(Associated Press Despatch)  
OTTAWA, Ont., July 7.—The cabinet is meeting again today. The probabilities are that the date of the general elections will be available shortly, but definite action, it is intimated, has not yet been taken. The second week of September seems to be the most in favor.

In a statement issued yesterday, Right Hon. Mackenzie King again took issue with Premier Meighen on the constitutional status of the present government.

#### PREMIER MEIGHEN'S NEW MINISTRY ALMOST READY

(Associated Press Despatch)  
TORONTO, July 7.—The Mail and Empire publishes the following special despatch from its correspondent at Ottawa:

Right Hon. Arthur Meighen has made unusual and gratifying progress in the work of forming his government, and your correspondent learns that the task is almost completed. Unless an unexpected hitch occurs, the new Conservative cabinet will be announced before the end of the present week.

Equally reliable information is to the effect that possible election dates have been narrowed down to within a few days at the middle of September. The date, to be finally selected this week, will possibly be Wednesday, the fifteenth of September.

#### Several Killed And Considerable Damage Caused By Heavy Storm That Swept Ohio

**Losses in Columbus and Vicinity Were Reported to Have Reached \$100,000 and Damage at Dayton Was Placed Even Higher, While Damages Were Still Unestimated Today in Many Sections of State.**

(Associated Press Despatch)  
COLUMBUS, O., July 7.—Ohioans were taking stock today of the damage done by storms which swept many parts of the state yesterday, apparently with relentless fury heightened by high winds, heavy rains and spectacular displays of lightning. The storm extended to Central Illinois, where two persons were killed and one seriously injured by lightning.

Damage totalling thousands of dollars was caused by the storm and at least four persons were injured in Ohio. Losses in Columbus and vicinity were reported to have reached \$100,000 and the damage at Dayton was placed even higher, while damages were still unestimated today in many sections. Crops were also damaged, although no official estimates were available. William Cashwin, ten years old, was stunned by lightning while seated on the front porch of his home here.

Lewis Chenoweth, of Grove City, was talking on a telephone at the Citizen Realty Company here when lightning struck the wires leading into the office and knocked him unconscious.

After twelve hours of fighting, employees of the Ohio Oil Company at Cambridge succeeded in extinguishing a fire at Mercer gas well with the use of steam. The well was struck by lightning.

Fire started by lightning destroyed the denaturing plant of the Fuel Products Company at Carthage,

#### NEW STORY RE DISAPPEARANCE OF EVANGELIST

**Man Claims He Saw Mrs. McPherson at Agua Prieta, Mexico, Five Days Before She Publicly Appeared There.**

(Associated Press Despatch)  
LOS ANGELES, Cal., July 7.—The claim of C. A. Pape, of Tucson, Arizona, that he saw Aimee Semple McPherson, pastor of Angelus Temple at Agua Prieta, Mexico, five days before she publicly appeared there, commanded the attention of investigators here today. It was indicated by Joe Ryan, who has been representing the district attorney's office in the inquiry into the evangelist's alleged abduction by two men and a woman, that an effort would be made to obtain Pape as a witness before the county grand jury which yesterday took its first step in an investigation of the pastor's strange case. Pape is understood to be en route to San Francisco. Despite the official attention the Tucson man's story is receiving, his "identification" of Mrs. McPherson at the border town received only a chuckle from the evangelist herself.

"Isn't it ridiculous that anybody should say they had seen me coming out of a road house," she exclaimed. "There have been so many of these reports of my having been seen in various places that it seems almost useless to deny them—I have no way of positively disproving them."

While a number of witnesses received grand jury subpoenas yesterday, Mrs. McPherson was not at Angelus Temple when process servers arrived. It is expected she will be served today.

"If they don't come out here with it, I'll call them up and ask them to bring it out," the evangelist said of the subpoena.

First witnesses in the case will be heard tomorrow by the grand jurors. Those called to give evidence included among others, Mrs. Minnie Kennedy, the pastor's mother; Miss Emma Schaeffer, the evangelist's secretary, who was the first to report her disappearance when she vanished at Ocean Park on May 18; Rolf McPherson and Roberta Semple, the religious leader's children, and H. D. Hallenbeck, close confidant of both the pastor and her mother.

The district attorney has asked several Douglas, Ariz., officials to testify. The mayor and chief of police of Agua Prieta have also been requested to appear.

Another note threatening the destruction of Angelus Temple within two weeks was received by the evangelist yesterday. It was signed "Avengers." The note was turned over to private detectives.

#### BANDITS GOT AWAY WITH THIRTY THOUSAND DOLLARS

**Bold Robbery Carried Out by Gang of Five at Perth Amboy, N.J.**

(Associated Press Despatch)  
PERTH AMBOY, N.J., July 7.—Thirty thousand dollars was taken from the safe of the Castle Ice Cream Company in Gifford Street yesterday by five young men, all armed, and three of them masked, who held five employees and a passerby prisoners while they opened the safe. The bandits gained entrance through a rear door and locked four of the employees in an oil shed a short distance from the main plant. He entered the office and covered the watchman, relieved him of his gun and let his companions in.

The combination was knocked from the safe and the inner door blown with nitroglycerine. The band escaped in an automobile.

#### HAS DECIDED TO ABANDON RESEARCH WORK IN EGYPT

**To Transfer Activities Because of "Dog in Manger" Attitude of Egyptian Department Under French Director Laoau.**

(Associated Press Despatch)  
LONDON, July 7.—The famous Egyptologist, Sir Flinders Petrie, has decided to abandon research work in Egypt and transfer his archaeological activities to Southern Palestine because of the "dog in the manger" policy of the Egyptian Department of Antiquities under the French director Laoau.

Sir Flinders is quoted by the Daily Express in an interview detailing hindrances imposed upon research workers, as saying that other skilled workers at Thebes have abandoned their work and are compelled to spend their time studying discoveries they had made two years ago.

#### AIMEE REJOINS HER FAMILY

#### Even Caillaux's Bitterest Critics Pay Homage To Him For Brutal Clearness In Depicting France's Financial Situation

**With Exception of Irreconcilable Radicals and Conservative Extremists, Chamber of Deputies Cheered French Finance Minister Loudly Yesterday When He Presented His Programme for Financial Rehabilitation of France.**

(Associated Press Despatch)  
PARIS, July 7.—Even the bitterest of Finance Minister Caillaux's critics today paid homage to him for his brutal clearness in depicting France's financial situation before the Chamber of Deputies yesterday. Almost the only dissident editorial comment is in the Communist Journal Le Humanité, which says the old young leading man muffed his entrance onto the stage.

Lucien Romier who declined an offer by former Premier Herriot of M. Caillaux's present hazardous post, says in Figaro that "while he admires the finance minister's truth telling, warns that the preliminary battle has just begun and that the fate of the cabinet depends, after all, on the vote of the moderate members of the Chamber. M. Caillaux yesterday asked the Chamber to give the cabinet power to effect governmental economies or arrange other details for stabilization of the franc by decree of the cabinet. If the "full powers" are granted it will be the first time in the history of the "Third Republic," although M. Poincaré asked for such powers in 1924 in order to obtain \$100,000,000 credit from J. P. Morgan and Company.

With the exception of irreconcilable radicals and conservative extremists, the House cheered M. Caillaux loudly yesterday when he presented his programme for the financial rehabilitation of France. Socialists, however, frequently interrupted their former idol, demanding to know if he sought the extended power for himself or for the whole government. Premier Briand replied for him that the whole government was in accord.

#### WANT ORDER FORBIDDING DEMONSTRATION RESCINDED

(Associated Press Despatch)  
PARIS, July 7.—Pressure was being brought to bear on the cabinet today to rescind its order forbidding next Sunday's manifestation by French war veterans against the terms of the Washington debt agreement. The minister of the interior, Jean Durand, promised M. Rossignol, chairman of the National Union of Veterans, that he would take up the question with the cabinet again.

M. Rossignol, with members of his committee, explained to M. Durand and to Minister of Pensions Jourdain that the coalition of associations he represented, such as the mutilated, blind and other war victims as well as simple combatants had no political purpose and was composed of members of all parties. The veterans were not inspired by ill-will toward the United States, he said. Quite the contrary was the case. They intended to march in the greatest calm to lay flowers upon the statues of Washington and Alan Seeger, United States soldier poet, and thus touch the American conscience. The subject is likely to come up in the Chamber of Deputies on an interpellation by M. Marcel-Heraud, one of the deputies organizing the movement. M. Hersent, secretary of the wounded veterans association, declared the manifestation will be held regardless of the government's interdiction. Calls for the demonstration have gone all over France, he says, and delegations have arranged to come from the provincial cities. The leaders cannot stop the manifestation now, if they would, he asserts.

#### SAYS QUEBEC PROV. SURPLUS SUBSTANTIAL

**Government Able to Devote Million Dollars of Year's Revenue to Debt Reduction and Still Report Surplus.**

(Associated Press Despatch)  
MONTREAL, July 7.—Pleasure at the fact that the Province of Quebec during the financial year ended June 30 last has been able to devote one million dollars of the year's revenue to debt reduction, and still report a substantial surplus, was expressed yesterday by Hon. Jacob Nicol, Provincial Treasurer, when met at the local provincial government offices.

What the amount of the surplus is, Mr. Nicol was not prepared to state, but the fact that he called it substantial indicates something around the million mark.

#### HIGHWAYS DEPT. BULLETIN ON THE SHAPE OF ROADS

**Most of Highways in E.T. in Good Condition—Remarks of Minister on Speeding—Necessary to Reinstall "Spotters."**

The July 3rd official bulletin of the Department of Highways shows that the total mileage of the "main trunk highways system" in this province is 2,657 and that another 300 miles will be added this year. This will leave only about 140 miles to be completed on the highways described as the "main trunk system." Numerous sections are now being constructed, the unusually late spring having held up the work for a long time. Of the Eastern Townships roads, or those leading out of this territory, the following sections are on the programme for construction in 1926: Between St. Nicolas and Ste. Croix Junction on the Levis-Sherbrooke (via St. Nicolas) highways; St. Georges-Lake Frontenac, now being worked on and to be completed next year; twelve miles between Ste. Christine and Melbourn on the St. Hyacinthe-Melbourn road; Dupont township section of the Marieville-Cowansville road. Work on some of these is already well underway.

Considerable oiling is to take place, but in this territory the only places to have this treatment are the village of Lennoxville and township of Ascot, in this county, and the valleys of Stanstead and Rock Island in Stanstead County, the road to be fixed in both sections being that from Sherbrooke to Derby Line.

The report of highway conditions concerning the townships includes the following remarks: The Montreal to Sherbrooke, Beauceville to Sherbrooke, Levis to Sherbrooke via Ste. Croix, Sherbrooke to Derby Line, Sherbrooke toorton Mills, St. Georges to Lake Frontenac, Waterloo to Newport and Marieville to Cowansville roads are "good throughout." The Beauce Junction to Sherbrooke, via Cookshire, road is good except in Black Lake, and the Richmond-Yamaska road is only fair between St. Guillaume and Yamaska. The Novan to Clareville section of the Lacolle-Knowlton highway is fair and also that between Durham South and Melbourn on the St. Hyacinthe-Melbourn stretch, the remaining portions of these being good.

Regarding the question of speeding, the report reads:

"As a consequence of the very numerous complaints sent to him, the Minister of Roads has decided to reinstall the former "spotters" on the highways. Last year, at the request of the automobilists, the "spotter" system was given up for that of the motorcycle-officer. The Minister was then assured that the law would be complied with as formerly, and that public security would not be endangered. Facts have betrayed his expectations."

#### FALL OF LIRA IS DUE TO FALL OF FRENCH FRANC

**Believed that Stringent Regulations in Force Will Prevent Any Serious Break.**

(Associated Press Despatch)  
ROME, July 7.—The fall of the lira to 29.50 to the dollar is considered in financial circles as due to the fall of the French franc, and that it does not represent any factor in the Italian situation of sufficient importance to cause alarm.

Stringent regulations are already in effect regarding trading in exchange, and it is expected that these will prevent any serious break, while beneficial effects from the new economy campaign are expected to be reflected soon in the quotation of the lira.

Mr. Spencer to be seated, as he thought it was his turn to have the floor. Mr. Boy then delivered a five-minute speech, in which he referred to last Sunday evening's sermon, which was entitled "Not Only Words but Wagon."

By saying that the assembled congregation had not only brought "wagons," but had also brought Rev. Mr. Spencer an envelope containing a sum of money that had been given by members of church and congregation. The reverend gentleman was taken completely by surprise, but found suitable words to express his thanks for this token of friendship which had expressed itself in a very material and practical way. ## THREE IN SUTTON FAMILY RESTORED TO HEALTH

By Lydia E. Pinkham's Vegetable Compound. Rather a Remarkable Record

Others Also Benefited

Campbellford, Ontario.—"I was feeling very run-down, always tired, no ambition for anything. I suppose I should not have been at work, but I could not afford to stay at home, only now and then. Last spring my mother was very sick and a friend told her to take Lydia E. Pinkham's Vegetable Compound. She was feeling better after the first bottle, and she wanted me to take it, too. So my sister, mother and I took it until we were all well. My sister and I work in the woolen mill, and we tell every one who says she is not feeling well about the Vegetable Compound. We cannot praise it enough for it has done us so much good. You may use this letter if you like, for I would like every woman and girl to get the benefit that we got."—GRACE SUTTON, Campbellford, Ontario.

South Vancouver, B.C.—"I was always skeptical of all so-called patent medicines and have heretofore hesitated to use any of them. For over eight years I was troubled with irregularities, feeling very sick. I had terrible cramps, fainting spells, and dragging-down pains, was in bed two or three days every month, with conditions growing worse gradually. Lydia E. Pinkham's Vegetable Compound was very highly recommended to me; in fact, I was urged time and again to try it, and I felt very thankful that at last I took the step that has helped me so much. At first I could hardly credit the results, as I came almost to the hour, every month. I can truthfully say that for the last four months I have suffered no inconvenience nor pain in that respect. I tell every one of the good results obtained, and I shall be pleased to answer questions as to the wonderful benefits derived from the Vegetable Compound."—Mrs. G. E. LEWIS, 288 47th Ave., South Vancouver, B.C.

The experience of Mrs. Lewis should help other women. She tells you how she used to feel and the wonderful results she has obtained from Lydia E. Pinkham's Vegetable Compound.

## DANNY MAKES A WRY FACE

In food and drink be not too hasty; Things that look nice may not be tasty.

—Danny Meadow Mouse.

"Bah!" squeaked Danny in a squeaky little voice

Danny Meadow Mouse, who was a prisoner in the airplane—which the little people of the Green Forest and the Green Meadows call a Man Bird—wasn't a prisoner long enough to suffer any from hunger. In fact, he was up in the air only a couple of hours. He knew by the feeling when the great Man Bird began to go down, down, down. The engine had stopped. Presently there was a little bump or two, and he knew that they were rolling along the ground. Then the machine came to a stop. Danny heard the aviator talking and other people also talking. Presently the aviator opened the little cupboard door and pulled out some of the cotton waste of which Danny's bed was made. He didn't discover Danny, but he did leave the little door ajar.

Danny took a long whiff of the fresh air. It was different air from what he was used to. It seemed to him that the people who had gathered around the airplane never would go away. Danny was thirsty. He was more thirsty than hungry. He felt that if he could slip out and get just a wee drink of water he would feel quite himself again.

After a long, long time it became very quiet. Danny ventured out of the little cupboard. There were none of those two-legged creatures to be seen. Danny climbed up where he could look out at the Great World. In two directions as far as he could see was shining sand. Out in front was water just as far as he could see. Back of him was what looked much like the Old Pasture at home. In the distance he could see the houses of those two-legged creatures called men.

But Danny didn't stop to do much looking. He wanted a drink and he wanted it right away. Just a little way from where he was he saw a little puddle of water. He looked anxiously this way and that way, but saw no one to be afraid of. He climbed down from the airplane and ran swiftly through the coarse, stiff grass growing out of the sand, until he was close to that puddle. Then he ran out and plunged his little nose into the water. He took one good swallow and then such a wry face as he made! My, my, my, such a wry face as Danny Meadow Mouse did make! You see, that water was salt. Danny was at the seashore. He didn't know it, but that's where he was.

"Bah!" exclaimed Danny in a squeaky little voice, and ran back into the grass, for he didn't dare stay out there in the open. That taste of salt water made him even thirstier than before. "Now what shall I do?" thought Danny. "I just must have food and water. I'll go exploring." So Danny went exploring and presently he came to a bathhouse although, of course, he didn't know it was a bathhouse. There was fresh water there, sweet, fish water, dripping from a faucet. A very little was all Danny needed. When he had had that little he felt like a new Meadow Mouse. He crept under the bathhouse. That seemed like a very comfortable, safe place—under the bathhouse. He decided he would stay there for a while. He was filled with the spirit of adventure and, curi-

ously enough, he never once thought of home. He didn't even wonder if he would ever get back there. He was out in the Great World once more and he wanted to see more of it.

"There must be a lot to see here," said Danny right out loud. "There is," said a voice close to him, giving him such a start that he almost squealed aloud.

Naturally pretty teeth are hidden by a dingy film coat

Don't hide yours any longer. Accept this remarkable dental test that restores old color to teeth to whiteness, and firms gums.

A new method in clearing up cloudy teeth, in giving "off-color" teeth an almost dazzling whiteness has been found.

Leading dentists urge it widely. For it protects the teeth and firms tender gums.

It works by removing a dingy film that forms on your teeth, and dulls them by absorbing discolorations from food, smoking, etc. A slippery film you can feel with your tongue and that invites germ growth, decayed teeth and gum troubles.

Old-type dentifrices failed to remove it successfully. That's why brushing fails you.

Beneath it are the teeth you envy in others. One's whole appearance changes as clear, white teeth come.

The name is Pepsodent. Thousands now employ it. The makers will send you a tube to try. Or... obtain large tube for a few cents at your druggist.

## HOW TO HAVE QUICK LETTER DELIVERY

The change in the letter rate in Canada from three down to two cents for one ounce letters is causing the postal authorities considerable difficulty in assortment, according to a circular letter issued yesterday from the local office. This circular points out that previous to July 1st, all letters to be delivered locally were separated from those for outside delivery by the color of the stamps, that two cent ones being green and the three cent ones being red. Now, however, letters for local and outside delivery are all stamped with the two-cent green stamps, and so the address is the only guide for assortment. To aid the post-office in the despatch of the mails, the public is requested to tie together all letters for outside delivery, and in another bundle all those for the city. If it is impossible to tie them together and drop them into a parcel receptacle, the public is asked to hand them in in two separate bundles at the post office wicket. This will help the authorities and ensure the early forwarding or delivery of the mails.

## LOCAL MEN WRITE BAR EXAMINATIONS

These papers are written at the Court House in Quebec, and are held semi-annually. Seventy students are writing the admission to practice examinations and seventy-one those for admission to study.

The candidates from this city are Hugh Emmett O'Donnell, M.A., B.C.L., and John Polworth Hume, B.A., B.C.L. Mr. O'Donnell received his education at St. Patrick's Academy, Bishop's University, where he graduated in Arts, and McGill University, where he studied in law, receiving his degree last May. Mr.

## Boy Scouts Go Into Camp

The 1st Lennoxville and St. John Boy Scout troops, including about forty boys, are now under canvas at Round Bay, a fine site owned by Mr. Clough, of Ayer's Cliff, who kindly placed it at the disposal of the Scouts for their summer outing. An advance party of eight experienced scouts under S. M. Loke preceded the main party and, equipped with tents and other essentials, were conveyed in Mayor H. W. S. Downs' truck, kindly loaned for the purpose. All necessary arrangements were completed before the arrival of the boys later in the day. The grounds were marked by the erection of a flagpole, and a fine flag donated by Mr. H. I. McFadden will be raised and lowered each morning and evening with due ceremony.

A fine programme has been arranged for the boys during their stay in camp, which is in charge of S. M. Loke and four officers: B. Benton, G. Titcombe, G. Loke and Brundage. The troop committee is composed of Messrs. William Foote, Day, Dunfield, Titcombe, Stewart and Guinan, the last two named assisting with Mayor Downs in conveying the party in autos to camp.

## URGED OBSERVING OF CITY'S ANNIVERSARY

In speaking on the Dominion Day celebrations at the Rotary Club meeting last evening, Rotarian J. W. McKee, who was largely responsible for the success achieved in connection with the celebration on Dominion Day, called the attention of the Rotary Club to the fact that this year marks the fiftieth anniversary of the granting of the City Charter, and made a strong plea that something should be done by the citizens of Sherbrooke to commemorate this important event.

Mr. McKee suggested setting aside a special day during Exhibition week in which this important event in the history of Sherbrooke City could be celebrated in a fitting manner. He further remarked that he had several suggestions which might be helpful in connection with such a celebration, and that he would be pleased to impart these to the Rotary Club directors at any time for consideration. Rotarian H. Welsh, president of the Rotary Club, thanked Mr. McKee for his valuable suggestions and assured him that the matter would be taken up with the directors of the Club.

Several months ago there was some talk of holding an "Old Home Week" as a celebration for the observance of the City's fiftieth anniversary, but this matter failed to receive public support and did not materialize. Since that time no further steps have been taken and nothing more has been done in this connection.

## RAIN IS BADLY NEEDED BY FARM AND BY FOREST

Lack of Moisture Serious Question for E. T. Farmer—Last Night's Fall Welcome But Insufficient—Forest Fires Threaten.

The rains which fell yesterday afternoon and last night were extremely welcome, but unfortunately did not last long enough to supply the amount of moisture needed by the farm-lands, and more is required at once. For several weeks now this lack of moisture has been felt, and the reports of the provincial Department of Agriculture and the Lennoxville Experimental Farm regarding the Eastern Townships, issued a couple of weeks ago, were that heat and moisture were the great necessities for the success of the crops. Up till that time the summer had been very backward, and little warm weather had come. Since then, however, there has been almost continual warm sunny weather, which, while it was a great blessing in itself, only made the want of rain more pronounced. And in these past few weeks there have been only a couple of rainfalls, each lasting but a little while. City gardeners have been busy watering their gardens and keeping their grass green and fresh. But the farmer with many acres is not so lucky and is neither able nor has the time to look after his crops in this manner, and many of the latter are burning up.

Another serious effect of the dry spell is the aid it gives to the starting and spread of forest fires. Fires have been prevalent in many parts of the country this summer, and numerous small ones have broken out in the Eastern Townships. With the warm, dry weather which has existed for several weeks now, these fires are given every opportunity to spread and new ones to spring up, and rain is needed again to help lay these.

Very Rev. L. R. Sherman, D.D., Receives Important Educational Appointment—Dean Since 1924—Is Graduate of Bishop's University.

The Very Reverend Louis Ralph Sherman, D.D., M.A., Dean of Quebec, has received the appointment of Provost of Trinity College, University of Toronto, one of the outstanding appointments in Anglican educational circles in Canada. It was stated several weeks ago that Dr. Sherman would likely receive this post, which became vacant through the elevation of the former provost to the bishopric of Ontario.

The Very Reverend Dr. Sherman is a graduate of Bishop's University, and after serving in various parochial appointments, became Dean of the Cathedral of the Holy Trinity in Quebec in 1924. He is a member of the Corporation of Bishop's and was to have received the degree of D.D. jure dignitatis, from the university at the recent convocation, but was prevented by the sudden death of his brother, who was a prominent banker.

Dr. Sherman has made a great success of his work in Quebec in his two years there, and will be a distinct loss to the Quebec diocese. He is well known to many local people, and has preached at St. Peter's Church in this city on several occasions.

Trinity College is the Anglican college of Toronto University, and was for many years a separate university. It has played an important part in the training of priests for the church and in general educational work for many years.

## SHERBROOKE MERCHANT TESTIFIES TO PULLING POWER OF RECORD ADVERTISING

Advertising Manager,  
The Daily Record,  
Sherbrooke, Que.

Sir:—

The other day, in a burst of confidence, I told you of the splendid results we were getting from our advertising in the Record. You asked us to put this in writing. We are very glad to do so.

Our offerings made through the columns of your paper have brought ready response. On several occasions specially advertised articles have been sold out with a rush in the early morning. A typographical error in one of the paragraphs of our large advertisement the other day, quoting an item at an astonishingly low price, promptly filled our store until the supply was exhausted. This was convincing proof of how carefully our advertisements are read.

We have been very gratified by the numbers of people who have come to us from outside points in the Townships as the result of our advertising, showing that the Record is as much the home paper of the Townships around as it is of the city.

Yours very truly,

H. G. MUNRO, LIMITED,

## HEARD TALK ON RECENT STRIKE IN ENGLAND

Mr. E. L. Stewart Patterson, Who Was in England During Strike, Gave Some of His Impressions at Rotary Club Meeting.

"If the outcome of the British strike unshackled British labor, there will be in the end a great industrial gain and an improvement in the welfare of the country. Although the immediate loss to Great Britain is tremendous, it is impossible to over-estimate the benefits that must accrue to the whole world from the failure of the sympathetic strike in Great Britain."

This was the statement made by Mr. E. L. Stewart Patterson, superintendent of the Eastern Townships District of the Canadian Bank of Commerce, in addressing members of the Rotary Club at the New Sherbrooke House last evening on "Some Phases of England During the Recent Strike." Mr. Patterson had the unusual experience of being in England during the strike and was, therefore, in a position to deal with his subject in a very thorough manner, having information at his disposal which was acquired by personal observations and study of conditions. Consequently, Mr. Patterson's address was one of the most interesting which has been heard for some time past by Sherbrooke Rotarians, and he had no difficulty in keeping the attention of his audience during the entire time in which he addressed them.

Mr. Patterson divided his talk into three sections and dealt with each part in a very clear and instructive manner. On beginning his talk he dealt with the coal industry in England, then made a survey of England during the period of the strike and concluded by treating the more humorous side of the strike.

In discussing the coal industry in England the speaker remarked that this very important industry was managed in a most unsatisfactory manner. In England there are 3,000 separate mines, 1,500 companies and 4,000 landowners, he pointed out. One of the chief drawbacks to the industry, Mr. Patterson said, was that production per capita was limited and an employee was allowed to produce a certain amount and no more. Should he exceed this amount he was immediately called to account by the labor union or some other cower.

In speaking about labor organizations, Mr. Patterson declared that such organizations were perfectly useful and that a man was entitled to fight for what was justly his, but it was when they opposed economic laws and the laws of the land that labor organizations were failing in their objective.

### England During the Strike.

The subject of the address dealing with England during the strike proved to be most interesting. One of the features of this section of Mr. Patterson's address was the glowing tribute which he paid to the British people and the British nation in dealing with the very serious situation which faced them.

The organization adopted by the non-strikers and the extreme cool nature and solid common sense which was shown by the British people were characteristic of the British and indeed very creditable, the speaker said.

It was pointed out that the day the strike began Hyde Park was immediately put into use, and from here the milk and gasoline service for the whole of the city of London, with its population of 7,000,000, was supplied.

The manner in which the business people were conveyed to and from their work by voluntary workers, who had placed their autos or other vehicles at the disposal of the public, was also referred to and praised by the speaker.

Strike Although Serious Not Without Its Humor.

Although the strike was one of the most serious conflicts which Britain has been called upon to face for many years, it was not without its humorous incidents, and some of these Mr. Patterson made use of. Several different stories were told of actual incidents which occurred, and each story was thoroughly enjoyed judging from the laughter which filled the room.

Strike More Serious Than World War.

The recent general strike in England was more serious than the world war, Mr. Patterson remarked. To prove this statement he made reference to the outside help which the miners received, coming from the Bolsheviks of Russia and other sources, and remarked that this money was sent, not by the workers themselves, who had no money to spare, but by the Soviet Government in the hope of spreading Bolshevism. If the strike had not been conquered in England the entire world would have suffered, Mr. Patterson said, and it is due to the good sense of the British people that this situation did not result, he remarked.

Following Mr. Patterson's very interesting address he was thanked on behalf of the Club by Rotarians C. Hosmer and J. C. McConnell.

### Enjoyable Music Rendered.

One of the pleasing features of last night's regular meeting of the Rotary Club was the presence of Mr. Haggerty, who kindly acted as accompanist for the Club singing and also favored the gathering with several piano selections, which were thoroughly enjoyed.

During the course of the meeting a motion was very ably made by Rotarian D. A. McManamy, and seconded by Rotarian D. J. Salls, in which the thanks of the Club were extended to Rotarian J. W. McKee and his committee for the arrangements which were drawn up and carried out in connection with the Dominion Day celebration.

## TWO IMPORTANT COURT CASES HEARD TODAY

Case of Pierre Daniel Against Dr. Noel Was Taken En Delibere by Mr. Justice White.

Presiding in the Practice Court this morning His Lordship Justice C. D. White heard the Daniel-Noel case and the case in connection with the attempt to disqualify. Mr. G. E. Begin as a candidate for the Catholic School Board. Judgments were not rendered in either cases this morning.

The Daniel-Noel case was taken en delibere following this morning's session, while the school commission case was adjourned until July 14th. In the Noel case, it will be remembered, Dr. J. O. Noel, of this city, and Pierre Daniel, a farmer of Grandby, are at difficulties over the custody of a child at present in the possession of Dr. Noel and which is being claimed by Pierre Daniel, who is the father and guardian of the child's mother, who was a minor at the time of the child's birth. Dr. Noel was in attendance at the child's birth and it is claimed entered into some agreement with the young mother whereby he would keep the child but that she could secure it under certain terms. The guardian of the child, whom it is understood is its grandfather, now claims the young child, while Dr. Noel refuses to give it up.

In the Begin case, which is also attracting considerable interest, an attempt has been made to disqualify Mr. Begin as a possible candidate in the Catholic School Board election. In this case the petition for a disqualification was granted by the local prothonotary's office and as Mr. C. E. Bachand is a member of this office and also a member of the school board, the decision rendered by this office was contested by Messrs. Pameton and Boisvert, who are appearing for Mr. Begin.

## HUNTINGVILLE MAN GUILTY OF GRAVE OFFENCE

Orian Aldrick, Fifty-Six Years of Age, to Be Sentenced on Friday in Connection With Serious and Unmentionable Crime—Pleaded His Own Case.

Orian Aldrick, fifty-six years of age, of Huntingville, was this morning found guilty by Judge J. H. Lemay of a very serious and unmentionable charge in connection with his daughter and was remanded until Friday of this week for sentence. A rather unusual incident in connection with this case was the fact that the accused, who is the father of several children, did not engage a lawyer to defend him, but put his own questions to his three children who were called as witnesses.

The session this morning, which was heard behind closed doors, was rather brief, four witnesses and the accused being called to the box. Following the hearing of the evidence Judge Lemay said: "After having heard the evidence in this case I have not the least hesitation in finding you guilty of the very serious charge upon which you are appearing." It was then announced that sentence would be rendered on Friday.

### CITY BRIEFLETS

**FATHER AND SON BANQUET**  
Word was received this morning that Sherbrooke is to be honored by the visit of Dr. J. W. G. Ward, an eminent Montreal preacher, who three years ago occupied one of the most important pulpits in London, England, and since coming to Montreal has made a large place for himself in the life of Canada's great Metropolis. The time of Dr. Ward's visit has not been definitely fixed, but it will be at the end of February or beginning of March, 1927.

**WORK ON STREETS**  
Considerable work is being done by the city employees on the streets, clearing out the sewers and the drains at the sides of the streets. The two or three heavy rains lately have washed a great deal of mud, turf and other dirt down into the streets, and this process of cleaning was necessitated.

Many compliments have been heard in the past year or two on the greatly improved manner in which the city has kept its paved streets, especially the regular and thorough manner of washing them by hose and sprinkling by watering-carts. In this way these streets are kept looking new, clean and in better harmony with the many beautiful homes in the city.

**Y. M. C. A. CAMPERS HAVING A SPLENDID TIME**

A visit was paid yesterday to the Y.M.C.A. camp by some friends deeply interested in the camp and the welfare of the boys, when everything was found in splendid shape and the boys all apparently having a wonderful time. The campers were especially delighted to receive a large bunch of bananas, the gift of Dr. H. Spencer, who has always been interested in the activities of the Y.M.C.A. camp. The boys were also delighted to have the head pieces and loud speaker for the radio set so kindly loaned by Mr. Roy Wiggitt, and all were looking forward to the boat trip this afternoon, when all the boys will go to Newport on the Anthem and spend three hours in Newport.

In the absence of Miss White, the secretary, her report was read by Mrs. A. M. Sangster, and Mrs. Ernest Jones, the treasurer, gave her report. These reports were found satisfactory to the members of the clinic and the meeting was adjourned.

Among those who entertained in honor of Miss Hazel Bryan, prior to her marriage to Mr. Herman Conley on Saturday, were Mrs. L. Liddell and Miss M. Liddell, who entertained at their home, Goodhue street, at a miscellaneous shower. Games and a social time were indulged in until about eleven, when the bride and groom-to-be were presented with a large number of very pretty and useful gifts tied to a lacrosse stick, the groom's favorite sport. These were brought into the room by little Miss Florence Jones, of Quebec, and Master C. Conley. The hostesses then served very dainty refreshments. Again last evening their friends gathered together at the home of Mrs. E. Wall, Frontenac street, to do honor to the bride and groom-to-be. Games, dancing and a social time were enjoyed by all during the evening. Near the close of the evening a large basket, prettily decorated with pink and white, was brought into the room by little Miss Lillian Wall and Vada Bryan, and presented to the bride-to-be. This also contained a large number of gifts, tokens of the esteem of their friends. He has not been conscious since the accident.

**MR. BRAULT TO EXPLAIN HIS PLATFORM**

At a public meeting to be held in the City Hall public auditorium this evening at eight o'clock, ex-Mayor W. He has extended an invitation to his opponents, which include Messrs. E. Sylvestre and G. E. Begin to be present at this meeting and also explain their stand.

It is expected that this meeting will prove to be rather interesting, as judging from reports and the results of the nominations on Monday last there is considerable opposition in the Catholic School Board ranks regarding the election of commissioners.

### THE DUST CLOUD.

While the Sherbrooke-Stanstead highway has been treated with calcium chloride as a surface binder, other highways leading out of Sherbrooke are still in a deplorable state as a result of the clouds of dust which take all the joy out of motoring and likewise bear evidence to the steady destruction of the road's surface.

A large part of the Sherbrooke-Montreal highway was resurfaced this year, but the heavy traffic and the absence of oiling has resulted in the transfer of most of this new surface from the highway to the adjacent fields.

The gravel highway properly treated is durable and satisfactory. If left without some sort of binder to hold it in place it is a failure and a nuisance.

The Quebec Department of Roads will have to take hold of this matter seriously and find a solution if the gravel highway system is not to be destroyed.

Another feature, quite apart from the damage to the highways, is the damage to adjacent property from the dust cloud that covers crops and penetrates houses.

The dust nuisance of the unprotected gravel highways has become extremely serious as every motorist will testify.

### THE LATE DR. L. C. BACHAND.

An outstanding figure of the French community of the Eastern Townships has passed away in the person of Dr. L. C. Bachand, coroner of St. Francis District.

Dr. Bachand resided for many years in Coaticook where he took an active part in public affairs. Coming to Sherbrooke, he at once associated himself with civic affairs of the time. Serving in the Council and as Mayor he devoted much time to public business.

In declining health for a number of years he has continued to perform his duties as coroner, in an efficient and acceptable manner.

Of pleasing personality and kindly nature, Dr. Bachand had many friends. He was of the type that makes for good citizenship and all elements of the community will regret his passing.

### THEY THAT TURN THE WORLD UPSIDE DOWN.

(By Dr. Frank Crane.)

In the apostolic days it was said of the early Christians, "They that turn the world upside down have come hither also."

Since then the Christian doctrine has been steadily turning the world upside down.

It has upset dynasties, overturned thrones, and exalted the people. Old and firmly entrenched institutions like slavery and dueling have gone by the board, and the hope is stirring in the air of the world that war shall pass.

Recent dispatches from China say that the unrest in China originates in the many students who have acquired their education abroad and have come back to live in that country.

It has previously been stated by competent authority that there has never been a movement in China against tyranny and in favor of the welfare of the people that has not originated in the Christian missionaries.

Christianity is founded upon the principles of fundamental democracy. It proceeds upon the assumption that every man is worth while and that with the creator and ruler of mankind there is no distinction of class.

This idea slowly upsets all the hardened convictions of the human race. It is impossible for a people who have generally accepted the point of view of Christianity to resort to a system of government where any particular class is favored above the whole people.

Whether any particular form of Christianity, that is whether any particular church shall be successful in China or not, is a question that is open, but there is no question that once having accepted the fundamental point of view of the Christians, old institutions based upon privilege are bound to give way. Just what form this revolution will take depends upon circumstances, but the revolution is inevitable.—Cpt. 1926.

### PRESS COMMENT

#### THIS IS CRUEL.

(Blairmore Enterprise)  
Every now and then some one we haven't missed comes up and tells us he is back again.

#### THE "LAND BANK."

(Manitoba Free Press)  
If the "land bank" is competently administered it ought to be possible to lend money, on long terms, to farmers at a rate of interest to include repayments about equal to the ordinary annual interest now paid on short term mortgages. Unless this can be done the rural credits scheme will not be of much worth to agriculture; but if it is done there will be a great field of usefulness before the bank. In that event the prediction, now freely made, that only the Western Provinces will come into the scheme, will not long remain true.

#### THE CIVIL SERVICE.

(Hamilton Spectator)  
The shortcomings of the Civil Service Commission consist not in what it does, but rather what it cannot succeed in getting done. Recommendations may be of use, even if they are ignored—constant repetition might ultimately secure results; but until action follows there will necessarily be disappointment. Much remains to be done, and huge savings could be effected for the benefit of the public. The Commission must go on to the completion of the tasks which lie before it, undeterred by hostile criticism and the efforts of interested parties to destroy its usefulness.

#### WHERE DOES MONEY COME FROM?

(New York World)  
It is only twenty-five years ago since the automobile emerged as a commercial project, and today the manufacture of motor vehicles takes first place among American industries. The Bureau of Industrial Technology estimates our annual automobile bill at \$14,000,000,000. This makes an interesting comparison with the total business of our retail stores, which has been estimated at \$35,000,000,000. Computations of this sort are obviously subject to a wide margin of error, but it seems safe to conclude that, roughly, for every dollar spent for food, clothing and house furnishings we spend 40c on motor cars and their upkeep.

#### BUSINESS VS. THEORY IN RUSSIA.

(Christian Science Monitor)  
In the long run, however, economic laws conquer political theories. If Bolshevism and the development of the business and financial interests of the people are in sharp opposition, Bolshevism will fall. It may be maintained for a time by the force of bayonets, by the exercise of the dominant will of a few super-men, but it cannot long endure in opposition to economic forces. Already there is a notable recession from the strict letter of the communistic theory, and there is every indication that the steady pressure of business interests will materially extend this relaxation. But, at present, it seems to be the rule that just as the Russian business men seem on the verge of allying the distrust of the rest of the world, the Russian politicians step in and undo their work.

In the end business will win, but meantime the situation is costly to the world and ruinous to Russia.

#### VALUE OF RESEARCH WORK.

(Toronto Globe)  
The lamentably apathetic attitude of this country toward scientific research is frequently pointed out. Lack of necessary research assistance for industry is a standing subject with the Canadian Manufacturers' Association; it was referred to again at the recent annual convention. Men who understand how wealth is being created and employment is being provided in other countries, and the handicap under which Canada is laboring by comparison, cry out for an awakening which does not come. We are so busy scrutinizing little things that we fail to appreciate the large problems, a solution of which would wipe out many of the smaller difficulties.

It might amaze even the Canadian Manufacturers' Association to hear Dr. H. M. Tory state that such an organization as a Department of Science, Industry and Commerce "could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation." These are the words he used in an address which is published in the Toronto Board of Trade Journal. They emphasize what he regards as the relative importance of the two subjects. It is quite natural that, as President of the Advisory Council on Scientific and Industrial Research, he should be partial to that organization, but his arguments are highly convincing.

#### SYRIA.

(Boston Transcript)  
It is sadly evident that, in addition to the problem of governing themselves with successful reference both to their international obligations and their unbroken rule of the highest domestic order, the French people are confronted with a difficulty of great magnitude in the carrying out of their mandate to Syria. The French nation, in spite of traditional pride, in spite of their historic function as the protectors of the Christians of Syria, probably now wish in their hearts that the mandate for that country had fallen to the British, who wanted it when the adjustments of the peace treaty were made.

Syria is surely one of the most difficult of countries to govern. Its population is made up of people of four different religions, all fanatical. These religions are Christianity, Mahometanism, and the strange mixed faiths of the Drusks and the Maronites. Never, since the days of Christ and of Mahomet, have they been quite at peace with one another. Yet, strangely enough, they all seem to be agreed just now—with the possible exception of one element of the Catholic Christians—in opposition to the French rule. That rule has not, if the truth be told, been judicious up to date. Under the able but uncompromising and purely military rule of General Sarrail, who was recalled in semi-disgrace for acts of repression, the sympathies of virtually the whole population were alienated. Rebellious proceedings on a small local scale, but completely disturbing as a whole, are the rule throughout Syria. Damascus itself is in a state of revolt. The apparently peaceful citizen of today is the ambushed rebel tomorrow—nay, even by nightfall. The whole country is in a state of war. The condition of things parallels that in Cuba in 1898 before the American intervention, when, with 200,000 Spanish troops on the island, life and property were not safe in a single parish and all government was a mockery.

The late Mrs. Paquette was in her 27th year. The funeral was held at the United Church on Saturday, June 19th. Rev. J. G. Fulcher officiated, taking his text from the 8th chapter of St. Luke. Three hymns were sung by the choir, "Peace, Perfect Peace," "Rock of Ages," and "Some Day We'll Understand." The bearers were Messrs. Frederick Ollmstead, Jr., Lawrence Smith, Clayton Shuffelt and Ezra Noyes.

Mrs. Paquette leaves to mourn her loss her husband, two aged grandmothers, her father and mother, Mr. and Mrs. Arthur Bennett, and a brother, Gordon Bennett and sister, besides other relatives.

**MR. ISAAC LINDSAY, SAWYERVILLE**

SAWYERVILLE, Que., July 7.—In the passing of Mr. Isaac Lindsay on June 27, one of the oldest men, in the county closed a most useful and exemplary life.

At the age when most men are turning over their affairs to younger men, Mr. Lindsay was active and still enjoyed life with much zest, for at the age of ninety years he still continued to drive both his horse and auto. He has held many positions of trust in the public affairs, and will long be remembered by those who knew him well, for his kindly disposition.

Mr. Lindsay's ancestors were the first settlers of East Clifton, when his grandfather, Isaac Lindsay, came from New Hampshire to the then wilderness in 1800, and made for himself a home, and for two years was the only white man there. Another settler came, who remained only a short time when he sold his place to Abraham Lindsay who was the father of the late Mr. Lindsay.

He was born at East Clifton on April 5th, 1835, the younger son of Abraham and Hannah Blake Lindsay. His older brother Levi died many years ago. His mother, Hannah B. Lindsay, lived to the great age of ninety-seven years. Mr. Lindsay was married January 12, 1856, to Clara M. A. Jordan, who died February 16, 1901, at the age of sixty-five years. Born to them were ten children, five of whom survive him, Walter, who lives in Sawyerville; Estella, now Mrs. E. R. French, of Sawyerville; Thresa Maria, now Mrs. J. H. Meeker, of Somerville, N.J.; Norton, of Woodville, N.H.; Mabel, Mrs. J. G. Hough, who has never lived. Mr. Lindsay had twenty-two grandchildren and seven great-grandchildren.

All of his loving children were present at his funeral as well as some grand children, which was held on Monday, June 28, 1926, at his home on the farm, where he spent most of his life, tenderly cared for by his daughter, Mrs. J. G. Hough. The interment took place in the Eaton Cemetery beside his wife.

**MRS. A. J. DYER, SUTTON, QUE.**

SUTTON, QUE., July 7.—The funeral of the late Mrs. A. J. Dyer was held on June 11th, Rev. H. Charters officiated at the home of Mr. and Mrs. L. E. Dyer. Mrs. Dyer, whose maiden name was Salome Hardy, was born in Cornish, N.H., on August 16th, 1843. She was married to Mr. Albert J. Dyer about fifty-three years ago. Up to her retirement from business they purchased a house in the village where the late Mr. Dyer resided till about two and a half years ago, when she suffered a paralytic shock. The doctor's verdict being that she might not recover, she was removed to the home of Mr. and Mrs. L. E. Dyer, where all that thought and kindness could be done to make her last days happy and comfortable. Mrs. Dyer was an active member of Grace Church, and was not only an ardent church worker, but was energetic in all good works. Among the many floral tributes sent was one from the W.C.T.U. of which society she had been an active member for many years and of which at the time of her death and for several previous years she was honorary president. The bearers were Messrs. E. N. Ford, H. Darrah, C. Shepard and E. Curley. Mrs. Dyer leaves to mourn her loss one brother, Mr. Wm. J. Dyer, of New Haven, Conn.; four nieces, Misses Lizzie Bryant, Bertha Hardy, Mary and Gertrude Knight, and one nephew, Sam Hardy, who is a noted actor. Mrs. Dyer was laid to rest in Fairmount cemetery beside her late husband, who predeceased her many years ago.

REDS PUT OVER  
WINNING TALLY  
IN ELEVENTHPitt's Homer Tied Score in Ninth  
—Pirates and Cubs Split a  
Double Bill.

(Associated Press Despatch)  
NEW YORK, July 7.—Joe Bush, the "bullet" of the world's series of 1913 between the Mackmen and Giants, has started his work as a national leaguer. Bush, dropped by the Senators recently, appeared on the mound for the Pirates against the Cubs yesterday in the first game of a double header and encountered Blake, on none of the Chicagoans' best days. The results was a defeat for Pittsburgh 3 to 0, with Blake permitting only four hits.

But Meadows was even stronger in the second contest and gave the world champions a 3 to 2 decision. Three hits was the best the Cubs could do against the bespectacled one.

The league leading Reds required eleven innings to defeat Grover Cleveland Alexander, of the Cards, 5 to 2. Until the ninth Alec was invincible, but in that frame Pipp smashed out a homer that tied the game at 2 to 2 when Christensen scored ahead of him. Pothergill and Hellmann tried desperately to halt Detroit's losing streak, now run to five games, by hitting homers, but the Browns downed the Tigers 5 to 2. Sisler also hit for the circuit.

Blankenship was hit rather freely in Cleveland's last appearance of the season in Chicago, but turned back the Indians 3 to 0, with excellent and opportune hitting behind him. Mostil, Hummel and Falk each had three hits. George Burns, Cleveland first baseman, has left for home with a broken rib as the result of being hit by a pitched ball in the first game of Monday's double header.

## MAJOR LEAGUE LEADERS

The major league leaders to date are as follows:  
National League.—Batting, Bressler, 377; runs, Blades, 60; hits, Cuyler, Pirates 104; doubles, Wheat, Robins, 24; triples, Wright, 12; homers, Wilson, Cubs, 11; stolen bases, Frisch, Giants, 12; pitching, Rixey, Reds, won 7 lost 1.

American League.—Batting, Ruth, Yankees, 382; runs, Gehrig, Yankees, 78; hits, Palk, White Sox, 113; doubles, Burns, Indians, 34; triples, Gehrig, Yankees, 14; homers, Ruth, Yankees, 26; stolen bases, Meusel, Yankees, 14; pitching, Shuster, Indians, won 7 lost 2.

## CLEVELAND FIRST BASEMAN INJURED

(Associated Press Despatch)  
CHICAGO, July 7.—George Burns, first baseman on the Cleveland Indians, left here last night for Cleveland with a broken rib which will keep him out of the lineup for several days. Burns was hit by a pitched ball in the eighth inning of the first game of Monday's double header and attempted to play in the second game. Ted Lyons was pitching for the White Sox when Burns was hit.

## ROTARY BOYS AND COTTON MILL TEAM TO MEET SATURDAY

Their first game, played about three weeks ago, was won by the Cotton Mills and on Dominion Day the Rotary Boys twice trimmed the Cotton Mills.

## RESULTS OF LAST NIGHT'S BOUTS

The results of the fights last night are:

Newark.—Dave Shade, California welterweight, was awarded a decision over Lew Chester, of Philadelphia, in twelve rounds.

Jersey City, July 7.—Ted Moore, of England, won a decision over George Smith, of Newark, in twelve rounds.

## NEW CHAMPION WEDS

(Associated Press Despatch)  
ROCKFORD, Ill., July 7.—Sammy Mandell, new lightweight champion of the world, and Miss Elizabeth Hemming, daughter of Mr. and Mrs. Charles M. Hemming, of Rockford, were married last night at the home of the bride's parents. When applying for a license, Sammy gave their ages as "legal".

INVESTIGATION  
OF THE CUSTOMS  
DEPARTMENTPremier Says Government Going  
as Far as It Can Under Reso-  
lution Passed by House.

(Associated Press Despatch)  
OTTAWA, July 6.—The government is taking steps to proceed with the investigation of the Department of Customs and Excise. At the conclusion of today's cabinet meeting, Premier Meighen said that the government was going as far as it could under the resolution passed by the House of Commons. The selection of the judge who will conduct the investigation rests with the two judges of the Exchequer Court of Canada.

## Premier Likely to Open Campaign At Ottawa

OTTAWA, Ont., July 6.—Premier Arthur Meighen may fire the first gun of his campaign in Ottawa. While it is premature for any announcement or decision on this point, it is not improbable that the Premier will address his first meeting here.

While the Premier's speaking itinerary has not yet been arranged, his tour, it is understood, will probably carry him from coast to coast. A number of meetings will be addressed by Mr. Meighen in the Province of Quebec, it is definitely announced.

The question of providing sufficient supply for carrying on the business of the country is, it is understood, under consideration of the cabinet, which met this morning.

Its authority to grant supply by way of Governor-General's warrant is given under section 42B of the Audit Act. Under this section, the Governor-General by way of warrant may, when parliament is not in session, grant supply for civil administration and for public works reported to be matters of urgency and for the public good.

Two precedents exist for such action. At the time of the election in 1898 only a limited supply was available and a warrant was issued making the necessary provision for expenditures. Again, in 1911, when Sir Wilfrid Laurier went to the country on the reciprocity pact, the then Leader of the Opposition, Sir Robert Borden, agreed, it is understood, to supply for a certain time. A warrant was granted in this instance also providing money for expenditures to carry on the country's affairs.

There appears little doubt that in so far as expenses for civil administration are concerned, these will be provided without any delay or inconvenience to the recipients. The work of reorganization of the Customs Department is engaging the attention of Hon. H. H. Stevens, acting Minister of Customs already. Mr. Stevens has announced that "Mounties" were being placed at all vulnerable points along the border.

## HIGHWATER

The ladies of the Highwater Women's Institute held their sale of fancy articles, ice cream, homemade candies in front of the government building on Saturday, July 3rd. The whole affair was a great success from start to finish. The weather and roads were ideal and the tourists out in full force, as a consequence of which the ice cream and candy were soon at a premium. There were a number of useful and beautiful articles of fancy work disposed of and the fish pond for the children was greatly enjoyed. The three pieces that tickets were sold on were won as follows: The quilt by Mrs. G. G. Griggs, of Highwater; hand-embroidered bedspread, Mr. Arnold Heath, Mansonville; and the all-linen hand-embroidered luncheon set by Mrs. O. J. McNeil, McNeil's Crossing. What fancy work and cakes there were unsold at the finish were auctioned off by Mr. P. Hamelin. Receipts of the day totaled \$110.60, which the ladies think pretty fair for a society of only seven active members. The ladies will at once get busy on the new public hall they are planning to build.

Friday, George Levine, who gained the forefront several months ago by defeating the British champion, Tommy Milligan, will be Latzo's opponent in a fifteen round contest to a decision.

## ROCKY KANSAS ANXIOUS FOR RETURN BOUT

## U.S. AMATEURS AND PROS PLAY TODAY

(Associated Press Despatch)  
COLUMBUS, O., July 7.—The Scioto Country Club course, its fairways and greens freshened by the recent rain, was in excellent condition today for the opening event of the 1926 national open golf championship—a best ball match of eighteen holes between amateurs and professionals. The affair was postponed yesterday when rain came down in torrents. Bobby Jones and his Atlanta partner, Watts Gunn, are paired to go out with Walter Hagen and Willie MacFarlane, the present national open champion. They are in the first foursome.

MONTREAL LIVE  
STOCK MARKET  
QUOTATIONSPrices Paid for Cattle and Other  
Live Stock at the Montreal  
Stockyards—Other Details.

(Associated Press Despatch)  
MONTREAL, July 7.—With but 48 calves, 16 lambs, 15 hogs and 37 calves received on the two markets this morning, there was no change in prices. Good veal calves were quoted from \$8.50 to \$9.50, with choice ones picked out a shade better. Lambs were from 15c to 17c per pound and hogs \$15.25 to \$15.50 for good quality lots. There was very little demand for cattle today.

## COATICOOK

On Tuesday evening, June 29th, Mr. and Mrs. Henry Elliott, Victoria street, were the hostesses of an "at home" to their friends and neighbors in honor of the Rev. and Mrs. Robert Vaughan, prior to their departure for Portsmouth, N.H., where they intend making their future home. There were about forty-two present, including the Rev. W. F. Wornell, pastor of the United Church, and Rev. Grover Tyler and Mrs. Tyler. The evening was spent very pleasantly with games, music and social intercourse. The guests of honor were the recipients of a purse of money from the congregation and friends, the presentation being made by Mr. Henry Elliott. The Rev. Mr. Wornell and Rev. Grover Tyler addressed a few words to the guests of honor and Mrs. F. Baldwin expressing her appreciation to Mrs. Vaughan as being a member of the W.C. T.U. Mr. and Mrs. Vaughan have made many warm friends during the past nine years, and will be greatly missed by their friends and neighbors. Mr. and Mrs. Vaughan responded to the toasts in a very able manner, expressing their appreciation during their past stay. Into the early hours of morning ice cream, cake and sandwiches were served.

The friends of Mr. E. Meunier will be pleased to know that he is able to sit up in bed.

Miss Carrie Elliott, of Ayer's Cliff, was in town to attend the "at home" of Rev. Mr. and Mrs. Vaughan.

The Misses Nellie and Mary Bayley, of Waterville, and Nurse Goulet, of Montreal, were calling on Mr. Mary Wilson recently.

Mr. W. B. Best, of Winnipeg, Man., has been calling on friends in town recently.

Mr. and Mrs. Frank Hammond and Mr. and Mrs. Leigh Chase of Colebrook, N.H., were recent visitors of Messdames Wilson and Loring, Maple street.

Mr. and Mrs. Guy Haines and two sons, of Beecher Falls, were in town on Tuesday.

Mr. Louis Belanger and Mr. Lennoxville, were recent guests of the former's grandparents, Mr. and Mrs. Chas. Gill, Maple street.

Quite a number of the Middletown people of the United Church attended the Sunday school picnic at Burroughs Falls on Tuesday.

Mr. Wm. Bean was in Sherbrooke on Wednesday.

Miss Hilda Akhurst and Miss Caroline Armistage and Mr. P. H. Armistage motored to Montreal recently.

Mr. and Mrs. Wilfred Aldrich and children, of Groveton, N.H., were recent guests of Mr. and Mrs. Scott Dresser and Mr. and Mrs. Frank Sage, Compton street.

Mr. and Mrs. Scott Dresser were calling on friends in Dixville recently.

## WOODLAND BAY

The month of June was a very quiet one at the Bay, the unsettled weather keeping the early comers away. However, during the past week several cottages were opened and on Dominion Day quite a little stir was occasioned by the arrival of the Quebec Central special train bearing over three hundred picnickers. Favorable comment was passed by the residents upon the happy family spirit prevailing among the cutting party, and those in charge were pleased with their choice of a picnic ground for the railway employees and their families.

Mr. Albert Blier, of Sherbrooke, has opened his cottage, "Restwell", for the summer, having with him Miss Blier, of Waterville, and the little Misses Audrey Walker and Kathryn Soles, of Sherbrooke.

Mr. and Mrs. Bartley Holtham, of Sherbrooke, have taken up their residence at Rock Terrace, and Mr. Haight and family have opened Thandara for the season.

Mr. Barot's family, from Sherbrooke, are at Port Hugh for the month of July.

Mr. F. E. Holtham's family and guests will spend most of the summer at Lakeside, while others from Waterville and surrounding district will come to the Bay for their holidays.

Mr. and Mrs. Shepard, of Somerville, Mass., will spend the summer at Castlewood, while Mr. and Mrs. Wm. Shepard, of Hudson, Mass., will reside at Dunrover again this season.

A lady from Missouri who spent last summer at the Bay sent Mrs. Bertha Price some iris bulbs last fall. Mrs. Price planted them in October, and they are now in bloom. This brings up the question, what's wrong with our climate?

## NICOLET FALLS

Mr. and Mrs. Cliff MacDonald, of Lacada, N.H., are the guests of Mrs. Wm. Byrd for a few days. Miss Gwen Elliott is at Leeds Village, the guest of Miss M. Lefebvre. Mrs. Howard McKee is spending some time in Maxville, Ont., the guest of her parents.

## ROSENBLOOM'S REASONS WHY I SHOULD TRADE AT HOME

- because my interests are here.
- because the community that is good enough for me to live in is good enough for me to buy in.
- because I believe in transacting business with my friends.
- because I want to see the goods.
- because I want to get what I buy when I pay for it.
- because every dollar I spend at home works for the community in which I live.
- because the man I buy from stands back of the goods.
- because I sell what I produce here at home.
- because here I live and here I buy.
- because the man I buy from pays his part of the town, county and provincial taxes.
- because the man I buy from helps support my school, my lodge, my church, my home.
- because when ill luck, misfortune or bereavement comes, the man I buy from is here with his kindly greeting, his words of cheer and his pocketbook, if need be.
