

## DEATH TOLL FROM TORNADO IN EL SALVADOR MOUNTS TO THOUSANDS

Reports of Death and Destruction Reach Capital from All Parts of Country Following Tornado and Rainstorm—Estimated Dead in Vicinity of Capital Alone Placed at Two Thousand—President Takes Drastic Action to Relieve Distress.

San Salvador, El Salvador, June 11.—Relief workers today estimated two thousand persons were dead in the vicinity of San Salvador alone following last week's disastrous tornado and rainstorm.

The Salvadorean air corps yesterday sent out aeroplanes to survey the country. They returned to report death and destruction everywhere.

L. C. Calloway, Pan-American Airways airport manager, went along as an observer and made an official report of his findings. He said the government planes dropped messages to all communities where life was still observed asking them to report to the capital immediately as to the extent of casualties and loss in each village.

He saw evidences that whole towns had been destroyed by landslides started down volcanic mountain sides as the result of the rains. In the Lempa river he saw the funnel of a river boat sticking out of the water and bodies floating around it.

The coast from La Libertad to La Union was hit most severely and the villages there were destroyed.

The President of the Republic has issued a decree that prices of foodstuffs must remain the same as before the disaster.

He abolished all import duties on wheat, rice, and other cereals for the next three months in order that the people of El Salvador may be fed at as low a cost as possible.

Electric power was restored over the week-end in San Salvador. The capital city is receiving drinking water again, although it is only issued two hours daily. The work of burying the dead is being carried on as fast as the army can get rescue workers into the stricken settlements.

Lakes Guiza and Coatepeque have risen far over their banks and swept away every vestige of civilization around their shores.

Aeroplane observers flying over the International Railroad of Central America, which has been completely washed out for long sections, saw the International train lying upside-down several hundred feet from where the mountain track had been.

There was no way of telling from the air, of course, but it appeared likely that every person on the train had been killed.

Practically all the agriculture in El Salvador had been wiped out. The government is doing its utmost to relieve its citizens and the army is laboring faithfully to take care of the unfortunate.

**REDUCTION IN GAS PRICES.**  
Ottawa, June 11.—One of the most substantial cuts in gasoline prices for several years went into effect here today with the announcement that medium and low test gasoline would sell for twenty-two cents per gallon. The price, inclusive of the Government tax of six cents per gallon, and applies only to Ottawa, Hull, Eastview and Westboro.

White gasolines, known as low test, have dropped from 25 to 22 cents and medium colored gasolines from 26 to 22 cents per gallon.

## CANNOT EXPLAIN QUEER ACTIONS OF SMALL SHIP

Newfoundland Trading Schooner Sailed on After Being Damaged by Steamer—Five Members of Crew Lost.

St. John's, Nfld., June 11.—Why the Effie Collett sailed on after she was struck by the steamship Silver City remained a mystery of the sea today.

While marine officials sought an explanation of the tragedy, search continued for the bodies of five Newfoundland seamen drowned early yesterday morning when the little trading schooner foundered off Torbay.

After the collision the damaged schooner swerved away before the wind, her full sails carrying her swiftly into the darkness.

Captain Vardy, of the Silver City, shouted for her to heave to, but the Effie Collett's course was not altered. The steamship followed at full speed, attempting to overtake the fleet sailing vessel, when suddenly the schooner disappeared.

Cruising around in the vicinity until after daylight, the Silver City found no trace of survivors. She picked up an empty pork barrel before she returned to St. John's to report the accident.

Identity of the missing craft was unknown until late Sunday afternoon when a police boat found a suitcase containing papers giving the name Effie Collett, out of Hare Bay, on the southern coast of the island.

The police boat also picked up a piece of bulwark, part of a hatch, and bits of wood and later recovered a submerged body.

Captain M. Ford was in command of the Effie Collett when she sailed out of Hare Bay for St. John's several days ago. He had with him John Curtis, Matthew Wells and Walter Collins, all of Hare Bay, and Mike Bridgeman, of St. Brendan's.

Captain Vardy, of the Silver City, said he had turned in about midnight after giving instructions for a careful looking out for numerous schooners along the coast. He was

## CANADIAN TO FRAME FARM PLAN FOR NEWFOUNDLAND

Experimental Farm Official to Make Survey of Agricultural Possibilities of Island Colony at Request of Commission Government.

Amherst, N.S., June 11.—Besides assisting Newfoundland's new Commission Government to establish a force similar to the Royal Canadian Mounted Police, Canada will lend a hand in framing an agricultural policy for the Island Colony.

At the request of the Commission Government the Dominion Department of Agriculture has assigned to W. W. Baird, of the Nappan experimental farm staff, the task of making a preliminary survey, and he will arrive in St. John's this week to begin the work.

He expects to spend about a month and a half on the island, and on his findings will be based a scheme for a "back to the land" movement.

Newfoundland imports nearly all her farm produce and the Commission Government believes a large percentage of it can be grown at home. Farming and gardening will be encouraged and homesteading will be undertaken on a broad scale in areas where soil is suited to cultivation.

Fire Said to Have Destroyed Mighty Airliner and to Have Claimed Lives of Seven Persons Aboard—Crashed Saturday Night.

Newark, N.J., June 11.—The office of the American Airlines here received word at noon today that the missing airliner, lost in the Catskills, had been found twelve miles north of Livingston Manor, N.Y. The report said the ship had been destroyed by fire.

The report also said that the four passengers, pilot, co-pilot and stewardess were inside the plane and had been killed.

Earl F. Ward, general superintendent of the company controlling the liner, announced receipt of the report, saying it had come from a man named Halleck.

Ward placed the spot where the plane was reported found as south of Roscoe at a place called Mongaup Park. It was fifteen miles north of Livingston Manor, he said.

Ground crews were immediately dispatched to the scene.

The plane, which it left Newark on Saturday en route to Buffalo carried:

Clyde Holbrook, thirty-eight, of Chicago, pilot; John Barron, Jr., 33, of Chicago, co-pilot, and Miss Margaret Huckleby, 28, of Chicago, stewardess, comprising the crew and the following passengers:

Harry H. Pinsky, of New York; W. B. Bader, of Buffalo, N.Y.; W. A. Cass, of Buffalo, and H. C. Cowp, also of Buffalo.

At 4:35 p.m. the pilot, a war "ace" radiophoned Newark "everything O.K." He gave his position as twenty miles northwest of Newburgh, N.Y. Syracuse was to be the first stop.

At 5:55 p.m. pilot Holbrook was supposed to make another radio report. None came. The American Airlines operator at Newark, and subsequently other stations, tried in vain to contact the ship.

**ANOTHER BOOM TO NOVA SCOTIA'S LUMBER INDUSTRY.**

New Glasgow, N.S., June 11.—Business men of this town saw an indication of improved conditions in Nova Scotia's lumber industry today in the announcement that five hundred men would go to work soon in the woods at Trafalgar, thirty miles from here.

They will be employed at cutting 30,000 cords of pulpwood for T. C. Bateman and Company. The work of cutting and peeling the timber will keep them employed almost a year.

**DEATHS REPORTED INCLUDE SEVERAL PROMINENT MEN**

**List Contains Names of Noted Musician, Prominent Electrical Engineer, Veteran Soldier and Well-Known Figure of British Navy.**

The following deaths which occurred during the week-end were recorded in today's news despatches:

Greiz Sur Loing, France.—Fredrick Delius, 72, described as one of the greatest musicians England has ever had.

Flushing, N.Y.—Harry Allen Currie, 62, electrical engineer for the New York Central Railroad and consulting engineer for the electrification of the Cleveland Union Terminal.

Edmonton.—John Stuart MacDonald, who served with distinction under General Middleton in the Northwest Rebellion of 1885.

Srinagar, India.—Admiral Sir Victor Stanley of the British navy.

## AROUSED PUBLIC OPINION WOULD SOON PUT AN END TO SWEATSHOPS

Minister of Trade and Commerce Urges Church Workers to Cease Buying Products of Sweatshops—Laws Useless, He Declares, Unless Backed by Public Opinion—Gross Carelessness of Part of Public Largely Responsible for Prevailing Conditions.

Toronto, June 11.—The public, in the opinion of Hon. H. H. Stevens, Minister of Trade and Commerce, can do its bit to prevent business concerns operating for large profits while they cut employees' wages.

In a speech last night before the congregation of Trinity United Church, the Minister of Trade and Commerce, drew applause when he declared:

"If from tomorrow morning the interested, earnest church women in this city would cease buying the products of sweatshops, those who permitted sweatshop conditions would take cover."

He said that "because thousands of good Christian people do thoughtlessly flock to great mercantile stores and buy the products of sweatshops" no failure of Christianity was indicated. He held, however, that such a condition disclosed "gross carelessness."

"What is necessary," he continued, "is the arousal of public consciousness. It is necessary to look these evils in the eye. To the extent that any self-respecting citizen can combat these conditions, he ought to, and there is a very effective way."

Mr. Stevens said when he first became impressed with conditions in Canadian business: "I said they cannot exist in Canada. But I am satisfied they do and I am terrified at the situation as it exists now. I hope this message will percolate, that is one reason why I am here—there is no force equal to an enlightened and intelligent public opinion."

"We have got to get into the minds of people that they have a responsibility. We may pass laws and we must pass laws. But laws cannot do a great deal of good unless backed up by public opinion."

**QUICK PASSAGE OF REMAINING BILLS PLANNED**

With Marketing Measure Disposed of, Early Prorogation of Parliament Is Expected—Provincial Elections Delay Relief Works Proposals.

Ottawa, June 11.—Signs of an appreciable speeding up of operations on Parliament Hill as a prelude to the end of the session are in evidence. With the marketing bill, the major bone of contention in recent months, through the House of Commons, other legislation may be dealt with more quickly.

The farm debts legislation will be discussed this week and the shipping bill, a bulky piece of substantive law, awaits consideration in committee. Prime Minister R. B. Bennett has indicated he will not introduce a bill until after the provincial elections, June 19th, in order to avoid any suggestion of attempting to influence the vote. It will provide for the expenditure of a substantial sum of money on a building programme designed to assist business recovery and provide employment.

The next week or so will see a decision reached as to whether any legislation will be attempted dealing with conditions revealed in the inquiry into price spreads and mass buying.

A considerable demand for action exists and the Government is understood to be eager to find some way of dealing with the matter despite the constitutional and other difficulties involved. The marketing bill is expected to meet the situation to some extent insofar as price spreads on agricultural products are concerned, although it is not based on any finding by the committee.

That group, headed by Hon. H. H. Stevens, Minister of Trade and Commerce, continues its probe today. Further attention will be paid to marketing stores and the auditors who investigated the Robert Simpson Company will again be on the stand.

**ACCIDENTS IN ONTARIO CLAIM SEVEN LIVES.**

Toronto, June 11.—Seven persons died in fire, highway and drowning tragedies in Ontario during the week-end. Four persons were burned to death, two were drowned and the other was victim of a highway accident.

**ITALY'S FAMOUS ELECTRIC WOMAN HAS FLICKERED OUT**

Doctors Disappointed at Failure of Human Firefly to Shine while Under Observation in Rome.

Rome, June 11.—Italy's famous electric woman has flickered out. During two months' steady observation at the Rome Psychiatric Clinic to where Guglielmo Marconi, as head of the National Council of Research, had her brought from Trieste, Anna Monaro failed to produce the rays of light that amazed the world.

The Psychiatric Clinic announced this morning that government agents took the woman back to Trieste yesterday.

The doctors here were disappointed at the failure of the human firefly to shine in Rome, but they said that other doctors in Trieste would continue to look for illuminations.

**POLICE SEARCHING FOR STOLEN CAR**

Municipal and provincial police are today investigating the theft of an automobile belonging to H. Bunting, 141 London street, which was stolen from in front of the Jewish Synagogue on Montreal street last evening.

The car was a Nash sedan, 1931 model, 8-cylinder, of blue color. The license is Quebec 61254, the serial number X-8076 and the engine number X-E-8177.

## FAMOUS QUINTUPLETS ARE DAILY GAINING IN WEIGHT

Now Two Weeks Old, Babies Believed to Have Good Chance to Survive, Something that Was Once Viewed as Highly Unlikely.

Corbeil, Ont., June 11.—The Corbeil quintuplets today reached the age of two weeks in good health and considerably heavier. As they gained weight optimism rose that they would survive, something that was once viewed as highly unlikely.

Momentary anxiety was occasioned yesterday when the plumpest of the five baby girls, Yvonne, appeared weaker. The child rallied during the night, however, and was reported stronger. Yvonne weighed 40½ ounces yesterday.

The other youngsters maintained their strength uninterrupted.

Mr. and Mrs. Olivia Dineen, the parents of the famous children, saw them yesterday. They donned masks such as Dr. A. R. Daise, their physician, and the nurses wear when they enter the room where the babies live in incubators.

They were not permitted to touch them however. That is something only the doctor and the nurses are allowed to do. The parents merely gazed at them through the glass tops of the five incubators in which they spent most of their time sleeping.

## LIBERAL CHIEF ASKS C. C. F. TO ABANDON FIGHT

With Ontario Voting Only Eight Days Away, Mitchell Hepburn Pleads for Straight Fight Between Liberals and Conservatives.

Toronto, June 11.—Eight days from today Ontario citizens will select the government they wish to hold power for the next five years. In the eight days the party stalwarts will pack in all the meetings possible to spread their pleas for election. With Premier George S. Henry and Mitchell F. Hepburn, Ontario Liberal leader, starting on the last lap of a heavy itinerary.

Mr. Hepburn spoke at Port Credit on Saturday night, where he appealed to the Co-Operative Commonwealth Federation to withdraw its candidates and allow a straight fight between Liberals and Conservatives. He said he believed in the sincerity of the C.C.F. candidates, although he differed regarding "many points of political opinion."

Premier Henry made his last appearance in his riding of East York and he outlined his Government's beer and wine policy and declared his administration would consider lowering still further interest rates on loans to farmers. The Government last week lowered the interest rate from 5½ to five per cent, and Premier Henry in his Agincourt address said he hoped it would be possible to reduce the figure to 4½ per cent.

A defence of the Ontario Hydro system was made at Simcoe on Saturday by Hon. Charles McCrea, Minister of Mines, and he charged private utilities interests in the United States were disseminating propaganda with the hope of discrediting Ontario Hydro.

Hon. W. G. Martin, Minister of Public Welfare, had to intervene at Branford in behalf of a man named John Armstrong, who said he had been sent north for ten dollars a month by the Government, and who was shoved to the door by other members of the audience.

Premier George S. Henry last night denied J. C. M. German's charges contributions were made to Conservative campaign funds before typewriter agents could obtain orders from the Government. He said he had never heard of such contributions.

J. J. Seitz, president of one firm, said he had never made contributions, and J. R. L. Starr, K.C., who handled the funds, said he did not know William Lorimer, one firm executive, said to have made a contribution.

**FIVE PERSONS KNIFED TO DEATH**

Susanville, Calif., June 11.—Five persons were knifed to death here today, Sheriff James Leavitt said.

**THE WEATHER**

**SHOWERS OR THUNDERSTORMS**

Pressure is low over the greater part of Canada, with centre of depression over the Mackenzie Valley, to the westward of Lake Superior, over northern Quebec and to the southward of Newfoundland, while the barometer is relatively high on the British Columbia coast and over the northwest states. The weather over the week-end has been unsettled with showers occurring in all provinces from Alberta eastward to the Atlantic, and temperatures have been below normal in nearly all parts of the Dominion.

Forecast: Moderate west and northwest winds; partly cloudy; Tuesday fresh or strong winds; unsettled with occasional showers or thunderstorms.

Temperature yesterday: Maximum, 78; minimum, 56. Same day last year: Maximum, 75; minimum, 65.

## ARGENTINE ACTION MAY RESULT IN SCRAPPING OF WHEAT AGREEMENT

Despite Exhaustion of Export Quota, South American Republic Continues to Charter Space for Wheat Shipments to Europe—Feared that Australia, Showing Little Enthusiasm for Quota System, May View Argentine Move as Repudiation of Whole Agreement.

London, June 11.—A feeling of alarm today ran through wheat circles as news spread that Argentina had topped her export quota of 110,000,000 bushels by 4,000,000 and had booked ocean carriage space to export more.

Some said the Latin-American republic had openly tossed overboard the London wheat agreement she signed last year under which her quota was allotted. Others pointed out that Argentina's wheat crop had turned out considerably bigger than when she signed the agreement and that the country had been placed in an awkward position.

While observers in some circles prophesied the Argentine action would result in a "wheat war" involving Canada, the United States and Australia, others hoped for a solution of the problem by agreement. These persons pointed out Argentina has no facilities for storing large amounts of wheat.

The fact that the republic had reached a difficult situation regarding its crop became known several weeks ago when its representatives sought an enlargement of its quota at the Rome meeting of the International Wheat Advisory Commission.

Subsequently it became increasingly clear that some arrangement would have to be made to save Argentina from over-running her quota, and the remaining three chief exporters offered her a "loan" of 40,000,000 bushels.

Argentina was reported anxious to secure actual repayment of quotas rather than a "loan" which it would have to repay at some time, and was represented as ready to demand a one-third share of the world's total export allowance of 500,000,000 laid down in the London Treaty.

Such a demand was never made and there was no confirmation that the Argentine government actually had contemplated it. Nevertheless, the offer of the 40,000,000 by Canada, Australia and the United States went unaccepted and the three governments concerned have not yet received a reply from the Argentine administration.

Some nervousness was caused by recollection that Australia entered the agreement without enthusiasm, viewing with disapproval any suggestion of crop limitation and fearful that export restriction might amount to the same thing in the end.

Some wondered whether Australia would feel bound to stick to the agreement if Argentina openly laid it aside.

Any suggestion that Canada, Australia and the United States could grant Argentina a quota equal to one-third of the total export allowance was dismissed as fantastic owing to the hardship such a move would impose on them.

Hon. G. Howard Ferguson, Canadian High Commissioner to the United Kingdom, told the Canadian Press last night the situation had been communicated to Ottawa. He said the question of what Canada would do regarding the Argentine quota was one that could be settled only at Ottawa, as far as the Canadian Government is concerned.

**SASKATCHEWAN FIGHT ENTERS FINAL STAGE**

One Hundred and Fifty Candidates to Be Nominated for Fifty-Four Seats in Saskatchewan Legislature Tomorrow.

Regina, June 11.—With election day only a week away, party forces swung into full stride on all fronts in the Saskatchewan general election campaign today.

Increased activity in the bid for votes on June 19 was reported from all constituencies. Premier J. T. M. Anderson, Conservative head of the province's Co-Operative Government, was directing his forces in all constituencies. Hon. J. G. Gardiner, Liberal leader, was at Estevan and M. J. Coldwell, leader of the Farmer-Labor C.C.F. party was in Yorkton.

Speaking at Estevan on Saturday night, Mr. Gardiner charged Conservative campaigners had informed electors no aid from Ottawa would be forthcoming for Saskatchewan if a Liberal Government were elected. This was not true, he declared, and he cited the \$10,000,000 loan given by Ottawa to British Columbia, where the Liberal government of Premier T. D. Pattullo is in power.

Mr. Gardiner attacked relief administration of the Co-Operative Government and promised that if elected to power he would do all in his power to further development of the coal fields. "Saskatchewan today," he said, "must more than ever build up the industrial side of her life in order that we may find employment for our young people."

Nominations will take place tomorrow and more than 150 candidates will be formally named. The fifty-four seats at stake in the voting on June 19. Voting in Athabasca constituency, which covers practically the whole of the province north of Prince Albert, has been deferred until July 24.

the upken of the roads of the Province of Quebec, it was announced Saturday by Lt.-Col. J. B. Boulanger, Deputy Minister of Roads and Mines.

**POND AND SABELLI TODAY MAKING WAY TOWARD ROME**

Trans-Atlantic Fliers Who Were Forced Down at Moy, Ireland, After Flight from New York, Hope to Reach Italian Capital Before Dusk.

Lympe, England, June 11.—Capt. George Pond and Lieut. Ceasar Sabelli hopped off from here today for Rome, their destination when they were forced down at Moy, Ireland, on May 15 after a trans-ocean flight from New York.

The fliers left Heston airfield, near London, early this morning. Their plane, the Leonardo da Vinci, has been overhauled completely in England. Pond and Sabelli charged it had been tampered with before the take-off in New York.

The airmen expected to reach their goal before dusk. Their plane was loaded with 840 gallons of gas in addition to the 250 gallons taken on at Heston aerodrome.

Weather reports said they could expect good flying conditions on the entire route, with visibility over the Alps at forty-five miles.

**SEVEN THOUSAND AT WORK ON QUEBEC ROADS.**

### FOR THE SAKE OF THE BURDENED, DO SOMETHING.

The people are peevish over excessive taxation and niggling new impositions. Partyism can go by the boards. Most of the electors have a dormant feeling of being "agin the government," no matter what the party.

The Federal administration at Ottawa seems to be riding for a fall. They are estranging bankers, business men and farmers by meddlesome legislation. These are men who pretty well represent the voice of the people.

Criticism of government measures would seem to make the members rebellious and vindictive, and thus indulge in scorpion-like whips shaken in the face of their masters.

Many weak men are inclined to try and propitiate their enemies rather than please their friends. This is rank ingratitude in the first place, and a silly practice in the end. It is reprehensible. A former Premier of Ontario was the first man to follow this practice, test his enemies think he was "liberal as he had pretended to be."

With the Canadian Manufacturers cuddling in the corridors of Parliament, does any government think to overcome the opposition of outspoken friends by toadying to those who never supported them.

It is true that the members of the Conservative party got together in caucus and read the riot act to their Executive Cabinet for their many misdemeanors, most of which are rank stupidity and quite at variance with the majority of the people.

Doing what they should not do and leaving undone that which they should do has been a characteristic of the present administration.

The Marketing Bill is an act which will be as effective as man-made control of the weather.

The revised Banking Act is a disturber of confidence and recovery.

The Central Bank Act is a collection of foolish fiscal notions by men who would not know the difference between a cashier and an exchange clerk.

The Railway muddle is still muddled, with no relief in sight for those who shoulder the deficits.

We may have a few things to be thankful for, but much to reprobate.

The assertion of an ex-Postmaster-General that if the Liberals were returned to power he would glory in the spoils system did not meet with the castigation it deserved. Such threats of reprisal should forever close the door of any Cabinet to he who made them. We do not want the vindictive man in Parliament.

The curse of a Third party always has a reason, and the inertia of one party and the lack of a constructive policy in another always gives an opening to the men with "fancies" who stand in the rear.

### PLAY THE GAME.

A subscriber asks how the plain printed tariff can be eluded and a higher rate imposed. Suppose the published tariff on a yard of woollens from England be thirty per cent., a fairly sweet protection, then you are likely to receive a bill for the weight, another bill for three per cent. excise tax, and still another for the six per cent. sales tax. The Britisher conceives this to be an elusive effort to scout the Imperial Conference agreement. Or, as the Yorkshire woollen man writes us, "It's a Yankee lick." I have always believed in a strong protective tariff, but never in a prohibitive one. That is all the legitimate manufacturer wants when he asks us to join with him in a call for a made-in-Canada choice. It was the true Canada First policy in 1878.

### OF THE MEN WHO KNOW NOT BUT THINK THEY DO.

The United States has called out a few million bigmies to relieve that country of its drought and grasshoppers. The same officers a few months ago were calling upon the farmers to reduce their efforts to produce, and to keep under the quotas which

again demonstrates to these Lilliputians that they had better leave the Creator of the Universe alone as far as futures are concerned. Our little chaps at Ottawa, knowing even less about crops, were stamped into following some of the plans of Roosevelt, whose halo is proving a brittle one. Who among us can foretell the weather or the crops for years ahead? They pretend to that skill at our capitals, where they glibly talk of quotas, of marketing bills, and of other government restrictions and meddling in honest business.

When men grow too all-wise and portentous, and would ride around the streets in a Rolls-Royce at the expense of those who dig and delve, then will we have one of those old-time floods or famines which lurk always in the possibilities of our deserving.

Most of the social and paternal theories which the half-educated would thrust in a country's statutes are conceived by men who are obsessed by a single idea to the point of fanaticism, and who should be content to write a book about it, and address a review copy to themselves.

Yet it is pitiable that the cost of these experiments should be added to the load of a patient people.

For ourselves we must not be as another nation who so worshipped Kultur that they thought it was the be-all and end-all, and ceased to learn. For he who knows it all knows naught.

### EDITOR'S NOTE BOOK.

"My people regard me as a god," concluded the late Kaiser of Germany, in a soliloquy on his own greatness as addressed to the late King Edward. "Not in tweeds, Wilhelm," remarked Edward VII, glancing down at the Kaiser's garments of indifferent cut.

Rowland Grey says

"Two pictures of the Kaiser stand out to me with photographic clearness. Cologne station, packed with hot patriots, amongst whom we were unwillingly jammed. The imperial train was to pass, and came presently at snail's pace, all flags and laurels. Two doors drew slowly back to reveal the Kaiser in white uniform and silver helmet, standing motionless as a statue. A moment of deafening cheering, the train quickened and the vision vanished.

"The other was in Holland on an autumn afternoon. Doorn, in the land of Cuypp's beloved two-steeped churches, we stopped our car at respectful distance from the elegant grey Kasteel, now disfigured by a hideous archway of red brick, and a red church sadly unlike Cuypp's. With our glasses we could see in the distance a grey-bearded man cutting wood—the ex-Kaiser."

That many Customs Collectors are "up in the air" and scared to death by changing rulings was proven the other day in Ontario. A collector charged a publisher duty on a basis of \$10 for a knife for a newspaper mailer on a re-entry after sharpening. The original cost when new was \$2. The collector was arbitrary and uncompromising, the sure sign of an approach to the age of superannuation.

### YOUR MENTAL STANDARD.

Assume a success-attitude of mind. Constantly carry with you an inward assurance of success and the belief that it will attend your daily efforts. This will serve as an attractive force. Profound belief in your own resourcefulness will tend to produce the desired results. Show by your speech and manner that you classify yourself with successful men. Maintain at all times a strong, dignified, self-confident mental attitude.

You are constantly expressing yourself to the people about you and making upon them an unmistakable impression of your power or lack of it. When you definitely assume a mental attitude which you know will be for your best interests, and maintain that attitude under all circumstances, you will advance steadily and surely towards large achievement.

If you habitually keep on a low level of thought, you cannot reach the summit of attainment. Make it a rule of daily conduct not to descend either in thought or in speech. The realization that you are conducting your mind upon a uniformly high plane will in itself give you a sense of increased personal power.

The stronger and better your thought, the stronger and better will be the results of your daily efforts. Keep your mind ever alert and aspiring. Be as fastidious in your private thought as you are in your daily speech. Do not change your manner as you would a garment, but always conform to a high mental standard.

## What Editors Say

### AT LEAST ONE MAN.

It is well to know that there is at least one man in public affairs who has an appreciation of the press. This is Lord Londonderry, Secretary for Air in the British Government. Speaking of the British press he said: "We find the press men fair and helpful, sparing in their criticism and generous in their praise." This is regarding the press in the light it deserves to be regarded.

### THE RIGHT TO BE RIDICULOUS

Last week the House of Commons in England laughed out of consideration a bill designed to keep Fascists and Communists from wearing political uniforms "for political purposes." The Commons took the position that if an Englishman chose to rig himself out in a military costume, to give expression to his support for Sir Oswald Mosley or Comrade Stalin, there is not much sense in trying to stop him. The opinion prevailed that it is the inalienable right of every man to make an ass of himself according to the dictates of his own folly.

### A LESSON IN CRIME.

A burglar in England killed himself rather than face an English court. He committed the crime, almost unprecedented there, of shooting a bobby.

He knew what was in store for him—a long prison term with no likelihood of evading it.

Who ever heard of an American burglar committing suicide because he happened to wound a cop?

Instead he would phone for a slick lawyer, as much at home in the underworld as the burglar himself.

Appeals and writs by the score would be used to delay trial.

And parole laws and numerous legal instruments of evasion would be worked to the limit—IF the burglar did go to prison.

Crooks know there is no IF in British criminal jurisprudence.

That's the killing of a cop is rare in England—and commonplace in United States.

### ON THE HIGHWAYS.

There are just as many discourteous drivers in Canada as anywhere else. We have the road hogs. We have the reckless drivers. We have the people who never stop at a red light, but expect everyone else to. We have the "fender-scrapers" and the obnoxious horn-blowers and the unreasonable cutters-in and all the rest who make driving more or less of a nightmare for decent citizens with some of the obligations to society.

## CANADIAN CROP OUTLOOK POOREST IN MANY YEARS

Drought and Cold Weather Retard Quebec Crop Growth—British Columbia and Maritimes in Best Condition.

Ottawa, June 11.—The figures representing the condition of field crops in Canada as of May 31st, were the lowest during the twenty-six years records have been kept, according to a crop report issued by the Dominion Bureau of Statistics.

The report took into consideration spring grains, fall wheat, fall rye, alfalfa, and pastures. The report explained:

"The poor crop prospects are largely the result of severe drought in Ontario, Manitoba and Saskatchewan and parts of Quebec and Alberta. Winter injury was also a principal factor in lowering the condition of hay and pasture fields in Eastern Canada, where these crops are such an important part of the farming system."

"In Quebec, the season is also late and growth has been very slow on account of the cold weather and lack of soil moisture. Generally, crop prospects are better than at this date last year, but condition figures are all below average. Higher temperatures and more rain are needed to promote growth."

## COMMISSION POLICE TO PASS OUT OF PICTURE ON JULY 2

Complete Charge of Discovery and Prosecution of Smugglers and Illegal Liquor Vendors to Be Assumed by Provincial Force.

Montreal, June 11.—Complete charge of discovery and prosecution of smugglers and illegal liquor vendors in the Province of Quebec will be assumed by the Provincial Police on Monday, July 2nd, when the Liquor Commission Police will definitely pass out of existence.

This re-organization is being accomplished as a result of legislation brought down during the last session of the Provincial Parliament by the Attorney-General, the Hon. L. A. Taschereau, K.C., and aims at greater efficiency and economy in the surveillance of the handling of alcoholic liquors in the province, and the unification of control over police activities.

In future, the Provincial Police will enforce the Quebec Liquor Commission Act, and will seek to eradicate blind-pigs and bootlegging activities in Quebec. Maurice Lalonde, chief of the Provincial Police, will be in complete charge of the new department, and in preparation for this he is mapping out plans for sweeping reorganization of the department itself.

## IMPROVEMENT INDICATED IN TRADE REPORT

Railroad Traffic Figures, Earnings of Railways, Bank Clearings and Debits Continue to Show Upward Trend.

Montreal, June 11.—A review of general conditions throughout Canada show a continued improvement in railroad traffic figures, in the earnings report of the Canadian Pacific and Canadian National railroads, in bank clearings and debits, according to Dun's weekly report.

The combined gross revenue of the C.P.R. and C.N.R. for the ten-day period ending May 31st, was \$7,974,338 compared with \$6,903,793 in the corresponding period of 1933, an increase of \$1,070,545 or 15.5 per cent.

The combined net for the month of April totalled \$2,774,676 against \$403,626 in April, 1933, a gain of \$2,371,050 or 587.9 per cent.

Bank clearings in thirty-two cities for the week ended May 31st totalled \$352,215,372, against \$308,964,672 in the corresponding week of 1933, a gain of \$43,250,700 or 13.9 per cent. Montreal's clearings were up \$5,427,330 or six per cent. Thirty-two cities for the month of May showed a gain of \$242,637,453 or 18.7 per cent, while Montreal gained \$50,563,247 or 14.2 per cent.

Debits to individual accounts as reported by banks in the thirty-two clearing house centres aggregated \$2,536,000,000 in April, as compared with \$1,877,000,000 in the corresponding month last year, a gain of \$659,000,000 or 35.1 per cent. Debits in Quebec gained \$304,932,585 or 55.5 per cent. Montreal showed a gain of 61.2 per cent. from \$480,318,009 in April, 1933, to \$774,300,550 in April of this year.

Reports from 8,591 firms showed \$56,316 persons on their pay-rolls on May 1, 1934, compared with 7,995 reporting 714,891 persons working on May 1, 1933. Manufacturing, transportation, mining, building and railway construction and wholesale trade showed improvement, while retail trade, highway construction, coal mining and logging released employees.

In Quebec conditions improved according to 2,046 employers with 232,935 persons against 231,303 in the preceding month. Due to the continued rise in the price of wheat, a further advance in the price of wheat flour has been announced first patents are now quoted at \$5.90 per barrel.

Lighter runs in live stock with generally higher prices prevailed during the past week. Cattle sold

## ANGEL OF MERCY TO SCHOOLCHILDREN

Aurora, Colo., June 11.—Pretty Patsy Hall, who thinks school children should eat, regardless of their parents' circumstances, is the "coaster wagon angel" of Aurora grade school.

For months the comely graduate of Aurora High School has trudged daily to the little red schoolhouse with fifty hot lunches for children and has conducted two "benefits" to supply the funds after her own ran out.

## COUPLE FOUND SLAIN AT THEIR HOMES NEAR LOWELL

Husband Shot Through Head and Wife Apparently Killed by Blow on Head from Some Blunt Instrument.

Lowell, Mass., June 11.—Paul Caouette, twenty-eight, and his wife, Alice, thirty, were found slain at their home near the Tyngsboro line. Caouette had been shot through head and his wife apparently had been killed by a blow on the head from some blunt instrument.

The couple operated a chicken farm and the man's body was found in a hen house to which, police said, it apparently had been dragged from his automobile in which they believe he was shot. There were blood marks in the car.

The wife's body was found near the car with a towel wrapped about the head.

Medical Examiner Marshal L. Ailing, in a statement last night, said "It looks like a double murder which occurred some time before noon."

## BISHOP OF ALASKA PLANS A VISIT TO ARCTIC COAST

Seattle, June 11.—At the age of seventy-seven, the Rt. Rev. Peter Trumble Tow, Episcopal Bishop of Alaska, plans again to try to accomplish what he failed to do on two previous attempts, a visit to the Arctic coast between Aklavik, N.W.T. and Point Barrow, Alaska.

Baffled by the Arctic ice pack twice on attempts to proceed east by boat from Point Barrow, this

## ARRANGE A SPEEDIER FISH SERVICE ON NORTH SHORE

Provincial Government and Steamship Company to Operate in Bringing Fresh Fish to Inland Markets.

Quebec, June 11.—Another move has been made by the Hon. Hector Laferte, Minister of Colonization, Game and Fisheries, with the co-operation of the Labrador Fisheries, Limited, which with the Clarke Steamship Company has done so much for the development of fisheries in the Gulf, by which it is expected a new and handier market will be offered to the inhabitants of the North Shore. Some time ago Hon. Mr. Laferte and representatives of the Labrador Fisheries conferred regarding the advisability of providing a special refrigeration ship in the Lower St. Lawrence, a unique experiment. The project was supported by the minister and a subsidy was assured to start the immediate operation of such a new mode of assuring fishermen refrigeration for their catches and a direct contact with ships thus allowing saving of eight or ten days for shipments abroad and guarantee of conservation for their merchandise.

Incidentally, the subsidy granted by Hon. Mr. Laferte provided also that goods given in exchange for fish or the supply of merchandise made available to the fishermen on the shore, be when possible, products from this province.

time he will resort to a plane, he said today.

Fifteen thousand or more people up there need my visit," he said. He will leave here by train about June 29th.

## Your Full Salary Continued for a Year

Such is the comforting message of this new policy, the Imperial Salary Continuation Plan. What a help it would be should you die unexpectedly!

Wouldn't you like to be certain that your full salary will be paid regularly for a year to your dependents in case of your death? For about 10c a day—for each \$100 of monthly salary—you can be assured that it will.

An Imperial Salary Continuation policy helps to effect one of life's most difficult readjustments. The continuing of your full salary for a year will enable your dependents to handle the year's obligations already incurred, and at the same time, to make plans for a more economical way of living.

By permitting a gradual instead of a sudden scaling down of expenses this policy helps to avoid the financial worries which the first crucial year after the death of the breadwinner always imposes.

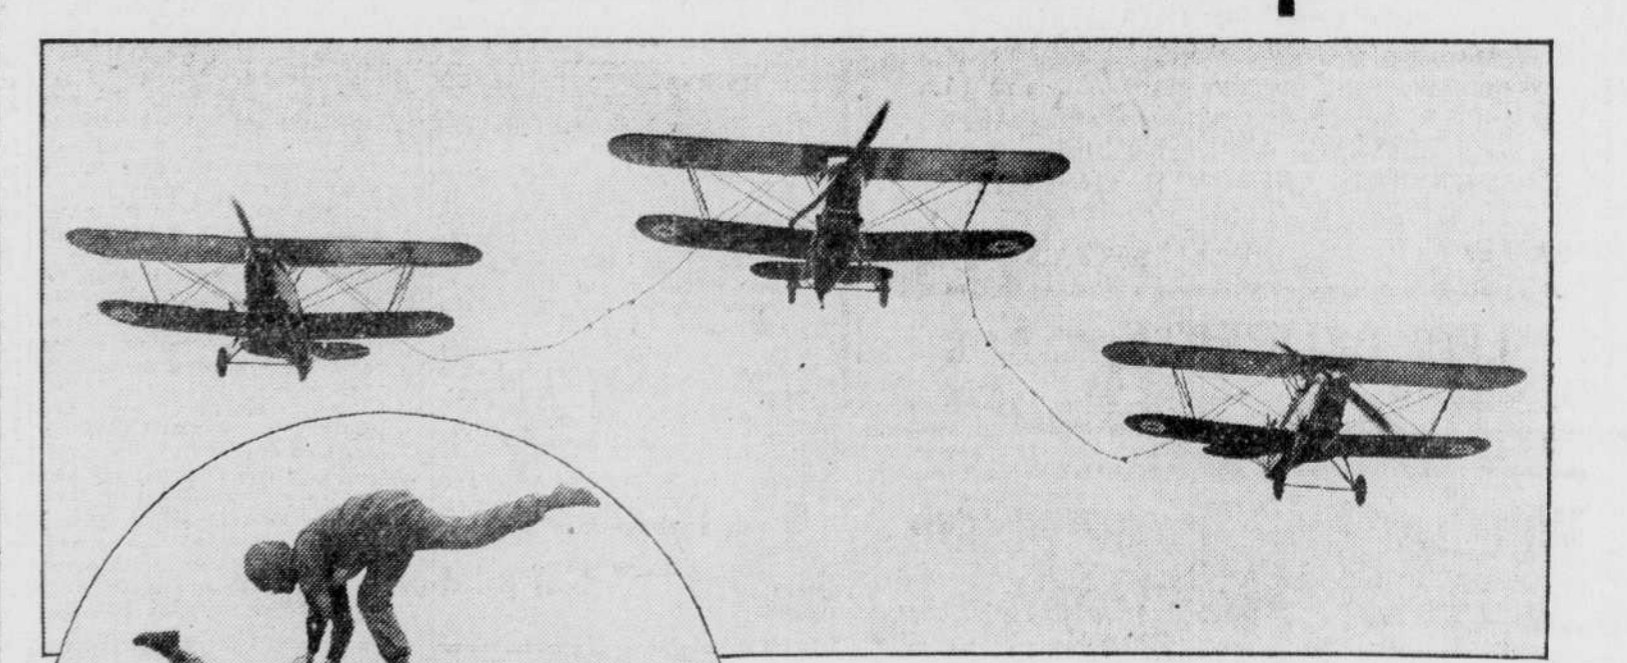

You doubtless have other insurance policies designed to provide for your family after you are gone. An Imperial Salary Continuation policy provides, at a low premium, an ideal supplement to such other insurance.

STUDENTS BUSY WRITING THEIR CLOSING EXAMS

Convocation Will Take Place at the University of Bishop's College on June 21, with Other Educational Institutions Ending Scholastic Year Prior to That Date.

"No more reading, no more French, no more sitting on the hard wood bench..."

It is a ditty which every scholar knows, and which is brought back to mind with the approaching summer holidays with all their promises of carefree happiness and pleasure.

Several hundred school boys and girls in this city will be singing or humming it this week—boys and girls who are entering upon their final week of school work prior to the summer holidays.

At present, however, a great many scholars are writing their examinations, and, as a consequence, are in no mood for singing or humming. June examinations have a significance of their own.

They are not at all like the Christmas exams, or the Easter exams—for they signify the end of a school year. It is in June that the success or the failure of the school year's work is adjudged.

It is then that boys and girls learn whether or not they have earned promotion to a higher grade, or if they have "failed" and are destined to spend the next year in the same class, with the same studies.

And, also, June has an important significance for those boys and girls who have reached graduation; who are leaving school to go to work, or who are about to enter college to pursue studies along the lines to which they appear inclined.

Students at the University of Bishop's College are now busy writing their final examinations, with Convocation set for June 21st. Bishop's College School will close on June 14th and June 15th, when the annual sports' day and the closing will take place.

The Sherbrooke High School will close officially on June 27, Principal Wright Gibson announced today. Matriculation and school leaving examinations will be started on Thursday of this week, and will last until the closing day.

The elementary Protestant schools in the city will begin the holiday period a little earlier. At present, Grades one, two and three are busy writing their examinations, with the school closing fixed for June 15.

The other grades will start their tests on Monday next and end their scholastic year on June 22. Distribution of prizes will be held in these elementary schools on June 26.

At the Mont Notre Dame convent, the boarders will finish their school work on June 20th, while the day pupils will conclude the present term two days earlier, on June 18th. Examinations have already been written at this institution.

The distribution of prizes at St. Patrick's Academy will take place on June 19th. Students are at present writing their exams, with eight pupils taking matriculation at the University of Bishop's College.

The baccalaureate examinations at St. Charles Seminary will be written on June 18th and 19th, and the college will close for boarders and day pupils on June 20th, with the distribution of prizes on the 19th.

RECEIVED M. D. DEGREES AT MONTREAL UNIVERSITY Congratulations are being extended today to Guy Bertrand, son of Dr. and Mrs. Fred Bertrand, Brooks street, and Alain Desève, son of Mr. and Mrs. E. W. Desève, Quebec street, who were among the fifty-one students in medicine to obtain their degrees at the University of Montreal.

Guy Bertrand had the honor of being one of two students to obtain his M.D. degree with great distinction, and was also awarded the first of two prizes offered by the Nadeau Laboratories. Alain Desève was awarded the Lachapelle prize.

In the fall Dr. Bertrand will pursue advanced medical studies in New York and later abroad.

STRESSED NEED OF CHRISTIAN GUIDANCE

Continuing the series of sermons based on "The Sermon on the Mount," Dr. Ellery Read took as the subject for his morning text yesterday in Plymouth United Church, "The Light of the World," St. Matthew, 5:14, in the course of which he stressed the fact that the world's greatest need today is for Christian men and women who shall illuminate and guide their fellowmen through Christly living.

No exposition of doctrine or apologetics can take the place of this, he said. During the service Mrs. J. K. Edwards rendered the solo, "O Lord Most Holy," by Franz Abt.

The service concluded with the baptism of the infant sons of Mr. and Mrs. J. E. Bennett and Mr. and Mrs. George M. Sutherland, who received the names of Maurice and James Theodore.

The flowers on the Communion table were from Mrs. Eva Maud Watts in commemoration of her daughter, Kathleen Amy Maud, wife of Frank Leonard Coombs, who departed this life on June 3rd, 1931.

SACRAMENT OF THE LORD'S SUPPER AT TRINITY UNITED CHURCH

Yesterday morning's service in Trinity Church was marked by the quarterly administration of the Sacrament of the Lord's Supper. The pastor, Rev. Dr. W. S. Lennon, was in charge of the service and gave a brief Communion address before the Sacrament.

The special music consisted of a solo by Miss Ruby Mersereau entitled, "Shall I Empty-Handed Go," by Hillis.

Rev. Dr. Ellery Read had charge of the Union evening service for Plymouth and Trinity churches, and preached on the topic, "Broken Chains," basing his remarks upon Jeremiah 2, verse 13. The choir sang the anthem, "The Day Is Past And Over," by Marks, and the trio composed of Miss Eleanor Wheeler, Betty and Molly Havard rendered Hamblen's "A Benediction."

MRS. McDONALD ENTERTAINED W. M. S. EXECUTIVE Mrs. Andrew McDonald entertained the executive of the Quebec Presbyterial, of the Women's Missionary Society of the Presbyterian Church in Canada at her home on Prospect street. The meeting, over which Mrs. W. R. Price, the president, presided, was largely attended, and several matters of importance were discussed.

Final arrangements were made for the annual meeting of the Presbyterial to be held in Melbourne, when Miss Jean MacLean, of Almonte, Ont., missionary to the Koreans in Japan, will be the guest speaker at the afternoon session, and Rev. George Murray, moderator, will bring greetings from the Presbyterial.

At the conclusion of the meeting afternoon tea was served by the hostess.

RAIN WELCOMED BY FARMERS OF THIS DISTRICT

Sun-Parched Lands of Eastern Townships Revived by Down-pour which Came as a Gift from Heaven and Was Worth Its Weight in Gold.

The farmers of the Eastern Townships are a happy lot today. They are thankful. Their fears and worries of the past weeks are over. And it is all because of the rainfall during the week-end, which was really a gift from heaven and worth its weight in gold.

The Lennoxville Experimental Farm reported this morning that 1.19 inches of rain fell on Saturday and during the early hours of Sunday.

Today the farmers can visualize an altogether different picture when they look out over their land. The sun-parched land of the past week has assumed a new lease of life.

Had the drought continued the farm land would have contained only stunted crops and poor vegetables. To the man on the street this would have meant higher prices for farm products later in the season.

The rain came as a blessing throughout the whole province. All the district around Quebec was drenched on Saturday, while the Laurentian Mountain district also shared equally in the heavy fall.

In its second crop report of the season, issued just before the rain started, the Quebec Department of Agriculture stated growth had been rather slow throughout the Province owing to cold weather and lack of humidity. The crop situation, while a little better than last year, was still below normal, it was stated.

Many farmers predict that the hay crop will be retarded, this season owing to the drought, and some of them say they have never seen grass so short and stunted. The week-end rain, however, has prevented complete ruination. Sandy soil, it is said, will benefit most by the downfall, as it requires the most rain.

The farmer is not the only one who will benefit from the rain. The unemployed with a large family will also be the better. During the summer those out of work depend largely upon fruit and vegetables for their subsistence, and the price is high these people find the going more difficult.

The amateur gardener, while not so important as the farmer, is also smiling today. His little plot of land presents a more hopeful picture. This type of gardener does not contribute largely to the general welfare of the district, but his contribution is of value. And then it is discouraging to spend long hours after office tasks are over getting the family garden into shape and then have it all peter out because of lack of rain.

It is a strange fact, but nevertheless true, in this old world that one man's good fortune is somebody else's hard luck. And so it was with the rain of the past week-end.

The farmers, the unemployed and the amateur gardeners were happy, but the golfers and motorists were disappointed. The rain put an end to all out-of-door excursions.

People who did venture to the lake shores had to stay pretty close to their cottages, while many who had planned picnic lunches in the woods had to postpone their outing until a more favorable week-end.

But these are really minor inconveniences. The good caused by the rain greatly offsets the other side of the picture. Everyone is thankful for the drenching and now farmers are looking forward with revived hope. After all, the welfare of the farmer is the welfare of the country at large.

LOCAL WOMAN MET DEATH IN AUTO SMASH-UP

Mrs. Leopold Theriault, 10 Craig Street, Lost Life in Motor Car Collision Near Coaticook Yesterday Afternoon.

One woman, a resident of Sherbrooke, was killed and another seriously injured in an automobile smash-up on the Coaticook-Norton Mills highway yesterday afternoon.

The dead woman is Mrs. Leopold Theriault, 10 Craig street, south, Sherbrooke, who died a few minutes after being admitted to the St. Vincent de Paul Hospital.

The other victim, who sustained a broken jaw, a fractured shoulder and injuries to the face, and whose name has not been divulged, was removed to the West Stewartstown, N.H., Hospital immediately after the accident.

The smash-up occurred near the Crooker Cemetery, two miles on the other side of Coaticook in the direction of Norton Mills, at about four o'clock, yesterday afternoon. Mr. and Mrs. Theriault were going to St. Hermenegilde when the car in which they were riding collided with a vehicle driven by Elmer Gould, of Colebrook, N.H.

According to information obtained by the coroner Leonidas Bachand prior to the inquest, which will be held in Sherbrooke, Theriault was driving up one side of a peak-shaped hill when he suddenly turned onto the St. Hermenegilde road to his left and was struck broad-side by the Gould car.

Theriault's automobile overturned three times and Mrs. Theriault was pinned underneath. She suffered several fractured ribs and her death was attributed to an internal hemorrhage. Mr. Theriault was fortunate in escaping with a severe shaking up and minor cuts and bruises.

There were two occupants in Elmer Gould's car—Gould himself, who was driving, and the woman who was later removed to the West Stewartstown Hospital. Gould's car overturned once. The woman was ejected and precipitated from the vehicle, but Gould escaped unscathed.

Brien's ambulance removed Mrs. Theriault to the St. Vincent de Paul Hospital, where she died a few minutes after being admitted.

Charles E. Akhurst and Edney E. Chesley, both of Coaticook, conveyed the other victim to the West Stewartstown Hospital.

Mr. Robert Jarvis, of the Beebe branch of the Canadian Bank of Commerce, was in town for the week-end.

Mr. E. S. Browne, Provincial President of the Quebec Women's Institutes; Mrs. R. S. Lipsey, Provincial Secretary, and Mrs. M. E. McCurdy, Provincial Convener of the Publicity Committee, left today for Macdonald College to attend the meetings of the Board of Directors which precedes the annual convention.

Rev. F. R. Matthews was in Bury for the Sunday, exchanging pulpits with Rev. R. D. Smith, of the United Church, Bury.

STOCK TURNED INTO HAY FIELDS AT BRANTFORD Toronto, June 11.—Parched pasture lands and crops soaked up moisture that appeared in various parts of Ontario during the week-end, removing some of the anxiety that has gripped the farming communities for several weeks. In some cases the rains were heavy, but in others they proved of little benefit.

Drought-stricken for more than a month, western Ontario welcomed the moisture which appeared in the form of thunderstorms.

In the Brantford area farmers were disappointed as the rain did not extend to the farming districts. Young trees, victims of a hard winter, are dying from lack of moisture. Unless rain appears within a week the strawberry crop in the Brantford district will be doomed and the hay crop the smallest in years.

Stock already have been turned into hay fields because there is no pasturage.

Mr. William Jackson, of Toronto, was a week-end visitor in Sherbrooke.

Mrs. J. E. Smith, of Westmount, who has been visiting her brother, Mr. Arthur Edwards, and Mrs. Edwards, Dufferin avenue, for two weeks, left last night for the metropolis, accompanied by Mr. Smith, who was a week-end guest at the same home.

Miss Marjorie Smith and Miss July Moore, who have been guests of Mr. and Mrs. J. Keith Edwards, Dominion avenue, for the past two weeks, have returned to their homes in Westmount.

Mr. and Mrs. J. F. S. McCaw, Mrs. W. R. Price and Mr. and Mrs. H. G. Barclay returned last night by motor from Montreal, where they attended the McCaw-Howard wedding, which took place on Saturday afternoon at Trinity Memorial Church.

Mr. and Mrs. Karl Morris, Mrs. Howe and Mr. Louis Morris, of St. Johnsbury, Vt., were visitors in Sherbrooke yesterday, guests at Mrs. C. Moffatt's, Wolfe street. Upon the return trip they were accompanied by Mrs. M. S. Morris, who has been a guest at Mrs. Moffatt's home for the past two weeks.

A very delightful afternoon was spent on Saturday by a large party of Sherbrooke ladies who motored to Compton, where they were charmingly entertained by Miss St. Laurent, at bridge and tea. After an enjoyable drive to their destination, the guests were warmly welcomed by their hostess, who had arranged the pleasant gathering for the benefit of the Catholic Women's League.

Contract bridge was played at nine tables, which were arranged about the spacious rooms in Miss St. Laurent's attractive residence. The prizes were won by Mrs. J. S. Mooney, Mrs. S. Darbe and Mrs. Lacroix.

At the conclusion of the game, afternoon tea was served on the lawn, where all arrangements for the comfort and convenience of the guests were excellently carried out. Tea and coffee were poured by Mrs. Guy Carr and Mrs. A. L. Pomeroy, the tea table being artistically arranged with a profusion of nasturtiums and mauve iris, intermingled with ferns, in the form of a window box. Assistants who had helped were Mrs. R. Findlay, the Misses Gladys Mullins, M. Mooney, Florence Mullins, Louise Broderick and Therese St. Laurent.

Before leaving the Sherbrooke ladies expressed on behalf of the Catholic Women's League their warmest thanks and appreciation to Miss St. Laurent for her lavish hospitality which they had all so much enjoyed.

MARRIAGES

McLACHLAN-PRESCOTT A quiet but very pretty wedding was solemnized in Plymouth United Church on Saturday afternoon, June 9th, when Mrs. Alice Pearl Prescott, daughter of Mrs. W. H. Smerdon, and the late Mr. Smerdon, of Sherbrooke, was united in marriage to Mr. Charles C. McLachlan, son of Mr. A. E. McLachlan and the late Mrs. McLachlan, of Parkhill, Ont., the Rev. Dr. G. E. Read officiating.

The bride, given in marriage by her mother, wore a lovely gown of pink silk crepe, with matching hat and shoes. She carried an arm bouquet of Johanna Hill roses and lily-of-the-valley.

Mrs. Frank Caunter, the matron of honor and the bride's only attendant, was gowned in powder blue georgette, her hat, shoes and gloves were of the same shade, and her bouquet was of sweet peas in pastel shades and lily-of-the-valley.

The groom was supported by Mr. Frank Caunter as best man.

Mrs. Smerdon, the bride's mother, was becomingly gowned in navy blue and white printed crepe, with hat to match, and corsage of Talisman roses.

Following the marriage ceremony a buffet luncheon was served at the

bride's home on King street, where the three tiered wedding cake centered the bride's table, which was attractively arranged with pink and white spring flowers and pink tapers in silver candlesticks. Later the bride and groom left by motor for a wedding trip to Western Ontario. For travelling the bride wore a beige swaggar suit with brown hat and accessories. Upon their return from their honeymoon Mr. and Mrs. C. C. McLachlan will take up residence on King street.

GIANTS REMAIN ATOP NATIONAL LEAGUE FIELD

World Champions Continued Heavy Clouting Yesterday with Twenty-Hit Assault on Phillies

In their latest spurt to the head of the National League standing, the New York Giants, the "hitless" wonders of 1933, appear to have turned into a bunch of high-powered sluggers.

The victory didn't increase the Giants' lead as the second-place Cardinals came through with a three to two triumph over Pittsburgh with the aid of Jim Collins' thirteenth homer and Dizzy Dean's steady pitching.

Brooklyn's "daffiness boys" lived up to their reputation in the fourth National League game by dropping a ten to eight decision to the Braves with two errors in the seventh inning after they had overcome a five-run deficit to tie the score.

The American League leaders tightened their grip again when Detroit's pace-setting Tigers ran into a three to one setback at Chicago's hands despite Schoolboy Rowe's six-hit pitching, and the second-place Yankees smashed out a seven to three decision over the Athletics.

Boston's new brother battery of Wes and Rick Ferrell turned in its first full game with Wesley doing most of the work in a four to three triumph over Washington.

Cleveland broke a virtual tie for third place with St. Louis by slaming out fifteen hits and a six to one decision over the Browns behind the seven-hit hurling of Bob Weiland, the southpaw who came from Boston in exchange for Ferrell.

DRUMMONDVILLE SCORED FOURTH STRAIGHT WIN

Eighth-Inning Rally by Notre Dame Failed by One Run to Deadlock Lead Celanese Nine Had Established in First Five Innings—Final Score Was Seven to Six.

Drummondville today occupies the driver's seat in the Eastern Townships Senior Baseball League with little to worry about after registering its fourth straight victory of the pennant campaign. Before a crowd of four thousand people at Dufresne Park yesterday afternoon the Celanese nine shook out the Sherbrooke Notre Dame challenge for the present time, at least by taking a one-sided victory from the local aggregation. Although the final count was only seven to six in favor of the visitors, eight of the nine innings belonged to Pete Landry's team mates.

A garrison finish by the local players, which only failed by one run to deadlock the count, provided the feature of the battle. The thrilling rally came in the eighth inning when even the most ardent Notre Dame supporters had begun to think that their favorites were headed for a shutout. It all started when Drummondville's hurler, Mandeville, accidentally struck Luc Roy, Benny Rousseau, who had clouted the only extra-base blow for Notre Dame in seven innings, lifted one of Mandeville's slants over the fence for a homer.

Mandeville, who had allowed but four hits in seven innings, weakened badly. Pinarid rifled a double and both Amedee Roy and Leo Fournier ran bases to fill the bases after Bilodeau had filed to centre field. Jim Long, who had taken over Denis Longpre's duties on the mound in the seventh chapter, proved the hero of the occasion when he duplicated Rousseau's feat to raise his team's total to six. Jackson added a single, but Luc Roy, up for the second time in the same stanza, was retired at first base.

The Notre Dame fans were in a frenzy which abated somewhat when Harvey singled and Landry walked to begin the ninth session. Lottinville fled to third base and Long bore down on Corriveau, who had previously hit two circuit blower, with one on Bouchard to end the Celanese threat with two consecutive strikeouts.

Maxwell replaced Mandeville in the last half of the ninth canto. Rousseau and Pinarid singled and advanced a base when Bilodeau was thrown out at first base. With the tying and winning runs in scoring positions, two men out and the count three balls and one strike on Amedee Roy it looked as though Notre Dame would at least tie the score. Roy, however, bit at a pitch below his knees and then fanned to give Drummondville the verdict.

Ground rules played a major role in the home team's setback, the second straight loss they have experienced in the hands of the Drummondville entry. The proximity of the fence which enclosed the municipally-owned diamond proved beneficial to the visiting long-distance hitters, who parked six hits across the fence for an equal number of home runs and two baggers. Corriveau, who had pitched a double play, led the twelve-hit assault on Longpre and Long, while Rousseau, with a homer, double and single to his credit, was the principal factor in Notre Dame's nine-hit collection off Mandeville and Maxwell.

Corriveau's first four-bagger, a double and two singles produced two runs for Drummondville in the second frame. Two successive errors accounted for the visitors' third point in the fourth chapter after Corriveau had doubled. Mandeville helped his own cause in the sixth round when his two-base blow sent two mates across the plate after the runners had got on base with the aid of a free ticket to first and an error.

Longpre was relieved at the end of the sixth chapter by "Rube" Long, who was touched for two successive home runs by Lottinville and Corriveau in the first inning he worked. Mandeville led the quartette of hurlers with ten strikeouts, while Longpre whiffed five. Long threw three and Maxwell one. Mandeville walked six compared with the single free tickets to first issued by Longpre and Long.

Failure to hit in the pinches contributed towards Notre Dame's defeat. Ten local runners were stranded on the bases paths against eight of Drummondville's. The score by innings was: Drummondville 020 102 200—7 Notre Dame 000 000 060—6

The teams lined up as follows: Drummondville: Beaulac, ss, Pepin, 2b, Harvey, 3b, Landry, c, Lottinville, cf, Corriveau, cf, Bouchard, lf, Guilbault, 1b, Mandeville and Maxwell, p.

Notre Dame: Jackson, rf, L. Roy, cf, Trotter, 1b, Rousseau, 2b, Pinarid, c, Bilodeau, ss, A. Roy, 3b, Gosselin and Fournier, lf, Longpre and Long, p.

RAIN DRENCHED MANY COUNTRY CLUB PLAYERS

Heavy Rainstorm Saturday Afternoon Soaked Forty-Eight Members Who Participated in First Two-Ball Mixed Foursome of Sherbrooke Country Club Season.

The Sherbrooke Country Club locker rooms yesterday morning resembled wash day as the forty-eight players who participated in Saturday afternoon's two-ball mixed foursome sought to get their togs into shape for a few practice rounds yesterday afternoon. Saturday's rain storm eased the farmers' worries, but it drenched the large turnout which made the week-end two-ball mixed foursome a success.

When soggy score cards had been tabulated, Mrs. D. J. Salls and H. A. Peabody were declared the joint holders of the lowest gross score. They toured the course in ninety-four to finish four strokes ahead of their nearest rivals, Miss Mona Bigg and Billy Bradley. In the best net division, Miss Marjorie Blue and George Ewing headed the parade with sixty-eight, while Mrs. A. Kerridge and Larry McGannon finished in the runner-up position with seventy-two. The fifth set of prizes was awarded to Mrs. G. MacKay and Oscar Stenson, who produced the highest score at aggregate of 145.

RAIN SPOILED PLAY AT LENNOXVILLE

The members of the Lennoxville Golf Club apparently do not relish playing in the rain as do their brethren of the Sherbrooke Country Club. On Saturday the qualifying round for the H. W. S. Downs Cup for "B" and "C" classes was held, but only twelve players qualified to advance in quest of the silverware. Ordinarily sixteen qualify, but on Saturday only a dozen completed the eighteen holes.

In the sweepstake conducted with the qualifying round T. DeWolff carried off the premier honors with a net card of sixty-seven, which proved a single stroke better than the cards of G. Grigsby, W. Scott and E. J. Manes, who were tied for second place. C. Holt with a seventy-one annexed the third sweepstake prize.

At the afternoon tea which followed the match the hostesses were Mrs. C. Parkin, Mrs. B. Baker, Mrs. H. Downs, Jr., Miss Elizabeth Downs, Miss I. Cobleigh and Miss D. Gibby.

Extensive alterations have been made to the Lennoxville club house. An additional room has been built for the ladies, while the kitchen has also been enlarged and the interior of the entire building redecorated.

KOMONEN BROKE OWN RECORD IN AMERICAN RACE

Sudbury, Ont., Miner, Long Regarded the Greatest Marathoner on the Continent, Clipped Over Ten Minutes from the Mark He Set in the Washington Classic Last Year.

Washington, June 11.—While the speeding train carried him homeward today Dave Komonen, the Sudbury Finn long regarded the greatest marathoner on the continent, glanced at his new United States A.A.U. marathon record and then surveyed the prospects for further fields to conquer.

Already winner of the classic Boston twenty-five mile jaunt, the hardy Sudbury miner defeated his U.S.A.A.U. title on Saturday from eighty-eight eager seekers of the crown. Running the twenty-six miles and 38 yards from Mount Vernon to the White House in two hours, forty-three minutes and 25 3-5 seconds, Komonen not only beat back the mass threat but also clipped ten minutes and 16 3-5 seconds from the previous record set by himself in winning last year.

Classed as the Canadian's most serious threat and rated in pre-race speculation as split choice with Komonen, William Steiner, of the New York German-American Athletic Club, finished third in 2:49:45 just a minute behind the second prize winner, Mel Porter, also of the German-American Club, who trailed the winner by five minutes. Porter's time was 2:48:04.

Two other Canadians finished the race despite the gruelling pace set by their fellow countryman. Anti Jaskaia, of the Finnish A.C., Toronto, was ninth in 3:01:00 and Roland Mayne, of the Monarch A.C., Toronto, finished twenty-ninth in 3:44:35.

The Monarch A. C. lost the team title to a Beverly, Mass., Club. Komonen formerly wore the Monarch colors.

Komonen took the lead shortly after the first half mile had been covered and surrendered it only once when near the nine mile mark to Steiner. The latter held it only momentarily for the champion of them all quickly regained it and never again was headed.

TENNIS DAVIS CUP FIELD REDUCED TO SIX COUNTRIES

Paris, June 11.—European zone eliminations for the Davis Cup, emblematic of world amateur tennis supremacy, had progressed to the semi-final round today with France, Italy, Australia and Czechoslovakia still surviving.

Prizings in the next round send Australia against France and Italy against the Czechs. The winners will clash in the zone final and then face the United States in the interzone finals at Wimbledon on July 21st, 23rd and 24th. A week later the ultimate survivor will play Great Britain on the same courts.

Germany featured the quarter finals. Leading by two to one after the first two days of play, the Tri-Color clinched the series at Paris yesterday when A. Merlin easily defeated E. Nourney by 6-4, 7-5, 6-2. In the final match, Baron Gottfried Von Cramm, surprise winner of the French hard court title recently, defeated Christian Bonuss by 6-1, 6-0, 6-4.

Australia eliminated Japan by four to one, Czechoslovakia won from New Zealand by the sweep count, and Italy scored a clean sweep over Switzerland.

BASKETBALL EDMONTON ESTABLISHED LEAD IN INTERNATIONAL TITLE CONTEST

Edmonton, June 11.—Edmonton Commercial Grade were one game up today in defence of their international women's basketball championship, but Tulsa, Okla., Stenographers are ready to take the floor in the second game tonight and even the five-game series at one victory each.

The Grads defeated the Tulsa tennis Saturday night at forty-one to thirty-one in the fastest and hardest played game seen on the gymnasium battleground here in many a day. The Canadian titlists were forced to call on all their skill and sharpshooting, and it was not until the final quarter that they forged ahead to the ten-point margin of victory.

The prize carried a net value of \$43,410 to the winner and was more valuable than either Preakness or the Derby, which went to the Brookmeade silks. And it was a swiftly-run race when the son of Chance, in a brilliantly-run race, carried the silks of Joseph E. Widener to an easy victory in the mile and a half of the famous old Belmont Stakes at Belmont Park.

DUTRA EMERGED VICTORIOUS IN GOLF CLASSIC

Swarthy California Spaniard Nosed Out Gene Sarazen by Single Stroke to Win U.S. Open Golf Championship—Defending Champion Finished in Forty-Third Place.

New York, June 11.—Only two years after making his first big challenge for premier golfing honors, Olin Dutra, the clouting Californian holds the open golf championship of the United States, which with the conspicuous up-trend in today's sporting business may well be worth \$25,000 to him before he has to defend it in 1935.

Dutra came out in 1932 with a great record, hailed as a coming champion. Simultaneously stoney Gene Sarazen came back from England with the British open crown. Twin favorites in the United States open that year at Fresh Meadow, Dutra paced the field for one round but Sarazen came from behind with a glorious finishing sixty-six on the last eighteen holes and won the tournament with the record-equaling score of 286. Dutra finished seventh.

On Saturday, over the magnificent east course of the Merion Cricket Club, which completely jolted the over-confidence of the professional leaders, the tables were abruptly turned.

Starting the last round of the seventy-two-hole battle, Sarazen was out in front, not worrying about Dutra, but about a pair of veterans ahead of him, Bobby Cruickshank and Wiffy Cox. While this trio staggered and blundered down the stretch, the swarthy Spaniard came galloping from behind with the outcome of the championship hanging on every shot. Despite three putting each of the last two greens after he had taken the decisive lead, Dutra covered the treacherous last nine of Merion in even par thirty-four, while Sarazen and Harry Cooper took thirty-six each, Cox thirty-seven and Cruickshank thirty-nine. These figures tell the story of how it happened.

The final totals were Dutra 295, Sarazen 294, Cooper, Cruickshank and Cox 295 each. It was the closest and most exciting finish since big Ted Ray, of England, won by a stroke at Inverness in 1920, with four rivaled for second place.

Dutra's victory was the climax of one of the most disastrous days for favorites in the history of the championship as one after another faltered and fumbled in a five-man gallery of nearly fifty the sand speculators in wild turmoil. Buried almost out of sight was the departing champion, Johnny Goodman, youthful Omaha amateur, who had final cards of eighty-two and seventy-five, a grand total of 311, eighteen strokes back of the winner and in a tie for forty-third place.

Goodman did not even have the satisfaction of being the low amateur, an honor that finally went to William Lawson Little, Jr., the Stanford star and new British amateur king. Little, despite a first round eighty-three, came back on Saturday with seventy-two and seventy-five, playing in the inspiring company of Dutra, and posted a total of 306, one stroke better than Rodney Bliss, Jr., Omaha's other amateur favorite.

While the leaders were fighting it out in a desperate, heart-breaking battle, long Tom Creavy, of Albany, N.Y., exploded a spectacular sixty-six on his final round, four shots under par, as he alone achieved the distinction of breaking Merion's "perfect seventy" for the only time in the tournament. This dazzling performance clipped a stroke from the old course record, a sixty-seven made by Clark Kirkran, an amateur, in 1924.

Creavy, was out of the running when he suddenly acquired the championship's "hottest" touch but boosted himself into the money list with a total of 299. The former P.G.A. champion had five birdies.

Saturday, back of him, and soundly beaten, came Mrs. Isabel Dodge Sloane's Preakness winner, High Quest, and Good Goods, another that bore her silks, was third, beating A. C. Schwartz's Gay Monarch.

The prize carried a net value of \$43,410 to the winner and was more valuable than either Preakness or the Derby, which went to the Brookmeade silks. And it was a swiftly-run race when the son of Chance, in a brilliantly-run race, carried the silks of Joseph E. Widener to an easy victory in the mile and a half of the famous old Belmont Stakes at Belmont Park.

DRUMMONDVILLE SOCCER ELEVEN BLANKED BEEBE

Celanese Entry Registered Five to Nothing Victory Over Granite Town Boys to Increase Lead Over Eastern Townships Football Association Pennant Field.

Drummondville, June 11.—The Celanese entry in the Eastern Townships Football Association is well away today on its quest for Eastern Townships soccer honors. Victorious in its first two games of the season, the local eleven has a strong hold on first place and bids fair to emerge in front in the three-team campaign.

On Saturday Beebe found local opposition much too difficult to cope with. After accepting a four to two defeat from the Sherbrooke Regiment in its season opener, the Granite Town boys ran into a five to nothing blanking at the hands of the Celanese crew. Three goals in the first half and a brace of tallies in the second part of the contest saw the locals hold a distinct advantage over their guests.

Fred. Aston, Drummondville's brilliant inside left, achieved the distinction of being the first player this year in the E. T. Soccer League to perform the difficult hat trick. A. Aston notched the first point when he converted a penalty shot, and followed up with a kick which glanced off the Beebe fullback's toe into the meshes. Len Hay, centre forward, concluded his team's first-half scoring when he drilled a hard shot past Kirwin.

The drizzle of rain which sprinkled the field when the teams kicked off turned into a downpour for the second forty-five minutes. Out of the storm Aston booted a long shot which Kirwin was unable to handle and Hay contributed his second point to bring the count up to five. Beebe tried desperately to avert a shutout, but Guilbault was in form and turned aside their best efforts.

Fred. Twyman, of Sherbrooke, handled the game which was witnessed by a small crowd. The teams lined up as follows: Celanese: — Guilbault, Twelves, Blackwell, Clements, Joiner, Imlah, Haworth, Davies, Hay, Aston, Conyers and Fieldsend.

Beebe: — Kirwin, Hamilton, V. Denney, Lees, Heston, Anderson, Griffiths, Henderson, Crook, Lowther, Newlands and W. Denney.

SUNDAY SCHOOL EVENT WON BY PLYMOUTH BOYS

With Don Johnston and Bill Hall Setting Pace in Senior and Intermediate Ranks, Plymouth Church Sunday School Won Annual Athletic Meet on Saturday.

Athletes representing Plymouth United Church won the annual inter-Sunday School athletic meet on the Parade Grounds Saturday afternoon. Led by Don Johnston, winner of the senior aggregate, and Bill Hall, who captured the intermediate aggregate, the Plymouth congregation boys scored a total of forty-five points to end St. Andrew's reign. The Presbyterians placed second with twenty-eight points and St. Peter's finished third with seventeen points.

Johnston captured three of the five senior events, Billy Hammond landing the sixth and Leonard Gillingham the seventh. In the intermediate ranks Hall took the premier honors in three events, while Maurice Grigsby and Dave Diplock shared the other two first places.

The meet was considered successful in all respects except the junior division, which proved disappointing. In charge of the event were W. Mutchler, W. Wolter, S. Lother, D. Watson and C. O. "Jack" Chamberlain.

The detailed results of the meet follow: Senior Events High jump: D. Johnston won, 2 W. Hammond, 3 B. Cohoon Height 5 feet, 2 inches.
