QUEBEC, SATURDAY, MAY 1, 1897.

MR. CHATEAUVERT FOR QUEBEC

CENTRE.

Mr. CHATEAUVERT's friends are holding

nightly Committee meetings and report

great enthusiasm in support of his can-

didature. There is no reason to doubt

that his majority will be larger in Quebec

Centre than it was at the last election. We

want more business and less politics in

Quebec and consequently do not want to

change any of our commercial representa-

tives in the Legislature for professional

men, at least so far as city members are

concerned. Mr. CHATEAUVERT is a repre-

sentative merchant whom it should be a

pride and pleasure for all our people to

support. He has done much for the

advancement of the port. He is a very

large exporter of Canadian produce and

was one of the first of our merchants to go

into the cold storage business. Mr. CHA-

TEAUVERT is one of the leading promoters of

the Quebec Bridge and we see in the *Semaine**Commerciale* that his name is the first on

the list published in that paper of those

who have been appointed to receive sub-

scriptions to the stock of the Company.

We want more of Mr. CHATEAUVERT's

stamp here, and above all we want them

in the Legislature. Our friends of the

Upper Town should spare no efforts to

place Mr. CHATEAUVERT at the head of

the poll by a large majority.

THE PULP INDUSTRY.

The Montreal Star has the following:—

"Ex-Senator WARREN MILLER, of New

York, President of the Niagara Canal

Company, is registered at the Windsor

Hotel. Mr. MILLER is in Montreal in con-

nection with his pulp mills and water

power interests in the Dominion. In con-

versation with a reporter for the *Star* this

morning, Mr. MILLER said that he antici-

pated a considerable boom in Canada's

pulp and paper industries during the com-

ing year. The direction which the expan-

sion of the business would take would be

in trade with Great Britain rather than

with the United States. The higher duties

on pulp and paper imposed by the Mc-

KINLEY tariff would tend to throw the

trade to Great Britain, even not consid-

ering the fact that the product brought a

higher price there than across the border.

"You have the material here in Canada,"

said Mr. MILLER, "and you have cheap

water power. Both these are lacking in

Great Britain, and the British market is

bound to prove a most valuable one. I

believe the industry of pulp and paper

manufacture in Canada will see a wonder-

ful expansion during the next few years

and will overshadow many industries that

have heretofore been looked upon as Can-

ada's chief resources." Mr. MILLER

already owns, in conjunction with one or

two other wealthy Americans, an exten-

sive pulp mill at Grand Mere, Que., to which

additions are now being made. He has

also purchased the right to the water

power of the Shawenigan Falls, near Three

Rivers, where another mill will be erected

during the coming summer. Mr. MILLER

expects to go to Three Rivers
