London, June 22.

The Times says plans are preparing at the Admiralty for the construction of an ironclad approaching in bulk and armament the great Italian ships, to be of 13,000 tons and with 10,000 horse power engines, with a speed of 18 knots an hour. The vessel will possibly be built at Chatham.

Constantinople, June 22

The Porte has issued a circular stating that it suppressed the local postoffices in Constantinople because of the facilities they afforded for the transmission of revolutionary appeals. The circular calls upon the Powers to abolish their postoffices in the interior of Turkey, and hopes they will suppress the present service between Constantinople and foreign countries.

Paris, June 22.

The army of occupation of Tunis is fixed, 10,000 to be stationed at Gardmansu, Reja, Mateur and a fort to be constructed in the Middle Kroumir country Tabarca Biserta and Gabes on the coast will be occupied.

Calcutta, June 22

It is reported from Central Asia that large bodies of Russian troops are assembling on the borders of Kashgar and a conflict with the Chinese cannot long be averted.

Virginia City, Nevada, June 22.

Alex. Goyette, drunk last night, was taken home by his friends, Joseph Lafreigneur and C. Morgeau, when inside the cabin, Goyette shot and killed Lafreigneur, and seriously wounded Morgeau, and then seriously wounded C. Longties, lying asleep. Longties got up, seized Goyette. While struggling to use the pistol, Goyette shot himself fatally. All the parties have come from Canada.

Grimsby, June 22.

Henry Lucas, farmer, Grimsby, committed suicide by cutting his throat with a razor on Friday. After taking breakfast in bed and while his daughter's back was turned, he committed the rash act. He had been of unsound mind for some time past, and was confined in the Hamilton Asylum for about a year, but was brought home by his friends on the 26th of May last. Three days afterwards he attempted to cut his throat with a butcher's knife, but was prevented from accomplishing his object by a neighbor. The deceased was 58 years old, and generally respected in the county.

Newmarket, June 22.

Constable Kavanah cleverly captured a horse thief this morning. The man gave his name as Lundy, and said he was a resident of the township of \$60. He offered Kavanah a horse for \$60, which Kavanah agreed to give, and paid \$1 down. Kavanah took the man before the Reeve, ostensibly to borrow the balance of the money. Here the party said his name was Woodward, and made other statements which confirmed the constable's suspicions, and he then arrested the man. He was taken before the magistrate, and remanded till tomorrow. He confessed to having taken the horse from Glasgow, a village in South Ontario, near Stouffville, and said his real name was Thomas Faulkner.

## A NARROW ESCAPE.

St. Catharines, June 20.

A serious accident happened to two men last Saturday night on the road leading to Thorold, and between Rirdon's paper and pulp mills. A small steep race is used to carry the surplus water in that part of the Canal, a very dangerous place spanned with a narrow bridge and covered with rocks below. Two men on their way to Stamford, under the influence of liquor, struck the bridge, precipitating the horse, buggy, and themselves below. Some one passing heard the noise and gave the alarm, and the disabled men and horse, with their broken vehicle, were extricated from their perilous position and conveyed to Thorold.

An explosion of gas occurred on Friday in the office of the English Lian Company London Ontario. Mr. Elliott, the Secretary, was buried through a window and severely burned about the face and arms. The gas leaked in the vault, and hence the explosion. The building was badly shattered and the windows were broken.

## CONVICTS SURRENDERED.

King-ton, June 21.

Adams alias Marshall, one of the runaway convicts, who was captured at Waddington, N. Y., has been given up by the American authorities and brought back to the Penitentiary. He is considered the leader of the break away. On two previous occasions he has been in the Penitentiary here, and has also been in the Quebec Penitentiary and Reformatory. He is an exceedingly hard case. On his arrival here he was placed in a dark cell. This morning a reporter went to the prison to see the recaptured convicts. His application to see them was respectfully declined by Warden Creighton. The reason that by publishing the stories of the convicts a mock sympathy was created which was undesirable. He referred to the story of Wright, one of the convicts, who attempted to escape last winter, and its effect. Mr. Creighton claimed that Wright's actions were no more worthy of sympathy than those of his companions who escaped at the same time. If the public knew the characters of the men as well as he did, they would not feel so sympathetic. Wright has since been exceedingly exalted over the remarks made about him by tender-hearted editors throughout the country. He thinks he did a noble deed. There are nearly 700 prisoners in the Penitentiary.

Dufaine arrived at the penitentiary this morning. His shoulder is greatly swollen and may possibly be dislocated. He is now in the hospital.

## BY THE MAIL.

The traffic on the Cariboo, B. C., road for May is described as far in excess of last year.

Twenty boxes of horse shoe nails were recently shipped from St. John, N. B., for Dublin.

Mr. Lionel Sackville West, the English Minister at Washington, is a widower. His daughters are all too young for society.

Latest advices from Afghanistan report the condition of affairs uncertain. The Ameer is regarded as too weak to push military operations against the insurgents.

It is the intention of the Cunard Company to put on an entirely new fleet of steamers between New York and Liverpool and transfer the present fleet of old vessels to Boston.

A licence has been issued in Boston for the marriage of two young Japanese. The expectant groom is a student; his bride is seventeen years old, and was his playmate in their native land.

The ocean traffic four-masted by iron ships of British build are becoming common and are said to be very successful in delivering grain in Liverpool in 20 days or less when they have anything like luck.

All the great steamboat lines between the United States and Liverpool are adding to their fleets. The gigantic City of Rome has just been launched at Barrow, and the Servia, 550 feet long, will be in New York in October.

The steam saw mill at Black Lake on the line of the Quebec Central Railway, owned by the Coleraine Mining Co., was burned last Saturday with an immense pile of saw logs, said to be upwards of 2,000,000 feet. The loss is estimated at from \$15,000 to \$20,000.

## AYER'S HAIR VIGOR.

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY and COLOR.

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them incline it to shed prematurely.

Ayer's Hair Vigor, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus it cures weak or sickly hair; becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases of the scalp are impossible.

As a dressing for ladies' hair, the Vigor is prized for its grateful and agreeable perfume, and valued for the soft texture and richness of tone it imparts.

## THE FIRST PRIZE FOR PIANOS.

—AT THE—

MELBOURNE.

(AUSTRALIA)

## EXHIBITION

The various parties here who are puffing up their particularly interested Pianos at the above Show all claim they received 1st Prize. It's a good job for those exhibitors that the principal American manufacturers decided not to be represented there, or I'm thinking the "Schiedmayer, Hertz, &c." Pianos would have been entitled to Leather Medals. If there are any sceptical on this point, let them call at

Mr. R. Morgan's,

the Agent in this City for the

ALBERT WEBER N.Y. Pianos.

and see and hear the astounding difference of their relative merits alongside of one another.

The Quebec Mercury.

THURSDAY EVENING, JUNE 23, 1881.

The Duke of Sutherland and his party are expected in New York early this week.

Earl Dufferin, new British Ambassador to Constantinople, on Tuesday presented his credentials to the Sultan, who said that he would do everything in his power to strengthen the friendship for England.

The Hon. Lionel Sackville West, who is announced as the successor of Sir Edward Thornton, at Washington, is 54 years of age, a brother of the Earl of De La Warr, of the Duchess of Bedford, and of the step-mother of the Marquis of Salisbury, now Countess of Derby. He is a bachelor of handsome presence, distinguished air, fond of society, and liberal in hospitality.

The urgent representations of the Pope's physicians have caused the Cardinals to be consulted whether the Pope should not quit Rome in the autumn. They replied that such a provisional change of residence would not imply a cessation of the imprisonment. The Villa of Duke Grazioli at Frascati has been talked of for the Pope's temporary residence, but nothing has been decided.

Montreal's interests as a great ocean port are more seriously threatened by her own people than by any scheme for deepening the St. Lawrence ever achieved upon paper. The delay and loss to shippers, importers, and ocean carriers occasioned by the yearly recurrence of the ship labourers' strikes must tell seriously against the city, and already some of the steamship companies are threatening to bring their vessels no higher up the river than Quebec, or even to send them to Boston and shun the St. Lawrence altogether. —Toronto Mail.

SIR JOHN MACDONALD.—The Evening Telegram has the following London special to-day: Dr. Andrew Clark after repeated examinations of Sir John Macdonald has pronounced his disease catarrh of the stomach, which is not necessarily fatal. Dr. Grant, Sir John's Ottawa medical adviser, was of the opinion that his disease was cancer of the stomach, a different disease and one that is always fatal. Dr. Clark came to this conclusion only after the fifth diagnosis of Sir John's case.

THE LATE EARL OF WICKLOW.—A cablegram announces the death of the Earl of Wicklow, Charles Francis Arnold Howard, who was born in 1839, being the son of the late Hon. and R. V. Francis Howard, Vicar of Swords. Deceased succeeded his uncle in 1869. His heir is his brother, Cecil Ralph Howard, who was born in 1842, and is a Lieutenant in the 60th Rifles. He was raised to the rank of Baron in June, 1870.

The Montreal Star thus refers to the dismissal of Mr. Matthew Ryan from his Northwest magistracy:—"A magistrate in the Northwest Territory has been discharged by the Government, and the Free Press at once denounces the fact as 'bare-faced tyranny.' We know nothing of the merits of the case, but would it not be well for the Free Press to find out why the services of the gentleman in question were dispensed with. There must have been a cause, for it is difficult to believe that the Government would discharge a civil servant without some excuse—other than a political one." Not at all "difficult" when it is Sir Hector Langevin who is pursuing an Irishman with the sleuth-hound persistence characteristic of him. Does the Star believe that if Mr. Ryan had done anything worthy of dismissal he would have been allowed a retiring gratuity, or that if he had been fortunate enough to be a Frenchman he would have been in office yet?—Globe.

ANOTHER SALT WELL.—A salt bed twenty-two feet thick has been struck at Brussels, Ontario, by a well sunk 1,000 feet by Mr. F. C. Rogers, floors.

From Montreal To-day.

Montreal, June 23. Cowan's chemical works were burned down last night. They were insured for \$3,000.

A little girl, daughter of Mr. Martin, fruit dealer, was run over by a Grand Trunk train last night at a crossing in the city. She is dangerously injured.

Mr. Spicer, General Superintendent of the Grand Trunk, is about to proceed to England.

Everything is quiet at the wharves to-day, but very little work on the ships is proceeding. The police have been reinforced and the strikers are not allowed to congregate near the wharves.

Mr. Charles Holland, Manager of the Bank of Ontario, here has been promoted to be general manager, and Mr. Smith, the inspector, has been appointed local manager.

The stock market was generally steady to-day except for Ontario, which declined 4 per cent.

VICE-REGAL ENTERTAINMENT.—The Governor General's ball at the Music Hall last night, was attended by about 700 leading citizens, and will long live in the memory of the guests as one of the most pleasing reunions ever given in this city. The brilliant and tastefully dressed company, the chaste and expensive floral decorations of the room, and the general arrangements contributed to make it what His Excellency no doubt desired, a proof of his friendliness towards the people of Quebec, whose proud satisfaction it is to have him amongst them during most of his summer vacation. The Marquis of Lorne saw on a large scale last evening of what Quebec society consists, and he must have been assured by the beaming faces surrounding him that we have amongst us those who can properly appreciate Viceregal hospitality.

THE CONCERT TO-NIGHT.—Mrs. Vincent Browne's concert at the Music Hall to-night, under the patronage of the Governor General and other distinguished personages, deserves a bumper house. To say nothing of the array of talent which Mrs. Browne brings to her assistance, the lady's own reputation as an artist of great ability needs no further mention. We may repeat that the proceeds of the concert will be handed over to the fire sufferers.

URSULINE CONVENT.—The Revd. Mothers St. Angele and St. Felix pronounced to-day their last vows in presence of a large number of relatives and friends. The former is Miss Hanrahan, niece of the late Revd. Mr. Doherty, and the latter is the daughter of Mr. Notary Talbot, of St. Michel. Revd. Mr. Drolet, of Sillery, preached the sermon.

A QUESTIONABLE ITEM.—It seems that \$1,500 have been placed in the Supplementary Estimates to recompense the Lieutenant-Governor Robitaille for entertaining members of the St. Jean Baptiste Society last year, but it is alleged that no such entertainment ever took place, and that they were even refused shelter during the violent storm that occurred when they were listening to the speeches and music out of doors, for fear of mudding the fine carpets!

WATER POLICE FOR MONTREAL.—A detachment of twenty men of the River Police, with Mr. Trudel, the chief, left for Montreal by the boat last evening.

ABDUCTORS PUNISHED.—Felix Vogel convicted of attempting to abduct Rosa Strausberger in New York, pleaded guilty to an attempt to blackmail the girl's father. The prisoner was sentenced to seven and a half years and fined \$250. The judge said that Soegart, the prisoner's accomplice, who was shot by a detective, deserved his fate.

THE VICTORIA DISASTER.—County Crown Attorney Hutchinson authorized the commencement on Monday of the investigation into the charges against Manager Parish and Captain Rankin, in connection with the late disaster. After several witnesses have been examined it is probable that further proceedings will be delayed, owing to the absence, on volunteer duty, of Squire Peters.

New York, June 21. Yesterday afternoon Theodore Hoffman, of Port Chester, with sons William and Frederick, and Christopher Brush of this city, started in a sail boat from Mannersing for Rye. A squall struck the boat and capsized her. Fred Hoffman clung to his brother, who was a good swimmer, but both were drowned. Brush went down in five minutes. The elder Hoffman was rescued.

RAILWAY CONVENTION.

The Daily News says—The Wabash management have thrown their Eastern traffic over the Erie and Grand Western. At certain points Vanderbilt's lines, the Michigan Central, the Lake Shore and the New York Central, competing for the traffic of the Great Western system, have suffered already. Judging by the traffic returns now issued the Grand Trunk has probably had to accept some traffic at low rates in order to be in accord with Vanderbilt's lines. This is magnified into a general cutting of the through rates, but is clearly not the same thing. Owing to an error in the transmission of a recent cable despatch about the new Grand Trunk loan the following correction is necessary: "The Directors did not themselves offer to buy a million of the new ordinary stock, it was the Syndicate that offered them the terms cabled."

THE BEST ALE AND PORTER MANUFACTURED IN CANADA.—The palm of honor has been awarded to Labatt's celebrated India Pale Ale and Porter at the following universal exhibitions, viz.:—At the Centennial, Philadelphia, 1876, first prize; at Sydney, Australia, 1877, first prize; and at Paris, 1878, first prize (a gold medal). The only Canadian Ale and Porter that was awarded a prize at the latter exhibition. The highest testimonials given by the medical authorities in favor of this article stamp it as much superior to all others in quality, purity, and most carefully prepared, and recommended its use to the invalid or the healthy.—N. Y. MONTREUIL, sole agent, late of the firm of Rieger & Co., 169 St. Paul street. Caution.—The only genuine Labatt's Ale and Porter is manufactured in London, Ont. The Limbs of Things Lost on earth has engulfed many a trumpery tooth wash, paste and powder, since SO. ZODONT was introduced to public notice, but that standard article still retains its place in general estimation and waxes in popularity as the years wane. People, whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

THIS EVENING'S TELEGRAMS

Rochester, N. Y., June 23. Professor Swift has been informed that a great comet was discovered this morning by L. Edwards, of Haverford, Pa., and Edgar Larkin, of New Windsor, Ill. The new comet is located in constellation auriga, about eight degrees from campella, and it is not improbable that it is the much expected comet of 1812.

Bluffton, Ga., June 23. A brilliant comet was discovered here in this city in the north-eastern to eastern sky.

Albany, June 23. First ballot—Wheeler 50, Potter 53, Conkling 32. Second ballot—Dewey 56, Kernan 53, Platt 27. Third ballot—Wheeler 50, Platt 53, Conkling 32.

From Toronto this Evening.

Toronto, June 23. Special cables to the Telegram says Sir John Macdonald is not going to Tunbridge Wells, but has taken a house at Norwood for two months. He is gaining health and was presented to the Prince of Wales at the levee yesterday. It is improbable the Princess Louise will return to Canada this year, other reports to the contrary notwithstanding.

Grand Trunk stocks fell on receipt of the news of the cutting of rates. At 8 p.m. last night, a passenger car on a mixed train on T. G. & B., from Orangeville to Toronto, was upset at Woodbridge. Of ten passengers, only a lady hurt her knee slightly.

Mr. Simers, German Consul, entertained 200 countrymen at a garden party at his house at Dear Park last night. Rennardson and Shea are inched to pull 3 miles for \$100.

STRAWBERRIES—Fresh and luscious strawberries only 10 cents, A. Watters, St. John street.

RECORDERS' COURT TO DAY.—Andrew Drew, drunk, discharged. Arsel Olson and William Anderson, seamen of the ship Marcell, drunk, \$2 and costs or eight days.

POLICE COURT TO DAY.—(Before Judge Chauveau.)—Two defendants were convicted of selling liquor without a license and fined \$75 and costs each or 3 months imprisonment.

STRAWBERRIES—Fresh and luscious strawberries only 10 cents, A. Watters, St. John street.

The new Chinese Minister at Washington will be Chiang Tean Yu, a distinguished civil servant for several years past in China.

CUSTOM HOUSE RECEIPTS.—Duties collected at the Custom House to-day amounted to \$5208 12.

The Speaker took the chair at 3.10. Hon. Mr. Marchand presented the third report of the Committee of Impressions. Hon. Mr. Church presented the third report of the committee concerning Hon. Mr. Paquet's \$14,000, recommending that the evidence given be printed for the use of the House.

Mr. Lecavalier asked to be allowed to present a bill to amend the Municipal Code.

A message from the Legislative Council, announcing that it had passed the bill concerning the Laval University.

The Premier moved, seconded by Hon. Mr. Robertson, that Government orders have precedence for the remainder of the session.

Hon. Mr. Joly objected to it being granted, as the Government would then be able to pass its measures in a batch, and would not give the House time to examine them.

The Premier contended that it had been done under the preceding administration.

Hon. Mr. Joly asked the Premier to cite in what case it had been done, as the affirmations of the Premier regarding precedents were liable to be rather exaggerated, for no later than last week the hon. gentleman had blamed him for having sent a lawyer to England with a salary of \$2,000; and yet the Premier had to admit afterwards that it was himself that had sent that lawyer.

Messrs. Irvine and Gagnon objected to the motion on the ground that it was irregular.

The Premier then tried to read a lesson of Parliamentary practice to Mr. Irvine, but did not quite succeed as Mr. Irvine, with the rules of the House in hand, proved that the Premier knew nothing about it.

The Speaker decided that the motion was not in order.

The Premier having, during the course of the discussion, made allusion to Mr. Gagnon's motion, that gentleman rose for a personal explanation. The Government side of the House, with the Premier at its head, tried to cover the voice of the Speaker, but without succeeding. Mr. Gagnon then moved the adjournment of the House, and the Government was then forced to allow him to speak, which he did in a manner that forced Mr. Chapleau to apologize.

From Ottawa this Evening.

Ottawa, June 23. Venner in a letter to the Citizen this morning, says,—"I believe the present summer is in a triad of similar summers, probably the middle one. It is likely to resemble, in its chief features, that of 1850, and to differ in some of its minor details. The approaching month of July will give a great deal of rain, as in 1850, over a large portion of the United States and Canada, while in Great Britain the weather will be likewise stormy and wet. The storms of wind, thunder and lightning are likely to be severe and frequent. The heaviest rains for New York and vicinity would locate after the 20th and probably on the 21st or 22nd dates. Between the 10th and 15th days an exceeding hot term is likely to be experienced in both the United States and Canada. Within a few days from the close of the month, probably about the 27th or 28th, a cool wave will occur, carrying frosts in Canada and cool weather generally, with storms of wind throughout the United States. Where storms have been severely felt in the Western and South Western States, during June there, also will the severest storms be experienced. Notwithstanding these frequent and severe storms during the month, frequent alterations of hot weather will counteract to a great extent the damage done to crops in general in the West. The entrance of July in Canada, and also to a considerable extent in the United States, will be cool and showery, and the present outlook for the 4th is not a very promising one.

The hay crop in the Ottawa Valley will be even more abundant than last year. As the son of J. S. Hoey was returning from school a few miles from Kemptville, he was attacked by a tramp who attempted to murder him with a pocket knife. He was afterwards arrested, but allowed to escape without a trial. He is likely one of the men who escaped from the train a few days ago while being taken from Montreal to Kingston.

Mr. Benoit, Manager of the Banque Nationale in this city, has been given six months leave of absence. Yesterday afternoon a case was argued before the Minister of Justice, of considerable importance. It involves the charter of the Bank of St. Hyacinthe. A boot and shoe company claiming that the bank, having violated their charter by engaging in trade, it should be annulled.

River de Loup, June 23. Weather clear and fine; SW wind. Five ships inward and two outward. Magdalen Light, June 23. Weather clear and warm. SS. Poline inward at 9 a.m.; as Beaver outward at 10.30 a.m.

STRAWBERRIES.—Fresh and luscious strawberries only 10 cents, A. Watters, St. John street.

SWIMMING MATCH.—A swimming match will take place on Saturday 25th instant, at 3 p.m., between H. Roberts of Liverpool, Eng., champion of the seven mile course, and W. Welch, of Montreal, Canada, champion of the nine mile course, from the centre of the stream opposite the Custom House to the centre of the stream opposite the Island of Orleans, a distance of 3 miles. Purse of \$100 aside. A tender will start from the Queen's Wharf. Further particulars to appear to-morrow.

TEMPERATURE.—The following is the state of the temperature during each day, by Negretti and Zambra thermometer, in the shade, at the "MERCURY" Buildings, Bude street, 150 feet above spring tide level:
