TWO SIDES TO EVERY DISPUTE

Must Recognize Difference Between Politics And Industry, Said Railway Leader

London, July 6.—The necessity of recognizing the difference between political and industrial sides to disputes was frankly recognized by J. H. Thomas, leader of the railwaymen, at the annual conference of their body today. He admitted that the railway wage bill now amounted to £187,000,000 against £60,000,000 in 1914. In August the British railways revert to old conditions and Mr. Thomas acknowledged that it would be impossible for the companies to pay dividends or even pre-war wages. He declared it to be a vital necessity that the bill for growing working on railways which would mean an immense saving in working.

Mr. Thomas scouted the motion that de-control of the railways had brought about danger of a strike, pointing out that £17,000,000 had already come off the wage bill without provoking the slightest signs of trouble.

The conference had an acrimonious discussion privately concerning the action of Mr. Thomas during the last twelve months, particularly his share in calling off the triple alliance strike. He was severely criticized by the extremists, but the resolution that he be removed from supreme leadership was defeated.

LORD BALFOUR DIED YESTERDAY
London, July 6.—Lord Balfour, of Birligh, died today.

Lord Balfour was born in 1849. He was chairman of the Royal Commission on closer trade relations between Canada and the West Indies in 1909, spending considerable time in both these countries.

The Weather.

Toronto, July 6.—Pressure continues about normal over the greater portion of the continent. A few local thunderstorms have occurred over Lake Superior and in Northern Ontario. A few scattered showers in Alberta and Saskatchewan.

Otherwise the weather has been fair and in Ontario continued excessively warm.

Temperatures:

	Min.	Max.
Dawson	54	70
Victoria	50	66
Vancouver	52	74
Kamloops	52	76
Calgary	46	76
Edmonton	44	66
Battleford	46	68
Prince Albert	52	74
Medicine Hat	52	74
Saskatoon	51	75
Winnipeg	54	80
Parry Sound	72	98
London	71	98
Toronto	73	97
Kingston	74	84
Ottawa	66	90
Montreal	66	84
Quebec	66	90
St. John	50	68
Halifax	50	60

Forecast:

Lower Lakes and Georgian Bay—Light winds, fair, not much change in temperature.
Ottawa and Upper St. Lawrence—Fair, not much change in temperature.
Lower St. Lawrence, Gulf and North Shore—Moderate to fresh winds generally fair, not much change in temperature.
Superior—Light winds, generally fair, not much change in temperature.
Maritime—Moderate to fresh Southwest and South winds, generally fair and warm.
Saskatchewan and Alberta—A few scattered showers but generally fair and for the most part warm.

FOREST FIRES ALL OVER ONTARIO, IN NOVA SCOTIA AND IN NEW BRUNSWICK

Unless Rain Comes Soon It Will Be Impossible To Stem Tide—Seventy-Five Acres Of Timberland Devastated Near Amherst—Summer Homes Menaced

Toronto, July 6.—Although bush fires are blazing in dozens of places in Northern Ontario on both sides of the Temiskaming and Northern Ontario railroad east and west of Cochrane, no great conflagration has developed as yet, due solely to the fact that there has been no wind to speak of. All reports from the north agree that if a wind springs up before rain comes to extinguish the flames no section of the settled part of the North country will be free from the menace of fire out of control.

The Cobalt correspondent wires that all the towns surrounded by bush are greatly alarmed and fear is expressed that if rain does not come within 48 hours the timbered and wooded districts where fires are already spreading will fall a prey to the flames. It is reported that hundreds of thousands of cords of pulpwood along the line of the T. & N.O. R.R. have been consumed.

Confirmation of the loss of two lives in the bush fire is still lacking. It is said that twenty men left their camp for Holland when the fire became threatening and that only eighteen had arrived. One of the party claims to have seen the two men seek safety to a durum. A great number of homes of settlers have been destroyed, particularly those that were surrounded by old slash.

Quite a few rangers are kept in New Ontario by the Ontario Government and precautions have been taken to guard the towns and the timber belts but experience shows that even a large force is helpless when the flames begin to advance before a stiff wind.

The head office of the T. & N.O. R.R. at North Bay sent out messages to all points along their line today asking for facts about the bush fires and the returns reveal fires on all sides, but most of the reports conclude with: "No immediate danger unless the wind rises."

Conflicting Report
A message received by the Canadian Press, signed by the Editor of the Northland Post at Cochrane, dealing with the fire situation in the North country conflicts very much with stories from other sources. He states that no lives have been lost as was reported yesterday and that instead of 50,000 cords of pulpwood having been burned, the total loss in the whole district from Hearst to the Quebec boundary and South to Matheson is only 4,000 cords.

He adds that Green timber has scarcely been touched and that the fire in most instances is burning in old slash in a few isolated places he adds, settlers' homes have been destroyed.

Repeater Today
To-morrow will be a "repeater" according to to-night's weather forecast which means that Ontario's 90 to 100 temperature, which prevailed today, will be back on Thursday. That will make a solid week of torrid weather such as the Province has not experienced since June 1911. The temperatures all over the country today were perhaps a point or two under Tuesday's maximum but the difference was so small that hardly any body noticed it. Toronto's temperature at the hottest period was at 97, just one point under Tuesday's pinnacle.

"Fair, not much change in temperature" is the weather man's prognostication for to-morrow. The heat wave is having a slowing-up effect on business and in many places plants have been temporarily closed down. Even the Ontario farmer, the most industrious perhaps of all two-footed animals is turning his horses out to lie in the shade during the hot part of the day and he is doing as much work as he can at night. It took several days of heat to convince many team owners of the severity of the heat on their horses and a large number of the ailments of burden expired in the harness.

Anyone who can get near water of any volume, from a pool to the Great Lakes is not missing the opportunity judging from the vastness of the crowds at the big resorts. Tens of thousands of people flock to Toronto's three big bathing beaches last night 87 motor cars were counted lined up along the boulevard near the water. There seems to be no falling off in the number of heat prostrations though people are already learning to take precautions.

Prayers For Rain
Ottawa, July 6.—Prayers for rain will be offered in all Anglican Churches on Sunday and every following Sunday until the drought ceases. A pastoral letter recommending such prayers is being sent out to every rector in the Ottawa Diocese by the Rev. Bishop Roper.

No prayers for rain have yet been ordered in Roman Catholic churches.

Menacing Outbreaks
Amherst, N.S., July 6.—Forest fires of menacing proportions have broken out in various parts of Cumberland County. Seventy-five acres of timberland have been devastated by a fire on the Tyndale Road close to Amherst and although a party of over a half hundred men are re-

REPARATIONS PROBLEM WAS GRAPPLED WITH

Conference Of Prime Ministers Gave This Matter Their Attention

CANADA'S SHARE

Will Probably Be Determined By Expenditures And Number Of Casualties

London, July 6.—(By Grattan O'Leary Canadian Press Staff Correspondent)—The Conference of Prime Ministers to-day grappled with the problem of reparations. Under the decision reached by the Supreme Allied Council the Empire receives twenty two per cent of whatever Germany pays, fifty-five per cent going to France and the balance to Belgium and Italy and the other Allied nations.

The task now confronting the conference is to fix a basis upon which the amount to be collected by the Empire shall be apportioned among its different parts.

This, it is being found, involves no little difficulty. It involves difficulty because the basis that might work advantageously for one Dominion might prove unfair to another.

Thus, for example, if loss of shipping were to be made the basis, the Mother Country, which suffered so heavily in tonnage, would get practically everything and the Dominions practically nothing. Capital investment in pensions has been suggested as a guide, but inasmuch as the pension scales in the various Dominions differ to a considerable degree, as well as the reasons for the payment of pensions, this too, had to be abandoned.

The subject was discussed from every possible angle to-day, the representatives of all the Dominions making suggestions and each quite naturally advocating a system calculated to bring the largest amount to their respective countries.

No decision was reached but it is understood that it is not improbable that the amounts will be determined by expenditure and the number of casualties. This, it is believed, will be satisfactory to Premier Maginot, in view of Canada's comparatively heavy sacrifices both in blood and treasure it would ensure the Dominion receiving a fair share of whatever amounts are paid over.

As to what amount it may be found possible to collect from Germany, that, of course, is an entirely different matter. Sir Robert Horne, Chancellor of the Exchequer who addressed the conference on the matter, requested that his words be held confidential but there is good reason for stating that he was hoping sanguine of any great sum being realized.

The Dominion Premier spent most of the afternoon session listening to an address on Egypt by Right Hon. Winston Spencer Churchill. This consisted mainly of an outline of the terms under which the British Government proposes to withdraw from Egypt, with a review of political and economic conditions at present prevailing in that country.

CABLEGRAM OF APPRECIATION

Has Been Received By Duke Of Devonshire From Winston Churchill

Ottawa, July 6.—A cablegram of appreciation of his services while Governor-General of Canada has been received by His Excellency the Duke of Devonshire from the Secretary of State for the Colonies.

The cablegram is as follows:—"His Majesty's Government have observed with great pleasure the terms of high appreciation in which your services as Governor General of Canada are acknowledged in the address presented to you at the closing of Parliament and in the speeches on the address made in both Houses. They are much gratified to note the recognition in all quarters of your devotion to Canada and Canadian interests during your term of office, and they feel that you have thereby rendered notable service to the whole Empire. I should be glad if you will communicate this telegram to your Government."

Churchill, Secretary of State for the Colonies.

MAY RESUME STREET CAR SERVICE IN ST. JOHN
St. John, N.B., July 6.—Within a few days the travelling public in the city which has for the last week been deprived of street cars will be supplied with transportation if plans which were made this morning are carried out. Percy W. Thomson, manager of the New Brunswick Power Company, said that he was organizing with the view to resuming the Street car service in a few days and the former employees at a meeting of their union this morning decided to form a company which will operate a jitney service in the city.

SELL OLD C.N.R. DEBENTURES

Canadian Government Closes Deal With New York Banking Syndicate

New York, July 6.—(Can. Press)—The Canadian Government on behalf of the Canadian National Railways has sold to a New York syndicate of bankers headed by Dillon Read & Company, twenty five million dollars of twenty-five year six and one half per cent sinking fund gold debentures of the Canadian Northern Railways, according to an announcement made here late tonight. The bonds will be placed on sale tomorrow at 95 1/2 to yield 6.80 per cent. The syndicate is stated to be the same that put out an issue of \$25,000,000 twenty-five year seven per cent bonds last fall for the Canadian National and the G.T.R.

Coupled with the announcement of the sale the bankers issued a statement pointing out that the bonds are secured by the full credit and taxing power of Canada.

It was stated that the funds derived from the bond sale would likely be used to pay the Canadian Government for monies and credit advanced from time to time.

The establishment of this credit in dollars in New York at this time, it was stated, comes just prior to the maturity of \$15,000,000 of two year 5 1/2 per cent notes of the Canadian Government on August 1. Although no announcement has been made of what will be done with the proceeds, it was stated in banking circles that no surprise would be occasioned if part of the loan was used to meet this obligation.

A sinking fund of \$500,000 every six months will be provided for the purchase of the bonds in the open market at or below par, the indenture securing the bonds provides.

Announcement of the new financing came just at a time when the general bond market showed distinct improvement especially in the Railroad Department.

WANT DISPERSAL OF TERRORISM GANG

Jugo-Slav, Rumanian And Czechoslovakian Governments All In Accord

Vienna, July 6.—The Jugo-Slav Government has sent a note to Austria, according to the Belgrade Tribune, demanding the immediate dispersal of what is described as "the central organization for terrorism in the Balkans" which is alleged to be located here.

The note declares proof was discovered during the investigation of the recent attempt to assassinate Prince Regent Alexander, of the existence of such an organization, and adds that the Rumanian and Czechoslovakian Governments are in accord with Jugo-Slavia in making this demand.

Officials of the Austrian Government here express ignorance of any such organization.

WANT U.S. FIRM TO ESTABLISH IN GRANBY
Granby, Que., July 6.—A special meeting of the Granby Board of Trade was held in the Council Chambers to consider what inducements could be offered to a United States automobile company who are

detracting of locating in Granby and establishing a Canadian branch of their business here.
A representative of their company had visited Granby and was most favorably impressed with the place and a committee was appointed to have another interview with him.

QUEBEC, THURSDAY, JULY 7, 1921.

SENSATIONAL
RUMOR ROUND

That Sinn Feiners Have Abandoned Demand For Republic Belfast Reports

Belfast, July 6.—A rumor has been current in usually well informed quarters here that the Sinn Feiners have abandoned their demand for a republic. This is not confirmed in any way, and the members of the Ulster Cabinet are without direct knowledge of today's events.

Report Denied
Dublin, July 6.—The publicity department of the Daily Brien denies the report of the Sinn Feiners' abandonment of their demand for a republic. A Lord Midleton took with him to London a sealed letter from Eamon de Valera answering certain inquiries. Lord Midleton had been authorized to make in behalf of the British Government.

Sinn Fein Flies Seen
Liverpool, July 6.—A remarkable feature of the visit of the Prince of Wales to Liverpool today was the display in many streets in the Irish quarter of Sinn Fein flags intertwined with Union Jacks.

A prominent Sinn Feiner, questioned as to whether any significance was to be attached to this, replied: "All I can say is that the order to do this came from Dublin."

AGED FARMER WAS
SHOT THROUGH HEART

Was Rural Constable Of Korah, Ontario—Wife Was Slightly Wounded

Ste. Marie, Ont., July 6.—Albert Gough, farmer and rural constable of Korah, aged 56, was shot through the heart and instantly killed this morning at the home about one mile west of here, by an unknown assassin. His wife was wounded in the left arm and side, but not dangerously.

The slayer, believed to be one of a gang, fired three shots from a revolver said to have been equipped with a Maxim silencer. Police nets are out in an attempt to land the murderer, but the police were not notified until 6 o'clock this morning and the man had a good start. No reason can be given for the shooting as no robbery was attempted and Gough had no known enemies.

CHANCELLOR SPOKE ON
GERMAN REPARATIONS

Pointed Out What The United Kingdom And Dominions Might Expect To Receive

London, July 6.—(By the Associated Press)—Sir Robert Horne, Chancellor of the Exchequer, made a statement to the conference of Imperial Premiers this afternoon, concerning German reparations, pointing out what the United Kingdom and the various Dominions and Colonies might expect from them.

In the absence of the British Premier, Lloyd George and General Jan. C. Smuts, the South African Premier, who were attending the conference on Irish situation, the session was robbed of much of its interest. Later the Premiers attended a luncheon of British Empire exhibition, at which Sir Robert Horne presided. In his speech the Chancellor of the Exchequer suggested that the commerce of the Empire required all the encouragement and incentive it could be given and impressed upon his hearers the importance of the exchange of commodities between the different parts of the Empire.

U. S. SENATE RETURNED
BILL TO CONFERENCE

Washington, July 6.—Refusing to accept House action in reducing some appropriations in the naval bill, the Senate today returned the measure to conference.

There was no dispute over the Borah amendment authorizing and requesting the President to call representatives of Great Britain and Japan to a naval disarmament conference.

The Senate's action today finally assured retention of the Borah rider.

9,749 MAJORITY.
Medicine Hat, Alta., July 6.—The official count of the Medicine Hat Federal by-election held June 27, announced today, gives Robert Gardner, the National Progressive candidate, a majority of 9,749 over Colonel Nelson Spencer, the Government candidate, with one poll to be heard from.

UNEMPLOYMENT
PRINCIPAL TOPIC

General Dominion Convention G.W.V.A. To Be Held In Two Places

Port Arthur, Ont., July 6.—The Great War Veterans Association executive this evening unanimously decided to hold the 1921 general Dominion convention in Port Arthur and Port Arthur between the dates of Sept. 19 and October 22. The unemployment resolution was passed at the final conference this afternoon.

Principal Question
Unemployment was the principal topic of discussion at today's session of the executive council of the G. W. V. A. At the close of the meeting a statement was handed out embodying the views of the Association concerning methods of relief. Among the suggestions were state employment insurance, improved distribution of labor, guarantees in public contracts that contractors will employ at least twenty-five per cent ex-service men, abolition of commercial employment associations, reduced railway fares for ex-service men getting employment, restriction of immigration, deportation of undesirable aliens, undertaking of public works, including Grand National highways. The statement concluded with a paragraph expressing determination to interest its membership in the application of "suitable remedies."

POLES BLAMED
FOR UPRISING

German Paper Says Beuthen Insurgents Used French Rifles To Kill Victims

Berlin, July 6.—The recent disorder in Beuthen, Upper Silesia, in which the French Major Montallier and four Germans, one a girl, were killed, is asserted in a special despatch from Oppeln to the Vossische Zeitung, here today, to have been planned deliberately by Polish insurgents who used French rifles. The despatch declares a post mortem disclosed that the major was killed by a rifle bullet and that the Germans in Beuthen possessed revolvers only. The Poles planned to impede the French and British in their advance to clear out the insurgents, according to the despatch.

Reports from German sources state that the Polish insurgents are resuming their activities in Hindenburg, Biscuit, Sonowitz and a number of industrial towns. Communication with Beuthen now is cut off, but the last reports received were to the effect that the French used bayonets and clubs to clear the streets and establish order.

A United States priest named Woznick, who now is in Schoppitz as a major of Polish insurgents, says the Breslau Schelsische Volks Zeitung, led the recent insurgent attack against Kattowitz. The newspaper captions the report as "unbelievable."

RENDER "BONE-DRY"

Legal Action To Be Started Shortly In The Capital, Says Paper

Ottawa, July 6.—The Citizen in its news columns this afternoon, says: Legal action on behalf of Ottawa liquor exporters may be taken shortly to render the "bone dry" proclamation of the Federal Government ineffective in Ontario after July 18. Announcement of this effect was made to the Citizen today by one of the counsel connected with the liquor cases, which of late have been occupying the attention of the courts.

The action which is understood will be taken is based it is stated on two main grounds. First that the "reclamation" does not prohibit the sale of spirituous liquors in Ontario as native wines are allowed to be manufactured and sold. Secondly, that by the operation of the proclamation there would be an infringement on the provisions of the British North America Act, respecting the free exchange of trade between provinces.

EIGHT YEAR OLD
FATALLY INJURED

Montreal, July 6.—Struck by an automobile while running across Seignin Street above St. James Street, this morning, Jules Makarek, 8 years of age, of 453 Workman Street, fractured his skull and died in the Western Hospital an hour later. The driver of the automobile was Ernest Paquette, of 281 St. Antoine Street, who was the driver of the car in which Victor Despatie was killed on September 5, last. Paquette had just been acquitted on a charge of manslaughter in connection with this case. Pending the decision of the Coroner's Court, no action will be taken against Paquette by the police.

HAVE SESSION
IN THE FALL

Reports From Political Sources In The Province Indicate This Clearly

Montreal, Que., July 6.—Regarding the political outlook in the Province, a writer in the Montreal Gazette says: "Reports from political sources indicate more clearly each day that there is to be a Provincial session this fall. The time that seems most popular amongst those who should know providing they are consulted in an ordinary way, is that the session will be called for the month of October, in such time as to get through by Christmas."

"The reasons for the session given are in the main matters connected with the liquor laws. There appears no doubt that the campaign waged and being waged by Mr. Sauve, the Opposition Leader, is having its effect, he has understood all Republicans of the Committee, except Representative Fren of Wisconsin would sign, described the measure as a magna charta for the perpetuation of United States standards of living."

Representative Fren in his minority report, which previously had been made public, said the measure was "subject to criticism for many unnecessary high duties that will increase the burdens of the consumer." He characterized some provisions of the bill as "indefensible" and as an abandonment of party pledges.

He characterized some provisions of the bill as "indefensible" and as an abandonment of party pledges. "It is not only that taverns are wanted in country places, but liquor stores are also wanted in some of the places not forgetting Napierville, a County represented by Amedee Monet, who was one of the principal 'kickers' against the present law, and whose county boasts that it never was 'dry' in any way as far as votes were concerned, and does not want to be deprived of taverns and even liquor stores, whether they be of the commission of otherwise."

"Amendments to the liquor law will therefore be the main issue at the next session of the legislature. In addition to complaints from the rural sections, there is a certain amount of amendment looked for as possible in the big city of Montreal. The main point of disagreement here appears to be that places which have dining rooms, and well established places at that, are restricted to one license and consequently when they decide to take tavern licenses are prevented from selling wine at meals."

PLOT TO ASSASSINATE
BRITISH GENERAL

He Nipped Revolution In Bud By Arresting Fifty Two Undesirables

London, July 6.—Cecil B. Harmsworth, Under Secretary for Foreign Affairs stated in the House today that the action of General Harrington, commander of the British Forces in Constantinople, in arresting an assistant of Bronislau Koudiak, Soviet Commercial delegate in Constantinople and other members of the Soviet mission there late in June as entirely justifiable. The arrests were necessitated by the discovery of a plot to start a revolution in Constantinople beginning with the assassination of Gen. Harrington, said Mr. Harmsworth who made his announcement in reply to a question.

General Harrington arrested 52 undesirables, Mr. Harmsworth added of whom eighteen belonged to the Russian trade delegation. Nine of the Russian were released the same day and nine were deported.

WILL SEPARATE
RELIGIOUS ORDER

Order Of Gray Nuns Of The Cross To Be Split Up

Ottawa, July 6.—A news item in the Journal says: "The Order of Gray Nuns of the Cross, one of the largest and most important religious corporations of its kind on the North American continent, whose activities extend throughout Canada and the United States, is to be constituted into two separate bodies, one Canadian and the other American. The actual separation will be consummated within the next few weeks. The formation of the Order into separate bodies with a Superior General in Canada and one in the United States will take place as soon as the final decree authorizing the separation is received from the church authorities in Rome. The decree of separation will be communicated to the order through His Excellency Mar. Pietro di Maria, the Papal delegate."

FRANCE PROTESTS TO
THE UNITED STATES

Paris, July 6.—(By the Associated Press)—The French Government this evening, forwarded to Mr. Jusserand, French Ambassador in Washington, for transmission to the State Department there, a protest of the French Chamber of Commerce against the provision of the United States tariff law calling for inspection by United States agents of the books of French exporters for the purpose of determining the ad valorem duties to be collected by the United States.

TARIFF BEFORE
REPRESENTATIVES

U.S. Administration Bill Accompanied By Majority And Minority Reports

Washington July 6.—The United States administration tariff bill was formally before the House of Representatives today and the way cleared for its consideration beginning tomorrow.

Accompanying it were two reports by Republicans one in praise and the other in denunciation. Chairman Fordney of the Ways and Means Committee, in a report which he said, he understood all Republicans of the Committee, except Representative Fren of Wisconsin would sign, described the measure as a magna charta for the perpetuation of United States standards of living."

Representative Fren in his minority report, which previously had been made public, said the measure was "subject to criticism for many unnecessary high duties that will increase the burdens of the consumer."

He characterized some provisions of the bill as "indefensible" and as an abandonment of party pledges.

BRONSON LEFT ESTATE
OF OVER MILLION

Ottawa Resident's Will Has No Specific Charitable Requests—Chief Beneficiaries

Ottawa, July 6.—Hon. Erskine Henry Bronson, who died October 19, 1920, left an estate amounting to more than one million dollars. The chief beneficiaries are his widow, Mrs. E. H. Bronson and the deceased's two children, Mrs. Robert Johnson and Mr. Frederick E. Bronson, both of Ottawa.

The total value of the estate is \$1,029,912.17, of which \$1,020,633.32 is within Ontario and \$9,281.85, outside the province.

There are no specific charitable bequests. It is explained that Mr. Bronson during his lifetime had always been a very generous supporter of all charitable works, and in his will he recommended strongly to his heirs that they continue the same policy.

POSTAL EMPLOYEES
ARE TO BE LAID OFF

One Hundred And Fifty Will Be Retired On July The 15th.

Ottawa, July 6.—Dr. R. M. Coulter, deputy Postmaster General confirmed a report today that 150 employees of his department would be laid off July 15. Notices were forwarded to these employees yesterday and today.

The notices were signed by the General Superintendent, Col. Geo. Ross, and contained the information that the conditions of retirement would be announced later.

The announcement, it is stated among employees, has caused considerable indignation in the department. It is understood that several exceptions have been made to the previous order retiring those over 65 years of age.

CARIBOU INDIANS
REPORTED STARVING

Fort McMurray, Alta., July 6.—A terrible tale of starving Indians of the Caribou tribe has been told to the headquarters of the Mounted Police at Fort Smith. Human bones were brought in as evidence of cases of cannibalism. The Mounted Police have left to investigate. Strange, a few years ago, Caribou were so plentiful that the Indians ate only the tongues which are held as a delicacy, slaughtering the animals in thousands. The prophecy was then made that in that district the Caribou would disappear and this has happened, hence the starvation.

SUN OBSCURED
BY HEAVY SMOKE CLOUD

Newcastle, N.B., July 6.—The sun was obscured here today by a heavy pall of smoke which hung over the town, due to many forest fires in the vicinity. A fire which has been burning in the vicinity of Barnaby River is now reported three miles from Rogers' Hill and that village is threatened.

Fires have broken out on the headwaters of the Northwest Miramichi where the most valuable timber land in the province is located, also at Baribogue and Willfield.

Unless rain comes soon, it will be impossible to stem the advance of the fires which have so far destroyed an immense amount of valuable timber.

WHOLE WORLD
REPRESENTED

15,000 Delegates From Every Continent At Christian Endeavor Convention

New York, July 6.—Delegations from every continent attended the opening of the sixth World's Christian Endeavor Convention in New York to-night. There were 15,000 men and women massed in the great stone army of the First Regiment that served as the Convention Hall. They represented four million members.

The largest foreign contingent came from Canada, the Dominion sending 1,000 delegates in three special trains. Others came from Japan, China, Australia, India, Armenia, Persia, Egypt and elsewhere in Asia and Africa. Five South American Republics were represented and Mexico had more than a score of delegates. Continental Europe's family of nations and the various divisions of the British Isles were all represented.

Every State in the United States had its quota. Rev. Francis E. Clark, of Boston, President of the World's Christian Endeavor Union, opened the convention with an appeal for a "four square Christian Endeavor Campaign to carry the principles of Christianity to all corners of the world."

The delegates were welcomed by Mayor Hylan, Rev. Dr. Finis Idlemann, Pastor of the First Christian Church, New York, and Frederick A. Wallis, Commissioner of Immigration, Chairman of the Convention Committee.

General Secretary Edward P. Gates reported that 2,338 new Endeavor Societies had been organized in the last two years and the total membership was the largest in its history.

Roger Babson, Statistician who spoke on Christian Endeavor in business, said the present business depression was due to the failure of the people to live close enough to God to stand continuous prosperity. "If the majority of the people in the world should suddenly turn about and live the way Christ taught us to live," he said, "We would develop steadily, evenly, and in the long run more rapidly than it does now."

"The clauses of our business depressions are spiritual and the only means by which they can be remedied and prevented are spiritual means."

Rev. Francis Clark was re-elected president by acclamation.

SIX VEHICLES
IN SMASH UP

Five Damaged, Four Badly Wrecked, Pane Of Glass Broken By Debris

Montreal, July 6.—A large number of pedestrians on Bleury Street had a narrow escape from injury this afternoon when six vehicles figured in a smash up in which five of them were damaged, four badly wrecked, and a pane of glass broken by flying debris.

The accident occurred near the corner of Dowd street when a Bleury line tram car struck a heavy automobile truck which attempted to pass ahead of it. The truck was thrown with force against a small automobile truck stopped at the curb and dragged against two others, finally stopping when it struck an express lorry of the Canadian Pacific Railway.

The smashup was heard for several blocks and a large crowd soon assembled around the vehicles which were buckled up against each other. Calls were sent for ambulances but their services were not required as no one had been injured.

Raymond Hillrich, of 2346 Clarke Street, driver of the motor truck owned by the Hampton Company of 1011 Colonial Avenue, which was struck by the tram car, escaped with a shaking up.

ENTRAINED FOR CAMP.

Sherbrooke, Que., July 6.—Lacking the tender farewells which evidenced the departure of troops from the railway depot during the course of the years of the war, the entrainment of the local detachment of the 35th battery for Petawawa, occasioned considerable interest this afternoon. The detachment, twenty eight strong, was composed of four officers and twenty four other ranks, and was under the command of Captain Youell, M.C., the other officers being Lieutenants Dunsmore, D. Foss and C. B. Loomis.

SMOKY SKIES DO NOT
IMPEDE NAVIGATION

Montreal, Que., July 6.—The fact that forest fires are raging in some parts of Ontario and Quebec, is indicated by the very general accounts of smoky atmosphere at various points in today's signal service report. From Anticosti, 350 miles below Quebec, all along the river to Montreal and Lachine, smoky skies were reported.

It was however stated that conditions were not such as to impede navigation.

NO REFERENDUM
UPON ALLIANCE

In United Kingdom Austen Chamberlain Tells Questioner In Commons

London, July 6.—Replying to a question to-day, Austen Chamberlain, Leader of the House of Commons, said that he had no information on prime reports that the renewal of the Japanese Treaty would be submitted to a referendum in Canada and Australia. That course would, not, he added, be taken in the United Kingdom.

Another member raising questions in the House was informed that the recommendations of the Imperial Wireless Committee had been generally agreed to by the Government last year.

The Dominion Governments were approached to secure co-operation in the scheme and an expert Commission had been appointed to plan out stations.

The whole subject of imperial communications was now under consideration by the Imperial Conference Committee and further action was dependent on the decision of the Conference on the Committee's report.

SIX FRENCH POSTAL
EMPLOYEES KILLED

Brussels, July 6.—Six French postal employees were killed today when a train travelling from Amsterdam to Paris was derailed near Mons. Four other French postal employees and two Belgian railway employees were seriously injured.

The mail car of the train was completely demolished. It is believed the accident was the result of an attempt to wreck the train by criminals.

PRISONER ESCAPED
WHILE AWAITING TRIAL

Montreal, July 6.—The third recent escape of a prisoner from custody while awaiting trial was reported to High Constable St. Mars, yesterday. Henry Stewart, prisoner, just acquitted on a charge of conspiracy, but subsequently charged with vagrancy was being brought over to Police Headquarters by an assistant high constable when he suddenly jumped from the automobile and escaped in a traffic jam.

He was being conveyed in a car because he had complained of feeling sick. The kind hearted assistant high constable has been suspended from the force.

MANSFIELD BOSS WAS
DISCHARGED YESTERDAY

Yarmouth, N.S., July 6.—Mansfield Boss, son of the late Perry, daughter of the retired sea captain Geo. H. Perry, who was murdered on the threshold of his home here in February last was this morning discharged in the Supreme Court after the grand jury, acting on the instructions of Mr. Justice Mellich, had brought in a "no bill" against him.

The dropping of the charge against Boss of being an accomplice in the murder of Cap Perry, after the fact, followed the acquittal yesterday of Mr. Clara Elizabeth Perry, of the charge of murdering her husband.

GERMAN GENERAL WAS
ACQUITTED YESTERDAY

Leipzig, July 6.—Lieut.-General Karl Stenger charged by the French Government with having ordered troops under his command to take no prisoners and kill wounded men during the fighting of August, 1914, was acquitted today by the German Supreme Court here, engaged in the trial of cases against alleged war criminals.

Major Bruno Crusius, tried on a similar charge, was given a sentence of two years in prison and forbidden to wear the uniform.

General Stenger was commander of the 53rd Reserve Infantry Brigade and Major Crusius held a command under him.

TWENTY SEVEN FARMER
CANDIDATES IN FIELD

Edmonton, Alta., July 6.—Twenty seven United Farmers of Alberta candidates are now in the field for the coming Provincial election. Northern Alberta candidates named Tuesday evening include the following: T. J. H. G. Grimdale, M. C., for Ground; D. F. Muir, Leduc; R. G. Reid, Vermilion; W. J. Joly, St. Paul, and W. M. Washburn, Stony Plain.

NO CAUSE FOR
ANY UNEASINESS

Mexico City, July 6.—High government officials here said today they saw nothing in the situation in the Tampico oil region to cause uneasiness over international relations. They declared they did not anticipate serious trouble in that district. The dispatch of two United States war vessels to Tampico was treated conservatively by the Mexico City newspapers.

USED MACHINE GUN
AGAINST ATTACKERS

Dublin, July 6.—A party of special police was attacked today by Rebels at Castle Finn, County Donegal. The police used a machine gun against the attackers, killing three.

The town of Monaghan was isolated while Auxiliaries were being held today, wires being cut and the roads treacherous. Judge Moore pronounced the police record of the town "A terrible catalogue of crime."

Constable Brewer was shot and dangerously wounded last night. The shooting occurred at a hospital in County Limerick.

URGES PRUDENCE
IN THE FORESTS

Mr. G. C. Piche, Chief Forester, Makes Appeal To All Going To Woods

Gustave C. Piche, Chief Forester of the Province of Quebec, in a statement given out last night appealed to the public to give more attention to the danger of starting forest fires. He urged that fishermen take great care to see that camp fires are completely extinguished and also requested that they refrain from smoking when walking through the woods.

The drought since the month of April has been exceptional, he said, but still some people did not seem to realize what they were about. He instanced the case of one man in Montane County who was reported a few days ago for burning brush, which in such a dry season, the crops would be a failure this year aroused the people, but the crops might be excellent next year. Few seemed to realize that a forest once destroyed could not be restored in 100 years.

TWELVE HORSES WERE
BURNED TO DEATH

Montreal, July 6.—Twelve horses were burned to death and damage estimated at between \$12,000 and \$15,000 by a fire which destroyed a large stable belonging to the Congregation of Notre Dame on Nun's Island, opposite Montreal today. The cause of the fire is unknown, and as picnickers were not permitted on the island it cannot be attributed to them.

QUEBECERS SUCCESSFUL

Ottawa, Ont., July 6.—Among the list of names of candidates who were successful in the entrance examinations for the Royal Military College in order of merit, made public today by the Militia Department, are included G. M. G. Smith, Quebec; W. S. Russell, Cap Chat, Que., and Richard H. Price, Tadoussac, Que.

FIRST CASE IN SHERBROOKE.

Sherbrooke, Que., July 6.—The first case heard in a local Court under the provisions of the Quebec License Act came before Judge Mulvena today. Michael Byrne was found guilty and sentenced to pay a fine of \$100, on a charge of selling liquor at St. Julien de Wolfestown, without a license.

HEAT UNBEARABLE

Montreal, July 6.—With the sky obscured by smoke from distant forest fires, the heat here today seemed unbearable, but was in reality never higher than 84 degrees. Although humidity was high at 80, there were no recorded cases of prostrations in the city.

FISHY RECORD.

First Stenog (reading)—"Think of those Spaniards going 3000 miles on a salmon!"
Second Stenog—"Aw, forget it. Yuh can't believe all yuh hear about them foreign cars."

QUEBEC, JULY 7, 1921

FOREST FIRES

Weeks ago the Chronicle referred to the virtually annual phenomenon of a blood-red sun peering sullenly through a smoke-based sky, and the casual manner in which it was for the most part carelessly passed off as "only a forest fire." That condition is again being realized at the present moment, despite years of costly experience and despite urgent warnings conveyed by the Press last Spring, in the three Provinces of Quebec, Ontario and New Brunswick.

Aided by intense heat that has dried every twig and blade of grass to tinder, in combination with a prolonged drought, fires are raging through vast forest areas and the flames are extending the sphere of their destruction from hour to hour. Here in the city it is difficult to picture the terrible scene presented by this moving pillar of fire or by the blackened charcoal stumps that are left in its wake but thousands—even hundreds of thousands—of dollars are consumed in the process, just as surely as if a bonfire had been made of the actual currency. Whole villages and scattered habitations are likewise wiped out by uncontrolled violence of the destructive element; leaving their inhabitants homeless, destitute, and lucky indeed if they escape with their lives.

Unless Providence sees fit to support puny human efforts in combatting the flames with a too long withheld deluge of rain, disaster on a well-nigh unprecedented scale must almost inevitably overtake Quebec and its two neighboring Provinces.

While it is not impossible that spontaneous combustion should occur, given the particular weather conditions that have been prevailing of late, there is far more likelihood that the forest fires are due to human agency; that Canadians again must be called on to pay the price of criminal negligence. Someone has thrown a light match or the butt of a cigar or cigarette away into the brush; it may be that the spark from a lighted pipe or smouldering camp fire has been carried by the wind; or it may be that some railroad locomotive has been permitted to belch forth a shower of sparks. The odds are a hundred to one that the fires were lit by one of, not all of the causes and that those responsible are blissfully unconscious of the terrible consequences of their carelessness.

Brush and forest fires are very difficult to put out once they have gained their head but they are easily preventable by the exercise of ordinary caution and common sense. There is no excuse whatever for the annual destruction and property loss in Canada chargeable to such fires and if those who frequent the woods on pleasure or business cannot be brought to realize their duty as citizens voluntarily, existing laws must be made more severe. The most important natural resource of the Dominion must be made "fool proof" if there is any way by which it can be done.

PLAYING POKER WITH DESTINY

When one reflects upon the exceedingly serious conditions of the country, financial, commercial and otherwise, and especially when one gives thought to the grave exchange problem through which we are being held white, it is difficult to understand the mental attitude of the Liberal and Farmer leaders and their lieutenants.

The exchange question overshadows all other questions and problems affecting us at the present time. If the people could only be made to realize the extent to which we are being held through the operation of exchange between this country and the United States, every public-spirited man and woman would be willing to work with might and main to find the solution.

The discount of our dollar in the United States, now something like fourteen or fifteen cents, means that we have to pay more to that extent for the goods we buy from the United States, and for many of the goods produced in Canada, to the tune, in the aggregate, of at least two hundred million dollars a year. To get down to a concrete case, which almost everybody can understand—every householder in Canada who burns hard coal has to pay between \$1.50 and \$2.00 more per ton than he needs, by reason of this exchange. Just as he has to pay that much more for his coal, so he is paying, for the same reason, correspondingly more on nearly every commodity he purchases. It is an appalling condition of affairs.

What this country needs is a trumpet-call to arouse the people to a realization of what this awful exchange handicap means. Yet the gentleman referred to above do not seem to have the slightest conception of the portentous gravity of the whole situation.

The stern necessities of the time imperatively call for the best that is in our public men, insistently demand the co-operation of the ablest minds to restore order out of chaos, and lead the country out of the quagmire of financial, trade and labour troubles to solid ground, on the sure foundation of which a great future may be built up.

These facts notwithstanding, Liberal and Farmer politicians alike—whether deliberately or not—shut their eyes to everything except their own inordinate desire for power and revenge. Forgetful or neglectful of their country's pressing needs, they are playing the old-fashioned "You-are-another," "We-are-angels-and-you-are-rascals," game of party politics, by which the country has been so bedeviled in the past. If the times were not so serious, one could afford to smile, but the occasion is not one for levity. It is really pitiable to see these intelligent men playing poker with the destinies of their country. Instead of helping they are hindering; instead of being constructive, they are purely destructive; instead of co-operating towards stabilizing conditions, they are pandering to every discordant element in the population.

This language may seem severe, but it is merely the truth. The Opposition leaders have done nothing, and are doing nothing to help the nation, in its difficulties. They have no policies, except the theoretical policy of free trade of the extreme farmer group. Macdonald-King is for protection, for tariff for revenue, for free trade, according to whatever part of the country he may be addressing himself to. The Honourable Mr. Curran is not so sure of his free trade principles and has shown a tendency to modify his position.

Neither man has made any attempt to grapple with a serious national situation and tell the people in simple, plain language, how they could do better than the Government is doing in carrying on the traditional policy of the Dominion for the last forty years. Their whole stock-in-trade consists of worn out phrases and platitudes. They never try to explain the financial conditions and do they offer practical alternatives to the

Government's policy. We get nothing but the cheapest kind of bitter, carping politics. It is as one disquieting and discouraging to men of clear vision and unprejudiced minds. It fares a country where ignoble and unpatriotic methods are resorted to; Heaven help Canada if Federal group government be our fate!

SQUANDERING ADJECTIVES

Le Soleil is devoting an amount of space and a quantity of adjectives these days to Mr. Arthur Sauve which plainly shows that, as it was in France not long ago, he and his little army are not as "contemptible" as their opponents feign to believe. Nor, be it noted, is so much attention being paid to answering the criticisms of the Provincial administration made by the Leader of the Opposition as to belittling him and holding him up to public prejudice. The serious public is not interested in Le Soleil's opinion of Mr. Sauve's personality; what it is interested in is Le Soleil's defence of the acts of the Liberal Party in Quebec, its estimate of the programme of the Conservative Opposition.

Great play is made of a futile explanation by Mr. Pouliot, author of the charges against Dr. Parrot, which is intended to exonerate the Taschereau Government but cannot alter the material facts. Mr. Pouliot is a Liberal and the son of a Liberal; in running for Dr. Parrot it was not his intention to pepper his own Party and, when the storm began to gather, he promptly wrote to the Montreal Gazette and Le Devoir in this sense: even going out of his way to cover Premier Taschereau with praise.

Now it would hardly occur to anyone in the first instance—nor do we know that it was publicly suggested—that the Provincial Government was responsible for the personal acts of a private Member of the Legislature except insofar as he was one of its chosen followers. Had the Attorney-General either ordered or promised an investigation, he would have effectively cleared the skirts of his administration and silenced the voice of criticism, unless as to the general standard of Liberal ethics.

What the Government is reproached with is not that charges have been made against a Government Member and permitted to remain unchallenged by him, but that the Government has put itself in the position of shielding that Member from the legal consequences of the acts that he is alleged to have committed, and has invited him to obtain a coat of white-wash at the polls. These are the facts upon which Mr. Pouliot might have expressed himself to better purpose; these the facts that Le Soleil must face if it wishes to vindicate the course pursued by its masters, which would be perfectly natural if they had anything to hide but is extremely foolish if their consciences are clear.

Some Things the Public Would Like to Know:

Pertinent Questions on Matters of General Public Interest are Invited.

How many of our Liberal M.L.A.'s are shivering in their shoes?

Why the nakedness of our Harbor should be exposed to the curious gaze of Congressmen and Senators from the United States?

A Verse Or Two

(By Modern Poets)

TOO OLD AT SIXTY-FIVE?

Too old at sixty-five? O shades of Socrates! Of Moses, Gadhstone, Tennyson and Laurier! These, And countless more of strong and vigorous men. Who governed, fought and wrote round three score years and ten.

They scorned to own defeat though long their locks were grey. Nor would they sit aside till death should come their way: But with the zest of youth they work with heart and brain.

Enriching this old world with things they did attain.

Too old at sixty-five? O Edison, for shame! You must be getting on—why don't you quit the game? Sir Oliver Lodge, you speak of blessings science brings. But are you not too old to dabble in such things? Asquith, Balfour, Gompers, and men of like renown. Are surely tried workers and should be lying down. And Foster—our Sir George—is long, long past his prime.

By Griffenhagen's rule his staying is a crime.

Too old at sixty-five? Away the absurd thought! Great deeds have been accomplished and fine achievements wrought. By men past sixty-five. And there are men today. By some thought old and weak, and yet keep in the fray.

He is not old who walks with buoyant step and light; He is not old whose eyes shine ever clear and bright; He is not old whose arms are flexible and strong. He may be sixty-five, but he's sixty-five years young.

FRED BATEMAN.

Press Comment

THE STATESMEN'S RESPONSIBILITY (Louisville Courier-Journal)

Messrs. Hughes and Hoover, the former one of its authors, the latter a man who has seen much of suffering peoples, know how badly the league is needed. Upon the statesmen of the world is the grave responsibility if it fails. They all know the significance of the remarks of Jan Smuts, even if they are not brave enough themselves to reiterate those remarks. "The most deeply felt longings of the human race for a better life" must be satisfied by the statesmen of the world. If they are not satisfied, who can tell what will happen?

WILL NOT TALK DISARMAMENT (Washington Post)

In plain terms, for this country to disarm while possible foes are making feverish preparations for war would be the height of folly. Disarmament will have to come as the result of international agreement and must be accomplished simultaneously by every nation. Those who want this country to set the example are simply crying in the wilderness.

THE BRIGHT SIDE OF BAD TIMES (Concord Monitor)

The one glorious fact about hard times is that to be poor is no disgrace and to economize is the common lot. This makes the restriction of expenditures natural and less humiliating.

WHAT ALL OF US NEED (Norfolk Pilot)

What the classes need is less consciousness and more conscientiousness.

ONE IRISHMAN AND ANOTHER

"Some Impressions Of My Elders" Provides Some Interesting Reading

New York, July 6.—In the North American Review, Mr. St. John Ervine, the Irish novelist and dramatist, beginning "Some Impressions Of My Elders," treats us to Mr. George Moore, who has given so many artlessly or artfully unfavorable impressions of some of his contemporaries. Curiously enough Mr. Ervine doesn't seem to know the happy year of Mr. Moore's birth. "His age is not stated in the books of reference," for Mr. Moore is as reticent as an actress on this point. "Mr. Moore's reticence should have begun earlier. He used to be unashamed to trust the reference books with his birth date, 1853 (the authority is the N. Y. Times). It is good to know, however, that here is something about which he is reticent. To be sure, the one reserved subject, capable of being wrapped in silence, is himself, but is there anything or anybody else in the world? That is a sacred theme."

Unforgivable Insults. Mr. Ervine tells of his vain attempts to reconcile Lady Gregory and Mr. Yeats to Mr. Moore. The poet could forget the insults to himself, but not those offered to Lady Gregory. Lady Gregory had no feeling for Mr. Moore's gibes about her in "Hail and Farewell," but couldn't pardon his insults to Mr. Yeats. So the amiable Mr. Ervine's good intentions could not be fulfilled. He went from Lady Gregory's Dublin lodgings to Mr. Moore's hotel to report his want of success. In Mr. Moore's room he found him, "white with anger and dismay," "AE" (Mr. George Russell, that most accomplished of Irishmen, artist, poet, thinker, economist, man of business and mystic), "John Eginton," that not too well-treated old friend in the memoirs, and another. News of the battle of Jutland had just been received.

Moore's Admission. That was the day, according to Mr. Ervine, when Mr. Moore "definitely became an old man," when he first realized that there was anything serious in the world. Previously "he had lost the faculty of personal feeling." He looked at everything as a mere spectator. He couldn't understand why his friends "should deeply disrelish the idea of having their affairs, intimate and even secret, used as material for a book by Mr. Moore." Anything told "in his exquisite literary style is of value to mankind," and son on. In other words, it is perfectly justifiable for an "artist" to be a cad. Mr. Ervine was duly impressed by Mr. Moore's deluge of speech over the Battle of Jutland. Possibly Mr. Moore did for a second have a genuine emotion. More probably, he had another opportunity to pose, to bore and worry his three friends. How noble and serious his emotion was is evident from his cry for "the impeachment of Mr. Asquith, the restoration of the Coronation Oath and the abolition of all dogs."

Moore Hates Dogs. He is or pretends to be a violent dog-hater. Most of us will sympathize with that "English poet who is also a great leader of bulldogs." It is "the ambition of his life to see one of his bulldogs fasten its teeth firmly in the calf of Mr. Moore's venerable leg." As might be expected, he has a very "artistic" way of showing his filial piety. As will be remembered by Mooreites, in the preface of the life, by his brother, Colonel Moore, of their father, George Henry Moore, he wrote that his father had killed himself "because his heart was broken by the dishonorable behavior of politicians." His brother denied the story, and ceased to have anything to do with George, who "still clings romantically to the belief that his father were to rise from the grave and deny the story. George would murmur aggressively, 'You know, father, you are spoiling a very charming story!'" George is so "insensitive" about trifles.

Moore's Laments. All these little things have nothing to do with the merits or demerits of his works; to be sure, and the occasional impression of insincerity, of inhumanity, of a cold lubricity that arises in reading some of these may be derived, in part, from the personal traits which he chooses to display. If he has abused the license of an "artist," he has been punished. He complains himself that "Father Waters" is regarded as an anti-gambling tract, just as "The Mummer's Wife" is taken as a sermon against female drunkenness. We went on into Mr. Ervine's discussion of Mr. Moore's novels, but may mention that he speaks of his early verses, "Flowers of Passion" and "Pagan Poems," and says, "rather curiously, 'so far as I've been able to discover, no one has ever seen these books or read the poems contained in them.'" The former, the earlier in time, is not entirely absent from the catalogues of the book dealers. It brings a pretty stiff price, not on account of the poetry, perhaps, but on account of the "er-ratum slip."

NICE AMOUNT RAISED.

New York, July 6.—Thomas W. Lamont, Chairman of the American Committee for China Famine Fund has announced that a total of \$7,250,000 was contributed during the campaign which ended June 3. The cost of raising the amount was estimated at about three percent. Relief organizations in China, Mr. Lamont said, raised \$5,000,000 gold exclusive of the government loan.

BANDIT PLAYS COP
IN MOTOR HOLD-UP
Robs Woman In Auto, Then
Persuades Rescuer He Is
Policeman
Hackensack, N. J., July 6.—When recurring alone early today in her automobile from a Manhattan theatre to her home in Oradell, Mrs. Rex W. Wadman, wife of the president of the Rex W. Wadman Company, advertising, was attacked near Bergenfield by a bandit.
The man posed as a traffic policeman, and succeeded in halting Mrs. Wadman's car in a lonely part of the highway. Mrs. Wadman was wearing several thousand dollars' worth of jewelry according to her report to the police, but all the man obtained was her handbag, which contained a gold wrist watch.
The bandit asked Mrs. Wadman and was endeavoring to stuff her screams when Albert H. Hammond, of Brooklyn, arrived in his automobile. The bandit released Mrs. Wadman and stepped to the road. Mr. Hammond got out to investigate.
The man told Mr. Hammond he was a policeman and had stopped Mrs. Wadman because she was speeding. Mr. Hammond asked him to show his shield, and when the bandit failed to do so suggested the matter could be settled in the Bergenfield police station.
Mrs. Wadman started for Bergenfield in her car, and Mr. Hammond followed. The "policeman" followed in his automobile a short distance, and then turned into a cross road and disappeared.
After reaching Bergenfield, Mrs. Wadman discovered the loss of her handbag. She said her wraps covered the jewelry she wore.

How the Udder of a valuable cow was saved
Chas. K. Robbins, of Chaboyne Point, Yarmouth, N.S., writes:—
"A recent experience in reclaiming what was supposed to be a lost section of a valuable cow's udder has demonstrated again the great worth of Minard's Liniment. I can recommend it in the highest terms to all who have a herd of cows."
"For years I have never considered my household stock complete without a bottle of Minard's. For burns, bruises, sprains, frostbites, or chilblains it cures. And I know of no better remedy for a sore udder."
"I think I am safe in saying that among all the patent medicines there is none that cures as large a field of troubles as does Minard's Liniment. A real treasure—Good for Man and Beast."

MINARD'S
"KING OF PAIN"

Sale of Rare Oriental Rugs
The big exhibition and sale by public auction of beautiful Oriental rugs which was advertised in an earlier issue has been delayed by the late arrival of the rugs. These, however, have now come to hand, and Quebecers will be able to see and acquire these rare specimens of rug weaving to-day.
This magnificent collection, a special consignment from L. Babayan, Canada's largest and best known rug importer, consists without doubt of the finest and largest stock of the kind ever brought to Quebec. Connoisseurs of Oriental rugs of the higher grade are cordially invited to attend this important exhibition and auction sale.
The Sale will start at 2:30 p.m., this afternoon at Gale's Old Curiosity Shop, 88 1-2 St. Louis street. Come and see these Wonderful Rugs.

IN AND ABOUT TOWN

FOREST FIRES RAGE GENERALLY

Only Early Rain Can Now Avert Serious Timber Loss In Province

The fires that are causing the vast amount of destruction in the forests of the Province of Quebec, Ontario and New Brunswick have assumed such widespread proportions that the Provincial Government, as well as the limit holders and public in general, are commencing to be greatly alarmed. The worst fires seem to be centred in the forest reserves of the Province of Ontario, where fire protection and means of combating such outbreaks are not as perfect as in the Provinces of Quebec and New Brunswick.
The long spell of drought and intense heat that has prevailed for the past ten days is mainly responsible for the forest fires which, according to reports, are breaking out in every direction, and if rain does not soon make its appearance to subside the flames it is feared that they will reach such proportions as will entail a loss of many millions of dollars of valuable timber lands, and, in all probability, loss of life. The Quebec Government has become alarmed over the situation, and the Minister of the Department of Lands and Forests, Hon. Honoré Mercier, is studying it with his assistants. In the meantime quick action is called for on the part of the Government, which should engage thousands of firefighters if necessary to go out to the regions where the fires are raging to keep them from further spreading.
Fires are sweeping all over Northern Ontario where several lives have already been lost as well as property. The fires are reported to be particularly menacing in the vicinity of Timmins and Iroquois Falls, and along the line of the Transcanadian Railway. In the lower Abitibi region 3,000 cords of pulpwood have been burned. The T.C.O.R. and the C.N.R. are having difficulty in running their trains. In the St. Marie region the Spanish River Pulp and Paper Company's camp at Millwood, Mile 132, on the Algoma Central Railway, has fallen a prey to the flames, as well as several houses, the residence of which have been driven out of the vicinity. In the Province of Quebec there are fires everywhere, and the latest reports have been received from Donquet, near Quebec, on the north shore and the south shore.
A dispatch from Three Rivers mentions that the St. Lawrence River has been so intense that the bush fires were so intense east of St. Etienne des Grès, that the village was enveloped in smoke and steamers were forced to anchor in Lake St. Peter at night on account of the thick smoke.
Farmers in Despair.
In the meantime the farmers all over the Province are in despair and report that the ground is all dried up with the heat and the hay crop killed, which will force them to sell their livestock next fall, as they will not have any fodder to feed them.

GOOD CROWDS SAW PLEASING CIRCUS
Sells-Floto Organization Gave One Of Best Performances Seen Locally
The Sells-Floto circus paid a visit to Quebec yesterday and after giving two performances one in the afternoon and one in the evening besides holding a street parade in the forenoon which was greatly enjoyed by the juvenile population; took its departure late last night for Three Rivers where performances will be given this afternoon and evening.
The Sells-Floto circus is one of the best now travelling on the road, and the performances given yesterday at the Quebec Exhibition Park Grounds were well attended, the show being fully appreciated by the many citizens who formed the large audience. The big tent accommodates 12,000 people with seats. This tent was four fifths filled yesterday afternoon and in the evening the attendance was a capacity one.
The performance was one of the best seen in Quebec for some years, and the horses a magnificent aggregation. The chief feature was the splendid organization, the clean cut acting and the astounding acrobatic and tumbling performance as well as the well trained elephants and dogs.
There was a good show from start to finish and everybody who attended was well satisfied. As for the kiddies they were wonder struck in delight.

ONE KILLED IN RUNAWAY ACCIDENT.
Abbotsford, Que., July 6.—A runaway accident which resulted fatally for one of the victims, occurred here, Dr. Newell Flisk and Mrs. Flisk were driving with their son, Edward, when their horse taking fright, started to run. All three were thrown out and Mrs. Flisk was precipitated against an iron wall which resulted in fracturing three ribs, while Dr. Flisk and his son suffered lesser injuries.
Mrs. Flisk passed away on Monday afternoon from heart failure as a result of the shock.

FIRE YESTERDAY ON BAYARD STREET
Fire broke out yesterday afternoon in a shed in the rear of Mr. F. X. Lachance's butcher shop on Bayard street. The firemen were called by alarms from Boxes 132 and 148. The outbreak was promptly mastered. The damage was in the vicinity of one hundred dollars.

AUTO AND CAB IN COLLISION
An automobile and a victoria collided at the corner of St. Joseph and Bridge streets last night. The cab was travelling west on St. Joseph street, while the automobile was running northward on Bridge street. When the two came together the cab and horse were knocked over. The cab was slightly damaged, but the horse and driver were not seriously injured.

PLAYGROUND OPEN ON ESPLANADE

Large Gathering Present For Inauguration Of Safe Play Quarters For Kiddies

The inauguration of a safe playground for children on that portion of the Esplanade extending from Kent Gate to the water fountain, was carried out yesterday afternoon under most auspicious circumstances.
Both instructors Miss Cole and Mr. De Croix were present and initiated the children into the various games, while Mr. J. B. O'Regan, Secretary of the Citizens' Committee, who started the movement for playgrounds, was an interested observer.
A gathering of more than 150, including children, parents and friends were present.
On Tuesday evening from six to eight o'clock the children will again be instructed in the games, and on Friday and on Sunday afternoon the instructors will be at Victoria Park.
Mr. O'Regan and City Engineer Ballalige visited sites near Arago street and hope to be able to find a suitable place for a playground in the near future.
It is estimated that it will cost in the vicinity of \$2,000, to properly equip the playgrounds, and as the committee has only a sum of \$500, voted by the City citizens are urged to donate such equipment as might be used.

DANCING, PRETTY GIRLS AND COMEDY

"That's It," Proves A Good Entertaining Musical Comedy At The Auditorium—Large Houses Keep On Enjoying Play And Music

That Quebec enjoys and likes light musical comedies is evidenced by the engagement that is being held this week at the Auditorium theatre by the musical comedy success "That's It," which opened at the Auditorium Monday for a full week and which is still drawing at the end of the week as big houses as it did on Monday and Tuesday.
The play is really good, full of mirth, dances, songs while the choruses set forth a dainty group of pretty misses that you can't miss liking. The program also comprises the regular bill of photoplays and the usual admission prices prevail.

MRS. LOUIS J. BELANGER HAS PASSED AWAY.
It is with deep regret that the many friends of Mrs. L. J. Belanger will learn of her death which occurred last evening at the residence of her son-in-law, Mr. Martin E. Maloney, Garden street, after a short illness.

The deceased lady, who was the widow of the late Mr. Louis Jules Belanger, formerly Deputy-Prothonotary of the Superior Court and Clerk of the Superior Court, Quebec, had attained the ripe age of eighty years and six months at the time of her demise. She had all ways enjoyed good health up to a month ago, when she was stricken with illness from which she succumbed as stated, last evening. A devoted member of the Roman Catholic Church, the late Mrs. Belanger took a deep interest in the various societies connected with the Basilica Parish, and was especially on her behalf of the poor and suffering was invariably met by a prompt and sympathetic response. The deceased lady's beautiful and happy disposition gained for her a host of friends, all of whom will deeply deplore her demise.

The late Mrs. Belanger is survived by six daughters, Mrs. (Dr.) J. A. Langie, of Tracadie, N.B.; Mrs. J. Desnoes, of Ottawa; Mrs. L. P. DeCourval of Victoriaville; Mrs. Martin E. Maloney, of Quebec; Mrs. (Dr.) J. A. Simard, of Providence, R.I.; and Mrs. (Notary) J. H. Rousseau, of Trois Pistoles, to whom the sympathy of their numerous friends will be extended in the bereavement they have sustained.

CAN YOU BEAT IT. See A Big Show, dance for fifteen minutes between each act, and dance after the show until 12, all for 25 cents. Fine Arts Building, Exhibition, tonight.

HIS EXCELLENCY RETURNED TO TOWN LAST EVENING
His Excellency the Governor General arrived in town last evening on board the Lady Grey, on his return from the Madeleine River, where he was the guest of Mr. Frank Ross at the latter's fishing camp. The Duke of Devonshire was accompanied by Capt. Lloyd and Capt. Kinnaird A.D.C.'s.
His Excellency will visit the Lewis Camp on the 15th instant and distribute thirty war medals to members of the Royal 22nd Battalion in recognition of their services overseas.

THE CANADIAN MUNICIPALITIES

Annual Convention Will Be Held In Ottawa On 27th, 28th. And 29th.

A gathering of deep interest to all municipal governments in Canada as well as to the public in general will be held this month at Ottawa when the twenty-first annual convention of the Union of Canadian Municipalities will meet on Wednesday, Thursday and Friday, July 27th, 28th and 29th.
This meeting is called the "Coming-of-age Convention" and in their message to all Canadian Municipalities, the President, Mr. Arthur Roberts, K.C., and Mr. A. D. Shibley, Secretary Treasurer, write in part as follows:—
"Our 1921 meeting will mark the twenty-first birthday of the organization. We wish and aim to have the occasion typify that happy, ambitious and virile stage in a man's career. Every true Canadian is a believer in the objects of our Union which are briefly to combine all the live and organized communities of the Dominion from east to west in a national movement for honest and efficient civic government; to maintain a fighting organization eternally prepared to oppose the attacks of inimical interests seeking to exploit public rights for private gain; to provide means of discussing and disseminating information of value to our people, and to encourage and aid in directing favorable legislative effort."
Mayor F. H. Plant, of Ottawa, extends the following welcome:—
"On behalf of the citizens of Ottawa, I desire to extend to the delegates to the Convention of the Union of Canadian Municipalities to be held in the capital on the 27th, 28th and 29th of July, 1921, a most hearty and cordial welcome.
The delegates will receive a royal welcome and, at the termination of the Convention's important deliberations, carry away nothing but the most pleasant recollections of the 1921 meeting, is certain from the enthusiastic manner in which all classes of citizens received the announcement that the Convention was coming to Ottawa."

The programme, which is a comprehensive one, is as follows:—
Forenoon—Meeting of the Executive in Committee Room; Informal reception and registration of delegates; Address of Welcome by Mayor Plant; replies on behalf of delegates; Presidential address; Financial report; Parliamentary Agent's report; Report of Executive; Revision of constitution; Notice of resolutions.
In the afternoon—Formal opening by Premier; Municipal borrowings, Mr. J. N. Bayne, Commissioner Local Government Board, Province of Saskatchewan; Recent Development in Municipal Government in the United States, Mr. H. W. Dodds, Secretary, the National Municipal League of the United States.
In the evening—Municipalities and Health—Dr. J. A. Amyot, C.M.G., M.B., Deputy Minister of Health; First Aid from a Municipal Standpoint, Col. C. A. Hodgkiss, M.D., C.M.G., D.P.H., Commissioner of the St. John Ambulance Association.
Thursday, July 28th.—In the forenoon—Control of Municipal expenditure, Mr. Horace L. Britain, Director, Citizens' Research Institute of Canada; Public Ownership of Public Utilities, Mr. Tom Moore, President the Trades and Labor Congress of Canada; Proportional representation in Municipal elections, Mr. H. P. Hill, M.J.A., Chairman of the Ontario Legislative Committee on Proportional Representation.
In the afternoon—Metropolitan Civic Administration, Mr. E. R. Deary, Chairman, Administrative Commission, Montreal; Federal Aid for Highways, Mr. A. W. Campbell, M.E.I.C., Commissioner of Highways; Present Status of the Public Service, Mr. Clinton Rogers Woodruff, President, The Civil Service Commission of the City of Philadelphia; as guests of Mayor Plant and the members of the City Council the delegates will motor through the parks and drive ways of Ottawa; Banquet at the Chateau Laurier by the City of Ottawa.

Friday, July 29th.—In the forenoon—Unfinished business; Report of Committee of resolutions; Election of officers and executive.
In the afternoon—Assemble on steps of Parliament buildings for group photograph; visit to the Parliament buildings; Motor drive along the Gatineau as guests of Mayor Ousoneau and the Council of the City of Hull.

The vessel is a Single Screw Steel Two Deck Cargo Steamer, with P.O.P. Bridge and Forecastle, and is built to Lloyd's Highest Class and to British Board of Trade and Canadian Government Inspection requirements.
Length Overall 113'-6"; Length B.P. 40'-0"; Breadth Mid. 52'-0"; Depth Mid. 31'-9"; Draught 21'-3"; Deadweight, 8350 Tons; Speed 11 3-4 Knots.
Engines and Boilers
Engines are of Triple Expansion Surface Condensing Type. Cylinders 27", 44" and 73". Stroke 48".
Boilers are three in number, 15'-6" Diameter, 11'-6" Long; 130 lbs. Working Pressure. Fitted for burning oil fuel.
Cargo Equipment
The Hull is divided into 7 watertight compartments by six bulkheads, and vessel has four cargo holds of large capacity with Tween Decks above the holds. The Cargo Hatchways are five in number with two 5 Ton Derricks fitted to each hatch. There is also a 20 Ton Steel Derrick fitted to No. 2 Hatch for special heavy lifts.
There are 11 Steam Winches of latest type for handling cargo, two of these being of larger size for handling heavy derrick.
The double bottom extends all Fore and Aft and is arranged for the carrying of oil fuel or water ballast. The Fore and Aft Peaks are also arranged for carrying water ballast. The Bunkers are arranged at sides of Engines and Boiler Casing and are built to carry Coal or Oil Fuel.

Accommodation
The crew is berthed in superior accommodation, the Officers and Engineers in cabins on Bridge Deck and the Seamen and Firemen under P.O.P. Separate Mess Rooms are provided for Seamen, Firemen, Engineers and Officers.
In the forward Deckhouse there are two Passenger Cabins, Smoking Room and Dining Saloon, nicely furnished and fitted up with all latest appliances.
A complete system of Electric Lighting is installed throughout the vessel, all up to latest requirements for this class.
Steam Heating is provided to all accommodation.
There is also a complete system of water service to Bath Rooms, Pantries, Toilet Rooms, etc., and Fire and Wash Deck service is also fitted connected to special pumps in Engine Room.

The Steering Gear is of the Wilson-Pirie type with rudder brake, and Telemotor Gear controlled from Wheelhouse and Peep Deck.
The Steam Windlass is of Clarke Chapman type with quick winding ends for handling 2-3-16" cables. Vessel is fitted with Wireless Telegraphy.

Propelling Machinery
The propelling machinery is of size stated taking steam from the three boilers which are fitted with Howdence forced draft. The indicated horse power is 3,000. The machinery equipment includes Donkey Pump of Caruthers type, Ballast Dankey, Evaporator, Feed and Circulating Pumps of Weir's make of large size.
Filter, Ash Holst, Howden Fan, Sanitary Pump, etc., and special pumps for the handling of the Oil Fuel.

C.G.M.M. LINER LAUNCHED TODAY

Canadian Challenger Finest Steel Steamer Yet Built In Davie Yard

The new 8,350 ton steel steamship built at the Davie Shipbuilding and Repair Co., Ltd., Shipyard, Lauzon South, Quebec for the Canadian Government Merchant Marine, will be launched this morning at 7 o'clock, and will be christened the "Canadian Challenger."

Mrs. B. B. Teakle, wife of the General Manager of the Canadian Government Merchant Marine, will act as sponsor and break the bottle of Champagne over the new vessel, naming her the Canadian Challenger as she leaves the ways. This new steel steamship is without exception the finest of her class that has ever been constructed in the Davie Shipbuilding plant, in the unanimous opinion of the expert builders and naval architects who were at the Davie Shipyard yesterday morning to inspect the vessel as she stood proudly on the ways in readiness to take to the water. In expressing their opinions the experts said that no other shipbuilding plant on the Continent of America could turn out a better ship. The inspection of the Canadian Challenger was a revelation to some of those who had not previously visited the shipyard.

The Challenger's lines are superb, and the finish both on the inside as well as the outside from stem to stern is a marvel of skilled workmanship. As the expert inspectors said, the Canadian Challenger will be the pride of the Canadian Government Merchant Marine, and not only reflects the highest credit on the Naval Architect who designed and supervised the technical features of her construction, Mr. Alexander Campbell, but also on the Superintendent of construction, Mr. David Craig, as well as the yard foreman, Mr. William Blodgett, who laid the ways and is to superintend the launching.

The Canadian Challenger has been built and fitted as an oil burner, which will give her more space for cargo than her sister ships built as coal burners.
The following is a description of the when fully completed by the installation of her machinery is bound to attract the attention of the shipbuilding world, and bring fame to the Davie Shipbuilding Co.

Principal Dimensions
The vessel is a Single Screw Steel Two Deck Cargo Steamer, with P.O.P. Bridge and Forecastle, and is built to Lloyd's Highest Class and to British Board of Trade and Canadian Government Inspection requirements.

Length Overall 113'-6"; Length B.P. 40'-0"; Breadth Mid. 52'-0"; Depth Mid. 31'-9"; Draught 21'-3"; Deadweight, 8350 Tons; Speed 11 3-4 Knots.
Engines and Boilers
Engines are of Triple Expansion Surface Condensing Type. Cylinders 27", 44" and 73". Stroke 48".
Boilers are three in number, 15'-6" Diameter, 11'-6" Long; 130 lbs. Working Pressure. Fitted for burning oil fuel.

Cargo Equipment
The Hull is divided into 7 watertight compartments by six bulkheads, and vessel has four cargo holds of large capacity with Tween Decks above the holds. WEEKLY ROTARY CLUB LUNCHEON

Many Local Members To Visit Branches At Montreal And Three Rivers

The Quebec Rotary Club held its weekly branch meeting at the Chateau Frontenac yesterday which was presided over by the president, Mr. J. A. Larue. The attendance was large and included several guests, and two new members, Messrs. J. Marc Gaudy and Eugene Trudel, on motion of Mr. Frank S. Stocking, seconded by Mr. Desmond Clarke, the Secretary was instructed to forward a message of congratulation to the Quebec Kiwanis Club, which had received its charter, it was also decided to wire a message to Mr. H. Gale, Mayor of Vancouver, who will return by the Empress of France next week, and invite him to address the Club in regard to his impressions of the Rotary Convention held at Edinburgh, which he attended as a Canadian delegate.

Plans for the visit to Montreal and Three Rivers Rotary Clubs were also discussed and a number of members expressed their intention to attend the Three Rivers gathering when the Club in that City is to receive its charter, also the visit to Montreal on July 27th to meet the Rotarians of that city.

Mr. Gaudias Brousseau, Sanitary plumber was introduced to the meeting who delivered an address on the subject of Sanitary plumbing in accordance with new and up-to-date methods. Mr. G. C. Piche, Chief Forester of the Department of Lands and Forests, who recently returned from Switzerland where he went to attend a conference of world foresters, and investigate the methods of Forestry in that country who is a member of the Quebec Rotary Club, delivered a short address on his experience, and gave comparisons between forestry methods in Scandinavian countries and in the Province of Quebec.

JUDGMENTS IN LOCAL COURTS

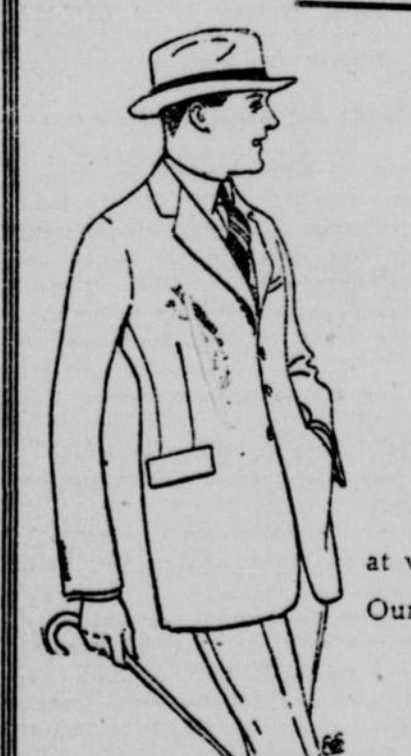

But six judgments were rendered in the local Court yesterday, one of them coming from the Practice Court, and the other five from the Prothonotary.

In the Practice Court, Hon. Judge Malouin heard the case of Turgeon vs. Turgeon, and St. Pierre, Mise en cause, ruling that the proof was insufficient, and declaring the case hors delibere.

Before the Prothonotary the following judgments were given.
Frenette vs. Union Cooperative, Judgment for \$175.39, interest and costs.
Fisher vs. Myrand, Judgment for \$102.71, with interest and costs.
Dorval vs. Blouin, Judgment for \$103.25, with interest and costs.
P. T. Legare, Ltee. vs. Robitoux, Judgment for \$302.11 with interest and costs.
Rinfret vs. Martel, Hors delibere.

The object of the trip down the St. Lawrence from the Great Lakes to Quebec is to obtain information from engineers who will accompany them and from members of the International Waterways Association, in regard to the proposed deepening of the waterways to permit ocean vessels to sail up the St. Lawrence into the Great Lakes and provide ocean shipping direct to the Lake ports of the United States.

During July and August Store opens at 8.30 closes at 5 P.M. Saturday 9 P.M.

BASEBALL LEAGUE SENDS
OUT ULTIMATUM

CRISIS REACHED IN BALL LEAGUE

Quebec Sporting Association
To Sign Schedule Or The
League Will Discontinue

The crisis has now been reached in the Quebec City and District Baseball League.

At a meeting held at the Victoria Hotel last evening it was decided to send an ultimatum to the Quebec Sporting Association asking them to either sign the schedule presented by the league, or give seven days' notice of the circuit to be played in the second half of the season.

To make things more serious, in the event of suitable dates being not forthcoming, the league will either disband or locate on some other grounds.

Three clubs, Bell Telephone, Napolean and St. Patrick's were represented at the meeting, and the matter was thoroughly discussed before the final vote was taken.

Six dates are required to complete the schedule, the seventh being required for the play-off for the title in the event of the Bell Telephone, who are the first half champions, not coming out on top in the race for the second half championship.

The Bell Telephone team was officially declared champions of the first half of the season.

It was also decided to cancel the Napolean-Garrison game, which is scheduled for July 17th as it will have no bearing on the championship.

Before adjourning, a vote of thanks was tendered Mr. H. Fontaine for kindly placing a room at the disposal of the meeting.

COX PILOTTED TWO WINNERS

Won Both Divisions Of Ohio
Stake At Grand Circuit
Meet

North Randall, Cleveland, July 6.—Walker Cox, the New England reinman, distinguished himself by piloting the winners in both divisions of the Ohio Stake for 2:08 trotters, the feature of today's Grand Circuit harness horse racing at North Randall, some of the finishers being the closes of the season. The stake was cut in two because of 18 entries, nine starting in each division, which carried a purse of \$5,000 each. A cup went to the driver.

It was the first time in the history of the track that such a purse has been divided and the original purse given to the winner of each section, and probably the first time in the history of harness horse racing that a stake of this value has been so divided.

In the first division Cox was behind Natalie the Great, a filly by the Great, owned by the Laurel Hill Farm, Indianapolis. After finishing eighth in the first heat, Cox drove the filly to victory in the next two heats.

In the first heat he was in the lead when his mount went into a break and he was forced to pull up. Patrick Todd then took the lead and held it throughout. Todd's backers received \$31 on a \$2 mutual ticket.

Natalie the Great took the lead at the half mile in the second heat and set the pace in the third, and was never headed, winning both heats.

The second division went to E. Colorado, owned by E. Pardee, of Atlantic City, in straight heats. Cox laid in third position with the bay horse until the three-quarter pole in each mile. He passed the field in the stretch in the first heat, but was forced to a hard drive, the first six being closely bunched at the wire.

Both Natalie the Great and E. Colorado were overwhelmingly favorites. Their victory brought Cox's record to four firsts during the meeting.

Periscope established the season's record for a mile for trotters in the second heat of the 2:05 trotting sweepstakes when he won the distance in 2:03 1/2. He won the event after finishing sixth in the first heat and then taking the next two. The time for the three miles was the fastest of the season.

Periscope's Poughkeepsie drove his second winning race of the season in the 2:18 trot. He piloted New York to victory in straight heats, the mare winning easily.

Jimmie McKeon, winner of the 2:15 pace was the fifth favorite of the day to win the first and third heats, finishing tenth in the second, after breaking, coming into the stretch.

Summaries:
2:15 Class, Trotting, Purse \$1,200.
Natalie the Great, b.m., by Justice Brook, b.m., by Murphy, 1 1 0
St. Robert, b.m., by Lord Roberts, b.m., by (Willis) 6 3 1

Time, 2:04 1/2; 2:03 1/2; 2:03 1/2.
AINT IT THE TRUTH?
So, Portland Sage says a lot of people pray for more grace when they need it more sense.

JOCKEY INJURED AT DELORIMIER

Buckles Riding Prince Bonero
Thrown—May Be Fatally
Hurt

Montreal, July 6.—Jockey T. Buckles riding Prince Bonero in the sixth race at Delorimier track here this afternoon was thrown from his mount when the horse ahead of him Harry D. crossed his feet and fell causing the above and two other horses to come down. Buckles was thrown into the heap of struggling horses and is not expected to live out the night. The other jockeys escaped injury. Buckles is well known as a jockey in the United States and Canada, having been riding for the past five or six years.

Montreal, July 6.—Delorimier Park results:
First race, purse \$500, for 4-year-olds and up, six furlongs—Tom, Jr., 112, Pauley, \$11.70, \$6.70, \$3.20, won; Copyright, 112, Denier, \$22.20, \$15.45, second; Lewis B., 112, Pribble, \$8.50, third. Time, 1:17 1/5. Steve, J. Alfred Clark, Pluvada, Nettie Walcott, Verboten, Toey, Sandab also ran.

Second race, purse \$500, for 3-year-olds and up, five furlongs—Tony Beau, 105, Atkinson, \$10.35, \$5.40, won; My Mazie, 110, Hinchy, \$5.55, \$4.50, second; Waterer, 198, Foden, \$7, third. Time, 1:03. Sam Houston, Axiom, Hazel R., Eilan Chapman, Golden Day, Coax Me Blenny, Sir Mortimer also ran.

Third race, purse \$500, for 4-year-olds and up, six furlongs—Pokey Jane, 110, Buckles, \$15.50, \$7.10, \$4.50, won; Mike, 112, Martin, \$19.60, \$12.20, second; July Fly, 119, Moore, \$5.70 third. Time, 1:16 4/5. Sevilian, Dr. Hall, Lillian G. also ran.

Fourth race, for 3-year-olds and up, mile and twenty yards, purse \$500—Hush, 113, Pauley, \$9.55, \$3.55, \$2.55, won; Ramona, 104, Dominick, \$5, \$3.55, second; Little Gina, 195, Lafferty, \$2.25, third. Time, 1:47 4/5. Royden, Ned Mileybright, Sir Lamoulet, Chimera, Semper Stairwaft also ran.

Fifth race, for 4-year-olds and up, six furlongs, purse \$500—Slippery Silver, 195, Atwell, \$42.40, \$15.50, \$7.10, won; By Jove, 103, Foden, \$7.00, \$4.55, second; Orleans Girl, 109, Hinchy, \$4.40, third. Time, 1:15 2/5. Laura Miller, Polygamia, O'Donovan, Beverly James, Musko, Rosedfield and Smart Money also ran.

Sixth race, for 3-year-olds and up, six furlongs, purse \$500—Lighthouse, 192, Chappell, \$21.15, \$13.15, \$4.20, won; Leola Fay, 109, Dawson, \$7.30, \$5.05, second; Manicure, 109, Atkinson, \$4.50, third. Time, 1:17 1/5. May Mauley, Will Soon also ran.

Seventh race, for 3-year-olds and up, six furlongs, purse \$500—George C. Jr., 113, Bahl, \$18.95, \$8.45, \$4.90, won; Sheba, 107, Smith, \$6.10, \$2.50, second; Joe Tag 104, McKerrick, \$3.45, third. Time, 1:17 3/5. Mary Head, Crinson, Ramler, \$500—Lighthouse, 192, Chappell, \$21.15, \$13.15, \$4.20, won; Leola Fay, 109, Dawson, \$7.30, \$5.05, second; Manicure, 109, Atkinson, \$4.50, third. Time, 1:17 1/5. May Mauley, Will Soon also ran.

Seventh race, for 3-year-olds and up, six furlongs, purse \$500—George C. Jr., 113, Bahl, \$18.95, \$8.45, \$4.90, won; Sheba, 107, Smith, \$6.10, \$2.50, second; Joe Tag 104, McKerrick, \$3.45, third. Time, 1:17 3/5. Mary Head, Crinson, Ramler, \$500—Lighthouse, 192, Chappell, \$21.15, \$13.15, \$4.20, won; Leola Fay, 109, Dawson, \$7.30, \$5.05, second; Manicure, 109, Atkinson, \$4.50, third. Time, 1:17 1/5. May Mauley, Will Soon also ran.

Seventh race, for 3-year-olds and up, six furlongs, purse \$500—George C. Jr., 113, Bahl, \$18.95, \$8.45, \$4.90, won; Sheba, 107, Smith, \$6.10, \$2.50, second; Joe Tag 104, McKerrick, \$3.45, third. Time, 1:17 3/5. Mary Head, Crinson, Ramler, \$500—Lighthouse, 192, Chappell, \$21.15, \$13.15, \$4.20, won; Leola Fay, 109, Dawson, \$7.30, \$5.05, second; Manicure, 109, Atkinson, \$4.50, third. Time, 1:17 1/5. May Mauley, Will Soon also ran.

Seventh race, for 3-year-olds and up, six furlongs, purse \$500—George C. Jr., 113, Bahl, \$18.95, \$8.45, \$4.90, won; Sheba, 107, Smith, \$6.10, \$2.50, second; Joe Tag 104, McKerrick, \$3.45, third. Time, 1:17 3/5. Mary Head, Crinson, Ramler, \$500—Lighthouse, 192, Chappell, \$21.15, \$13.15, \$4.20, won; Leola Fay, 109, Dawson, \$7.30, \$5.05, second; Manicure, 109, Atkinson, \$4.50, third. Time, 1:17 1/5. May Mauley, Will Soon also ran.

Seventh race, for 3-year-olds and up, six furlongs, purse \$500—George C. Jr., 113, Bahl, \$18.95, \$8.45, \$4.90, won; Sheba, 107, Smith, \$6.10, \$2.50, second; Joe Tag 104, McKerrick, \$3.45, third. Time, 1:17 3/5. "The Tobacco of Quality"

QUEBEC WILL HAVE FALL MEET

Preparations Being Made For
More Racing—Mr. Dunn
Misquoted

Preparations are already being made for the fall meeting of the Quebec Hunt Club, to open in August next, and yesterday a strong delegation, composed of His Worship Mayor Samson, Mr. Jos. Savard, President of the Quebec Hunt Club, Mr. Lucien Cannon, M.P., Mr. Louis Letourneau, M.P.P., Mr. Martin Madden, M.P.P., Mr. Arthur Paquet, M.P.P., Mr. Ed. Tanguay, Vice-President of the Quebec Board of Trade, and Mr. Frank Byrne, President of the Quebec Breeders' Association, waited on the Provincial Government.

ASPIRIN
Only "Bayer" is Genuine

Warning: Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Rheumatism, Neuritis, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Drugists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturing of Monocrocinolide of Salicylic Acid.

THE PASSION FOR DUELLING

Slumbered During War In Hungary But Is Breaking Out Again

Budapest, July 6.—The passion for duelling which slumbered in Hungary during the war, is breaking out with increased vehemence, according to a report of the Ministry of Home Affairs just made public. About 6,000 challenges to fight were recorded during the last six months and in 350 cases the combat was fought without a serious result. There were three killings.

Trifling incidents have been the cause of some encounters. Treading on a man's foot in an overcrowded street-car or calling a person a "fool" might impel two solemn-looking gentlemen in full dress suits to call on you on behalf of the offended person requesting you to name your seconds.

As a rule the conference leads to explanations, apologies and a protocol embodying these important facts to the satisfaction of all parties concerned. But when the insult is considered too gross or the offender too stubborn, the seconds rule that only blood can wash the insult away and they fix the conditions of the next morning's encounter with light or heavy swords, with bandages or without, or with pistols. The combat then takes place in one of the fencing schools or, when fought with pistols, in some deserted meadow outside the town.

Political antagonists frequently change arguments for weapons and a heated debate in Parliament is generally followed by a couple of duels. Even ministers have to accept the challenge of an opposition member and it is still remembered that the late Count Stephen Tisza when Prime Minister fought nine duels with his political opponents.

Under the penal code of Hungary an armed combat is a punishable misdemeanor. Sometimes when combatants are tried and sentenced to a few months imprisonment they serve it in a special establishment of detention, an open-air prison, where they may provide themselves with outside food, drink and clothing, take out-door exercises and receive any number of visitors.

Duelling is regarded as a class-privilege of the gentry, the nobility, and by tacit consent of the learned professions. The working man is excluded from this "benefit of chivalry" and if the offender be a workman, ordinary judicial proceedings might be taken against him in case of offense. On the other hand should any male member of the so-called privileged classes refuse to accept a challenge, he would inevitably be blacklisted by his club and spurned by society friends as a coward.

All efforts to abolish this ludicrous situation and tradition have heretofore failed. The sentiment of the aristocracy is so overwhelmingly prejudiced against what they call cowardice of those who possess the moral courage to condemn duelling that some of the members of the "anti-duelling league" have been compelled to yield to the pressure of public opinion and fight when challenged.

GRANDPA OBLIGES

Office boy (anxious to go to football match)—May I have the afternoon off sir? My grand—

Employer—Oh, yes, I've heard that before. Your grandmother died last week.

Office boy—Yes, sir, but—my grandfather's getting married again this afternoon.—Funch.

NEW USE FOUND FOR SEAPLANE

Eyed Fish Eggs Taken To Inaccessible Parts Of The Pacific Coast

Ottawa, July 6.—A new use for the seaplane has been found on the Pacific coast by officials of the Department of Marine and Fisheries, working in co-operation with the Air Board officials at the Vancouver seaplane station. It is in carrying eyed fish eggs from the hatcheries to otherwise inaccessible parts of the coast line, where the eggs can be placed under water in special boxes invented by one of the fishery officers and allowed to complete hatching there. Patrols are also being undertaken in connection with the Fisheries Department officials to circumvent fish poachers who stray into forbidden waters.

In a recent seaplane journey to two hatcheries on the Pacific coast, J. A. Motherwell, chief inspector of fisheries in British Columbia, found that instead of taking from six to eight days, as formerly, to visit the two hatcheries, he was able to leave Vancouver at 8 o'clock in the morning, spend three hours at each of the hatcheries, and get back to Vancouver by 6 o'clock the same evening. This had been a valuable saving of time for him and his assistants, and on the way back to Vancouver they had also been able to overhaul and inspect a number of fishing craft which were operating in the waters as they crossed.

The inspection had been made without alerting the pilot of the seaplane having circled the boats low enough for the fisheries inspectors to read the names and register on the stern of each boat and see that they were not poachers.

By means of seaplane transportation the Department had also been able to plant eyed eggs in places which had formerly been almost inaccessible because of the loss of time necessary in covering the distances from the hatcheries to the waters where it was desired to place the eggs for hatching.

WHY HE VOTED

"I voted for you," said a working man the day after a municipal election.

"Thank you, my man," said the successful candidate beaming.

"Was he did it," said the man, pointing to a goat grazing nearby. "I did not intend to at first, but the other afternoon you were passing, and you patted my goat Billy and gave 'im an apple, and says 'I, if the gentleman's so sociable as all that, he must have my vote."

NECESSARY.

Flatbush—"What do they have those glass cases with the axes, crowbars, and other implements in 'em in the railroad passenger-cars, do you suppose?"

Bensonhurst—"Oh, they are put there to use in case some one wants to open a window."

OBEDIENT THE LAWS

"Why did you let him get away from you?" thundered the chief.

"He—er—took a mean advantage of me," replied the green detective.

"He ran across the grass in the park, and—"

"Well, there was a notice there, 'Keep off the grass!'"—Pearsons.

SAFE FOR THEM

Young Burglar: "These spoons ain't silver. They are the cheapest kind of imitation."

Old Burglar: "That's lucky."

"Lucky?"

"Yes, take 'em along."

"What for?"

"The lady of the house will be afraid to set the detective after us, in case they should find them spoons and describe 'em in the papers."—Pearsons.

RAW SKINS TOO CHEAP

How Fur Men Regard Important Canadian Industry

Hamilton, July 6.—The Ontario output of beaver skins last year exceeded 125,000 skins. The catch this year is estimated at less than thirty thousand skins, and the trappers are making no effort to secure these pelts on account of the drop in price and demand.

In discussing the whole fur trade situation an expert says that the public has a peculiar view of this business, which is regulated entirely by the law of supply and demand. "The rumour," said this authority, "that much lower prices for furs will come is altogether contrary to the facts. Prices of raw furs will not again reach the prices of last year, but they must stiffen up prices higher than the present levels. Skins are being bought to-day much below their intrinsic value, partly due to the mild weather conditions, and more on account of the general public feeling towards low-priced merchandise."

The available supply of fresh raw furs both in Canada and the United States is approximately 70 per cent. short of last year, and it is absolutely certain that if business conditions are at all near normal next season there will not be one-half enough fur to go around.

The cloak and suit people of the United States have recently taken on very large quantities of beaver and mink for trimming purposes, and have practically absorbed everything in sight in these lines that has been available for purchase. The Ontario output of beaver was last year estimated at 125,000 skins. This season it is doubtful whether the catch will exceed 30,000 skins. St. Louis Auction Sale Co., hold to-day 27,000 beaver. Montreal and New York companies have very small quantities on hand or available. C. M. Lampron, Co. of London, Eng., whose sales will commence very shortly, are offering only 800 beaver skins. All other Canadian furs can be estimated along the same basis. Consequently it is only a matter of simple figuring and estimating to know what the national outcome regarding the price of furs will be next season, for this business is regulated entirely by supply and demand.

WHY HE VOTED

"I voted for you," said a working man the day after a municipal election.

"Thank you, my man," said the successful candidate beaming.

"Was he did it," said the man, pointing to a goat grazing nearby. "I did not intend to at first, but the other afternoon you were passing, and you patted my goat Billy and gave 'im an apple, and says 'I, if the gentleman's so sociable as all that, he must have my vote."

THE GREATEST OIL INTEREST

More Excitement Over Finds In Eastern Canada Than In West

Edmonton, July 6.—Actual oil development has an intense interest to the economist but an oil "boom" is always more interesting to the student of psychology. Northern Alberta had the nucleus of an oil "boom" this spring, but luckily it did not develop, and as a result, practically the only actual interest in the Northern Alberta oil fields comes from hard-headed business men who are raising capital in legitimate ways and sending machinery to Fort Norman, Great Slave Lake, Peace River and Pouce Coupe to explore and develop the oil bearing strata in those districts.

The "piker" and the "sucker" haven't appeared on the scene in this miniature oil "boom" as yet. The "piker" has been out of it because developing oil in Northern Alberta is a big capital game. A few transients who drifted into Edmonton, hoping that some one would grub stake them for a season's work in the northern fields learned that. They found it would take at least \$2,000 cash to put in a few weeks at Fort Norman, and that it would take many times that to put drilling equipment there. The "sucker" element has not developed in this oil boom yet because the events to date have been singularly free from wild cat work.

Must Label Shares
One feature that has kept the tone of the oil interest down has been the fact that the Public Utilities Commission of Alberta, which controls the sales of shares of stock in the province, has refused permission to practically every oil company that has applied for stock selling privileges. Companies that have been fairly well regarded in Eastern Canada have been refused permission to sell stock in Alberta. By complying with certain provisions of the law, regarding the labelling of shares, some of them will be able to come here, if they so desire, however.

There is no doubt that there is more interest in Eastern Canada in the oil departments of the North-land than there is in the West. This is partially due to a little feeling of cautiousness engendered by the Calgary fiasco of 1914, and partially to the fact that it is going to take a lot of money to develop the fields, and that the large capital must come from other parts, the East and elsewhere.

Too Much Uncertainty

There has been keen disappointment at the constant changes that have been made in the Dominion government oil regulations. Possibly they have done more than anything else to kill, or at least postpone, the interest of any legitimate operators who otherwise would have been glad to enter the field on a proper basis.

CIVIL FLYING IN THE STATES

Twelve Hundred Commercial Planes In Operation For Last Six Months

New York, July 6.—The Manufacturers Aircraft Association, on completing an aviation survey of the United States, announced today that in the last six months, the 1,200 commercial planes in operation in this country had flown approximately 3,250,000 miles.

"The record," says the survey, "shows that civilian flying, although embarrassed by the lack of an American air policy, has established itself as a remarkably safe and dependable means of transportation. In three and a quarter million miles of travel by air only 15 persons were killed and 48 injured in a total of 27 serious accidents. Most of these accidents occurred among that class of civilian aviators known as gypsy flyers."

"Of the 1,200 commercial aircraft probably one thousand are under the indirect supervision of responsible plane manufacturers or transportation companies—and this is about the only regulation over flying, as local ordinances or state laws can not be enforced. Lacking a federal organization controlling civilian aviation, these 200 or more gypsy flyers have been permitted to fly at will and many have met disaster."

"Eight of the fatalities and 32 of the injuries in the last six months have been traced to the lack of terminal, routing and storm warnings or to reckless stunting errors which would have been corrected or prevented had there been a national air policy. In all the United States there are only 214 adequate municipal or civilian air ports, yet terminals are as necessary to aerial transport as they are to shipping or the railways. Deducting these preventable casualties, it is found that there was only one death for each 444,236 miles flown and only one injury for each 235,454 miles flown."

New York and British capital that has been tentatively arranged has been withdrawn following the wishy-washy tactics of the Federal government in failing to establish definite and satisfactory regulations at the beginning.

The gusher at Fort Norman has of course attracted a great deal of attention to the far north, but among oil men the feeling is that immediate developments will be closer in. Drilling is proceeding at Pine Point and Windy Lake on Great Slave Lake, at Pouce Coupe, near Grande Prairie at Peace River and other spots, and if oil in commercial quantities is found at any of these places there is little doubt that development of the Fort Norman field may be postponed.

OUR GREAT JULY FURNITURE SALE

ESTABLISHES NEW RECORDS FOR VALUE IN QUEBEC.

From \$20. to \$500. reduction on Diningroom Suites. Never before have such superb pieces been shown at such wonderfully low prices. Come and buy now. We will hold your purchase for further delivery if so desired.

COASTING IN WAKE OF BOAT

Passengers on one of the Hudson river ferries in New York were treated in the summer of 1919 to the odd spectacle of a canoe sailing in their wake, all the way across the river, without any means of propulsion.

What made the canoe go was a question that puzzled many. The more observant noticed that the canoe did not keep to the smooth water directly aft the ferry boat, but rode off to one side, in the rough waves that the ferry wheels kicked up. They also noticed that the canoe did not hug the ferryboat close, and that often it pursued its mysterious course at a considerable distance, though it traveled just as fast as the ferryboat. According to a writer in the Scientific American who explains the mystery, the canoe always took a position in the forward side of the wave and kept it all the way across. The wave carried the canoe along as the surf carries the Hawaiian on his surf board.

GILBERT'S GROUCH
Gilbert K. Chesterton, the English essayist, was grumbling about the failure of his recent lecture tour.

"But you had good houses!" said the reporter sympathetically.

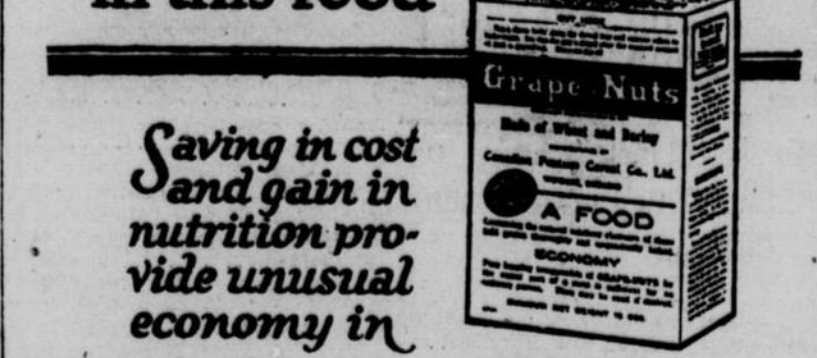

"Paper," said Mr. Chesterton. "Deadheads." He made a gesture with his large fat hand.

"I see now why you call America a free country," he said. "It's because everybody gets in without paying."

ONE ON HUSBY.
He (five years after): "All this gush about love is extremely silly. Wherever did this stupid book come from? I must say the person who selected it showed a very insipid taste."

She (quietly): "It's the book you gave me during our honeymoon. John; we read it eleven times the first week we had it."—(Prolonged silence).—Pearsons.

A double economy in this food

Grape-Nuts

~ the compact goodness of wheat and malted barley. Naturally sweet, crisp and delightful to taste.

The body quickly assimilates the essentials for building strength and vigor from this scientific food.

Grape-Nuts is ready to eat direct from the package with cream or good milk.

LONDON SLUMS HOBBIY QUEEN

**Long Campaign Against
Them Will Close With A
Victory**

New York, July 6.—For many years the slums of London have been among the worst in the world and a disgrace to the nation. The long campaign against them, which was interrupted by the war, appears now to be coming to a close with a victory, due largely to the strong personal interest Queen Mary has taken in the matter. The London County Council had decided that the district, or the worst parts of it, should be rebuilt, but it was curiously slothful in making a beginning. The result was that Col. W. J. Lewis, Mayor of Bethnal Green, began to call public attention to the slums, and made one effective speech at the Church of St. Martin in the Fields, overlooking Trafalgar Square. Among those who read the report of the address was Queen Mary. She read it not only with interest, but it is supposed with something like horror, and determined that she would exert her own influence to assist the energetic Mayor. So a few hours later she came to this city, and she summoned Countess to Buckingham Palace.

Queen Was Horrified

He went with maps and plans of his district and more fully expounded the question, emphasizing the horrible conditions under which s

interest in the performance of racing ships as there is now in any other time records, big money often being wagered on sailing contests. When the news spread along the Liverpool harbor front the people rushed to the waterfront to see the boats and crews.

thousands to the docks, and everywhere
pier was black with spectators
awaiting the advent of the new sea
racer. Outside the port tug had offered
to tow the clipper, but the ship
was going so fast that they couldn't
keep the hawsers taut, and so had to
give it up. The Red Jacket swept
into the Mersey with everything
drawing, presenting a spectacle
that brought cheers from the
assembled multitudes. Then, the
tugs came alongside to dock her,
and the ship's master gave all hands a
parting word, saying that they least
expected—the ignored tugboats,
and, throwing the Red Jacket

up into the wind, actually backing her along side the pier while the crew took in sail with a celerity that seemed like magic to the spectators. The Red Jacket was a ship of about 2,500 tons, old measurements had very long keels like a Bonaventure.

very long floor, like a Penobscot
River lumberman's bateau, and
could carry a tremendous spread
and also point high. She carried
as figurehead the image of the In-
dian chief, Red Jacket, artistically
carved from a log of umackia.

carved from a log of pumpkin pine. She prospered finely in the clipping service, was later sold to English account and sailed in the Australia trade, and at last accounts, after some years of carrying lumber from the St. Lawrence to the United States.

Dreadnought's Speed.
In some records the Dreadnought is credited with a run of thirty

days and eight hours from New York to Liverpool, and it is well authenticated that she ran from Honolulu to New Bedford, 13,400 miles, in eighty-two days. She was built at Newburyport (Mass.)

1858 by William Currier and Jam
T. Townsend to the order of Gov
nor E. D. Morgan, Captain Samu
of Brooklyn, her first master, a
others. Her fame was as wide
the seas, and she soon acquired t

name of a racer—"the wild ship the Atlantic," sailors used to call her. She carried on her foresail fiery red cross, by which she was easily identified at sea. She was 200 feet between perpendiculars, 2

feet on deck, 40 feet beam, 26 depth of hold; gross tonnage, 1,4 net, 1227. Strictly speaking, was only a half clipper, but her usual beam gave her the ability stand up under a press of sail t

on would send a full clipper plow
under. She was lost on July 4,
1869, while on a voyage from L
pool to San Francisco, being pil
up on Cape Penas, to the nor
eastward of Tierra del Fuego.

that time she was commanded
Captain Mayhew.

Other Fast Ships.

The ship Andrew Jackson, of Boston, sailed from New York to San Francisco in eighty days and

hours; the Northern Light of Boston home from San Francisco in seventy-six days and eight hours; North Wind of New York from England to Port Phillip head, Australia 12,500 miles, in seventy-six days.

**"FUZZY," FREAK DUCK,
NEEDS NO PLUCKING**

**Owner Expects A Fortune
Through Breeding Tribe
Ready Dressed For Market**

Eastport, L.I., July 6.—"Fuzzy" the featherless duck, a white Pekin freak bred by George Frey, of the Sunny Side duck farm, is creating great excitement among breeders, who see a way to make a fortune if "Fuzzy's" tribe can be increased.

It costs 6 cents to pluck a duck. When a man has 20,000 ducks to prepare for market, plucking runs into money.

"Fuzzy" came along more or less by accident, but Mr. Frey is dreaming of the "edge" he would have if he could run a featherless duck farm.

"Fuzzy" came into the world queerly dressed. As he grew old his coat became queerer. Some say it is down, others think it is wool. At any rate it is short, white and fuzzy. Hence the name.

"Fuzzy" will head a pen of breeders from which Mr. Frey expects eventually to produce ducks that will do away with the expense of hired pluckers.

**MANY REFUGEES
HAVE RETURNED**

Riga, July 5.—The Bolshevik party Novy Put says that during the past few days about 1,500 refugees were taken part in the Kronstadt revolt have returned from Finland to Petrograd. Some weeks ago Bolshevik airplanes flew over refugee camps near Terioki and they dropped leaflets promising amnesty to all Kronstadt citizens who wished to return home except the ringleaders of the revolt.

The Finnish Government protested against this breach of "air neutrality" by the Soviet but about one-third of the refugees have petitioned to be allowed to return.

WALK TO GET TO S

Prince Rupert, B.C., July 6.—longing for the sea caused J Davidson, a Finnish ex-sailor, to out on a tramp to the Pacific Coast from Jasper, Alta., equipped with a sack of oats, a pack of matches and two one-pound plugs of tobacco. He became lost and wandered around for five months, according to his story to the local police who picked him up near here recently. He had lost all sense of direction and was heading back toward land at the time.

Davidson's story smacks of the miraculous. He says he was begged a meal nor slept under cover since leaving Jasper in midwinter. For the last eleven days of his journey he subsisted on twigs, uncooked berries and grass. His preference for tobacco having given out long before, he used Skeena River mud.

Once, near an old construction camp, he found some tinned milk in the vintage of 1912. When he opened into the mountains he became exhausted and faint from hunger. With a heavy pocket knife—as his weapon—he killed a porcupine, and using the flesh raw, he said. Later he was able to vary his menu when he came on a frog pond.

CATERPILLAR PLAGUE

PATTERNS INDIANS' D

Dawson, Y.T., July 6.—The Upper Valley river country is now invaded by great herds of caterpillars, something new under the night sun in the high northern latitude according to Bishop A. Strickland of the Church of England, who just returned from a visit to the affected area. Gardeners dig trenches around their patches, and into the pests' roll in great numbers. Indian dogs are feeding on them and are fat for the first time in years. The same plague occurred 21 years ago.

seventy-eight days; the Rich-
Busted of Boston from Sydney,
S.W., to Calcutta, 5,800 miles
forty-two days, and the bar
Ocean Telegraph, of Boston, ho-
from Calhao, 9,970 miles, in
eight days.

PROGRAMME REALIZED \$1
New York, July 6.—(By Cana-
Press)—A programme of "Riff
Bang", the musical revue which
Dumbells, the Canadian soldier-en-
tainers, are presenting at the
bassador theatre, was auctioned
at a recent performance for the
neft of the British Great War V
ranch of America. Miss May
Moulton of 4 East 51st street,
the programme bidding \$100.

MASTERSPIECES STOLEN
Naples, July 6.—Six masterpi-
of Italian painting were re-
stolen from the church of Jesus
Mary. They included works of
nardino Sicilian, Paul Di Maio
Sannino. The thieves entered
church at night and opened
heavy barred and bolted doors
for reaching the canvases. P
were put on the trail of the pict
which were found but the th
left no trace.

With him she had a long talk. It is said spoke her mind, not without freedom, but with emphasis showing no willingness whatever to be put off with formal assurances that the matter would be investigated. Since then there has been outlined a vast housing scheme for England and Wales, which represents part of the Government's policy of reconstruction and social reform. Already the plans contemplate the erections of some 90,000 new houses. The London County Council, as a result of the Quaker activities, has decided to build work in Bethnal Green, and announced that it will immediately clear the notorious Brady slums.

NEW MOVEMENT STARTS

Geneva, Switzerland, July 6.—Léon Ador, former President of Switzerland, associated with a number of doctors and professors, has started a movement in favor of local option, the sale of alcoholic beverages to the exclusion of wine, beer and cider. The movement has for object the right of communes and cantons to vote upon the question separately. The sale of alcoholic drinks is a monopoly.

**"FUZZY," FREAK DUCK,
NEEDS NO PLUCK**

**Owner Expects A Fort
Through Breeding T
Ready Dressed For M**

Eastport, L.I., July 6.—"Fuzzy," the featherless duck, a white hen, freak bred by George Frey, of Sunny Side duck farm, is creating great excitement among breeders who see a way to make a fortune. "Fuzzy's" tribe can be increased.

It costs 6 cents to pluck a duck. When a man has 20,000 ducks prepared for market, plucking is an money.

"Fuzzy" came along more or by accident, but Mr. Frey is doing of the "edge" he would have could run a featherless farm.

"Fuzzy" came into the v

querely dressed. As he grew older his coat became queerer. Some say it is down, others think it is wool. At any rate it is short, white and fuzzy. Hence the name.

"Fuzzy" will head a pen of breeders from which Mr. Frey expects eventually to produce ducks that will do away with the expense of hiring pluckers.

MANY REFUGEES HAVE RETURNED

Riga, July 5.—The Bolshevik paper Novy Put says that during the past few days about 1,500 refugees who took part in the Kronstadt revolt have returned from Finland to Leningrad. Some weeks ago Bolshevik airplanes flew over refugee camps near Terioki and they dropped leaflets promising amnesty to all Kronstadt citizens who wished to return home except the ringleaders of the revolt.

The Finnish Government protests against this breach of "air neutrality" by the Soviet but about one-third of the refugees have petitioned to be allowed to return.

When will bonds advance?

What is the ratio of total deposits to loans and investments?
What is the ratio of deposits to current loans?
How does the credit situation affect the investor?

The tendencies of the market and the outlook for trade, which provide the answers to these questions, are set forth in the July Greenfields' Review.

Write for a copy today.

The Chicago Produce Market

Chicago, July 6.—Wheat averaged

higher in price today but only after

the September delivery had touched

the lowest level this season. Strength

later was apparently due more or

less to disappointing returns from

threshing. The market closed un-

settled at the same as yesterday's

finish to 1-2 cents higher. Corn

gained 3-8 to 1-3-8 cents and oats

Closing Letters By Local Brokers

(By L. G. Beaubien & Co.)

New York, July 6.—The market continued its sharp advance this afternoon with heavy buying all through the list. Much of this demand apparently came from short covering, but there undoubtedly was also considerable good buying by those feeling that the bottom was touched in recent trading and that a better market will be witnessed from now on. Action of the railroads was impressive, as substantial advances were secured by many leading issues, such as Great Northern pfd., Northern Pacific, Union Pacific, Reading, Canadian Pacific Railway and Southern Pacific. The oil stocks continued their advance with Mexican Petroleum closing 140. The closing tone of the market was very strong, indicating that the better price trend will be continued.

Call money, 5 1/2 per cent. N. Y. funds, 13 1/4 per cent. Sales, \$12,000 shares.

(By Brunneau & Co.)

New York, July 6.—Today's market makes it look as if the rally which we have been waiting about and looking forward to, were really starting off. Today we have had a sharp advance everywhere, and that, too, in the face of news which has not been particularly good. The early dealings were marked by a continuation of the weakness in Mexican Petroleum, which sold far below the low record for this movement, but the general list, as yesterday, held firm. We omitted attention in our last night's market letter to this stubborn resistance by the general list, and today a sharp, right-about-face occurred, and since the half hour we have had a big rally, and for the first time in months it looks as if the shorts were being soundly pinched. The rally ought to continue tomorrow and, for that matter, into Friday.

Sales, \$96,000 shares.

(By Breen, Courdeau & Charlebois)

New York, July 6.—The market opened irregular today with considerable selling pressure still showing in the Mexican oil issues. As a matter of fact, new low record prices for the year were established in both Mexican Petroleum and Pan-American as a result of this selling. However, several stocks of other departments of the list displayed a firm to strong tone from the outset of the session. Particular strength developed early in the railroad issues, this being shortly extended to such stocks as Baldwin Locomotive, General Asphalt, Studebaker, United States Rubber, International Paper and the independent stocks. Louisville & Nashville led the railroads, but the buying movement shortly became general in that class of stocks, the more prominent of which included Canadian Pacific, Reading, Southern Pacific, Baltimore & Ohio, Northern Pacific and Great Northern preferred. The strength that developed in the market was shared eventually by the Mexican oil stocks, and the buying movement that got actively under way in the afternoon led to a number of new high prices and gains on the day were of decidedly sizeable proportions. The market closed at about the best prices of the session, with a strong undertone indicated.

Sales, stocks, \$34,600; bonds, \$12,466,000.

Commercial and Financial News

The Montreal Stock Exchange

Montreal, July 6.—Today's trading on the local stock exchange was marked by a general upturn in stocks, nineteen out of the 26 dealt in showing gains from fractions to 5 1-2 points.

This latter gain went to Wayagamack, which closed at 43. Price movements in other paper stocks were irregular.

Abitibi held its own at 24; Brompton gained a large fraction at 21; 7-8; Auretide was up 1-2 at 75, and Price Bros. advanced two points to 32. Spanish preferred picked up a point at 62, but the common was back a fraction at 48 1-2.

At The Theatres

"The Kentuckians" at Classic Today--
Also J. R. Young and His Orchestra

"The Kentuckians," the latest tale dealing with "old Kentucky," will be the feature at the Classic today. Any Kentucky play is good, as the very name breathes of romance, action and thrills, but this is a Paramount Special. There is an excellent cast and the story is extraordinarily told in a fine production.
"The Purple Riders" serial and other numbers are on the bill.

"Love, Honor and Behave," a 5-Reel
Mack Sennett Comedy, at the Empire

MAIME PREVOST, FORD STERLING, CHARLES MURRAY, PHYLLIS HAVER AND TWENTY OTHERS IN THIS PICTURE OF DIVORCES, DILEMMAS AND DELIGHTS.

Mack Sennett's latest big picture, "Love, Honor and Behave," is said to have qualities that will appeal to every type of picture patron. A quality not usually associated with Sennett comedies is that of sentiment which abounds in this new plot. It is not held up for smiler or hearty laughs, but is injected with sincerity and emotional effectiveness. It will be seen at the Empire Theater today and for 3 days.

Big Four Act Musical Review
in Fine Arts Bldg., Exhibition
Grounds, Grows in Popularity

NEW FEATURE TONIGHT. THERE WILL BE FREE DANCING BETWEEN EACH ACT AND AFTER THE SHOW UNTIL 12. NO EXTRA CHARGE FOR DANCING.

A musical review, in four acts, with the funniest brand of comedy introduced is given by Ben Loring and his troupe of entertainers in the Fine Arts Buildings at the Exhibition Grounds. The comedians in this show would make any one laugh, and the musical and dancing numbers are exceptionally good.
The show runs over one hour and a half, and starts at 8:30. The admission is only 25 cents.
There will be free dancing tonight, with orchestra, between each act and after the show until 12 o'clock.

Chronicle Files 100 Years Ago

Murder.
Montreal—A letter was, we learn, received last Saturday in town from Upper Canada, stating that a respectable Dutchman, of Williamsburg, named John Sibord, had been on the day preceding murdered by four discharged soldiers. The victims were, we rejoice, pursued and apprehended at St. Regis. On them was found in cash and bills (the property of the deceased) \$2,700, or according to some persons arriving here since the commission of the crime \$3,700. The murderers in their anxiety to escape left in Sibord's house unexamined, some drawers in which was \$700, more.

Chronicle Files 25 Years Ago

Electoral Corruption.
Each day is bringing to light more barefaced proofs of the wholesale purchase of the electorate in this district by means of useless Confederate money. To make it more easily accepted when it was seen by the residents to be American money, the story was circulated that a large United States syndicate was helping Mr. Laurier and his friends with money. Cases of \$5, \$10 and \$50 bills have come to hand and it is said that in the Parish of La Bonne Ste. Anne, alone no less than \$300 was distributed. Some of the guilty parties are known.

The New City Hall.
His Worship Mayor Parent and the members of the City Council merit the congratulations of the citizens upon the splendid improvements they are making to the environs of the New City Hall, which is being rapidly being transformed into the most picturesque part of the City.

The New Cabinet.
A new batch of rumours was in circulation here yesterday respecting the probable composition of the Quebec end of the new Government. Hon. Mr. Pelletier they say, will be

For the good old summer-time here is a Joseph mushroom done in archid colored horsehair trimmed with orchids.

LAPIERRE FEELS FINE ALL DAY LONG

Sleeps Fine Eats Anything
And Has Gained Ten
Pounds in Weight

"I can never thank my friend enough for telling me about Tanlac, for the medicine has restored my health and built me up ten pounds in weight besides," said Eugene Lapierre, 1329 Demontigny St., Montreal.
"I was just about past eating, sleeping and working when I got Tanlac on account of indigestion. I had spells lasting for days at a time when I couldn't retain anything I ate, and even a glass of milk would make me sick. For hours after eating I had such pains in my stomach I could hardly endure it, and finally I lost my appetite entirely. I was so nervous I could scarcely sleep any at night, and always got up feeling depressed and tired."
"I became greatly worried about my health, but Tanlac has fixed me up in such fine shape I am now eating like a bear, and nothing hurts me a bit. I sleep all night long, and feel good all the time. Tanlac helped me just like it had been made specially for my case, and I am more than glad to praise it to others."

The Grounds of the Legislative Buildings

This beauty spot in mid-city has again assumed its summer loveliness in addition to the bay trees, which were set out to adorn the place about a month ago, all the beds have been filled up and the display is quite extensive. As a rough guess one would say that there cannot be very far short of 75,000 plants in the various beds.

Strolling up the path leading to the departmental entrance from the Grande Allee, we find a similar set of beds laid out on the right and left. The centre beds contain canna abutilon and acharantus, and of the four surrounding beds, three are planted in geraniums—three different colors—and the fourth in dark heliotrope. The two sets of beds contain practically similar plants, whilst on the left side of the entrance-way there are also two longitudinal beds, the westerly one containing mixed geraniums and double Marguerite, the one alongside the entrance being planted in tuberose, begonia, geranium, abutilon and acharantus. A similar bed on the right side of the entrance is planted with the same variety, whilst there are also two very pretty urns, one on each side of the entrance, holding mixed plants principally canna, fern, etc. On each side of the entrance and parallel with the wall of the building is a long bed, planted in tuberose, begonia, abutilon, canna, geranium and acharantus, whilst down in the corner, near the Grande Allee entrance to the roadway for vehicles leading up to the buildings, is a very pretty six-pointed French star, planted in carpet bedding, and on the right of the same roadway is a large bed of canna, cineraria and geranium, and on each side of the roadway is an urn with mixed plants. There are in all eight of these large urns scattered about the grounds.
Standing in front of the main entrance to the buildings, just over the fountain, one notices on the lawn to the right two American five-pointed stars, and on the lawn to the left a similar star. These contain carpet bedding with six different colored plants, whilst across the roadway, which is an extension of St. Eustache street, are two large beds with canna, abutilon and acharantus, and an American six-pointed star holding carpet bedding.
On each side of the approach from the Grande Allee to the main entrance one notices the Mercier and Garneau Monuments, with neat little flower-beds at their bases, containing geraniums of four different colors, and there is also a bed of canna and double Marguerite. Immediately in front, as one enters from the Grande Allee, is the large circular bed which forms such an ornament during the season. This is planted in canna, abutilon and geranium, surrounded by a beautiful border of carpet bedding containing eight different sorts. To the left, as one continues up the approach are three large beds planted in foliage plants. The ten pair of bay trees also make a very fine showing on the approach to the two entrances and are undoubtedly a great acquisition. The creper climbing up the walls has also become well established and is very ornamental.
In addition to all this, the grounds surrounding the greenhouses on the Kent Gate side of the property are commencing to look very pretty. There are two greenhouses and one propagatory house, and together with a number of trees and shrubs, which have been planted within the last few years and are now commencing to make a good showing, the grounds in front of the greenhouses are filled up with hardy perennials, about five to six thousand asters and about four to five thousand asterisks and thymus about 1,000,000 daisies. C. can about five thousand gladiolus and lots of small plants growing for the winter's stock.
Although these grounds will prove a very attractive sight for all our summer visitors. Many of the Americans among them have remarked in previous years that they can see nothing better in that line in their own country, not even in New York. The lack of rain this spring has retarded the planting out so that it is only now this work has been finished—just as the longest day has been passed, and the days begin to shorten for another winter. It seems a good deal like the labor lost that in this part of the world the summer should be so short, and that the result of all the trouble taken in bringing to perfection this and similar beauty spots can only endure for about two and a half months before the frost will pinch any final bloom exposed in

Social and Personal

Mr. L. G. Dixon, of Ottawa, is a guest at the Chateau.

Mr. M. J. Reid, of Windsor is staying at the Chateau.

Mr. R. C. Monson, of Montreal, is registered at the Chateau.

Dame Melba was present at a garden party last week at the home of Mrs. Gardner Johnson, Vancouver, B.C., under the auspices of Coronation Chapter, I.O.D.E., and sold pictures of herself in aid of the Chapter's funds.

SARCASTIC.
Brown was the possessor of very large feet and a very bad cough. He entered a boot shop and the young assistant turned the shop upside down to find something to fit him. Brown had just tried on the fourth pair when he started coughing. "Nasty cough!" said the assistant. "Yes," gasped Brown. "Doctor says I've got one foot in the grave." "I shouldn't worry," said the assistant. "You'll never get the other in; it's too big!"

LITTLE? FOR TODAY.
Why do they always put the big berries on the top row?

the open air; still it can't be helped and must be taken as another instance of the old saw, "What can't be cured must be endured."

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher
