

PROPOSED SNOW REMOVAL MOTOR TAX TO BE FOUGHT TO END, SAYS T. C. KIRBY

Tax Termed "Class Legislation" By General Manager, Montreal Motorists' League — Will Fight Suggested Enactment to Finish—Aid of Associations Enlisted.

Motorists are again up in arms about the proposed city tax of \$5.00 on each car and an organized plan of campaign to again defeat this suggested tax is now being prepared by the officials of the Montreal Motorists' League. T. C. Kirby, general manager of the Montreal Motorists' League stated that Alderman Legault had this idea of a special tax on City motorists early last year, but owing to the tremendous opposition aroused, the suggestion was withdrawn. The League officials secured the co-operation of the Board of Trade, The Chamber of Commerce, The Kiwanis Club, the Rotary Club, the Progress Club, the Gyro Club, the One Hundred Club, the Builders Association, the Civic Improvement League, the Taxi Owners Association, the North End Businessmen's Association, the N.D.G. Businessmen's Association, and the Maisonneuve Businessmen's Association.

Kirby States Case

Mr. Kirby states that this suggested tax will be very bitterly opposed while the Montreal bill is before the house and every possible effort made to have the clause struck out and defeated as purely class legislation. "Motorists would be very foolish to drive on Montreal streets in their present unsatisfactory condition for joy riding and cars being driven today are used for business purposes only and nothing else."

"With such a tax thousands of cars would remain in the garages and a great loss of revenue would take place. The City's business taxes would fall and general delivery services would be effected all round. Furthermore with Montreal getting such a City tax what would stop Three Rivers and Quebec also every other city throughout the Province doing the same thing. We pay a very heavy tax on both our cars and for gasoline, knowing that these revenues should go to provide us with roads throughout the Province. Without these provincial highways how many cars would be running the year round were we confined to City streets only," says Mr. Kirby.

"The question of the disgraceful condition of our streets affects every citizen whether motorists or pedestrians also the owners and drivers of horse drawn vehicles and shows Montreal up as a regular laughing stock.

"A special appeal has been made by the officials of the Montreal Motorists' League to Premier Taschereau to have this clause thrown out when the Montreal Bill is brought out from Quebec, and they feel perfectly satisfied knowing that after the premier's plan and straightforward statement that we are to have no new taxation this year that such a spiteful suggestion as this tax will not be granted."

Reputed Kidnapper Was Friendly Engineer

Verne Sankey, reputed head of a kidnap ring, is shown in Criminal Courts Building, Chicago, following his capture in a barber shop by Federal agents. He was quizzed on many nationally-known kidnappings. AT the right is Helen Matterer, who was arrested with Sankey and held for questioning. Sankey, who admitted taking part in the Boettcher and Bohn kidnappings, was well-known in Saskatchewan, where railroad men remember him as the friendly driver of a locomotive travelling between Melville and Regina. He lived in Melville about 17 years, and established a reputation as an ardent hockey fan and a "crack baseball player."

FIGHT FOR ALDERMANIC HONORS IN ST. MICHAEL'S TO BE FAST AND FURIOUS

Organization Work Already Started—Petitions Being Circulated — Seven Potential Candidates Prominently Mentioned — Situation in Laurier Ward Still Beclouded — Reported Two North Enders Discussed As Mayoralty Possibilities.

The standard-bearers in the municipal election field are already busily engaged in burnishing their armor, preparatory to entering the arena, and if there be any truth in the rumors flying thick and fast, the fight promises to be a furious one. Particularly is this so in St. Michael's Ward, where already seven potential candidates, have, it is reported, signified their intention of seeking the honor of representing the voters in the next City Council. It is known that a number of lists have been circulating for signatures, with, of course, varying degrees of success. The efforts of some of the workers would appear to be spasmodic, those of others very thorough indeed, and every nook and corner that might mean support later on is being carefully cultivated. It is, naturally, too early yet to hazard any predictions, but in the long run organization is bound to play a large, if not a decisive, part and the groundwork for this organization is already, in known

instances, very solidly laid down. It is said, too, that both political parties loom large, but information on this point is by no means clear. Some time ago the statement was made that the Federation of Labor Clubs would have candidates in every division, but nothing definite has developed so far along these lines. However, it can be safely forecast that the near future will see plenty of action.

In Laurier Ward the situation is still clouded. It is known that the ever-popular Alderman Max Seigler will again be a candidate. Beyond that fact, there is nothing as yet to which can be attached any importance. And the same applies to the mayoralty. It is said that ten names are being considered for the position of Chief Magistrate and that those of two North Enders, one a business and the other a professional man, are on the list. This cannot as yet be confirmed, but important announcements may be looked for very shortly.

SOLOISTS WILL APPEAR IN SHOW

Outstanding Singers Lined Up For Ninth Annual Minstrel Revue

A list of outstanding soloists have been lined up to appear in the Y.M.H.A. ninth annual Minstrel show taking place at the north-end building February 24, 25, 26 and 27.

Among the vocal stars who will appear in the "burnt cork" entitled, "Razin A Racket" are Sam Davine, Louis Ship, Abe Ofshizer, Joe Speator, Leo Rumbert, Saul Dermer, Joe Glickman, Alfred Krasnick, Al Scharfe, Irving Wexler, Peter Rubman, George Saul, Arthur Hornstein, Sol Linds.

Other outstanding performers who will appear in various parts of the black face comedy are Jack Gotlieb, Henry Slover, Coleman Lewis, pianist, Sol Londs, Maxie Rosenthal and Sam Sandler.

Business Manager Louis Jason predicts the 1934 production to break all attendance records judging by the returns from the early ticket sale.

CANADIAN NATIONAL RAILWAYS EARNINGS

The gross revenues of the all-inclusive Canadian National Railways System for the 10-day period ending January 31, 1934, were \$3,882,271 as compared with \$3,279,057 for the corresponding period of 1933, an increase of \$603,214.

Dwellings erected in Germany this year are exempted from taxation.

Queen Esther Entry

Miss Lilly Baum, sponsored by Young People's Hebrew League, for title of Queen Esther.

Murray's Feature Saturday Special

It is interesting to note, in connection with the Special Saturday evening 50-cent meal now served at Murray's Park Avenue branch, the extraordinary care being lavished on the comfort of the kiddies. The object of the meal is to make it a real family gathering. To this end the management has provided dainty high-chairs, of cream enamel with a blue trim; Mickey Mouse dishes, depicting the silver screen's greatest hero in quaint and amusing antics; a menu especially selected to tempt tiny stomachs, and, last but by no means least, beautiful white bibs of high quality Terry cloth, trimmed in blue, and bearing the widely-known Murray crest, which are presented to the little ones as souvenirs.

Japan produced 750 feature-length moving pictures last year.

Boys' Choir at MacVicar Memorial

Famous Choristers from London, England, who will sing at MacVicar Memorial Church, on Wednesday next.

LUKE CALLAGHAN ATHLETIC NIGHT

Prominent Citizens Enjoy Splendid Athletic and Musical Programme

An audience of over seven hundred, which taxed the Patronage Jean de Prevost Hall to capacity, thoroughly enjoyed a lively series of boxing bouts and a well-balanced programme of entertainment arranged by the Luke Callaghan Memorial School Athletic Club on Wednesday evening. "Bobby" Leitham was one of the principal attractions, and refereed several of the bouts. Among those present were: Rev. Fathers Singleton, P.P., Britt and Byrd; Rev. Brother Patrick director of the Luke Callaghan School, J. A. Mercier, K.C., M.P. for Laurier-Outremont, Fred E. Neville, manager of the Victorias, the Maroon hockey team players, Paul Haynes, Earl Robinson and B. Northcott, Abd. Owen Callary, of Outremont, T. F. Cuddihy, director of studies of the Catholic School Commission of Montreal, M. Cavanaugh, president of the St. Michael's A.A., Mr. Carragher, organizer of the St. Michael's A.A. hockey team, D. Rochon, Mr. McBain, and Mr. Leprohon, director of St. Michael's United Choir. Brothers from the different school communities were also present.

The boxing consisted of fine as follows:

112 lbs.—J. Brady vs B. Gagnon.
126 lbs.—G. Rattray vs L. Jones.
150 lbs.—Pat Galley vs W. Young.
118 lbs.—Hebert vs "Mickey" Hennessy, and a burlesque encounter between "Dynamite" Boyle and "Canary" Boyle, which evoked much merriment.

The "Little Players of the Air," under the direction of Miss Moira Sheehy, presented a musical skit, in which appeared Helia Krolller, Ruth Rodder, Eileen Noonan, Patsy Merchant, Charlie Lawrence, Gerald McKie, Emmett Pierson, Bruce Guenthe and Eddie Kerwan. Frank Sheagreen, Francis George, George A. Shea and Terry Bittle also presented some enjoyable numbers.

Mr. Thomas V. McCarthy, president of the club, in a short address expressed satisfaction at the splendid progress of the organization, and thanked Charles Cornell, its hard-working secretary, for his unremitting endeavor in its advancement. He also voiced appreciation of the co-operation given by the press.

North Branch "Y" Notes

Friday, Feb. 23 has been the date selected for the North Branch Y.M.C.A. "Assault-at-Arms". Representatives from the Boxing, Wrestling and Fencing Clubs came together to plan for this Annual Event. The program will include six wrestling matches, six boxing bouts and four fencing contests.

The wrestling is under the leadership of Allan Turnbull, boxing is headed by Chris Minta, and George Tully is captain of the fencing club. The representatives of North Branch Y.M.C.A. in wrestling will be selected from the following: Chas. Crotty, Stewart Benson, Vernon Blake, Wilth Normand, L. Whitlow, Ken Matheson, John Macajunas, Bud Matheson and Jeffrey Atkinson. Matches are being arranged with the Central "Y" Club, and other wrestling clubs.

The local boys are training hard for this event. Plenty of action may be expected. Several of this club are training also to enter the Provincial Championships.

The members of the boxing section under coach Minta are training every Monday and Friday evening, and Minta is busy matching his boys with boxers of other clubs.

LEADERSHIP CHARACTER

That the world is calling for leaders of high character and a true spirit of service; that the Boy Scout Movement is producing the kind required, and that in its efforts Scouting is "only on the first step of the ladder," was the declaration of Lord Bledisloe, Governor-General and Chief Scout for the Dominion of New Zealand, at a Scout rally at Auckland.

SCENES OF THE COVERED WAGON DAYS RE-ENACTED

Montreal, February—Colorful scenes, reminiscent of earlier days of land settlement, were re-enacted recently when 203 women and children left Montreal by a special train of the Canadian National Railways for the Abitibi area. The men of the parties had gone in advance to prepare homes for their families, and these homes being in readiness, their families went up to join them, taking such settlers' effects as they had gathered for their new homes.

The day those families left Montreal for their new homes in the north will be a memorable one, filled with the prospects of a new existence close to nature after experiencing the hardships of unemployment in the city. The families left in a happy frame of mind.

As an extra bit of cheer, Alderman Leon Trepanier, leader of the City Council of Montreal, conceived the idea of making the children the happier by giving each of them a big handful of candies just before the train pulled out. Hon. H. Laferte Minister of Colonisation for Quebec, urged the wives and grown-up members of the party to encourage the husbands and fathers to remain on the farm.

Queen Esther Title Entry In Y.P. League

The Young People's Hebrew League is sponsoring Miss Libby Baum as its nominee for the title of Queen Esther. The Queen Esther Ball is the outstanding social event of the year in bration of the Purim holiday.

The fourth annual Queen Esther Ball will take place at the Mount Royal Hotel on February 26th.

In conjunction with the ball, a beauty and popularity contest takes place reviving the glamorously romantic figure of Queen Esther. Queen Esther, chosen for her beauty, and her First Princess elected by popularity vote, receive as prizes free return steamship tickets to Palestine, being sent there as the representatives of Montreal young women.

"Now, Tommy, what is one-fifth of three-sixteenths?"
"I don't exactly know, teacher, but it isn't enough to worry about."

LOURDES TRIDUUM AT ST. MICHAEL'S

Feast of Our Lady of Lourdes Occurs on Sunday, February 11th

In preparation for the feast of our Lady of Lourdes which occurs next Sunday, February 11th a solemn Triduum will commence on Thursday next the 8th instant and terminate on Sunday.

Exercises will take place morning and evening.

On Thursday evening the sermon will be preached by the Reverend Gerald Britt of St. Augustine's parish, on Friday by Reverend Edgar Feeley of St. Willibrord's, while the closing instruction on Sunday will be delivered by the assistant priest of St. Agnes' parish, the Reverend David McDonald.

Both the morning and the evening services will be held in the Lower Church, where there exists a Lourdes Grotto, similar to the famous grotto of Lourdes, France.

In the short space of a few years, St. Michael's Grotto has become the centre of pilgrimages, people coming from all parts of the city.

The morning exercises will take place at 7-7.30 and 8 o'clock, while that in the evening will start at 8 o'clock, except on Sunday when the service will begin at 7.30 p.m.

REV. CANON SHATFORD AT FAIRMOUNT ST-GILES

On Tuesday, February 13th, Rev. Canon A. P. Shatford will address the Men's Association of Fairmount-St. Giles United Church, on "Popular Criticisms of Religion." Supper will be served in the Assembly Hall at 6.30 p.m. at a charge of 35 cents, with musical numbers and address to follow. Admission will be by ticket only, which can be obtained from the Secretary, Mr. John Heather, AT. 1770, or members of the Executive. This is an unique opportunity which is offered the men of the North End, and it is hoped that they will avail themselves of this treat. Supporting artist will be Mr. Western McCallum, well known local baritone.

Forest land in Great Britain totals more than 2,500,000 acres.

MONTREAL, FRIDAY, FEBRUARY 9, 1934

TO PROBE BUSINESS MALPRACTICE

Government's Intention Will Be Applauded By Electors
—Hope is That Investigation Will be Thorough and Comprehensive

All patriotic Canadian citizens, regardless of political colour, will applaud Premier Bennett's intention to investigate business malpractices in Canada. The investigation is to be conducted by a committee of the House of Commons which will include representatives of both Liberal and C.C.F. parties. The sittings of the committee will be awaited with the keenest interest by citizens in all parts of this country, who expect no half-way measures in the matter. The disclosures by the Senate Investigating Committee in the U.S.A. made many people wonder what would be done in Canada, for few of us are credulous enough to think that our industrial and financial giants are white while those south of the line are black. As a matter of fact, a goodly number of us are cynical enough to believe that during the past twenty or thirty years, Canada hasn't had to take off its collective hat to anyone in the way of business malpractices. One wonders what will happen to those found guilty by the committee. In the United States no convictions were sought, the government's purpose appearing simply to be to show up as idols of clay financial and industrial barons once held in awe by the public. In Canada, however, we might go farther, and prosecute those found guilty.

THE TITLES QUESTION

Sentiments of Canadian People Overwhelmingly Against Setting Up of Class Distinctions—Warm Debate on Matter Expected in Parliament

It is quite apparent from the remarks of Mr. King in his speech in reply to the Address from the Throne that the question of titles will be made one of the major issues of the present session of parliament. The real battle will come, of course, when the motion on the matter is debated; but in the meantime rumblings of the gathering storm can be heard in Mr. King's speech. The leader of the Opposition is not particularly averse to the granting of earned honours in such fields as literature, science, medicine, and art. He is, however, against such titles as carry the prefix "Sir," and, also, of course, hereditary titles. He believes the conferring of titles will

set up an exclusive social class in Canada, which would be utterly at variance with the wishes of the vast majority of the Canadian people.

If a vote on the matter is eventually called (and it seems a certainty) both major parties will be split on the issue. Some Liberals will no doubt vote as approving the stand Mr. Bennett has taken on the matter, and it appears equally as probable that most of the government's supporters from democratic Ontario, together with all the socialist bloc will vote with Mr. King on the matter. Under the circumstances, it appears more than possible that some sort of condemnatory motion will be passed. Whether this would be construed as a defeat of the Government, or will merely reaffirm the Canadian prejudice against the bestowal of titles, will depend largely upon the wording of the motion. In any case, the matter will be plenty embarrassing to the government if there are as many defections as previous votes on the matter would indicate.

There seems little doubt but that Mr. Bennett, in taking the matter upon himself, ran counter to the sentiments of the majority of Canadians. Our school and college text-books on history no longer glorify the aristocracies of Europe. On the contrary we have been taught during the past quarter century, that most of the ancient rulers of Europe were little more than predatory villains who created aristocracies, bestowed titles, gave away huge tracts of land, granted class privileges, for no other reason than to create a great privileged class friendly to the crown — a class that would support the royal absolutism against the reactionary particularists on the one hand and the growing tendency toward parliamentarism on the other. The aristocracies thus created were made hereditary. They are dying out, however, in most countries. In some countries they have disappeared altogether.

Canadians have no objection to honours being bestowed by His Majesty upon deserving citizens, but they object to the granting of any distinctions which tend to the lateral division of our society.

"And it would be interesting to have a colorful picture of the House at the time the famous (anti-titles) resolution was passed. It is stated on authority that less than one-third of the members were present at the time."—St. Catharines Standard.

There were 234 members of the House at that time, and the recorded vote was 96 to 42, so that there were 139 members present and voting, in addition to others who had arranged private pairs. Pairs were not recovered as the government had released its supporters to vote as they pleased. It would be interesting to know who the "authority" is who manufactured the yarn about more than two-thirds of the members being absent.

In its daily paragraphs of "twenty years ago" the Edmonton Bulletin reprinted an item saying that a meeting of unemployed had been held and had demanded three square meals a day, or work at 30 cents an hour. No doubt society was shocked to its foundations twenty years ago by a "demand" from men out of work. There being no Reds at that time, these "agitators" who troubled other people with their hunger were doubtless described as Anarchists.

EXAMINER-COURIER FORUM

In Which Subjects of General Interest Are Discussed

NOTE:—The opinions expressed in these columns are not necessarily those of The Examiner, and this newspaper does not accept responsibility for them. They are published for their general interest, variety, and originality of treatment.

By Howard Ross, K.C.

George Lansbury, veteran Labor leader, at a meeting of Trade Unionists recently said: "We Christians pray to God for an abundant blessing on our labor in fields, factories and workshops and when the baundance is poured out we are blasphemously told that God has made a mistake and people must suffer privation and destitution because Nature has been too profligate with her gifts."

Milo Reno, president of the National Farmers' Holiday Association, U.S.A., issued a call for a national farm strike in which he hoped the farmers would neither buy nor sell until accorded more consideration. He declared the question to be now determined is "whether the farmer should become a peasant, the mental slave of the user—Howard S. Ross and industrialists." He said also that "every business will suffer if the farmer's purchasing power is not restored and that the life of the Republic is at this time hanging in the balance."

F. Phillip Game, Governor of New South Wales, at a meeting of the Anglican Clergy at Sydney said: "My faith teaches me that God's kingdom will be established on earth. But I also believe that it will not come while so many people are wondering from day to day where their next meal is coming from and where they are going to sleep. One of my greatest impressions in my constant travelling over this state is the fact that the people are looking to the Church for a lead in their hour of difficulty."

THE CHURCH HAS A GOOD DEAL OF NEED FOR PENITENCE. AS WE LOOK BACK AND SEE THE HALO OF SANCTITY THAT WE CAST OVER THE LAST WAR. — Bishop of Bristol.

The League of Nations loans made to several nations some years ago are in default as are many other loans, public and private. Every such case affords tangible proof of the affirmation that great payments could be made from one country to another only in the form of goods and services and that attempts to make them by transfers of gold from banking reserves are a menace to the stability of monetary systems. Without a common standard of value to which the principal monetary systems are related, international business rela-

tions fall into chaos. Instead of the business men of every country being able individually to sell their products in all markets as they can find buyers, without regard for other selling and buying to which they are not related, the tendency is to restrict trade to direct arrangements between countries and under the control of governments.—From the National City Bank Bulletin.

We have had frequent occasion to emphasize that all business, directly or indirectly, consists of exchange of services. It follows also that in the long run the exchanges must balance and settle themselves. The people of every section of this country pay for what they buy of the outside world by means of what they sell to it. If for any reason they are unable to sell in usual volume, they must reduce their purchases accordingly, except that they may temporarily cover the deficit by the use of credits in some form or by reducing their reserves of ready money; but one way or another, their accounts must be brought into balance if business relations are to continue. It is, of course, the same in trade between countries. —From National City Bank Bulletin.

A special representative of the Toronto Star has made a survey of the cash systems used for some months now in Montreal in the handling of relief payments. The advantages are listed as follows:

1. It preserves family self-respect and family initiative instead of branding families as on relief in every store in which vouchers are taken.
 2. It enables families to get more for the municipalities money by watching the papers for bargains and buying where the best values can be obtained.
 3. It enables families to exercise their individual preference with respect to food within the limit of the amount given to them to spend.
 4. It spreads municipal and government outlay over a larger number of stores and thus trade takes to natural channels.
 5. Administration costs are reduced, for there is no longer a multitude of vouchers to be audited and compared with merchant's bills.
- Premier Bennett said recently that war is the most horrible word in any language. And when we have another war it will not be because the people of different countries hate each other but because the minds of certain national leaders have become obsessed with power. The people of the world desire the opportunity to work and thus to be assured security and contentment.

EMPLOYEE SELECTION

By
A. Cudnon-Woodthorpe,
Examiner of Questioned Documents

The highest form of co-operation is impossible without scientific selection of employees. Definite work that is to be performed requires certain mental and physical qualifications suited to that type of work. This phase of employee selection comes strictly under the domain of psychology.

The business manager should understand this phase of selection, or should make use of the services of some qualified person who does. An employee cannot be trained to fill the position assigned to him most efficiently, if he does not possess the mental, physical and emotional values that will permit such training to culminate in its objective.

Hit-and miss employee selection is wide spread in business to-day. Losses incurred by this employment system where length of service and experience are the only criteria, cannot be calculated. The figures would stagger the imagination.

It is a fair estimate that fully 60 per cent. of all people are either square pegs in round holes or round pegs in square holes, but it is also a fair estimate to say that 90 per cent. of all properly selected Anglo-Saxon people can be developed to a point of very high efficiency. With a few exceptions, the figures would be more or less the same for other races.

Factors of Selection
The need of a job forces many an employee to work his way through life on the hit and miss plan.

In order to select employees scientifically, two principal factors should be considered before all others.

The employer should possess a scientific analysis of the work to be performed. This includes not only the nature of the specific work, but a clear idea of its general relationship to the business as a whole. He should also be in possession of an analysis of the emotional make-up of the employee. He should understand the psychological reactions that dominate the behaviour of his employee.

We must concede that a worker needs proper tools and equipment, and we should not forget that the business manager also needs proper tools and equipment. Part of this is represented by the natural qualifications of his several employees.

Proper incentive to work and achieve is valuable, but this can also cause an employee more fitted for a different kind of service, to stay in a rut. This is often entirely overlooked.

To have an efficient employee who is nevertheless by the very nature of things, less efficient than someone else would be who possesses more nearly the characteristics required, means perpetuating an economic leak that is responsible for a certain definite amount of yearly loss. Yet scientific selection is not impossible.

The science of selection, as applied to the natural qualifications of men and women is highly developed, though not often realised.

In the past, during the experi-

CHRISTIAN SCIENCE NOTES I

The subject of the Lesson—Sermon in all Churches of Christ, Scientist, Sunday, February 11, is "SPIRIT".

The Golden Text is: (Ephesians 5:9) "The fruit of the Spirit is in all goodness and righteousness and truth".

The following passages are selected from among those comprised in the Lesson-Sermon to be read from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy:

"See then that ye walk circumspectly, not as fools, but as wise... understanding what the will of the Lord is." (Ephesians 5:15, 17) "Understanding is a quality of God, a quality which separates Christian Science from supposition and makes Truth final." "Through divine Science, Spirit, God, unites understanding to eternal harmony. The calm and exalted thought or spiritual apprehension is at peace."

The Rhyming Optimist

By ALINE MICHAELIS

All my life I have loved the sea. It is a passion that burns in me fiercer than words can tell. It is a part of my being's core: Beauty, to me, is a spray-flecked shore, Peace is where the great waves swell.

Many a time has the ocean's song Soothed and lulled me all night long After a vexing day; Many a time has the lifting tide Brought me a joy that the world denied,

Sweeping regrets away. All other loves I could let go by, Some with a smile and some with a sigh.

This love I cannot resign; Something there is in the green wave's quest, Endlessly driving them, crest on crest Kin to this heart of mine!

? THE QUESTION BOX ?

The correct answers to the questions appearing on Page 3 follow:

1. Jerusalem.
2. The ribs.
3. The young.
4. An alloy of tin and lead.
5. A province in the Union of South Africa.
6. Revelations.
7. Geneva, Switzerland.
8. Ninety.
9. One who certifies legal papers.
10. That which writes, or that which is written.

mental stages, there was much guess work, and even now some investigators are still in the guessing stage. This has served to make the feature appear unreliable, and of doubtful value in the eyes of many.

Nevertheless, modern analysis has advanced like other modern achievements, and today, it is certainly possible to indicate with accuracy many logical lines of activity for human beings.

While the last word on the scientific division of labour has not yet been spoken, it is sufficiently accurate in the hands of an experienced counsellor to account for at least 60 per cent. of those hidden losses that are never recorded by any accounting system, because they cannot be discovered without a knowledge of the relative fitness of the different labour elements.

Because handwriting is now known to be brain writing, it has become a means for determining many things about the brain, and is today one of the most valuable means of determining individual fitness for certain kinds of work.

In the forthcoming elections, women will vote for the first time in Spain under the Republic with the exception of a few isolated towns. Statistics show that out of 570,560 voters in Barcelona, there are 55,615 more women than men.

Valentine Tea At the Ascension

Arrangements have been completed for the Valentine Tea, to be held at the Church of the Ascension on Tuesday afternoon, February 13th at 3 o'clock. The programme has been arranged by the Women's Guild. The speaker for the occasion will be the Rev. Charles George Smith. Solos will be rendered by Mrs. B. J. Moore. In conjunction with the tea, there will be a sale of Home Cooking by the ladies of Group "A".

RESCUE 185-LB. MAN

In qualifying for his "Scout Rescuer's" Badge, Patrol Leader Douglas Lloyd of the 84th Winnipeg Troop, a lad weighing but 90 pounds, made a demonstration rescue of a 185-pound man.

WINGED WHEELERS DEFEAT EPEVIERS

Add Another Victory to Long String, Winning 4-2, In Fast Game

The Winged Wheelers added another win to their long string of triumphs by defeating Epevier, 4 to 2. The game started very fast, with Epevier scoring in the first minute of play. The second period saw the Wheelers get their stride, and score three beautiful goals on plays by McLean, Hennessy, and Pickard. In the third, with both teams fighting hard, Murray of the Wheelers clinched the game with a beautiful solo.

The Wheelers met the St. Louis team for a 3-all draw. They also defeated the Regents A.C. team by a score of 3 to 1. In a second encounter with Epevier, another fast game resulted in a 3-all draw, with both teams playing their finest hockey. Shortly afterwards, the Wheelers met the Regent team in a second game. The Wings like to think of this, 4 games in a day, as somewhat of a record.

The Wheeler line-up follows:

Goal: Cornell, defence: Goal, Cornell; defence: Goldberg, Leonidis; centre: Bolahan; wings: McLean, Williams. Subs.: Baum, Hennessy, Padveen, Hennessy, Pickard, Murray.

Sunday Night Forum At North Branch "Y"

"Any measure of value for medium of exchange" is a part Dictionary definition of "money" by which it may be seen that money came into existence with man himself. At first only a simple system of barter, this measure of value has grown into the complicated problem known to us as finance.

This development and the various factors influencing it was the theme of a paper, "Money, Its Origin and Uses" presented to the Sunday Night Forum by Mr. Lawrence Montgomery, of the Bank of Montreal.

The first metallic money was used by a king of Lydia, from 700 to 650 B.C. Leather money was employed as a substitute for coins by inhabitants of besieged towns, and came to be known as "seige money". The origin of paper money is obscure but during his travels, Marco Polo found it being used in China during the 14th century. The pieces of paper money which we now receive and give in daily business transactions are mere-

MacVICAR MEMORIAL CHURCH NOTES

Services will be conducted on Sunday next in Macvicar Memorial Presbyterian Church at 11 a.m. and 7:30 p.m. Rev. Dr. Potter will preach at both services. On Monday night the Young People's Society will hold a specially interesting meeting to which all young people are cordially invited.

A great treat is in store for all North End lovers of good music, Wednesday night next, February 14th at 8.15, the Boy Choristers of the London, England, Choir School under the able leadership of Carlton Burrows, A.R.C.O., sub-organist of the Chapel of Savoy and Master of the Choristers. The programmes feature Emyln Lewis, famous Welsh Boy Soprano, winner of many nation-wide singing contests. In presenting the London Boys Choir Macvicar Church is privileged to offer to North Enders a programme, which, beyond doubt, represents the best in the way of English Choral Music. Each of the boys in the London Choir School ensemble is a soloist of one of the prominent London churches.

The singers were brought together and especially trained as a group for their 1933-1934 Canadian tour. The Choristers' repertoire includes Carols, Sacred Music and English Folk songs—songs we all know, whether or not we are musically educated—songs that charm children as well as grown-ups alike. In order to give everybody a chance to hear and see this delightful Boys' Choristers Choir, tickets will not be issued but a silver collection will be taken.

ly bills of exchange or Bank "notes" which would be valueless but for the gold security behind them.

How gold was decided upon as a standard or basis of value was explained; also the process of minting money, general system of banking, "The Finance Act" and the influence of foreign exchange value or international trade.

The splash party sponsored by this club was held in North Branch "Y" on Friday, Feb. 2, and was voted a great success by some forty or so people who attended and thoroughly enjoyed themselves swimming and dancing.

Meeting are held every Sunday evening at 9:00 p.m. in the lounge room of North Branch Y.M.C.A. Any persons interested in them may get in touch with the president, Mr. John Large, at the above address or communicate with the secretary, Miss Lillian Henderson, at 4823 Western avenue, Westmount.

Strathcona Academy Highlights

NOTICES

On Friday of this week the Current Event Club will be addressed by Mr. Guy Tombs on "The St. Lawrence Waterways".

A meeting of the Magazine Board will be held on Wednesday, February 7th. A full attendance is required so that information concerning the amount of material ready may be obtained.

Recital

The recital by Miss Edith Shaw Armstrong, soprano, and Mr. Gordon Tenny Brand, baritone, scheduled for Friday, February 2nd, for the pupils of the higher grades, had to be postponed owing to the illness of one of the artists. It will be given at a later date.

Dance

The second dance of the season was held on Friday, February 2, 1934 at the Strathcona Memorial Hall. This dance was given by the Student's Council and was mainly attended by present high school pupils.

The music was provided by Reggie Lewis, a former student at Strathcona and his orchestra.

Girls and the Gym Exhibition

The Gym Exhibition which has been missing from the Strathcona events for some time is to be resumed. Eighth Year and Ninth are expected to contribute their share of drill and mat work, while Tenth and Eleventh will, after an absence of a year, apply themselves once more to the mat and to the terpsichorean art. On Thursday, February 8th, will be the first meeting of the Tenth and Eleventh to discuss their part in the exhibition.

Senior Hockey

Seniors jumped into a second-place tie when they held a strong L.C.C. team to a one-all draw on Forum ice. L.C.C. had the edge on the play during the first period, and managed to score a tally after eight-minutes

of play. Strathcona then took the offensive, and finally after 9:40 min. in the second period, Griffiths took a beautiful pass from Walker to tie the score. L.C.C. immediately went on the defensive and withstood the Strathcona attack until the bell rang. The game was rugged and fast throughout, with Walker and Griffiths giving the best performances on the front lines. Levitt in the nets and Ashkanase on the defense were outstanding for Strathcona. Kenny Grant officiated.

Intermediate

Strathcona intermediates played their first draw game of the season against Lower Canada College, the game ending with the score 1-1.

The game was slow at times as both teams found it hard to get started, due to the close checking.

Ridgway scored the Academy goal on a long shot from the blue line, which completely fooled the visiting goaler.

The Strathcona team had a large margin of the play but could not supply the winning tally for victory.

Baseball

Strathcona Seniors won their first game of the post-season series over a combined North Branch Y-N.D.G. Community Hall team by the score of 35-32.

The game was a closely matched contest with Strath. winning in the second overtime.

For the visitors Carruthers and Stalon played well, scoring 27 of their team points.

The line-up: Strathcona—Raich, 10; Mislav, 8; Hoffman, 4; Kalfas, 4; Josephson, 4; McClay, 3; Weinstein, 2; Usheroff, Wellington. Referee: Jimmy Roberts.

Badminton

Now that the doubles tournament is over, the girls are starting one in singles. Many entries have come in. The first seven doubles teams at the top of the ladder at the end of the tournament have been chosen to represent the school on February 24th when many of the Montreal schools will send teams to compete in an elimination tournament. Miss Thompson, Miss Cullen, Mr. Deathe and Mr. Eaton, the star players of our staff, will be in line to coach the girls before they are sent up. The school team is as follows: Annette Kahn, Pearl Garmaise; Aileen Moore, Doris Smith; Freda Cohen, Betty Anderson; Mary Egan, Noreen Patterson; Jean Mendel, Mildred Flanders; Jessie Farquharson, Ruby Rabinovitch; Jean Perham, Bernice Balinsky.

Alice Brady ran away from the ultra-smart Boston Conservatory of Music, where she was studying, to go on the stage with a frayed stock company . . . and would have if her harried father hadn't arranged an opening in a reputable New York show.

NOTICE OF APPLICATION FOR DIVORCE

NOTICE IS HEREBY given that Dame Ena Beatrice Duclos, of the City of Westmount, district of Montreal, County of Hochelaga in the Province of Quebec, will apply to the Parliament of Canada at the present or next session thereof for a Bill of Divorce from her husband, Winnett Wornibe Boyd of the said city of Montreal, Civil Engineer, on the grounds of adultery.

Dated at Montreal, Province of Quebec, the 25th day of January, 1934. Howard S. Ross, Suite 604, Themis Building, 10 St. James Street West, Montreal. Solicitor for Applicant.

LUKE CALLAGHAN MEMORIAL SCHOOL NOTES

The Debating Club of the Luke Callaghan Memorial School held a recall of its first debate in the School Auditorium before the adult parishioners of St. Michael's Church on Monday evening, in response to the request of Rev. Father Singleton, P.P.

Among those present were Rev. Father Singleton, Brother Patrick, Director; Aid. Owen Callery, Outremont, Mr. Cherry, Grand Past Master of the Knights of Columbus, who acted in the capacity of senior judge, and Messrs. McDougall and Altimus, judges, both of St. Michael's.

The debate was an inter-class feature, the affirmative being represented by F. Mansini and E. Shea, of the Ninth, and the Negative, by Jack Leahy and Charles Cornell, of the Tenth.

In rendering the decision of the Judges, Mr. Cherry declared that the speakers were capable of challenging any other debating club in Montreal. The affirmative, on upholding "That Movies Are Degrading" was awarded the decision. Plans are now being made to hold a debate with the Junior Board of Trade.

Hockey—Senior

The St. Michael's Seniors hockey team caused another upset in the Interscholastic League when it scored a 6-0 shutout over the second-place Lachine High School team at the Globe Rink on Thursday.

Led by McMeninam and Sallie who scored two goals each, St. Mike's took a two-point lead in the first period and extended its total to six with four more goals in the last period. Lawton also picked up two points with a goal and an assist.

The ice conditions were poor and the first period ragged. McMeninam led a long drifter that caught Driscoll napping to give St. Mike's the lead. Although Davies got a penalty for boarding, the Lachine team was unable to change the score. Shortly after fifteen minutes of the first period had elapsed, McMeninam scored his second goal on a close-in shot.

On the return to play in the last half, Lawton took a pass from Davies at the Lachine goal-mouth to make it three. Moore and Davies were benched for roughing each other, and while they were off, Devlin beat Driscoll on a slow corner-shot. The red-shirted Lachine six used a four-man attack. The latter broke away twice for scores.

FAIRMOUNT ST-GILES CHURCH NOTES

On Sunday morning the minister will continue his series of addresses on "The Ten Commandments. Subject: "Sunlight or Shadow", based on the 2nd Commandment, "Thou shalt not make unto Thy Self any graven image. In another column, in a church notice will be found a list of the subjects of this series, and the Commandments upon which they are based. Find this notice and cut it out for weekly reference.

At the evening service, the minister's subject will be, "The Magnetism of the Man Nobody Knows"—Last Sunday evening, on the Annual Scottish Service, Rev. Burton Robertson, dealt with the life of David Livingstone, as not only "Scotland's greatest son", but as one of those outstanding world figures that sought to imitate, and drew its inspiration from the Christ of Galilee—A large congregation greatly enjoyed the Choir's rendering of Scottish numbers including solos from Western McCallum and Mrs. Harold Mills of the Scottish Choir of Montreal.

The Young People's Society held an interesting "Friendly Hour" at the close of the Sunday evening service—a special feature of which was a Young People's Forum, which nearly one hundred young folk who remained greatly enjoyed. Mr. Ernest Winrow was in charge—and refreshments were served by a committee headed by Miss Muriel Amos. For Monday, Feb. 12th, the Society is planning a Sleigh Ride party.

On Tuesday of next week the Men's Association will hold its first 1934 function, a Men's Supper at which Canon Shatford will be the special speaker. A fine crowd of men is expected to attend.

The Women's Association tea held on Tuesday last was a splendid success. Despite the exceedingly cold afternoon approximately 250 women attended, and enjoyed a splendid program provided by the Cote de Neiges Woman's Club, and Mr. O. Reilly.

"I thought of giving my uncle a hundred cigars like these. Can you think of anything he would like better?"
"Yes, 50".

Bob Montgomery is practicing trap shooting and may go in the Olympics if he improves enough?

BEAVERS BREAK SCORING RECORD

Defeat Question Marks, 12-3, In Outremont League

Playing a scheduled Outremont League match on Wednesday night, the Beaver Intermediates broke the high score record for the season when they defeated the Question Marks, 12 to 3. Both teams played some very fine hockey, but the Beavers proved themselves by far the better group.

In another League game, the Beavers trimmed the St. Michael's A.A. Team, 7 to 1. A large crowd witnessed this fine, clean hockey game. Both teams made a good showing, although the Beavers were without three of their star players. This game had a very important bearing on the league standing for the playoffs.

On Wednesday, the Beaver Juniors were held to a draw by their own Juveniles, and were later defeated by the Rovers, 4 to 3. The Juvenile team trimmed the Stadacona team, 7 to 5, and the Comets, 7 to 4.

The coming week will see some very important League games played.

Juniors

St. Michael's Juniors, Section 'A', defeated the Regents in a North-end exhibition game on the Globe Rink with McMeninam, Hennessy, Heisner, Mulcair and Merrigan starring for St. Mike's, while Marks added another shut-out game to his fine record as the School's goal-keeper. The final score was St. Mike's 10; Regents, 0.

In a Presentation League fixture, the St. Augustine's team went down before a 7-2 defeat at the hands of the St. Mike's Juniors, Section 'A', the St. Mike's players holding the margin of throughout the entire two periods. Mike Hennessy and Ed. Mulcair shone for St. Mike's while Marks added another notch to his already high system of tallies. Mundy and Davais, playing for St. Augustine's, lead their attack, and made the only two goals. The final score: St. Mike's Juniors, 7; St. Augustine's, 2.

The line-up for both games: Goal, Marks; defence, Heisner, Brennan; forwards, McMeninam, Hennessy, Mulcair and Merrigan.
