drug store, at the foot of Bleury street.

Each separate stage in the manufacture of Mother's Favorite is shown, from the rough blocks of crude soap to the delicately perfumed cakes of the finished product.

A huge block of the crude soap is exhibited in the centre, and every purchaser of 25 cents worth of goods in Lyons' store is permitted to guess how many cakes of Mother's Favorite will come out of it. No doubt a good many people will take a guess, for the prize offered is a rather valuable one—a half gross of the soap—and Drysalters announce that they will give a box containing three cakes to every guesser who comes within fifty of the correct number.

A most amusing feature of the display at certain hours is two little boys, one of whom evidently realizes his condition, and is making a great lather of Mother's Favorite. The other has just completed his wash, and the difference certainly speaks well for the soap. Both boys are obligingly sharing the benefits by giving away samples.

The window is well worth seeing.

PIANOS TO RENT.

Parties desiring to rent pianos for summer resorts should leave their orders with us at once. Never had we as good an assortment to choose from. C. W. Lindsay, Limited, 512 St. Catherine St., West. 101 3

MAYOR'S POWER TO STOP PARADES

Provisions of City Charter and Criminal Code Governing Parades and Meetings.

The following is the communication sent to the Mayor by the city's law department in regard to the Mayor's authority in deciding whether or not the Socialists should be allowed to parade:

"According to the city charter, the City Council is empowered to make by-laws concerning the peace, order and welfare of the city of Montreal, as well as to regulate and prevent the flying of flags, banners and signs across the streets, alleys and public places. The only by-law which the city has adopted is by-law No. 42, which provides for the maintenance of public peace and good order, and which contains the following enactment:

WHAT CAN BE PROHIBITED.

"'All riots, noises, disturbances, or disorderly assemblages, are hereby prohibited in this city; and all persons making or creating any riot, noise, disorder, or disturbance, or forming part of any disorderly assemblage anywhere within the limits of the said city, shall incur the penalty hereinafter provided.'

"The Revised Statutes of the Province of Quebec contain the following provisions:

"'Art. 2940.—No assemblage of persons shall parade the streets of the city of Montreal, or march in procession therein to celebrate or commemorate any political anniversary or event having reference to religious or other distinctions existing between any class of the subjects of Her Majesty, or to make any demonstration of such religious or other distinctions.

"'No one shall carry or display banners, flags, ensigns or emblems of a nature tending to create animosities between subjects of Her Majesty of different religious beliefs, or be accompanied by any band of music tending to excite feelings of such a nature.' (41-42 V., c. 9, s. 1.)

"It seems to us that the object and intention of the law, as set forth in the city charter and in the above mentioned articles of the Revised Statutes, is to prevent all disturbances and disorders which may arise from a public demonstration such as that contemplated in the present case. The object in view is to indicate the measures to be taken to protect the public against all disturbances which may affect the peace, order and general welfare of the city.

CRIMINAL CODE CITED.

"On the other hand, the Criminal Code contains particular provisions in this connection, under the heading 'Illegal assemblies, riots and breaches of the peace.' (C. C. 55-56 Vict., Ch. 29.)

"Therefore, under the Criminal Code as well as under the special municipal legislation and the Revised Statutes, the law can only prohibit or regulate riotous or tumultuous assemblies, contrary to the public peace, or assemblies as to cause the persons being in the vicinity of the same to fear that the persons so assembled will tumultuously trouble public peace or needlessly and without any reasonable reason induce other persons to trouble public peace in a tumultuous manner.

"In view of the legislative enactments on the matters, as above set forth, we are of opinion that the city has sufficient authority to prevent tumultuous and riotous assemblies, contrary to the peace, order, good government and general welfare of the city of Montreal, and we would recommend to your Council that the Chief of Police be instructed to take, in case of urgency, all the measures and precautions required to prevent disorders and tumultuous or riotous assemblies in connection with the public demonstration to be held on or about the 1st May next in the streets of the city."

The City Council, on Monday, decided to refer this opinion to His Worship the Mayor to act upon as he deemed wisest. His decision, as announced in the Star last night, was that it was in the interests of peace that there should be no procession.

Harry Brown Goes to Brockville.

Mr. Harry Brown is to become manager of the Strathcona Hotel at Brockville. He effected a lease yesterday and will take charge on the 15th instant. The building will be remodelled and brought up-to-date. Mr. Brown was connected with the St. Lawrence Hall for twenty-four years, but ceased to be its manager when last midnight it became the property of the Canadian Pacific Railway. Mr. George Ashley will be associated with Mr. Brown.

Wedding presents. R. Hemsley, Jeweller, 255 St. James St.

MORE ARRESTS IN INSURANCE FRAUDS

Companies Retaliation Against Policyholders' Committee.

SERIOUS CHARGES MADE

Manager Scrugham of the Policyholders and Two Assistants Placed Under Arrest.

New York, May 1.—Sensational results quickly followed the inquiry by the District Attorney's office into the recent election of directors of the New York Life Insurance Company.

George R. Scrugham, manager of the International Policyholders' Committee, which inspired the present investigation making grave charges against those who conducted the election, was himself placed under arrest at Albany last night. Scrugham is charged with conspiracy. He was the third man identified with the International Policyholders' Committee taken into custody since noon yesterday. The others are Charles Stirrup and Charles F. Carrington. These two were not members of the committee, but were employed as watchers for the committee at the election. Stirrup was a watcher at the directors' election of the Mutual Life Insurance Company, while Carrington acted in a similar capacity at the New York Life election.

They are specifically charged with having "unlawfully conspired together for the perversion and obstruction of the laws of the State of New York with relation to the election of directors of the New York Life Insurance Company." The warrants were issued on the complaint of Assistant District Attorney Walter D. Howe, by Magistrate House in the Tombs Police Court.

Jacob Frank, a New York Life Company agent, was arrested, charged with forgery in the third degree. Frank had been summoned to explain the signatures of several policyholders to alleged forged ballots cast at the recent election of directors of the New York Life. At the time of his arrest, Frank, it is said, made a statement to Assistant District Attorneys Smyth and Howe that had an important bearing on later developments.

The Policyholders' Committee, headed by Scrugham, as manager, and Samuel Untermeyer, as counsel, and with a membership of many distinguished persons, in America and Europe, fought the "Administration tickets" in the recent elections of directors of the New York and Mutual Life Insurance companies.

UNTERMEYER ISSUES STATEMENT.

Samuel Untermeyer gave the following statement:

"My attention was called to this complaint only late last night. During a considerable part of the campaign I was in Europe, I knew nothing about the subject of the complaint except what I have just heard, but it looks on its face very much like a cry of 'stop thief' on the part of the companies. They know that the forgeries, on the part of the agents ran into thousands, and they would like to obscure the issue.

"I have no doubt that Mr. Scrugham, who acted for the distinguished members of the committee as a public service and without pay, will be able to fully meet this latest move on the part of the companies to cover their tracks. I understand he is now in Albany fighting for the reform insurance bill to prevent fraud in future elections. Personally, I knew nothing about the matters referred to in the complaint. This is the first I have ever heard of it."

COUNTER CHARGES OF FRAUD.

Since the elections in both the New York and the Mutual companies on December 13, the District Attorney's office has been looking into the counter charges of crooked work by the Administration party, and the Policyholders' Committee. Representatives of both sides have been heard, and many ballots have been examined. Nothing definite was done, however, until after the official count was announced, showing the Administration tickets to be the victors by large majorities in both companies. Then complaints were made by the Policyholders' Committee, of wholesale forgeries by agents of the companies. The companies made counter charges against the employes of the Policyholders' Committee.

Carrington, Stirrup and Manager Scrugham were in the district attorney's office Monday, and were examined separately. Four women clerks employed by the policyholders' committee in preparing ballots were examined in the district attorney's office. Soon after the complaint against the three policyholders' committee employes was drawn up. Stirrup could not secure bail, and was locked up in the Tombs. He is 34 years old, calls himself a journalist and lives in Manhattan. Carrington is 28 years old, and lives in Manhattan. Carrington wanted an immediate hearing, and Magistrate House agreed to give him one at his club. The prisoner was taken to the club house, and in a private room Magistrate House held court and held Carrington in $3,000 bail for further examination.

THE CHARGES LAID.

In the complaint Mr. Howe declares that the alleged conspirators had in their possession on December 16, 1906, a large number of ballots for the policyholders' committee's ticket, which were not at this time, according to the complaint, in the proper form to be counted. Mr. Howe further asserts that the prisoners "did conspire together to tamper with the said defective ballots, and so altered and changed them without the consent of the policyholders who had signed them, as to make them appear to be in due form of law and proper to be counted at said election."

Many ballots, said the complaint, were not enclosed in envelopes which had been signed by the policyholders as required by law, and the persons named in the complaint are accused of having caused these envelopes to be prepared and signed by other persons than the policyholders, that the inspectors of election might be deceived and count for the policyholders' committee's ticket a large number of ballots which were not valid and entitled to be counted.

Mr. Howe makes charges on "Information and belief," which came to him from Miss Anna Mason, Miss Evelyn Miles and Mrs. Francis Goldsmith, who were employed by the policyholders' committee, and on statements made to the assistant district attorney by Stirrup, Carrington and another, and Jay E. Lawshe, who was chairman of the board of inspectors at the election of the New York Life Insurance Company.

The complaint further states that Scrugham admitted that he filled in certain envelopes, told girls in the employ of the committee to fill in others, and that all these envelopes were written in a peculiar bluish green ink, all of them placed in one box, and none of them was ever placed on any other box. Mr. Howe's complaint ends with a recital of a conversation he had with Mr. Lawshe, in which the latter said that he or some of his associates were present when all the ballot boxes were received from the international policyholders' committee, and when they were opened one of the boxes contained about 1,100 ballots, while no other box contained within several hundred ballots of that number. Mr. Lawshe said this box is now in his custody.

MARINE NEWS

Waiting to Unload.

Superior, Wis., May 1.—With every coal dock at the head of the lake being worked to its capacity, there are more than forty vessels waiting in the harbor for a chance to unload. The situation is without precedent, the receipts of the past twenty-four hours being the heaviest ever known, about 150,000 tons.

Immense Grain Cargo.

Detroit, May 1.—The largest grain cargo ever carried by a vessel on the Great Lakes has been loaded at Duluth on the steamer D. G. Kerr for delivery at Buffalo. It consisted of 440,000 bushels of wheat, or 13,200 tons.

First Steamer Outward.

The steamer Ralph Halcombe left port last evening for Quebec, and is the first steamer to leave the Montreal Harbor this season for a lower port. She sailed light, but will take cargo at Quebec for the upper river and lake trade.

Mr. Clancy Returns to Montreal.

Mr. J. Richard Clancy, who during the past winter season has been looking after the interests of the Allan line of steamships at Portland, Maine, has returned to Montreal to take up his duties as manager of the outward freight department of the Allans in this city. Mr. Clancy's friends gave him a hearty welcome on his return.

Athenia Reported.

SS. Athenia, Donaldson line, from Glasgow, for Montreal, passed Father Point at 5.50 a.m. to-day. She carries 134 cabin and 470 steerage passengers. Captain McNeill reports entering the first ice pack 50 miles east of Cape Ray, and clearing ice 45 miles west of Bird Rock.

Parisian, of the Allan Line, from London and Havre, has 343 second cabin and 392 third-class.

Carrigan Head, of the Head Line, is due in port shortly with a cargo of gin from Rotterdam.

Athenia, of the Donaldson Line, for Montreal, passed inward at Fame Point yesterday.

Corinthian, of the Allan Line, arrived at Quebec to-day with 276 second cabin and 911 third-class from Glasgow.

The steamship Dageid is coming direct to Montreal from Fowey, Cornwall, ballasted with Kina clay.

Greatest Reduction Sale Ever Held in the City of Montreal.

Two Hundred and Fifty Suits, and a handsomer suit has not been shown this season. Their very beauty is what makes them so cheap at these prices. This lot of costumes was made up for one of the largest firms in the city, the maker couldn't get the cloth soon enough, and the purchaser refused to accept them.

We were fortunate enough to buy the whole of the 250 suits for half the price they were sold in the first place. Here is the resulting fact: English Tweed Mixtures, cheap at $18 and $20, going at **$13.50**; Blue, Black, Brown, Venetian, cheap at $18 and $20, going at **$13.50**; Chiffon Panamas, silk lined, Black Voiles, silk lined, usually sells for $25, $27.50 and $30, while they last **$18.95**. We make no promises as to how long these suits will last, beyond saying that they would not last long. If we could of bought them two weeks sooner, suits that would have sold for just double their prices. $5 Skirts for **$3.89**; $2.50 Morren Underskirts, all colors, for **$1.98**; $10 and $12 Fawn Jackets, for **$6.89**. During this sale only.
