Sir Wilfrid's Triumphant Tour Nearing its Close

The Premier Was Given an Enthusiastic Welcome by the Liberals of Three Rivers and St. Maurice on Saturday Afternoon.

Three Rivers, Que., Oct. 31.—(Special.)—Thousands of citizens met Sir Wilfrid Laurier at the railway station on his arrival here Saturday afternoon and escorted him to the hotel where he was to dine. At the head of the procession was the town band and on either side of the leader's carriage were an escort of horsemen. Many prominent citizens were in carriage, while the great crowd marched along on foot, vigorously cheering.

would benefit the city and country because it would pass through and open up to development the great valley of the St. Maurice. By the Government's scheme the people would pay interest on the cost for seven years, after which the plan of the Opposition would entail their paying this interest indefinitely.

LORD ROSEBERY AND SIR W. LAURIER

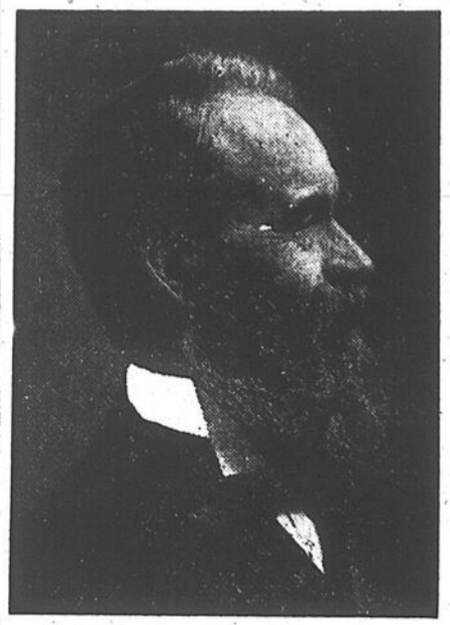

The Ex-British Premier Eulogizes His Policy in Regard to the Empire.

(Canadian Associated Press Cable.) London, Oct. 31.—Lord Rosebery, at Trowbridge, said: "I observe Sir Wilfrid Laurier's utterances make very cautious and very guarded statements, purposely vague statements, as to his general wish for commercial relations between the Mother Country, and Canada."

SUDDEN DEATH OF MR. DECARIE, M.L.A.

Mayor of Notre Dame de Grace for Twenty-Eight Years.

Mr. Daniel Jeremie Decarie, M.L.A. for Hochelaga, died at his home, Notre Dame de Grace, a few minutes after midnight. Although he had been in poor health for some time, nothing serious was anticipated, and his death last night was quite unexpected.

THE LATE MR. D. JEREMIE DECARIE, M.L.A.

In 1876 he was appointed president of the Notre Dame de Grace School board, and in 1888 he became mayor of Hochelaga County. Mr. Decarie was one of the most extensive farmers on the Island of Montreal and for twenty-eight years had been Mayor of Notre Dame de Grace. He was a prominent figure in Liberal circles and since 1887 had been the representative of Hochelaga in the Legislative Assembly. He was married in 1869 to Philomene, daughter of Louis Leduc.

DRUNKEN BARREL ENDED IN DEATH

Notre Dame Car Ran Over Two Men Fighting On the Street.

As the result of an afternoon's picknicking which ended in a fight last night, William Parks, a glassblower by trade, thirty years of age, is dead, and Donald Lamont, his companion, is lying at Notre Dame Hospital, suffering from severe internal injuries. The two were fighting last evening about 6:30 on Notre Dame Street near St. Raymond, and had fallen to the pavement, when an electric car crashed into them. An ambulance was at once called up two other glassblowers, Notre Dame Hospital. His wounds consist chiefly of bruises and internal injuries, which will not result fatally. Parks' body was removed to the morgue where an inquest will be held this afternoon. In his pockets were found a gold watch, \$150 in cash and a diamond ring.

The story of the accident is briefly as follows:—Park, Lamont and James Kane, glassblowers from Stubbenville, Ohio, who boarded at 501 Demoreux Street, hired a horse and carriage yesterday afternoon about 1:30 from Dominique Ahele, 265 Panet Street. They drove to 906 Demoreux Street, where they picked up two other glassblowers, George Zimmerman, seventy-five years of age, and his son, Julius Zimmerman, aged thirty-eight. The party drove to Maisonneuve, and spent the afternoon drinking.

When they left Maisonneuve to return to the city, at about 6 o'clock, the entire outfit were drunk. Drawing up on Notre Dame Street a quarrel arose between Lamont and Parks, and the two got out to settle the affair in the street. The car was approaching from the rear, and Julius Zimmerman and Kane also got out. As the two men were rolling on the ground, car No. 458, of the Montreal Street Railway, arriving in charge of Motorman Lafrance and Conductor Barre. Inspector Richer, of the M.S.R., was standing in front with the motorman, when the car struck the two men lying on the ground. The car struck the two men lying on the ground, and the driver, who was in the buggy heavily drunk, was taken into custody and lodged in No. 11 police station. An inquest was held this afternoon at the morgue, whither Parks' body had been taken.

RESIGNATION HAS BEEN ACCEPTED Mr. Blair No Longer Presides Over Railway Commission.

Ottawa, Oct. 31.—(Special.)—Hon. Andrew G. Blair is to-day removing his personal effects from the office he occupied in the quarters of the Railway Commission. On Saturday afternoon he received word that his resignation had been accepted. Mr. Blair is going to St. Louis the latter part of this week. He says the trip will be one of combined business and pleasure. At the conclusion of his southern tour, Mr. Blair is likely to take passage and spend some months in Europe. What his mission is he declines to state.

A SENSATIONAL STORY ABOUT PRINCE OF WALES London, October 31.—In an article evidently calculated to create a sensation, Reynolds' newspaper says that it is common gossip in the vicinity of Sandringham Castle that the Prince of Wales is afflicted with consumption. The Prince the paper states, has frequently been examined by a physician, and it is known that the subject of their examination was the condition of his lungs.

REMOVAL OF CANAL TOLLS HAS STIMULATED TRADE Ottawa, October 31.—The commerce of Canada has flowed more freely through the canal since the tolls were removed than ever before. Some months ago the tolls were \$100 per ton, and in 1902 the canal passed 7,513,000 tons, and \$225,000 was collected in tolls. In 1903 the volume of business in the canal had increased to 3,203,000 tons, and tolls had been collected they would have amounted to \$325,000. This sum of money was saved the shippers. This year the tolls are to be removed, and the tolls to the shippers consequently greater.

BANK OFFICIAL DEAD. Belleville, Ont., Oct. 31.—(Special.)—Mr. Edward Milburn, teller of the Bank of Montreal, Belleville, here on Saturday morning from lung trouble. He was 24 years of age, and the only son of Mr. E. F. Milburn, principal of the Belleville High School. He had also been stationed at Peterboro and Lindsay, and was a most popular young man. He was married to Miss Gertrude Kenyon, of Guilford, last March. The funeral took place to-day.

ORNAMENT TO CHAMPLAIN. St. John, N. B., Oct. 31.—If the Loyalist Society can raise \$5,000 it can erect in St. John a statue of the great explorer, Samuel de Champlain, that will be as permanent as any statue to be seen in any of the Canadian cities. The total cost of the statue will be \$10,000, but the Dominion Government is ready to pay one-half of the amount. The money has been voted, and is available whenever the Historical Society of St. John is prepared to ask for it.

MIZPAH W. C. T. U. The Mizpah W. C. T. U. held a silver medal eulogium contest in the basement of Chalmers' Church last Friday evening. Rev. Mr. Huxtable presided, and presided with prayer. Mr. Robert Blecker, who acted as chairman, spoke briefly on the temperance question, and urged the "young idea" to force its way into the hearts of the following ladies and gentlemen kindly contributed to the musical programme: Mrs. Creed, Miss E. King, Miss Ferguson, Mr. Dumbrell, and Mr. North. Prof. J. T. Edwards, who was accompanist, rendered a pleasing piano solo. The contest was won by Miss Patterson, who in the course of his remarks said that all the contestants displayed marked abilities, but that Miss Patterson excelled in the best estimates of the total vote that will be polled at the election.

THE GLOBE'S COMMENT. (Canadian Associated Press Cable.) London, October 31.—The Globe comments on Lord Rosebery's speech and says to contend that the colonies do not want a conference is to imply a belief in the stupidity of men who read their newspapers.

The Pall Mall Gazette says there is no ground whatever for so unflattering a picture as Lord Rosebery elects to draw of the temper of the colonies. The Westminster Gazette says Lord Rosebery is perfectly right in suggesting that if we begin with food we must go on to tax raw material and that we cannot give any great benefit to Canada without devising corresponding benefits for Australia.

MANY LIBERAL REWARDS. Those who take an interest in politics will read with pleasure the liberal offers of rewards to those who send the closest estimates of the total vote that will be cast in the Dominion Elections on November 3rd. The Calcule Company in offering these rewards to stimulate the interest taken in the elections.

JAPANESE DEMAND FOR CANADIAN FLOUR GROWS Ottawa, Oct. 31.—(Special.)—For the first six months of the calendar year amongst Japanese imports, flour stood alone as the representative of Canadian trade, but the increasing importations of that article saved the situation from discouragement. During the eight months from January to August 70,822,398 pounds of flour, valued at \$31,755, were brought in from Canada, as compared with 448,701 pounds, valued at \$5,940 for the same period of the year previous. This large increase is attributed to the display made by Canada at the Osaka exposition last year. It is remarkable how widespread has been the knowledge that Canadian flour makes better bread and more of it to the barrel, than does the United States variety.

IMPORTANT TO THINKERS. He who runs may read; he who thinks can win. He who thinks for a few moments, and reads the advertisement of the Calcule Company carefully will realize this. This Company is offering a rare opportunity to secure one of the many handsome rewards that they are offering to those who send them the nearest estimate of the total vote that will be polled on November 3rd.—Adv.

At St. James Cathedral on Saturday morning Archbishop Bruchesi officiated at an ordination service. Were ordained to the priesthood: Rev. H. Valois, of the diocese of Quebec, and Rev. O. A. Chapleau, of Montreal; received minor orders: Rev. J. Cronan, of Lacrosse, Wisconsin; Rev. D. F. Sullivan, of Boston, and Rev. J. A. O'Reilly, of Kingston.

AN INTERESTING PROBLEM. A great interest is being taken in the contest inaugurated by the Calcule Company, who are offering a number of prizes to be awarded to those who send in the best estimates of the total vote that will be polled at the election.

THE MIGHT GAMBLE
Worcester Woman, Formerly Active Church Member, Sinned for Lover.

Worcester, Mass., Oct. 31.—Judge William B. Stevens, in the Superior Criminal Court, has pronounced sentence in the case of Miss Annie M. Lawrence, charged with receiving stolen property. The woman was sentenced to reformatory prison for two years in the House of Correction. In accordance with custom, Miss Lawrence will be free in about ten months.

The case has attracted a great deal of attention. Miss Lawrence, who is a member of a prominent Worcester family, was a confidential bookkeeper for Oscar F. Rawson, a tobacco dealer and railroad ticket agent. Mr. Rawson discovered last January that forgeries of notes and unauthorized use of checks extending over several months had been robbed of between \$4,000 and \$5,000. Coincident with the discovery of the loss Miss Lawrence fled from the city. The police could get no trace of her for some time, and she was communicated with herself and announced her desire to give herself up. She was found in Philadelphia, and brought to Worcester, where, on August term of court she pleaded guilty.

Baldwin was formerly a street railway conductor. The woman gave him the money she had stolen and he invested and lost it on horse races. He did not leave the city and when arrested said he supposed Miss Lawrence was giving him money that was her own.

Miss Lawrence, when called for sentence, testified that she was thirty-four years of age and that she had loved with Baldwin, who is twenty-six years old. Until eighteen months ago she was a church member and active in church work.

SEPARATION PROGRAMME OF PREMIER COMBES

Government Measure Presented to Chamber of Deputies—Embassy to Vatican Suppressed.

Paris, October 31.—Premier Combes on Saturday presented the Government's programme for the separation of Church and State to the Chamber of Deputies. The measure embraces twenty-five articles, which do not differ materially from the Combes measure heretofore prepared. Some of the chief features of the Government's bill are as follows: Instead of making an outright separation of Church and State, the Combes measure provides for a period of transition, with the view of the organization of new church conditions, and allows the clergy an indemnity of 400 francs for four years following the separation, in order to permit of their making new arrangements for the private support of their families. A system of pensions is provided for the dignitaries of the church, according to age and position. Provision is made for public and religious institutions on the streets and highways; the general supervision of cults is retained. The French embassy to the Vatican is suppressed, and the detailed provisions for carrying out the new regime.

OBITUARY

Digby, N.S.—Mrs. Helen Chatham, widow of the late Isaac Chatham, died at her home in Digby, aged eighty-seven years, as the result of a fall, two weeks ago. She is survived by one son, Charles Chatham, of St. Louis, Mo.

Digby.—Mrs. John Chaloner died at her home, Montague Street, aged sixty-six years. The deceased is survived by two sisters, Emma and Mary Snellie, of this town, and by her husband, an adopted daughter, wife of Rev. A. M. Hill, of Fairville, N.B.

John, N.B.—The death occurred of a former St. John lady, Mrs. Helen Chatham. The deceased was in the advanced age of eighty-seven years, but her death was caused from a fall two weeks ago. She is survived by one son, Charles Chatham, of St. Louis, Mo.

Halifax, N.S.—The death occurred at the Victoria General Hospital of Captain James Dooey, who for many years past had charge of the Marine Barracks house, at the entrance to Halifax harbor. He only took ill a few days ago, while at his post. Paralysis was the cause.

Glencoe, Ont.—Mr. Jos. M. Tait, dry goods merchant, and for many years a resident in this town, was found dead in a chair in his apartments. Mr. Tait was president of the Glencoe Liberal Association and financial agent in the present campaign of W. S. Calvert, ex-M.P. He was also a warm personal friend of W. S. Calvert.

St. Catharines, Ont.—Samuel D. Woodruff, one of St. Catharines' oldest and wealthiest residents, is dead. Mr. Woodruff was 86 years old, and for twenty-eight years was superintendent of the Welland Canal. He leaves four sons, Alfred S., Hamilton K., and Welland D., of this city, and Dr. Thomas Woodruff, of Chicago.

Ottawa.—Word was received of the death in New York city of Mr. Harvey D. Parker, son of Mrs. F. X. St. Jacques, of Ottawa. Mr. Parker was twenty-one years of age and an earnest student of great promise, possessing all the qualities which bring success. He was a traveller for a big wholesale stationery house and was on a tour in Canada to the Southern States when taken ill.

St. Catharines, Ont.—In the death of Mr. Samuel D. Woodruff, St. Catharines loses another of the old residents of this city. Mr. Woodruff was born in 1819. He was appointed assistant to the late Hon. Hamilton Kilaly, superintendent of the Welland Canal, and on the appointment of the latter as Minister of Public Works for Upper Canada, Mr. Woodruff succeeded him as superintendent of the canal, and filled the position for twenty-eight years.

Toronto.—Death came, not unexpectedly, to Mr. David Mutchart, 405 Manning Avenue. Deceased has been unwell for some time, and being in his seventy-sixth year it was known he could not long survive. Mr. Mutchart was a native Canadian, of Scotch parentage, and born in Streetsville in 1829. His parents immigrated to Canada with William Lyon Mackenzie, with whom they were always friends. Mr. Mutchart was a photographer, and did business in Fergus and Georgetown in early days, and later in Milton, where he lived about twenty years, until finding his health failing he removed to Toronto in 1898.

BAND COURT-MARTIALED.

Victoria, Oct. 31.—(Special.)—Bandmaster Finn, of the Fifth Regiment C.A., has been court-martialled in consequence of friction over the World's Fair tour. He will resign, and all the band with him.

Mrs. Turner and Miss Turner of Leamsville who have been visiting Mrs. Wyatt Johnson at Outremont, have returned home.

THEATRE OVERFLOWS WITH GRAND OPERA

Tremendous Overhauling at His Majesty's for Staging Savage's Shows.

The special train bearing the Savage English Grand Opera Company, arrived in Montreal last night and transfer wagons have been busy all day hauling in the big production of "Lohengrin," with which the opera festival opens on Monday night. Mr. Savage's working staff arrived Saturday and took possession of the stage immediately after the final performance of the "Chinese Emperor," to make the many alterations necessary to accommodate the large grand opera productions for this week. Mr. Edwards put on special force workmen who removed the first three rows of seats from the orchestra, tore down the orchestra rail and constructed a new orchestra, and a large number of forty musicians that will be heard during the week. A complete overhauling not only of the stage, but also of the dressing rooms, property rooms, and wardrobe rooms to make space in order to accommodate the immense equipment of the Savage Grand Opera Company, was found necessary, and when the company explored the theatre the stage was noisy and busy with the force of costumers, property men, and the big organization. The grand opera costumes containing 2,000 costumes, hundreds upon hundreds of shoes, tights, helmets, suits of armor, and all the paraphernalia required for the accurate picturing of the different operas, were hauled into the theatre, every available foot of space being packed and jammed with the grand opera Company's effects.

BROUGHT FROM CARS EACH DAY. Of course, no stage is large enough to accommodate such productions as will be shown this week, so that big transfer vans will necessarily be hauling back and forth from the cars every day this week. The production being taken out as soon as it is done with, and a new one substituted for the following performance.

Conductor Elliot Schneck and Chelva Emanuel were at the theatre early this morning with the Savage Grand Opera orchestra, placed the musicians as they sit during the performance, and a representative audience will be on hand to welcome the English singing artists when the curtain rises, exposing the valley of the Scheidt, for the first act of the opera.

There is a large advance sale of seats, and the week promises to be a financial as well as an artistic success.

THREE LIVES LOST IN TRAIN WRECK

Rear End Collision Between Two Sections of World's Fair Train.

Kansas City, Mo., Oct. 31.—Three persons were killed and twelve injured in a rear-end collision between sections of the World's Fair special at Tipton, Mo., early yesterday.

The first section left St. Louis for Kansas City at 10 p.m. The second section left a few minutes later, and was running thirty miles an hour when it reached Tipton, where the rear of the first section struck the Pullman car Topaz square, splitting it for two-thirds of its length, and all of the fourteen passengers in the car were either killed or injured. There were twenty-five passengers in the next car ahead, and although all were badly shaken up, only a few were injured seriously.

The blame, according to Superintendent W. J. McKee, rests with the engineer of the second section. They were running twenty-five miles an hour, when the superintendent said, they should have had their train under control.

Why Appendicitis? Because we have got into the pernicious habit of eating too much of the rich, greasy, and indigestible food of this age. Appendicitis often follows the eating of a very heavy, or particularly large or indigestible meal.

After carelessly following a foolish custom, you can ensure your safety by taking Stuart's Dyspepsia Tablets.

They admit of no dispute that if you will only keep your digestive apparatus in good order, you will never suffer from this dread disease, which, at best, means a weakening operation, with long weeks wasted in bed, and big doctor's and surgeon's bills to pay as souvenirs.

Keep your appendix in health by the proper use of Stuart's Dyspepsia Tablets, whenever you have laid yourself open to danger by overeating, and upon the least sign of stomach or intestinal trouble, for otherwise, at any time, this dangerous disease may lay you low.

The curative influence of this great medicine is quickly shown in the gentle, soothing effect it has on all the conditions of any part of the digestive tract.

Stuart's Dyspepsia Tablets tone all these parts up to a proper condition for fermenting, rotting, curdling, and assimilating food, and regulate its functions into a proper working state. They also make away with all the causes of irritation, inflammation or indigestion, by helping to dissolve, digest and assimilate, or put to proper use, all the food which is lying around in odd corners of your digestive apparatus, fermenting, rotting, curdling like so much garbage in a dirty sink.

In these natural and perfectly simple ways, Stuart's Dyspepsia Tablets restore all sufferers from any form of digestive trouble to health.

They are safe and reliable. They never fail to relieve and cure, quickly and permanently.

Use them, as you need never worry about your appendix verminiformly.

WINDSOR MILLS WILL BE TERMINUS

Orford Mountain Line Extension Will Connect With C.P.R.

Kingsbury, Que., Oct. 31.—(Special.)—The Orford Mountain Railway Co. have for some time had fifty men working on the extension of their line from this village, the projected terminus being the town of Windsor Mills. This force will be increased by one hundred and operations will continue without interruption during the winter months, the route being largely rock and sand cuts which can be worked to great advantage at that season. A large camp is being erected about three miles from this place for the accommodation of the men. This company has during the summer constructed several miles of road from Eastman in the direction of Mansonville, where a junction with the C.P.R. will be effected. The completion of this division will greatly facilitate freight shipments to southern points, the route then being much more direct than the present one via Sherbrooke.

The rapid development of this section of country is to a large extent due to the enterprise of the O.M.R. Co., which has done a large freight business this season. Its cheese shipments, for example, exceeding those of any other road of similar mileage in the province. The improved system of direct delivery of the mails to towns on its route is also another great advantage, the city papers being delivered to each post-office on the evening of their issue.

HAVE DECIDED TO SPLIT DIOCESE OF PETERBORO

Authoritative Announcement Made—Rev. Father Scollard to Take Charge of New Diocese.

Peterborough, Ont., Oct. 31.—An authoritative announcement has been made to the effect that the Roman Catholic Diocese of Peterborough, which is at present one of the largest in Ontario, is to be divided. It at present extends from Peterborough on the east to Thunder Bay on the west, and to the height of land on the north. It contains more than 900 miles in extent. This is under the care of Bishop O'Connor, of Peterborough. It is proposed to cut off the northern and western part, and the new diocese thus created will probably be in charge of Rev. Father Scollard, of North Bay, who was connected with St. Peter's Church in Peterborough for several years.

The proposed division will consist of the counties of Peterborough, Durham, Northumberland, Victoria, and Muskoka, leaving Nipissing, Algoma, and the Thunder Bay districts to the new Diocese. The see will be at Sault Ste. Marie. Bishop O'Connor will retain charge of the eastern section.

GRAND TRUNK RAILWAY WERE DOUBLY HONORED

Two Gold Medals Were Awarded at the World's Fair, St. Louis, For Their Exhibits.

The Grand Trunk has been advised that the superior jury has awarded their exhibit in the fish and game building, World's Fair, St. Louis, Mo., two gold medals. These are given under two specifications, viz.: Fishing and hunting.

The Grand Trunk pavilion in the fish and game building is one of the most admired in that department. Its artistic and unique conception attracted marked attention. The exterior of the pavilion is constructed with an eye for architectural beauty, and is ornamented with large photographic pictures of scenes in the several summer resort districts in Canada, surmounted by some of the finest deer and moose heads that were obtained.

The interior of the building is also artistically arranged with other large photographs, together with oil painting and mounted fish and game. In addition, numerous scenic projecting moving picture scenes along the line of the railway.

In recent years the Grand Trunk has been honored by all the great expositions that have taken place, and have been awarded the following awards: diploma and gold medal, Paris, 1889; commemorative diploma, Pan-American Exhibition, Buffalo, 1901-1902; commemorative diploma, Wolverhampton, Eng., Art Exhibition; silver medal, Glasgow, Townships Exhibition, 1903; diploma, Industrial Exhibition, Toronto, 1903; diploma, Fifth National Industrial Exhibition, Japan, 1903; two gold medals, Universal Exposition, "World's Fair," St. Louis, Mo., 1904.

THRASHED THE TRUSTEES.

Serious Charge Against a Petrolia Teacher.

London, Ont., Oct. 31.—Mr. Frank Riddell, whose death occurred in Petrolia, Thursday evening, after a brief illness, was a brother of Fireman James Riddell of this city. It appears there are circumstances in connection with Mr. Riddell's death that render it advisable to hold an inquest. He was an employe of the Waterman Oil Company at Petrolia, where he had resided for nearly twenty years, and was also a member of the Public School Board on Thursday evening, November 20th, a meeting of the board was held, at which it was decided to tender the resignation of Mr. S. Crane, one of the teachers. Some remarks passed by Mr. Riddell, it is said, were offensive to Mr. Crane, and the latter, according to the story that is going the rounds, went to the house of the trustee after the meeting and gave Mr. Riddell a thrashing. Riddell, it is alleged, was bruised in the face and kicked in the groin. Crane has been arrested.

EXAMINED TUNNEL FOR SUGGESTIONS ON LAKE PYTHANGE

Mr. Duval Will Make a Two Members of Hunting Report on the Sarnia Tunnel.

Examined TUNNEL. Ottawa, Oct. 31.—Mr. J. E. Duval, chief accident inspector for the Railway Commission, has returned from Sarnia, where, in company with Mr. Mountain, chief engineer for the commission, and Mr. Hobson, chief engineer for the Grand Trunk, he examined the Grand Trunk tunnel.

Mr. Duval states that he and Mr. Mountain will make a report to the commission, but they cannot say yet what they will recommend. They spent a day in closely examining the tunnel. First they went through on a flatcar, pushed by an engine, and subsequently on the rear end of a train. There is a two per cent. grade in the tunnel, but all the latest railway safety devices are employed. The fact that Canadian officials inspected the tunnel with a view to recommending safeguards such as will prevent a repetition of the recent disaster caused the Democratic press in Port d'Huron to demand action on the part of United States officials looking to a similar end.

Two Members of Hunting Party Upset From a Canoe. Ottawa, Oct. 31.—Upset from their canoe in the storm and darkness of last Thursday night, Donald McLean, aged nineteen, and Frank Richter, aged twenty-one, both of Buffalo, N. Y., lost their lives in Lake Pythonge, in the Upper Gatineau district. The young men were members of a party enjoying a ten days' hunt on the Pythongs, where a club of Buffalo gentlemen, two of whom are the father and uncle of young McLean, have a comfortable hunting lodge, with steam launch, boats, canoes and every other need, and Mr. McLean returned to the lodge on Thursday night. The party had had a successful hunt, but one of the canoes failing to return from the afternoon chase, the two young men volunteered to remain at the south end of the lake to wait for the dog, while the other members of the party left for the club house, about three miles distant, and situated at the north end of the lake. If the dog failed to show up by six o'clock they were to return to camp by canoe. Eight o'clock came, and the young men not appearing at the club house, the party became uneasy. The launch was manned by Mr. McLean, and about three miles south end of the lake, where the young men had been left. There was no sign of them. They had gone in their canoe during the night, and the launch found of their whereabouts, nor any of the precise route they had taken. So the party returned to camp long after midnight, and at daylight Friday morning, dividing into two crews, resumed the search of the lake shores.

About eight o'clock the upturned canoe was discovered in a bay at the northeast side of the lake. Stuck fast in the bottom of the canoe was a hunting knife. Nearby were a water soaked coat, and on the shore the hat of young McLean, with the gold ring on it half perished, and the hand for a couple of inches of snow had fallen during the night. Eight o'clock told that the boys had met their fate; drowning, but how and where disaster overtook them nobody could tell, except the knife stuck in the canoe. It showed that the young men, both of whom were excellent swimmers, had retained their presence of mind in their last extremity, and had by holding on to the knife handle, endeavored to keep afloat, one on each side of the canoe, until the chance help should come or the canoe drift to shore. Evidently, too, they had freed the hound to give him a chance to swim ashore. A visit to the spot where McLean and Richter had been left the evening before, showed that the boys had cooked and eaten a supper of fish and duck.

The young men were fast friends and members of the same military company in Buffalo. Donald McLean was a graduate and gold medalist of St. John's United States Military College. Both were athletic young fellows, over six feet in height. Mr. Angus McLean has many friends and several relatives in Ottawa. A telegram was received by Mr. Chamberlain this evening from the uncle of young McLean, stating that the bodies had not been recovered up to Sunday morning, and asking that the services of a diver be procured if possible.

Point St. Charles

The death on Friday of Mr. John Head, removed one of the Point's best known men. Mr. Head was born and reared in the Point and his business as butcher and cattle dealer caused him to be widely known. Typhoid fever was the cause of death.

Mr. David Duncan, an old and respected member of Point St. Charles, died yesterday. Mr. Duncan, who was a life member of the Caledonian Society, was for thirty-nine years in the employ of the John McDougall Company as machinist foreman. He retired from active work two years ago, owing to illness.

Miss Clara Sleep, of Bourgeois Street, is suffering from an attack of typhoid fever.

Miss Louise Brown, of Congregation Street, has been confined to her home for the last two weeks with a bad cold.

The first meeting of the amalgamated lodges, No. 111 and No. 224, Intermediate Association of Machinists, will be held in the Oddfellows' Hall, 215 St. James Street, on Wednesday evening. The members of both lodges are particularly requested to attend.

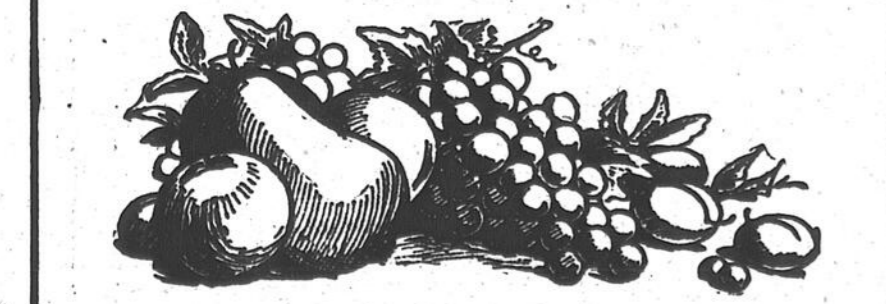

The sports-loving part of the Point are anxiously awaiting the result of the Grand Trunk Hockey Club's application for senior company. It is generally felt that the time has arrived when the home support will be sufficient to run a senior organization. For years past the Point has supplied the very best material in almost every branch of sport so that anything done to keep these men at home will be a step in the right direction. The Trunk have splendid material at hand to open the season.

The number of night lodgings given last week at the Protestant House of Industry and Refuge was 198 and the number of meals given was 337.

Fruit-a-tives or Fruit Liver Tablets

Instead of Fruit.

Fruit is a splendid tonic for stomach and liver. The active principles give fruit its medicinal value. But they occur in such minute quantities, that when fruit is taken with other food, and goes through the process of digestion, their action is lost.

"Fruit-a-tives" are the active principles of apples, oranges, figs and prunes—extracted from fruit juices, combined by our own secret process, and compressed into tablets. They are the concentrated medicinal virtues of fruits and act much more effectively than any other known treatment in curing Indigestion, Dyspepsia, Constipation, Torpid Liver, Biliousness and Kidney troubles. MAKE SURE!

One of the Toronto candidates, who is famous for his caustic wit, remarked the other night that while the Grand Trunk Pacific was the main issue of the elections, on the day after the elections it would be no more an issue. When one stops long enough to think about it, this is seen to be not only true, but ridiculously self-evident. It is the general expectation that Sir Wilfrid Laurier's Government will be returned to office. If it is, we shall hear no more objection to the Grand Trunk Pacific. The Liberals, in office, will go on with the work of construction. The Conservatives, out of office, will drop their objections to the project, and content themselves with watching for occasions to criticize this or that act of administration. The whole country, that is to say, has made up its mind already that the Grand Trunk Pacific contract is a good thing, and the day after the elections public interest in the question will subside.

But, and this it is important to bear in mind, this cessation of interest, the settling down into a frame of mind which accepts the Grand Trunk Pacific as an actuality equally with the Canadian Pacific, depends upon the circumstance of Sir Wilfrid's Government being returned to office. If by any mischance Mr. Borden should obtain a majority, the fat would be in the fire. He could not help breaking the contract with the Grand Trunk people, for not only has he openly threatened to do so, but he has outlined an alternative policy, which he would be forced to put into effect. It is very much open to doubt if the people of Canada took as seriously as they should Mr. Borden's warning to the Grand Trunk shareholders that they accepted the contract with the Parliament of Canada at their own risk, and subject to a breach of that contract if he should be put into office. What is more, whatever theoretical excuse there might have been for making that threat while Mr. Borden contemplated Government operation of a Government-owned transcontinental railway, there is no excuse at all now that he has dropped, as he did in his formal address, all idea of operation. That address speaks only of Government construction and control. If the phrase means anything, it means that Mr. Borden would build this road wholly at the public charge, on such a route and at such a cost as would suit the ideas of hungry contractors within the party (Remember Orendonk and Section B), and that he looks about for some company to take the thing off his hands. A cheerful prospect, indeed, and a pile of "control" the Government could exercise over a road changing hands under such circumstances. One has only to look so far ahead as is required to contemplate the difficulties of this phase of Mr. Borden's plan to see how hopelessly he is involved if he really favors a second railway. If he doesn't, if his desire is merely to defeat the project, and to oblige his friend Mr. Osler by keeping the Grand Trunk out of the West, public opinion is equally against him.

The people of Canada, and especially the people of the Montreal district of it, have made up their minds that the road will be built, and that it will be a Grand Trunk road. They see in the project a means of speeding trade conditions during a period of anticipated difficulty, and, beyond that, a doubling of the trade opportunities already open to them. Montreal sees its population doubling within twenty-five years as a result of this policy being adopted. Montreal, at all events, is determined that the Grand Trunk, which we know, is to have the preference over any possible combination of outside railway capital, of which we know nothing, but upon which Mr. Borden, if he is sincere, would have to rely.

The thing to do is to clinch the business on Thursday by making Laurier's return to power absolutely certain. The island of Montreal should make a clean sweep for his candidates. Then, on Friday, the Grand Trunk Pacific will pass out of the political and into the constructive stage. Make sure!

A TESTIMONIAL FROM THE ENEMY.

Mr. Robert Bickerdike has been in Parliament for seven years. Some of those who for party reasons would prefer that he should make way for Mr. Campbell Lane, have been examining his legislative record. They have discovered that in the course of those seven years Mr. Bickerdike was the sponsor of just three bills to which they can take exception. None of these bills passed, and two of them his opponents admit they do not understand. The third is the well-known anti-cigarette bill.

There could be few more flattering testimonials to a public representative than that after seven years of service his opponents, in an investigation carried on with obvious animus, should be unable to cite more than three of his acts to which exception can possibly be taken and that the most serious charge to be brought against any of these is that they were ineffective.

Mr. Bickerdike has been by no means an insignificant member of the House of Commons. He is a recognized authority on transportation and shipping, and has done useful work in these and other branches of legislation, both on the floor and in committee. Yet the most crushing charges that his opponents can bring against his personal record are that he introduced an ordinary savings bank incorporation bill, which was not pushed to a conclusion; that he failed to secure the consideration of the House for a measure with the important trade object of resuming the standard of the license of the standing powers of chartered companies which have done nothing to exercise their franchises, and that he is opposed to the manufacture and sale of cigarettes.

and among the most conspicuous of his admirers were those who are now trying to belittle his subsequent services. The difficulty they find in doing so is clearly enough indicated by the results.

DISTORTING THE FACTS.

The hearings in Montreal are being covered with lithographs picturing the Grand Trunk Pacific as a cow, "fed in Canada; milked in Portland." Mr. George E. Foster, speaking in Toronto on Thursday, said: "Then if ever that whole section becomes built down to Moncton, and it is put under a lease, there is nothing binding to make the Grand Trunk Pacific send its Western freight down over that road to Moncton except this, that if a shipper away out there, when he ships his goods, says, 'I want this to go by way of Montreal to Halifax,' it has got to be carried, and for all untrouled freight it is absolutely within the power of the Grand Trunk Pacific to deliver it to whom it wishes, and it can deliver the whole of it to the Grand Trunk Railway."

Here are two typical illustrations of the arguments to which the Conservatives are driven. Mr. Foster, it will be noted, has actually reversed the terms of the G. T. P. agreement. Instead of freight having to be specifically routed to Canadian ports, as he says, the opposite is the case. All freight must go to Canadian ports unless the shipper insists on its being delivered elsewhere. Here is the part of clause 42 defining this in the clearest terms: "The company accepts the aid on freight originating on the line of the railway, or its branches, not specifically routed otherwise by the shipper, shall not be destined for points in Canada, but carried entirely on Canadian territory, or between Canadian inland ports, and that the through rate to the point of destination shall at no time be greater via Canadian ports than via United States ports and that all such traffic not specifically routed otherwise by the shipper, shall be carried to Canadian ocean ports."

Other clauses still further protect the interests of Canadian ports. "43. The company further agrees that it shall not, in any matter within its power, directly or indirectly, advise or encourage the transportation of such freight by routes other than those above provided, but shall in all respects, in good faith, use its utmost endeavor to fulfill the conditions upon which public aid is granted, namely, the development of trade through Canadian channels and Canadian ocean ports."

"45. The company shall arrange for and provide, either by purchase or otherwise, shipping connections upon both the Atlantic and Pacific Oceans sufficient in tonnage and in number of sailings to take care of and transport all its traffic, both inward and outward, at such ocean ports within Canada upon the said line of railway; and upon the line of the Intercolonial Railway, as may be agreed upon from time to time, and the company shall not divert, or so far as it can lawfully prevent permit to be diverted, from the said line of railway, any traffic which it can lawfully influence or control, upon the ground that there is not sufficient amount of shipping tonnage to transport such traffic from or to such Canadian ocean ports."

MR. BORDEN ON THE PREFER- ENCE.

Mr. Borden's recent manifesto hardly challenges criticism. Evidently he has learned nothing, not even the virtue of consistency. His re-enumeration of his policies shows him floundering and blundering about as usual, between his excellent instincts and his political incapacity. It exhibits all the hallmarks of an essentially legal intellect; it reveals that curious inability to visualize contemporary problems comprehensively, that lack of practical guidance, which constitute the penalty of a prolonged legal training.

Mr. Borden has missed the informing, broadening influence of contact with mankind, with the realities of political life. He has had little political and no administrative experience. He has not had opportunity to get a firm grasp of large political and industrial problems. He has not been called upon to deal with affairs involving a wide knowledge of the peoples' minds, instincts, and social, political and business motives. Hence his addresses reveal a phenomenal lack of vision on political, industrial and social questions, and a naive indifference to consistency; in short all the limitations of a man who brings the distorted perspective of an intellect nourished on the dead formulae of law rather than the animating principles of contemporary life, and an intellect incapable of idealism and deficient in practical enthusiasm to bear upon the many-sided problems of practical politics. Hence he does not appeal to or command the confidence of the people.

Mr. Borden proposes to raise the tariff high enough to make Canada a self-sustaining nation industrially. At the same time he promises to secure a preference for our products in British markets on favorable terms and to develop an "enormous" inter-imperial trade. Either Mr. Borden is not disposed to be honest with the Canadian electorate, or his ignorance of the present temper of the British people in regard to the question of colonial preferences is so great that he is hardly fitted for the post he presumes to fill. Mr. Chamberlain himself has made it clear that Britain will not concede a preference to the colonies until the colonies open their markets to the British manufacturers. "The proposal of certain colonies," he says, "in effect that, while the colonies should be left absolutely free to impose what protective duties they please, both on foreign imports and British commerce, they should be required to make a small discrimination in favor of British trade, in return for which we are to impose duties on food and raw material. There is not the slightest chance that in any reasonable time this country or the parliament of this country, would adopt so one-sided an agreement."

Mr. Borden would impose upon the British working classes what John Burns calls "the tremendous disability" of a tax on the food of her poorest. He advocates a policy which the Montreal Star, with brutal callousness, declares "would be exactly equivalent so far as Canadians are concerned—to a bonus on Canadian products granted by the British Government." At home Great Britain has her submerged tenth. Contrast their condition with that of the laboring classes in Canada, a young country on the crest of a wave of

prosperity, with all her industries booming as in no other country in the world, with boundless resources still undeveloped. "It is not generous," declared Lord Brassey, "to the Mother Country to demand on behalf of a land of plenty like Canada that the food of our poorest be taxed."

But the worst feature of Mr. Borden's preferential programme is that he holds out to the Canadian people an altogether illusive hope. Even in the altogether improbable event of the return of the British Conservatives to power at the next elections, Mr. Chamberlain's scheme, owing to the conditions laid down by Mr. Balfour, would not be officially dealt with by parliament until after the elections six years hence. And even if Britain could be induced to grant us a preference of 10 per cent, the benefits would be highly problematical. The Duke of Devonshire has figured that Mr. Chamberlain's Glasgow Budget would reduce the purchasing power of the English people by at least 35, and possibly 50 millions sterling, or more; and as Mr. Borden has no intention of allowing the British manufacturer to enter our markets, it is difficult to see how Britain could increase her purchases from us. Hon. Mr. Fisher has well said: "the sum of agricultural success in Canada is the purchasing power of the masses in the Old Land." Under Free Trade Great Britain has become the pivot of commerce and finance. The industrial fabric of the country has grown up, in dependence on cheap supplies of raw material and food. Great Britain cannot by tariffs raise the price of imports from the colonies without a dangerous dislocation of her industries, and great hardship to the masses of the people.

Mr. Borden's contradictory policies can only irritate the British people and raise vain hopes among his less intelligent followers. Not long ago we had a proof from New Zealand of how irritating unfulfilled trading hopes are. Mr. Seddon, by his display of temper and bullying threats occasioned by the fear that Mr. Chamberlain's scheme may be rejected by Britain, lifted a corner of the veil and showed a little of the repellent motives concealed behind. "If we do not get our way, if you do not take yourself in our interest," ran the burden of Mr. Seddon's talk, "I shall conclude treaties with the foreign countries, and allow the Empire to look after itself." Does Mr. Borden propose to contribute a similar foot note to the argument for Imperial unity and harmony?

The attitude to this question assumed by Colonialists like Mr. Borden, Mr. Deakin and Mr. Seddon, has done much to engender among the British workmen a feeling of distrust and dislike towards the colonies. "The messages addressed by Richard Bell, M.P., president of the British trades Congress, and John Burns, to the workmen, of Australia, a few weeks ago show the rising temper of the British working classes—their readiness to resent any bullying of the Mother Country. In language that betrayed considerable anger and disappointment, the official spokesmen of the British working classes made it clear that efforts to impose the burden of an increased cost of food upon the workers of the Motherland, in order that the prosperous colonialists might derive a doubtful benefit, would inevitably result in the disintegration of the empire."

NOTES AND COMMENTS.

Forward, Canada!

Canada is with Laurier.

Mr. Foster has two more days in which to hope.

Don't shout. Save your voice for Thursday night.

It is now only a question of the size of the majority.

Montreal is with the Grand Trunk in its desire to open up a new block of the territory of the west.

Young man, start right. Make it a point to be able to say you helped give Laurier the big majority he is going to get.

Mr. Borden would construct and control a new transcontinental road, but not operate it. Who would? Just ask your friend who is going to vote Conservative if he knows.

As between a road of which the Grand Trunk has contracted to build part, lease part and operate all, and a road Mr. Borden would build and nobody operate, Montreal will vote for the Grand Trunk.

Laurier says the twentieth century is to be Canada's century, and he is making a good start at it. The man whose work is to be done in the twentieth century should get into the procession and vote for Laurier.

Laurier bargains with the Grand Trunk before the road is built. Borden would have to bargain with some people, now unknown, at a time when trust and interest were eating up the road. Which is the wiser plan?

If there is anything in the view that one country is hostile to another from which it buys less than it sells, we must be very hostile to Great Britain, and the advocates of higher tariffs would make us more so. How about it?

A GENTLE REMINDER.

A wealthy gentleman, whose taste-fully laid out grounds were often visited by the public, had an old gardener, who was in the habit of showing parties round the grounds. At such times he would in a hurried gabbling voice explain the names to the visitors. When nearing the exit gate he would, however, suddenly stop and draw special attention to a pretty cluster of modest posies, and then, in a very significant tone of voice, exclaim: "These, ladies and gentlemen, are forget-me-nots."

MR. L. A. RIVET, M.P.

Mr. L. A. Rivet, the recent member and present Liberal candidate for Hochelaga is putting up a magnificent campaign which gives every promise of victory, especially since the great St. Henri meeting, where Sir Wilfrid Laurier, both in point of years and time of service. He is scarcely 31.

Mr. Rivet was born at Joliette, where his father was a prosperous farmer. He was educated at Joliette College, and studied for the bar at Laval where he graduated with the degree of B.C.L. in 1895.

Since 1905 Mr. Rivet has resided in St. Gabriel ward, where he has done yeoman service for the Liberal cause. He was one of the ten ardent reformers who formulated the St. Gabriel's Liberal Club in 1896, which has since so changed this old-time Conservative district that at last election it gave a Liberal majority of 300. His influence among the young men of Hochelaga rapidly grew, and when the seat was vacated by the elevation of M. J. A. C. Madore to the bench he was unanimously chosen standard bearer and won the division by over 200 majority. During his single session at Ottawa Mr. Rivet proved himself an able representative.

WANTS LAURIER TO WIN. Toronto, Oct. 31.—(Special)—The Globe has received the following cable message from London, Eng.:—"The vast majority in the Mother Country, including the press, follow with the keenest interest the brilliant fight for the strong free progress of Canada. Regardless of party they ardently wish the decisive victory for the Premier and his Government, whose constructive and far-sighted policy has enormously advanced property and solidified the relations of the Dominion, as is evidenced everywhere, and was abundantly revealed during my recent visit. Maintained unbroken, that policy will increasingly strengthen, for mutual benefit, the commercial, fiscal and friendly bonds of Canada with the Empire and give her, as the Premier has declared, a place foremost amongst the great powers of the world. True citizens should rally to the standard of Laurier and liberty. (Signed), Sir Hugh Gilzean Reid, President, World's Press Parliament."

Montreal's Chances of Winning the Championship Are Slender.

Ottawa College Whitewashed the Montreal Team Saturday

The Two Clubs Are Now Tied in Championship Race.

Q.R.F.U.	Won.	Lost.	Points.	Pts. Lost.
Ottawa College	4	1	56	31
Montreal	4	1	56	31
Rough Riders	3	2	41	24
Westmount	0	5	35	97

The results of Saturday's games in the Quebec Union put a new but not unexpected aspect upon the race for the championship. The Montreal, because they were defeated by Ottawa College, lost the leadership and are now tied with College, each having won four matches and lost one match. College have to play Westmounts here next Saturday and Montreal have to play Rough Riders in Ottawa. If both College and Montreal win, they will have to play off for the championship, and if one loses, the other will win the race. College are picked to win their game with Westmount, but the outcome of the Montreal-Rough Rider match is regarded as doubtful. In any event, Montreal will have to play up to their best form to win first place. They played poorly Saturday—very poorly—but they can win out if they take a brace and play the game.

By winning from Westmount the Rough Riders made sure of third place, but they cannot better their position even by beating Montreal.

In the Ontario Union, Peterboro defeated Toronto and London beat Victoria, but the results of these games will not affect the championship, which is certain to go to Hamilton.

Queen's is making a bold bid for the Intercollegiate championship and Saturday the Presbyterians placed themselves on a level with McGill by beating Varsity in Toronto. If Varsity win the rest of their games, one in Kingston and one in Montreal, a three-cornered tie will result, but this is hardly likely to happen. The fight will be between McGill and Queen's and it will be close.

In the Quebec Union's intermediate series, Shamrocks defeated Montreal II, by 10 to 0 and now look like champions. The final game between these teams will be played next Saturday, and the winners will meet the Intermediate champions of the Ontario Union for the Dominion Intermediate championship.

Across the border, Harvard was beaten for the first time this year, Pennsylvania turning the trick. Princeton beat Cornell and Yale trimmed Columbia.

COLLEGE II: MONTREAL, 0.

Four thousand people saw the game and gray-clad athletes of Ottawa College administered the first check to Montreal's progress toward the championship at the M.A.A.A. grounds Saturday afternoon, the Collegians winning a hard-fought battle by a score of 11 points to 0.

It was bitter medicine for the admirers of the local team and it will shake their confidence in the ability of Montreal to win first place in the race. They saw their favorite outclassed in every department, except that of following up. They saw Montreal out-kicked and out-generalized and thoroughly and decisively beaten by a score that left no doubts as to the respective merits of the teams.

It was the triumph of system over its antithesis of team play over individual prowess. Taken man for man, Montreal might well be regarded as the equals of College, but taken team for team, Montreal suffers by comparison.

FOND HOPES DASHED.

It was believed that Montreal, all things being equal, could kick as strongly as College, but Shea, Gleeson and J. Murphy punted just as far against the wind as they did with it, and in the second half, when the strong breeze favored the Ottawa College trio of halves beat the ball farther and with better judgment than did the locals.

On the scrimmage work, the Collegians had a definite system which enabled them to get the ball out to Kearns quickly and cleanly. Kearns would kick the ball into the air, and on the third would pass back to Gleeson, who would punt forty or fifty yards into touch for a big College gain. Time and time again this performance was repeated and with each performance were Montreal's chances of victory diminished.

To permit a successful consummation of this play Kearns had to be protected, and protected he was, in artistic style by Hal Walters, Boucher and James, all strong, husky chaps, who locked in with the scrummers and formed a barrier which Montreal found to be impassable. The protection, of course, could not extend to the Ottawa halves, who had to punt expeditiously or they were downed for Montreal gains. But quickly they were and it was rarely that they were grassed before getting into the scrum.

They had to be rapid in their actions to dodge the whirlwind rushes of the speediest quartette of wings playing football—Walter Molson, Billy Murphy, Stuart Rayside and Eddie O'Brien. The effective work of these four players kept down College's score, and, at times, gave Montreal a chance to break through College's defence—fallen utterly, and were scored on by College. It was Montreal's plan to get the ball out of scrimmage to "Hoff" Jack, but the scrimmage was pulled to pieces, disintegrated and overturned by the Collegians, and the ball came out to

Jack in a very ragged way. Jack could not get the ball back to Percy Molson for the most substantial reason that the scrimmage could not hold it out to him. The scrimmage's inability to perform the duty expected of it robbed Montreal of their sole chance to win. On the success of the scrimmage depended the attack and when the scrimmage failed, the rest of the team was useless insofar as advancing the ball was concerned. The inside wings of the Montreal team and the middle wings, too, backed up on Jack instead of playing well up on the line, and he was under their feet all the time.

When the ball did come out to him, he passed to Molson cleverly and quickly, but Filiatreault and Nagle, not being properly covered, were on the Montreal captain like wolves, and as soon as they blocked his kicks or tackled him before he could punt. The other half watched Jack so closely that he could not risk any long passes to Christmas and Craig.

In fact, the wings on both teams were so aggressive that the halves had no opportunity to try any combination work. College tried it once in the first half, but a forward pass spoiled it, and Molson tried it once in the second half, but his pass to Craig was wild and the play was not repeated.

On the half-back line the College trio were superior in a mark degree to Montreal's Craig and Christmas. They punted well and not muff, whereas the Montreal halves kicked poorly and muffed frequently. The full backs, O'Brien and Macdonald, were both strong in offensive tactics—not muffed, stronger, or they would have scored more points; but as it was their slight superiority enabled them to destroy Percy Molson's effectiveness as a kicker. They were able to hold Montreal's inside wings but could not successfully block W. Molson, S. Rayside, W. Murphy and E. O'Brien, who did most of the damage for Montreal.

College had well defined plans for attack and defence and carried them out with remarkable sureness. Montreal had plans for neither attack nor defence. Theirs was practically all individual play, which was futile when opposed to Tom Chaney's system.

It wasn't quite ideal football weather but it wasn't bad football weather. A strong breeze accompanied occasionally by rain, blew from the northwest. The Collegians utilized this breeze in the first half but Montreal could not make much use of it in the second half, owing to the aggressive and determined tactics of the visitors. The wind and rain combined to make catching the ball a rather difficult feat. It did not seem to bother the Ottawa players, their catching being quite sure in the second as it was in the first.

Montreal made a grim fight in the first half and held College in splendid style until a few minutes before half time. Then P. Molson fumbled a punt and Denny O'Brien dropped on the ball for a touch-down, which Boucher converted neatly. Before this a touch-down goal and a rouge had been scored, so College had eight points when the players went in for a rub-down.

In the second half College forced the ball into Montreal territory and kept it there nearly all the time. They made another rouge and a safety-touch, making the final score eleven to nothing. Just towards the last Montreal made a spirited charge, but failed to get the Ottawa line, where it was in play when the whistle blew.

The referee, Charlie Wilkinson, was efficient and energetic and kept the game free from roughness. Only two players, Rayside and Filion were ruled off and they for tripping. There was comparatively little offside play or illegal playing.

Eddie O'Brien, of Montreal, one of the best wings in the Quebec Union.

McGill Team Defeated. Kingston, Ont., October 22.—The intermediate team defeated McGill in their game here this afternoon by a score of 23 to 15. McGill's defeat was due to the miffing of the ball on the half-back line. The half-time score was 12 to 0 for the Cadets. In the second half McGill played stronger, and made a touchdown on the first try. The features of the game were the running and kicking of Constantine and Powell, for the Cadets, and the line bucking of Filion, for McGill.

G. T. R. JUVENILES WON. A friendly game of Rugby was played on Saturday, in which the Grand Rapids team defeated the Congregationals met for a second time, in which the G. T. R. C. again proved to be the stronger, by a score of 15 to 0. The features of the game were as follows:

London, Oct. 31.—The O.R.F.U. game here Saturday resulted in a victory for London over the Victorias of Toronto by 14 to 9. It was 14 to 9 at half time.

St. Catharines, Ont., Oct. 31.—In a rough and exciting game of Tugby played on the Ridley College campus Saturday afternoon, the Andros College of Toronto, succeeded in defeating Ridley College, St. Catharines, by 16 to 11. Among those injured were Capt. Thornhill, ankle bone fractured, and H. T. McKee, knocked unconscious, both on Ridley side. At half time the score stood 10 to 6 in favor of the home team, but in the last half the visitors scored 16 to Ridley's one.

A ROUGH MATCH.

McMaster Beat Trinity. Toronto, Oct. 21.—In the Intermediate Intercollegiate match McMaster defeated Trinity by the score of 10 to 1. This was the first game arranged to settle the tie in the Intermediate College series. And, as a result of it, McMaster will again meet Toronto II, Saturday in the deciding game of this section.

Yale's Decisive Victory. New York, Oct. 31.—Outclassed in every department of the game, Yale's football eleven was defeated by Yale at American League Park Saturday, 24 to 0. In their five contests this was Yale's most decisive victory. The Yale team was completely routed. The first half Columbia held Yale to 12 to 0, and showed at intervals good football form. In the second period the game was a rout for the local eleven. Yale's players jamming their way through Columbia for big gains.

R. C. S. BEAT QUEBEC. Bishop of Quebec School football team went to Quebec to play Quebec High School. The game took place on the Q.H.A. grounds on Saturday, and proved a run-away win for B.C.S., who came out victors by 42 points to 0. The B.C.S. team were slightly heavier, but their victory was due to the more scientific game played by them. There was a complete absence of rough play,

and they were ably generated by Capt. McBrearty. The ball was kicked over Montreal goal line, and finding it impossible to get away it was kicked over their goal line. From twenty-five yards Shamrocks again forced the pigskin into touch near Montreal's line where, from a scrimmage, it was bucked over for a touch-down but MacLaren was unable to convert. From this out Shamrocks had the better of the play and although Montrealers showed some signs of rallying later on it was of no avail and

the pleasantest feeling prevailed throughout the match. Quebec H. S. played a very plucky game, though completely outclassed. For them J. Lee's play was conspicuous. For B.C.S. J. Williams (captain) was in first-rate form, while T. F. Naughton also played well. It is much to be hoped that a meeting between B.C.S. and Montreal High School can be arranged, as both have now succeeded in beating Quebec H. S. school.

HARVARD'S FIRST DEFEAT. Cambridge, Mass., Oct. 31.—The third surprise of the football season occurred at Soldiers' Field Saturday, when Harvard was completely outplayed by the University of Pennsylvania. The final score was: Pennsylvania, 11; Harvard, 0. The game was a spectacular one throughout and the defeat of Harvard was hardly more unexpected than the game shown by the wearers of the blue and red. The Pennsylvanians' play was extremely versatile, punting, delayed passes, quarter-back runs, fake kicks and plunges through the line rapidly following each other.

PRINCETON DEFEATED CORNELL. Ithaca, N.Y., Oct. 31.—Princeton won Saturday's football game from Cornell, 18 to 6, but the victors were forced to work their hardest to make gains, being outclassed by Cornell in many stages of the game, especially early in the contest.

ASSOCIATION FOOTBALL. McGill and C.P.R. met Saturday in the semi-final championship match. The match throughout was a slow game the C.P.R. having only 5 of their first team on the field. Carveth kicked a goal from a scrimmage and scored a goal from a scrimmage. The score would only have been 1-0 had not Hollis of C.P.R. scored in his own goal. Carveth kicked a goal from a scrimmage and scored a goal from a scrimmage. The score would only have been 1-0 had not Hollis of C.P.R. scored in his own goal.

PETERBORO'S LITTLE SURPRISE. Peterboro, Ont., Oct. 29.—(Special.)—This season has been full of surprises in the senior O.R.F.U. series and this afternoon one of the greatest surprises as yet was sprung when the Torontos, who were picked to lose another game in their district, were defeated by the Peterboro in a brilliant game by a score of 29 to 17. This victory puts the Peterboro in the lead in the district, and if they win in Toronto next Saturday against Hamilton, winner of the Peterboro district, they will go against Hamilton, winner of the Peterboro district, they will go against Hamilton, winner of the Peterboro district.

Rough Riders Ran Up Biggest Q.R.F.U. Score of the Season

Westmounts Played Snappily but Ottawans Were Too Heavy for Them.

Ottawa, Oct. 31.—(Special.)—There was real football played in Ottawa on Saturday. The first half of the struggle between the Rough Riders and Westmount was a period of the prettiest play the season has seen. In fact, it was about the only bonafide football that has been played here. Up to the present time the contests have consisted chiefly of a series of heart-breaking mistakes taken advantage of. This style of performance has given joy to the followers of the side who were able to take advantage of the errors of the others. But it has not been playing the game. There was none of the boot-and-blunder style of play about Saturday's game until the Westmounts were worn out and went down before the superior strength, weight and experience of their opponents.

The Ottawa team had the better of the contest throughout, though the Westmounts were always able to make things interesting and had the most surprising resources for getting out of tight places. There was not a point of football missing and a select gathering of a couple of hundred spectators cheered and cheered again to show appreciation of brilliant combination running, hard punting, good catching, long and accurate passing, determined scrumwork and effective line bucking. Each of these points of play was demonstrated to a nicety. In each of them the Westmount team was a little the inferior at the beginning and this inferiority became more marked as the contest progressed. At the end they were being outplayed.

BOUQUETS FOR WESTMOUNTS. The score was 21 to 6 and Westmount was hardly entitled to the six. But even with the large score rolled up against them no one could say that they were disgraced or that they are not worthy opponents of any football aggregation wearing canvas clothes and kicking the pigskin. The Riders were in a very ragged way. Jack could not get the ball back to Percy Molson for the most substantial reason that the scrimmage could not hold it out to him. College had well defined plans for attack and defence and carried them out with remarkable sureness. Montreal had plans for neither attack nor defence. Theirs was practically all individual play, which was futile when opposed to Tom Chaney's system.

It wasn't quite ideal football weather but it wasn't bad football weather. A strong breeze accompanied occasionally by rain, blew from the northwest. The Collegians utilized this breeze in the first half but Montreal could not make much use of it in the second half, owing to the aggressive and determined tactics of the visitors. The wind and rain combined to make catching the ball a rather difficult feat. It did not seem to bother the Ottawa players, their catching being quite sure in the second as it was in the first.

Montreal made a grim fight in the first half and held College in splendid style until a few minutes before half time. Then P. Molson fumbled a punt and Denny O'Brien dropped on the ball for a touch-down, which Boucher converted neatly. Before this a touch-down goal and a rouge had been scored, so College had eight points when the players went in for a rub-down.

In the second half College forced the ball into Montreal territory and kept it there nearly all the time. They made another rouge and a safety-touch, making the final score eleven to nothing. Just towards the last Montreal made a spirited charge, but failed to get the Ottawa line, where it was in play when the whistle blew.

The referee, Charlie Wilkinson, was efficient and energetic and kept the game free from roughness. Only two players, Rayside and Filion were ruled off and they for tripping. There was comparatively little offside play or illegal playing.

The teams lined up as follows:

Queen's Win a Hard Fought Battle From 'Varsity at Toronto

The Championship Lies Between McGill and Queen's

Toronto, Oct. 31.—The Queen's students were here in large numbers on Saturday, and they cheered their favorites to victory before the largest crowd of the season. Fully 5,000 people were in attendance at Varsity Field to see the game.

GRIDIRON ECHOES

The game was not marred by many stops. Jimmy Craig had his face painfully bruised. The crowd was very quiet considering its size.

GOLF AND GOLFERS

BUFFALO LOST AT TORONTO. Toronto, Oct. 31.—Buffalo golfers played at Lambton on Saturday, the home team under Captain Champion, George S. Lyon, winning thirteen to four, the game being decided according to the point system of scoring one for the first hole, one for the second and one for the match. The teams and score:

FINE GOLF PLAYED

Garden City, L.I., October 31.—The annual inter-club golf match between the Philadelphia Golf Association and the Metropolitan Golf Association was played over the Garden City Club's links to-day and resulted in a victory for the local men. The match was played in two parts, the first at thirty-six holes having been decided at Philadelphia last spring, with the scores standing twenty-seven to seventeen in favor of Philadelphia.

THE OTTAWA CHAMPION

Mr. A. Z. Palmer is champion for the year of the Ottawa Golf Club, winning the honor Friday afternoon, his opponent in the final being Mr. T. Mackerrill. Mr. Palmer won by 8 up and 7 to play in a two-round match of 18 holes each. Mr. Palmer took the lead at the start by three holes, and managed to hold it throughout, never being pressed hard by Mr. Mackerrill.

Stocks and Money.

STOCKS AGAIN ACTIVE BUT THE TONE TO-DAY WAS CONSIDERABLY EASIER

After the big burst of speed the markets had Saturday the feeling was naturally bullish at the opening this morning but sentiment veered around as the session progressed and the feeling became nervous with fractional declines in New York something of a feature.

The remarkable advance in Twin City on Saturday was still the talk of the street and while a new top figure was reached to-day the stock was easier around the noon hour.

FORGET'S CABLE.

L. J. Forget & Co.'s London cable quoted Grand Trunk first at 16 1/2, second at 16, third at 14 1/2, Canada at 10 1/2, War Eagle at 10 1/2, War Eagle (mild) at 10 1/2, War Eagle (hot) at 10 1/2, Jumbo at 5 1/2, Rossland Valley at 3 1/2.

EARNINGS OF QUEBEC SOUTHERN RAILWAY.

The earnings statement of the Quebec Southern Railway for the month of August has been completed and filed with the Exchequer Court. The gross earnings for the month were \$22,270.38, as compared with \$14,088.07 for August, 1903, an increase of \$8,182.31, or over 58 per cent. The net earnings were \$6,171.99, as compared with \$3,053.24 for August, 1903, an increase of \$3,118.75.

NOON LETTER.

Mr. C. D. Monk's messages said: The market started bravely enough, but did not last long. The engagement of gold were announced very soon after the opening, and threw a chill over the market, from which it has been unable to recover. There are now no fresh buying profit taking and no fresh buying to speak of. Money has not advanced above 2-1/2 per cent, and will restore confidence if it does not go above 3 per cent, and good sources are of opinion that it will not. There should be a good rally this afternoon.

THE GOLD EXPORTS.

Noon Stock Letter—The selling was further stimulated by the announcement that \$3,200,000 more gold had been engaged for export by the Canadian steamer. These exports had some slight effect on both the time and call money markets, but the effect was on the whole less than might have been expected. A. C. P. was a feature at the opening, and advancing easily to the highest point yet reached. It reacted in sympathy with the rest of the market, but was well bought on the decline. Throughout the rest of the day the declines were fairly uniform. The selling pressure has now eased somewhat, and the market shows a tendency to steady itself at the lower level.—E. C. Randolph.

LONDON CLOSING.

HEAVY PROFIT-TAKING.

The market this morning opened active and was well bought on the decline. Throughout the rest of the day the declines were fairly uniform. The selling pressure has now eased somewhat, and the market shows a tendency to steady itself at the lower level.—E. C. Randolph.

THE SIGNIFICANCE OF U.S. MILLERS BUYING CANADIAN WHEAT THIS AUTUMN

A despatch from Chicago says: In the bonding of the Fallsdale mill the Union elevator operated by the Pillsbury-Washburn Company at Minneapolis, so that it can import and use Manitoba wheat, there is nothing but a commercial transaction of significance as a speculative influence is of no importance, and it does not make an "importing country" of the United States. The shortage of the wheat crop in the United States, and the advance in prices of contract grades of wheat to a level so high that millers are grinding them to an extent, has prevented merchant millers having an established trade abroad, from taking care of it at a profit. They must either sell their flour at a loss, or let the trade go. They do not like to do the latter, as there may be a better wheat crop next year, and they can get even then for their losses now. For protection, and to cut down their losses as far as possible, the Pillsbury-Washburn Company has bonded its mill for \$50,000, and will grind Manitoba wheat for its foreign trade. Manitoba wheat is cheaper than ours, but has to pay, when imported, a duty of twenty-five cents per bushel, of which 10 per cent is rebated when the product is exported. But only a bonded mill can get the rebate. By this operation, the millers are hoping of being able to compete with English millers, and of filling their trade for their established brands of flour abroad.

Lumber Prices Are a Little Firmer

The lumber market in Ontario is distinctly firmer and it is by no means improbable that prices will take an upward turn before long. Even now, though so far no actual quotations have been changed, the prices realized show fractional advances, especially in culls. The causes for this state of things are not far to seek. Primarily, it is due to the improved state of business in the United States, and the better demand for building and other purposes. For a long time, purchasers there have been holding back, but the time has come when they can do so no longer. Another thing which counts is that it has now become a realized fact that the cut in pine lumber in Ontario will not be more than 60 per cent.

Wheat Was Weak, Corn About Steady

The grain markets in Chicago were a little on the easy side to-day, although corn was steady in comparison with wheat, which was weak. The following table shows the closing prices for the week ending Oct. 29, 1904:

Table showing closing prices for wheat and corn in Chicago for the week ending Oct. 29, 1904.

Montreal Grain Stocks

The following table shows the stocks of grain in store in Montreal on the dates mentioned:

Table showing Montreal grain stocks for Wheat, Corn, Peas, Oats, Rye, Buckwheat, Flour, and Meal from Oct. 23 to Oct. 31, 1904.

Country Produce.

Eggs—There was no change in the condition of the market, business being rather quiet, with prices firm at 21c to 21 1/2c for straight gathered stock, and at 18c to 19c for straight cold storage stock in a wholesale way. In a small way, selected eggs sold at 24c, and Montreal limed at 20c per dozen.

The Cheese Boards

Cowansville, October 29.—Twenty creameries offered 939 boxes butter, and 170 tons of cheese. The market was quiet, and prices were steady. Butter was sold at 17c to 18c, and cheese at 15c to 16c.

Cattle in Chicago

Chicago, October 31.—Cattle—Receipts, 11,000, including 6,000 westerns and 1,000 Texans. Most steady; good for prime steers \$9.50 to \$10.50; poor to medium, \$4.00 to \$5.00; stockers and feeders, \$2.00 to \$4.00; cows, \$1.50 to \$4.00; heifers, \$2.00 to \$5.00; Texas fed steers, \$2.00 to \$5.00; western steers, \$2.00 to \$5.00; canners, \$1.50 to \$2.50; calves, \$3.50 to \$7.00.

Apple Exports

Ladies' Coats-- The Best Stock

The General Verdict

"Lookers on see more than the players." It is the lookers on—the shoppers—whose practice is to size up all stocks before deciding a purchase—who have encouraged this store in the belief that its assortments are unrivalled—in respect to number of Coats, number of styles and gradations of price. We'd be less persistent in advertising our prices if we believed there existed successful competitors of our values.

Ladies' Coats, in a handsome shade of castor Beaver Cloth, fitted back, military shoulders, full bishop sleeves, self-strapping, finished with metal buttons \$16.50
Ladies' Coats, in fine black Beaver Cloth, fitted back with belt, double breasted, fly front, deep shoulder cape, large bishop sleeve, military collar \$19.50

Ladies' Blouses--In Every Conceivable Style.

"It must have kept Madame la Mode's corps of designers 'awake at night' planning the innumerable style variations reflected in this store's assortments," someone remarks. Maybe! We're not worrying about the workers who appear to be well satisfied with their lot. Our continual thought is our public, and what will meet the approval of every individual taste. Here's a prettily-made inexpensive Blouse:

Comes in Cream Lustre, large box pleated front, and with pin tucks, back with inverted pleats, trimmed with narrow silk braid, full bishop sleeves with inverted pleats, finished with cuffs, smart tab collar; lined throughout. Sizes 32 to 42 \$1.98

The Standard Catalogue

A Carload of Tinware

Bought At An Exceptionally Low Price

Bought from a manufacturer who was retiring from business. Most generously did he fill the value-measure to accomplish a speedy sale of his stock. No thought of profit influenced him—no regard to costs did he pay. The comparative figures—the values and our selling prices—make that fact very apparent.

On sale Tuesday, and Tuesday only, promptly at 8 a.m.

St. Catherine and University Streets.
THE STORE OF SATISFACTION."

OPENING DISPLAY OF

WINTER MILLINERY

Tuesday, Wednesday and Thursday,

November 1st, 2nd and 3rd, 1904.

Equisite creations to feast your eyes upon. Imported Models, and clever copies and modifications evolved by our own ingenious staff. Which is the prettier? Nine out of ten will select the latter. Mostly Velvet and Fur effects. Not our purpose to rob the display of its charm by printing elaborate particulars. Welcome to look! Look during the opening display when the assortment is certainly at its best.

Buying Ladies' Newest Style

Ready-to-wear Hats at

Fraction-of-Their Value Prices was Our Latest Achievement.

"Good wares find a quick market"—at Scroggie's is the slogan of the manufacturers. Probably explains why we come into possession of so many desirable lots of seasonable, quality-worthy merchandise at prices that make such as the undervalued values possible.

\$2.50 and \$3.00 Hats for 45c

Ladies' Ready-to-Wear Hats, made of Camel's Hair Felt, trimmed with binding of velvet; velvet pompons and gilt buttons. Also, untrimmed Shapes, in Camel's Hair Felt, velvet binding. Regular values from \$2.50 to \$3.00; Tuesday, they go on sale at each 45c

The Millinery Department has borrowed space from the Stationery and Book sections to properly display the Hats. They'll be the first thing to greet your eye as you reach the top of the stairs or alight from the elevator on the second floor.

Steel Enamelware THIRD FLOOR.

- Best quality colored Steel Enamel Saucepans, tipped, and straight, with covers. Worth from 35c to 45c. All one price Tuesday, each 10c
- Steel Enamel Tea Kettles, worth \$1.50. On sale while they last for 89c
- Military Hair Brushes
Black Imitation Ebony backs, good quality bristles. Special at 39c, 55c and 85c.

Dealing With Quantities

The principle of a lower proportionate price for a quantity applies in little things as well as in big transactions. A child buys a stick of candy for 1 cent. 1 dozen sticks can be bought for 10 cents.

A store buys, say 1 dozen Skirts for \$35.00 nett. Another store—with a much larger patronage, of course—buys 20 dozen of a similar style and quality Skirt at the per dozen nett price of \$30.00. Store No. 2 is, therefore, in a position to sell each Skirt for 42 cents less than can No. 1. More than that—Store No. 2 can flourish upon a lower percentage of profit, because of the larger number of sales over which to distribute the costs of management and other fixed items of expense.

This store is in the No. 2 class. You can prove the accuracy of our calculations—the monetary gain of shopping here—in a single transaction—a single, or a series of comparisons.

Standard Paper Pattern Prices Reduced

The reduction is a permanent one. None will cost more than 15c, while the price of others will not range beyond 10c.

Wonderfully Good Underskirts for 49c

Worth 75c—Gauged by This Store's Fair Standard of Value.

Opinions may differ as to the wisdom of purchasing 49c Underskirts, but there's general concurrence that 75c Underskirts for 49c is an extremely fine investment—one to be immediately embraced.

A new line to go on sale Tuesday, in two different styles. Both made of Mercerized Saten. One has an accordion pleated frill, and dust frill. The other has a loose gathered frill, and is finished with ruching. Both splendid 75c values. Tuesday's price.... 49c

Ladies' High-class \$3.50 Boots for \$1.95

"You can't over-praise this line of Boots," said the Footwear department chief when handing "the copy" to the advertiser on Friday last.

"Why the reduction?" queried the latter.

Replied the former: "My intention is to clear the stocks of all Shoes that retail at similar prices to the Dorothy Dodd. Better to feature the full range of one good line of shoes than to have an indifferent assortment of two."

We think you'll approve his sentiments.

Let there be no misunderstanding, please. These are not Dorothy Dodd Boots, but

A Special Line That Has Figured in Our Stocks

since the Shoe department has been in existence. Size assortment not quite complete.

These are all Lace Boots, and include fine Viol Kid, Dongola Kid, Patent Kid and Patent Gilt leathers. Nearly all have medium weight flexible soles, and are finished with military, Cuban and French heels. Every pair a genuine \$3.50 value. Tuesday's sale price \$1.95
