

BRITISH POLITICS.

THE ARMENIAN QUESTION PRESENTS GRAVE DIFFICULTIES.

TIM HEALY'S AMBITION LIKELY TO BE DISAPPOINTED.

A Recast of the Liberal Programme Said to be Probable.

London, Sept. 1.—That hurriedly convened Cabinet Council on Wednesday night in the room of the Right Hon. A. J. Balfour, First Lord of the Treasury, has caused much speculation as to what was the subject under discussion. The fact that George N. Curzon was sent for is taken to indicate that the subject was urgent foreign business. This is borne out by the fact that the subject of peace has rarely been such a perplexing variety of international complications on hand as now, each full of possibilities which might well keep the Ministers from their beds. The fact that the subject of peace has rarely been such a perplexing variety of international complications on hand as now, each full of possibilities which might well keep the Ministers from their beds.

Subterranean intrigues as subtle and prolonged as those which preceded the Crimean war still hold the whole Armenian question open. The anniversary of the Sassoun massacre finds nothing redressed, nothing settling anything even in a fair way of settlement.

It seems admitted that Lord Salisbury has made a new stipulation that the proposed committee of Armenian control must consist of seven members, six of which four must be Christians. It is less certain that the Sultan has agreed to Russia and France for support against this demand.

As to the statement that pourparlers for a European Congress have been already begun, nobody knows whether it is true or not.

TIM HEALY'S TACTICS.

Mr. Healy has apparently set out with a determination to keep the House in session until the close of September, unless Mr. Balfour would make some concession which would enable him to go back to Ireland and say that he had done something, when his colleagues were either sulking in their tents or sulking from the field. This is part of his campaign to secure the Irish leadership. The end of the session is now in sight, and cannot be deferred by Mr. Healy's ambition. He will go back to Ireland without having accomplished any practical result, but probably with increased prestige as a leader who never knows when he is beaten.

No important speech has been made from the Ministerial bench this week. The Government has had only one policy, that of securing the financial votes and postponing everything else until February. The Opposition, however, has been empty, the Liberals being indifferent to the progress of the estimates and financial routine.

TO RECAST THE LIBERAL PROGRAMME.

Sir William Harcourt has been conferring with men of all factions in private, but has not taken an active part in the debates. What will be the result of these conferences nobody is rash enough to predict, but a recasting of the Liberal programme is being probable than a change in the leadership, although Mr. Labouchere has declared war to the knife against Lord Rosebery. Mr. Chamberlain has not been a conspicuous figure during the week, but he has been doing something to say about Cyprus, asserting that the occupation had been a good bargain for France, if not for England, and that the island needed roads and irrigation works, and adding that he should certainly ask the House for necessary supplies if he were convinced that, by the assistance of the Imperial Government in making these improvements, satisfactory returns could be secured for the British taxpayer. That is the motive of his new political policy, so far as he has disclosed it.

CAMBRIDGE'S RETIREMENT.

London, Aug. 31.—In the House of Commons to-day the Under-Secretary for War, Mr. St. John Brodrick, announced the determination of the Admiralty and War Offices on the retirement of the Duke of Cambridge from his post of Commander-in-Chief, by the establishment of a Council for Naval Defence, under the presidency of a president of the council, which will act in conjunction with the army board, consisting of the Commander-in-Chief and the other four heads of the Military Department. The office of Commander-in-Chief is to be held for the term of five years.

Mr. Gerald Balfour, the Chief Secretary for Ireland, introduced a bill to-day enacting section 13 of the Irish Land Act of 1881. The bill passed its first reading.

THE GRAND OLD MAN.

London, Aug. 31.—It seemed to the newspaper men who were in the gallery for the first time for a couple of years this week, that he was dressed with a good deal more care than he used to show when in the harness. At Chester he wore a comfortable light blue suit with a dark red overcoat with velvet collar buttoning close to his throat. His hands were covered with black gloves and his massive hair with a silk hat of glossiness phenomenal for the Grand Old Man. Evidently Mrs. Gladstone has at length persuaded her careless husband to give more attention to his personal adornment, and her success in this respect is greatly facilitated by his largely increased leisure.

THE CUBAN REVOLT.

Arrival of Reinforcements from Spain. An Encouraging Result.
Havana, Aug. 31.—The steamer Catalina, having on board 140 Spanish officers and 1,200 troops, as well as a battery of artillery, arrived here from Spain to-day. The city and the vessels in the harbor were decorated with flags, and large crowds of people assembled to welcome the reinforcements.

A Scandinavian Pastor Leaving.

Rev. Paul Borup, who has for some time been connected with the Scandinavian Lutheran congregation of Montreal, and during the last two years as minister, preached his farewell sermon last night to a large congregation. At the close Mr. J. E. Christensen, chairman of the trustees, presented Mr. Borup, on behalf of the congregation, with a well-filled purse. Mr. Borup leaves on Wednesday night next for Minneapolis, where he is going through a course in the Norwegian Lutheran Seminary. For the near future the wants of the Scandinavian congregation here will be attended to by Mr. Emanuel Olsen, commencing next Sunday. A week from day next Rev. Sommerfelt, Scandinavian sailors' missionary, Quebec, will preach. Service is at present held in the Montreal Sailors' Institute every Sunday morning and evening. The trustees of the congregation are: Mr. J. E. Christensen, chairman; Mr. A. Larson, secretary, and Mr. E. Lorensen, treasurer.

TROUBLE FEARED.

OTTAWA SCHOOL DOORS LOCKED AGAINST CHRISTIAN BROTHERS.

Trustee Seguin Takes a Determined Stand.

(Special to the Herald)

Ottawa, Sept. 1.—There will be trouble if any attempt is made to open Garneau separate school on Tuesday morning in charge of the Christian Brothers. Trustee Seguin, the representative of St. George's Ward on the Separate School Board, has written to Brother Superior Flamin, of Montreal, stating his determination not to let the Brothers enter the school again. This action is taken by Trustee Seguin at the request of rate-payers of the ward.

It is learned that Brother Superior Flamin arrived in the city yesterday afternoon to try to settle the difficulty. If no settlement can be reached and the doors be closed against the Christian Brothers on Tuesday, the Brother Superior will, it is said, likely withdraw the two Brothers from that school.

It is the wish of Trustee Seguin to put lay lady teachers in charge of the school.

CRISIS IN TURKEY.

Grand Vizier Said Pasha Tenders His Resignation.

Constantinople, Aug. 31.—The situation of affairs is so critical that the Grand Vizier, Said Pasha, has tendered his resignation, saying the he intended to remain in office under the present conditions. Said Pasha, the Grand Vizier, was reported on June 23 to have tendered his resignation owing to the Sultan's rejection of some Ministerial and administrative changes. The Sultan refused to accept his resignation, but it has been stated that the coolness of their relations has since been apparent.

But, the Grand Vizier tendered his resignation about three months ago because the Sultan rejected some ministerial and administrative changes which Said Pasha proposed, and there has been a coolness between them ever since. Therefore, the situation may not be quite so critical as the despatch from Constantinople would indicate.

On the other hand, the Westminster Gazette writes this afternoon that it has received details of great inhumanity upon the part of Turkish officials at Sessoun, who are said to be preventing the distribution of relief to the starving Armenians. It is added that the number of deaths among the latter is increasing daily and it is claimed that it is the deliberate policy of the Turkish Government to exterminate the remaining fugitives by starvation. The resignation of the Grand Vizier may have some bearing upon the subject.

OCEAN DERELICTS.

Shippers' Association to Present a Memorial to A. J. Balfour.

London, Aug. 31.—A memorial has just been prepared by the Shippers' Association and is about to be presented to Mr. A. J. Balfour, the First Lord of the Treasury, praying him to send a member of Parliament to the United States Government with instructions to collect information in regard to the dangers arising from derelicts. The memorial will be supported by the shipping interests generally, and Mr. John Lubbock, a member of the Board of Trade, has been asked to present it. The memorial is signed by the Shippers' Association of London, who has travelled much of the world, and who is the author of "Across the Atlantic," "Days in Florida," "Life in Texas," "Across the Andes," "Sweden and Norway," etc., a progressive Conservative and a supporter of reform in the ancient rights and privileges of the Thames lightermen and watermen, etc., will probably be selected to go to Washington.

SUPPOSED SANDBAGGING.

A Grand Trunk Engineer's Mishap to be Investigated.

Toronto, Sept. 1.—The Attorney-General's Department has decided to investigate the case of Wm. Ivey, the G.T.R. engineer, who was the other day reported drowned at Collingwood. Ivey was brought home on a G.T.R. train last night and taken to his home, 538 Front Street West. Ivey was not dead, but was badly hurt. No one but physicians and his wife have been allowed to see him. The train men in whose care he came here say that he was brought Friday night to the door of his boarding house at Collingwood, where he was supposed to be drowned since the preceding Monday evening, and was then in a wretched condition physically and mentally. He presents every appearance of having been the sand-bagger, and it is supposed that he has been subjected to this treatment in mistake for another party.

GLENN'S HISTORIC VALE.

The Macedonians up in Arms Against the MacCallum Men.

London, Sept. 1.—A valley of Glencoe, the scene of the massacre, promises to be the scene of rioting shortly if Lord Archibald Campbell has his own way. He maintains at Inveraray Castle a baggage band of a dozen Highlanders, and he proposes to march through the Glen on the evening of September 9, playing Pibrochs, etc. The descendants of the MacCallums are up in arms against this action on the part of a descendant of the Duke of Argyll, who was instrumental in the massacre, and they threaten to attack the party. Lord Archibald Campbell has applied to the police for protection, but he refuses to abandon the idea of marching through the Glen.

DEMANDS HIS RECALL.

China Does not Like the British Ambassador.

London, Aug. 31.—A special despatch from Shanghai says that the Taung-Li-Yamen, or Chinese Foreign Office, has instructed the Chinese Minister in London to procure the recall of the British Ambassador at Peking, Mr. R. O'Connor, owing to the latter's menacing attitude in connection with the demands made by Great Britain for the appointment of a commission to enquire into the Ku-Cheng massacres.

Halifax Blazes.

Halifax, Aug. 30.—The stables of the Halifax Street Railway, together with the coöperation of the Nova Scotia sugar refinery and some adjoining property, were totally destroyed by fire this morning. Loss twelve thousand dollars. This is the third time the stables have been burned, and twice for the coöperation. E. W. Wright, a neighbor, lost a new barn. Wright has been burned out on two former occasions. There is hardly any insurance. Neither Wright nor the refinery has any.

SOCIAL REFORM.

ITS RELATION TO THE CHURCH AND CHRISTIANITY.

The Controlling Principle in the Idea: Kingdom is Love.

Rev. Dr. Evans, the new pastor of Emmanuel Church, delivered an eloquent and learned sermon on the labor question last night. His text was: "Every man shall bear his own burden. Bear ye one another's burdens." The speaker said that the first condition of all genuine progress is light, and what is the most alarming feature of the present situation in the economic world—restlessness, agitation—ought to be to the most encouraging sign. Stagnation is the concomitant of life; movement is characteristic of life. How to get the best living. How to get the most of the best living. These are the great questions of today. The average man is well informed with regard to the fundamental principles of politics, while his mistiness with regard to economic problems is amazing, and economic progress has been retarded. The individual in the exercise of his right to secure for himself the best possible economic conditions.

It is no wonder that a civilization should lose favor with the sons and daughters of toil, which permits and fosters our present economic system. This latter, whose main province is to secure a residing even distribution of the good things of life, has been perverted so as to become an instrument in the hands of the few for oppression of the many. Two causes led to this: the neglect of economic study and the divorce of economics from ethics.

The assertion of the fundamental principle of the present industrial system, individualism, one-sided and despotic, has become a controlling principle of our age as an economic being. The present economic system is not the final system, for it has raised evils which it cannot master. It has evolved forces which it cannot control. Individualism is a failure because it is one-sided of the truth; and the emphasizing of one side of the truth to the neglect of the other side always leads to mischief.

Christianity has an important bearing on the present situation. The church has only imperfectly expressed Christianity, and the church has been very narrow and superficial. The church has its origin among the poor; in our day it has come to be more properly the church of the wealthy and well-to-do classes.

Individualism is only half a truth. The other half is communism, and by that he meant that the community at large by wise legislation should spread its wing over its members, especially over the weak and helpless. But social revolution cannot result in social regeneration. The old elements would remain and sooner or later the old condition would return. It is difficult to see how a candid and constructive study of the history of the church can fail to lead to the conclusions that the church has been making steady progress in her understanding of the principles and spirit of Christianity, and that the church is only a political progress of humanity through nineteen centuries of time attests the elevating influence of the Christian church on human affairs, and that at no period since the coming of Christianity has the church been applying herself so earnestly to the accomplishment of her mission in a practical way as at the present time.

"The controlling principle of an ideal kingdom," continued the speaker, "is to love." "Love is the fulfilling of the law." "Love one another." "Love thy neighbor as thyself." In honor preference one another. The church has been applying the teachings of Christ and His apostles, and they let in a flood of light upon the operating principles of the new kingdom. So far Christianity is in perfect accord with every great social reform. The aim is the same, an ideal social state. "Improve man's circumstances," says the social reformer. Christianity says, "Improve his character—change his heart." "Except ye be converted and become as little children ye shall not enter into the kingdom of heaven." The prime need of man is a new heart. The prime condition of the regeneration of the world is the regeneration of the individual.

"Christianity's method is evolutionary, not revolutionary. It is dynamic, and not mechanical. It works from the inside, out, not from the outside in. It works by principle and not by will. It does not directly entangle existing institutions, but it introduces quietly into the human heart such principles as will gradually undermine and finally overthrow every tree which is not of divine planting."

Labor Day Celebration.

Labor Day will, for the first time in several years be celebrated by the united labor organizations of Montreal to-day. The procession promises to be very imposing. Arrangements have been made with the Montreal Street Railway Company so that there will be no trouble on that score.

(The several organizations which have been requested to be in their places promptly to enable the column to start will leave Champ de Mars at 3.30 p.m. by Craig, St. James, McGill, St. James, St. Lambert, St. Lawrence, St. Catherine, City Hall Avenue, Ontario, St. Denis, Pine Avenue, Dorel, Rachel, Cadieux, Marianne, St. Lawrence, Mount Royal Avenue, to the Exhibition grounds.)

The first division forms on Sanguinet Street, corner Craig; the second division on St. Elizabeth Street, corner Craig; the third division on City Hall Avenue, corner Craig; the fourth division on Cadieux Street, corner Craig; the fifth division on St. Dominique Street, corner Craig; the Central Trade and Labor Council, invited guests, Mayor and the president of the C. T. and L. Council on Craig, between St. Dominique and St. Lawrence.

In the afternoon there will be a great picnic on the Exhibition grounds, including a game of lacrosse, music by the Victoria Rifles, and dancing.

MURDER, NOT ACCIDENT.

Toronto, Aug. 31.—The suspicious entertained by John Barrett, of 96 Ulster Street, this city, that his brother, Jas. Barrett, of McMurrich Township, Muskoka District, whose body was found floating in Buck Lake on the 13th inst., was murdered, have been strengthened by the post mortem examination made upon the remains.

As a result warrants are out for the arrest of two men named Knowles and Molson, on a charge of murder, and Provincial Detective Greer has left for the scene of the tragedy to take the two men into custody.

Cholera Epidemic in Russia.

St. Petersburg, Sept. 1.—Official returns show that there have been 2,025 cases of cholera and 713 deaths from this disease in the Government of Volhynia between July 11 and August 17.

PRINCIPAL PARKIN

ENTHUSIASTIC OVER THE TENDENCY TOWARDS IMPERIAL UNITY.

The Appointment of Mr. Chamberlain to the Colonial Office Highly Significant.

A tall, spare man of a distinctly scholarly type of countenance was among the curiously mixed crowd which thronged the Windsor rotunda last evening. He was dressed in the plain gray and black of the gentleman, and he wore a very English top hat, slightly on the back of his head. He looked like an English professional man—in one respect at least—and that is exactly what he was. Geo. R. Parkin was the gentleman in question, and the name will be so well-known to Montreal readers that any further introduction would seem to be unnecessary.

A writer of world-wide fame, Mr. Parkin has perhaps discovered that a proper cannot be without honor, save in his own country. At least, it may be acknowledged that there are many in Canada who have looked upon him as being in some measure a "crank." If fifty of purpose and earnest endeavor towards an admittedly desirable end, form the attributes of this little understood class, then Mr. Parkin may be a crank, but the newspapers, whose duty it becomes to meet all sorts of men, could only wish that "they" was all cranks—to paraphrase the words of the old lady in the story.

For Mr. Parkin is a singularly pleasant man to meet. He has very definite ideas, and he states them in very definite language. With a mind naturally observant, he has had opportunities which have come to few men for the cultivation of a quietness and calmness of ordinary spheres, and this is apparent in every sentence he utters.

Getting back to earth again, it may be observed that he is returning to Canada to assume the head mastership of the school which has been called the Eton of Canada, Upper Canada College, to wit. For the last five years he has been living in England, engaged for the most part in literary and journalistic work. The term is used advisedly and occasionally in labor of perhaps a less ephemeral nature.

The Aubrey Beardsley-like signs which, displayed in front of the Windsor newsstand, herald the coming of the monthly magazines, were engaging Mr. Parkin's attention when a newspaper man spoke to him.

"England has pretty well calmed down after the elections," said Mr. Parkin, after the usual formalities as to weather and his recent ocean voyage had been passed.

The prevailing sentiment seems to me," he continued, "to be one of thankfulness that a strong government is in power, but now everyone is waiting to see what the Government will do, and this will necessarily take a little time." In answer to a question, he said that he certainly considered the Irish question shelved for the present.

Ministry will take up the devolution of government at the point it was left when the last Salisbury Government was defeated, for the extension of the powers of municipalities and counties was something to which that Government was committed. "It is exceedingly doubtful, in fact I do not believe that the Irish would accept this as a satisfactory settlement of their claims to Home Rule, though if they would the Irish question might be considered as solved."

Coming to a consideration of colonial affairs, Mr. Parkin seemed enthusiastic over the prospect of public thought in England toward some measure of Imperial unity. Now, no public man would dare to advocate in however small a measure, the dismemberment of the Empire, where, as he stated, we are, so a measure was commonly discussed. The appointment of such a man as Chamberlain to the Colonial Office, he regards as significant.

"Chamberlain is, in my estimation, the best debater in the House to-day. His interest in colonial matters is intense, and in this connection it may be noted that H. P. Wilson, a young man of most ardent Imperialist leanings, has been appointed his private secretary."

"Sir Charles Dilke has little or no support in his belief that England should evacuate Egypt," continued Mr. Parkin, "but the country being so overwhelmingly in favor of remaining in occupation until Egypt is able to look after herself, and that will not be for a very long time. I discussed this very point with Sir Charles Dilke at the time he was writing his problems of 'Greater Britain.' He is a wonderfully able man, and one cannot fail to be impressed with the wonderful breadth of his knowledge and the organization of his mind. He was alive to the importance of the situation, and he seems on certain matters to have a little inclined to pay too much attention to adverse remarks he may hear here and there."

Mr. Parkin referred at some length to the existing agricultural depression in England, but confined himself rather to statements of facts than to theories as to its cause or possible means of remedy. In speaking particularly of Canadian matters he said that the Manitoba school question had provoked some considerable discussion in English journals, the general tenor being that the common sense of the people could be relied upon to settle any such difficulties. Mr. Parkin, with his family, will leave for Toronto this morning, where he will enter into his kingdom at "Old Upper Canada."

THE TURBULENT SOUTH.

Contradictory Reports from the United States of Colombia.

Colon, Col., Sept. 1.—Authentic information is received here that Gen. Alfarado's troops have taken Quilo. Gen. Sarasti, who led the Government forces, fled to the American Legation, and Salazar fled to the Peruvian Legation. President Caro gives public assurance that Colombia is in a tranquil state and late reports of an uprising are denied.

Narrow Escape of a Kinglet.

Blairitz, Aug. 31.—King Alexander, of Serbia, nearly lost his life while bathing this morning in the Bay of Discay. He was in the water, and both master and pupil were carried off their feet and away from the shore by the strong current which prevails off this fashionable watering place of France. The swimming master was drowned in spite of the efforts made to save him, and King Alexander only reached the shore with the greatest difficulty.

Carnegie on the Irish Question.

London, Sept. 2.—Andrew Carnegie has a column letter in the Times, based upon the recent Irish convention in Pittsburgh, urging the Times to use its power and influence towards finding a solution of the Irish question.

THE POPE'S TEMPORAL POWER.

SERMON IN ST. PATRICK'S CHURCH BY MGR. O'BRYEN.

THE POSSESSION OF ROME ESSENTIAL TO THE POPE'S FREEDOM.

Pledges of Protection Broken and the Power for Good of His Holiness Seriously Hampered.

St. Patrick's Church was filled to overflowing at High Mass yesterday. A great many of the people had come to hear Mgr. O'Brien, who, it was known, would occupy the pulpit. The distinguished Roman prelate chose for his theme the temporal power of the Pope. He began by going over the foundation of the Holy See and the formation of the Pope's temporal domain. The work was one which took hundreds of years, he said, but the ways of God are slow. It was Constantine who, after his conversion, realized that there should not be two kings in Rome, that the representative of God on earth should be the one and only king of the world. It was Constantine who, after his conversion, realized that there should not be two kings in Rome, that the representative of God on earth should be the one and only king of the world. It was Constantine who, after his conversion, realized that there should not be two kings in Rome, that the representative of God on earth should be the one and only king of the world.

OTTAWA NOTES.

(From an occasional correspondent.)

Ottawa, Aug. 31.—The regatta of the Ottawa Club, the first large gathering since the return of the summer excursionists, and the freckles were particularly appropriate. The place of vantage was the club-house balcony, where there a magnificent view could be had of the river, which was alive with boats of every description from yachts to punts; then, as a relief for the eye, there lay that beautiful panorama of country that stretches back to the mountains and is the admiration of all who behold it.

In the races the excitement was who would come in second, for it was a foregone conclusion that if Mr. W. Lawless, of the D.R.A. is holding its annual matches. This year the new loop track, which was built last year, though this veritable village of tents that looks so picturesque in its waitness, relieved with flags, flower beds, and an ever changing throng of people. On Thursday afternoon, the 1st of September, the regatta was held at "at home" in the President's marquee; they received their guests at the entrance so happily that the afternoon was as great a pleasure to them as to the guests. Judging from the number that visited the marquee of the 43rd the popularity of that battalion is still on the increase, and certainly the magnificent display of trophies, which was only half of what it really owes, deserved all the admiration it received. Pte. Hayhurst, besides being congratulated on his success at Blenheim, is not being complimented on the most way he received so much praise—praise sufficient not only to swell the head of many a man, but enough to make him shoot badly. Next week all will be deserted, and only the empty carriages will remain to tell the tale of the glory that was won and lost.

Bronson Was Lucky.

John Bronson, a middle aged American, well dressed, and looking like a well-to-do business man, was arrested yesterday, and brought up before Judge Dugas, charged with obtaining money under false pretences. He had represented himself as a collector for a firm in New York, and collected from the firms of Henry Morgan & Co. and H. & N. E. Hamilton a small sum of money. He was arrested by Detective Trempe, and pleaded guilty. On Mr. Morgan's speaking to the judge and asking for leniency the prisoner was let off on suspended sentence. Mr. J. Henry Morgan, on the man's earnest pleading, gave him a ticket to return to New York.

A VERY DIZZY DIAMOND MEET.

SATURDAY'S CYCLING RACES ANY-
THING BUT INTERESTING.

SHAMROCKS, CORNWALLS AND
YOUNG CAPS. WIN AT LACROSSE.

Wheel Meetings at Buffalo and Man-
hattan Beach--Nationals Defeat St.
Albans--Betting on the Big Yacht
Races--Pillsbury Leading in
the Chess Tournament.

The annual race meeting of the Mont-
real Bicycle club, which was held on Sat-
urday at the M.A.A.A. grounds, was a
portion of the "Canadian Loop" of the
League of American Wheelmen's National
Circuit. If anybody can understand
just what this means he deserves to be
congratulated. In point of fact the whole
affair was as about as dismal as it well
could be, and even the weather, becoming
disgusted as the afternoon wore on, wept
pitifully at the shattered hopes of the
2,000 and odd spectators who went pre-
pared to enjoy themselves.

There were ten events on the pro-
gramme, five of them being professionals,
who are thinly disguised under the title
of "Class B." Of thirteen "Class A"
entries in the first race all started.
There were 23 entries for the second
Class B race and 13 came to the scratch.
For the third race, the Provincial cham-
pionship, Class A, 10 of the 11 entries
faced the starter. Twenty-six Class B
gentlemen figured on the programme as
entries for the one mile open, and just
six started. In the one-quarter mile
open, Class A, of 20 entries, seven start-
ed. The Class B mile handicap saw seven
of the 28 entries start. Twelve out of
the 30 in the mile handicap, Class A,
showed up. In the two mile open, Class
B, there were 25 names on the card, and
just five showed up. Of the 16 whose
names figured in the mile open, Class A,
six appeared on the track, but after start-
ing round several seconds under the limit,
one of the six was too tired to start
in the run-off. The mile tandem, Class B,
showed two starters of the four entered.
From this summary, it must be ap-
parent either that the managers of the
meeting were hoodwinked by a lot of
fake entries, or that they shut their
eyes to the fact that people were being
brought to the M.A.A.A. grounds under
false pretences. A certain percentage of
scratches may be looked for in any
athletic competitions, but such an ap-
alling number of them as the M. B. C.
meeting showed on Saturday must surely
stand as a record.

As for the races themselves, the Class A
events, excepting the mile open, were
keenly contested, but those of Class B
seemed to the uninitiated to be merely
attempts by certain well salaried young
bicycle persons to get round the track in
less than the time limit. Who came in
first was a secondary consideration.

After Saturday the M.A.A.A. and the
M.B.C. should have seen enough of Class
B racing. It can only be hoped that some
action will be taken to prevent a rep-
etition of such a fiasco.

Summaries:

One mile novice, Class A--First Heat--
J. G. D. Pelletier, Wanderers, Mont-
real; 2, H. M. Killaly, Morrisburg; 0, R.
D. McPhail, Montreal; 0, Allan McKil-
lop, Wanderers, Montreal; 0, A. Laliberte,

Quebec; 0, W. W. O'Hara, Y.M.C.A., Que-
bec. Time, 2:36 1-2.

2nd heat--
J. N. S. Mitchell, Montreal; 2, R. Ash-
ton Ker, Wanderers, Montreal; 0, H. G.
Gowan, Jr., Quebec; 0, P. Slater, Ram-
blers, Montreal; 0, J. V. Roy, Quebec;
0, J. A. Booth, Montreal; 0, G. H. Santa-
mour, Montreal. Time, 2:25

Final heat--
1, R. Ashton Ker, Wanderers, Mont-
real; 2, N. S. Mitchell, Montreal. Time,
2:39

Two mile handicap, Class B--1st heat--
1, Angus McLeod, Sarnia, 30 yards; 2,
J. B. Bliss, Chicago, 35 yards; 3, R. E.
McCall, Toronto, 70 yards; 0, S. H. Gib-
bons, R. C. B. C., Toronto, 70 yards; 0,
E. E. Anderson, Roadhouse, Ill., 35 yards;
0, G. Marshall Wells, Wanderers, To-
ronto, 25 yards. Time, 1:02 3-5.

2nd heat--
1, A. Martineau, Montreal, 35 yards; 2,
D. Brown, Cleveland, 15 yards; 3, J. H.
Grady, 70 yards; 0, W. Brainbridge, Chi-
cago, 70 yards; 0, W. Warren, Hartford,
45 yards; 0, Gus Steele, Chicago, 45
yards; 0, O. P. Bernhardt, Toledo, 20
yards. Time, 1:02

Final heat--
1, D. Brown, Cleveland; 2, J. B. Bliss,
Chicago; 3, R. E. McCall, Toronto. Time,
1:02 1-5

Two mile Provincial championship--
1, Henri Coussirat, Wanderers, Mont-
real; 2, Jos. Drury, Wanderers, Montreal;
3, E. S. Pardo, Wanderers, Montreal; 0,
W. A. S. Aers, Montreal; 0, F. M. Mc-
Naughton, Quebec; 0, H. Gowan, Jr., Que-
bec; 0, R. Ashton Ker, Wanderers; 0,
J. V. Roy, Quebec; 0, A. Laliberte, Que-
bec; 0, R. T. Holcombe, Montreal. Time,
1:11 1-5

One mile open, Class B, one heat--
1, Tom Cooper, Detroit; 2, A. D. Ken-
edy, Chicago; 3, O. P. Bernhardt, Toledo;
0, G. R. Wells, Wanderers, Toronto; 3,
S. H. Gibbons, R.C.B.C., Toronto; 0, Monte
Scott, Plainfield, N.J. Time, 2:15 3-5

Quarter mile open, Class A--
1, F. Loughhead, Sarnia; 2, Jos. Drury,
Wanderers, Montreal; 3, H. D. McKel-
lar, Wanderers, Toronto; 0, R. E. Hol-
combe, Montreal; 0, H. Gowan, Jr., Que-
bec; 0, R. Ashton Ker, Wanderers; 0, R.
D. McPhail, Montreal; 0, C. D. Spittar, Otta-
wa. Time, 34 1-5

One mile handicap, Class B--
1, J. H. Grady, Toronto, 100 yards; 2,
Angus McLeod, Sarnia, 45 yards; 3, E. E.
Anderson, Chicago, 70 yards; 0, Monte
Scott, Plainfield, N.J., 40 yards; 0, R. E.
McCall, Toronto, 110 yards; 0, J. P. Bliss,
Chicago, 50 yards; 0, A. Martineau, Mon-
treal, 125 yards. Time, 2:13

One mile handicap, Class A--
1, F. Loughhead, Sarnia, scr.; 2, H. D.
McKellar, Wanderers, Toronto, 5 yards;
3, N. S. Mitchell, Montreal, 130 yards; 0,
R. T. Holcombe, Montreal, 50 yards;
0, J. V. Roy, Quebec, 75 yards; 0, R.
Ashton Ker, Wanderers, 40 yards; 0, A.
Laliberte, Quebec, 50 yards; 0, R. D.
McPhail, Montreal, 100 yards; 0, Quinbas-
ter, Ramblers, Montreal, 120 yards; 0,
Walter Tuff, Wanderers, Montreal, 50
yards; 0, C. Bernstein, Wanderers, Mon-
treal, 130 yards. Time, 2:22 1-5

Two mile open, Class B--
1, Tom Cooper, Detroit; 2, Angus Mc-
Leod, Sarnia; 3, A. D. Kennedy, Chicago;
0, Monte Scott, Plainfield, N.J.; 0, O. P.
Bernhardt, Toledo, N.J. Time, 4:59 3-5

One mile, tandem, Class B--
1, McLeod and Gibbons; 2, R. E. McCall
and J. Garty. Time, 2:21 4-5

One mile open, Class A--
1, H. D. McKellar, Wanderers, Toronto;
2, H. F. Carman, Morrisburg; 0, R. D.
McPhail, Montreal; 0, C. D. Spittar, Otta-
wa; 0, Henri Coussirat, Wanderers,
Montreal. Time, 2:24

WHEELMEN AT MANHATTAN
BEACH.

New York, Aug. 31--The conditions
were unfavorable at Manhattan Beach to-
day. There was a strong wind at the
opening which damped the ardor of
would-be record breakers. No special
feature marked the day's meet. After
the eighth event on the card had been
finished, a heavy rainfall set in, and ne-

cessitated the postponement of further
racing. Summary:
Half mile, scratch, Class A--Bert. Rip-
ley, Belmar, N.J., won; Oscar Rod-
strom, Brooklyn, second; Joe Harrison,
Ashbury Park, third. Time, 1:15 4-5

One mile, scratch (prof.)--Con. Baker,
Columbus, O., won; P. J. Berio, Boston,
second; A. W. Porter, Waltham, Mass.,
third. Time, 2:35 1-5

One mile handicap, Class A--Adolph
Oakman, New York city, 115 yards, won;
Geo. A. Robertson, New York city, 110,
second; Walter C. Roome, Jersey City,
25, third. Time, 2:13 3-5

Five mile handicap, professional--J. P.
Starbuck, Philadelphia, scratch, won; P.
F. Berio, Boston, 285 yards, second; Fred.
Stronge, Boston, 250 yards, third. Time
--18 1-5

On account of rain, the final of one
mile scratch was postponed

A MEET AT BUFFALO.
Buffalo, N.Y., Aug. 31--No records were
broken at the races held by the Buffalo
Cycle Racing Association at the Driving
Park this afternoon, though Bald per-
formed the remarkable feat of making a
flying quarter in 25 seconds, unplaced,
which was announced to be the world's
record. He also rode a mile, badly paced,
in 2:04. Lee Richardson rode a half
mile backward in 1:15 3-5 against a
heavy wind, and Chas. H. Callahan rode
a half mile, unplaced, in 1:03. Summa-
ries:

One mile, novice--Geo. B. Bowen, un-
attached, won; J. Sinclair, P.W.C., sec-
ond; H. S. Peckham, P.C.C., third. Time
--2:35

Half mile, open--C. H. Werwick, Buf-
falo, won; H. P. Mosher, New York, sec-
ond; H. S. Peckham, P.C.C., third. Time
--1:00 1-5

One mile, novice--Geo. B. Bowen, 115
yards, won; J. P. Higgins, 135 yards,
Buffalo, second; C. F. Williams, 70 yards,
Erie, third; G. Perrand, 140 yards, Buf-
falo, fourth. Time, 2:12 4-5

One mile, novice--Otto Maya, Erie, won;
C. V. Horan, P.C.C., second; W. M.
Peckham, P.C.C., third. Time--2:37

Two mile handicap--Fred Sinclair, P.
W.C., 120 yards, won; E. E. Deniston,
P.C.C., 145 yards, second; W. R. Blake,
R.B.C., 150 yards, third; W. M. Peck-
ham, P.C.C., 180 yards, fourth. Time--
4:49 4-5

Five mile handicap--Otto Maya, Erie,
won; J. P. Higgins, P.C.C., second; C.
F. Horton, unattached, Buffalo, third;
W. R. Blake, R.B.C., fourth. Time--13:02

HARLEY DAVIDSON BREAKS A
RECORD.

Halifax, N.S., Sept. 1--Saturday after-
noon at the Wanderers' sports Harley
Davidson broke the world's record for
one mile on a four-lap unbanked track
and established the new record of 2:08 1-5.
For the first quarter he was paced
by a tandem, time 31 1-5 seconds. The
remaining quarters were paced by Jost,
Leland and Cameron. The previous re-
cord was 2:08 1-2, made by Butler a
week ago on the same track.

LACROSSE.

MONTREAL AND CRESCENTS DRAW.
The match between the Montreal Jun-
iors and Crescents-Gabriels for the N.A.
L.A. intermediate championship at the
Driving Park Saturday afternoon, was a
hard and well fought contest from start
to finish. The teams lined up at 4:30
p.m., and had to cease play owing to
darkness at 7:15 p.m. The players lined
up as follows:

Point, Fraser; cover point, Donnelly;
defence, Morrison, Taylor, Scott; centre,
McKerrow; home, Wyness, Baird, Has-
ley; outside home, Matthews; inside
home, Collins; captain, W. Andrews.

Crescent-Gabriels--Goal, Sullivan;
point, Cavanagh; cover point, Houston;
defence, Abbot, McEach, Pierce; centre,
Knox; home, Brown, Welsh, McLean;
outside home, Fairbairn; inside home,
Ryan; captain, A. Beckingham.

In the first game Knox got the draw
and threw well up on the Montreal goal.

Fraser relieved, and T. Matthews secur-
ing the rubber side field shot and scor-
ed. Time, 2 minutes.

In the second game Knox drew again
and sent the ball to the home. Fair-
bairn got it and scored in two minutes.
The third game was Crescent-Gabriels
throughout, with Locke Fraser doing
great work on the defence for Montreal
Juniors. After eight minutes' play near
Montreal's goal the ball was put down
on the Crescent-Gabriels flags and Mat-
thews scored.

The fourth game was again in Cres-
cent-Gabriels' favor and after 10 min-
utes' play McLean passed to Fairbairn,
who scored.

The fifth was the best game of the
match and the "maroons" scored after
sixteen minutes good play. Fairbairn
doing the scoring.

Morrison of the Montrealers received a
body check in the sixth and retired to
the dressing room. Twenty minutes
elapsed before he came out. Montreal
scored the game after ten minutes' play--
thus making the score three all. It
was then agreed on by all concerned to
stop playing owing to darkness. In
concordance with the N.A.L.A. rules
drawn matches are to be played over
on neutral grounds, if said matches in-
terfere with the standing of each team.

CORNWALLS DEFEAT MONTREALS.
Cornwall, Ont., Sept. 1--The Cornwall
Lacrosse team won another victory over
the Montrealers here yesterday after-
noon, after a match, which, from a spec-
tators' point of view, was very amusing.

The apparently large score of 5
goals to 2 in their favor, Cornwall had
no walk-over. The Montrealers were in
the game from start to finish, and while
their field and home played a good com-
edy, they could do nothing against
the stonewall defence of Cornwall. The
Cornwall home did not play as brilli-
antly as was expected, and the defence in
the first hour seemed somewhat care-
less.

River and McLennan were a host
of themselves, however. Lewis played
well, and McDowell, at centre, was a
star. Tobin in the first four games
also played well. On the home juniors,
O'Neill and J. Broderick showed
up as well as the senior men. Four hun-
dred people were present, when the teams
lined up as follows:

Montreal--A. Hamilton, goal; Murphy,
point; Pierce, cover point; Gilmour, Mc-
Callum, Whyte, defence field; Gamble,
centre; Field, Irvine, G. Hamilton, home
field; Dade, outside home; Robertson, in-
side home. D. Patterson, captain.

Cornwall--Murphy, goal; Riviere, point;
McLennan, cover point; Criles, Lewis,
Turner, defence field; McDowell, centre;
J. Tobin, Lacey, O'Neill, home field; J.
Broderick, outside home; W. Broderick,
inside home; H. McDowell, captain.

Umpires--W. Sheets, R. A. Clark.
Time keepers--J. E. MacPhe, G. S. Cop-
eland.

Referee--Charles Ault, Aultsville.

First game, Montreal, Irvine, 15 seconds;
second, Cornwall, J. Tobin, 10 min.;
third, Montreal, Field, 7 min.; fourth,
Cornwall, J. Tobin, 5 min.; fifth, Corn-
wall, Lacey, 2 min.; sixth, Corn-
wall, Lacey, 10 min.; seventh, Cornwall,
O'Neill, 2 min.

Montreal got the first game on a
fluke. Irvine shot, and Murphy pulled
the ball down, and it rolled back off his
stick and through the poles. The sec-
ond game was slow, and Corners were
easy. Both teams were making a great
many muffs. Tobin finally scored. The
third and fourth games were even up
for most of the time, but towards the
close of the latter game the superiority
of Cornwall's defence became apparent,
and the play centred in Montreal terri-
tory. The score was again even.

In the fifth game McCallum was sand-
wiched between Turner and Criles, but
pluckily continued playing. There were
several little scraps, and honors were
easy until J. Broderick scored for Corn-
wall. In the next game Montreal tried
hard to even the score, but fate and the
Cornwall defence were against them.

The seventh and last game also fell to
Cornwall. The Montreal players claimed
that the ball did not go through the
poles, and refused to play any longer.
Time was nearly up, so both teams
cheered each other and left the field.

SHAMROCKS WON EASILY.
Toronto, Aug. 31--The Toronto lacrosse
team as at present constituted, may con-
tain the material for a winning team, but
they were outclassed and outplayed at
every point in their game with the
Shamrocks at Rosedale to-day.

Eight hundred people saw the game,
and sent up a mighty cheer when the
Torontoers showed about their only burst
of brilliant play, and won the fifth game
in one minute. The match was com-
paratively free from rough play, although
Dwyer and Nelson were sent to the fence
in the 4th game. Archie Allan played
a good game in goal. The teams lined
up as follows:

Torontos--Archie Allan, goal; J. Mc-
Culloch, point; C. Wheeler, cover point;
F. S. A. Hartley, first defence; F. W.
White, second defence; C. A. Moss, third
defence; R. B. Hendry, centre; J. Kay,
third home; C. A. Keith, second home;
W. A. Burns, first home; E. A. Peaker,
outside home; R. Nelson, inside home.

Shamrocks--J. Slingson, goal; E. O'Brien,
point; T. Dwyer, cover point; T. Moore,
first defence; T. Murray, second defence;
P. O'Brien, third defence; R. Kelly, cen-
tre; A. Hinton, third home; D. Danahar,
second home; J. O'Meara, first home;
R. Wall, outside home; J. Tucker, inside
home.

The summary:
First game, Shamrocks, 5 minutes; sec-
ond game, Shamrocks, 3 minutes; third
game, Shamrocks, 14 minutes; fourth
game, Shamrocks, 20 minutes; fifth game,
Toronto, 1 minute; sixth game, Sham-
rocks, 9 minutes; seventh game, Sham-
rocks, 13 minutes; eighth game, Sham-
rocks, 8 minutes.

Referee, H. Brophy, Montreal. Um-
pires, J. Carlick and W. Ross.

THE CAPITALS AND SHAMROCKS
Both the Capitals and Shamrocks left
by yesterday afternoon's boat for Que-
bec, where they will play this afternoon.
The Capitals will be short Crown, Quinn,
J. Murphy and Patterson, whose places
will be filled by Griffith, Shan, Sparrow
and Gleason. Of the Shamrocks Wall
and Tucker will not play, McKenna and
Shanahan taking their places.

To See the Yacht Race.
A special excursion has been arranged
to enable Montrealers to witness the
Falkirk III--Defender yacht races. The
return fare will be \$12, good to go
September 5, 6 and 7; good to
return until September 16. Tick-
ets, parlor and sleeping car ac-
cording to the Central Vermont and De-
laware and Hudson Railways.

"Beware the pine tree's withered branch,
Beware the awful avalanche!"
was the peasant's warning to the aspiring
Alpine youth. Dangers greater than
these lurk in the pathway of the young
man or young woman of the present as
they journey up the rugged sidehill of
Time. But they may all be met and over-
come by a judicious and timely use of Dr.
Pierce's Golden Medical Discovery, the
celebrated cure for colds, coughs, catarrh
and consumption. Better than hypophos-
phites or cod liver oil; unrivalled and un-
approachable in all diseases arising from
a scrofulous or enfeebled condition of the
system. Send for a free book. Address

MONTREAL, SEPTEMBER 2.

CIVIC FINANCES.

A statement prepared by the City Treasurer and Comptroller in February last shows that on the 15th of January, 1895, the city had incurred obligations to the extent of \$2,653,374 in excess of all available means. In this estimate were included the expropriation of St. Antoine and St. Lambert Streets, the cost of which was put at \$1,600,000, but which will certainly exceed \$2,000,000. Moreover, there were no provisions made for the paving of St. Denis Street and West Notre Dame Street, another \$150,000, nor for the annual expropriations of 1895, which, as already shown in these columns, may require many millions. Putting it at the lowest figures, the schemes to which the city is already bound in a way, would require an expenditure of over five millions before the end of 1897, without including such works as the laying of water pipes, the sewers and the permanent sidewalks. To meet this the city has at present only the reserve of \$375,000 a year for 1896 and 1897.

It will, therefore, be seen if the schemes are to be carried out, that the city must secure a new borrowing power of five millions of dollars, or be placed in the position of a defaulter.

That is a clear situation. What will be the consequence of borrowing? It will add immediately at least \$200,000 to the annual interest charge, and the sum will have to be raised by taxation. Borrowing will not ward off additional taxation, but will render it more urgent. For the last four years a part of the cost of administration has been paid out of the loan fund. On the first of January last, the Finance Committee decided to charge the accumulated deficits, \$400,000, to the loan fund, and to begin the year with a clean sheet. This left \$2,253,374 available for appropriation, yet to-day the Health, Water and Roads Committees say they must have \$150,000 more to finish the year.

To economize seems to be impossible with the present aldermen. Over a year ago Ald. Lyall secured the appointment of a special committee to see if it was not possible to reduce the number of employees in the City Hall. The committee has never met.

New taxes are unavoidable, unless there is a revolution in the City Council. But, immediate steps should at least be taken to secure legislation to stop the expropriation of St. Lambert Street, St. Antoine Street, and the annual expropriations on the new scale. That would relieve the city of at least four millions of imminent liabilities.

THE WESTMOUNT GAS QUESTION.

It is understood that at its meeting to-night the Municipal Council of Westmount will further consider the installation of municipal gas works. Mr. Stephenson, who is said to be a gas engineer from Toronto, is to submit a report upon the question. It is said that the report will show that under present conditions gas can be furnished to residents of the municipality for \$1.40 per thousand feet. Actual experience would no doubt demonstrate that this estimate of Stephenson's was a too sanguine one, in view of the fact that not a town in Massachusetts, with a consumption so small as Westmount's, is getting gas for less than \$2.00 per thousand feet. But admitting that the figure is possible, it is 20 cents higher than the rate of the Montreal company, which now has its pipes laid and is supplying residents on all the principal streets in the municipality. Such residents can hardly be counted as customers of the municipal works at a higher price. But of course the argument to be used will be that as the municipality grows customers will increase, and the price will drop with the increased output. This is no doubt true, but it should not be forgotten that the same thing will be occurring in the bigger municipality of Montreal, and that to retain its customers in Montreal and the suburbs the Montreal company will be forced to supply gas at the lowest possible figure in competition with electric light and coal oil. It should not be forgotten that though the Montreal company has agreed for a period of ten years to furnish gas at a price not higher than \$1.20 for light and \$1.00 for fuel, it has not bound itself in any way not to sell its product for less than those figures. It can therefore be counted upon as a stout competitor with any new source of supply that may come into what is considered its territory. As regards its gas supply Westmount is in precisely the same position toward the city of Montreal that the suburbs of Boston are toward that city. While the Boston company is able to supply gas at a dollar to residents of Boston and to those of the suburbs wherever it can get in its pipes, not one of those suburbs can supply it profitably at that figure, and for some of them the price runs up as high as \$1.75. The trend of the times in gas supply, like most other things, is in the direction of large plants, and consequent large outputs. It would be well, therefore, for the Westmount Council to hesitate before committing itself finally to a scheme which, judged by the experience of similarly situated municipalities in other places, must prove financially disastrous. As the municipality finds it profitable to purchase its supply of water, so will it probably find it wise to do the same with its gas question.

WHEAT IN MANITOBA.

[From the Winnipeg Commercial, Aug. 29.]
Never in the history of the Manitoba grain trade have we seen the big Canadian millers' concerns bid fifteen cents above Duluth prices for crop. New wheat is offering, but there are no buyers. The high price at which old wheat is held locally, together with the declining tendency of the world's markets, is no doubt accounting for this. The big milling concerns have quite a lot of old wheat and they are not hungry for the new crop, while the great weakness in foreign markets seems to have paralyzed exporters for the moment.

[Translation.]
Never in the history of the Manitoba grain trade have we seen the big Canadian millers' concerns bid fifteen cents above Duluth prices for crop. New wheat is offering, but there are no buyers. The high price at which old wheat is held locally, together with the declining tendency of the world's markets, is no doubt accounting for this. The big milling concerns have quite a lot of old wheat and they are not hungry for the new crop, while the great weakness in foreign markets seems to have paralyzed exporters for the moment.

The Winnipeg Commercial also informs us that "these big milling concerns are taking in the wheat on storage" "without a price being named," because there are no buyers in the face of a declining market. Minnesota and Dakota farmers have no difficulty in obtaining the price of the day for their wheat. It is most gratifying to note the advantageous position of the Canadian miller; he can keep the wheat until it suits him to buy. Let these protected millers stand up like men and back their position; let them pay the fifteen cents to the U. S. prices or shut up their talk. It is true that consumers pay more for their flour, but it is not to the gain of the treasury or the Canadian farmer—vide the price of Canadian and United States wheat to-day. JAS. B. CAMPBELL, Chicago, Aug. 30, 1895.

TO CURE DEBILITY,</

G.T.R. CHANGES.

SUGGESTED BY THE TORONTO BOARD OF TRADE.

Sir Charles Rivers-Wilson Shows That Most of Them are Impossible.

Toronto, Aug. 31.—Sir Charles Rivers-Wilson, president of the Grand Trunk Railway Co., who is now on a tour of inspection of the road, was tendered a reception by the Board of Trade today. Mr. Stapleton Caldwell, one of the members, made the following suggestions:

That a local board should be appointed in Canada which could decide important questions without reference to the London Board.

That there should be a reduction of rates of passenger travel; the rates should not exceed two cents per mile.

That there should be improved service between Buffalo and New York and Toronto. There should also be a better service to Muskoka and a better station at the end of the route, and a great tourist trade could be developed.

That there should be improved rolling stock on the branch lines, and the incompetent cars should be removed.

That a line should be constructed between North Bay and Temiscamingue.

In replying, Sir Charles thought that Mr. Caldwell was a little too severe, and said that as the bulk of the securities of the road are held in London, the direction of the road must to a great extent emanate from there. If the Canadian public want to manage the railway, they should exhibit their confidence in the undertaking by taking a larger financial interest in it. The reforms suggested by Mr. Caldwell were such that he, as president, could not personally carry out. They rested with the proprietors of the road. He, however, would be glad to receive any charges that could be made in writing, and they would receive the attention of the board of directors. While acting for the shareholders of the Grand Trunk, the grievances of the customers of the road would also be considered.

Respecting the reduction of fares, Sir Charles did not think the present a good time for such a reform, in view of the state of the company's finances. They were, perhaps, higher than they might be, but it could not well be helped till there was an adjustment with their competitors, not in this country, but on the other side.

Sir Charles was surprised to hear the charge that the rolling stock was not in good condition. He and his friend, Mr. Price, had been well pleased with the state of the road.

STEAMSHIP WRECKED.

Struck on the Australian Coast—Many Lives Lost.

San Francisco, Aug. 31.—Australian advices brought by the steamship Monowai are to the effect that on the 8th instant the steamer Cathlamet struck on the Seal Rocks, off Sydney, at 2.30 in the morning, and sank in 15 minutes. The boats, which landed at Foster, contained 16 of the crew, three Chinese and four white men, among whom was Captain Frazier, the pilot. The other boats containing the captain of the steamer and other officers are missing. The steamer had 31 on board all told. Accounts are conflicting as to the number saved, which were variously stated as 22 or 25, but the latter is certainly the limit. There was £10,800 in specie on board, £5,000 was shipped to Adelaide and the remainder belonged to the Chinese passengers.

The Kroese laden ship Hiloria was burned and sunk at Port Melbourne on the 9th of July, and the investigation of the coroner's jury resulted in finding that the ship was wilfully fired, and the second mate and a watchman were charged with the crime.

Prospects of a Warm Winter.

Any person whose occupation keeps him or her out of doors much in fall or winter weather will be interested in learning that a layer of Fibre Chamotte through the sleeves and body of a coat will more than double its warmth. This new interlining takes the place of hair cloth or canvas, furnishing the necessary stiffness. At the same time it proves a wind-proof protection from the most penetrating blasts, while its porous qualities make it far more sanitary than anything else capable of imparting the same warmth. And in addition to all this it is so light that no extra bulk or burden is felt where it is used.

Italy Wants a Shooting Contest.

Washington, Aug. 31.—Baron Pava, Italian Ambassador, informs the Department of State that a prize shooting contest, in which the Italians desire American marksmen to participate, will take place at Rome on September 20, in connection with the festivities commemorating the union of that city with the Kingdom of Italy.

Polynice Oil—Rheumatism, inflammation of the lungs, dyspepsia, etc., etc.—1624 Notre Dame Street, Montreal.

Cholera in Honolulu.

Washington, D.C., Aug. 31.—Consul-General Mills at Honolulu, in an official despatch to the State Department, says that cholera prevails at Honolulu, but is confined to the natives and the Chinese and that there have been about eight deaths. He adds: "There is no alarm and every precaution is being taken."

A cold in the throat is cured by using Adams' Horehound Tutti Frutti. Refuse imitations.

International Statistical Institute. Berne, (Aug. 31.—The International Statistical Institute today elected Gen. F. A. Walker, of Boston, Mass., an additional third vice-president. The institute will meet again in St. Petersburg in 1897.

Just out. The Indicator for September. Send or call for copy. Stephens & Warnecke, 1778 Notre Dame St.

France and Canadian Cattle. Paris, Aug. 31.—The Republique Francaise today in view of the exclusion from England of Canadian store cattle, urges the French Government to take steps to "prevent France from becoming the refuge for cattle not admitted elsewhere."

Rolled Beets
Onions
Crab Salad
Sweet Biscuit
Blackberries
Baked Dumplings
Toasted Biscuit
Cheese
Coffee

RECIPES.

Grenadines of Beef—Have a rump steak, cut one inch thick, weighing about two pounds. With a sharp knife cut the tender portion into pieces the shape of a French chop. Lard thickly on one side. Put two or three slices of fat pork into a frying pan (the tender part of larding pork will answer nicely for this), and fry out all the fat; then put in the chops, brown quickly on one side, turn and brown on the other. Place them on a heated dish, sprinkle with salt and pepper. Add a tablespoonful of flour to the fat remaining in the pan, stir until a nice brown, then add half a pint of stock or water, stir constantly until it boils; add a half teaspoonful of salt, a teaspoonful of Worcestershire sauce, and pour around the grenadines and serve.

Indian Loaf Cake—Take one pound of Indian meal and cut into it one-quarter pound of butter and pour over it sufficient boiling milk to make a stiff batter. Beat two eggs until they are very light. When the batter is cool add the eggs and sugar. Seed one-fourth pound of raisins; wash and pick one-fourth pound of currants and dry them; mix the fruit and flour them well; stir them into the batter and bake in a very slow oven two hours.

Turkish Soup—One quart of stock, half teaspoon of rice, yolks of two eggs/salt and pepper to taste, and one tablespoonful of cream. Boil together for twenty minutes the rice and stock; then press them thoroughly through a sieve and return them to the kettle. Beat yolks well and add to the cream. Add this to the stock and rice and stir over the fire for two minutes, but do not allow it to boil. Add salt and pepper, and it is ready to serve.

Boiled Fillet of Beef—Cut a fillet of beef into slices about an inch thick; moisten them with melted butter or olive oil and let stand for half an hour; then place them on a broiler and broil over a quick fire five minutes, turning them two or three times. Place them on a hot plate, season with salt and pepper, pour tomato sauce around and serve.

Crab Salad—Take one dozen crabs and boil them, as for deviled crabs. When cold pick out the meat and put away until wanted. Wash and dry a head of lettuce carefully, and make mayonnaise dressing. When ready to serve, mix the crab meat and mayonnaise together. Garnish the dish with the white leaves of the lettuce, place the crabs in the centre and serve.

Onion Juice for Meat Dishes—Take the outside skin from a large onion and then trim off the bottom. Press the onion firmly against a large grater and quickly draw it up and down, allowing the juice to drop from one corner of the grater.

Raise the Children

to lift a woman's intelligence to the necessity of owning your own home. She knows that paying rent is money lost. We are prepared to build you a HOME on the following conditions:

Lot 53 x 106..... \$200.00
Six Room House..... \$600.00

Payments, interest included, \$12.35, during eight years. This is a model Swiss cottage, stone foundations, 32 feet front. Extension kitchen. Come and choose your plan.

PARENT BROS., 97 St. James Street.

A Grocer's Waggon

May cost more horseflesh than it is worth. What constitutes a load? Weight,—draught,—labor. Many grocers load their horses with mere waggon. Some grocers' waggons weigh 1,000 pounds, while one of our 500-pound Latimer Waggons would draw just as much groceries. This means that a Latimer Express Waggon and 500 pounds of groceries would be just as easy to draw as an empty express waggon of the usual sort. Our Waggons have the best kind of material in them—strength—not weight. A chain is just as strong as its weakest link, and the Latimer Waggons are like the Deacon's "One Hoss Shay"—each part is just as strong as the other—well balanced, you know. Season's partially over; but you'll need a spick and span delivery when your customers return from the country. You can save money on it now. Our 500-pound \$80 waggon, capable of drawing a 1,500-pound load, we'll sell for \$60. The \$100 kind for \$80, and our \$125 waggon for \$100. Give your horse a chance, —he needs it.

R. J. LATIMER, 592 ST. PAUL STREET.

The Shoe That Cripples

The shoe that deforms is the shoe that hurts. Bandage your head unevenly as you do your feet, and soon you wouldn't know the difference between the shoe that cripples and

THE SLATER SHOE.

Ah! there's the shoe for your money. \$3 per pair for the best shaped men's footwear in Canada. Made with the Goodyear Welt, of finest imported calfskin. Black or tan—six shapes—all sizes—any width.

Five Dollars' Worth of Comfort—Free! With every pair of THE SLATER SHOES.

A full line of these popular Shoes, in Black and Tan.

NEW YORK GOSSIP

J. S. Bache & Co., New York, send by direct private wire to their Montreal manager, C. D. Monk, the following:

Nothing much to say, except dealers insist that market will be more active and higher next week.

White is a big bull on Sugar, and insiders are still buying Chicago Gas. If D.C.P. rallies, sell a little just for a turn, Grangers will recede temporarily. The Attorney-General has not taken any action in the suit against American Tobacco Company, and the statement that the hearing in the action brought by Whalen was set down for Tuesday, September 3, was premature. St. Paul special: There is much anxiety here in regard to smut. Elevator men say such grain is no good. They don't want to handle it. Corn is pretty safe now. Such weather as the present for a few days may well insure it being all right.

Excellent buying, K.T. pref. We are promised a ten point advance in this.

Admission system for July, net increase \$17,501.

DULUTH EARNINGS.

Following are the latest reported:

Third week August, 1895 \$26,394
Third week August, 1894 \$40,525

Decrease \$14,131

January 1 to date, 1895 \$1,387,822

January 1 to date, 1894 \$1,054,549

Increase \$332,273

WABASH ANNUAL REPORT.

Following is the Wabash annual report for the fiscal year ending June 30.

Income: \$1,100,330 Dec. 31, 1894; \$1,100,330 Dec. 31, 1893.

Expenses: \$821,639 Dec. 31, 1894; \$821,639 Dec. 31, 1893.

Net income: \$278,691 Dec. 31, 1894; \$278,691 Dec. 31, 1893.

Other income: 130,335 439,400 Dec. 31, 1894; 130,335 439,400 Dec. 31, 1893.

Total income: \$3,100,330 \$3,100,330 Dec. 31, 1894; \$3,100,330 \$3,100,330 Dec. 31, 1893.

Charges: \$2,121,111 \$2,121,111 Dec. 31, 1894; \$2,121,111 \$2,121,111 Dec. 31, 1893.

Deficit: \$819,207 \$819,207 Dec. 31, 1894; \$819,207 \$819,207 Dec. 31, 1893.

According to a Wall Street Journal President Ashley says that a large part of the deficit is attributable to the strike of employees in Italy. He estimates that the company lost \$300,000 to \$400,000 by the strike.

The company has a floating debt of \$800,000, but during August has realized from its assets the sum of \$450,000 in cash, reducing liabilities to \$350,000.

It is understood, although not stated definitely, that this refers to the sale of the company's interest in the Humston and Shenandoah Valley road to Burlington road. It is expected that by a further sale of available assets the entire floating debt will be altogether removed or reduced to a very insignificant amount.

The physical condition of the property continues good, although some important betterments have been temporarily suspended.

THE DAY IN WALL STREET.

New York, Aug. 31.—The Evening Post's financial article to-day says:

"To-day's bank statement reflects clearly enough the existing situation. Outstanding loans decreased this week, though slightly, for the first time since July 27. In the four weeks following that date the loan accounts expanded \$7,355,500. The present decrease marks no doubt a moderate liquidation in the local market for securities. It does not mean business distress anywhere. The returns of this week's clearing house exchanges at the country's active commercial centres continue to show remarkably sustained activity. Bank holdings of legal tenders increased heavily, and this is due to somewhat unusual causes. Receipts of currency from the interior are hardly balancing westward shipments now; last week the shipments were materially in excess. Moreover, the banks have been paying legal tenders into the treasury against the gold withdrawal for export. But the syndicate has released this week a round lot of currency hitherto 'locked up' from the bank subscriptions, and this is once more in the open market. No doubt this distribution was in a way facilitated by the syndicate's reimbursements to the treasury for the \$10,625,000 paid in to keep up the reserve, including this week \$2,900,000, was, of course, exchanged for legal tenders."

NEW YORK STOCKS.

THE TREASURY'S LEGAL RESERVE WILL NOT BE DROPPED BY TO-DAY'S SHIPMENTS OF 2,400,000 DOLLARS, BECAUSE THE BOND SYNDICATE MADE A DEPOSIT OF 1,000,000 DOLLARS. SO LONG AS THE PUBLIC BELIEVES THAT POWERFUL BANKERS STAND READY TO HELP THE GOVERNMENT IN KEEPING ITS GOLD RESERVE AT THE LEGAL LIMIT THE EFFECTS ON PUBLIC SENTIMENT OF SHIPMENTS TO EUROPE ARE LIKELY TO BE AS TRIFLING AS THEY HAVE BEEN UP TO THE PRESENT TIME. THE GOLD SITUATION IS AN ELEMENT IN THE WALL STREET WHICH IS NOT IGNORED BY THE SUBSTANTIAL INTERESTS OF WALL STREET, HOWEVER RIGHTLY IT MAY BE REGARDED BY THE BULL POWERS, ACTIVELY AT WORK IN STOCK MARKET.

Now that August is closing, fresh hopes are building upon favorable developments in the exchanges in September, which may eliminate the feature from consideration; some, possibly, over prudent, people of Wall Street regret the advance in prices this week, as likely to further repel foreign buying, and to restrict home purchases to a highly speculative class. There is no doubt, however, that the cliques and managers of specialties seem to control values, and so long as holders of stocks refuse to sell, the fabric of speculation seems likely to be maintained, even the reduction in export estimates of the output of corn this year will leave a crop of great magnitude. The group of leading industrial stocks is in such a turmoil that conservative houses have almost ceased to attempt the giving of advice as to their probable immediate fluctuations.

BRAZILIAN EXCHANGE.

New York, Aug. 31.—The quotation to-day for Brazilian exchange was 11d.

MONEY AND EXCHANGE.

MAD PROTECTION.

WILLIAM L. WILSON SAYS ITS DAYS ARE OVER.

HE BIDS A LAST FAREWELL TO MCKINLEYISM.

The Operations of the Reform Tariff Reviewed—Revenue Decreased.

New York, Aug. 31.—The World prints the following letter from the father of the Wilson Tariff Bill:

"The World kindly invites me to supplement the telling exhibit which it makes in yesterday's issue of the first year's operation of the new Tariff Bill, with some suggestions as to its probable future working, especially as to revenue.

"If the opening vista of higher wages, cheapened necessities of life, larger consumption at home and expanding markets abroad under lower duties had but a single year's experience to rest upon, I should be very cautious in prophesying as to the future.

"But when it is remembered that like results followed the law of 1846 in this country and crowded on the heels of tariff reduction in England, it is not claiming too much to say that a few months' experience has already justified the arguments and predictions of the tariff reformers and laid it to rest. The tariff, the spectre of ruin and impoverishment with which the protectionists so long frightened the American people.

"The country is beginning to see to-day that there is no way to protect American industry, except by relieving it from burdens upon the materials with which it works; no way to insure good wages and steady employment to home labor, except by freeing it from the shackles which have confined it to a glutted home market, and prevented it from seeking its customers all over the world.

"IT IS FIRST OF ALL GRATIFYING, therefore, to see the progress already made by our manufacturers in reaching out for the world's markets.

"With temporarily diminished exports, chiefly in food products—in no way due to any tariff legislation—behind in a single year an increasing volume of manufactured products sent abroad. This already appears in our exports of agricultural machinery, building hardware, locomotive engines and iron and steel goods generally; also in leather and manufactures of leather, pianos and organs, paper manufactures and many other items of the treasury statement issued at the close of the fiscal year.

"In all of these industries the wages of labor have been increased. As the daily-pay of the American artisan was already much greater than that of any competing laborer in any other country, this growing foreign market for our manufactures is especially significant.

"There is no doubt that the iron and steel industry of the world is soon to find its chief centre in the United States. We are constantly strengthened in the belief that our supply of ores of all kinds is more exhaustless, more cheaply mined, more cheaply transported and more cheaply wrought into finished products than the supply of any other nation, and this must eventually carry with it the manufacturing supremacy of the world. This means untold benefit to all our industries.

"Years ago it was truly said by a Republican Secretary of the Treasury that if all our manufacturing plants ran six months at their full capacity they would glut our home market. For the next half of the year there would necessarily be slackened work or even idleness, with slackened employment and uncertain wages for labor.

"The conquest of foreign markets now implies the ability to hold our own market against all competing from without. It means a broader and more stable basis for manufacturers, which, in turn, carries with it more work and more wages for the operative and more home consumers for the farmer, who is also relieved from the burden of maintaining industries to buy from him.

"In a word the more self-supporting industries we have the greater and more diffused is our general prosperity; the more non-self-supporting industries we have—fed and maintained by taxation—the smaller and more lop-sided becomes that prosperity.

"The House Tariff Bill aimed to increase largely the number of industries that could stand without bounties. Its foundation was a large free list of raw materials.

"Fortunately the most important of these remain in the tariff bill as finally enacted, such as copper ores, salt, flax, hemp and wool, to which in a more advanced stage may be added sulphuric acid, the basis of so many industries, cotton ties, sawed lumber, binding twine, etc.

THE QUESTION OF REVENUE.

"As to revenue the operation of the new tariff bill ought to be satisfactory to its promoters. The customs revenue under the McKinley Bill fell from \$229,000,000 in 1890 to \$131,000,000 in 1894. True, the last year was one of widespread depression and great allowance must be made for that fact in any comparison. The new bill began under the shadow of that depression.

"Only of recent months has there been a feeling of financial security in the country at large, but the close of the fiscal year saw an improvement of more than \$20,000,000 in our customs receipts and the revenues for July and August promise a still larger increase for the present year.

"Indeed the temporary insufficiency of revenue for present current expenditures is to be found in the receipts from internal revenue and not in those from the tariff, and yet the law of August last, while removing and greatly reducing tariff taxes, increased internal revenue taxes.

"The shrinkage in internal revenue receipts, notwithstanding the addition of 20 cents a gallon on whiskey, is believed by the treasury officials to be a thing of the past, and they confidently predict the rapid and permanent recovery of this item of our national income. As soon as that occurs there will be no trouble about treasury receipts, and if for a while they enforce rigid economy in public expenditures, so much the better for the taxpayers and for the government.

"In conclusion I will say that tariff reform, although wounded in the house of its alleged friends, is triumphantly justified by its results.

"Those results are lightened taxes, cheaper necessities of life, quickened employment and increased wages for labor, widening markets and the promise of adequate revenue.

"The country has bid a last farewell to McKinleyism. The day of 'mad' protection is over."

WILLIAM L. WILSON.
Washington, D.C., Aug. 28, 1895.

THE GERMAN VICTORS.

Sedan Day to be Celebrated More Enthusiastically Than Ever.

Berlin, Aug. 31.—Sedan Day will be celebrated in a more general and enthusiastic manner than ever since 1871. No business will be done after noon on Monday. The Germans and Halls people will pay their 5,000 workmen double wages on that day, and will let them enjoy themselves. Many other firms will do likewise. The Government employees will get their holiday with full pay, and all the schools will be closed.

The celebrations will commence with a very impressive ceremony, the dedication of the Emperor William's Memorial Church. A platform capable of seating 5,000 people will be erected for the accommodation of the favored guests. The Emperor and Empress will arrive at the spot at 10 o'clock in a six-horse carriage, escorted by a detachment of cuirassiers of the Guard, and will be handed the golden key of the church by a deputation when their Majesties reach the inside of the building. Hymns will be sung and a patriotic sermon will be preached, and when the Emperor and Empress leave the band will play "Die Wacht am Rhein." A cordon of troops and veterans, including the German-American veterans, who are now visiting Berlin, will surround the church and will be reviewed by the Emperor.

MONTREAL EXHIBITION.

There will be an entirely new departure at the coming Exposition, which opens on Thursday week. There will be two large stages for the exhibition of the front of the grand stand, which will be sixty by forty feet in size, and besides this there will be a large ring for the equestrian acts and bicycle races. The attractions in every way this year will be superior to anything ever seen on the Exhibition Grounds. Commencing Friday, the 13th inst., the park side will be illuminated in a manner altogether new, and the same time Canadian in design. The contract for illuminating and the fireworks displays was given to a Montreal firm, Messrs. Kottville & Co., who made such a success of the fête de nuit at Beauharnois recently. On Friday the marines and Jack Tars of the war vessels will be the guests of the Exposition Company, and regarding this Major Macaulay, as commanding officer of the 4th Brigade, has given orders for the regiment to turn out in full dress to escort the naval visitors to the grounds. The regiment will be headed by its fine band of thirty musicians. On arrival at the grounds the sailors will be escorted in front of the grand stand, where they will be received by the president and directors of the Exposition Company, and then, if permission is given, the sailors will likely give a display of naval tactics, after which the regular performance of the attractions will be proceeded with.

On Saturday, the 14th, the directors expect a very large crowd, as this is the combined bicycle and children's day. In fact this year bicycling and bicycles will be prominent at Montreal's Fair. The races will commence at half-past three sharp with a half-mile in heats class A, for which two prizes are to be given. The other races will be as follows:

One mile, open class A, two prizes.
Two mile, 5.49 class, three prizes.
One mile, open class B, two prizes.
Half a mile, in heats, 1.35 class, two prizes.

There will be no entrance fee charged the wheelmen either at the gate or for the races, and the entries will be received by Mr. David Watson at the M.A.A. building up to the 11th of the month.

Select Knights in Picnic.

There were 500 or 600 excursionists at the annual picnic and games of the 4th Regiment on the 10th inst. The rain interfered for a while, but otherwise the picnic was an entire success. The Committee of Arrangements, Messrs. J. R. Baile, chairman, F. McLean, R. Lynch, A. Little, J. Bloomfield, and E. McMahon, starters. The judges were Messrs. William Renshaw, deputy district supreme, and J. C. H. Brooks and P. O'Riley. The following are the winners of the several events:

Young men's race, 220 yards, open—J. Brown; 2, J. Smith.
Boys' race, 12 years and under, 50 yards—H. McCallum; 2, L. Bain; 3, D. Howard.
Girls' race, 15 years and under, 50 yards—L. E. McKee; 2, B. Brady; 3, McGowan.

Boys' race, 8 years and under, 50 yards—H. Nantis; 2, A. Morrison; 3, R. Heron; 4, G. Lynch; 5, H. Powell.

Young ladies' race, 50 yards—L. M. McGowan; 2, B. Brady; 3, M. Lynch; 4, A. McKee; 5, M. Lognon.
Married ladies' race, members wives, 50 yards—Mrs. Brady; 2, Mrs. Lynch.

Married men's race, members, over 45 years, 100 yards, hand race—J. C. H. Bain; 2, William Renshaw; 3, H. McGuire.

Fat men's race, members, 100 lbs. and over, 100 yards—J. W. Cox; 2, H. McGuire; 3, J. Bloomfield.

Married ladies' race, 100 yards, open—Mrs. Brady; 2, Mrs. Lowe (both were a tie); 3, Mrs. Penny.

Boys' race, under 15 years, 50 yards—L. E. McKee; 2, B. Brady; 3, McGowan.
Committee race, 100 yards—R. Lynch; 2, J. R. Bain; 3, William Renshaw; 4, H. McGuire.

Shooting at Cote St. Luc.

Saturday was a very bad day at the ranges. As usual on practice days, enough rain targets were provided. The rain was also a very great drawback to decent shooting. No. 3 Company Montreal Garrison Artillery held their annual company match with the following results:

MARTINI RIFLES.
1. Capt. W. N. King..... 200 400 500 75
2. Bomb. R. O'Brien..... 20 23 23 75
3. Bomb. A. Noble..... 10 23 23 75
4. Sergt. L. A. Winter..... 13 27 31 71
5. Lieut. Cole..... 17 21 26 64

SMITH RIFLES.
1. Sergt. C. E. Ward..... 21 32 32 61
2. Corp. J. Moore..... 14 22 22 58
3. Corp. R. Powney..... 12 20 20 52
4. Corp. J. Turner..... 13 20 20 52
5. Corp. Robb..... 19 12 20 51
6. Corp. Johnson..... 16 16 17 47
7. Corp. Riley..... 14 20 11 45
8. Sergt. Kernode..... 15 15 13 43
9. Corp. Haire..... 14 12 12 38
10. Corp. Mann..... 14 12 12 38
11. Gr. Boas..... 9 9 11 20
12. Gr. E. Oudry..... 8 8 6 20
13. Gr. Meyer..... 8 8 6 20

A E Company, of the Royal Scots, and a few Vics, did their class firing.

Princess Mackay's Column.

Naples, Sept. 1.—The court which has been hearing the controversy between Prince Colonna and his wife, who is the daughter of Mrs. John W. Mackay, as ordered that the sons be given to the Princess, and that, if necessary, force be used. The Princess received the boys yesterday.

The Only Cigar Store on the Square.

Just received a case of Thomas Gutierrez' "Amazons" cigars, 10 cents straight, or \$3.00 per hundred; also a fine line of tobaccos, including Ross' famous cut plug, and his own importation of "El Progresso," "Liliputanos," the smallest and sweetest of all five-cent smokes. Ross, 20 Chaboulez Square.

The Late R. W. Shepherd.

The funeral of the late R. W. Shepherd, 87, took place Saturday afternoon, and was attended by a large number of sorrowing citizens. The cortege proceeded to St. George's Church, where services were performed by Lord Bishop Bonar, assisted by the Very Rev. Dean Carmichael. The remains were interred in Mount Royal Cemetery.

SHERBROOKE FAIR.

It Promises to be the Most Successful Exhibition Yet Held.

(Special to the Herald.)
Sherbrooke, Sept. 1.—The eleventh annual fair of the Eastern Townships Agricultural Association, which opens to-morrow, promises to be the most successful exhibition ever held here. The grounds have been improved, and are supplied with additional conveniences for the comfort of visitors and exhibitors.

One of the principal improvements is a subway, which has been built from the outside of the race track, and which leads to the centre of the field which the track encircles. This has been built with the object of keeping visitors off the track while the races and performances are going on. New judges and band stands have also been erected in this section of the grounds. Additional stalls have been erected for the accommodation of racing stock, and all the horse stalls have been renovated and improved. The industrial class of exhibits is larger than in preceding years, and a number of entries in this class have been refused for want of accommodation. The exhibits are nearly all in readiness for sight-seers. The number of entries in exhibits of live stock are about on a par with those of last year, so that an excellent display in these classes may be expected. Racing stock is exceedingly well represented this year owing largely to the increased value of the prizes offered for this class. The poultry exhibits will be very good, as well as those of fruit, flowers and vegetables. The programme of attractions includes a variety of races, including harness races, specialty performances and trotting and running races. To-morrow being Labor Day, one of the best programmes of the week is offered, and it is believed that the attendance will far exceed that of any previous opening day.

PERSONALS.

Mr. J. T. Stephen, of London, was at the Balmoral yesterday.

Mr. B. B. Hughes, of Toronto, was at the Hall yesterday.

Mr. J. E. Walsh, Ottawa, was at the Queen's yesterday.

Mr. G. R. Parkin, principal of Upper Canada College School, Toronto, accompanied by wife and family, arrived at the Windsor Saturday.

The friends of Mr. F. Stevens, corner Dorchester and St. Philip's Street, will be pleased to hear that he is recovering from the effects of a severe illness.

Mr. F. W. Thompson, general manager of W. W. Ogilvie's mills at Winnipeg, accompanied by Mrs. Thompson, spent the past week in this city and returned to their home Saturday.

Mr. George Washington Stephens, Jr., returned yesterday from a combined business and pleasure trip through the Eastern States.

Messrs. A. B. Rathbone and A. N. Cheney, fish merchants, of the State of New York, both of New York; J. B. MacLean and Dr. W. H. Drummond, of this city, will comprise a fishing party who leave to-day for St. Maurice River.

The cuisine of the Jacques Cartier Hotel, Jacques Cartier Square, is bringing scores of merchants to dinner there daily. You should be amongst them.

Hotel Victoria, Quebec. The most centrally situated hotel in the city. Fine large sample rooms. First-class in every respect.

Sherbrooke House, Sherbrooke, P.Q., the best hotel between Portland and Montreal. Everything new.

BRITISH.

A fire occurred Saturday afternoon in the 2d Co., of Messrs. J. B. MacLean and Dr. W. H. Drummond, of this city, will comprise a fishing party who leave to-day for St. Maurice River.

Just out. The Indicator for September. Send or call for copy. Stephens & Warnecke, 1778 Notre Dame St.

SPORTING BRIEFS.

In Chicago on Saturday 1st Crum, the sprinter, did a 100 yards in 10 sec. flat, and the 220 in 21.45 sec., equalling the English record.

George D. Gideon, chairman of the National Racing Board, has ordered the suspension of Cabanne, Titus and Murphy, the jockeys.

The Granite baseball team defeated the Nationals at St. Hyacinthe on Saturday by 3 to 2.

We are now showing the latest in Fancy Suits, Vestings and Fall Overcoatings. Kelly Bros 1691-1697 Notre Dame.

The Alleged Multi-Murderer.
Philadelphia, Pa., Sept. 1.—From recent developments in the Holmes-Pietzel case it is probable that the alleged multi-murderer will be tried here for the murder of Benjamin Pietzel. The body of the latter is buried in Mechanics' Cemetery in this city. Yesterday Dr. Sidebohm, of the coroner's office, with four assistants, went to the cemetery and exhumed the dead man's skull for the purpose of identifying the teeth.

Don't forget to go to the Jacques Cartier County Fair at Bel-Air Grounds, Dorval, Sept. 10th.

Buffalo Theatre Burned.
Buffalo, N.Y., Sept. 1.—The Academy of Music, the oldest playhouse in America, was burned down at 2 a.m. this morning. The loss is estimated at \$75,000 for the building.

We have just received the latest style materials in Fine Vicunas, Cheviots, Serges and Fancy Suits. Kelly Bros. 1691-1697 Notre Dame.

"So there will be nothing to conceal after we are married, I may as well tell you that I smoke cigarettes, play poker, drink, and am rarely home before 1 o'clock in the morning. I am afraid we wouldn't be perfect companions."—Life.

Don't forget to go to the Jacques Cartier County Fair at Bel-Air Grounds, Dorval, Sept. 10th.

"I don't believe there ever was such a thing as a suicide club," she said. "I don't know," replied the lady from Philadelphia. "I know the papers really say that it has gotten to be a bad for parties to charter trolley cars and ride in them by the hour."—Washington Star.

We are making the best Dress Suits, silk or satin lined, for \$35.00. Kelly Bros. 1691-1697 Notre Dame.

The Western Union telegraph company makes about \$500,000 annually turning "exact time" from its naval observatory office in Washington.
