Morning Chronicle,

AND COMMERCIAL AND SHIPPING GAZETTE.

VOL. XII.] QUEBEC, TUESDAY, 14TH SEPTEMBER, 1858. [NO. 3204.

For Sale or To Let.

TO BE LET,

— With immediate possession : —

THE Commodious house in St. Louis Street, with good Stabling, Yard, and Garden, the Property of Dr. MACKIE,—lately occupied by Major BARNDEN, R. A.

J. GREAVES CLAPHAM,
Quebec, Aug. 26, 1858. Notary.

FOR SALE,

BALVENIE HOUSE, with Barns, Stables, &c., &c., and from TWO to TWENTY-FIVE ACRES of LAND in lots to suit purchasers.

The Property is held in Free and Common Soccage, and is situated between the St. Foy and St. Lewis Roads, within 1¼ miles of Quebec. Apply to

DANL. MACPHERSON, N.P.,
St. Peter Street.
Quebec, Aug. 9, 1858. 1m

FOR SALE,

THE FARM known as "MAPLE BANK," between two and three miles distance from the City of Three Rivers, containing 138 Arpents, 50 of which are cleared and under cultivation. There is a neat and commodious Dwelling, containing Seven Rooms, a Kitchen and a Cellar, as also an excellent cool brick built Dairy and a stone built Root House, both offshoots from the dwelling House. There is also a good sized building used as a Granary, the lower part of which, if required, could be converted into a dwelling for a married Farm servant. The Stable, Barn and Sheds are ample and in good order.

The Garden is well stocked with Fruit and Ornamental trees, and adjoining is a Trout Pond, the stream from which passes through the Garden and Farm, which could be used for the artificial propagation of Fish, or Mechanical purposes.

There is sufficiency of hard and soft Wood growing on the land to supply the occupier for fuel and building purposes for ever.

This property could be made by a small outlay one of the finest spots in the Country.

PRICE—THREE THOUSAND DOLLARS.

Any further information can be had by applying to W. DENOON, 11 St. John Street, Quebec, or to JAMES DENOON, Three Rivers.
July 20 1858. 1m

$500 Reward!

DR. TUMBLETY'S

VEGETABLE COMPOUND.

THE Proprietor, DR. TUMBLETY, has deposited $500 with the Bank, the same to be forfeited if the Vegetable Compound fails to cure a single disease mentioned in this circular, if used according to directions.

Rheumatism, Pains in the Back, Breast and Side, Palpitation of the Heart, Toothache, Headache, Cramps in the Stomach, Frosted Hands or Feet, Sprains or Bruises, Stiffness of the Joints, Fever and Ague, Cholera Morbus, Coughs, Colds, Loss of Appetite, Summer Complaints, Bruises, Sore Throat or Quinzy, Swellings and External Injuries, &c. &c.

"Its efficacy has been fairly tested, and its virtues pronounced unparalleled."

PRICE—50 cents and $1 per bottle.

VEGETABLE CATHARTIC PILLS.

For Habitual Costiveness, Weak Bowels and Stomach, Slow Circulation, Impure Blood, Pimples of the Skin, Too Full Habit, Determination of Blood to the Head, Indigestion, Overloaded Stomach, Disturbance of the Stomach or Bowels, from unripe or Indigestible food; Palpitation of the Heart, from indigestion or wind; Torpid Liver, &c. &c &c.

I have never known a person who, having once used these Pills, ever abandoned them for any other. They are, though gentle and mild, very efficient, carrying off the humors of the body, purifying the blood, correcting the stomach, giving activity to the Liver, and a healthy tone to the whole system.

These Pills have one great and distinguishing peculiarity—a virtue which has been long sought for in cathartic, but has not, as we are aware, been hitherto found. There is not probably a single reader of these lines, if he has had the occasion at any time to use cathartic medicine, who has not found by experience that after its operation his bowels were more or less weakened for a time, indicated by subsequent costiveness. It is in the nature of cathartics to act thus. In this Pill there is combined a tonic which completely sustains the bowels and the system, while a cathartic influence has been produced. They therefore never lose their effect: never leave the bowels costive, and may be used by the most delicate person. For the diseases named they act with complete efficiency, searching out and removing all impurities of the system, acting upon the whole alimentary canal, and restoring tone and vigor to the whole system. When once adopted they are never abandoned for any other.

Price 25 cents per box.

Sold Wholesale and Retail, by

PUBLIC NOTICE.

CLOTILDE GOSSELIN, MILLINER and DRESS-MAKER, in returning thanks for the liberal encouragement extended to her since she has resided in Quebec, begs to inform the public that she has REMOVED to No. 22½, St. John Street, without. She takes this opportunity of announcing to the gentry who may require Gentlemen's Shirts, or Ladies Morning Dresses, that she has always on hand and for sale a splendid assortment of those articles, made and finished in every style, and to meet all tastes. In expressing her desire to deserve public patronage, she thinks it further incumbent on her to state that at the Montreal General Exhibition, her work was thought worthy of and was incontrovertibly accorded the first prize, over all competitors.

In cases of death, whether the same occur at night or day, the Subscriber will be always ready to undertake to enshroud and lay out the body of the deceased, in a becoming manner, and further to make every preparation for the funeral. In offering her services in this particular, the Subscriber conceives she can give entire satisfaction to all who employ her, and furnish Clothes for the dead and other funeral habiliments, superior to any in Quebec. The whole at very moderate prices.

3.—TROTTING RACE OF $100, ten per cent entrance, with an inside Stake of $20 each, p. p., open to all horses, mile heats, best three in five, in harness. The second horse saves his stake.

4.—BEATEN PLATE OF $50, ten per cent entrance, mile heats, best two in three, open to all horses beaten during this meeting, weights to be handicaped by the Stewards. The entries for this Race to be made at the Post immediately after the Trotting Race.

RULES AND REGULATIONS.

1. The decision of the Stewards to be final in all cases.

2. The Stewards are authorized to postpone the Races in case of rainy weather.

3. The Races will commence each day at One o'clock precisely.

4. No Horse can be entered for any of the above Races, Sweepstakes, or Plates, unless his real and *bona fide* owner be a subscriber of $5 to the Race Fund.

5. Riders and Drivers to turn out in full Jockey style, (English or American,) otherwise the Horse will not be allowed to start, or his owner will be fined, at the discretion of the Stewards.

6. En "Entrance" in each Race of ten per cent on the whole amount of the Purse and inside Stakes, (except those otherwise provided,) must be paid into the hands of the Secretary of the Turf Club, at or before 9 o'clock, P. M., on MONDAY, 20th SEPTEMBER next, at the Magog House, in the Town of Sherbrooke.

6. Entries for the above purses, (except those otherwise above provided,) shall be made and addressed to the undersigned, Secretary of the Club, at or before four o'clock, P. M., on SATURDAY, the 11th September next, at the Magog House, in the Town of Sherbrooke, where they will be open.

7. No public money will be given or paid for a walk over.

THE FOLLOWING ARE THE MONTREAL DISTRICT TURF CLUB WEIGHTS:

Three years old,	6 stones, 9lb	....	93 pounds
Four years old	7 " 9lb	....	107 "
Five years old,	8 " 4lb	....	116 "
Six years old,	8 " 10lb	....	122 "

Aged horses, 9 stones....126 pounds.

Mares and Geldings, allowed three pounds.

When the conditions of a Purse or Sweepstake shall not be exclusively for Horses bred in this Province, ten pounds shall be allowed for Horses so bred. This last rule will not apply to the Races wherein it is stated there will be no allowance.

ED. WORTHINGTON,
Sec'y. St. F. D. T. C.
Sherbrooke, Aug. 18, 1858. 3-1aw

In Store and for Sale:

TEAS—Young Hyson, Old Hyson, Hyson Twankay, Twankay, Imperial, Gunpowder, Souchong, Congou.

QUEBEC, SEPT. 14, 1858.

The Toronto *Leader* had, last week, a remarkable editorial on what is usually styled the non-sectarian system of education, which *soi-disant* liberal politicians have endeavoured to make supreme in Canada. In Ireland an attempt has for several years been made to effect a similar object on a wide and powerfully supported plan, embracing what is called the "Irish National System of Education." Notwithstanding the abilities of Dr. Ryerson and the literary talents of M. Chauveau, the system is attended with considerable difficulty even in Canada, and has not of late worked very smoothly. The project of Mr. McGee's newly acquired political friends of sending him to Ireland, as a Commissioner of Inquiry on the subject, might have afforded that individual the means of making a cheap and protracted visit to his friends in Ireland; but it could not be productive of any beneficial result to Canada, except the temporary residence of a troublesome customer to certain parties, who desired to rule the Province without his farther interference in their tactics. It is now generally allowed that the System of National Education in Ireland has proved to be a failure as far as that country is concerned; nor is it, therefore, easy to perceive how the system could be beneficially transferred to Canada. Men of every way of thinking will agree that the absence of sectarian bigotry is a thing much to be desired; that a liberality which ignores all prejudices and distinctions of religion and race, is praiseworthy and philosophic. If there is a place, where all sects and races may meet without quarrelling, that place must surely be the Republic of Letters. Such comprehensive schemes look very well upon paper and, from their grandeur and imposing appearance, lay hold of excitable imaginations. They are beyond doubt, perfectly correct and admirable in Theory; but, in practice experience has proved them to be utterly impracticable. In science calculations can be made with unnerring accuracy up to a certain point. But we should be inclined to think meanly of the ability of that scientific man, who acted precisely up to his mathematical formula without taking into account the nature, the wear and tear of materials. What then must we think of the statesman who devises general schemes of Religion and Education, without taking into consideration the weakness, passions and prejudices of the people for whom his schemes are devised? The principle, upon which the Common Schools are founded, is objectionable to Episcopalians, Presbyterians and Roman Catholics. The Colleges, which have been established upon these principles have not been distinguished for success. Look at the Upper Canada University with its rich endowments, its many exhibitions, its numerous Professors; it would soon die a natural death if deprived of the government assistance; yet when it existed as the sectarian establishment of King's College, it was a flourishing institution. That psendo-philosophical philanthropy, which was so largely developed in the French writers of the Revolutionary period, seems to have taken possession of the Canadian politicians who have labored to establish the so-called non-sectarian system of Education, a system with which all sects interfere and wrangle. They were anxious to show themselves above the little feelings of bigotry and sectarianism; and, as a proof of the liberality of their views, commenced their plans of reform by plundering the Episcopal Church. At the present time, when the exchequer is exhausted, great discretion ought to be used in the the bestowal of the government grants; and great care should be taken to see that the money assigned by the Government, is properly laid out. It must be a general wish to find the opportunities of obtaining a good education as widely disseminated as possible, and statesmen might, as in Prussia, be allowed to go the length of compelling every child to learn to read and write. But we really cannot see why such large sums of the public money should be given to establishments for the education of children of the middle class. Some assistance from Government will always be required to render efficient the schools for the poor. But it does not seem strictly consistent with reason and fairness that the country should be taxed for the education of these persons who are quite able to pay for the education of their children themselves. Educational affairs are certainly not in the most satisfactory condition either in the Upper or in the Lower Province. It seems to be forgotten that intellect like water will under ordinary circumstances rises to its level, that it can be sold and bought like any other article of commerce; that, when government interferes with its sale or purchase, it is apt to determinate and lessen the value of the commodity. One of the first reforms required is the appointment of a minister of education who shall be responsible to parliament for the correct discharge of his duties and the faithful disposal of the money committed to his care, or voted for the purposes of education. There might be a superintendent for either section of the Province, as at present, under his control, and of course with a less expensive retinue and establishment.

The new steamship NORTH BRITON, of the Ocean Steamship Company is the next boat to this port, taking the place of the IS-DIAN.

SHEFFORD ELECTION.—The following is a telegram which we have received from a Correspondent:—

"ST. HYACINTHE, Sept. 11.

"The following was the state of the poll at the close on the first day:—

"Foster.....685
"Drummond.....610

"Majority for Foster.....75"

This telegram we received from a correspondent, whom we consider reliable, on Saturday morning. Up to a late hour the same evening we had received nothing further. We will not speculate on a result which must so soon be known.—Montreal *Gazette*, Sept. 13.

It was announced, yesterday afternoon, in the "Courier du Canada," that a telegraphic despatch has been received, announcing that Mr. Foster was elected by a majority of 236! The editor of the "Courrier" shrewdly adds that Mr. Drummond has thus received the reward, which, for several years past, he has been labouring, and has now richly merited. "Honor to the county of Shefford (exclaims the same journalist) which has thus given a triumphant proof that it fully comprehended the true interests of Lower Canada in opposition to the intrigues of Mr. Brown. Mr. Drummond has fallen low, indeed, in having afforded such an opportunity to his former friends and opponents thus to crow over the discouraging result of his late political flirtations.

The Upper Canada steamer *Canada*, Capt. Geo. Willoughby, left this port last evening, about half-past five o'clock, for New York. Weather fine, wind west.

THE COMET.—The comet was distinctly visible here last night, between half-past seven and eight o'clock. It moves from the West to the East of North in a very small circuit, about ten degrees above the horrison, and with great rapidity. The nucleus is very bright, and the tail well defined, stretching in a slanting direction upward from the body. After being visible for half an hour, it was obscured by a cloud.—Com. Adv.

The comet was observed by many on Saturday evening. At about half-past eight it was nearly in the north west, judging by the eye, from its relation to the polar star. The evening was a little cloudy, but at times it shone out with great brilliancy. It was not many degrees above the horizon. Its tail pointed north.—Montreal *Gazette*, Sept. 13.

During the course of yesterday several persons *en passant* left word at the *Chronicle* office, that the Comet was visible at Quebec during the previous evening, and was distinctly seen by them in the North-westerly region of the heavens. The description, which they gave of the interesting stranger, closely resembles the account extracted above from the Montreal papers. In the telegraphic report from L'Islet its appearance is also announced; and we infer that S. E. is an inadvertancy for N. E. or rather N. W.

M. Poitevin, the intrepid aeronaut, whose excursions on horseback caused so much excitement in London, has met the fate of his predecessors. He fell into the sea near Malaga, when descending with his balloon, and was drowned.

OREGON FULLY ORGANIZED AS A STATE.—The following are our latest advices from Oregon, brought by the last California steamer:

The people of Oregon had not received intelligence of the failure of Congress to pass the bill for its admission into the Union The Legislature was in session, and had passed many laws under the State Constitution ratified by the people. Gov. Whitaker was in full possession of the office of State Governor, exercising its functions, and the entire government was carried on under the new system inaugurated when Oregon considered she had broken loose from the leading strings of Territorial rule.

Gov. Curry had relinquished his office, and all the other Territorial officers had followed his example.

The United States Senators elect, Messrs. Lane and Smith, will undoubtedly present themselves next session, and demand that they be allowed to take their seats, and the members of the House of Representatives will certainly do the same thing.

Oregon occupies the same position now that California did in 1849. Congress having authorized the people to frame a State Constitution, and they having done so, they will contend that they are, to all intents and purposes, a State.

The grain crops, it was feared, would harvest light. Numbers of parties were leaving Oregon by the overland route, for the Fraser River mines. Gold discoveries are reported near Hillsborough, Washington county, Oregon Territory.

The official vote for Governor, at the late election in Oregon, is as follows: L.F. Grover, Democrat, 5 859; J. K. Kelly, Republican, 4,190. Majority for Grover, 1,669.

WHERE'S THE POLICE?—We regret that forbearance exercised by Church Wardens of St. Luke Church, Quebec Suburbs, in not prosecuting parties who on two former occasions broke the windows of the church, some twenty panes of glass have been destroyed since last Sunday in the basement story occupied as a school room. The Reverend Incumbent now humanely shrinks from prosecuting the offenders in the hope that Christian forbearance will disarm malice. We refrain from further remarks for the present, but as it is well ascertained that the mischief has been done by boys attending the neighboring school, we trust their parents, guardians and others will look to the matter, and prevent the recurrence of what they must be aware is severely punishable by law.—Montreal Commercial *Advertiser*.

ORCHARD ROBBERY.—The Land Pirates have not been so successful as they anticipated. During last week several collisions have taken place, in which the robbers have been worsted. Five men invaded an orchard near the Tanneries, and had gathered and bagged up several bushels of apples, when they were discovered by two watchers; and in a fight that ensued one of the rascals had his skull fractured by a blow with a clubbed gun; he now lies dangerously ill in the Hospital.

A party of four men were discovered by the owner of an orchard in St. Catherine street, stripping his trees; he fired at one of them, when he fell and was with difficulty carried off by his companions. They left behind them two life-preservers, several bags for their plunder, and plentiful traces of blood.

These orchard thieves sell the produce of their depredations to hucksters in the market, who by the encouragement which they give to such practices are equally to blame with the robbers; indeed there is reason to believe that some of them act in concert, the huckster visiting the premises in the day to reconnoitre, with the excuse of intending to purchase the fruit which his parners carry off at night.—*Ibid.*

BRITISH COLUMBIA.

(From the Morning Post.)

It is stated that Col. Moody, of the Royal Engineers, has received from Sir Bulwer Lytton the appointments of Lieutenant-Governor and Commander-in-Chief of the new colony of British Columbia. The commission of the gallant colonel will no doubt define the important duties which the governor will have to perform in administering the affairs of a dependency which, in every incident connected with its origin and growth, is without parallel in the history of British colonisation. Col. Moody superintended the formation of the small colony which for 18 years has existed in the Falkland Islands—a colony which is only memorable for its having, like Nootka Sound, once been the cause of an angry dispute between this country and Spain, and from its possessing an excellent harbour in which whaling and sealing vessels may refit. The colony of British Columbia is precisely the reverse of that which occupies a portion of the Falkland Islands. The population of the latter does not at the present time exceed four or five hundred persons, whilst the population of the former has reached in the course of a few months the extraordinary number of twenty or thirty thousand. The task which Col. Moody will have to perform on the Pacific coast of North America will, beyond doubt, require great firmness, ability, and discretion. The Colonial-office, with the sanction of parliament, has for five years at least determined to entrust to the hands of the Governor almost unlimited powers; and when the population has peacefully settled down, and large and thriving cities have sprung up at Fucas Straits, representative institutions and the ordinary machinery of free government will in due course supplant that arbitrary rule which Col. Moody will now, from the necessity of the case, be permitted for a time to exercise. The Colonial Secretary has acted wisely in having selected a military officer for such a post, and, above all, an officer who belongs to that corps which not only is to defend the colony, but to make those works of internal improvement and communication on which the future welfare of British Columbia must so mainly depend. The President of the United States, for the protection of American interests, has already despatched Mr. Nugent to the Fraser River district in the capacity of a diplomatic agent, and now Col. Moody is about to start *viâ* the Isthmus of Panama, to assume the difficult functions of governor of a colony into which thousands of the most lawless and adventurous spirits of California are daily flocking, and in which there exists no form or semblance of law except that right which the Hudson's Bay Company claims to exercise, not to punish crime, but to prevent the admission of spirits and ammunition, and to interdict all traffic with the Indian tribes. We suspect that the Colonial-office has but a very incorrect appreciation of the state of things which exist at the present moment in British Columbia. We often hear that extremes meet. It is just possible that the Californian diggers may carry with them Lynch-law an institution with which the Americans in new territories, to use their own phrase, "supplement" the inefficiency of their State or Federal systems of repression or punishment. Is Lynch-law, the wild justice of the American, to be brought face to face with the license to trade of the Hudson's Bay Company—a license which is restricted to the Indian, and which by no perversion of reasoning can be held to include the white man? Twenty or thirty thousand Californian adventurers, the *élite* of all the rascals of the world, well armed, impatient of control, but honest amongst themselves, are not likely quietly to submit to fiscal exactions which are levied simply for the profit of a moribund corporation. There being no law in British Columbia, we are afraid that the emigrants will almost excusably take the administration of justice into their own hands, will ignore the authority of Mr. Douglas, the Company's chief factor, and provoke many disagreeable questions which the Governor and Mr. Nugent may find it extremely difficult to adjust. Provision having been made for the defence of the colony, we may in the next place ask whether any steps have been taken to secure the administration of justice? The engineers engaged in making roads and building block-houses cannot, of course, be expected to maintain peace and order in every place where a hundred or two miners may choose to encamp. We would therefore suggest that a force, organised on the plan of the Irish constabulary, should be sent out to perform the ordinary duties of police, and to escort treasure from the diggings to the coast, and that several stipendiary magistrates should be appointed to administer justice in every populous locality. It will be asked—"Who is to pay the necessary expense?" The reply is easy. Let the government levy, by means of a license, a small tax upon all gold raised, and let this sum be applied to the purposes which we have mentioned. The Colonial-office, as well as everybody else, in dealing with this matter, can only proceed by the light which the experience of the rise and progress of California affords. In British Columbia the great majority of settlers must for a long time consist of American citizens. In California, though each man carried at his belt a revolver or bowie-knife, respect for life and property speedily became to be observed directly that vigilance committees stepped in and took the place of those authorities who either would or could not enforce the law. The American citizen has quite as much regard for the law as the British subject; but if there be no law to give him protection, then he associates with his fellows and attains it for himself through their agency. The duty of the Colonial-office is therefore to plant, as speedily and as efficiently as possible, the machinery of English law in British Columbia. By the adoption of this course, not only may many international disputes be avoided, "ready-made"—one composed of the most heterogeneous, and apparently most unpromising, elements—may be rendered safe and advantageous both to the mother country and to that dependency which is destinned, we are persuaded, to be the home of British wealth, British industry, and British power on the distant shores of the Northern Pacific.

THE CHARGE OF BIGAMY AGAINST THE HON. MAJOR YELVERTON.—Mr. J. R. Taylor, of London, solicitor to the lady who claims to be Major Yelverton's first wife, has addressed the following letter to the *Times*:

I have read the article in the *Times* of this day upon the above painful case with more than ordinary interest, as the first wife of the Major, the Hon. Maria Theresa Yelverton, consulted me in the first instance upon the subject. The lady is highly accomplished, having received her education in Italy, and is a niece of the Countesse Le Strange and otherwise well connected, possessing good private property, secured to her by the will of her father. She has informed me of the whole facts of the case and I can't agree with the *Scotsman* "that there are doubts, or more than doubts," as to the legal efficacy of the marriage. I trust, therefore, in justice to the lady, that you will give insertion to the following. The facts are these:—The lady was married on the 15th of August, 1857, according to the rites of the Roman Catholic Church, to the Honorable Major Yelverton, who, as the wife states, professed before the priest that he was of the Roman Catholic faith This is really the point at issue between the parties, and which will have to be tried. If both parties were of the same faith, there could be no necessity for a further celebration in a Protestant church or chapel, the Roman Catholic chapel in which it was celebrated being duly registered according to law. It is now set up that Major Yelverton was and is a Protestant, and therefore that the marriage is invalid. Upon this head I have taken the opinion of two barristers of long standing as the validity of the marriage, one of whom, of 30 years' standing, gave his opinion in writing on the 16th July last as follows: "I consider the marriage valid. If there be now any law by which the priest can be punished for celebrating a mixed marriage (which I doubt) that law can only apply to the question of punishment of the priest, not to the validity of the marriage. Proceedings ought to be taken against the husband for bigamy. Let him be punished." The letters in my possession from the lady, addressed to me from Edinburgh, will afford a different version of the case from that afforded by the *Scotsman*.—I am sir, your obedient servant.

JOHN ROBT. TAYLOR.

54, Chancery-lane, Aug. 29.

The Edinburgh *Courant*, speaking of this case, says: "Two witnesses—a Roman Catholic Priest, named Mooney, and an old lady, also from Ireland—were examined on Wednesday in the Procurator Fiscal's office, in connection with this painful case. The result, of course, has not transpired, but Major Yelverton's friends continue to express the greatest confidence that the case will break down."

MR. SUMNER'S HEALTH—WHAT IS A MOXA?

The Paris correspondent of the *Times* writing on the 19th of Aug. says:

"Mr. Sumner left town yesterday for a season at Aix-les-Bains, in Savoy. The cauterization of the spine has done him good, and after a season at Aix he will return to Paris again and to the *moxas*. Perhaps your readers do not know the character of this remedy. A *moxa* is thus made and applied: It is composed ordinarily of carded cotton, rolled into a cone, the base of which may have an inch diameter, and slightly pressed by and constrained in a piece of muslin, or other cloth. The cotton is saturated in some alcholized substance, such as camphor or nitre. It is then placed on the skin of the patient, over the diseased part, the cotton is lighted, and as the flame reaches the bottom of the cone, it is blown into the skin by means of a blow-pipe. The skin around is protected by a wet cloth. The greatest pain is experienced when the flame first reaches the skin. Soon the cuticle begins to crack; the skin contracts into furrows, turns brown, then fries, and finishes by becoming black and carbonized, like other burnt substance. These *moxas* must be repeated often, and over the whole course of the spine, if the disease be there, in order to produce a permanent effect. They are thus called from a Chinese and Japanese tissue like cotton, the *Artemisia Chinensis*, which they call in these countries *moxa*, for it is from these countries that the practice of the *moxa* is derived, and it is as old as history. It is, in fact, so old a treatment, even in modern times and modern nations, that it has almost gone out of use; yet it is sometimes resorted to in cases which have resisted all the other counter-irritants, and not unfrequently with marked benefit. The practice of burning the skin, or other diseased parts, which had gone somewhat out of use a few years ago, is now fast coming into use again in Paris. Scarcely a ward of the Paris hospitals is now without its portable furnace of charcoal and red-hot irons. They are applied, as well in medicine as in surgery, for a practice in chronic, illy-defined affections. The practice now in vogue, is that of stripping the patient naked and drawing an iron, heated to a white heat, quickly over the body, parching the cuticle brown in its track, and giving to the body the appearance of a stripped zebra. If the iron is white and the operation is practised cleverly, the patient does not suffer from it enough to force a cry; but if the iron is only red, the pain is, of course, very great.—N. Y. Evening *Post*.

FREE LOVE INSTITUTIONS.—These institutions it is said, are rapidly increasing in the city of New York. At present there are two on Thirteenth street, one on Stuveysant, four on Broadway, a very large one on Second avenue, two on Third avenue, three on Fifth avenue, one at Yorkville, under the supervision of Lola Montez, who indoctrinated the good Bavarians long ago, one on Laight street, and one on Union square, a palatial residence—besides a number of smallar ones. The Stuveysant street house has about 40 inmates.

SUICIDE BY STARVATION.—It is stated that Mr. Jacob Plant, 36 years of age, died in Manchester, Mass., on Monday last, of voluntary starvation. Mr. P. was paying attention to a young lady of the town some three years ago, but his proposal for marriage was rejected. This disappointment preyed upon his mind and he soon afterwards attempted to blow his brains out, but only succeeded in destroying both eyes. He has consequently remained blind for three years. During that time he once made an unsuccessful attempt to starve himself, but without success. The second time he was successful—meeting his end as above stated. He had partaken of nothing for *nine weeks* but coffee, sweetened water and morphine—finding his chief sustenance, during that time, from the fat of his system.

SINGULAR MANSLAUGHTER.—A negro is in Tolland County jail, Ct., for killing John Keeney, a charcoal dealer, of Hebron, who employed him, under these circumstances, as related by the negro himself. Keeney came to the negro's bedside, and pulled him out by his hair, and commenced kicking him brutally, because he had overslept himself. The negro seized a knife that was sticking in the wall and struck Keeney three times in the abdomen, who ran out into the yard, falling two or three times. The negro followed him and asked if he was much hurt. Keeney replied that he was not, and almost immediately fell dead.

WHAT CIGARS ARE MADE OF!—The New York correspondent of the Scoharie *Republican*, who it may be presumed, is domiciled in the neighbourhood of the Custom House, gives the following revelation of the component materials of "real Havanas." We copy it for the benefit of those who inhale, or suppose they inhale, the fragrant weed. It shows the doubt which hangs over, not only over what we drink, but also over what we smoke;

"Talking of cigars, I was told by a United States Government appraiser, a few days ago, the following TRUE STORY in connection with the cigar trade of New York: A large German importing house had received an invoice of foreign cigars, which were appraised by the custom officers at three dollars per thousand. The importers were dissatisfied, and asked for a re-appraisement, which was granted; and under the most positive evidence, supposed by the oath of the dealars, the cigars were admitted at a valuation $1 50 per thousand. Now the evidence alluded to was this—that not a particle of tobacco entered into the composition of said cigars, but that they were wholly composed of oak and other leaves soaked in a strong tobacco lye. I understand that large quantities of these "Real Havanas" find their way into the interior, and from some experience I have had in that line, I am inclined to believe that a few specimens might be found even among the primitive society of 'Old Scoharie.'"

Mr. J. G. Lyford, of Sebec, in Piscataquis county, a well-known woodsman of that region, has a record of three hundred and twenty-seven bears killed by his own hand since the year 1804.

BIGAMY.—On the 31st of August, a man named Peter Wilson was committed to gaol to stand his trial for having a plurality of wives. It appears from the affidavit, that, on the 18th October, 1857, the prisoner was married at the Parish Church, in this city, by Father Connolly to one Mary Bush; that subsequently he became acquainted with one Bridget Best, to whom he proposed marriage, and she accepting, was, on the 12th June, 1858, married to him by the Rev. Alfred Stone, Incumbent of St Thomas Church, the prisoner having previously informed her that he had been keeping a woman but was not married to her. The prisoner stands a f ir chance of a trip to Kingston. The man is rather elderly, while the unfortunate victim of his wiles is quite young.—Montreal *Transcript*.

THE ATLANTIC TELEGRAPH.

TRINITY BAY, Sept. 18.

Mr. DeSauty, the electrician in charge of the Atlantic Telegraph at this place, declines to make any statement relative to the cable for publication, beyond the positive assurance to the agent of the Associated Press that there are only temporary difficulties of an electrical nature, and there is no reason whatever for the rumor that the cable had parted.

NEW YORK, Sept. 10.

The Commissioners of Health are about to raise $8000 for rebuilding of the Hospitals. Some half dozen obnoxious individuals were burned in effigy by the Staten Island people. An attack was anticipated by the police, which prepared for it. The roman candles let off by the crowd attracted attention on board the frigate Sabine, and 100 men were sent ashore. They were not needed, however, as no other disturbance, than above notice occurred.

A heavy failure in the Coffee and Sugar trade is reported. Liabilities $300,000; assets large.

Judge Bowlin has accepted the mission to Paraguay.

It is said in Anti-Lecompton circles at Washington that Senator Green will support Douglas. The report is deemed doubtful.

FROM KANSAS AND UTAH.

ST. LOUIS, Sept. 10.

Leavenworth dates of the 7th inst., has been received.

At the Municipal election held at Leavenworth on the 6th, great excitement prevailed, but no serious disturbance occurred. L. B Denman, free State Democrat, was elected by about two hundred majority. Lyman Scott Republican and Know Nothing, and Adams Frazer, Republican, were opposing candidates.

The Salt Lake mail had arrived, and was 21 days en route.

The Mormons were orderly, and the government officials were attending to their business.

As soon as the associate Judges arrived the trials for treason would commence. No arrests had yet been made.

The Indians were very troublesome about the city, and had killed several Mormons. One family were massacred while moving South.

Dr. Forney, Indian Agent, was out among the tribes.

Engineers were locating the Four Posts on the western division of the mail route.

FROM AURIZONA.

ST. LOUIS, Sept. 10.

Col. Sayles, agent of the Post Office Department, arrived here to-day from Arizona. He reports the existence of a very careless state of things: the pistol and bowie being the only law recognized. Indian depredations were frequent.

Col. Sayles speaks favorably of the mineral resources of the territory, but deems the annexation of Sonora of the utmost importance to their successful development.

The Passa and Fort Yuma Wagon Road expedition will complete their work in November.

The agents of the California overland mail were met early in August, west of the Rio Grande, busily engaged in establishing stations and making arrangements to enter upon the service this month.

From New Mexico, Col. Sayles reports, that the difficulties with the Karajoe Indians were still unsettled. Gen. Garland had assured them that the murderers of Major Brooks's servants must be given up; and in view of pending difficulties he had ordered Col. Mills from Fort Fillmore to Fort Defiance.

HALIFAX, Sept. 10.

Steamship Canada, from Boston Wednesday noon, arrived here last night at 10.30, and left for Liverpool at 1 A.M. Weather cloudy and calm.

CINCINNATI, Sept. 10—Midnight.

The Steubenville and Cincinnati express train, going west on the Steubenville and Indiana Road, ran through a bridge this evening, 13 miles west of Steubenville. A messenger, who has just come in, reports that the whole train, which was filled with passengers, went down. A train has been despatched to the scene of disaster, to render all possible assistance.

NEW YORK, Sept. 11, 1858.

The "North Star" and "New York" left today; the former for Southampton and Havre with 114 passengers and $193,000, and the latter for Bremen with a good complement of passengers.

BOSTON, September 11, 1858.

The 2:30 P. M. train for Fall River ran into a freight train yesterday near North Barnstree. No lives lost. Three freight cars smashed. Loss by collision $10,000.

PITTSBURG, September 11, 1858.

A young woman named Miss Henry was murdered to-day by Thos. Smithson. She refused to speak with him when he was intoxicated, whereupon he drew a pistol and shot her. Smithson has not yet been arrested.

EXTORTION AT MONTMORENCI FALLS.

(*To the Editor of the Morning Chronicle.*)

SIR,—As publicity frequently cures evils not easily reached by other means, I beg to draw attention to an annoying imposition practiced upon visitors at the Falls. A person called Moulin, has built lately a little refreshment saloon there; and exacts the sum of a quarter of a dollar from each person who passes by to see the fall on the upper bank. This is rapacious enough; but it seems he has also enlisted the proprietor of a field on the Eastern side in the scheme by giving him a small share of the spoil; and the wicket gate which for the last 50 years was usually opened by a child of the habitant proprietor, who was always willingly paid for the service, is now held by this Monsieur Moulin, who demands a quarter dollar for each passer by. As strangers at this season often pass by fifties and hundreds daily, the amount extorted must be large, especially as it may be supposed that as citizens of Quebec pay so much, strangers are made to pay more. The thing is disgraceful and calculated to bring discredit on the place as well as on the city. I hope the respectable Seigneur and proprietor of the ground may see to this, as it is hardly possible he can be aware of it, and will no doubt interfere. Hotel-keepers in Quebec are also interested, and carriage drivers, as such impositions added to the very heavy turnpike tolls on that road will tend to prevent strangers visiting the most lovely spot in the vicinity of Quebec. It is impossible to squabble with this Mr. Moulin when accompanied by a party of ladies, but it may be a question, whether he or even the owner of the land can stop a thoroughfare established for half a century, and some one may be inclined to break down his gate, leaving him to try his remedy at law. No one would object to a small charge, such as three pence each, and it is to be hoped the proprietor will interfere and put a stop to this imposition.

A VISITOR.

Quebec, Sept. 13th, 1858.

"GOOD NEWS FROM HOME."

(*To the Editor of the Morning Chronicle.*)

MR. EDITOR,—There must be a screw loose somewhere in the conveyance of the mail between this city and Murray Bay. I have lately returned from the latter place and find that several newspapers besides a letter or two were addressed to me which I never received; nor am I alone in this respect, several persons who resided at the Bay this summer have similar complaints against the post office department. The proper authorities should look into this matter as soon as possible. On the south side no such blunders are ever made.

Yours, &c.,

R.

Quebec, 11th Sept., 1858.

By Telegraph.

VIA MONTREAL LINE.

(Reported for the Morning Chronicle.)

ARRIVAL OF THE STEAMSHIP

Vanderbilt.

Four Days later from Europe.

New York, Sept. 13.

The steamship Vanderbilt, from Havre and Southampton 1st instant, arrived at this port last evening. She brings the European mails, 355 passengers and a moderate cargo. She encountered strong westerly winds throughout the passage to Cape Race.

The news by the Vanderbilt is four days later than by the Asia.

The intelligence is important.

Her Majesty and His Royal Highness the Prince Consort arrived at Osborne at 4.30 on the afternoon of the 31st August, from the Continent.

The returns at Lloyd's show that 12 vessels have either foundered or been wrecked on the English coast, during the last week, involving serious losses. The whole of the crews, with one exception, have been saved.

The proceedings of the Ober Congress in Birmingham were almost entirely suspended, for the purpose of the watching of the progress of a chess playing fete, never before witnessed in England, Mr. Morphy's playing 8 games blind folded, and resulting in Mr. Morphy winning 7 games.—The match between Messrs, Stanton and Morphy stands thus: stake £500 a side, scorer of 1st 11 wins; to commence on 1st of November.

Ten steamers are to be employed on the Galway and New York route, and eight others to England and the continental ports as feeders.

Letters from Paris announce the suspension of Rudolt, Jung & Co., an important firm in silk trade.

Some large timber firms in Liverpool are in difficulty.

The Turkish ministry is out and a new one has been formed.

The Paris correspondent of the London *Advertiser* says the Russians are likely to encounter a formidable foe in China. The Jesuits have obtained authorization to establish an extensive branch of their order in those distant regions.

It is to sign the marriage contract of the Duke of Malakoff that the Emperor has put off for eight days his departure for Biarritz. It is stated that the marriage will take place on the 8th September, the anniversary of the taking of Malakoff.

One of the cannons captured at Canton has just arrived at Paris. It is a bronze gun of large calibre, nearly 9 feet in length, covered with Chinese characters, indicating the place where it was cast and its date.

A letter from St. Petersburg of the 7th states that the Emperor's brothers, the Grand Duke Michael and Nicholas, are to visit Sebastopol this year. It is said that this port is to be converted into a commercial station without fortifications.

Prince Gortschakoff found himself placed at table by the side of Lord Lucan and discussed together the sciences of the Crimean war.

The line of battle ship *Windsor Castle*, 170 guns, was launched on the 26th ult., from the Royal dock yard at Pembroke.

It is rumored that Generals Sir Howard Douglass, and Lord Clyde are to be raised to the exalted rank of Field Marshalls.

FRANCE.

A despatch in the London *Post*, dated Paris, August 30th, says that the Duke de Malakoff will return to London on the 31st August.

SPAIN.

The Correspondent of the London *Post* says that the execution of the Postal Treaty between Spain and England will commence in October.

PRUSSIA.

The Prince of Prussia is to be Regent at the expiration of his present powers.

Prussia has addressed a note to Vienna on her occupation of Rostadt.

AUSTRIA.

The Imperial Government had become alarmed at the peremptory refusal of the plenipotentiaries at the Paris conference to submit to arrangements made by Austria for counteracting the treaty of Paris.

BAVARIA.

A letter from Munich of the 24th, says that the marriage of the Duchess Helena of Bavaria, sister of the Empress of Austria, with the hereditary Prince of Tour and Taxis, was celebrated to-day at the Castle of Passenhofen.

TURKEY.

Advices from Constantinople to August 21st, state that the Porte has appointed a Commissioner to superintend the rebuilding of the fortifications of Kars and other points.

AUSTRALIA.

The Victoria Parliament stood adjourned to the 10th August, and will meet early in October.

INDIA.

A despatch from Calcutta, dated 29th Aug., says that Sir Hope Grant left Lucknow on the 20th July, to relieve Maun Lingh, and to capture Balldos.

The Rajahoo Rebels, after plundering Touk, had fled towards Chumbul, pursued by Col. H. Roberts.

The following despatch, received at India House, says that the fugitives from Gwalior, after making a demonstration against Boondee, on the 19th July, attempted to cross at Balldos, but failed.

On the 13th they were menacing Beehore and Bughore.

The Neemuch force had prepared to move out on the 1st August, for the purpose of co-operating with Holmes' column, which was last heard of at Bondee. The rebels are in considerable force, their number being estimated at 4,000 or 5,000 fighting men, with 5 guns.

The leaders are Tantia Topee, Yedel, and others.

A small force from Abemba, under Major Baines, had been pushed forward to Timoun, with instructions to march on Khemlassa, if necessary.

CHINA.

Diplomatic agents of the allies are allowed to reside temporarily at Pekin.

A Chinese Envoy comes to Paris and London.

MONEY MARKET.—The English funds opened steadily this morning at partial recovery obtained yesterday after regular hours, and there was ultimately a further advance. Consols for money were first quoted at 95¼ a 96, and last price was 96¼ a 96⅜ for money, and 96¼ a 96⅜ for new acct.

LONDON CORN MARKET, 30th August, was dull this morning at rates of Monday last.

LIVERPOOL MARKET, 31st August.—There was a good attendance at the wheat market to-day, but only limited business done at an advance of 2d per bushel from prices of Tuesday last. Flour, of prime quality, in good request, at an improved price of 6d per sack and bbl. Oats unchanged.

Indian Corn met with more attention, and an advance of 6d. per quarter is quoted.

American Wheat, 34s. 6d.

LONDON MARKETS, 31st August.—Sugar steady. Tea unchanged.

COMMERCIAL.

SCOTTISH AMICABLE *Life Assurance Society*

ESTABLISHED 1826.

President:

THE MOST NOBLE THE MARQUIS OF DALHOUSIE.

Vice-Presidents

His Grace The DUKE OF BUCCLEUGH,
His Grace The DUKE OF ATHOLL.
His Grace The DUKE OF ROXBURGHE.

☞ THE PRESIDENT, VICE-PRESIDENTS and DIRECTORS ARE ALL INSURED IN THE SOCIETY.

Amount of Capital sums assured, ... £3,250,000 Stg.
Annual Income, ... £ 130,000 "
Amount of Funds, ... £ 600,000 "

(Extract from Report at Annual Meeting at Glasgow, 27th May, 1858.)

"In submitting to the members the result of "the business of the Society during 1857, a "year so remarkable for severe monetary pressure and commercial embarrassment and depression, it is very satisfactory to the Directors to be able to announce that the new business has been greater even than the large "amount reported for the preceeding year. "Proposals have been made to the Society for "assurance of capital sums to the amount of "£536,647 1s. 8d., which have resulted in "1006 Policies having been passed and taken "up, assuring capital sums to the amount of "£413,742 1s. 8d.—the corresponding amount "of premiums being £12,992 19s. 4d. exclusive of £5,031 9s. 4d. single premiums received for Life assurance and annuities."

The high character and standing of this Institution and the principle on which it has recently effected a most important reduction in the annual premiums *(so desired by persons of limited income and in the case of Policies issued for collateral security)* will be fully and satisfactorily explained on application to the Agents of the Society.

New table of minimum premiums A. C. (under which the new Policies effected last year were so many as 293, assuring an amount of £130,138 15s. 0d Sterling.)

FOR EACH £100 ASSURED

For Age 20, ...	£1	8	6
" " 30, ...	1	16	7
" " 40, ...	2	9	7

TRUE TIME. *American Watches.*

THESE SUPERIOR WATCHES are made by the aid of new and original machinery, expressly designed to secure *with a low price*, a FINE SUBSTANTIAL and UNIFORMLY RELIABLE time-keeper. The movements are new in construction, have been pronounced by the highest authorities to be *faultless in principle and quality*, and have been proved by the most exacting tests to be unfailing in action. These watches are made entire from the crude materials, in a single establishment, by connected and uniform process—the factory being organized upon the same system that has been adopted in the production of the unequelled American fire-arms,—which enables us to produce a movement at *one-half* the price of a foreign movement of the same quality. Each watch is carefully tested, and is accompanied with the maker's certificate and warranty for TEN years.

ALL FOREIGN WATCHES ARE MADE BY HAND, the American watches being the only ones made by machinery upon a uniform system throughout. Nearly all hand-made watches are defective, and are continually getting out of order. In many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and *country merchants*, as well as watch dealers, can keep watches as a part of their miscellaneous stock, and thus supply their customers with a NEW STAPLE, which may be used as any other article, without mystery or humbug. Sold by the trade generally.

UPPER OTTAWA.

STEAMBOAT NOTICE.

1858. **1858.**

THE PUBLIC generally are hereby notified that the STEAMERS of the UNION FORWARDING COMPANY have commenced their regular trips for the season, and that the Steamers

'Pontiac,' 'Emerald,' & 'Oregon'

have been during the past winter very carefully and perfectly over-hauled and put into excellent order and condition. The Boilers of *Emerald* and *Oregon* have undergone thorough repair, and are pronounced, so far as safety is concerned, as good as new. Every requisite and attention, as by law directed, for the safety of passengers, has been strictly attended to; and, until further notice, their DAYS OF SAILING will be as under:—

DOWNWARDS, from the Rapids Des Joachim,

Passing through Deep River by Day-light,

STR. PONTIAC, CAPT. JNO. G CUMING,
Will Leave DES JOACHIM on MONDAYS and FRIDAYS at 5 o'clock a.m., touching at intermediate Stopping-places,—Arriving at PEMBROKE at 10 a.m., in time for Stages and Steamer to Portage-du-Fort,—Connecting there with steamers *Oregon* and *Emerald* on TUESDAYS and SATURDAYS at 7 a.m., for Ottawa City and intermediate places.

STR. OREGON, CAPT. M. HILLIARD,
Leaves PORTAGE-DU-FORT on TUESDAYS, THURSDAYS, and SATURDAYS at 7 a.m., touching at Castleford (Farrell's Wharf), Bonuechere Point, Bristol, Sand Point, and Arnprior,—Arriving at UNION VILLAGE at 10 a.m,, there connecting by RAIL over Chatts Portage (4 miles) with the steamer *Emerald* for AYLMER and intermediate places,—Arriving At AYLMER at 3: 30 p.m.

STR. EMERALD, CAPT. T. A. CUMING,
Leaves AYLMER on TUESDAYS, THURSDAYS, and SATURDAYS, at 7 a.m., touching at March Rocky Point, Crown Point, Quio, Fitzroy-Harbour and Pontiac,—there connecting with the steamer *Oregon* for Arnprior, Sand Point, and other Stopping-places *en route*,—Arriving at PORTAGE-DU-FORT at 4 p.m., where passengers take Stage for the Interior and Upper Ottawa,—Connecting at Pembroke with the Steamer *Pontiac*

STEAMER PONTIAC, (UPWARDS),
Leaves PEMBROKE on MONDAYS and FRIDAYS at 1 p.m.,—touching at Pittewawa, Fort William, Point Alexander, and other intermediate Stopping-places,—Arriving at DES JOACHIM at 6 p.m., where will be found superior Hotel Accommodation by Mr. T. COLTON.

Parties travelling for pleasure, or otherwise, will notice that these Vessels ply altogether in Day Light, consequently every opportunity of seeing and enjoying the beautiful and magnificent scenery of the Ottawa is afforded,—and particularly that of the Deep River, which is passed, downwards, by early sunrise, and upwards in the afternoon.

Parties of Pleasure, desirous of visiting the Upper Ottawa, can be accommodated on reasonable terms by special arrangement, timely notice being given to make connections of regular day trips.

These Steamers will be prepared to Tow Rafts, Logs, &c., when off trips, at reasonable rates, by the hour, mile, or job, as may be agreed upon.

FREIGHTS received Daily, (Sundays excepted,) from 7 o'clock a.m. to 8 p.m., and forwarded with care and dispatch.

To prevent any misunderstanding or trouble hereafter, notice is hereby given that the Union Forwarding Company will not grant receipts for quantity or quality of whatsoever it may be; and that all Liquors, Wines, &c., badly coopered, or put up in bad casks, leaky, &c., shall be and will be carried at the owner's risk.

Syrups, Oils, Molasses, Beer, Ale, and Porter will be received and carried at the owner's risk in all cases, at any time during the season. Powder will be carried by special arrangement only, and safely packed. The Company will not be responsible for any loss or damage to Crockery or Glassware received in a frail condition, nor for Mirrors or Clocks, or for Castings, or any such brittle wares or metals, or for loose Furniture, the Transhipping and Portageing *en route* requiring and exacting from Shippers more care and attention to the putting up of packages than has hitherto been manifested, and consequently losses to the carriers. This the Company wish to avoid.

Passengers' baggage at their own risk, unless specially given in charge to a servant of the Company and entered as freight, and charged for accordingly.

The Company having in the past season sustained heavy losses by the too general credit system, are forced to notify parties still indebted that any further accommodation must be refused until arrears are paid, and arrangements made for the future; and also, that all accounts for freight or passages are considered due when rendered, and expected to be met in the same spirit as contracted.

Freights from Aylmer to Arnprior, 1s. 2d. per cwt.

Freights from Ottawa to Arnprior, 1s. 8d. per cwt.

☞ Should business warrant, the *Emerald* and *Oregon* will run daily. Due notice of change will b given.

T. A. CUMING, *Agent.*
Aylm A .858. (13)

Quebec Timber Towers' Association.

THE TIMBER TOWERS of Quebec having formed themselves into an association for the purpose of securing a fair remuneration for their work, and also for the purpose of binding the members to assist one another, when, in consequence of accident or otherwise, the property entrusted to the charge of any of the members of the Association is in danger of being lost, the following TARIFF of PRICES has been adopted, which will in no case be deviated from in:—

For Towing the cargoes of Vessels,—

Under 300 Tons,	£3	0	0	per hund. Tons
301 Tons to 400 Tons,	2	15	0	do
401 " to 500 "	2	12	6	do
501 " to 600 "	2	10	0	do
601 " to 700 "	2	7	6	do
701 " to 800 "	2	5	0	do
801 " to 900 "	2	2	6	do
901 " to 1000 "	2	0	0	do

Every additional 100, £2 per hund. Tons.

And if by the stick,—for portions of Cargoes, 6d per stick when towed from ponds to ships on the same side of the river;

—AND.—

7½d per stick if towed across the St. Lawrence or from the St. Charles.

By the Lump—No charge to be made for 30 pieces remaining, but over that 6d or 7½d a-piece as above.

Deals, floated, 3s per standard hundred.

The above rates are exclusive of any charge for the hire of ropes, chains, &c.; the Timber Towers being only obliged to furnish boat and men.

A deduction of 10s per hundred tons to be allowed when the vessels take the whole of their cargo from a boom directly opposite their mooring berth.

☞ In the above tariff the tonnage is calculated according to the old measurement.

☞ Mr. MILES KELLY is the duly appointed Agent in conformity with the Rules and Regulations of the Association, to receive and collect all Monies due to any of the Members during the Season.

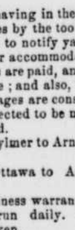
38½, Diamond Harbour.
Quebec, May 3, 1858.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE,

PRONOUNCED BY CONNOISSEURS, to be the NLY GOOD SAUCE, and applicable to EVERY VARIETY OF DISH.



EXTRACT OF A LETTER from a MEDICAL GENTLEMAN a Madras, to his Brother at WORCESTER, *May*, 1851.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

EXTENSIVE FRAUDS.

LEA and PERRINS having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of their "WORCESTERSHIRE SAUCE," the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. FORGED; they have deemed it their duty to caution the public, and request purchasers to see that the names of LEA & PERRINS are upon the *Wrapper, Label, Stopper, and Bottle.*

L. & P further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in the various parts of the world to advise them of such infringements.

Sept. 22, 1857] 52 law

R. R. R.

"Magna est Veritas et prævalebit."

The wonderful discoveries brought to light by the celebrated Dr. Radway & Co., the eminent Chimists of New York, within the past quarter of a century, have contributed more to the ease, comfort, safety, health and longevity of the human race than all other medicinal agents in use.

RADWAY'S READY RELIEF.

The first of these important and valuable discoveries startled the world with wonder and surprise at its rapid efficacy in curing the sick and stopping the most excrutiating pains.

The next discovery was the RENOVATING RESOLVENT: the only remedy in use that possesses the remarkable properties of eradicating from the system all constitutional maladies inherited by sickly children of diseased parents. These discoveries, however, are but LESSER LIGHTS to the GREAT, GRAND DISCOVERY recently made, and which is calculated to revolutionize the present practice of medicine and treatment of disease. The result of this great discovery is given to the world in the form of PILLS, elegantly coated with Gum, so as not to offend the most delicate stomachs. They neither sicken nor gripe. Every dose that is taken imparts renewed strength and vigor to the sick and enfeebled body. They are called

RADWAY'S REGULATING PILLS,

R. R. R.

RADWAY'S READY RELIEF.

1. One of the most remarkable properties which this all powerful remedy possesses is that of Electricity. It truly electrifies the whole human system with its healthful influence. Its action upon the poisonous gases of malaria, whether it be the infecting effluvia of Yellow, Typhus, Swamp, Measles, Scarlet or other Malignant Fevers, or Fever Ague, Bilious Fever, Cholera, Diarrhœa, Dysentery, Flux; or whether the stomach becomes inflamed and irritated from the poisonous extracts of acid plants, tainted meats, unripe fruits, or green vegetables, a dose or two of Radway's Ready Relief will instantly neutralize the poisonous elements that may be in the stomach, allay the most violent inflammations and fortify the whole system against sickness or painful difficulties.

In all cases, therefore, of Cholera, Cholera Morbus, Flux, Fevers, &c., there is no remedy so safe and certain to take as Radway's Ready Relief. The electrical powers will, the instant it is taken, charge the system with health and vigor.

2. As a Counter Irritant, withdrawing the congested blood, which, in cases of Rheumatism Gout, Neuralgia, Sciatica, inflicts so much pain upon the patient—it acts with the rapidity of lightning the instant the Relief is rubbed on the parts of the body where is pain—it reestablishes an equalization of the circulation of the blood —congestion being withdrawn, inflammation removed, and pain ceases.

3. As a Diffusive Stimulant.—In cases of Weakness, Languor, Debility, Depression of Spirits, Restlessness, Melancholy, Nervous Trembling, Hysterics, &c., Radway's Ready Relief is applied to the pained parts, it neutralizes the poison, arrests the spread of the infection, allays inflammation, and prevents mortification.

3. As a Body Guard to Prevent the system against sudden attacks of sickness, especially when epidemics prevail, or in cases of sudden Cramps in the stomach or bowels, Bilious Cholic, Fevers of all kinds, a dose of Radways's Ready Relief will check the progress of the disease and prevent serious difficulties.

6. Exposure to Heat—Cerebral Difficulties.—Persons who are obliged to be exposed to the hot rays of the sun, when they feel Sun Sickness Headache, etc., take a dose of the Relief, also bathe the head with it in some water—this will settle and strengthen the stomach and withdraw the heated blood from the head—and equalize its circulation through the system.

7. Every family should provide themselves with Radway's Ready Relief. If accidents occur, either from Falls, Burns, Scalds, Bruises, Wounds, etc., an application of the Ready Relief will immediately stop the pain, prevent inflammation or mortification.

RADWAY'S REGULATING PILLS.

[From the Medical Journal.]

THE GREAT GRAND DISCOVERY.

A SINGULAR POWER RECENTLY DISCOVERED AND COMBINED WITH RADWAY'S REGULATING PILLS.—The celebrated Dr. Radway has recently succeeded in obtaining a nutritious extract, so concentrated, that a dose of six pills will furnish the same amount of nutrition to the blood as is given to the blood by an ounce of ordinary bread. This nutritious extract he has succeeded in combining with Radway's Regulating Pills, so that while the system is undergoing a thorough physicising, cleansing, purifying, and regulating process, the weak, enfeebled, debilitated and worn out organs receive a healthful nourishment. The great discovery is invaluable. Heretofore, under the influence of the most innocent and best purgatives, Pills, etc., the patient grew weak and debilitated. In cases of Yellow Fever, Typhus Fever, Scarlet Fever and other malignant fevers, Small Pox, Erysipelas, etc., the patient is unable to partake of sufficient nourishment to keep alive.

RADWAY'S REGULATING PILLS will entirely revolutionize the treatment of the sick afflicted with these maladies; for one or two of Radway's Regulating Pills will give to the wasting body sufficient nourishment as well as exterminate every particle of disease from the system. Another great power which these Pills possess is that of regulating the organs of the system in the performance of their duties. The Stomach, Kidneys, Liver, Skin, Bladder, Heart and Bowels, are each of them regular and exact in the performance of their several functions: so that those who take these Pills, however costive they may be, will enjoy the luxury of a healthy discharge from their bowels every day, at a regular and exact hour.

RADWAY'S RENOVATING RESOLVENT.

The discovery of this wonderful Renovator of the Human Body secures to medical science a new medical property.

It not only cures quickly, safely and effectually the following disorders:—

HUMORS IN THE BLOOD.

Scrofula,	Tumors,	Bleeding of the Lungs
Syphilis,	Consumption,	St. Vitus' Dance,
Sores,	Blotches,	Salt Rheum,
Asthma,	Nodes,	Cankor,
Bronchitis,	Fever sores,	Rash,
Ulcers,	Erysipelas,	Tetters.

It renovates the system completely, Resolving away from solids all impure poisonous and diseased deposits, freeing the blood and fluids of life from all corrupt humors, restoring energy and vigor, health and strength to every organ and member of the body, but will eradicate from the system all constitutional maladies and infirmities inherited by sickly children of diseased parents.

Let those affected with any disease, Scrofula, or Constitutional Infirmities, take Radway's Renovating Resolvent.

Sold by Druggists everywhere.

INSURANCE.

BRITANNIA LIFE

ASSURANCE COMPANY,

1 PRINCES' STREET, BANK, LONDON

ESTABLISHED AUG. 1, 1837.

Empowered by Special Act of Parliament, 4 Vict. Cap. 9.

COL. ROBERT ALEXANDER, Blackheath Park *Chairman.*

DAVANTAGES OF THIS INSTITUTION,

INCREASING RATES OF PREMIUM.

A TABLE especially adapted to the securing of Loans or Debts, and to all other cases where a Policy may be required for a temporary purpose only, but which may be kept up, if necessary, throughout the whole term of Life.

HALF-CREDIT RATES OF PREMIUM.

Credit given for half the amount of the *First Seven Annual Premiums* the amount of the unpaid Half-Premiums being deducted from the sum assured when the Policy becomes a claim.

SUM ASSURED PAYABLE DURING LIFE.

The amount payable at the death of the Assured, if he die before attaining the age of SIXTY, but *to the assured himself, if he attain that age,* thus combining a provision for old age with an assurance upon life.

ORPHAN'S ENDOWMENT BRANCH.

Established for the purpose of affording to parents and others the means of having Children educated and started in Life, by securing annuities, to commence at the Parents' death, and to be paid until a child, if a son, shall attain his 21st year, or, if a daughter, her 25th year of Age

BRITANNIA MUTUAL LIFE ASSOCIATION

1, PRINCES STREET, BANK, LONDON.

Empowered by her Majesty's Royal Letters Patent.

Annual Division of Profits—applied in reduction of the current year's Premium.

Policy-holders entitled to participate in the profits after payment of Five or Seven Annual Premiums according to the table of Rates selected.

Premiums charged for *every three months'* difference of age—not, as is usually the case, for every whole year only.

Half Credit Policies granted on terms unusually favourable to the assured, the amount of half premiums for which credit is given, being liquidated out of the profits.

At the Annual General Meeting on the 27th April last, a reduction of 30 per cent was made in the present year's premium on all Policies of Five or seven years standing.

A Board of Directors in attendance daily at 2 o'clock.

Age of the Assured in every case admitted in the Policy.

Medical Attendants remunerated in all cases for their reports.

(PROPRIETARY.)

R. PENISTON,
Agent to the Company at Quebec.
Quebec, June 23, 1858.

Eagle Life Insurance Company of London.

Established in 1807.

☞ Canada Agency Established in 1825. ☜

THE Quinquennial Division of Surplus for the period ending in 1857, will be paid in Cash at the office of the undersigned Agents, at the current rate of Exchange, to those policyholders who may select that mode; they have the option, however, of applying the surplus in either of the following modes, viz.:—

1stly.—Payable in Cash.
2ndly.—Adding to the amount assured.
3rdly.—In a reduction of Premiums falling due in the five years subsequent to 1857.
4thly.—In a reduction of all Premiums subsequent to that date.

The Surplus in 1857, divisable among the assured, exceeds TWO HUNDRED AND FIFTY THOUSAND POUNDS, Sterling.

The realized assets of this Company amount to over ONE MILLION THREE HUNDRED THOUSAND POUNDS, Stg.; and the annual income upwards of TWO HUNDRED AND TWENTY THOUSAND POUNDS.

The rates of Premium are as low as the experience of more than half a century warrant; and as eighty per cent. of all profits is every five years divided among the assured, it is evident that these rates are the very lowest that any Life Insurance Company can demand, consistent with its own safety, and the consequent security of the assured. Policies are issued with or without participation of profits, for one year, seven years, whole life, joint lives, or payable on the life attaining the age of sixty. Premiums payable quarterly, half-yearly, or yearly. One-half credit for first five years.

MOFFAT'S LIFE PILLS AND Phœnix Bitters.

THE BEST FAMILY MEDICINE NOW before the public, for the cure of SCROFULA, ULCERS, SCURVY, or ERUPTIONS of the SKIN, FEVER and AGUE, DYSPEPSIA, DROPSY, and in fact most all diseases soon yield to their curative properties.

It has been computed that during the last twenty-five years upwards of FOUR MILLIONS of persons have been benefited by the use of these medicines; a fact which speaks volumes in favor of their curative properties—a single trial will place them beyond the reach of competition in the estimate of every patient. By their use the BLOOD IS RESTORED TO A HEALTHY STATE and freed from all impurities. The system is not reduced during their operation, but invigorated, and they require no restraint from business or pleasure.

The afflicted have in these medicines a remedy that will do for them all that medicine can possibly effect.

INSURANCES.

UNITED KINGDOM

LIFE ASSURANCE COMPANY,

8, Waterloo Place, Pall Mall, London, S. W.

Established nearly a Quarter of a Century.

Annual Income Upwards of £136,000.

CHAIRMAN:

THE HON. FRANCIS SCOTT, M.P.

DEPUTY CHAIRMAN:

CHARLES BERWICK CURTIS, ESQ.

THIS Company offers the security of a large paid up Capital, held in Shares by a numerous and wealthy Proprietary, thus protecting the Assured from the risk attending Mutual Offices.

There have been three divisions of profits, the Bonuses averaging nearly 2 per cent. per annum on the sums assured, or from 30 to 100 per cent. on the Premiums paid.

Sums Assured.	Bonuses added.	Payable at Death
£3,000.....	£1,987 10 0	£6,987 10 0
4,000.....	1,980 0 0	5,980 0 0
2,000.....	1,192 10 0	4,192 10 0
1,000.....	397 10 0	1,397 10 0
500.....	198 15 0	698 15 0
100.....	39 15 0	139 15 0

The Premiums, nevertheless, are extremely moderate, and

☞ One half of the Annual Premium for a term of years may remain unpaid, bearing interest (without requiring the deposit of the Policy as in other offices.) This Company likewise foregoes all claim for the debt, should the Policy be discontinued.

Upwards of SEVEN HUNDRED THOUSAND POUNDS (including Bonuses) has been paid to Widows, Children, and other Parties holding Policies with this Company, which have become Claims by Death since its formation.

During the last Three Years this Company has issued 1,280 new Policies, insuring £888,758, and producing new Premiums to the amount of £33,993 8s. 0d.

The attention of the Public is earnestly requested to the annexed scale of Premiums, which will be found extremely moderate, and the mode of payment affords every accommodation and facility consistent with security.

1st. Premiums may be paid quarterly, half-yearly, or annually, as may best suit the convenience of the Assured.

2nd. When an Insurance is for Life, half the Annual Premium may remain unpaid for five years, at interest, to be deducted eventually from the Policy, to be paid off at convenience, a system peculiarly suited to obtain Temporary Loans.

3rd. The principle of an ascending and descending scale, which has been adopted, is equally applicable to the opulent, and to those of limited incomes.

4th. Policies are granted on very moderate terms, payable on the death of two, or three parties (as the case may be,) so as to render Leasehold Property, held upon Lives, nearly equal in value to Lands held in perpetuity.

This office has Agents in almost all the principal Towns of Great Britain and Canada, from whom full particulars can be obtained gratuitously, and the means furnished for effecting Insurances; and the same can be had on application to E. LENNOX BOYD, Esq., at the Office, 8, WATERLOO PLACE, LONDON, of

THE undersigned having been appointed Agent for the above Company, are prepared to receive proposals on as favourable terms as any other good Company.

JAMES TREMAIN & CO
Quebec, May 12, 1858. 12m

Chartered by Act of Parliament.

Western Assurance Comp'y

Capital £400,000. Shares £40 each.

WHOLE CAPITAL SUBSCRIBED.

THE BOARD OF DIRECTORS HAVING determined on confining the business of the Company exclusively to the

FIRE DEPARTMENT,

would intimate to the public generally, and especially to the owners of small tenements and proprietors of farm houses and farm buildings, that insurances will be effected at moderate premiums for amounts proportionate to the value of the buildings, by which, in the event of accident, they may be secured against the total loss of their dwellings, &c.

Short period risks taken on farm produce and goods generally.

☞ The Company's policies protect against accident by lightning.

☞ Losses equitably adjusted and promptly paid.

Applications for Insurance on Buildings and contents will receive prompt attention.

A. FRASER,

THIS OFFICE insures against Loss or Damage by Fire, all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandize in the same; Ships in Harbour or in Dock, or in course of construction, Craft on Navigable Rivers and Canals, and the Goods laden in the same; and Farming Stock of all descriptions.

The Rates of this Company will be found to be exceedingly moderate.

The engagements of the "*Equitable*" are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a *Mutual Insurance Society* and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good without deduction or discount, and are adjusted and paid in Montreal without reference to London.
