THE WITNESS.

Business men are reminded that all advertisements for Saturday's Witness must be in our office by six o'clock on Friday evening. As the majority of our readers require their Witness earlier on Saturday afternoons than other days the observance of this rule becomes the more necessary, and is obviously to the advantage of advertisers themselves.

TELEGRAPHIC NEWS.

CABLE.

THE BEHRING SEA QUESTION.

THE LONDON "TIMES" ON THE UNITED STATES POLICY.

LONDON, July 17.—The Times says: The United States Government displays the dignity and good sense to be expected from it by reverting to its Behring Sea policy of 1888. It would be absurd to involve two great and friendly nations in a course of petty reprisals in a sordid dispute. It may now be hoped that America will tacitly recognize that no nation possesses the right to extend its jurisdiction by municipal enactment over hundreds of miles of open sea.

A CHESS TOURNAMENT.

LONDON, July 17.—Arrangements have been made for an international chess tournament at Manchester. Among the contestants will be Captain MacKenzie and other leading American players; Bardeleben, Schallopp and Lasker, of Berlin; Bauer and Weiss, of Vienna, and Taubenhau, of Paris.

CABLE NOTES.

M. Ribot, French Minister of Foreign Affairs, has notified the powers that treaties have been concluded whereby the native chiefs on the Upper Niger agree to a French protectorate.

AMERICAN.

SLAIN BY A LIVE WIRE

CLEVELAND, Ohio, July 15.—Another death by electricity occurred some time during Monday night, not far from nine o'clock. Felix Roark, of No. 13 Leonard street, a lineman in the employ of the American District Telegraph Company, was directed to repair a line. He failed to return, and Tuesday morning J. E. Sullivan, a day man, was sent to learn the cause of Roark's absence. He followed the wire until he reached the roof of the old National Hall building, on the south side of the public square, where he found Roark's dead body. The poor fellow had evidently come in contact with a "grounded" wire heavily charged with electricity, and death must have been instantaneous.

The great drought in Kansas, Nebraska and Illinois has at last been relieved by copious rain falls, raising the hopes of the farmers for their crops.

Thirty-one victims of the "Sea Wing" disaster at Red Wing, Minn., were found yesterday, making one hundred bodies recovered so far. It is stated that Capt. Weather of the "Sea Wing" had been arrested at the instance of United States officials and taken to St. Paul.

THE QUEEN CITY.

(Special to the Witness.)

NEWS.

TRANSATLANTIC.

Gottfried Keller, the Swiss poet, is dead.

The Danube has overflowed near Vienna. Several bridges have been swept away near Presburg. The villages on Schutt Island are inundated.

The Vienna Board of Health has been informed that cholera has reappeared in thirty-one communes of Valencia and Alicante, Spain.

A semi-official note was published in Paris yesterday afternoon denying the reports from Senegal of a repulse of French troops by natives. The note says everything in that vicinity is tranquil.

Dr. Dale has accepted the presidency of the International Council of Congregationalists, to be held in July, 1891. The Rev. Dr. Storrs, of Brooklyn, will deliver an inaugural sermon.

The German Government has adopted a system of movable barracks, which will greatly improve the quarters of troops in frequent motion.

The Queen has donated \$250 to the fund for the construction of the Victoria Nyansa steamer.

The Rome Clerical newspapers deny that the Pope drove outside the Vatican on Tuesday. The *Riforma* maintains the truth of the statement that the Pope drove out and that the sentries at the mint saluted the Papal carriage.

HEAT FOLLOWS COLD.

VIENNA, July 16.—Intense heat prevails in Central Austria and on the Alps from Graubünden to Lower Austria. The melting of the snow on the mountains has caused the silents of the Danube to rise. The inhabitants are greatly alarmed. Much damage has already been done.

DENOUNCING THEIR BISHOP.

MESSES. HARRINGTON AND DILLON'S REPLY TO BISHOP O'DWYER.

LONDON, July 16.—Mr. Harrington, M.P., at the meeting of the National League to-day, characterized as intemperate and disingenuous that portion of a letter written by Bishop O'Dwyer in which he charges Mr. Dillon with having collected money "ostensibly" for the relief of evicted tenants. He says there is not an enemy of Mr. Dillon's in any country of the world who would deliberately in cold blood pen a statement of that kind impugning his honesty. Speaking of Mr. O'Dwyer's allusion to Mr. Dillon's prison illness and subsequent trip to Australia, Mr. Harrington says there is not an Irishman who loves his country who could have written such an attack as he had untruthfully and deliberately done.

Mr. Dillon, replying to the letter of the Bishop, says he thinks it is quite safe to leave that communication to the judgment of the Irish people.

AN UNDERGROUND RAILWAY SCHEME.

KILLED IN THE HOUSE OF LORDS.

LONDON, July 16.—The House of Lords committee has killed the Oxford street underground railway scheme, owing, it is believed, to the influence of many aristocratic persons who opposed it because they were not permitted to become interested financially in the enterprise. The failure of the scheme is unquestionably a great public injury, as the facilities contemplated are desperately demanded by the increased traffic.

BULGARIA AND TURKEY.

STAMBULOFF'S THREAT TO THE SULTAN.

LONDON, July 16.—Prime Minister Stambuloff, who is the virtual dictator of Bulgaria, is said to be preparing another note to the Sultan, more energetic than the former one, to the effect that Bulgaria will promptly assert its independence unless Prince Ferdinand is recognized, and repeating the demand for the religious autonomy of the Bulgarians in Macedonia. The Sultan, according to advices from Constantinople, has well grounded suspicions that the Bulgarians mean to annex Macedonia at the first opportunity.

AMERICAN.

REDUCTION IN GRAIN RATES.

WASHINGTON, July 16.—The Interstate Commerce Commission has decided that it will issue an order making a reduction in grain rates from Iowa, Nebraska, Kansas and Missouri to St. Louis and the Mississippi river and to Chicago. Food products rates, east of the Mississippi and not involved in other suits before the Commission, are not found to be excessive.

THE CENSUS.

WHERE POPULATION HAS INCREASED IN THE UNITED STATES.

WASHINGTON, July 14.—It is almost too early as yet to indulge in comment on the general result of the census, but it may be stated that while the rate of increase in the Northern and Atlantic States has been about the same, the Western States have increased at an almost fabulous rate. Of the Southern States, Alabama, Georgia and Texas will show a marvelous increase of population, but the other Southern States will remain about as before. In this connection it may be mentioned that it is very probable that the census will show that the rate of increase among the blacks has fallen far behind the rate of increase of the whites, a fact which goes to disprove many of the statements regarding the fecundity of the colored race. The census bureau is now enumerating the returns at the rate of 1,000,000 a day. As a matter of fact, 2,000,000 a day are being counted, because on each day, beside the 1,000,000 of new names counted, the million counted the previous day are re-counted to insure absolute accuracy. It is believed that the population of the United States will be about 65,000,000. On this basis it will take sixty days, and possibly seventy to complete the entire count. As the count was begun more than two weeks ago, it is reasonable to believe that it will be concluded before the first of September. The question now suggests itself whether or not it may not be feasible for the present Congress to determine the reapportionment. The outlook is that it will be definitely possible and certainly desirable to determine the reapportionment at the present session.

WAR UPON OUR RAILWAYS.

MR. WASHINGTON'S SUSPICION.

WASHINGTON, July 16.—In the Senate to-day the resolution offered yesterday by Mr. Cullom as to the transportation of goods in bond between Atlantic and Pacific ports of the United States over the Canadian Pacific Railway, was taken up. Mr. Washburn offered an amendment extending the scope of the enquiry to the Grand Trunk Railway. He intimated his suspicion that the object of the resolution was to make war upon the Canadian Pacific Railway. Mr. Cullom disclaimed having any such intention or any motive except to ascertain the facts in the case and to know whether the law ought to be changed. He accepted Mr. Washburn's amendment, and the resolution as amended was agreed to.

THE PEACH CROP.

WILMINGTON, Del., July 16.—President Mills, of the Delaware Railway, has furnished the annual estimate of the peach crop. The total estimated shipments are placed at 12,575 baskets. This is the smallest yield in the history of peach growing with two exceptions,—1865, when the shipments were 23 carloads, and 1881, when 78 carloads were sent to market.

THE CONFESSION.

fusion, and blushed slightly; but, her firm and resolute character again coming to her aid she looked full at M. de Montbrun, and said to him: "Well, my dear count! what surprises you?"

Instead of answering, M. de Montbrun appeared still more absorbed in thought, and contemplating the young girl, he could not forbear saying to himself: "No, no—it is impossible—and yet—"

"It would, perhaps, be indiscreet in me to listen to your soliloquy, my dear count," said Adrienne.

"Excuse me, my dear child: but what I see surprises me so much—"

"And pray what do you see?"

"The traces of so great and novel an interest in all that relates to India," said M. de Montbrun, laying a slight stress on his words, and fixing a piercing look upon the young girl.

"Well!" said Adrienne, stoutly.

"Well! I seek the cause of this sudden passion—"

"Geographical!" said Mlle. de Cardoville, interrupting M. de Montbrun; "you may find this taste somewhat serious for my age, my dear count—but one must find occupation for leisure hours—and then, having a cousin, who is both an Indian and a prince, I should like to know something of the fortunate country from which I derive this savage relationship."

(To be Continued.)

CHILDREN'S CORNER

"AND TO DO MY DUTY."

BY M. H. LARGE.

For several days the poor colored woman lingered. In spite of her pain, she had, perhaps, never been so comfortable and happy. Every day Mutterchen found time to carry a little basket of dainties to tempt the feeble appetite and to speak words of cheer and comfort such as the poor, ignorant soul had scarce ever heard before.

Ernest took heart to tell the poor little tale to Mr. Willoughby, and the great firm that could be generous as well as just at once extended full hands to the aid of the sufferer who for so many years had carried on her small trade under the shadow of their eaves.

Only once again did Ernest allude to the bitter struggle of that morning when it had seemed so hard and cruel to keep straight in the path of duty, and then Mutterchen said: "Ah, lad, I must tell thee a tale my mother has oft told me when I was but a child. It was many years ago, seest thou, when, in the Old Country, nimble fingers worked the embroidered hangings for a king's palace. An artist had drawn the design on a heavy canvas which was so hung that they who worked in the colors could not see their finished work, but saw only the wrong side, and strangely enough it looked. One day a little maid who sat working at her stent said to herself, 'There is sure some mistake in my instructions or else the pattern here runs strangely awry. Methinks these stitches of dull tint should be set so, and the white placed in their stead.' So she looked from her instructions to the canvas and back again, holding her needle idly in her hand the while, and at length she set the stitches according to her own will, unmindful of the artist's lines.

"When the day's work was done, she said, 'Tis as I thought, and had I followed the design maybe the king's beautiful hangings might have been marred,' and went her way well content.

"Next day the artist came to view the progress of the work.

"What's this?" he called in wrath, as he marked the spot where the little maid had worked. "Who hath so altered my lines?"

"The maid replied timidly that it was she.

"Come thou with me, maid," he said, and led her out through long corridors and at last into a hall so dark that she hung back in the doorway in affright. Hastily the artist strode to the easement and opened it so that a sunbeam might come through, and looking in the maid beheld at the far end of the hall the great hangings that were being wrought for the king. They were so beautiful that she could but gaze in silence, until the artist said, 'Come thou closer, maid, and see thine own handiwork, and as she looked she hung her head with shame, for the spot where the altered stitches were set stood out like a blot on the chaste beauty of the design.

"Back, maid, and pick out thy rash work again," said the artist, sternly, "and learn that he who hath fashioned the entire pattern to his liking knows better what needs and what lacks than he who works but a small corner and sees but the reverse of the design."

"So it is with us, my lad. We who see only our own little corner of life's great tapestry, and even that as through a glass darkly, must oftentimes think the lines and colors run amiss, but if we carefully set our stitches in the duty lines marked out for us, we can safely trust the outcome to the unerring wisdom of the Great Designer."

Churchman.

ONE OF BOBBY'S TROUBLES.

BY EREN E. REXFORD.

Bobby came in with great tears running down his cheeks in two little rills. As he told his mother, who asked what ailed him, A doleful story of boyish ills.

"That boy of Jones's—he up and kicked me just as hard as he could," sobbed he. "Wouldn't I like to give him a whipping? He's just as mean, Ma, as he can be."

"It was very wrong in him to do it," said Bobby's mother with comforting kiss. "But I hope when my boy gets into trouble He doesn't kick back. Tell me how it is."

"O, I didn't kick back," answered Bobby, checking. "For a moment the sobs that were ready to burst."

"I almost knew he would go to kicking, and to get the start of him I kicked first."

THURSDAY, JULY 17, 1890.

PRINCE GEORGE, the second son of the Prince of Wales, who is a lieutenant in the navy and has been placed in command of a torpedo vessel, will join the North American squadron at Newfoundland in a few days. From there, it appears, the Vice-Admiral, to whose command the Prince's vessel is attached, will sail to Newport, the favorite watering place of wealthy New Yorkers. Society at Newport and in New York is in a flurry, the despatches say, over the entertainment of the Prince. Perhaps there is better reason than usual for the excitement. In spite of their democracy and republicanism American women's social ambition is in many cases very great, and seeks satisfaction in titles and the courts of monarchs. Now, it is understood that the Prince of Wales is rather inclined to an American marriage for one, if not both of his sons. There is, therefore, a chance for some beautiful and accomplished American girl to reach a social height not yet attained by any of her sisters. Prince George is said, too, to be a manly fellow, with many good qualities and with no vices. Such a marriage would be a good thing from a political point of view, if politics are concerned in princely matches at all now-a-days.

ONE HUNDRED AND TWELVE PEOPLE, men, women and children, lost their lives by the "Lake Pepin" disaster. There appears to be some reason for believing that the tornado was not wholly to blame for this great catastrophe, the greatest, probably, suffered by so small a community as Red Wing since the disaster on the Thames by which so many families of London, Ontario, were bereaved. When the steamboat left Red Wing the storm had already begun, as the wind was blowing hard. In spite, however, of the need for extra care, it appears that there was a great deal of liquor-drinking going on both on board of the steamer and of the barge, which was apparently taken along because the steamer was overloaded. It is openly charged that the captain of the boat and the engineer, who are both among the few who saved their lives, had been drinking with the rest, and that it was owing to this and the resulting incompetence that the steamer was wrecked. Those survivors who are most moderate in their account of the disaster blame the captain for his mismanagement of the vessel and her passengers during the storm. In the first agony of such a bereavement it is only natural that the community should be wrought with the person responsible for the safety of the passengers, and it is not improbable that the charges against the officers and crew of the boat are exaggerated. That there was a great deal of drinking going on is not denied, as it had necessitated the removal of some women and children from the barge, and it is said that some of them sought refuge from the intoxicated in the cabin of the vessel. That in a disaster the chances of the women and children would be lessened by the intoxication, or partial intoxication, of strong men is beyond all doubt. Surely, even liquor-drinkers, while sober, will agree that prohibition should be enforced, at least on board of excursion steamers.

LACROSSE.

Some severe criticisms of the Cornwall-Toronto game have put lacrosse upon trial. Experienced and skilled Montreal players who were present state that the playing was fast and hard, but that it was

SHAKING THEM UP.

A LAW AND ORDER LEAGUE IN VIGOROUS MOOD.

INDIANAPOLIS, Ind., July 19.—There are indications that there will be a general shaking up in Indianapolis of liquor sellers by the Law and Order League, which to-day had a crowd of witnesses at the doors of the grand jury waiting for an opportunity to give testimony. Nearly the entire police force and many private detectives have been summoned, and it is not improbable that a large number of drug store proprietors will be indicted for secretly selling whiskey and beer at retail. Eighteen witnesses against Coy, the saloonkeeper politician, have been subpoenaed, and it looks as if not less than ten indictments will be found against him. Coy and his friends are raising the cry that it is a political persecution.

WOMEN AS PHYSICIANS.

PENHAPS BRIDGES IS JEALOUS.
ST. JOHN, N.B., July 16.—The New Brunswick Medical Society met in Moncton yesterday and to-day. At to-day's meeting Dr. Bridges, of Moncton, read a paper on "Women as Medical Practitioners." He claimed that the structure of a woman's mind unfitted her, to a large extent, for man's occupation. Even in woman's special work, such as sewing, cooking, spinning, all improvements in process and appliances were made by men. Women possessed no originality. They were destined by nature for bearing and rearing children, and this totally unfitted them to be successful medical practitioners. His views were endorsed by several members.

CHAPLEAU'S SENTENCE COMMUTED.

ALBANY, N.Y., July 16.—Governor Hill has commuted to imprisonment for life the sentence of Joseph Chapleau, convicted in Clinton county of murder in the first degree and sentenced to be executed during the week commencing July 21st. In his decision the Governor says: This application for executive clemency is based upon a petition signed by many of the leading citizens of Clinton county, including nearly all the county officials. The county judge strongly favors the application. The district attorney does not oppose it. The twelve jurymen who rendered the verdict against the defendant unanimously unite in asking for a commutation.

THE RAVAGES OF FOXES.

SALEM, N.J., July 15.—A plague of foxes troubles Salem County. Some time ago the creatures were turned loose in the country districts by would-be sportsmen. The result is that now almost daily reports of ravages among the farmers' small live stock are heard. Last week two adjoining farms lost forty young turkeys. Sunday an entire litter of young pigs were stolen. Spring chickens have become a most rare luxury among the people, but the Reynard gang has fared well.

FIRES.

FALL RIVER, Mass., July 16.—A fire this afternoon, which started in Crowley & Co.'s junk store, threatened to make sad havoc, and did destroy several buildings, entailing a loss of \$25,000.

BOSTON, July 16.—A serious fire started in the Congregational church at Rockland this afternoon and spread rapidly to adjoining buildings. Assistance was sent from Abington and South Weymouth. The fire caught from a gasoline lamp. The total loss will reach \$100,000.

SHOCKING ACCIDENT.

WATERLOO, Ont., July 16.—This forenoon, while Adam Weber, of Kreutziger's planing mills, was sawing a slab of an oak board with a circular saw, a wedge shaped piece, about three feet long, broke off and was caught by the saw and violently hurled back, striking Mr. Weber in the right eye. The end that pierced the eye was seven-eighths of an inch thick and a quarter inch wide. It penetrated his head to the distance of three inches, lodging in the brain. Doctors Webb and Armitage were immediately summoned and extracted the stick. Mr. Weber remained conscious during the entire operation; but little hope is entertained of his recovery.

THE DARTMOUTH DISASTER.

HALIFAX, N.S., July 16.—The inquest on the victims of the Dartmouth disaster was concluded to-night. No new facts were elicited as to cause. The jury's verdict was accidental death, but had the gate at the head of the wharf been securely fastened the accident would not have occurred.

THE NEW BRUNSWICK THIRD PARTY.

ST. JOHN, N.B., July 16.—The executive of the Third Party, whereof John Thomas Bulmer of Halifax is the head and front, met in Moncton last night. President Bulmer will take the field at once. It is announced that all the counties in the Maritime Provinces are to be organized and candidates run in each county. It was unanimously resolved to hold a great prohibition meeting in St. John during the exhibition in September, when it is hoped to perfect the provincial organization.

A COLORED RUMMY.

ST. JOHN, N.B., July 6.—The colored man who was raking in money by selling liquor from a slop in the river near Fredericton to millmen, in violation of the Scott Act, was to-day sentenced to five months' gaol.

A SCHOONER SEIZED.

HALIFAX, N.S., July 16.—The schooner "Mary," from Fundy Bay, loaded with 700 quintals of cod, was seized at St. Pierre to day for selling cod roes. The value of the vessel and cargo is \$5,000.

PERSONAL.

The family of Mr. Joshua Bell, provision merchant of this city, left several days ago by boat for their farm in Fargo, Minn., where they were to spend a few weeks. Before they arrived, Mr. Bell received a letter from a friend in Fargo, stating that the recent cyclone had struck his farm house and rather badly damaged it, but not enough to make it unfit for habitation.

Mr. James Gordon Brown, foremost among journalists of Ontario for the past quarter of a century, spent a day or two in Montreal this week. He is a close observer, and saw great signs of progress and improvement in Montreal since his last summer visit, two years since. He returned to Toronto yesterday, having been the guest of Major Evans of Mackay street.

FIND LEWIS MEYER.—REWARD, \$500.

The sale of the stock-in-trade of Lewis Meyer & Co., which took place yesterday, realized fair prices. Judge Omett has authorized the curator to the estate to send circulars offering a reward of \$500 for the capture of Meyer and his delivery in Montreal.

THE LAW'S DOINGS.

Judge DeLorimier has granted a petition of J. B. Goossens to proceed in forma pauperis in an action of damages against Messrs. A. & S. Nordheimer, on account of injuries received by the falling of a window from their building.

This Company has been formed for the purpose of acquiring, as a going concern, and further developing, the well known and highly successful American Organ and Piano Manufacturing business carried on by Messrs. W. Bell & Co., of Guelph, Ontario, in the Dominion of Canada, with branch establishments at Hamilton, St. Thomas, Toronto, and London, Ontario, Canada; and in London, England; and Sydney, New South Wales.

The business, which is the oldest established of the kind in the Dominion, was begun in a very moderate way in 1884, and has increased so rapidly and continuously, that Messrs. W. Bell & Co. are now the largest makers of Musical Instruments in Canada.

The output of Organs last year was over 5,000, but in addition to this production, two years ago, the firm began the manufacture of Pianofortes, with the result that the success of this venture is assured, and they are now making over 20 Pianofortes per week, the largest output possible with their present facilities. The manufacture of Pipe Organs has recently been added, and offers a profitable field for extension.

The quality of their production is of the highest grade, the Bell Organs and Pianos being especially excellent in tone-quality and construction, as evidenced by the numerous medals and other prizes received at different Exhibitions in all quarters of the world, and in the fact that over 50,000 of their instruments have already been made and sold.

In Europe their instruments have acquired a high-class patronage, having been supplied to Her Majesty the Queen of Italy; H.R.H. The Princess Louise, The Marquise de Murieta; The Countess of Meath; Earl Waldegrave; The Chief Justice of Gibraltar; The Japanese Government; The Marquis of Lansdowne, Viceroy of India; The Earl of Dufferin, Ambassador in Italy; Lord Conesmar, Governor of Madras, India; The Governor of British Columbia; and many others. They have also been supplied to Her Majesty's Forces at Aldershot; Her Majesty's Prison at Chelmsford; The St. Pancras Infirmary; The Holborn Union Industrial School; The Wandsworth Boys' Home; The Lambeth Board of Guardians; The Tottenham Board of Guardians; The People's Palace; The Rev. C. H. Spurgeon, of the Tabernacle; The Polytechnic Institute; Kensington Hall; The Tabridge Union Workhouse, &c., &c.; and to about 600 Churches and Chapels, and 13,000 private families in the United Kingdom alone.

To more fully develop and extend the satisfactory trade and connection acquired in Great Britain and other European countries, the firm in 1888 opened a branch warehouse in London, now occupying the well-known premises at 58 Holborn Viaduct, E.C., with the result that a large and extensive business has been developed.

Besides the large and growing business in Great Britain, they are developing an important export trade in Australia, having a branch office at 6 Bridge Street, Sydney; their agent makes regular calls on the principal dealers throughout Australia, and there is every prospect of a steady and increasing trade in those colonies.

Periodical shipments are also made to India, South Africa, Japan, the West Indies, and some cities in South America, which the firm believe can be increased by time and care in supplying instruments specially made and adapted for these different markets, and it is the intention of the Company to develop this trade by every possible means. The trade in South Africa and Japan can especially be mentioned as showing very favorable prospects and increased sales.

The Freehold Factory and premises at Guelph consist of two handsome and substantial blocks of buildings, conveniently situated in the centre of the city, with frontage on three important streets. Factory No. 1 occupies a frontage of 167 feet in Garden Street, and of 130 feet in Macdonell Street, with a depth of 110 feet, and is four stories high, with basement. Factory No. 2 occupies a frontage of 130 feet in Garden Street, 80 feet in Woolwich Street, and 140 feet in Macdonell Street, and is five stories high. Both buildings are fitted with fire-proof doors, stone partitions between the departments, steam elevators and all necessary appliances. The factories, which are fitted throughout with the electric light, are well equipped, and the machinery and appliances are in excellent order. The Grand Trunk Railway immediately adjoins the property, affording great facilities for transport.

The London Branch, since it was opened in 1888, has been under the general management of Mr. W. J. Bell, a member of the firm; and at the factories in Guelph, Mr. A. W. Alexander was the General Manager. These two gentlemen have entered into a contract to remain with the Company in these respective positions for a term not less than three years, at the same salaries they have been allowed in the past, and a commission of 2½ percent on the profits, the minimum total to be not less than \$5,000 per annum. Provision has been inserted in the Contract of Purchase to protect the Company against any opposition in trade from those who should not retain the management after the expiration of three years.

The business is taken over as from December 1st, 1889, all previous liabilities being assumed by the Vendors, and all profit made since going to the Company, who, in return, pay the Vendors, 6 percent interest on the purchase money until completion. The property at Guelph is freehold, and will be conveyed free from incumbrances.

The Accounts have been examined on the spot by Messrs. Hart Bros., Tibbetts & Co., the well-known Chartered Accountants of 14 Moorgate Street, E.C., who report as follows:—

REPORT OF ACCOUNTANTS

To the Directors of the Bell Organ and Piano Company, Limited:

30th June, 1890.

GENTLEMEN,—

We have examined the Books and Accounts of Messrs. W. Bell & Co., at Guelph, Ontario, in the Dominion of Canada, from February 1st, 1886, to November 30th, 1889, and have prepared a balance sheet as on December 31st, 1889, the date upon which the business is to be taken over.

The business for the first portion of the period under consideration was entirely the manufacture and sale of American Organs; but in the year 1888 they considerably added to their plant, and commenced the manufacture and sale of Pianos, which is proving a remunerative addition to their former business.

The profits for the 12 months ending 31st January, 1887 (after deducting Depreciation on Buildings at the rate of 5 percent, and Plant and Machinery at the rate of 10 percent per annum), amounted to the sum of—

For the 12 months ending 31st May, 1888 18,359 8 3 or \$3,425 15 = 1,532 or 7,465.00 per month
" 12 " " 31st May, 1889 25,224 10 11 " 123,750.50 = 1,576 " 7,670.00 "
" 12 " " 31st May, 1889 23,646 2 6 " 116,077.80 = 1,970 " 9,887.00 "
" 6 " " 31st Nov., 1889 13,616 10 2 " 66,315.70 = 2,771 " 11,062.00 "

The future earnings of the business may fairly be based upon the 12 months' trading, ending 31st May, 1889, in view of the fact that during this period the business included for the first time the sale and manufacture of Pianos.

It will be seen that the profits for the last six months exceed this average.

We understand that the Purchasing Company takes the whole of the assets which are shown upon the Balance Sheet of 30th November, 1889, prepared by ourselves, which gives the following Assets on hand:—

Stock of Organs, Pianos, Lumber, &c., at cost £31,752 10 6 or \$154,578.98
Bills Receivable (on hand at Guelph) 8,381 19 2 " 41,792.18
Book Debts 9,564 17 8 " 46,549.10

STOCK AND BOOK DEBTS AT BRANCHES.

London £13,062 6 8 " 63,521.37
Toronto 12,151 19 2 " 60,139.58
Hamilton 3,753 12 10 " 18,413.73
St. Thomas 3,871 0 1 " 17,778.99
Sydney 3,178 12 2 " 15,462.24

In addition to these Assets there are the Factories, Buildings, Machinery, and Electric Light Plant at Guelph, which have been valued by independent experts, under our instruction, at the sum of—

Total £109,437 10 7 \$537,693.35

The business is, we understand, sold free from all liabilities, but it may be some satisfaction to you to know that the total of these at the head office is only £13,344 11 4s, or \$65,943.50; the difference between this and the £109,437 10s 7d, or \$537,693.35, representing the capital of the partners of the business.

In the foregoing figures we have calculated \$4 8s to the £ sterling.

In conclusion, we may state that we are satisfied the business is of a thoroughly sound and progressive nature.

Yours faithfully,

(Signed)

HART BROS., TIBBETTS & CO.

Taking the net earnings for the twelve months ending May 31, 1889 (£23,646 2s 6d, or \$116,077.80), as a fair basis for future earnings (and they have subsequently increased), they will be applicable as follows:

Payment of six percent interest on debentures £3,600 or \$17,520.00
Payment of eight percent Cumulative Dividend on Preference Shares 6,000 or 29,520.00
£9,600 \$47,040.00

Leaving a balance of £14,046 2s. 6d. or \$68,357.80, or sufficient, after deducting £2,000, or \$9,733.33, for administration, to pay a dividend of 16 percent on the Ordinary shares.

In taking Stock in the past, all the stationery, advertising matter, and catalogues, valued generally at over £1,000, or about \$5,000.00, and the stock of coal, usually worth £1,500.00, have not been, nor are they now, taken as Assets, although the Company will have the benefit of them.

The price to be paid to the Vendors for the entire business, including the Assets set out in the Accountants' certificate, which are guaranteed by the Vendors, is £200,000, or \$973,333.33, payable as to the equivalent of £200,000 in Preference Shares, Ordinary Shares, or Debentures, or partly in one kind and partly in another, AT THE OPTION OF THE COMPANY, and the balance in cash, leaving £10,000, or \$49,500.00, for additional working capital.

The contract embodying these terms, a copy of which may be seen at the Company's offices, is dated 15th March, 1890, between William Bell, William J. Bell, Edith Lewis Kennedy, and Alexander Watson Alexander of the one part, and Alfred Charles Kendrick, as Trustee for the Company, of the other part, with an endorsement adoption thereon by the Company, dated July, 1890.

There are also various ordinary trading engagements incidental to the business, and a contract, dated March 19th, 1890, between William Bell, William J. Bell, Edith Lewis Kennedy, and Alexander Watson Alexander of the one part, and the London and Colonial Finance Corporation, Limited, of the other part, with reference to the expenses of this issue and subscription of the Capital. There are also various contracts (to which the Company is not a party) relating to the guaranteeing of the capital now offered. Applicants for shares should be deemed to have had notice of all such contracts, and to waive the insertion in the Prospectus of dates and names of the parties thereto, under Section 38 of the Companies Act, 1867.

The certificate and valuations above mentioned, and copies of the Memorandum and Articles of Association, can be inspected at the offices of the Company.

The statements in reference to the property and business to be acquired by the Company, and the other statements in this Prospectus, are based upon information supplied by the Vendors and the Accountants, and the Directors believe them to be correct.

Applications for Shares or Debentures should be made on the form accompanying this Prospectus, and sent, with the deposit, direct to the Company's bankers. In any case, where no allotment is made the deposit will be returned in full, without delay, and where the number of Shares or Debentures allotted is less than the number applied for, the surplus will be credited in reduction of the further amount payable on allotment. Failure to pay any instalment at due date will render all previous payments liable to forfeiture.

Applications will be made in due course for a statement and quotation on the Stock Exchange.

Copies of the Prospectus and Forms of Application for Shares or Debentures may be had from the Bank of Scotland, 43 Lothbury, E.C.; the Bank of Montreal, Montreal, Toronto, and Branches; or from the Brokers, Solicitors, Auditors and Secretary of the Company.

TENDER PLANTS CUT DOWN!

A BOUNTIFUL HARVEST!

How sad the thought, that the fell destroyer death is daily cutting down around us the young and innocent, the tenderly nurtured buds that gladden so many homes with baby mirth and glee. The little ones come into the world, and suffer for a few weeks or months, and are taken away, leaving behind them aching hearts that refuse to be comforted. Mothers weep and lament when they are bereaved, and strong fathers suffer silently at their loss. This is the season when death reaps his bountiful harvest of young and tender plants, and it behooves parents, more particularly mothers, to act with great caution and discretion as to the proper care of young children.

Cleanliness and proper food, will, in the very hot weather carry any child safely through all danger.

The poorest mother can afford to do this, if she possesses the necessary common sense, and proper affection for her child. Most undoubtedly at the present season, the great and important matter is the question of a proper food—a food which must be suitable for weak stomachs; a food that will be easily assimilated, a food that will not cause irritation of the stomach; in short, a food that must be nutritious and building, and that can take the place of mother's milk when that cannot be obtained in its proper strength and health-giving qualities.

Here, fortunately, science has come in, and given to mothers a food for children possessing all the qualities required to thoroughly nourish without any unnecessary stimulation.

This food, known as Lactated Food, contains Sugar of Milk, precisely the same as contained in mother's milk, which always allays morbid irritation.

Lactated Food is a perfect nutrient, and the most easily digested food known to science. The satisfaction expressed by physicians that have made use of it in their practice proves that it must become one of the principal remedies in the treatment of cholera infantum, dysentery and diarrhoea.

Mothers who use Lactated Food for their children are loud in their praises of it, and will use no other make.

It has become so popular that hundreds of druggists in the Dominion can sell no other make.

In short, it is the only prepared food that the medical faculty can justly recommend with safety, and its price is so very moderate that it is within the reach of all mothers.

THE CHIEF PARK RANGER.

WHAT HE SAYS ABOUT THE PARK MORALITY.

Mr. McGibbon, chief park ranger, was seen this afternoon concerning park complaints, and meets each case in a straightforward manner. He shows that there is a park ranger to look after the orchard and Fletcher's Field and that he should keep horses off the grass and protect the trees in that section. The kissing arrest was not an affair in which his park rangers were concerned at all. That was done by some city policemen who were not sent there by him. As to turning decent people off the park after nine o'clock, there have been many moonlight nights on which people have been there after that hour and have not been interfered with. His men, he says, are proverbially polite, except when people attempt to impose upon them. One woman's children had been dancing upon the tables used for people to eat from. The ranger had asked her to take them off; and she gave him some talk. He went away, and as soon as he was, as she thought, out of sight the children were back again on the tables. Then the ranger returned and told the woman that if her children got on the tables again she would have to leave the park. They had actually been in that place dancing a jig on the tables; and these were ordered off. They did not transgress again. Mr. McGibbon gives a number of instances in proof of the difficulty of getting a civil answer sometimes from people when spoken civilly to; and believed that in incivility lay the chief offence.

He was ready to investigate complaints against his men, but had done his best to make them civil. He mentioned instances where misconduct had been made a cause of dismissal from the park, but held that he generally took the most effective way—that of sending offending parties off the park. Arrests were made in extreme cases only, and regulations would certainly be carried out.

WHAT THE CHAIRMAN SAYS.

Ald. Villeneuve, Chairman of Mount Royal Park Commissioners, says complaints against officials should be lodged with the Commissioners. It was in the interest of the public and of morality not to allow people on the park after nine o'clock. There were good people of course who would stay on the park after that hour, but there would be a great many bad. Of course, there is a way of speaking to people. They must be politely reminded that time's up. There must be no incivility.

In answer to a question, Mr. Villeneuve said that every employee in the Park was supposed to be a policeman. He also stated that he had told the Park Ranger to allow children to pull wild flowers, although there was a by-law against it. Although some one wrote to the papers saying there had been no water in the barrels on Sunday, after investigation he had found the charge unfounded.

A TRIBUTE TO PARK AND CHIEF RANGER.

"For many summers previous to 1887," said a resident of Montreal, "I spent most of my leisure time in the Mountain Park. Coming from the country and closely confined to the city, employed in an office instead of in the accustomed open air, to get away up the mountain under the pines and among its shrubs, away out of sight of the city, seemed like an escape to a temporary paradise. Early in the morning, and very late at night, as well as the whole of the day on occasional holidays I have been there. On sultry nights when to descend into the close streets of the lower part of the city seemed intolerable I have spent the whole night on the mountain. I have gathered flowers and seen hundreds of other gather flowers and have met troops of children with great bunches of blood wort, trilliums, saxifrage ferns and other flowers and plants. Children old and young have romped and played and rested everywhere. Never but once did I see anything offensive and the offenders quickly vanished of their own accord, and never at all did I see any interference or any need of interference whatever, on the part of any park ranger or any official, with my visitor. I seldom go to the park now, but I hope, for the sake of those who need it now, as I once did, that the conduct of those who frequent it, or the management of it, has not become changed as would seem to be the case from your reports. Mr. McGibbon was chief ranger then as now."

THE CONCLUSION REACHED.

By many of those who have used the park greatly it is that it has thus far been very free from unseemly conduct.

Brusqueness and incivility are two very different attributes of a public officer, and though one is liable to be mistaken for the other, care should be taken to discriminate.

Park regulations are made to be obeyed, and the Chief Park Ranger says he is determined they shall be—kindly, but firmly.

THE WILL OF MR. LAROCQUE.

By his last will and testament, the late Mr. Alfred Larocque divides his fortune between his three children, and there are no bequests for charitable purposes, he having attended to this during his lifetime. The estate is said to be worth about \$100,000.

CITY FINANCE AND PROGRESS.

Messrs. Robb and St. George had a consultation to-day, in order to report to tomorrow's Finance Committee on the cost of the proposed improvement. It is said that the paving of the various hills will be dropped for this season. Mr. Robb points out that the Notre Dame widening will only need \$400,000 this season instead of \$670,000, the balance not being needed until next spring.

NOW, HELP THE PERSECUTED.

The City Council having voted the Canadian Society for the Prevention of Cruelty to Animals an additional grant for the present year, the executive committee, at a special meeting held on Wednesday, selected from among the applicants Mr. Arthur Gervais for the position of Assistant Inspector. Mr. Gervais will enter upon his duties at once.

MONDAY'S COUNCIL MEETING.

At Monday's council the first question will be the filling of the Treasurer's place and appointments consequent thereon. The second the finance report on the contracts and the third the appointment of a Sub-Chief.

A GALLANT RESCUE.

A small boy named J. Emerson, of 47 Murray street, fell into the river to-day, and would have been drowned had not John Anger, foreman to the Harbor Commissioners, jumped in and rescued him.

PROPOSED VANCOUVER CABLE.

Mr. J. Henniker Heaton, the eminent M.P., will be in Montreal this fall, and will interview the C.P.R. people regarding the Pacific cable to Vancouver and the far East. He will address the House of Representatives in Washington on postal and telegraphic reform.

THE LATE MR. J. HAYES.

Mr. John J. Hayes, for many years accountant in the Protectors' office, died yesterday at Lacute, thus closely following his old superior officer, Mr. Honey.

A NATIONAL SCANDAL.

A LAW THAT SENDS A LADY THROUGH IN BOND BECAUSE SHE IS CHINESE.

It does not matter if you are a mandarin's wife, if you are a Christian worker, if you are of the highest caste—so long as you are Chinese you are nothing more to Canada than a box of freight.

Mrs. Ahak is a lady possessing all the above attributes. She arrived in Montreal on the "Sarnia," eighth inst., with her Chinese maid. Now, no Chinese, be they highlanders or mandarins, can enter Canada without paying fifty dollars a head. Mrs. Ahak, in addition to her rank, is prepossessing in appearance and it was therefore with some qualms that a customs official informed her of the rates per capita. Either Mrs. Ahak did not understand or she did not wish to lose her \$100, as payment was refused. Captain Gibson was mortified at the exigencies of the Canadian law. The Customs man could not relent. Mrs. Ahak smiled on them all. She was informed that according to law she would have to remain on the steamer until the Canadian Pacific Railway should give the Customs House a bill of lading for her arrival in Vancouver, for it was from that port she was going to sail to China, having received a call to her home.

After some deliberation the Customs determined that, perhaps, it wouldn't be breaking the law too much to take Mrs. Ahak around the city in a carriage along with an official. This they did. Mrs. Ahak stopping here and there to make a Canadian purchase. In the evening the bill of lading was secured and Mrs. Ahak left Montreal for China, and the last purchase she made was a portrait of the Queen of this free British Empire, which was made from Mr. W. J. Clarke.

Mrs. Ahak has been speaking at meetings in Kent and Maidstone, England, in aid of the Zulus missions. She spoke in her native tongue, the Rev. Robert Stewart, of the Christian Missionary Society, translating each sentence. She dresses richly and has the proverbial Chinese foot—indeed she cannot walk on account of the artificial smallness of the feet, but has to be carried in a chair. She is a lady of liberal education, refined manners and great influence.

THE HENDERSON INSOLVENCY.

DISCUSSED AT GREAT LENGTH IN COURT TO-DAY.

A petition was presented before Judge Ouimet in Chambers this morning on behalf of the Ontario Bank asking that the bank be put in possession of a certain quantity of lumber belonging to the Henderson Lumber Company in liquidation, and for which they hold warehouse receipts for advances now representing \$33,000. Mr. Harry Abbott, Q.C., who presented the petition, explained that an advisory board named by the court, and composed of Messrs. W. W. L. Chisholm, C. H. Walters, J. Ostell, R. Remley and Selkirk Cross, having been asked by the bank for the possession of this lumber, consulted the attorney of the estate, Mr. M. Hutchinson, who gave it as his opinion that the bank was entitled to such possession. This opinion had since been confirmed by Mr. R. D. McGibbon. The terms of the Insolvency Act pointed out clearly that a creditor holding such security had a right to the possession of the goods. Mr. Hutchinson, who appeared on behalf of the estate, declared that he had no objection to make, and was not prepared to contest the demand.

Mr. Beausart, who appeared on behalf of two creditors, Messrs. John Ostell and D. N. MacDonald, resisted the petition. The proceedings, he said, were of a most serious nature, as the result would be to place almost all the assets in the hands of one creditor. He defied his learned confrere to show a resolution of the shareholders authorizing this. It was an entirely *ex parte* proceeding, and by a mere chance only, had it come to the knowledge of his clients, who would now, no doubt, be joined by many other creditors in their opposition. The Ontario Bank wished to be paid to the detriment of the other creditors, and he would ask that the petition be filed and a delay granted him to contest it, as he was not now regularly in the case.

Mr. Abbott then explained that Mr. Ostell himself was a member of the advisory committee, and being present at the meeting referred to, could not plead ignorance. The present proceedings were in no way extraordinary, and any delay in the matter would cause damage to the bank and loss to the estate, as the insurance and interest were always running. By the Insolvency Act the liquidator was obliged to see that authorization be given him to have a creditor in the position of the present petitioner put in possession of the goods upon which he holds warehouse receipts. Mr. Beausart then hinted that this looked like some understanding or bargain, but Mr. Hutchinson at once denied the existence of any such thing and declared that he could give no other legal opinion than that he had given. The judge thought that there could not be much difficulty over the question of law. Still, he was of opinion that Mr. Beausart should be given an opportunity to see the documents connected with the petition.

Mr. Abbott remarked that the object might be to force the bank to settle with the creditors opposing the petition, and Mr. Beausart proceeded by means of a regular intervention, showing on what grounds he based his opposition.

Mr. J. Ostell, who was present, remarked that, so far as the titles of the bank were concerned, he had never seen them except in the pocket of the manager of the bank, although he had asked to see them.

Mr. Walters remarked in his turn that Mr. Beausart had only looked over all the titles. Finally, the judge granted a delay until tomorrow morning at 10.30, to allow Mr. Beausart to examine the documents and file an intervention.

HON. MR. MERCIER'S CALLERS.

The Hon. Mr. Mercier had several callers and was to go to the Longueuil races this afternoon with the Hon. Messrs. Robidoux and Boyer, at the invitation of Ald. Prefontaine.

FELL FROM A CAR.

Gilbert Descaer, a carpenter, fell off a Canadian Pacific freight car he was repairing at noon to-day, near Hochelaga. He was taken to the Notre Dame Hospital where it was found that his back was very severely injured.

PERSONAL.

Sir George Stephen arrived in the city this morning from his fishing grounds.

Lieut. Col. Tiedale, M.P., of Simcoe, is a guest at the Windsor Hotel.

Col. C. C. Long and wife, of New York, arrived at the Windsor Hotel this morning.

Capt. Wood and wife arrived in the city from Vancouver this morning, and are guests at the Windsor Hotel.

Mr. M. D. L. Roy, Vice-Consul in this city for the Republic of Switzerland, left last evening on a trip to Europe.

General Henry and party of twelve, of Burlington, arrived at the St. Lawrence Hall this morning from Westchester, where they have been fishing in the lakes. The General has been very successful in fishing; one of the brook trout that he caught weighed 4½ lbs. They leave this evening for Burlington.

TICK, TICK, TICK.

THE OLD SEMINARY CLOCK AND ITS HANDS.

Some important repairs are being made to the old Seminary buildings. The roof will all be renewed and the masonry of the old time-honored clock will be consolidated. The dial of the clock has been taken down and passers-by greatly miss the familiar hands which have been indicating the hour to Montrealers for about a century and a half. However, the old chime of bells will not be heard again, as the Seminary does not intend to replace them by those of more modern pattern. "The fact is," said a Seminary priest this morning, "that we could not replace that clock now-a-days by anything approaching it in durability and precision. It is one of those standard pieces, such as the best European workers knew then how to make and which cannot now be duplicated. Moreover, the public could not well allow the familiar sound of this chime to disappear, and for all these reasons the old clock will be kept in its place." This clock dates as far back as the middle of the last century and was placed upon the Superior of the Seminary was the Rev. Abbé Montgolfier, a brother of the two famous Montgolfiers, who left their name to posterity as the inventors of fire balloons, which were the first in use.

When the clock was first placed there, Indians used to come in front and watch it for days at a time trying to find out the secret of its movement. At last, one of them thought he had found the solution of the problem, and triumphantly informed his companions that there must be some one behind putting the hands in motion.

RUST IN THE WHEAT.

SAMPLES OF THE RUSTED GRAIN ON 'CHANGE—TOO LATE TO DO MUCH DAMAGE.

There were shown on 'Change to-day by Mr. Harry Raphael three samples of fall wheat in the ear, all different varieties, and all of which were rusted. The grain is, however, well matured, is large, plump, and well filled, and will not be much, if at all, harmed by the rust. The head of the stalk is pretty yellow, and about all that is needed is that the kernels should harden. The wheat is from the farm of Mr. James Fair, proprietor of the Clinton Rolling Mills, who writes as follows concerning the sudden appearance of the rust:

I am sending you by to-day's mail samples of three varieties of fall wheat now growing in a field on my farm on which you will perceive there is considerable rust. Just one week ago I was sending similar samples rusted. At that time there was not a sign of rust on it. So you see how quickly it spreads. There is one consolation, the wheat is too well filled to be seriously hurt though it will shrink considerably even now. It appears to be worse on the new varieties than the old. I did not vary greatly growing which locks well from a distance, but it was too far away and the day was too hot to go over to it.

ENEMIES OF THE WHEAT.

WINDSOR, Ont., July 15.—The weevil has done great injury to the fall wheat in both Maiden and Colchester South, while the rust has done some damage in low ground. The apple crop in Essex is a failure.

SISTERS WHO OBJECT.

TO THE SHERIFF HAVING SOLD THEIR PROPERTY. Some excitement was caused in the Sheriff's office this morning by the visit of an elderly lady who cannot understand under what authority the Sheriff has taken upon himself to sell a property belonging to herself and a sister. The sale took place some six years ago, and there are \$80 reverting to the sisters on the proceeds, which the Sheriff holds at his disposal. They refuse to accept the amount, however, and periodically come to enquire how the matter stands, and when the Sheriff will be disposed to give them back their property. Each visit is the occasion for threats to the officers of the law, who are charged with having unjustly offered for sale a property which did not belong to them. Nothing can calm the irritated sisters, and this morning's visitor again left the Court House declaring that she would see that justice was done here.

A CURIOUS WILL CASE.

Judge Delorimier, this morning, granted a petition to admit to probate a will of a very peculiar nature. Thos. Dean Watkins, agent, of this city, died at Allegheny, Pennsylvania, in June, last, and during his illness he informed his wife, who had gone to him, that he had left documents entitling her to the possession of his estate. After his death, a cheque was found on his person ordering the City and District Savings Bank to pay over to his wife all moneys deposited by him in the bank. The cheque was signed, but had no date. A Post Office order was also found, dated the 10th November, 1885, notifying the department to close his account and pay over to his wife the sum of \$999.81 appearing to his credit in the Savings Bank department. The wife produced an affidavit that her husband had informed her of the above bequest, and had moreover signed the Post Office order in her presence, during his last illness. There are no children and the hon. judge ordered that the above mentioned documents be held and considered as the last will and testament of deceased. These amounts are said to represent the whole estate.

CRIMES AND CRIMINALS.

AN ESCAPED FELON.

McDonald, an escaped gaol bird from St. Lawrence County, N.Y., is believed to have been in the city within the past few days, and Deputy Sheriff Dixon, aided by local officers, is making a strenuous effort to locate him.

CONFIDENCE OPERATORS AND VICTIMS.

Mr. J. Morrison, of Orillia, Ont., was victimized by an artful stranger here yesterday. Mr. Morrison was about to take the "Sarnia" when met by an alleged fellow passenger. The latter, who gave the name of Johnson, suggested that they buy folding chairs to use on deck. Johnson suddenly discovered that he was out of ready cash, and Mr. Morrison handed him five sovereigns and \$35 in bills to make the purchases. "Johnson" rushed into the exchange, upstairs on one side and down at the other, and has since been invisible.

ALLEGED SALE OF LIQUOR TO INDIANS.

A few days ago several Oka Indians came to the city and by noon one of them, Andrew Nicholas, had become so fired up by whiskey that the police had to arrest him. The Recorder ordered him to be remanded until it was found out who sold him the liquor. The Indian took one of the bailiffs with him and pointed out Egey Steer's saloon on Chaboulay street as the place where he began imbibing and Alex. Solomon's, St. Lawrence Main street, as the place where he finished off. The case against Solomon was fixed for this afternoon, and two Indians from Oka, in addition to Nicholas, were in attendance for the prosecution.

AN ALLEGED ROBBERY.

A Diaz alleges that he was spending the evening at the house of his friend, F. Desroix, with several others, last night and was beaten and robbed. It appears that they had been drinking all round when a quarrel occurred. Several of those present assailed Diaz, who emerged with his nose and ears bleeding. He said he was stolen from him. Desroix, his wife and Elie Hencourt have been arrested, charged with the crime, and remanded to gaol.

W. Connaughton, arrested for drunkenness and disorderly conduct, was so seriously when arraigned this morning that he was remanded to gaol for eight days to sober off thoroughly.

James Peter Platt is a colored sailor on the "Gibraltar." Yesterday, some one stole his watch, and an Englishman named Andrew Lyons was arrested on suspicion of stealing it, as he was seen acting suspiciously near Platt's bunk.

Arthur Taillefer, saloon keeper, was arrested on Tuesday last on a capias for \$50.40, at the instance of Chas. A. Smith.

COMMERCIAL MATTERS.

The Henderson Organ Company has been dissolved by voluntary liquidation.

LAST WORDS BY WIRE.

Count Conrad Stolberg, heir to one of the richest land owners in Germany, was accidentally shot and killed to-day while duck shooting.

ENGLAND AND THE VATICAN.

SIR ADRIAN DINGLI'S VISIT TO ROME. LONDON, July 16.—The mantle of Sir A. Simmons as negotiator at the Vatican is supposed to have descended on the shoulders of Sir Adrian Dingli, who, as Crown Advocate of Malta, was for many years of great influence. Sir Adrian is a strong Catholic, and although the ostensible object of his visit to Rome is to see his only son, who is a pupil in the Jesuit school of Mondragone, it is an open secret that he is charged, semi-officially, to discuss several matters of great importance with Leo XIII. and his advisers.

BARON WISSMANN.

LONDON, July 17.—Baron Wissmann has reconsidered his determination to resign his position as German Imperial Commissioner in Africa, and will remain in the colonial service for the present. It is understood that Lieut. Baron Graevenicht will continue as acting commissioner, and Baron Wissmann will remain in Berlin to assist in the reorganization of the German system in Africa on an entirely new basis, the changes being demanded by the large increase of territory through the Anglo-German agreement.

COUNT KALNOKY.

Count Kalnoky has entirely recovered from his recent illness and will accompany the Emperor Francis Joseph on the latter's visit to Germany to attend the annual military manoeuvres. Although Count Kalnoky goes ostensibly as a travelling companion of the Emperor, it is understood that the real object of his trip is to meet Chancellor Von Caprivi with whom a conference on that occasion has already been arranged.

CASSATI'S CURIOUS SILENCE.

It is the subject of much comment in Rome that Captain Cassati since his arrival in Italy has had nothing further to say concerning his rather profuse censure of Mr. Stanley in which he indulged some time ago.

RAIN IN INDIA.

CALCUTTA, July 17.—Heavy rains prevail in the Darjeeling district and part of the country is flooded. Bridges have been carried away in many places and the only means of communication between the planters is by boat.

THE BEHRING SEA QUESTION.

NEW YORK, July 17.—A Washington special to the World says:—President Harrison held a long conference yesterday with Representative Hitt, of Illinois, Chairman of the House Foreign Affairs Committee, with relation to the Behring Sea correspondence called for by Mr. Hitt's resolution. Representative Dingley, of Maine, a member of the Committee on the Marine and Fisheries, and a close student of the Behring Sea controversy, also called on the President and conferred with him on the subject of the House resolution. It can be stated

without violating the confidence of anyone that the President has indicated clearly that he does not, at this time, regard it as a wise move to lay the correspondence before the House of Representatives, and so make it public. He bases his objection on the ground that the threat made by Lord Salisbury regarding the protection of British sealers in Behring Sea by British war vessels must necessarily be confirmed by the publication of any material portion of the correspondence, and that such confirmation would tend to increase the present feeling of irritation and possibly defeat the purpose of the negotiations now again in progress. This idea urges itself the more strongly on the President by reason of his great reluctance to make public any part of it.

THE MODIFIED INSTRUCTIONS.

to our revenue cutters in Behring Sea. It would require the publication of these instructions to show conclusively that they have been rendered so inoffensive that Lord Salisbury will doubtless never have an opportunity to carry out his threat. Here, again, the President declares that he will not permit the papers to be made public at this time. Mr. Blaine was willing that the correspondence should go to the official, and so notified the State Department official. The documents will likely remain under seal for some time to come.

MURDER AND ARSON.

MARSHVILLE, Cal., July 17.—Early yesterday morning fire was discovered in the Belding Soda Works, and after it was extinguished the remains of George Baker, manager of the works, were found at the back of the building. Baker had evidently been murdered. The body and safe had been rifled of valuables, and fire had been set to the building.

MURDERED BY APACHES.

GLOBE, Ariz., July 17.—Edward Baker was murdered at his cabin in the Sierra Ancha Mountains, forty miles north of Globe, a few days ago, probably by Apaches.

POPULATION OF CHICAGO.

WASHINGTON, July 17.—The latest from Chicago makes that city's population 1,101,203. This puts Chicago ahead of Philadelphia.

THE FARMERS' ALLIANCE.

ST. PAUL, Minn., July 17.—The special meeting of the Farmers' Alliance was called to order yesterday. There were between 500 and 600 delegates present. A motion to take independent political action was carried by an overwhelming vote of 391 to 24. A motion was then carried to take a recess for the purpose of entering into a joint convention with the labor delegates to place a joint ticket in the field. When the joint convention met the officers of the Alliance were made the officers of the Convention. The Convention adjourned till this morning.

YACHTS WRECKED.

CHICAGO, July 17.—Captain Stein, of the steamer "Puritan," reports the wreck of two yachts, seen by him in the middle of the lake. From other information obtained the captain's report makes it certain that five persons, presumed to be from Chicago, were lost with these yachts. The names are unknown. It is supposed they perished in the big storm a few days ago.

THE HAY CROP.

BOSTON, July 17.—The hay crop in New England is placed at 16 percent above the average in amount and 30 percent above the average in feeding value, as the crop is of extra quality.

FIRES.

APOLLO, Pa., July 17.—The Apollo House, the principal hotel here, was burned on Tuesday night. Loss \$30,000. The guests barely escaped with their lives. No one was injured.

MINNEAPOLIS, Minn., July 17.—The burning of 525 tons of binding twine in this city on Tuesday will cause a sharp advance in the price of that article, especially in the North-West.

THE GRAND LODGE ELECTIONS.

(Special to the Witness.)

KINGSTON, July 17.—The Grand Lodge elections occurred this forenoon. The results were: Prov. Grand Master, J. Ross Robertson, Toronto; deputy grand master, the Hon. J. M. Gibson, Hamilton; district deputy grand masters—Eric district: James Birch, Chatham; St. Clair, J. P. Whitehead, Strathroy; London, A. B. Munson, London; South Huron, W. White, Mitchell; North Huron, W. R. Telford, Walkerton; D. H. Wilson, Woodstock; Wellington, John Fox, Orangeville; Hamilton, G. W. Milligan, Hamilton; Georgian Bay, D. F.

McWatt, Barrie; Niagara, A. B. Burdett, Niagara; Toronto, G. E. Bennett, Toronto; Ontario, W. Miller, Omemee; Prince Edward, P. J. Lighthorne, Cobourg; Frontenac, F. R. Dargavel, Elgin; St. Lawrence, W. H. Jackson, Brockville; Ottawa, J. H. Bothwell, Lanark; Algonquin, J. H. Fraser, Port Arthur. Mr. J. Ross Robertson received 948 out of the 963 votes cast. There was a rousing reception tendered both Mr. Robertson and the Hon. J. M. Gibson. The Grand Lodge meets next year at Toronto.

THE CASE OF NEWFOUNDLAND.

TORONTO, July 17.—The following special cable appears in this morning's Globe:—LONDON, July 16.—Premier White, of Newfoundland, tells me to-day that he has had further interviews with the Colonial Office. The whole case of the colony is now fairly before Lord Knutsford. Sir William certainly does not think the attitude of the Imperial authorities is hostile to the Colonial claim, and he is glad to find the real character of the issues involved fairly grasped by the press and public men here.

THE CITY'S QUARRY.

CARELESSNESS STILL INSISTED UPON. Mr. Bond, of Outremont, says, referring to the careless blasting, that the stones complained of are certainly from the city quarries. One recently fell eight feet from where he stood alongside his kitchen. His children had been playing there not half an hour before. It was large enough to kill a man. One went through his kitchen window last March, opposite where his wife was sitting. One of the city's own employees recently had a cow injured, the animal being struck on the leg by a rock, just after it had been milked. Mr. Perry, says Mr. Bond, had a man at work in a field one day and a large stone fell close alongside the man. The stone was taken down to the City Hall and shown to the City Surveyor, but no satisfaction was obtained the blasta being as dangerous as ever. The blasta are covered, but covered with brushwood, which, according to Mr. Bond, is no better than tissue paper.

MEETINGS AND ENTERTAINMENTS.

TAYLOR CHURCH FOR ISLE PEARO. Taylor Church excursion to-morrow will be on the "Princess" instead of the "Prince of Wales," leaving Molson's wharf at 8 a.m., and calling at the foot of McGill street and at St. Gabriel Locks later on.

A CHAMBERLAIN PIONIER.

Cowanville, East Farnham, Brighton and vicinity will hold an excursion picnic to Chambly on Saturday.

SHIPPING.

LONDON, July 17.—Arrived steamer "Aller," from New York.

MONTREAL, July 17.

Readings by Hearn & Harrison's Standard Barometer at noon to-day: 59.35; yesterday, 59.03. Temperature to-day:—Max., 70; min., 62. Yesterday, max., 82; min., 68.

COMMERCIAL.

WITNESS OFFICE, Thursday, July 17.

FINANCIAL.

There is no change in the rates of Money or Sterling Exchange. Call loans on stocks are made at 5 to 5½ percent, and good commercial paper is negotiable at 6 to 7 percent as to name and date.

Sterling Exchange is firm at 100½ to 100 15-16 for round amounts of sixty-day bills, and 100½ to 100 13-16 for demand bills between banks. Currency drafts on New York 1-32 discount. Counter rates about 3 higher.

The Stock Market remains dull and almost featureless, the general tendency of the market being, perhaps, towards easier prices though Bank of Montreal and some other leading stocks are firm in value.

Morning sales—50 Bank of Commerce, 178½; 60 Richelieu Navigation, 69; 150 Canadian Pacific, 82; 100 at 82½; 300 Hochelaga Bank, 100½; 3 Hochelaga Cotton, 136; 100 Stormont Cotton, 45.

Afternoon sales—3 Union Bank, 97½; 25 Montreal Telegraph, 97; 60 Richelieu Navigation Company, 60½; 100 Canadian Pacific, 82½, buyer 30 days.

The prices at the close of the Board reported to-day by Messrs. Nichols & Marler, Stock Brokers, corner St. Francis Xavier and Notre Dame streets, were as follows:—

FACTS AND FIGURES.—Thousands of people have been cured and thousands will be cured by the use of Burdock Blood Bitters, the best remedy for biliousness, dyspepsia, constipation, bad blood, loss of appetite, etc. Millions of bottles have been sold and all have given satisfaction.

THE DEADLIEST OF SERPENTS.—The cobra destroys less life in the aggregate than the various forms of cholera, cholera-morbus, cholera-infantum, diarrhoea, dysentery, cramps, colic, etc. Mortality in Canada from these causes is light, owing to the general use of Dr. Fowler's Extract of Wild Strawberry, which is an unfailing specific for all bowel complaints.

ACTED SUPERBLY.—Arthur—"Hello there, Sam, come over here; you don't owe me any money, do you?" Sam—"Not that I'm aware of. Why?" Arthur—"Oh, nothing, only I noticed you crossed the street every time you saw me coming, and I thought perhaps you owed me some money and I had forgotten it."—*The Jester.*

A TERRIBLE BOY.
Some visitors were invited to tea recently, and, during the course of the meal, John Henry remarked with a chuckle:—"Mother's got all her best things on the table to-night; ain't you, ma?" The mortified mother gave the youngster a kick under the table, when he added:—"You needn't kick me under the table, now, 'cause I didn't tell a word about borrowing the napkins."

A USELESS WASTE OF MATCHES.—Mildred was seated with her mamma on the deck of the steamer. She was watching the revolving light in the light-house, with its flashing intervals. "Mamma, what is that?" she asked. "The light-house lamp, my dear." "Who lights it?" asked Mildred. "I suppose so," replied mamma. "Well, all I've got to say," commented Mildred, "is that he wastes a good many matches."—*Harper's Young People.*

ENTERS HIS PROTEST.
COL. MCLEOD MOORE IS NOT IN FAVOR OF ANY HYBRID SYSTEM.
(Special to the Witness.)

KINGSTON, July 17.—At the meeting of the Sovereign grand jury, the Grand Master, Col. McLeod Moore, of Prescott, assailed those in the order who have an itching for the American system of Templary. He will have none of it. He says:—"The Anglo-Canadian system being one thing, the American system another, to confuse their identity under the guise of what is spoken of as 'assimilation,' would be to rob each of its present personality, giving in exchange a hybrid growth not belonging properly to either country and not truthfully representing the principles of any. Those who are anxious to disparage remarks about the Anglo-Canadian system of Templary as an attempt to revert to the primitive forms of the ancient orders show a wilful blindness to the truth. It is time that Canadian Templars should cease this senseless agitation for change and learn to have more self reliance and confidence in themselves, instead of becoming imitators of others. The address has caused great discussion."

THE LIMESTONE CITY.
(Special to the Witness.)
GENERAL PARAGRAPHS.

KINGSTON, July 17.—Tuesday was the hottest day in the history of Kingston since 1875. Mr. Marshall, of Marshall, Field & Co., Chicago, has purchased Oak Island in Chippewa Bay for \$1,000.

The declaration that the Grand Trunk Railway has guaranteed the bonds of the Kingston, Smith's Falls & Ottawa Railway is said to be incorrect.

THE PRISON COMMISSION.
The Prison Commission adjourned to-day to meet in Ottawa to-morrow. Sheriff Ferguson, Gaoler Corbett and Chief of Police Henry were examined. The Chief thought the Reformatory for boys a nest for propagating crime and Sheriff Ferguson thought the Central prison a cruel institution.

KILLING NEGROES.
VICKSBURG, Miss., July 17.—Reliable persons from Barrow, La., say seven negroes were killed and six wounded in the affray with a white posse near Mer Rouge on Tuesday. There were 36 negroes in the party, all of whom came here a short time ago from North Carolina. The survivors returned home with the whites.

BESSIE STARR KEEFER.

Mrs. Keefer is a lecturer and organizer of the R. W. G. Lodge of the Independent Order of Good Templars. She has just finished a successful season in the Maritime Provinces and is spending a month in Quebec, preparatory to a summer's campaign in the Western States. She is now holding a series of meetings in Montreal for the purpose of advancing the interests of the order here.

Mrs. Bessie Starr Keefer lectured to a small but appreciative audience on Monday evening in the West End lecture hall. The lecturer, a highly educated lady, endowed with keen intellectual powers, proved conclusively that she was thoroughly able to cope successfully with the knotty problems of alcoholism and narcotism. Whilst it is no very difficult task to prove the evil effects resulting from the use of alcoholic drinks, it is in very many cases extremely difficult to convince smokers that the use of tobacco either injures their own constitution or is a public nuisance. The majority of the audience being members of the I. O. G. Templars (in whose interest the fair lecturer is working) Mrs. Keefer was spared the giving of a lengthy discourse on the liquor question, and, consequently, was enabled to discuss at greater length the tobacco question. She described the effects of narcotism on the system in a very able manner, treating the subject elaborately and scientifically. Her frequent flashes of sarcasm, and her keen

home-thrusts were very enjoyable, as were also her sallies when displaying her powers of mimicry, which are of a high order. She was listened to with intense interest throughout the lecture, and, considering the number present, was vigorously applauded. A vote of thanks was proposed, seconded, and carried unanimously. At the close of the lecture, Mr. R. B. Freeman, District Chief Templar of the Independent Order of Good Templars, and chairman pro tem, arose and publicly announced his intention of discontinuing the use of tobacco, as he was thoroughly convinced of its hurtfulness by the arguments brought to bear upon it by Mrs. Keefer. He was heartily applauded.

SUNLIGHT SKETCHES.
"Pen and Sunlight Sketches" is the title of a grouping of scenes for the summer visitor who revels in the picturesque. All the inviting spots so prettily shown in the book lie upon the Grand Trunk Railway or contiguous lines either of boat, stage or railway. They show no new features, but are old chestnuts polished magnificently and garnished with advertisements which are the garb to the stew, and the garlic is not only, by any means, to look at. The letter press is pleasing and interesting, written clearly and in a style to inform as well as to please.

WATCHING ALDERMEN.
It is said that aldermen are being "shadowed" by private detectives in order to discover if anybody except contractors is making anything out of the proposed paving contracts.

SUBURBAN JOTTINGS.
At a meeting of the Municipal Council of the village of Cote St. Paul, held on Tuesday the fifteenth inst., Mr. Henry F. Moulton was appointed secretary and treasurer, in place of A. D. Aubry, M.D., who resigned.

A CANARD.
There is no truth in the rumor flying about here that the Canadian Government is paying the passages of Heligolanders to Canada.

PARK AND PARK RANGERS.

THE REGULATIONS GOVERNING THE PUBLIC—PRESERVE THE MORALS; BUT DO IT KINDLY AND EFFECTIVELY.

Our Mount Royal Park grows in usefulness day by day to citizens who have no other breathing place. Decorous behavior is, of course, necessary to the comfort of the people. It is even necessary at times to protect people against themselves in this respect, as decorum is a debatable quality. How to sit in a carriage, how to sit in a seat, how not to kiss in public, how to drive, where to tie up your horses, how to discriminate between an insolent and a polite official in the Park, how to discern who is an official, the hours to enter the Park and the hours to leave, are all puzzles which the visitor is left to solve for himself. One warning seen in the park is for horses to keep off the grass in Fletcher's field. Horsemen and horsewomen passing that place pay absolutely no attention to it, except upon the nicely cut plots at the golf holes. The Golf Club's park ranger looks after these plots. The horse rider or carriage driver is an influential party, perhaps, and the warning to him or her means nothing. On one occasion the notice pole was knocked down. The boys' playground is trampled over by horses.

A cow even grazes pleasantly upon it sometimes, with the equanimity of a park ranger himself. There is no notice against cows. At "the lookout," on July 1, a hot day and very uncomfortable a needed convenience at the lookout was locked. The roadway to the cemetery, notwithstanding the advance in the season, has not been rendered a great deal more comfortable than it was previously. The promised bridge is not in position. There are plenty of seats in the orchard, but there ought to be less roughness there so far as breaking the trees is concerned, and one clever park ranger in uniform would keep that place in order.

THE LATTER OF THE LAW

gives the management of the park to the Park Commissioners, Aldermen Villeneuve, Farrell and Wilson. Their regulations are comprised in by-law No. 95 concerning parks:—

- Sec. 1.—All persons visiting or frequenting the parks in the said city are forbidden:—
 - To enter or leave such parks except at the established entrance ways;
 - To enter or remain in them after nine o'clock at night, except on special occasions when their general use may be authorized by the Park Commissioners or Committee on Parks beyond the regular hours;
 - To climb upon or in any way cut, break, injure or deface any wall, fence, shelter, seat, turf, tree, shrub or other plant;
 - To carry with them any intoxicating liquor;
 - To carry with them or discharge any fire arm, fire cracker or fireworks, or to make a fire;
 - To offer or expose things for sale;
 - To post or display any sign, placard, flag, banner, target, advertisement, or device of business;
 - To throw stones or other missiles;
 - To tell fortunes, or play games of chance, or with any table or instrument of gaming;
 - To utter loud, threatening, abusive or indecent language, or do any indecent or obscene act;
 - To converse with, or in any way hinder those engaged in the works going on in the parks;
 - Sec. 2.—No quadrupeds except those placed in the parks by the said commissioners or committee, and except horses used for pleasure travel, shall be driven or conducted into the parks or allowed to remain in the same.
 - Sec. 3.—Drivers of hackney coaches or other vehicles for hire are prohibited from standing within the parks with their vehicles for the purpose of taking up passengers other than those whom they brought in.
 - Sec. 4.—No person shall be allowed to move or drive in the roadway or avenues of the parks at a rate of speed so as to cause danger or alarm, and no horse shall be driven or suffered to stand anywhere in the parks except in such places as may be designated by the said Commissioners or Committee.
 - Sec. 5.—No person shall defile or do anything having a tendency to defile, corrupt or disturb the waters or disturb or annoy the birds or animals in the said parks.
 - Sec. 6.—When necessary to the protection of life or property, the officers and keepers of the parks may require all persons to remove and keep off any designated part thereof.
 - Sec. 7.—Every person offending against any of the provisions of this by-law shall be liable to an imprisonment for a term not to exceed twenty days at the discretion of the Recorder's Court.

SOME EXPERIENCES.

An ex-alderman remarked, "If I was on the park as a policeman after nine o'clock I would not have to look twice at any one to see if they were there for improper purposes. A person with any sense can tell that almost instinctively. But even supposing parties were not behaving, is it necessary to be rough and uncivil? Some years ago I was driving in the park with a leading physician. A man came at us with a stick in the air, shouting out, 'Go back, go back.' We were off the road. We said that we did not know that we were doing any harm. 'Go back,' was the reply, 'or you'll go back with me down to the City Hall.' Finally we got away, he telling us that if he ever found us off the road again he would have us sent down. More intelligence is needed up there. There is, I do not doubt, some immorality, but it is surely not hard to tell. If things go on, respectable citizens will be afraid to visit the park at all."

Another gentleman came up while the ex-alderman was conversing with the reporter. "Why," said he, "only a day or two ago, some little French girls were playing with a pack of cards in the grass up there when along came a man who grabbed at the cards. 'No card playing allowed here,' he said. It was absurd to treat the children that way. I have seen park keepers run after carriages returning from funerals and

GRAB AT THE CHAPS ON PEOPLE'S HAT BANDS telling them to 'take that off' because a trope is not allowed on the park. People should be told more civilly."

"Those ranger fellows," said a citizen, "just put me in mind of red Indians from the way that they dodge behind trees and skulk around, peering out for something to grab at. At I know that a young woman asked her young man to tie her bootlace, and both were pounced on by a park ranger and threatened with arrest. When asked what for, the fellow said, 'for taking improper liberties.'"

PROTECT THE PARK'S MORALS.

"Keep the morals of the park severely in the right," said a park habitué, "and we will all applaud the officials. There must be no needless brusqueness, however, or the effort will make park rangers by-word and hated men, instead of public benefactors." This is the verdict of many park frequenters, who applaud Mr. McGibbon's strictness as to morals, but would rather see him civil about it.

THE PARK RANGERS ASKED FOR A REMEDY.

(To the Editor of the Witness.)

SIR,—I beg to call attention of the Park Commissioners, through your medium, to the wretched state of the road of the Park fronting on the Park Ranger's Lodge and running around to the road leading to the cemeteries, for a couple of hundred feet where large boulders project from the road bed to such an extent as to make driving dangerous, and which also rack vehicles to pieces, not to mention the tripping of horses. In my case I just escaped a serious accident on Saturday last, and for the time being it has laid up a valuable horse for some days, if not other serious event takes place. This road is in such a condition that it is a disgrace to any city's civility, and especially so to a public

place of resort. I would also call attention to the rock projections on the west side of the toboggan slide. This whole road could be repaired for less than \$75 and should be done with the least possible delay, unless the commissioners are seeking after an action of damages, which, if I were at all litigious, I would feel disposed to take against them. At the same time the dust was such that it was impossible to enjoy anything, as one's lungs and throat were being filled up with more than the ordinary peck of dirt which we seem bound to swallow in our outings on our million dollar park.

I would suggest, if the commissioners are so penurious that they cannot keep the road way watered once a week, the advisability of charging a toll of five or ten cents per vehicle, which those who resort there would gladly pay in order to enjoy their outing during the hot spell of July and August, when we are compelled to remain in town to attend to business matters.

AMICUS.

SIR JOHN AND SIR GEORGE E.

SOME REMINISCENCES OF THE POLITICAL LIFE OF SIR GEORGE ETIENNE CARTIER.

In a second article, published this morning, Mr. Tassé takes up another reproach cast upon the memory of Sir Geo. Etienne Cartier by La Patrie, viz., his alleged declaration to the late Hon. Louis Robitaille, in 1874, that he was Sir John—his is the worst insult of the French Canadian. Mr. Tassé quotes a number of instances and speeches of both Cartier and Sir John Macdonald to show the sympathy and good feeling which always existed between them, and comes to the conclusion that the French-Canadian baronet cannot reasonably be supposed to have denounced his colleague at the last moment. Speaking of his own personal experience Mr. Tassé says that in his numerous private conversations with Cartier, when, being quite a young man he was newspaper correspondent at Ottawa, the great statesman was far from putting him upon his guard against Sir John Macdonald. He also quotes the following interesting remarks made to him by Cartier: "Before being the friend of Macdonald, I am the friend of my race, the defender of Lower Canada. I have always held myself in readiness to defend both myself and my party. Since 1854 we go hand in hand with Macdonald, but I have never rendered impossible an alliance with Brown or Mackenzie, notwithstanding the blows which I have given them. I have often told Brown that he had immense talent which might be useful to the country were he willing to cease appealing to the prejudices of race, religion and province. I have great respect for Mackenzie, who is a worker, and with whom I am on the best terms. He even sometimes writes to me to ask favors for his friends. I grant them to him willingly, but he always takes good care to add that this must not in any way bind him in a political point of view. You understand, however, that something always remains."

THE FIENDS OF THE SALOON.

HOW SAILORS ARE DRUGGED AND BOOSED BY THEM.

Several of the captains of steamers and barques coming up to Montreal are at present much incensed with certain low saloon-keepers for an outrage which should be investigated by the police. Sailors arriving in port are enticed by some saloon-runners into their dens as soon as they set foot on shore. They frequently plead that they have not received their wages. That makes no difference. They are told never to mind that circumstance. They go to the place; they drink a glass of beer and in a short time they lose all consciousness. The liquor is drugged in nine cases out of every ten. The following day the saloonkeeper or some of his emissaries board the steamers and present to the captain or those in charge a big account for liquors which, it is alleged, the drugged men had ordered and consumed. All the sailors remember about getting in the first glass of drugged beer, which renders them senseless. Only Tuesday the captain of a barque which has only been in port about a week received an account from a notorious saloon keeper on Notre Dame street for whisky supplied his crew, about twelve in number! The tars are made to sign the account when in a state of semi-consciousness or unconsciousness and, of course, it has to be paid out of their hard-earned salary.

THE OCEAN PLEASURE TRIP.

Notwithstanding that the season is growing late for passenger traffic to England, it is much to the credit of the Dominion Line and to the SS. "Sarnia" that the latter had every inch of her accommodation taken up on this voyage. She sailed early this morning. Her staterooms are large and airy and comfortable; her dining room is compact and elegantly upholstered, while the tables last evening were covered with bouquets of choice flowers. Mr. McFarlane, passenger agent of the company, was on hand last evening, and with his usual courtesy saw that all the passengers were comfortably settled before leaving. Among the latter were many Americans from long distances, who preferred the advantages of the St. Lawrence route to those of New York or any of the other American ports. Ocean travellers by the Dominion Line will be glad to learn that the crack steamer "Yanconver" is having this whole of her old accommodation renewed. This whole of her old accommodation renewed, and will admit a difference of 80 berths and will admit of her carrying over two hundred saloon passengers. Had she been able to accommodate them she could have had a list of 230 saloon passengers on one of her voyages to Liverpool this summer. That beats the record. It has been found necessary to increase her accommodation in view of the fast growing traffic of the company. Her twin ship, at present being built for this route, will not be ready before the fall. She will engage in the cattle trade as well as the passenger.

THE PASSENGER LIST.

The following were the "Sarnia's" saloon passengers:—
Mr. W. W. Beer, Miss Blithworth, Dr. Carroll, Mr. F. P. Cook, Mrs. Cook, Master R. Cook, Mrs. F. A. Cook, Dr. E. B. Cook, Mr. Cook, Mrs. Crossland, Mr. Crossland, Miss Deane, Mr. C. G. Gwyn, Mrs. Gwyn, Miss Dorothea Gwyn, Master Fryer Gwyn, Master Cyril Gwyn, Mr. Haywood, Mrs. Haywood, Mr. H. B. Hollingshead, Mr. Henry C. Hall, Mrs. Jackson Lane, Mr. F. R. H. Hall, Mr. H. Hall, Miss McFarlane, Mrs. S. McKee, Miss B. McKee, Miss Nellie McKee, Mrs. Franklin McKee, Mr. Joshua Murphy, Mrs. Murphy, Mr. Wm. Murtagh, Mr. C. N. Murro, Miss M. Murro, Mrs. Murray, Mr. Notter, Miss Parker, Mr. James M. Pierce, Master Dante Pierce, Rev. J. S. Rose, Mrs. Rose, Miss Reville, Miss A. Richards, Mr. D. L. Ray, Mrs. Ray, Mr. Wm. Stanley, Mr. W. B. Sanders, Mr. B. Turpin, Mr. Thos. A. Welling, Miss Charlotte Youell.

WEATHER REPORT.

Metropolitan Office, Toronto, July 16, 11 p.m.—The high pressure has retired since last night, and at the same time a shallow depression has moved with great rapidity to Lake Superior; heavy rains have fallen from the Rocky Mountains to Manitoba. Elsewhere in Canada the weather has been generally fine. Maximum temperatures:—Calgary, 70; Winnipeg, 72; Port Arthur, 74; Toronto, 70; Montreal, 82; Quebec, 76; Halifax, 75. Probabilities for the next twenty-four hours:—Lakes, moderate winds, fair, with showers or thunder storms in some localities at night, Upper St. Lawrence, light to moderate winds, fine to day, local showers or thunder storms to-night or tomorrow, not much change in temperature. Lower St. Lawrence and Gulf, light to moderate winds, fine, not much change in temperature. Maritime, light to moderate winds, fine, stationary or higher temperature.

A ROYAL VISITOR.

The Duke of Orleans will visit Canada next autumn. Paris reports say that he expects a warm welcome in Quebec and Montreal.

SMOKING AT SUNDAY-SCHOOL PICNICS.

(To the Editor of the Witness.)

SIR,—There are many to whom an occasional excursion affords the only fresh country air they enjoy in a year. Strange, that some should persistently poison it for themselves and for others with tobacco. If they enjoy tobacco fumes better than fresh air they need not put themselves about to go abroad, unless their object is to share their luxury with pure breathed women and children. On Sunday-school excursions this selfish encroachment on the rights of others is especially obnoxious. Sunday-school boys are usually taught the deleterious nature of the smoking habit, and to class it as one of those indulgences which lead to vice. When, then, they are under the guidance of their teachers, taken out to enjoy the beauty of the world, it is a wrong done to them to set them an example which makes them think it mainly to smoke, an example also of indifference to the comfort of others.

ARRIVALS AT THE ABERNETHY HOUSE.—Major R. J. Evans, Thomas Trihey, F. Adams, Miss Adams, Albert Taylor, Mrs. E. J. Savage, Miss Savage, Milton J. Savage, Edward A. Savage and maid, Mr. and Mrs. H. Carter, Mrs. George Bishop, J. S. Mayo, E. McFarlane, Mrs. E. McFarlane, Mrs. Rows, J. H. Hall and H. G. Frost all of Montreal. E. Journeau, Mrs. Journeau, and E. J. Woodburn, of Melbourne; Mrs. A. C. Savage, Miss Amy Savage, and Miss Janice C. Miner, of Granby; T. W. Kelly, Huntingdon; J. A. Buck and W. C. Barney, of East Farnham; the Rev. H. Kitchner and Percy Kitchner, of Philadelphia; H. Church and H. M. Church, of Berthier.

LIVE STOCK MARKET.—JULY 17.

There were nearly 600 head of butchers' cattle, 800 calves and 800 sheep and lambs offered at the East-End Abattoir to-day. With such liberal supplies on hand, the drovers were compelled to accept considerable reductions on the prices received here lately, the prices to-day being nearly half a cent per lb. lower than the high prices of last Monday. There were scarcely any really prime beefs offered here to-day, but there were a good many large fat cows among the offerings, which sold at from 40c to a little over 45c per lb. Common dry cows sold at about \$30 each, or about 2 1/2c per lb., with small bulls and lean steers at from \$10.00 to \$15.00 each, or about 2 1/2c per lb. The Montreal Meat Company brought 22 good large fat cows at \$80 each and Mr. George Nicholson bought 19 others at the same rate. Calves were also lower in price than they have been lately and prices ranged from \$2.50 to \$5 each. Mutton criaters were plentiful and somewhat lower in price, except for good lambs which are in active demand at firm rates. Sheep sold at from \$1.25 to \$2 each and lambs at from \$2 to \$1 each. Mutton. Brown Bess, bought 20 choice lambs to-day at 8c each.
