

PARLIAMENT FORMALLY OPENED BY THE ROYAL GOVERNOR-GENERAL.

SPEECH FROM THE THRONE.

Ceremony Marked by Unusual Brilliance—Society Folks Filled Senate Chamber When Royal Duke Read Speech From Throne—Guns Boomed From Nepean Point—Accompanied by Large Military Escort.

Ottawa, Nov. 16.—(Special).—With all the dignity of state ceremonial, and attended by an assemblage which for brilliancy has never been equalled in the history of similar functions, the first session of Canada's twelfth Parliament was opened this afternoon by His Royal Highness the Duke of Connaught.

A cold wind blew across the snow-covered square of Parliament Hill.

The first was given on the arrival of the Duchess of Connaught, and the second when His Royal Highness, riding in state with postillions, reached the Senate.

He was escorted by the Princess Louise Dragoons, while the Field Battery thundered out a salute from Nepean Point.

NO SHORT SESSION.

The Government programme indicated in the Speech from the Throne, includes several items of constructive legislation. It pretty well dispels the idea of a short session, and fore-shadows one of ordinary length, as there are numerous matters likely to cause prolonged discussion.

SPEECH FROM THE THRONE. The Speech from the Throne opened with an expression by the Duke of Connaught at his pleasure at being assigned to his present position.

Following the usual reference to continued prosperity and growth of trade, the speech referred at some length to the recent census, declaring that, while the increase in population has not fulfilled all the signs and expectations that had been formed, yet it had been substantial and encouraging.

IMPROVED TRADE RELATIONS.

The speech continued: "Negotiations have been opened for improved relations with the British West Indies and British Guiana which will prove advantageous to those colonies as well as to this Dominion."

BETTER HIGHWAYS.

"A Bill will be introduced for the purpose of enabling the Dominion to co-operate with the provinces in securing better highways."

AID TO AGRICULTURE.

"My advisers are convinced that the time has come when greater aid and encouragement should be given to agriculture. To this end a Bill will be introduced, under which it is hoped there may be co-operation between the Dominion and the various provinces for the purpose of assisting and encouraging our farmers to secure the best results in production, and at the same time preserve the fertility of the soil."

INSPECTION OF GRAIN.

"A measure will be introduced reviving and consolidating the acts relating to the inspection of grain, in providing the means by which the Government can secure, through a commission, the control and operation of the terminal elevators upon the Great Lakes."

TARIFF COMMISSION.

"A Bill will be introduced to establish a permanent tariff commission. Bills will also be laid before you with respect to the department of external affairs, the archives and other subjects."

HUDSON BAY RAILWAY.

"The selection of the best route for the Hudson Bay Railway is engaging the attention of my advisers, and an announcement will be made to you as a result of their enquiry."

Ottawa, Nov. 16.—Sir Wilfrid Laurier had a preliminary conference with some of his followers relative to the opening of the Opposition's first attack on the Government. But until the speech from the Throne is made public, and the Government's plans for action or inaction on pressing matters of public policy are disclosed nothing definite can be decided upon as to the subjects which will be treated by the Opposition speakers on the debate on the address from the Throne.

HIS ROYAL HIGHNESS THE DUKE OF CONNAUGHT, Governor-General of Canada.

but otherwise the weather conditions were perfect. The city for years has not seen such a gathering of people prominent in political, military and social affairs. The hotels are packed, and even obtaining rooms outside of them offers many difficulties. As early as noon, people began to gather to secure places of vantage for the ceremony, and when the galleries were thrown open the crush taxed the regulating powers of the federal police on duty.

On the floor and in the reserved galleries were society leaders from all the principal centres of Canada. The Governor-General's Foot Guards furnished the guard of honor, and for the first time on such an occasion there were two royal salutes.

Rannings, ex-bank clerk, of Port William, who pleaded guilty to robbing the Royal Bank of \$5,536 on October 23, was sentenced to two years in Stormont Mountain by Judge O'Leary, who at the same time, made some caustic comment about the character of the Central Prison, Toronto, as the place to send youths of whom there was hope that they might reform.

FAMINE IN RUSSIA.

Eight Million Reported to Be in Need of Immediate Relief.

CROPS HAVE FAILED IN TWENTY PROVINCES. \$60,000,000 REQUIRED.

St. Petersburg, Nov. 16.—(Special).—Eight million persons are in need of immediate relief owing to the failure of crops in twenty Russian provinces. This startling announcement was made in the Duma last evening by Premier Kokovzoff in reply to interpellations concerning reports that famine threatened a wide area. The premier explained that country crops had failed completely in twelve provinces, and partially in eight others. Of the 12,500,000 inhabitants of the affected territory, 8,000,000 were in need of immediate relief. Necessary measures would require, the premier said, an expenditure of \$60,000,000, of which amount the exchequer would have to find \$44,000,000.

HARRY THAW BEGINS STUDY OF LAW.

Hopes He Will be Able to Make a Satisfactory Showing.

AND TO SUCCEED IN SHOWING THAT ALIENISTS ARE WRONG IN THEORY.

Matteawan, N.Y., Nov. 16.—(Special).—Harry K. Thaw has begun the study of law in the library of the State Hospital here, where he is confined. Bailed in his lawyers' latest attempts to gain his release, Thaw now bases his hopes for release upon his own resources. He now hopes, by applying himself assiduously, to master so much of Blackstone as will enable him to make a satisfactory showing when he is examined next spring. Alienists who have testified against him have declared that no parolence can succeed in the study of law. Thaw's project is to show that he is not parolence.

A resolution was passed appointing a committee to report at the next meeting of the directors on the 28th of November, the advisability of adopting the suggestion at the shareholders' meeting with regard to the management.

At this meeting the question as to changing the entrance fee from 50 to 25 cents will be decided upon.

MINERALS NEAR WEST SHEFFORD.

Glass Company of Montreal Has Bonded the Property.

GERMANY SAID TO BE ONLY OTHER COUNTRY THAT POSSESSES THIS MINERAL.

Granby, Nov. 16.—(Special).—The inhabitants of the neighboring village of West Shefford are interested in some mining operations which are quietly conducted in that vicinity.

It appears that engineers who have been surveying for maps of the country for the past few years, chanced to spy out the rock which lies near the highway about a mile south of the village. Samples were taken away for examination, and as a result the land has been bonded under a royalty by the Dominion Diamond Glass Co., of Montreal, and about a dozen carloads of the rock have already been shipped to Montreal to be used in the manufacture of glass.

It is said that Germany is the only country known to possess this mineral and great hopes are entertained in the development of this industry.

MAIL CONTRACTOR SUES GRAND TRUNK.

Claims Balance of Amount Due Him Under Contract.

COMPANY SAYS HE HAS NOT CARRIED OUT HIS PART OF CONTRACT.

Evidence was heard in the Superior Court this forenoon before Mr. Justice Hutchinson in the case of Mr. D. Armstrong against the Grand Trunk Railway Company. The plaintiff has the contract to carry the mails to and from the station to the post office, and he is suing for \$125 under that contract.

The company defendant contend that the plaintiff had not done certain work he was called upon to do, namely, to carry mail to the C.P.R. station from the Union Depot. The company had had to pay for this work being done, and they deducted the same from the amount due the plaintiff.

The plaintiff answered that he did all that was called upon him under the contract, which did not call for him to carry mail to the C.P.R. from the G.T.R. station.

The defendant company made a tender of \$36, but this was refused.

SMALLPOX IN VERMONT.

Schools and Churches Have Been Ordered Closed.

HEALTH OFFICIALS OF THE STATE ARE FACING A SERIOUS SITUATION.

St. Johnsbury, Vt., November 16.—With sixty cases of smallpox reported in towns and villages west of here the health officials of the state are facing a situation which they admit is alarming. In several cases patients thought to have had typhoid fever were found to be suffering from smallpox.

So serious has the outbreak become that Dr. H. B. Hilton, of Brattleboro, secretary of the State Board of Health has ordered all schools and churches closed at Greensboro, Hardwick, Craftsbury and Walden. Corps of nurses and physicians have left for the places named.

ULVERTON MODEL SCHOOL.

INSPECTOR PARKER COMPLIMENTS PEOPLE UPON IMPROVEMENTS—BEST EQUIPPED OF RURAL SCHOOLS.

Ulverton, Nov. 16.—(Special).—Dr. Parker, the Inspector of Superior Schools, visited Ulverton Model School, on Tuesday, and the occasion was a gala day at the local hall of learning. The regular school flag was flying from the flag staff without, and the new Union Jack, received from the Record was displayed within, neatly arranged within a wreath of maple leaves.

During the year the building has been renovated, new floors and new seats being installed and other improvements carried out. Inspector Parker stated that the building was now the neatest and best arranged of any of the rural Model schools which he had visited.

Mrs. G. O. Cummings very kindly invited all to her home where a fine repast was served.

CANAAN AND WEST STEWARTS-TOWN.

BOWN.

It is with regret that the death of Mrs. Alexander Lanctot is reported at her home in this place on Thursday, Nov. 9th. The cause of death was pneumonia. The deceased was 68 years of age and leaves to mourn her loss a husband and two children, Mr. John Lanctot, of Bury, and Mrs. Stephen Davis, of Gould, besides numerous other relatives and friends. The funeral took place at St. Thomas' Church, Bown. The pastor, the Rev. C. T. Lewis, of Bury, officiating. The bearers were Messrs. W. G. Sharman, H. P. Bown, E. Allison and A. Hamilton. The floral tributes were many. After the impressive burial service of the Church of England had been read the remains were interred in the nearby churchyard. Another fact that lends additional gloom to the occasion is that Mr. Lanctot is at the present also very low with pneumonia.

Mrs. Lanctot, whose maiden name was Betsy Dorman, was born in this place 68 years ago, her father and mother being among the first English settlers in this neighborhood, having arrived here in 1836. She married Alexander Lanctot quite early in life, and they also settled down on a neighboring farm, where they have ever since lived. Mrs. Lanctot was an active member of the English Church and also of St. Thomas' Guild, in which her loss will be deeply felt, as she was always known to be ready to bear her full share in any good work. By her loving and sympathetic nature she won the love and respect of all. Her loss will be greatly felt by the entire community.

ERLE.

George Beloin, who died on November 5th, was born at St. Isidore, P. Q., seventy-three years ago, and, as was common in his day he grew up with little educational advantages but with good natural abilities and a warm and generous heart. On November 5th, 1863, he married Miss Ann Gallagher, a true and noble helpmate. Some years later he moved to North Ham. About the year 1881 he left the Church of his fathers and united with a Protestant communion with which he continued till the day of his death, which took place, as stated above, after a brief but painful illness, just 48 years ago from the date of his marriage. Besides his sorrowing widow he leaves to mourn his loss six sons and two daughters, several grandchildren and many warm friends. His funeral services were conducted in the Methodist Church at Erle by his pastor, Rev. Mr. Mosseau on Wednesday the 8th inst., and interment took place in the cemetery here, the bearers being four of his sons.

Chronic Throat Trouble Permanently Cured

Seven Days' Use of Catarrh-zone Performed Regular Miracle.

Miss Counter's Case Proves the Wonderful Efficacy of Catarrh-zone in all Throat and Nose Diseases.

Windsor, Ont., Nov. 15.—Miss Counter's case will prove of great interest to everyone troubled with sore throat, bronchitis or weak lungs.

When asked for a statement, Miss Counter said: "About seven years ago I contracted a heavy cold that settled on my lungs and resisted all treatment. After I had tried several doctors here and specialists in Detroit without benefit, I went to my druggist and asked him for the best remedy he had for cold on the lungs. He recommended Catarrh-zone, which cured my cold in one week. It brought back my voice, and I have been ever since free from my old trouble. For coughs, colds and lung trouble I am sure that Catarrh-zone is the best remedy. It goes right to the sore spot, gives quick relief and makes a lasting cure."

Catarrh-zone cures because its healing vapor is inhaled to the very places that are sore and inflamed.

To permanently cure your winter ill, your cough, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrh-zone. But beware of the substitute and imitator. Look for Catarrh-zone only, 50c and \$1.00, at all dealers, or by mail from the Catarrh-zone Company, Buffalo, N.Y., and Kingston, Canada.

TRENTONVILLE.

A heavy thunderstorm passed over this section of country in the early hours of Sunday morning, and the lightning was very vivid. It was followed by a terrific gale and wind storm on Sunday night. As it is very unusual to have such a storm at this time of year it sets people to wondering what kind of a winter will follow.

Miss L. Lyster is spending a few days visiting friends in Montreal. Mrs. Arthur Stevens is quite ill and under the doctor's care.

SCOTSTOWN.

Arrivals and departures:—Mr. Jack Black and friend from Farnham guest of Mr. A. Black; Rev. E. McQueen from Gould; Mr. Roberge on his way to Berlin Falls; Mr. P.G. Roy to Montreal; Mr. Bert Porter to Cookshire on Monday. Rev. Samuel Clark gave a strong "temperance sermon" at the Advent Christian Church last Sunday evening.

There is a case of diphtheria in the family of Mr. Bovin on Ditton street.

The Quickest Cough Cure—Cheap, But Unequaled

Sixteen Ounces of it for 50c. Saves You \$2. Does the Work Quickly or Money Refunded.

For quick, positive results, the 16 ounces of cough syrup that you make with a 50-cent bottle of Pinex, cannot be equalled. It takes hold instantly and will usually stop the most obstinate deep-seated cough inside of 24 hours. Even croup and whooping cough yield to it quickly.

The use of Pinex mixes it with home-made sugar syrup. This gives you sixteen ounces—a family supply—of better cough remedy than you could buy ready mixed for \$2.00. Easily prepared in 5 minutes—full directions in package.

Pinex soothes and heals the inflamed membranes with remarkable rapidity. It stimulates the appetite, is slightly laxative, and tastes good—children love it. Excellent for hoarseness, asthma, bronchitis, and other throat troubles, and has a wonderful record in cases of incipient lung trouble.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in quinaloin and other natural healing pine elements. Simply mix with sugar syrup or strained honey, in a 16-oz. bottle, and it is ready for use. Used in more homes in the U. S. and Canada than any other cough remedy.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Toronto, Ont.

GRAY HAIR WILL MAKE YOU LOOK OLD

Sage and Sulphur brings back Color, quickly removes Dandruff

GET A 50 CENT BOTTLE, TRY IT TO-NIGHT—AWAY WILL GO YOUR GRAY HAIR.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will turn the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using "it a few days itching and dryness of the scalp entirely disappear."

Don't neglect your hair. Start using Wyeth's Sage and Sulphur to-day, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, W. H. Griffith, Wellington Street.

MILLIONS OF FOLKS USE ONLY CASCARETS

They never have Headache, Biliousness, Sluggish Liver or Bowels or a Sick, Sour Stomach.

No odds how bad your liver, stomach or bowels; how much your head aches; how miserable and uncomfortable you are from constipation, indigestion, biliousness, and sluggish intestines—you always get the desired results with Cascarets and quickly too.

Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the poison and effete matter which is producing the misery.

Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their insides need a good, gentle cleansing, too.

Danderine

Grows hair and we can prove it

Hair Becomes Soft, Fluffy, Lustrous and Beautiful Immediately After a Danderine Hair Cleanse

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

A little Danderine now will immediately double the beauty of your hair—No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Try as you will after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use when you will actually see new hair, fine and downy at first—yes—but really new hair—sprouting all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its life-producing properties cause the hair to grow abundantly long, strong and beautiful.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that all you need can have beautiful hair and lots of it, if you will just try a little Danderine. Real surprise awaits you.

The Rayo Lamp
It Never Flickers
The long winter evenings give a woman a splendid chance for sewing or embroidery; but her eyes suffer from the strain unless she has a good light.
The Rayo is the best lamp made.
It gives a strong, diffused light that is remarkably easy to the eyes. There is no glare to it; no flicker. It lights up a whole room.
The Rayo is an economical lamp, too. You get the most possible light-value for the oil burned; and the Rayo itself is a low-priced lamp. Yet it is a handsome lamp—an ornament to any room in the house.
The Rayo Lamp is easily lighted without removing shade or chimney; easy to clean and rewick. Made of solid brass, nickel-plated; also in numerous other styles and finishes.
Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agent.

NOTED SPEAKER COMING.

On Sunday afternoon Mr. Lee Francis Lybarger will address a mass meeting for men in the Y.M.C.A. gymnasium. Mr. Lybarger is a speaker of note and will take as his subject, "How to be Happy."

Edw. G. Caster, writing from the Y.M.C.A. at New Bedford, Mass., says:

"Lee Francis Lybarger opened our great course of lectures for men in the New Bedford Theatre yesterday afternoon. Mr. Lybarger is a master in his profession. He held that immense audience of men seemingly spell-bound, as he unfolded in a most eloquent and pleasing manner the philosophy of happiness.

"From the first sentence he uttered it was clearly apparent that he had his audience with him. We shall want Mr. Lybarger again next year, and just as many times as we can get him. We are hearing nothing but favorable comments this morning."

YOUNG MAN SCALDED TO DEATH.

FIXING CHAINS, AND FELL INTO EIGHT FOOT TANK OF BOILING WATER.

St. Johnsbury, Vt., Nov. 16.—Literally scalded to death was the late of a young Polisher, known as John Henry, an employ of the East Haven Veneer Company, who fell into a vat of boiling water, while at his work. The man was fixing some chains on a tank used for steaming veneer logs, and crawled to the side of the eight foot tank filled with boiling water, to adjust the chains, neglecting to pull down the cover. He slipped, plunging head foremost into the boiling water. No little heroism was shown by a fellow workman, who witnessed the plunge and ran to his assistance. The man's hands were seriously burned in effecting the rescue. Both men were carried to their boarding place where John Henry died a few hours later. The man was 22 years old and unmarried.

BURY MAN IN IMPORTANT POSITION.

Government Inspector of Railways Sims, has inspected the new double track line of the Canadian Pacific Railway from Smith's Falls to Glen Tay. He made the inspection trip in a special train and was accompanied by Mr. Ramsay, division engineer, and Mr. Luscombe, assistant engineer. It is expected the new line will be in use in a couple of days.

Mr. Ramsay is a Bury man, and he is the son of the late W.A. Ramsay, who was one of the chief engineers in building the C.P.R.

Another Case in Which Dr. Hamilton's Pills Saved a Life That Physicians Despaired Of.

What a pitiful sight it is to see a handsome, able man being gradually robbed of good looks, health and ability to work. Such cases are frequent—the one here described being that of E. P. Lascelles, a well-known printer and supply man, residing in Hamilton. "About six months ago I began to notice a worn, tired feeling coming over me. I was unable to shake it off. It was not the fatigue that follows hard work—it was sort of an unaccountable laziness that assailed me. I was anxious to work but didn't have the energy. Something was dragging me down, robbing me of my health and spirits. I got tired of taking prescriptions that did me no good, and used Dr. Hamilton's Pills. Their action soon proved to me that I was suffering from a terribly congested liver and acute indigestion. Dr. Hamilton's Pills brought back my appetite, cured the heavy pain in my side and back, gave me a new grip on life. I gained in weight and now I am stronger, look better, work better than ever before. I was taken sick."

If you want to get back the vigor and spirit of youth, if you want the sparkle of robust health on your cheeks—use Dr. Hamilton's Pills regularly. They cleanse, purify, tone, strengthen—make the sick well. Give this grand medicine a faithful trial. 25c. per box, or five boxes for \$1.00, at all dealers, or The Cataract Company, Kingston, Ont.

FINANCIAL AND MARKET NEWS

COUNTRY PRODUCE.

EGG MARKET ACTIVE.

Montreal, Nov. 16.—There were no new developments in the egg market prices being firmly maintained owing to the fact that the demand for local consumption is steadily increasing, therefore the larger supplies coming forward as compared with a year ago have no depression on the situation and the market is active. We quote prices as follows:

Selected stocks, round
lots 27½c to 28c
Selected stocks, single
cases 29c to 30c
No. 1 stock, round lots 24c to 24½c
No. 1 stock, single cases 25½c to 26c

GOOD DEMAND IN POULTRY.

Montreal, Nov. 16.—Owing to the cold weather the demand for dressed poultry is increasing some and supplies coming forward are also a little larger, consequently a more active trade is passing at steady prices. We quote prices as follows:

Turkeys, per lb. 18c to 20c
Chickens, per lb. 13c to 15c
Fowls, per lb. 13c to 15c
Ducks, per lb. 15c to 17c
Geese, per lb. 13c to 14c

GOOD POTATO MARKET.

Montreal, Nov. 16.—The tone of the market for potatoes remains firm under a good demand for small lots, but the trade in car load lots is rather quiet at present, as most of the large buyers are well supplied for the time being, but as the offerings are not large prices show no change. Sales of Green

Mountains in a jobbing way were made at \$1.20, and other varieties at \$1.10 to \$1.15 per bag, ex store. In car lots Green Mountains quoted at \$1.05, and other stock at 95c to \$1 per bag ex track.

DAIRY PRODUCE.

CHEESE MARKET STEADY.
Montreal, Nov. 16.—The local cheese market is unchanged, prices being steady with finest September and October Westerns quoted at 14½c to 14¾c, and easterns at 13½c to 14½c.

STRONG BUTTER MARKET.
Montreal, Nov. 16.—The local butter market is strong in tone, choice September and October creamery being quoted at 28c to 28½c and seconds at 27c to 28c.

PROVISION MARKET.

DRESSED HOGS IN DEMAND.
Montreal, Nov. 16.—A good trade was done in abattoir fresh-killed dressed hogs, and prices were firm at the recent advance, with sales in a jobbing way at \$9 to \$9.50 per 100 lbs. There was no change in the market for other lines and on the whole a good trade is being done.

MONTREAL LIVE STOCK MARKET

FAIR DEMAND FOR BUTCHER CATTLE.
Montreal, Nov. 16.—There was a good demand for the smaller meats at the East End Stock Yards

yesterday and a fair demand for butcher cattle. There were no choice butcher stock on offer and a few good heaves, therefore the packing firms were the only large buyers and bought mainly for canning purposes. No northwest cattle were on the market. A few of this grade of cattle which were left over at the West End market on Monday were bought yesterday by the Davies Co., who paid \$5.85 for the choice steers, and \$5.60 for mixed loads.

The prices for cattle were from 25 to 35 lower yesterday than on Monday with a smaller run.
Receipts of cattle estimated 1,550. Demand fair market active. Good Ontario and Western steers \$6; fair \$5.35 to \$5.50 Medium, \$5 to \$5.20; bulls, light, \$3 to \$3.25, and heavy \$4 to \$4.25; cows, good butcher, \$4.25 to \$4.50; poor to medium, \$3.50 to \$4; canners, \$2 to \$3.25.
Receipts of sheep estimated at 1,400. Market active and strong. Supplies becoming scarce. Old sheep, \$3.25 to \$3.50; lambs, \$5.35 to \$5.40; bucks and culls, \$2.25 to \$2.50.

TURKS PREPARING FOR AN ATTACK.

Have Been Reinforced by 1000 Arabs From Distant Tribes.

TURKISH REPORT SAYS THAT ITALIANS WILL BE VICTORS.
Rome, Nov. 16.—It is reported that the Turks are massing in front of Benghazi and Derna. It is evident that they intend to attack. The Turks have been reinforced by 1,000 Arabs from distant tribes.
The Italians captured ten of fourteen guns the Turks removed from Benghazi. The remaining four have since been strengthened by several others that came to the Turks by way of the desert. Large supplies of ammunition, food and uniforms have arrived at the Turkish camp from the same source. The artillery duel continues intermittently.

RAIN SWAMPS TRENCHES.
Tripoli, Nov. 16.—Rain has swamped the trenches and driven hundreds of Arabs to seek refuge in hiding places including underground cisterns, where they have been captured by the Italians.

It is reported that the whole Italian fleet is going to Taranto to coal before going to the Aegean Sea.
TURKS ARE CONFIDENT.
London, Nov. 16.—An agency despatch from the Turkish headquarters outside of Tripoli, by way of Tunis, which is not dated, says that if the Turks stand firmly they must win. The Arabs are rallying to them in increasing numbers and clamoring for modern rifles. They are also submitting to drill under Turkish officers. Large consignments of rifles are arriving daily. The Mohammedans are liberal subscribers with money and the troops are regularly paid. Food and water is also abundant. A caravan of 300 camels brings supplies every day.

MAY GO BEFORE COURT.

Steps Taken in Connection With Revision of Voters List.

MR. ABEL DEMERS MAKES PETITION IN THIS CONNECTION—CONSERVATIVES WILL TAKE SIMILAR ACTION.

Mr. J. Nicol, on behalf of Mr. Abel Demers, to-day served notice on the Corporation of the City of Sherbrooke asking that the petitioner be allowed to furnish evidence before a Judge to the end that his name as well as the others which were not considered by the Council be added to the electoral lists. The petition also asks that the names of the complainants, which in this case are Liberals, have asked to have erased from the lists be erased.

In his declaration Mr. Demers states that he is over 21 years of age, and is a duly qualified elector residing within the electoral limits of Sherbrooke. That on the fifth day of October the Secretary-Treasurer gave public notice that the lists had been prepared and that a duplicate had been lodged at his office. That on the 20th day of October a number of citizens, whose names he gives, asked that a number of names be added to the list. They also asked on the same day that a number of names be struck off, alleging that the said persons did not possess the required qualifications. That the Secretary-Treasurer did not give all the necessary notices, both public and as required by law. That at a special meeting of the Council, at which petitioners and others acting for them were present, a request was made to have the names considered, but without effect.

The petition also states: "That the said Municipal Council of the Corporation of the City of Sherbrooke did, within the time prescribed by law, fail, neglect, and refuse to take into consideration the said complaints above mentioned and duly filed by said petitioners."

"That the names which the petitioner refers to in the complaints above mentioned, are all those which the Municipal Council did not call or examine at their said sitting."

SIMILAR PETITION.
The Conservative party will make a similar petition within the next few days, and it is possible that all those entitled to vote will be placed on the lists by the Superior Court Judge.

They have until Nov. 21st to file their petition.

DECLARED GUILTY BY COURT MARTIAL.

Court Held Lieut. Graham Responsible for Niobe Stranding.

WILL BE REPRIMANDED, WHICH MEANS A BLACK MARK FOR HIM.

Halifax, Nov. 16.—Lieut. Lord Allister Graham was found guilty yesterday by court martial of causing, or suffering to be caused, the stranding of H.M.C.S. Niobe on July 30 last on the dangerous ledges of Cape Sable. He was sentenced to be reprimanded. Lord Allister Graham was officer of the watch up to fifteen or twenty minutes of the time the cruiser went ashore.

Lord Allister Graham in presenting his defence maintained that it was unfair to hold him responsible for the stranding of the ship when he had been relieved of the watch about twenty minutes before the accident occurred. Lieut. Graham's reprimand means nothing more than a black mark for him. Nevertheless he feels keenly his position in the matter, for up to the present time he has held an enviable record as an officer.

A WONDERFUL CASE

Three Months in Hospital & Came Out Uncured

Zam-Buk cured him in few weeks

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer, of St. Andrews, N.B., says: "I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave up. A friend advised me to give Zam-Buk a trial.
"Almost as soon as applied Zam-Buk stopped the itching and the irritation. I gave it the value of the value and it was soon evident that it would do me good. Each day the pain was reduced, the sore parts began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.
"Since then Zam-Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated.
"For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal. 50c. box all druggists and stores or post free from Zam-Buk Co., Toronto, for price. Refuse imitations."

CANADA'S SIXTH INDUSTRY

Wonderful Progress in Shoemaking Industry in Past Ten Years

Remarkable System of Machinery Now in Use. Interesting historical sketch by Howland E. Watson, in October issue of Canadian Magazine.

Have you ever watched a shoe in the making? Have you travelled from one intricate mass of cams and levers to another and so on down the long line of machines, performing seemingly impossible operations, with an accuracy and dispatch that almost passes understanding? If you have never done so, take firm hold on the first opportunity, for every operation performed by these machines has something to do with your comfort, your pocketbook, or your vanity.

The Canadian boot, like good wine, "needs no bush." Its reputation is firmly established. Upon any equitable basis, it will at the present time bear favorable comparison with the best produced in any other country. The enterprise of Canadian manufacturers and the constantly increasing skill and efficiency of Canadian labor make the boot and shoe industry loom large on the country's commercial horizon. All of these things are matters of common knowledge, but of the complexities and travail from which this great industry has arisen, of the unique and particularly advantageous conditions which have favored its marvellous growth during the past ten years, as well as the remarkable and efficient machines which form the equipment of factories making high grade boots, little or nothing has been written.

Other industries have their marvellous machines, the modern loom, the Linotype, the Monotype, and various automatic machines now in use excite your wonder and admiration, but here you have a whole system of machines, many of them so intricate

with so many and such variable conditions; different sizes, shapes, qualities, and a never-ending procession of styles, are made on one set of machines. It is here that we touch the very foundation upon which the shoe industry has been built up and advanced as in no other period in its history, for it is but a comparatively short time since conditions were decidedly different, when there was no system of machines, as the term is now understood among manufacturers. Each manufacturer's equipment was obtained from a wide variety of sources, some he bought and others he hired. Some received a certain amount of attention from those who had placed them in his factory—others almost none. Unfortunately, shoe machinery is not an exception to the general rule. Parts wear out and break, adjustments go wrong. In former times when this happened production in many factories would cease at that point until the machine had been placed in proper running order. Delays were often long and vexatious. For prior to 1899 Canadian shoe manufacturers obtained the greater portion of the machinery they used from different makers, most of them located in or near Boston. Sometimes the maker supplied but a single machine, in other instances several, but in any case the shoe manufacturers were not only obliged to meet the terms upon which the machine was ordinarily placed in Boston, but to pay such customs charges as were levied against it, and all the expense of the expert usually sent from Boston to set up the machine and teach its operation, from the time he left Boston until he returned. Under these conditions, it is not surprising that the boot and shoe manufacturing industry of Canada advanced but slowly. Many manufacturers preferred to cling to such primitive means as the awl, waxed ends and hammer—shoemaking implements as old as the Egyptian temples—operating only such machines as seldom required adjustment or attention, rather than submit to the vexations and losses which attended the use of improved machinery and methods even then available, but only on the conditions as set forth.

It was a crucial period in the history of the industry. Foreign manufacturers operating under more favorable circumstances found in Canada a ready and even eager market for their surplus productions. The industry was anxiously awaiting the advent of a Moses to lead it safely from the sea of trouble in which it found itself. Such was the state of affairs when, in 1899, the United Shoe Machinery Co. of Canada was formed, an event which undoubtedly transcends all others in the history of an industry which, in its evolution from the purely hand processes and imple-

ments of only half a century ago, has passed through many revolutions, many of them almost spectacular in character.

The United Shoe Machinery Co. of Canada established its factory and offices in Montreal. It secured some of the best machines then in use for fastening the soles and heels to boots and finishing them. It imported them. It invented or purchased others to fill in the gaps for which there was no machine. It harmonized their action, adjusting them to each other's requirements, until it had a system of machinery for attaching the soles to shoes, as shown in making the very high-grade type of boot known as the "Goodyear Welt," which is truly marvellous. All this was accomplished only at the expenditure of much money and untold effort. But it did more than supply machines. It kept them in working condition. It established branch offices in Quebec and Toronto. It maintained in each office a supply of machine parts in order that any mishap to a machine might be readily repaired. When it is stated that this company in the regular routine of its business makes over \$3,000 different kinds of machine parts varying from a machine base weighing over a ton to the smallest machine screw, the magnitude of this undertaking can be readily comprehended.

More than this, the company maintains in each of its branch offices a corps of men who are not only expert machinists, but expert shoe-makers as well—men competent not only to repair machines, but to teach their operation and to give expert advice. This corps of men is placed at the disposal of its patrons by the company. If any office of the company notices a mishap, a man is immediately sent to take care of it. The vexatious delays and the losses which beset the trade so short a time ago have disappeared. Each one of the company's patrons, be he large or small, knows that he is entitled to the same service that his competitor receives. It seems to have become a cardinal principle in the building of the company's business to play no favorites, and the sincerity of the company's efforts is apparently never questioned by its customers.

While the quality of the company's service and the efficiency of its machines, through improvements and new inventions, have constantly increased in value to the industry, it has aimed constantly to reduce the cost to its patrons and with results that have earned their cordial approval.

The United Shoe Machinery Company of Canada has apparently been successful in performing the things it set out to do, for the boot and shoe industry has prospered as at no other time in its history. The company has been constant and diligent in anticipating the requirements of the industry it has served so well. From the small factory occupied the first year of its existence, it soon moved to one of larger capacity, and in 1903 built the fine plant it has since occupied on LaSalle Street, Montreal. It is now completing a new manufacturing plant in one of the suburbs of Montreal, which it is producing and convenience. The illustrations of the different buildings occupied by the company afford a most striking index to the prosperity which has attended the boot and shoe business, for the business of the company has increased in exact ratio to the advance of the industry itself.

Success, however, has its penalties, and the United Shoe Machinery Company of Canada has not escaped. It has been charged that it is a monopoly, and, paradoxical as it may seem, after the description of the wonderfully increased prosperity of the shoe industry—that it is acting in restraint of trade. Fortunately, these accusations do not come from the company's patrons, who apparently are well satisfied with present conditions, but from competitors of

self, and a condition originally imposed by the manufacturers of shoes and closely adhered to in most instances ever since.

This royalty plan has been a factor of the most supreme importance in building up the industry. It is related that Gordon McKay, one of the earliest builders of shoe machinery, tried in vain to sell his earliest machines. Shoe manufacturers, while acknowledging the efficiency of the machines and the undoubted saving their adoption would make in their business, did not have the money to pay the moderate price for which he offered them, or, in some instances, lacked faith in the future of making shoes by machinery. In his desperation McKay made several unavailing efforts to sell his business, including rights in the machinery, and finally evolved the scheme of placing them on a royalty, when they were eagerly accepted by manufacturers of shoes, many of whom became wealthy through their use.

McKay formulated a lease which manufacturers using his machines were required to sign. The provisions of this lease were no more onerous than those which the average householder is required to sign. The shoe industry is familiar with them, for practically every successful machine of shoe machinery has been obliged to follow the custom established by McKay about fifty years ago.

In some instances the manufacturer pays a small sum for each shoe on which the machine performs its part of the work, in others the shoe machinery company places the machine in the factory of the manufacturer without charge, and gets its return from the material used in connection with it, such as wire, nails, tacks, etc., it being agreed that only material supplied by the company is to be used, and that a slight increase over the market price shall be charged. Even in the periods when the price of metals was greatly enhanced this company has found a way to maintain a very nearly even price for such materials, and has never increased the price charged to manufacturers.

The average rate of royalty, direct and indirect, which this company now receives on all classes of shoes is less than two and one-half cents per pair. On some grades of shoes it is but three-quarters of a cent per pair, and the highest paid on the highest grade of Goodyear Welt shoes, the best which can be bought, is only six cents. Very few shoes pay a royalty as high as this, and the majority of shoes made in Canada pay a royalty of only a cent and a half a pair. In any case the return paid for the use of machinery cuts no figure in the retail price. Out of this small sum the company pays the cost of developing and purchasing new ones of administration—in short, the entire expense of conducting its business.

Under this, the royalty system, a shoe manufacturer can start in business with a modest capital, and, although shoes are made on a close margin of profit, the capital being in liquid form can be turned several times a year, thus giving the manufacturer a substantial profit on the total volume of business. It is the narrow margin of profit on each pair of shoes. There is no other industry of any consequence of which this is true. The manufacturer of textiles, before beginning business, has to install a complete equipment of machinery at a cost which is prohibitive, except to concerns of very large capitalization. The industry is thus concentrated in very few hands, while the industry of making shoes is divided among different concerns of varying size and competition is made almost inevitable by the system under which any manufacturer no matter what his relative importance may be, can get his machinery on terms as advantageous as those obtainable by his most prosperous competitor. Instead of worrying about the depreciation of his machinery, he knows that he is on equal terms with every other manufacturer, and that he can confine his attention to the manufacture and sale of shoes, keeping practically all his capital in quick assets.

It is under these conditions that the shoe industry has advanced most rapidly. The small amount of capital required to obtain such a remarkable equipment of machines has made it possible for many shoe manufacturers who are now numbered among the most prosperous, to enter business on their own account, who, under different conditions, would have been debared from doing so. It is for this reason that many young men now growing up in the industry regard with slight favor any suggestion that will tend to change these conditions, believing that if the manufacturers are compelled to purchase this machinery outright it will tend to build up a monopoly in the manufacture of shoes among those who can control the immense capital which would be required.

The United Shoe Machinery Company of Canada has never attempted to monopolize the production of shoe machinery. In the factories of many of its customers the machines of its competitors are running with those of its own production; in fact, there are whole departments in which there are few, and in many cases no machines supplied by it. There is nothing in the agreement between the manufacturers and the company to prevent such a condition.

It is thus that the boot and shoe industry of Canada has advanced through discouragements and difficulties to the proud distinction of being the sixth in importance in the Dominion at the last census. What the figures of the census now in progress will disclose is a matter of much interest to those actively engaged in the making of shoes. That the industry has continued its remarkable progress is best shown in the ever-improving quality of the goods produced and the attention which the product of Canadian factories is attracting in the markets of the world.

Of the future—who shall say? It is difficult, particularly for those engaged in the industry, to believe that the trend of public affairs and policy should point to a return of the troublesome conditions from which the industry has so recently emerged, but only the destiny which shapes the eads of industries can answer.

MEGANTIC CO. HAPPENINGS.

Budget of News From Various Sections of Country.

INVERNESS.

On Sunday evening the Rev. J. L. Hughes, pastor of the Methodist Church, took as a subject for his talk the Ne Temere decree and dealt with the subject from the standpoint of a British citizen, pointing out that it was an attempt to undermine the free constitution of the British Empire. Taking a marriage contract issued under the signature and seal of the King's representative and the compact which this allowed, after having the blessing of God set aside by mere man, was certainly a blow to the freedom of the laws of British Empire, which are founded upon the Bible.

Rev. J. M. Miller, pastor of the Presbyterian Church, preached a strong temperance sermon Sunday morning, pointing out the evils of the liquor traffic and urging that all denominations should join together and enforce the laws, and if possible prevent the stuff being brought into the village.

There was no service in the Presbyterian Church on Sunday evening. Mr. Miller took the service at Lyster in the afternoon and in Lyster in the evening.

Mr. and Mrs. Pennington, Mr. D. T. Stewart and Mr. Crawford, of Lyster passed through here on their way to the McGillivray's funeral. Mrs. McGillivray was a great worker in the Auldrey Church, was highly thought of and will be very much missed in the community. She leaves one little boy, her mother and husband, to mourn her loss. They have the sympathy of all in their sad bereavement.

Miss Annie Stewart left Tuesday on a visit to friends in Montreal and expects to be away for about a month. Miss Kelly, of Quebec, is staying with Miss Katie in her absence.

Mr. W. H. Lambly was to attend the Men's Missionary meeting in Montreal, but got a subpoena to appear in Arthabaska as a witness and feels disappointed that he will not be able to attend that important meeting.

Miller, of Richmond, passed through here on a business trip. His many friends here were glad to have a call from him.

Mrs. S. W. Mooney entertained a number of young people to tea on Friday. This was in honor of Mr. and Mrs. Johnston, of Godrich, Ont., who were down on a visit to Mrs. Johnston's parents, Mr. and Mrs. H. Mooney.

Master Jas McMillan has taken a situation with Mr. John Whyte, of Lyster, as clerk in the store.

Mr. Malcolm McMillan returned from the West after spending a couple of months with his brother, near Regina. Mr. McMillan is greatly taken up with the West, and thinks the returns are very much better than here, but at the same time has a warm spot in his heart for old Megantic and will likely remain here.

Mr. Hugh Maxwell returned from Arthabaska after sitting for three days on a criminal case. He had to spend Sunday in the Court Room under guard and felt very glad to be discharged.

The jury men from this district are all of the opinion that better accommodation should be provided for the jury at Arthabaska. A suitable dining room, wash room and other improvements. It is to be hoped that the Government will look into the matter and when they force men to serve on the jury they will see that they have good accommodation and are reasonably paid. The Grand Jury should have \$2 per day and all expenses.

ADDERLEY.

Rev. Mr. Hughes, of Inverness, officiated in the Presbyterian Church, on Sunday.

Recent arrivals and departures:—Messrs. Jos. Walker and Peter Hamilton to Montreal on Saturday with large droves of cattle for the market; Mr. Wm. Murchie and daughter, of Bute, visiting at Mr. A. McKinnon's of Kimberley on Saturday; Master Prescott Walker to Inverness to attend school.

Mr. Cloutier, who lives across the lake, a short distance from here, sustained a heavy loss on Saturday afternoon when his barns containing hay, grain, etc., and were burned down. The cause of the fire is unknown. A small insurance was carried. This was formerly the old Walker farm.

Mrs. Neil McKenzie is on the sick list.

Mr. Jas. Wright has completed a fine large shed which he recently built.

ST. SYLVESTER WEST.

A few young people spent a very pleasant time at Mr. and Mrs. John Macchell's on Tuesday evening, and at Mr. and Mrs. D. Howley's on Thursday evening.

Arrivals and departures include: Miss Mary E. Wark, of Leeds, guest of Mr. and Mrs. R. Brennan, of "Parkhurst"; Mr. Albert Smith, of Wilson's Mills, and Mr. A. Nelson, of "New Armagh," guests of Mr. and Mrs. G. Nutbrown on Sunday; Mr. N. Beattie and Mr. E. Squires, of Leeds, visiting friends here on Sunday; Mr. Hugh Rankin, guest of Mrs. McCutcheon, last week; Mr. L. Brown and Miss Maud Brown visiting at Mrs. D. Howley's during the week.

Miss Lily Craigie has been confined to the house for the past week.

Mr. Wilfred Brennan shot a fine moose last week.

LEEDS VILLAGE.

The first snowstorm of the season came on Monday and the ground is white.

Master Edward Pratt gave a large party to his young friends on the evening of the 10th inst., it being

the anniversary of his tenth birthday. Mr. John Parker, B.A., school inspector, is in Quebec at present. Rev. Mr. Goorley, Presbyterian minister of the village church, has returned from Montreal and took charge of the service on Sunday. Mr. Willie Ross has returned from his trip to the Northwest, and now wishes to dispose of his property here as he wishes to take up a homestead in Alberta.

RECTORY HILL.

Arrivals and departures:—Messrs. John Currie, Alger Patterson, Jack McCoy and Ernest Patterson home from the west; Miss Edith McIntyre, of Redcastle, visiting her cousin, Miss C. Patterson; Mr. Paul Berube visiting at Mr. Leith's during the week.

STUDYING U. S. SCHOOL SYSTEM.

Canada's Royal Commission on Education Now in Washington.

CALLED ON AMBASSADOR BRYCE AND ALSO AT THE WHITE HOUSE.

Washington, Nov. 16.—(Special.)—The Dominion of Canada's royal commission on industrial training and technical education, touring this country to study the American education system in all its branches, was in Washington yesterday.

In the party are James W. Robertson of Ottawa, chairman, Hon. John N. Armstrong of North Sydney, N.S., Rev. George Bryce of Winnipeg, Man.; Ernest Boulanger of Montreal; David Fossyth of Berlin, Ont., and James Simpson and Thomas Benough of Toronto. Yesterday's programme for the commission included calls upon Ambassador Bryce and at the White House and visits to Secretary of Agriculture Wilson and Superintendent of Schools Davidson.

DEER SEASON IN VERMONT OPENS.

Farmers Welcome Opening as Animals Have Done Much Damage.

APPLE RAISING WILL BE IMPOSSIBLE IN CERTAIN SECTIONS AS A RESULT.

Brattleboro, Vt., Nov. 16.—(Special.)—The frequent crack of the rifle yesterday gave indication of the opening of the deer season in Vermont and until Nov. 25 hunters are allowed to shoot these animals twelve hours daily. It is reported that deer are plenty this year, the best hunting grounds being at Somerset, Stratton, Londonderry and Jamaica. The season's opening was hailed with joy by the farmers who claim that the damage done their orchards by young deer makes the raising of apples nearly impossible.

VERMONT DEER HUNTER KILLED.

Man Walking Behind Him Falls, And Rifle is Discharged.

FATAL ACCIDENT OCCURRED FEW HOURS AFTER SEASON HAD OPENED.

Bristol, Vt., Nov. 16.—(Special.)—A few hours after the opening of the deer season, in this state yesterday, Charles Barnard was accidentally shot and killed by Charles Cove. Both men were deer hunting near here. Cove, who was walking behind Barnard, stumbled and fell. His rifle was discharged when it struck the ground, fatally wounding Barnard.

RICHESON WANTS VENUE CHANGED.

Counsel to Argue That Minister Cannot Have Fair Trial.

BELIEVE THAT A JURY IN SUFFOLK COUNTY WOULD BE PREJUDICED.

Boston, Nov. 16.—Contention that Rev. Clarence V. T. Richeson, who is to be tried on Jan. 15 for the alleged murder of Avis Linnell, cannot secure an impartial trial at the hands of a Suffolk County jury because of prejudice, will be urged before the court at an early date by counsel for the defence as a reason for a change of venue. It is said that District Attorney Pelletier has been expecting that such a motion would be made. A similar motion was urged last Spring in the Crocker case. Judge Stevens refusing to grant the change of venue after listening to arguments which lasted for two days.

McCONNELL.

Arrivals and departures:—Rev. Mr. Hutchinson of Hardwick, Vt., guest of Rev. and Mrs. G. W. Chapman over Sunday; Mrs. Ellen Boardman of Lowell, Mass., with her brother-in-law and sister, Mr. and Mrs. O. Brown, before leaving with her daughter, Miss Chaffee, for California for the winter. Their brother Mr. Clarence Rollins and son, Howard of Georgetown were at the same place on Sunday, also Mr. and Mrs. W. Wilson and little daughter, Mrs. C. Turner, of Leeds. Crocker week-end guests at Glen Brook Farm at Mr. Brown's, Mrs. H. Hibbard is quite seriously ill at present.

CHOICE OF SPEAKER CAUSED DISCUSSION.

Sir Wilfrid Laurier Said British Precedent Had Been Departed From.

PREMIER SAID THAT HIS MEMBERS OF GOVERNMENT SUPPORTED DR. SPOURLE.

Ottawa, November 16.—

In the first time since 1896 a Conservative Government grace the opening of a new Canadian Parliament yesterday afternoon, and the scene was rendered memorable by a debate unprecedented in Canadian parliamentary history, and one which indicated that the present will be a strong fighting session. Instead of Dr. Sproule being elected without any debate save the usual opening courtesies between opposing leaders, Sir Wilfrid Laurier as leader of the Opposition, seized the opportunity to make an attack without directly criticizing Dr. Sproule.

SIR WILFRID LAURIER.

Sir Wilfrid Laurier said in part: "Mr. Flint," said Sir Wilfrid. "It is the privilege of every administration after a general election, especially when supported by so large a majority as the present to select from the members of the Opposition who in his opinion is a fit and proper person to discharge the important duties of speaker. My hon. friend has just moved that our old friend and colleague, Dr. Sproule, be the candidate selected by this Government. I have no exception to anything said in appreciation of the merits of Dr. Sproule, but, on the other hand, I cannot but say with all frankness that I am surprised at the selection made by the Government, not from any want of qualifications of the hon. member or from anything belonging to him, but from the very circumstances out of which the present administration has come into office. (Opposition applause.)"

Proceeding, Sir Wilfrid Laurier said that in England it had long been an unwritten law that when a man had been accepted as speaker, he should so remain until removed by death or disabled by disease. This system, he said, had much to commend it, and should command the favor of this Parliament since it permitted the speaker to gain authority by experience. "We have learned by experience in this House," said Sir Wilfrid that however well a man may be qualified by learning and education, he has still more to learn in the way of experience. These things have occurred to me when I occupied the seats now held by my friends opposite and after the election of 1904 I asked the speaker, Mr. Sutherland, to again become speaker. But for reasons, both personal and political, he refused to accept. The Hon. Mr. Maclellan was elected, and I believe filled the chair with increasing dignity, impartiality and ability. (Opposition applause.)"

Proceeding, Sir Wilfrid Laurier said that now British precedent had been departed from it was quite the proper thing that Dr. Sproule should be elected speaker.

THE PREMIER REPLIES.

"My right hon. friend," said the Prime Minister, "has not received the proposals of the East in the best possible humor, but I suppose under the circumstances he could scarcely be expected to show better grace. (Government applause.) He has indulged in a rambling speech and ended by admitting that the gentleman chosen is one entirely worthy of the high honor proposed for him. He has already given evidence of the fact that he is ready to preach in Opposition what he failed to practice in power. (Loud Government cheers.) The Opposition leader is evidently full of surprise that the discussions he hoped for in the Government ranks are not manifest, and the appeal he made in that regard was unworthy of him. Government applause." But the exhibition he has given to day is no new incident in his political record—(renewed applause)—and I may tell him that so far as the members on this side are concerned they are without exception willing to support the nomination of Dr. Sproule, and if the leader of the Opposition desires to test that the opportunity is open to him now. (Loud Government applause.)"

COATCOOK.

Miss Dorothy Carr, of Brandon, Vt. is the guest of her grandparents, Mr. and Mrs. Carr.

Mr. and Mrs. E. Tobey, of Dover, N. H., who have been guests at the Coatcook House for some time, left Wednesday for Sherbrooke.

Mr. Scott Gilbert, of Sherbrooke was in town on Wednesday.

Mr. A. O. Norton is having his new house covered with asbestos shingles, which he recently purchased in Montreal. The workmen have arrived and will proceed with the work as soon as the weather will permit.

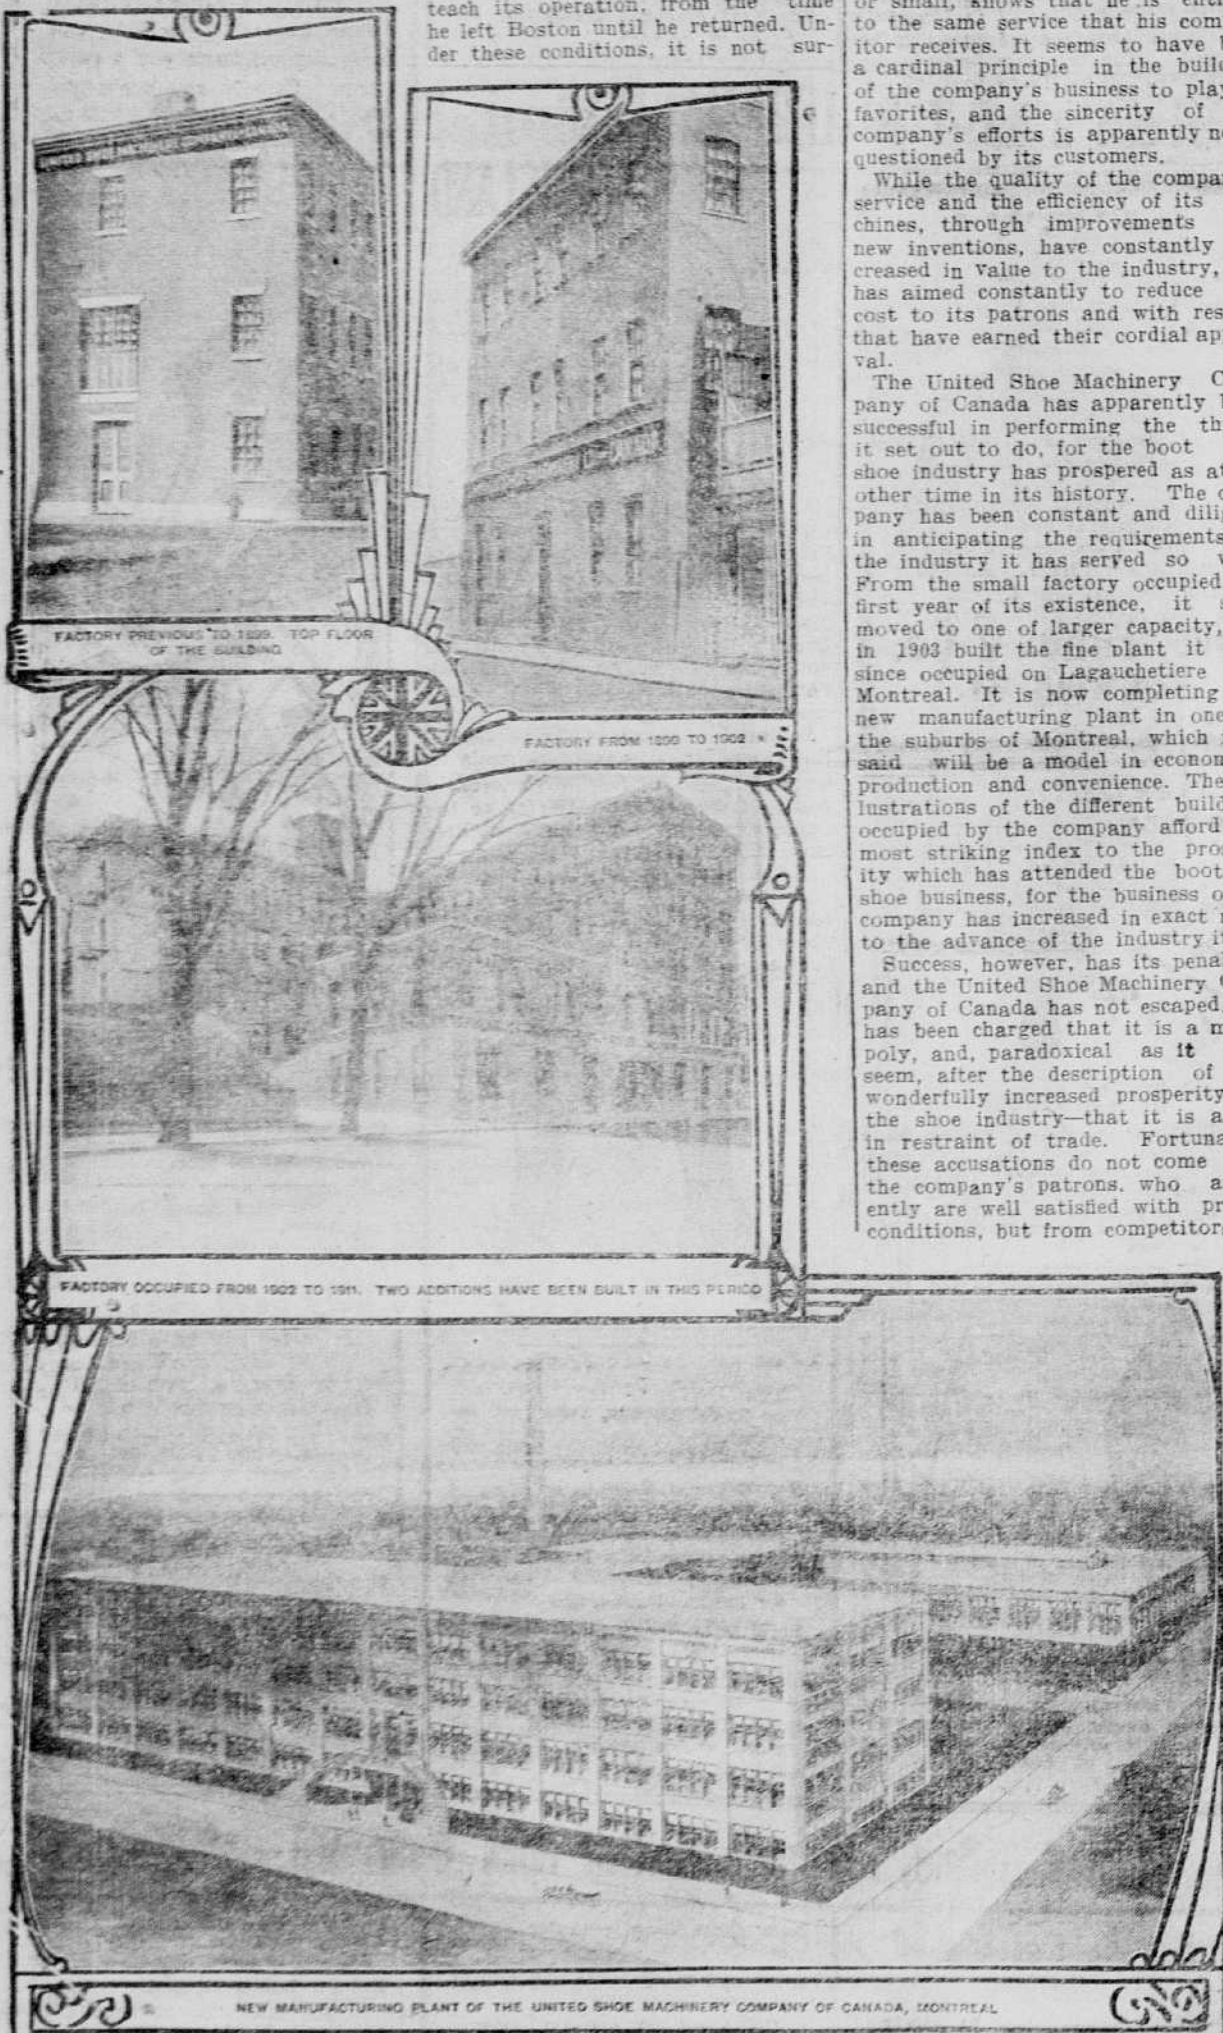

The W.C.T.U. will meet on Friday afternoon at 3 o'clock, at the home of Mrs. E. F. Tomkins.

Mrs. Hector Verrett was the hostess at a pleasant "bridge" on Tuesday afternoon. The highest score was made by Mrs. F. E. Lovell.

At the first meeting of the "500" Club held on Wednesday afternoon at the home of Mrs. B. N. Robinson, the first prize was won by Mrs. O. G. Webster, and the second by Mrs. Lohrman.

NEW MANUFACTURING PLANT OF THE UNITED SHOE MACHINERY COMPANY OF CANADA, MONTREAL

and as finely adjusted as a watch, performing with marvellous accuracy operations which, but a short time ago, were thought to be impossible through any other means than the human hand. Each fills exactly its place in the general scheme, constantly preparing for operations that are to follow, for in the making of a high-grade shoe there are no really minor operations. Some of the operations may seem to be less important than others, but if you watch carefully the work of succeeding machines in their sequence, you will find the inaccurate work of a single machine, like the slightest of a sinful generation, if not discovered, is visited upon each of the machines which follow until the completed product emerges a pariah among its fellows and scornfully known among shoemakers as a "bat," a "crab" or a "cripple."

Fortunately this now seldom occurs for there is no system of machines in the world so finely adjusted to each other's requirements and which receive such constant and expert attention. No other aggregation of machines meets and successfully copes

the company, some supplying but single machines, none with more than a small number of machines for performing operations widely divorced and therefore lacking every essential advantage which comes from the work of machines in a closely adjusting system. Promoters of these machines have naturally found but little demand for what they had to offer.

The charges are, however, based upon the peculiar conditions under which shoe manufacturers obtain their equipment of machinery—conditions which are probably without a parallel in any other branch of industry, for this boot manufacturer is not obliged to purchase his equipment of machinery—he can lease it. Many of the machines he can purchase outright if he so desires, some of them are only placed in factories on lease, in which case the owner of the machines participate in some small degree in the saving which the machine makes in the shoe-making process. This is the so-called Royalty System, a method of placing machinery as old as shoe machinery it-

YUAN SHI KAI ACCEPTS PREMIERSHIP.

Veritable Reign of Terror Prevails At Nanking.

SEARCH BEING MADE FOR CHINESE WHO HAVE DISCARDED ED QUEUES.

Peking, Nov. 16.—The most important development at the capital yesterday was the publication in the Official Gazette of Yuan Shi Kai's expression of thanks to the throne for its appointment of him as premier. This is regarded as tantamount of his acceptance of the office. An imperial edict published simultaneously orders Pu-Ting, the Tartar general at Jehol where is situated the summer residence of the emperor, to vacate his post in favor of Hsi-Liang, who was formerly viceroy of Manchuria. The appointment of his aged and trusted counselor to the throne is thought to indicate that Hsi-Liang and Yuan Shi Kai are arranging for the possible retirement of the royal family to Jehol. However, this step probably will be taken only as a last resort, as the general feeling is that should the court once leave Peking the throne would be lost to the Manchu dynasty forever.

TERRORISM AT NANKING. Shanghai, Nov. 16.—A veritable reign of terror prevails at Nanking, according to late despatches from that city, under the dominance of General Chang Jen-Chun, the viceroy who has cast restraint to the winds. A systematic search is being made

SENTENCED TO LIFE IMPRISONMENT.

Arthur Bean Guilty of the Murder of His Mother and Sister.

JUDGE SAID ACCUSED'S MIND MUST HAVE BEEN AFFECTED BY LOSS OF PROPERTY.

Maidstone, Vt., Nov. 16.—With-out betraying any emotion, Arthur Bean, the 19-year-old youth, who confessed last Monday that he murdered his mother, Mrs. George Bean, and his sister, Miss Nina Bean, heard himself pronounced guilty of murder in the first degree and sentenced to life imprisonment at hard labor, in the Superior Court here yesterday.

Judge Fred M. Butler, who presided at the trial, said that the most charitable view he could take of the crime was that the defendant's mind had dwelt upon his loss of property, and he had been excited and controlled by passion.

"This condition," the judge continued, "was stimulated by intoxicating liquor furnished by his own brother. The evidence was clear beyond question of doubt that a double murder like this must have been premeditated."

The crime was committed in the Bean home in Maidstone on March 9 last.

WILL MOVE FREIGHT SHEDS. Bromptonville, Nov. 16.—(Special)—Mr. J. O. Desmarais, secretary of the town, has received a reply from the G.T.R. Co. with regard to the wire fence in the rear of the station. The Council wrote asking that it be removed. The company replied by stating that it would be fixed up in the spring when it was the intention to move the freight sheds and otherwise improve the grounds.

LIBERALS LOSE IN P. E. ISLAND

Conservatives Now Have the Majority in the House.

LIBERALS HAD 16 AND CONSERVATIVES 14 BEFORE THE ELECTION.

Charlottetown, P. E. I., Nov. 16.—The result of the two bye-elections in this province yesterday seals the defeat of the Liberal Government. In Port Augustus district Premier Palmer is beaten by Dr. Dewar, Conservative, by 329 majority. In Belfast district, Prof. Alex. Macphail, of Queen's University, independent, is victorious over Editor Nash, of the Patriot, by about 200 in a much smaller vote.

Before these elections the parties in the House stood sixteen Liberals to fourteen Conservatives. Yesterday's polling transfers the majority to the Opposition, thus defeating both Premier and Government.

IN NOVA SCOTIA ALSO.

Halifax, N. S., Nov. 16.—The Conservatives captured the two seats where bye-elections were held in Nova Scotia yesterday, for the Legislature, Digby and Lunenburg. In Digby H. H. Marshall, (Con.), a lumberman, was elected by a majority of about 500 over A. E. Wall (Lib.), who was the candidate in the Dominion election on the Liberal side.

In Lunenburg, C. C. Zwicker (Con.) has a majority of nearly 200 over Wm. Duff (Lib.). The vacancy in Lunenburg was caused by the retirement of Hon. A. K. MacLean, who ran and was elected in Halifax for the federal Parliament.

The Opposition in the Nova Scotia Legislature will now number 13, the Government strength being 25.

"UNDER FIRE IN DIXIE."

Waterloo, Nov. 16.—(Special)—The annual tea meeting and lecture was held on Monday evening in the Methodist Church here, and was attended by a large number. A bounteous repast was provided, to which all did ample justice. A feature of the evening was a lecture by the Rev. W. G. Henderson, of St. Lambert, "Under Fire in Dixie," being an account of his reminiscences during the American Civil War. Mr. Henderson is an interesting and powerful speaker, and the lecture was thoroughly enjoyed. On Sunday the anniversary services were held, with special music by the choir. Mr. Henderson was preacher at both the morning and evening services.

Dangerous

Cause

This is one of the most dangerous seasons of the year. Many a person has contracted a serious cold by getting his feet wet during weather just like this. For the sake of a dollar or so will you risk your health? Will you run chances of being laid up and unable to work for months? Do you want to pay out your good money for doctors' bills? Surely not.

Remedy

The remedy is simple. Buy a pair of rubbers at our store, and protect yourself. Keep your feet dry. We have them in all sizes and styles. If you are caught without rubbers telephone us and we will send you a pair. Perhaps you don't like wearing rubbers. Some people don't. Then buy a pair of our famous "Dry Shod" Boots. We have them in tan or black. These are exceptionally suitable for this time of the year. Here is a cut of the shoe. The dollar sign on the sole means that by wearing them you will save money.

Prices \$4 to \$5

Mr. Workingman:

It is very important that the man who works by the day for small wages should guard against illness. We are showing a complete line of heavy shoes and rubbers at reasonable prices. Come and look them over.

Home Sweet Home

After you have finished your day's work and tea is over, a pair of felt slippers or boots will be of great comfort to you. Light your pipe, put on a pair of our felt slippers and read your paper, and you will find that life is worth living. We have them in all sizes.

For Cold Weather

For the cold, frosty weather the felt boot can't be beaten. Here is our price list:

Men's	\$2.25
Youths'	\$1.75
Boys'	\$2.00
Children's	\$1.25
Misses'	\$1.50

Your Duty

Your duty to yourself and family is to keep in good health. We can help you.

President and Vice-President of
Sherbrooke Hockey Club.

largely attended. Mr. C. L. Spafford president of the club, occupied

the chair.
The financial report was read by Mr. W. H. Brent, and showed that the club had lost fifty dollars on last year's operations.
The plans for the coming season were talked over, and although many of the older players have dropped out it is hoped that Sherbrooke will have a strong team.
Messrs. N. L. Wiggett and W. H. Brent were appointed delegates to attend the adjourned annual meeting of the Interprovincial.
The following officers were elected: Patrons—The Mayor, Dr. A. N. Worthington, F. N. McCrea, M.P.; S. L. Clough, L. H. Olivier.
Hon. Pres.—E. W. Farwell.
Pres.—Geo. Povey.
Vice-Pres.—N. L. Wiggett.

from Management after six years
of service.

Sec. Treas.—Fred Boyle.
Manager—Howard Thompson.
Committee—W. H. Brent and Thos. Southwood.

Delegates—N. L. Wiggett and W. H. Brent.
Mr. W. H. Brent retired from active work after six years of service as secretary-treasurer and manager of the club.

It was decided to issue membership tickets to be sold at fifty cents each.

HOCKEY.

CLUB FORMED AT KNOWLTON,
WITH ROD KENNEDY PRESIDENT.

Knowlton, Nov. 16.—(Special)—A meeting was held at the Lakeview House on Tuesday evening for the purposes of reorganizing the hockey club. The following are the officers: President, Rod Kennedy, formerly of the Vics, Montreal; vice-president, F. L. Nunn; Sec. Treas., Ned Mandigo; Committee, Dan Greene and F. N. Williams. Representative to the league, C. N. Crutchfield and F. N. Williams.

SPORTING NOTES.

The Scotch Curlers may visit Sherbrooke this winter.
"I am married" was the excuse given by several of the older officers of the Hockey Club at last night's meeting, when urged to remain in office.

Howard Miller will play no more basket ball for a while. His physician has ordered him to drop the game.

A skating rink has been started on the Knowlton Academy grounds and will be managed by Mr. C. Turner.

CHICAGO PACKERS
TO GO ON TRIAL.

Conspiracy to Restrain Meat Industry of Country is Charge.

ATTORNEYS ARE PLANNING
GREATEST LEGAL EVER.
WAGED IN FEDERAL
COURT.

Chicago Ill. Nov. 16.—(Special)—Chicago packers, under indictment for alleged violation of the criminal provisions of the Sherman anti-trust act in the alleged maintenance of an "unreasonable" conspiracy to restrain the meat industry of the country, will be placed on trial before Judge George A. Carpenter in the United States District Court in this city next Monday. A special venire of 150 men has been ordered to report on that day and it is expected the trial will proceed without further delay.

Prosecutors for the Department of Justice and the great corps of attorneys for the defense are planning the greatest legal battle ever waged in a Federal Court. It is estimated that the trial will take at least three months.

From the standpoint of the Department of Justice the case will break all records in volume of testimony. Already several hundred witnesses have been subpoenaed. The majority of the witnesses to be called are retail and wholesale meat dealers, former officials of Chicago packing companies and out-of-town packers. Many already have given evidence before the Federal grand jury which returned the true bills.

Eight years have elapsed since the

Government first started proceedings against the alleged "beef trust."
